-BRIEF WIRINGS-

Huntington Gobbles More Railroads.
DALLAS, Texas, Aug. 20.—The Texas Trunk road passed into the hands of C. P. Huntington and his New York associates to-day. It is given out that they propose to immediately extend the line to New Orleans. Bonds for this purpose are said to have been already issued and subscribed for.

Made a \$110,000 Haul.
SILVERTON, Colo., Aug. 19.—Edward Lambert, jr., book-keeper of the San Juan Smelting and Mining company, is a defaulter in the sum of \$110,000. His method of stealing was in checks for freight charges, largely in excess of the true amounts. The sheriff is close on his trail and he will doubtless be arrested in a few hours.

Alliance Matters in Kansas.
TOPEKA, Aug. 20.—A conference of representatives of the several business organizations connected with the Farmers' Alliance opened here to-day. Its object is stated to be the organization of a co-operative association for the control of all farm products and the exchange of supplies. A co-operative system of life and fire insurance is also to be perfected. The Alliance leaders deny that the scheme is in any way connected with the alleged farmers' trust for the purpose of withholding grain from the market.

More Conventions in Washington.
WASHINGTON, Aug. 20.—The annual convention of the members of the Old Timers' association, and the Association of Military Telegraphers opened here yesterday evening, and to-day the delegates are holding high festival. The ranks of the veterans are thinning out, but at the same time many of those that handled the telegraph key during war times still survive to give each other welcome year by year. The business meetings of both associations were held this morning, and an elaborate program of a festive kind will claim the attention of the delegates this afternoon and to-morrow.

Pennsylvania Republicans in Convention.
HARRISBURG, Pa., Aug. 19.—The Republican state convention was called to order at 10:40 this morning. A portion of the speech of Temporary Chairman Hall, referring to Jas. G. Blaine as "that Republican of Republicans, that leader of leaders," was vociferously cheered. The call of the roll by Sec. Fink Willing Leach revealed the presence of 404 delegates. Hon. Henry Hall, of Mercer, was chosen temporary chairman. Committees on permanent organization and resolutions were then appointed. C. H. Mann was made chairman of the committee on resolutions and William R. Leeds chairman of the committee on permanent organization.

The New Archbishop.
MILWAUKEE, Aug. 20.—In the presence of high dignitaries of the Catholic church from far and near, and with all the pomp and ceremony befitting the occasion, the Most Reverend Archbishop Katzer was to-day invested with the pallium. Barely has the cathedral of St. John been the scene of a ceremony more commensurate in dignity of character and elaboration of ritual. The immense edifice was crowded to suffocation with prominent members of the denomination from all parts of this and adjoining states. Cardinal Gibbons occupied the throne, and Bishop Katzer, being upon his right, and Bishop Foley, of Detroit, on his left. Around him were seated Archbishops Elder of Cincinnati, Ireland, St. Paul, Bishops Bonacum, Nebraska, Burke, Cheyenne, Crosgrove, Davenport, Cotte, Winona, Henry, Wichita, Hannan, Kansas City, Jansen, Belleville, McCloskey, Louisville, OHara, Scranton, Rademacher, Scranton, Richter, Grand Rapids, Scannel, Omaha, Shanley, Jamestown, Watterson, Columbus, Zardetti, St. Cloud, Minn., and the Archbishop Abbott of St. Vincent, Albany, Pennsylvania. The event of the day was preceded by the celebration of solemn pontifical high mass. Cardinal Gibbons invested the archbishop with the pallium.

"August Flower"

What is This? It is the query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is AUGUST FLOWER FOR?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. We believe August Flower cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia.

CAPT. JOHN PALMER.

The Newly Elected Commander-in-Chief of the Grand Army of the Republic.

Capt. John Palmer, who has just been elected at Detroit commander-in-chief of the Grand Army of the Republic to succeed Gen. Veazy, was born on Staten Island, N. Y., in 1842. He enlisted in the Ninety-first New York Volunteers September 10, 1861, and was constantly with that regiment until it was mustered out in 1865, taking part in all its engagements. He was seriously injured at the battle of Five Forks. Since the war he has been engaged in the fresco painting and decorating business at Albany and had the contract for decorating the new state capitol. While he was senior vice-commander-in-chief he was made president of the national encampment held at Dayton, Ohio. He proved a model presiding officer.

