SPORTING... ...BREVITIES

It seems Fitz forgot to pickle his
stomach.

Pitcher Jacobson says he is "ticked
to death" to get away from Wash-
ington, and is glad his new berth is to be
with St. Louis.

John Willie and Al Kaufman will
fight 20 rounds at San Francisco on
February 24. The men will get 60 per
cent of the gate receipts.

Cincinnati will try out 15 pitchers,
but not too long, as a number of the
men look hopeless as far as major
league company is concerned.

Hurry Call for Arica Jimmy Shock-
ard is sore because he has been traded
to Chicago and threatens to sign an
outlaw team. But, will he do it? Not
in 100 years.

Matty Matthews, the ex-welter-
weight champion, will fight Gene Her-
bert 15 rounds before the Riverview
A. C. at Cincinnati, January 5th, for a
purse of \$250.

Speaking for himself, the other day,
Rube Waddell remarked: "Yes, I
think I shall win the pennant next
season. The rheumatism has left my
arm and when I am in form they can't
beat me."

Cincinnati has dropped Pitcher Van
Anda, heralded as the "Rube Waddell
of Interior Ohio." There are enough
comedians in the major leagues and
likewise a sufficiency of Rubes, so
Van will not be missed.

Gus Ruhlin, who put in a claim for
the championship title, has retired to
a welcome obscurity since there has
arisen a possibility that he might
have to fight O'Brien or Hart before
his claim would receive any considera-
tion from the sporting world.

That athletes are not immune from
"the white man's scourge" is illus-
trated in the case of Dr. Wm. H. Mur-
phy, former Yale captain and coach
and New York National League short-
stop. He is in the Adirondacks, said
to be hopelessly ill with tuberculosis.

First baseman Carr, who was re-
leased by Cleveland to Cincinnati, may
wear a Brooklyn uniform next season.
Kelley's decision to remain with the
Queen City team leaves no place for
Carr and as Brooklyn wants a first
baseman a deal for him will probably
be made.

New York fight fans will make an
effort to have a law passed by the
legislature permitting limited round
engagements, under police super-
vision, the same as are held in Illinois.
But for the greediness of fighting pro-
moters it would not have been neces-
sary to go to all this trouble in the
Empire state.

Either Amos Rusie, the once famous
pitcher, is getting back into his old-
time form, or he has a most energetic
press agent. At Muncie, Ind., where
he is working out in the gymnasium,
it is said he appears as good as new
and that he has all of his wonderful
speed and can still put over that puz-
zling curve ball that made him a ter-
ror to batsmen.

How a successful pugilist's fortune
does grow. It would appear from the
latest press reports that Philadelphia
Jack O'Brien is one of the heaviest
property owners in the city of Brother-
ly Love. Besides owning Fairmount
Park, the Broad street station, Inde-
pendence Hall, the Hotel Walton and the
Public Library, he is said to be
negotiating for the purchase of the
county court house and the Schuykill
river.

It's the man behind who generally
gets the money. Take the case of
Fred Beell, the wonderfully developed
wrestler from Marshallfield, Wis. He
signed a contract to wrestle for Har-
vey Parker for \$50 a week, that salary
to be paid him whether he engaged in
any matches or not. Beell has been
kept busy with matches, and as he has
won all of them his manager has
cleaned up several thousand dollars
in the past few months.

M. R. Williams, superintendent of
bridges and buildings on the New Mex-
ico division of the Santa Fe, came in
last night from Las Vegas and will
remain several days on company
business.

MEN IN THE NEWS IN SANTO DOMINGO

President Morales, who fled from
own cabinet conspiring against him,
president at last, and it is believed
latter.

the capital city when he found his
Roosevelt said of Morales: "An able
that the United States will support the

Ramon Caceres, vice president of
Santo Domingo, and leader of the cab-
inet plotters against Morales. He
may be declared president.

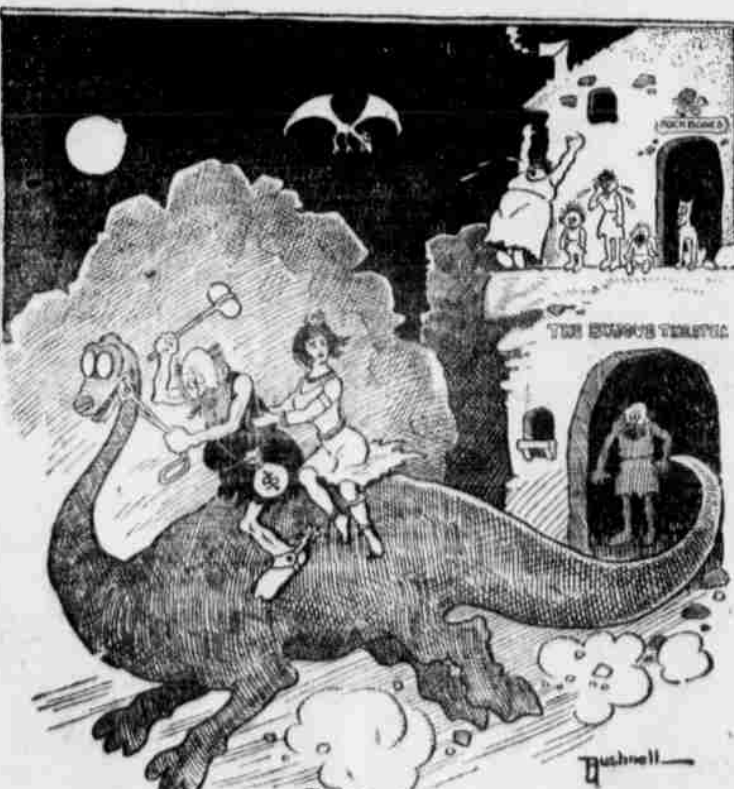

General Jimenez, leader of one
party in the field in Santo Domingo.
He has been president and wants to
be again.

THE STORY OF SANTO DOMINGO

Area, 18,045 square miles.
Population, 500,000; language, Span-
ish.
Population, mixed race of white, In-
dian and African blood.
Slavery introduced in 1502; abol-
ished in 1822.
Chief cities, Santo Domingo, capi-
tal, population, 20,000; Puerto Plata,
6,000; La Vega, 6,000; Santiago,
8,000; San Juan, 1,500.
Term of president and vice presi-
dent (according to the constitution)
four years.
Congress, a single house of twenty-
four members.
State religion, Roman Catholic.
Municipal schools, 30; pupils, 3,000;
newspapers, 8.
Debt, \$32,000,000 gold; annual rev-
enues, about \$2,000,000.
Products, sugar, rum, cacao, tobacco,
coffee, tropical fruits, fine woods.
1492—Island discovered by Colum-
bus.
1496—Santo Domingo city founded.
1795—Spain transferred island to
France.
1809—French driven out by Tou-
ssaint L'Ouverture.
1809—French re-occupied island.
1809—French driven out by English
and entire island of Santo Domingo
given to Spanish.
1822—Revolt succeeded and the two
island governments united under
President Boyer of Haiti.
1844—Santo Domingo republic sep-
arated from Haiti.
1861—Santo Domingo republic
ceded by President Santana to Spain.
1865—Spaniards driven out.
1870—Treaty of cessation to the United
States rejected by the American
senate.
1886—General Ulises Heureaux
elected president.
1899—Heureaux assassinated by
Ramon Caceres.
1899 to 1905—Presidents Figueroa,
Jimenez, Vasquez, Wos y Gil and Mor-
ales.

CHASING THE ACTORINE IN THE STONE AGE

(This picture shows Mr. Rockbones, who, having made a large collec-
tion of simoons through his presidency of the stone trust, deserts the wife
of his bosom and his children and makes off with the prettiest chorus girl
at the Byjove Theater.)

Justice Craig was busy with several
civil cases of minor importance this
morning, among them being a case in
which all parties concerned were Mex-
icans. After a vain endeavor to make
the Mexicans "savy" English, a post-
ponement of the case was taken until
an interpreter could be secured.

Fred Fornoff, deputy United States
marshal, left last evening for Deming,
where he will take into custody a
number of Chinamen who were smug-
gled into this country from Mexico,
and are locked up in the Deming jail.
Deputy Fornoff will take the celestials
to San Francisco, where they will be
deported.

New Mexico's Prosperity

Published at the seat of government through so many successive years, the New Mexican has facilities for the gathering of statistics concerning the territory, which no other paper can at all approximate. From the New Year's issue of that paper, The Citizen quotes the following:

"From every section of New Mexico news comes of continued prosperity, of the arrival of immigrants, of the settling of the public domain, of satisfactory conditions of live stock and of increasing conditions of prosperity and advancement. This news, and it is reliable, indicates one fact, and that is that the administration which the people of this territory have enjoyed for the past eight years was of the right kind. These facts speak for themselves.

