**BRIEF WIRINGS:**

**Airing Their Linen.**  
TOWSON, Md., Aug. 6.—One phase of a scandal that has stirred the entire aristocratic element of Maryland, is being aired in the district court to-day, where Mrs. Mara Carroll is showing cause why she should not deliver over her baby boy to her husband. The latter is John Carroll, of the famous Carroll family, which has held the immense landed estate known as "The Claves," for 200 years. Mrs. Carroll has had the reputation of being the most beautiful woman that Baltimore has ever known. She is seeking separation from him on the grounds of drunkenness and abuse. He retorts that she would not have him near her and refused to share his apartments, that she locked him up in a room and threw buckets of water over him. This kind of thing has been going on for fifteen years. Mrs. Carroll is worth nearly \$100,000 in her own right.

**Blood Shed in Texas.**  
HOUSTON, Tex., Aug. 5.—Further details of the battle on the Lock, Moore & Co.'s, train are that on Sunday morning a party of "Red Bones," a mob of mixed whites, negroes and Indians, about 25 in number, went to the store and announced that they would drive away Hooker Morris, manager of the log camp, in revenge for an insult offered two of the party. They were well armed and led by Jesse Dyson, a well known and desperate character. The white men, who gathered about the same strength, were led by Jesse Ward. In the battle which ensued Ward killed Jesse Dyson and was at once killed from behind, when the fight became general.

**List of killed:** Jesse Ward, white; T. T. Swan, white; Jesse Dyson, Lee Perkins, Andrew Ashworth, Owen Ashworth, Marion Marble.  
Wounded: Dnpree Lacombe, keeper of the store and saloon, and his son, both shot through the leg.  
Jacob's wife ran into the woods with her children, and escaped injury. A complete list of the wounded cannot be obtained, but about twenty are known to have been hurt.

Sunday afternoon thirty Red Bones came to the camp after the bodies of the dead, and dumped the bodies who were at the scene and who, under threats, are organizing a strong force to storm the stronghold of the desperados.

**The Work of Veterans.**  
DETROIT, Mich., Aug. 6.—The sessions of the national encampment of the Grand Army were resumed this morning. Two important questions will be acted upon during the day. One is the election of the next commander-in-chief. The other is the selection of the place of the next encampment. For the commander-in-chief, A. G. Weissart of Milwaukee, is decidedly in the lead. The Washington delegation will present the name of Past Department Commander Charles P. Lincoln. He is an ex-Libby prisoner, was consul to Canton, China, under General Grant, and is now deputy-commissioner of pensions. Ohio has a candidate in the person of General Samuel H. Hurst, well-known as "Fighting Sam." Hurst, one of the noted fighting generals of the Buck-eye state, and ex-department commander. Lincoln's chance is injured by the bitter personal quarrel that has been going on for some time between himself and ex-commissioner Tanner, and the latter will, without question, defeat him if he can. The Milwaukee man has a strong following among the eastern delegates. For the next encampment there is a warm fight between Washington, D. C. and Lincoln, Neb. The Washington people have not only raised a guarantee fund of 5,000 but promise to take better care of the veterans than any other city, and have furnished every delegate with a pamphlet of maps and illustrations showing the accessibility of a score of famous battle fields near Washington, together with several hundred reasons why the national capital would

**"August Flower"**

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDRICK, Saugerties, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

would be a good meeting place. The delegates from Lincoln, Neb., although hampered by the opposition of eastern veterans, are making a gallant fight. They say that about one half of the survivors of the war live in the states of Missouri, Iowa, Nebraska and the two Dakotas, while Kansas alone has within its limits upwards of a hundred thousand veterans.

**CONDENSED NEWS.**

Miss Eloise Willis, a former member of the Wallace and John McCullough dramatic companies, and Mrs. G. W. Lente, widow of a prominent New York physician, were recently ejected from the Windsor hotel at Saratoga, charged with breaking into a china locker. They now sue for slander.

**TERRITORIAL TIPS.**

The public school teacher has come to stay in New Mexico.

Seventy-nine cars of cattle were shipped from Silver City during July.

Mrs. Matilda C. Stevenson and Miss Virginia Deeple, two intelligent ladies in the employ of the Smithsonian, are making archeological researches in New Mexico.

