DRUNKEN MARINE HAS DIFFERENT STORY OF KILLING

Sergeant De Hart Testifies in the Sutton Court of Inquiry at Annapolis.

CHAUFFEUR SAYS TWO HELD SUTTON

Dead Officer Said He Didn't Want Trouble When Adams Started Toward Him On the Night of the Killing.

Annapolis, July 23.—Admitting frankly that he was under the influence of liquor on the night of the shooting, Sergeant James De Hart testified today before the Sutton court of inquiry that he met Sutton near the academy grounds and that Sutton had two revolvers in his hands and ordered the sergeant to go with him to find his coat.

He said that Sutton ran ahead of him and that he heard shots as he followed. He denied that he sat on Sutton's body and stated that all the shots were fired before he arrived on the scene. The revolver with which Sutton is alleged to have shot himself was handed to him by an officer he can't identify and later he threw it away in the bushes. He denied taking the revolver from Sutton's hand.

When asked if he accompanied Sutton to protect him from himself or anyone else or to keep him out of trouble, De Hart replied: "A man running around with two revolvers certainly was not in need of protection."

William I. Owens, chauffeur of the machine in which Sutton, Adams and others rode to the camp, testified that he heard no quarrel until they reached a point near the academy grounds when he was ordered to stop the machine and Adams, tearing off his collar, made a rush at Sutton. The other two officers grabbed Sutton, who said: "Go away Adams, I don't want any trouble."

Owens said he thought the officers were holding Sutton so that Adams would have an advantage.

MINERS UPHOLD PRESIDENT MOYER

Convention Decides That He Did Right to Assess Unions to Pay Big Debt.

Denver, July 23.—By a vote of 223 to 97 the Federation of Miners today endorsed the stand of President Moyer in his controversy with D. J. Flynn and the Butte union, growing out of a \$100,000 assessment levied last year. The assessment was for the strike fund but really to clear the Federation of debt. The parent organization was in debt to the Butte union \$15,000. Becoming alarmed for the safety of the debt, Flynn advised the Butte union to pay the assessment but to have it credited on the indebtedness. The convention decided against Flynn and the Butte union.

WORK ON SEWER TO BEGIN SOON

Contracting Firm Establishes Offices and Tools Were Shipped Today.

Fischer & Glass, the contracting firm that secured the contract for the building of the new sewer system, today took a lease on the building on South First street formerly occupied by the Fee feed store for a store house for their tools and material.

A. W. Fischer, senior member of the firm, has come to Albuquerque with the intention of remaining until the work is finished. The company is now looking for office rooms.

KEEPING COOL IN NEW YORK AT NIGHT.

Sleeping in the parks, on the benches, on fire escapes and roofs, the people of New York's tenement districts vainly seek relief from the terrible heat that is the scourge of the city every summer. The babies suffer most and the death rate averages 15 to 20 daily. The heat is terrible in the day but the effort to sleep makes it worse at night. The park and police departments permit the use of beaches and parks and thus afford some relief, but thousands who are unable to make use of the open places suffer in small and crowded rooms.

TWENTY-THREE DEAD IN TEXAS STORM

Communication Not Fully Established and Extent of Disaster Cannot Be Told.

Houston, July 23.—Twenty-three are dead, fourteen missing, eight injured and property damaged to the extent of \$750,000, as a result of the hurricane that raged over the southern coast of Texas Wednesday, according to dispatches this morning. The full loss of life and property is not yet known, as communication with the stricken districts has not been fully established.

Five of the eleven supposed victims drowned off Tarpon pier near Galveston have been rescued from floating wreckage, and one body was recovered. With life preservers around them, the members of the party on the pier waited calmly until the building broke up beneath them, when they seized the wreckage and struggled with the gigantic waves.

SANTA FE RESUMES WORK ON CUT-OFF

Parker, Ariz., July 23.—Authority has been given for the resumption of work on the Santa Fe's line from this place to Bernal, Calif. Grading from Parker west will begin soon and it is expected there will be no more delay in the construction of this line. It is hoped to have the cut-off completed by July 1 of next year in time to care for traffic during the summer.

"ENOCH ARDEN" AGAIN GONE.

Wilkesbarre, Pa., July 23.—Although a week has elapsed since Rev. John Taggart returned to his wife in Hemlock because the man she married after believing Taggart dead, was in jail, he has not since been heard from.

He told his wife he returned because he heard she was in trouble, and that he wanted her to go away with him to some place where they were not known. She agreed, and he left to find a location he liked.

Since then she has not heard from him, but today said she still had faith and believed that he would come back for her.

SAILS WITHOUT A MOTOR.

West Brandywine, Pa. July 23.—Dr. George A. Spratt, physician, farmer and inventor, says he has conquered the air with a flying machine which will operate without either a gas bag or a motor. Spratt has been working for years on a model, and says he has made a successful flight.

"In my trial flight," he said, "I attained something no air navigator has ever been able to do—that is, to navigate a plane in the air with absolute stability and without the aid of a motor.

PETROLEUM THE ONLY RAW MATERIAL ON FREE LIST

Conferees Are Working Today On Schedules Over Which There Is a Fight.

EXPECT REPORT READY BY MONDAY

Members of Committee Excluded Everybody From the Room and Expect to Stay in Session Until Through.

Washington, July 23.—The indications this afternoon are strong that the tariff conference committee will report the following rates on raw materials:

Petroleum, free.
Coal, 45 cents a ton.
Iron ore, 25 cents a ton.
Hides, 7 per cent ad valorem.
Lumber, \$1.25 a thousand.

The committee excluded even the clerk today and with a short recess will continue the session until all the schedules over which there is a disagreement will be disposed of. The Senate adjourned today until Monday when it is expected the committee will present its report.

TAFT THE VICTOR.

All the Congressional callers at the White House today left with the impression that the president would win sufficient concessions in his fight for downward revision on raw materials to make sure that a bill will be reported which will warrant his signature.

The anti-free material senators and representatives are still on the firing line, however, and they do not see why, if raw material is to be reduced almost to the free list the same principle should not apply to finished products. A number of senators desire revision downward carried out without discrimination, especially as to woolen and cotton goods, as well as oil and hides.

PRINCE MIGUEL GETS A MILLION

Nobleman's Wants Are Provided For When He Marries American Girl.

London, July 23.—Mrs. James Henry Smith, who on July 9, announced the engagement of her daughter, Anita Stewart, to Prince Miguel of Braganza, oldest son of Duke Miguel, met the prince's attorneys to effect a marriage settlement.

Although no announcement was made following the conference, it was learned upon excellent authority that a large sum of money will be settled upon the prospective bridegroom. It is understood the sum is to be jointly provided by the mother and daughter, both of whom are wealthy.

HIS MEDAL DELAYED.