"After a careful examination and based upon information from nearly every section in the territory, the New Mexican believes that it is a conservative estimate to announce that New Mexico has gained 100,000 people since the census taken in June, 1900. The indications are that this gratifying increase will continue for some time to come. Every industry of the territory has done well in 1905 and has a good outlook for 1906.

"The territory is growing in every direction. It is estimated by reliable authorities that at the least about 500 miles of new railways will be constructed within the borders of the Sunshine territory during the present calendar year. New towns are being brought into existence with astonishing rapidity and they are growing at a gratifying rate. New banks and mercantile establishments are the order of the day. At the least, the United States reclamation service will expend half a million dollars and very likely double that amount on irrigation systems under its charge in New Mexico during the current year. The people have enjoyed honest administration of public affairs in the territory and in the counties. There may be a county or two wherein officials and financial matters have not been conducted exactly as they should have been, but that can be ascribed much more to carelessness and inefficiency than to corruption or down-right dishonesty. Take it all in all, there is every reason to believe that the year 1906, as of Providence and of nature excepted, will prove another record breaker for growth and prosperity in the annals of this territory."

The Milking Goat

Secretary Wilson of the department of agriculture, believing that the milking goat, which has been neglected in America, should be introduced, has imported sixty-eight such goats from Malta and sent them to the government experiment station in Connecticut, where their adaptability to American conditions will be tested.

According to Youths' Companion, goat's milk is said to resemble human milk more than any other, and is therefore good for young children and for invalids. Mr. Wilson recommends the milk goat for people who cannot keep a cow. Goats' milk is generally used in Europe. In Italy the milkman drives his goats through the streets of the town and up the stairs of the lodging houses, and at the door draws the ladder's supply of milk direct from the animal. It is not probable that American goat-farmers will adopt this custom. The janitors of apartment houses might object, and we should soon see a rental advertisement the announcement that babies, dogs, goats and kids are not allowed in the Buckminster Court apartments.

The Encyclopedia Britannica quotes the remark that "few persons are, perhaps, aware of the gentleness and playfulness of the female goat, how very cleanly are its habits, how readily it accommodates itself to any situation in which it is placed." It is evident that Mr. Wilson will have little difficulty in acclimating his Malta goats. It may not be so easy to persuade the American town dweller of the usefulness of this interesting and much-maligned quadruped. But there is no reason why the people of New Mexico should not take interest in this experiment, for in this territory the animal itself, its skin and its flesh are already highly appreciated.

Preparations for the Western Live Stock Show are progressing very rapidly and there is no question but that it will be one of the biggest successes ever recorded in stock show history. Entries are coming in rapidly and the capacity of the stock yards will doubtless be taxed to the full. The Western Live Stock Show means a great deal to the industry in the west. It will stimulate breeders and ranchmen to the production of a better class of stock and greatly encourage the finishing of western bred stock in this western country. The practice of sending feeders to the corn belt to be finished, then shipped to the river markets or Chicago, and finally sent back to us as dressed meat, sends too much profit out of the country. It is being demonstrated that western bred stock, finished on western raised feed, is superior to anything else in the world, and the packers are planning to buy and kill this stock in Denver, and distribute the meat from there.

Petroleum has formed of late years a very important factor in the exportation of the United States. Prior to 1905 it was the largest single item in the statement of exports of manufactures, but in that year copper for the first time exceeded petroleum in the value of exports. The total value of all classes of iron and steel manufactures exported of course exceeds by far the total of petroleum, but no single item in the group entitled iron and steel manufactures is as large as the refined mineral oil exported. The total value of iron and steel manufactures of all classes exported in the decade ending with 1905 was \$943,886,511, of refined mineral oil, \$622,313,762, and copper and manufactures thereof, \$444,878,552, while the next largest item is leather, \$272,534,562, and cotton manufactures, \$259,136,044.

Bringing to a focus the preparatory work of the past six months, the forest service is sending out question cards to secure statistics of forest products. The returns will be worked up into a report, which will give by states, regions, and species the cut and shipments of lumber, shingles, laths, cooperage stock, ties, posts, and poles during the year; the stock on hand at the close of the year; and also the amount of wood used in the various industries for which wood furnishes the raw material, and the value of the products. Circular letters to manufacturers accompany the cards, explaining their use and object.

Estancia News: That the Estancia valley is destined to become a valley of homes in the very near future, is proven many times over by the large number of prospectors who come from all points of the compass, to "spy out the land," and having come, having seen, go forward to conquer, by filing on the land and preparing to bring in their families. Of the party of Iowans here last week, nineteen out of the twenty-one filed on claims before leaving the valley. The party has returned to Iowa to prepare for the removal of their families and belongings to the "Land of Sunshine."

From diagrams prepared by the Bureau of Forestry, of which The Citizen has received a copy, by differently colored blocks built into a pyramid, the fact is made to appear that of the stockmen of New Mexico much the largest number are engaged in cattle raising alone. Next come those who combine cattle and horses. These are followed in order by the exclusive sheep men; the combined cattle, sheep and horse men; combined cattle and sheep men; combined sheep and horse men; and last of all the exclusive goat men.

It is claimed that Socorro leads the counties of the territory in mineral production and that one of her mines, the Graphic, shipped last year zinc to the value of \$1,000,000.

Interesting Items

From Dun's Review

Year 1905.

Sharp Rise in Hides.

The year 1905 has been characterized by one of the strongest markets in the history of the hide trade. Prices have steadily advanced and at present are well maintained at the highest level that has ever been reached in a generation. The bull market really started last year and its beginning dated from the strike in the beef packing establishments during the summer of 1904 and the Russian-Japanese war that was responsible for the large exportations of leather to Japan. The great strength of the market has not been confined to this country alone, as values throughout Europe have risen fully as high, if not higher than here. The cattle raising industry has not kept pace with the increase in population, and a falling off in the consumption of beef has caused a scarcity of hides in a year like the present when general prosperity creates more than the usual demand for leather. Another cause for the increased demand for hides is that in recent years leather has come into great favor for upholstering fine furniture as well as for mural decorations. Automobile manufacturers also use large quantities of leather and numerous other causes for increasing the demand for hides do not augment the supply.

Silver Bullion.

As prices of almost all products rose considerably during the past year, it is not surprising to find strength in silver, although it is not generally considered in the category of commodities. Development of new territory, such as the Philippines, provides a larger coinage inquiry, and production has not been pushed as vigorously as would be the case were there assurance that current quotations would be maintained. But the most important element in the commercial absorption. One of the leading lines in the recent unprecedented Christmas trade was silverware, and normal output of the factories has been enlarged materially to keep pace with the requirements. No part of this strength was due to demand from the far east, shipments from London falling about \$2,500,000 short of the previous year, although China bought more freely than in any year since 1900. Prices were well maintained throughout the year, the weakest spots appearing in the spring, as usual, London quotations then being 25.44 pence and New York 55 cents per ounce. From that time the price rose almost steadily until the top was reached at 30.31 and 65 7-8 respectively. These are the highest quotations in nine years, although it is interesting to note that prior to 1896 such figures would have been considered very low.

Financial Stringency.

After a long period of abnormally easy money markets the closing months of 1905 brought an advance in rates that closely approached serious stringency. This was the more remarkable because it was not accompanied by any vigorous inquiry in connection with Wall street speculation. Nor did the government absorb funds, although the closing months of the year brought a material reduction in the deficit by an almost constant excess of receipts, but for the fiscal year thus far the balance has been adverse to the extent of about \$8,000,000. January interest payments were anticipated, and Panama canal disbursements provided a special source of federal expenditure. Although the gold in treasury vaults rose to more than at any earlier date it was not withdrawn from circulation, certificates being issued against the major portion. Neither had large exports of gold anything to do with the tightening money market, total shipments being less than one-half as heavy as in the preceding year, while the net balance on both exports and imports of gold showed a gain of \$2,385,540 for eleven months, while in 1904 there was a loss of \$26,241,950. Toward the close of the year foreign influences became most prominent in the New York money market, European funds being loaned to the extent of \$150,000,000, according to some estimates by experts in the foreign exchange market. Later it became somewhat difficult to renew those maturing obligations, and the situation is still affected by the element of uncertainty as to how much of this money is due foreign bankers. For the first time in several years the associated banks reported a deficit, loans having established a phenomenally high record without a corresponding gain in cash. Yet the total resources of the national banks, and also all such fiduciary institutions, now stand at the top point in the country's history, and the persistent strength of rates can only be attributed to the expanding needs of a steadily growing volume of business.

Bottomless Pit of Gambling in Futures

"Once a man, twice a child." The adage is illustrated in the life story of ex-Governor Taylor of Minnesota—and much besides.

