## BRIEF WIRINGS.

### DEMANDED A MILLION.

A Crank Blows Up Russell Sage With Dynamite—Desperate Doings.

New York, Dec. 4.—A man walked into the office of Millionaire Russell Sage this afternoon and demanded \$1,000,000. It was refused him, when he tossed a dynamite bomb into the center of the room. Russell Sage was severely injured and may die. One clerk was killed, and the man who threw the bomb was blown to fragments. The name of the crank is unknown. Great excitement prevails.

### Big Money on Short Time.

COLORADO SPRINGS, Dec. 4.—A syndicate of Colorado people have obtained a three days' option on the Washington lode and Independence mines, at Cripple creek, for \$100,000.

### Favors New York.

New York, Dec. 3.—The Democratic state committee met at the Hoffman. Every member was present excepting Hon. Hugh McLaughlin of Brooklyn. The session was short. Lieut. Governor-elect William F. Sheehan was elected to succeed Hermann Oelrichs, resigned, as a member of the national Democratic committee. Resolutions were adopted to the effect that the best interests of the party would be subserved by making New York the meeting place of the national convention.

### For Suffering Humanity.

New York, Dec. 4.—The fund for the aid of the unfortunate Hebrew victims of Russian tyranny, which is to be devoted to the bringing to this country of worthy families who are able to make a living, has reached nearly \$70,000, although no extraordinary effort has been made to promote it, the greater part of the contributions being voluntary. Not a day passes without donations being received by Treasurer Lehman, the amounts varying from \$1 to \$100 and more. It is proposed to keep the subscription sheet open for an indefinite period, as the committee expects to have use for all the money it may receive for a year or two to come.

### Presbyterian Revision.

COLUMBUS, Ohio, Dec. 4.—The period allowed to Presbyteries throughout the country to consider and act upon the report of the committee on revision of the Westminster confession, to the recent general assembly of the church at Detroit, expired on Tuesday last, and Rev. Dr. W. C. Roberts, of this city, the chairman of the committee, has received replies from every one of the 216 Presbyteries under the jurisdiction of the general assembly. These replies will now be tabulated and printed, after which the committee will discuss thoroughly all the criticisms and suggestions offered, preparatory to drafting a final report for presentation to the general assembly of next year. It is understood that very few of the Presbyteries have given full approval to the report, while a large majority have failed to agree with the committee on revision, in some one particular or another. Some of the criticisms on the changes proposed in the confession are very severe. Many important changes are recommended, some of the Presbyteries being diametrically opposed to the views of the committee, especially on predestination and election. A few are opposed to the work of the committee from beginning to the end. As a result, the task now before the committee will be far more difficult than the original one.

## "August Flower"

**For Dyspepsia.**  
 A. Bellanger, Propr., Stove Foundry, Montigny, Quebec, writes: "I have used August Flower for Dyspepsia. It gave me great relief. I recommend it to all Dyspeptics as a very good remedy."

Ed. Bergeron, General Dealer, Lauzon, Levis, Quebec, writes: "I have used August Flower with the best possible results for Dyspepsia."

C. A. Barrington, Engineer and General Smith, Sydney, Australia, writes: "August Flower has effected a complete cure in my case. It acted like a miracle."

Geo. Gates, Corinth, Miss., writes: "I consider your August Flower the best remedy in the world for Dyspepsia. I was almost dead with that disease, but used several bottles of August Flower, and now consider myself a well man. I sincerely recommend this medicine to suffering humanity the world over."

