The New Mexican is the oldest newspaper in New Mexico. It is read by every person in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, JANUARY 13.

And John Sherman is himself again.

It may be presumed that Dr. Graves does not entertain a very good opinion of justice in the wild and woolly west.

More railroads and more school houses; both are great educators in their respective lines and New Mexico must have 'em.

New Mexico is in for business this year. Refreshing indications of this fact are perceivable all along the line these days.

There are vast quantities of coal and iron in south Santa Fe county. Their development will benefit the entire territory.

A MEMBER of congress gets \$5,000 per annum, but a starter on a race track gets \$25,000. Verily these are trying times to members of congress.

Six delegates may be sent to the Republican national convention from the territory of New Mexico, but only two will be allowed to vote, it seems.

BETTER and more country roads are needed in New Mexico; the present road law is good enough and would provide such roads were it properly executed.

IN SEVERAL localities in this great union the naming of delegates to the national convention at Minneapolis has already commenced. Some people still believe that the early bird catches the worm.

EX-GOVERNOR FORAKER has embalmbed his senatorial boom and has it put away for future use. It will bob again next time and will come very near being successful, if not successful.

MRS. ADELINA PATTI NICOLINI is again in the United States on another farewell visit, positively her last. She evidently likes American "dust" and wants to take with her as much of it as she can.

CONGRESSMEN have been called to meet at Las Vegas, it ought to be well attended; it may prove of great benefit and importance to New Mexico, if its deliberations are conducted in the proper line and the proper spirit.

CONGRESSMAN TOWNSEND, of Colorado, doesn't appear to be friendly toward the territories. He is the first man Colorado has ever sent to congress to go out of his way to give the territories a kick. Colorado's spirit of fairness is too broad to countenance such conduct, Mr. Townsend.

HE WILL REMAIN

The British residents of Chilli do not like Minister Patrick Egan. Under the free trade British administration of Grover Cleveland that sort of business would have had much weight. But with the present American administration, the wishes and likes and dislikes of Englishmen in Chilli or elsewhere are not of quite as much import; the chances are that Mr. Egan will remain at Valparaiso for some time to come unless it is found necessary to spank Chilli and then of course he will leave that country.

ADVERTISE NEW MEXICO.

New Mexico is receiving some pretty good advertising these days, but more of it must be done; the magnificent and health giving climate and the extensive, indeed vast, natural resources of the territory must be placed before the people of this country in proper shape. The bureau of immigration, with a very small amount of money, the smallest ever appropriated for its maintenance, is doing more and better work than ever before, but this is not sufficient; the several counties, the different boards of trade and commercial clubs and the several towns and cities must lend a helping hand. Too much advertising can not be done. All that need be told is the truth about New Mexico; the truth is good enough and grand enough. "Advertise New Mexico and every town and locality in it," let

these be the watch word during the present year and much material good for New Mexico will follow.

CERRILLOS AND SAN PEDRO.

That virtue built its own reward is again demonstrated in the case of these two mining camps and their people. Their good time is not only coming; it has come, and it has come to stay. The one thing so long needed to bring prosperity to these promising young towns is better transportation facilities, and this is now to be supplied through the enterprise of the Cerrillos Coal & Iron company. As matters are now planned, we believe that trains will be running through the heart of the Cerrillos-San Pedro region by the first of May next. This means a great deal for that rich region. It is an assurance that capital has at last awakened to the fact that here in Santa Fe county is an industrial field worthy of its attention, and this is but the beginning; for unquestionably here is a section of country that, in point of natural elements of wealth, stands to-day without a rival, in good, silver, copper, lead, iron, zinc, coal, fire clay and building stone in the whole locality is extremely rich. No such combination of resources exists anywhere as in this locality. We congratulate the Cerrillos Coal & Iron company upon its timely work of preparing the way for a great influx of capital into this region in the near future.

EDITORIAL COMMENTS.

Be Nane to Certain About It.

Delegate Joseph is at Washington, and has introduced a bill for the admission of New Mexico. Now if he will stick closely to that bill and push it through, he will be a bigger man than H. B. Ferguson. If he fails his name is Dennis next fall.—Albuquerque Citizen.

Echoes the Sentiments of the New Mexican as of Right it Ought to.

"Some papers have a peculiar way of showing their love for the party they claim to belong to. They would allow it to death."—Santa Fe New Mexican.

The worst abuse a party is subject to is the unscrupulous ringsters within it who would use it for their own personal gain. Sable.—Colorado Black Range.

