**-BRIEF WIRINGS-**

**THE CHILI AFFAIR.**

The Chilian Saucy to Uncle Sam—The Situation May Become Serious.

SANTIAGO, Chili, Oct. 30.—The Chilian government has replied to Minister Egan's demand for an explanation of the recent attack upon American sailors. The reply is couched in very strong language, and it is understood that it amounts to a refusal to accept the responsibility for the affair. The state department at Washington has been notified. Minister Egan, Commander Schley and Consul McGreevey are in consultation together and it is thought that decisive action will be taken soon. The state department's orders in reference to the matter are very strong. The intendat at Valparaiso has refused to guarantee the safety to market boats coming to that city early in the morning from the United States war ship Baltimore, or the safety of officers of that vessel coming ashore at night. There is a practical boycott on the Baltimore. No American sailors are allowed on shore.

Washington, Oct. 30.—Secretary Blaine and Tracy held several conferences with the president yesterday afternoon respecting the Chilian affair. Soon after 6 o'clock an official statement of the contents of Mr. Egan's telegram was made public. It read as follows: "The department of state received this morning a telegram from Minister Egan dated Santiago, October 28, in which he gives the following as a reply of the Chilian government to the president's telegram of October 22 asking reparation for the recent murder of American sailors in the streets of Valparaiso: minister of foreign affairs replies that the government of the United States formulates demands and advances threats that, without being cast back with acrimony, are not acceptable nor could they be accepted in the present case or in any other of like nature. He does not doubt the sincerity, rectitude or expertise of the investigation on board the Baltimore, but will recognize only the jurisdiction and authority of his own country to judge and punish the guilty in Chilian territory. He says the administrative and judicial authorities have been investigating affairs; that a judicial investigation under Chilian law is proceeding and that the time has not yet arrived to make known the results. When that time comes he will communicate the result, although he does not recognize any other authority competent to judge criminal cases than that established by the Chilian people. Until the time arrives to disclose the result of the investigation he can not admit that the disturbances in Valparaiso or the silence of his department should appear as an expression of unfriendliness toward the government of the United States or might put in peril the friendly relation between the two countries."

What will be the nature of Secretary Blaine's reply is altogether a matter of conjecture. The most plausible theory advanced is that the suggestion courteously and diplomatically conveyed in acting Secretary Wharton's dispatch that this government had no doubt an investigation would be made and reparation afforded, will now be renewed in the shape of a stern and formal demand for some immediate assurance of proper action on the part of the junta, and if these are not forthcoming Minister Egan will take passage on the Baltimore for the United States, thus severing diplomatic relations between the United States and Chili.

**A SPICY FOREIGN BUDGET.**  
Frank of a Mayor—Drunkness in England—Peter Morton's Escape.

NEW YORK, Oct. 30.—A London dispatch says: The mayor of Lemours, in France, has been compelled to resign his position as a result of the indignation created by his action in prosecuting a number of young women of the town who had infringed on an edict issued by him forbidding them to wear white dresses and veils on the occasion of the feast of the Annunciation in a neighboring town. The girls, twenty in number, declined to be dictated by the mayor, Chion Duclouet,

and boldly donning their virginal attire, they marched off to the church taking with them a religious statue and a banner. The mayor instructed the police officers of the town to take them in and then caused summonses to be issued against them and against the vicar of the parish for transgressing his authority. The judge de paix promptly threw the cases out of court, and now the mayor has been compelled to resign.

A parliamentary return of the total number of convictions for drunkenness during 1890 in England and Wales was issued to-day. It shows that 123,030 persons were convicted out of an estimated population of 29,001,018. There were 162,786 convictions in England and 10,250 in Wales. No less than 15,942 were convicted for being drunk on Sundays between noon and midnight.

In the city of London the convictions numbered 23,312, or nearly 450 for every week in the year. Among the counties Lancaster heads the list with 13,000, Durham with 11,000 and Yorkshire with 10,000.

Peter Morton, a young man of excellent family in Glasgow, but who had been leading a gay life for some time, died in the city hospital of that place to-day. About two weeks ago, while on a tour, he stripped himself of every fragment of clothing and climbed over the garden wall of a ladies' seminary while the scholars were taking their evening recreation. Despite the fact that he shouted again and again that he had just been sent from the garden of Eden the scholars fled in dismay and in their place appeared a burly janitor who cracked the intruder's skull with a bar of iron. A patrolman now stationed outside of the seminary while the morning and evening recreations are in progress.

A future queen is now in school in London just like any other little girl. The royal lady in question is the Princess Kahiiani Victoria, heiress presumptive to the Hawaiian throne. Mr. Cleghorn, her father, who brought her over, has gone back to Honolulu. He does not propose returning until 1893.

Little Joseph Scott's excuse that he set fire to a haystack valued at \$600 to warm the hands of his little 6-year-old sister did not convince the Castle Eden magistrates yesterday. On the contrary they made it worse for Joseph by ordering twelve stripes with the rod in addition to one month of one of her majesty's prisons. Little Joseph will be 12 years old Christmas.

