the show is going to prove even a stronger attraction than had been expected.

The Carnival Free Attractions.
The Russian-Diatlov company, which has the carnival privileges for the week, has the strongest line of free street attractions on record. Nickless Russell, the famous orderer bicycle rider, whose daring ride down an ice-plank to a dive of forty feet, has been causing people to hold their breath all over the country, will be seen such a feat at 79 in front of Russell will be his act at the corner of Fourth and Central avenue, where Captain May will do his high diving stunt. The revolving ladder and a daring high wire act makes a quartet of free attractions.

H. A. Russell, manager of the company, said last night that his entire list of shoes was as clean as could be, but that every precaution had been taken to guard against scab. The company has the first class reproduction of the original of Mount Pelee, a good mineral shoe, with seventeen people from way down south, all the usual carnival features, and several unusual ones. Major Dantz, the smallest man alive, is on duty at the corner of Third and Centre, where things will be doing all week. The major is two inches high, weighs thirty pounds, is forty years old and is from St. H.

As is usually the case, the structural company was late in arriving and yesterday was having trouble of its own making. The men were unable to get the pumps to shove out the mortar and work every where will be ready by this evening.

The first show after a stagnation week by the management was practically completed last night.

The fair grounds will open this afternoon at 1:15 and at 2 o'clock the bass drum will be heard. The parade will start at 2:30 and the march will be between El Paso and the square will last. There will be a aqueduct drill by the military and the captive balloon will be up at every five minutes.

With ray-blasts and other things there seems little reason to look for anything else. The spectators are late will be the biggest in point of attendance since the first day of the fair since the time when was organized.

ALLEGED CRANK ON STEAMER WITH CRAFT
Supplies Looking Japanese-Looked in Cabin by Captain's Order.

St. Paul, Oct. 4.—During the trip of the Minnesota to which Secretary of War Taft accompanied the Japanese minister from Kyoto to this port, a Japanese passenger was imprisoned in the cabin by order of the captain of the vessel on account of his unscrupulousness. He said he was a brother of a Taft agent. He was turned over to the police here and it developed that he had been drinking. The War State has been reported in an attempt to induce Secretary Taft.

Executive Expected on California Limited and May Be in Time to Open the Fair.

It is now expected that Governor Curry will reach a biography at 12.30 o'clock on the California Limited, although up to a few hours last night no definite advice had been received from him. Should he be a passenger on the limited and should that train arrive on time, the governor will be in time to officiate at the opening of

The fair as originally planned. The matter is still in doubt, but in any event the formal reception to the governor on the part of the fair association will be postponed until Tuesday afternoon at 1:30.

Hon. Nathan Jaffe, secretary of the territory, arrived in Albuquerque yesterday to meet the governor, while the governor's private secretary will arrive today from Santa Fe.

The fair association has appointed a special committee to act with the officers of the fair and the executive committee in receiving Governor Curry and in looking after his comfort and entertainment while he is Albuquerque's guest. This committee is composed of Messrs. Raymond Cannon, A. W. Flournoy, Ira A. Abbott, J. H. O'Healy, M. L. Seely, W. F. Johnson, R. H. Coffey, Governor Curry will make his home at the Alvarado during the week.

Alleged Murderers Acquitted.
Raleigh, N. C., Oct. 8.—Two juries in the Federal court today found the charges returned a "not guilty" verdict against Dr. and Mrs. David Howard, who were charged with murdering the woman's former husband, Charles E. Howard.

THE ECONOMIST

FIRE FIGHTERS WILL CONVE ON TUESDAY

New Mexico Fireman's Association Will Be Called to Order in the National Guard Armory Tomorrow Morning.

The New Mexico Fireman's association will meet in annual convention Tuesday morning at 9 o'clock in the armory of Company G, National Guard. The first session will be devoted to business and officers will be elected for the ensuing year. At present B. Hupke of this city is president and A. M. Dettlebach of Santa Fe secretary. Both gentlemen are prominent in the affairs of the association and have done much to insure that the convention this week will be largely attended by the fire leaders from all over the territory. The most interesting feature of the gathering will be the contests which will take place during the week and which will be announced later. Some such teams have entered the horse races and other contests and have been practicing regularly for some time in anticipation of the fair tournament. Members of the association will be present from Santa Fe, Las Vegas, Socorro, Las Cruces, Roswell and Raton. Albuquerque will be represented by members of the city department, the American Lumber company team, and the Santa Fe shops organization.

