ALBUQUERQUE, NEW MEXICO, WEDNESDAY EVENING, MARCH 28, 1906.

NUMBER 80

## STATEHOOD IS NOT WITHOUT HOPEFULNESS

Associated Press Thinks A House Will Pass With Foraker's

## SEPARATE VOTE AMENDMENT

Knox Makes the Principal Speech in Senate on the Rate Bill.

Washington, D. C., March 28.—That the senate and house will reach a compromise agreement on the statehood bill, which will permit Arizona and New Mexico each to decide for itself the question of admission as one state, seems the correct conclusion, from present indications.

The conference met today for the second time, and while the session was devoted to what are termed minor amendments, there was indication that the basis of agreement on the chief question is suggesting itself naturally, and that the conference will result in the restoration of New Mexico and Arizona to the bill, with the Foraker amendment, and inquiry among senators who opposed the original house bill indicates that they will accept this compromise.

The senate amendment, defining the limits of prohibition in Oklahoma, is regarded as the result of a general agreement among all the parties interested, and is acceptable. Likewise, there seems little objection to the senate provision allowing that the school lands to be selected in place of school lands found to be mineral lands. The other amendments are to be considered Friday.

## NEW MEXICO'S DELEGATE IS KEEPING BUSY.

Special to The Evening Citizen.

Washington, D. C., March 28.—The following have been introduced by Delegate Andrews:

To ratify the act of the New Mexico legislature for the issue of bonds for the New Mexico insane asylum; to preserve the New Mexico cliff dwellers; park instead of the Pajarito park; petitions of Las Vegas merchants relating to third and fourth class mail matter; and petitions of the Copperton miners relating to mining claims.

Andrews has secured the appointment of young Gildersleeve of Santa Fe, as cadet at Annapolis.

Postmaster and Mrs. Paul F. Walter have left for Santa Fe.

## WEATHER BUREAU WILL GUESS MONTH AHEAD.

New York, March 28.—Willis L. Moore, chief of the Weather Bureau at Washington, announced last night at the dinner of the Maritime Association Weather Bureau, that he will, in a few months probably be issuing forecasts for a whole month, in advance. He said he had been working on the idea for some time, but that the details are not yet complete.

## TO RECEIVE PRINCE ARTHUR OF CONNAUGHT.

Vancouver, B. C., March 28.—Extensive preparations have been made for the reception of his royal highness, Prince Arthur of Connaught, who is expected to arrive here today on the steamship Empress, from Yokohama.

The prince is returning from Japan, where he went as the representative of King Edward VII, to confer the Order of the Garter upon the emperor of Japan. In compliance with the wishes of the prince there will be no public demonstrations on a large scale. His royal highness is to be the guest of the dominion government during his tour through Canada and will make a number of stops, but will travel as privately as it is possible under the circumstances. The number of addresses at the reception will be limited to an address by the mayor to which the prince will reply.

Prince Arthur will spend a few days shooting and fishing in this vicinity and will then leave for Ottawa over the Canadian Pacific railroad. He will make only a few short stops at some of the tourist resorts in the Rockies.

## GREAT LOVEFEAST OF THE BLUE WITH GRAY

Atlanta, Ga., March 28.—The great love feast of the Blue and the Grey, being the third national gathering of the organization known as the "Blue and the Grey," began here today. The organization which is composed of civil war veterans both of the Union and the Confederate armies was formed at the St. Louis fair on June 15, 1894, for the purpose of forming a great fraternal body, national in its character, of the blue and the gray.

Several hundred delegates, representing the G. A. R., the Confederate Veterans, Spanish War Veterans, the Army and Navy Union and other veteran organizations, were in attendance who also were called to order by General Julian S. Carr, the national chairman, this morning. Governor J. M. Terrell welcomed the delegates on behalf of the state, while Mayor J. G. Woodward welcomed them on behalf of the city of Atlanta. Bishop F. Callor of Tennessee said the prayer and was followed by E. Henry Byrnes of Connecticut, who gave a review of the origin of the organizations and a brief account of the meetings in St. Louis and Washington. Then followed addresses of greeting by General J.

## PERKINS WAS ARRESTED ON THEFT CHARGE

A Member of Morgan's Firm and an Insurance President.

## THE COURTS WILL DECIDE

Whether Giving of Insurance Funds to Campaign Committees Is Theft.

New York, March 28.—District Attorney Jerome held a conference with Police Magistrate Moss and Justice Devlin of the supreme court, at which it is reported Jerome secured either the warrant for the arrest of a prominent official of one of the big life insurance companies, or a summons to appear in John Doe proceedings.

## Taken to Higher Court.

George W. Perkins, formerly vice president of the New York Life, was today arrested on a warrant charging him with grand larceny in the first degree. The warrant was issued by Justice Greenbaum, in the supreme court, for a writ of habeas corpus, directing the production of Perkins before Greenbaum. The writ was granted.

This proceeding takes the case from the jurisdiction of the magistrate, and carries it directly to the supreme court, which, however, is not the highest court in the state, there being the appellate division and the court of appeals, still higher, to which the case can be appealed.

Perkins was arrested by a detective from the office of the district attorney. When Magistrate Moss adjourned his court at noon, he said he was waiting for Perkins to be brought before his court, but he had not appeared.

In the petition in which Perkins asked for a writ of habeas corpus, he declared that he was "imprisoned and restrained of liberty" by a detective, and that he had not been committed by the judgment of any tribunal.

When Perkins appeared before Judge Greenbaum, his counsel asked leave to demand the writ, and the argument was postponed. Judge Greenbaum agreed that the argument on the writ be postponed until Friday.

## Arrest Was Only Technical.

George W. Perkins, member of the firm of J. P. Morgan & Co., and formerly vice president of the New York Life, was technically placed under arrest today, in the proceedings which District Attorney Jerome has begun to test the legality of political contributions by insurance companies. The allegation in the writ was based on the transfer of \$48,702 of the funds of the insurance company to Cornelius N. Bliss, treasurer of the Republican National Committee in 1904. It is charged that Perkins received the money from the insurance company, and paid it to Bliss. The arrest of Perkins and the subsequent seizure of the writ of habeas corpus, will have the effect of bringing the highest court of the state to pass on the legality of campaign contributions by insurance companies. Much attention was directed to this matter at the recent legislative insurance investigation, and it was shown that several of the large companies on more than one occasion, had contributed such funds.

## NOTHING DONE TODAY IN COAL COMPROMISE.

Indianapolis, Ind., March 28.—The joint conference of the bituminous coal operators and miners, in the central competitive district, met today in what is generally understood to be a final effort to reach an agreement on the wage scale in Illinois, Indiana, Ohio and Pennsylvania.

The adjournment of yesterday's move has been made by either side, and the deadlock is apparently as firm as at any previous time. There are no indications that the threatened strike can be averted.

## Lead and Copper.

New York, March 28.—Lead and copper, steady and unchanged.

## UNSOLICITED LETTER FROM HYDRAULIC ENGINEER JONES

On the Water Bond Question--It Will Be Suicidal to Interests of Albuquerque to Purchase the Old Plant at Any Price.

To The Evening Citizen:

Having followed, with keen interest, the discussion presented in the city papers, concerning the proposed bond issue of the city of Albuquerque, at the approaching election, for the purpose of purchasing and extending the present water system, I would be glad to give my idea and conclusions, in your valuable paper, on this absorbing subject, which so vitally affects the future of our city.

At the outset, permit me to say that I have not heretofore expressed my views in the matter, either publicly or privately, and neither have I been called upon to make a statement, in the press, by anyone; but, the conclusions drawn have been reached through careful observations and deliberate study. Furthermore, it is hoped that no one may take exception to an honest opinion, reached in a conscientious manner, which all of us owe as a duty toward good citizenship. It is believed by the writer that he has held the confidence and esteem of most of the members of the Water Supply company, and any opinion expressed concerning the present water plant are not founded on grievances of a personal nature. In my mind, any conclusions affecting the solution of economic problems in sanitary, hydraulic and mechanical engineering should not be operative when sought through malice or revenge.

What occurs to me the proper step for the city council to have taken before ever allowing an opportunity to vote on a bond issue, would have been to select not less than THREE COMPETENT HYDRAULIC ENGINEERS to pass on the question of whether or not it would be wise or judicious for the city to take over the existing water plant as it now stands; the reason for this will be made plain further on. This step should have followed immediately after Mr. Riffe made his report.

Permit me to say, with all due respect to the public in general, that the masses are wholly incompetent to pass on the requirements or efficiency of any water system; this is absolutely a question for the hydraulic engineer, alone, to settle. The people, however, can readily pass on the efficiency of the service after the plant is once installed; but the conditions as to HOW the service was obtained passes from them into the broad field of the science of engineering.

Now, to the point: Throughout the whole of the water discussion, no person has ever been able to definitely show that water could be furnished ANY CHEAPER by the city after purchasing the plant, than what the present company is now doing.

Again, from an engineering and geological standpoint, a gravity flow of water from the mountains is not only possible, but is a certainty. A flow of at least 6,000,000 gallons of pure mountain water, every twenty-four hours, can be developed at the base of the Sandia Mountains, east of the city, in fully three or more localities; this, in my mind, is true beyond the peradventure of a doubt. Even the Jemez country is not beyond our reach, since the city of Los Angeles will bring its water by a gravity flow for a distance of one hundred and fifty miles. Should the water come from that source, the problem now occupying the attention of the Commercial Club, in irrigating the valley to the north of the city, could thus be partially solved.

Let me say right here, to the people of Albuquerque, that the present system of pumping water up hill and then letting it run down again is entirely wrong. Why not utilize gravity, this universal force of nature, so generously placed at our disposal, without money and without price? The many advantages of this system are obvious to all.

The chief residence portion of the greater Albuquerque is destined to be on the mesa, about the University Heights. A bill is now pending in congress for a whole section of land on the Highlands, to be set aside for the city's principal park. It is said that the Highlands are by right and must be supplied with water. Can the present system do it advantageously?

Lastly, let us examine into the potency of the present plant before voting the bonds for its purchase.

In the first place, let me say that the present water plant, insofar as it goes and the quality of water furnished, there can be found but little objection. The kalamela pipes are better than many would have them to be. So far, so good; but the vital point of the whole question that most concerns the city, if the city maintains its present growth, lies in the inability of further efficient extension of the present distributing system.

IN FACT, THE LIMIT OF EFFICIENCY IS NOW REACHED, AND PERHAPS SLIGHTLY SURPASSED. This more especially applies to the fire service, rather than to lawns and domestic uses.

Doubtless, the question will be asked: How do we know this to be a fact?

The reply is easier given than it would be to correct the evil. The difficulty lies in the SMALLNESS of the chief distributing mains. The only solution of this problem, if we wish to build for the greater Albuquerque, is that the present system of mains be replaced by larger ones. This then would mean the inevitable reconstruction of the WHOLE DISTRIBUTING SYSTEM, and is doubtless the most serious question now confronting the Water Supply company. IT IS CHIEFLY FOR THIS REASON THAT THE CITY SHOULD NOT BUY THE PRESENT PLANT AT ANY PRICE, NOW SOEVER SMALL.

Were the distributing pipes on an average of six inches in diameter greater, then there would most certainly be one good reason for purchasing the present plant; and, for myself, I am a strong believer in municipal ownership of public utilities.

The extra \$50,000, above the \$250,000 for the purchase of the present plant, as set forth in the proposed bond issue, would not be sufficient to make these changes for a more effective distributing system, much less to extend into new territory. MUCH OF THE OLD PIPE WOULD UNAVOIDABLY BE SPOILED IN TAKING IT UP AND THE CITY WOULD SUFFER A CORRESPONDING LOSS THEREFROM.

Another feature of the present plant that is undesirable, is the location of the pumping station. This, by all means, should be one or two miles up the river from its present site. It is not to be inferred that the water is in any way contaminated; but it is not the place to get the water supply from the heart of the city, as there is a certain degree of risk, regardless of the greatest precautions.

In summing up the whole proposition, it cannot be shown that water could be furnished any cheaper through municipal ownership of the present plant, than what the Water Supply company is now doing.

It is certain that plenty of pure mountain water can be had, by a gravity system; thus, forever eliminating the constant expense of pumping by costly machinery. The storage reservoirs would be located far away from the dust and smoke of the city. The Highlands or mesas would become the great residence section of the city, and would be supplied with water with as much ease as under the gravity system, as the low lands in the valley. The hydraulic pressure head could be made any desired unit for fire protection. The new park grounds that congress will doubtless set apart for our use, could be beautified.

I beg to say, in conclusion, that it would be far better to extend the existing franchise to a period of, say, twenty-five years, with the assurance of some reduction in the present water rate, THAN FOR THE CITY TO TAKE OVER THE PLANT AT ANY PRICE. OUR TAXES ARE NOW ALMOST PROHIBITIVE; WHY RUSH THE MATTER, WHEN WE HAVE EVERYTHING TO GAIN AND NOTHING TO LOSE, BY WAITING?

