## BRIEF WIRINGS:

### THE LATEST WAR TALK.

Wild Rumors Abound—The Cabinet Meeting—Hopes of a Peaceful Termination.

WASHINGTON, Jan. 20.—It is reported at the capital to-day that the government of Great Britain has taken steps to bring about a more friendly feeling between the United States and Chile, and will intervene to effect a settlement of the trouble. A rumor was in circulation here last night that the United States cruiser, Yorktown, had been fired upon in the harbor at Valparaiso by the Chileans. The rumor caused great excitement for a while, but it proved to be a hoax.

It has been ascertained that Commodore Folger, the chief of the bureau of ordnance has made a request of Secretary Tracey that in case of war he may be relieved of his present important duty and placed in command of the coast defense vessel Monterey, now awaiting completion at San Francisco.

It is understood that the secretary regarding this vessel as the most formidable one in our navy and that he considers it superior in fighting qualities to any ship owned by the Chileans, including the celebrated Captain Prat, now building in France. The Monterey is now complete, except as to her armor and guns. One of her guns is on its way across the continent at the present time, and the other is being sent by rail.

Work is being pushed on the armor, and Commodore Folger says he hopes to be able to have the vessel ready for service within two months provided the work can go on at the highest speed.

The cabinet meeting yesterday was devoted almost entirely to the consideration of the Chilean question. The proceedings were only temporarily interrupted by the slight illness of Secretary Blaine. There is reason to believe the government has received dispatches from the Chilean minister looking to a peaceful and satisfactory solution of the questions in dispute, and they were submitted to the cabinet yesterday. This will have a most important bearing on the question of submitting the correspondence to congress at present and it may possibly do away with the necessity of referring the question to congress. It is known that the president desires to exhaust all diplomatic means before submitting the matter to congress for action.

In reference to the orders called to Commander Evans, of the Yorktown, at Valparaiso, instructing him to take the Balmaceda refugees now under his protection to Callao and land them there, but to use his judgment as to the time of his departure, the secretary said the departure of the Yorktown from Valparaiso would leave the United States without a single naval vessel in Chilean waters. The Yorktown could hardly make the trip from Valparaiso to Callao and return in less than a week's time. The distance between the two ports is about 1,200 miles. As Capt. Evans is vested with full discretion it is not regarded as at all likely that he will leave Valparaiso immediately and in fact not until he is relieved by another vessel, or is satisfied that the condition of affairs in Chile is such as to justify the departure of the ship without means of assistance, or in the event that circumstances make it desirable or necessary to do so.

**Louisiana Republicans.**  
NEW ORLEANS, Jan. 20.—The state Republican convention yesterday nominated the following ticket:  
Governor—A. H. Leonard, of Caddo.  
Lieutenant Governor—H. Dudley Coleman, of New Orleans.  
Secretary of State—T. Voisin, of St. John.  
Treasurer—G. B. Darrell, of St. Mary.  
Auditor—Charles A. Fontellen, of Iberia.

**"German Syrup"**  
For Throat and Lungs  
"I have been ill for Hemorrhage about five years, "have had the best Five Years. "medical advice, "and took the first "dose in some doubt. This resulted in a few hours easy sleep. There was no further hemorrhage till next day, when I had a slight attack "which stopped almost immediately. By the third day all trace of blood had disappeared and I had recovered much strength. The fourth day I sat up in bed and ate my dinner, the first solid food for two months. Since that time I have gradually gotten better and am now able to move about the house. My death was daily expected and my recovery has been a great surprise to my friends and the doctor. There can be no doubt about the effect of German Syrup, as I had an attack just previous to its use. The only relief was after the first dose." J. R. LOUGHEAD, Adelaide, Australia.

Business is at Standstill.

St. Louis, Jan. 20.—Fourteen inches of snow is the record for this locality. As soon as the snow stopped falling yesterday the mercury began to drop, and is now covering about the zero mark. All trains from the west and east are badly delayed.

R. of P. Men on a Trip.

CHICAGO, Jan. 20.—A big delegation of prominent eastern members of the uniform rank of the Knights of Pythias arrived here on a special train this morning. The delegation, which is over 100 strong, is en route for Kansas City for the purpose of initiating the arrangements for the national encampment of the order that is to be held in August next. The party includes Supreme Chancellor Shaw and the other of the supreme officers and prominent members from Massachusetts, New Jersey, Rhode Island, Vermont and Pennsylvania. A large contingent of representative members of the order from this state and Wisconsin was in waiting for the train and gave the visitors a hearty reception. The visitors say that at least 25,000 knights from outside points will participate in the encampment next fall.

A Law for Barnacles.

NEW YORK, Jan. 20.—It was stated here to-day by a member of the legislature that a bill is now being prepared for presentation to that body making it a criminal offense to employ women as barnacles, or to introduce them for the purpose of employment into the depraving surroundings of saloons, taverns or hotel bars, and making the punishment six months imprisonment for the first offense and twelve months for the second one. It was stated some weeks ago that the saloon keepers who have been experimenting with the English barnacle system have decided to return to male help, but so far from this being the case they are so well satisfied with the results of the experiment that they have decided to extend it, and a fresh contingent of rosy checked English barnacles is looked for early next month.

Congressional.

WASHINGTON, Jan. 20.—In the senate the following bills were passed:  
Appropriating \$100,000 for the postoffice building at Mammoth hot springs in the Yellowstone national park.  
To aid South Dakota to support a school of mines at Rapid City, Pennington county.

Appropriating \$250,000 for a public building at Hastings, Nebraska.  
In the corridors of the house, the employees, most of them old soldiers of the rebellion, engaged in earnest argument over the prospect of war with Chile. This was also the topic of conversation in the chess gallery, and among the many spectators who occupied the public galleries.

The house resumed consideration of the bill for the printing and binding and the distribution of public documents. After long debate the house defeated the bill providing for public printing and binding.

Penn. Democracy.

