## GERMANY'S WAR LORD SEEMS SPOILING FOR BOUT WITH UNCLE SAM

Some Serious Indications That the Imperial Government Will Select Brazil for Decisive Trial of American Fealty to INTEGRITY OF THE ABHORRED MONROE DOCTRINE

Unmistakable Action of Officials and Utterances of Well Known German Authors in Connection With Brazil and The Monroe Doctrine.

Washington, D. C., Feb. 14.—The evidence is piling up in the State Department that Germany has deliberately intentions against the integrity of the republic of Brazil.

Department officials view quite seriously recent indignities heaped upon Brazilians by the Kaiser.

An example, only a few weeks old, is the impudent manner in which the commander of the German warship Panther landed an armed force on Brazilian soil and arrested a Brazilian subject, suspected of deserting from the Kaiser's army. Some time before this a German gunboat calmly steamed up the Amazon river and proceeded to take reconnoitering observations, in direct defiance of international usage.

Captains of small warships do not do such things as these unless they know their action will be received with satisfaction by their superiors. Germany would never think for a second of duplicating this behavior in any other country. The only reason it was done in Brazil was to show the half million Germans there that Emperor William is looking after them and regards their new country as already semi-subservient to himself.

After the trouble Germany is taking to colonize Brazil, to bind the republic to the fatherland economically, and to show the German settlers that the Kaiser has a parental eye on them, it is not common sense to suppose that Germany is without any ultimate desire to annex the country.

Germany wants Brazil because her future as a colonial power depends

on the black eagle flying over Brazilian territory, and Germany is a worshiper at the shrine of colonial empire building.

If it could be done with safety, tomorrow, the Kaiser would find a pretext for quarrelling with Brazil, and when the quarrel ended, the Hohenzollerns would have added another stretch of territory to their possessions.

The Kaiser, however, cannot dominate Brazil until he has knocked over the Monroe Doctrine. If his naval enlargement program means anything on earth it means that he proposes, within a few years, to test the doctrine and also trade supremacy with arms.

Germans are continually preaching against the Monroe Doctrine as standing in the way of their Brazilian ambitions. Dr. Walther Kundt, a German authority on Brazil, has recently written: "It is not to be expected that Germany can yet make herself felt energetically in Brazil. But when German interests are established here, the imperial government must support them with greatest vigor. As for the Monroe Doctrine, it rests on a thoroughly antiquated foundation, which will give way to another foreign policy by America."

Prof. Schmoller, of the University of Berlin, has declared: "We must see to it that there is a German colony of from 20,000,000 to 30,000,000 Germans in Brazil within the next 100 years. Unless its stability is guaranteed by warships, with the possibility of forcible German intervention, such a development is endangered."

## MANY MATTERS FROM MINERS' HEADQUARTERS

New York, Feb. 14.—The special committee of the union anthracite mine workers, to which had been committed the duty of presenting to the operators the demands of the miners, has completed its work and everything is now practically in readiness for tomorrow's conference. The exact nature of the demands has not been made public.

**PRESIDENT MITCHELL SAYS DOLAN CAN BE REMOVED.**

Pittsburgh, Pa., Feb. 14.—The Pittsburgh district miners' convention reassembled today with President Patrick Dolan as president. National Vice President Lewis read a letter from President Mitchell to the delegates. In this letter Mitchell dealt with the existing controversies and says:

"The question involved is, 'Has the regular district convention of mine workers the authority to impeach and remove any official of the district or-

ganization who has been charged with misfeasance in office?' The president of the district alleges that inasmuch as he was elected by popular vote of the miners in the district, he cannot be removed from office except by the same power. I hold that the regular district convention has full power to impeach and remove from office any official who may be charged with neglect of duty, disobedience in office, or violation of instructions."

**MINERS' AIR BLASTS ARE CAUSE OF EARTHQUAKES.**

Houghton, Mich., Feb. 14.—Many miners are resigning their positions in the copper mines in this vicinity, owing to continued earthquakes from air blasts, which have now become so frequent and dangerous that miners fear for their lives. Blasts have been broken in many instances and shocks have become so frequent that many residents are planning to move from the district.

## CHINA, MOROCCO AND OTHER FOREIGN STATES

Los Angeles, Feb. 14.—Edwin H. Conner, for many years United States minister to China, and who is staying at Pasadena this winter, is quoted as saying: "The United States should warn China against a repetition of the terrible riots of a few years ago. A show of our warships should be made to impress upon the government of China that the troubles must not be repeated and will not be tolerated. I am satisfied that serious trouble will come, but I do not expect that it will be directed especially against the United States. I believe it will be directed against the reigning Manchian dynasty. The most violent disturbances will be in the southern provinces and will endanger all foreign interests. Americans within the zone of the rebellion are liable to be hurt before they can get out and that is why the United States should let China know that it will not tolerate for an instant anything inimical to the interests of its citizens."

wages of \$60 employees during the ten weeks the works were closed. The factory was shut down November 30, and a shortage of coal was given as the reason. The court in rendering its judgment said it was not lack of coal which induced the closing, but it was the high price, and it found that this was not a good reason.

**ROJESTVENSKY TELLS OF HIS LATE FLEET.**

St. Petersburg, Feb. 14.—"Perhaps I am guilty to some extent for our defeat and perhaps my subordinates did not do all they might have done, but at all events we, who fought the battle, were not thieves," said Admiral Rojestsvensky, who addressed the imperial technical society yesterday evening upon the causes of the defeat of the Russians in the battle of the Sea of Japan.

The admiral made no specifications regarding the rascality in the construction and equipment of the ships, but he commented at length upon the destructive effect of the heavy Japanese shells which, when they exploded in the water near the Russian vessels, cracked the plates and opened great leaks while those which struck the Russian ships squarely were as destructive as mines.

**HOPE AGAIN FELT AT ALGERIAS CONFERENCE.**

Berlin, Feb. 14.—The situation at Algerias has again changed. There is a possibility of a way yet being found to bring the German and French rivals into an agreement, though the exact nature of the suggestions which have been made by the neutral powers are not made public.

**RUSSIAN COURT GIVES A PECULIAR VERDICT.**

Warsaw, Feb. 14.—Considerable comment has been caused by the judgment of the communal court at Widawo, near Lodz, ordering the Coates thread factory to pay the

**UNION PACIFIC PAYS SEMI-ANNUAL DIVIDEND.**

New York, Feb. 14.—The directors of the Union Pacific railroad today declared a semi-annual dividend of 3 per cent on the company's common stock. This is an increase of one-half of 1 per cent as compared with the last semi-annual declaration. The regular semi-annual dividend of 2 per cent was declared on preferred stock.

**ATTEMPTS TO OUST PRESIDENT DOLAN.**

Pittsburgh, Pa., Feb. 14.—Vice President Thos. Lewis, of the United Mine Workers, has been representing President Mitchell during the sessions of the union in District No. 5.

**ATTEMPTS TO OUST PRESIDENT DOLAN.**

Pittsburgh, Pa., Feb. 14.—Vice President Thos. Lewis, of the United Mine Workers, has been representing President Mitchell during the sessions of the union in District No. 5.

## HIS MASTER'S VOICE

## LOUISIANA MOVES FOR GOOD HEALTH

State Board Meets, Attended From All Parts of the State.

## OBJECT TO LAST YEAR'S WAY

All Water Receptacles and Pools in State Must Be Securely Screened.

Alexandria, La., Feb. 14.—The Health Conference, which was called by Dr. C. H. Irion, president of the State Board of Health, to consider matters of public health with particular reference to the prevention and suppression of epidemics, like the yellow fever epidemic of last year, opened here today with a large attendance, and every section of the state well represented. The conference promises to be of great interest and importance and will mark the opening of the sanitary campaign that is to be waged in this state from now on. The delegates attending the conference represent not only the medical fraternity of the state, but practically every interest. It is hoped by Dr. Irion and the other members of the State Board of Health that this conference will have far reaching results and that it will eventually lead to the most perfect sanitation this state has ever known. It is proposed that a uniform plan will be adopted whereby every house in Louisiana infected last year will be thoroughly fumigated and every open receptacle or container of fresh water throughout the state will be properly screened before the advent of early summer. It is also proposed to invoke the aid of every planter whose place was infected last year and have him agree to fumigate and screen every cabin on his plantation; this cabin to be set aside for use as an isolation hospital should there be a recurrence of the fever on the plantation.

Dr. Irion has had several conferences with the chief officials of various railroad companies in this state and they heartily approved of his plan and promised their certain help and support.

Another most important feature of the conference will be the mapping out of a uniform plan of action which will afford the greatest protection to the public health with the least interference with the business interests of the state. Many of the most prominent merchants, bankers, planters and public officials in various parts of the state have already promised to support, in every way possible, the campaign which the conference should agree on, and the presence of a large number of merchants, manufacturers, planters and officials from all parts of the state give proof of the seriousness of their promises. Among the medical members of the conference are many of the best known and most prominent physicians of the state and many of them have come prepared to give the conference the benefit of their experiences during the epidemic of last year. The conference will be in session two days.

**PHILADELPHIANS FIGHT BATTLE OF TWENTY ROUNDS.**

Philadelphia, Pa., Feb. 14.—Burke and Melody will fight a twenty round battle before the Furels Club at North Washington this evening. Many sportsmen from New York, Baltimore and other cities are here to witness the fight.

## THE PITTSBURGH MINERS' FIGHT

Pittsburgh, Pa., Feb. 14.—Vice President Thos. Lewis, of the United Mine Workers, has been representing President Mitchell during the sessions of the union in District No. 5.

## NO MORE GENERALS MADE LIEUTENANTS

Highest Army Officers Are Much Exercised Over Clause in

## ARMY APPROPRIATION BILL

Abolishing Rank of Lieutenant General, With Retirement of General Bates

Washington, D. C., Feb. 14.—The highest officers of the United States army are waiting with considerable interest for the decision of congress in regard to the clause inserted in the Army Appropriation Bill, which reads: "Provided, further, that when the office of lieutenant general shall become vacant it shall not thereafter be filled, but said office shall cease and determine."

That such a change was intended, was more or less expected by army officers, on account of the detail, at the urgent request of Secretary Taft, of Brigadier General J. Franklin Bell, as chief of staff of the army. The effect of this assignment to duty in Washington of an officer to whom there were six major generals and a lieutenant general senior, was to keep the lieutenant general away from Washington, and in command of a military division hitherto considered the proper command of a major general. It was expected that General McArthur's appointment as a lieutenant general and General Bell's detail to duty as chief of staff would bring about the conditions which is shown by the disposition of the House Military Committee to abolish the office of lieutenant general. If the clause is approved by congress it will go into effect when General Bates retires and will prevent General Corbin from becoming a lieutenant general.

## WILL CONLEY HANG OR BE REPRIEVED

THE GOVERNOR WILL HAVE DECIDED THIS QUESTION BY TONIGHT—NO HOPE FOR LIFE IMPRISONMENT.

Will John Conley, sentenced to die on the gallows February 16, for the murder of James Redding and a companion, be hanged Friday or not? This question is now up for final settlement before Governor Hagerman and by the time this paper is in the hands of The Evening Citizen readers Conley will have been informed of his fate. In speaking of the matter of commuting the sentence to life imprisonment and of the granting of a reprieve to the condemned man Governor Hagerman said:

"The decision in the case is already made. Conley is sentenced to hang. It is simply a question of whether I shall grant a short reprieve. I have not yet fully decided the matter in my own mind but I have not long to consider it. I shall make my decision known in ample time before the execution so that if a reprieve were granted the sentence of the law could be delayed. However I do not know what action I shall take."