Ann Arbor, Mich., July 23.—Capt. Joseph Kemp, a civil war pensioner, has just received from Washington a bronze medal authorized by Congress in 1864 for bravery at the battle of the Wilderness. As a member of Company F, Fifth Michigan volunteers, Kemp dashed into the ranks of the enemy and captured the flag of the Thirty-first North Carolina regiment, bearing it away from the staff which the southern color bearer held securely.

CHANGES IN 'ANGEL CHILD'

What the "Gay White Way" will do in a few years for a young girl is strikingly illustrated by Mrs. Evelyn Nesbit Thaw, whose appearance when she testified last week at the trial of her husband for insanity showed such a marked change from the way she looked a few years ago. The lower picture shows her as she appeared before her marriage to Thaw, a short time after she came to New York. The upper picture was taken during the Thaw hearing recently. Mrs. Thaw is only 24.

INSURE AGAINST HARRIMAN'S DEATH

Lloyds Issue Many Policies to People Who Own Stocks in His Companies.

New York, July 23.—It became known definitely today that a policy on the life of E. H. Harriman was written through a member of the London Stock exchange, who is a member of a stock and bond house here. The policy was written by London Lloyds and is understood to have been for \$100,000. The rate was 7 1/2 guineas per cent.

The member of the London Stock exchange could not allow his name to be used because of the rules of that body. He said that the current rate upon Mr. Harriman's life was between 7 1/2 and 8 guineas per cent in American rating. He declared the writing of policies on Mr. Harriman's life to be of daily occurrence in London and that they were doubtless in the nature of insurance against stock depreciation in the event of his health failing.

Three months ago the Lloyds' rate quoted in New York was 10 guineas per cent and in some instances as high as 15 guineas per cent. The favorable reports upon Mr. Harriman's health account for the lower rates quoted at present. The policies cover every contingency and run for a year.

DECREASING USE FOR NATIVE TANNING BARK

Washington, July 23.—That the use of native bark in tanning is diminishing, due mostly to its increased cost, is stated in a preliminary report on the consumption of tanbark and tanning extracts for the year 1908, just made public by the census bureau.

With this has come an increased consumption of imported tanning material, particularly quebracho, mangrove and myrobalsams.

DIRECTOR OF CENSUS COMPLETES DIVISIONS

Washington, July 23.—The division of the United States and Porto Rico into census districts, and the designation of the number of census supervisors to be employed for the thirteenth census, which will begin April 15, 1910, has been completed by Census Director Durand. Those in which the supervisors' districts differ from the congressional districts and the number of supervisors allotted to each include: California, 3; Colorado, 3; Montana, 2; South Dakota, 2.

THE MOORS MAY MAKE A NIGHT ATTACK ON SPANIARDS

Tribesmen Have Divided Their Forces and Are Believed to Be Ready for Fight.

SPANISH TROOPS WITHOUT MONEY

Many Called to the Front are Leaving Families Without Support and Government Must Come to Aid.

Melilla, July 23.—The Moorish tribesmen have divided their forces into two columns, one concentrated at Souk Mazuka and the other at Mt. Gurugu. It is expected they will make a night attack on the Spanish position.

SOCIALIST WILL ANSWER TONIGHT

Brand, Offered Premiership of France, Hestitates to Take the Job.

Paris, July 23.—Aristide Briand, scholar and socialist, who is charged with the formation of a new French cabinet, announced this afternoon that he hoped by reconciliation to form a republican cabinet but that he preferred to see M. Bourgeois premier. He will give the president his answer tonight. He has asked M. Cailheux to resume his position as minister of finance.

The selection of Briand as premier to succeed Clemenceau has aroused considerable opposition, particularly among conservative legislators, who believe, however, that should he be chosen premier and select a cabinet, his reign would be of short duration and would result in a more conservative ministry that it is believed Briand will select.

ELIOT PREDICTS A NEW RELIGION

Former Harvard President Says It Will Rely Only on Laws of Nature.

Cambridge, Mass., July 23.—Charles W. Eliot, president emeritus of Harvard in an address before the Harvard summer school of theology yesterday prophesied the advent of a new religion.

"You will not be bound by dogma or creed," he said. "Its working will be simple, but its field of action limitless. Its discipline will be the training in the development of co-operative good will. It will attack all forms of evil. There will be no supernatural element; it will place no reliance on anything but the laws of nature. Prevention will be the watchword and a skilled surgeon one of its teachers. The new religion will not teach that Christian religion can be changed quickly. It will not deal with sorrow and death, but with joy and life."

GERMANS TO BUILD AIRSHIP GARAGE

Berlin, July 23.—A company was formed here today for the purpose of erecting a great airship garage with landing and testing grounds. The project is made up of many persons well known in Germany, including Major von Tschudi, manager of the Frankfort Air Navigation exposition; Captain von Kahler, manager of the Motor Airship Study company, and Captain von Pustan of the German Airship society.

As the company is interested in dirigible balloons, it designs to lease about 1,600 acres near Berlin, where it will erect great sheds and repair shops and gasoline and hydrogen reservoirs.

"WE GET THE NEWS FIRST." STATEHOOD FOR NEW MEXICO! We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.—Republican National Platform.

Merely a Joy

New stimulation appears with simultaneity to have quickened the aeroplane pulse. While the Wright machine sulked at Fort Myer and the army experts grew fidgety over the delayed official trials, there seemed to come a general halt in successful demonstration everywhere, for a time. Then a new star arose in the eastern sky and Glen Curtiss began daily to break his own records, both for endurance and speed, to exhibit increasing powers in his machine, a fresher confidence in its stability, a greater expertness in its guidance.

Remaking Man

Surgery of the present day is not at all dismayed by the somewhat discouraging maxim that man is fearfully and wonderfully made. The knife has entered upon a course of extirpation that promises to eliminate, even if by heroic methods, some of the bits that flesh is heir to.

The fact that two "dope" fiends were arraigned in police court the other day, should lead the city authorities to make a quiet investigation as to which druggist, if any, is selling dangerous drugs in defiance of territorial and city regulations.

The murder of a man in Las Vegas night before last by footpads should stir up the territorial authorities to a little quick work. This crime should not be allowed to go unpunished. It comes too near resembling life in the states and New Mexico wants none of it.

The world is growing better. The Sultan of Turkey and the Shah of Persia have both been dethroned but not killed. Only a few years ago, the first thing that would have happened to both would have been public execution.

The late shah of Persia recently declined to receive a delegation sent to notify him officially that he was no longer shah. He sent the delegation word that he knew all about it.

If Standard Oil succeeds in really making butter out of kerosene, it will not be long before we will begin to train ourselves to do without butter.

A hurried glance at the new tariff bill, fails to disclose a tax on baby buggies. Evidently someone overlooked a bit somewhere.

Most of the trouble in this world comes from the fact that one half of the inhabitants are women and only the other half men.

Poor old Bill Bryan—someone has stolen his corporation tax idea again. These Bryan policies should be copyrighted by all means.