The surveying party under Capt. George W. Brown, now in the field locating the line of the Rio Grande Irrigation & Colonization company's canal, is expected to reach Santa Cruz canon during the week. The party are now at Wallace and are pushing north with all possible dispatch.

Samuel H. Carter, the ranchman who shot Hon. Frank Hubbell at Rancho Atrisco, recently, was given a preliminary hearing before one of the old Albuquerque justices and was bound over to await the action of the grand jury, his bond being fixed at \$5,000. Mr. Hubbell was present at the trial and conducted the prosecution. He has recovered entirely from his injuries, which were not serious in the first place. It is alleged that Carter is demented.

Commenting on a railroad article in the New Mexican, the Silver City Sentinel says: "Right now and Grant county is doing her share towards this now. More lines of proposed railroads are being run and more actual railroad building is going on in Grant county to-day than in any other country in New Mexico. New people are coming in to the county every day, and taxable property is daily increasing both in value and amount. Grant county is the banner county of the territory."

**FARM AND ORCHARD.**

Phoenix nursery agents are selling big orders of fruit trees in Mora and Taos counties.

Fruit farming is destined to be more and more popular in New Mexico.

Santa Fe orchardists should begin now planning for a big fruit exhibit at the territorial fair.

Dr. Andrews' specimens of the Crandall "tree currants" have yielded abundantly this year.

Fruit trees require careful cultivation; it makes a wonderful difference in the size and character of the product.

Fruit lands in the Tesuque and Pajarito valleys are in great demand at from \$50 to \$100 per acre.

Here it is August 6, and no grapes from the lower country are yet in the local market. What's the matter with the Mesilla valley huntlers?

The first consignment of Farmington peaches was received in Durango last Saturday. Ten pound boxes were retailing at \$1. Durango is blessed in its proximity to that great fruit country just over the line, in New Mexico.—Durango Tribune.

To illustrate how productive is the soil of the Pecos valley, we call attention to the fact that corn, cane, oats and alfalfa are growing voluntarily all over town, while watermelons and cantaloup vines are spreading everywhere.—Edly Argus.

Hon. Israel King's farm in Grant county contains nearly 1,000 acres, of which sixty acres are in alfalfa, seventy-five in corn and twenty-five will be sown to oats shortly. The alfalfa is now being harvested and is yielding abundantly; it is cut on an average once every two and a half or three months.

The Live Stock Indicator, of Kansas City, thus quotes Angus Campbell, of Silver City: "Every cattle owner of Grant county is jubilant over the prospects for making a profit on their stock, and there is no reason why they should not. The ranges are covered with an abundance of grass and plenty of water, more than I ever saw in any year, time, is to be found in all the streams and springs."

**Murder at Las Cruces.**

Advices from Las Cruces state that a man named Antonio, son of the village barber, was found dead in the main street of the town on Monday morning.

A shoemaker whose name can not be learned, was arrested and also one Federico Ochoa, editor of the El Liberal newspaper. The shoemaker states that he and Montoya were engaged in a fist fight on Sunday night when Ochoa ran up and stabbed Montoya three times. The knife wounds correspond with those made by the knife Ochoa was in the habit of carrying. A blood-stained coat was found in Ochoa's house. Both he and the shoemaker have been incarcerated in jail without bail.

**Died Suddenly.**

Mr. H. Frantz, father of Mrs. W. M. Smith, died on the morning of July 22, at Lauterburgham Harz, a German bathing place, where he went for his health.

Although indisposed for some time, his death was very sudden and unexpected. His home was at Freiburg, on the Elbe, where he had long served as a government official. His age was 64 years. Mrs. Smith was not with him in his last moments, having gone on a short visit to Mrs. G. D. Koch at Cuxhaven. She was summoned but not in time to reach her father's bed side.

Atlantic cable laid, 1866.

WHAT is being done in the matter of a Santa Fe county exhibit at the territorial fair at Albuquerque; bestir yourselves in that line.

A STRICTER system of tax collections and a stricter and more reliable system of paying over and accounting for taxes collected should govern in New Mexico; the present system has been tried and proven a failure.

THERE is just one thing that the present city government can put into its pipe and smoke; no extravagance and no jobs will go through without being duly and fully exposed. Sabé; it will be well to fully understand the situation.

OUR Democratic friends in this lovely territory are already worrying as to whom they shall nominate for delegate to congress next year; they consider such a nomination equivalent to an election. However, they find themselves mistaken this coming year of our Lord.

