BRIEF WIRINGS:

It Wasn't a Knock-out.
New York, June 17.—The ten round glove contest between Paddy Slavin of Australia and John Kilrain of Baltimore, took place at the Granite Association Club house in Hoboken last night. Slavin won in nine rounds but knock-out hits were declared off.

Likely to Die.
Indianapolis, Ind., June 17.—Ex-Senator Jos. E. McDonald, who is lying critically ill at his home in this city, is reported by his attending physician as being in a weak condition. It is generally believed he will not recover.

Court of Appeals.
Chicago, June 17.—The new United States court of appeals for this district was organized yesterday. The proceedings were rather informal but dignity was lent to the occasion by the presence of U. S. district judges Allen of the southern Illinois district, Wm. Wood district of Indiana, J. G. Jenkins, eastern district of Wisconsin. Justice Harlan caused the entry of an order assigning Judge H. W. Blodgett of the northern Illinois district as a judge of the court, appointing Capt. S. O. Gilman of Illinois marshal and Oliver T. Morton of Indiana clerk.

Come to a Better Climate.
Pittsburg, June 17.—The thermometer yesterday on the street registered 95 and 96 degrees. Many cases of prostration by heat are reported though but two were fatal an infant and a sewing woman.
Boston, June 17.—Heat advices from many towns in New England show a very sultry condition of things. The reports received from Maine points show a range of from 82 to 90, the latter at Portland. Of eighteen towns in New Hampshire, but one show below 90. In Massachusetts 92 is the lowest temperature reported, but the hottest place yet heard from is Providence, Rhode Island, where the top notch at 107 was reached.

CONDENSED NEWS.

Chicago is to have a million dollar Masonic Temple.
The crops of the southeast of Kansas are better than ever before.
A cloud burst over the country between Leeds and Milwaukee, N. D., did much damage.
The Ohio Republicans in convention will nominate Major McKinley for governor.
Defective electric light wires caused a \$20,000 fire at Springfield, Mass.
Beef cattle are 10 cents higher in the Chicago market.
"Fritz" Enmet, the actor, is dead. He was shortly to be married to Helen Sedgewick.
The Irish land bill passed the third reading in the house of commons yesterday by a vote of 225 to 96.
The crops in Texas are the best for many years. Corn is all ready made and will yield 40 to 60 bushels per acre.
Secretary John W. Noble said in Chicago that illness would not necessitate his retirement.
The census of England and Wales shows a population of 29,000,000, being an increase of 3,000,000 in the last decade.
Milk cows about Evanston, Wyo., are troubled with a curious disease, and many have died. Stockmen are puzzled and can find no remedy.
A Presbyterian clergyman was convicted Saturday in the United States court at Seattle, Wash., of smuggling opium.
Judge Marr, at New Orleans, has refused a new trial for Glandier, convicted of attempting to bribe a juror in the Hennessy case.
The village of Cassaman, about thirty miles from Ottawa on the line of the Canadian Atlantic railroad is likely to be entirely consumed by forest fires.
Marcus Mayer, the theatrical manager, whipped a large gang of insolent ruffians in a London cafe Saturday night. Mayer received a black eye.
There is a club, with members all over the world and headquarters in Bridgeport, Conn., known as "The Suicide club." E. F. Smith, of Birmingham, who shot himself Saturday, is the tenth victim.
Nina Van Zandt, the young woman who was married by proxy to August Spies, the anarchist, is soon to be married to Salvatore Stefano Maletto, an Italian newspaper correspondent in Chicago.
The Republicans of Illinois propose to open their state and national campaign without delay, instead of waiting, as in other years, until after the state convention, which is almost a year hence.
At Atlantic City the forty-fourth annual session of the American Institute of Homoeopathy was called to order by Professor Theodore Y. Cinne, of Patterson, N. J. One thousand doctors are on hand.
The primitive Methodist conference in session at North Hampton has passed a resolution censuring the Prince of Wales for his connection with the baccarat scandal.
Chin Ah Quong Tia, who had been acquitted of the charge of murdering Pomeroy, a Plute Indian, at Bridgeport, Cal., was dragged from the courtroom and turned over to the Indians, by whom he was cut to pieces.
John Watson, a 15-year-old boy employed herding horses near Carbon, Wyo., tied the end of his horse's picket rope to his wrist and went to sleep. The horse became frightened at something and started up and dragged the boy to death.
The Forest Park depot at St. Louis, a number of picnickers were taking shelter there from a storm was struck by lightning yesterday. This is the result: Miss Sadie McCarthen, aged 12, killed;

Miss Linnie Golden, badly injured; Miss Kate Bender, burned and otherwise seriously hurt; Miss Lame Beauderie, severely injured.