Ten cadets of the royal training ship Britannia have been dismissed in disgrace for bullying and fighting new recruits, and extorting money from them. All of them belong to high families.

**CLIMATOLOGISTS IN SESSION**  
Large Attendance at the Meeting of the American Health Resort Association.

CHICAGO, Oct. 28.—The first public meeting of the American Health Resort Association held last night at the Grand Pacific hotel was largely attended. The association is composed of the leading physicians of the United States, who undertake the collection of reliable data concerning climate and its effects on certain diseases, the special merits of various health resorts and the value of mineral waters. Dr. T. C. Duncan, president, in his opening address explained the objects of the association and sent out agents to make thorough scientific and unprejudiced investigations. Dr. Apertin, of Paris, the accredited representative of the French government to find a suitable climate for consumptives, reported that this had been discovered at Las Cruces, N. M. Doctors J. F. Danter, of Toronto; W. P. Roberts, of Boston; W. E. Rogers, of Santa Fe; Seward, of New York, and Hartley, of California, united in stating that all of New Mexico, western Texas, southern Colorado and southwestern Kansas had the health giving climate possessed by no other scope upon the earth and of special value for persons with weak lungs.

**The Hopkins Millions.**  
SALEM, Mass., Oct. 30.—Although it will be fully eight months before the great legal battle over the estate of the late Mrs. Mark Hopkins can be inaugurated it is absolutely and definitely certain that no compromise will be attempted in the meantime by either Mr. Searies or Timothy Hopkins. The time for compromise, says one of those intimately connected with the case, has long since passed. Timothy Hopkins could have had \$5,000,000 out of the \$60,000,000 a month ago, now he can have \$1,000,000, even if Mr. Searies is compelled to see the fabulous estate melt away for lawyers fees until nothing is left. Friends of Timothy on the other hand say that he wouldn't accept even \$20,000,000 to cease the fight on the will. He will take \$30,000,000 or nothing. He has plenty of money of his own, but apart from this he has been offered several million dollars in order to make the fight.

**Sunday Observance.**  
NEW YORK, Oct. 30.—In a letter to the Rev. Dr. J. H. Knowles, general secretary of the American Sabbath union, Fred. D. Grant, United States minister to Austria, gives some interesting information relative to the prohibitory Sunday legislation enforced in that country. Mr. Grant says that the publication of Sunday evening and Monday morning newspapers is prohibited by a general law against all work on Sundays and holidays, and that the law is never evaded. Under the provisions of this law Sunday rest must not begin later than 6 o'clock on Sunday morning, and must continue for twenty-four hours, counting from the moment of its commencement. All industrial work must be stopped, and the only exemptions recognized are for the cleaning and repairing to be done in work shops and to machinery.

**The Big Fair.**  
DALLAS, Texas, Oct. 30.—This is World's fair day at the Texas State fair, and it is being participated in by a distinguished party from the east, including

vice-President Potter Palmer, Mrs. Potter Palmer, President of the Board of Lady Managers, Secretary John T. Dickinson, of the national commission, Lady Manager Bagley, wife of ex-governor Bagley, of Michigan, and several others.

**REDUCTION OF ORES REVOLUTIONIZED.**  
A Simple Process for Handling Refractory Ores of Moment to Local Mining Men.

George H. Chick is a Kansas City metallurgist who is known to a great many business men throughout New Mexico, especially to those interested in mines. He was a visitor in Santa Fe two years ago and spent some time here looking into the mines in this locality and much of his attention was devoted to the consideration of low grade refractory ores which abound throughout the mineral regions of Santa Fe county. At that time Mr. Chick was working on a simplified process for extracting the mineral from such ores. He was impressed with the fact, he said, that for fifty years the mining people of this and all other gold and silver bearing countries of the world have been seeking some process whereby the millions of tons of ore known as base ores, that which contains a reasonable assay of the precious metals and at the same time would not pay for the working, could be handled at a profit.

Now comes the cheering news from Kansas City that Mr. Chick has signally triumphed in his work and the Chick short-cut smelting and refining system has just been thoroughly tested and demonstrated to be a success. A 200 ton smelter built after this plan is in operation at Pittsburg, Kas., and the Daily Star, of that city, has a four column article detailing the result of the first day's run. It says the ores treated were of the most refractory found in the Rocky mountains, and known as third grade ores, never before treated at a profit by any smelting system. Seven bricks of gold and silver bullion were produced which weighed even thirty pounds, or 480 ounces, valued at about \$4,000. The miners of Santa Fe county can well afford to investigate the claims of this new process.

**TERRITORIAL TIPS.**  
Horse thieves are at work about Albuquerque.

Jack King, the brakeman who was shot at Las Vegas is rapidly recovering.

W. M. Praeger is said to have bought the Zeigler corner at Albuquerque for \$42,000.

The Anthracite Coal company of Cerillos has now in successful operation their new and latest improved machinery for breaking, screening and grading anthracite coal, according to the Pennsylvania system.

A small party of Indians passed through town Sunday, from the Indian territory, where they had been for several months, on a visit. They were from the Mesquero reservation.—Roswell Record.