When the national encampment appointed a committee to visit President Cleveland and the heads of departments in Washington in the interest of the veterans of the war, Capt. Palmer was its chairman and through his exertions and the members of the committee, many veterans were retained in the public service. At the national encampment held in Boston last summer, Capt. Palmer was chairman of the committee on resolutions. He was one of the originators of the soldiers and sailors' home at Bath, Steuben county, which was built by private contributions under the auspices of the Grand Army of the state. In the face of great difficulties and opposition he raised a large sum of money in Albany and the building was finally completed and turned over to the state.

MINING NOTES.

Carpenter and New Camps, in Grant county, are prosperous and turning out a good deal of ore.

Better grade and more mineral is being taken out of the Stephenson-Bennett mines in the Organ mountains than for many years past.

The Alhambra mine, in Grant county, is shipping on an average ten tons a week to the Socorro smelter. The ore runs well and brings good returns.

The Templar Mining company, at Kingston, has adopted the leasing system.

MANHOOD RESTORED.

"SANATIVO," the Wonderful Spanish Remedy, is sold everywhere. It cures all Nervous Diseases, such as Weak Memory, Loss of Brain Power, Headaches, Wakefulness, Lost Manhood, Nervousness, Lassitude, all drains and loss of power of the generative organs, in either sex, caused by over-excitation, youthful indiscretions, or the excessive use of tobacco, opium, or stimulants, which ultimately lead to Intemperance, Consumption and Insanity. Put up in convenient form to carry in the vest pocket. Price \$1 a package, or 6 for \$5. With every \$5 order we give written guarantee to cure or refund the money. Sent by mail to any address. Circular free. M. S. Moffitt, Branch Office for U. S. A. MADRID CHEMICAL CO., BRANCH OFFICE FOR U. S. A. 105 N. 3rd St., SANTA FE, N. M., D. Y. C. M. Creamer, S. W. Corner Plaza.

M. S. Moffitt, Wm. Reeves, C. N. McKelvey, Date Whitman and Tim Cullum, are among those who are engaged in digging the silver out of the Templar under lease.

Messrs. Sergeant and Craig have recently struck a gold vein, seven feet wide, at San Cristoval creek, sixteen miles north of Taos, the ore averaging \$2,500 in gold per ton. Preparations are being made to work the vein thoroughly at an early date.

Messrs. Campbell and Kemp are at work arranging the Iron King smelter plant for their new and cheaper process of reducing ores, in which they express great confidence and feel able to extract the silver from thousands of tons of ore which has heretofore been thrown over the dump or left in the mine.—Hillsboro Advocate.

The Rescue Mining company, at Silver City, Grant county, has a shaft down fifty-four feet, in the bottom of which they have a four foot vein of ore with a rich streak of five inches in it, which runs from \$180 to \$1,200 in silver and lead. The company has just finished putting up a whim, and will start a force to work to-morrow developing.

Hon. J. H. Young of Taos county, now here, informs the NEW MEXICAN that rich discoveries have been made on Red river and Caballero creek, thirty miles north of Taos. The ore is galena and silver, averaging from sixty ounces to 250 ounces per ton in silver. A good many claims have been located by prospectors and capitalists from Colorado. Mr. Young says a great deal of development and activity in mining matters will be had in Taos county during the coming fall and next year.

Is this great and glorious climate of Santa Fe there was no hotter day of the season this year; they were all delightfully cool.

This irrigation congress is soon to meet at Salt Lake city; irrigation is very important out in this region, but more work and less talk are required.

Delinquent taxes are due in nearly every county in New Mexico; amend the assessment and collection laws of the territory in the right direction.

The United States is all right this year; all the "surplus" business occurs over here and all the "deficit" business in Europe. We can stand it, if they can.

Taos county is rich in agricultural and mineral resources; it is now enjoying a clean and honest county government, the county commissioners being Republicans and good and honest men. Taos county is all right and is prospering as of right it ought to.