HARRISBURG, Pa., Jan. 20.—A special meeting of the Democratic state central committee is in progress to-day at the Belmont house, with State Chairman Kerr presiding. The meeting will be called upon to choose a chairman and secretary for the current year, as well as to decide upon the time for holding the primaries for the selection of delegates to the national convention which would terminate the occasion of a test of strength between the adherents of the committee of Hill and Cleveland, but this was denied this morning by several of the participants. At the same time it is certain that the supporters of the New York senator are watching things closely, with the view of casting an anchor to windward in his behalf just as often as opportunity may offer.

Which Will Win?

WASHINGTON, Jan. 20.—There promises to be a full attendance to-morrow at the meeting of the national Democratic committee, when the date for holding the national convention will be decided upon. Several of the members have been here since the beginning of the week. The delegations from the various cities that seek the honor of entering into the convention are hard at work, but it is difficult to determine which has the advantage at this stage of the game. The favorite cities are St. Paul and Milwaukee, while Kansas City has many friends. At the same time it is believed that the choice will fall to one of the two places first named. The executive committee of the National Association of Democratic clubs is in session this afternoon at the Loan & Trust building with Hon. William L. Wilson presiding. It will decide upon the time and place for the next gathering.

CONDENSED NEWS.

Fred Gelhart is trying bi-chloride.  
Speaker Crisp's condition is somewhat better.  
The Pawnees and Osages are ghost dancing.  
High water prevails in all streams in Alabama.  
More trouble is in progress at the Tennessee mines.  
Nineteen valuable trotters were burned in the stable of E. C. Smith, Fremont, Neb.  
The Duc Alvarez, formerly Spanish ambassador, shot two legs; carriage accident, Paris.  
Actor Robert Mantell and wife agreed to disavow and signed separation papers in New York.  
The colored men of the country are going to protest against the \$5,000,000 loan to the World's fair.  
The London Times, as by authority, says there is no hitch in the Behring sea negotiations.

Without apparent reason much uneasiness appears to exist in European diplomatic circles.

Judge Lindsey, of Kentucky, declines to become a member of the interstate commerce commission.

Not less than 50,000 people viewed the remains of Cardinal Manning lying in state at Westminster.

Congressman Oates, of Alabama, would take the power of appointing committees from the speaker of the house.

There are indications that the German exhibit at the World's fair will be the most interesting of foreign nations.

The monument to the Chicago anarchists is to be unveiled while the World's fair is in progress. It isn't built yet.

Secretary Atkins will live in the handsome house, McPherson square, Washington, owned by ex-Senator Palmer, of Michigan.

Ex-President Grover Cleveland passed through Atlanta for Louisiana where he will be the guest of Joseph Jefferson for a season of hunting and fishing.

For alienating his wife's affections John G. Bowman, a Philadelphia lawyer, wants C. Ellsworth Hewitt, a New York physician, to pay him \$100,000.

The defalcation of M. J. O'Brien, supreme treasurer of the Catholic Knights of America, amounts to \$75,823. The New York Fidelity & Casualty company is on his bond.

The wife and mother of James Callahan, of Burn, Mass., claim to be haunted by the ghost of a young woman whom he married, and who died in jail after an attempt upon his life.

The exports of specie from the port of New York last week amounted to \$552,000, of which \$49,346 was gold and \$484,654 silver. Of the total exports \$15,106 in gold and \$457,570 in silver went to Europe.

In Chicago Antonio H. Hobart, Chas. Albrecht, W. W. Henderson, John T. Hanna, Paul McWhorter, H. P. Anson, and Joseph L. Beach, the alleged mortgage swindlers, were indicted by the grand jury and lodged in jail.

Warren G. Sayre, of the Cherokee Indian commission, at Indianapolis, said the commission had just closed negotiations for the purchase of 90,000 acres of land from the Tonlawas and Cherokees. This land includes a part of what is known as the Cherokee strip.

That pain under the shoulder blade is dissipated. Take Simmons Liver Regulator.

Dr. Noah Porter, Ex-President of Yale College.

Dr. Noah Porter, who lingers on the borders of death, now better and now worse, at New Haven, Conn., was born at Farmington, that state, in 1811. He was twenty years old when he graduated from Yale. From 1837 to 1886 he was president of that college, and it was during his incumbency of this office that the noble college buildings which are the special pride of Connecticut, were erected. Dr. Porter is best known to the people as the principal editor of some revised editions of Webster's Dictionary. He has written much on abstract subjects, and is high among the philosophical authors of America. "The Human Intellect," one of his works, is used as a textbook at Yale and other institutions of learning.

TERRITORIAL TIPS.

Seventy-eight children attend the Chama public school.  
Health seekers continue to pour into the Mesilla valley, and many are buying homes.  
Mrs. Floyd Bone, a health seeker at Albuquerque since April last, died of consumption yesterday.  
The Chama Masonic lodge and the people of Tierra Amarilla adopted resolutions of respect for the late Sheriff W. T. Burns.  
An Eddy echo: Contractor Courtney brought his grading outfit up from the valley Thursday and moved it over to the eastern canal, where he has a seven mile contract.  
Rabbits are thick near Judge Freeman's Pecos valley home. The Argos says: A couple of hunters killed seventy-five hares and rabbits last Monday, and another shooter killed twenty-five last Tuesday forenoon, near La Huerta.  
Plans for an addition to the public school house have been submitted to the school directors. The addition is to be of brick and to consist of three rooms, 24x36, 22x24, 14x24, with a hall running through the center 10x36. The addition is to cost \$2,000.—Las Cruces Republican.

## Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusive than the power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

**Hood's Sarsaparilla**  
Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.  
**100 Doses One Dollar**

The Swiss colonists will set out more than fifty miles of cottonwood trees this spring. Every lateral and roadway will be bordered with them. \* \* \* \* \* Within the next week six more Swiss colonists will arrive from Switzerland. Land has been secured for them, and they will have crops for sale this fall.—Eddy Argus.

At the assignee's sale, yesterday, by Major Arthur Morrison, auctioneer, Don Trinidad Romero, U. S. marshal, bought 420 acres of patented land, at the Garzon ranch, about forty miles southeast of Las Vegas, belonging to H. Romero & Bro., at 80 cents an acre. The sale of dwelling houses and other personal property was postponed until next Monday.—Optic.