The time is not a great distance in the future until we are ready for municipal ownership of a modern gravity system, furnishing pure mountain water, that will ultimately prove our greatest drawing card for outsiders, and a genuine blessing to the denizens of the municipality.

Very respectfully,  
FAYETTE A. JONES.

## LABOR UNIONS TO CO-OPERATE

In Rio Grande Woolen Mills Company For Enlargement of Mills.

## COMMITTEES HOLD CONFERENCES

At last night's meeting of the board of directors of the Commercial club, a committee of the directors met with a committee from the Albuquerque Carpenters' union to discuss with them the cooperative plan for enlarging the Rio Grande Woolen mills, of which Mr. J. H. Bearup, president of the company is the official head.

Mr. Bearup had previously explained in detail his plan for enlarging the output of the mills to both the Carpenters' union and the Commercial club, and he desired these two bodies to get together through representatives, and discuss the matter pro and con, which was done at last night's meeting.

## Messrs. G. L. Brooks, W. S. Strickler and W. S. Hopewell represented the Commercial club, while the committee from the Carpenters' union was composed of Messrs. H. E. Rogers, W. C. Wickham, Matt Dred and Edward Field.

The cooperative plan was discussed at great length, President Bearup being present to explain any and all points that might arise, and while nothing definite was decided upon at last night's conference, a meeting of the same committee from the Commercial club and committee from all labor unions represented in the Central Trades and Labor union, was arranged for one day next week.

In brief, Mr. Bearup's plan for the enlarging of the mills is to have the people of Albuquerque and surrounding country cooperate with him, by taking stock, in blocks of \$50 to \$100 each, 12 1/2 per cent of which is to be paid in cash and the remainder in notes from the individual subscriber for the stock, believing that if 1,000 people of this vicinity would cooperate with him and associate themselves with the enterprise, it would be but a matter of a short time until the capacity of the mills could be doubled, and that in course of time

## PASSENGER TRAINS COLLIDE IN ARIZONA

Air Brakes Fail to Work on No. 2 and Train Smashes Into No. 3.

## FORTUNATELY NO ONE IS KILLED

Special to The Evening Citizen.

Flagstaff, Ariz., March 28.—At 9 o'clock last night, California limited train No. 3, which had the right of track over the east-bound passenger train No. 2, collided with No. 2 at Cocconino station, ten miles east of Flagstaff. Both engines were badly damaged and derailed. The mail car and baggage car of train No. 2 and buffet smoker of No. 3, were smashed, but the remainder of the trains were ready for regular service as soon as power could be had from Winslow. An train No. 2 approached Cocconino, sliding the engineer found, after attempting to apply his air brakes, that he had no control of his train, which ran into No. 3 at full speed. Owing to the fact that the limited train was not in motion, no one was killed, and only fourteen are reported injured, none of them seriously. The wrecking crew arrived soon after the collision. Both trains will soon be in motion.

## TOBACCO MAGNATE GETS DIVORCE FROM WIFE.

New York, March 28.—Brodie L. Duke, a relative of the president of the American Tobacco company, was today granted a divorce from his wife, Alice Webb Duke. They were married in this city, December, 1904. Duke's marriage to Alice Webb was followed by a series of sensational events, in which unsuccessful efforts were made by the relatives of Duke to place him in an insane asylum.

Spelter.

St. Louis, Mo., March 28.—Spelter, 3301 N. 2nd St.

## JEALOUSY IS CAUSE OF A TEXAS CRIME

Lover Waylaid Young Lady With His Rival and Shot

## THEM BOTH AND HIMSELF

In Mafia Fight Six Italians Are Killed in Their Home Place.

Dallas, Texas, March 28.—Will T. Walker waylaid Grover Recard and Myrtle Smith last night, as they were returning from a skating rink. He shot them both and then killed himself. The victims will probably recover. Jealousy seems to have been the cause of the crime, although the two men had previously been friendly in their rivalry.

## SIX ITALIANS KILLED

IN FIERCE KNIFE FIGHT.

Minneapolis, Minn., March 28.—Six Italians, victims of a terrible battle with knives, were found dead in an Italian lodging house here today. When the police discovered the crime, the place bore evidence of a struggle in which it is believed that at least twelve men participated. None of the bodies have been identified, and the neighbors deny any knowledge of the affair.

It is believed this afternoon that nine of the men constituted a Mafia party, and were searching for men marked for murder. They had occupied the house for some time, and last night there were three new faces. About midnight the fight started, and shortly afterward six men were seen to leave. The dead men had been mutilated but not robbed, and this leads the police to believe that it was the work of a Mafia committee.

## PRESBYTERY STILL IN SESSION HERE

There were three sessions of the Rio Grande Presbytery held yesterday and a similar number today. It is expected that the meeting will adjourn at the close of this evening's session, so as to permit the delegates who are becoming anxious to return to their fields, to depart upon the night trains. So far, the work placed upon the delegates has been heavy, with but a minimum of time for recreation.

At the forenoon session Mr. J. Barrios and Mr. S. S. Van Wagner were examined for licensure. These two candidates, also Mr. W. H. Du Bose, who has been licensed at this evening's session.

J. E. Gutierrez, A. Soto, C. Salas and N. Gurule, were examined and taken under the care of the Presbytery as candidates for the gospel ministry.

Most of the fields of the Presbytery have been provided for during the coming year.

The Rev. Frazier has announced his intention of resigning the pastorate of Socorro church, which has not yet selected his successor. The vacancy in Deming church occasioned by the removal of the Rev. Theo. Hoppling to California, is to be filled by Mr. H. Du Bose, who has been supplying the Albuquerque church during Mr. Cooper's absence in the east.

The next meeting of the Presbytery of Rio Grande will, it is understood, be held in Deming.

## THE WRECKED NO. 2 REACHED THE CITY

## THIS AFTERNOON, BRINGING IN THE INJURED PASSENGERS.

The ill-fated No. 2 arrived at 3:15 this afternoon and composed the chair car, several tourist sleepers and three private cars, the baggage, express and mail cars having been derailed in the collision. The private car carried a party of nineteen Raymond-Whitcomb excursionists, who had been on a visit to the Grand Canyon, and the passengers in it fared the worst. Mrs. James C. McDowell of Portland, Me., was badly bruised about the head and is feared received serious internal injuries. Each of three of Mrs. McDowell's daughters were injured, but not seriously. James Morton of Quincy, Mass., was another of the excursion party injured. He was severely bruised and has three ribs broken.

The second car to the last was the private car of Mrs. N. T. Rogers, wife of Attorney Rogers of the Colorado Midland railway. In Mrs. Rogers' party were five ladies, but all miraculously escaped serious injury. The colored cook on this car had a hip dislocated by being knocked down by a piece of flying furniture.

Alexander Smith Cochran, a prominent carpet manufacturer of Massachusetts, occupied the next car. The furniture in Mr. Cochran's car suffered more damage than any of the others, but none of the occupants, consisting of himself and family, suffered more than slight bruises from bumping against the car and being hit by flying furniture.

Many of the passengers of the tourist cars, especially those who were in their berths at the time of the collision, received bruises about the head and shoulders. Blackened eyes were to be seen in every car, and one car, that next to the Cochran private car, resembled a hospital, from the white bandages displayed by the injured.

Three engines were smashed into a pile of twisted iron and wood in the wreck. The engine-men escaped by jumping. The most seriously wounded were taken from the train here for medical treatment.

## RIVERS RISE AND DESTROY POSSESSIONS

Of Much Value in Iowa, Wyoming and Nebraska.

## TRAFFIC IS DEMORALIZED

Johnstown Now Threatened With Total Devastation By Fire.

Waterloo, Iowa, March 28.—The water in Cedar river rose more than eleven feet last night and early this morning broke the levee, flooding the business districts of Waterloo. Hundreds of families were homeless, and the railroads are tied up. Cedar Falls reports a similar disaster and says that 200 families are rendered homeless there.

## RECLAMATION WORKS HAVE BEEN DESTROYED.

Casper, Wyo., March 28.—The North Platte river is rising at an alarming rate. It is reported here that the great diversion dam at Alvora, erected by the reclamation service as a temporary structure to divert the water while the Pathfinder dam is building, has been washed away, and that the accident will seriously interrupt the completion of the government enterprise.

## SOUTH PLATTE FEELS THE FORCE OF FLOODS.

Lincoln, Neb., March 28.—Three spans of the south channel of the Platte river bridge at Sioux City, and a portion of the Chicago Great Western railroad have been washed out by flood. Traffic is completely paralyzed on this railroad line. There is much danger from ice gorges at other places.

## CLARK'S ROAD LOSES ONE HUNDRED MILES.

Salt Lake City, Utah, March 28.—The Tribune says today that through service on the Clark road will not be resumed before May 15. One hundred miles of track has been washed out by the late floods. Reconstruction at both ends of the break has been started.

## JOHNSTOWN TRIED BY FORCE OF RAGING FIRE.

Johnstown, Pa., March 28.—For three hours immediately after midnight this morning, the Johnstown business section was threatened with destruction by fire, which was placed under control only after it had practically burned a hole through the city. The fire, which was estimated at \$800,000, and the death of Fireman William Campbell, who was caught under a falling wall. It is also reported that G. H. Santamours, a telegraph operator, is missing.

## TO PURCHASE BACH HOUSE IN EISENACH.

London, March 28.—With a view of purchasing the house in Eisenach, where Johann Sebastian Bach, the great German composer was born, the German Bach association, some time ago appealed for a sum of \$7,500. At the end of last year one half of that sum was collected and the first instalment of the purchase money was paid. The second instalment must be paid by the end of April, and with a view to obtaining a handsome contribution from London musicians, the directors of the Queen's hall orchestra propose to hold a concert at Asolian hall on May 1, the cost of the tickets to be one guinea each. The orchestra will, as far as possible, be on the scale of the usual Bach festival orchestra, and the program will consist entirely of Bach's compositions, including the humorous cantata "Phoebus and Pan" and the chaconne from the second partita in D minor, which will be played by Mrs. Edgar Speyer, the wife of the chairman of the orchestra company.

## MICHIGAN DAIRYMEN HOLD JOINT SESSION.

Traverse, Mich., March 28.—The joint meeting of the Michigan Dairymen's association and of the Grand Traverse Dairymen's association opened here this morning with a large attendance from all parts of the state. The mayor of the city welcomed the members and Secretary S. J. Wilson responded. President Colon C. Little, then delivered his annual address, which was listened to with the greatest interest. Mr. A. P. Gray also delivered an address.

There will be a session in the afternoon, when Prof. C. D. Smith, dean of the Agricultural college at Lansing, and Dr. L. L. Conkey, president of the Grand Rapids Veterinary college will deliver addresses. In the evening session Dr. Floyd W. Robinson, the state analyst, Deputy Commissioner Colon C. Little and Prof. C. D. Smith will speak. There will be a morning and an afternoon session tomorrow with several highly interesting addresses.

## One Conference Absorbs Another.

Baltimore, Md., March 28.—The annual meeting of the Baltimore conference of the Methodist Episcopal church opened here today at the Madison Avenue Methodist Episcopal church on Madison and Lafayette avenues. About two hundred clergymen and about as many laymen were in attendance when the conference was opened. The conference is of special interest and importance on account of the fact that the matter of the absorption of the Virginia conference by the Baltimore conference will be decided here, which will make a rearrangement of the appointments for the Virginia district necessary. A committee consisting of five presiding elders has decided in favor of the absorption and will so report to the conference, which will undoubtedly approve the report.

## LIVE STOCK IN FINE CONDITION

INSPECTOR WALTER O'BRIEN  
SAYS THERE IS NO DISEASE  
AMONG NEW MEXICO CATTLE  
OR SHEEP.

Walter O'Brien, of Las Vegas, in-  
spector of the cattle sanitary board, is  
very enthusiastic over cattle condi-  
tions of the territory.

"Take the territory as a whole," he  
said, "and there is less disease among  
the cattle at present than at any time  
since my connection with the board. Apart  
from a few cases of scab, which is  
now nearly exterminated, there is  
not a single disease among the sheep."

"The rain of the last few days,  
which has been general throughout  
New Mexico, will do a world of good  
for the cattle and sheep. It has  
started the grass growing and in a  
short time there will be the finest of  
pasture, so that live stock owners can  
rest easy on that score. The cattle  
and sheep have passed a good winter,  
and are now in condition to take on  
flesh. I expect to see more fat cattle  
shipped out of New Mexico this year  
than ever before."

"The cattle industry is growing,  
and there are many men engaged in  
the business at present."

A Lively Tussle.  
with that one end of the race, con-  
stitution, often ends in appendicitis.  
To avoid all serious trouble with stom-  
ach, liver and bowels, take Dr. King's  
New Life Pills. They perfectly regu-  
late these organs, without pain or  
discomfort. 25c at all drug stores.

STORY THAT FRANK EASTON  
WAS KILLED IS DENIED.  
A report was brought to Roswell  
that Frank Easton, the Main street  
restaurant man, had been shot and  
killed by two drunken men, whom he  
was trying to put out of his new  
restaurant at Sunnyside, on the cut-  
off of the Santa Fe, says the Record.  
His local manager, S. A. Pierce, tele-  
graphed to Bob Maddox, at Texico, to  
learn the truth, and the answer came  
that the story was without foundation.

