## BRIEF WIRINGS:

### THE CHILIAN MUSS.

The Hot-Heads Will be Given Time to Consider—Holding on to Expensive War Ships in Readiness.

WASHINGTON, Oct. 31.—The cabinet was in session an hour yesterday, afternoon considering the Chilean affair. It was decided that a reasonable time was to be allowed for inquiry and the special occasion for waiting is the change of government which is about to take place. But about the time the new minister of foreign affairs in Chile is fairly in working order he will find a very emphatic demand from the United States before his department, to furnish satisfaction for one of the most brutal and cowardly attacks ever made upon an American representative abroad. If the demand is not promptly met by a suitable apology, the punishment of the criminals and indemnity in money, American vessels will begin to concentrate on the Chilean coast and every preparation will be made for the bombardment of Valparaiso if such a course be deemed necessary. The President and Secretary Blaine are very much in earnest in the feeling that they will not allow so trifling an affair as this to pass without serious matter, and we should not appear as indifferent to the sufferings which have been inflicted on the families of our sailors by their causeless murder, nor in the dignity of our uniform by the outrage put upon it.

The Chileans believe that the English would come to their assistance in order to protect the nitrate beds, in which English capital is heavily invested. They apparently imagine that the opening of American guns on the defenses of Valparaiso would be the signal for a counter-attack from English ironclads. They are evidently counting upon some such point in their bravado and it is this which has led them to reply to Minister Egan in such a defiant tone.

There have been no further dispatches from Minister Egan or Commodore Schley.

Senator Pedro Montt, the official representative of the Chilean government in Washington, has just received the following dispatch from the Chilean minister of foreign affairs:

Santiago, Chile, Oct. 30.—Investigation was instituted immediately and continues with all diligence and is not yet finished. The trouble began in Calle street, and it became a tumult at 7 p. m. Regular soldiers and police and the special guards of the intendente restored order. Of the combatants thirty Americans and eleven Chileans were committed before the judicial authorities. They fought with knives, stones and everything they could lay their hands upon. There were one killed and several wounded. It is estimated that there were 100 American sailors from the Baltimore on shore at the time of the tumult.

Naval officers appear to be confident that the dispute with Chile can only be settled by a display of force by this government. The talk about available vessels and the possibility of assembling a sufficient force before Valparaiso to compel Chilean respect, is animated among naval men, and officers are beginning to think of active duty on board ship. Secretary Tracy will, no doubt, in a few days, if the dispatches from Chile are not more courteous and reassuring, send the Chicago and Mohawk after the Yorktown and Boston, which have started for Valparaiso, and later on will support these vessels already under orders for Chile, by others, including, if necessary, the ships of the north Atlantic squadron, now almost ready to sail.

Heresy Not Sustained.  
New York, Oct. 31.—The New York Presbytery of the Reform Presbytery church which met here to consider the charges of heresy against the Rev. Dr. J. C. K. Milligan and the Rev. J. T. Carson, passed the following resolutions: "The Presbytery feels satisfied that there are no grounds on which to base a trial against these brethren."

Boston.—The supreme court has set aside the decree of the board of visitors in the famous Andover heresy case. This is a victory for Prof. Egbert E. Smythe

## "August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I tached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure." G. G. GREEN, Sole Man for Woodbury, N.J.

and ends a struggle that has lasted for five years. The board ousted Smythe from the professorship of ecclesiastical history. The case will now go back to the board of visitors for rehearing.

### Rocky Mountain Spuds.

WASHINGTON, Oct. 31.—The agricultural department's report on the condition of the potato crop shows that in the Rocky mountain region, where potato growing is becoming a leading industry, the year has been remarkably favorable and a large crop was made. Potatoes from Wyoming and Colorado were last year found in many eastern markets, and while the crop this year, in states nearer the center of consumption, is much better than last year, the trade which had its inception in last year's failure will undoubtedly be again carried on to some extent this season.

### A Good Show-Ing.

ROCKY MOUNTAIN, Colo., Oct. 31.—The canning factory in this place has just closed its season's work with the following result: It has canned 340,000 pounds of products of the value of \$10,000 and disbursed \$2,000 in wages. In addition to the above the factory used 800 bushels of cucumbers for pickles. To illustrate the yield per acre: On two and three-quarter acres 1,965 bushels of tomatoes were gathered.