Chama wife: M. L. Green left for Creede, Wednesday, at which place he is erecting a business house. \* \* \* \* \* The Lewis of this place owns an extension of D. H. Moffat's Holy Moses mine at Creede which may yet make him a Jay Gould. \* \* \* \* \* J. M. Archibald Jr., of Amarco, passed through town Wednesday en route from Denver. He says to the publisher of the Northwest New Mexican that, soon he will establish a meat and supply market at Creede.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the territory and has a large and growing circulation covering the intelligent and progressive people of the southwest.

WEDNESDAY, JANUARY 20.

CATERINO GARZA is worrying the eastern newspapers a great deal more than he is President Diaz. But then Diaz knows him better.

The Denver papers are helping the New Mexico statehood movement along. Accept assurances of our most distinguished consideration, gentlemen.

The present ought to be a busy and prosperous year in New Mexico. Let's hope so anyway; that costs nothing and can not possibly do any harm.

There is waiting in for Kharitum. The dead Mably left forty widows. Here is a chance for some enterprising bachelor. Indeed, more than one chance.

The international league of press clubs which will visit this city during the present week ought to receive a hearty welcome; the New Mexican trusts such will be the case.

There are rumors of war between Bulgaria and Serbia. Just now the country seat war in Kansas and the whereabouts of Catarino Garza are of more importance to us in the sunny southwest.

The New Mexican does not believe the published newspaper reports that Senator Quay is losing faith in civil service reform. He never had any to lose and is like a good many other men in this respect.

The Board of Trade and its officers, President E. L. Bartlett and Secretary G. W. Knaebel, are doing good work for Santa Fe. Join the Board of Trade and enable it to do still better work for this city.

Do the people of the territory want an enabling act or do they not? That is the question! They said a year and a half ago that they did not.

The San Antonio Express thinks that Col. Bill Springer is just a little fresh as chairman of the ways and means committee. Is that the reason why the gay and festive colonel went salt on the free list?

The New Mexican is not inclined to commence the territorial campaign any earlier than absolutely necessary. But, of course, if its contemporaries insist upon it, the editor to fire "a little more grape" and shell filled with dynamite will have to be given.

Chin's whipped Fern very severely and treated the latter most outrageously several years ago. Should Uncle Sam find it necessary to spank Chih, Fern's day of sweet revenge will be at hand, and the Peruvians will likely make the most of it. For such is human nature.

NOT EXACTLY JUST.

The apportionment of delegates to the constitutional convention in Mr. Joseph's bill for an enabling act in the opinion of many well informed citizens is not exactly what it should be. This question is being very carefully considered and figured out and results will be announced as speedily as possible.

ONLY A "SASSIETY" MATTER.

The 400 in the Indian nation, the Pawnees, the Kiowas, the Cheyennes and others of the aristocracy there, are indulging in the ghost dance. "Sassiety" there finds it too cold and does not find enough whisky, hence the dance. It is evident the gay and giddy season in the Indian nation is on these cold days.

ONE CONSOLATION LEFT.

There is one consolation for a burdened down-trodden people: The interstate commerce law may not be very strong, but the members of the commission and the officials connected with it will continue to draw their salaries with still greater regularity; there is no cloud without a silver lining.

LET IT GO ON.

The Democratic free traders have begun

attacking the McKinley law in the place wherein they deem it weak. They will know more in the west by and by. A Republican administration and a Republican senate are there ready and strong to protect the American workman, the American consumer and producer and the American manufacturer against the free traders in congress in the interest of British manufacturers. Let the battle go on. The outcome is not at all uncertain.

ALTITUDE AND HEALTH SEEKERS.

In considering the requisites of a climate curative of pulmonary disease it would seem that medical science has not yet reached a general appreciation of the feature of altitude. This particular subject seems to be slightly, if not positively ignored by many who are called upon to adjust their nose glasses wisely and scan the pale face of the hopeful man or woman who has heard at last that there is life and strength and wealth yet in store for him in the Rocky mountain region of New Mexico, and who calls upon his family physician to aid him in selecting a point where he can personally test the question.

But not only medical science and common sense, but experience also is on the side of giving altitude special consideration in determining the location to be sought by the patient requiring pure dry air and sunshine. It was formerly the opinion generally prevalent that altitude precipitates hemorrhage of the lungs. Experience that the reverse is true is so predominant now that the best authorities, notably those among German and French scientists, have established the fact that altitude goes to the other extreme and prevents hemorrhage. We are told that the altitude most favorable to the human organism is 2,000 meters, a little more than 6,500 feet above sea level. "Great altitudes," says a writer on this subject, furnish a gymnasium where the respiratory organs are compelled to exercise, and consequently become larger and more efficient."

In this connection we are pleased to note what Dr. F. W. Seward, of Goshen, N. Y., says on this subject. He knows from experience that a perfect climate for the cure of consumptives, for with altitude come those other necessary attributes, diminished air pressure, purity of air, increasing electrical tension, to say nothing of dryness, porosity of soil and sunshine. Let not the health-seeker then be alarmed when his physician begins to talk of the evil effects of altitude. The altitude is just what the pulmonary sufferer needs in his business.

EDITORIAL COMMENTS.

A Question that Agitates the Western Hemisphere.

The editor of the Albuquerque Citizen fails to distinguish a class of politicians at Santa Fe who style themselves Republicans. Is the editor of the Citizen aware of the difference between the two?

They Are Ready so to do.

The nominations of the judges of the private land claims court have been confirmed by the senate. Now if they will proceed to confirm land titles in New Mexico they will confirm themselves in the good will of the people.—Albuquerque Citizen.

The Pecos Park.

President Harrison has issued the official proclamation establishing the Pecos park. It covers the headwaters of the Pecos river in northern-central New Mexico, and is one of the most picturesque sections of America. It will doubtless become as popular a resort for pleasure seekers and hunters from the eastern states as it is now with citizens of the southwest.—Las Vegas Stock Grower.

Should Be Squelched.

The resolution introduced in the senate by Senator Quay, looking to the acquisition by the United States of a large portion of northern Mexico, should be promptly, effectively and everlastingly squelched. The United States does not need and does not want more territory to the southwest. The friendly republic of Mexico should be let alone.—New York Press.

Will Use Sting No More.