The Chicago Post frames an old saying in new words when it advises as follows: "Young man go west and irrigate."

AND WORTH \$1.20. N. S. Belden, the premier dry farmer of this section, was in town today from his ranch.

JUNE BRIDES FADING. There were more June brides this year than last, but with such wilting weather for weddings the May brides ought to become steadily more popular.

ARIZONA GOLD. Monday started well with the Prescott National bank in its receipts from the outside of gold bullion.

SCOTTY COULDN'T REFUSE. Scotty Dean, the well known local character, has accepted a position with Sheriff Stevens at Lincoln for thirty days, commencing last Tuesday.

TRAIN THE BRUTE. There is a great deal in the old saying that the way to a man's heart is through his stomach.

WORKS PERFECTLY. This town has now been without a saloon for two and one-half months and conditions have justified to the fullest the hopes of those who advocated no saloon.

A Night Rider's Raid. The worst night riders are calomel, croton oil or aloes pills. They raid your bed to rob you of rest.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure.

Was Once River Bed. Harry Yarnell is engaged in mining operations at Rich Hill which some of these days will create a stir in this part of the world.

Many Rich Church Goers. Among the sins of the plutocrats it seems that non-churchgoing cannot hold a place.

Was Once River Bed

Harry Yarnell is engaged in mining operations at Rich Hill which some of these days will create a stir in this part of the world. Everybody has heard of Rich Hill from the time of Jack Swilling, who with a party was led to it by an Indian.

The expedition, however, was not without result for soon after that the wonderful discoveries of gold nuggets began to be made on the hill.

He brought it back with him and at Chicago he met Governor Murphy who borrowed it and took it about town to show to prominent friends.

He has operated in that region and studied it for more than a generation. That it was brought down there by the waters of the Hassayampa.

But those who have studied the country have been brought to agree with Mr. Yarnell that a river bed once lay across it, that under the influence of earthquakes the surrounding country fell away.

Rich Hill is a lower eminence separated from the range by a small valley. On both the north and south sides of this range there are springs.

One of these springs overlooks Rich Hill on the south and the other Piacentia on the north.

Mr. Yarnell believes that these springs indicate the level of the former bed of the Hassayampa and that explorations along that level will uncover more of those nuggets that have ever been found.

In pursuance of this theory the Old Cannon Mining company has been formed. Mr. Yarnell having a short time ago made all the necessary preparations for the carrying out of his theory.

It is not what you pay for advertising but what advertising PAYS YOU, that makes it valuable.

Many Rich Church Goers

Among the sins of the plutocrats it seems that non-churchgoing cannot hold a place. This is discovered at least to the satisfaction of the Home Herald (Chicago), which was spurred to an investigation by the pessimistic declaration of "a preacher of one of our large city churches" that not fifty of this city's rich men could be found attending church.

The Herald took up the challenge and addressed a number of prominent clergymen. Dr. Edward Everett Hale in one of the last letters he ever wrote, asserted that he didn't know many rich men, but "as it happens, all that I do know have been very regular attendants at church."

Dr. Parkhurst and Dr. MacArthur of New York supported in the main this assertion, the former writing: "Almost all of those who, in this city, are phenomenally wealthy and whose names are widely known—such as Rockefeller, the Vanderbilts, the Goulds, the Morgans and the Kennedys—and I might add the names of several representative families such as the Dodges, the Jameses, the Jessups, the Hartleys and the Stokeses—three or four of whom are recently deceased—not only attended church but are contributors to the maintenance of the church."

Dr. F. W. Gunsaulus of Chicago writes: "The strongest men in this city financially and socially are in the churches." Dr. Charles S. Mills of St. Louis finds in his congregation "a number of men of large wealth in positions of leadership in St. Louis."

Dr. Dewey of Minneapolis says: "Yesterday two of the richest men in this community, engaged in a business of world-wide scope were in my congregation, and they are habitual and active attendants at divine services."

Rev. Dr. R. J. Burdette of Los Angeles writes: "I find rich men everywhere, but thinks they have forgotten their pocketbooks." He writes: "The impressions vary according to circumstances. When I look down at the two or three thousand people in my congregation, and see how they are dressed and especially contemplate the display of up-to-date hats, I think I am preaching to a congregation of millionaires. When the collection basket comes back I have the impression I have been preaching a charity sermon at the county poorhouse."

THE LITERARY DIGEST. STREET CAR DON'TS. In close conformity with the suggestions made recently by the Evening Post, John M. Beach, president of the Chicago Railway company, has drawn up his set of warnings to the street-car using public.

Don't cross tracks without looking both ways for approaching cars. Don't get caught in the narrow space between two tracks when cars are passing.

Don't fall when leaving a car to look up and down the street for an approaching automobile or other vehicle. Don't jump on or off the car while it is in motion.

Don't ride on car steps. Don't get off facing rear of the car. Don't cross opposite track after leaving car without looking for a car or vehicle which may be approaching from another direction.

Don't run after a car and jump on it while it is going at full speed. Don't let your children play near street car tracks.

In the old days the only appeal to the public which the street car carried was, "Passengers are requested to wait until the car stops before getting on or off." Chicago Evening Post.

A MILLION A MINUTE

By Hudson Douglas

"Then you don't wish to meet this young man at all," said Miss Jane decisively. "He's been here two or three times to find out whether you've called. He told us that you were in Paris again, although we were scarcely inclined to believe him at first."

"How can he know that?" cried the girl in renewed alarm. "Oh, I hope you won't tell him a word about me, Miss Jane, Miss Sophia. Please promise me that."

her maid, I'll be bound—and she's Dagmar Lorraine. Yes, that's it, sure, Dagmar Lorraine."

Quaintance had ceased to breathe. His lips were bloodless, compressed. He stood immobile, stricken, staring. Where had he seen the Duc before? Once at the bungalow on Long Island and yet again that morning at Anteuil. And the duchesse? Ah! It was that which hurt.

about it, if I remember." "That was no easy task you set me, Etienne," the other told him. "Is there a man on watch?" monsieur asked.

"There has been one since I had surveillance established," replied the other pompously. "You won't mind rewarding me with a card for the president's reception, will you, Etienne, mon cher?"

"Phone me about it later," monsieur called back to him, and, "Confound the fellow's impudent familiarity!" he muttered to himself. (To be Continued.)

NATURE TALES FROM MAINE. Mrs. William Holbrook of Harpswell, an ardent nature student, was much amused at a fight between her cat and some robins.

JUST A STREAK OF RED BUT SHE PAID HER BET

MRS. CLARICE MCGOWAN.