AN old subscriber and valued friend of this journal writes to it, congratulating the paper and the editor upon the enemies they have made; our friend is right. This journal in its fight for the people and for honesty, decency and a good government is bound to make enemies; but it also gets even with them very often.

MAJOR McKINLEY says he is satisfied that "the club" is the most successful "weapon" in the politics of the times. So it is, and the sentiment is referred for the consideration of the Republicans of New Mexico. In union there is strength, in clubs there is success. Organize them in every hamlet and precinct and discuss among the people the principle of Republican policy which have ever been the safeguard of true American citizenship.

In the line of journalistic enterprise no western newspaper has the edge on the Denver Republican. Its management is fully abreast of the times in every particular. The Republican's latest stroke of enterprise was to send a brace of intrepid reporters on a balloon tour of the clouds with Profs. Baldwin and King, on Sunday last, and their extraordinarily thrilling adventures make one of the most interesting contributions to the literature of modern aeronautics.

A MONOPOLY THAT IS A MONOPOLY.

The Wells-Fargo Express company charges 10 cents a pound for expressage from Chicago to Santa Fe; but as that express company is compelled to pay dividends on several millions of watered stock, the people must be robbed in order that the rich stockholders of that monopoly may go to Europe, to be presented to the queen of England, to go to the Paris races, to gamble at Monaco and to have a good time generally; but the day is coming when that sort of

business will be made to stop, and when corporations and monopolies of the stamp of the Wells-Fargo Express company will be compelled to do right, and to furnish reasonable and efficient service; that day is not so very far off either. In the meantime, it is a long lane that has no turn and the turn of the people will come around in due course of time.

**WATER STORAGE.**

Even in these days of progress there are very many croakers who contend that water storage is yet an open question about which there is much that will not stand practical investigation. Such people must be dumb; in the west there are a score or more reservoir systems in successful operation a sufficient length of time to have thoroughly tested their practicability. The Australians are noted for their common sense and they, too, have adopted the reservoir system for irrigation purposes. The government there has just completed a reservoir at a cost of \$2,500,000, that has a capacity for storing 800,000,000 gallons of water. Some 60,000 cubic yards of cement concrete were required in the construction, the height of the weir is 110 feet; its length 580 feet and its top is fourteen feet in thickness.

**POULTRY FARMING.**

It is credible neither to the people or the poultry raisers of the United States that this country is yearly compelled to send abroad something like two and a half million dollars for that very ordinary yet nevertheless necessary article—eggs. About 16,000,000 dozen eggs yearly represents the shortage in the American demand, and to supply the demand the imported article must be had. This is all wrong, and we mention it here to emphasize the statement that poultry farming can be made a highly profitable business in New Mexico. The equable climate; the steady market; the cheapness with which small grain and alfalfa can be produced, and the extra good prices prevailing the year around, combine to make poultry raising in this region both pleasant and profitable. We often hear of people who would like to come to New Mexico and secure the benefits of this life renewing atmosphere while employed in some light, cheerful industry; one not too confining. Here it is. Poultry farming is the business for your ailing friend who wants to earn a good living while seeking health in the Rocky mountains.

**AN ATTACK ON THE CATHOLIC CLERGY.**

El Defensor del Pueblo, a paper published in Albuquerque by the White Cap leaders of New Mexico, and which has received and is still receiving strong monetary support from the Democratic territorial executive committee, in its last issue makes a very vicious, malignant and bitter attack on Archbishop Salpointe, on the Catholic hierarchy, on the French, Canadian and Deraches of this city. It also charges vile and criminal acts upon the great majority of the priests of the Catholic church of this territory and advises the native Catholic population of New Mexico to fight the priests at present in authority in Catholic ecclesiastical matters in New Mexico; the New Mexican is informed that more of the same sort of attacks on the Catholic clergy is to follow. As in matters political so in matters religious the White Caps of New Mexico, aided by the bosses on the Democratic territorial executive committee, are against the constituted authorities and those that be. That White Cap organization has done the people of San Miguel county great and lasting harm, and will, if permitted to go on, and not stamped out, do the entire territory much harm. Of course, the paper in question could not have been started had it not been for the aid and comfort given it by the Democratic headquarters in Albuquerque; this might as well be known.