Jupiter is a dandy planet, wherein to stand off the tailor, the grocer, the baker and the candlestick maker. The years in Jupiter contain 4,332 days.—Daily New Mexican.

The New Mexican shouldn't say "Jandy"—that's slang. But just think of the lot of a country editor, publishing a paper at \$2 a year!—Brooklyn Standard-Union.

Six or Two?

The Albuquerque Citizen says it is nonsensical and unreasonable to expect New Mexico to be allowed six delegates to the next Republican national convention, and it produces some little history to back up its argument that the territory is entitled to but two and to those only by courtesy. The president for territorial representation at said conventions having been set no longer ago than 1890.—Rio Grande Republican.

Another Free Trade Lie Sailed.

Free trader David A. Wells says that the American people use less wool every year on account of protection. In 1870 we consumed 794 pounds

## WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you afford to wait with so serious a matter? Are you aware that

## DR. ACKER'S ENGLISH REMEDY

For Coughs, Colds and Consumption is beyond question the greatest of all modern remedies. It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save your life. "You can't afford to neglect it." Ask your druggist for it, or write to W. H. Hooker & Co., 46 West Broadway, New York, for book.

For sale by A. C. Ireland, Jr.

per capita, in 1880 8.55 pounds

per capita, in 1890 9.23 pounds

per capita. Our per capita consumption of wool is annually increasing under protection. That's what the facts have to say on the subject.—New York Press.

The Irrigation Convention.

Governor Prince, of New Mexico, has called an irrigation convention to meet at Las Vegas on the 16th of next March, and it is probable that there will be a large attendance. Every part of New Mexico should be represented at this convention, for the subject of irrigation is one in which the people of that territory are deeply interested. New Mexico has just entered upon what may be called its irrigation era, for it is only recently that the construction of extensive systems of irrigation works has begun. The convention will, doubtless, be called upon to consider the subject of irrigation from the national standpoint, and it is to be hoped that in this connection no mistake will be made. It should declare in favor of the cession of the arid lands to the states and territories.—Denver Republican.

The Statehood Question.

A Washington dispatch says: Representative Washington, of Tennessee, chairman of the committee on territories, says that the committee will undoubtedly prepare bills containing enabling acts by which Arizona and New Mexico can hold conventions to form constitutions that may be voted on by the people at the coming election in November. The bills will, he says, in all probability be so framed that the territories may, after the constitutions are adopted by the people, be admitted by proclamation of the president, so that no further action by congress will be necessary. It is not likely, he says, that any new territory will be admitted in time to participate in the next presidential election.—Lordsburg Liberal.

PRESIDENTIAL GOSSIP.

Fort Worth Gazette (Dem.): No well-informed person pretends to believe that Cleveland could carry New York. That is quite enough to say on the subject of his yearning aspirations for a third nomination.

Globe-Democrat, (Rep.): The delegates to the Minneapolis convention elected by the Philadelphia Republicans are all for Blaine, with a mental reservation in favor of Harrison if Blaine does not win the nomination.

Philadelphia Times, (Ind. Dem.): "I am committed to no one for president, but am for the most available man who can carry New York and Indiana. I don't believe Cleveland is that man."

WILLIAM A. WALLACE.

Augusta Chronicle, (Dem.): Our Washington special reports that Senator Colquitt endorses Senator Hill as the most available man for the Democrats to nominate for president. We thought that Senator Colquitt would never desert the fortunes of ex-President Cleveland. Does Senator Colquitt think that Grover Cleveland is the Jonah of the Democratic party?

Memphis Appeal-Avalanche, (Dem.): The most distinguished individual in the city yesterday was Governor John P. Buchanan.

"I have been watching the course of events lately in the Democratic camp," said he, "and I have no hesitation in saying that I think Hill will be the Democratic nominee. Cleveland is not the choice of the south. During my visit in New York I found everybody talking Hill."

## The Celebrated French Cure.

Warranted "APHRODITINE" or money refunded.

Is sold on GUARANTEE. POSITIVE GUARANTEE. Cures all cases of nervous disease or any disorder of the generative organs of either sex, whether arising from the excess of sexual indulgence, or through youthful indiscretion, over indulgence in sexual intercourse, or from Seminal Weakness, Hysteria, Nervous Prostration, Neuritis, Gonorrhea, Syphilis, etc. Weak Memory, Loss of Power and Impotence, which if neglected often lead to premature old age and insanity. # THE MAXWELL LAND GRANT

## Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

The Daily New Mexican

READABLE PARAGRAPHS.

Irretrievably Lost. Husband—What did you do with that ten dollar bill you took out of my pocket? Wife—It's where you will never find it. Husband—Where's that? Wife—In my pocket.

The Prize Fight. The prize ring really to the dogs is going. As everybody knows, for though the pugilists are always blowing, they never come to blows.

A Church Choir Note. "Our new contralto puts on a good many airs."

"Yes, but she can't come up to the soprano."

Safety in the Midst of Danger. This would seem a contradiction—so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution is no certain defense against the dreaded chills. What is recorded testimony, covering a period little short of half a century, proves that Hostetter's Stomach Bitters is precisely the medicine that does not limit the field where the medicine has proved its efficacy. In South America, the hot lands of Panama, where, everywhere in fact where malarious diseases take on its most obdurate and formidable types, the Bitters is a recognized specific in illimitable demand, and prescribed by physicians to relieve, prevent, cure, and drive out the stomach, liver and bowels, and against that destroyer, a gripe. It improves appetite and sleep, neutralizes fermentation and kidney complaints.

His Picture. Chicago Tribune: Willie (while Mr. Hankinson is waiting for Miss Irene to come down)—"She has got your picture."

Mr. Hankinson (his heart beating wildly)—"Where did she get it, Willie?"

"Found it in a newspaper. I heard her tell Ma it looked just like you. But it didn't have your name under it, Willie."

"What name was under it, Willie?"

"I think the name was 'Before taking,' or something of that kind. Got any caramels, Mr. Hankinson?"

Each Had a Preference. Detroit Free Press: "My favorite flower is the orange blossom," remarked Mabel.

"I think I prefer the poppy," replied Amy.

Something Handsome. "I hear that Miss Mopperbridge gave you a handsome Christmas present?"