Approves of the New Mexican's Course as "Wise, Proper and Natural."

There are still 304 days in this year of Our Lord for the purpose of working for the closing up of the territorial prison here and sending the prisoners to board elsewhere; and this Journal will be found quite wise as it is upon that question from time to time.—New Mexican.

Yes, doubtless; having asked what nourishment the fruit contained it would certainly be a wisely, proper and natural desire on the part of the New Mexican to throw away the peel lest someone else should derive a little assistance from the already exhausted peach.—Rio Grande Republican.

Woolen Manufacturers and the McKinley Bill.

For the twelve months prior to October 1, 1901, when the present tariff law went into effect, the value of imported manufactures of wool was \$5,072,031.

For the twelve months prior to October 1, 1901, the value of the same class of goods imported here was \$15,647,044. The difference between the two figures is \$10,575,013. In the same year American manufacturers got the benefit of this difference in trade and sold an additional \$25,000,000 worth of goods. Figuring three pounds of wool to the dollar of value shows that over 61,000,000 pounds were required by this additional manufacture, and as wool imports increased only about 30,000,000 pounds in the second year for which figures are given, the balance of 31,000,000 pounds must have been supplied by domestic wool growers. This provision helps both manufacturers and agriculturists.—New York Press.

The Statehood Question.

The time can not be far distant when the important question of statehood for New Mexico must again be agitated and submitted to the people for their decision. It will be necessary for those who believe in the interests of the territory demand a change from its present paternal form of government to being the matter before the people free from all entangling political complications, clear of all personal interests and with a determination to do what is best for the advancement of the territory. It is unwise and will render all efforts futile if this great question is hanklepped by any selfish motives upon the part of those favoring it. If their interest is actuated by an illiberal desire for their own exaltation to political power they will find their scheme miscarried and scotched for New Mexico always a question of the future. And it should be so. Until they are satisfied that men of discretion and ability are in position to dictate the course of the coming state and the friends of those who will be in control in beyond question, the people of New Mexico will be right when they say no to this important matter.—Folsom Metropolitan.

PRESIDENTIAL GOSSIP.

Washington Post: It is not strange that the Cleveland men are all in favor of making Senator Hill chairman of the Democratic committee for this year's campaign.

Fort Worth Gazette: It is not strange that the organ that so persistently booms Mr. Cleveland for the presidency should be the organ of the opposition to Texas Democracy from time immemorial. Mr. Cleveland is yet to be credited with the remark: "I am a Democrat."

WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on you and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that.

"IT STARTED WITH A COUGH."

Can you afford to neglect it? Can you trust with so serious a matter? Are you aware that it will stop a Cough in one night. It will check a Cough in one day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 40 West Broadway, New York, for look.

St. Louis Star-Sayings: Democrats who are nominating John M. Palmer, of Illinois, for president are entirely too anterior, so to speak. There is no telling to what political party the Surber senator may belong before the present congress is six months old. Palmer is a sort of a diminutive Ben Butler of the west.

Kansas City Star: What is called a "hill club" has been organized in St. Louis, and its founder, a Hibernian gentleman, Col. Hugh Brady, says that "efforts will be made to organize a hill campaign club in every congressional district in St. Louis and probably all over the state." From present indications they will be chiefly efforts.

Denver Republican: If Mr. Blaine wants the Republican nomination for president it will be given to him by acclamation at Minneapolis, as he is unquestionably the first favorite of the Republican party and the greatest of living American statesmen. If he does not desire it, President Harrison will be renominated without opposition and Mr. Blaine will remain secretary of state under the next administration.

Kansas City Journal: The chief business of the Democratic national convention, which may meet in this city and which will meet here if present indications can be relied on, will be to unite the warring factions of the party. There are fights between prominent leaders in the east and in the south, and the west is, therefore, likely to furnish the candidate for the presidency. The friends of all sorts of party hacks in the west are trotting them out as dark horses.

Medicines that pretend to do the work of S.S.S. The effect of most of them is worse than the diseases they pretend to cure. There is but one permanent cure for contagious blood poison, and that is to be found in S.S.S. And it is the only medicine that will permanently destroy the effects of MERCURIAL and POTASH POISONING. It is a purely vegetable remedy, entirely harmless, and yet it is the most potent blood purifier ever discovered.