This mining industry all over New Mexico is beginning to show new signs of life. With the miner, the wool grower, the cattle raiser, the farmer and fruit grower prosperous and at work, this territory can reasonably expect a good and profitable year of it in 1892.

The White Cap Democratic bosses of the Democratic territorial executive committee are getting warmer under the collar; why bless you, boys, the campaign has not yet commenced; this coming year we will give you a campaign that will make your bones ache and that much, before it is over.

It seems that writing poetry is now a-days right healthy and agreeable business. Lowell was 72 years of age when he died; Holmes and Whittier are over 80; Tennyson is 82; but the fact that these four wrote good poetry very likely accounts for the green old age they enjoyed and enjoy.

The Raton Reporter thinks that a united effort will be made soon to procure an enabling act for New Mexico; probably this will be the case and probably this will not be the case. At any rate this enabling act business looks somewhat problematical about these nice bright summer days.

The condition of large crops and plenty of business that confronts the country at present is a great deal better than the theory of a bankrupt treasury and a bad year that the Democratic bosses and newspapers would like to see and which they asserted for months actually existed.

The campaign managers of the People's party in Kansas have concluded that every member of that party in their state must be assessed 1 cent per year for campaign purposes and pay this cent or be expelled; if the People's party in the Sunflower state stands that strain, that party is all right. A cent per head is not quite as high as the assessment might be.

THE REPUBLICAN LEAGUE CLUB CONVENTION.
Judge A. L. Morrison has mailed his call for the convention of Republican league clubs to be held in Albuquerque on the 17th of September next; it is to be hoped that there will be a goodly attendance at the convention; in unity and organization will be found victory during

the coming year. Judge Morrison has done loyal and unswerving work in his position as president of the league and his work ought to be successful, for in all truth he has worked and labored unswervingly and faithfully. He is now bearing the heat and burden of the day and is doing this for the success of the Republican party of which he is a hard working and untiring member. Make the convention a success and a grand one, and that is all the reward the Republicans of New Mexico need give him.

TAKING THE PUEBLO INDIANS.

The Albuquerque Citizen advocates the taxing of the property of the Pueblo Indians in New Mexico; there exists no doubt, but that, theoretically speaking, the Pueblo Indians are full-fledged citizens of the United States and that their property is liable to taxation under the laws of this territory; but the question arises: Is it wise and proper at this time to compel them to assume the active duties of American citizenship? Are they sufficiently intelligent and prepared for such an experiment? There are many and many of them who do not even understand the Spanish language; many and many who are not at all civilized according to the prevalent ideas of the United States. It strikes the New Mexican that for the time being the matter might just as well be let alone; the small temporary benefit to be gained by the taxation of the property of the Pueblo Indians would surely cost the people and the territory very dearly in other directions. At any rate the United States is not prepared at this time to give up its charge of the Pueblo Indians in New Mexico and this territory could not do much, very much or very little, in the courts against the government. Even if the question at issue is to be tested it would take five years for a final decision; so why worry? Sufficient for the day is the evil thereof.

EDITORIAL COMMENTS.

Can't Tell As Yet.

The New Mexican says H. B. Ferguson will be the next Democratic candidate for congressional delegate. He would be a decided improvement over Mr. Joseph. Albuquerque Citizen.

The Democratic Surplus.

Kentucky has a whisky surplus of 40,000,000 gallons and a Democratic surplus of 40,000 voters. This is exactly 1,000 gallons per Democrat; a liberal allowance even for Kentucky.—Minneapolis Tribune.

What Protection Does for U. S.

Great Britain develops her foreign trade at the expense of her domestic trade. The gross receipts of her railways for the year 1889 were \$308,585,285, or

per capita. Our domestic trade is so much larger that our railroads take in \$1,086,040,207, or \$17.34 per capita.—New York Press.

How the Robber Tariff is Ruining the Country.

The Memphis Appeal-Avalanche, a Democratic organ of approved tone, announces that "fifty-one new industries were established in the south last week, although it was the dullest commercial period of the year." It does beat all record that "robber tariff" is running the whole country. The "Calamity James" sing low about it, but occasionally they feel so good that, like the Avalanche in this case, they break out and tell the truth.—Chicago Inter-Ocean.