"Yes, she did."

"What was it?"

"She returned my photograph."

It Should Be in Every House. J. B. Wilson, 371 Clay St., Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds, that it cured his wife who was threatened with pneumonia after an attack of "La Grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksford, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for Lung Trouble. Nothing like it. Try it. Free Trial Bottles at C. M. Creamer's Drug Store. Large bottles, 50c. and \$1.00.

Maternal Wit. The father at the end of the sword, And the maiden loved him all the more, Till the mother, wiser, called him "dear," When she quickly sickened and bade him "clear."

What Was Said about It. BY THE FATHER. It does seem how girls grow up; It scarcely seems a day, Since I carried Ethel in my arms Thirty years the 7th of May.

BY THE MOTHER. Of course ones age must be concealed— One can not stay at sweet sixteen; I've torn the Bible record out— I guess that biz is all serene.

BY THE GIRL. I wonder what George thinks my age? I fancy under twenty-six. He'll never know the difference Till I drop the Miss prefix.

BY GEORGE. Great Scott! A tidy wedding gift! The old man is a brick; He planks a hundred for each year— Three thousand at a lick.

She Sings. George—Does your landlady's daughter sing by ear?

Harry—Oh, no; with her mouth.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood—Will drive Malaria from the system and prevent its return—Will cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded—Price 50c. and \$1.00 per bottle at C. M. Creamer's Drug Store.

Rough on Blossom. Wool—Blossom was crazy last night. Ethel's father asked him if he drank and of course he said he didn't.

Van Pelt—What did the old man say?

Wool—He said that being the case he wouldn't put temptation in his way.

Falling Hair. Tommy—Paw, what's a windfall? Mr. Figg—Falling hair to a fortune, of course.—Indianapolis Journal.

In the Venetian. Hotel Proprietor—Have you called that waiter yet? Manager—Yes, and found him dozed full on trays. Proprietor—Well close the game and send him around to get his chips cashed. Something in The Lively Line. Daube (scanning a portrait)—I can't paint that girl's carriage. Brush—Oh, well, oil up her harness a little.

Too Many Suits. Detroit Free Press: "No, Mr. Jay-smith," said the tailor, "I can not make you any more clothes unless you pay cash."

"Why?"

"Because I dislike to have to bring another suit for every suit I make you."

Stop that CHRONIC COUGH NOW!

For if you do not it may become consumption. For Consumption, Scrophulous, General Debility and Wasting Diseases, there is nothing like

SCOTT'S EMULSION

Of Pure Cod Liver Oil and HYPOPHOSPHITES Of Lime and Soda.

It is almost as palatable as milk. Far more than other so-called Emulsions. A wonderful food producer.

Scott's Emulsion

Better Than a Plough. Benevolent Lady—Little boy, here is another temperance tract I wish you'd give to your father.

Street Gamble—Ma didn't drink now. He's sworn off.

Benevolent Lady (ecstatically)—Did he read the last tract I gave you?

Gamin—Nope, He's trainin' for a prize fight.

Too Much Privately. Farmer's Boy—There's going to be a minstrel show in Pinktown next week. Can I—

Old Hayseed—Gee Whittaker! It ain't a month since you went to th' top of th' hill to see th' 'clipse of th' moon. D'yuh wanner be always on th' go?

Buckley's Arnica Salve. The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at C. M. Creamer's.

Influence of Climate. "In England the Scotch are considered a cool and cautious people, but here I notice it is different."

"Indeed?"

"Yes, in New York here they speak of hot Scotch."

Etymological. "What is the derivation of jag?"

"Jag, I should say is derived from jag."

Perhaps She Was Sarcastical. "You've been courting six years, you say, and proposed to her last night. Did she accept you?"

"She has taken till to night to think about it."

"What did she say when you asked her?"

"She said, 'This is so sudden!'"

How to get Thin. The only safe and reliable treatment for Obesity, or (superfluous fat) is the "Leverette" Obesity Pills, which gradually reduce the weight and measurement. No injury or inconvenience—Leaves no wrinkles—acts by absorption.

This cure is founded upon the most scientific principles, and has been used by one of the most eminent Physicians of Europe in his private practice "for five years," with the most gratifying results.

Mr. Henry Perkins, 29 Union Park, Boston, writes: From the use of the "Leverette" Obesity Pills my weight has been reduced ten pounds in three weeks and my general health is very much improved. The principles of your treatment are fully endorsed by my family physician. In proof of my gratitude I herewith give you permission to use my name if you desire to do so.

Price \$2.00 per package, or three packages for \$5.00 by registered mail. All orders supplied direct from our office—The LEVERETTE SPECIFIC CO., 339 Washington St., Boston, Mass.

The Wabash.

Why, the "Wabash" is the most desirable route, for all points east.

1st. You can purchase through tickets for all eastern points, at any upon ticket office in the west, over this line, taking your choice of route to the Missouri river.

2d. You can go either by the way of Omaha, or Kansas City, at your pleasure.

3d. From either of those points you can have your choice of five distinct routes, as follows.

Via the Admiral air line, which is the shortest line of the east.

Via St. Louis, where close connections are made with all eastern and southeastern routes.

HISTORICAL.

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, a trade center, sanitary and arduous place. An Indian pueblo had existed on the site previous to the 15th century. Its name was O-ga-phege, but it had been abandoned long before Coronado's time. The Spanish town of Santa Fe was founded in 1606, and therefore the second oldest European settlement still extant in the United States. In 1804 came the first venturesome American trader—the forerunner of the great line of merchants who have made traffic over the Santa Fe world-wide in its celebrity.

THE CLIMATE of New Mexico is considered the finest on the continent. The high altitude insures dryness and purity (especially adapted to the permanent cure of pulmonary complaints, as hundreds will be witness) and by traveling from point to point almost any desired temperature may be enjoyed. The altitude of some of the principal points in the territory is as follows: Santa Fe, 7,047; Costilla, 7,774; Sierra Ancha, 7,455; Gila, 7,587; Taos, 6,950; Las Vegas, 6,452; Cimarron, 6,438; Bernalillo, 5,704; Albuquerque, 4,912; Socorro, 4,952; Las Cruces, 3,844; Silver City, 5,940; Ft. Stanton, 5,300. The mean temperature at the government station at Santa Fe, for the years named as follows: 1874, 48.9 degrees; 1875, 48.6 degrees; 1876, 48.1; 1877, 48.3; 1878, 47.6; 1879, 50.6; 1880, 46.6; which shows an extraordinary uniformity. For tubercular diseases the death rate in New Mexico is the lowest in the union, the ratio being as follows: New England, 25; Minnesota, 14; Southern States, 9; and New Mexico, 3.