SANTA FE'S MINERAL RESOURCES.

Unprecedented Activity in the Humming Camps of South Santa Fe County.

A 100 ton concentrator is to be put in at Tijeras canon by St. Louis parties.
A fine lot of ore is on the dump of the Canon group of mines adjoining the Lincoln-Lucky.

A forty-eight hour run of the San Lazarus mill yielded a gold brick weighing sixty ounces last week. It was weighed on Uptegrove's scales at Cerrillos and shipped to Milwaukee.

Hon. J. B. Mayo has resumed work on the great water shaft of the Golden Hydraulic company, employing fifteen men. The force will be doubled as soon as he returns home from Santa Fe.

The Cash Entry company has machinery en route from the east to double the capacity of its present concentrator. It is said also that Manager Huhn, who controls the Benton mine at Dolores, will soon begin operations there on a large scale.

Wm. Kemp, superintendent of the Copper company's interests at San Pedro, is in town to-day. He speaks guardedly of the new Lühring concentrator's work, but intimates that it will be a certain success, in which event a 500 ton plant is to be put in by the London company. The smelters have been shut down for a few weeks and are now fully repaired. They start up again on Saturday, running day and night, and providing employment for about 120 men.

There are whisperings that the deal on a large portion of the Cerrillos coal fields, which has been under process of consummation for six months or a year is finally being consummated and that great changes will be made in the operations there. A track will be built to the mines and all arrangements made to work them to their full capacity. Who the deal has been made with rumor has not fully developed, but it is hinted that the A. T. & S. F. coal company will secure the co-operation of the road. No look out for a boom in south Santa Fe county. The construction of this coal road means also a railroad outlet for San Pedro.

R. Y. Anderson, the Denver man who has secured control of the Lincoln-Lucky, left Cerrillos yesterday for the mine to begin operations at once. George H. Middleton and J. A. Joseph are the capitalists of Denver for whom the mines were purchased by Mr. Anderson. The mines are the largest and most valuable carbonate deposits in the southwest, having produced some \$200,000 in development alone. It is the intention of the new company, under the personal supervision of Mr. Anderson, to thoroughly develop the property and erect good machinery at once, with a view to producing large quantities of ore, of which there is an ample supply in sight in the mines. This is another big thing for Santa Fe county.

TERRITORIAL TIPS.

That big iron find on the A. & P. west of Albuquerque turns out to be a fake.
The assessment on all lands in Colfax county has been reduced to 75 cents per acre.

Twelve hundred and forty-eight dollars and ninety cents has been subscribed for the Fourth of July celebration at Silver City.

The material of the Spanish paper at Las Cruces will this week be removed to Old Albuquerque, and the paper revived as the organ of the People's party.

Mr. Clayton Dorsey, one of Colfax county's brightest young men, and a graduate of Yale last year, will enter the senior class in the law course at Ann Arbor, Mich., in September.

Thomas S. Holland, one of the best known Colfax county, has bought out the Illinois Live Stock Co., of which he has long been manager, and is now offering the entire outfit for sale.
Thomas Fitzgerald, of Denver, A. A. Grant, H. B. Ferguson, Charles Cray, Solon E. Rose, George F. Albright and Lorion Miller have organized the Mesa Land company at Albuquerque.

Col. Robt. S. Goss, one of the most successful educators and disciplinarians in the southwest, has made arrangements to establish a first-class military academy at Roswell on the first of next September. He hails from Fort Worth.

