Crop Reports.
CHICAGO, June 12.—The Farmers Review reports the condition of winter wheat for the week an average or above in all the winter wheat states except Wisconsin, where only two counties report an average. Corn is doing well and promises an average crop in all the winter wheat states except Kentucky and Michigan, where it is not doing so well as in the states to the north. Oats are in bad shape in Ohio, Indiana, Illinois and Kentucky. In the other wheat states they are reported good to average. Spring wheat is reported as average in all states except Kansas, where it is fair.

Fruit in northern sections of Wisconsin, Illinois, Indiana, Ohio and Michigan has been damaged by frost. In other sections it is in fair to fine condition.

Disastrous Floods.
St. Louis, Mo., June 12.—A dispatch from Galveston, Texas, says the rise in Red river is unprecedented, exceeding by far the great flood of 1867. At Warren and Civilia Bends twenty miles up the river the destruction is wide spread. In these two bends there were 10,000 acres of corn, cotton and small grain cultivated by some fifty families. All these crops are destroyed, all the houses are swept away and large numbers of cattle, hogs and chickens drowned. A woman representing herself as the widow of "Clark" Harrison, said to be a brother of the president, appeared at the Chicago pension office inquiring for the \$8,000 back pension paid within the past week to the widow of Capt. THE ABANDONMENT OF FORT MARCY.

Hon. Amado Chavez Appointed Custodian—Historic Ground and its Future—An Arsenal Possible.

Advices from Washington state that Hon. Amado Chavez has been appointed by the quartermaster general of the army to be custodian of the Fort Marcy military reservation at Santa Fe, relieving Sergeant Robinson, who goes to take charge of the Fort Union reservation. This is taken to mean that the government has finally decided to abandon this property as a military post, and the chances are that it will soon be transferred to the department of the interior and sold.

The property consists of sixteen and a half acres, right in the heart of the city, and which is particularly valuable for business purposes. While this disposition of it will be eminently satisfactory to the people of Santa Fe, the wish is generally expressed that the government will not delay in carrying it out. At present the unsightly buildings stand as an eyesore and a barrier to improvement. Already it is understood that several outside syndicates have their eyes on it with a view to its purchase and improvement, and New Mexicans most earnestly urge that it be sold without undue delay.

As it stands it is useless both to the government and to the city; in justice the authorities that be could well afford to donate it to the city of Santa Fe and permit it to be sold for the benefit of this historic town, the proceeds to go to modern improvements, or at least one-third of it might very properly be donated as a public park, for every foot of it is historic ground, but congress is usually so wretchedly slow to do these clever and just things by New Mexico that the people have scarcely the nerve to even suggest it. However, when the city government shall have been fully organized, perhaps some effort of this sort may be undertaken.

It is hinted that, possibly, the government has in view the utilization of this ground for the establishment of an arsenal, but even for that it is not at all adapted, and should such be the case other and more desirable land would be readily donated by citizens, especially if the government sees fit to donate this historic spot to the city of Santa Fe.

THE COUNTY BOARD.

New Commissioner Districts Established—Returns of Tax Payers Somewhat Increased.

Proceeding with its duties as a board of equalization, the county board of commissioners raised the assessment of the Fischer Brewing Co. from \$12,000 to \$14,500. The return of Lorenzo Martinez was raised from \$1,519.25 to \$2,064.25; Jose M. Martinez y Sandoval, raised from \$400 to \$600; X. A. Muller, from \$380 to \$500; Levi Spiegelberg, from \$12,500 to \$14,000; Matias Dominguez, from \$300 to \$385; Fairview Cemetery company, from \$500 to \$750; Grunsfeld, Lindheim & Co., \$7,585.65 to \$10,000; Mrs. S. Herlow, from \$130 to \$345; Leandro Sena, \$320 to \$470; Bartolo Rael, \$274 to \$3,000; Cerrillos Mining company (Cash Entry), \$16,040 to \$31,040; D. D. Harkness, \$2,532 to \$2,785.

Numerous applications for reduction of assessment values were considered by the board and they declined to make the reductions.

The appended resolution, offered by Commissioner Garcia, was adopted:

Whereas, Chapter 1 of the laws of 1876 requires that each county shall be divided into three compact districts in order that one member of the board of county commissioners may be chosen from each district; and

Whereas, Such division was made for the county of Santa Fe, on July 17, 1876, but has never been changed nor corrected although large portions of territory have been added to this county since that date; and

Whereas, It is just and proper that every portion of said county should be included in some one of said districts; therefore, be it

Resolved, That the county of Santa Fe shall hereafter be divided into three commissioner districts as follows: All that portion of the county included in the present precincts known as No. 7, (Cerrillos); No. 11, (Golden and San Pedro); No. 10, (Dolores); No. 8, (Gallateo); No. 12, (Canonicos); and No. 13, (Glorieta), shall constitute one district to be known as the 1st district.