**PRESIDENTIAL POINTERS.**

Atlanta Journal: Cleveland and Campbell make a very pretty head line, and the alternative editors are getting in their good work.

Quintana (Texas) Times: Campbell is first-class presidential timber, and in all probability he will be the next Democratic nominee.

New York World: The one word from Blaine which would show him to be out of the running for the presidency is not yet produced.

Washington Post: "The Cleveland boom is done," declares the New York Sun. Then, why does Mr. Dana continue to thump the corpse?

Kansas City Journal: Clarkson says he is not for Harrison, or Blaine, or Alger, or any other individual for president, but for the nominee of the Republican party. There are lots of loyal Republicans just like him.

St. Louis Globe Democrat: Gov. Hill has virtually gained control of New Jersey as well as New York and Indiana for the national convention. If he is able to hang on he will sweep that assemblage.

These three states will name the candidate.

Kansas City Journal: Senator Gorman seems to be in the saddle. There is a well defined suspicion that he is there for the purpose of unhorsing that well known Mugwumpian idol, G. Cleveland, 1891.

Philadelphia Inquirer: It may be that a western man will capture the prize should Cleveland and Hill kill each other off, but with the present outlook it would seem as if Patterson were in the best position as a compromise candidate.

Kansas City Star: Lieutenant Governor Jones, of New York, is willing to accept the nomination for the governorship, "because," he says, "the man who carries New York will come pretty close to the nomination of 1892." Jones for president is a ghastly joke and entirely beyond the limit of propriety.

Chicago News: David B. Hill announces that he will not withdraw from the presidential race, and the public is inclined to believe him. One very good reason why Mr. Hill will not withdraw from the contest is the fact that he "is not in it."

New York Morning Advertiser: Peffer has no distinctive platform upon which to make the race, but is for everything in a general way. Mr. Sanford lays down his 2 per cent land loan bill and invites criticism and conduct. If the Alliance people are in earnest, as they seem to be, in desiring a strong man to lead them in 1892, they might go further than Menlo Park and fare much worse.

Brooklyn Standard Union: We notice in the Democratic papers that Senator-elect Palmer can have the delegation of Illinois for the presidency in the next national Democratic convention. Well, Gen. Palmer had better pick up that compliment while it may be secured. The first thing he knows, another great Democrat may be found out in his state. There is Chief Justice Fuller liable at any moment to have a boom. His views on matters of business are probably vague enough to be as agreeable as any to the Democratic party. The Democracy, we take occasion to say, are thoroughly reliable in one thing—they yell loudly when they have the slightest show at a chance.

In just 24 hours J. V. S. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Brunswick House, N. Y.; Geo. A. Werner, 331 California St., S. F.; Mrs. C. Melvin, 126 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G. W. Vincent, of 6 Terrace Court, S. F. writes: "I am 60 years of age and have been troubled with constipation for 25 years. I was recently induced to try Joy's Vegetable Sarsaparilla. I recognized in it at once an herb that the Mexicans used to give us in the early 80's for bowel troubles. (I came to California in 1890), and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for

During the epidemic of flux in this county last summer, I had hard work to keep a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. People often came ten or twelve miles in the night to get a bottle of the remedy. I have been selling patent medicines for the last ten years and find that it has given better satisfaction in cases of diarrhoea and flux, than any other medicine I ever handled—J. H. Benham, druggist, Golconda, Pope county, Ill. Over 500 bottles of this remedy were sold in that county during the epidemic referred to. It was a perfect success and was the only remedy that did cure the worst cases. Dozens of persons there will certify that it saved their lives. In four other epidemics of bowel complaint this remedy has been sold in quantities of twenty-five and 50 cent bottles for sale by C. M. Creamer.

For these complaints take Simmons Liver Regulator. It keeps the stomach clear and prevents any of the poisons from getting in the system, or, if there already is, it will drive them out, no matter how strongly rooted or long standing, and you will again have good health and be happy.

Have you a pain in the side, back or under the shoulder-blade? It is not rheumatism but dyspepsia. Take Simmons Liver Regulator.

Does your heart throb violently after unusual exertion or excitement? It is not heart disease, but indigestion.