At Socorro, in the case of the territory vs. Fred Smith and Eugene Le Fountain for assault and robbery, holding up passengers on a train between Socorro and San Marcial last October, 1890, the jury brought in a verdict sentencing defendants to one year in the penitentiary.
Roswell Record. At the citizens meeting on Wednesday evening, Nathan Jaffa, Frank Leaset, J. S. Lea, E. H. Skipwith and S. S. Mendenhall were unanimously chosen candidates for town trustees. These are all live, progressive men who have the interest of the town at heart.

Clayton Enterprise. Mr. Tanner, who is on the wolf hunt for the E. N. M. S. Co., has killed fifty wolves. He wants more dogs and a few more horses, and we think he ought to have them. He has enough wolf scalps to pay for the outfit he now has. These wolves will ruin the cattle business if they are not eradicated.

At Albuquerque Judge W. D. Lee, of the district court, after reviewing the arguments for a new trial in the case against V. P. Edie for criminal assault, sentenced him to the penitentiary for the term and period of five years. Mr. Neill B. Field, counsel for the prisoner, in-

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's

Peculiar Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other brand. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists.

A scheme by which Raton can have a complete and exhaustive system of water works, without expense to the tax-payers, is now being formulated. It is in the hands of experienced gentlemen, and if put into effect, an ample supply for domestic, irrigation and railroad purposes assured.—Range.

The Navajo and Moquis are not on the best of terms, and prospectors invading the reservation in the vicinity of the Carrizo mountains have had a tendency to enrage the Navajos. Recently a company of soldiers were sent from Fort Wingate to assist the agents, and now it is understood on good authority that the agent has telegraphed to Fort Wingate for re-enforcements and that another company is now under marching orders to the agency.

Lincoln Banner. The aggregate value of the real and personal property of Lincoln county, as given by County Assessor Curry for this year amounts to \$1,862,630.71, or a gain of about \$150,000 over the assessment of last year. The real and personal properties are not yet separated and we can not give the respective amounts of each. There are 1,016 property returns, including farms and non-residents. There will be about 1,200 poll tax payers. In the aggregate valuation of real and personal property in this county as returned this year, the cattle companies return about \$800,000. The average valuation among the farmers will not exceed \$800. The property owner who returns \$1,000 will pay 75 cents a year, and as the property in the county increases this tax will decrease. In all probability the assessment next year will aggregate \$2,000,000, requiring only a 6-10 mill levy to meet the interest on the bonds.

FOR SALE

\$1,000,000 worth
of choicest property in the City of Santa Fe.

IMPROVED AND UNIMPROVED—All corralled long before incorporation—When the pessimists were wallowing in misery and chewing the cud of failure and despair.

The above referred to property consists of the most valuable plaza property (including two magnificent plaza corner building sites). Eight acres right in the heart of the city; 250 acres but three-quarters of a mile from the plaza monument, and soon to be of immense value; and many plots of from 1 to 10 acres also located within the city limits, very near the center; and many acres just on the borders of the city. Also 145 acres but three miles from city, also Building Lots, singly or in block—locations unsurpassed. Also the AZTEC SPRING PROPERTY, consisting of 160 acres of land abounding in coal and all the precious metals; upon this tract is located the celebrated Aztec Springs, whose health giving qualities are second to none in the country. This last mentioned property is adjacent to the city and amidst the grandest scenery of the Santa Fe section of the Rocky Mountains.

All this Property can and will be sold at bargains—

WEDNESDAY, JUNE 17.

ANNIVERSARIES.

BORN: June 17th. John Wesley, 1703. Andrew Crosse (electrician), 1784. **DIED:** Joseph Addison, 1719. Mine, Sonag, 1854. John Sobieski, 1699. John S. C. Abbott, D. D., 1877. John Gilbert, 1889. Battle of Bunker Hill, 1775. First army hospital in the United States, 1775.

The Albuquerque fair promises to be a success this year; the people of the capital city and of this county should lend a helping hand to make it a success.

New Mexico is O. K., but a little more work in inducing immigration, capital and railroads to come to New Mexico would not at all come amiss these times.

A good many of the collectors are very slow in paying the territorial funds collected by them into the territorial treasury as the law requires. Why so, gentlemen?