BIG LEAGUE BALL SEASON ENDS

Detroit Americans and Chicago Nationals, Pennant Winners, to Play Series for World's Championship.

Chicago, Oct. 4.—The national baseball commission has today completed arrangements for the world's championship series between the Detroit team, winner of the American league pennant, and the Chicago team, winner of the National league. The series will open in Chicago Tuesday, October 8, when two games will be played here. On Thursday, Friday and Saturday games will be played in Detroit.

In the national league the result of the race was never in doubt. Chicago holding first place by a decided margin throughout the season. In the American league the fight was exciting. Philadelphia and Detroit entered the final week of the contest almost tied for first place. The unexpected loss of a game yesterday ended Philadelphia's chances for the pennant while Detroit got through the week without the loss of a game. Yesterday's double defeat of the Tigers in St. Louis ended the race in favor of the result. Yesterday's scores:

At St. Louis: First game, St. Louis, 10; Detroit, 4. Second game, St. Louis, 13; Detroit, 3.

At Chicago: Chicago, 4; Cleveland, 2.

WOULD COST \$800 TO SHUT DOWN THE SCHOOLS

PRESIDENT HOPKINS OF SCHOOL BOARD TALKS

Glad to Give Children Holiday But Board Considers it Would Be Unwise Policy to Break Into Routine.

President H. W. Hopkins, of the Albuquerque board of education, objects seriously to the agitation which has come from a good many quarters in favor of closing the public schools during all of fair week, not, as he explains, because he objects to the children having the holiday, but because of what he considers serious danger to the smooth routine of class work and because of the heavy cost to the schools of such a shut down.

"I think if the people generally understood the considerable machinery involved in running the schools of this city," said Mr. Hopkins yesterday, "there would be no desire at all for any closing of the schools during the fair week, aside from the two days at the end of the week, which we always allow. No one is more in favor of the children having a good time than I am, and I am sure all members of the board are in harmony with me. And no one is more anxious to do everything possible for the success of the fair. There are other things to consider, however, which are of such importance that they cannot be overlooked. I suppose not many people in Albuquerque would realize without stopping to think and ask questions, that to shut down the schools for a week would mean a loss to the schools of more than \$800. The more serious matter, however, would be the break in our routine, the disrupting of regular class work and the general disorganization of the school system, which is just now getting into good working order after the summer vacation. While some parents may desire to have their children free to go to the fair at all times I am sure the large majority do not desire it, and I am quite sure that the unanimous opinion would be, were the matter thoroughly understood, that we should not cause such a serious break in the routine of the schools. The children will have Thursday, Friday and Saturday to attend the fair. This can be done without seriously interfering with class work, and I am sure it will be considered cheap when we recall the matter is given proper reflection."

BASEBALL MEET IS TO START THIS AFTERNOON

EL PASO AND SOCORRO WILL OPEN TOURNAMENT

Six Hundred People See Albuquerque Hand a Life Size Lemon to El Paso in Preliminary Game.

The fair baseball tournament will open this afternoon at 2 o'clock when El Paso and Socorro will meet in the first game. From the interest manifested in yesterday's preliminary game, the fans are going to be out in force for this tournament. The game yesterday afternoon was a decided disappointment for the six hundred fans who gathered at the fair grounds to see it. The less said about it the more charitable will it be to the El Paso crowd, who seemed to be very tired. The long, all-night trip from El Paso probably had something to do with it, and the fact that it was an exhibition game, had more to do with it. The long, all-night trip from El Paso probably had something to do with it, and the fact that it was an exhibition game, had more to do with it. The long, all-night trip from El Paso probably had something to do with it, and the fact that it was an exhibition game, had more to do with it.

In one of the innings it was just a question, apparently, of how often the boys cared to run around the bases, and Levertit, who pitched for El Paso, was a mark at all times. The El Paso players were up against Crable and Durham, a fairly strong pitching force, and they did not seem able to do much with either pitcher. The game was devoid of sensational playing, the hard and constant hitting of the Browns being the feature. Yesterday's game is by no means an index of the kind of baseball that is to be played during the fair, for El Paso has seventeen men with her team, and is said to be holding back her talent for the business end of the meeting.

The score for yesterday's game, out of courtesy to the El Paso aggregation, really should not be printed, but for the interest of the fans it is given.

GABALDON DIDN'T HEAR A THING

Shepherd Struck by Santa Fe Train Will Live in Spite of Amputation of His Leg.