While it is thought that a reprieve will be granted Conley, all hopes of eventually saving the life of the doomed man seems to have been given up by the man's friends and lawyers.

**Money Market.**

New York, Feb. 14.—Money on call, steady, 5 per cent; prime mercantile paper, 4½ to 5½; silver, 65½.

## PRESIDENT McCALL IS REALLY SICK

Sinking Spell This Afternoon Causes Great Alarm. Doctors Say

## HIS RECOVERY IS DOUBTFUL

Proceedings to Be Instituted to Recover Contributions Made by New York Life.

Lakewood, N. J., Feb. 14.—Although John A. McCall, former president of the New York Life Insurance company, was resting comfortably today, his physician says he has very little chance for recovery. The nature of McCall's complaint is said to be liver trouble.

Later—McCall had a sinking spell this afternoon from which he rallied, but his symptoms greatly alarm his family.

**MONEY TO BE RECEIVED FROM OFFICIALS LIABLE.**

New York, Feb. 14.—Recommendations that legal proceedings be instituted to recover contributions made by the New York Life, were submitted to the trustees of that company today by the special investigating committee headed by Thomas P. Fowler. It is recommended that the money be received from such officials and trustees as the counsel shall decide are liable therefor.

## CHICAGOANS WEDS INTO PHILADELPHIA FAMILY

Philadelphia, Pa., Feb. 14.—The wedding of Miss Mary R. Hanlon, daughter of Mr. and Mrs. Felix Hanlon, and Charles Donald Townsend, a prominent broker of Chicago, which took place at the Roman Catholic Church of the Gesù, this morning, was one of the most brilliant social affairs held in this city for many years. The rector of the church, the Rev. Cornelius Gleason, assisted by several priests, performed the marriage rite.

Miss Hanlon's father is an immensely wealthy leather manufacturer and he spared no expense to make the wedding as magnificent as possible. The church was filled with invited guests and after the wedding a breakfast was served at the Hanlon residence on Sixteenth street and Girard avenue.

Miss S. Townsend, sister of the bridegroom, was the maid of honor, and the matrons of honor were, Mrs. George Donald Tutt of Overbrook and Mrs. J. Roosevelt Shanley of New York. T. Raymond Financina of Rochester acted as best man. The ushers were Felix L. Hanlon, Clifford Buchanan of New York, George Donald Watt, J. Roosevelt Shanley, George Ferguson and M. Agnew of Chicago. The young married couple start this evening on a bridal tour of the south and will make their home in Chicago.

## BROOKLYN YACHT CLUB WILL ELECT OFFICERS

Brooklyn, N. Y., Feb. 14.—The Brooklyn Yacht Club will hold its annual meeting this evening, and an animated session is expected. The meeting will be held at the Hotel Clarendon and will be important, as the officers for the coming year will be elected and the racing program for the year decided upon. The ticket which will be voted on at the election is headed by Borough President Bird S. Coler, who is slated for commodore and will undoubtedly be elected.

The regatta committee's program for the year is far more elaborate in the club's history. It contemplates a week of races on the lower bay, the ocean races for the Lipton Cup, from Gravesend Bay to Bermuda, and the race for the Brooklyn Cup, from New Rochelle over the 300 mile course back to Gravesend Bay; several races around Sandy Hook Lightship for the general first and the usual contests in conjunction with the Gravesend Bay Racing Association.

## GREAT GATHERING FOR KING OSCAR'S FUNERAL

Copenhagen, Feb. 14.—The funeral of the late King Oscar has been set by royal proclamation for the 18th of this month, and elaborate preparations for the event are being made. The whole city is in mourning and the magnificence of the funeral will be expressive of the high regard which the people of all classes had for the late king. Thousands of visitors from all parts of Europe are congregating here and the hotels are already filled to overflowing.

## CALIFORNIA TRAIN WRECK

Passenger to St. Louis Runs Into Freight, Killing Three.

## FIRE DESTROYS MAIL CARS

Frisco Sleepers Run Into Car of Terra Cotta Throwing Out the Passengers.

## EXPLOSION AT BIG STEEL WORKS

Fort Scott, Kas., Feb. 14.—St. Louis & San Francisco passenger train No. 113, northbound, was wrecked at Columbus, Kansas, early this morning. Harry Roundtree, of Fort Scott, express messenger, and a newboy, whose name is unknown, were burned to death. An unknown passenger dropped dead while trying to rescue the crew. George Woods, the engineer, was badly hurt, and W. F. Rymann, fireman, sustained a broken leg. The passenger train ran into a string of box cars that had broken loose from a freight train and had run back onto the main line. The entire passenger train except the sleeper was burned.

## MISSOURI PACIFIC MAIL CARS DESTROYED BY FIRE.

Kansas City, Feb. 14.—Last night train No. 7, westbound, on the Missouri Pacific railway, which left St. Louis, at 3 o'clock this morning, was wrecked at Gasconade bridge, twenty-seven miles east of Jefferson City. Three cars were derailed, caught fire and were destroyed. Several members of the crew were hurt, but no one was killed. The train was made up of five mail cars and one baggage car.

## PASSENGERS HURLED INTO SPACE BUT NONE KILLED.

St. Louis, Feb. 14.—While coming into St. Louis at forty miles an hour this morning two sleepers on the Frisco train took a sliding, tore loose from the train and crashed into a box car loaded with terra cotta. The passengers were hurled pell-mell, but none were injured beyond receiving bruises.

## EXPLOSION OF DYNAMITE AT ILLINOIS STEEL WORKS.

Chicago, Feb. 14.—An accidental explosion of dynamite killed one man and injured seven at the Illinois Steel works today.

**Copper and Lead.**

New York, Feb. 14.—Lead, quiet, \$5.25@5.30; copper, quiet, 17½@18½.

**Spelter.**

St. Louis, Feb. 14.—Spelter held at \$5.55.

## DEATH RELIEVES HER SUFFERING

**LITTLE DAUGHTER OF SARGEANT LEWIS DIES FROM BURNS RECEIVED FEBRUARY 1.**

Special to The Citizen.

Socorro, Feb. 14.—After two weeks suffering untold pain, the little daughter of Sargeant Robert Lewis of the territorial mounted police, died at the home of her parents in Socorro this morning as the result of burns she received on February 1, while burning some weeds in the yard in the rear of the house. The funeral will take place probably tomorrow. Mr. and Mrs. Lewis receive the heart felt sympathy of the community.

The story is one to elicit the greatest sympathy. The child was burning some weeds in the yard, when her dress caught fire. The lower limbs were severely burned before the fire could be extinguished. At first it was thought that the burns would not prove fatal, but they were more serious than supposed.

**Wool Market.**

St. Louis, Feb. 14.—Wool market steady, unchanged.

## MANY VALENTINES SENT TO MISS ROOSEVELT

Washington, D. C., Feb. 14.—It was to be expected that the numerous friends and admirers of Miss Alice Roosevelt, and she has thousands of them in every state in the Union, would not allow St. Valentine's Day pass without thinking of the bride-to-be, her charming little romance and coming wedding, and giving some expression to their interest in her. The Washington postal authorities felt quite confident that the White House mail, unusually large at this time, would be considerably increased by Valentine tokens sent to Miss Roosevelt, but the enormous number which actually came through the mails from all parts of the country almost staggered them. The exact number of the Valentines sent to Miss Roosevelt is not known, but conservative estimates place it at more than 6,000.

Every mail contained a number of these missives, coming from all parts of the United States, from large cities and insignificant villages, and addressed in every kind of orthography, from the mature hand writing of a business man to the misspelled scrawl of some country school girl. Some of the Valentines were enclosed in ordinary envelopes, others in large fancy covers, and among the lot was even a fair sprinkling of more elaborate Valentines of a decorative character.

## FIGHT NOW IS ON IN SENATE

Both Sides Doing Their Utmost in the Statehood Conflict.

## ENTERPRISE BANK REPORT

Ship Subsidy Bill Is to Be Voted On Before Adjournment.

## SECRETARY TAFT TO COMMITTEE

Special to Evening Citizen.

Washington, Feb. 14.—Both the friends and foes of joint statehood are marshaling their forces in the senate today preparatory to starting the fight in earnest. The minority report on the bill has not been presented, but it is expected that Senator Patterson, who returned today from New York, will use the memorial against joint statehood, which he previously presented, as a minority report.

**Secretary J. W. Reynolds of New Mexico** will today for some, joyous over his victory.

## CURRENCY COMPTROLLER ON ENTERPRISE BANK

Washington, Feb. 14.—The comptroller of the currency has received the first report of the receiver of the Enterprise National bank of Allegheny, Pa. The receiver classifies the assets of the bank as follows:

Assets—good, bad and doubtful, \$2,199,529. Liabilities given as \$3,130,595.

## SENATE WILL VOTE ON SUBSIDY BILL

Washington, Feb. 14.—Immediately after the morning routine business had been disposed of today, the subsidy shipping bill was laid before the senate and its consideration resumed with the understanding that it would be voted upon before adjournment. Gallinger offered a number of amendments on behalf of the merchant marine committee. One of them limits the number of officers and men in the proposed naval reserve to 10,000.

## SECRETARY TAFT TALKS FOR THE PHILIPPINES

Washington, Feb. 14.—Secretary Taft was before the senate committee on the Philippines today and was examined by Senator Hale concerning the benefactions which the Philippines have received from congress.

## FORTIFICATIONS BILL GETS FIVE MINUTES

Washington, Feb. 14.—A consideration of fortifications was read in the house today; the bill being taken up for amendment under the five minute rule.

## CANADIAN IMMIGRATION ASSOCIATION AT WORK

Winnipeg, Man., Feb. 14.—The third annual meeting of the Western Canadian Immigration Association opened in the Board of Trade rooms here this morning. The attendance is very large and the members seem to take more interest in the work before them than ever before. The meeting is of great importance just at this time, on account of the fact that a large immigration is expected this year and it is necessary to prepare for the unusually large influx of colonists. Low railroad rates will be agreed on and the roads leading to the northwest will be urged to assist in the task of attracting immigrants of a desirable class to the western parts of Canada. It is proposed to continue the association for two more years at least and to map out a program for the year. After the morning session the delegates adjourned for luncheon. There will be another meeting in the afternoon, but the usual banquet in the evening will be omitted this year.

**Wool Market.**

St. Louis, Feb. 14.—Wool market steady, unchanged.

OUR TELEPHONES  
Automatic 183 Colorado 15

EX-GOVERNOR OTERO  
RETURNS TO SANTA FE

AND IS INTERVIEWED ON HIS  
VISIT TO SHEEP RANCH IN  
GUDALUPE COUNTY.

Ex-Governor Miguel A. Otero has  
returned to Santa Fe from a trip to  
Gudalupe county, where, with Terri-  
torial Secretary J. W. Reynolds, he  
is extensively interested in the raising  
of sheep. When seen by a New Mex-  
ican reporter, he said:

"I never saw things more prom-  
ising than at present in Gudalupe  
county. The sheep are in fine con-  
dition and the range has never been in  
better shape than at present. I pre-  
dict a great increase in lambs for  
sheepmen during the coming year, and  
if prices remain anywhere near as  
good as in the past, then sheep raisers  
will have no complaint worth making.  
There promises to be an abundance  
of grass and water on the range and  
at present there is plenty of feed to  
tide over the remaining winter months.

"We are constructing a 90 foot ware-  
house, one story high, on our prop-  
erty, the Salado Live Stock company.  
It will be of stone and ought to have  
room for the surplus of wool this  
summer.

"We have a large number of men,  
with their families, on the ranch now  
and I visited with many of them to  
see what they were doing. While  
there I told them that if they wanted  
to cultivate the land, I would give  
to each family a clear title to twenty  
acres.