In view of the fact that the Republicans are steadily gaining in Delaware, the election of another United States senator from that state is not at all an improbability.

Should New York state go Republican this year, and the chances are very fair for Republican success, the next Democratic candidate will in all probability come from the west, and very likely from Indiana or Ohio.

Baby McKee has gone to Europe and the Democratic press, being deprived of one of its principal subjects of abuse, has now turned its attention to abusing Postmaster General Wanamaker, who can stand it as well and cares as little about it as Baby McKee.

Plenty of time to take up this matter of examining alleged obligations of this county; the first thing to do is to get at the county books and at the true financial condition of this county; when that is accomplished there will be plenty of time to talk about examining alleged fraudulent obligations of Santa Fe county.

GEN. JOHN W. NOBLE, the secretary of the interior, will not resign, all reports of Democratic and Mugwump papers to the contrary notwithstanding. This is good news for the people of New Mexico; the secretary is a most excellent and thorough going cabinet officer and a good friend to New Mexico.

There are about \$60,000 worth of bonds out, ostensibly issued by this county for court house warrants, which we think are utterly illegal and void in law; no tax for interest on these papers should be paid and none should be collected, until the matter of their issuance and their legality or illegality is fully inquired into and determined.

This tender concern of several of our esteemed contemporaries about the alleged obligations of this county and their desire to have these obligations paid is really and truly touching; but as honest county commissioners are at the helm now, why all fraudulent obligations, obtained by bribery and corruption, will have to take a back seat.

Yes, sir; we know who will be the delegates to the Republican and Democratic national conventions from New Mexico, and we know who the nominees of these conventions will be; but we will not give it away at this time; we were to do so, you would know as much about it as we did. Now please stop writing us letters on this subject; we will tell you all about it, well, in a year from now, say.

Perhaps this attempt of the Texas, Santa Fe & Northern railroad to have a lot of alleged bonds and coupons of this county funded in a very dark and shady manner is not as bad as it is painted, but nevertheless, no honest or self-respecting citizen can afford to be mixed up with the manner in which the attempt has been made. We shall see what we shall see.

The United States of Australia have adopted a constitution very similar to that of the United States and have joined the postal union. The people of Australia know what they want; the more they follow in the wake of this country, the better, more prosperous and stronger they will become. The example of the United States is good enough for anybody and everybody of any sense.

ACTIVITY IN POLITICS.

Thus early the political horizon begins to assume a decidedly interesting aspect. The chances are that the approaching presidential contest as well as the campaign in many of the so-called doubtful states will be the most animated since the stirring times of 1840, when Tippecanoe Harrison "and Tyler, too" shook the union from center to circumference. Unusual activity is to-day noticeable among the big political guns of the nation around whom the presidential bee buzzes loudest, while state politicians also seem to have caught the infection. President Harrison's friends are known to be active, but proceed upon the quiet order, after the methods of their leader, methods, too, that are characteristic of the man and admirably becoming to the exalted position he so ably fills. Mr. Blaine's present attitude yet remains in doubt; he also has adopted the closed-mouth system, but his friends can't keep quiet. There is something about this statesman's very name that seems to inspire enthusiasm among the masses. Judge Gresham's friends are beginning to be heard from also, while on the Democratic side Hill is playing the still-hunt, but working hard to have the next Democratic national convention held in his strong hold, Tammany hall, or at San Francisco, where he thinks his corrupt methods can best be worked. As for Cleveland he occupies the front row on the political anxious seat. He and his backers are in a regular pickle, and have been ever since he wrote that scathing anti-silver letter at the dictation of Brice, Gorman and other eastern gold sharks, but it appears that they will assume a brazen front and do their best to make capital for Cleveland during the coming year.

Among the states that are also displaying unusual political activity at this time are Ohio, when the gubernatorial contest is opened yesterday and will close by the appointment of that conscientious Republican standard bearer, Major McKinley; also Indiana, New York, Pennsylvania, Kentucky and Wisconsin. The local press in those states is simply bristling with campaign fore-runners these days, while in Illinois the campaign is said to have already opened, and in Kansas the past year has been one of unprecedented political movement which has lost none of its momentum of late from the fact that the subordinate lodges of the Farmers' Alliance have pronounced against the third party scheme.

