A FORTUNE

Inherited by few, is pure blood, free from hereditary taint. Catarrh, consumption, rheumatism, Scrofula, and many other maladies born in the blood, can be effectually eradicated only by the use of powerful alternatives. The standard specific for this purpose—the one best known and approved—is Ayer's Sarsaparilla, the compound, concentrated extract of Honduras sarsaparilla, and other powerful alternatives.

SAVED

several hundred dollars' expense, by using Ayer's Sarsaparilla, and would strongly urge all who are troubled with lameness or rheumatic pains to give it a trial. I am sure it will do them permanent good, as it has done me."—Mrs. Joseph Wood, West Plattsburgh, N. Y.

By Taking

about a dozen bottles, was restored to perfect health—weighing 230 pounds—and am now a believer in the merits of Ayer's Sarsaparilla."—James Pety, Mine Ross, Breckenridge Coal Co. (Limited), Victoria, Ky.

"My niece, Sarah A. Lowe, was for years afflicted with scrofulous humor in the blood. About six months ago she began to use Ayer's Sarsaparilla, and after taking three bottles was completely cured."—E. Caffall, P. M., Lowe, Utah.

Cures others, will cure you

BRIEF WIRINGS.

The Order Fracas.

LAREDO, Texas, Jan. 5.—It is stated here that the Mexican revolutionist, Gier, is surrounded in Chuparal, in the extreme northwestern corner of Zapata county, by United States troops and rangers and that it is almost impossible for him to escape, either to the northward or into Mexico.

Color of Catholics.

PHILADELPHIA, Jan. 5.—The annual convention of the colored Catholic congress of the United States opened here this morning with a large attendance of delegates. The convention will be called upon to consider some important plans looking to the strengthening of the Catholic church among the colored people of the country.

In the Swims.

WASHINGTON, Jan. 5.—One of the leading society events of the season occurs here this afternoon. It is the debut of Miss Bonaparte, daughter of Madame Bonaparte, a descendant of the French Bonapartes. The event takes place at the Arlington rooms, and will be followed by a full dress ball. Several thousand invitations have been issued. The new debutante is by no means the beauty that she has been represented by some writers, but she is quite handsome enough for an heiress.

Veterans of the Potomac.

CHICAGO, Jan. 5.—The western society of the army of the Potomac has a membership of 165. Of this total fully 100 are registered at the Grand Pacific to-day. They are here to attend the annual reunion which takes place this afternoon, and which will be followed by a grand banquet, at which Gen. Miles and his staff will be guests of honor. The ranks of the veterans are thinning out with each succeeding year, and many faces that were conspicuous at previous gatherings are missing to-day.

Temperance Rusters.

RAVENNA, Ohio, Jan. 5.—Mrs. Mary Woodbridge, as secretary of the Women's Christian Temperance Union, this week issues an address to the temperance women of the world urging them to redouble their efforts to secure signatures to the petition addressed to the rulers of the nations of the earth in favor of the protection of homes from intoxicating liquors. The address says that with all the effort that has been put forth, only the first of the two million of names that are wanted have been secured.

A Fashionable Wedding.

NEW YORK, Jan. 5.—The wealth and beauty and fashion of the metropolis turned out in force at Calvary church at noon to-day to witness the marriage of Marie Louise Foster, daughter of the late John A. Foster, who was judge advocate of President Lincoln's cabinet, and Francis Leon Colt, a descendant of one of the old New York families. More than ordinary interest is attached to the event from the fact that the late father of the bride was married in the same edifice twenty-six years ago, President Lincoln occupying the front pew, and all the members of the cabinet being present with their families.

The Mills Faction.

WASHINGTON, January 5.—The Mills' faction will hold a caucus this week. Its object is said to be to introduce a general tariff bill and vote to refer it to the committee on interstate and foreign commerce of which Mills is chairman. If the caucus will not go to this length in its opposition to Springer, it will discuss the tariff policy and, if possible, pass a resolution instructing the ways and means committee to frame and bring into the house a bill providing for a general revision of tariff and a reduction of duties and internal taxation. It is given out that even some of the Crisp men favor this scheme.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure."