### A. T. & S. F. Earnings.

BOSTON, Oct. 31.—A. T. & S. F. gross earnings for September, including the St. Louis & San Francisco system, \$4,263,750; increase, \$399,597; net earnings, \$1,071,580; increase, \$338,000. It has been impossible to get the annual report of the Santa Fe ready for distribution today, as expected, and it will probably not be issued for two or three weeks.

### Its Coming.

BOSTON, Oct. 31.—Captain Kelo Carter, of Baltimore, at the second day's session of the national convention of Christian Scientists reviewed the remarks of Professor Tolson, of Yale, on his chronology and created a sensation by bringing forward a vast array of facts to prove that the millennium will come before 1900. He expects it in four years.

### Legal Tenders Bear a Premium.

WASHINGTON, Oct. 31.—A letter received from Minister Ryan, at the City of Mexico, by Commissioner Kaim states that national bank legal tenders of the United States bear a premium in Mexico of 30 per cent. In other words, a legal tender or national bank note of the United States of the denominations of \$10 will buy thirteen Mexican dollars.

### The Boomers Must Go.

GUTHRIE, Okla., Oct. 31.—Detachments of cavalry have been sent out of scout over the entire Cherokee strip. All cattle will be rounded up and confiscated, and all boomers ejected and their homes and corrals destroyed. Several troops of cavalry will also go in winter quarters on the Chickawake river and keep the boomers out.

### A MEMORABLE TRAGEDY.

The Massacre of Utes by the Citizens of Santa Fe in the Year 1844.

About the 10th of September, 1844, when Gen. Martinez was governor and commander in chief of New Mexico, the citizens of Santa Fe were making preparations to celebrate the anniversary of Mexican independence by a bull fight to be held in the public plaza on the 16th of September. All the space around the plaza had been apportioned to the different families in town who were desirous of constructing seats for their own use around the proposed arena, and a large number of persons were employed in doing the work.

About this time there arrived in Santa Fe the head chief of the Utes, Panacilla, accompanied by several other chiefs and Indians, numbering in all about 100 men. A citizen named Pedro Leon was with them as interpreter. The Indians came on horseback; they were bucks, and only one squaw was in their company. They entered Santa Fe late in the evening by way of the street that runs toward Rosario chapel, in the northwest part of the town, and a house which stood on the site now occupied by the place known as Heriotes hotel, on San Francisco street, was assigned to the Indians for their accommodation.

The coming of the Utes was for the purpose of making a treaty of peace with Gen. Martinez, and to receive the presents which in those times it was customary to give the Indians as an inducement for keeping the peace. Panacilla, the head chief, was about 50 years old, tall, stout, of ferocious aspect and was lame of one leg. It was said of him that he was a violent and overbearing savage, accustomed to ill-treat everybody with whom he had dealings, and he was reported as having struck with a whip several prominent persons in Rio Arriba county. As we have said the Utes arrived in Santa Fe late in the evening, and next day they remained occupied in conferences with the civil and military authorities who governed in those times. Gen. Martinez was a man of commanding presence, was very well posted in public affairs and possessed of great energy in the performance of his duties. He was one of the most distinguished officers of the Mexican army, and lived with his family at the old palace, occupying all the eastern wing of the house, including the rooms where the governor lives at present.

About 9 o'clock in the morning on the third day after the arrival of the Utes, General Martinez and his wife were sitting in the apartment used for the reception of visitors when Panacilla, accompanied by seven Utes, went into the room to have a talk with the general, and after talking for some time about the business on hand, the Indian chief became

angry at the general, because he considered that the amount of the presents given to the Utes was not up to their expectations, and he showed his anger by insults and by overbearing behavior, saying that if he had known Gen. Martinez was so stingy he would not have taken the trouble to come. For words he passed to blows, and taking the general by the beard he gave him a jerk. General Martinez, who was a brave man and not easily frightened, took hold of a chair and struck Panacilla on the head felling him to the ground. His wife, frightened at the row, went forth to the outer rooms and called the guard, which consisted of several soldiers. On observing this, the Indians were alarmed and made their escape by a window fronting the plaza.

One of the guards who was at the entrance door in the palace ran after them to cut off their retreat, and warned the people in the plaza of what had happened. At the same time firing his gun at the Indians, the shot struck Panacilla in the breast and killing him instantly. The rest of the Indians ran around the square trying to escape.

