ALBUQUERQUE CITIZEN

"WE GET THE NEWS FIRST"

WEATHER FORECAST.

Denver, Aug. 25.—For Albuquerque and vicinity: Local showers tonight or Thursday.

VOLUME 24.

ALBUQUERQUE, NEW MEXICO, THURSDAY, AUGUST 26, 1909.

NUMBER 191

LATHAM BROKE RECORD MADE YESTERDAY BY PAULHAN

Another French Aviator Now Has world's Record for Time and Distance.

NEW SENSATION OF AVIATION WEEK

Daring of the Inventors Greeted With Cheers by Big Crowds as Airships Fly About the Field at Rheims.

Rheims, Aug. 26.—In his second attempt this afternoon, Hubert Latham, a French aviator, broke the world's record for time and distance flights in a biplane. Latham remained in the air 2 hours, 13 minutes and 9 3-5 seconds covering a distance of 95 miles, 4,895 feet.

The previous record for time and distance in a biplane was made yesterday by Paulhan, another Frenchman, who flew during a rain and windstorm and was compelled to quit only because the supply of fuel for his motor gave out.

NO POOR IN CHICAGO.

Chicago, Aug. 26.—Chicago has no worthy poor, no needy class, according to Dr. R. Harris Lloyd, charity worker and superintendent of the Southwest mission in London, Eng., who has spent many years of his life among the poverty-stricken unemployed of London.

SAYS TRAIN BUTCHERS ROB THE MERCHANTS

Topeka, Aug. 26.—A complaint has been filed with the board of railroad commissioners asking that the "train butchers" on trains operating through complete department stores.

FIREMEN ANXIOUS FOR NEW HOME

They Want to Be in New City Building by First of the Month if Possible. Work on the new city building was given an impetus this morning when Chief Burgess of the fire department said that he would like to get into the new quarters by September 1.

Famous 'Incubator Baby' for Whom Two Mothers Battle

Here is Baby Marian Bleakley, the most sought-for child in the United States, the object of the intense mother love of Mrs. Charlotte Bleakley, a Topeka stenographer, and the equally intense foster-mother love of Mrs. J. D. Barclay.

GOOD ROADS MEETING AT THE CLUB TONIGHT

Territorial Engineer is Today Inspecting Two Routes for Camino Real and Will Be Here This Evening. Headed by Mayor Felix Lester, a committee composed of D. K. B. Sellers and County Commissioners Alfred Grunfeld and Manuel Springer left the city at noon today in an automobile for Bernalillo, where they are to meet Territorial Engineer Vernon L. Sullivan and his assistant, who are on their way to this city for a conference with those interested in road roads.

BACK FROM LONG TRIP.

L. C. Bennett, traveling representative of the Gross-Kelly company, returned last night from a six weeks' trip, during which he attended the Elks' convention at Los Angeles as a delegate from the local lodge, visited the exposition at Seattle, visited Montreal, Canada, New York and other eastern cities.

CHICAGO RESIDENTS NUMBER TWO MILLION

Chicago, Aug. 26.—Two and one-half million population for Chicago was the estimate made today by the compilers of the new city directory which will be out this week. The figures given are 2,457,690, based on the 165,000 names in the directory. The multiple 3.2 is used. The increase over last year is estimated at 37,690.

MIGHT ADOPT PANAMA CANAL BOARD

It Mann Law Is Passed by Congress the Work Would Be in Charge of Two or Three Men. Washington, Aug. 26.—It is possible that the Panama canal commission, as under the Mann bill, now before Congress, the commission would give way to a chief engineer, a director and a governor, the two former to look after the work of digging the canal and the governor to have charge of the canal zone. By entering authority in these three men it is believed there would be less friction in the work.

ADVERTISING CAR LEAVES FOR THE WEST

Territorial Fair Will Be Advertised As the Big Attraction of the Autumn. An advertising car in charge of Lawrence Lee and Charles Leebke left last night for the west and will spend the next few days on the road between Albuquerque and Needles. The car carries posters and literature advertising the annual New Mexico fair at Albuquerque Oct. 11-16.

SHE WOULD APPEAL TO HIGHEST COURT

Mrs. Barclay Says She Adopted Incubator Baby When It Was a Pauper and She Wants It. Kansas City, Aug. 26.—"I wish my case was at the feet of Christ instead of in any court," said Mrs. James G. Barclay, of Buffalo, N. Y., while discussing her claim to the custody of Marian Bleakley, the incubator baby, today. She declared that she adopted the child when it was on the point of being declared a pauper in Missouri and she wants the Missouri court to give her the baby. She insists there is not a bit of evidence that Mrs. Bleakley is the mother of the babe.

SPECIALIST CALLED FOR CONSULTATION WITH HARRIMAN

Condition of the Railroad Magnate Continues to be Absorbing Topic in the East.

STILL INSISTS HE IS NOT SICK

Harriman Continues to Believe His Condition is Not Serious and That Little Rest Will Put Him on His Feet.

New York, Aug. 26.—Considerable significance is attached to the visit of Dr. Norman E. Dittman, an eminent specialist in kidney disease, to E. H. Harriman. It has been impossible to secure authentic announcement of the malady from which the railroad magnate is apparently suffering. Dittman, after a long interview with Harriman, declined to make any statement for publication.

All questions were referred to Vice President Lovett, of the Union Pacific railroad. The latter is disinclined to talk of Harriman's ailment, saying nothing more than that he is no better and no worse. Lovett was in conference the greater part of the night at the Union Pacific offices with a number of railroad officials.

HARRIMAN STOCKS WALK

The Harriman stocks were weak again today at the opening of the stock market. One block of 15,000 Union Pacific shares opened at a range of 293 1/4 and 292 1/4, a decline of three points against yesterday's close. Dealings in Southern Pacific were more moderate, with a decline of one point soon after the opening. Union Pacific sold today at 291 1/4. In the first few minutes, which is practically the lowest point touched by that stock within the past three weeks. There were recessions of a point or more throughout the active list.

RAILROADS BUYING MUCH EQUIPMENT

Orders Since January Total Large Sum and Thousands of Men Are Given Work. New York, Aug. 26.—Since January 1, it is learned, orders have been given by various railroad, express and dispatch companies for \$150,000,000 to \$175,000,000 worth of rolling stock.

CAMPBELL CANT ATTEND

El Paso, Aug. 26.—Governor Campbell, of Texas, will not be present in El Paso when President Taft and President Diaz meet. In a letter from the governor to Mayor Sweeney he says it will be impossible for him to come at that time.

REVOLT OF THE WOMEN IS WORST FEATURE OF THE TIMES

British Professor Declares Woman Is Forsaking Her Work for Equality With Man.

EDUCATION SYSTEM DECLARED ALL WRONG

Race Suicide the Fault of Those Who Are in Position to Perpetuate the Race. Declares Noted Chemist in Address.

Winnipeg, Man., Aug. 26.—"The most disgusting feature of the times is the revolt of women against their womanhood and their claim to be on an equality with man in every way." This statement was one of the salient features of the address of Prof. M. E. Armstrong, president of the chemical section of the British association for the advancement of science, which began its sessions here today.

Prof. Armstrong declared his faith in the progress of chemistry toward solving the problems of life and sex. He found fault with the present conditions of society, which he said placed no hindrance in the way of race suicide.

TRAINS FROM WEST BADLY DELAYED

Stub Will Carry Passengers and Mail From Albuquerque East This Evening. A stub train will leave Albuquerque this evening for the east, running on train No. 8's schedule. Trains No. 4 and No. 8 are indefinitely late, and judging from the fact that they were marked up late early this morning the cause of the delay is west of Winslow. A freight wreck which took place yesterday near Mojave may have been the cause. The local officials say that the only information they have is that both Nos. 4 and 8 will be at least twelve hours late. At 3 o'clock this morning No. 4 was marked up at 6:20 tomorrow morning. The stub which will be run east tonight will carry both mail and passengers.

TAFT TO REDUCE THE STANDING ARMY

It Will Be Cut Down and a Saving of Millions Annually Will Result. It will not be a hard matter to reduce the size of the standing army, in accordance with President Taft's wish. Possibly the cause for this reduction is the difficulty of obtaining men, but the real reason is one of economy. Every man reduced means a saving of \$1,000 a year and if the reduction proposed reaches 5,000 men by July 1st next, the total annual saving will amount to \$5,000,000 a year.

HUMAN PIN CUSHION.

New York, Aug. 26.—A few days ago a bent and headless pin was taken from the arm of Miss Arline Wyeckoff, 18 years old, of Paterson, N. J., and since then sixteen similar pins have been extracted from the arm. Miss Wyeckoff has no idea how the pins came to be in her body and her parents believe that when she was a child she probably swallowed them, unknown to other members of the family and they are just now working themselves out.