G. G. GREEN, Sole Man for Woodbury, N.J.

New Brooms Come High.

CHICAGO, Jan. 5.—A secret conference of the members of the broom trust is being held here to-day for the purpose of arranging for another advance of 50 cents. At a preliminary conference last November it was decided to make an advance of \$1 per dozen in two installments, 50 cents immediately and a like sum later. All the details for this second advance have been promptly sent to the purveyors of brooms, and the trust is being compelled to act promptly because the purchasable supply of broom corn has been very small. The crop is nearly 7,000 tons short of the ordinary consumption in this country, a shortage not equaled since 1883, when brooms wholesale at \$25 and \$30 a dozen, and broom corn sold at \$250 and \$300 a ton.

The Graves Case.

DENVER, Jan. 5.—Dr. Graves, now in jail, denies earnestly that he made any confession to the deputy sheriff who took him under arrest on Saturday night. The story is that Graves confessed, but Col. Ballou, his attorney, in the case. Col. Ballou left Denver, for his home in Providence, immediately after the verdict was rendered, Saturday night. No action has been taken in the way of arresting Ballou on the strength of the alleged confession. Sensational reports of all kinds are afloat, one of which is that Dr. Graves had attempted suicide, but no ground has been found for this. Col. Ballou's wife is here, and it is said her mind has been affected, by reason of the supposed confession of Dr. Graves.

CHURCH AND SCHOOL FUNDS.

The National Congress will take a hand in Legislating on the Subject.

WASHINGTON, Jan. 5.—For several days past Rev. Dr. James M. King, of New York, general secretary of the national league for the protection of American institutions, has been quietly at work in this city in behalf of an amendment to the United States constitution which within the next two weeks will be submitted to both branches of congress. The amendment, which has been drafted by Hon. William Allen Butler, of New York, provides that hereafter no state shall pass any law regarding the establishment of any religion, or prohibiting the free exercise of religion, or shall use its property, or credit, or any money raised by taxation, or authorize either to be used for the purpose of founding, or aiding, or maintaining by appropriation, payment for services, expenses, or otherwise, any church, religious society, denomination, or any institution, society or undertaking that is wholly or in part under sectarian or ecclesiastical control. If this amendment is passed by congress it will be at once taken to the various states for ratification by the legislatures. There are now twenty-one states that prohibit sectarian appropriations, and thirty-six that prohibit diversion of the school fund. The national league has been especially organized to secure the passage of the amendment.

CONDENSED NEWS.

John Sherman is safe in the Ohio senatorial contest.
Congress resumed to-day. Speaker Crisp is quite ill.
Two persons were killed and five injured at a restaurant fire in Chicago.
The Allison Bear Glass works, in East St. Louis, were destroyed by fire yesterday. Loss, \$50,000.
Joaquin Garcia, the noted general who was Gen. Juarez' right-hand man, in the City of Mexico, in subject poverty.
The queen of England, it is announced, will visit Coburg early in May, in order that she may be present at the celebration of the golden wedding of the Duke and Duchess of Saxe-Coburg-Gotha.

The special joint senate and house committee on printing, which has been at work since last March, endeavoring to reform the practice followed in printing and distributing public documents, has completed its work and has prepared a bill that will save \$300,000.
Converse college, situated in a large grove, one mile from Spartanburg, S. C., and over half a mile from the nearest house, was burned, Saturday night. It was built about two years ago at an expense of \$100,000. The 150 pupils had a narrow escape.

SANTA FE'S MINES.

Regular shipments of copper matte are going forward from San Pedro.
"The best camp in New Mexico and always will be," said a miner to-day speaking of San Pedro.
The San Lazarus mine and mill is running on full time again, and a stream of yellow bullion is the result.
There is no excuse for idle teams now; every team in Santa Fe county can find steady work between San Pedro and Cerrillos.