It was learned yesterday that Manuel Gabaldon, the native sheep herder who was struck by a Santa Fe train near San Marcial Friday morning, will recover in spite of the amputation of his leg, which was badly crushed by the wheels of No. 10. The San Marcial station gives the following details of the accident:

A few minutes after 2 a. m. Friday morning the passenger train from the south struck Gabaldon, who was riding on the track a mile north of San Marcial station, and he sustained a compound fracture of the bones of the right leg below the knee and a compound fracture of the left leg. The leg was badly crushed, but may avoid amputation. The man states that he was walking on the track, heard nothing and did not know he was in danger until he was struck.

Engineer W. Dana Mossman saw the man and whistled, and then promptly checked his train, when it seemed that the man was not conscious of his danger.

Gabaldon, who had been thrown clear of the rails, was picked up and placed upon the train, which was backed down to San Marcial station, where he was left in care of a physician. Gabaldon's horse, which was left in front of a saloon, was later found wandering about near town. The train north was on time, which may have upset Gabaldon's calculation.

PHOTOGRAPHY THAT REMINDS OF MAGIC

REMARKABLE FIVE FOOT PICTURE OF KNIGHTS

Every Face in Extraordinary Photograph Taken by Great Western View Company is Perfect.

When Burr McIntosh came to Albuquerque a couple of years ago, he took a photograph of the grounds of the American Lumber company and another of the Alvarado hotel and Santa Fe station that were undoubtedly the most perfect panoramic views ever taken in this part of the world. That was two years ago, and photography has not been standing still. Yesterday a photograph was taken in front of the Elks building, which is in every way more remarkable than the McIntosh photographs. It is a picture of the Knights of Columbus, taken by Mr. A. Newman, of the Great Western View company. A picture of two hundred and fifty men, with every face in the picture as clear cut and well defined as if perfect as if especially posed for a cabinet photograph. A picture five feet long and a foot wide, in its completed form and without doubt the most perfect specimen of modern photography ever seen here.

Mr. Newman's reputation as an artist and scientific photographer has preceded him here, and all doubt of his disappearance in the face of this photograph. The speed with which the work was done is another interesting feature. The exposure was made at 2 o'clock, with the two hundred and fifty Knights lined up all across the front of the Elks building. At 4 o'clock the finished photograph was on exhibition. There had been no retouching, for with the kind of work done by Mr. Newman's reputation is known as the foremost scientific photographer in America, which means in the world, since photography has been developed to its highest point in this country. He is not only an artist, but an inventor, and controls exclusively the improvements on the wonderful instrument which he uses, and which is the most modern thing known in scientific camera building. With this camera it is possible to make a group picture, no matter how large, as perfect as a landscape, and the landscape work done with the camera is wonderful. Already Mr. Newman has made several panoramic photographs of Albuquerque which are far and away the best ever made of this city.

The Great Western View company, of which Mr. Newman is manager, has been appointed official photographer for the fair association, and the company will make several large photographs of the grand stand from day to day, of the grounds, race track and of the exhibits. Especially interesting bit of work will be a panorama which Mr. Newman will make from the active balcony at an elevation of five hundred feet. With this camera in the center of the car, he will be able to make at a single exposure a picture of the entire valley.

The Great Western View company has a nicely arranged booth in Exhibition hall at the fair grounds, which it is worth while visiting. A proof of the big picture of the Knights of Columbus will be on exhibition there today. All conventions now being held in Albuquerque will be photographed by Mr. Newman, and he states that he has also secured a number of what he considers excellent views of Albuquerque, which will be on exhibition at the booth, or which may be seen at his work rooms over the Ziegler cafe.

The great amount of advertising which will result from Mr. Newman's work during the fair can not fail to be of greatest benefit to Albuquerque. The pictures will go all over the country, and will give this city the very best kind of publicity. The city of Albuquerque could hardly hit on a more effective method of advertising than to secure a large number of the views of the city and place them throughout the east. This method has already been taken up by Trinidad with such excellent results that several hundred of the big pictures of that city have been ordered and are now being distributed. It is a matter which will be brought to the attention of the Commercial club, and on which action will probably be taken while the Great Western View company is maintaining its headquarters here.

WARM ELECTION IS HELD TODAY AT PAJARITO

Hubbells, Who Own the Precinct Say They Will Elect Mayor and Commissioners on Acreage.