When he was six weeks old his mother died. His father died when the boy was six years old. Thrown with strangers, young Taylor had a hard struggle to make his way in the world. He succeeded, and in middle life was a prosperous farmer. About this time the "granger" movement was at its height. He joined the movement, engaged in politics and became prominent. He was elected governor. His rugged honesty and shrewd good sense made him popular. He secured many reforms and is the father of Wisconsin's railroad commission for the regulation of railroad rates. Having fought the corporations so hard they would not let him be governor again. Taylor then retired to his farm, which he made a model and enjoyed a few years of prosperity. Then one day some one whispered to him, "Buy wheat."

He began to speculate on the Chicago board of trade. He won and lost alternately. He neglected his farm to stay in town and watch the markets. His bank account dwindled. His stock disappeared. Finally his farm was sold. The money was used for margins in the hope that he might get back his own. Every dollar was lost. And now this man, once so honored and respected, is old and a pauper. His friends have raised the money to send him to the Old People's Home, where he will die, penniless. Taylor is in his second childhood and as alone and as poor as when he began his life. A whispered suggestion ruined him.

Some one has said that the Chicago wheat pit is only a few feet across, but is as deep as hell. Once in the toils of the market margin broker, nothing will stop the victim of this sort of gambling. He will sacrifice property, friends, family, everything. He watches the turn of fortune's wheel with the sure hope of him who never desponds; and though he loses steadily he is hopeful until his last dollar has gone into the hopper and he can beg or borrow no more.

Girl He Left Behind.

There is a public library in Baltimore that has a regulation by which any member wanting a particular book which is not "in" can, by paying a small sum, secure the next turn; and, upon the book's coming in, the librarian sends him a notification.

In this connection, an attaché of the library tells of an amusing incident. A member desired a copy of a novel entitled "The Girl He Left Behind Him." The book not being in, he made the customary deposit, and, in due course, received a notification. This the member's wife received—to her alarm at first—for it read as follows:

"Mr. Blank is informed that 'The Girl He Left Behind Him' is now in the library, and will be kept for him till Friday morning next."—Success Magazine.

Running a Risk.

Mrs. Ljans—How are you getting along with your new kitchen girl?
Mrs. Upmore—She'll might hear you. This is her afternoon in!—Chicago Tribune.

YEAR 1906 TO BREAK RECORDS

WITH A GOOD HARVEST IN THE FALL, THE TOP FIGURES FOR 1906 ARE LIKELY TO BE SURPASSED.

By John G. Shedd,
President Chicago Commercial Association.

The era of 1905 is a fitting climax to the growing industrial conditions of the last seven years. Growth has not been limited to a narrow channel. It has been in Chicago marked by a gratifying extension in every direction, but it has also extended to all parts of the country.

Perhaps the greatest benefactors as well as beneficiaries have been the agricultural districts, which produce wheat, corn and other crops. The unparalleled prosperity of these sections has been shared by the railroads.

While the enhancement of every interest in Chicago during 1905 is without precedent, the present indications are that the first half of 1906 will eclipse 1905 as greatly as 1905 did the preceding year.

The bank clearings of Chicago show a balance beyond the \$10,000,000.

JOHN G. SHEDD.

000,000 mark. The increase in saving deposits have kept pace with the increase in general business, and this shows the distribution has been among the wage earners as well as with employers.

Local steel and iron works have orders for delivery far into 1906. The manufacturers and distributors of farming machinery are kept equally busy.

I think I am warranted in the belief that those who prophesied the year 1905 would be the banner year of the decade will be agreeably disappointed, as a good harvest in the fall of 1906 will cause all records to surpass the top figures of 1905. However, this view does not take into large account the possibility of financial complications which may grow out of European financial operations.

FAREWELL DINNER TO TWO YOUNG LADIES

Twenty-five covers will be laid to-night at 7:30, in the banquet room of Zeigler's Cafe for a farewell dinner to Miss Mildred Fox, who leaves tomorrow for Spokane, Wash., and Miss Erna Schuster, who leaves tomorrow for a three weeks' visit to friends in Philadelphia.

Invitations have been issued to twenty-five friends of the young ladies, and the banquet room has been tastefully decorated for the occasion. The immense dining table being decorated to represent a lake surrounded by green verdure.

Both young ladies are well known members of Albuquerque's social set, the former being the charming daughter of H. E. Fox, the jeweler, who has disposed of his business in this city and will move to Spokane, while Miss Schuster is the daughter of Mr. and Mrs. Max Schuster.

The last named young lady, Miss Schuster, will return to Albuquerque at the end of three weeks, at which time she is to be united in marriage to a well known merchant of Philadelphia, who will return with her for the wedding.

POSTOFFICE BUSINESS ASSUMES NORMAL SHAPE

The holiday rush at the postoffice is now a thing of the past and Postmaster Hopkins and his staff of bustling assistants are accordingly happy. Owing to the systematic manner in which the business was handled at transfer points this year, the Christmas business was cleaned up much quicker than usual and before New Year's Day arrived such matter had ceased to arrive.

Postmaster Hopkins is in every way pleased over the manner in which his force worked, the cumbersome pouches being emptied and filled in amazingly rapid style, and with practically the every-day staff of employees.

PROBATE COURT

Probate court was continued, this morning by Judge Jesus Romero. In the matter of the claim of G. Badaracca vs. the Estate of Paula C. de Badaracca, in the sum of \$153.85, which was presented, the court continued the case until Monday morning at 10 o'clock, after argument by the counsel for and against the approval of said account. The administratrix was cited to appear Monday morning with her witnesses.

Hearing in the final report of A. Simpler, administrator for the Estate of N. C. Dennett, deceased, was continued until February 5th.

The bond of F. Armijo y Otero, administrator of the Estate of Margarita M. de Otero, was approved.

LIESE WILL DIE FROM STAB WOUNDS IN HEAD

A report from the local hospital, this afternoon, states that Marcus Liese, who was stabbed in the back of the head by a man named Thomas Maxwell, at Thoreau, recently, will die. Liese is slowly sinking and all hopes have been abandoned of his recovery.

Maxwell, who it is said did the cutting, escaped shortly after the altercation with Liese, and still has his liberty. He will be charged with murder upon Liese's death.

Pitcher Nash Signs With Wichita. "Jack" Nash, the most consistent and successful base ball pitcher Las Vegas ever employed, and who since the season was over, has been working in the local postoffice, has signed a profitable contract for next season with the Wichita, Kan. team, the pennant winners of the Western Association, says the Optic. Charlie Rathburn has already gone to Denver, where he will try out with the Western League team for third baseman as soon as the season opens.

OVERCOAT SALE

We've Got Too Many Overcoats for This Season of the Year and We Are Going to Sell them

THEY GO AT ONCE IF PRICES WILL FORCE THEM OUT

If you need an Overcoat now, or if you expect to need one next season, or the season after, here is your opportunity.

1-4 OFF ON ALL HEAVY OVERCOATS

M. MANDELL

FINE CLOTHING and FURNISHINGS

Won't Stand Abuse

Even a melody making piano will lose patience if roughly handled, but with ordinary usage, any of these instruments will last a lifetime—the Chickering Bros., Bush & Lane, Starr, Richmond, Victor and Ellington. They're made to wear as well as to give forth a "concourse of sweet sounds." They're eye pleasing, too. As we sell them, even the buyer's purse smiles. Remember, we buy for cash—that is why we can please you. See us before you buy.

NATIVES WILL NOT PAY PREMIUM ASKED

Took Out Insurance Policies
Giving Their Notes For
Payment.

COMPANY NOW SUES THEM

The Equitable Life Assurance Society of New York, through its Albuquerque agent, Walter S. Bowen, is involved in a peck of trouble over several life insurance policies issued to natives of this city.

About a year ago the company insured, among others, Francisco Barrios, Griselda Roblero, Teodoro Garcia, Fredrico Aragon, Adolph C. Chavez, Nester Sabedia and Manuel C. Padilla, residents of Albuquerque. The policies were for \$1,000 each, on which the premiums of \$33.52 was due August 6th last.

When the policies were written, it appears from allegations of Mr. Bowen, that the above mentioned parties claimed to be without the necessary money with which to pay the premiums, and instead tendered their notes. The company thereupon gave the parties receipts. August 6th arrived, but the insurance company failed to get any remittance and actions against the delinquents were started in Justice of the Peace Craig's court, a few days ago. The natives were summoned before this magistrate. When asked if they had not signed their names to notes guaranteeing the payment of the insurance premiums, practically all of the men answered no. The notes were produced by Mr. Bowen and with one of two exceptions they were acknowledged by the natives as theirs, but none would volunteer to confess that they knew what it all meant when they signed the paper. They wanted to square the litigation by turning over their policies but the company failed to see the financial good this would do them after assuming the risk they did for the year past in case any of the insured had died. Mr. Bowen insisted upon the payment of the premiums.

As most of the natives admitted their signatures judgment will be granted the company by the court unless the defendants can prove any fraud in connection with the notes and the issuing of the policies. "We would have been obliged to pay your families \$1,000 had you died during the year," Mr. Bowen explained, through an interpreter, to one native. He mumbled something to the effect that in signing the note he thought that if he did not pay it, some one else would.