There are rumors that Mr. Ford, late editor of the Democrat, is being liberally assisted by leading Democrats of this city, and will at an early date start a simon-pure, red hot Democratic paper.—Albuquerque Citizen.

A young man, lately from the east, was prevailed upon by a number of Edly boys to go out "smoking." He held the sack until about 3 a. m., and when he returned to the hotel, he was not only a colder, but a wiser youth.

Jack Wilson, the man who was last March convicted by the courts as a Crutches of attempting to defraud the Mutual Life Insurance company, of New York and sentenced to a term in the county jail here, escaped last Thursday evening, and is still at large.—Las Cruces Republican.

The impression is prevalent among our people that the district court will be adjourned some time during the coming week, owing to a deficiency of funds in the treasury. But such is a mistake, there being money enough on hand to carry on the business of the court for some five weeks yet, in which time both the civil and criminal dockets can be cleared.—Albuquerque Democrat.

Governor Stover has returned to Albuquerque from the east. The governor, while away, happened in political headquarters at various places, and the information obtained by him indicates that Fasset, Republican candidate for governor of New York, will be elected, and that Wheeler, the Republican candidate for governor of Iowa, will also be elected, but he entertains a belief that Campbell will beat McKinley in Ohio.

A letter received this morning from Dr. Duncan, of Chicago, president of the American Health Resort association, says a large party of physicians, who have been in attendance upon the medical convention in Chicago, may be expected in Albuquerque the 1st or 2d of November, unless, as is very probable, they conclude to go through to Las Cruces and stop here on the way back. He says the trains arrive at such bad hours that it is very probable the party will not stop on their way out, but go through by the same train, and take in Albuquerque on their return.—Albuquerque Citizen.

For superior work in the line of book binding call at the New Mexican office. Orders by mail given prompt attention.

First-class, and cheap job printing and binding at the New Mexican company's establishment; the largest of the kind in New Mexico.

Patronize the New Mexican for all sorts of fine and cheap job printing; large and best printing and book binding establishment in the territory.

**MANHOOD RESTORED.**  
"SANATIVO," the Wonderful Spanish Remedy, is sold with a Written Guarantee to cure all Nervous Diseases, such as Nervous Debility, Loss of Brain Power, Headache, Vertigo, Loss of Memory, Nervousness, Lassitude, all drains and loss of power of the Generative Organs, in either sex, caused by over-exertion, youthful indiscretions, or the excessive use of tobacco, opium, or stimulants, which stimulate lead to Infertility, Consumption and Insanity. All communications intended for publication must be accompanied by the writer's name and address—suit for publication—but as an evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to NEW MEXICAN PRINTING CO., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, OCTOBER 30.

## ANNIVERSARIES.

**BORN:** President John Adams, 1735. Gambetta, 1838. Sheridan (dramatist), 1791. Roscoe Conkling, 1829.

**DIED:** Edmund Cartwright, 1823. Rev. Charles Maturin, 1824.

Park Theatre, New York, burned, 1882.

MARRIAGE may be a failure, but the list of marriage announcements in the papers all over the country is increasing at a very decent rate.

THAT old story about strained relations between President Harrison and Secretary Blaine is being revived again by the Democratic free trade organs. "But it don't go now."

THE NEW MEXICAN is reliably informed that Mr. Blown Blab, the editor of the Silver City Southwest Sentinel, looks every night before retiring under the bed for the Santa Fe ring, which he has lost; and still he is not happy.

## A LUCKY DAY.

The day that witnesses the commencement of work on the ditch system and reservoirs of the Santa Fe Irrigation company will be a mighty lucky one for the capital city; the ditch systems of that company will bring 10,000 acres of some of the best land in the territory under irrigation and cultivation.

## NO GOOD REASON FOR IT.

Why the people of New Mexico, or for that matter any section of the United States, should pay exorbitant and outrageous express charges in order that high rates of dividends might be paid on millions of watered stock of the Wells-Fargo Express company is beyond the comprehension of honest men. Legislation must be had to protect the people in such matters and effective legislation at that.

## A MAN OF THE PEOPLE.

Postmaster General Wanamaker's ideas about the extension of the free delivery system are correct. John Wanamaker is a man who understands the wants of the people, of "the common people," and is doing his level best to have these wants satisfied. The postoffice department is to-day better conducted than ever before. The postmaster general is a man of the people and sees to it that the people's interests are fully protected and receive full right and consideration in the postoffice department of this great government.

## SOME LEGISLATIVE HINTS.

It is essential to New Mexico's interests that at least three new offices be created at the next session of the territorial legislature. These are, first, the office of territorial geologist; second, public inspector of mines—or the two might be conveniently combined in one—and the third office is that of game and fish commissioner. New Mexico is abreast of her neighbors in many respects, but in this particular she is quite behind the times. It is due to the mining industry in general, now so rapidly advancing throughout the territory, that an official geologist should be provided, and it is equally apparent that the large and sturdy class of laborers who delve in the mines should have all the protection of life and limb that the state is capable of supplying. There have been a great many accidents in the mines of this territory of late, and many fatalities have occurred; whether this is or is not attributable to the carelessness of mining companies or their superintendents is a question, but the facts that such things do occur and will continue so long as there is no provision for officially looking over the mines is a fact that ought to appeal to the best motives of a law-maker.