Not in New Mexico Though. The executioner is a man who takes life easily.—Atlanta Journal.

An Absurd Idea. When one stops to think of it, there is something grotesquely absurd in the heat and indignation with which the Democrats insist that tin plate never can be manufactured in America, and that 60,000,000 American citizens must continue to pay tribute to the big Welsh trust indefinitely.—Boston Journal.

What the McKinley Bill is Doing. A "high tariff Democrat" sends us word of a firm of large manufacturers of flannels at La Porte, Ind., whose business has been so stimulated by the passage of the McKinley bill that the cost of manufacture has been reduced. They are now able to offer, and are offering, flannels which they sold at 60 cents a yard last year, at 47 cents a yard this year.—New York Press.

It is More Than Likely. Galvanized iron sheets sold at 7 1/2 cents a pound in 1880, and in 1889 they sold as low as 4 1/2 cents a pound, under the larger production induced by protection. As tin plate is only sheet iron dipped in tin, isn't it likely that similar protection, beginning the first of next month, will produce similar results?—New York Press.

DOCTOR ACKER'S BLOOD ELIXIR

Why? Because Your Blood is Impure! Have you ever used mercury? If so, did you give yourself the needed attention at the time? Don't you know that as long as the mercury is in the system, you will feel the effects of it? We need not tell you that you require a blood medicine, to ensure freedom from the after effects. Doctor Ackers' English Blood Elixir is the only known medicine that will thoroughly eradicate the poison from the system. Get it from your druggist, or write to W. H. HOOKER & CO., 46 West Broadway, New York.

These Celebrated ENGLISH Pills are a Positive Cure for Sick Headache, Biliousness, and Constipation. Small, pleasant and a favorite with the ladies. Sold in England for 1/6, in America for 25c. Get them from your Druggist, or send to W. H. HOOKER & CO., 46 West Broadway, New York.

The Appointment of Judge Sims. Judge Henry C. Sims, of Wichita, who has been appointed associate justice of the new United States land court, is a lawyer of excellent ability and a man of high personal character. The president could not have made a more fortunate selection. It can scarcely fail to give very general satisfaction in Kansas, and it is to be commended on the ground of its fitness as tending to promote the public service.—Kansas City Star.

A Good Story in Connection With the Santa Fe County Clerk. The clerk of Santa Fe county laid in jail five months in contempt of court, and fondly hoped to make a martyr of himself. The decision of the supreme court left him somewhat in the condition of the old woman whose husband was elected justice of the peace, when she wanted to know what she was, and was told by her triumphant spouse that she was the same "old old fool you always was."—Albuquerque Citizen.

And They Will Make the Tin Plate Too. If we could make in Wheeling all the tin plate the country uses, Wheeling would at once loom up as a greater Chicago. There is no better place in the world than Wheeling for the manufacture of tin plate. It would fit right in with our iron and steel manufacture, in which we are expert and successful. We make the steel and we make the plate, and it is not much of a trick to tin it.—Wheeling Intelligence.

Paid for by Mally at the Rate of Fifty Cents Per Line. One press of the territory is expressing itself pretty emphatically on the course of Santa Fe in trying to evade the payment of bonds issued to secure a branch of the Santa Fe from Espanola. The city offered a certain price for the coming of the road. It came and now the corporation avails itself of a legal quibble to avoid payment. The rule of right applies equally to individuals and communities, and what is dishonest in one can not be honest in another.—La Voz del Pueblo.

Democratic Presidential Politics. Governor Hill is running the course all Democrats of to-day must travel to reach a full party support. The rank and file is unsettled and divided upon every national issue, and it is the most artful dodger who will win at the next Democratic convention. All the leaders recognize the fact that it will be harder to keep from queering themselves than to stand on the party platform, and as a result aspirants are spending most of their time in keeping out of trouble. Hill is succeeding tolerably well, but it remains to be seen whether he can maintain himself for another year.—Kansas City Journal.

The Celebrated French Cure, WARRANTED "APPRODITINE" or money refunded. A. T. & S. F. Train Service.