Those who deny signing the notes will have an opportunity tomorrow morning of proving their claim in this respect, at which time the plaintiff will have witnesses present to substantiate their side of the case.

JOHN B. HARPER DOESN'T LIKE NEW MEXICO WEATHER

John B. Harper, superintendent of irrigation for the Pueblo Indians of New Mexico and Arizona, was in the city between trains this morning while enroute to Santa Fe. Mr. Harper has been engaged the past two years in building a reservoir for the Zuni Indians, which will be completed this year. This reservoir is built with a capacity to irrigate 16,000 acres of land.

Mr. Harper was very cold when he alighted from the train, and when asked for an interview about his irrigation projects, could talk of nothing but the weather.

"Of all the unmitigated fakers, the newspapers of New Mexico and Arizona are the worst, when it comes to puffing up this Italian climate. I've been in the Dakotas, and many other places of the frigid north, but I never saw it as cold as it is here. Why don't you tell the truth about this country. I've been here five years and every winter has been just one degree colder than the other."

After warming himself up over the weather, Mr. Harper boarded train No. 2 to continue his journey, apparently very much relieved.

ROTHENBERG AND SCHLOSS CIGAR RAFFLE CLOSES

NUMBERS WERE DRAWN LAST NIGHT, WITH THE FOLLOWING RESULT.

For the past six months the Rothenberg & Schloss Cigar company has been giving away tickets with each purchase made at its store. These tickets contained numbers, which were the part of a lottery for prizes to be given away at the end of the year. The numbers were drawn last night with the following results, prizes included:

1. Remington double-barreled, hammerless shotgun, worth \$40—goes to number 41,509.
2. Gentlemen's high-grade bicycle, worth \$30—49,220.
3. Sole leather dress suit case, worth \$12—3,679.
4. Fine meerschaum pipe, worth \$1—9,229.
5. A complete tool chest, worth \$7.50—15,517.
6. Mantel clock, worth \$7.50—72,054.
7. Box of El Sidelo Clear Havana cigars, worth \$5—43,072.
8. Safety razor set, worth \$4—39,740.
9. Briar pipe, worth \$4—84.
10. Fine leather cigar case, worth \$3—14,827.

POLICE COURT

Harry Danford, Gust Dorsey, John Martin, John Ryan, Frank J. Jams, James Howard, Frank Carter and Joe Hoovey were arraigned in police court before Judge Crawford this morning on the vagrancy charge. All told hard luck stories, laying particular emphasis on the part which referred to their diligent search for something to do and the bad luck which attended their efforts. Frank Williams, James Howard and Joe Hoovey were sent up for five days each, but the others were discharged. Hoovey is a boy not yet out of his teens, whose parents live in Santa Fe, who has a bad record in police circles, it being said that he is an inveterate sneak thief. He only recently served a term in the county jail for stealing a bicycle. Gust Dorsey said he worked in the Zuni mountains for a bridge contractor, and for his labors from November 19 to January 1 received by \$2.65.

WHEN DO YOU FIND THE MOST TIME TO READ YOUR PAPER? AFTER YOUR DAY'S WORK IS DONE, OF COURSE

TAILOR CAPTURED THE SNEAK THIEF

O. G. Davis Secured a Crook
Following a Hot Chase
Last Evening.

FELLOW EVENTUALLY ESCAPED

It would seem that the police have not yet succeeded in locating the rooming house thief who is operating in such bold fashion in Albuquerque, or else there are several of these individuals following this nefarious occupation.

O. G. Davis, the tailor, captured one of these marauders last evening, in his room in a South First street lodging house, but the fellow broke away from the proprietor, who guarded him temporarily, and made his escape. Mr. Davis had retired for the night, when he discerned in the darkened room a person moving about. It was evident to Mr. Davis that the thief for such he proved to be, was in search of his trousers, but as the tailor had taken the precaution to place them beneath his pillow, the miscreant turned his attention to the snowy white bed spread. As he pulled it from the bed and started away, Mr. Davis jumped up and took after him, and finally clutched Mr. Thief by the collar, bringing him to a stop. He turned the fellow over to the proprietor while he returned to his room to dress, but the culprit broke away from his guard, during the absence of Mr. Davis, and made his escape. A search was instituted for him, but with no success.

HARRY KELLY TELLS HOW TO MAKE CACTUS CANDY

ALBUQUERQUE AND LAS VEGAS
BRANCHES OF GROSS, KELLY &
CO. CONTEND FOR "BUFFALO
HEAD" BOTH CLAIM MOST
BUSINESS.

"Donofrio's Crystallized Cactus Candy, nature's pure food," is the product of a new industry recently started at Phoenix, Ariz., growing out of experiments made with what is known as the citrus tree cactus.

Harry W. Kelly, of Gross, Kelly & Co., of Las Vegas, is introducing the product in New Mexico and is finding a large demand for it. The firm disposed of 500 pounds at Las Vegas during the Christmas season, and the reporter for The Evening Citizen can testify that those of Albuquerque with a tooth for sweetsmeats, missed a treat as a result of it not being introduced here.

Mr. Kelly made The Citizen a present of a box containing sixteen crystallized squares. Each square was neatly wrapped in waxed paper, and was of a very delicious flavor. It is as good as any novel.

In explaining how the candy was made, Mr. Kelly said: "This Donofrio is the original discoverer of the cactus candy and has a large factory down at Phoenix turning out tons of it. The cactus used is the tree kind found largely in the deserts of Arizona and California, and some few are found in southern New Mexico. The stickers are trimmed from the stalk, then it is cut open lengthwise, exhibiting a pretty white pulp heart. This pulp is sliced into thin strips and run through a crimping machine, which creates it in squares. From the crimping machine, the cactus pulp passes into a vat of boiling syrup, where it is crystallized, prior to going to the cooling room. After it cools, you find the pulp transformed into the finest and purest kind of candy. It is then broken at the places where it was marked by the crimping machine and wrapped in the waxed paper."

"It's fine candy and promises to be a great industry," concluded Mr. Kelly.

Mr. Kelly and C. C. Robbins, treasurer of Gross, Kelly & Co., came down from Las Vegas last evening to contend with George Arnot, local manager of the company, for the company's "buffalo head." The Las Vegas house has always contended that it did the most business, which Mr. Arnot denies, claiming the most business for the local house.

AN ALVARADO LOBBY STORY

It happened in the lobby of the Alvarado.

An easterner had been delecting the west and its climate. "Look at the snow and ice," he said, "look at the natives, how skinny and shriveled up they appear; look how fat and hearty I am; look—"

"What makes you so fat and hearty?" asked the meek-looking Albuquerquean.

"Climate, my dear sir, climate," replied the man from the east.

Later the conversation turned to mountains.

"Now, in the east," went on the man from Boston, "we have railroads to carry us to the top of the mountains. Then, pointing to where the Sandia mountain could be seen through the window, he asked, in a voice of scorn: "Now, how on earth would anybody be able to get up that thing?"

"Climate, my dear sir, climb it," retorted the meek-looking Albuquerquean.

And the easterner invited them into the buffet.

STAY IN COUNTY JAIL COOLED BILLSBOROUGH

ASSISTANT HEAD CARPENTER AT
INDIA SCHOOL DID NOT
RELISH HIS CONFINEMENT.

Readers of The Evening Citizen will remember the arrest of Robert Billsborough, assistant head carpenter at the Albuquerque Indian school, for threatening to kill Superintendent J. K. Allen and Head Carpenter Baron Dek Sampson for alleged jealousy of Sampson and anger toward Allen. Judge Crawford told Billsborough that he would have to furnish a bond in the sum of \$250 to keep the peace, which the defendant, in a great rage, refused to do, saying he would not in jail first. About the same time he rushed on Sampson, who drew a knife.

THE OPPORTUNE ARRIVAL OF AN OFFICER PROBABLY PREVENTED A TRAGEDY IN THE POLICE COURT, AND BILLSBOROUGH WAS TAKEN AWAY TO JAIL. THE CELLS OF THE COUNTY PRISON, TOGETHER WITH THE DORMITORY AND CULINARY DEPARTMENTS, DID NOT STRIKE BILLSBOROUGH AS FAVORABLE AS DID SIMILAR SURROUNDINGS AT THE INDIAN SCHOOL, AND HE SOON REPENTED OF HIS DEFIANCE TO THE REQUIRED \$250. THIS WAS DONE A FEW DAYS AGO, AND HIS RELEASE FOLLOWED.

EAGLES INSTALL OFFICERS AND GIVE A BANQUET

Albuquerque Aerie, No. 145, last night, in their lodge rooms, held their installation ceremonies, after which a banquet was served to those present. The Fraternal Order of Eagles is fast becoming the front in Albuquerque, at almost every meeting new candidates being initiated.