All that portion of said county lying south of the Santa Fe river and not included in district No. 1 as above described shall constitute one district to be known as the 2d district.

All that portion of said county lying north of the Santa Fe river shall constitute one district to be known as the 3d district.

After the discussion of some further business of no special public moment the board also passed a resolution employing John H. Knaebel as assistant counsel in any legal proceedings necessary to enforce and make effectual all relevant judicial orders and judgments as well as to put the administration of the affairs of this county upon a lawful and well ordered footing.

Resolved, That John H. Knaebel, esq., be and he is hereby requested to act as counsel, associated with the district attorney in all such additional legal proceedings. Adjourned to meet on Monday next.

The mercury is getting along right nicely now and rising somewhat.

In the knowledge of bacarat, Albert Edward, prince of Wales, evidently can give Hoyle pointers.

SEKINGLY a county without a county government or with two county governments—Santa Fe county, N. M.

Governor PENNOCK, of Oregon, boasts that he has not worn a swallow tail coat since 1855; the governor is evidently a Democrat and a great man.

PROGRESS and advancement for New Mexico; more public schools and more railroads for New Mexico; these things are greatly needed and must be obtained.

THE magnificent coal fields and the vast iron leads in New Mexico need only capital for their development to become great sources of wealth, and this capital will come and must come.

THE tin plate liar and bullion dollar congress liar in the Democratic newspapers, and he was quite numerous a few weeks ago, seems to have taken a tumble to himself. High time that he did.

THAT celebrated case, "the territory of New Mexico and the people of Santa Fe county versus Pedro Delgado," is drawing to a close; let law and order prevail.

Yes, South Carolina has a chance to become a Republican state, but we advise the Republican national committee not to count on South Carolina any too soon; anyway not in 1892.

IT seems the chief justice of the supreme court of New Mexico, Judge James O'Brien, thinks so little of the citizens of New Mexico that he declines to take up his residence among them.

GUATEMALA is planning another revolution and the overthrow of President Barrios. It is a cold day in Guatemala when they do not plan to kill somebody or another or overthrow somebody or another or have a revolution or two on hand.

"ADOBELAND" is the title of rather an ambitious undertaking in the journalistic line just issued at Albuquerque by Messrs. Stivers & Butler. It is a weekly after the style of the old Denver Inter-Ocean, partly illustrated and spicy, yet clean. Adobeland has our best wishes.

THE territorial grand jury of this county has folded its tents and silently stolen itself away; its sins of omission and commission are now history. At the next term of court the grand jury will be drawn under the new jury law; whether jury drawn under the new law will be an improvement remains to be seen.

The stone and marble quarries of the Rocky mountain region are destined to prove no small factor in all future estimates of native wealth. Already a demand is springing up that has grown at a surprising rate in a few years. New Mexico has splendid resources in this direction, particularly are her marble quarries worthy the attention of prospectors.

We trust there is no basis for the report from Mexico that Minister Romero is to be called home to accept the treasury portfolio in Diaz' cabinet. It is largely through the excellent offices of Senator Romero that the United States and Mexico are to-day on such excellent terms. Mexico would find it hard to fill his place at Washington.

AMERICAN snobbery has captured another English lion, Miss Garner, a New York woman having quite eclipsed her sisters of snobdom by marrying the hero of the prince of Wales' gambling scandal, Sir William Gordon Cumming. It is evident that English royalty can't trail its robes in dirt too black that some American girl isn't willing to follow. No wonder the English have been led to erroneous conclusions relative to the social standard of this country.

The Emperor William is deserving of credit in respect to the interest he is taking in the welfare of the German people in one instance, at least. He most earnestly recommends that all ministers of the gospel limit their sermons to a period of fifteen minutes. If such a recommendation could be enforced in this country there would be a far greater attendance at church services, and we dare say, much more of the true religion of goodness.

THOSE RAILROAD BONDS.