1. The chair car No. 3 and 4, (California Limited) which formerly ran between Chicago and Dodge City, has been extended to La Junta.

2. The local express, "Nelly Bly Flyer," carrying fine parlor cars between Canon City and Denver, has been changed to run between La Junta and Denver, via Pueblo and Colorado Springs. This not only affords better accommodations for eastern Colorado, but also gives a good chair car service between Kansas and Colorado, as No. 3 and 4 make direct connection in daylight at La Junta with the Nelly Bly Flyer.

3. Pullman Palace sleepers have been placed on No. 5 and 6, specially designated for accommodation of tourist between Chicago, Kansas City and Colorado Springs. They are in addition to the usual Chicago-Denver sleepers. Passengers destined to Manitou, Cascade, Green Mountain Falls, Woodland Park and other Ute Pass summer resorts near Pike's Peak, change cars in union depot at Colorado Springs to trains on our Colorado Midland broad gauge division, thus doing away with transfers across the city. Very truly, Geo. T. NICHOLSON, Gen. Pass. and Ticket Agent. W. M. SMITH, Agent, Santa Fe.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

A Fair Maid's Thoughts.

As he says I am an angel, ethereal I must be;
And though I yearn for more ice cream
one plate must do for me.
He also calls me "fairy," and, of course I
have to say
I do not care for supper when he takes
me to the play.
And so to-night I ship him, and then enjoy
A whirl
With a plainer spoken fellow who consid-
ers me a girl.

It's Often So.

At first sight we loved madly;
At second came a pall;
At third he wondered sadly
How we loved at all.

No Time.

He thought it "wasn't loaded,"
And he looked into the gun;
He saw the bullet coming,
But he hadn't time to run.

The New Discovery.

You have heard your friends and neighbors
talking about it. You may yourself be one
of the many who know from personal
experience just how good a thing it is. It
you have ever tried it, you are one of its
staunch friends, because the wonderful
thing about it is, that when once given a
trial, its benefits are so apparent, that it
holds a place in the house. If you have
never used it and should be afflicted with a
cough, cold or any Throat, Lung or Chest
trouble, secure a bottle at once and give it
a fair trial. It is guaranteed every time, or
money refunded. Trial bottles free at
A. C. Ireland's Drugstore.

In The Barber Shop.

Barber—Will you have the rum?
Man—No; Ramn, no; this is a shave,
not an application for a pension.

The Usual Way.

Tom—How did it happen that Miss
Blanche refused you; it was understood
that you were her favorite?
Jack—The regular way; the favorite
didn't win.

Ambition.

"There is plenty of room at the top,"
So the well-known saying run,
And the summer thermometer hotly
said;
"I will get there if I can."

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should
always be used when children are cutting
teeth. It relieves the little sufferer at
once; it produces natural, quiet sleep by
relieving the child from pain, and the little
cherub awakes as "bright as a button."
It is very pleasant to taste. It soothes
the child, softens the gum, allays all pain,
relieves wind, regulates the bowels, and
is the best known remedy for diarrhea,
whether arising from teething or other
causes. Twenty-five cents a bottle.

Her Essay.

She ponders over silk and lace
And shops and shops the livelong day;
She wears a very serious face,
She's getting up her June essay.

Modesty Unveiled.

He (on the back porch)—There's a
mosquito on your other arm. Shall I re-
move it.
She—I couldn't allow you to put your
arm around my waist.

A Long Line.

It is 2,714 miles from City of Mexico
to St. Louis. We have just placed some
superb Pullman palace sleepers on
through line between those two cities,
via El Paso and Burston, which makes
the entire distance without change.
Los Angeles to St. Louis is 2,121 miles.
Pullman tourist sleepers now run between
those points, via Albuquerque and Burston,
without change.
The Frisco line, in connection with
Santa Fe route, is a favorite one to St.
Louis and beyond.

The Kinetograph.

The theatres all will empty be
When the kinetograph is in use;
The new plays we can see at home
When the kinetograph is in use;
The dominies will be in the lurch,
For nobody'll ever go to church,
For a new job they will have to search
When the kinetograph is in use.