Not Worth  
the Living

Sorry Condition of Many Today—Lib-  
eral Offer Made by J. H. O'Reilly  
& Company.

Those who never have any stomach  
troubles and whose digestion is like  
that of an ostrich, cannot possibly un-  
derstand the sorry condition of many  
in Albuquerque today.

Life does not seem worth the living;  
they bear up with nervous irritation,  
sleeplessness, pain and misery in the  
stomach, headaches, backaches, and  
have a constant fear that what they  
eat is going to disagree with them  
and cause still greater distress.

In Mi-na there is a remedy that re-  
stores the lost functions of the di-  
gestive system, revives flagging nutri-  
tion, and aids in the assimilation of  
food. This remedy soothes and heals  
the irritated and inflamed walls of the  
stomach, strengthens the nerve cen-  
ters of the digestive system, and  
makes a permanent and positive cure  
of all forms of stomach trouble, ex-  
cepting cancer.

J. H. O'Reilly & Co. make a very  
liberal offer in connection with Mi-  
na, giving a guarantee with every  
fifty-cent box they sell, that if the re-  
medy does not give satisfaction, it will  
cost nothing. Begin its use at once,  
and see how quickly you will get re-  
lieved.

BIDS WANTED.

Bids will be received at the office  
of the clerk of the board of county  
commissioners of Bernalillo county, up  
to 10 o'clock in the forenoon of Sat-  
urday, April 14, 1906, at the court  
house in said county, Albuquerque,  
for the doing of the following work:

First, for repairs and additions to  
the county bridge over the Rio Grande  
at Bernal.

Second, for reconstruction of a por-  
tion of the county bridge at Corrales,  
third, for work done in and in the vi-  
cinity of the Alameda dike.

Fourth, for dike construction at  
Atrisco and other work for the pro-  
tection of property from floods in that  
vicinity.

Bids can be submitted for either or  
all of said four different pieces of  
work, and the board reserves the  
right to reject or accept any or all  
bids.

Said work is to be done according  
to specifications which can be seen  
upon application to the clerk of the  
board at the court house.

By order of the board of county  
commissioners.

A. E. WALKER,  
Probate Clerk and ex-Officio Clerk of  
the Board of County Commissioners of  
Bernalillo County, New Mexico.  
March 24, 1906.

Always Keeps Chamberlain's Cough  
Remedy.

"We would not be without Chamber-  
lain's Cough Remedy. It is kept on  
hand continually in our home," says  
W. W. Kearney, editor of the Inde-  
pendent, Lowry City, Mo. That is  
just what every family should do.  
When kept at hand ready for instant  
use, a cold may be checked at the out-  
set and cured in much less time than  
after it has become settled in the  
system. This remedy is also without  
a peer for croup in children, and will  
prevent the attack when given as soon  
as the child becomes hoarse, or even  
after the croupy cough appears, which  
can only be done when the remedy is  
kept at hand. For sale by all drug-  
gists.

WILLING HELPERS.

What's the use of a helper, if  
he isn't willing? Willing is an  
ample mantle which will al-  
most cover all the sins of serv-  
ice. But a classified advertise-  
ment in The Evening Citizen is a  
willing helper that is not only  
absolutely competent, but also is  
a willing worker. It works all  
the time for you. It is the best  
and most economical publicity in  
the world.

It will not cost you a cent to try  
Chamberlain's Stomach and Liver  
Pills, and they are excellent for  
stomach troubles and constipation.  
Get a free sample at any drug store.

## TWO GREAT PRODUCTIONS TO BE RENDERED BY ACTOR HANFORD

At Elks' Opera House, Saturday, March 31—"The Merchant of Venice" and "The Taming of The Shrew."

Every season brings to attention some prominent actor or actress who is anxious to add to laurels won in the modern drama, those of the Shakespearean interpreter. To this end large sums of money are expended, and advertising liberally, not to say indiscriminately, induced in. The result, however, usually demonstrates that the Shakespearean drama is not to be taken up as an incidental enterprise for the gratification of a personal ambition to reap the maximum

the undisputed masters of their art. Mr. Hanford has had the satisfaction of winning the applause and the thoughtful approval of immense audiences during his present season. The casual amusement seeker has found wit and humor such as the modern farceur could not equal, and the student has discovered new delights in observing the infinite variety of Shakespeare's alert and untrifling genius. The productions are made with a liberality worthy of an at-

## For a Good Complexion

FOR Clear Eyes  
—Sweet Breath  
—Clean Tongue  
—Calm Nerves  
—Good Temper and  
—Poise

Eat a Cascaret whenever you suspect you need it. Carry a little 10c Emergency box constantly with you, in your Purse or Pocket.

When do you need one?

—When your Tongue is coated  
—When you have Heartburn, Belching, Acid Reflux in Throat.  
—When Pimples begin to peep out.  
—When your stomach Gnares and Burns.  
That's the time to check coming Constipation, Indigestion and Dyspepsia.  
That's the time to take a Cascaret.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth. One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you. Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach. They don't act like "Physic" that flush out the Bowels with a waste of precious Digestive Juice needed for tomorrow's Bowel-work.

No, they act like Exercise, on the Bowels, instead.

They stimulate the Bowel Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

This stronger action, producing greater nutrition from food, brings back to the Bowel-Muscles greater strength for self-operation.

The Bowel-Muscles can thus, in a short time, dispense with any Drug assistance whatever.

Cascarets are safe to take as often as you need them, while pleasant to eat as Candy.

Then carry the little ten-cent box constantly with you in your purse, and take a Cascaret whenever you suspect you need it.

One Cascaret at a time will promptly cleanse a foul Breath, or Coated Tongue.

All druggists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

**FREE TO OUR FRIENDS!**  
We want to send to our friends a beautiful French-designed, GOLD-PLATED BOMBON BOX, hard-enamelled in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this dainty trinket is loaded. Send to-day, mentioning this paper, Address: Sterling Remedy Company, Chicago or New York.

## BROTHER WILLIAM IS NOT LIKE JOHN D.

WM. A. ROCKEFELLER.

The personality of Wm. A. Rockefeller, second son of the horse trader of Tioga county, N. Y., who is reported as a victim of cancer, has always been overshadowed by his brother, John D.

Yet he is the second richest man in the United States. He is a wonderfully big man in the world of finance. No two brothers could be less alike. William A. possesses a just moral courage. He has always been physically a strong man. He was frank and open. He made many friends, who regarded him as a man of happy character, optimistic and good natured in his independence.

At 17, William, who was two years younger than John, left school and became bookkeeper for a miller. At 21 he was a partner in a rival concern. Then he went into the oil business with John. When Standard Oil became big, William went to New York as first vice president and eastern representative, and he has managed with singular success the speculative end of the colossal monopoly.

Wall street thinks he knows more of the details of Standard Oil than John D. himself.

William Rockefeller married Almira Goodsell, and their first son, William G. Rockefeller, married Ella Stillman, the daughter of James Stillman, president of the National City bank. In this way William Rockefeller became intimately associated with the most powerful moneyed interests in the world. His second daughter, Emma, married Dr. David Hunter McCallister. Percy Avery Rockefeller, the third child, married Isabel G.

Stillman, and the fourth child, Ethel Geraldine Rockefeller, now in her 26th year, is unmarried.

The real head of the gigantic amalgamation of railroad and industrial interests affected in the United States in the last ten or fifteen years is William Rockefeller, who succeeded Cornelius Vanderbilt in that powerful connection. Thus the Vanderbilt and Rockefeller interests are allied, controlling one-fourth of the railroad mileage of the United States.

William is today director or trustee of no less than forty-one great corporations, whose combined capital represents more than a billion of dollars.

The fad dearest to the heart of William Rockefeller has been the improvement of his Adirondack estate. He bought 25,000 acres of beautiful mountain country, and from time to time has increased it until today it embraces more than 50,000 acres.

He has had bitter disputes and numerous lawsuits with the holders of small properties in the path of his scheme for possession. The only time he has ever placed himself under the protection of an armed guard was when he commended himself to danger of assassination after he had driven native trappers, guides and fishermen from his estate.

His property is guarded in this day and through the streams running through it have been stocked with fish at the expense of the state, his guards have orders to shoot down trespassers.

Like his brother William regularly attends the Baptist church.

### SIR THOMAS WILL COMPETE

THE SHAMROCK III WILL BE ENTERED FOR THE KING EDWARD CUP.

The following telegram, dated from New York, March 26, will be read with interest by local admirers of yacht races, and especially by those who are acquainted with Mr. Cromwell, and know the interest he takes in such sports:

New York, March 26.—After the meeting of the New York Yacht Club, today, Oliver E. Cromwell, chairman of the regatta committee, made the statement that he was unofficially informed that Sir Thomas Ligon would be a competitor with the Shamrock III in the America's Cup challenge.

The restaurants of New York are now charged with raising prices when you don't order drinks with your food. Asking on the theory, no doubt, that if you don't drink you must be a stranger.

spring cups on the sound. The conditions restrict the entries for the king's cup race to American yachts, but Sir Thomas is a member of the New York Club and the Shamrock III is enrolled regularly both in the New York and Atlantic Yacht clubs, and her eligibility for the race is said to be beyond dispute.

**A Scientific Wonder.**  
The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cures E. R. Mulford, lecturer for the Bureau of Husbandry, Waynesboro, Pa., of a distressing case of piles. It breaks the worst barns, warts, boils, ulcers, wounds, chills, blains and skin plums. Only 25c at all drug stores.

**MEN AND WOMEN.**  
The big cure for all skin diseases, itching, burning, eruptions, pimples, and all sorts of skin troubles, is Bucklen's Arnica Salve. It cures all sorts of skin diseases, itching, burning, eruptions, pimples, and all sorts of skin troubles. Only 25c at all drug stores.

FRANK McKEE, Mayor.

NOTICE FOR PUBLICATION.

(Small Holding Claim No. 548.)  
Department of the Interior, United States Land Office, Santa Fe, N. M., March 5, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under Sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before the U. S. Court Commissioner at Albuquerque, N. M., on April 11, 1906, viz: Pilar Vigil, for the Lot 1, Sec. 25, T. 7 N., R. 2 E., and in Sec. 30, T. 7 N., R. 3 E., lot 2, Secs. 25 and 26, T. 7 N., R. 2 E., and Tract A in lot 3, in Sec. 35, T. 7 N., R. 2 E., and Tract B, lot 3, Sec. 35, T. 7 N., R. 2 E., and Sec. 2, T. 6 N., R. 2 E.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Edward P. Otero, of Albuquerque, N. M.; Sisto Baco y Baca, of Albuquerque, N. M.; Mariano Vigil, of Albuquerque, N. M.; Placido Salazar y Otero, of Albuquerque, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the Interior Department why such proof should not be allowed will be given an opportunity at the above-mentioned time and place to examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

MERCHAND TAILORING

UPSTAIRS, OVER NO. 209 WEST RAILROAD AVENUE, O. BAMBINI, PROPRIETOR.

My merchant tailor shop is upstairs over No. 209 West Railroad avenue, where I solicit the patronage of the public. All work guaranteed first class, as I have had fifteen years' experience in the business. Suits made to order. Clothes cleaned, pressed and renovated. The specific I use will not injure the cloth. Ladies' garments also cleaned and walking skirts made to order. Give me a trial.

O. BAMBINI.

COMING EVENTS

March 31—Charles Hanford Company in Shakespearean Plays, at Elks' Opera House.

Business Manager

## Full of Folly

The Morning Journal today contained an editorial, under the caption, "Common Sense," which for downright idiocy takes the palm over everything which even that feeble-minded paper heretofore put forth. The fact is, the water organ, as the chief party to be benefited by unloading the water plant upon the city, at an extortionate price, has become so excited in its effort to get the money, that it has actually become an imbecile.

It talks about a "gang" which wants to prevent the city's buying the waterworks, because some time in the future that gang hopes to have a new water plant without steam power and to which the gang can then sell electric power; yet the president of the Journal outfit and a gentleman in Denver constitute the only company in Albuquerque, today, having electric power to sell.

Again, it claims that the present bi-party ticket is a waterworks ticket, which many had already charged, and thus furnishes material for attack upon the very ticket it is trying to support. Yet the fact is that the proposed ticket, if elected, can do no more for the purchase of the water plant than the present council could do. The new government will not be able either to buy the plant or extend the franchise. Either of these things can be done only by the people at an election.

What, then, is the water organ trying to drive at? Why does it not cease its maudlin meanderings about The Citizen, or Dr. Harrison, or any one else, having financial interest in opposing the purchase of the plant? The people know that no such interest exists. What the public wants on this subject is not such idiotic utterances, as the water organ today spread through 132 lines of its editorial space; but they want to know whether the city can, with the present plant, supply water in larger quantity and at less price than the present company is doing, with the same plant. They want to know how much more than the \$300,000 proposed to be paid to the water company, the city must burden itself with before it can get even more water, not to speak of the price. They want to know where the company's pipes are and the size of them, and how much it will cost to put in larger pipe where needed and to remove the new pipe to other places. They want facts about the water plant, which the organ of the Water Supply company could furnish, but instead of giving which it turns out only childish dribble about a "gang" and the like.