How the Blamed McKinley Bill Works.

The higher duties placed on cotton hosiery by the McKinley bill have been collected only ten months. Here is what the American Wool, Cotton and Financial Reporter says about the new home industry: "There are lines of domestic transferred seamless goods ranging for ladies from

to \$2 that will bear comparison in fabric with anything that is imported to sell at \$1.90 to \$2 in full fashioned goods."—New York Press.

A Democratic Texas Opinion of the Alliance.

Alliance President Polk's plan of capturing the national congress is a good one. The state and county offices are of little value to the Alliance, except to those members who want to enjoy them. All of the alleged reforms that the Alliance calls for can be had only by national legislation, and in order to get that legislation an Alliance majority in congress must be elected, also an Alliance president who will not defeat such legislation by a veto. Yes, the plan is a good one. The plan of the mice to bell the cats was a good one, too. The only thing about it that offered any trouble was getting the bells on the cats.—Fort Worth Gazette.

covered that they must look to America for the grain they can not get from Russia.

And yet this is the Europe that, according to the Magazines and free traders, was not going to buy our products as a retaliation for the McKinley law. The truth is that Europe can much less afford to do without America than America without Europe. The North American continent is the great grain field of the world, and will grow instead of diminishing in importance as a vendor to the nations that have no such soil as ours for producing grain and do not cultivate the soil that they have, while the men who should be cultivators are drilling for the wars that will make Europe still more dependent.—New York Press.

New Mexico Fruit.

It is most gratifying to note that New Mexico's residents are paying such general attention to farming and fruit growing. An admirable start has been made in this direction during the past few years, and the success which has stimulated the industry and made it popular this year will continue to have its good effects in the future. With a soil and climate that makes farming a veritable pleasure; with one of the best watered sections of the union with cheap labor, and an ever ready market demanding the best of the earth's products and ever ready to pay the highest price so long as it is the best, New Mexico has in nothing a brighter future than in the farming industry, in general, while as a fruit growing region we acknowledge no rival. Our fruits are better favored, are sent to market in better condition, and command to-day from 5 to 20 per cent more than do the same class of fruits grown in California. If the doubting Thomases get hold of this statement let him investigate the fact for himself.—San Marcial Reporter.

Women.

The common afflictions of women are sick headaches, indigestion and nervous troubles. They arise largely from stomach disorders. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation, you can see why it is more effective than any other Sarsaparilla in those troubles. It is daily relieving hundreds. The action is mild, direct and effective. We have scores of letters from grateful women.

Notice for Publication.

[Homestead No. 3721.]
LAND OFFICE AT SANTA FE, N. M., July 25, 1891.
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register and receiver at Santa Fe, N. M., on Sept. 2, 1891, viz: N. Reginald D'Arcy for the N. 1/2, S. 1/2, and S. 1/2, Sec. 17, Tp. 19 N., R. 3 E.
He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Joseph S. Eagle, John W. Walton, Edward Beaumont, James Smith, of Archuleta, N. M.

Any person who desires to protest against the allowance of such proof, or who knows of any substantial reason, under the law and the regulations of the interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by the claimant.
A. L. MORRISON, Register.

During the epidemic of flux in this county last summer, I had hard work to keep a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. People often came ten or twelve miles in the night to get a bottle of the remedy. I have been selling patent medicines for the last ten years and find that it has given better satisfaction in cases of diarrhoea and flux, than any other medicine I ever handled.—J. H. Benham, druggist, Golconda, Pope county, Ill. Over 500 bottles of this remedy were sold in that county during the epidemic referred to. It was a perfect success and was the only remedy that did cure the worst cases. Dozens of persons there will certify that it saved their lives. In four other epidemics of bowel complaint this remedy has been equally successful. Twenty-five and 50 cent bottles for sale by C. M. Creamer.

S. S. HIS CHILDREN.

My little son had a number of bad ulcers and running sores to come on his head and body, which lasted for four years. I tried all the doctors and many remedies, but the sores still grew worse, until I did not expect him to recover. My friends were confident that if the sores healed it would kill him. I at length quit all other treatment and put him on Swift's Specific, and less than three bottles cured him a sound and healthy child. S. S. S. also cured a sore on another of my children.