"Most of them prefer to work with  
the sheep. I also visited the district  
public schools, and had a great time  
with the children. I picked up their  
books, and while I am not much of  
a teacher, I asked many questions,  
and tested the memories of the little  
ones. They are getting along splen-  
dently.

"It's a great relief to be free from  
the responsibilities under which I  
have been so long. While I appreciate  
the honor of holding the governor's  
office in this territory, yet it does me  
good now that I am among the exes,  
just to rest, rest, rest. I haven't been  
doing any thing else, since Governor  
Hagerman was inaugurated. I will  
leave soon for a trip abroad. From  
the capital I will go to San Francisco.  
From there by steamer to Japan, and  
China, through the Suez Canal, to  
Italy and thence to France, where I  
shall meet my sister, in Paris. I may  
be gone until next fall, but I shall try  
to return by shearing time, as I always  
like to be on hand for that occasion."

The governor leaned back in his  
chair, and lighted a cigar. "Yes,  
sir," he said, "I enjoy this rest."

SEES PROSPERITY  
FOR NEW MEXICO

C. W. Beery, representing the John  
Deere Plow company, of Kansas City,  
with headquarters in Denver, Colo.,  
spent Sunday in Santa Fe, says the  
New Mexican. Mr. Beery makes this  
territory twice a year. He reports  
good crop prospects in New Mexico,  
and those of southern New Mexico as  
being flattering, indeed.

He recently visited the Mesilla valley  
and found the farmers and horti-  
culturists of that section busily pre-  
paring for what they believe will be  
one of the most prosperous years in  
the history of New Mexico. The peo-  
ple of that rich valley expressed  
themselves as greatly encouraged be-  
cause of the unusual amount of mois-  
ture which has fallen during the win-  
ter and over the early construction of  
the diversion dam by the govern-  
ment.

Mr. Beery was at Las Cruces the  
day the glad news was received of  
the favorable terms under which the  
dam is to be constructed, the people  
were enthusiastic over the good work  
of the committee of the Elephant Butte  
Water Users' association, which went  
to Washington in the interests of that  
project. The soil there is especially  
adapted to the culture of sugar beets  
and Mr. Beery predicts that in a few  
years, beet culture will be, as in Col-  
orado, one of New Mexico's most im-  
portant industries.

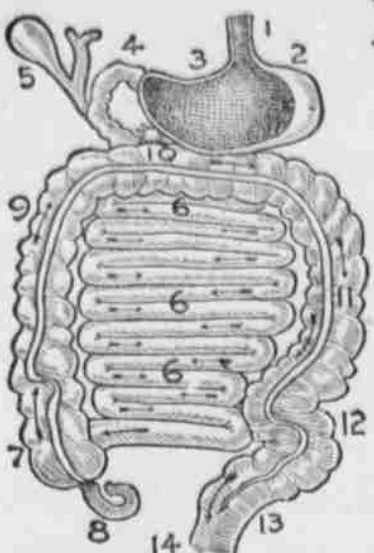

He finds a positive indication of the  
prosperity of the valley in the fact  
that he has placed large orders of  
farm implements with dealers in New  
Mexico. The sale of all farm imple-  
ments is rapidly increasing in this ter-  
ritory.

To Make  
Brains

Nature requires Albumen  
and Phosphate of Potash  
FROM FOOD.

**Grape-Nuts**

contains these elements.

Your Thirty Feet of  
Bowels

Is simply Weakness, or Laziness of the  
Bowels-Muscles.

Want of Exercise, Indoor Employment,  
weakens these Bowels-Muscles. Just as it  
weakens Arm and Leg Muscles.

Caster Oil, or Glycerine, will grease the  
passages for one load of Food at a time,  
but these lubricants can't help the Cause  
of Delay.

"Physic" like Salts, Calomel, Jalap,  
Phosphate of Soda, Mineral Waters, sim-  
ply flush-out the Bowels for the one oc-  
casion only.

They do not remove the Cause of Con-  
stipation.

Moreover, they waste so much of the  
precious Digestive Fluids, in the flushing  
process, that it takes a bigger dose every  
succeeding time to move the Bowel load.

But it is different with Cascarets.

Cascarets act on the Muscles of the  
Bowels and Intestines. They act just as  
Cold Water, or Exercise act on a Lazy  
man.

They act like exercise.

A Cascaret produces the same sort of  
Natural result that a Six Mile walk in the  
country would produce.

The Vest Pocket Box is sold by all  
Druggists, at Ten Cents.

Be very careful to get the genuine, made  
only by the Sterling Remedy Co., and  
never sold in bulk. Every tablet stamped  
"CCC."

**FREE TO OUR FRIENDS!**  
We want to send to our friends a beautiful  
French-designed, GOLD-PLATED THERMOS BOX,  
hard-enamed in colors. It is a beauty for the  
dressing table. Ten cents in stamps is asked as a  
measure of good faith and to cover cost of postage,  
with which this dainty trinket is loaded. 75c  
Send to-day, mentioning this paper, Address

CONVERSION OF 3,000 SOULS IN FOUR WEEKS—MODERN METH-  
ODS IN RELIGION.

OLIVE NETZ, LULA NETZ, KATHARINE NETZ

Pittsburg, Pa., Feb. 13.—Evangeliza-  
tion with an automobile—literally re-  
ligion by machinery—has been a  
method tried in this city with won-  
derful success. Four young women  
of Pittsburg are credited with the  
conversion of 3,000 souls, resulting  
from the use of modern methods in  
the greatest religious revival this city  
has ever seen.

The four sisters, Olive, Lula, Katharine  
and Katherine Netz, by the power of  
song alone have attracted thousands  
to the meetings held in all parts of the  
city. So great has been the influence  
of their singing, that on occasions  
when simultaneous meetings were  
held, four automobiles were employed,  
to transport them from one church to  
another. Photographs placed on the  
street corners repeated their soul-  
stirring songs, and drew thousands to  
the halls where forty-three clergymen  
and evangelists in a united effort ex-

TEN YEARS' GRACE FOR  
NEW MEXICO FARMERS.

A special dispatch from Washing-  
ton, dated Feb. 11, to the Denver Re-  
publican, says:

The secretary of the Interior has  
accepted the proposition of proposed  
water users under the Leasburg, N. M.,  
irrigation project, by which they  
will be given ten years' time in which  
to repay the government for the pro-  
posed expenditure of \$200,000 for fur-  
nishing additional water supply for  
their lands.

In December last the secretary ac-  
cepted a proposition from the same  
persons by which the sum to be ex-  
pended was to be returned in two  
years, but they could not give bonds  
for the performance of this agreement  
and it was not consummated. Under  
the new proposition, extending time of  
repayment to ten years, it is expected  
work on the project will be commu-  
enced at once.

Barney Oldfield does not believe  
that automobile track racing is dead  
in spite of the hard knocks it has  
received. "As long as the people want  
to see that kind of racing the game  
will last," says Oldfield. But he  
does not believe that it is dangerous to a deadly  
degree and the speed limit of auto-  
cars cannot be attained on such  
tracks. The sooner such racing dies  
out the better it will be for automo-  
biling.

EXECUTED MURDERER HAS  
WRITTEN LIFE FOR HEIRS.

Minneapolis, Minn., Feb. 14.—Will-  
iam Williams, condemned to death  
for the murder of John Keller of St.  
Paul, last April, was executed by  
hanging in the Ramsey county jail in  
St. Paul, early yesterday. Under  
the new law, which prohibits the  
presence of spectators at any hanging,  
excepting the officials of the court  
and jury, the members of the jury  
and some other legal witnesses. Sher-  
iff Mieser refused permits to hundreds  
of persons who wished to be present  
at the hanging. The preparations for  
the hanging had been made very  
carefully, and there was not the least  
hitch in the proceedings. During his  
confinement in the jail, Williams  
wrote a history of his life, which cov-  
ers thirty-two pages of closely writ-  
ten manuscript. The history has been  
revised by Sheriff Mieser, and will  
probably be published for the benefit  
of the heirs of the executed murderer.  
Williams met his fate with stoical re-  
signation, and slept well the night be-  
fore his execution.

## ALICE DEEP IN DRESS PROBLEM

NEARLY ALL HER GOWNS STILL TO RECEIVE THE FINISHING TOUCHES, IN SPITE OF FASCINATING STORIES FROM NEW YORK.

No Boy Choir at Wedding—Her Train Three Yards—Final Details of the Bridal Pageant.

Washington, D. C., Feb. 14.—Miss Roosevelt has practically decided all the minor details about her wedding and she is now heart and soul occupied with the dress problem.

In spite of the fascinating accounts of magnificent robes and a wealth of lingerie from New York, nearly all her gowns and all of the intimate portions of feminine finery are nearing completion in Washington.

In New York the president's daughter purchased two elegant even-wraps, and she ordered a light brown cloth gown from a tailor who has made her riding habits and her street costumes since she doffed short frocks.

She obtained some pretty frills and chiffons and several parasols in Gotham. But her home city has for the nonce the exclusive right to claim Roosevelt as a patron.

As predicted in this correspondence, the bridal pageant will descend from the second floor by the narrow stairway near the state dining room. On the arm of the president the fair bride, with her magnificent robe of satin and brocade and a train which will measure three full yards will make the grand tour of the state corridor to the flower decked altar erected on a dais just in front of the bow windows of the east room.

This promenade will extend over nearly 170 feet and will be as imposing as if it occurred in the stateliest cathedral. The Marine Band orchestra will furnish the music.

Very reluctantly Miss Roosevelt was compelled to refuse the offer of the boy choir of St. John's.

This choir would have to be placed in the east room, and with the constantly increasing number of guests it would have rendered the problem more difficult of solution than it is at present.

According to the most recent calculations at the White House, the number of acceptances now reaches almost 1,100.

The portion allotted for the altar will afford ample space for the entire wedding party, and on each side separated from the main body of the room, will be places for the diplomatic corps and high dignitaries of the government and the close relations and specially honored friends. Bishop Satterlee and his assistant, Rev. Roland Cotton Smith, rector of St. Johns, will enter the east room from the green drawing room.

The groom and his best man, Thos. Nelson Perkins of Boston, will join them through the same door and will await the coming of the bride just below the dais.

The moment the president appears the bugler will sound his gay call, "The Salute to the Colors," a tribute required by official etiquette when the executive appears in his own home, but instead of the familiar tones, "Hail to the Chief" or "Lo, the Conquering Hero Comes," the band will begin the rich wedding chorus from "Lohengrin."

During the ceremony the hymns originally chosen by Miss Roosevelt and Mr. Longworth will be played softly, and the concert will continue throughout the breakfast and the reception.

The faculty of the Illinois University is in a deadlock over the foot ball game, as they have some staunch friends on the board.

Marvin Hart announces that he will remain in the prize ring only one year, and then retire. He says the life is too hard. Hard? What would he call it if he should occasionally fight a battle?

The University of Wisconsin faculty now favors dropping foot ball for two years. "If the other colleges of the big nine consent," there's the rub that gives Wisconsin students hope—the other colleges probably will not concur.

In less than three weeks the ball players will be gathering in the sunny southland to begin spring practice. The crack of the bat will soon be heard in the land and the Panama Canal question and race regulation will be lost in the all-absorbing interrogation: "What's the score?"

The Cleveland police refused to permit John L. Sullivan to appear in a three round boxing bout at one of the burlesque show houses. Anybody who has ever witnessed the average burlesque show will wonder why a town that permits such antics objects to a friendly set-to between worn-out prize fighters.

Anybody who has ever witnessed the average burlesque show will wonder why a town that permits such antics objects to a friendly set-to between worn-out prize fighters.