Following are the names of the new officers installed at last night's meeting, together with their offices:

Henry Westerfield, worthy president.

J. J. Sheridan, worthy vice president.

J. W. Barnes, worthy chaplain.

William E. Grimmer, worthy secretary.

Frank Kirster, worthy treasurer.

W. B. Moore, worthy conductor.

John F. Pearce, worthy physician.

William Glesner, inside guard.

Percy Hawley, outside guard.

Jacob Gainsley, John Zirhut and John Cuneo, trustees.

RECEPTION TO JUSTICE AND MRS. W. H. POPE

Special to The Citizen:

Santa Fe, Jan. 3.—On Friday evening a reception will be tendered to Associate Justice W. H. Pope and his wife. They are expected to arrive tomorrow and the reception will take place at the McFie residence, as it will be tendered to the recently married judge and wife by Associate Justice and Mrs. John R. McFie. The chief justice, associate justices, visiting and local attorneys, with their wives, will be present to receive Judge and Mrs. Pope, who have been on a visit to the principal cities of Mexico, and should reach here some time Thursday.

EX-DELEGATE RODEY RETURNS FROM SANTA FE

Ex-Delegate B. S. Rodey has returned from the Capital city where he spent a part of yesterday looking after joint statehood matters.

"On my way back home," said Mr. Rodey, "I met Charles A. Spies, of Las Vegas, who has just returned from Washington. He declares that the outlook for the passage of the bill is never brighter, and that its opponents are on the run."

Mr. Rodey further stated that the bill would in all probability come up in the house some day between now and the end of the week.

REASONS WHY COAL HAS ADVANCED IN PRICE

MINE OPERATORS HAVE BEEN
SHIPPING TO CALIFORNIA MARKET,
WHERE IT BROUGHT MORE
MONEY.

Consumers of domestic coal have been forcibly reminded since the first of the month came around, by their coal bills, that the price has been raised from \$5.50 to \$6.00 per ton, and in their anxiety to learn the reason for the unusual advance, a number of them applied to The Evening Citizen for an explanation. Now, The Citizen in turn, took the troubles of the people to the coal man, who, agreeable person that he is, when the weather is cold and fuel is in great demand, politely produced the information desired.

"It is just like this," said a voice over the phone, from the Cerrillos yards. "We learned early in December, when coal first became scarce, that one reason for the scarcity was that the operators were shipping the most of their commercial coal to California, where the market offered more money than our contracts called for, and we immediately set about to do something to overcome the balance in favor of the California market over Albuquerque. The operators could not be blamed for sending their coal where it would bring the most money, and the only thing that we could do was to meet the California price. This we began doing on the 13th of December, and since that time we have been charging \$6 a ton for the soft coal."

"However," continued the voice, "this price will be in vogue during the winter months only. No advance has been made in the price of hard coal."

"ELECTRICITY
WILL THAW YOUR FROZEN WATER
PIPES IN FIVE MINUTES. WE ARE
FULLY PREPARED FOR THE
WORK. SOUTHWESTERN ELECTRIC & CONSTRUCTION COMPANY,
No. 216 SOUTH SECOND STREET.
AUTOMATIC PHONE 455.

A man of 58, who has been in the employ of the American Lumber company for nine months, and has attended the First M. E. church for as long, wants to clean offices. His mail is delivered at his room, No. 1408 Mountain Road.

James E. Leonard was advised yesterday with a severe hemorrhage from the nose. A physician was summoned and the flow of blood checked with difficulty. A message to The Evening Citizen this afternoon states that Mr. Leonard is much better.

PUBLIC SCHOOLS IN GOOD SHAPE

Professor Clark Gives Out
Interview Concerning
Conditions.

PILS OF 1ST GRADE BARRED

In reference to the statements that have been made in the past few days that there was no room for any more pupils in the public schools, a representative of The Evening Citizen called upon Professor Clark today, who gave out the following interview:

"Yesterday and today, pupils have been enrolled in the public schools in all grades except the first primer grade. Kentucky, Tennessee, Texas, Ohio, Michigan, Illinois, California, and other states have lost to us in the enrollment. Many families are moving into our city and entering their young people in the public schools. Although all rooms are full to overflowing, there is always room for additional pupils in any grade except the first. Tables and chairs have been brought into commission in a large number of rooms. In some cases seven or eight pupils are seated about tables.

"The board of education has decided to not admit beginning pupils to first grades at this time, because their enrollment would mean a reorganization of new classes and this cannot be done advisedly under the present condition of over-crowded rooms, over-crowded daily programs, and no additional rooms in which to place the two hundred little people who would enter at this time if permitted to do so.

"This condition is in no way compromising to the board of education, to the public schools, or to the city in general. On the contrary, the condition plainly evinces the rapid substantial growth of our city, and is therefore complimentary.

"The decision to not admit beginners at this time works no hardship to anyone. The age at which children are admitted to our public schools is six years. Any pupil who was too young to be admitted last September will be placed at no disadvantage if he must wait until next September before entering. School men who have carefully investigated this matter have concluded that the minimum age at which pupils may be admitted to the regular first grade work should not be placed below seven years. If, however, the public schools have a kindergarten department, the minimum age for admission should be below seven years. Pupils who enter school at five or six years of age are not found five or six years later to be in any way in advance of those who did not enter until they were seven or eight years old. The work of the fourth year of the curriculum of the public schools as it has been established in the standard schools of our land presupposes the power of judgment to a fair degree. The ability to reason and form judgments comes through experience. Little people who enter school at five years of age, find themselves on entering the fourth grade not sufficiently well equipped with the power needed; this is the grade of failures.

"If any criticism is to be justly offered on the decision of the board of education to not admit beginners at this time it is that the board has rendered a real service to the life people and those most interested in them."

Prof. Clark further stated that the conditions existing at the different ward schools in Albuquerque was better today than ever before in the city's history.

DRUNKEN MAN GOT IN CARRIAGE WITH WOMEN

EMIL DIMMER, GUILTY PARTY,
SENT TO JAIL FOR THIRTY
DAYS IN CONSEQUENCE.

At about 5:30 o'clock, yesterday afternoon, a ripple of excitement was caused at the corner of Railroad avenue and Second street, by the unusual actions of a drunken man, Emil Dimmer by name. Dimmer, while in a buoyant mood, produced from a large quantity of liquor imbibed, dashed into the street, and climbed into a carriage containing some women. The man tried to force himself onto the seat between the terribly frightened ladies, and would no doubt have succeeded had not the cries for help from the fair occupants drew a number of men to their aid, who caused his arrest.

In police court Dimmer was found guilty, and sentenced to serve thirty days in jail or pay a fine of \$30. He chose the latter.

TRACTION CARS WERE KNOCKED OUT AWHILE

The traveling public was inconvenienced somewhat, yesterday, as a result of two cars being placed out of commission that are regularly used on the traction line. The snapping of a bolt on which the trolley moves sent one car to the repair shop, and the placing of a new set of wheels on another, left but two cars to care for the public, three being ordinarily in use. By 2 o'clock in the afternoon all repairs had been made and the regular schedule was again followed.

... OUR GREAT ...

Removal Sale

IS IN FULL SWING

THE BIG WORK of stock reduction will soon be followed by the trying tasks of removal preparation, as January 15 must find us housed in the new store, 305 and 310 West Railroad avenue, just across from our present location.

To make the transfer of the stock safe and easy, from the present to the new store, we are compelled to reduce our stock, regardless of consequences. All profits blown to the wind.

Beautiful Palace Where Nicholas II and His Family now Live and the One to Which They Will Go in the Last Extremity.

The terrace of the Tsar's palace, where the czar and family are now living. This palace is handily situated to Peterhof, from which palace the ruler could quickly flee the country.

The czar's palace at Peterhof is on the Gulf of Finland, where a German torpedo boat is in readiness to convey the czar and his family to safety in the event of it becoming necessary for them to leave the country.

"U. S. CONSULS ARE BEST PAID WHERE LEAST NEEDED"

REFORM OF ENTIRE SERVICE DESIRED BY SECRETARY ROOT—WEAKNESSES OF THE SYSTEM STRONGLY AFFECT AMERICA'S TRADE EXPANSION.

Special Correspondence.

Washington, D. C., Dec. 30.—Reform of the consular service will be championed in the house of representatives by Robert R. Hitt, of Illinois. He will be aided by Secretary Root to present the latter's plans so that the republican members of the house will approve of the necessary legislation. This is no easy task. However, he will be listened to with great respect and confidence, since for years he has drafted the annual appropriation bill for the whole consular organization and was assistant secretary of state to Blaine, and also saw actual diplomatic service in Paris.