Pendleton, Ore., July 22.—To pay an election bet, Mrs. Clarice McGowan, president of a local woman's club and one of the prominent women of eastern Oregon, passed through the main streets of the city a few days ago, attired in the native dress of an Indian woman. When George Chamberlain, ex-governor of the state, and U. S. Senator Fulton were pitted against each other for election to the seat in the senate, Mrs. McGowan, whose husband was an ardent Fulton man, wagered with one of her friends that Chamberlain would be beaten. According to the conditions of the bet, the loser was to don the abbreviated and beaded garb of the meek red woman and traverse the principal streets during business hours. Chamberlain won; Mrs. McGowan lost. She paid the bet. As the hour approached for her expected walk everyone in her social set had business which brought them into the heart of the city. But no feminine pedestrian came upon the thoroughfare. Instead, there was a flash of red, a smell of gasoline and the watchers caught a glimpse of a beautiful dark skinned woman in the buckskin clothing of the aborigine as she flew down the street at the wheel of her auto. She had "traversed the streets." The debt was satisfied. Mrs. McGowan was triumphant and her friends were outwitted.

A good part of the enjoyment of your vacation depends on your footwear. Buy a pair of cool, comfortable, stylish low shoes, the kind we sell, and get all the pleasure that is in it. Our prices are very reasonable. C. May's Shoe Store, 314 West Central avenue.

A Night Rider's Raid. The worst night riders are calomel, graton oil or aloes pills. They raid your bed to rob you of rest. Not so with Dr. King's New Life Pills. They never distress or inconvenience, but always cleanse the system, curbing colds, headache, constipation, malaria etc. at all dealers.

Never can tell when you'll wash a fester or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

AN ANCIENT CITY MIGHT BE THERE

Albuquerque Man Says He Hunted for Mammoth Caves in Navajo Country Years Ago.

"The statement that Dr. Hewett has discovered mammoth caves filled with relics of an ancient people in the Navajo country recalls a trip I took to that country in 1883, when a party of three of us went out with an Indian guide on a prospecting trip," remarked Dr. W. N. MacBeth, proprietor of the Hooster cigar store, this morning. "We went out from Gallup in about the same direction Dr. Hewett did but we didn't find the caves or an ancient town said to be in the same vicinity, probably because the Indian guide we had didn't know of the caves and town or else superstitious fear kept him from taking us to them. We went out principally to hunt for a ledge of gold we had heard about, and we tried to find the caves when we heard about them. After we got back and thought it over we came to the conclusion we were lucky to get back alive, for the Navajos were on the war path in those days and we ran a big risk in going out into their country. We saw one war party, but they didn't molest us. The greatest risk we ran was from rattlesnakes. We literally kicked them out of the way, but fortunately no one in the party was bitten. There were thousands of them in the country we traversed. "Our guide told us of big caves where people lived years before, and of an old town near them but he said he didn't know where they were and we were unable to find them. The country is so rugged that it was hard and slow work to travel and we couldn't cover a large amount of territory in the search. So we came back without gold or prehistoric relics, but glad to get back."

EVER HAVE IT?

If You Have the Statement of This Albuquerque Citizen Will Interest You.

Ever have a "low-down" pain in the back? In the "small," right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it.

Albuquerque people endorse this. Read a case of it:

T. A. Barnett, retired, 914 S. Broadway, Albuquerque, N. Mex., says: "For years I was troubled by kidney complaint which was growing gradually more severe. I had pains in my back, a general weakness and any exertion tired me out. The kidney secretions were too frequent in passage and obliged me to arise often at night. About a year ago I had the good fortune to learn of Doan's Kidney Pills and began their use. I can say that no other medicine ever afforded me such great benefit. Doan's Kidney Pills not only gave me strength but toned up my kidneys and invigorated me generally." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WANTS FREEDOM FROM AGED WIFE

San Rafael Man Decides that Married Life is a Failure After He Tried It Thirty-Four Years.

After more than thirty-four years of wedded life, Juan Garcia, Jr., of San Rafael, has asked the Second district court to give him freedom from his wife, Edubien Torres de Garcia, alleging desertion. The suit was filed this morning by Attorney Modesto Ortiz. The plaintiff says in his petition that they were married March 14, 1875, at San Rafael and that seven children were born to them, but that only one, aged 25 years, is alive. The plaintiff asks for absolute separation.

GOWN OF JERSEY

Every woman over 25 years of age remembers the black jersey she wore once upon a time, and she remembers that she liked it, too.

Now, here comes the Jersey dress—the newest thing under the sun. It is really quite modest in comparison with the low-cut gowns women in the east are wearing, in that it has high neck, long sleeves and trailing skirt. But, you see, the woman who wears it must have perfect lines, and those who have not may call it vulgar, for it clings very closely to the figure.

It is trimmed with a wide band of stitched taffeta silk at the base of the heavy net yoke, and at the hem of the sleeves, but otherwise it is left perfectly plain.

And it fits—oh, how it fits! Especially over the bust, shoulders and back. In Paris and in London it is being worn and one or two may be seen in the New York shops.

**BICYCLE RIDER
COLLIDED WITH AUTO**

E. B. Booth is Confined to His Home With Injuries Received in an Accident.

E. B. Booth, of 721 West Gold avenue, is confined to his bed as a result of a collision with R. H. Collier's automobile. His left foot is injured and he has a number of severe bruises on his body.

The accident occurred about 9:30 o'clock Wednesday evening on Central avenue between Seventh and Eighth. Mr. Booth was riding a bicycle and Mrs. Collier was driving her machine. Just as they met Mrs. Collier changed from one side of the street to the other. It was dark and she did not see Mr. Booth. He endeavored to get out of the way but the auto was faster than his bicycle. He was thrown to the ground and in some way his left shoe was torn and his foot crushed. Mr. Booth was taken in the machine and driven to his home on West Gold avenue.

Mrs. Collier and a party of friends were returning from the mountains when the accident occurred.

**INDIANS WANT
MINING CLAIMS**

Otero County Citizens Ask Forest Service to Withhold Parts of Forest Reserve

Considerable interest is attached to what action the forest service will take with respect to mineral lands on the Alamo National forest, in Otero county, part of which is soon to be opened to the Mescalero Apache Indians for allotment.

The government has been petitioned to set aside the land known to contain mineral and the matter is now under consideration. A number of persons living in Otero county, it is understood, are working on mining claims of the preserve, and fear that when the Indians are permitted to make their allotments they will choose the mineral lands. It is rumored, in fact, that the Indians are very much interested over the possibility of securing mineral lands and are laying plans to make their allotments where it is known that mineral can be found. The petition to the forest service is to have all the mineral lands set aside as public domain to be prospect and taken up under the mining laws.

Following is the petition:

"The substance of which shall be that where valuable mineral deposits have been discovered and located within the above mentioned portion of the Mescalero addition to the Alamo national forest the mineral lands so located shall not be subject to allotment by the Indians.

All of the lands on which mineral has been discovered is absolutely valueless for other than mining purposes, as it is in the very roughest part of the mountains and where the timber is of a scrubby nature so that the land is wholly unfit for agricultural purposes or for timber.