Pajarito today goes through the throes of a precinct acreage election. There is considerable feeling over the election in the precinct, which is the old-time stamping ground of the Hubbells. Practically all the precinct is owned by Frank and Felipe Hubbell, and the Hubbells declare they will carry the election under the law governing acreage elections, which allows the largest landholders to cast a correspondingly larger number of votes. The anti-Hubbell sentiment, however, has so strongly invaded the Hubbell precinct that on a popular vote there would be a close contest. Consequently some of the small water users not in favor of the decreed regime of Hubbell and who claim they got the worst of it under a Hubbell mayordomo and commissioners, are not feeling very cordial over the prospect, particularly when a popular vote is on their side. The anti-Hubbell candidates have gotten out a platform, which is interesting as showing the things that the Hubbell outfit have never stood for.

Equal rights to all, especial favors to none. Clean, honest records of all

money or labor. Records wide open to the public—the Daylight Plan. Every dollar collected passes through the bank. Every cent paid out covered by receipt in full. Mayordomo required to report not later than the day after the performance of labor or collection of fines. Revision of the water tax by board of survey—people allowed full representation, nothing forced. Nothing stolen—all material used at wholesale lowest invoice price and invoice shown. No padded bills. Perfect and business-like records kept by all officers—no leaves torn out or records mutilated. Bond will be required. Every officer must read and write.

"We pledge ourselves to support the above people's platform, and in evidence of same subscribe our respective signatures hereto in the presence of two or three witnesses."
"Gregory Duran, for commissioner."
"Cleofes Sanchez, for commissioner."
"Dolores Muniz for mayordomo."
"God bless our homes and let everybody dig the ditch."
"The shovel is mightier than the sword."
"No partisan politics in this—the ditch is neither republican nor democratic—it's yours."
"Come and vote the Square Deal October 7."

K. B. Clark, who was in the city from Pajarito yesterday, and who is an active worker against the Hubbells, said that the election would be a warm one, the anti-Hubbell sentiment is almost as strong in the Hubbell precinct as elsewhere in the county—and that is putting it pretty strong.

ARMJO IS ALIVE WITH SPINAL CORD CUT

Unfortunate Lumber Jack Loses Sixty Pounds in Weight and Lower Part of Body is Paralyzed.

One of the most pitiable cases that the attendants at St. Joseph's hospital have had to look after recently is that of Juan Armijo, the young man who had his back and spinal cord broken while working at the Domingo camp of the Domingo Lumber company recently.

When brought here it was supposed that Armijo's back was simply wrenched, but a thorough examination proved that both his backbone and spinal cord had been snapped in two. All that the physicians could do was to tie the two bones together, but they could not prevent the lower portion of the young man's body from becoming paralyzed.

During the month that Armijo has been at the hospital he has lost about sixty pounds in weight, and every moment of food that he eats has to be forced down his throat. One of the sisters said yesterday afternoon that the death of the young man was nearly expected, as there is no possible chance of his recovering.

their use will save the patron of the fair grounds a nice discount. Thursday, Albuquerque day, as usual, will be the day when all passes are suspended and when everybody buys a ticket.

Colonel "Speedy" Thurston of Winslow, Ariz., owner of the famous Diamond H. A. ranch, will arrive in the city tomorrow to attend the fair, according to word received by Major Ernest Meyers of this city. Colonel Thurston returned to Winslow Friday night, from a twelve days' hunt in the White Mountains of Arizona with two companions and six pack horses and he brought in the following game: One 1,800-pound cinnamon bear, one mountain lion weighing 175 pounds, four buck deer, twenty-three wild turkeys and other small game. Colonel Thurston had the bear and lion skinned and stuffed and the animals are now on exhibition in the Bauerback saloon at Winslow.

Higinio Guevara, a local contractor, returned to the city yesterday from Los Lunas, where he has been supervising the construction of a new wagon bridge over the Rio Grande for the Valencia county commissioners. According to Mr. Guevara the bridge will be completed before the first of the year.

Consular Agent Nacamuli, who represents the Italian government in Albuquerque yesterday received a telegram from Consul Corio at Denver, in which the consul announced that he will be unable to accept Dr. Nacamuli's invitation to attend the fair, owing to other pressing engagements. E. M. Concha and Charles Quier, official decorators of the fair association, completed a week's work last night during which time they decorated sixty local business buildings and many of the exhibits at the fair grounds.

Attention, Nobles: Special business session of Ballot Ayud temple at Masonic hall at 9 a. m. All Nobles expected to attend. By order of potentate, Harry Bullard, Recorder.