She then went to live with the family of Evans' brother, who lives on Johnson's Mesa, near here. A day or so ago she was persuaded to come to this city and marry Evans.

Last night he attacked her with a butcher knife, but desisted, when neighbors interfered.

Evans was drinking again today and about 6 o'clock this evening quarreled again with his wife and shot her. Leaving her for dead, he ran some distance from the house and shot himself through the heart.

Evans was a widower with four children. A month ago he sent to Austria for his bride, who is a handsome girl 18 years old. When she arrived two weeks ago she did not fancy Evans, and refused to marry him. It is said that at that time it was necessary for friends to interfere to prevent Evans from committing violence.

Evans was drinking again today and about 6 o'clock this evening quarreled again with his wife and shot her. Leaving her for dead, he ran some distance from the house and shot himself through the heart.

Evans was a widower with four children. A month ago he sent to Austria for his bride, who is a handsome girl 18 years old. When she arrived two weeks ago she did not fancy Evans, and refused to marry him. It is said that at that time it was necessary for friends to interfere to prevent Evans from committing violence.

She then went to live with the family of Evans' brother, who lives on Johnson's Mesa, near here. A day or so ago she was persuaded to come to this city and marry Evans.

Last night he attacked her with a butcher knife, but desisted, when neighbors interfered.

## LIVED IN POVERTY TO SAVE FORTUNE FOR A GRAVESTONE

Window Cleaner Agrees With Many Partners to Save Earnings for Monument, but Survives Them All, and Leaves \$50,000 for His Own.

San Francisco, Cal., Feb. 13.—A lifetime spent in starving his body and saving his pennies in order that a magnificent monument might mark the final resting place of himself and brother, is the story of a window cleaner, Charles Betz, who died here the other day. Fifty thousand dollars was the result of the man's life endeavor.

Alone, and in the most wretched poverty, he lived in miserable lodgings on Pacific street. The walls of his dismal room were hung with such ghoulish mementoes as the "death notes" of suicides.

Years ago, Betz entered into a compact with his brother, William, each agreeing to devote his life to cleaning windows and saving his money, which was to be invested and used after their death for the erection of a splendid monument. They lived in the most abject poverty, but seemed contented.

Some time ago, William tired of his bargain and committed suicide, leaving a letter cautioning Charles, to whom he left his share of their earnings, to keep to his agreement. Charles took the note, had it framed in gold, and hung it at the head of his bed.

Then Charles hunted up another partner, Henry Mason. But Mason was not long in following the example of William Betz. He also left a letter giving all of his earnings to Betz, who had Mason's death note framed in silver and hung it at the foot of his bed.

One after another of the men he selected as partners committed suicide, each one leaving his worldly goods to Charles, who showed his appreciation by framing their death notes in costly style, and hanging them about his gloomy chamber, until death came to him.

In going through the man's effects, Deputy Sheriff Newbert found evidence showing that Betz had accumulated a large fortune. Stowed away in the breast of a stuffed bird was a letter denouncing all of his relatives and bidding them beware of his return to this earth after his death.

When Betz's will was filed it was found that only one of his relatives was remembered—and that one, a sister who is a nun in a Fort Madison convent, was left \$5. He asked that his body be cremated at a cost not exceeding \$25, and his ashes mingled with those of his brother. The balance of the \$50,000 was to be used in placing a splendid monument over their ashes.

There is no doubt but that there will be a contest of the will by the relatives whom he so completely ignored.

### NOTICE FOR PUBLICATION.

(Small Holding Claim No. 662.) Department of the Interior, United States Land Office, Santa Fe, N. M., January 17, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before the United States court commissioner at Albuquerque, N. M., on February 27, 1906, viz: Federico Sanchez y Montoya, for the Small Holding Claim No. 662, situated in Sec. 24, T. 7 N., R. 2 E.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Meliton S. Otero, of Peralta, N. M.; Juan Apodaca, of Valencia, N. M.; Benito Armijo, of Valencia, N. M.; Estanislao Garay, of Peralta, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the interior department why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

(Small Holding Claim No. 445.) Department of the Interior, United States Land Office, Santa Fe, N. M., January 8, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before the United States court commissioner at Albuquerque, N. M., on February 15, 1906, viz: Beatriz C. de Sanchez, widow of Jesus H. Sanchez, deceased, for the S. H. C. No. 445, situated in Sec. 25, T. 7 N., R. 2 E., and Sec. 30, T. 7 N., R. 3 E.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Manuel Maes, of Valencia, N. M.; Mariano Perea, of Valencia, N. M.; Jose G. Chavez, of Valencia, N. M.; Miguel Silva, of Valencia, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the interior department why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

(Small Holding Claim No. 1054.) Department of the Interior, United States Land Office, Santa Fe, N. M., January 9, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before the United States court commissioner at Albuquerque, N. M., on the 19th day of February, 1906, viz: Abel Romero, for the S. H. C. No. 1054 in Secs. 13 and 24, T. 7 N., R. 2 E., and Secs. 18 and 19, T. 7 N., R. 3 E.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Eracilo Garcia, of Peralta, N. M.; Jesus Garcia, of Valencia, N. M.; Meliton S. Otero, of Peralta, N. M.; Hilario Chavez, of Peralta, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the interior department why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

(Small Holding Claim No. 698.) Department of the Interior, United States Land Office, Santa Fe, N. M., January 23, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before the United States court commissioner at Albuquerque, N. M., on March 9, 1906, viz: Placido Salazar y Otero, for the S. H. C. No. 698, for lot 1, sections 25 and 26; lots 3 and 4, sections 23, 24, 25 and 26; lot 2, section 25, township 7 north, range 2 east.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Jesus Garcia, of Valencia, N. M.; Meliton S. Otero, of Peralta, N. M.; Salvador M. Gonzales, of Albuquerque, N. M.; Juan Sanchez y Apodaca, of Peralta, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the interior department why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

## THE ALBUQUERQUE CITIZEN

Published Daily and Weekly  
By The Citizen Publishing Company

W. S. STRICKLER  
President

W. T. McCREIGHT  
Business Manager

### The Coal Strike

In a recent account of the superior preparedness of the coal operators and the coal miners for the impending strike, the statement then given by the Citizen, are thus confirmed by Henry George, Jr.: "The prospect of a general strike of the coal mine workers east of the Rocky mountains, including possibly the only partly organized workers in West Virginia, now seems ominous. The strikers in such an event would number approximately 600,000, and since almost as many more men in dependent industries contiguous to the mines would be constrained to cease labor in consequence something more than a million workers—about a sixteenth of the adult male population of the whole country—would suddenly be reduced to idleness. While the coal monopoly managers have been laying up mountains of coal for the coming emergency, the local unions have been recruiting and gathering in dues against the contingency of a strike. Furthermore, it is probable that the national executive board of the mine workers' organization will levy a special strike assessment. This, it is estimated, may put into the mine workers' national treasury \$5,000,000, which, with what is already there, will make a general war chest of something more than \$6,000,000. Thus we witness preparations for an industrial conflict on a gigantic scale—a scale greater and with a discipline on both sides more complete than was perhaps ever before seen in the history of the world."

Speaking of the menace to the general public, to which The Citizen called attention, Mr. George says: "The conflict that seems impending may not come. It may at the last moment be diverted. Organized labor and organized monopoly may reach peace terms. But the menace to the public well must remain none the less real because passive. It means that two great standing armies are in the country ready at irregular periods to crash against each other. This is not, cannot be, in the natural order of things. It can arise only from the monopolization of the coal deposits of the country. Against such a monopoly labor can have no choice but to make organized resistance."

However, Mr. George suggests a different remedy, and one which The Citizen thinks to be inferior to that which The Citizen itself suggested the other day. Mr. George says:

"But what is the public to do? Grin and bear it? If it will show no spirit, then it ought to be monopoly ridden. But how can it break the monopoly? By having the government take over the mines and work them? No; that would be against public policy and, besides, would be unnecessary. A simpler remedy is at hand. Increase the tax on coal lands until the coal monopoly is taxed to death. That would put a heavy burden upon valuable coal deposits now bearing little or no taxes, and in consequence held out of use by the monopoly. The monopoly would hate to pay such a tax. It would hurry all of its deposits into use. That would result in the mining of more coal and consequently lower prices for consumers. It would also mean more employment for mine workers. The cause of strikes would be gone. And all this would be at the expense merely of monopoly, which is not a good, but a bad, thing for the country."

The Citizen does not believe that the remedy proposed by Mr. George can be secured at the present time, waiving altogether the question of its desirability. But The Citizen does believe that the remedy of legal arbitration, in all irreconcilable disputes between capital and labor, involving the necessities of life, could be secured and would prove amply effective.

### Weather and Prospects

Mr. F. A. Hubbell on his return to the city this week from a rather lengthy visit to his sheep ranches, told The Citizen that he had never seen stock looking better at this time of year, that the ranges are in excellent condition—the water holes being filled with water and the canyons packed with snow, while the ground is itself finely saturated. With prices of sheep, cattle, wool and hides remaining good, he anticipates that 1935 will be a more prosperous year for cattlemen than even 1934 proved to be. He is also convinced that there will be plenty of water for irrigation and that again a large area of unirrigated lands may be made to yield abundantly.

The Las Vegas Office of Monday said: Reports from every part of the territory show that the storm is general. In Albuquerque it snowed almost all day Saturday and rained at intervals yesterday. In the southern part of the territory there was a steady rainfall. Down on the Texico-Beien cut-off there was considerable inches of snow fell. In Las Vegas the snow has fallen gently, much of it melting as it fell. The storm will do much good to the ranges and farms and will moisten the soil so that the dust, which had begun to be disagreeable, will not be noticeable when the spring winds begin.

The New Mexican of Monday said: Good reports concerning the condition of live stock and the range come to the New Mexican from all parts of the territory. Verily, it looks as if the sheep growers and cattlemen of the Sunshine territory will have another prosperous year of it in 1935.

Finally, the New Mexico climate and crop service bureau, in its show fall bulletin for January, dated Monday, says: The snowfall during January was, as a rule, considerably below the normal, and, owing to the warm weather, added but little to the amount at the close of December. In fact, at all of the lower altitude stations, over the plains, in the valleys, lower mesas and foot hills, little snow remained at the close of the month. The soil, however, had absorbed most of the melting snow and was in excellent condition. In the higher altitudes considerable melting had also occurred, especially on all southern slopes and untimbered places, but over the northern slopes and in the deep canyons depths were somewhat increased, generally by drifting snow. Although the expression of our correspondents are full of confidence that the season's water supply will be ample, this will only be possible if the remainder of the winter proves prolific in snow, increasing the amount in the higher altitudes, whereby the present depth may be conserved for the late flow. The most favorable conditions within the territory are those for the Rio Grande and San Juan valleys, for the mountains of Colorado at the head waters of these streams are well supplied with snow.

Canada, according to the Railway World, has realized the ideal of railroad reformers in the United States, by establishing a railway commission whose powers are much more sweeping than have ever been seriously advocated for the Interstate Commerce Commission. The Canadian Railway Commission, as Professor McLean shows in his interesting article on Railway Regulation in Canada, has supreme power over rates unqualified by the superior jurisdiction of the courts, and subject only to the intervention of the cabinet.

The total figures for all the states show that there are held by banks and trust companies in the United States (excluding private banks and mutual savings banks) the enormous sum of \$1,771,900,000 in bonds, exclusive of government bonds. This sum is equal to about 17 per cent of the total deposits and is greater than the total capital of all the banks, being 124 per cent of the capital.

The Colorado Fuel & Iron company has been sued in the United States circuit court at Denver, by the Hanover-Bessemer Iron association of Pennsylvania, for \$3,000, the value of unpaid royalties on mines situated in the Hanover and Central City districts of this territory.