THE MAXWELL LAND GRANT

Farm Lands! UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairie and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

This railway passes through twelve states and territories, and having no lands of its own to sell has no object in advancing the interests of any special locality, or in giving any other than absolutely reliable information. It realizes that the prosperity of the farmers of the great southwest must prosper to itself also and is thus naturally willing to aid the immigrant as much as possible.

The Daily New Mexican

ESTABLISHED IN 1862.

READABLE PARAGRAPHS.

Good Reason for It.
He is a very little man, is he not?
There is a good reason for it.
How?
His wife cuts him short every time he tries to say anything.
She Let Him Off That Time.
"Now, this is a nice time to come home," she said, gathering her brows like a gathering storm.
"I'm sorry," he said humbly and hiccuppingly.
"I haven't said anything before," she continued, "but I'm going to put my foot down now."
"You'll have to put it down pretty hard then," he said, "for it's a mighty small foot."
She put off folding him till a future time.

A Case for Arbitration.
What makes you look so down in the mouth, these days, Gimm?
Well, to tell the truth, I make no progress with Miss Lely at all.
She doesn't want any toward you?
No; She's as cold as an icicle.
I see. You've got a sort of chilly—unaffair on your hands.
Taken for a Crank.
A semi-delirious delight often seems to possess people of strong nerves in meeting at those with weak ones. The irritability of the nervous system is often a natural temper. The very genuine and distressing symptoms from which he suffers are made light of, "He" or "she is a crank!" is the cheerful sort of sympathy with which the nervous invalid meets from the unfeeling and the thoughtless. At the same time the complaint is more defined and real, now has a more easily explainable origin when it is chronic. Impaired digestion and assimilation are always accompanied by nervous debility and anxiety. Build up the powers of assimilation and digestion with Hostetter's Stomach Bitter, and nervous symptoms, such as headache and could find the system ar. Remember that fearful ravages are produced by a gripe and an empty stomach. Hostetter's Stomach Bitter cures it, and prevents malaria, rheumatism and kidney complaint.

Perfectly Fair.
Miss Van Winkle: What! Six hundred dollars for that antique? Why, that is just twice as much as you asked for it a month ago.
Salesman: But, madam, it is just twice as old as it was then.

How Mark Twain Popped the Question.
Mark Twain's wife was a Miss Langdon of Elmira. When Mark first met her he was not as distinguished as now. Her father was a judge and doubtless expected "family" and social importance in his son-in-law. Clemens, however, became interested in his daughter and after a while proposed, but was rejected.

Well, he said to the lady, I didn't much believe you'd have me, but thought I'd try.
After a while he tried again, with the same result, and then remarked with his celebrated bawl:
I think a great deal more of you than I you'd said yes, but it's hard to bear.
A third time he met with better fortune, and then came the most difficult part of his task—to address the old gentleman.

Judge, he said to the dignified millionaire, have you seen anything going on between Miss Lizzie and me?
What? What? exclaimed the judge, rather sharply, apparently not understanding the situation, yet doubtless getting a glimpse from the inquiry.
Have you seen anything going on between Miss Lizzie and me?
No indeed, replied the magnate, sharply, no, sir, I have not.

Well, look sharp and you will, said the author of "Innocents Abroad," and that is the way he asked the judicial luminary for his daughter's hand.

renounced Hopeless, Yet Saved.
From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me, and thank God I am a well and hearty woman." Trial bottles free at C. M. Creamer's drug store, regular size, 50c and \$1.

An Unfortunate Choice.
He—These masked balls are very dangerous, you know.
She—Dangerous?
He—Yes. Our servant girl was almost killed the other night at the milkman's masquerade ball, and had to be carried home.
She—You don't say so! How did it happen?
He—She impersonated a pump.

A Considerate Employer.
You say your present boss treats you better than Mr. Smith did?
Yes, sir, and often.

Wasn't in Any Hurry.
He—Darling, will you be my own dear wife?
She—Harry, I hardly know what to say. You'll have to ask mamma.
He—How does it concern your mother?
It is you, not she, who is going to live with me.

She—Oh, Harry! You don't know mamma, or you wouldn't say that.
He—Oh, well, I'll ask her. But there's no hurry; any time within ten or a dozen years will do.

The Height of Misery.
It is the height of misery for a man afflicted with insomnia to marry a girl who snores.
Good Looks.
Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; and if your kidneys be affected, you have a pinched look. Secure good health and you will have good looks. Electric Bitter is the great alterative, and tonic, acts directly on these vital organs. Cures pimples, blotches, boils and gives a good complexion. Sold at C. M. Creamer's drug store, 50c per bottle.

