GUADALUPE FAIR EXHIBITS TAKE THE RIBBON

FARM PRODUCTS BEAT BEST IN THE WEST

Enormous Melons, Fruits and Vegetables Displayed and Exciting Bronco Busting Contest Pulled Off.

[Special Dispatch to the Morning Journal.] Santa Rosa, N. M., Oct. 3.—The Guadalupe county fair closed tonight. The agricultural and stock exhibits were by far the finest ever seen in this part of the territory. Among the judges on agricultural products were Mr. W. E. Jeffries of Kentucky, and Mr. Charles Keller, of Indiana. Both of these gentlemen are recently from the agricultural districts of their states. They say unqualifiedly that the Guadalupe county farm products were equal to any they had ever seen in their home states. In awarding the prizes the products of unirrigated farms came in for competition with the irrigated products.

The fair was well attended and exhibits brought in from all parts of the county. There was considerable friendly rivalry between J. W. Wood, who has a beautiful irrigated farm in the Pecos valley, just south of Santa Rosa, and Mr. A. P. Johnson who has a "dry" farm west of the Pecos river and on the plains. Mr. Johnson secured first prizes on Indian corn, millet, Irish potatoes, milk, native beans, peas, and second prizes on navy beans and general display. He also received a special prize on two mammoth twin pumpkins and on citrons. Mrs. Johnson secured first on home made pickles.

Dr. J. W. Wood secured first prize on best general exhibit. Rocky Ford cantaloupes, peanuts, onions, native peas, native cabbage, dairy butter, and second on chile. He also received a special prize on stock herts. These herts were fully two feet long and ten inches through.

Mr. H. H. Hohn, of Pintado, first on sorghum, largest and best squash, and cucumbers.

J. S. Arnold, of Cuervo, first on sweet potatoes and pumpkins. The sweet potatoes were not especially selected for the fair but were taken at random from a wagon load he had in town for sale.

Pace Baca, of Santa Rosa, best yellow pumpkin.

Matilde Chavez, first on tomatoes.

Mr. William Johnson, of Los Tanos, first on watermelons. The exhibit of watermelons was large and particularly fine. The largest melon was from Runnyside, was raised by Canido Aragon and weighed 67½ pounds. The prize melon was smaller but was a perfect specimen of a variety that was supposed to be the best.

Jose Abran Salazar, Puerto de Luna, first prize on chile.

Santiago Moreno, first prize on red beans.

Pablo Urban, second prize on sweet potatoes.

Mrs. J. D. Lovelady, Santa Rosa, received first prize on butter and built Sandy Platin, Los Tanos, first prize on bear.

A. P. Johnson, first prize on native mares.

Mr. B. Cox, of Alamogordo, best coop of Brown Leghorn chickens.

Dr. Rudolph, first prize on best coop of White Wyandottes. Charles Woods of Santa Rosa second prize on White Wyandottes.

Bernardo Gallegos, first prize on game chickens.

Eddie Tice first prize on Bantams.

In the judges department of the fair, the first prize for the best needle work went to Mrs. J. S. de Tomaso, second prize to Mrs. Johnson. Best hand lace, Clotilde M. de Lastra, second to Mrs. J. S. de Tomaso.

Best embroidery, Mrs. R. B. Brown secured first prize. The judges in this department were Mrs. E. D. Moore, Mrs. E. Montana and Mrs. Lovelady.

A very interesting feature of this fair was the bronco "busting." Bob Smith, Jim Gilles and Eugene Hael, the competitors, and some fine riding was done. Bob Smith was the winner of the first prize.

In the base ball tournament the Santa Rosa nine were the winners. The winner in the roping contest was Mr. Soto, of Pintado.

The great success of the fair this year has determined the holding hereafter of a like annual fair in this county. It is probable that county exhibit will be taken to the territorial fair in Albuquerque.

BOYS BAND WILL MAKE BIG HIT AT THE FAIR

Juvenile Musicians Have Attained Proficiency Which Is Marvel of Local Music Lovers.