### His Advice.

"What do you think we had better do to stop the railroad?" asked the man who is patriotic but nervous. "Don't try to stop 'em," answered the man who is always in a hurry. "Encourage them to run faster and offer."—Washington Star.

### Advice to the Man

#### Swollen on Himself

From Chop Suey.

Don't overlook the fact, you man with the swelled top-piece and the gross chest, that there is most excellent authority which points out that you are a "mud pie," and when the baking time comes you may be placed in the oven with some more human clay and baked, baked, until your best friend wouldn't recognize in your crispy, brown crust, the same chap who had to have his hats made to order and wore vests constructed after the fashion of a congress shoe.

There is nothing constitutional about your troubles. It is purely superficial, and way down deep you are probably a pretty good sort. What you need is an antitonic. A touch of the simple life. To get out on the cinders with bare feet. A hole in the seat of your pants and a dirty dicker in place of your fur-lined coat. A pea soup diet and a corn bunk couch, with some uncertainty as to whether they will be on regular schedule time. Things have come too easy for you. Through some peculiarity of your construction, you are a success. That's good; but it's stuck in. That's bad.

All swelled up on yourself—aren't you? Come out of it—forget yourself—get back where you belong. Read Genesis III-19. You'll learn that you are made of the same kind of mud that all the balance of the tribe is. Unwrap—take off your things and get acquainted. We're all onto you, but we like you first-rate and are pleased at your success. You'd be a devilish fine fellow—if you'd only forget yourself.

### Clean Sheets Wanted

#### By Georgia Drummers

The worm has turned in Georgia. There is a popular superstition that the average drummer lives a life of luxury and ease. He is a teller of good stories, some of them not for parlor use. He has a large expense account; seldom misses a ball game or a prize fight; smokes three-for-a-quarter cigars, and wears his Sunday suit on week days. Every once in a while the head of the firm wires him a raise in salary and eventually he becomes a partner in the house.

Wake up from this lovely dream. If there lives a man who can get humor and comfort out of bed bugs, cracked crockery, poorly cooked food, missed trains, insults, too many house instructions, overwork, sleeplessness, indigestion, kicks on expense accounts, lumpy beds, sloppy meals, and days and nights in hotels that are horrors, then the really great philosopher has been discovered.

In Georgia the drummer has not asked for much. He wants a law passed providing for clean sheets. He would have each guest, when he reaches the closet assigned to him by the landlady, find virgin linen on the mattress. There is no demand for a comb and hair brush. He is willing to wait before the one towel until the proprietor of the One Price Clothing store and the keeper of the lively stable have completed their toilet. He will chew his incinerated steak with joy and tip the sad-eyed waitress like a gentleman. But he would like clean sheets; and he should have them if it is necessary to call out the troops.

### Still There's Room

#### For All Large Men

Not everybody wants the care and responsibility that goes with a salary of \$50,000 a year. Some very sensible folks are satisfied with a living, and peace and happiness, and work that counts in pleasure as well as dollars, and home life, and some time for recreation and reading, and music and flowers, and a lot of good things. That is all right; but if your ambition runs the way that bears the marks of money and power and fame, it is worth while to study the career of W. H. Marshall, who has recently been made president of the American Locomotive company, the trust with mammoth plants in half a dozen cities. He controls the destinies of thousands of men and has a responsibility greater than that which rests on the shoulders of some kings.

Mr. Marshall started at the bottom with a fair education and a lot of determination. Thousands of young fellows have started that way and lauded. He went to work for the Vanderbilts and worked for them. There are various ways of working for a man or for a corporation. One combines efficiency, loyalty, ambition, energy—subordinates every other consideration. It counts, first for the firm and later for the man. That is about all there is in Mr. Marshall's career. He used his brains; always tried to do a little more and do it a little better, and now he is at the top and still working. Simple, isn't it? The point is that success, the \$50,000 a year kind of success, is just as easily attained in this modern age as it was when able men were few. There is always room for big men.

### Is the Rearing of a

#### Czar Worth the Cost

Selected.

When one studies the infant son of the czar it is easy to wonder if any one man can be worth all the trouble and suffering he causes in the bringing up? Can he be so live as to repay society for his rearing? Magnificent is the only word that fits describes the present state of this plying babe who cares more for a drink of sweetened milk than for a basket of jewels. The most skilled physicians the world knows are never far from his crib. The very meanness of his score of cradles is studied with gold and gems. The soft garments that cover his limbs cost more than the trousseau of many a queen. His feeding bottles are of gold.

Strange how unequally destiny divides favors. The richest child in the world lives in the same country with the poorest children in the world. The most pampered infant in christendom breathes the same air with millions of other infants who are stunted in body and mind because of lack of nutriment. If the little Czarovitch Alexia lives to manhood, he will have twenty dual titles and a score of other dignities. He will be lord of over 200 palaces, with more than 20,000 servants, and his private estates of millions of acres will yield an annual income of \$10,000,000.

In those material things that it can give, destiny has certainly been good to the son of the czar; good at the expense of the millions. Do you wonder that the question is often asked: Is it worth while? Is it possible for one man, and especially a man born as emperors are born, to make humanity glad that he was given to the world?

### The Old Story.

Ant (to the Elephant): "Since I have become a socialist I do not see why, because I am smaller and weaker than you, I should continually get out of the way to let you have the middle of the road. That's final." Elephant (to the Ant): "If you don't, I'll just put my foot on you. That's flat."—Baltimore American.

### Wise Girl.

"So she married that awful Jack Rouser? Why, didn't she know that he had been blackballed by every club in town?" "Yes—that's why she took him. She thought there'd be some chance of keeping him at home evenings."—Cleveland Leader.

### CHURCH, CLUB AND SOCIAL GATHERINGS

Navajo Tribe No. 3, Improved Order of Red Men, will meet tonight at 8 o'clock in Red Men's hall.

The regular meeting of Albuquerque Lodge No. 461, B. P. O. E., will be held tonight at their lodge rooms in Elks opera house.

The Ladies Aid society of the Presbyterian church will meet with Mrs. Frank Stortz Friday afternoon instead of Thursday owing to the funeral of J. A. Summers.

The Women's Circle of the First Baptist church will hold their regular business meeting Thursday afternoon at 2:30 o'clock in the church parlor, corner of Broadway and Lead avenue. All members are urged to attend.

Temple Lodge No. 6, A. F. & A. M., will meet tomorrow afternoon at 1:30 o'clock, at Masonic hall, to attend the funeral of their late brother James A. Summers. All members are requested to be in attendance. By order of the W. M., J. C. Forger, secretary.

At the last meeting of the Non-Sectarian Benevolent society reports of amounts expended during the past month were read and these reports showed that the society had expended in its charitable work the sum of \$134.40. Officers of the society state that Albuquerque offers an exceptionally large field for charitable work for a city of its population, owing to the number of invalids who come here for the benefit of their health who are without means and are unable to perform any kind of manual labor, and that the limited means at the command of the society is hardly adequate to carry on the work as it should be done, although the merchants and others of the city have given substantial support to this really worthy organization. The present officers of the society, Mrs. H. B. Ray, president; Mrs. Alfred Grunsfeld, vice president; Mrs. Bernard Hild, treasurer; Mrs. D. H. Carns, secretary, are devoting their time and energy to the work and should be given all support possible as it is "a work of love" and utterly without recompense other than the knowledge that the dispensing of charity is the greatest of the three virtues.

Mrs. Ira D. Cassidy entertained the intimate friends of Mrs. Will Ments this afternoon at the spacious Cassidy home on North Fourth street, with a reception from 2:30 o'clock to 5:30 o'clock, in honor of Mrs. Ments. The reception was in the nature of a farewell valentine party, as Mrs. Ments leaves soon for California where she will make her future home. Heart-shaped valentines, in red and white played the chief part in the decorative scheme, making a most beautiful and unique effect. The banquet table was decorated with these valentines and in the center stood a large "Valentine pie" divided into as many parts as there were guests present. Each piece of pie contained a heart, one heart bearing upon its surface the word "Hope." The guest so fortunate as to receive the piece of pie containing this particular heart was awarded as a prize a beautiful water color painting representing a New Mexico scene, done by Mr. Cassidy, in the artistic manner that characterizes all of his paintings. Following out the valentine idea the guests' table place cards were in the shape of hearts and painted by Mr. Cassidy, bearing scenes of New Mexico, and were in themselves very unique and highly prized souvenirs of the event. The rooms throughout the house were decorated in red and white heart-shaped valentines and the whole presented a beautiful appearance. About fourteen of the intimate friends of Mrs. Ments were present as the guests of Mrs. Cassidy, and, during the course of the afternoon presented Mrs. Ments with a beautiful silver set as a slight token of the high esteem in which they hold her, and as a memento of the many friends she has made during her six years' residence in Albuquerque.

### ALBUQUERQUE DENTISTS ORGANIZE SOCIETY

REPORT THAT THE ORGANIZATION IS DENTAL TRUST IS DENIED BY MEMBERS OF PROFESSION.

A number of Albuquerque dentists met in the office of Dr. E. J. Alger, last night and organized the Albuquerque Dental society. Dr. W. N. Macbeth was elected president; Dr. L. H. Chamberlin, vice president; Dr. L. E. Levin, secretary. Dr. Alger, who has had much to do with the organization of the society, said this morning that the purpose of the organization was for the benefit of the profession. The society will meet the first Tuesday after the first Monday of every month for the discussion of topics of interest. Dr. Alger denied that the organization was a trust as reported recently, when the movement toward organization was first started.

### AN EXCELLENT EXAMPLE

J. E. Hill has returned from El Paso, his home town, and where he spent the last four months. Mr. Hill owns in the valley just below town a ranch containing 210 acres. This property he has named the Hill Wells ranch, because of the fact that it contains five wells, the last of which has not been fully finished. From one of them, having a fine water tank, he expects to water twenty acres which he will put in garden track. The other wells will, as soon as can be conveniently done, be made useful in irrigating other parts of the ranch, which will be devoted to crops suitable to the soil and climate.

Fifty acres lie so low that the floods last year denuded them of the fine growth of alfalfa. To avoid this loss again and yet receive a return from the land Mr. Hill will plant the tract to trees, which though not making an immediate return will in a few years be one of the most valuable parts of his ranch. Mr. Hill is also adding largely to his milk stock and to his large collection of fowls, and in a few years he expects to have one of the model places of this section.

Jedior Harris, whose breadth is almost equal to his length and whose generosity balances well with his 280 pounds avoirdupois, went to Santa Fe this morning after having spent a couple of days in the city calling on local liquor dealers. Mr. Harris sells liquor out of Paducah, Ky.

## VOTERS MUST PAY THEIR POLL TAX

Otherwise Attorney General Says That They May be Disfranchised at Polls.

### HADLEY ADVOCATES A \$2 TAX

Prof. Hiram Hadley, territorial superintendent of public instruction, passed through the city last night en route from Santa Fe to his home at Mesilla Park. Prof. Hadley is very much opposed to supporting the schools by licensed gambling or any other evil, and advocates a more rigid enforcement of the poll tax law. He stated last night that he had been given an opinion by Attorney General George W. Priddy, which was to the effect that persons not paying their poll tax could be disfranchised at the polls in elections where schools are concerned. Prof. Hadley is of the belief that this law will be enforced in the future, as there is a great need of increased school funds in every locality in the territory.

### MASONS WILL CONDUCT MR. SUMMERS' FUNERAL

SERVICES TO BE HELD TOMORROW AFTERNOON AT 2:30 O'CLOCK, FROM THE FAMILY RESIDENCE ON ROMA AVENUE.