Representative Hitt believes that this is one of the most important mat-

great centers of English or European trade there is little need for such consular protection of the person. Laws are as well administered there as in the United States. A certain mass of routine of course there is—matters which could be attended to by any well organized corps of competent, salaried clerks. But the consul himself—the man who is getting an income from salary or fees or both, amounting to thousands or a score of thousands of dollars has little to do in protecting Americans. He performs a small and inconsequential part in promoting our trade with those nations. The trade is there, and all the conditions and circumstances which affect it are well known to those who engage in it.

have approached the wage we pay to the man who occupies the White House.

Foreigner Agents.

"And there is a serious and positive evil which has grown up under this system. In many little places where consular agents are maintained on the fee basis the office has come to be occupied by foreigners, the income being too small to attract Americans. Often the 'American' consular officials is a member of some foreign business concern. By virtue of his office he inspects and certifies the invoices of other merchants and comes into possession of business facts to the positive and active hindrance of American commerce.

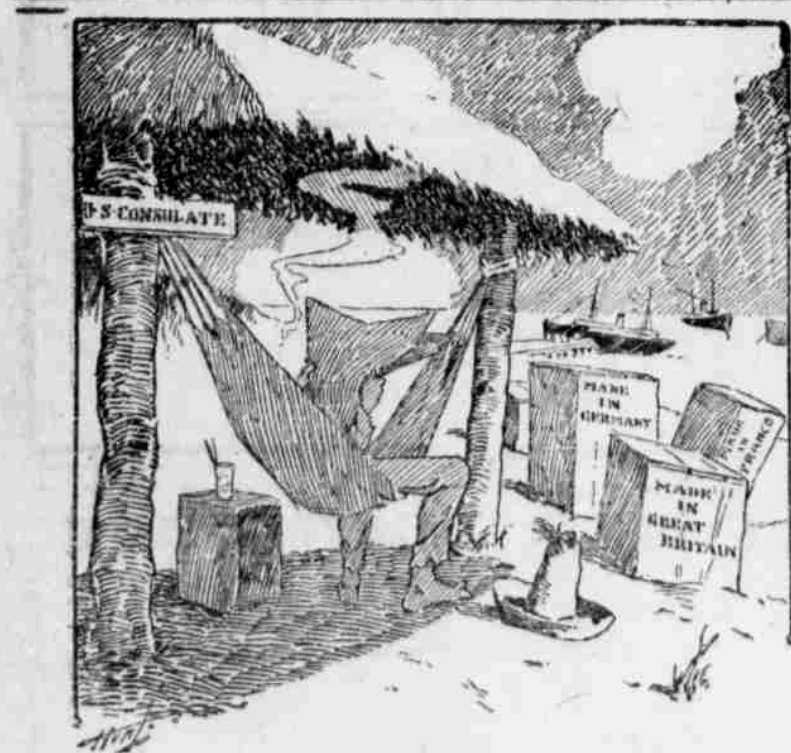

"Congress should meet that condition by providing a salary for an office worthy to be kept up sufficient to maintain a patriotic American in that place who would really look after American interests. In all other instances the office should be abolished. It will surprise many people to learn that out of the 700 or 800 consular posts or consular agencies, which we maintain, only about 150 are salaried offices above \$1,500. The others are inadequately filled by inadequately compensated agents who collect fees in a more or less improper manner.

Inspection Urged. "And this leads to the next great need in the consular system—namely, a proper supervision and inspection. Imagine organizing a business with 700 to 800 agents distributed in as many cities and towns in all parts of the world, and leaving them practically without supervision and actually without inspection.

"It is absurd. There should be a corps of trained inspectors always at work. Such a force is favorably regarded by Secretary Root. It should be approved by congress."

BONDS FOR COUNTY TREASURER FILED IN PROBATE COURT

FRANK A. HUBBELL SUBMITS ONE BOND AND JUSTO ARMIJO THE OTHER—EACH CLAIMS THE OFFICE.

ters of legislation to come before the congress. It bears directly upon the foreign trade of the United States—a trade which has suffered for years by reason of the weaknesses of the consular system. We have lost almost everything worth having in South America, we are being rapidly put so the rear of the procession in the rich markets of Europe, and in the coming race in the Orient we start in far behind the other commercial world powers, and seriously handicapped at every point.

Mr. Hitt said to your correspondent: "The fundamental weakness of our consular and diplomatic service has been, of course, as everybody is fond of saying, the fact that it has been too much the prey of partisan politics. But that is an old story. The truth is the whole system has been faulty. It is not organized on a basis calculated to accomplish its supposed purpose.

Compensation Uneven. "The greatest defect in the present system is probably the illogical and inappropriate allotment of compensation. Our highest paid consular officers are those stationed at points where we least need them for the real consular duty of protecting the legal rights of American citizens. This seems absurd, but it is true. In the

Need Consuls Here. "Contrast such a consulate with one in China, Japan or Turkey, or just now in Russia. In the latter countries the consular office is today what it is by tradition; it becomes an office to which the American who is traveling there looks for protection; it becomes one for fostering American trade and supplying information about unknown lands and unexplored markets.

"And yet how do the salaries correspond to the importance of the two localities? The rich consulate, the fat office, is the one in Great Britain or France or Germany, where the duties are comparatively unimportant. The salary, meantime, of the consul in the little Chinese or Japanese town, or in South Africa, or in the little port in Russia, South America, or some other remote part of the world, is so small that it does not attract in numerous places the office does not carry any salary, and the consular agent is expected to maintain himself on the scanty fees which he may pick up. In the places where we need the consular work we pay nothing. In the places where we could easily dispense with any consul, except as treasury agents, we permit our representative to gather in fees and salaries which in many instances

The Board of County Commissioners yesterday appointed Carmel Turner as constable of the 28th precinct, to fill the position made vacant by the resignation of Trinidad Anaya.

Incidentally the board also approved two bonds, submitted by two claimants to the office of treasurer of Bernalillo county. One of the bonds was for \$50,000, executed by the National Security company of New York, in favor of Frank A. Hubbell. The other bond was for \$47,000, executed by the United States Fidelity and Guaranty company of Baltimore, in favor of Justo R. Armijo, treasurer de facto of the county.

In approving the bond submitted by Hubbell, who some time ago carried off the safe containing the county funds, and who still persists that he is the rightful treasurer, the board stipulated that their approval of his bond was not to be construed as recognizing Hubbell's right to the office.

To all apparent intents and purposes, Bernalillo county is blessed—or—blessed—with two treasurers.

Paul Nelson of Lead, S. D., will follow a visit with Mr. and Mrs. E. R. Turner of this city, the latter being his mother-in-law, continue to Sonora, Mexico, where he goes on mining business.

IS EXECUTIVE OF THE CARNEGIE FOUNDATION

New York, Jan. 3.—Dr. Henry S. Pritchett, who has accepted the presidency of the \$10,000,000 Carnegie Foundation, which is designed to aid teachers and professors toward greater opportunities for research work, for the past five years has been in charge of the Massachusetts Institute of Technology. Before that time Dr. Pritchett was superintendent of the United States coast survey.

The offices of the Carnegie Foundation are to be located at Fifth avenue and 45th street. The board of trustees includes the presidents of practically all of the large univer-

DR. H. S. PRITCHETT.

sities and many of the smaller colleges. Every section of the country is represented.

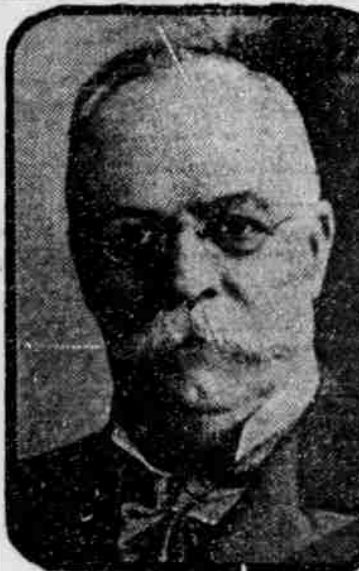

"The Carnegie Foundation is an educational work on so broad a scale," said Dr. Pritchett, in relation to his new labors, "that the invitation to have a hand in the shaping of the work from the outset was one that I could not refuse.

"The first step that will be taken will be the establishment of a pension system, under which aged professors may be retired and room made for younger and more progressive men."

Dr. Pritchett is a native of Fayette, Mo., and was born on April 16, 1857. He was graduated from Pritchett college, in Glasgow, Mo., and later from the University of Munich.

URGED AGED LIMIT; ONE OF THE VICTIMS

Auto Phone 474 West end viaduct
WHOLESALE AND RETAIL FURNITURE

RAILROAD TOPICS

Colonel R. E. Twitchell, assistant attorney for the Santa Fe in New Mexico, is in the city on official business.

P. B. McAtee has been promoted to assistant superintendent of the fourth division of the Denver & Rio Grande. McAtee is a hard, conscientious worker and a true gentleman.

The derailment reported yesterday beyond Isleta occurred at the Rio San Jose bridge, just this side of Grants, one car jumping the track and delaying traffic for several hours. No. 2, owing to the obstruction, did not arrive in this city until 3:25 p. m.