G. G. GREEN, Sole Manufacturer, Woodbury, New Jersey, U. S. A.

### Adopts Uncle Sam's Plan.

WASHINGTON, Dec. 4.—It has taken nearly a quarter of a century to convince the controlling minds of England's legislature that the policy in vogue throughout the United States throughout that period, by which, all things being equal, veterans of the war are given the preference in filling offices under the government, is a good one. According, however, to a copy of a circular just received by a member of the British embassy, in this city, the English authorities have at last taken a leaf out of Uncle Sam's book. The circular in question, which is issued by the post-master general, instructs all surveyors of the postoffice throughout the country that in all future vacancies whether in the cities or in the country, must in all cases, when possible, be filled by the appointment of soldiers of good character, belonging to the reserve, or who have served their time in the army and been discharged with honor. The only stipulation is that they must pass the examination prescribed by the civil service commissioners, and their good characters must be vouched for by the military authorities. As a matter of order, not less than 16,000 positions will be gradually opened to veterans of the British army.

### The Speakership Fight.

WASHINGTON, Dec. 4.—The relative positions of the various candidates for speaker, at the present writing, seems to be as follows: Crisp, first; Mills, second; Springer, third; McMillan, fourth and Hatch, fifth. Only upon one great proposition are they all agreed—that with every candidate in the field, a nomination is impracticable upon the first ballot, but neither Mr. Mills nor Mr. Crisp concede that every candidate will be still in the field when the caucus convenes next Saturday. Strenuous efforts are being made to effect the withdrawal of certain of the minor candidates by working a disintegration of their forces.

### Denver's New Scandal.

DENVER, Dec. 4.—The Times publishes a story four columns in length giving an account of a most horrible deed discovered in the heart of the city, where abortions have been performed by the wholesale. The place is run by a man named Carpenter; he admitted that he had successfully made seventeen operations and had thirty-five patients on hand at the present time. He was so bold in his operations that he employed agents to go upon the streets and solicit cases. It is believed prominent citizens will be drawn into the case.

### Want Our Corn.

CITY OF MEXICO, Dec. 4.—The bill granting the present power to decrease the suspension of duties on cereals and all classes of animals coming from foreign countries, so as to meet the emergency caused by loss of crops in various states, has passed the chamber of deputies without a dissenting vote, and was at once sent to the senate, where unquestionably it will be pushed through with haste. The passage of this bill will furnish the farmers of the west a good market for their crops.

### Brice Sued for Taxes.

LIMA, Ohio, Dec. 4.—The treasury of Ohio has filed a suit against United States Senator Calvin S. Brice for \$57,850 delinquent taxes. The senator has constantly refused to pay taxes here during the past few years, alleging, whenever pressed for a settlement, that he had no residence at this place. The amount asked includes over \$20,000 penalties.

### Foster Pretty Sick.

CHICAGO, Dec. 3.—Surgeon-General Hamilton, of the United States Marine hospital, left hurriedly for Washington last night on the receipt of a message asking for his service to attend Secretary Foster. The secretary has been ill for some time, but from all reports his ailment was not considered serious.

### He Maltreated Women.

DALLAS, Texas, Dec. 4.—H. J. Down, a supposed correspondent of a Kansas City newspaper, was abducted while out driving, taken three miles out of town and tarred and feathered and ordered to leave Dallas within forty-eight hours or his life would be forfeited. The authorities are working on the case.

### CONDENSED NEWS.

Gen. Butler is getting better. The Arkansas state treasury is temporarily bankrupt. A jury has been secured in the Graves case at Denver.

A Catholic congress is to be held in Chicago during the World's fair. Lewis Thornton was shot and killed by W. H. Williamson at Newport, Ky. Jealousy.

Mrs. George Masten and infant son were burned to death in Denver. Lamp explosion.

The Westinghouse Electric & Manufacturing company, of Pittsburgh has been reorganized.

Albert Hope, an ex-actor and New York dude, has been taken to Memphis. Bogus check.

The first dividend to depositors of the defunct Maverick bank will be between 50 and 60 per cent.

Uncle Jere Rusk says there is no truth in the report that Germany is to renew her war upon the American hog.

Representative Cooper, of Indiana, announces that he is ready to resume the fight on Pension Commissioner Raum.

The identification of King as one of the kidnapers of the Beals child has been fully established by the messenger boy who carried the note to Mr. Beals.