"It has been suggested that some of the Indians in selecting their allotments, when the land is allotted, expect to select their allotments, so as to cover the most valuable mining properties in the reservation.

"At the present time the most valuable mineral deposits in this part of the country are supposed to be located in the above mentioned reservation, some very valuable mines have been located and some development work done sufficient to prove their value and while every one realizes that the development of some good mines would be one of the greatest means of development and helping this part of the territory, no one feels like investing their money or further developing their property, if there is any possibility of conflict with the Indians' rights or litigation with the government.

**TINY LITTLE TOADS
COVER THE LAWN**

Thousands of Them Took Up Their Residence in the City After Rain Yesterday.

Did they come from the skies or from the ground? Are they a pest or a blessing?

Will they stay and swat the fly or will they migrate to the tall uncult along the Rio Grande?

These are questions bothering a number of west side residents today in which very many little toads are concerned.

They came last evening with the rain. Some are as large as a gum drop and some are no larger than the small end of a little finger on a very dainty hand. The smallest ones are about the size of a five-carat diamond.

Thousands of them cover the lawns in the vicinity of Robinson park. The grass at this park is full of them. A dry goods clerk in a fashionable store of the city, who sat on the dump grass in the park last night, had one in his pocket this morning. His friends will know him hereafter as Toady. So will the young lady who sat with him in the park.

The remarkable thing about the appearance of so many little toads is the fact that they are to be found in a very narrow strip. There are a few on Copper avenue east of Eighth street, and a few on Tiberias avenue west from Eighth to Eleventh, but none north of Tiberias avenue, Copper avenue and Central avenue from Eighth street to Tenth street are covered with them, and all the intervening space, lawns, yards and gardens, are alive with them. They are little, flat, black things that hop, and the ground seems to move as one moves among them.

A number of bugologists were interviewed this morning on the phenomenon, but none of them could give any explanation of it. Some believe the toads were rained down and others maintain that they came out of the ground. The residents in the vicinity of Robinson park are a little worried about the presence of the toads.

**HEAVY RAINFALL
WEST FROM GALLUP**

Albuquerque Man Says It Was Hot at Yuma, but Natives Didn't Mind It.

The washout at Chambers, Arizona, which tied up the Santa Fe several days, was the result of heavy rainfall throughout Arizona and in western New Mexico, says an Albuquerque man who returned today from the west. Hard rains fell all the way from Gallup to Kingman, Arizona, and broke a drought that has existed for months.

"The rains brought relief from the heat all the way, except at Yuma," he said, "and of course heat is expected at Yuma any time, still, according to a native I met there, the weather had moderated.

"This cool spell is certainly fine," he remarked.

"How hot is it?" I inquired.

"Oh, 'bout 115, I guess," he answered, and I didn't dare laugh."

**IS LEFT AN ESTATE BY
MAN SHE WAS TO WED**

MISS HARRIET ALBRIGHT.

Saginaw, Mich., July 23.—Feeling death coming, Dr. Wickner of Erie, Pa., changed his will so as to make Miss Harriet Albright of this city his heiress. They were engaged to be married, but Dr. Wickner had been in ill health for several months. His estate amounts to \$29,000 and will be turned over to Miss Albright, according to advice which she has received from Erie. She is a milliner.

DON'T WORRY.

During this hot weather you should do just as little work and fretting as possible if you want to keep cool and healthy. One of the best ways to prevent worry is to let someone else do the worrying for you. A little want ad in The Citizen will do your work and do your worrying. It will sell what you have to sell and buy what you want to buy. Telephone 15. Read the classified page every day and see what it does for others.

**WESTERN BOY
A GREAT PITCHER**

Harmon, Who Played Here Last Year, Makes History in Game Between St. Louis and New York.

Among the baseball stars of the southwest last year, who have made good in the metropolitan class this year, is big Hal Harmon of the St. Louis Nationals. On Monday of this week Harmon pitched a sixteen-inning game against the Giants and was beat only by a score of 4 to 3, after his team-mates had thrown away a chance to score in the inning before. Last year Harmon pitched for Globe at the territorial fair, but was beaten by Trinidad after having struck out sixteen men.

Following is what the New York Herald said about Harmon's pitching against the Giants:

"A man named Harmon pitched for St. Louis, and this appearance was his metropolitan debut. Yesterday he was unknown, and today he is hailed as a world beater. So short is the step from the bottom to the top of the ladder of baseball fame, the long contest progressed. He steady, reliable and game, being at his best in pinches and improving as the long contest progressed. He worked as smoothly as does a well jeweled watch. He never faltered and made his way unerringly to victory. When at last he had won the long game Roger Bresnahan, his boss, shook him by the hand and said simply:

"It's all coming to you, old boy."

MINING CLAIMS ARE DECLARED INVALID

Decision Is Result of Controversy Between Government and Claimants.

Washington, July 22.—First Assistant Secretary of the Interior Frank Pierce has just made a decision declaring invalid certain mining locations claimed by H. H. Yard and the North California Mining company for land in the Plumas national forest, California. This decision is the culmination of a controversy between the government and the mining claimants, which was actively begun on March 16, 1907. Before that date it was found that Mr. Yard and the North California Mining company were claiming approximately 240,000 acres of heavily timbered land, worth approximately \$5,000,000, and located in the Plumas national forest, in Butte and Plumas counties, California.

Through co-operation between the Department of the Interior and the Forest Service a geological examination was made of part of the land. In consequence of this examination the North California Mining company relinquished locations covering about 31,000 acres of land, and charges were made by the commissioner of the general land office against locations for 31,000 acres.

Mr. Yard and the company contended that the department of the interior had no jurisdiction to determine the validity of the locations. The testimony at the hearing before the local land office at Susanville, Calif., shows that the 11,000 acres were covered with about 160,000,000 board feet of timber valued at about \$320,000, and that although the claims had been held by Mr. Yard and the mining company for from two to five years, there had been recovered only about three dollars worth of gold, and this recovery was made during six months of prospecting after the hearing had been ordered.

The local office at Susanville on February 7, 1909, decided that the charges made by the government had been sustained, and that the land did not contain such valuable mineral deposits as would subject them to entry under the mining laws.

The claimants appealed from the decision of the local office to the commissioner of the general land office, but on August 27, 1908, the commissioner sustained the local office's decision. The decision of First Assistant Secretary Pierce now finally sustains the commissioner.

It is the policy of the government to foster and encourage mining. The law permits prospecting for minerals upon national forests and allows the perfection of mining claims upon national forests to the same extent as upon the vacant public land. The policy of both the department of the interior and the forest service is to foster and encourage legitimate mining operations, and not to attack mining locations which are believed to be in any way valid, as well as assist in the development of valid mining claims.