Flavel Simonson's Huntington mill, just erected on the Wright-Lucas gold property at San Pedro, steamed up on Thursday last.
There are 500 tons of zinc on hand at the Cash Entry mine. It might be a good idea for the Cerrillos Smelter company to add a zinc reduction department to their contemplated plant.
The five or six car loads of ore daily shipped from Creede camp, in the San Luis valley, can be treated cheaper at Cerrillos than at any point in Colorado. When the narrow gauge is extended south from Santa Fe it is not unreasonable to suppose that this company's ore will be hauled south for treatment at the Little Pittsburgh.

James Lucas, who is supposed to represent the Colorado Fuel company at Cerrillos, is having serious trouble with his employees. The laborers have, it is said, taken possession of the crusher, teams, etc., in lieu of their wages. It seems that Mr. Lucas gave out a large number of checks, in anticipation of the Colorado Fuel company promptly sending its usual remittance, but this failed to come. It is possible the suit filed by the Cerrillos Coal & Iron company against the Fuel company, Lucas, the A. T. & S. F. company and others has something to do with the case.

Indignation! Miserable! Take Berchman's Pills.

Judge William A. Woods, of Indiana. Of the six gentlemen recently nominated by President Harrison to United States circuit judgeships, five will be confirmed without opposition. Special interest attaches to the nomination of Judge

Woods, of whom we give a likeness, because Senators Voorhees and Turpie may lead an opposition to his confirmation. The judge, who is about 55 years old, is a native of Tennessee, but has resided in Indiana since his boyhood, and is a graduate of Wabash college. He practiced law at Goshen, Ind., was a state circuit judge, and in 1880 was elected a judge of the supreme court of Indiana. In 1882 he was appointed a United States district court judge. He has made a first class judge in every respect.

Women who Die Early.
Many of our most beautiful and accomplished ladies die before they have reached the prime of life. Of those who live to middle age only one in 200 is sound; the other 199 are sufferers. Why is it? Self-neglect. The shattered health can be restored; the home made happy, and your life lengthened if you commence at once.

"Rose Buds" have been used for twenty years in the private practice of one of the most eminent physicians of Paris, and the following diseases and their distressing symptoms yield to them like magic: Chlorosis, Congestion and Falling of the Womb, Ovarian Tumors, Dropsy of the Womb, Bearing Down Pains, Rupture at Childbirth and Miscarriages. One package of "Rose Buds" will make a new woman of you.
(Lancet) writes: "Whites are generally cured by one application." Price per package (one month's treatment) \$1 sent by mail post paid, securely packed. The Leverette Medicine Co., 439 Washington St., Boston, Mass.

EVERYBODY WANTS IT

Dyspepsia

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, JANUARY 5

MR. ELKINS has taken charge of the war department, and is now a full-fledged "man of war."

The Kentucky legislature has elected Col. Moore for speaker. The privates never did have any show in the Blue grass state.

The question as to the New Mexico climate this year is: How about the banana zone? Has it moved farther south or farther north?

There is nothing small about New Mexico, even in its climate; the snow-storm of ten days ago was big enough for anybody out here.

The crop of candidates for delegates from New Mexico to the national Republican convention is steadily increasing. It must be said that income respects New Mexico is very profligate.

SENATOR HILL embodies the principle: "It is better to be sure than to be right," and it seems he gets there all the same by following this principle strictly and without deviation.

The armies of the United States and of the sovereign state of Texas and those of Colonel Garza are still having a very interesting time of it down on the Texas frontier. The colonel at present seems to be quite a man.

BEGINNING to-day the Pennsylvania railroad and the New York Central railroad will send through trains of cars from New York and Philadelphia to San Francisco. There is a wide difference between 1849 and 1892, at least so think the old "49ers."