Col. Don T. Dickinson has resigned from the secretaryship of the World's fair national commission to accept the general management of the Texas, Arkansas & Pacific railroad.

Cyrus W. Field is bankrupt and dying in New York. His robber son is insane, and his daughter is dangerously ill. Assignee Gould is preparing a statement of the affairs of Field, Lindley, Weichers & Co.

Postmaster General Wadsworth has extended the merit system of promotion, which was published July 1 in the department proper, to all postoffices where there are fifty or more employees.

Secretary Foster will approve the report of the Pueblo building site commission and the new government building will be erected upon the Baxter property, at the corner of Fifth and Main streets.

A gang of incendiaries has been arrested at St. Paul. The members received a percentage of the insurance, and had been operating in the city and suburbs for a year.

Father Korwin, a Catholic priest at Newark, N. J., objected to the erection of poles for electric wires in front of the church property and fired three shots at the workmen.

The Mexican minister in Guatemala reports that there are over 10,000 Mexicans in that country and that it is an open secret that sooner or later these people will demand annexation to Mexico, as the Texans did to the United States years ago.

The cattlemen of west Texas held a convention at Colorado city, Texas, the object being to organize and make an effort to have the quarantine line moved south of its present bounds. Nearly all of the prominent cattlemen of west Texas were present.

Isaac Sawtelle, sentenced to be hanged in New Hampshire, January 5, for the murder of his brother, Hiram, has made affidavit that he killed his brother, but did it in Maine. He hopes by this means to escape hanging, as there is no capital punishment in Maine.

The total coins executed at the mints during the month of November was 10,836,275 pieces of the value of \$3,679,256. Of this the denominations were as follows: Gold, 108,520 pieces; value, \$1,742,800. Silver, 3,585,736 pieces; value, \$1,845,756. Minor coin, 6,562,000 pieces; value, \$93,700.

### E. W. TRAFFORD.

Captain of the Harvard Team.

Trafford succeeded Cumbeck as captain of the Harvard team. His men call him "Old Trafford." He is a native of New England and has played three years for his college as full back for two years. The victory of the Harvard over Yale last year was the occasion of his being made captain. While on the Exeter eleven, previous to entering Harvard, he held the captaincy. Trafford has a cool head and good judgment, is a fast runner, a clever dodger and a long and accurate kicker.

### BUSINESS OPPORTUNITIES.

An Indiana Editor Gathers a Few Ideas from Surveyor General Hobart.

In the course of an extended article on "practical hints" gathered in New Mexico, the editor of the Marion, Ind., Leader prints this:

But the most money could be made by going there and working land for the most profitable crops. Should we go further north, in the region of Albuquerque, and especially Santa Fe and Las Vegas, we should divide between alfalfa and stock, especially sheep. No such thing as disease among sheep is known there. And here we wish to give a few points obtained from General Hobart during our afternoon drive at Santa Fe. We asked if the chances for money making were as good as they once were? "Better than ever," he replied. "We have better shipping and irrigation facilities. I will tell you," said he, "how you may get rich here in five years, with a capital of a few thousand dollars to start on. I should buy twenty acres of land that could be irrigated. I would then put the rest of my money into sheep. Next, I would hire a trusty Mexican to take care of them, one Mexican can care for more sheep than five Americans; he would drive them back on the foot-hills of the mountains where rain falls and grass grows naturally, and there they will keep fat for from ten to eleven months of the year. During the one or two months of feeding time the alfalfa from the twenty acres will keep your sheep still fat."

"Two thousand sheep may thus be cared for, and they will yield in the course of a year 1,500 lambs, worth \$2.50 per head, and \$1.50 worth of wool to the sheep; this would profit of \$6,750 per year; deducting \$300 to pay the shepherd, and you have \$6,450; granting that it costs \$400 additional to market and realize on your product, you still have \$6,050, or more than 100 per cent profit on your investment."

"Again," said he, "I own eighty acres of land near Las Vegas; it is well situated for irrigation; on this I can raise at least five tons per acre per annum, and get at least \$10 per ton net, this will yield me \$4,000 a year on \$1,000 investment."