As respects the office of game and fish commissioner it is also very important that action be taken as early as possible. This is an interest that can not flourish without a fostering care of the commonwealth. It is doubtless a fact that New Mexico is to-day the only state or territory in the union that has not taken action on this subject. Colorado, it is said, gets \$2,000,000 yearly out of tour-

ists who come hunting and fishing to that state; California does even better than this, while in Arizona, Utah, Wyoming, Montana and other Rocky mountain districts there are active commissioners operating under the authority of the state to protect game in season and prevent its wanton destruction.

## THE OHIO CAMPAIGN.

A Prosperous and Beautiful State—The End of the Campaign.

Special Correspondence of the New Mexican. COLUMBUS, Ohio, Oct. 26, '91.

"Then come along, come along, rally for the day, McKinley and protection are bound to win the day."

Our factories are booming, there's plenty in the land. Uncle Sam is doing business at the new-old stand! There is a great deal more truth than poetry in the above crude lines, which are being sung from centre to circumference of the Buckeye state.

That is the answer of the farmers, mechanics and laboring men of Ohio to the whining, lying jeremiads of Campbell, Mills and their imitators, who are declaring that poverty and destitution are the logical results of protection.

A full quarter of a century has passed away since I made my first protective tariff speech here and in that short time the change for the better is almost incredible. I can hardly believe that the Garden of Eden could be more beautiful or more fertile than this highly favored state. All last week I have been speaking to farming communities, happy men can be prosperous far beyond the ordinary lot of man and more contented than it is generally given to mere mortals to be. Oh what a lovely state Ohio is at this time of the year, as Irving says, "The rich and luscious season of autumn." The superb autumn corn crop is yet piled in great stacks in the fields, which are already covered with the tender green wheat spears, giving rich promise of another ample crop next year; pumpkins gilding the earth with their yellow forms, telling of mellow fires during the long winter days; barns and two or three stories high actually bursting with the supplies of potatoes, wheat, oats and fruit.

The old fashioned farm houses of the last generation have almost disappeared and new residences containing all the requirements of civilization, comfort and refinement have taken their places. Saturday last I was carried far away from the railroad and I was amazed at the beauty of the houses. I did not see one in a ride of twenty miles less than two stories high and some of them were gems of architectural beauty. Now set all this in a glowing frame of our unequalled autumn foliage, softened and blended by the shimmering haze of the sunlit Indian summer and some slight, very slight idea may be formed of "The queen of the west, in her garlands drest" on the banks of her beautiful river."

Last year the question would be, what will we do with all this abundance? But the answer is contained in the following splendid figures just issued by the Bureau of Statistics. "There has been an increase of our exports during the past over the preceding year of \$62,914,021, making a grand total of exports of \$923,091,126; next year they will in all probability reach a billion dollars, and the largest part of this increase is in agricultural products. And the calamity howlers call this unparalleled prosperity poverty. It is insidious God's gracious goodness to us to teach our greatly favored farmers to repine and complain in the presence of such prosperity as neither they nor their fathers ever enjoyed. We are just entering on the last week of a campaign which will be remembered twenty years hence as the English-American free traders and I can see nothing but victory ahead. I speak in the following places which carry me up to the election, Milford Centre, Urbana, North Lewisburg, Coshocton, afternoon and evening in New Lisbon, Leetonia, and on Monday evening, November 2, at Toronto, in Jefferson county, and then for victory and home again. Your friend, A. L. MORRISON.

## EDITORIAL COMMENTS.

A Newspaper Man's Judgment. Mr. A. W. McPherson, Washington correspondent for the New York Tribune, who has been in Ohio for several weeks writing up the campaign for the Tribune, predicts McKinley's election by not less than 20,000 majority. As a trained correspondent who has been over the field and made a study of the subject, his opinion is worth something.—Indianapolis Journal.

Judging How Ross Pardoned them and How Chief Justice O'Brien Conducts His Court, the Fair Favored "Convicts and Thieves" to a Very Large Extent. The New Mexican is now after ex-Governor Ross and Chief Justice O'Brien. We know that Governor Ross can take care of himself, and the Chief Justice, who blandly remarked that "he did not come to New Mexico to make friends with thieves and convicts," can probably make a stand off.—Silver City Sentinel.

Wells-Fargo Boodle Talking Through a White Cap Sheet.

The Wells-Fargo company is mainly controlled by U. S. Senator Leland Stanford and other Republicans of national prominence and the New Mexican will probably "let up" on the company when the campaign opens next summer. It doesn't mean anything now, its only purpose being to distract public attention from the gang whom it serves, who have taken dollars from the people of New Mexico where the express company has taken cents.—Silver City Sentinel.

Earn Double the Wages in the United States.