It seems as if the Texas, Santa Fe & Northern-Santa Fe Southern railroad running from Espanola to Santa Fe and conducted against the best interests of this community and this city and against the interests of every tax payer in this county, has been spending a little boodle in subsidizing certain papers to aid its scheme of having a lot of illegal bonds and coupons claimed by that concern to amount to only, mind you only \$178,000, refunded at 8 1/2 per centum per annum payable in gold every six months in the city of New York, just because such action on the part of this county would make these bonds more valuable for a concern, that has been conducted in the most selfish and mean spirit and against everything that tended to benefit this city or this county. That outfit will find out that such business will not do. But then it is an ill wind, that blows no one any good. A little of the road's money will be spent and that will be of use to somebody anyway.

LAW AND ORDER.

A law and order league of 1,000 tax payers met at Houston, Texas, the other night and appointed a committee to call upon the city officials and notify them that the laws had to be respected and enforced. This is the way business men do things down there. In this country, Santa Fe for instance, not a few of those claiming to represent real public sentiment are to be found counseling all manner of trickery in order to gain temporary party prestige, even at the expense of permanent injury to all business interests. Happily, however, such individuals are few in number and a strong public sentiment is beginning to be displayed that will ere long swamp the whole gang. There is a better day dawning for Santa Fe county. The laws must be respected and enforced. When it comes to carrying out such a sentiment the New Mexican is equal to any law and order league in the land, and it proposes to remain on deck here and keep up this good fight until not only order shall have come out of chaos, but the whole chaotic boodler gang responsible for it all shall have been made to hunt their holes in shame before the wrath of an outraged people.

Following the Example of the Headman.
The czar of all the Russias has a vicious humor that shows itself in his lately expressed intention to continue the measures of Jewish repression, with a view to a solution of the Hebrew question. "No," said the English headman to his victim, "it may seem cruel, but after the job is done you will say I am scientific, sir, scientific."—Kansas City Journal.

THE NEW MEXICAN

A. T. & S. F. Train Service.

1. The chair car No. 3 and 4, (California Limited) which formerly ran between Chicago and Dodge City, has been extended to La Junta.
2. The local express, "Nelly Bly Flyer," carrying fine parlor cars between Canon City and Denver, has been changed to run between La Junta and Denver, via Pueblo and Colorado Springs. This not only affords better accommodations for eastern Colorado, but also gives a good chair car service between Kansas and Colorado, as No. 3 and 4 make direct connection in daylight at La Junta with the Nelly Bly Flyer.
3. Pullman Palace sleepers have been placed on No. 5 and 6, specially designated for accommodation of tourist between Chicago, Kansas City and Colorado Springs. They are in addition to the usual Chicago-Denver sleepers. Passengers destined to Manitou, Cascade, Green Mountain Falls, Woodland Park and other Vie Pass summer resorts near Pike's Peak, change cars in union depot at Colorado Springs to trains on our Colorado Midland broad gauge division, thus doing away with transfers across the city. Very truly, Geo. T. Nicholson, Gen. Pass. and Ticket Agent, W. M. Smith, Agent, Santa Fe.

My Tender Conscience.
I have a tender conscience,
That measure five feet three,
Whose slight reproach is worth whole
tomes
Of cold divinity.
Who leads me by "a still small
voice,"
And, with a loving glance,
Reminds me while the lamp holds
out,
This sinner has a chance.
Whose form is ever by my side,
And at the door of sin,
Thrusts out a white and rounded arm,
And bars the way within.
No man can ever go astray,
Who pauses to reflect.
That he must meet those modest eyes,
And keep his self-respect.
So with a firm unshaken front,
I bid old Satan flee—
For I've a tender conscience,
That measures five feet three.

The First Step.
Perhaps you are run down, can't sleep,
can't think, can't do anything to your
satisfaction, and you wonder what ails you.
You should heed the warning, you are
taking the first step into Nervous Prostration.
You need a Nervous Tonic and in Electric
Bitters you find the exact remedy for
restoring your nervous system to its normal,
healthy condition. Surprising results follow
the use of this great Nervous Tonic and Altera-
tive. Your appetite returns, good digestion
is restored, and the Liver and Kidneys
resume healthy action. Try a bottle. Price
50c. at A. C. Ireland's Drug Store.

They Meet as Strangers Now.
"Clara, dear, I want to show you my
new engagement ring before I go."
"It's very pretty, but remember, the
stone is loose."

"Why, how did you know that?"
"Didn't Mr. Rigby tell you that I wore
it a month or two?"

A Neat Compliment to Her Feet.
"You think my shoes are pretty?" she
said. "Well, I paid \$7 for them and they
ought to be pretty at the price."