The workmen and people about the plaza, on hearing that the Utes were trying to kill Gen. Martinez, hurriedly took up their tools, and, attacking the Indians, killed all of them in the middle of the square, with the exception of one who was unable to avoid the blow until he reached San Francisco street, near where the Weber block now is, where a man crushed his skull with an axe, killing him at once.

The rest of the Indians were at their lodging place and knew nothing of what was happening; but an enterprising citizen, intent on appropriating their effects, told them that their companions had been killed, and that the people were coming to make way with them. On hearing this the Indians immediately started toward the western part of the town. As soon as they were gone the man who gave the warning made haste to carry away all the saddles, bridles and other articles belonging to the Indians.

The Indians had their horses in a pasture about six miles from the town and were not able to get them, for the reason that as soon as they retreated more than 500 citizens followed after them, mostly unarmed, and for several miles pressed them closely, but unable to get at them, because the Indians as soon as they saw the approaching throng dashed toward the hills, and in their position, and their pursuers lost much time trying to get them and disputing among themselves for their possession.

When the Utes retired they sent two Indians for their horses but these were unable to get them, for fear that the citizens might kill them, but on their way back toward the hills they met a man named Valdez, who knew nothing of what had happened in the city, and they carried away a short range a few miles from the town, and went on their way north to join their fellows. Besides the eight Indians killed in the square, the citizens despatched two more who were hiding in the neighborhood, making a total of ten Indians killed on that occasion. Happily, the Indians had no thought of defending themselves and their sole endeavor was to escape, which was a fortunate thing for the mob of unarmed citizens who were after them. Afterwards all the soldiers in town joined in the pursuit and the danger of the Utes making a stand was past.

The Indians pursued their flight toward the north until they reached their villages on the farther side of Abiquiu, killing two persons they met on the road. Gen. Martinez sent runners to all the upper settlements advising them of the events which took place in Santa Fe, and warning them to beware of the Utes.

The Indians then started on the war path and committed many atrocities in the isolated settlements where nothing was known of their hostile attitude, and for a long time after continued their depredations against the property and persons of the inhabitants. The horses left in Santa Fe were taken in hand by the authorities and sold, and the dead Utes buried in the upper part of the arroyo running north of Santa Fe.

Such were the stirring events which this city witnessed during the month of September, 1844. Many people are living yet who took part in the pursuit of the Utes and helped to kill some of them.

"Listed," as the brokers say, at "100 Doses One Dollar." Hood's Sarsaparilla is always a fair equivalent for the price.

## King of Medicines

### Scrofulous Humor—A Cure

"Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well. Early in 1881 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

UNCLE SAM won't take Chili since this time.

Good country roads are a prime necessity in New Mexico.

The members of the Northern Indiana Editorial association now traveling through New Mexico are receiving a hearty welcome throughout the territory; this is as it should be.

Providence has made the big crops and the McKinley bill has made them worth a good deal in dollars and cents. That's easily understood and the farmers of the country are beginning to fully understand it.

FASSETT takes off his coat and works hard and honestly for the success of his ticket; Flower takes off his coat and works hard signing bootie checks for the support of his ticket. Next Tuesday will tell the tale.

The day of the honest citizen in Santa Fe county is near at hand; there will be quite a story of official corruption, as it has flourished here during the past few years, forthcoming in due season and it will astonish the natives.

GOLD is still coming back from Europe in goodly quantities and the people of New Mexico are pleased; now if a few millions of it should find their way out here for investment the people of New Mexico would still be better pleased.

DESPITE Editor Blown Blab, of the Silver City Sentinel, the territorial government still lives and the capital of New Mexico still exists; as far as the New Mexican is concerned Mr. Blown Blab is informed that the paper is getting along swimmingly, if it does him any good to know so.

THE BRIGADIERS ARE SORE.  
The great ex-confederate brigadiers are mad, very mad, because they will be unable to unfurl confederate flags at the World's Columbian fair. This may be hard on the ex-confederate brigadiers, but the bulk of the people of the United States will be able to stand this omission with commendable equanimity; it is about time for the ex-confederate brigadiers to learn that this is a very large country and that they are not "in it" to any appreciable extent, except in benighted localities in the solid south.