The Springfield, Mass., Union says that the plush industry established at Bridgeport, Conn., in the factory formerly occupied by the Howe Sewing Machine company, by Sir Titus Salt, Sons & Co., of Salford, England, is now employing

## WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on a lung and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that.

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that

**DR. ACKER'S ENGLISH REMEDY** for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 3 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & CO., 46 West Broadway, New York, for book.

For sale by A. C. Ireland, Jr.

350 hands, about half of whom are native Americans. The quality of the goods produced is the same as made in England, and the demand is fully equal to the supply. The superintendent says that the hands, who are all engaged in piece-work, earn just double the wages earned in the same work in England.—Bradstreet.

What the McKinley Bill is Doing. While the McKinley Bill lets goods in free that do not compete with the product of American industry, it was designed to keep competing products out, and it is doing it. For the eleven months ending August 31, 1890, our imports of dutiable merchandise were \$484,881,394.

For the corresponding period under the present tariff our dutiable imports were only \$398,549,394.

—New York Press.

All right for California Anyway.

The fact that the French are buying California wines and sending them back under French labels to be purchased at fancy prices and lucratively discussed by eastern connoisseurs is not worrying the Californians to any appreciable extent. They are in the wine business for the money there is in it, and France is just as good a market as any so long as it pays the price. But really it would pay our eastern friends to purchase their wines in California in the first place and go to the job printer for their French labels.—Minneapolis Tribune.

**The Celebrated French Cure,** WARRANTED "APHRODITINE" or money refunded. It is sold on a POSITIVE GUARANTEE to cure any form of nervous disease or any disorder of the generative organs of either sex, whether arising from the excessive use of stimulants, or from the use of Opium, or from youthful indiscretion, or from the loss of Brain Power, Wakefulness, Bearing down, Pains in the back, Seminal Weakness, Hysteria, Nervous Prostration, Nocturnal Emissions, Leucorrhoea, Piles, Weak Memory, Loss of Power and Impotency, which if not promptly cured, lead to premature old age and invalidity. Price \$1.00 a box, 6 boxes for \$5.00. Sent by mail on receipt of price. A WRITTEN GUARANTEE is given for every \$5.00 order received, to refund the money if a Permanent cure is not effected. We have secured thousands of testimonials from old and young, of both sexes, who have been permanently cured by the use of Aphroditine. Circular free. Address THE APHRODITINE CO., PACIFIC BRANCH, 62 Sansome Street, San Francisco, Cal. For sale by A. C. Ireland, Jr.

## Notice for Publication.

(Homestead \$774.) LAND OFFICE AT SANTA FE, N. M., October 7, 1891.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register and receiver at Santa Fe, N. M., on Nov. 20, 1891, viz: John W. Cook for the s<sup>1</sup>/<sub>2</sub> n<sup>1</sup>/<sub>2</sub> and n<sup>1</sup>/<sub>2</sub> s<sup>1</sup>/<sub>2</sub> e<sup>1</sup>/<sub>2</sub>, sec. 2, tp. 15 n., r. 11 e.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: James F. Fox, of Cerrillos, N. M.; L. N. Stone, Chandler Cowles, of Gloria, N. M.; M. R. Stone, of Cerrillos, N. M. Any person who desires to protest against the allowance of such proof, or who knows of any substantial reason, under the law and the regulations of the interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant. A. L. MORRISON, Register.

## APPLY FOR INFORMATION

About

**The Great Southwest** Where last year farmers netted \$100 to \$200 per acre for fruit, grown on land that can be duplicated to-day for \$30 per acre.

Where five tons of alfalfa hay, worth \$12 per ton, was grown on land, see like of which can be bought for \$15 per acre.

Where many, many other products, such as sweet potatoes, tomatoes and early vegetables, netted as large and larger profits than fruit.

Where the summers are cool, the winters warm, cyclones unknown and malaria unknown.

Where there is the best opening in the world for honest industry. To W. F. WHITE, Passenger Traffic Manager, A. T. & S. F. R. R. Or HENRY F. GRIFFINSON, Immigration Agent, A. T. & S. F. R. R. 623 Rialto Building, Chicago, Ill.

This railway passes through twelve states and territories, and having no lands of its own to sell has no object in advancing the interests of any special locality, or in giving any other than absolutely reliable information. It realizes that a Permanent cure is not effected. We have secured thousands of testimonials from old and young, of both sexes, who have been permanently cured by the use of Aphroditine. # THE MAXWELL LAND GRANT

## Farm Lands!

### UNDER IRRIGATING DITCHES.

### Choice Mountain Valley and Lands near the Foot Hills

### FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

## LAS VEGAS HOT SPRINGS, N. M.

THIS great health and summer resort is situated on the southern slope of the Santa Fe range of the Rocky Mountains, and an elevation of nearly 7,000 feet above the sea. The springs, some forty in number, vary in temperature from very warm to entirely cold, and are widely celebrated for their curative effects upon rheumatism and almost all forms of chronic disease. The bathing facilities are unequalled.

THE MONTEZUMA HOTEL

(Formerly Phoenix Hotel)

In a commodious and massive structure of stone—the finest watering-place hotel west of the Alleghenies. It has every convenience, and is elegantly furnished and supplied.