The Leonard & Lindemann boys band is going to prove one of the very best features of the territorial fair. The band, after a year of hard work on the part of both members and directors, has become one of the very best musical organizations of the territory. The band held a rehearsal last night in Colombo hall, playing both on the march and on the stage, and those who had the privilege of attending enjoyed a real treat. There is absolutely nothing "amateurish" or "crackety" about the playing of the boys. There is perfect harmony, full volume, perfect time and an expression which has been attained by few brass bands ever heard in Albuquerque. Several members of the band are upwards not over eight or ten years of age. An intricate drill has been mastered and the boys now have a full repertoire of selections.

The American Lumber company band is the only real rival the boys have in the territory, and the former will be working hard with the boys, and the results accomplished are nothing less than wonderful.

The band is to do some exhibition drilling and playing in front of the grand stand during the fair. There is a big surplus of selections for the grand stand. The native new uniforms are on the way here from Philadelphia by express, and will arrive in time to be worn during the fair.

Director Ellis is working hard with the boys, and the results accomplished are nothing less than wonderful.

PUERBLOS DO GOOD WORK ON THE PUBLIC ROADS

Highway to Jemez Hot Springs Put in Splendid Condition by the Wards of Uncle Sam.

Obedience to an order issued recently by the Indian department, the Pueblo Indians are working on the public roads under the direction of the road supervisors and have accomplished splendid results. A communication received by the Morning Journal from N. J. Sandoval, road supervisor for precinct No. 8, of Sandoval county, says that he has completed a two weeks' campaign on the road from the valley to Jemez Hot Springs with a detachment of 250 Indians, who have taken a most intelligent interest in their work and who have made the road to the mountains one of the best highways in the country. Sandoval has also been working the Abasco and Chama roads with the Jemez Indians, with equally satisfactory results. This is the first trial of the Pueblos on the public roads in New Mexico, and the experiment is a success. The travel over the road to Jemez is getting heavier all the time and the improvement brought about by the work of the Indians is much appreciated by the traveling public.

TOM COW APPEARS AS A DEFENDANT

Chinaman With a Bovine Name Associated With Charley Hong On Fernist Side of a Case In Court.

"Tom Cow" is the rather unusual name which appears on the district court docket, Tom and Charley Hong being defendants in a suit brought by W. V. Furbelle. The plaintiff claims he sold goods worth \$211.05 to one C. J. Proudfoot, and that the latter, without paying for the same sold them to Hong and Cow. The goods purchased in the complaint are chiefly kitchen and dining room ware, such as tinware, crockery, glassware and furniture. Hickey and Moore are attorneys for the plaintiff.

HORABIN RETIRES FROM COMPANY

L. K. McGaffey of Roswell to be Associated With A. B. McGaffey of This City in Lumber Business at Thoreau.

L. K. McGaffey, of Roswell, has bought out the interest of William Horabin in the Horabin-McGaffey company, the best trading and lumber concern, with headquarters at Thoreau. Mr. L. K. McGaffey will, however, also continue his business in Roswell, and A. B. McGaffey, of this city, will continue the management of the business at Thoreau. Mr. Horabin leaves at once for Redlands, Cal., where he will make his home hereafter. The business will be continued on the same basis as heretofore.

BIG BUNCH OF POSTAL CARDS RECEIVED HERE

Harvey System Recipient of Enough Postcards to Sink a Steamboat—Over a Million in Shipment.

Enough postal cards to build a high fence around the Alvarado were received yesterday by the local offices of the Harvey system from the manufacturers in New York City. The cards contained exactly 1,000,000 cards, and there are 250,000 already in stock here so that the total is "something over a million." It is nothing, however, to the amount of millions, sold by and supplied which are distributed from Albuquerque, being the Harvey system by the Harvey people. The postal card business has grown to enormous proportions all over the country, and has correspondingly increased in volume here.

"FIGHTING FLAMES" HOLDS REHEARSAL

Private Performance in Arena for the Purpose of Acquainting Local Talent With Their Duties During the Big Show

A rehearsal of the "Fighting the Flames" show, which unquestionably is the largest exhibition that ever appeared in Albuquerque, was held last night at the arena at First street and Central avenue. While the spectacle of men and women jumping from buildings, the busy street scene, showing the robbery, the murder, the chasing of the murderer and a score of other incidents were pulled off in strenuous fashion, the "performance" was private. The "Fighting the Flames" company uses besides its forty regularly paid employees, about a hundred "supers" and last night's exhibition was to acquaint the latter with their various paraphernalia and stunts. While the men and women employed to jump from windows in two, three and four-story buildings, went through their parts creditably, the flames were not "put on."