Santa Fe is distant from Kansas City, 809 miles; from Denver, 338 miles; from Trinidad, 216 miles; from Albuquerque, 85 miles; from Deming, 319; from El Paso, 340 miles; from Los Angeles, 1,032 miles; from San Francisco, 1,281 miles.

ELEVATIONS.

The base of the monument in the grand plaza is, according to latest corrected measurements, 7,019.5 feet above the level of the sea; Bald mountain, toward the northwest and at the extreme northern end of the Santa Fe mountains, is 12,661 feet above sea level; Lake Peak, to the right (where the Santa Fe creek has its source), is 12,045 feet high; the divide (Tusqueque road) 7,171; Agua Fria, 6,480; Cienfuegos (west) 6,025; La Bajada, 5,214; mouth of Santa Fe creek (north of Pena Blanca), 5,225; Sandia mountains (highest point), 10,908; On Pecos, 8,801; Low Cerros de las Montañas (south), 5,584 feet in height.

POINTS OF INTEREST.

There are some forty various points of more or less historic interest in and about the ancient city.

The adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1605. That ancient structure was destroyed in 1882, and the present one was constructed between 1897 and 1710.

The chapel of San Miguel was built between 1636 and 1680. In the latter years the Indians destroyed it. Fully restored in 1711, it had previously, and after 1680, been the only Spanish chapel in Santa Fe. It still remains the oldest church in use in New Mexico.

The walls of the old cathedral date in part from 1622; but the edifice proper is from the past century.

Other points of interest to the tourist are: The Historical Society's rooms; the "Garrison," the military quarter; chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral; the archbishop's garden; church of Our Lady of Guadalupe with its rare old works of art; the soldiers' monument, monument to the Pioneer Path-Finder, Kit Carson, erected by the G. A. R. of New Mexico; St. Vincent's hospital, conducted by the Sisters of Charity, and the Orphan's industrial school; the Indian training school; Loreto Academy and the chapel of Our Lady of Light.

The sight-seeer here may also take a vehicle and enjoy a day's outing with both pleasure and profit. The various spots of interest to be visited are: Tusqueque pueblo, taking in the divide en route; Monument rock, up in picturesque Santa Fe canon; the Aztec mineral springs; Nambé pueblo; Agua Fria village; the turquoise mines; place of the assassination of Governor Perez; San Ydefonso pueblo, or the ancient chief dwellers, beyond the Rio Grande.

THE CITY OF SANTA FE is making a steady modern growth; has now a population of 8,000, and has every assurance of becoming a beautiful modern city. Her people are liberal and enterprising, and stand ready to foster and encourage any legitimate undertaking having for its object the building up of and improvement of the place. Among the present needs of Santa Fe, and for which liberal bonuses in stock or lands are not only properly secured, may be mentioned a causing factory; a wool scouring plant and a cannery. Skilled labor of all kinds is in demand at good wages. The cost of living is reasonable, and real property, both inside and suburban, is steadily advancing in value.

Ask, for your tickets by the way of this line, and accept of them by no other.

We run the finest trains on earth. A bold assertion, but a cold fact. Write me for rates, maps, etc.

C. M. HAMPTON, General Agent, O. L. ALLEN, Traveling Agent, 1227, 17th street, Denver, Colo.

THE NEW MEXICAN

ESTABLISHED IN 1862.

The oldest, best, most reliable and strongest paper in New Mexico. Publishes Associated Press dispatches, territorial news, the supreme court decisions, and the laws enacted by the late 28th legislative assembly.

THE BEST ADVERTISING MEDIUM

The New Mexican Printing Company is fully prepared to do all kinds of legal and commercial work at the lowest rates and to the satisfaction of patrons. Six new steam presses are kept constantly in motion.

A COMPLETE BINDERY DEPARTMENT

Complete, first-class bindery connected with the establishment. Ruling and binding of bank, railroad, record, and all descriptions of blank work. Thorough workmanship and best of material kept constantly in view.

A CLIMATIC POINTER.

The American Health Resort Experts Speak of Santa Fe Advantages as a Sanatorium.

In the course of an extended article on climatology and disease, Dr. E. W. Sewall, of Goshen, N. Y., who was sent here to investigate and report for the American Health Resort Association, prints this in the *Milltown*, N. Y., *Daily Press*:

"The most important consideration to the invalid who is compelled to seek a change, except in special cases, is to find that climate whose attributes are such as tend to the building up of impaired vitality and the maintenance in a normal condition of the vital forces of animal life.

"These attributes are: Dryness of air, absence of mists, abundant sunshine, intensity of sun rays, purity of atmosphere, diminished air pressure, high altitudes, increased electric tension, absence of long continued extremes of temperature, absence of noxious gases and miasmas in the atmosphere. With these in view, as the requisite features (and they are well recognized as such) by hygienists, we may search our continent over and in no locality will they be found in greater perfection than in New Mexico.

"Kariated air holds relatively much less moisture, and precipitation occurs at Santa Fe when the percentage of humidity reaches 40. The average rainfall for years has been less than fourteen inches, and the rains are in showers, the fall rapid and soon over with, hence, the percentage of cloudiness is very small. Most long rains in the country are, however, accompanied by grass and become heavy while standing, for dew and frosts are unknown. The sunshine is genial at all seasons, and even in mid-winter, one does not suffer with heat at mid-day, while at night one or more woolen blankets are necessary for warmth. This is due to the altitude, which averages 5,000 to 7,000 feet. No noxious gases can be without heat and moisture, and the latter exists in too small quantity in the arid regions to admit of the life and propagation of those germs which give rise to our severe epidemics in the east and south."

"The San Miguel Tragedy.