Farmers' Trust to Fight

CHAS. A. SPEER. FARMER SPEER'S PLANS FOR UNION. 1. To abolish speculation and gambling in necessities of life. 2. To abolish the commission sales of farm products. 3. To place capital and labor on an equal footing, giving to each a just return. 4. To establish manufacturing and mining on a co-operative basis. 5. To give each farmer a just return for his labor. 6. To unite all organized labor under one general charter.

Indianapolis, Ind., Aug. 26.—If one shrewd Indiana farmer has his way, there will soon be a big combine of all the farmers in the country. While Chas. A. Speer, the planner of the combine, doesn't want it to be a farmer's trust, he would stop grain gambling on boards of trade and put the produce commission men out of business.

Mr. Speer is an officer of the American Society of Equity which held a session here. He planned the Equity Co-operative union to do away with gambling in food. "We are under heavy tribute to organized leeches," he exclaimed in an address here, "who are sapping the very life blood out of the laboring classes, regardless of wages they get through organization."

ANDREWS HAD PLEASANT TRIP

Given Ovation by Residents of Santa Fe on Reception by the Governor. Delegate Andrews, who has returned from Santa Fe, where he spent several days with Governor Curry as a guest at the new executive mansion, was busy today catching up with his correspondence and receiving those who called on him.

EXPECT TO TAKE CROWD TO PUEBLO

Irrigation Congress Next Year Will Be Attended by Many New Mexico People. Ernest Myers, who attended the 11th National Irrigation congress at Spokane, Aug. 9 to 14, as a delegate appointed by the governor from New Mexico, returned to the city this morning. Mr. Myers says that he heard nothing of the Bullinger-Pinchot controversy. Mr. Myers claims that the affair was magnified by the papers throughout the east.

LAMPHERE IS DYING.

Laporte, Ind., Aug. 26.—As a result of a visit to the Indiana state prison of Mrs. H. L. Finley and Mrs. Mary Steele, sisters of Roy Lambere, serving sentence in the Indiana state prison for burning the house of Mrs. Ella Guinness, who will her three children is said to have lost her life in the fire, Attorney Worden has drawn up a petition to present to Governor Marshall, asking for the parole of Lambere on the ground that he is growing weaker daily from tuberculosis. Lambere told his sisters he did not believe he would live more than two or three weeks longer.

BENZOATE OF SODA AS PRESERVATIVE NOT HARMFUL

Convention of Food Inspectors at Denver Endorses Findings of Remsen Board.

SECRETARY WILSON WINS HIS FIGHT

Wiley, Who Claimed That Benzoate Was Detrimental to Health, Defeated After Sharp Struggle in Convention.

Denver, Aug. 26.—The federal government was accused of licensing the sale of "medicated food" only for the sewer" at the convention of the Association of State and National Food and Dairy Departments today. Dr. Charles L. Reed, of Cincinnati, in attacking the famous Remsen referee board of scientific experts, declared that the board in urging the government to allow the use of benzoate of soda as a food preservative had ignored public welfare.

After a protracted debate, a resolution endorsing the findings of the Remsen board, which declared benzoate of soda not harmful when used as a preservative, was adopted by the convention. This is a victory for Secretary Wilson and a defeat for Dr. Wiley.

PURE BUT UNSANITARY.

In discussing "sanitary inspection of food production and distribution" Dr. H. E. Barnard, state food commissioner of Indiana, said: "The question of purity in food has now been superseded by that of sanitation in the handling of food. While, by sheer force of law, we are compelling food and drug manufacturers to guarantee purity, we are almost entirely neglecting sanitary milk production, clean bake shops or wholesale markets. We forget that meat sterilized by heat cannot contain injurious bacteria, and that our bread and milk may be swarming with the germs of ill, even though they conform to all legal standards of strength and composition."

WHILE MOST BAKESHOPS ARE NOW SANITARY, CONDITIONS UNDER WHICH BREAD IS HANDED AFTER IT LEAVES THE BAKESHOP IS SUBJECT TO SERIOUS CRITICISM.

By being carried in unclean baskets, brushed by unscrubbed hands, or distributed by unscrubbed hands, it carries an amount of germs unknown to think about. Dust kicked up by horses, throwing the bread into a wagon, indiscriminately with vinegar jugs, a kerosene can and a sack of onions, all suggests the necessity for a dust-proof wrapper. Does the consumer know that the dried fruits, crackers, sugar and other articles commonly sold in bulk are free from flies and worms? Does he know that refrigerators are free from odor and mold? We need laws that will compel the shopkeeper to protect his wares from the flying dust of the streets. Along with the law that forbids the sale of milk which contains chemicals, we want a law that will prohibit the sale of milk which contains filth, probably more destructive to health than chemicals. I have not touched upon methods employed at some canning factories, picking houses and ice cream factories. But all these subjects suggest the necessity for a vigorous campaign for cleanliness as well as purity in food."

The Albuquerque Citizen

PUBLISHED DAILY AND WEEKLY

By the Citizen Publishing Company of Albuquerque, New Mexico.

W. S. STRICKLER
PRESIDENT

WILLIAM F. BROGAN
MANAGING EDITOR

THE OFFICIAL NEWSPAPER.

March 29, 1909.

Territory of New Mexico, Office of the Secretary.
Public notice is hereby given that in compliance with Section 9 of Council Substitute for House Bill No. 213 of the Thirty-eighth legislative assembly, approved March 17, 1909, requiring the Secretary of the Territory to designate an official newspaper of New Mexico, the Albuquerque Citizen is hereby designated as such official newspaper of New Mexico. (Signed.)
NATHAN JAFFA,
Secretary of New Mexico.

SUBSCRIPTION RATES:

One Year by Mail, in Advance.....\$5.00
One Month by Mail..... .50
One Month by Carrier Within City Limits..... .60

Entered as second class matter at the postoffice of Albuquerque, N. M., under Act of Congress of March 3, 1879.

The only illustrated daily newspaper in New Mexico and the best advertising medium of the southwest.

The Finest Equipped Job Department in New Mexico.
The Latest Reports by Associated Press and Auxiliary News Service.

"WE GET THE NEWS FIRST"
STATEHOOD FOR NEW MEXICO"

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.—Republican National Platform.

For All the People

As the Citizen understands it, the meeting at the Commercial club rooms tonight is for all the people interested in good roads and not for the dozen or so, who own automobiles.

Governor Curry recently remarked that the automobile is building the good roads in New Mexico and to a certain extent the governor is correct. However, the farmer, the merchant and the consumer is just as greatly interested in good roads as the owner of an automobile and if he isn't now he should be.

Two decent bridges across the Rio Grande near this city and a road or two up and down the valley that can be traveled without a row boat, will do more for Albuquerque than anything else—even a railroad or two.

The Citizen hopes that there will be a large attendance at the good roads meeting tonight. The territorial engineer will be present and will answer any question within his field. Members of the board of county commissioners will also be on hand and the result should be an intelligent discussion of the question and final action. The roads in and about Albuquerque are a disgrace and it is time the matter were taken up in earnest.

Sensible Talk

The Citizen notes that many of the Republican papers are cautioning aspirants for senatorial jobs, state offices and other positions which will follow immediately upon the entering of this territory to the union, to hold their ambitions in check and not start their individual campaigns too early. This is indeed sensible talk. It is a well known fact that the senatorial race and the various other races have been buzzing for some time and many a plan has been laid for capturing this, that and the other job.

The Santa Fe New Mexican of recent date, admonishes some of these premature schemers to desist or see their efforts wasted and this is undoubtedly as sound advice on the subject as any aspirant needs at this time.

The only motive that should manifest itself at this time, is the unselfish one of statehood first and fight it out afterwards. Any aspirant who begins building fences at this time, will find that he has got into the game many moons too early.

The selection of members of congress and of state officials will call for the very best men in the ranks of the Republican party and the people of New Mexico will see that only such men are placed in these positions. Any candidate for honors at the hands of the party, who jeopardizes statehood and a united front, by starting an embryo campaign at this time, will find himself when the opportune time arrives very much in the rear.

Ambition is praiseworthy under proper restrictions, but the sort that will count now is the kind that places New Mexico and its interests above self. Any talk of state jobs at this time is decidedly out of order and those who have been mixing in the petty arrangements of the past few months, would better devote their energies to better things.

Let us secure statehood and adopt a constitution—then we will see about the balance of it.

Bert Walker of the Osborn Farm would like to see the school of journalism at the state university become really helpful, and he makes this suggestion: "We don't care to become a pest on any certain hobby, but we feel called upon once more to make a reasonable demand. We have kept quiet for a year under trying circumstances. We insist that the class in journalism at the Kansas university be taught how to do up single wraps. Too many editors get all the paste on the paper and none on the wrapper. It takes too much time to run out and hunt up a corn sheller to separate the paper and the wrapper. The man who can do up a paper in a neat single wrapper has conquered more than the fellow who learns to write a flowery obituary about some old fossil who has wandered on to the bourne from which no traveler returns."