**Take Simmons Liver Regulator.**

"As a matter of course, duty to humanity I wish to bear my testimony to the untold virtues of Simmons Liver Regulator. If people could only know what a splendid medicine it is, there would be many a physician without a patient and many an infirm person would be cured. I consider it invaluable in all cases of indigestion, for many years, been a perfect physical wreck from a combination of complaints, all the symptoms of malaria in my system, and even under the skillful hands of Dr. J. P. Jones, of this city, I had despaired of ever being a well woman again. Simmons Liver Regulator was recommended to me. I tried it, it helped me, and it is the only thing that ever did me any good. I persevered in its use and I am now in perfect health. I know my medicine cured me and I always keep it as a reliable 'hand' in my family."—Mrs. Mary M. Camden, Ala.

**Notice for Publication.**

[Pre-emption 3309.]

LAND OFFICE AT SANTA FE, N. M., July 8, 1891.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof of his claim, and that said proof will be made before register and receiver at Santa Fe, N. M., on August 27, 1891, viz: Maximiliano Jaramillo, for the e. 1/2, sec. 24, T. 27 N., R. 1 E.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Jose Inez Esquivel, David Taffola, Francisco Garcia, Antonio Jaramillo, of Tierra Amarilla, N. M.  
Any person who desires to protest against the allowance of such proof, or who knows of any substantial reason under the law and the regulations of the Interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer in rebuttal of that submitted by claimant.  
A. L. MORRISON, Register.

**BUSINESS IN THE SOUTHWEST.**

A Good Showing for the Santa Fe Railroad Company and its Very Excellent Prospects.

In connection with the statement coming semi-officially from A. T. & S. F. headquarters that the New Mexico division of the road has in the past year been more prosperous than any other part of the great system, it is well to note what the Railway Age says of the Santa Fe line and its prospects:

About the most gratifying incident of the week, says the Age, was the action of the A. T. & S. F. directors in declaring interest at the rate of 2 per cent on the company's income bonds. The system earned in the year ending June 30, a surplus of \$2,310,000, and the action therefore is regarded as being well within conservative lines.  
Since the reorganization of the property and equipment has been put in first-class shape, but it has taken time to do so. The magnificent physical condition of the road, with its ample equipment, will enable it to promptly move the large crops now assured in the vast territory through which the lines of the company run. An immense business for the current fiscal year is overshadowed and there is nothing in the present condition of the property but what is encouraging to both bond and stockholders. Furthermore, advice from the A. T. & S. F.'s territory in Kansas are to the effect that the recent large gains in earnings have not resulted from any movement of the crops, but entirely from economic operation, from conveying harvesters to the wheat fields and from general merchandise traffic. The great wheat movement has just begun. The prospect of the income bonds receiving the full 5 per cent next year are not unfavorable.

**A World's Fair Suggestion.**

The Cheyenne Leader suggests that the Rocky mountain states unite in the erection of a common building at the great World's fair in 1893, in which to display their exhibits. The states in the combination would be Montana, Idaho, Wyoming and Colorado. And probably the three remaining territories Utah, New Mexico and Arizona—would be taken in. One natural result of this arrangement would be the erection of a much finer building for the Rocky mountain region than could be put up by any single commonwealth. Each state and territory could, of course have its separate department. But their exhibits all being in the same building would be brought into closer and more direct comparison than would otherwise be the case.

**A Climate Note.**

Says the Albuquerque Citizen: If the summer weather of Albuquerque is considered too warm, it only takes a few hours' tour to Santa Fe, which has an altitude of 7,000 feet, where the hottest days are never too warm for comfort, and where good heavy bed clothing is required every night. If a man wants to escape all extremes, and is financially able to consult his comfort in the matter, a residence in Albuquerque from October to May and in Santa Fe from May to October, will probably give him a higher average of physical comfort so far as climatic conditions are concerned, than he could find anywhere else in the United States.

**Chas. Blanchard Falls.**

Chas. Blanchard, the well known Las Vegas hardware merchant, also interested in various enterprises at Albuquerque and Las Vegas, has made an assignment for the benefit of his creditors. The failure occasions some surprise at Las Vegas. It is understood that the suits brought against him by the Democratic administration, charging him with cutting timber on the public domain, and which are said to have cost him considerable money to settle, one way or another, primarily caused his failure.

I used Simmons Liver Regulator for indigestion, with immediate relief.—O. G. Sparks, Ex Mayor, Macon, Ga.