Just as sure as hot weather comes
there will be more or less bowel com-
plaints in this vicinity. Every person,
and especially families, ought to have
some reliable medicine at hand for in-
stant use in case it is needed. A 25 or
50 cent bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy is just
what you ought to have and all that you
need, even for the most severe and
dangerous cases. It is the best, the
most reliable and most successful treat-
ment known and is pleasant to take. For
sale by C. M. Creamer.

Go Up to the Head, Willie.
Miss Parsons—"And so Adam was very
unhappy. Now, Willie, can you tell me
what great misfortune befell him?"
Willie—"Please, Miss Parsons, he got a

Some Dark Philosophy.
"It ain't church de man dat makes de
noise in church dat hez de most religion,
deah brethern. A mule kin make mo' ruck
with his mouf dan a dozen hossos,
but wen it comes to gettin' up an' gettin'
de mule ain't dar."

A Long Line.
It is 2,714 miles from City of Mexico to
St. Louis. We have just placed some
superb Pullman palace sleepers on
through line between those two cities,
via El Paso and San Antonio, which makes
the entire distance without change.

Los Angeles to St. Louis is 2,121 miles.
Pullman tourist sleepers now run between
those points, via Albuquerque and Bur-
ton, without change.

The Frisco line, in connection with
Santa Fe route, is a favorite one to St.
Louis and beyond.

After the Celebration.
Dead shot with many score of balls
The fallen hero lay,
Heedless of honor's frantic calls,
Until the break of day.
But not undecorated he,
For, as the sun arose,
The passers by could plainly see
The blossom on his nose.

A Difference.
'Tis strange; but when my lady smiles
I seem Elysian wine to quaff,
While all my soul is stepped in gloom
When at me she begins to laugh.

Hon. W. V. Lucas, ex-state auditor of
Iowa, says: "I have used Chamberlain's
Cough Remedy in my family and have no
hesitation in saying it is an excellent
remedy. I believe all that is claimed for
it. Persons afflicted by a cough or cold
will find it a friend." There is no dan-
ger from whooping cough when this reme-
dy is freely given. Fifty cent bottles for
sale by C. M. Creamer.

"Out of Sight."
Miss Wabash—How did you like the
show?
Miss Hubbe—It was incapable of inspec-
tion by the organs of vision.

The New Discovery.
You have heard your friends and neighbors
talking about it. You may yourself be one
of the many who know from personal
experience just how good a thing it is. If
you have ever tried it, you are one of its
staunch friends, because the wonderful
thing about it is, that when once given a
trial, Dr. King's New Discovery ever after
has a place in the house. If you have
never used it and should be afflicted with
a cough, cold or any Throat, Lung or Chest
trouble, secure a bottle at once and give it
a fair trial. It is guaranteed every time,
or money refunded. Trial bottles free at
A. C. Ireland's Drugstore.

Dreads The Fire.
Judge (sternly)—Witness, speak to the
jury.
Witness (defiantly)—I ain't goin' ter!
I spoke to 'em out in the hall this mornin',
an' a big policeman chased me clean
across the park.

The Mails Won't Miss.
A new post office in Kentucky is to be
called Templeton—after "Fay," I presume.
The mails will never miss coming.

Not Worth Attention.
On that shelf in the bookcase said
the visitor, I think I see a photo.raph
album I have not looked through yet.
It has nothing in it, hastily answered
the Kansas City host, pushing it to his
out of sight, except the pictures of some
St. Louis folks.

In the Suburbs.
Madam, said the tramp, I am an old
Union soldier. I fought my best for the
country. Can't you, upon this day, do a
little for me?
Certainly, my poor man, returned the
kind hearted woman. Go out in the gar-
den and pick yourself a bouquet.

Guiltily.
What do you think of what is charged
against Miss Cora Bellows? It is said
she is very tickle in love affairs.
Well, from what I have observed I am
bound to pronounce her jilt.

Has a Watch.
Cora—Have you a watch?
Dora (with a look disgust)—I should
say so! My old chaperon never takes her
eyes off me.

Escape of Prisoners.
The report that prisoners have been and are
constantly escaping from that malignant gar-
liver, complaint, is fully corroborated by the
self-liberated captives. Hostetter's Stomach
Bitters are, they say, the means by which they
got rid of their fetters. Few altogether aware of
the bondage of this ailment, and few are unacquaint-
ed with its signs, viz: pain through the right side
and a colder blood, turned tongue, yellowness
of the eyes and skin, sour breath, sick head-
aches, dyspepsia and constipation. Hostetter's Stomach
Bitters put a prompt period to these things, bring-
ing them to a full stop in short order. Whether the
trouble is chronic or temporary, this medicine is
equally effective, regulating the liver and bowels
thoroughly. It is likewise a sovereign remedy
for rheumatism, kidney complaint, malaria,
heartburn and nervousness.