CHARGES against a few territorial federal officials have been made lately by certain parties; however, the New Mexican's information is that these charges "don't go just now." This does seem a very propitious season of the year for the business of making charges.

COLONEL McCLELLAN, of the Philadelphia Times, pushed ex-Senator J. J. Ingals for the vacancy occasioned by the death of the late Preston B. Plumb. However, Governor Humphreys appointed another man and made a pretty good appointment besides. Colonel McClellan's influence in Kansas politics is none too great, it seems.

MR. SPRINGER AND SALT. Mr. SPRINGER wants to put salt on the free list. Under the Republican protection policy in ten years salt fell from \$3 a barrel to 57 cents per barrel, its present wholesale price. But the poor laboring man must be helped, and that can be done on salt, which now costs, wholesale, about one-quarter of a cent per pound. What a great genius the Hon. Bill Springer is anyway.

WHAT WILL HAPPEN IN RUSSIA. In the famine stricken districts of Russia the people are forbidden to use the words hunger or famine in conversation, but they are starving all the same. Fearful tales of oppression, tyranny and famine in that empire are cable daily; and what the Russian empire needs is a shaking up about as bloody and complete as the French monarchy received about 100 years ago; and it's coming that way.

FREE WOOL. CONGRESSMAN SPRINGER, chairman of the house committee on ways and means, proposes, that wool of all grades should be placed upon the free list. His plan, if carried out, would reduce the price of New Mexico wools about 33 per cent. How do the wool growers of New Mexico like that sort of a proposition? But that's the treatment they would receive from the Democratic party were it not for a Republican senate and a Republican administration.

WOOLEN MILLS FOR NEW MEXICO. There are seven woolen mills in Utah. These manufacture blankets and the cheaper grades of underclothing and

hosiery. The home demand is fully supplied by them, as is the trade of Nevada and Montana and Idaho. There is no good reason why several woolen mills, located at favorable points in New Mexico, should not pay. Indeed, they would pay and pay well from the start. This territory needs manufacturing enterprises and ought to set to work to procure them. Santa Fe is one of the best spots in the southwest for the location of such a manufacturing concern.

FACTS ARE FACTS. Our E. C., the Silver City Enterprise, complains that the New Mexican gets work in Silver City and right under its very nose. The New Mexican can only say that the complaint is a true one, and hopes that in the future there will be more of it. The New Mexican is continually and successfully at work for Grant county and for Silver City, especially during legislative times or when a county appointment is to be made, and it is very gratifying to know that the people of Silver City do somewhat appreciate these self-evident facts.

A QUERY AND ITS ANSWER. Senator M. S. Quay, of Pennsylvania, has introduced in the United States senate a resolution for the purpose of ascertaining "whether the acquisition of those portions of the Mexican states of Sonora, Chihuahua and Coahuila, that lie north of the 26th parallel is practicable and for the interest of the United States." It doesn't take long to answer this inquiry. It is not, at least until congress has awakened to a just realization of its duties to the deserving people now inhabiting that section of the southwest which it acquired from Mexico by conquest.

Assist New Mexico to educate its people by granting immediate use of its state school lands, thus atoning for a piece of criminal negligence originating many years ago, and then it will be ample time for congress to begin agitating the question of acquiring more territory from our sister republic in the south.

THE STAR OF EMPIRE. The three great morning dailies at Denver issued magnificent editions on New Year's day, giving a complete record of the growth of Colorado and its Queen City for the past year. Where such a general standard of such high journalistic excellence is reached, as in this case, it is difficult to individualize, but the Republican's style of presenting the most important figures in condensed form will strike the average reader as commendable. Here is the record of the year's growth as taken from the Republican—and what a wonderful record it is:

Buildings commenced in 1891	10,253,982
Real estate sales	27,019,984
Wholesale jobbers' sales	45,019,980
Value of manufacturers' output	50,000,000
Stock closings	22,500,000

Colorado—	
Mineral output for 1891	\$1,548,924
Coal output	3,258,446
Wool output	2,000,000
Value of the farm	12,500,000
State assessed valuation	231,405,290

New Mexico can take heart from the splendid showing. Colorado possesses no element of wealth that New Mexico is not boast of; indeed, our natural resources are far greater. What we lack is capital, immigration and energy. It is bound to come ere long. The Star of Empire is still westward and New Mexico is its goal.