All of the papers are carrying news stories about young Harriman carrying a surveyor's chain for \$65 a month. The only difference between young Harriman and many another young Smith, is that the young Smith only gets about thirty a month and chuck.

A former famous gambling house in New York city is to be transformed into a "high-class" restaurant. If it is run along the lines of most of such places in the big town its patrons of the future, like those of its past, will continue to get "skinned."

According to a professor of the Chicago university, evolution was a puzzle to the earliest human beings. And it is just as much of a puzzle to those of today. It is one of those reasonable theories which has to be accepted without proof.

They're also experiencing a crisis in affairs of state in Denmark. European news for a day would be most unusual if it did not report a crisis or two in the nations that go to make up that land of incessant political turmoil.

E. H. Harriman is home for "an after cure." This is indeed a new one. What sort of a cure did Mr. Harriman undergo that required "an after cure"? There is nothing like treatment at the hands of specialists.

It will strike the observant individual that the Commercial club has about all it can do at this time without attempting to build a railroad through Tijeras canyon.

Those who hold that women are still savages, should take comfort from the fact that they are slowly being civilized. Ear rings are no longer in vogue.

Carrizozo and Lincoln both want the county seat. Why not divide it, giving each of them a good jail and placing the court house about midway?

After cutting the weeds on the Fourteenth street aqueduct, the street force should keep right on. There are plenty of weeds.

Having at last fallen a victim to the telephone, China may figure more in the news columns hereafter.

Every time a cloud passes across the sun, the natives stop and look up expecting to see an albatross.

"Don't make an enemy of anyone—even a policeman."— Sage sayings by Officer Marquette.

Bombs From Airships

Already, a few years ago, when aviation was more of an expectation than a reality, it was clearly perceived that air vessels lend themselves particularly to espionage. The danger is, it must be admitted, not absolute. From a height of over 5,000 feet, espionage became practically impossible, and photographs taken from that height are worthless for any serious purposes.

Within that height, moreover, the spy is exposed to the far-reaching cannon of modern gunnery. Krupp has guns that shoot straight up to a height of 11 1/2 kilometers, or over 40,000 feet. But there remains bomb throwing.

When at the last Hague conference England proposed that the throwing of bombs from air vessels shall not be allowed, at any rate, not until the next Hague conference, eight of the forty-four powers present did not give their consent. The eight powers were Germany, Argentina, Austria-Hungary, Italy, Montenegro, Persia, Roumania and Russia.

It is doubtful whether, speaking generally, bombs may or may not be thrown upon undefended places; it cannot be doubted that, in case of war, Germany, e. g., is by present international law, not prevented from sending a Zeppelin over the town of Hull or Scarborough and dropping bombs upon its houses. It is evidently part and parcel of British diplomacy to handle the questions of the law of the air in such a manner as to compel the adversary to abolish the right of bomb-throwing from airships. England, with no army to speak of, and with a fleet that may be required in six different parts of the world at a time, cannot possibly offer her towns the same protection that, for instance, Germany can with a huge army to draw upon at any given moment.—London Express.

CLIPPINGS From The Press

FAN LOST A TOE.

Charlie Ham, the nice, quiet little boy who works in the Daily International composing room, while witnessing a game of baseball, Sunday, on International Avenue, had his foot stepped on by a base runner and his left big toe cut off by a sharp steel "cock" on the player's shoe.—Donatus International.

A SALOON WAR.

The Anheuser Busch and Raiter brewing companies are engaged in a war at Tucson. An attempt is being made to control the saloons and where necessary the grog shops are being purchased outright by one or other of the companies. Honors so far are about even. The war will extend throughout the southwest, it is said.—Clifton Copper Era.

FEELING BIG.

The New Mexican says that Santa Fe does not want to ride in a few coaches at the tail of the Las Vegas special train that will go to Albuquerque to meet President Taft. They want a little train of their own. This is highly commendatory and The Optic hopes they will be able to have what they want. But special trains cost money, and if you fall down, neighbors, Las Vegas will still be willing to take you on as a tail to her kite.—Las Vegas Optic.

UP TO THE PEOPLE.

Judge McEffe in rendering his decision in the Mountainair saloon case has combined good law with good sense and common justice. Where the people do not want a saloon it should not be thrust upon them and controlling a saloon is like controlling smallpox or yellow fever. The best way to control it is to stamp it out. Evidently Judge McEffe feels this way about the matter and so far as the law will justify he will carry the theory out.—Farmington Times-Herald.

NO SEPTEMBER COURT.

There will be no September term of the district court. Instead, there will be a special term early in November. This action was taken by Judge Alfred W. Gray for the reason that United States court meets here the latter part of November. By holding the district court in the early part of the month, attorneys and witnesses from abroad may attend both courts at one expense. It is believed by local attorneys that this arrangement will be made permanent.—Alamogordo News.

"SMITHSONITE."

Some time ago the Reporter published the exclusive news fact that C. A. Whited, Raton jeweler, was the controller of the only known mine of the new precious stone called "Smithsonite"—the mine itself being located in Southern New Mexico.

This latest precious stone belongs, perhaps, properly to the brilliant Emerald family and is rapidly becoming fashionable for stick pins, scarf sets, shirt studs, cuff clasps, bracelets, watch charms, etc.

Within the last few months Mr. Whited has manufactured to order from various portions of the United States a great many of these new

jewels and has now opened up the supplying of a wholesale trade in uncut Smithsonite stone at from 18 to 20 cents per one carat weight. The New Mexican—and only—Smithsonite mine is practically exhausted and the Raton jeweler establishment of Mr. Whited will be the exclusive receiving depot and clearing house of this new and popular gem.—Raton Reporter.

POISONOUS WEEDS.

Monday afternoon a small girl belonging to Catarina Valencia was found lying on the ground near the home very sick. Doctors Hopkins and Cahill were at once summoned, and after an examination and questioning of the child it was discovered that she had been poisoned by eating weeds. Through the efforts of the physicians she was brought out all right, but the little one had a very narrow escape from death. It is advisable for parents to warn their children against eating weeds, as so many varieties are poisonous and injurious.—Springer Stockman.

OLDEST ORCHARD.

The oldest orchard in America, if not in the world, is in the center of the ancient town of Matzamo, eighteen miles southwest of Estancia, Torrance county, New Mexico. Many of the trees are more than six feet in circumference but all are still fruitful and vigorous, although neglected for generations. Little is known of the history of this orchard, but the oldest inhabitants of the valley of the Rio Grande remember the orchard from childhood and say the trees have not changed in appearance since then. Venerable Mexican and Pueblo Indians tell of visiting the orchard as far back as they can remember and finding apples on the ground in all stages of decomposition at least two feet deep.—Mountainair Messenger.

DIDN'T WEAR A ROSE.

A story is told of a certain Mancos youth who fell in love with a pretty German girl and sent her a note proposing a place of meeting. He wrote: "That my darling may make no mistake, remember that I will wear a light pair of trousers and a dark cut-away coat. In my right hand I carry a cane and in my left a cigar. You are ever." The girl's father got hold of the note and sent this answer: "Dot you make no mistakes, I will wear in mine right hand a club. In mine left hand I will wear a sixshooter. You will recognize me by the way I bats you on der head a goaple dime twice, mit der club. Wait for me at der corner. I haf someding important to inform you mit."—Cortez Herald.

Always Leap Year in New Guinea

In the remote island of New Guinea it is leap year all the time in one important sense, for out there all the proposals of marriage are made by the women. It is considered beneath the dignity of the male inhabitants of New Guinea to even notice a woman, and consequently the women, therefore, must start any idea of weddings, etc. So when the bells of New Guinea become in love she promptly sends a piece of string to the sister of the lucky man. If he has no sister she sends it to his mother, or anyhow to some female relative. This, because the man and his male relatives are assumed to be above taking any steps toward acquiring a wife.

Then the sister says to the man involved: "Brother, I have news; go and see in my left hand." If inclined to matrimony the man makes an engagement to meet the enamored lady. When they meet it is alone, and they either decide to wed or drop the entire proposition at once. There is no courting, for the man is not allowed, theoretically at least, to waste any time on a woman—not even enough to allow her to make love to him.

The betrothal is announced and the engaged man in New Guinea is branded on the back with charcoal, but the woman's mark of engagement to wed is actually cut into her skin and is never allowed to completely vanish. If either one decides to break the engagement nothing can be done by the offended party.

If the girl decides that after all she sent the little piece of string by mistake, the man is apt, however, to catch her sometimes alone and beat her. If the man jilt the woman her relatives often hunt him up and administer a sound drubbing.—Exchange.

Hair Dresser and Chiropodist.

Mrs. Bambini, at her parlors opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrown nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares hair tonic and cures and prevents dandruff and hair falling out, restores life to dead hair, removes moles, warts and superfluous hair. For any blemish of the face call and consult Mrs. Bambini.

Our work is complete. Huels Laundry Company.