A Serenade.
My love, awake!
On you still lake,
Where shine the moonbeams clear,
There waits my boat—
There let us float—
None save ourselves is near.
To-night with me
Wouldst thou not flee
With naught our souls to clog?
But hark—"how now!"
I'll leave thee now—
I've waked that horrid dog.

Advice to Mothers.
Mrs. Winslow's Soothing Syrup should
always be used when children are cutting
teeth. It relieves the little sufferer at
once; it produces natural, quiet sleep by
relieving the child from pain, and the little
cherub awakes as "bright as a button."
It is very pleasant to taste. It soothes
the child, softens the gum, always all pain,
relieves wind, regulates the bowels, and
is the best known remedy for diarrhoea,
whether arising from teething or other
cause. Twenty-five cents a bottle.

An Angel in the Park.
Mamie—I saw an angel in the park to-
day, mamma.
Mamma—An angel! What do you
mean, darling?
Mamie—Why, one of those gray coated
angels who tell God when a sparrow falls.

It is quite probable that you may need the
services of a physician some day; but you
can postpone the time indefinitely by
keeping your blood pure and your system
unravaged through the use of Ayer's
Sarsaparilla. Preventions are better
than cure.

Witticisms.
A queer man—The green goods opera-
tor.
When a girl is in love her heart is re-
markable for its abnormal signs.

A famous horse in Kentucky is called
Little Brown Jug. The animal should be
full of spirit.
He—Can you play orsing? She—Alas
no; I have no ear for music. He—Then
my heart and fortune are yours.

Mrs. Bunting—Lou, do you think you
made a good impression on Mr. Scouids?
Lou—I'm afraid not, mamma. He left at
10 o'clock.
"Have you ever had any heart trouble?"
asked the medical examiner of the ap-
plicant for life insurance. "Yes, sir, I've
been engaged six times."

Mrs. Youngwife (to pretty applicant)—
No, I don't think you will do. Applicant
—But I am able to cook in the best style.
Mrs. Youngwife—I guess I know my
business; I advertised for a plain cook.

information worth remembering.
"Mr. John Roth, of this city, who met
with an accident a few days ago sprain-
ing and bruising his leg and arm quite
severely, was cured by one 50 cent bottle
of Chamberlain's Pain Balm." This
remedy is without an equal for sprains
and bruises and should have a place in
every household. For sale by C. M. Creamer.

Youth in Old Age.
"That's a pretty old alligator, I guess,"
remarked one tourist to another as a huge
cayman opened his cavernous jaw, and
took in a young ducky that had recklessly
ventured into the river.
"He may be old," returned the other,
"but he's evidently got a good deal of the
boy in him yet."

HISTORICAL.
Santa Fe, the city of the Holy Faith of
St. Francis, is the capital of New Mexico,
trade center, sanitary and archeological sec.
An Indian pueblo had existed on the site
previous to the 15th century. Its name was
O-ga-p-ho-ge, but it had been abandoned
long before Coronado's time. The Spanish
settlers of Santa Fe founded in 1680, it is
therefore the second oldest European settle-
ment still extant in the United States. In
1804 came the first venturesome American
trader—the forerunner of the great line of
merchants who have made Santa Fe the
Santa Fe world-wide in its celebrity.

THE CLIMATE.
of New Mexico is considered the finest on
the continent. The high altitude insures
dryness and purity (especially adapted to
the permanent cure of pulmonary com-
plaints, as hundreds will be witness,) and
by traveling from point to point almost any
desired temperature may be enjoyed. The
altitude of some of the principal points in
the territory is as follows: Santa Fe, 7,047;
Costilla, 7,774; Tierra Amarilla, 7,455; Glori-
eta, 7,587; Taos, 6,950; Las Vegas, 6,452;
Cimarron, 6,480; Bernalillo, 5,704; Albu-
querque, 4,918; Socorro, 4,658; Las Cruces,
3,844; Silver City, 5,946; Ft. Stanton, 5,800.
The mean temperature at the government
station at Santa Fe, for the years named as
was as follows: 1874, 48.9 degrees; 1875, 48.0
degrees; 1876, 48.1; 1877, 48.3; 1878, 47.6;
1879, 50.8; 1880, 46.8; which shows an ex-
traordinary uniformity. For tubercular dis-
eases the death rate in New Mexico is the
lowest in the union, the ratio being as fol-
lows: New Mexico, 25; Minnesota, 14;
Southern States, 6; and New Mexico, 3.