## That Libel Suit

The Albuquerque Fakir Journal claims "that a libel suit was brought against the manager of that paper by Territorial Secretary J. W. Reynolds." The Journal, as usual, lies. The grand jury of the county of Santa Fe found an indictment for criminal libel against the president of the Democrat Publishing company, for libelous articles which appeared in the columns of the paper published by that company. The law does not seek to protect Territorial Secretary J. W. Reynolds; it intends to protect the citizen and not the official. The libel law of New Mexico is neither oppressive nor harsh; it is not near as hard as the common law in such a matter.

The Fakir Journal also claims that the libel consisted in "publishing the report that unsavory charges were made against the secretary when his appointment was pending for confirmation in the senate of the United States." Again the Journal lies. Where the libel comes in is not the publication of the statement that "unsavory charges were made against the territorial secretary when his appointment was pending for confirmation in the senate of the United States," but that the Journal in black type on white paper assured people that these charges were true, and made statements concerning the matter that were not borne out by facts.

In a criminal case it is the law that steps in to uphold the sanctity of the law and to protect the lives and property of citizens. Trying to charge responsibility and make it appear that Mr. Reynolds is to blame in the premises may go down with a few Albuquerque gangsters and money lenders who are behind the Albuquerque Fakir Journal, but with the majority of people that sort of humbug will have no effect. After all, the majority of the people believe in justice, fair treatment and a square deal, terms which do not seem to be understood by those who control the columns of the Fakir Journal.—New Mexican.

## For Citizen Readers

Today The Citizen publishes the first of three articles by Dr. James W. Bashford, resident bishop in China, of the Methodist Episcopal church, in which that distinguished divine discusses the Chinese question. They are full of meat, interesting and explanatory of many details, which the general reader knows nothing about. His suggestion for a new kind of exclusion act is especially worthy of note. The articles are copyrighted.

As resident bishop of China, Dr. James W. Bashford is in direct charge of the Methodist Episcopal missionary work in the orient. His station is at Shanghai. He was elected to the bishopric in 1901, and in the far eastern work succeeded the Rev. David H. Moore, who witnessed the opening of the war between Russia and Japan. At present Bishop Bashford is likely to see even as exciting times in China. He is best known at home as president of Ohio Wesleyan University from 1889 to 1904. He is a native of Wisconsin, and graduated from the University of Wisconsin, and from Boston University. He has had charges at Boston, Auburn, Mass., Portland, Me., and Buffalo, N. Y. He received the degree of doctor of divinity from the Northwestern University, in 1890.

With its usual inability to tell the truth about anything, the morning paper says that The Citizen, "seeing the overwhelming trend of public sentiment in favor of the fusion ticket, came out in support of that ticket." The Citizen has seen no such "overwhelming trend of public sentiment," any more than it has seen the innumerable exaggerations of utterance in which the microscopic mind of the Journal delights to revel. The Citizen gave its reason for accepting the bi-party ticket. That reason was plainly stated. The official city organization of the republican party was responsible for the ticket, and The Citizen has never bolted the action of its party. Whether the rank and file of the party will look upon the action of the city organization in the same light in which it appears to The Citizen, remains to be seen.

In the entire 132 lines of editorial by the water organ, this morning, was there a single argument why the city should buy the water plant? Was there the least glimmer of information as to the extent, location and capacity of the pipes of the plant? Was there any explanation of the meaning of Section 8 of the proposed contract between the city and the Water Supply company, in which the city binds itself to pay for certain extensions made or to be made? Does the organ tell where those extensions are, what is their extent, what must be paid for them? Not one of these things does the organ tell. Yet to buy the water plant, without knowing these things would be buying a pig in a bag, would be doing as no business man in Albuquerque would do in a private purchase of even small amount. How, then, can the people, without such knowledge, tax themselves for \$300,000?

The Citizen calls especial attention to the article of Dr. F. A. Jones, on the first page of this issue, concerning the purchase of the present water plant by the city. Let no reader of this paper fail to read this article. Concerning the ability, the attainments and the distinctiveness of Dr. Jones, there can be no moment's doubt. It is just what the people of this city need to know. Dr. Jones knows what he is talking about, having had experience as hydraulic engineer and designer of plants for several water supply companies.

## Knows From Egg

Sex of Chicken

C. W. WATERWAX.

Honolulu, H. I., March 28.—C. W. Waterwax, a local chicken fancier, claims he has discovered a process whereby he can tell the sex of an egg and whether it will be fertile or not. Waterwax has been experimenting with eggs since 1894 and is now in a position to give the results of his investigations to the world. He has used thousands of eggs in his experiments and kept two 50-egg incubators going all the time.

He claims to be able to tell whether the produce of any egg will be a rooster or a hen, and if the chick has a fair chance to reach maturity.

"I am willing to make a public test with 100 eggs," said Waterwax, "in order to prove my assertions. The eggs may be marked according to my prediction with an indelible pencil before being put in the incubator. In nine cases out of ten it will be found that I am right."

Mr. Waterwax claims that he is the first white man to possess this remarkable knowledge. Poultry papers are unanimous in declaring that there is no way of telling a fertile egg before putting it in the incubator. They maintain that even if the egg be broken, the germ cannot be seen with the naked eye.

Waterwax undertakes to teach the whole thing in five minutes. He declares that no mechanical devices or chemicals are used.

## Similar to Effort

By Our University

The Greek theater at the University of California at Berkeley, is built in a hollow of the hills, facing the Golden Gate. It lies at an elevation of four or five hundred feet above the sea level. From before it, the plain sweeps down in a gentle slope of two miles to the bay of San Francisco. Behind it rise, to a height of two thousand feet, the soft folds of the undulating range of hills. Encircling it are the aromatic pine and cypress, and against the skyline, the graceful, lace-like eucalyptus. Above, is the sky—blue, very blue sometimes, and made yet more blue by the floating masses of cloud. But again, it is not always blue, for sometimes there is, high above, a veil of welcome cloud or fog, gray in tone, which with an artist-loved mistiness of atmosphere, blends together theater, trees and sky—etherizing all into delicious dream.

The theater is built of solid concrete, indestructible cement and stone. In its soft gray, it is a thing of exquisite beauty.

Nine or ten thousand people can find place within the circle of this structure, and that number has now and again gone thence happy in the memories carried away. All of the thousands can see to every point and can hear without strain every sound.

A thing of beauty it is, and ready for the service of beauty in various forms. It is a spiritualizing emblem of our civilization. Fitted for academic ceremonial and for civic gathering, where display can be fully made and where a large concourse can be easily addressed. Its higher adaptation is for drama and music. Its ample stage gives opportunity for adequate representation of any play, or for accommodating the largest choruses and orchestras. How beautifully adapted for histrionic productions it is, has been seen in the presentation of Greek, classic French and Shakespearean drama. The simplicity of setting has given new meaning to the lines of the drama, and to their rendering by the actors. Although produced by amateurs, the Greek and French plays held and impressed immense audiences. And Shakespeare's "Twelfth Night," played by a professional company, was something this generation had not before witnessed.

It is a seminary of artistic and spiritual education. What has been done is but a foreshadowing of future effects. There is so much in opportunity—and the Greek theater gives the opportunity. The souls of the community seem hungering for an expression and satisfaction for their emotional longings. The thick air, the expensive seats, the meretricious surroundings of the indoor theater have not attracted and cannot attract and hold the heart's affection of the real music lover and student. Fashion, folly and fad have there dominated. But here nature and art meet together in undisturbed and sympathetic relation, all that is extrinsic to the very purpose of the hour is left behind and forgotten. In the spiritual service the Greek theater of Berkeley has so far rendered enough in uplifting the community as to make prophesies of its future influence unnecessary.

## Effort of Princess

To Protect Forests

It takes centuries in some parts of Europe for a new idea to penetrate the heads of the inhabitants. No wonder things move slowly in these lands, where the ways of the ancestors are good enough for the present generation and inventions are viewed as the works of the devil.

In Greece, Princess Sophia is president of the Society for the Protection of Forests. In Greek ovens, where bread is baked, a fire of wood is kindled in one compartment and in a compartment above it there is another fire of branches. When the oven is sufficiently heated the brushwood and cinders are raked out and the bread put in its place.

To protect the forests the princess labored to substitute coke and other fuel for wood.

At Athens alone there are over 200 bakers' ovens, and after immense effort twenty-five bakers were persuaded to try the new fuel.

They discovered that where 80 cents worth of wood was required to bake 700 pounds of bread, an equal amount of bread could be baked for 40 cents worth of coke, and better baked at that.

Competition will force all of the bakers to adopt the new fuel, and thus does a new idea find a foothold in a country as old as history.

## BERNALILLO COUNTY

DISTRICT COURT

Morgan Palace Injunction  
Suit Still Occupies Attention of Judge Abbot.

## MANY LEIS HAVE BEEN FILED

The injunction suit case of Andreas Romero against A. L. Morgan and C. F. Meyers, taken up by Judge Abbot yesterday in his chambers, was still being argued this afternoon. This is a suit emanating out of a contract held by A. L. Morgan, with C. F. Meyers as his bondsman, to build what is known as the Morgan Palace, a two-story business block in course of construction, on South Fourth street. The building was never completed by Morgan. The evidence shows that there have been filed against the property for work and material used in the construction as it is thus far constructed, as follows: By L. A. Dye, of the Rio Grande Lumber company, \$184.46; Nick Metz, for masonry work, \$1,087.50; J. L. Bell & Co., plumbers, \$1,000; J. C. Baldrige, of the J. C. Baldrige Lumber Co., \$2,251.86.

Suit to recover on the I. J. Dye account was filed today.

The defendants named in the complaint are Andreas Romero, Melton Chaves and A. L. Morgan.

The firm of Bachechi & Glom today filed suit against Santos Ortiz to recover on two promissory notes, one for \$291.53 and one for \$121.57, both made payable on June 6, 1905. O. N. Marron appears as attorney for the plaintiff.

The indictments returned by the territorial grand jury follow:

Territory vs. Claude Eggleston, assault to murder and assault with a deadly weapon.

Territory vs. Richard Briggs, assault with a deadly weapon.

Territory against Perfecto Perea, burglary.

Territory against Perfecto Verner, burglary and larceny.

Territory against Frank Jones, larceny of a shop.

Territory against Antonio Samora and Tomas Chavez, assault and battery.

## GENERAL ORDERS FOR COMPANY G

SEVERAL CHANGES IN NON-COMMISSIONED STAFF—OTHER PROMOTIONS MADE.

General orders have been issued by Colonel John Borradaile, colonel commanding the First Regiment, Infantry, National Guards of New Mexico, as follows:

March 27, 1906.

R. M. General Order, No. 25.

A vacancy existing in office of adjutant of First Regiment, Infantry, National Guards of New Mexico, caused by the resignation of Captain T. L. Krebs, Captain M. O'Donnell, regimental quartermaster, is assigned as acting adjutant, First Regiment, Infantry, National Guards of New Mexico, and will at once assume the duties of adjutant and quartermaster.

By order,

J. BORRADAILE,

Colonel commanding, First Regiment, Infantry, N. M. N. G.

R. M. General Order, No. 26.

A vacancy existing in non-commissioned staff of sergeant major, caused by the promotion of Second Lieutenant Henry Connelly, Louis Hanlin is this day warranted as sergeant major, First Regiment, Infantry, National Guards of New Mexico, and will report to regimental quartermaster for equipment, he being assigned to Company G.

Color sergeants Frank J. O'Keefe and Alexander McDowell have been discharged, as per R. M. O. No. 24, of March 20, 1906. F. R. Dyas and Nathan H. Frampton have been promoted as color sergeants of First Regiment, Infantry, National Guards of New Mexico, and assigned to Company G.

By order,

J. BORRADAILE,

Colonel commanding, First Regiment, Infantry, N. M. N. G.

## HERE'S A GOOD POINTER FOR THE SUCCESSFUL CITIZEN

Another pointer to use the columns of The Evening Citizen: In yesterday's issue, Dr. W. G. Hope advertised that his pocket-book, containing considerable money, was lost. It is seldom that a pocket-book containing money is restored to its owner, because the reward offered will not be as much as the money in the lost purse; hence the finding of Dr. Hope's money bag is a feather in the cap of The Evening Citizen. The purse was picked up by an attaché of the court house, and when the party read the notice in The Citizen yesterday afternoon, he soon located the rightful owner, and this morning made the doctor feel happy by restoring to him the pocket-book and all of its contents. And yet, in the face of these undeniable facts that advertising in The Evening Citizen pays, there are some who do not use printers' ink to their advantage.

Boss Patent Flour. You know it is good. 45¢ and \$1.30 per sack. Albuquerque Cash Grocery Co., Marble Avenue.

## ATTENTION!

All the boys, the young men and the parents of those interested in the organization of Leonard & Lindemann's band are invited to be present at a meeting to be held in our store at 206 West Gold Avenue, Thursday evening, at 7 o'clock.