Late yesterday afternoon, after a conference between officials of the local Masonic order and the immediate relatives of the deceased, James A. Summers, it was decided to hold the funeral services tomorrow afternoon at 2:30 o'clock, from the family residence, 601 Roma avenue, under the ritual of the Masonic order, members of which will attend the funeral in a body in full regalia. Rev. Du Bois, acting pastor of the Presbyterian church, will conduct the funeral services at the residence and at Fairview cemetery, where the interment will take place, the Masons will conduct the regular Masonic burial services. The pall bearers selected for the occasion are Messrs. E. B. Cristy, J. C. Baldrige, J. L. Tereza, from the Masonic fraternity; F. H. Kent, J. F. Lathrop and A. E. Walker. David A. Summers, accompanied by his wife, arrived in the city this morning to be present at the funeral ceremonies of his deceased father, James A. Summers, Jr., already here, as are the late Mr. Summers' two daughters, so that all members of the family will be present at the funeral.

### LINCOLN DAY

FORGOTTEN IN NEW TOWN, BUT WITH FLAG DAY, REMEMBERED IN THE OLD PLAZA.

To The Evening Citizen: In all the great cities, towns and hamlets of our broad land, this day has been remembered and celebrated by its patriotic men, women and children as never before. In this assertion I do not include New Mexico. In Lincoln day and Flag day, which occurred simultaneously, but little interest was manifested. We are informed by a daily newspaper that in Albuquerque (presumably the city), not a flag waved from any school, or public building, is not this shameful? Have our people already forgotten what Lincoln stood for and what the Flag symbolized? God help the nation if it ever arrives at that stage of forgetfulness of the great martyr and the Flag he loved so well. Was the poor, benighted, original plaza or town of Albuquerque, which by the grace of Uncle Sam's postal department is unfortunately known as "Old Albuquerque," the only one to honor this day? At the public school there, The Flag was at masthead and patriotic exercises were held under the supervision of the patriotic teachers. Most of the children of this school are the sons and daughters of so-called "Mexicans." Those exquisite Arizonians whose sensibilities would be injured by living in the same state with these earnest and patriotic little Americans, because of their Spanish blood, have here an object lesson that they would do well to take to their hearts; as should also those so-called "Americans" in New Mexico who allow a day like this to pass without a visible remembrance. Could we have seen the lives of the little ones harked as they "Rallied Round the Flag," and heard our country's hymns as sung by them, criticism of this portion of our citizens would certainly be hushed to some extent.

H. R. WHITING.

### PARENTS OF ABANDONED BABY FINALLY FOUND

MOTHER CONFESSES TO DESERTING HER OFF-SPRING TO MARSHAL McMILLIN.

Last evening Mrs. H. M. Roberts, nee Mary Peters, for many years previous to her marriage a domestic in several local homes, confessed to Marshal McMILLIN that the baby found on the doorstep of N. Pino's residence last Friday night, was her own. She stated that friends induced her to part with the infant in the manner employed. In company with Mrs. Mary Garcia, of South Broadway, at whose home the child was born a short time ago, and a man named Benito, Mrs. Roberts explained with an occasional laugh that she proceeded to the Pino house, where she deposited the child on the step, she said, and knocked. Then he fled. Twice since the Pino family took the child Mrs. Roberts says she has visited it, neither Mr. or Mrs. Pino knowing the history of the mother. The husband of the Roberts woman is the man who had the trouble with Manager John Belknap, of the American Lumber company, in the lumber camp and was arrested for the alleged sending of threatening letters to Belknap and subsequently released by Judge Abbott on habeas corpus proceedings. Mrs. Pino wishes to adopt the child, it is reported, but Mr. Roberts seems inclined to take possession of the baby himself as soon as he can procure sufficient money. For the present, at least, the baby will remain with Mrs. Pino.

Masquerade suits made to order; also suits to rent. Call at 1024 North Second street.

## AWFUL STABBING AFFRAY REPORTED

Reddest Kind of Gore Flowed by Gallons, as Result of Terrible Melee.

### INVALID TRANSFORMED INTO GIANT

It was really a harrowing tale, that of the fearful stabbing affray between Jerry M. Monk, H. Hilliard and W. B. Lambkin. It caused the reader's hair, each separate and individual capillary appendage, to rise and stand erect like unto the quill of the porcupine, whose rasping disposition Shakespeare portrayed. According to the esteemed morning contemporary of The Evening Citizen, whose propensity for roving and branding alleged "canards" amounts almost to a mania, Jerry M. Monk of East Iron avenue, was out last evening for gore of the reddest kind and with a knife glittering for gore of the reddest hue, rushed upon H. Hilliard at the grocery of Charles Conroy in the Highlands and with gnashing teeth tried to slash the throat of Mr. Hilliard into a million of slices, and later pounced upon W. B. Lambkin in Dr. Jekyll and Mr. Hyde manner and while still in a maniacal frenzy showed the glittering knife in a direct geometrical line with Lambkin's heart but which was thrown to one side making a ghastly cut on the wrist from which gore of the reddest kind flowed. Then Officer Kennedy was given a terrific fight by this man with murder in his eye and who with the strength of a Sampson snapped Kennedy's watch chain in twain as easily as a thousand ton pillar would have been broken. Then this Hercules was dragged away to prison to await until daylight when the terrible man would be obliged to face the charge of assault with a deadly weapon. (Terrible Horror!) To descend from the heights of romance to prosaic facts and to the truth of the matter, Jerry Monk, practically an invalid and unable to even work, drank a trifle too much liquor yesterday and entered the store of groceryman, Charles Conroy in the Highlands, met H. Hilliard, a stout man with some vile language and for his disorderly conduct was ejected from the place. No effort was made by Monk to cut Hilliard's throat. Shortly after leaving the place the companion of Monk's fell down. When a Mr. Seerist attempted to pick the fellow up Monk jumped into Seerist's arms and in the scuffle tore Seerist's trousers but did not cut him. As for Mr. Lambkin's part in the mixup it can be said that he was no where near the place where the trouble occurred. Those so brutally (?) assaulted did not attach enough importance to the accident to even appear against Monk and the police saw nothing more serious in it than a breach of the peace, with which they charged Monk. He pleaded guilty and was fined \$15.

### THE FIGHT FOR CLERKSHIP INTERESTING

AND THE TWO CANDIDATES LEADING IN THE RACE ARE C. E. NEWCOMER AND SIEGFRIED GRUNSFELD.

A telephone message from Santa Fe this afternoon says that Governor Hagerman will not make the appointment to fill the vacancy in the probate clerkship occasioned by the death of James A. Summers, until after his visit to this city and he has given signers of petitions an opportunity to present the qualifications of their favorites for the appointment. As stated yesterday the application of C. E. Newcomer for the office had received the endorsement of the county republican organization and in his behalf petitions had been circulated, which were most generally signed by the people, virtually giving their endorsement to his appointment. This paper, in connection with the above announcement, stated that Mr. Newcomer would make a good successor of the deceased, as he was familiar with the books, a first class accountant and bookkeeper, and would keep the office up to its present excellent standard. Yesterday afternoon another strong candidate loomed up on the horizon in the person of Siegfried Grunfeld, who claims that he has the endorsement of the county commissioners, a majority of the court house officials and several petitions, with numerous names thereon, asking that he be appointed. This morning Mrs. Ida L. Plummer, whose name was among those seeking the lucrative office, called on The Citizen and requested that a notice be published to the effect that she was not a candidate.

With this withdrawal and the avowed candidacy of Messrs. Newcomer and Grunfeld, the other candidates mentioned are A. J. Crawford, Nestor Montoya, Tomas Werner and Melville Summers, and before the day is over there may be others.

### WILL ERECT BUSINESS BLOCK IN HIGHLANDS

Late yesterday afternoon Joshua S. Reynolds, president of the First National bank, signed a contract with Builder J. W. McQuade, for the immediate erection of a three-story business block on the site of the old gas plant, at the corner of Railroad avenue and Broadway, which will have a frontage of seventy-five feet on Railroad avenue and a depth of thirty feet on Broadway. It will be modern in every respect and the two upper floors will be devoted to offices while the ground floor will be used as storerooms. The corner store room of the proposed new building will be occupied when completed by the Highland Pharmacy, which is to be a branch of the Alvarado Pharmacy. Although there are a few small stores in the Highlands this will be the first building of any size to be erected for business purposes east of the Santa Fe tracks and points to the future development of the Highlands, which already has the most thickly populated residential portion of the city, into something of a business district.

MASK BALL! MASK BALL! TO-NIGHT, AT COLOMBO HALL, GOOD FLOOR, GOOD MUSIC, GOOD PRIZES, GENTLEMEN 75c, LADIES FREE.

## BANKERS BEGIN TO ARRIVE IN CITY

Convention Tomorrow Morning--Addresses of Welcome Will be Made.

### TO ATTEND HAGERMAN RECEPTION

Bankers from all parts of New Mexico will begin to arrive in the city this evening and by tomorrow morning representatives from about every town in the territory will be present. For two days the financiers will hold forth in the Duke City, Thursday and Friday, the convention being for the purpose of organizing the New Mexico Bankers' association. The session will be called to order tomorrow morning at 10 o'clock by C. N. Blackwell, following which Rev. A. G. Harrison, rector of the St. John's Episcopal church will offer prayer. The address of welcome will be delivered by Mayor Frank McKee. In his characteristic manner Mayor McKee will in behalf of the people of Albuquerque extend to those present the hospitality of the Duke City and express the pleasure such as the presence of such distinguished visitors has caused. The keys of New Mexico's metropolis will then be turned over to the visitors and all requested to use them sparingly. W. S. Hopewell, president of the Commercial club, will then voice the welcome of the club and its pleasure at the visit of the bankers and the great results to be derived by the formation of the territorial association. O. N. Marron's address of welcome on behalf of the bankers will likewise be an eloquent outburst of joy such as those in whose behalf Mr. Marron will speak, feel at the presence of their guests, and the far reaching good the organization to be perfected will result in. The business session will follow the addresses of welcome, to include the selecting of a temporary chairman and secretary, the appointment of committee to draft the order of business, and a constitution and by-laws. When this bit of formality has been done an adjournment will be taken until 2 p. m. for the hour of luncheon. Immediately upon reconvening, the committees on order of business and constitution and by-laws will report and the work of both committees accepted. Then will follow the nomination and election of permanent officers and their installation. R. J. Pallen, of Santa Fe, president of the First National bank, will deliver an address on live issues pertaining to banking and bankers which will be followed by a symposium on practical banking questions, open to all delegates for five minute addresses. In the evening the delegates will unite with the Commercial club in making the reception to be tendered to Governor Hagerman an event not soon to be forgotten. The convention will be called to order Friday morning by the president, Ralph Jacob H. Kaplan will offer prayer, and Governor Hagerman will make an address which will be one of the features of the convention. Another symposium on practical banking questions will then take place the time limit of each delegate being confined to five minutes. The time and place of the next convention will be decided upon and all unfinished business transacted. The afternoon will be devoted to drives about the city and in the evening a banquet will be served at the Alvarado. The committees are as follows: Finance and Arrangement--W. S. Strickler, chairman; M. W. Flournoy and J. B. Herd; Banquet Committee--W. H. Gilgenwater, chairman; Frank McKee, Roy McDonald and W. J. Johnson; Entertainment Committee--R. M. Merritt, chairman; N. Rapier and A. R. Frost; Commercial Club Executive Committee--W. S. Hopewell, chairman; C. E. Newcomer, W. S. Strickler, M. W. Flournoy, O. N. Marron, Noa Hild, Wallace Hesseiden, G. L. Brooks, and J. C. Baldrige.