The Springs and Hotel are located on a branch of the main line of the Santa Fe route, six miles from the town of Las Vegas, New Mexico; is readily accessible by telegraph, telephone, and four passenger trains per day. It is extensively used as a resort and bathing place by transcontinental tourists, as well as by all classes of rest, pleasure, and health seekers from every part of the country.

Round-trip tickets to Las Vegas Hot Springs on sale at all coupon stations. Round-trip tickets from Santa Fe, N. M.

For these complaints take Simmons Liver Regulator. It keeps the stomach clear and prevents any of the above troubles from getting in the system, or, if there already is it will drive them out, no matter how strongly rooted or long-standing, and you will again have good health and be happy.

Have you a pain in the side, back or under the shoulder-blade? It is not rheumatism but dyspepsia. Take Simmons Liver Regulator.

Does your heart throb violently after unusual exertion or excitement? It is not heart disease, but indigestion. Take Simmons Liver Regulator.

"As a matter of common sense to humanity I wish to bear testimony to the value of the Simmons Liver Regulator. If people could only know what a splendid medicine it is, there would be many a physician without a patient and many an interminable doctor's bill saved. I consider it invaluable in medical infection. I had, for many years, been a perfect physical wreck from a combination of ailments, all the outgrowth of malaria in my system, and, even under the skillful hands of Dr. J. P. Jones, of this city, I had despaired of ever feeling well again. When Simmons Liver Regulator was recommended to me, I tried it, it helped me, and it is the only thing that ever did me any good. I preferred to use it, and I am now in perfect health. I know your medicine cured me and I would keep it as a reliable 'stand by' in my family."—Mrs. MARY KAY, Camden, Ala.

**A PERMANENT EXHIBIT.**

The First Call for Sample Products by the New Mexico Bureau of Immigration.

Now that the government work of repairing and remodeling the old adobe palace is under way, the Bureau of Immigration will soon be able to occupy its new and more commodious quarters, and one of the special features of this organization's work in future will be the collection of sample products showing the variety and extent of New Mexico's varied resources. These products will be plainly marked with the name of the sender, the district and county wherein he resides, and an attractive permanent exhibit is to be displayed in the new rooms to the end that all visitors to the capital may gather some idea of what the resources of the territory are and become inspired to come and lend a helping hand in their development. Several hundred copies of the appended circular letter were to-day sent out to residents of the territory by order of the bureau:

BUREAU OF IMMIGRATION,  
Territory of New Mexico,  
Office of Sec'y, Santa Fe, N. M., Oct. 30.

Dear Sir:—The Bureau of Immigration has been assigned offices in the governor's palace, at Santa Fe, and will at an early day occupy these offices.

It has been resolved by the bureau to exhibit at its offices samples of cereals, fruits, minerals, ores, woods, etc., in fact any and everything tending to show the resources of the territory.

Your co-operation, to carry out this resolve and to keep at the offices of the bureau a permanent exhibit of the kind described, is respectfully solicited. Be pleased to aid us in this matter, and send us by express anything in the line mentioned for the purpose of forming part of this permanent exhibit. The bureau will pay the express and freight charges; also expense of packing. Whenever you send anything please address "Secretary Bureau of Immigration," and inform me by mail.

Thanking you in advance for any attention you may give this request, I am very truly yours,  
MAX. FROST, Secretary.

Why suffer from dyspepsia and headache when Simmons Liver Regulator will cure you?

**NEW COUNTY OF GUADALUPE.**

Don Celso Baca Talks of its Resources.—New Railroad—A Prosperous Region.

Don Celso Baca, of Eden, in the coming new county of Guadalupe to be carved out of the southern portion of San Miguel, paid the NEW MEXICAN a call today. He chatted merrily of the outlook for his section. The new county contains a population of 5,000 people, all producers, and has a taxable wealth of \$2,000,000. Puerto de Luna is to be the county seat. At the general election one year hence the first election for county officers takes place, and the new government will assume control January 1, 1893. By that time Mr. Baca hopes the Los Vegas, White Oak & El Paso railroad will be in operation. The surveys for this line took the field last week, and the line is to be run via Anton Chico, Eden, Las Colonias and Puerto de Luna. He has come north to secure free light-of-way through that region for it. From Puerto de Luna it will leave the Pecos river and bear southwest.

Mr. Baca settled in that region twenty-six years ago, when hostile Indians were quite too numerous for comfort. He has a magnificent farm, orchard and stock ranch at Eden. He says tomatoes are raised there as big as one's fist, and vegetables and fruits of all sorts are produced. The great crop this year is not so good as usual because of dry weather. His alfalfa fields yield four cuttings a year, five tons to the acre, and it sells at \$16 per ton in the field. Live stock interests are flourishing.

It never failed to cure dyspepsia and liver complaint. Take Simmons Liver Regulator.

**RAILWAY NOTES.**

E. R. Chapman, representing the owners of the Santa Fe Southern road, is expected to arrive here to-night, having stopped off at Denver to talk with the D. & G. officials.