J. N. Keys, supervising engineer for the Santa Fe on the Belen cut-off, registered at the Alvarado last night. Mr. Keys was returning to his headquarters at Belen from a trip over the cut-off east of Willard. He reports much snow at Willard, and says that the severe weather is interfering materially with the work on the new railroad.

E. M. Sanjule, division foreman for the Santa Fe at Gallup, was in the city yesterday, returning to his home in that city last night. Mr. Sanjule reports that the bottom has dropped out of all the thermometers in Gallup, the mercury registering from 16 to 20 degrees below zero, and to make matters worse, he stated that the coal famine at that place was on in earnest.

A union of Pullman car porters, which is intended to include every negro railroad employee in this service in the United States, has been organized by the porters, cafe and dining car men running into New York city on the various lines. Articles of incorporation it is said, will shortly be filed. The union is to be known as the American Association of Railway Employees, and negroes only are eligible to membership.

John March, who has been connected with the engineering corps of the Santa Fe on the Belen cut-off, was in the city yesterday, leaving last night for Chicago and the east. "The zero weather," said Mr. March, "that we have been experiencing, together with the heavy fall of snow in Abo canyon, has made railroad business a very difficult job, but work is going ahead, though slowly, in every camp except No. 2, where they were forced to stop on account of the weather. I'm going back east where it is warmer."

The El Paso News says: Thad Van Horn, the well known traveling freight and passenger agent of the Southwestern, has resigned his position and will go to the state of Washington to accept a place as traveling salesman for a large lumber firm. The resignation, which becomes effective January 1st, was a surprise to Van Horn's many friends here. He was with the old Northwestern as traveling representative and received a place of greater importance with the Southwestern system when the consolidation was made. He has already departed for his new field of labor and his friends wish him well.

DESPERATE NEGRO DEAD FROM HIS WOUNDS.

Percy Barr, the negro who fought the pistol duel at Ash Fork with Special Officer Whitley, died at the county hospital at 11:30 p. m. Saturday, says the Prescott Courier. He maintained to the last that Officer Whitley fired the first shot. Officer Whitley, who lies sorely wounded at a hospital in Los Angeles, states positively that Barr punched him in the chest and fired the first shot, and witnesses also declare positively that Barr fired the first shot.

SCOTTY'S SHOOTING A MERE FAIR GAT'CH.

A special dispatch from Earnest Cato to the Santa Fe from El Paso, regarding "Scotty," says: "Brother Bill," Walter Scott's partner in sunshine and storm, arrived in Barstow and on being interrogated with reference to his brother's health stated that Walter never felt better in his life and that there is every likelihood of his arriving here in a day or two.

Regarding all the talk about "Scotty's" terrible mishap in Death Valley, "Brother Bill" characterizes the whole story as a concoction of nonsense and state emphatically that no accident of any kind occurred, in so far as the shooting episode goes it has absolutely no foundation.

NOT ACCIDENTAL.

Coroner's Jury Decides Lang Wreck Work of Wreckers.

An Emporia, Kas., dispatch says: The jury to inquire into the cause of the wreck of Santa Fe train No. 17, on December 19, has brought in a verdict as follows: "From the evidence shown we find that E. E. Derrick came to his death in the wreck of the Santa Fe train No. 17, caused by some party or parties unknown to this jury."

The jury consisted of representative business men of this city, who carefully examined into the case. Extremely positive evidence was produced showing that immediately after the wreck and almost at the moment the cars had come to a stop, several persons of unimpeachable integrity had seen the rails immediately under the chair car, which lay partly across the track, and testified that the spikes were missing. Dozens of witnesses were examined, and the testimony of all went to show that the wreck was

KENTUCKY GIRL JILTED BIG TOM SHELVIN

Louisville, Ky., Jan. 3.—Cupid failed to kick goal in the love-making game between big Tom Shelvin, famous Yale halfback, and Miss Elizabeth Shirley, noted as one of the beautiful women of the Blue Grass state. Shelvin objected to the interference of other men who insisted upon paying attention to Miss Shirley while she was visiting in Baltimore. Miss Shirley rather liked the homage of the galant Marylanders, and told her foot ball lover so when he protested. Then the presents were sent back and the game was declared "no contest."

ESTANCIA PEOPLE BOOMING THE VALLEY.

At the meeting of the Estancia Valley Development association last night at the office of Probate Clerk Corbett, it was decided to have an all-day meeting with a basket dinner, at the school house in the near future, at which time a good program will be given, says the Estancia News. It is expected to have some speaker or speakers here from other parts of the territory, probably one from the Agricultural college at Mesilla Park, to give addresses on things appertaining to farming in the arid regions, pumping, irrigation, etc. A committee consisting of A. H. Garnett, J. W. Corbett, N. S. Rose and Mesdames Corbett, Garnett and James Walker was named to have the matter in charge and a good time is assured. Full details will be given in these columns.

SUPREME COURT

The supreme court of the territory met at 10 o'clock yesterday forenoon in the chambers at the capitol building to close its session.

There were present: Chief Justice W. J. Mills, Associate Justice John R. McFie, Associate Justice Edward A. Mann.

Jose D. Sena, clerk of the court, was at his post. The territory of New Mexico was represented by Attorney General G. W. Prichard. United States Marshal Creighton M. Foraker was also present. The following business was had:

An order of continuance for the term of 1905 was issued for all cases not yet decided. The court then adjourned sine die.

The first session of the supreme court for 1906 was held this morning at 10 o'clock in the chambers of the capitol building.

INTERNATIONAL MINERS ASSOCIATION ELECTION.

The International Miners' association at El Paso, has elected the following vice presidents:

Texas—Dr. W. B. Phillips, Terlingua; J. W. Malcomson, El Paso. New Mexico—Prof. Fayette A. Jones, Albuquerque; J. I. McCullough, Organ. Arizona—C. E. Mills, Morenci; C. M. Shannon, Clifton. Chihuahua—W. M. Brodie, Batopilas; Joe Maria Botello, Parral. Sonora—A. S. Wright, Cananea; J. S. Lougins, Nacoari.

A CHRISTMAS KILLING AT DRIPPING SPRINGS.

A justifiable homicide occurred on the Armstrong ranch at Dripping Springs, Ariz., closing the festivities of Christmas day, the particulars of which are learned from the Globe Silver Belt. Frank Rubio killed his brother-in-law, Joe Jones, with a Winchester rifle. Jones, who was addicted to the intemperate use of liquor, and who often threatened his wife while under its influence, was present at the merry-making. He threatened on this occasion to kill his wife, Rubio's sister, and fired one shot at her but missed her, though it was not known whether he meant to kill her or only frighten her. Rubio seized a Winchester and told him to deliver up his gun. Instead, Jones pointed his revolver at his wife, but before he could shoot the second time, Rubio shot and killed him instantly. All this happened after Jones had previously been disarmed of a revolver and also of the Winchester with which he was killed. The coroner's jury exonerated Rubio, who gave himself up to a deputy sheriff.

Perfection Attained.

Perfection can only be attained in the physical by allowing Nature to appropriate and not dissipate her own resources. Cathartics gripe, weaken, disarrange, while DeWitt's Little Early Risers simply expel all purgative matter and bile, thus allowing the liver to assume normal activity. Good for the complexion. W. H. How, Houston, Tex., says: "For years I have used Little Early Risers Pills in my family. No better pill can be used for constipation." Sold by all druggists.

OTT GETS DEEPER INTO THE TOILS

John H. Ott, the alleged San Francisco crook, who was arrested on a train in this city, several weeks ago, on a charge of stealing \$1,100 from his room mate, Frank Johnson, in the Golden Gate City, and which sum he claimed was hid in this city by Acting Police Officer Jordan, is in deeper trouble than ever and his former room mate, Johnson, has been arrested as his accomplice.

From all reports, it would seem that Ott and Johnson were partners in crime in Philadelphia, where they fleeced merchants out of goods to the extent of \$2,000, and that the \$1,100 which Ott stole from Johnson was the latter's share of this haul. Both are being held in San Francisco awaiting further advice from the Philadelphia authorities.

COME TO BELEN, N. M.

The Future Railroad Metropolis of New Mexico

Located on the Belen Cut-off of The Atchison, Topeka & Santa Fe Railway

Belen is 31 miles south of Albuquerque, N. M., at the junction of the Main Line of the Santa Fe system--leading east and west from Chicago, Kansas City, Galveston and points east to San Francisco, Los Angeles, El Paso and Old Mexico

The Belen Town and Improvement Company Own the Belen Townsite

Of 1,000 business and residence lots, size 26x142 feet, laid out with broad 80 and 70-foot streets, with alleys 20 feet wide, with beautiful lake and public park and grand old shade trees, public school house, costing \$16,000; churches, Commercial club; a population of 1,500 inhabitants; largest mercantile establishments in New Mexico; the Belen Patent Roller mill, capacity, 150 barrels daily; large winery; three hotels, restaurants, etc. Belen is the largest shipping point for wool, flour, wheat, wine, beans and hay in Central New Mexico. Its importance as a great commercial railroad city in the near future cannot be estimated

ALL FAST LIMITED EXPRESS, MAIL AND FREIGHT TRAINS OF THE SANTA FE ROUTE WILL GO OVER THE MAIN LINE THROUGH TO BELEN, EAST AND WEST, NORTH AND SOUTH.