THE I. O. O. F.

The 5th Annual Session of that flourishing Order at Raton.

The grand lodge of I. O. O. F. of New Mexico met Monday last in Raton in its 5th annual session. Twelve lodges were represented. The order is flourishing throughout the territory; there are now fifteen lodges and three new ones at San Marcial, Hileboro and Las Cruces were established at an early date. After the routine business of the session, not of public interest, was disposed of, the following were elected grand officers:

Grand Master—J. C. Burge, of Las Cruces.

Deputy Grand Master—W. G. Ritch, of Santa Fe.

Grand Warden—W. A. Givens, of Las Vegas.

Grand Secretary—James T. Newhall, of Santa Fe.

Grand Treasurer—Thomas Floyd, of Blossburg.

Grand Representative—C. L. Hubbs, of Albuquerque.

Grand Marshal—Wm. F. Degner, of Raton.

Grand Conductor—S. T. Reed, of Santa Fe.

Grand Guardian—Wm. A. Smith, of Gallup.

Grand Chaplain—N. W. Chase, of Kingston.

Grand Herald—Wm. Floyd, of Blossburg.

Grand Messenger—N. E. Stevens, of Albuquerque.

DAUGHTERS OF REBEKAH:

Emma Givens for No. 1.

Emma L. Hubbs for No. 3.

Elizabeth Wood for No. 4.

The next session will be held in Silver City on the third Monday in August, 1892.

The present session was a very harmonious and successful one and was greatly enjoyed by those participating.

Raton and Blossburg lodges and the people of Raton generally exerted their efforts to make the delegates feel at home and to give them an enjoyable time and they succeeded fully. The ball and banquet on Tuesday evening at the rink were very elegant and rich affairs.

The delegates speak of the large number of beautiful ladies, and their elegant and costly dresses, and praise the good looks of the ladies and the hospitality of the citizens and of their brother Old Fellows there very much. During the session the secret work of the order was superbly exemplified by Past Grand Representative Tuttle, of Colorado. In all probability the grand lodge will be permanently located at Albuquerque after the next annual session.

Santa Fe was strongly represented and fully recognized; the representatives from the two local lodges here were Mr. J. T. Newhall, who was elected grand secretary, from Paradise lodge; ex-Governor Ritch, who was elected deputy grand master, and Messrs. A. P. Hogle, S. T. Reed and W. H. Sloan from Adlan lodge, all of whom were appointed on important committees.

Nervousness is from dyspepsia. Take Simmons' Liver Regulator and be cured.

The Supreme Court.

The following opinions were handed down this morning: Bennett vs. Gaylord et al., from Lincoln county, reversed. This was an attachment proceeding against the Rockford mining claim and certain persons claiming liens against it. The whole bench concurred.

Gildersleeve vs. Ada L. Atkinson, administratrix; this case involved \$10,000 claimed to be due from the late H. M. Atkinson to C. H. Gildersleeve on account of the sale of the Anton Chio grant. The court held that the estate was not liable and affirmed the lower court's decision; opinion unanimous. This case came up from Santa Fe county.

Territory of New Mexico vs. Jennie Lovewick; appeal from Santa Fe county, reversed. This is a criminal case and the court holds that the district court can not affirm the sentence of a justice of the peace on appeal, but that defendant is entitled to a trial de novo.

Garcia vs. Barila, error to Dona Ana county, motion for a rehearing denied.

In the case of Coler vs. Santa Fe county, recently decided against the county, a motion for a rehearing was made.

In the case of Gildersleeve vs. the New Mexico Mining company, decided adversely to Gildersleeve, a motion for a rehearing was denied, and an appeal to the supreme court of the United States was prayed for and allowed.

The case of Grant vs. Jaramillo, from Rio Arriba county is on hearing. Mr. F. W. Clancy for Jaramillo and N. B. Laughlin for Grant.

The court announced that to-morrow would be the last day of this present term.

If you are melancholy or down with the blues you need Simmons' Liver Regulator.