**Dropped Their Shackles.**

Chas. Dickens and Mark Hopkins, Apache Indian boys who have been students at the Ramona school, left yesterday for Carlisle school, where they will remain for a year or two. Prof. Chase is proud of these two boys. They were among the Geronimo sympathizers who were sent from San Carlos to Fort Union, and a year ago they were brought here in shackles and turned over to the training of Ramona. They at once displayed deep interest in their studies and have so far progressed as to warrant sending them to a higher school.

**ROUND ABOUT TOWN.**

His honor, the mayor, talked the other day of resigning, an even bet he does not.

The Clarendon gardens are simply beautiful; scientific and systematic work tells.

The M. E. Sunday school and its friends in goodly numbers are picnicking at San Ildefonso grove to-day.

The portals on the plaza should go. So should those on upper San Francisco street; that street is entirely too narrow.

The streets are still dirty and will likely remain so; with a majority of non-progressive councilmen nothing else can be expected.

The firemen will have a special meeting to-morrow night to consider the question of sending a running team to take part in the horse races at the territorial fair.

The poll tax for school purposes will, it is said, be turned over to the county treasurer when that official provides his bond as custodian of school funds under the new law.

Tourists and health-seekers complain of the lack of accommodations here. Before another summer comes Santa Fe must be fully prepared to meet the requirements of this class of visitors.

Over a month since the city officers were elected and nothing has been done except to parcel out a job in the printing of the ordinances. That is comparatively a small job; the bigger jobs may not go through so easily.

Board of Trade meeting at 4 p. m., Friday, at the office of Geo. W. Knaebel, secretary. A full attendance of all members is earnestly desired, as matters of great importance will come up for discussion. EDWARD L. BARTLETT, President.

Ten men began work yesterday tearing away the old adobe on lower Palace avenue so long occupied by Prof. Schor-meyer. In its stead is to be erected a handsome two-story residence of twelve rooms for Mr. Felipe B. Delgado. Mr. Monier has the contract.

On Saturday the New Mexican will print an illustrated supplement on Santa Fe, having special reference to the city's climatic advantages. A large number of extra copies will be issued and those desiring ten or more of the same are requested to leave orders at the business office.

The Las Vegas base ballists write that they would like to secure the services of Pitcher Garcia for their match with the Albuquerque team on Sunday next. The Black Stockings, however, have planned for a game at the college grounds and will themselves have need of their lightning young ball tosser.

Mr. Preston thinks Santa Feans have done a wise and timely thing in improving the canon road. "If that picturesque region were near Denver it would be made worth many thousand dollars a year to the business community," said Mr. Preston.

Mr. Wm. Frank, leading merchant at Las Alamos, says the hay and alfalfa crop in his region of San Miguel county is very heavy this year, while much attention is being given also to fruit raising. He says the half dozen lumber mills in his locality are doing an excellent business. Mr. Frank left last night for home.

The work of finishing up the improvement of the Rio Santa Fe canon road is in progress to-day, and to-night will see at least \$150 worth of work accomplished with an outlay of less than one-third that amount in cash. Messrs. Gable and Gray have "removed mountains," and to them and the people who started this move the public thanks are due. Also especially to Patterson & Co., the lively men, who have so promptly supplied teams for doing the heavy grading.

**A VISIT TO MONUMENT ROCK.**

What a Citizen Has to Say of the Work of Improving the Beautiful Suburban Drive.

To the Editor of the Daily New Mexican.

Santa Fe, Aug. 6.—I do not know whether or not I am the first to have travelled with a party of ladies and children over the Santa Fe canon road since it has been put in order, but I am to lose no time in expressing the thanks which I think are due to you for inaugurating the movement, and to the good citizens who have been the funds and to those others who have superintended the carrying out of the work on the canon road. It is not only a good mountain road, but a very good mountain road, and over which even the most nervous of the fair sex can travel in her phaeton or family coach without trepidation. All the rocks have been removed, grades improved, the river crossings levelled, the bridges well timbered and secured, approaches to the bridges made good with stone and blinded with turf, and, in fact, one of the most attractive and picturesque drives in the Rocky mountains has been put into such shape that all can now enjoy its beauty.