This is the rather brief and somewhat queer manner in which the *Las Vegas Free Press* treats the latest murder at San Miguel:

"It appears that Cosmo Martinez, the murdered man, was coming out of Santa's saloon with another man and started for the old town of San Miguel. On their way there his companion went into his house, leaving Martinez alone. He had not walked 100 yards before two men on horseback came up and murdered him, using a Colt's 45 or 45 for the terrible purpose. The bullet went into the back of his neck and came out at the left ear. His body was found next morning at 6 o'clock. It seems that the murderers, fearing discovery, twisted their horses around in all directions to obliterate tracks, but one track led to the depot and other to the old town. It is declared that a woman is at the bottom of this case."

"A K. of P. Expert's Opinion.

Wm. D. Kennedy, managing editor of the *Knight Errant*, a monthly *Knight of Pythias* publication at Chicago, writes F. L. Harrison, grand keeper of records and seal of the K. of P. grand lodge of New Mexico, and has this to say of the grand lodge journal lately turned out for the K. of P. fraternity by the New Mexican Publishing Company:

"Many thanks for the two copies of your journal of 1891. The work does you infinite credit, and goes to prove that you have a just appreciation of the eternal value of things. For many years I had entire charge of the largest book publishing house here, hence I like to see the transactions of a grand lodge well built and properly clothed. Glad to see that progress and prosperity dwell within your borders."

A Query from San Juan.

Judge Seeds is holding territorial district court in and for Santa Fe county, United States district court, and hearing cases in the supreme court. The NEW MEXICAN says the district court for Santa Fe has a crowded docket that will require six weeks to clear, and that the other two courts are in no way short of business. Can anyone see the promised speedy decision of the San Juan county seat coming through all this anywhere?—Index.

So many have been cured of rheumatism by Hood's Sarsaparilla that we urge all who suffer from the disease to try this medicine.

ROUND ABOUT TOWN.

Regular semi-monthly meeting of Carleton post G. A. R., at 7:30 this evening. Muster and installation services. Visiting comrades cordially invited.

The Rio Grande Express company has leased one-half of the room occupied by Morton's commission house, west side of the plaza, and will remove to its new quarters about February 1.

The committee to arrange for the reception and entertainment of the Press League delegates, expected to arrive here on Friday or Saturday, is composed of Governor Prince, C. H. Gildersleeve, G. W. Knaebel, R. E. Twitchell, Arthur Boyle, L. A. Hughes and S. Weddes. This committee meets at the governor's office at 8 o'clock.

The funeral of Walter J. Crist, the little son of Mr. and Mrs. J. H. Crist, took place from the family residence on Johnson street at 1:30 to-day and was largely attended. Rev. G. G. Smith conducted the impressive ceremonies. The floral tributes were very beautiful and many.

The Noss-Jolliffe have an advertisement elsewhere in this issue. This

troop of musical and fun provoking geniuses have an excellent reputation and the prospects are that they will be greeted by a large audience in Santa Fe. They appear at Gray's hall next Wednesday night, the 27th inst. Reserved seats on sale at Weltner's.

The ladies of the "15 club" will meet with Mrs. Harroon Thursday (to-morrow afternoon) at 2:30 o'clock. The program is as follows: Quotations from Thackeray, Response by members of the class; "Fendennis," Mrs. Webb; Recitation, Mrs. Sells; "Current events," Mrs. Haddock; Thackeray's Miscellany, Mrs. Prince.

At last night's meeting to take steps to observe Lincoln's birthday under the auspices of the Republican league, the following were named a committee to outline a program for February 12: E. L. Bartlett, T. B. Catron, A. L. Morrison, B. M. Thomas, J. D. Sena, Jr., Major McKinney, Geo. A. Johnson, J. E. Morrison, Judge Downs, B. M. Read. These gentlemen held their first meeting at Gen. Bartlett's office this afternoon and made progress toward arranging an entertaining program.

The Vienna supper and dance to be given by the ladies of the Santa Fe county Women's fair auxiliary committee will take place in the corridors at the capitol on Feb. 4. Some twenty or more ladies have been selected to dress in fancy costume and act as bewitching assistants in serving the lunch on this occasion. These ladies are requested to meet at 3 o'clock Saturday afternoon at the residence of Mrs. G. D. Koch to discuss the question of costumes.

Report had it last night that Lee White had been recaptured in the south end of the county and special police delegations were at both trains during the night to greet him, but again he failed to materialize.

Health demands a healthy liver. Take Simmons Liver Regulator for dyspepsia and indigestion.

EXAGGERATED REPORTS.

No Recruiting for Garza and no Revolution at Ascension, South of Deming.

Assistant U. S. Attorney A. J. Fountain, who is well acquainted with the people of the state of Chihuahua and with the political condition of the Mexican border states, writes to U. S. Attorney Fiske as follows from Las Cruces concerning the recent reported revolutionary uprising at Ascension and recruiting for Garza:

"Upon investigation I learn that there is no foundation for the sensational dispatches sent from this locality to the effect that recruiting is going on in southern New Mexico for Garza.

"The statements published regarding the recent trouble at Ascension are also distorted. The affair has no political significance beyond an effort to control the municipal affairs of the town of Ascension. Anarcha was a candidate for election as president of the municipality; his opponent claimed to have been elected; and the result of the election was in dispute with others of his party were murdered by Renjio Sais and his followers."

In this connection it is well to remark that U. S. Attorney E. A. Fiske keeps well posted upon these affairs and that prompt and correct reports of all border occurrences are sent to the attorney general's office in Washington from here.

MURDERER SAYS WHEREABOUTS.

Special to the New Mexican.

Las Cruces, Jan. 20.—Renjio Sais and six of his men were yesterday arrested in La Mesilla. They are supposed to be in the town in hiding. They have relatives there and are keeping very close. There is no question that they are the leaders in the recent disturbances at Ascension which resulted in the death of Rafael Anchaeta and two other officials.

That shortness of breath is dyspepsia. Take Simmons Liver Regulator.

New Mexico's Militia.

The present effective militia force of New Mexico consists of one regiment of cavalry, six companies, 280 men, and one of infantry, six companies, 280 men, the former commanded by Col. A. J. Fountain, of Las Cruces, and the latter by Col. W. G. Marmion, of Laguna, both old veterans.