The law authorizes, and the forest service does grant, the free use of timber to miners. The preliminary development of their claims, unless there is a sufficient stand of timber for that purpose upon the claims. The locations made by Mr. Yard and the mining company have retarded the timber development of a rich section of the country lying along the newly constructed Western Pacific railroad.

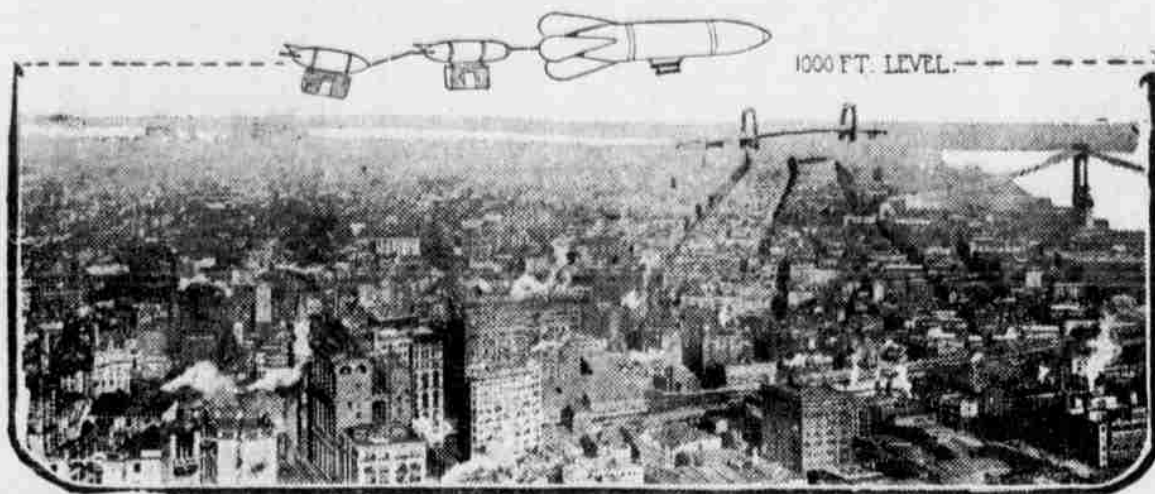

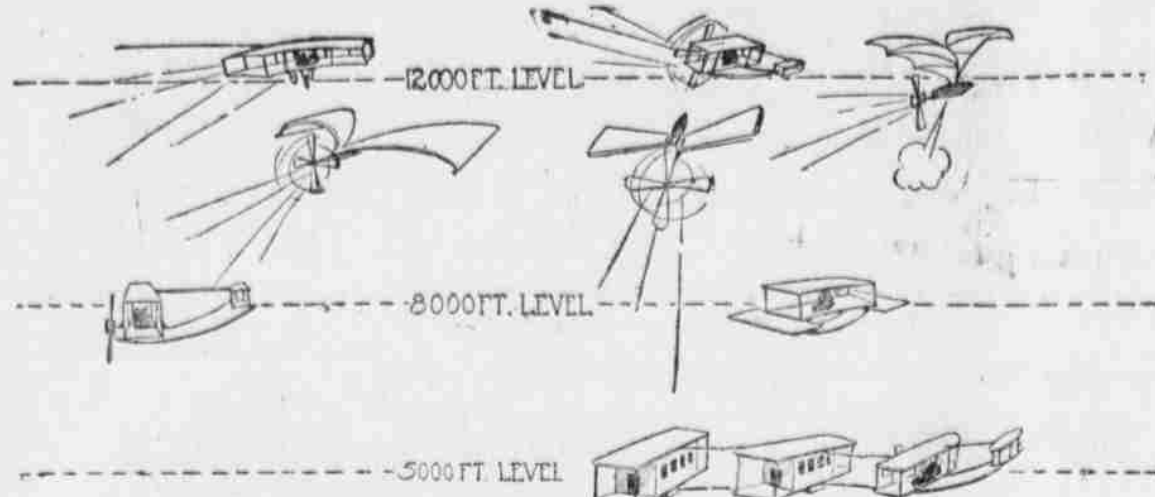

Since the claims are located in a more or less mineralized country, in which successful mining has been done in the past, the location for 240,000 acres have necessarily embraced some mineral lands, and as the claimants have carried on no mining operations, these mineral lands have really been withheld from legitimate miners, and the mineral development of that section has been interfered with and retarded by the fraudulent claims. No effort has been made by the claimants to discover or develop minerals upon any of the lands.

The decision of the first assistant secretary of the interior has established a policy which will enable the forest service to protect national forest lands from fraudulent appropriation under guise of the mining laws. Both the department of the interior and the department of agriculture announce that there will be no difficulty in distinguishing between the proper and fraudulent use of the mining laws. The benefit of every doubt is given to miners. The greatest care is taken before any report adverse to miners is accepted by the general land office. As a result, charges against mining claims, only claimants who are perverting and misusing the mining laws for fraudulent purposes have anything to fear.

Hair Dresser and Chiroprapist.

Mrs. Bambini, at her parlors opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrown nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares hair tonic and cures and prevents dandruff and hair falling out. restores life to dead hair, removes moles, warts and superfluous hair. For any blemish of the face call and consult Mrs. Bambini.

"Airways"—Routes Fixed for Airship Travel

Do you intend to fly? If so, note the birdseye view of New York city, showing also airways or level on which you will probably have to travel, according to the kind of ship you own. United States signal officers already have tentative plans

Washington, July 22.—Officers of the signal service, here to watch the Wright brothers, are astonished at the way millionaires of this country and Europe have taken up the flying craze. Hundreds of aeroplanes and dirigibles have been bought by rich men and women since summer began. Col. E. H. R. Green, son of Betty Green, is one of those who have bought aeroplanes from the Wright brothers. He gave \$10,000 for his. It is plain to army men that this enormous outlay will have an important sequel. The time has come when rules of the air must be made just as rules of the road were made. They will govern flying in all nations, and will prevent accidents by collisions.

Hardly a week passes but a new kind of flying machine is invented to

take a place in the aerial procession that in a very few years will be whizzing above every big city. Signal officers say the new laws of airways will be made easily. The air has infinite length and width, but only six miles or less of height. So the fastest airships will be forced to stay in the higher air, and the slower closer to the earth. Officers who have given the matter great attention and study have already formulated tentative rules for air navigation. They place the heavier, less rapid airships, which may be carriers of packages, on the lowest level or airway. They move slowly and can be stopped easily when mountains just their peaks into the paths of the machines or trees interrupt flight. Also they will be able to reach earth stations quicker at the end of trips. The height of the freight airway

will be about 1,000 feet. Above that will be a passenger airway at about 5,000 feet, where the limited air-trains of ten years from now will carry human freight.

Speeds of from 39 to 75 miles an hour will be made here, and disasters such as collisions with freights will be impossible.