The annual meeting of the stockholders of the Atchison, Topeka & Santa Fe Railway company was held at Topeka yesterday evening. Among those in attendance was Judge Waldo. The old directors were re-elected with but a single change, George R. Peck, of Topeka, succeeding Director E. H. Abbott, of Cambridge, Mass. Chairman George C. Magoun received 658,868 votes of a total of 664,947 votes. The directors re-elected the old officers of the company to a man.

A Durango dispatch says: "A large mass meeting convened in the parlors of the Durango club Thursday evening, and a lively discussion of a proposed railroad to Albuquerque, N. M., was indulged in by the business men of Durango an representative men from Farmington, N. M. Capt. Hanna addressed the meeting on the resources of the country through which the proposed line passes, and submitted tabulated statistics of the different products. The Commercial Club of Albuquerque has raised funds to the amount of several thousand dollars to make the survey. The distance is 210 miles, and grades are slight. The people here are enthusiastic and are ready to lend substantial assistance."

**A TRUSTY TAKES LEG BAIL.**

A Much Scarred Convict from Lincoln Leaves the Pen a Few Months too Precious.

Jose Nunez, a native of Mexico, sentenced for burglary from Lincoln county for one year, and who had served for seven months, escaped from the penitentiary truck garden late yesterday afternoon. He was made a trusty four days ago on the recommendation of Officer Barber, captain of the yard, and set at work hauling in cabbages from the field, near by, with a wheelbarrow. Just before quitting time last evening and while he was after his last load, the discovery was made that he had taken leg bail, going on a run through the fields, as his tracks plainly indicated, and headed toward Agua Fria. He was trailed until dark and runners sent out to renew the trail at daylight this morning.

The superintendent thinks he is making for Mexico via his old haunts on the Bonito and has parties on the lookout for him at Los Lunas and Mesquero. Modesto Montero, in for one year, also from Lincoln, for wife beating, was discharged yesterday, having served his term, and it is possible that the two men had an understanding and are now together. A reward of \$25 is offered by Supt. Chaves for the capture of Nunez. His description is taken from the penitentiary records as follows:

Jose Nunez, 28 years old; weight, 167 pounds; 5 feet 6 1/2 in height; brown eyes, dark hair, fair complexion; No. 9 foot; good teeth, no beard. Body marks: One scar on top of head; one scar about three inches above ear; one scar on left eye brow; one scar on right breast, close to nipple; one scar about three inches to right of navel; two bullet scars on calf of left leg; one scar on big toe of left foot; three large scars on skin of right leg; one scar on front side of thigh of right leg; also a large scar on back part of thigh of left leg.

**The Holbrook Tragedy.**

The men who were murdered by cowboys at Holbrook, A. T., day before yesterday, as detailed in these columns yesterday, are well known throughout all New Mexico. Don Roman Lopez was formerly a resident of San Jose, San Miguel county. He married a daughter of the late Jose Arriola, of Albuquerque, and was counted among the wealthy residents of the New Mexico-Arizona border. Rafael Chaves, the other victim in this wanton crime was a prominent young man hailing from San Mateo, and was engaged in sheep raising with Mr. Lopez. No trace of the murderers has yet been had.

**ROUND ABOUT TOWN.**

The street sprinkling cart is yet idle. Paid your taxes? It must be done to-morrow or the penalty attaches.

The Barbour-Beebe theatrical company appears at the court house to-night.

E. R. Pence, Boston; J. A. Curtis, Denver; J. A. Lockhart, J. M. W. R. Hunter, Kankakee; Chas. H. Coster, Denver, are at the Palace.

Hallowe'en this, and the small boy will be out and around, as usual, but the New Mexican has positive assurances from Gus O'Brien that "there will be no vandalism."

The National Association of Public Librarians spent yesterday afternoon seeing the sights of Santa Fe. There were fifty in the party, traveling eastward under guidance of Mr. Ed. Burnett, traveling passenger agent of the Santa Fe route.

H. B. Hersey and a visiting friend from New Jersey left this morning for the headquarters of the Santa Cruz and other streams in the Bald mountain region.

They go after big game with Pete Smith as guide and will be absent two weeks.

The enterprising house of H. B. Cartwright appears to be in it these days. Mr. C. shipped in a car load of canned goods yesterday and another one to-day. During the month he has shipped in thirteen car loads of merchandise and provisions.

C. H. Gosler, representing Collier & Cleveland, job printers, Denver, is in town. In this connection the New Mexican would remind the public that here at home they have a complete book and job printing establishment capable of doing first-class work at lowest prices.

Col. Jas. A. Lockhart, the enterprising sheriff of Grant county, is here to-day on business connected with the territorial officials. He says it is very dry down his way, but the drought has had the effect of inspiring stockmen to inaugurate numerous water developing enterprises, which are turning out highly successful and will prove of permanent benefit to the country.

James Hovey assaulted Prof. Perez, the musician, on the street night before last, and so severely bruised him up that it is probable no concert can be had in the plaza on Sunday afternoon. This is especially to be regretted because the city will be full of the Indiana visitors on that day and the concert has been counted in as one of the features of their entertainment.