We will explain our plans, and what we hope to accomplish; also terms for membership.

LEONARD & LINDEMANN.

## IN SESSION THREE DAYS

New Mexico Association of  
Congregational Churches  
and Mission Teachers

WILL BE HERE APRIL 6, 7 AND 8

The New Mexico association of Congregational Churches and Mission Teachers will meet in the First Congregational church in this city Friday, Saturday and Sunday, April 6, 7 and 8, at which time the general topic to be discussed by the association will be "The School and the Church."

Many prominent divines of the Congregational churches in the west will be present at this meeting, among whom will be Rev. Warren F. Day, D. D., Pastor Emeritus of the First Congregational church of Los Angeles, Cal., who will occupy the pulpit Sunday evening, April 8.

A pleasing feature of this meeting will be the dedication at the Sunday, April 8, morning services, of the new handsome pipe organ, which has just been received and placed by this church. The organ is the first of this noble type of instrument to be used or heard in Albuquerque and is the finest organ to be found in either of the two territories. Dr. Charles L. Small, of Cleveland, Ohio, will preach at the morning services.

On the evening of April 5 the membership of the Congregational church will give a concert in the church social rooms, under the directions of E. L. Washburn, at which time the new organ will be heard for the first time. Mrs. Raymond Lester, of Alabama, will be the organist.

The program for the three days' session of the Congregational churches and Mission Teachers is as follows:

**Friday.**  
General Topic—"The School and the Church."  
8:00—Devotional Service, Rev. Moyer.  
8:30—Associated Sermon, Rev. J. H. Heald.

**Saturday Morning.**  
9:00—Devotional Service, Rev. S. Hernandez.  
9:30—Organization and Business.

10:00—"What May the Public Schools Expect From the Church?" Prof. J. E. Clark.  
10:20—"What May the Church Expect From the Public Schools?" Rev. J. W. Barron.

11:00—"Mission School Work in New Mexico," Mrs. Collins.  
**Saturday Afternoon.**

2:00—Devotional Service, Mr. Bulard.  
2:30—"Do We Need Any Reform in the Method and Instruction of the Sunday School?" Prof. C. E. Hodgkin.

3:00—"Education as a Necessary Basis for Higher Religious Ideals," Dr. Tight.  
Discussion.

4:00—"Home Missionary Problems," Dr. Kingsbury.

**Sunday Morning.**  
Dedication of new organ.  
9:45—Sunday School, Prof. C. E. Hodgkin, superintendent.

11:00—Morning worship, (sermon), Dr. O. H. Small, of Cleveland, Ohio.  
**Sunday Afternoon.**

2:00 to 4:00—Hour, Mrs. J. H. Heald and Mrs. S. Porterfield.  
**Sunday Evening.**

7:30—Sermon, Rev. Warren F. Day, D. D., Pastor Emeritus First Congregational church, Los Angeles, Cal.

## RELATIVE TO SHEEP AND PERSONAL PROPERTY

ASSESSMENTS, ACCORDING TO  
OPINION OF DISTRICT ATTORNEY  
CLANCY TO ASSESSOR ALBRIGHT.

The following opinion of District Attorney Clancy has been submitted to the assessors of the Second judicial district, regarding the assessment of sheep. The opinion is of general interest, especially to sheep owners and should therefore be carefully read:

March 27, 1906.  
Mr. George F. Albright, Assessor of Bernalillo County, Albuquerque, New Mexico.

Dear Sir:—I have been asked by persons interested in the assessment and taxation of sheep, to advise you as to the condition of the law with regard to the county in which such property must be assessed, and therefore, write you this letter, so that you may avoid any mistake on this subject.

The general rule of law is that personal property is to be assessed where the owner resides, and in New Mexico, this rule is also set out in the statutes. Section 4027 of the Compiled Laws, declares that "all personal property shall be listed and taxed in the county where the owner resides, on the first day of March of the current year." This statute was a part of the revenue law of 1882, and remained unchanged and unmodified until 1899.

In that year, by section 32, of chapter 22 of the Laws of 1899, it was provided that all sheep owned by residents of the territory should be listed and assessed in the county wherein the owners reside. Thus far this had no effect upon the previous statute, but this section went on to provide for the assessment of sheep in the counties where they are grazed, unless the owner should produce a certificate from the assessor of his own county showing that the sheep had been actually assessed in that county. The object of this statute was to prevent sheep owners from escaping taxation on their sheep by not returning in their home counties the full number which they might own.

By chapter 100, of the Laws of 1905, section 32 of chapter 22 of the Laws of 1899, was repealed and nothing enacted in its place. The effect of this repeal is only to wipe out all provision for the assessment of sheep in the counties where they graze if other than the counties where their owners live, and leaves the law as announced in section 4027 of the Compiled Laws in full force.

Under these circumstances I have to advise you that all sheep should be listed and taxed in the county where the owners reside, and not elsewhere.

Yours truly,  
FRANK W. CLANCY,  
District Attorney.

Just a Hot Tamale program, with hot tamales on the side. First Methodist church, 25 cents.

## SITUATION IS FIRST CLASS

Says Hon. B. S. Rodey, Speak-  
ing of the Statehood  
Question.

RETURNS FROM WASHINGTON, D. C.

Hon. B. S. Rodey, who has been in Washington, D. C., the past two and one-half months, acting in the interests of the people of New Mexico, in the joint statehood fight that has attracted the attention of the nation, returned to Albuquerque last night.

When seen this morning by representatives of The Evening Citizen, he said that he was tired and worn from the strenuousness of the past days, he discussed at length the situation as it is today.

"I'll give you an interview," he said, "that is based on knowledge that he possesses."

"What is the situation, Mr. Rodey, in Washington today, concerning the joint statehood bill?" was the first question asked of him.

"The situation today," he replied, "is first-class. New Mexico and Arizona never had a better opportunity to be admitted to the union as a joint state than now. Separate statehood, however, is out of the question, now, or at any time within the next twenty years. If either has any advantage in this respect, however, the advantage is with New Mexico."

"In my opinion, Arizona will not get into the Union as a separate state in the next twenty-five years. Easterners consider Arizona unfit in every respect for statehood. They think much the same concerning New Mexico, but not so emphatically. The idea is widespread, however erroneous it may be, that if Arizona was admitted separately the Mormons would control the state, and the powerful forces that are now fighting Reed Smoot to prevent his holding his seat in the senate, will see to it that Arizona is not admitted for the next two generations."

"If New Mexico and Arizona want statehood," he continued, "with the splendid donations of land and the magnificent cash grant that the present enabling act contains, then a majority of the voters in each territory must favor it at the polls next November, and adopt a constitution. If they defeat the constitution next fall, neither territory will get statehood at any time within the next generation, and even at that late day they must come in as a joint state and forego the land and cash now offered to them, because public sentiment against giving any state, individual or corporation, an acre of public land, or a dollar of the cash out of the United States treasury, save for value into the territory, but I will say that in my opinion the omnibus joint statehood bill, practically as it passed the house on January 25, last, will pass during this congress—perhaps, tomorrow, perhaps next week, or perhaps not until the close of the session, but with what is known as the 'first Foraker amendment,' if my guess is right, if it passes without that amendment I will be agreeably surprised."

"I left Washington last Friday night, after the bill had gone to the conference committee. I had interviews during the afternoon of that day with the speaker and with members of the committee of both houses, and I am satisfied that each house will stick hard for its own bill, and that neither will fully recede, and also that sooner or later the bill will pass, but it will surely pass this session, but I will say that in my opinion the omnibus joint statehood bill, practically as it passed the house on January 25, last, will pass during this congress—perhaps, tomorrow, perhaps next week, or perhaps not until the close of the session, but with what is known as the 'first Foraker amendment,' if my guess is right, if it passes without that amendment I will be agreeably surprised."

"The second Foraker amendment, submitted the bald question of jointure alone, to be voted upon within sixty days after the passage of the bill, and without any constitution, or campaign for a state ticket; with no one to explain the enabling act or the constitution, in my opinion, could not be adopted in the two territories in this way, and I do not think the house will agree to this second amendment."

"All citizens of either territory desiring statehood, if my guess is right, will have to accept joint statehood with the 'first Foraker amendment' or make up their minds to live in a territory the rest of their lives, unless they move to some state."

Speaking of the great fight made by Senator Beveridge, Mr. Rodey remarked:

"The people of New Mexico and Arizona, when they are admitted to the Union, can never repay Senator Beveridge for the work he has done in their behalf. He stood by them, staunch and true, in the face of tremendous pressure brought to bear upon him, and despite the heaviest opposition, his speech on March 8 in the senate, was unquestionably the greatest effort made in that august body in modern times."

"I wish to thank the people of New Mexico and Arizona who have so patriotically assisted in the fight for statehood with letters and telegrams sent to Washington during the past two months. Each one sent counted for us so much, and helped wonderfully."

In closing, Mr. Rodey, heaving a sigh of satisfaction, or merely weariness, it was hard to tell which, said: "Like the cowboy in the fight at the round-up, I have had my level best, and the angels could do no more."

## INSANE FROM SUFFERINGS

Such Is Explanation Given  
Concerning Clergyman's  
Daughter.

SENSATIONAL FLIGHT FROM HOME

Rev. John L. Brandt, father of Nina Virginia Brandt, the St. Louis society girl who so mysteriously fled that city, and was located on a Santa Fe train, at Las Vegas, has arrived in Las Vegas, accompanied by Don C. Summers, assistant circuit attorney of St. Louis, and will take his daughter back home.

The young lady is reported to be in a very serious mental condition, and a press dispatch from Las Vegas tells a harrowing story of her having been forced into a buggy as she was leaving the Lincoln Trust Company's bank in St. Louis, after cashing a check for \$288, which she concealed in her stocking, and upon resisting, being struck on the head by the man who kidnapped her, and later waking up in a strange room on Olive street, and realizing that she had been robbed, became possessed of the idea that she had to get away from St. Louis, and immediately boarded a train for the west. The dispatch fails to state how the lady could do all this, after having been robbed of all her money.

Miss Brandt's father, speaking of the matter, this morning, gave this version of his daughter's flight from home and friends, which undoubtedly is the true state of affairs:

"For five years," Dr. Brandt said, "my daughter has been painfully afflicted, and, at certain times, with increasing intensity, has appeared to be not mentally responsible. She was obliged to leave the high school because of her condition, and her sufferings have been most pitiable. I have seen her writhe in spasms for eight hours, at a time, although we were trying all known remedies to relieve her."

Three weeks ago, at the advice of her physician, Dr. Sophia L. Kern, she had an operation performed. We hoped this would relieve her, but last Monday Nina spoke to me of her great fear that this measure would afford her no relief.

"Saturday morning I sent her to the bank to cash a check for me. When she did not return on time, I became worried, knowing her affliction, and fearing that something had happened. I enlisted the aid of the St. Louis police, and we started searching for her at once."

"We traced her every movement in St. Louis. From home she went to the Lincoln Trust company, where she cashed the check for \$288. Then she went to East St. Louis, where she purchased her morning outfit from the Becker dry goods store. Then she purchased a ticket to Kansas City, via the Washash and Santa Fe, purchasing another ticket at Kansas City for San Diego, Cal."

"She states that she has no remembrance of her movements after she cashed the check, and she was undoubtedly suffering from a temporary alteration of the mind."

Dr. Brandt will return to St. Louis at once with his daughter.

**MEETING OF OFFICERS  
OF ASSOCIATED CHARITIES**

PLANS COMPLETED AT YESTERDAY'S MEETING FOR INCORPORATING ORGANIZATION.

At the meeting of the officers and directors of the Associated Charities organization held yesterday afternoon in the Commercial club rooms, the matter of incorporating the organization was taken up and discussed at length, and although the matter of incorporating has been before the executive committee before, the matter was not definitely settled until yesterday afternoon, and the incorporation papers will be drawn up and filed with the territory secretary at once, which will then place the charitable organization on a business basis, so that it can proceed with its work of charity in a systematic manner.

The report of the soliciting committees, who have been canvassing the city for funds, showed that several hundred dollars had been collected, and that when the entire city had been canvassed there would be sufficient funds to carry on the work of the organization.

Much time was devoted at yesterday's meeting to discussing the possibility of erecting a poor house. Several sites for such a location were mentioned and discussed, but no definite action was taken. A meeting of the officers and all committees, as well as others interested in the work, is called for Tuesday, April 10, at which time the poor house proposition among other matters, will be again taken up.

**INDIANS EMPLOYED  
BY THE SANTA FE**

OUTING AGENT DAGNETTE HAS JUST COMPLETED ARRANGEMENTS FOR EMPLOYING OF MEN.

C. E. Dagnette, outing agent for the Indians in the southwest, arrived in the city last night from a trip to Los Angeles and Phoenix, where he has been completing arrangements with the Santa Fe coast line people for the supplying of Indian labor to the Santa Fe.

Mr. Dagnette stated that contracts had been signed with the Santa Fe people for all the Indian laborers that could possibly be supplied. The laborers will compose Navajos, Moquis, Hopis and Apache Indians, and will work west of Albuquerque. Mr. Dagnette expects to have the first party of Indian laborers at work at Williams, Ariz., by April 15.