DAGANETTE MAKES ADDRESS AT LAKE MOHONK MEET

SUPERVISOR OF INDIAN LABOR LEAVES FOR EAST

Will Stop in South Dakota En Route to Help Unravel Knotty Problem of Troublesome Utes.

Charles E. Daganette, supervisor of Indian affairs left last night for Gallup on official business. Mr. Daganette will pass through here today on the Chicago limited bound for Chicago and Lake Mohonk, N. Y., where he will make an address before the Lake Mohonk conference of "dependent peoples" which will meet October 23, 24 and 25. This conference is one of the most important gatherings of the country. It is attended by delegates representing the American Indians, Porto Rico, Cuba, the Philippines, Hawaii, and other dependencies of the United States, who aim to influence legislation and public sentiment for the betterment of their condition. The conference pays particular attention to the interests of the Indians and Mr. Daganette's address regarding the Indian as an industrial factor will be one of the most interesting numbers on the program. Mr. Daganette's work in securing employment for the Indians of the west is too well known to need comment. He is the first man to hold the position recently created by the Indian department after he had been chiefly instrumental in demonstrating the industrial possibilities of the southwestern Indian. Mr. Daganette's first annual report is now in the hands of Commissioner Leupp and will appear soon in the latter's report.

En route east Mr. Daganette will stop in Washington and in South Dakota, where the government is still wrestling with the problem of what to do with the Utes, some five hundred in number, who trekked to Dakota from Utah a year or so ago, and have occasioned the Great Father at Washington considerable annoyance ever since. What to do with them is still a problem. The Indians have leased lands from the Sioux for a term of five years. They are still, however, in an unsettled state and the government is dissatisfied with the situation. Mr. Daganette will make a definite proposition to furnish the Utes employment and it is the intention of the department to settle the matter at once.

IN THE QUICKSANDS NINETY MILES FROM ANYWHERE

Exciting Experience of Harvey Man in Course of 250-Mile Wagon Trip Over Navajo Reservation.

Manager Herman Schweizer of the Harvey curio rooms has had many interesting experiences among the Indians while in quest of new and rare handiwork, but none has fallen to his lot to have a more strenuous adventure than on his recent trip to the Navajo reservation from which he has just returned. Mr. Schweizer was taking a 250-mile overland trip in a wagon, touring the villages on the reservation, a young Indian lad acting as driver and guide. Ninety miles from Fort Defiance they attempted to ford a stream and the whole outfit became mired. The Indian boy was dispatched for assistance while Mr. Schweizer stood for three hours in the muck, continually shifting his feet to prevent the sand from getting the best of him and holding the horses' heads out of water until help arrived. Mr. Schweizer refused to tell what his thoughts or language were during those three endless hours when he momentarily expected to be swept off by the rushing water, or buried in the sand. Suffice it to say that he does not desire to repeat the experience.

How to Cure a Cold.
The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested. For the quicker a cold is cured the less danger of pneumonia and other serious diseases. Mr. H. W. L. I have recommended it to my friends and they all agree with me." For sale by all druggists.

SPECIAL FOR THIS WEEK ONLY.
We want you to get the habit of coming to our store for your wants, and at the same time prove to you that there is a saving of from 10c to 25c on every dollar's worth you buy from us. Our way of doing this is to offer these specials each week. This week we place on sale at a special price several hundred tooth brushes. This lot of brushes are all standard goods, mostly all French makes. Among them are brushes that a great many stores sell for as much as 50c. The lot consists of large, medium and small sizes, in flat, oval, curved, bent and pointed oval, carved, straight and fancy; in fact there are most all shapes of polished bone handles, all filled with genuine white bristles in straight, curved and dental shape. There is not a brush in the lot worth less than double what we sell them for this week. Come early and get first choice. This week, each, only 10c