I think that the good work ought to go on, and not to stop until the beautiful, precipitous, box canon of the stream is reached. In my opinion the scenery above Monument rock is more lovely than anywhere else. It will not be very expensive to clean away the fallen timber, cut a few grades and to make a road, which has only fallen out of repair in places, so that parties who can take a whole day for their outing may drive twelve miles up into the mountains without getting out of their carriages; may attain an elevation 1,500 feet above Santa Fe, and may enjoy the sweet scent of the pines, the bright beauties of the mountain flowers, the icy cold water of the stream and the fresh air which blows straight from our mountain lakes. I for one am willing to subscribe \$3 toward continuing the road as far as it can go.

**PERSONAL.**

W. B. Warrenfield, of Fort Wingate, registers at the Exchange.

Judge W. H. Whiteman and wife, of Albuquerque, are guests at the Palace.

Prof. Bandalier got in last night from one of his usual summer tramps. He walked in from San Juan yesterday.

Ira M. Bond, deputy assessor of Bernalillo county, is in the capital on business.

John Morrison, of Apache county, A. T., is here on a visit to his mother, Mrs. A. L. Morrison.

Hon. A. L. Morrison has gone to Prescott, A. T., on a short trip, having been invited to lecture there for the benefit of the Prescott Catholic church.

Hon. M. C. de Baca, the efficient superintendent of schools of the county of Bernalillo, is in the city on business. He was admitted to practice before the supreme court this morning. He leaves to-morrow for a short visit to friends in Rio Arriba county.

Governor Prince returned this morning from a visit to the Santo Domingo pueblo, where he witnessed the harvest festival.

Hon. A. B. Fall, lawyer and ex-member of the legislature, is in the capital from Las Cruces; he stops at the Palace. He has business before the supreme court.

Rev. Father Grom has returned from Park View, where on St. James day he conducted the ceremonies attending the erection of the new Catholic church bell—the largest in the territory.

At the Palace: M. H. Phelps, New York; A. B. Fall, Las Cruces; J. M. Thompson, E. J. Crocker, Denver; Douglas Gray, El Paso; J. W. Nichols, Albuquerque; Mrs. W. H. Whiteman, Albuquerque.

Mrs. Nestor Armijo and servant, of Las Cruces, and Miss Lottie Perez, of Santa Fe, N. M., are guests at the Southern, en route on a tour of Colorado. They represent the wealthiest families of New Mexico, and will go to the Pacific coast ere returning home.—Pueblo Press.

Newspaper Paragraph of General Moment Gathered from Various Sources.

The poll tax lists have been ready for delivery at Socorro since May 1, but owing to the new school law, have been withheld by order of the superintendent of public schools.

President Spiegelberg, of the Second National bank, was the lowest bidder for the territorial penitentiary bonds and today the governor accepted his offer and bought in \$4,000 worth of these bonds at \$108 1/2.

At a meeting of the board regents of the territorial insane asylum at Las Vegas the architects were ordered paid \$3,447, estimates of the work done to date. Carl W. Wildenstein was designated as the member to visit Santa Fe and push the sale of the bonds in the sum of \$25,000. With this money in hand, the insane asylum building will be under roof by October 1. Fifty thousand brick were ordered from the penitentiary yard in Santa Fe, it only being necessary to pay the freight on the same.

At to-day's session of the territorial board of education the appeal of Rev. Gentle, of Albuquerque, was considered briefly and more time given the appellant. District Attorney Whiteman and Deputy Assessor Bond appeared for Bernalillo county and urged that no reduction be made in the A. & P. grant and other cases from Bernalillo county. A letter from the clerk of Bona Ana county notified the board that Col. W. L. Hynerson has appealed a case wherein the Southern Pacific road's assessment has been raised from \$5,000 to \$6,000 per mile. The appeal has not yet come to hand and the board wrote the clerk to forward it at once.

Governor Prince will deliver the opening address at the territorial fair at Albuquerque this year. His address last year was a grand advertisement for the resources of the territory, and its general circulation in pamphlet form by the New Mexico bureau of immigration has done the territory a vast amount of good. He is an earnest and untiring worker for the interests of the people and development of the territory, and no man is better fitted to deliver the address on so important an occasion as the opening of what will be the most complete exhibition of New Mexico products ever seen.—Las Vegas Stock Grower.

Some weeks since, Casimiro Cordova, a prisoner from Grant county in the penitentiary, became mentally deranged, and as there are no proper facilities for the care of a person in that condition at the penitentiary,