Why Do They?

Clericus—Why do the heathen rage and
imagine a vain thing?
Cynicus—Because they get stuck on so
many three-cent pieces taken up in the
collections, probably.

Hon. W. V. Lucas, ex-state auditor of
Louis, says: "I have used Chamberlain's
Cough, Croup and Whooping Cough Remedy
in my family and have no hesitation in saying it is an excellent
remedy. I believe all that is claimed for
it. Persons afflicted by a cough or cold
will find it a friend." There is no danger
from whooping cough when this reme-
dy is freely given. Fifty-cent bottles for
sale by C. M. Creamer.

One For The Complexion.

Cora (literary)—Let us subscribe for a

Dora—All right.
Cora—What one do you propose?
Dora (with a glance in the mirror)—
Let's get a powder magazine.

From The Canal Region.

That's strange, too, and Irick.
What's? asked Hicks.
A toepath is several times as large as a
footpath.

The following item, clipped from the
Ft. Madison, Iowa, Democrat, contains
information well worth remembering.
"Mr. John Roth, of this city, who met
with an accident a few days ago sprain-
ing and bruising his leg and arm quite
severely, was cured by one 50-cent bottle
of Chamberlain's Pain Balm. This
remedy is without an equal for sprains
and bruises and should have a place in
every household. For sale by C. M.
Creamer.

The Rhymester's Dilemma.

I sat me down one perfect day
To turn a rhyme to June,
But, though I turned it every way,
My leading word was tune.
And since I've read, it seems to me,
Some loftier poet's rune
That runs that way, I plainly see
I'd best not tackle June.

Left and not Cold.

Satan—Aren't you one of those men
who frequently remarked, "It is a cold
day when I get left?"
Newly arrived—"Y-e-s."

Satan—Um. What is your opinion of
the present weather?

My Exercise.

I do not care to run or jump,
But, oh! I do admire to see
That unabashed, oft arant chump,
The base ball umpire on the ump-
That's exercise enough for me!

In The Gloaming.

Between the trees a hammock swings,
On the lawn at twilight's glow;
Oh, what bliss sweet memory brings
Of the days one year ago!

A dainty gown of spotless white,
Molded to a faultless form,
Fashioned like a fairy sprite,
Riding on love's tidal storm.

In the gloaming, dim discerning,
We can faintly see the book:
Softly stealing, with love's yearning—
"Gracious heaven! 'Twas the cook."

"Dinner for Two. Appetite for One!"
Said a dyspeptic to the waiter, ordering for
self and friend. And suppose he had had an
appetite, it would have agonized him, subse-
quently, to gratify it. O the abominable pains
that even a little meal causes the confirmed vic-
tim of indigestion, Purgatory on earth—no less.
Altogether unnecessary, though. Regulate one
systematically, a course of Hostetter's Stomach
Bitters, you will find that the stomach is
in saying this we merely echo the record ex-
perienced thousands who have used the great
sanitary, Dr. King's New Life-Giver. For the
infection of a sluggish liver, and for
any or irregular action of the bowels,
both very apt to accompany dyspepsia, this
fine regulator is equally efficient. Malarial
complaints, kidney trouble, rheumatism and
neuritis depart when a course is had to the
Bitters.

Hard to Swallow.

Jasper—You have read the Presbyterian
Confession of Faith, you say. Are its
doctrines really so very hard to swallow?
Jumpup—Oh, no, not much harder
than it would be to climb up a telegraph
pole and then turn round and swallow the
big and blooming earth.

An Exception.

The actions are everything. We judge a
man by what we see him do."
"Not always. There's the lady man,
for instance. We judge him by what he
don't see him do."

It is quite probable that you may need the
services of a physician some day; but you
can postpone the time indefinitely by
keeping your blood pure and your system
invigorated through the use of Ayer's
Sarsaparilla. Preventions are better
than cure.

The Wicked Boy.

Teacher—The lesson this morning is.
When your father and mother forsake
you then the Lord will take you up.
Wicked Dickey Hicks—Spoken de ole
folks never goes back on ye; what den?

Dr. Acker's English Pili.