Knights of the Grip

Marshall Field was a commercial traveler, so were John Wanamaker and Tom Murray. So also were Dwight L. Moody, the great evangelist, and Richard Cobden, the English statesman and writer.

Ex-Governor Frank Black of New York followed the road with his sample cases before beginning his legal and political career. Walter D. Moody, one of the chief executives of the Chicago Association of Commuters, was for fifteen years a road salesman. This list might be extended almost indefinitely.

Occasionally the commercial traveler leaves the road to enter one of the professions. According to Everybody's, Milton J. Foreman, one of the leaders of the Chicago bar, president of the Chicago Charter association, alderman and a power in local politics, was a star jet salesman, and took his law books on the road with him until he was well grounded in the rudiments of the profession.

Then the fact that his calling as a traveling salesman gave him practically six months of clear time each year permitted him to attend law lectures and almost complete his work as a law student without interfering with his business on the road. Again, when he was ready to enter the list of practicing lawyers, he had the advantage of ample capital and a wide business acquaintance.

Another commercial traveler took a course in the University of Chicago after he was married. There he became interested in Egyptology, and later, between his regular commercial trips on the road, visited Egypt and studied the ancient ruins at first hand. This brought him into print in a series of travel articles, and he found that he could write, and write well. Later he drew upon his experience as a commercial traveler for literary material and scored a success.

He resolutely withstood all temptation to be drawn away from the road. His work kept him in touch with the world of affairs, and one day his alert eye caught sight of the opportunity to start a novel business enterprise "on the side." His "road partner" became his actual partner in the new enterprise.

Their work for their respective house took them where they most needed to go in the interest of their private venture. Today one of these men draws a salary of \$12,000 and the other a little less than that, while their private venture probably yields them more than they earn from their regular calling.

That many commercial travelers are men of religious convictions is indicated by the fact that the traveling men have a large and flourishing order devoted to the spiritual interests of the men of the road. It is called the Gideons, and has its headquarters at Janesville, Wis., a city which is typical of many others in that it has a home center for a large number of traveling men. In cities of this kind are generally to be found local clubs or societies composed exclusively of commercial travelers and their families.

There is one form of organization, however, with which the majority of commercial travelers are identified—this is the mutual insurance association. Broadly speaking, this is the traveling man's savings bank and his favorite investment, as most of these associations provide for both life and accident insurance, and for a certain payment when disabled by sickness of any kind.—New York Sun.

THE HIGH PEAKS.

At least one item in the following table compiled by N. H. Barkon of the United States geological survey, will be of interest. Every one wants to know—usually he thinks he does know—what is the highest point in his own state. New Mexico ranks eighth in the list of fifty states and territories, including the district of Columbia, as follows:

Where located.	Feet.
Alaska, Mt. McKinley	20,300
California, Mt. Whitney	14,501
Colorado, Mt. Elbert	14,436
Washington, Mt. Rainier	14,383
Wyoming, Mt. Gannett	13,785
Utah, Mt. Emmons	13,428
Nevada, Mt. Wheeler	13,058
New Mexico, peak two miles north of Truchas	13,000
Montana, Granite Peak	12,834
Arizona, San Francisco Peak	12,611
Idaho, Hyndman Peak	12,068
Oregon, Mt. Hood	11,225
South Dakota, Harney Peak	7,240

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio.

FISHERMAN'S PARADISE RUINED

"It has not been so many years ago since that stretch of the Potomac river, not far from Washington, and embraced in the expanse between the Little Falls and the Great Falls, was a veritable paradise of fishermen," said Mr. Sheldon S. Cline, an enthusiastic disciple of Isaak Walton, and veteran member of the Anglers' club, of the District of Columbia, at the Rennett.

"That halcyon day has long since vanished, and over the same course where a fisherman could once take out more grand specimens of black striped bass than from any other stream in the United States, it is now almost an impossibility to capture enough for a meal.

today but for the asinine deed of some government official, who introduced into the Potomac a quantity of German carp and Mississippi river catfish. These miserable and greedy creatures began at once to devour the spawn of the aristocratic game fish, that from the day of the advent of their baser brethren began to diminish and finally to almost disappear. It was an act of stupidity approaching a crime."—Baltimore American.

"I suffered habitually from constipation. Doan's Regulents relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

Base Ball

\$1,500 in prizes have been offered for the greatest of American sport. The amateur championship of the Southwest will be decided at Albuquerque's excellent base ball park, participated in by the best teams in New Mexico, Arizona, Southern Colorado, and El Paso, Texas. This is an event that annually stuns the veracity of all fandom, and the interest is at fever heat.

Marathon Race

Never before has a real marathon race been run in the Southwest. This is one of the features that ancient Rome considered "king" of all sports; it thrilled all the world during the late Olympian sports in England. The best runners in the country will take part. Don't fail to witness the greatest endurance that man is capable of.

Horse Racing

The cream of the turf will take part in the greatest horse races ever pulled off in the West.

\$6,500

have been offered in prizes which insures the finest thoroughbreds being entered that are now racing in this country.

For Full Information and Entry Blanks Address the Secretary.

BETTER BUY THAN BAKE. Unless you wish to do it yourself, for among the hired help of today there are very few good bread bakers, so when you get as superior a quality of bread as is furnished by the Pioneer Bakery it would seem foolish to go to the extra trouble and endure the "trials and tribulations" of baking day. You will find our bread as good in quality as any made. It is always uniform, white and of delightful flavor.

PIONEER BAKERY, 207 South First Street.

IRRIGATION MEET ONE OF THE BEST

Col. Twitchell Tells of Events at Spokane, Where New Mexico Took Prominent Part.

Col. R. E. Twitchell, who has just returned from Spokane, says that the Seventeenth National Irrigation congress was a big and successful event. Over 2,300 delegates were present and many more people were in the city as visitors and on account of the land drawing at Coeur d'Alene. The colonel attended the meeting of the board of governors held the Friday previous to the meeting and was present at all sessions of the congress, which opened on Monday and continued until the following Saturday.

The first two days of the congress recorded one of the warmest fights in the history of such congresses of the United States. It was not only between Secretary Ballinger and Gifford Pinchot, but their friends took an active part in the attacks and counter attacks. It would be difficult to say which one had the better of the argument. The middle of the week saw the congress serene again and doing business. The fight for the next congress was vigorous but short. San Francisco was after it and Kansas City wanted it, and both of these cities had plenty of money, but Pueblo won through the thorough organization of the delegates from the Rocky mountain district.

El Paso was much in evidence at the congress with a couple of special cars and New Mexico was not far behind with thirty-eight delegates. The fact that the presidency was secured by Arizona and the first vice presidency came to New Mexico, in the election of Mr. Fowler of Flagstaff to the first position and Col. Twitchell to the second, shows that the territories were decidedly conspicuous.

Secretary Ballinger told Colonel Twitchell that the Elephant Butte dam would be completed, no matter what other projects were turned down, should the policy of the government suddenly change toward the immediate reclaiming of the arid west.

BOYS CATCH FISH WITH BARE HANDS

Acquia on Fourteenth Street Affords Rare Fishing for Youngsters.

Several barefoot boys spent a busy day today, along the acquia on Fourteenth street near Central avenue, catching fish. They did not use hook and line, but caught the fish with bare hands.

As the result of much irrigating the acquia water ran low today and it was discovered that the ditch was literally alive with fish, many of them six inches in length, though most of them were much smaller.

By wading along the acquia the boys dove the fish to a particularly shallow hole, and then scooped them out with their hands. It is estimated that one party of boys caught as many as two dozen fish in a short time. The boys said they were taking the fish home, placing them in wash tubs filled with pure water and feeding them. Many of the fish perish in small pools in the acquia and all that the boys caught were thereby saved. The species of fish were not known to the youngsters, except that they were certain there were no trout among them. It is believed they are not valuable for food.

The rapid increase in our business is due to good work and fair treatment of our patrons. Hubbs Laundry.

CHILDREN MUST ATTEND SCHOOL

If They Don't the Law Provides Penalty for Their Parents or Guardian.

J. E. Clark, superintendent of public instruction in the territory, has addressed the following circular letter to county superintendents, advising them of the law's provisions for the parents of children who don't attend school when they should:

Gentlemen:—This is to call your attention to the compulsory education law found in Section 155, Compiled Laws of 1897, as amended by chapter 39, laws of 1903, and chapter 121 of the laws of 1909. This law requires the boards of school directors to compel parents, guardians and other persons having the control and care of children between the ages of seven and fourteen years to send such children to school during the entire time that the school is in session in their respective school districts. Attendance upon denominational schools is accepted under the law in lieu of attendance upon the public schools and children of physical or mental disability such as to unfit them for school attendance as well as children who live more than three miles from the public school are not required to attend. Parents or guardians failing to comply with this law "shall be punished upon conviction by a fine of not less than five dollars nor more than twenty-five dollars or by imprisonment in the county jail not more than ten days." The following steps of procedure under this law are suggested:

First. Clerks of boards of school directors should post or publish notices at once as provided in the act. See section 1555, compiled laws of 1897. The following form of notice is suggested:

Notice to Parents or Guardians of Children of Compulsory School Age.

