BRIEF WIRINGS.

HERE'S A PRETTY MESS.

National Board of Trade Talk on Silver Coinage, Crop Reports and Telegraphs.

WASHINGTON, Jan. 27.—Among the resolutions submitted this morning for the consideration of the Board of Trade Convention, the following important propositions are supported by the delegates from Chicago, Milwaukee, St. Louis and the western and northwestern states in general:

"That the proposed free and unlimited coinage of silver is a reckless stimulation to commercial disaster. We believe that prudence and common sense dictate a repeal of the present law and the cessation of silver coinage until some international agreement shall have been made or the requirements of trade demand and further coinage; that this board which has uniformly approved and advocated the principle of sound currency, is against any legislation which would effect the distribution of the value of the circulating coinage. We are opposed to any legislation providing for the coinage of any dollar which is not of the identical and full value of any other dollar coined or issued by the government. Any debasement of currency is a detriment to our commerce. We approve of such a settlement of the silver and gold question as is in accord with the great powers to give the metals equality of a uniform ratio."

"That the National Board of Trade recommends to congress the revision of the laws relative to the purchase of silver and coinage of silver bullion, so that the treasury notes issued against such purchases may be uniform in tenor and obligation."

"That the National Board of Trade memorialize the executive and legislative departments of the national government to promote and secure, at the earliest possible date, and international conference for the adjustment of a fixed ratio between gold and silver, and further that until such a ratio has been secured by international agreement, that any and all legislation aiming at the free coinage of silver or the repeal of the present law should be strenuously opposed."

"That the good of the country requires the discontinuance of the monthly reports on crops of the Bureau of Agriculture, as in the judgment of this board these reports disturb values and are altogether unreliable."

"That it is the sense of this association that the prices now paid by the people for telegraph are too high, no abatement of consequence having been made in twenty years or more; that it is the expression of this association that a rate should be established not exceeding 1 cent per word in a radius of say 1,000 miles; that if private companies will not afford the people this relief, then we favor most decidedly the postal telegraph system so ably advocated by Postmaster General Wainman."

AN "ULTIMATUM" FOR BOTKIN.

ARKANSAS, Jan. 27.—There can be no longer any doubt as to the purpose of the Springfield leaders of the recent mob. Judge Botkin has received private but reliable intelligence of their ultimatum. It is that the county attorney must drop the prosecution of those under arrest, all warrants must be recalled, and no more arrests made. The under-sheriff must be removed and the sheriff must appoint as under-sheriff a man to be named by J. F. Van Voorhis and C. L. Calvert. Judge Botkin must resign and a dozen or more of his friends, whom the mob leaders are to name, must at once move out of the district. The wishes of the leaders must be consulted by the governor in the appointment of a successor to Judge Botkin.

Feeling of the English Press.
LONDON, Jan. 27.—The St. James Gazette publishes an article on the relations between Chili and the United States, which it heads, "An Irish Boas as Diplomats."

"German Syrup"

A Farmer at Edom, Texas, says: "We are six in family. We live in a place where we are subject to violent Colds and Lung Troubles. I have used German Syrup for six years successfully for Sore Throat, Cough, Cold, Hoarseness, Pains in the Chest and Lungs, and spitting-up of Blood. I have tried many different kinds of cough Syrups in my time, but let me say to anyone wanting such a medicine—German Syrup is the best. That has been my experience. If you use it once, you will go back to it whenever you need it. It gives total relief and is a quick cure. My advice to everyone suffering with Lung Troubles is—Try it. You will soon be convinced. In all the families where your German Syrup is used we have no trouble with the Lungs at all. It is the medicine for this country."

John Franklin Jones.
G. G. GREEN, Sole Man for Woodbury, N.J.

It says, among other things: "There is no real peace between the United States and Chili. The concessions that Chili has made on the main question deprives the United States of all just foundation for holding. There is no doubt that the United States can, if she please, initiate Russia's dealings with Bulgaria. There is no doubt that she can, if she please, initiate Russia's dealings with Bulgaria. There is no doubt that she can, if she please, initiate Russia's dealings with Bulgaria."