Are active, effective and pure. For sick
headache, disordered stomach, loss of ap-
petite, bad complexion and biliousness,
they have never been equaled, either in
America or abroad.

Complete Joy.

Just to walk home with darling Kate
I go to church and humbly wait;
And thus my feast of joy's complete
By having grace before the meat.

Just as sure as hot weather comes
there will be more or less bowel com-
plaint in this vicinity. Every person,
and especially families, ought to have
some reliable medicine at hand for in-
stant use in case of need. A 25-
cent bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy is just
what you ought to have and all that you
would need, even for the most severe
and dangerous cases. It is the best,
the most reliable and most successful treat-
ment known and is pleasant to take. For
sale by C. M. Creamer.

A Dear Girl.

"Where is that little actress now that
you used to be so fond of?"
"Oh, we're no longer friends."
"Why, you used to say she was the dearest
girl in the world."
"So she was, and I say it yet. She was
so dear that she cost me nearly all I
had."

Too True.

"Most of the literature published for
boys these days is unhealthy."
"I know it, but unhealthy as it is there
is no killing it."

Bucklen's Arnica Salve.

The best Salve in the world for cuts,
bruises, sores, ulcers, salt rheum, fever
sores, tetter, chapped hands, chilblains
corns, and all skin eruptions, and pos-
sibly cures piles, or no pay required.
It is guaranteed to give perfect satisfaction,
or money refunded. Price 25 cents per
box. For sale at A. C. Ireland's.

Woman for a Reformer.

"I believe a woman may sometimes re-
form a man."
"You think so?"
"Yes; we have no record of Cain even
doing any more harm after he got a
wife."

A Pastoral Scene.

The handsome young minister found
hugging the lovely young sister is a de-
lightful pastoral scene.

The First Step.

Perhaps you are run down, can't sleep,
can't think, can't do anything to your
satisfaction, and you wonder what ails you.
You should heed the warning, you are
taking the first step into Nervous Prostration.
You need a Nerve Tonic and in Electric
Bitters you will find the exact remedy for
restoring your nervous system to its normal,
healthy condition. Surprising results follow
the use of this great Nerve Tonic and Al-
ternative. Your appetite returns, good diges-
tion is restored, and the Liver and Kidneys
resume healthy action. Try a bottle. Price
50c. at A. C. Ireland's Drug Store.

Diabolical.

Hicks—In case any burglars should
break in you always know where to find
me!
Mrs. Hicks—Yes; I should look there
the first place!

The Ferry Wouldn't Pay.

If a great big bridge were built across
The ghastly river Styx
And shades were allowed to pass it free
Wouldn't charon be in a fix?

HISTORICAL.

Santa Fe, the city of the Holy Faith of
St. Francis, is the capital of New Mexico,
trade center, sanitary and archiepiscopal see.
An Indian pueblo had existed on the site
previous to the 15th century. Its name was
O-ga-pho-be, but it had been abandoned
long before Coronado's time. The Spanish
city of Santa Fe was founded in 1598, and is
therefore the second oldest European settle-
ment still extant in the United States. In
1804 came the first venturesome American
trader, the fur trader, and the great line of
merchants who have made Santa Fe world-wide
in its celebrity.

THE CLIMATE.

Of New Mexico is considered the finest on
the continent. The high altitude insures
dryness and purity (especially adapted to
the permanent cure of pulmonary com-
plaints, as hundreds will be witness,) and
by traveling from point to point almost any
desired temperature may be enjoyed. The
altitude of some of the principal points in
the territory is as follows: Santa Fe, 7,047;
Costilla, 7,774; Tierra Amarilla, 7,455; Glo-
ria, 7,887; Taos, 6,950; Las Vegas, 6,492;
Cimarron, 6,489; Bernalillo, 5,704; Albu-
querque, 4,918; Socorro, 4,855; Las Cruces,
3,844; Silver City, 5,946; Ft. Stanton, 5,800.
The mean temperature at the government
station at Santa Fe, for the years named as
was as follows: 1874, 48.9 degree; 1875, 48.6
degree; 1876, 48.3 degree; 1877, 48.2 degree;