### OTHER CITIES SUFFER AS DOES ALBUQUERQUE

The following article from the Tucson, Arizona, Citizen might have been written about Albuquerque--but it wasn't. The article quotes N. E. Plummer, president of the chamber of commerce, as follows: "A disgrace of our city. That is what Congress street and Stone avenue, our main business streets, are today," remarked President N. E. Plummer, of the Tucson chamber of commerce, this morning. "Why, just a few inches deep and sloping every few feet. It certainly reflects no credit on Tucson to have streets like this, even in the residence section to say nothing of the business section. "It would not be a difficult matter to macadamize our business streets, I have heard that the council contemplates this move. It would certainly meet with the approval of every progressive citizen. "There is plenty of rock to be had on the hills just west of the city. A rock crusher might be borrowed and then with chain saw labor the streets could be made a credit to the town and they would be dry and passable after a hard rain."

### EPRI POSTOFFICE NOT MUCH SOUGHT AFTER

Dr. Thomas M. Michaels, whose appointment as postmaster at Epris, N. M., was announced in The Evening Citizen's Washington specials Tuesday, spent yesterday in the city, and left for Santa Fe this morning. The news conveyed to him by The Citizen was the first intimation Dr. Michaels had of his appointment, which was a complete surprise. In speaking of the matter this morning, the doctor said that some weeks ago, when a postoffice was first established at Epris, the person appointed as postmaster refused to accept the office. He was at Epris at the time, officiating as field surgeon for Grant Brothers, graders on the Santa Fe cut-off. When the office was refused by the first appointee, he stated that he would take it. His appointment was the result. One hundred pairs of boy's knee pants, worth 50c and 75c, special, 25c per pair. Simon Stern, the Railroad avenue clothing.

### Opening Announcement.

You are cordially invited to call at the Brunswick, 107 South Second street, in the Barnett building, where I will open a High Class Pool and Billiard Parlor next week. Extending a cordial invitation to all. I remain yours, M. GUSSAROFF.

GOOD MUSIC! GOOD MUSIC! AT THE MASK BALL TONIGHT, AT COLOMBO HALL, GENTLEMEN 75c, LADIES FREE.

## THE GOVERNOR ARRIVES TONIGHT

Will be Met at Depot by Band. Will Dine With the Committee.

### COMMERCIAL CLUB IS DECORATED

All members of the Governor Hagerman reception committee are requested to be at the depot upon the arrival of the train bearing the governor and the escorting committee, or failing in this, to be at the Alvarado as soon thereafter as possible. Preparations within the rooms of the Commercial club building for the reception of Governor Hagerman tomorrow morning were completed today. The "piece de resistance" of the decorations are American flags which are draped everywhere. Over the door of the building is a large star made of incandescent lights. On each side of the stairway leading to the rooms on the second floor "Old Glory" is draped in effective manner. Throughout the rooms on the first floor, where the reception will be held flags are everywhere. In connection with the decorations are about 400 small colored incandescent lights, strung hither and thither through the rooms. The electric light wires are covered with imitation holly leaves and bunces of artificial grapes hang at intervals along the wires. Altogether it presents a beautiful effect. The committee that will escort the governor from Santa Fe to this city left Albuquerque this morning in a Pullman sleeper and arrived at Santa Fe at noon. At 2 o'clock this committee will be met by the reception committee. The First Regiment band will be at the depot as will Col. John Barradale, chairman of the committee on music and military, who will look after the firing of the governor's salute of seventeen guns by the battery. The reception committee will then escort the governor to the Alvarado where an informal dinner will be served. The rest of the evening will then be spent as the governor sees fit. Tomorrow's program for the entertainment of the governor will include an automobile ride around the city and a visit to the University of New Mexico, where special arrangements have been made for an hour's entertainment of the governor. At noon tomorrow the entertainment committee will again lunch with the governor at the Alvarado after which a committee composed of seven representative citizens will meet the governor in the lobby, and between the hours of 2:30 p. m. and 3:30 p. m., an informal reception will be held, at which the governor will be introduced to all of Albuquerque's business men who call. The governor will dine with several friends in the evening after which a committee will escort him to the rooms of the Commercial club, where, beginning promptly at 8 o'clock, the reception will be held. Friday the governor will spend the day in Albuquerque and in the morning of that day will address the bankers' convention, attending the bankers' banquet that night, returning to Santa Fe Saturday morning.

### JOE GANS PASSED THROUGH, EN ROUTE TO 'FRISCO

JIMMY BRITT HAS WAIVED THE COLOR LINE AND WILL GIVE THEM A CHANCE--THEY NEED THE MONEY.

Joe Gans, the smoked Baltimorean welterweight, who is soon to put five gloves on with Jimmy Britt at San Francisco, passed through the city this forenoon on the California limited en route to the coast. Gans alighted on the platform to find his old friend, J. F. Mitchell, mixerologist at the Alvarado waiting to meet him. The Gans-Britt fight will probably be the next really important fight to come off in the Pacific coast. The arrangements have not been fully completed and the articles of agreement have not been signed, but as both fighters are short of ready money, there is little doubt but what the fight will be pulled off. The native son at first refused to fight the negro, but has lately waived the color line.

## FAVORITISM IN RAILROAD RATES

At last the secret is out (maybe). The man who fixes freight rates is a billiard fiend. Here is the clue: Let A represent St. Louis and B represent Louisville, Ky., and C represent Covington, Tenn. Let us try from A to strike the object ball at C with the cue ball, a shipment of grain. Not caring to make a fancy shot, you would poke straight from A to hit the ball at C. It would cost you 20 cents. But the festive railroads make it cheaper for you to make a cushion shot—A to B (6 cents) and B to C (12 cents)—at a cost of 18 cents. And yet they scream about confiscation of property every time rate legislation is mentioned.

## RAILROAD TOPICS

Santa Fe Watch Inspector, Arthur Everett, went to Lamy this morning on official business.

C. W. Cook, Jr., traveling freight agent for the Santa Fe, is in the city on business with local shippers.

C. E. Perry, general foreman of the Santa Fe shops at Las Vegas, was in the city last night, having accompanied his sisters, the Misses Bessie and Margaret Perry, who were en route to Los Angeles for a visit with friends and relatives.

C. W. Miller, connected with the Baltimore & Ohio railroad, at Ashland, Ohio, with his family, was a visitor in Albuquerque for a few hours last evening, having stopped over en route to points in California for a visit with friends.

A. S. Van Nest, an engineer for the Pinta Gas company, which supplies Pullman sleepers with light, arrived in the city last night from his headquarters in Chicago and will spend a day here looking over the local plant, in charge of J. T. Peterson.

S. B. Coen, chief car inspector of the Santa Fe here, and August Zens, an engineer, left last night for El Paso, where they go to testify in a suit for damages brought by L. B. Smith, formerly a brakeman for the Santa Fe in New Mexico, who lost a leg while in the employ of the company about one year ago.

The Roswell Register says: The Albuquerque Citizen is publishing a series of pictures that are worth while. They are blackboard illustrations of the injustices of railroad rates all over the United States. They show the rottenness of the railroad rate combination in all its unfairness. The Register only wishes it were equipped to reproduce them.

Mr. and Mrs. Thomas Scully, of La Junta, arrived in the city last night, and will make Albuquerque their future home. Mr. Scully, who formerly was foreman of the store rooms of the Santa Fe in La Junta, will become division storekeeper here upon the removal of Storekeeper Custer's office to San Bernardino, which will probably take place about March 1. Mrs. Scully is a daughter of Colonel C. C. Minnis, 213 South Arno street, this city.

### THE STATE WINS

**GEORGIA TAX CASE.** The supreme court of Georgia has decided in favor of the suit of the Central railroad of Georgia and the Georgia railroad against the state comptroller to enjoin him from the collection of back taxes alleged to be due by these systems for ownership in the Western of Alabama railroad. The Georgia railroad will pay about \$70,000 on taxes extending back to 1885, while the Central will pay only for the year 1900.

Last evening the patrons of the Santa Fe reading rooms were treated to some excellent vocal music, as rendered by Misses Emma H. Scully, and Pearl Thomas, of Peoria, Ill., and Eloise Morgan, of De Kalb, Ill., who are making a tour of the Santa Fe reading rooms, and will continue on to the coast, under the personal direction of Miss Alma Busser, daughter of the superintendent of Santa Fe reading rooms in the west. A large number of railroad men and others as well, were present last evening and thoroughly enjoyed the efforts of the young ladies, which were excellent.

Articles of incorporation have been filed in Colorado by representatives of the Santa Fe for a \$100,000 company to engage at Trinidad in the manufacture of ice, to buy, sell and deal in milk, butter, fish and all food prod-

thracite this year will approach the unprecedented demand during 1905. The high tide of earnings for the anthracite carriers was probably reached last year. It is likely also that the anthracite market values for the anthracite stocks have been reached until conditions arise which will renew the activity of the past year in the anthracite trade.

Ben Williams, one of the best men in the secret service of the Santa Fe railway, is here today on business connected with his department. Accompanied by Sheriff Romero, of Las Vegas, Mr. Williams has but recently returned from a "little chase" after a switchman, named O. E. Coffin. The latter was captured at Torre Hauto, Ind., and is now in the San Miguel county jail. Coffin, in August of last year, was a switchman in the Las Vegas yards; he was fired, and had 66 cents in wages coming to him. The cashier made a mistake and gave Coffin a check for \$56. The switchman discovered the error, but was not honest enough to so inform the cashier. He "hiked" away from Las Vegas, and now has to face a trial.

### SPECIAL FREIGHT RATES

**PREVAIL IN SPAIN.** The Spanish government has granted railway companies the right to make special freight rates over certain sections of their systems, the proposed rates to be first submitted to the ministry of commerce. The commercial interests then have fifteen days to record a protest. If not vetoed by the minister, the special rates may be brought into force in sixty days. Publicity is required in the Madrid Gazette.

### PRESIDENT RIPLEY FEARS RATE BILL

**HE, OF THE SANTA FE, SAYS THERE IS POSSIBILITY OF TOO MUCH POLITICS IF MEASURE BECOMES LAW.**

E. P. Ripley, president of the Santa Fe, arrived in Los Angeles today. When questioned he said the Hepburn bill did not please him to a great extent and asserted that its passage would place the power of administering the rate affairs of great railroad corporations into the hands of a "political body," says the Los Angeles Express.

"I hope to see the United States senate modify the provisions of the bill," Mr. Ripley said. "In what respect," he was asked. "Well, I do not think it safe to place the power to make railroad rates in the hands of a political body, even temporarily. There is a possibility of too much politics in the proposed bill," he added. "However, I know nothing of the status of affairs in that regard. I haven't been near Washington for quite a while."

Mr. Ripley then said that the Santa Fe company would expend more than \$15,000,000 in improvements in the present fiscal year. "We have not expended less than \$5,000,000 annually for several years in improving our lines," he said. "The work now under way is mostly in the way of better ballast and new rolling stock."

The work in connection with the Texico cut-off will be finished by July 1, he said. The operation of the passenger trains of the new tracks will place Los Angeles nearer to Chicago than any other city on the coast by several hours. The time between Chicago and Los Angeles will be reduced from six to eight hours, the cut-off saving more than 200 miles' travel over the present route. The improvement includes reduction in grades.

Mr. Ripley is in Los Angeles for the week, "partly on business." In order to enjoy his vacation here to the fullest extent Mr. Ripley put in the first day in conference with officials of this division.

### FORTUNATE ESCAPE FROM BAD WRECK

**PASSENGER ENGINE LEFT THE RAILS AND RAN 100 YARDS ON TIES.**

The passengers on the first section of No. 10, the west-bound passenger, had a most fortunate escape this forenoon, says the Tucson Citizen.