The fastest air craft, those for pleasure, that will hold only two or three persons and will go 100 miles an hour, will have their airway at heights of 8,000 to 10,000 feet, and above the top limit of the pleasure airway, 12,000 feet and higher, will be the paradise of the joy rider.

Far above the clouds, the speeder of the future can "hit 'er up" with no fear of balloon policemen, if he stays in his airway. His barometer will show what airway he is in, and there will be no limit on the speed.

NEW BOND ISSUE PRESENTS FEW PROBLEMS

Government Doesn't Want to Depreciate Outstanding Bonds by New Plan.

Washington, July 22.—How to protect from serious depreciation outstanding United States bonds is the interesting problem which confronts Congress in connection with the authorization of a new issue and it is thought its solution can only be effected through some equitable adjustment of the tax on circulation. According to present plans the secretary of the treasury will be authorized to issue from time to time additional Panama canal bonds up to \$299,669,020 bearing not to exceed three per cent interest.

The government's interest bearing debt at this time aggregates approximately \$19,993,000,000 of which nearly \$731,000,000 is in 2 per cent bonds. Of this total the national banks of the country have on deposit in the treasury securities for circulation of about \$49,000,000. Four-fifths of the entire national debt therefore is in these two classes of two per cent bonds.

Under existing laws national bank notes when secured by two per cent bonds are subject to a tax of one-half of one per cent per annum while circulation based on bonds bearing a higher rate of interest pays a tax of one per cent. It has been estimated that at the present market price of both two per cent consuls and Panamas, there already has been, on the whole amount outstanding, a depreciation from the price at which the government sold them of about \$18,000,000 and it is believed in some quarters that to issue any considerable proportion of the threes, which it is proposed to authorize with circulation privileges not materially inferior to those accorded the twos, probably would result in the further depreciation of the latter which might reach a point even below par, thus impairing the public credit.

There are \$41,000,000 in 3 per cent bonds and approximately \$118,000,000 in fours, now outstanding. The latter, however, are mostly held for investment and are little used as a basis for circulation and therefore need not be the subject of any special concern in this connection. The threes, however, to the amount of \$13,387,820 are on deposit in the treasury to secure national bank cir-

ulation and any increase or decrease in the circulation privileges accorded this class of bonds would have an important bearing on their market value.

The question therefore before Congress is how not to discredit 2 and 3 per cent bonds now up for circulation and at the same time make the proposed issue of 3 per cent bonds attractive to investors. A number of suggestions of possible solutions of the problem are known to be under consideration. One of them is to reduce the circulation tax on 2 per cents to something below the half per cent now collected under the existing law. Another proposition is to decrease the rate on twos with or without increasing the rate on the threes and still another is to increase the tax on threes, allowing the rate on twos to remain as at present.

It is argued that the government

could well afford to reduce the tax on circulation in view of the fact that the records of the treasury department shows that the banks have paid into the treasury in taxes since the beginning of the national banking system about \$160,000,000 in excess of the cost of the operation of the currency bureau. Another proposition advanced is to withhold from bonds of the proposed issue all circulation privileges and still another suggestion is that the levying a tax on bond secured circulation be wholly repealed. It is not believed, however, that these two suggestions will be taken into serious consideration.

Our work is as near perfection as possible. No old, worn out, broken down or obsolete machinery in our plant. Everything new and up to the minute. Always better work and more prompt service. We defy competition. A trial laundry bill will convince you. Imperial Laundry Co. Back of post office. Phone 148. Red wagons.

WORK THAT TELLS.

The Kind Albuquerque Readers Appreciate.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see that they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in this locality. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. Can any Albuquerque suffer longer doubt the evidence?

Alberto Garcia, Galisteo street, Santa Fe, N. M., says: "The statement I gave some years ago regarding my experience with Doan's Kidney Pills, was correct in every detail and I can now positively say that my cure has been a permanent one. I used Doan's Kidney Pills for backache and too frequent passages of the kidney secretions, troubles which had annoyed me for some time. They entirely cured me and I now have a higher appreciation of the medicine than before."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

CITIZEN WANT ADS BRING RESULTS.

Proprietary Medicines Prescribed by Doctors.

Examination of the formulary department of leading drug stores throughout the country has proved that a very large percentage of the prescriptions filed for doctors are for proprietary medicines.

This is because the average doctor of today is unable to devise prescriptions equally as efficacious. Such standard remedies as Lydia E. Pinkham's Vegetable Compound are prescribed over and over again by fair-minded physicians throughout the country.

TUMOR OF FOUR YEARS GROWTH

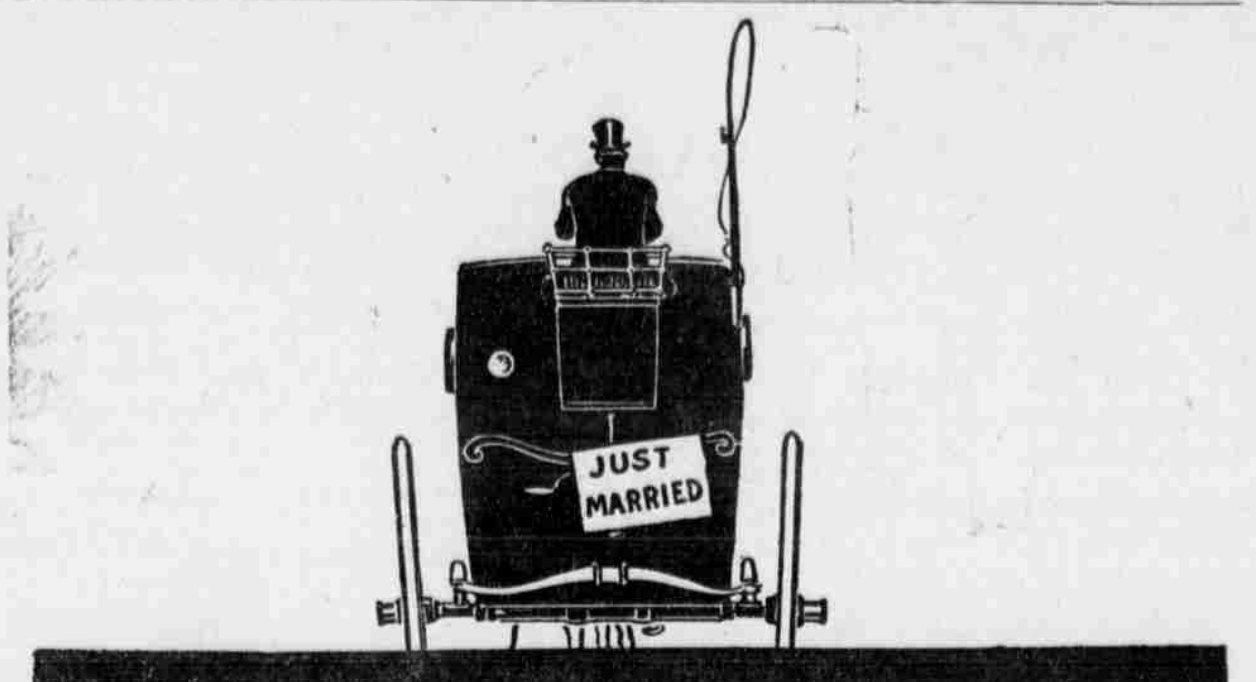

Removed by Lydia E. Pinkham's Vegetable Compound

South Bend, Ind.—"Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live."—Mrs. MAY FRAY, Lindley, Ind.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to every sick woman.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Off for the Honeymoon