"Another good way is to buy twenty acres on which to raise alfalfa, and put the money we had set apart for sheep into cheap, unbroken mares, they can be cared for as the sheep were, and from them raise mules. By this means as much may be made as off sheep."

Thus the genial and distinguished gentleman went on discoursing upon the possibilities, until nightfall compelled us to part; and feeling under great obligations for his kindness, we invited him to come to Marion at his first opportunity.

THOMAS LEE MCCLUNG.  
 Captain of the Yale Team.

McClung is a veteran athlete. His early boyhood days were spent at Knoxville, Tenn., where he manifested great ability in outdoor sports. Subsequently, as a pupil at Phillips Exeter academy, he was a leader in both base-ball and football. He was a catcher of the nine for several years and was captain of the foot-ball team the last year of his stay at the preparatory school. As a tennis player he often represented the crimson and gray in the semi-annual tournaments with Andover. He entered Yale in the fall of 1889, and was given the position of half back in the team. McClung is 22 years old. He is of good stature, strongly built and remarkably agile.

Go to Seligman Bros. for toys and dolls of all descriptions.

Notice.  
 The Santa Fe Electric company desires to announce to its consumers the following rates ordered by the directors to take effect January 1, 1892: For 10 candle power, 10 p. m., \$1 each. For 16 candle power, 12 p. m., \$1.50 each. For 16 candle power, all night, \$2 each. For 32 candle power, 60 cents additional will be charged.  
 E. W. JONES, Sec'y.  
 Santa Fe, N. M., Dec. 4, 1891.

Furnished rooms by the day, week or month; brick house, clean beds, quiet place, at 25, 35 and 50 cents. Olinger block. Josefine Widmaier, proprs.

Leave your watches, clocks, jewelry or anything else in need of repairing with Blain Bros. All work guaranteed and returned with promptness.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the Southwest.

FRIDAY, DECEMBER 4.

COL. BLAKE and Col. Childers can scent a good thing afar off. A wily pair that.

It cost 13 1/2 cents a day per convict to feed the inmates of the territorial penitentiary last month. Pretty good showing this.

Good times are not far off for sunny New Mexico. All along the line of modern progress may be observed quickening influences at work that stand as an unmistakable augury of the near future.

It may be considered somewhat previous, but we violate no confidence in declaring that "the solid south" has almost reached the end of its tether. The Virginians will give the next Republican presidential ticket a handsome majority. Mark the prediction.

ALEXANDER SALVING, the great actor, has fallen under the spell of Gen. Lew Wallace's genius. He is studying Ben Hur, and by an arrangement with the general he will shortly add a dramatization of this widely known work to his repertoire. A famous French mechanical engineer has submitted plans which will make an actual reproduction of the race scene possible. The play will give unlimited scope for exquisite pictures of oriental life.

The railway blockades which we read about in the west, observes the Boston Herald, furnish a ready answer to those who have maintained that railroad building has been overdone out there. After such successful harvests as that which is now coming to market, the immense carrying facilities of all the roads are inadequate to the emergency. Such a condition of things furnishes an impressive contrast to the stories of blight and starvation that are coming to us from beyond the sea.

The man who originated the present American homestead law, who spent the best years of his life and the contents of his private purse, \$40,000, in furtherance of this idea; the man who is entitled to blessings for establishing millions of happy, prosperous homes in the west to-day—this man, the Hon. William Allen, died in a county charity hospital at Columbus, Ohio, a few days ago. He had the law enacted, but he never made a homestead. He died penniless. A few grateful friends came to his assistance with money contributions, but they were too late. His great service to the people and his country deserved for "Land Bill Allen" a far different fate. May it be well with him in the Great Hereafter.