Mr. Dagnette also stated that large numbers of Indians were employed on the Imperial canal in California, and that work on the Yuma, Ariz., government irrigation project was progressing rapidly and satisfactorily with Indian labor. Many of the Indians of New Mexico and Arizona have also found employment in the beet fields of Colorado.

## MOUNTED POLICE CAPTAIN RESIGNS

John F. Fullerton Has So In-  
formed Governor Herbert  
J. Hagerman.

CLAIMS A FIRST CLASS RECORD

The following official letter conveying the resignation of Captain John F. Fullerton, of the New Mexico mounted police, of his office and addressed to Governor Hagerman, is here published in full:

Socorro, N. M., March 26, 1906.  
To His Excellency, Herbert J. Hagerman, Governor of New Mexico, Santa Fe, N. M.

Sir:—Replying to your communication dated March 19, 1906, stating in effect that you were not satisfied with the service of the mounted police, of which I have had the honor of being captain during the past twelve months, and that you intended making a change in the captaincy of said company on the first day of April, in this connection permit me to state that this company was organized less than a year ago; that for the first few months the matter of railroad transportation not being obtainable, was a serious handicap to successful administration on account of long distances between points of operation and the extensive area to be covered. This was, however, remedied, after a few months and the force equipped and organized for business. It naturally takes some little time for a force of this kind to become thoroughly familiar with conditions and be able to render efficient service. The compensation provided by law is extremely limited and less than the amount provided for by other commonwealths for similar service, yet in spite of all these obstacles, I candidly believe that the mounted police have, during the past several months, rendered valuable service to the public and especially have they been of material assistance to the stock interests, namely, sheep, cattle and horses; considerable property has been restored to the rightful owners. Many lawbreakers have been apprehended and many important arrests have been effected. Much of the business of the mounted police has not been given publicity for the reason that, in the majority of cases, secrecy is also essential to success.

Work is Commended.  
I have received words of commendation of the highest character from the various portions of the territory, representing substantial live stock interests, expressing satisfaction of the efficiency of the mounted police force. No doubt some mistakes may have been made. However, I have at all times, used every effort to do my duty to the best of my ability in order to perfect the efficiency of the company to meet the designs intended by the legislature.

I recognize that you, perhaps, have the power of removal or substitution in my case, if arbitrarily exercised, yet the law creating the office of the captain of the mounted police failed to fix any definite period or term of office, but limited the authority of the executive to sixty days, after the passage of the act creating the police force in which he appoints a captain, (see Section 2, part 3, Laws of 1905), the evident intention of the legislature being that no change of officers was contemplated, and the provision of law for the enrollment of men being for one year seems to have referred to enlisted men only.

It seems to me that your contemplated action is unfair and will be the means of preventing me from demonstrating the true worth of the force and depriving me of the benefit or credit accruing from my efforts given in good faith toward perfecting the organization to a state of efficiency which, I believe, is an accepted fact by the public most vitally interested, and to which, in all justice, I should be entitled. I shall not contest your right to make the change on April 1st next, as heretofore stated, although I believe your action contrary to the intention of the legislature and not demanded by any public interest, and certainly a unfair to the present incumbent.

You kindly offer your good offices toward securing for me some other employment in the territorial service, which are hereby most respectfully declined, I remain, respectfully,

JOHN F. FULLERTON,  
Captain Mounted Police.

**GRANT COUNTY PRISONERS  
EN ROUTE TO PENITENTIARY**

SHERIFF FARNSWORTH AND DEPUTY HICKMAN IN CHARGE—COURT CLOSED ON SATURDAY.

The Grant county spring term of court closed on Saturday evening last, and the victims of its labors consigned to sentences in the territorial penitentiary passed through the city this morning en route to Santa Fe in charge of Sheriff Farnsworth and Deputy Sheriff Hickman. The prisoners in their charge, most of whom were charged with offenses of which they were found guilty, and the penalties levied upon them, were as follows:

Serafino Pena, unlawfully carrying and drawing a deadly weapon, sentenced to one year and costs.  
Antonio Lopez, assault to murder, found guilty on second count to indictment and sentenced to one year and costs.

Miguel Tarrin, assault with intent to kill, trial verdict of guilty, motion for new trial overruled and sentenced to nine months and costs.

George W. Biedose, unlawfully drawing a deadly weapon, nolle as to first count and trial verdict of guilty on third count, one year.

Sheriff Farnsworth said that he expected to return to Albuquerque tonight and would probably spend tomorrow in the city.

**NORDHAUS WHOLESALE HOUSE  
COMING TO ALBUQUERQUE**

PRESIDENT OF COMPANY VISITS DUKE CITY WITH VIEW TO SECURING LOCATION FOR BUILDINGS.

Max Nordhaus, of Max Nordhaus & Co., one of the largest wholesale houses of Las Vegas, is in the city for the purpose of locating.

"Yes, we are coming to Albuquerque," said Mr. Nordhaus, at the Alvarado this morning. "We don't know just where—that is, we haven't decided on a location, but we are sure coming. I am here for the purpose of securing a location now."

The moving of the Nordhaus wholesale house to Albuquerque is more evidence that the Duke City is recognized as the trade center of the southwest.

Some time ago it was rumored that the Nordhaus company had secured the vacant plot of ground just across Railroad avenue from the Alvarado, as a site for their buildings, but Mr. Nordhaus refused this morning to either confirm or deny the report, and there is room for speculation as to whether or not it is true.

Hot Tamale Social at the First Methodist Episcopal church, Friday night. Admission, twenty-five cents.

**ATTENTION!**

All the boys, the young men and the parents of those interested in the organization of Learned & Lindemann's band are invited to be present at a meeting to be held in our store at 296 West Gold Avenue, Thursday evening, at 7 o'clock.

We will explain our plans, and what we hope to accomplish; also terms for membership.

# THE AMERICAN BOYCOTT

ROUSED BY YOUNG CHINA AND THE NEW NEWSPAPERS, THE GUILDS CARRIED IT—ROOSEVELT AND THE MISSIONARIES HAVE CHECKED IT, SAYS BASHFORD.

BY JAMES W. BASHFORD,  
Recent Bishop in China of the M. E. Church.

(Copyright, 1906, by the Newspaper Enterprise Association.)

Shanghai, China, March 28.—The American boycott broke out in the spring of 1905. It was inaugurated by the Chinese guilds. Every business in China is organized into a guild, and these guilds, especially when they unite, are quite as powerful in the exercise of practical control over the people as is the general government. They can give our American workmen, and possibly even our American trusts, points in the organization and control of the people.

The guilds were aroused to action by what may be styled "young China," and especially by the Chinese newspapers. China was the first nation to discover the newspaper as she was the first nation to discover the mariner's compass, gunpowder, etc. But until the last three or four years China has made no more use of the press than she made of gunpowder. Four years ago there were three newspapers published in Tientsin, the great northern metropolis of the empire; now there are twenty. The first class volume entitled "New Forces in Old China," by Dr. Brown of the Presbyterian board of missions, announced in 1904 that China was making immense progress in postoffices, and that 500,000 were in operation as compared with 200 only two or three years previously.

But today there are over 1500 post-offices in China. The return of young Chinese from America, and, above all, the publication in the newspapers of the facts which these young men gave of their treatment by Americans, awakened in 1905 the first manifestation of national sentiment in this great empire and led to the organization of the boycott.

The boycott at first threatened to be very serious. The triennial educational conference for China was in session at Shanghai at the time of the outbreak, and I was asked to preside at a meeting of the Americans then assembled in Shanghai from almost every province in the empire. An excellent committee was appointed with such men as Dr. Arthur Smith and Robert E. Lewis, of the Y. M. C. A., upon it, and representations were made to President Roosevelt. The president's prompt and vigorous action, first in checking any further abuses of Chinese in American ports, and further in representations made to the Chinese government, did much to check the spread of the boycott.

The friendship of the Chinese for our missionaries and the fact that the missionaries constitute three-fourths of all the foreigners in the provinces outside of the sea ports has done far more to prevent the boycott spreading to the interior and leading to violence than all other efforts combined. As the missionaries met at their summer conferences for rest and mu-

BISHOP J. W. BASHFORD.

tual aid last summer, the boycott was earnestly discussed and its possibilities of injury clearly recognized. Fortunately, however, very few schools and hospitals have suffered to any appreciable extent. Indeed most of the schools and colleges received far more applicants for admission last fall than they could grant, and for lack of room the leading Christian colleges of China.

The real demand upon the part of the Chinese also for western goods and their preference in many cases for American goods rather than the goods of Germany or England, has prevented the commercial boycott becoming as serious as was at first threatened.

The possibilities of the boycott, however, are fully realized by Americans, and even indeed over-estimated by the Chinese. Through their guild organizations, they can use this instrument of retaliation more effectively than any nation in Europe or America. There is no power by which the Chinese government can compel her citizens to buy our goods, and all that our government can insist upon is an equal right to introduce the goods and expose them for sale alongside other goods.

If our government is wise it will utilize the present occasion, when the boycott is largely suspended and favor has been turned to America by the conduct of Consul General Rodgers in the Shanghai riot, to substitute for an exclusion act, mentioning the Chinese by name, a general exclusion law based upon failure to read and write with intelligence the language of one's native country, and thus insure the favor and secure the trade of China's 400,000,000.

Already the trade of this coast from Singapore to Vladivostok amounts to a billion dollars a year. The United States must have world markets. In the struggle for the markets of this great empire the United States has the advantages in position of any other nation on earth. She has un-

doubtedly enjoyed greater favor with China in the past than any of her competitors. She can exclude every Chinese coolie from the United States by a general law based upon education.

Would it not be wise, therefore, for the government to pass an exclusion law, the justice and statesmanship of which will commend it to future generations, and will enable America to win and hold the immense trade bound to arise on this side of the Pacific during the next fifty years?

## SQUABBLE FOR POST AMONG NAVY CIRCLES

Washington, D. C., March 28.—Naval officers are greatly interested in the selection of an officer who shall succeed Rear Admiral G. A. Converse as chief of the bureau of navigation. This is the most important of naval billets ashore, and the detail is of vital interest, since the office has to do with the affairs of the personnel. Among the officers who are mentioned as available, if not active, candidates are Rear Admiral William S. Cowles, now chief of the bureau of equipment; Captain Richard Whitworth, a member of the general board, on duty in Washington; Captain John E. Pillsbury, who is Rear Admiral Evans' chief of staff; Captain William J. Barnette, now on duty here in connection with the general board, and Captain Richards Clover, former chief intelligence officer, and now at his home in Washington on waiting orders. It was thought that some of these officers could be detailed as chief of the bureau of yards and docks, thus returning to the line an important duty which has for some years been discharged by a senior member of the corps of civil engineers, but the selection for that post of Rear Admiral Endicott has set at rest this idea, at least temporarily. The choice of the most active and progressive officers of the line for the position of chief of the bureau of navigation is Admiral Cowles, who has frequently, in the past, had duty in the bureau, years ago in charge of personnel and detail, where his wide knowledge of the qualifications of officers and his fine discrimination gave such satisfaction, and more recently, before his sea cruise, as assistant to the chief of the bureau.

## MORE HOMESEEKERS GOING INTO ESTANCIA VALLEY.

Dr. A. D. Billings, Ira Jones, D. W. Thompson and William Thompson, a party of homesekers, from Hume, Mo., who have been in the Estancia valley, on an investigating tour, stopped in Santa Fe, Monday night, en route back to their homes in Missouri. They have looked the lands in the Estancia valley over very thoroughly, and were favorably impressed. Several of them will make homestead entries in the Estancia valley.

Afflicted With Rheumatism. "I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Adolinton, Indiana Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief it affords. One application relieves the pain. For sale by all druggists.

## "SCOTTY" UNDER ARREST AT SAN FRANCISCO

THE DEATH VALLEY MINER SPENDS FOUR HOURS IN JAIL.

A dispatch from San Francisco, dated March 2, says: "Walter Scott, better known as 'Scotty,' Death valley mining king, was dragged from the stage of a cheap theater, where he was posing as an actor, and locked up."

"The warrant on which he was arrested charged complicity in the Win-gate pass ambush, in which he wounded brother, Walter Scott, who, it was charged, 'swindled' him after spending four hours in jail."

"It is declared that when eastern capitalists who grubstaked Scott to \$50,000, insisted upon an investigation of the mine, Scott headed a party, including A. Y. Peart, J. A. St. Clair and George Owen, mining experts from the east, and started for Death valley. When the party neared Wingate pass, three of Scott's men, it is asserted, started ahead, and when the rest of the party appeared, opened fire on them. Scott is charged with firing toward the ambushers, and shouting to those in it to cease firing, telling them they had wounded Warner."

"According to the evidence secured by the San Bernardino authorities, the ambush was planned by Walter Scott for the purpose of robbing the eastern capitalists from discovering there was no mine in existence."