Section 1555, compiled laws of 1897, as amended: The school directors or board of any school district, town or city in this territory, are hereby empowered and required to compel parents, guardians, or other persons having the control, care or direction of children, when such children do not attend some private or denominational school, to send such children under their control to the public school during the entire time such school is in session in each scholastic year in their respective school communities, except that children referred to in this act shall not be less than seven nor more than fourteen years of age, or of such physical disability as to unfit them for school duties, which disability shall be certified to by some regular practicing physician. Provided that the private or denominational school shall be equal in its teaching to the public school of the district; and provided, further, that this section shall not apply to children who live more than three miles from a public school.

Any parent, guardian or other persons having the control of children who shall fail or refuse to send such children to school as required by this act, after the clerk of the school district or the clerk of any town or city school board shall have given public notice containing the substance of this act, written or printed in both English and Spanish, by posting same in some conspicuous place at three separate points within the district, or publishing the same in some newspaper within the district, shall be punished upon conviction thereof by a fine of not less than \$5 nor more than \$25, or by imprisonment for not more than ten days in any county jail.

County superintendents are hereby vested with general supervisory powers in this matter and shall require directors to comply with the provisions of the preceding section; and it shall be the duty of the presiding judge of the district court to give, at each session of the court, the substance of the law as a special charge to their respective grand juries, and it is made the duty of the district attorneys to give particular heed to the prosecution of cases growing out of violations of this act; and all fines so collected for the violation of this act shall be paid into the county treasury and placed to the credit of the school district in which the offense occurs.

Sec. 12, chapter 12, laws of 1909: Any member of the board of education, county school superintendent, or other school officer who may violate the provisions of this act or other acts concerning their powers and duties in connection with school matters or who shall not faithfully perform all such duties imposed under and by virtue of the law shall, on conviction thereof, be fined in a sum not less than twenty-five dollars (\$25) nor exceeding five hundred dollars (\$500).

Second. All children over seven years of age and under fourteen years of age must attend school for the entire term in the district. If the district holds school for five months the children must attend school five months. If the district holds school for seven months the children must attend school seven months.

Third. In the event that any child of compulsory school age shall fail to attend school regularly as required by this act it becomes the duty of the clerk of the district board of school directors to notify the district attorney of such violation of the law and "it is made the duty of the district attorney to give particular heed to the prosecution." (District or judicial court).

Fourth. County superintendents are vested with general supervisory powers and shall compel compliance with the law.

Fifth. Section 12, chapter 21, laws of 1909, imposes a fine upon the county superintendent or any other school officer for failure to perform his duty.

We believe that the compulsory education law as it now stands on our statutes can easily be enforced. In behalf of those children who have not been sufficiently interested in school or whose parents have not looked carefully after the children's schooling, we urge that the school directors, the teachers, the county superintendents, the district attorneys, and all patrons of every public school, lend all possible aid in the enforcement of our compulsory education law.

Yours very respectfully, (Signed) J. E. CLARK, Territorial Superintendent of Public Instruction.

RUGS AND CARPETS

Have you seen our new patterns in Rugs just received? They are swell, the latest designs in Orientals and Florals in Axministers, Body Brussels and Wiltons. 9x12 size in above grades range in price from \$23.50 upwards, on easy payments.

America's New Dreadnaught, South Carolina With Her Queer Masts, All Ready for Trial

Here is America's new Dreadnaught, the battleship South Carolina, ready for her trial tests. Equipped with the new woven wire masts, eight great 12-inch guns bristling from her sides, the Carolina presents the newest and latest thing in American warship building.

With the official tests, set for August 24, will come the revelation of whether the endless plans and specifications and calculations of engineers and draftsmen are correct—whether this immense mass of steel will be able to plow through the water at 18 knots an hour.

If there is anything wrong, William Cramp & Sons of Philadelphia, the builders, stand to lose a bunch of money.

The South Carolina has a normal displacement of 16,000 tons, is 450 feet long along the water line and her crew will be 860 men. She draws normally 24 feet of water. The ship was authorized by act of Congress in 1905, and laid down in the Cramp ship yards in July of the following year.

THE NEW BATTLESHIP SOUTH CAROLINA, AS SHE LOOKS TODAY.

MOKI SNAKE DANCE THE BEST IN YEARS

Local People Saw Annual Ceremony in Arizona and Say It Was Well Attended.

Forest Parker, who is in the city from Ganado, Ariz., visiting friends, says that the recent snake dance of the Moki Indians was the best the tribe had in recent years.

A large number of sightseers went from Winslow and Holbrook, Ariz., and Gallup, N. M., to witness the dance, and heavy rains and bad roads made the trip a very hard one.

The party traveled in a heavy ambulance. Alonzo Hubbell, Sr., was driving. There was a deep arroyo to cross and just below the wagon road there was a fall of six or eight feet of broken rock.

The wagon turned over on the rocks, throwing Mrs. Carns out. She fell in a crevice in the rocks, with the wagon on top of her, and that she was not crushed is due to the fact that the rocks protected her.

NAMES FOR HOTELS AN IMPORTANT TOPIC

Santa Fe and Harvey System Have About Used Up the Names of Spanish Explorers.

The naming of the new hotels the Santa Fe is building at Clovis, Vaughn and Lamy is an all absorbing topic with Harvey and Santa Fe officials just now.

Deshong Leaves for New Position. Popular Yardmaster Goes to Ogden to Be Trainmaster on the Oregon Short Line.

J. D. Deshong, yardmaster in the local Santa Fe yards, left last night for Ogden, Utah, where he has accepted the position of trainmaster on the Salt Lake division of the Oregon Short Line.

A large number of railway people were at the train last night to say farewell to Mr. Deshong, whose title "Gentleman Jack" shows the high esteem in which he was held by those with whom he worked and came in contact during his stay in Albuquerque.

Everybody around the local yards knew Deshong and everybody was his friend. They all hated to see him go but hope he has all kinds of success at Ogden.

Feel languid, weak, run-down? Headache? Stomach "off"?—Just a plain case of "liver" trouble. Burdock Blood Bitters tones liver and stomach, promotes digestion, purifies the blood.

Jesus Christ is the Savior," he said. Mr. Lehmann left this morning for Rafton, where he will hold a rally tomorrow night. The present field trip will probably be the last in this territory, as Mr. Lehmann has been transferred to an eastern circuit, with headquarters in New York.

There are now forty-one societies in New Mexico with 1,600 members.

Five New Members Were Added During a Session of Local Lodge Last Night.

The Elks' lodge room last night was the scene of one of the most interesting initiations in the history of the local order and as a result W. C. Robertson, manager of the Crystal theatre, Louis Grant, J. A. Sloan, W. P. Brannin and Walter Curd are this morning permitted to adorn themselves with the emblem of the Best People on Earth.

The initiation exercises followed an interesting business session during which many matters of importance to the members were discussed.

Fully an hour before the time set for the initiation, members were greeted with a sight which brought smiles to their faces.

Four of the five victims were handcuffed and shackled around telegraph poles on the east side of the Elks building. Here they were kept until they were needed for initiation.

Following the initiation and banquet, Mr. Robertson of the Crystal theatre was presented with a beautiful diamond set Elks' pin, the gift of the employees of that popular playhouse. The presentation was made by R. G. Munn and Harry Becker of the Crystal theatre.

A communication was read at last evening's meeting by Secretary Roy McDonald from the Camden, N. J., Elks, wherein they stated that their next visit to this city while en route to the convention at Los Angeles was the most pleasant stop of their entire trip to the coast.

The letter thanked the local Elks for their courteous and liberal reception at that time, for which they hoped to reciprocate at some time in the future.

The Christian Endeavor has had some part in the great temperance movement which has swept the country and we do not believe that prohibition does not prohibit. It does prohibit if you get men behind the law with real American backbone.

It is not a question of whether or not we wish to share in missionary enterprise—it's simply a question of obedience. The Christian Endeavorers have contributed over \$2,000,000 to missions during the past two years. We believe that every Christian owes at least one-tenth of his income to the extension of the kingdom, that until they pay that one-tenth they do not give anything. The scriptures have always taught that the tithe is the law.

Mr. Lehmann closed by remarking that we had a leader whose heart had literally been thrown into the world that men and women might be saved.

The challenge of the world today is that the church follow that heart and tell men and women round that

ENDEAVOR RALLY LARGELY ATTENDED

Young People Held Business Session and Heard Able Address by Field Secretary.

A very successful and enthusiastic rally was held at the Congregational church last night by the members of the Christian Endeavor union of this city. The feature of the evening was the interesting and very able address delivered by Karl Lehmann, field secretary for the Christian Endeavor Unions of Colorado and New Mexico.