DENVER is making headway in its work of organizing a home protective bureau in opposition to the long haul policy of the railroads, a policy which has become a perfect "fad" of late and which, unless checked, will wipe out every whole sale house and every manufacturing enterprise not located at the terminus of half a dozen great trunk lines; whether or not the agitation of the subject has brought about this change, it is a fact nevertheless that on yesterday a new west bound tariff rate went into effect which includes several changes of benefit to Denver's manufacturing enterprises. By this change the rates on asphalt, emigrant movables, glucose, lime, mineral water, ore, paper, rags, soap and zinc from Denver, Colorado Springs, Pueblo and Trinidad, east-bound, are placed on a par with west-bound rates.

It is quite cheerful, this readiness with which our German cousins are taking to American corn. No government ever performed a handier stroke than did the present administration when it sent its commissioner into the German empire to show them what really good things they have missed all through life in not cultivating a taste for American corn and its products. That it is good for bread, and for drink, when taken in limited quantities, the Germans have now become convinced, but this is not all, American corn

promises to assume an important place in the manufacture of soap in Germany. Hittorff manufacturers used linseed oil procured in Russia, but owing to the failure of the crop there they were compelled to look in other directions for a supply of oil. East Indian linseed oil was tried, but the experiment was unsuccessful. An eminent chemist, after many experiments, has decided that the oil obtained from corn is best suited for the use of manufacturers. The latter are now obtaining their supplies from Chicago, and the chances are that the trade will equal thirty or forty million bushels yearly.

DON'T MISS IT.

We can not refrain from again calling attention of the mining fraternity to the importance of having New Mexico fully represented at the southwestern silver conference which occurs at El Paso on December 15. Congress will be in session at that time and if a good report of that convention's work goes on to Washington it will very materially aid in helping along the modification of the alien land act, which will come up for consideration by congress early in the session. If this El Paso gathering should succeed in its principal object it would be of inestimable benefit to the miners of New Mexico; not alone to this deserving class, but all business interests would be stimulated thereby. The repeal of that act in so far as it prohibits the investment of foreign money in mines of the territories is all that New Mexico now needs to promote a lasting season of prosperity. To have a hand in bringing about such a condition of things is an honor that any citizen may be proud of. It is hoped northern and central New Mexico will be fully represented on this occasion. As for southern New Mexico, the people there are thoroughly alive to the importance of sending a large delegation.

EDITORIAL COMMENTS.

**They Will be Heard From.**  
The official figures of the vote in New York show that over 100,000 Republicans neglected to vote. They will all turn out next year, however, and give the state to their party's candidate for president.—St. Louis Globe-Democrat.

**Why England Kicks.**  
The United States exported to England in 1890 merchandise worth \$38,110,000. The United States imported from England in 1890 merchandise worth only \$15,786,501.—New York Press.

**Democracy and Statehood.**  
Secretary Noble very properly observes that the claims of Utah for admission as a state "do not seem to require favorable consideration by congress." He means, of course, that the Democratic party still has a hold upon the territory that exposes it to general suspicion and reproach.—St. Louis Globe-Democrat.

**Sees Blaine in the Lead.**  
Whether two or six delegates go from New Mexico to the national Republican convention is a question of no special importance. Blaine will be nominated on the first ballot, and whether two or six delegates will go for him at that time will be a matter of comparative indifference.

**It Is Real Funny.**  
The manner in which Springer and the other Democratic candidates for the speakership try to play the good-Lord-good-devil game by toadying to both Cleveland and Hill is very amusing to outside observers. Hill is determined to slaughter Clevelandites, and Cleveland has determined to kill off the Hillites. Other party leaders see no hope except in killing them both off.—Kansas City Journal.

**An Observation Well Taken.**  
It is not generally known that Lincoln's emancipation proclamation freed from virtual slavery several thousand persons in New Mexico, who since have had little chance to better their condition. The government has done nothing to help them. They remain poor, ignorant and superstitious. Humanitarians can find a wide field of usefulness among these former peons.—Albuquerque Citizen.