GOOD FOR NEW MEXICO.  
The Mormon chiefs propose that hereafter their followers shall be divided between the two political parties provided Utah and Arizona are admitted as states. This is a very fine proposition for the Mormons, particularly those of Utah, but it is not at all likely that Uncle Sam's representatives will take the bait. It is fortunate for New Mexico and greatly to the credit of her people that this vicious element, so wholly opposed to American institutions has never been able to secure a foothold in this territory.

OF INTEREST TO CATTLEMEN.  
The cattle raisers of New Mexico are greatly interested just now in learning something definite about the corn crop of the great central western corn belt, and it will be of special interest to them to know that the total corn crop this year is figured at 2,065,516,000 bushels, an increase of 575,546,000 bushels over last year, of which the surplus for export amounts to 365,000,000 bushels. The foreign demand for corn is not near so great as for other American cereals and it seems reasonable to expect that the present price of corn will drop before midwinter.

THE GROWING WEST.  
The trans-continental railways have again been forced to recognize the west to the extent of taking another reef in

their time between Chicago and the coast by putting on fast trains. The Burlington has made the most decided departure in this respect, the new arrangement to go into effect on the 1st, and the Colorado Midland, D. & R. G., Santa Fe and Southern Pacific appear to stand in with it. Thus it looks very much like a move to knock out the Union and Missouri Pacific. Let them slash away at the business—it's all to the interests of the growing west.

## A MAGNIFICENT FIELD.

The numerous incorporations organized of late to operate new railways in the southwest and improve water transportation on the gulf shows that capitalists are at last awakening to the fact that the southwestern region has been all too long neglected. Here we have one of the good results of Mr. Blaine's first pan-American congress; that astute statesman sees what a magnificent field is here to be had for business. Take a map and figure the improvement of the southwest during the next five years on the basis of the northwestern growth in ten years, and some ideas may be gathered calculated to convince the reasonable man that ours is the coming country sure.

## SAD SPECTACLE THIS.

Our genial friend, Hon. G. A. Richardson, edits the last number of the Roswell Record and does it in good shape from his standpoint. He endeavors to lift the blame resting upon the corrupt and dishonest White Cap element that controlled the lower house of the 20th legislative assembly from the proper place and tries to put it upon the shoulders of the Republican council and especially Senators Peren and Catron. He does not succeed, except probably in his own opinion. Sad spectacle this of a very nice and gentlemanly fellow going wrong in this instance. Still a man must have some failings, you know.

## THE CHILIAN MATTER.

The Chilians are a brave race. There are not many of them, to be sure—less than 2,000,000 souls all told—but they are full of fire and false pride, and flushed as they are with their recent victory at home, they are putting on a good many airs with Uncle Sam; but they will scarcely lose their heads sufficiently to provoke war. This is quite plainly indicated in the reply which their foreign minister makes to our government. He says in effect that Chilian authority is abundantly able to judge and punish crime in its own country, which is granted, and that a judicial investigation is in progress there to determine the facts surrounding the recent riot wherein American sailors were maltreated. This is alright, too. Pending this investigation, however, he doesn't want the United States to consider his silence as intended for any sort of an insult. There is nothing very formidable about this. It is reasonable that ample time should be given for examination, and this, no doubt, our state department will grant before renewing in a more formal manner its original suggestion that Chili is expected to make full reparation for the conduct of its police toward Americans in Valparaiso. At the same time Chili had best understand, that full reparation and an apology has been demanded and will be had by the United States government.

## EDITORIAL COMMENTS.

They Have Just Cause to be Proud.

All good citizens rejoice that Mr. Blaine is so fully and completely in possession of bodily and mental powers that he can go to work in the discharge of his manifold and often delicate duties with a sense of joy and satisfaction that have long been strangers to the innermost recesses of the state department.—Pittsburg Chronicle Telegram.

### DR. ACKER'S ENGLISH REMEDY

for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma, and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 46 West Broadway, New York, for book.

ging their bread, or obtaining a precarious existence by far less honorable means, now possesses large wealth."—Chicago Inter-Ocean.

It Has Reduced Collections.  
For the twelve months ending September 30, 1890, and immediately preceding the enactment of the McKinley bill, the amount collected in customs duties was \$3.80

per capita. What do you suppose it was for the six months ending September 30, 1891? It was \$1.30, or at the rate of \$2.60

per capita per year.—New York Press.