Preliminary to Mr. Lehmann's address a brief business session was held, reports of various officers were received and the appointments announced by Mr. Lehmann of a new staff of officers for New Mexico. The appointees were as follows: C. E. Linney, of Santa Fe, president; F. Kitson, Raton, vice president; Miss Kate Vaughn, of Albuquerque, corresponding secretary; Arthur E. P. Robinson, of Santa Fe, recording secretary and treasurer.

Mr. Lehmann complimented the retiring officers on their work the past year and gave special attention to the name of H. S. Lithgow, who for the past four years has acted as president of the organization. Mr. Lithgow declined re-appointment owing to personal business.

Mr. Lehmann's address to the Endeavorers, which occupied two hours, made a good impression on his hearers and was very interesting throughout. In the course of his remarks he made this statement: "The need of the church today is not for more and better preachers, but for more and better lay workers, who are willing to back up the message of the pulpit with their personal work. The Endeavorers believe that the need of America today is not for men who shall be loyal to political party so much as to men who will be loyal to the cause of righteousness. We stand for patriotism as against partisanship."

"The Christian Endeavor has had some part in the great temperance movement which has swept the country and we do not believe that prohibition does not prohibit. It does prohibit if you get men behind the law with real American backbone."

"It is not a question of whether or not we wish to share in missionary enterprise—it's simply a question of obedience. The Christian Endeavorers have contributed over \$2,000,000 to missions during the past two years. We believe that every Christian owes at least one-tenth of his income to the extension of the kingdom, that until they pay that one-tenth they do not give anything. The scriptures have always taught that the tithe is the law."

Mr. Lehmann closed by remarking that we had a leader whose heart had literally been thrown into the world that men and women might be saved.

The challenge of the world today is that the church follow that heart and tell men and women round that

Soothe itching skin. Heals cuts or burns without scar. Cures piles, eczema; salt rheum, any itching. Doan's Ointment. Your druggist sells it.

Executive Office, Santa Fe.

An annual holiday in honor of labor was established in this country a number of years ago, and the first Monday in September of each year is by law designated and set apart as Labor Day.

The custom of observing this holiday is indorsed by popular approval, and in a country such as ours, holding as it does the industrial supremacy of the world, nothing can be more fitting or appropriate than to pay public tribute to the vast armies of labor.

Therefore, in order that New Mexico may join in the very excellent custom of honoring labor, I, George Curry, governor, do hereby proclaim Monday, the 6th day of September, A. D., 1909, a legal holiday in the territory of New Mexico, and I recommend that it be universally observed by the people. I suggest that educators of the youth take this occasion to impress upon the minds of the children the great moral value of industry; that labor is divine injunction, that drones in a community are necessarily despicable, that idleness dissipates the highest powers of an individual and produces a worthless if not a criminal citizen.

(Seal) GEORGE CURRY, Done at the executive office this 24th day of August, A. D., 1909. Witness my hand and the great seal of the territory of New Mexico.

NATHAN JAFFA, Secretary of New Mexico.

AEROPLANE FLIGHTS AT COLOMBO THEATRE

Wright Brothers and Their Machine for the Army Will Be Shown Tonight.

"Spot" Moore, manager of the Colombo theatre, has succeeded in outwitting the territorial fair management and tonight will show an airplane, President Taft, Alice Roosevelt-Longworth, Speaker Cannon, senator Mr. H. and other notables. They are all in one picture, which shows the Wright brothers testing their aeroplane for the army at Fort Meyer recently, and the president and other eminent folk watching the flights.

"The Web of Fate" is another fine picture on tonight's program, a dramatic incident of the French revolution, in which the old story of the episode's web plays a prominent part.

TOO LATE TO CLASSIFY. WANTED—quiet agreeable room-mate. Inquire window trimmer, Golden Rule.

FOR RENT—Ranch one on horse survey, only used a few days; will sell cheap before I leave, Sept. 1, 112 S. Walter.

Denver, Aug. 26.—For Albuquerque and vicinity: Local showers tonight or Friday.

Steps crunched in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours.—Dr. Thomas' Electric Oil, mechanical user pain.

ENDEAVOR RALLY LARGELY ATTENDED

Young People Held Business Session and Heard Able Address by Field Secretary.

A very successful and enthusiastic rally was held at the Congregational church last night by the members of the Christian Endeavor union of this city. The feature of the evening was the interesting and very able address delivered by Karl Lehmann, field secretary for the Christian Endeavor Unions of Colorado and New Mexico.

Preliminary to Mr. Lehmann's address a brief business session was held, reports of various officers were received and the appointments announced by Mr. Lehmann of a new staff of officers for New Mexico. The appointees were as follows: C. E. Linney, of Santa Fe, president; F. Kitson, Raton, vice president; Miss Kate Vaughn, of Albuquerque, corresponding secretary; Arthur E. P. Robinson, of Santa Fe, recording secretary and treasurer.

Mr. Lehmann complimented the retiring officers on their work the past year and gave special attention to the name of H. S. Lithgow, who for the past four years has acted as president of the organization. Mr. Lithgow declined re-appointment owing to personal business.

Mr. Lehmann's address to the Endeavorers, which occupied two hours, made a good impression on his hearers and was very interesting throughout. In the course of his remarks he made this statement: "The need of the church today is not for more and better preachers, but for more and better lay workers, who are willing to back up the message of the pulpit with their personal work. The Endeavorers believe that the need of America today is not for men who shall be loyal to political party so much as to men who will be loyal to the cause of righteousness. We stand for patriotism as against partisanship."

"The Christian Endeavor has had some part in the great temperance movement which has swept the country and we do not believe that prohibition does not prohibit. It does prohibit if you get men behind the law with real American backbone."

"It is not a question of whether or not we wish to share in missionary enterprise—it's simply a question of obedience. The Christian Endeavorers have contributed over \$2,000,000 to missions during the past two years. We believe that every Christian owes at least one-tenth of his income to the extension of the kingdom, that until they pay that one-tenth they do not give anything. The scriptures have always taught that the tithe is the law."

Mr. Lehmann closed by remarking that we had a leader whose heart had literally been thrown into the world that men and women might be saved.

The challenge of the world today is that the church follow that heart and tell men and women round that

POSTOFFICE IS AN AID TO CRIME

Officials Agree That General Delivery Section Probably Does Much Harm.

Chicago, Aug. 26.—That the general delivery section of the postoffice of large cities is an accessory before the fact in thousands of crimes, and that the department must find some other method of delivering mail to the transients of the big centers of population or continue to protect criminals and furnish the greatest medium for drawing young women into a life of crime or shame is admitted by Chicago postoffice officials.

With all the restrictions the postal department can make, it is asserted that not 50 per cent of the patrons of the Chicago general delivery are bona fide. A few years ago the general delivery was the medium used for purposes of harmless flirtation, but it now forms a means for communication between criminals, which has reached such a point that many officials of the department are inclined to believe it will be necessary to abolish it.

A visitor at the Chicago general delivery yesterday watched the men and women who called for mail. Many of the callers—more women than men—turned their faces to avoid a square look from the visitor, but most of them came in with an assurance that bespoke a habit. Occasionally a person entered and left again without getting in line to call for his mail if the length of the lines indicated he might have to wait.

Detectives on the Watch. Some women were veiled, many came accompanied by friends. Near the delivery windows and in the hall detectives moved quietly about, looking for the city's criminals which might appear or send for letters.

"We know the general delivery is an evil," said William Samsom, acting general superintendent of the city delivery division, "but what are we to do? The first purpose of the postoffice is to carry letters and packages and deliver them to the persons to whom they are sent. We make all the restrictions we can. We don't deliver mail to minors, and we watch as close as we can. But if persons who live in the city want their mail sent to the general delivery and call for it here, we have to deliver it to them."

"I am certain that if the government had known what the general result would be the section never would have been established. Still, I don't see how otherwise the transients would be able to get their mail. There should be some other way to accommodate this class of patrons without offering an opportunity for thousands to use the general delivery for ulterior purposes."

"Probably 25,000 persons visit the general delivery every 24 hours and of these more than 70 per cent could get their mail at their addresses if they chose. When they come for mail that is here for them or send messengers with written orders for it, we must deliver it."

"It seems that a rule to require persons to find a residence within, say, 30 days might help some, but then, of course, assumed names might be used and messengers sent for the mail. It is hard to see how the general delivery can be regulated so that its abuse could be abolished."

"There are probably two letters delivered from the windows for each ten cents," said P. H. Sullivan, foreman of the general delivery section. "Of course, many ask for letters who never get one in their lives in Chicago. They pass the postoffice and just wonder if they may not have a letter there and step in and ask."

"Traveling men and foreigners form a large proportion of the legitimate class of patrons. They give little trouble. The foreigners watch the ship arrivals in New York and a couple of days later come in for their mail."