Mr. Cross at Albuquerque

George Cross, the bustling city editor of the SANTA FE NEW MEXICAN, who is here in the interest of the special edition to be published a few days before the fair by the NEW MEXICAN, is meeting with encouraging success. The city will be well advertised in the special edition of our neighbor in another town, and Mr. Cross should receive hearty support.

There is no politics in this special edition—it is a purely business transaction in which the city and her enterprising citizens will receive good benefits.—Albuquerque City.

For distressing oppression and fullness in the stomach take Simmons' Liver Regulator.

Prosperous Rio Arriba.

Senator Pedro I. Jaramillo, of El Rito, is in the city attending the hearing in a suit involving title to the Copper Age mine situated about eight miles north of Abiquiu. Senator Jaramillo informs the NEW MEXICAN that there are splendid and full crops of cereals and fruit along the Chama and the El Rito rivers. Rio Arriba county sheep and cattle are also doing well this summer. He has just bought the machinery for a sawmill which is now being erected on El Rito creek three miles above the town of El Rito and will have a capacity of 5,000 feet of lumber

per day. He is also erecting a grist mill North will have charge and they will be in operation by October 1, next. Mr. W. T. Rooney, superintendent of the Copper Age mine and Mr. North, in charge of Senator Jaramillo's mill business are also in the capital; they are witnesses in the suit over the Copper Age mine.

Boyle's Clarendon Garden.

Mr. Arthur Boyle's Clarendon garden is surely a thing of beauty these days. Science, properly applied, good business sense, hard work and energy have made it so. The fruit produced is universally acknowledged to be of the finest grown anywhere in the territory; it brings 40 per cent more in Denver than similar California fruit brings. At present specially noticeable are the Japanese pines; these are very large, delicate and most finely flavored; this variety of pine does a great deal better here than in the east, attaining greater perfection. Mr. Boyle now has six acres and a half in perfect cultivation as his garden.

If you would be rid of chills and fever take Simmons' Liver Regulator.

Repairs of the Old Palace.

Owing to the well directed an energetic efforts of Hon. B. M. Thomas, secretary of the territory, the sum of \$2,000 was appropriated by the last congress for the further repair of the building known as the "Old Palace" in this city. Secretary Thomas has completed plans and specifications for these repairs and has forwarded them to the secretary of the interior for approval; as soon as this is obtained the work will be pushed; it is proposed to put new picket fences around the several lots belonging to the building; to plaster and repair the rear buildings thoroughly; to strengthen the rear part of the structure with new foundations and to place rock foundations under the new fences; to paint and plaster wherever necessary and to place brick copings all around the building making it look uniform on all sides. The secretary deserves the thanks not only of the people of the capital, but of all the people of New Mexico for the good and successful work he has done in the matter of the preservation of this one of the oldest states, most interesting and historic buildings in the United States and in fact on the North American continent. Secretary Thomas is the right man in the right place.

The Board of Education.

The territorial board of education met this morning at the executive office; there are present: Governor L. Bradford Prince, president; Brother Butolph and Prof. H. Hadley, members, and Hon. Amado Chavez, secretary. The business of the board will in all likelihood be finished this evening, and its proceedings will appear in to-morrow's NEW MEXICAN.

While many thousands of people are sweating east under a hot August sun, the citizens of the capital of New Mexico are enjoying the finest possible summer weather. Moral: Come here to live.

As soon as practicable the question of building more school houses for this city must be agitated and the matter carried through; this city needs more and better school houses and must have them.

Hon. T. B. Catron, of Santa Fe, has recently added a large collection to his private library. There is no question but that he is accumulating one of the finest literary libraries in the United States.—White Oaks Interpreter.

J. W. Conway, the proprietor of the Bon Ton restaurant, a couple of days ago telegraphed to Denver for a first-class short order cook, and yesterday James Wilson, a No. 1 cook, arrived from Denver to take the night watch at Conway's Bon Ton restaurant.

The Board of Trade should look after the appointment of ten delegates from this city to the Albuquerque railroad convention. These appointments should be made speedily, in order that the necessary information about passenger and freight traffic on the proposed extension might be gathered ready for use.