DISTANCES.
Santa Fe is distant from Kansas City, 609
miles; from Denver, 338 miles; from Trin-
idad, 218 miles; from Albuquerque, 85
miles; from Deming, 316; from El Paso,
340 miles; from Los Angeles, 1,032 miles;
from San Francisco, 1,281 miles.

ELEVATIONS.
The base of the monument in the grand
plaza is, according to latest corrected mea-
surements, 7,019 feet above the level of the
sea; Bald mountain, toward the northwest
and at the extreme northern end of the
Santa Fe mountains, is 12,661 feet above sea
level; La Juntura, the highest peak of the
Santa Fe range has its source in 12,045 feet
high; the divide (Tesque road) 7,171;
Angua Fria, 6,480; Coneguilla, (west) 6,025;
La Juntura, 5,514; mouth of Santa Fe creek
(north of Fort Stanton), 6,225; Sandia
mountains (highest point), 10,908; Old
Placers, 6,801; Los Cerrillos mountain-
(south), 5,884 feet in height.

POINTS OF INTEREST.
There are some forty various points of
more or less historic interest in and about
the ancient city.
The adobe palace stands on the spot where
the old Spanish palace had been erected
shortly after 1600. That ancient structure
was destroyed in 1680 and the present one
was constructed between 1697 and 1716.
The chapel of San Miguel was built be-
tween 1630 and 1680. In the latter years
the Indians destroyed it. Fully restored in
1711, it had previously, and after 1683, been
the only Spanish chapel in Santa Fe. It
still remains the oldest church in use in
New Mexico.

The walls of the old cathedral date in part
from 1622; but the edifice proper is from the
past century.
Other points of interest to the tourist are:
The Historical Society's rooms, the "Guer-
ita," the military quarter; chapel and con-
vent of Our Lady of the Rosary; the church
museum at the new cathedral, the arch-
bishop's of Our Lady of Guadalupe with its
rare old works of art; the soldiers' monu-
ment, monument to the Pioneer Path-Finder,
Kit Carson, erected by the G. A. R. of New Mexico;
St. Vincent's hospital, conducted by the Sisters of Charity,
and the Orphans' industrial school; the In-
dian training school; Loreto Academy and
the chapel of Our Lady of Light.

The sight-seer here may also take a vehicle
and enjoy a day's outing with much pleasure
and profit. The various spots of interest
to be visited are Tesque pueblo, taking in
the divide en route; Monument rock, up in
picuresque Santa Fe canon; the Aztec mi-
neral spring; Nambe pueblo; Agua Fria vil-
lage; the turquoise mines; place of the as-
sination of Governor Perez; San Ildefonso
pueblo, or the ancient cliff dwellers, beyond
the Rio Grande.

THE CITY OF SANTA FE
is making a steady modern growth; has
now a population of 8,000, and has every
assurance of becoming a beautiful modern
city. Her people are liberal and enterpris-
ing, and stand ready to foster and encourage
any legitimate undertaking having for its
object the building up of and improvement
of the place. Among the present needs of
Santa Fe, and for which liberal bonuses in
cash or lands could undoubtedly be secured,
may be mentioned a cannery factory; a
wool scouring plant and a laundry. Skilled
labor of all kinds is in demand at good
wages. Cost of living is reasonable, and
real property, both inside and suburban, is
steadily advancing in value.

S. HIS CHILDREN.
S. My little son had a number
of bad ulcers and running
sores to come on his head
and body, which lasted for
four years. I tried all the
doctors and many remedies, but the
sores still grew worse, until I did not
expect him to recover. My friends
were confident that if the sores healed
it would kill him. I at length quit
all other treatment and put him on
Swift's Specific, and less than three
bottles cured him a sound and
healthy child. S. S. S.,
also cured a sore on another
of my children.

This railway passes through twelve states and
territories, and having no land of its own to
sell has no object in advancing the interests of any
special locality, or in giving any other than ab-
solutely reliable information. It realizes that the
prosperity of the farmers of the great south-
west means prosperity to itself also, and thus
naturally willing to aid "immigrant as much
as possible.