EDITORIAL COMMENTS. What the Inter-State Commerce Commission Thinks. Political position and high social standing give no right to ride on free passes, according to the inter-state commerce commission—Kansas City Journal.

Bluff Don't Go. The editor of the New Mexican seems to think that the Republican party of New Mexico was created especially for his pecuniary and political benefit. He will hear something drop one of these days. It will be the result of the influence of the "country press."—Silver City Enterprise.

Had they Been Allowed to Vote, Mr. Crisp Would Not Be Speaker To-day. Speaker Crisp says he has more respect for some colored people than he has for some white folks. He ought to have. There are about 7,000 more colored voters than white ones in his congressional district in Georgia.—Boston Herald.

The State of Sierra. The latest scheme among the state-makers is to admit Arizona and Oklahoma with one bill and leave New Mexico out in the cold, because she has not, according to the belief of some of those who are high and mighty, enough of an American population to make a good state. If this is so, we, in the south, will have to join El Paso and form the state of Sierra.—Louisburg Liberator.

A Beneficial Law. The shaft understands that under the present land laws of the United States, companies or individuals, for the purpose of constructing works of irrigation, by which arid lands may be reclaimed and rendered arable, may select from government lands suitable sites for reservoirs, as well as the land necessary for distributing aqueducts. We hope this is true, as it would be a benefit to all parts of the territory.—Kingston Shaft.

Delegates to the National Convention. During the past few weeks there has been considerable discussion among Re-

WHY DO YOU COUGH?
Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that.

"IT STARTED WITH A COLD."
Can you afford to neglect it? Can you trifles with so serious a matter? Are you aware that

DR. ACKER'S ENGLISH REMEDY
for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma, and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 40 West Broadway, New York, for look.

A Great Place to Leave. Taking the statistics of immigration of the South American countries, as well as those of the United States, for the current year, it is calculated that fully a million emigrants must have left Europe this year to seek a better home. From which it appears that Europe is a great place to move out of.—Boston Herald.

Sierra County Political Pointers. Bantz, attorney of Grant county, will accept the nomination for senator again.

Chavez, Democratic clerk of Socorro county, would like nothing better than to see Ancha's opponent for congressional honors.

If the Fleming and Roberts Democrats unite in Grant county, Sheriff Lockhart's successor will be a Democrat. Not otherwise.

R.** Meets first and third Wednesdays of each month.