## A FRONTIER WEDDING

IT WAS PERFORMED IN THE EARLY DAYS NEAR LAS VEGAS, IN SAN MIGUEL COUNTY.

A justice of the peace in the early days was frequently called upon to go some distance from home to perform a wedding ceremony. In the spring of 1880 Judge Steele of Las Vegas, N. M., was asked to preside at a wedding ten miles out in the country, and his wife received an invitation to accompany him. Upon arriving at their destination which was at a ranch on the eastern foothills of the San Juan mountains, they were ushered down six steps into a dugout where the mother of the bride was preparing the wedding feast. The furniture of the one room consisted of two chairs—one with only two rounds at the back, and bottomless. Then there was a bunk bed made of scantling, a board table, a short bench, a stove and motto hanging over the door, "God Bless Our Home."

There was no floor and a sheet had been stretched across one corner of the room. The bride and groom were stationed behind this. The woman of the house was grinding something in a coffee mill, but came to receive her guests with all the dignity of the first lady of the house. She placed chairs for them, and seating herself upon the bench, continued turning the coffee grinder. Soon after some of the neighbors came in, and at the appointed time the bride and groom emerged, arm in arm, from behind the temporary curtain, and stepped forward to where the judge was sitting, and he arising, pronounced the words that made them one.

Soon after everybody sat down to the wedding supper. The sheet that hung across the corner of the room had been taken down and spread over

the table for a cloth. The madam's efforts at the coffee mill had turned out a beverage made of dried carrots. Seven different kinds of sauces, made of wild plums put up in various ways were served. The remainder of the menu was quite simple and consisted of plain bread and butter and fried pork. The table was shoved close to the bed and three sat on that side, while three sat on the bench. The chairs were occupied and two or three kegs finished out the number of seats. After the supper the bridegroom took the bride to one side and asked him to accept some potatoes in payment for performing the ceremony. He readily consented and returned to town. One year later the bride called at his office and asked for the marriage certificate, which he had neglected to make out. A nice little baby girl had taken up her abode with them and this the young mother brought with her, but returned again in a few days with the certificate, to have a correction made, as it had been dated the day she called for it.

## CLASS OF SIXTEEN IS CONFIRMED AT ST. CLEMENTS

BISHOP KENDRICK PREACHES MORNING AND EVENING, AT EL PASO, WITH CONFIRMATION CLASS EXERCISES AT NIGHT.

Bishop J. M. Kendrick preached morning and evening at St. Clement's Episcopal church, Sunday, and at night confirmed a class of sixteen, eight men, four and eight women and girls, the division being equal as to sex, says the El Paso Herald.

There was a large attendance for each service, as the bishop is a good speaker, and has numerous friends in El Paso, who like to hear him speak. At St. Clement's church, this week, there will be daily services, except Saturday, at 4 p. m.

A special service for men is held each day at noon. Five minute addresses from the various pastors of the city will be given. Bright music.

Devotional reading will be the feature before the daughters of the King, Friday afternoon, at 3 o'clock.

## Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria; and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

## EXPERT CHEF AT THE WHITE ELEPHANT WILL SERVE A MERCHANTS' LUNCH FROM 11 TO 2:30 DAILY.

Eczema, Tetter, Salt Rheum, Itch, Ring Worm, Herpes, Barbers' Itch.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve, and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that had resisted other treatment. Price 25 cents per box. For sale by all druggists.

## OLDEST WOMAN IS THANKFUL BECAUSE HER TEA TASTES GOOD

MRS. MARGARET KELLEY, AT 117, LIVES IN COMFORT, AND IS GRATEFUL FOR HER LONG LIFE—LOYAL TO AMERICA, HER ADOPTED LAND.

MRS. MARGARET KELLEY.

New York, March 28.—The oldest woman in the world has been found. She lives in New York and was born 117 years ago. Mrs. Margaret Kelley says she was a babe when Washington was president, George III. was still king and reigning over Great Britain when her blue eyes opened upon the world in a peasant cottage in Ireland.

Mrs. Kelley dimly remembers the place of her birth. She is a loyal soul and asserts that she is a true American, although she did not come to these shores until she was within a year of reaching the century mark. In a comfortable tenement house on Third avenue this remarkable old woman lives. She is little, withered and frail. But nevertheless she is neither bedridden, helpless or invincible. She opens her own door to callers and seems surprised to think that anyone could possibly be interested in her age.

"Yes," declared, in a weak, far-away voice: "of course I was 117 on St. Patrick's day. It's a long time, but I am well and happy, and can eat and work with the best of them."

"To what do I owe my long life? To God, to be sure. He is good and he has been good to me. I don't feel old for my cup of tea tastes as good as ever, and while that is good I have plenty to live for. To be sure, I can't go to church as often as I used to, but I went last Easter."

Mrs. Kelley is still feminine. She put on her best ruffled cap and a black alpaca apron when she sat for her picture. Her snowy cap was the same style as one she wore when she became a matron 105 years ago.

Mrs. Kelley lives with her third son Thomas, who is in the 70's. She was left a widow when very young and brought up her five children. Three of these came to this country, and she followed them 18 years ago.

"I don't remember much of it," she says of her youth. "I just like to sit

and sew. No, I don't have to use glasses. I can see just as well as I could when I was a girl. Then I lived near French Park, that you know is in Roscommonco. I always lived there after I got married."

"Am I homesick? Indeed not. I'm a good American," she piped in her queer, squeaky voice.

When the Irish club gave a dinner on St. Patrick's day Mrs. Kelley was present. She said a few words of Gaelic, her native tongue, and assured her hosts that she would be with them on many a dinner in honor of Ireland's patron saint.

Mrs. Kelley's friends say that there can be no doubt that her age is 117, for the documents to prove it are among the records of Roscommonco.

## RECREATION BUILDING PROGRESSES AT NEEDLES.

Contractor A. W. Anson, of Albuquerque, is progressing as rapidly as possible with the construction of the Santa Fe recreation building at Needles, says the Eye. The entire frame work has been erected and the cement coating is being applied. The cement work when completed, will be known as "rubble" work, a kind of cement work that has been generally adopted by the Santa Fe in the construction of the stations and other buildings along the coast lines. It is absolutely fire proof and makes one of the most durable buildings constructed. Contractor Anson has placed several planers, band saws, etc., in the building for the purpose of speedily handling the wood work. All the machinery is being run by electric mo-

tors, wires having been run down Front street from E street to supply the power.

## Doctors Are Puzzled.

The remarkable recovery of Kenneth Melver of Vanceboro, Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say, it saved my life." Cures the worst coughs and colds, bronchitis, tonsillitis, weak lungs, hoarseness and la grippe. Guaranteed at all drug stores. 50c and \$1.00. Trial bottle free.

# You May Buy or You May Wait

## But Things MUST Come Our Way!

## You'll Have to, Also!

## YOU May Think We Are SPECULATING

## WE Know We Have a "GOOD THING"

**Remember:** That WE can afford to wait, but YOU cannot; in growing cities, the best residences are seldom built on the low lands. That we are the sole owners of the only heights overlooking the center of the city and which, covering over fifty square blocks, are but eight blocks distant from the heart of the business district. That, having held this tract intact for years, we now are offering it for residence purposes only, and that our deeds will exclude, for all time, all factories, stores, saloons, boarding houses, etc. That we are expending in improvements over FIFTY THOUSAND DOLLARS and TWO YEARS WORK and, at our own expense, are grading the lots and streets, building cement walks and planting trees. That we own our own water plant and will furnish you from deep wells, an ample supply of soft water at a price lower than the present rates. That the entire tract will be graded to a gentle slope, permitting to every residence the Best of Drainage, Broad, Low Terraces, and a Magnificent View of the Mountains, Mesa, City and Valley. That here you are above the dust and the dirt—or mud—the smoke and the noise of less favored localities. REMEMBER THAT:

## The Natural Advantages We Had—We Made the Artificial!

That SILVER AVENUE, and its adjacent blocks, the only street now ready, the CREAM OF THE ENTIRE ADDITION, will be the FINEST IN ALL NEW MEXICO OR ARIZONA. That, beginning at one park and ending at another, and also parked on both sides throughout its entire length, it is a boulevard eighty feet broad, lying on the crest of the highest ground in the tract.

That on this avenue a thirty-foot building line is imposed, that the lots are sold only in sites of 100x132 feet, that no dwelling may cost less than \$4,000, and that the purchaser insures to himself and his heirs, his home amid beautiful residences and the quiet and refinement of such surroundings. That the sixty sites of this avenue are so advantageously situated that nothing similar can ever again be offered in the City of Albuquerque.

Also Remember That the Majority of the Directors of this Company Have Bought Here and Expect to Build at Once.

## RAILROAD TOPICS

B. Grimshaw, manager of the Santa Fe Central Railway company, gone east on business.

M. Greeley, a Denver & Rio Grande brakeman, headquarters at Raton, has again decided to leave Raton his home, and has taken the family to the city.

Frank Harrison, formerly yardmaster at Raton, has again decided to leave Raton his home, and has taken the family to the city.

O. Paris, foreman of the several gangs at Raton, has returned to his duties from Cimarron, Kan., where he was called by the serious illness of his aged mother.

J. Custer, coast lines storekeeper at the Santa Fe, formerly located in city, but whose headquarters are in San Bernardino, Cal., arrived in Albuquerque last night for a short visit.

In Cook, who several years ago, foreman of the A. T. & S. F. division, in Raton, was in that Monday, shaking hands with his friends. Mr. Cook is now master mechanic of the Rio Grande division, with headquarters at San Marcial.

John Sullivan, one of the old-time track layers of the Atlantic & Pacific railroad, and for the past few months foreman of the track laying gang west of Bagdad, has gone to the hot springs near San Bernardino. He is suffering from rheumatism.

John W. Shankland, a locomotive engineer who ran out of Needles for a number of years, but who has been sick and out of the service the past six years, died the other day at his home in Los Angeles. He leaves a wife and one child. The dead engineer was well known among local trainmen.

The four steel gangs situated at Yucca, Goffs, Bagdad and Arroyo on the coast lines of the Santa Fe, are laying on an average of two miles of rails per day. The Santa Fe during the past month has been maintaining eleven work trains on that division, in connection with the ballast work, rail distribution and picking up the old rails, and the cut-off between Needles and Mellen.

Frank Kane, a young man who had been employed in the Santa Fe agent's office in Needles, and later at different places around that town, was caught in the act of begging upon the streets. It was later found that he had a portion of other people's belongings in his pockets, taken from a house in which he had no business to make entrance. He pleaded guilty and was sentenced to six months imprisonment in the county jail at San Bernardino.

### NARROW GAUGE ROAD TO BURRO DISTRICT

A surveying party is now at work surveying the supposed route for the narrow gauge railroad which will be constructed by the Comanche Mining & Milling company, from its smelter in Silver City to its mining properties in the Burro mountains. The extremely hilly section of country that the road will have to be constructed through, renders the question of keeping down the grade and important one, and it is thought that it will take perhaps two or three months to finish the survey.

### FREIGHT BRAKEMAN ASSAULTED BY HOBOS

A freight brakeman named Horton had a scrap with hobos at near Ephraim station one night the fore part of last week. In the fight they pulled him off the train when he was trying to put them off and after they had him on the ground and the train gone on, they beat him up and brought him to the hospital at Alamogordo, where he was laid up for a couple of days. On receipt of advice the officers arrested three hobos but they were later released as the brakeman failed to identify them.

### NO MAIL IN SAN JUAN FOR TWELVE DAYS

A San Juan county correspondent writes from Aztec under date of March 23, that the first mail that section of New Mexico on the day the letter was written. The Denver & Rio Grande railroad between Antonito and Aztec across the Cimarron range and other mountain passes was snowed up for that length of time, and nothing could be gotten through, the snow being too heavy and too high to be penetrated by rotary snow plows. In fact, one snow plow and engine were lost for a time, and it was quite a job finally to extricate them from the depths of the "beautiful" in which they floundered. Passengers had a hard time of it waiting at Antonito on the eastern end, and at Durango, on the western end of the Durango division of the railroad. The snow and snow slides along the road were the worst and most destructive ever known in its history since it was built in the winter of 1880 and 1881.

### PECOS VALLEY ROAD WINS BIG SUIT

W. C. Reid has returned to Roswell from Carlsbad, and he is much elated over a victory for his client, the Pecos Valley & Northeastern railroad, in a big suit that was tried at Carlsbad. It was the case of D. B. Cosenberry against the railroad, a suit for \$17,000 for damages alleged to have been caused by the railroad in failing to supply cars to enable plaintiff to reach the market within a certain time with 12,000 sheep, from Lakewood. The alleged damage was done in 1902. The jury returned its verdict on instructions from the court, based on a point in law.

### S. P. AND SANTA FE BURY THE HATCHET

WARRING ROADS IN ARIZONA DISCONTINUE STRIFE—SANTA FE SELLS OUT AND ABANDONS PLANS IN THAT NEIGHBORHOOD.

A dispatch from Phoenix, Arizona, dated March 26, says: The Southern Pacific company has purchased the Phoenix & Eastern road, and took possession Saturday, according to reports which have reached this city. Continuing the report says: It is characteristic for big corporations to get together after a few preliminary struggles have been indulged in. This applies with force to the legal contest that has been going on for several years between the two great trunk lines of Arizona.