The lots offered are in the center of the city, well graded, (many of them improved by cultivation); no sand or gravel. We need a first-class bakery, tailor shop, shoe house, jeweler, plumbing shop, planing mill, coal and wood yard, drug store, harness shop, etc. Also a first-class modern hotel.

OUR PRICES OF LOTS ARE LOW AND TERMS ON EASY PAYMENTS; TITLE PERFECT; WARRANTY DEEDS.

LOCAL AND PERSONAL

WEATHER INDICATIONS.

Fair tonight; not so cold in northern portion. Thursday, fair, with slowly rising temperature.

There was a young man from Nan-tucket.

Who kept all his coin in a bucket. 'Till an Albuquerque girl named Nan Won the love of the young man, And swiped the coin—you bet old Nan took it!

Maynard Gansul has as his guest, J. G. Barden of Denver.

Miss Isabelle Marmon of Laguna is visiting friends in the city.

Alfred Grunfeld expects to leave this evening for an eastern business trip.

Hon. B. S. Rodey returned last evening from Santa Fe, where he went on a business mission.

Col. W. S. Hopewell, general manager of the Albuquerque Eastern, was a passenger to Santa Fe this morning.

Hon. M. R. Otero, register of the United States land office at Santa Fe, has returned to his duties at the territorial capital.

The Knights of the Maccabees will hold a meeting at Elks' Hall this evening, at 7:30 o'clock. All members are urged to be present.

The International Bioscope company, with its great life motion pictures, will appear at the Elks' Opera House, Saturday, January 6th.

Deputy United States Marshal C. M. Foraker, who has been in the Capital City for several days, attending to official matters, will arrive in Albuquerque tonight.

At 7 o'clock this morning the thermometer in the business section of the city stood at 7 degrees above zero. At 8 o'clock, the mercury registered 11 degrees above.

The Klitties' Band of Canada will appear at the Elks' Opera House tomorrow (Thursday) evening. This will be one of the greatest musical events of the season.

Miss Carrie Newell of Cubero, where she conducts a private school for the children of Emil Bibb, returned to that place yesterday after a visit with her sister, Mrs. F. W. Spencer.

Attorney T. N. Wilkerson returned yesterday morning from a visit to friends and relatives at Kansas City and other Missouri points. He has been absent from the city since Christmas.

Mrs. H. Irvin, who has been in Albuquerque for some time, as the guest of her sister, Mrs. M. E. Bigelow and Miss Nellie Ralston, returned last evening to her home in Chicago.

Mr. and Mrs. Higginson Martinez, Mr. and Mrs. Cruz Vigil, Mr. and Mrs. James Catannack, Miss Josie Lujan and Miss Felicitia Cordova, all of San Antonio, are visiting Mr. and Mrs. Robert Cordova of this city.

Official observations from the University show that this morning was the coldest day of the present winter, the mercury being several degrees below zero.

The ladies of the German Lutheran church held a business session this afternoon at the home of Mrs. Preissner, on North Arno street. A profitable session took place and a period of sociability enjoyed.

A number of dentists met in the office of Dr. Alger last night to discuss the organization of an Albuquerque Ethical Dental Society. The organization will probably be completed in a couple of weeks.

Don't forget the date of the Elks' Minstrels, Friday, January 5th, and when the date arrives be sure to attend, if for no other reason than to hear B. Ruppe play (on his bagpipes) that beautiful solo, "How I Kill 'Em When They Come to Me for Coke."

As a result of a small freight wreck near Kingman, Ariz., in which no person was injured, train No. 4, of last night, did not reach the city until 9 o'clock this morning, five minutes in advance of No. 2. Trains from the east were about on time last evening.

At a meeting of the Non-Sectarian Benevolent Society, held this afternoon, beginning at 2:30 o'clock, at the office of District Attorney Clancy, in the Gleckler building, on fourth street, officers for the ensuing year were elected and other routine business transacted. There was a fair sized attendance.

The corresponding secretary of the Iowa Club failed to announce through the daily papers the meeting held recently at the home of Mrs. S. E. Newcomer. A very delightful afternoon was spent, and election of officers ensued. The next meeting of the club is to be held at the home of Mrs. A. O. Hayn, 216 South Seventh street, Tuesday, January 10th, at 2 o'clock.

Building Inspector Whitecomb yesterday issued a permit for a new three-story brick building, to be erected by Joshua S. Reynolds of Las Vegas, on East Railroad avenue, on

the old Highland Hotel site. The first floor will be devoted to store-rooms and the second floor to office rooms. J. W. McQuade drew the plans and has the building contract. The building will cost in the neighborhood of \$20,000.

A rehearsal with full orchestra will be held by the Elks minstrel company this evening at 8 o'clock. All those having part will please be on hand promptly.

A. R. Barnett has moved into the store room on Gold avenue, recently vacated by F. J. Houston, and will open up this week with a special sale of furnishing goods.

Two full blooded Comanche Indians from Oklahoma were in the city today, visiting various places of interest. An Indian from Teletia is showing his aborigine friends about the city. The Comanches are dressed in their finest togs and feathers and present a picturesque appearance. They will visit all tribes in this vicinity before returning home.

Hugh Murray, the well known ranchman of the Jemez Hot Springs country, is in the city, to enjoy a few days with his nephew, Col. W. H. Greer. Mr. Murray says there is plenty of snow, and pretty deep at that, in the mountains surrounding the resort, but very little at the springs. He also stated that, so far, no sufferings or losses have been reported among the sheep of his section.

Charles Schaffer, the young man found unconscious in his room at the Blythe boarding house, corner eighth street and Mountain road, as chronicled in yesterday's issue of The Evening Citizen, was somewhat improved this morning, and the attending physician, Dr. M. K. Veldner, states that there is now a possibility of his recovering, although he is still in a precarious condition.

Men's high top shoes, box calf or oil grain, with extra heavy, vulcanized soles. Just the thing to keep your feet warm and dry, without any rubbers. Prices range from \$2.50 to \$4. C. May's Shoe Store, 314 West Railroad avenue.

IF YOUR WATER PIPES ARE FROZEN HAVE THEM THAWED OUT BY ELECTRICITY. SOUTHWESTERN ELECTRIC & CONSTRUCTION COMPANY, No. 216 SOUTH SECOND STREET. AUTOMATIC PHONE 455.

A CARD

On January 1st, we succeeded to the Jewelry Business of Mr. H. E. Fox, established by us some fifteen years ago, having purchased his entire stock, lease and good will. Mr. Fox retiring to engage in other pursuits. Our experience within the territory extends over a period of more than twenty-five years, during which time we have operated in all the leading towns of New Mexico, also in Texas and Arizona, so that we do not feel as strangers.

It shall be our aim to fully maintain the standard of our predecessors and change upon those dimensions to the highest practical degree, thereby deserving the established title of NEW MEXICO'S LEADING JEWELERS. Soliciting your patronage, we beg to be,

Very sincerely,
GEO. W. HICKOX & CO.

Announcement!

Wednesday will record the beginning of a Green Tag Sale. It will mark the inaugural of what we intend to make the greatest price-lowering event, which has ever occurred in this city.

Our store room is congested with an overflow of stock—winter goods still piled up on every side—in some cases, solid, complete lines, without a garment or a size sold. It's a wrong state of affairs for this time of the year.

A state of affairs which demands an immediate and big reduction of prices, which will move the stock and so relieve the tension.

First in Importance is the GREEN TAG SALE of SUITS

We have gone through the entire stock and have tagged every suit. The reductions are phenomenal—in some instances as much as \$6 to \$8 has been taken from the original price. In every instance we have made the price so low that thrifty men will buy for years to come. Then the sale of

SOFT AND FLANNEL SHIRTS AND UNDERWEAR

which will be decidedly interesting to all, as wonderfully small prices have been made on all lines.

The Sale of Furnishings and Small Articles

Will mean the saving of many a dollar. Here are just a few of the items:

25c Fancy Hosiery, 2 pairs for.....	25c
\$1 Flannel Night Shirts	60c
75c Flannellette Soft Shirts	45c
\$2 Wool Sweaters	\$1 25
50c Four-in-Hand Ties	25c
\$1 Gloves, Short or Gauntlet	60c

And so on, through a long list.

We advise you to look for the big Green and Black Posters—they tell the story—the greatest sale ever in a more complete way.

SIMON STERN

You Will Be Pleased