But for the rarest good fortune, the train would have been ditched and a bad wreck would have resulted. The passengers did not learn of the danger until it was all past. The train, which carries a number of sleepers, was bowling along at a good rate of speed beyond Pantano. As the train was a heavy one, two engines were used to take it to Mesquite Summit. The front engine suddenly, without apparent cause, jumped the track.

The engine bowled along over the ties, making big dents and swaying violently. Both engineers, with quick

**For Sprains  
Cuts & Bruises  
Sloan's  
Liniment**  
Price 25¢ 50¢ & 1.00

presence of mind, applied the air and brought the train to a standstill after a hundred yards had been covered with one engine running on the ties. That the derailed engine did not turn over and cause a bad wreck is considered almost miraculous.

When the train was brought to a stop the passengers got off to learn what the trouble was and then they found that a bad wreck had been narrowly averted.

Without the aid of the wrecking crew, the derailed engine was pulled onto the track again. The cars were set back a short distance and then by the use of frogs and the other engine, the derailed locomotive was gotten onto the track again.

The work required but fifteen minutes. Then the passenger train proceeded on its way and arrived at Benson almost on time.

## Eat What You Like

Don't Starve or Diet, but Use Mi-na, and Cure Your Stomach Troubles.

The average treatment of stomach troubles consists of a rigid diet list, which often half starves the patient. Of course it would be foolish for anyone who knows that some foods are positively harmful and poisonous, to continue eating them, even while following the Mi-na treatment, but in ordinary cases of stomach troubles it is not necessary to starve or diet if Mi-na is faithfully used, a tablet before each meal.

The scientific remedy for the cure of stomach troubles, acts upon the whole digestive system, and strengthens the organs so that they are able to digest any food that is eaten, without fear of distress.

J. H. O'Reilly & Co. have so much confidence in the power of Mi-na to cure stomach troubles and resulting ills, that they give a guarantee with every fifty-cent box to refund the money unless it cures.

**PROPOSALS FOR BARN.** Department of the Interior, Office of Indian Affairs, Washington, D. C., February 5, 1906. Sealed proposals, endorsed "Proposals for Barn, Zuni School, New Mexico," and addressed to the Commissioner of Indian Affairs, Washington, D. C., will be received at the Indian office until 2 o'clock a. m., March 20, 1906, for furnishing and delivering the materials and labor necessary to construct and complete a stone barn at the Zuni Indian school, New Mexico, in strict accordance with plans and specifications and instructions to bidders, which may be examined at this office, the offices of the Citizen, Albuquerque, N. M.; Improvement Bulletin, Minneapolis, Minn.; American Contractor, Chicago, Ill.; Builders' Trades Exchanges at St. Paul, Minn.; Minneapolis, Minn.; Milwaukee, Wis., and Omaha, Neb.; the Northwestern Manufacturers' Association, St. Paul, Minn.; the U. S. ### LOCAL AND PERSONAL

#### DAY AND WEATHER.

Generally fair tonight and Thursday; warmer Thursday.

Sun rose at 6:50 and will set at 5:39, making the sun light 10 hours and 49 minutes long. The moon will rise at 11:43; and tomorrow it will enter upon its last quarter. The day has been bright, warm and delicious. St. Valentine never had a finer one in Albuquerque. General Sherman, who did more to end the Civil war than any other general, Grant only excepted, died on this day in 1891.

Mrs. Mack Patterson of Trinidad is in the city on a visit to friends.

A. Simpler, the South Second street shoe dealer, is complaining these days with an attack of the grip.

J. V. Key, the chief engineer in charge of the Belen-Texas cut-off, passed through this city this morning.

Mrs. Solomon Luna of Los Lunas came in from the south this morning, and will remain until after the reception to Governor Hagerman.

Snow fell at Santa Fe Saturday, Sunday, Monday and Tuesday and was still coming down beautifully last night as the late train left for Albuquerque.

F. J. Houston, 295 West Railroad avenue, is selling bicycles at actual cost for the next ten days. He has also reduced the price on bicycle repairing and bicycle sundries.

Dr. T. H. Dabney, who with Mrs. Dabney and children reside here, will soon go to Estancia and open a drug store there. He recently filed on a homestead claim near Estancia.

Mrs. Ida L. Plummer, deputy probate clerk, wishes The Evening Citizen to state that she is not a candidate for the appointment as clerk, vice the death of James A. Summers.

Charles Thomas, a stone mason of this city, left last night for Bland, where he goes to superintend the installing of a boiler for the mill of the Keystone Mining & Milling company.

E. L. Washburn, the well known clothing merchant who has been back in Chicago purchasing spring and summer stocks of goods, returned to the city on the delayed passenger train this morning.

Frank Hall, the well known hardware merchant and plumber of Winslow, is here on a visit to his sister, Mrs. C. M. Forsaker. Mr. Hall will probably return to Winslow tomorrow night.

The funeral of Frank Durham, the colored man who died yesterday afternoon at 12:40 o'clock, took place this afternoon at 2:30 o'clock from the African Methodist Episcopal church. The interment occurred in Fairview cemetery.

A young man named Ed. Keller, is carrying around a badly crippled right hand. He is employed at the American Lumber company plant, and on last Saturday got his hand in some machinery, with the result that the thumb and index finger were badly injured.

Dr. W. G. Shadrack has returned from Chicago, to which city he accompanied one of his patients, Miss Adeline Allen, daughter of E. C. Allen, formerly of this city. He reports that his young patient benefited from the journey and is now on the high road to good health.

C. E. Starr, the job printer, is suffering with his left eye on the "bum." He denies that any local pugilist landed him a blow, but he does say that, on observing the eclipse the other evening, a meteor as large as a pin-point fell and struck him on the eye, thus putting that optic on the bum proper.

The Imperial Laundry has well started on its big improvements. Stone has been hauled to the lot for the foundation, and masons will be at work tomorrow. The front of the old building has been moved back a few feet, and a "false wall" put in so as not to hamper the workmen when they get at work in dead earnest.

Ellen Hartling, the ten-year-old daughter of Mr. and Mrs. J. W. Hartling, was the victim of a very serious accident the other day. While playing in the yard with several of the little neighbors, one of the boys in handling the ax in some manner brought it down on her foot almost severing four toes. The Hartling family now reside at Estancia. They formerly resided in this city.

Last evening as Miss Ora Wagoner and Miss Mabel Rutledge were driving over the viaduct the horse became unmanageable and getting his foot over the buggy shaft began kicking. The young ladies did what to them seemed the wisest thing and jumped to the ground. Miss Rutledge escaped uninjured but Miss Wagoner was not so fortunate. In some manner her feet became entangled in the lines and she fell heavily to the ground, sustaining painful though not serious bruises and

a sprained ankle. The horse ran on to Railroad avenue where he was stopped. The buggy and harness was badly demolished.

About seventy members of Company G, of the National Guards of New Mexico, were out for drill duty last night and the company in spite of the fact that there are a number of "raw recruits" enlisted is fast being whipped into good drilling shape by Captain Ruppe. Six new recruits were sworn in last night, among them being a lugger who has seen duty with the volunteer army in the Philippines under Major Lawton. Next month the company will hold a competitive drill at which time four sergeants and four corporals will be chosen to fill vacancies. Kahl uniforms are to be issued to the members soon.

Prof. Charles R. Keyes of Socorro, president of the School of Mines, was in the city last evening for a short time en route home from a short visit in Santa Fe. Mr. Keyes stated that Socorro had been having some bad weather of late, but that while it was disagreeable for the time being it eventually meant good fortune for the farmers as the outlook for plenty of water in the spring is excellent. He also stated that conditions at the School of Mines were the very best and that everything pertaining to the school was moving along satisfactorily.

Dr. John Roger Haynes, of El Vado, Rio Arriba county, is in the city, and will probably return home tomorrow morning, accompanied by Mrs. Haynes and child, who have been here the past few weeks visiting her parents, Sheriff and Mrs. Perfecto Arriaga. The sheriff has been seriously ill at St. Joseph's hospital with pneumonia, but he is reported today as improving and his attending physician gives encouragement to his many friends that he has passed the danger point.

Hon. Stevan Canovan, assessor of McKinley county, and one of the large coal operators of the Gallup soft coal district, is spending a few days in the city. Mr. Canovan says that all of the mines of the Gallup district are working steadily and getting out a large amount of coal. The strike of soft coal miners, which is expected to take place on April 1, will not affect the McKinley county mines, as no union miners are employed in the district.

A horse attached to a carriage belonging to W. H. Hahn's coal yard became frightened at the minstrel parade this afternoon and though tied to a post on Third street near Railroad avenue, broke loose and swinging the shafts wildly, ran into and smashed against a telephone pole and badly wrecked it.

Two boys named Capps and Cecil Phillips, the latter a son of Dr. Phillips, who disappeared from Albuquerque some time ago, are under arrest for stealing a rifle belonging to a boy named John, and which they pawned at H. Benjamin & Company's store on Gold avenue.

Richards & Pringle's Georgia minstrel troupe arrived in the city late this afternoon and paraded through the business section of the city shortly before 4 o'clock.

MARYLAND'S GUARDS WILL HOLD ANNUAL SESSION  
Baltimore, Md., Feb. 14.—The second annual convention of the Maryland National Guard opened here at the Fourth Regiment Armory today and will remain in session two days. As the state allowed transportation to all officers on the active list, the attendance at the opening meeting was unusually large. The formal opening session will be this evening, when addresses will be delivered by Captain G. Hutcheson of the general staff, United States army, and by Col. Edward E. Britton of the New York National Guard. Among the speakers on the program for tomorrow are Captain William Baird, U. S. A. (retired), and J. P. J. Archibald, who was a war correspondent with the Russian army in the late war.

Why waste your valuable time on darning stockings? Buy the Black Cat hosiery. They outwear any other brand on the market, look neat and fit well. We have all sizes, for men, women and children, and prices run from 15c to 50c per pair. C. May's shoe store, 314 West Railroad avenue.

Hon. H. B. Ferguson will respond to the toast "The Southern States" at the Banquet of States to be given at the Congregational church February 20th.

### ACCUSED FORGER IS AT EL PASO

Authorities There Have Been Requested to Arrest and Hold Y. L. McGee.

WIFE DID NOT GO TO TEXAS

Y. L. McGee, who it is alleged has swindled a score or more local merchants out of sums of money ranging from \$10 to \$75, has been traced to El Paso and Constable James Smith has notified the authorities there to arrest and hold McGee until he can reach there and take him in charge. McGee secured two or three hundred dollars here by means of forged checks.

Jaffa Brothers, with whom McGee traded, it would appear are also numbered among McGee's list of victims for this firm has, it is said, sworn out a warrant for his arrest on the charge of forgery.

Mrs. McGee purchased a ticket to El Paso last evening. For some mysterious reason she returned the ticket shortly before train time and secured the money on it. The supposition is that she tumbled next to the fact that by going to El Paso she would at once put the authorities next to her husband's hiding place.

It is understood that little mercy will be shown McGee and that each person he passed the "queer" paper on will individually prosecute him and the grand jury will consequently indict the man on a dozen or more counts. It convicted and sentenced on each indictment McGee will spend about the remainder of his life behind the prison bars.

Up until a late hour this afternoon Constable Smith had received no message from El Paso.

The Six o'clock club of the Methodist Episcopal church will give a study and banquet Friday evening at 7:30 o'clock. M. E. Hickey is the speaker. Dr. Harrison will preside. Topic, "Unequal Taxation." Admission, 25 cents.

**CORDOVA RESTAURANT.**  
First class table board and nice clean rooms, \$5.50 per week, for cash only. 315 South First street.