The Santa Fe started to construct a line of railroads from Phoenix to Benson, via Florence, thence up the San Pedro river to Benson. Then the Southern Pacific railroad stepped in and began the construction of a line of road from Phoenix to Globe, via Florence, both lines running about parallel along the Gila river, until the box canyon was reached; then both wanted the same right of way through the canyon, the result being law suit upon lawsuit, with the usual results of corporation fights, neither side the winner. But the leading spirits of the two big systems got together in Ned York four weeks ago and the head of the Standard Oil company informed

the Santa Fe people that the fight must stop. And it was further agreed at that meeting that the Phoenix & Eastern road was not needed by the Santa Fe system, and the result was that Harriman purchased all the property and rights of way descriptive of the Phoenix & Eastern Railroad company, and it is said by those who know that the Southern Pacific company will take possession of the Phoenix & Eastern line Saturday next.

This means that the road will not be constructed to Benson, and that Phoenix will not have the benefit of a through line for a long period.

The road will be from Phoenix to Globe, which will be a good line and which will be of great advantage to valley farmers.

**MEXICAN DE NATIONAL ORGANIZED IN UTAH**

PRESIDENT BROWN PASSES THROUGH CITY, EN ROUTE TO MORMON CITY TO ATTEND A STOCKHOLDERS' MEETING.

E. N. Brown, president of the National lines of Mexico, passed through the city this morning en route to Salt Lake City, where a meeting of the stockholders of the road will be held on April 2. The National de Mexico lines company was organized under the laws of Utah.

"Mexico is in the midst of a great era of prosperity," said Mr. Brown, "and I observe that your country is enjoying the same. A great many Americans are coming into the country, opening up mines and investing and engaging in every line of business. Our lines are doing all the business possible, with the equipment we have, and the Mexican Central is doing likewise. Our road was organized under the laws of Utah and that is the reason why we have to hold our stockholders' meetings at Salt Lake. We will stop a few days at Colorado Springs, however, before proceeding to Utah."

Mr. Brown was accompanied by his family and secretary.

### NO AGITATION CONCERNING DAYLIGHT TRAIN

SANTA FE PATRONS ON THE RIO GRANDE DIVISION SEEM PERFECTLY SATISFIED.

Although there have been at times a few people, who, riding in the hour of night to catch the train from this city to El Paso, have registered a vow that they would not travel on night trains, there is at present no great activity being put forward for a day train.

The Santa Fe has so arranged things that one going to El Paso can enter a sleeper here at 9 o'clock and peacefully snore away the hours it takes to run to El Paso, without losing an hour's sleep, much less a night's sleep.

### DIVISION HEADQUARTERS CHANGED TO EMPORIA

The headquarters of the Santa Fe eastern division will be moved from Topeka to Emporia April 20, says the Capital. The offices to be moved will include the offices of Division Superintendent C. T. McCallan, and his clerks and stenographers, numbering twelve men; Trainmaster Lloyd Stanley and his office force of six; Chief Dispatcher Hugh McPhee and W. T. Baker, night chief, and six trick dispatchers and three telegraph operators from the telegraph office, which will leave four to do the telegraph work in Topeka. The change is being made for the convenience in handling the trains on the division, which includes the main line from Holiday to Emporia via Topeka, and the cut-off between the same point, via North Ottawa. Most of the freight is handled over the main line. The Santa Fe has been working on the double track over the cut-off for about two years and will complete it some time this fall, which will facilitate the handling of the freight business with more regularity. By locating the offices at the end of the division it will be possible for the train dispatchers to get the trains over the road to a better advantage.

### DEAF MAN KILLED NEAR ALAMOGORDO

T. E. Camp, an old gentleman about 75 years of age, well known at Alamogordo, was run down and instantly killed by the Golden State limited of

# COME TO BELEN, N. M.

## The Future Railroad Metropolis of New Mexico

Located on the Belen Cut-off of The Atchison, Topeka & Santa Fe Railway

Belen is 31 miles south of Albuquerque, N. M., at the junction of the Main Line of the Santa Fe system—leading east and west from Chicago, Kansas City, Galveston and points east to San Francisco, Los Angeles, El Paso and Old Mexico

The Belen Town and Improvement Company Own the Belen Townsite

Of 1,000 business and residence lots, size 25x142 feet, laid out with broad 80 and 70-foot streets, with alleys 20 feet wide, with beautiful lake and public park and grand old shade trees; public school house, cost \$24,522; churches. Commercial club; a population of 1,500 inhabitants; largest mercantile establishments in New Mexico; the Belen Patent Roller mill, capacity, 150 barrels daily; large winery; three hotels, restaurants, etc. Belen is the largest shipping point for wool, flour, wheat, wine, beans and soy in Central New Mexico. Its importance as a great commercial railroad city in the near future cannot be estimated.

ALL FAST LIMITED EXPRESS, MAIL AND FREIGHT TRAINS OF THE SANTA FE ROUTE WILL GO OVER THE MAIN LINE THROUGH TO BELEN, EAST AND WEST, NORTH AND SOUTH.

The lots offered are in the center of the city, well graded, (many of them improved by cultivation, go sand or gravel. We need a first-class bakery, tailor shop, shoe house, jeweler, plumbing shop, planing mill, etc. etc. etc. Also a first-class modern hotel.

OUR PRICES OF LOTS ARE LOW AND TERMS ON EASY PAYMENTS; TITLE PERFECT; WARRANTY DEEDS. APPLY AT ONCE FOR MAP AND PRICES, IF YOU WISH TO SECURE THE CHOICEST LOTS TO

## LOCAL AND PERSONAL

### WEATHER INDICATIONS.

Generally fair tonight and Thursday.

Sunrise, 5:53; set, 6:18; length, 12 hours, 25 minutes; moon will set at 9:47 tonight. The day has been clear, warm and every way pleasant. Florida was discovered on yesterday, 1512, or 394 years ago. A year ago today there was movement along the entire Rio Grande valley, from the Colorado line to El Paso, preparing for anticipated flood in the river.

Washburn-Crosby Gold Medal flour at F. F. Trotter's.

Mr. and Mrs. A. A. Trimble are enjoying a visit from their niece, Mrs. Fred Herman.

Washburn-Crosby Gold Medal flour at F. F. Trotter's.

Mrs. Louis Hunting of Los Lunas is spending the day in the city, visiting and shopping.

J. A. Garcia Sanchez, of 1418 Barajas road, leaves this evening on a pleasure trip to the City of Mexico.

Charles W. Rogers and Frank Moran of El Paso, passed up the road for Denver and other Colorado cities, yesterday.

Antonio Archuleta, a farmer and fruit raiser of the Jemez Hot Springs, is visiting relatives and friends in Santa Fe.

Jos. Bibb, of the Bernalillo Mercantile company, anticipates leaving tomorrow on the flyer, on a pleasure trip to California.

This evening the Elks will hold an important meeting at the lodge room. There will be an election, followed by a fine lunch.

Mr. and Mrs. Byron H. Ives, the well known Albuquerque florists, left last night for El Paso, on a trip of four or five days' duration.

D. B. Whiteside, a prominent mine owner of Copperport, and Thomas White, an ore buyer of Joplin, Mo., are in the city from a tour of the mines in Arizona.

Charles Daniel, the base ball player, who resided at Las Vegas for many years, but now at Clifton, Ariz., passed through the city last night on his return to Clifton, after a visit to friends in the meadow town.

E. Gradi and L. Azario left Monday night for New York, and at that city will take a steamer for Italy. They will be absent about six months, and will visit their old homes in that country.

Mrs. James Duree and daughter, Mrs. A. W. Sherer, wife of the night ticket agent at the local station, left this morning for Toluca, Mrs. Duree's home. Mrs. Duree has been visiting her daughter here, and now Mrs. Sherer is returning the visit.

United States Marshal C. M. Foraker returned to the city this morning, from attending court at Silver City. Judge Parker finished the Grant county territorial criminal docket on last Saturday. The United States business of the session was of small importance.

In a local paragraph, yesterday afternoon, The Citizen stated that J. F. Luthy was in southern California, to rid himself of "lung fever." The item is misleading. Mr. Luthy's lungs are in fine condition, but he suffers with "hay fever," and he has gone to the lower altitude of southern California in the hopes of getting relief.

A young gentleman, named Sims, is in the city from Santa Fe, and it is learned that he is getting endorsements for appointment to the office of game warden of the territory.

There is a rumor afloat that Governor Hagerman has asked for the resignation of Page B. Otero, the present game warden, and that the executive will appoint his successor in a few days.

An Albuquerque business man, returning from El Paso, reports that George Cundiff, a former and popular bartender of this city, who left here last summer for El Paso, is now at Globe, Ariz. The business man also said that the report in El Paso is that Mrs. Cundiff and her daughter, Georgina, have positions in the Fair store at El Paso, Mrs. Cundiff having obtained a divorce from George.

Albuquerque has been exceptionally free, of late, from the depredations of crooks and sneak thieves. No thieving case has been before Police Judge Crawford for some time, and this morning only two plain drunks were up before the bar of justice. One was assessed five days, the other being so drunk he could not get into the court room. Evidently the war on crooks made by the local police is being felt by that class of marauders, and appreciated sufficiently to make them steer clear of Albuquerque.

Washburn-Crosby Gold Medal flour at F. F. Trotter's.

We can give you just as good values in men's, women's and children's stockings as we can in shoes. Our Black Cat line of hosiery is unequalled in wear, fit and fast colors; 15c to 25c per pair. C. May's shoe store, 314 West Railroad avenue.

## HEAVY RAINS DEMORALIZE TRAFFIC

CLOUDBURSTS IN SOUTHERN CALIFORNIA — TELEGRAPHIC COMMUNICATION KEPT OPEN ONLY THROUGH DE FOREST WIRELESS.

Train No. 2 of this morning, arrived about six hours late, after laboring over a mad-bound track all the way from Los Angeles. None can gainsay that the western portion of the continent is not having its share of precipitation this spring and that western railroads are getting all the trouble coming to them. The greatest trouble so far, however, has been down in southern California, but it is feared that the area of rain is gradually working this way, and that the local divisions of the Santa Fe will get "soaked" in time.

Traffic is completely tied up between San Diego and Los Angeles by washouts, and the telegraph lines are so demoralized that the De Forest wireless has to be relied upon for communication between the two points.

The San Luis Rey river bridge between San Diego and Los Angeles is too dangerous for travel. The precipitation so far has been in the nature of cloudbursts. The Southern Pacific between Los Angeles and San Francisco is practically out of business and the Salt Lake road has been running trains via Sacramento for several days in an effort to reach Salt Lake City.

The Southern Pacific's southern route is badly incapacitated but is managing to get trains through in a very unsatisfactory manner. The rain that fell here last night grew heavier to the westward.

Political Pointers

This morning the socialist ticket to be voted upon at the approaching city election, was filed in accordance with territorial law, with Probate Clerk Walker, and is now a matter of record.

Tomorrow (Thursday) night, at the Elks' opera house, J. W. Slayton will address the socialist party and others.

The ticket nominated the other night at the Elks' hall room, will be held, and the promoters of the movement anticipate a big crowd present at the meeting this evening. It is understood this afternoon that a number of citizens have signified their willingness to accept nominations for office, and it is quite likely a full ticket will be nominated this evening, thus putting in the field the third ticket for city officers.

If no ticket is nominated, a campaign will be inaugurated to fight the proposition to purchase the water plant, and resolutions to that effect will be introduced and adopted.

The central committee of the citizens' non-partisan ticket met last night, with Chairman George H. Browne presiding. The committee organized, by electing Thomas Morin secretary and E. C. Allen treasurer.

The campaign was thoroughly discussed and the following gentlemen were appointed a finance committee: E. C. Allen, W. H. Gillenwater, Otto Heber and Thomas Morin. A committee to compare registration lists with poll books was appointed as follows: L. Gradi, T. N. Wilkerson and Thomas Isherwood.

Pure Food Show at New Orleans, New Orleans, La., March 28.—The first pure food show held in this city under the auspices of the New Orleans Retail Grocers' association will open here this evening at Washington Artillery hall. The exhibition is very large and promises to be a great success in every respect.

Mortuary

Lester H. Hilliard, last night at 8:30 o'clock, at the family home at 100 North Edith street.

Lester H. Hilliard, son of W. B. Hilliard, of this city, passed away from the ravages of tuberculosis. Deceased was 31 years of age at the time of his death and came here, with his father, brother and two sisters, three years ago from their former home in Newburg, Ind. The funeral ceremonies will take place tomorrow afternoon at 2 o'clock, from the family residence on Edith street, Rev. W. H. Du Bose officiating. Interment will take place in Fairview cemetery and the pall bearers for the occasion will be Messrs. B. Ruppe, M. E. Hickey, D. F. Gill, R. M. Ball, E. D. Ewers and Frank Boher. Friends and acquaintances of the family are invited to attend these last sad rites to the departed.