Crack.

I've seen but few birthdays yet, she laughed, slyly.
Ah, said he, I understand. Born in leap year, on the 29th of February.
Short and to the Point.
I was dawning all night, don't you know, said Cholly to Miss Keene, on whom he was making a call, but I'm not a bit tired; on the contrary I think I look pretty fresh after it.
You're always fresh, she said.

An Ancient Disease.
Dr. Perkins is noted linguist. He knows all the dead languages, and is always telling the derivation of words. Not long since Hostetter Metcalfs, feeling unwell, applied to Dr. Perkins for advice, detailing his symptoms.
You are suffering from dyspepsia, said the doctor.
Dyspepsia! What does that come from?

Dyspepsia? Why, that comes from the Greek, of course; I thought everybody knew that.

Boeken's Arnica Salve.
The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at C. M. Creamer's.

Not so Absent Minded After All.
Gimm—Ah, I have a very bad headache this morning, don't you know.
Cupid [a dentist, absent-mindedly]—Why don't you have it filled?
He Wondered What She Meant.
"Ah!" said Chapple, jokingly to Miss Keene, "this is long year, don't you know, do you intend to avail yourself of its privileges?"
"I really can not tell what I might do," she said with a smile, "if a man should come along."

Dry Goods Clerk, Probably.
They're now made one, who once were two.
No more till death to part;
He matched a shade for her and that was how he won her heart.

Interesting to Ladies.
Dear Madam—
Does your husband seem tired of you, are you always peevish? Do you and your husband have little spats now and then? This is the case with most married people; and the only way you will ever live in perfect harmony is to restore the sparkling eyes, rosy cheeks, strength, vigor and playfulness of girlhood; then your husband will stick to you, like he did in your courtship days, and not be seeking the society of other ladies. By you will try one package of "Rose Buds" you will not regret it; it will make a new woman of you. "Rose Buds" will absolutely cure Congestion, Inflammation and Falling of the Womb, Leucorrhoea or Whites, Rupture at Childbirth, Ovarian Tumors, Miscarriages and all the distressing symptoms; such as Bearing down pains, Back Aches, Head Aches, Melancholy, Sleeplessness, etc. Its wonderful effects are nothing from the first application. Leucorrhoea or Whites are usually cured by one or two applications. No doctors examination—treat yourself. By mail, postpaid, \$1. The Leverette Specille Co., 339 Washington St., Boston, Mass.

A Natural Preference.
"I don't believe in these business booms," said the Cautious Merchant.
"In my line I prefer a steady growth."
"What is your line?" asked the inquisitive man.
"I deal in children's clothing."

Wanted to Know.
The Speaker—The question before the house is on the passage of the bill.
The Member—I should like some information on the bill.
The Speaker—On what point?
The Member—As to its denomination.

I took Cold, I took Sick, I took SCOTT'S EMULSION, I take My Meals, I take My Rest, AND I AM VIGOROUS ENOUGH TO TAKE ANYTHING I CAN LAY MY HANDS ON, getting fat too, For Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda NOT ONLY CURED MY INCURABLE CONSUMPTION BUT BUILT UP, AND IS NOW PUTTING FLESH ON MY BONES AT THE RATE OF A POUND A DAY. I TAKE IT JUST AS EASILY AS I DO MILK. SUCH TESTIMONY IS NOTHING NEW. SCOTT'S EMULSION IS DOING WONDERFUL WORK. TAKE NO OTHER.

The Wabash.
Why, the "Wabash" is the most desirable route, for all points east.
1st. You can purchase through tickets for all eastern points, at any coupon ticket office in the west, over this line, taking your choice of routes to the Missouri river.
2d. You can go either by the way of Omaha, or Kansas City, at your pleasure.
3d. From either of those points you can have your choice of five distinct routes, as follows:
Via, the Admiral air line, which is the shortest line of the east.
Via, St. Louis, where close connections are made with all eastern and southeastern routes.
Via, Chicago, the World's fair city, some times called "the windy city."
Via, Toledo, Ohio's great inland city, connecting at that place with the lake shore fast trains for the east.
Via, Detroit, Michigan's prettiest and most beautiful city, where eastern lines connect closely.
All of the above named points are reached, direct, only by the Wabash and direct by no other line running from the west.
Ask, for your ticket by the way of this line, and accept of them by no other.
We run the finest trains on earth. A bold assertion, but a cold fact. Write me for rates, maps, etc.