Off for the train in a shower of rice and old boots—the happiest shower that ever fell upon the earth. It is the one time in life when the world seems the rosiest and brightest, when everything seems bursting with the sheer joy and happiness of living. But when the honeymoon begins to wane and the youngsters are ready to settle down in a home of their own—then begins the round of time old problems. First they must find a flat, unless they are going to live with the old folks. Then they must buy the furniture—and what fun it is too! and the cook—yes it is wisest to have a cook even if she did learn "domestic science" at high school. All of these problems can be simplified by a careful study of the want ad columns. The best flat in the city will be found listed there—if it is empty. Furniture just as good as new is for sale in these columns. And the cook—yes, you can find her there too by a little ad of your own. Don't overlook these little suggestions and the honeymoon will still continue to shine through all the dense clouds of reality—see if it don't.

Can you do as well as Mr. Nichols? Why not? Try. Write now to Parker Chemical Co., Chicago.

"If I Could Only Room in One of Those Residences."

HOW often have you heard some young man of your acquaintance make this remark as he passed by some big homelike houses on the boulevard? Or perhaps you have said it yourself.

Those homes with their wide, shady porches and big yards with wooden swings and croquet grounds don't look much like the crowded, weather-worn affair which, for \$3,00 a week, you are permitted to call your "home."

And it is not at all impossible for you to room in one of these fine homes if you go about it in the right manner.

Such homes as these don't rent rooms for profit, so consequently they do not advertise them. But they know how young men feel in a strange city and are often willing to have the right sort of a young fellow come into the influence of their family circle.

Your only way of reaching these people is through a want ad and if you state your case in a simple, straightforward way that carries the right ring with it, mentioning the location you desire, you will find this suggestion both practical and profitable in ways that work out in the development of your character.

SALESMEN

WANTED--Salesman: Experienced in any line to sell general trade in New Mexico. An unexcelled specialty proposition. Commissions with \$35 weekly advance for expenses. The Continental Jewelry Co., Cleveland, Ohio.

The Good Points Of Our Shoes

are visible. Any prospective buyer can see them at a glance. Outwardly they look good to the eye, inwardly they feel good to the foot and financially they are easy on the pocketbook.

Promises are something to be had in the future. Facts are something done sure—truth. We are talking facts.

Try our shoes and see the facts.

PERSONAL PARAGRAPHS

turned from a short business trip to Santa Fe and Denver, and will leave July 27 for a three weeks' trip to California points.

A. B. Becknagle, assistant chief of the silver culture department of the United States forestry service, left last night for Mountainair, where he will deliver a lecture on conservation work.

Mrs. Nell Cavanaugh, of 310 South Arno street, is enjoying a visit from her mother, Mrs. L. H. Ball, who arrived this morning from Winslow, Arizona. Mrs. Ball expects to remain a couple of weeks.

Robert T. Neill and Lamar Davis, two well known sporting men of El Paso, headed a part of El Paso people who passed through the city this morning en route to the Glorieta mountains on a fishing trip.

Lodge No. 89 of the Fraternal Union of America will meet Saturday evening at 8 o'clock at Odd Fellows' hall. All members desiring to attend the annual picnic August 1 must report in person at the lodge tomorrow night.

Mrs. Helen Noyer, daughter of Mr. and Mrs. Charles Noyer, of 410 West Marquette avenue, will leave tomorrow evening for Boston, where she will enter the New England Conservatory of Music. She will take up a regular course in vocal and instrumental work.

We have gentle, stylish saddle horses and fine saddles. We furnish skirts and leggings free. Come and inspect our stable. We take pride in it. Rates, \$1.00 for a hour, 2.00 each additional hour. Absolutely cash. Riding School, 519 North Third street. Phone 241 or 293.

Attorney Isaac Barth returned to the city last night from a business trip to Arizona. Tomorrow evening Mr. Barth will leave for Buffalo, N. Y., where he will represent an heir to a large estate. From Buffalo Mr. Barth will join his wife and her mother, who are stopping at Atlantic City. Mr. and Mrs. Barth will return to Albuquerque the latter part of August.

Fred L. La Porte, aged 21 years, of Montecilla, Ill., died of tuberculosis on the Highlands yesterday after an illness of several years. He had lived in Albuquerque for four months. Mrs. B. L. Huffman had been telegraphed of her son's growing weakness and arrived in night a few hours too late to see him alive. The body will be shipped tonight by borders to the old home for burial.

Auction Sale

Let no one forget the big auction sale of furniture at 117 West Gold Ave.

SATURDAY, JULY 24, AT 2 P. M.

Splendid furniture of all descriptions will sell to the highest bidder. Also the 20th Century ice cream freezer, guaranteed to freeze your cream in 15 seconds, will be on exhibition.

Tosti's Fad.
Sir Paolo Tosti, the popular song composer, has a fad for upholstering and it is claimed for him that all of the upholstering of Lady Tosti's drawing room furniture has been done by her celebrated husband.—The Circle.

DANGER IN DELAY.

Kidney Diseases Are too Dangerous For Albuquerque People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy Doan's Kidney Pills which has cured people right here in Albuquerque.

Mr. J. L. Curd, 410 S. Third St., Albuquerque, N. Mex., says: "I suffered from pains in my back for a long time and when I over-exercised myself or took cold, the trouble was aggravated. My kidney trouble was hereditary as my father died with Bright's disease. About a year ago Doan's Kidney Pills were brought to my attention and taking them for a short time, I was absolutely relieved of the pain in my back and felt better in every way. The merits of Doan's Kidney Pills was so plainly demonstrated to me, that I can with pleasure and confidence recommend them to others."

For sale by all druggists. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Announcement

FOR a long time we have realized the need and necessity of an up-to-date cleaning and dyeing establishment in Albuquerque, and are now prepared to announce to the public that one has been established. We have just completed the installation of the most modern machinery made, for cleaning by steam, vacuum or French dry process, the most delicate fabrics. Our dyeing department is also perfect, all work will in the future be done by steam, which will insure absolute fast colors, and will not rub off.

We are now prepared to give you the very best service between Denver and Los Angeles, giving special attention to Feathers, Woolens, Draperies, Silks, Lace Curtains, Linens, carpets, etc.

We extend to our patrons a cordial invitation to come in and inspect our entire plant.