Teach Them the Combination at Once.

In all this commotion over American pork abroad, how fares the status of American hominy? When our French, German and Italian cousins have once tasted the composite richness of the hog and hominy of the south, and sniffed the savor of the pork and beans of Yankee land, statutes will be powerless to wean them. Let our commercial missionaries teach them the combinations at once.—Minneapolis Tribune.

Three Great Newspaper Men: McCullagh, Stapleton and D. P. Carr.

Political predictions and partisan bias have but little influence upon editorial writers. McCullagh, managing editor of the St. Louis Globe-Democrat, the best edited Republican paper in the United States, votes the straight Democratic ticket. William Stapleton was for several years editor of the Denver News, and at the same time a Republican, and is now the editor of the Republican of that city. \* \* \* And then—there is the McKinley editor of the Southwest Sentinel. In modern journalism the editorial columns express and reflect the opinions and policy of a newspaper rather than the political principles of writers. There are, however, questions of policy in local government, city, county and territorial upon which there is a concurrence of opinion, and upon which such writers express their independent thoughts without reservation and with full force and meaning.—Silver City Sentinel.

## Bad Blood.

Impure or vitiated blood in the times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the deleterious matter. The old Sarsaparilla attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Try it and note its delightful action. Chas. Lee, at Beamish's Third and Market Streets, S. F., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merit. For I could feel it was working a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."

### UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills  
**FOR SALE**

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

READABLE PARAGRAPHS.

Come to Stay.  
The terribly aggravated form of influenza, which physicians on the continent of Europe designate as "la grippe," seems to have effected a permanent lodgment this side the Atlantic. It makes its appearance in some of the commonest forms, and in others it is a most insidious invader. In the spring it is a most common ailment, and in the autumn it is a most insidious invader. In the spring it is a most common ailment, and in the autumn it is a most insidious invader.

She Got Mad.  
Mrs. Freeholder has left the church, I believe.  
Yes.  
What was the reason?  
Well, you see, she was in the habit of praying for her husband's conversion in prayer meeting, referring to him as a lost sinner, a scoundrel, and a mocker and a man trembling on the verge of destruction. Thinking it would bring her well prayed for him one evening, and when she heard us calling him a reprobate, blasphemer, a scoundrel and a mocker and so forth, she became very uncomfortable, but when the pastor closed his prayer with a petition for the softening of the hard heart of this unregenerate and godforsaken husband of Mrs. Freeholder she got mad and denounced out of the church. I declare, you never can please some women!

Dr. Acker's English Pill.  
Are active, effective and pure. For sick headache, disordered stomach, loss of appetite, bad complexion and biliousness. They are never equalled, either in America or abroad.

Going Home From the Lodge.  
His face a look of sadness wears.  
To-night, his eyes with tears are dim;  
His wife refuses, he declares,  
To stay awake and wait for him.

Thus ill beset on life's way,  
From troubles none of us are free;  
My wife, I greatly grieve to say,  
Keeps wide awake and waits for me.

Bucklen's Arnica Salve.  
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give relief in five minutes. For sale at C. M. Creamer's.

Arranged Very Nicely.  
Saido—Dorothy takes a two-hour nap every day after dinner.

Herds—Doesn't he ever oversleep?  
Saido—No; he rings for a messenger before he lies down, and when the messenger arrives it wakes him up.

A Safe Investment.  
Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from advertised Druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc., etc. It is guaranteed to be agreeable to taste, perfectly safe, and can always be depended upon. Trial bottles free at C. M. Creamer's Druggery.

Swept by Gondolas.  
Puck: Croker—When I was abroad I saw only one city where the pavements are swept less frequently than in New York.

Brennan—And what city was that?  
Croker—Venice.

Advice to Mothers.  
Mrs. Winslow's Soothing Syrup should always be used when children are cutting their teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the inflamed membrane, relaxes the bowels, and regulates the stomach, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

A Home Inclusion.  
Atlanta Constitution: Foreman (to editor)—You'd better look out! Old Jones is red hot.

Editor (calmly)—When did he die?

Merit Wins.  
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve, and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfaction results do not follow their use. These remedies have won their great popularity on their merits. C. M. Creamer Druggery.