Dangerous Bitfalls for Girls. Those who abuse the general delivery privileges come from all classes of society, say the postoffice officials. Young girls use it as a medium of flirtation and not a few are called into the foreman's office and given good advice and told what their start through the general delivery may lead to. Thousands of women check and stenographers visit the section in the early mornings from 7 o'clock to 10 o'clock. Practically all of these women have homes or boarding places to which their mail could be sent. Many explain that they can get their mail sooner by calling for it at the general delivery windows.

But these men with residence and offices use the general delivery, and many women, some accompanied by children, are regular patrons. Throughout the day messenger boys press orders for mail from all sorts of persons, and carry messages between criminals and the vicious without danger from police officers.

Donald W. Wilkie, connected with the United States secret service, wrote a magazine article several months ago on "The Menace of the General Delivery." He calls it the "canker of the postal system," and says in conclusion: "Only heroic, concerted and drastic action, taken with a unity of purpose and execution by the general department, will ever remove this canker and leave the legitimate and honorable service intact."

out danger from police officers. Donald W. Wilkie, connected with the United States secret service, wrote a magazine article several months ago on "The Menace of the General Delivery." GETTING DATA FOR ARIZONA HISTORY

To gather data from the records of the Territorial Pioneers' association, which has its headquarters in Tucson, Mufford Winsor, a former Tucsonian, who is the official historian of the territory and who is compiling the Arizona records in book form, has been engaged in his labor for several months and during this period he has gathered much valuable data about Arizona.

Some idea of the magnitude of this work may be gleaned from the fact that the official history of the territory will comprise several volumes, and the historian has been allowed several years in which to complete his task.

Already he has gotten in communication with more than 50 residents of the territory from whom he hopes to secure information regarding the territory, and this number will be greatly increased before the work is completed.

During a recent trip to Wilmington, Calif., Winsor accidentally secured some information which he prizes most highly and which is of the greatest importance. It is a record of the movements of the party led by Captain Joe Walker, who first explored central Arizona. The information was received from D. E. Conner who, with the exception of Sam Miller of Prescott, is the sole surviving member of this party of scout, trappers and prospectors who braved hardships and dangers to explore new portions of this territory. This party made its trips in 1862, starting from Albuquerque, passing through Tucson to Maricopa Wells, from which point they went north to Prescott through a country that had never before been traveled by white men.

Winsor intends to visit every town of any size in the territory, collecting historical data. He has been made a liberal traveling allowance for this purpose.

SPAIN IS FACING DEFEAT IN MOROCCO

Campaign Against the Moors Is Repetition of Those in Cuba and the Philippines.

Madrid, Aug. 26.—Spain's Moroccan campaign is developing a repetition of the country's struggle of a decade ago in Cuba and the Philippines, just as military experts in Madrid predicted a month ago.

News of the progress—or nonprogress—of events is kept carefully from the public in Spain. Confidential information from government officials, however, leaves no question that the outlook is black.

The Spaniards are strong enough to hold their own in Melilla and one of two of the other larger towns as long as money is forthcoming and occasional levies are possible from home. Otherwise, they are in a sorry condition of the country than on the day the trouble broke out, so far as the common soldiers are concerned, conditions are deplorable.

The forces penned in Melilla dare not venture a sally outside the city walls, except in fumes, and as the country is too barren to support them at any distance from their base, the troops are inevitably compelled to retreat after each advance, leaving all they have gained to be taken by the natives.

Spanish Araid to Venture Fight. Losses in the field have been small of late for the reason that General Marina has been afraid to venture an important engagement.

From disease, heat and hardships, however, scores are dying. The facts are so carefully suppressed that it is impossible to give definite figures, but there is high authority for the statement that Gen. Marina has at his command barely three-fourths of the body placed at his disposal early in August, the rest having been lost in capture, succumbed to fever and dysentery or being helpless in hospital. This estimate would place the number of dead or disabled at 9000.

The general has been warned from Madrid to call for reinforcements only as a last resort, political ends being so serious in Spain that the government is in deadly fear of the effect of a fresh conscription. It is hardly possible, however, that a call for aid can be long delayed.

TWO CENTS TO BE THE LOWEST RATE

Passenger Officials of Western Roads Said to Consider Cutting Out Reduced Fares.

Chicago, Aug. 26.—Officers of the leading western railroads are making another effort to stop the cutting of passenger rates for excursions and conventions and to establish two cents a mile as the minimum rate for passenger fares throughout the western states that have passed laws reducing fares.

A meeting of executive officials of the Chicago roads was held in the office of E. P. Ripley, president of the Atchison, Topeka & Santa Fe railway, to consider the subject and to discuss ways and means of bringing about the desired object. It develops a similar meeting was held last Friday in the office of B. L. Winchell, president of the Rock Island system.

It was stated that no definite decision had yet been reached, as all of the roads have not been represented. During the meeting it was agreed that an agreement so that reduced rates below the regular fares will be discontinued after the first of the year.

At present the usual practice is to make a rate of a fare and a half for the round trip for occasions at which there is an attendance of 1,000 or more traveling by rail. This arrangement was decided upon by the roads in the Western Passenger association, to take effect until November 15, after the failure of an agreement to keep the rates up to two cents a mile.

THE FIRST AIRSHIP SERVICE.

It is now reported that the first of the steerable airships which are to run between Paris and the provinces is to leave Sartroville, near Paris, some time this month for Meaux. During the Navy exhibition she may make trips around that town.

It is evident from all the prices of aerial voyages quoted so far that only the rich among us will be able to afford them for some time to come. From \$10 to \$20 is mentioned by the president of aerial league as the probable cost of a trip of thirty miles only.

It is true that airship sheds (or docks, to be more consistent) cost not less than \$10,000, and may cost up to \$25,000, and that an airship itself costs from \$50,000 to \$80,000, and may very likely soon have an accident high in cost much more to put right. But railway stations and railway trains, and especially railway lines, cost much more than this to build.

We are all thinking that Lucerne was to have the first airship service connected with a German town, but now it seems that France is to have this honor. The Lucerne-Germany service is not promised until next summer, while the Paris to Fontainebleau, Rouen, Lyons, Bordeaux, Pau, or Nancy services are promised—at any rate, some of them—by September next.

There will be five steerable airships of the Patire type, which will carry from eight to twenty passengers each, besides crew. Paris will be their port and the docks will be at Issy. There will be four lines, one toward the east, via Thiers (three of the stations of which are said to be practically ready), one toward the south-east (the stations on which are not yet begun), a third toward the south-west to Orleans, Tours, Bordeaux and Pau, and a fourth to the west of Rouen via Sartroville, which has a station already. The first airship is ready and has been named the Ville de Nancy.—Queen.

SWIMMING HOLE TRUST.

Oklahoma Grangers Charge 10 Cents a Plunge, Towels Extra.

Bristow, Okla., Aug. 26.—The commercial possibilities of a good swimming hole could not have been long overlooked in a wide-awake state as this, anyhow. The farmers of the county had already realized that allowing strangers to troop over their fields and use their streams for bathing purposes was altruistic, but devoid of material reward. So a number of them got together and framed it up to get little gate money out of their riparian rights. Resolved that if a New York roof garden could erect a turnstile and get away with it, can't an Oklahoma granger do likewise with his swimming hole? The affirmative won.

Now town boys can't drag a swath through an alfalfa field toward a cool and shady pool without forking over 10 cents. Towels are extra, by heck! We DARN your socks. HUBBS LAUNDRY COMPANY.

INDIAN RUNNER TO VISIT EAST

McLean Returns From Seattle and Will Rest Awhile Before Further Races.

Phoenix, Ariz., Aug. 26.—Harry McLean, the Hopi Indian runner, who has returned from the Seattle meet, will rest at his home a short time and expects to go to San Francisco about Oct. 1 to give an exhibition. Both McLean and his trainer, John Lewis, are satisfied with the Indian's achievement at Seattle and the runner will prepare to enter other contests.

Trainer Lewis, in speaking of the race at Seattle, stated that it was the greatest of the day. McLean and Bellars taking turns in the lead. The race was not an easy one, and McLean had his first real contest since his advent on the track. Jackson and Cool of Seattle took the lead of the five-mile grind, with Bellars and McLean close behind; but the first one soon dropped back Cool out and Jackson plodding along behind. It was nip and tuck between Bellars and Harry until the last lap or, to be more exacting, the last lap that was run for by those who know, it is stated that the referee failed to snap his gun on the first lap of the final mile, and this made the runners take twenty-one laps to finish the five miles instead of twenty. But this is not a matter that will be taken up, as good time was made at 25.16, instead of better than 25 had the race finished at the sixth lap. The crowd's sympathies were with the copper-skinned Hopi and whenever he forged ahead of Bellars a mighty cheer rent the air. Both men, after McLean had stumbled into a 220-yard starting home, sprinted the last lap, and came home as if running the 440-yard dash, with Harry passing his rival ten yards to the goal in the last ten yards.