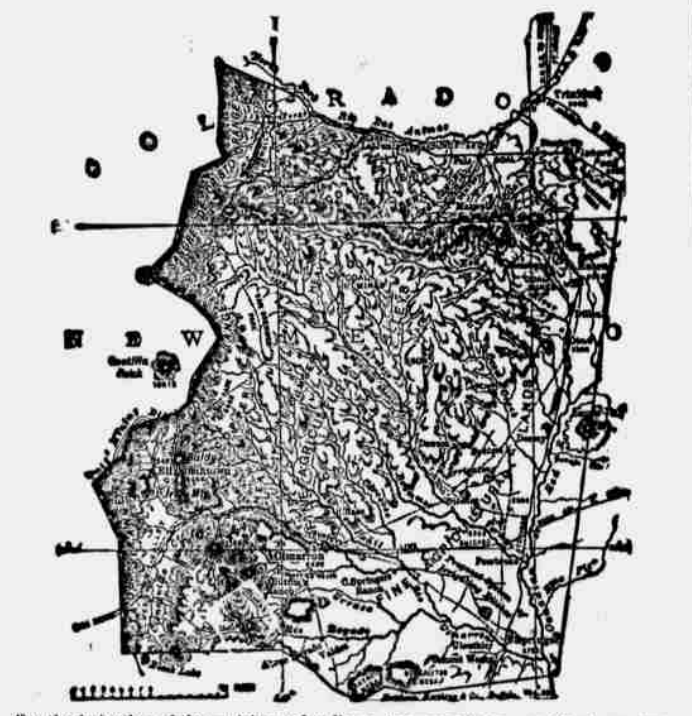

J. M. Webster, our present county clerk, will certainly be renominated by the Republicans. No one appears to be able to guess the name of his opponent.—Hillsborough Advocate.

The many friends of Hon. Frank W. Parker, attorney of Sierra county, will endeavor to prevail upon him to accept the Republican nomination for representative in the legislature. If he will not, then Silas Alexander, esq., will be offered the nomination. Col. W. S. Hopewell will probably be the Democratic nominee.

Pimples.
The old idea of 40 years ago was that facial eruptions were due to a "blood humor," for which they gave potash. Thus all the old Sarsaparillas contain potash, a most objectionable and drastic mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, results in pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate and most satisfactory. A short testimonial to confirm the action of the potent Sarsaparilla and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 400 Hayes St., S. F., writes: "I have for years had indigestion, I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

THE MAXWELL LAND GRANT
Farm Lands!
UNDER IRRIGATING DITCHES.
Choice Mountain Valley and Lands near the Foot Hills
FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

THE PECOS VALLEY!
THE GREAT FRUIT BELT of NEW MEXICO!
1000 Miles Nearer all Eastern Markets than California.

The canal system of the PECOS IRRIGATION AND IMPROVEMENT COMPANY covers 300,000 acres of MAGNIFICENT LAND in this MATCHLESS LOCALITY. The land is all PUBLIC DOMAIN and enterable at the Government price, of
\$1.25
Either under the Desert Act, Timber Culture, Pre-emption or Homestead Laws. The soil is a rich, chocolate-colored, sandy loam, from six to twenty feet deep, underlaid by lime-stone. In fact it is a lime-stone region UNSURPASSED IN RICHNESS by the famous Cumberland Valley. With an altitude of 3,500 feet above sea level, it has—A CLIMATE WONDERFULLY EQUABLE AND HEALTHY!—No snows; no Northerns; no lampiness; no malaria; no consumption! PURE, and ABUNDANT WATER; so I here produces five cuttings of alfalfa the year, and two crops of grain; wheat, oats and barley being harvested in June and corn then planted in the same land being cut in the Autumn. For further particulars, address,
ONE DOLLAR AND TWENTY-FIVE CENTS PER ACRE!

TUESDAY, JANUARY 5.

SYMPTOMS OF LIVER DISEASE:
Loss of appetite; bad breath; bad taste in the mouth; tongue coated; pain under the shoulder-blade; in the back or side—often mistaken for rheumatism; sour stomach with flatulency and water-brash; indigestion; bowels lax and constipated by turns; headache, with dull, heavy sensations; restlessness, with sensation of having left something undone which ought to have been done; fullness after eating; bad temper; blues; tired feeling; yellow appearance of skin and eyes; dizziness, etc.

Not all, but always some of these indicate want of action of the liver. For

A Safe, Reliable Remedy
that can do no harm and has never been known to fail to do good.

Take Simmons Liver Regulator
—AN EFFECTUAL SPECIFIC FOR—
Malaria, Bowel Complaint,
Dyspepsia, Sick Headache,
Constipation, Biliousness,
Kidney Ailments, Jaundice,
Menstrual Depression, Colic,
A PHYSICIAN'S OPINION.

"I have been practicing medicine for twenty years and have never been able to put up a better compound than would the Simmons Liver Regulator, promptly and effectively moving the bowels, acting on the liver, and thus restoring the system, the digestive and assimilative powers of the system."