The let warders are throwing up their hats to-day over the good work of cleaning up the streets in that locality. Two forces of about thirty men each are doing the work. They are actually filling in and cutting down the steep grade on the old Fort Union road hill, and the older inhabitants are opening their eyes to the benefits of incorporation.

At a special meeting of the Board of Trade yesterday afternoon, Messrs. F. T. Webster, J. D. Allan and John H. Robertson were named as a committee to confer with the business men generally relative to the entertainment of the ninety odd Indiana editors who are coming to spend Sunday here. The committee reports progress at a second meeting of the board this afternoon.

C. C. Everhart, through whom the new school furniture was ordered from Chicago, over a month ago, called at this office and reported that the furniture had arrived night before last, but it seems that this is a mistake. At any rate, Rev. J. H. Defour, of the school board, has no such information, and, naturally, is very much annoyed over the delay. The new school will not, therefore, open on Monday next.

Capt. John Dalton, wife and daughter removed into the city yesterday from their long occupied home on the upper Pecos, and they will become residents of Santa Fe, taking quarters in one of Mr. Catron's houses beyond the federal building. Capt. Dalton says he is glad to be counted now a permanent citizen of Santa Fe. He is nicely quartered for the winter and wishes especially to thank Mr. Coons for courtesies.

Architect Wood got in last night from a trip to the Valle mountains. The remainder of his party arrive to-night. They killed eleven wild turkeys, thirty grouse and the prize buck of the season, the young deer weighing fully 250 pounds. His head and antlers will be preserved as a souvenir of the trip. They saw no bear. Mr. Wood says that is a beautiful country over there; grass waist high and yet green from root to tip. He says it is too early as yet for good deer hunting.

Prejudice and ignorance have given way to Simmons Liver Regulator. It has stood the test.

Notice.  
Thos. P. Gable is no longer in my employ as manager of my undertaking business, and is not authorized to receive any money or give any receipts for money on account of any bill due for undertaking.

A. T. Gable.  
Santa Fe, N. M., Oct. 29, 1891.

**THE FORT MARCY RESERVE.**

A Hint that the Families of the Land Court will Occupy the Post Residences.

After all, it is possible that the Fort Marcy reserve, just transferred from the war to the interior department, will not be disposed of at public auction, but will be converted into homes for the families of the officials of the new court of private land claims. This information comes from Governor Stover who arrived in Albuquerque yesterday from a visit to Washington and other points east.

He says: "The department of justice recognized the importance of the early sitting of the court, and all arrangements are being perfected for the early settlement of public and private land claims. The new land court judges will occupy the residences in Santa Fe recently vacated by the United States army officials."

If this is to be the disposition of the post reserve for the next few years, it will prove of no inconsiderable benefit to Santa Fe, both from a business and social point of view, for it means that the permanent headquarters of the land court will be here and that the judges and other court officers, ten or more, will come here with their families and make their homes. Twenty or twenty-five people of a class represented by the personnel of this tribunal is a most desirable acquisition.

**Notice for Publication.**

Public notice is hereby given that the court of private land claims will hold a session at the city of Santa Fe, N. M., commencing on Tuesday, the 1st day of December, 1891, at 10 o'clock a. m., of said day. By order of the court.

JAMES H. REEDER, Clerk.

**Aviso al Publico.**

JAMES H. REEDER, Secretario.

**Notice for Publication.**

(Homestead 3774.)

LAND OFFICE AT SANTA FE, N. M., October 7, 1891.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register and receiver at Santa Fe, N. M., on Nov. 20, 1891, viz: John W. Cook for the s½ NW¼ and N½ SW¼, sec. 2, tp. 1 n. r. 11 e.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: James F. Fox, of Cerrillos, N. M.; I. N. Stone, Chandler Cowles, of Glorieta, N. M.; M. R. Stone, of Cerrillos, N. M. Any person who desires to protest against the allowance of such proof, or who knows of any substantial reason, under the law and the regulations of the interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

A. L. MORRISON, Register.

**The Wabash.**

Why, the "Wabash" is the most desirable route, for all points east. 1st. You can purchase through tickets for all eastern points, at any coupon ticket office in the west, over this line, taking your choice of routes to the Missouri river.

2d. You can go either by the way of Omaha, or Kansas City, at your pleasure.

3d. From either of those points you can have your choice of five distinct routes, as follows:

Via the Admiral air line, which is the shortest line of the east.

Via St. Louis, where close connections are made with all eastern and southeastern routes.

Via Chicago, the World's fair city, some times called "the windy city."

Via Toledo, Ohio's great inland city, connecting at that place with the lake shore fast trains for the east.

Via Detroit, Michigan's prettiest and most beautiful city, where eastern lines connect closely.

All of the above named points are reached, direct, only by the Wabash and direct by no other line running from the west.

Ask for your ticket by the way of this line, and accept of them by no other.

We run the finest trains on earth. A bold assertion, but a cold fact. Write me for rates, maps, etc.

O. L. ALLEN, Traveling Agent,  
1227, 17th street, Denver, Colo.