The record of the Hopi from Phoenix is a marvelous one, and spectacular. His future has many brilliant predictions by Walter Christy and others up in things athletic. McLean was found only a few months ago at the Indian school by Lewis, where he had taken everything entered in. Eight weeks ago Lewis started to whip him into shape for the Los Angeles Marathon, which he won, beating his mail over a mile and a half, and then ran the three-mile event the next day in record-breaking time.

He made wonderful time at Seattle, even if he ran but twenty laps, for the day was drizzly, and a hard wind that cut directly into his face on the home stretch.

The Indian will probably be taken to the east this fall or early in the coming spring after he has been entered into several western meets. At the present time he will be given a chance to rest and get over being stale from his hard work of the past eight weeks, which has undoubtedly been the case from his every-day hard workout.

PLENTY OF MONEY TO MOVE CROPS

Banks Will Not Be Hard Pressed to Supply Cash for Annual Demand.

Chicago, Aug. 26.—Less financial stress will arise in moving the eighth crop of 1909 than that of earlier years, according to conclusions reached by a Chicago bank after carefully feeling the pulse of western banks and banking. "Crops are big and prices are high," the analysis declares, "but the tendency is each year for the currency drain to lessen. Every little place in the country has its bank and the farmers have been light so far as local banks are concerned, although probably the southwestern centers have shipped heavily. It is too early for an urgent call upon Chicago. Money has been hardening slowly for several weeks. The change was hardly perceptible at any time. Rates on note brokers' paper range between 4 and 5 per cent, or higher, but not higher than a couple of weeks ago. Counter loans vary from 4 1/2 to 5 per cent." The bank com-

Stop Worrying--Hire a Collector

Credit is the one thing that has caused more failures in business than any other. Not because credit is wrong, but because it is extended too long. Jobbers sell to you, Mr. Merchant, and state in their invoices just when payment is to be made. But you must sell these same goods to your customers often without knowing just when the bill will ever be paid. Figure up how much you have on the ledger now that has passed the 30-day mark. You probably know the amount only too well. You have sent the clerk out in the afternoon to collect it. You have even gone yourself. But don't worry about it any longer. Insert a want ad in the paper tomorrow and hire a collector. There are many bright, hustling young men in the city who will be glad to devote either part of their time or all of it to collecting those old accounts. Give him a percentage on all he collects and it won't be long before your list of over-due bills has dwindled down to a respectable figure. A collector on commission simply must collect--and he will work far harder than you or the clerk ever did. Try it.

Heald and wife were Santa Fe visitors yesterday. Miss Lenta Maes arrived in the city last evening from Las Vegas. Dance tonight Elks' ball room. Admission free; 5 cents a dance. For a dinner or plumber quick call up Crescent Hardware Co. Phone 215. George Arnot, of Gross, Kelly & Co., was a Las Vegas visitor yesterday. R. W. Hunt, merchant of Mountainair, spent yesterday here transacting business. S. F. Keller, of Hillsboro, N. M., was among this morning's arrivals from the south. Richard Dunn, of Eastview, is spending a short time in the city transacting business. Miss Mary Ross, of Las Vegas, arrived on the limited today and is stopping at the Alvarado. Attorney A. B. McMillen is among the Albuquerque attorneys attending supreme court at Santa Fe. Mrs. W. T. Strain, wife of Santa Fe brakeman Strain returned last night from a month's visit in southern California. Walter Wehtman, of the Golden Rule Dry Goods company, leaves this evening for an extended visit in New York City. Mr. and Mrs. J. G. Caldwell have returned home from attending the national encampment of the G. A. R. at Salt Lake City. Fred McDonald, city attorney of Clovis, N. M., is spending the day here on business and will return this evening to his home. There will be a meeting of the Leonard & Landemann Boys' band at the Leonard & Landemann music store this evening. All Rebekahs interested in degree team work are requested to be at Odd Fellows hall at 2:30 Friday afternoon. Mrs. H. E. Rogers, degree captain. Colonel William H. Greer, a former resident of this city but recently of Chicago, Ill., arrived this morning and will spend several days in the city in the interests of several irrigation projects in the west in which he is interested. Mr. Greer reports that

business conditions in the extreme east and middle states are much improved. He is on his way to Kansas City and has just finished a trip through the southern part of the territory in the interest of his projects. Rev. Ira C. Cartwright, superintendent of Spanish missions of the Methodist Episcopal church, left last night for a trip through the northern part of the territory. W. S. Strickler, vice-president and cashier of the Bank of Commerce, returned to the city last night from a pleasant visit to his mother at Los Angeles, Calif. Mrs. R. W. Webb, wife of Colonel Webb, who is well known in this city, is in the city from Los Angeles, the guest of Mrs. H. H. Holman, of 415 East Iron avenue. R. C. Smith, representing the Remington Typewriter interests in this territory, arrived in the city last evening and will spend a few days here calling on his trade. Major Ernest Meyers, of the Ernest Meyers Liquor company, returned to the city this morning from an extended business and pleasure trip to Spokane and Seattle. Rev. John G. Splinters, pastor of the Catholic church at Bernalillo, is spending the day here and will leave tonight for Isleta, where he will be the guest of Rev. A. Docher. M. Nash, of the Nash Electrical company, is in Las Vegas with a view to opening a branch house there. The Nash Electrical company is the largest concern of the kind in New Mexico. Rev. Samuel T. Blair and Rev. Thomas Harwood returned to the city yesterday from attending the Methodist conference for the Santa Fe district, which was held at Penasco, Taos county. Professor L. R. Stephan, teacher of Greek and Latin at the University, accompanied by his wife, returned last night from Huntington, Ind., where they have been visiting for the past three months. The German Lodge gave a pleasant surprise party last evening in honor of Arthur Smith, the occasion being his 18th birthday. A large number of friends and relatives attended and a very delightful evening was spent. Hon. Solomon Luna arrived here this morning from Los Lunas and will remain for several days on business. Mrs. Luna, who has been spending the summer in California, is expected to return to Albuquerque by the end of the week and will join Mr. Luna here. The assault and battery case in which P. J. Sanchez, a barber, is the defendant, and J. J. Ryan, an express wagon driver, is the complaining witness, was postponed this morning because neither side was ready for trial. Governor Curry left Santa Fe yesterday for Dodge City, Kan., to attend the old soldiers' reunion being held there and to meet Senators Bristow and Curtis, who will be speakers at the reunion also. Governor Curry will address the old soldiers on the Philippines. He expects to return to New Mexico tomorrow evening. E. W. Roberts, architect for the new federal building, is mourning the loss of his pony, which he thinks has been stolen. Mr. Roberts, in company with a number of his friends, were camping near one of the canyons in the Sandias last Saturday, when his pony, which he had staked out on the plains, became frightened and breaking the rope with which he had been tied ran away. Several of the party mounted ponies and started in pursuit of the animal, but they were too far behind and finally gave up the chase. A pony answering the description of the one lost was seen in the city yesterday and efforts are being made to locate it.

CARRY RATE CASE TO SUPREME COURT

Interstate Board Is Not Satisfied With Decision of Circuit Court.

Washington, Aug. 26.—In the absence of members of the Interstate commerce commission from this city the attorneys representing the board say that the supreme court will have an opportunity of passing on the circuit court decision in the Missouri rate case, which was decided adversely to the commission, the opinion being written by Judge Grosscup. Attorneys for the board unite in declaring that the circuit court decision will be reversed, but until the court's opinion in full is received no intimation will be given of the board's form of appeal.

GREAT BOOKS

AT LITTLE PRICES. Money paid for books is not merely spent, it is invested. In no way does so small an investment bring such returns in pleasure and profit. Not only to himself but to his family and friends. "It is a man's duty to have books," says Carlyle. At no time has it been possible to get so good a line of books for so little money. Books that sold only a short time ago for \$1.50 we now sell for 50 cents.

Read over some of these titles and if you do not find something you like, then you are indeed hard to please.

Granfark, Beverly of Graustark, The Blazed Trail, The Celebrity, A Chicago Princess, The Heart Line, Lavender and Old Lace, The Leopard's Spots, The Lion and The Mouse, The Man on the Box, The Masquerader, McCuthens' Noddy, The Sanderson, The Crossing, The Miller, The Black Bag, The Bishop's Emerald, The Lady of the Blue Motor. Altogether over 400 popular titles.

The Right Shop Right Here

The two poles are not farther apart than the RIGHT sort of clothes-shop and the WRONG sort.

Our establishment is not a "machine," that greets you perfunctorily, measures you mechanically, and slyly elbows you to the door.

Individual attention, careful study of your needs, courteous service, helpful suggestions—all these you are as much entitled to as high quality and correct style.

There's a "homey" atmosphere about this shop that you'll feel the moment you cross our threshold.

Stein-Bloch Nobby Clothes for fall and winter are now on sale.