**A Good Showing.**  
Oklahoma is going to be a very valuable member of the sisterhood of states, as is proven by the splendid showing made by the first season's crops of that young member of the American family. Wheat, corn, millet, sorghum, cotton, oats, potatoes, rye, tobacco, castor beans, flax, buckwheat and peanuts are among the

**The Celebrated French Cure,**

Address THE APHRODITE MEDICINE CO., PACIFIC BRANCH, 22 Sansome Street, San Francisco, Cal. For sale by A. C. Ireland, Jr.

**WHY DO YOU COUGH?**  
Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that.

**"IT STARTED WITH A COLD."**  
Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that

**DR. ACKER'S ENGLISH REMEDY**  
for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 46 West Broadway, New York, for book.

For sale by A. C. Ireland, Jr.

products of the soil, while wool to the value of \$24,259 and fat stock worth \$51,206 were marketed. That is a mighty good showing for a yearling territory. No wonder Oklahoma is getting in a hurry to be admitted as a state.—Kansas City Journal.

**Tariff Pictures.**

The iron ore industry affords a striking illustration of the way in which protection lowers prices and increases wages. In 1880 the average annual wages of iron ore miners in the United States were \$308.49.

In 1890 they were \$409.95.

In 1880 the average price of iron ore was \$3.25 per ton.

Last year it was only \$2.30 per ton.

In other words, the price of iron ore has decreased 29 per cent under ten years of protection, while the wages of iron ore miners have increased 33 per cent.—New York Press.

NO OTHER MAGAZINE IN THE WORLD

so fully and fairly presents the opinions of the leading writers and thinkers on all questions of public interest as "The North American Review."—Boston Journal.

THE NORTH AMERICAN REVIEW

is essential to every American reader who wishes to keep up with the times. The New York Sun says of it: "The North American Review constantly offers to the public a programme of writers and topics that excite the reader and gratify the intellectual appetite. In this respect there is no other magazine that approaches the North American Review."

It is neither a partisan nor a sectarian publication, but

ALL SIDES OF ALL QUESTIONS

in which intelligent readers are interested are promptly discussed in its pages, and facts and arguments are presented with all the ability and logical force of the most eminent writers in the world.

Its contributors to early numbers will

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

Warranty Deeds Given

THE PECOS VALLEY!  
THE GREAT FRUIT BELT of NEW MEXICO!  
1000 Miles Nearer all Eastern Markets than California.

The canal system of the PECOS IRRIGATION AND IMPROVEMENT COMPANY covers 300,000 acres of MAGNIFICENT LAND in this MATCHLESS LOCALITY. The land is all PUBLIC DOMAIN and enterable at the Government price, of

\$1.25

ONE DOLLAR AND TWENTY-FIVE CENTS PER ACRE!

\$1.25

Either under the Desert Act, Timber Culture, Pre-emption or Homestead Laws. The soil is a rich, chocolate-colored, sandy loam, from six to twenty feet deep, underlaid by lime-stone. In fact it is a lime-stone region UNSURPASSED IN RICHNESS by the famous Cumberland Valley. With an altitude of 3,500 feet above sea level, it has—A CLIMATE WONDERFULLY EQUABLE AND HEALTHY!—No snows; no Northerns; no dampness; no malaria; no consumption! PURE, and ABUNDANT WATER; so here produces five cuttings of alfalfa the year, and two crops of grain; wheat, oats and barley being harvested in June and corn then planted in the same land being cut in the Autumn. For further particulars, address, "THE PECOS IRRIGATION AND IMPROVEMENT COMPANY," Eddy, Eddy County, New Mexico.

**WORKING PEOPLE** can take Simmons Liver Regulator without loss of time or danger from exposure. It takes the place of a doctor and costly prescriptions and is therefore the medicine to be kept in the household to be given upon any indication of approaching sickness. It contains no dangerous ingredients but is purely vegetable, gentle yet thorough in its action, and can be given with safety and the most satisfactory results to any person regardless of age. It has no equal. Try it.

**METEOROLOGICAL.**