It is stated in the *Globe-Democrat* of a recent date that the war department had called upon the adjutant general of Missouri for a statement as to the number of militia men which his state could furnish in the event of a war with Chili. It is probable the rumor that such a statement had been called for from Washington arose from the fact that the blanks for the usual annual report of the different adjutant generals has space for an "estimated number of men available for military duty, unorganized." Adjutant general Fletcher in his last report estimates this number in New Mexico at 25,000 men.

In view of the fact that the territory sent 6,501 men into the union army during the war, and that we now have a population of 154,000 as against 71,000 at that time, this is a low estimate.

The present militia force of New Mexico can be put in the field in a week, and in case of an emergency 5,000 men can be recruited within thirty days.

In response to a telegraphic inquiry from the New York Herald, the adjutant general last night wired the gist of the above to that enterprising paper.

Business Notice.

Frank Masterson has opened a cabinet shop one door west of Mayor Thornton's residence and is prepared to do all kinds of cabinet work. He is also agent for Santa Fe county of the celebrated Kellogg weather strip, which has been successfully placed in several buildings in this city and gives such well known references as Hon. E. A. Fiske, Hon. T. B. Catron, Sister Victoria, G. W. Knaebel, Julius H. Gerdes and E. W. Seward.

Fine McBrayer whisky at Colorado saloon.

Pecos National Park.

DEPARTMENT OF THE INTERIOR, Jan. 14, 1892.—The following is a description of the lands in the territory of New Mexico known as the Pecos river forest reservation, reserved from entry or settlement and set apart as a public reservation by proclamation of the president dated January 11, 1892, as provided in section 24 of the act of congress, approved March 3, 1891. Commencing at the standard corner to townships seven (7) north, range thirteen (13) and fourteen (14) east, (New Mexico principal base and meridian) on the fourth (4th) standard parallel north; thence northerly along the range line between ranges thirteen (13) and fourteen (14) east to the closing corner between ranges thirteen (13) and fourteen (14) east on the fifth (5th) standard parallel north; thence along the said fifth (5th) standard parallel to the southeast corner of township twenty-one (21) north, range thirteen (13) east; thence north six (6) miles; thence west twelve miles; thence due south to the fifth (5th) standard parallel; thence westerly on said fifth (5th) standard parallel to a point due north of the northwest corner of township seventeen (17) north, range eleven (11) east; thence south to the fourth (4th) standard parallel; thence westerly on said fourth (4th) standard parallel seven and sixty-two one hundredths (7.62) chains to the northeast corner of township sixteen (16) north, range eleven (11) east; thence southerly on the range line between townships sixteen (16) north, range ten (10) and eleven (11) east, three (3) miles and eleven (11) chains; thence south to the range line between ranges eleven (11) and twelve (12) east; thence northerly three (3) miles and three (3) chains to the fourth (4th) standard parallel north; thence easterly on said fourth (4) standard parallel eight (8) and fifty hundredths (8.50) chains to the standard corner to township seventeen (17) north, range eleven (11) and twelve (12) east; thence northerly on the range line to the south-west corner of township eighteen (18) north, range twelve (12) east; thence easterly on the township line six (6) miles one and six hundredths (1.06) chains to the southeast corner of township eight (8) north, range twelve (12) east; thence southerly on the range line to the fourth (4th) standard parallel north; thence easterly on said fourth (4) standard parallel to the place of beginning, keeping from the line and effect of the proclamation all land which may have been, prior to the date thereof, embraced in any valid Spanish or Mexican grant, or in any legal entry or covered by any lawful filing duly made in the proper United States land office and all mining claims, duly located and held according to the laws of the United States and rules and regulations not in conflict therewith; Provided that this exception shall not continue to apply to any particular tract of land unless the entryman or claimant continues to comply with the law under which the entry, filing or location was made. Warning is expressly given in the proclamation to all persons not to enter or make settlement upon the tract of land reserved.

JOHN W. NOBLE, Secretary of the Interior.

PERSONAL.

P. F. Hogan is up from Cerrillos. Bishop Chapelle has gone on a ten day's trip to Arizona.

J. W. Schofield went south to-day on insurance business.

Mrs. Aniceto Abeyta left this morning for Las Vegas on a visit to her daughter and her son.

Hon. Pedro Perez, president of the First National bank, came up from the south this morning.

G. H. Warren, representing that excellent journal, the *Denver Times*, is visiting Santa Fe.

T. J. Coolidge, John S. DeLoche and Adam Wiley, influential citizens from Santa Fe, are in the city on business.

At the Palace: O. W. Alexander, Cerrillos; Byron Schoerdt, St. Louis; E. E. Summers, Denver; T. H. Breidenbach, St. Louis; A. Menet, Las Vegas.

Byron Schoerdt, formerly a well known commercial traveler in these parts and now a member of the Ely-Walker Dry Goods company, St. Louis, is in the city to-day renewing old acquaintances.

Government Tests

The Royal Baking Powder Declared Superior to all others.

The fact that Royal Baking Powder is, in all respects, the best baking powder offered to the public has been established beyond question.

Prof. H. A. Mott, when employed by the U. S. Government to analyze the various baking powders of the market to determine which was the best and most economical, after an extended investigation reported in favor of the Royal and it was adopted for government use.

Prof. Mott has continued his examinations of baking powders sold at the present day, and affirms it as his deliberate judgment, arrived at after most thorough research and a careful examination of the principal brands of the market, that the Royal is undoubtedly the purest and most reliable baking powder offered to the public. Prof. Mott, in his report, says:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the U. S. Government.

"I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

"Dr. HENRY A. MOTT, Ph. D."

Late U. S. Government Chemist

District Court.

The Montes y Vigil murder case is consuming the day in the district court.

The mother of the accused was on the witness stand all the forenoon and during her examination Mr. Catron, for the defense, and District Attorney Twitchell indulged in a spirited tilt at words which required the court to quiet the controversy.

The case will probably be given to the jury this evening.

The five Indians from San Juan pueblo accused of having assaulted their aged governor, Juan Jose Pino, will be tried on Monday next.