DISCUSSING CHILI.

The Committee on Foreign Relations Considering the President's Message and Chili's Reply.

WASHINGTON, Jan. 27.—At the request of the house foreign affairs committee, a special meeting was called yesterday for the purpose of considering the president's message on the Chilean controversy and the accompanying correspondence. Pinned copies of the correspondence were received, and the members of the committee spent some time in the consideration of it. There was an informal discussion of a very general character, but no conclusion was reached, partly because of the late hour and partly because of the pressing of a substantial compliance by Chili with the request of the president, and partly because of the necessity of a careful examination of the correspondence contained in the telegram of Minister Piore of January 23. The note of Minister Montt of December 19 and January 18, were regarded as an expression of good feeling on the part of Chili, and perhaps all that ought to be demanded. There was a discussion of the necessity to press the government of Chili, and they were disposed to accept the offer as entirely satisfactory. It was pointed out that as the Chilean government has disavowed responsibility for, or sympathy with, the attack on the sailors of the Baltimore, she would naturally be cautious in whatever she said on this subject, as the government's connection with the matter would be one of the main questions on which the decision of either arbitrators or the United States supreme court would depend on considering the question of reparation. It was generally conceded that the proposition to refer to arbitration or to the decision of either arbitrators or the United States supreme court the entire Baltimore incident is a proposition which cannot be rejected by this government. There is one point in the dispatch from Santiago, however, that is somewhat mystifying to all, and that is, why the Chilean government should deem it necessary to recede from its request for the withdrawal of Minister Egan, since that was not one of the demands contained in the ultimatum of the United States. This is a concession which was not expected.

CONGRESS AT WORK.

The Senate Committee and the H. Metallic Conference—Chili and the House.

WASHINGTON, Jan. 27.—In the senate yesterday Senator Dawes, from the committee on Indian affairs, reported back to the house the bill for the completion of the allotment of lands to the Cheyenne and Arapahoe Indians. The bill was passed and now goes to the president.

Senator Morrill, from the finance committee, reported back a substitute to the joint resolution to provide for an international bi-metallic agreement, and the same was placed on the calendar as follows:

"That the policy of the United States to use both gold and silver as full legal tender money, and to maintain at all times a parity in the value of its coins of both metals, is hereby re-affirmed, and the president is authorized to invite the governments of such countries as he may deem advisable to join the United States in a conference to be held at a time and place to be agreed upon, such conference to be called with a view of securing a permanent parity in the relative value of gold and silver, at a common coinage ratio to be mutually agreed upon through international agreement, providing for the enlarged monetary use of silver and for the giving to that metal equal minting rights with gold."

In the house the feverish anxiety for the latest Chilean news was early manifested in the resolution of Mr. Breckenridge, of Kentucky, calling upon the president for all additional dispatches not contained in his recent message, and while the resolution was finally referred to the committee on foreign affairs, it was only done after the assurance of the members of that committee that the resolution would be reported back without delay in case its adoption seemed necessary to secure all information at hand on the subject.

The debate on this resolution sufficed to give warning of the intention of the house to guard jealously all its prerogatives as the supreme tribunal of the final consideration of the cause.

Some Santa Feans Interested.
CHICAGO, Jan. 27.—A special dispatch from St. Paul, Minn., says: State Bank Examiner Kenyon has reported to Governor Merrill, recommending that the affairs of the American Building and Loan association of Minneapolis be wound up. The American is one of the largest building associations in the country, having assets alleged to reach \$11,000,000.

Will Resign.
WASHINGTON, Jan. 27.—It is ascertained, on the best authority, that Mr. Van Vleet, law Reel, the United States minister to France, is seriously contemplating resignation in order to resume his journalistic work. The state department, it is understood, has been advised to this effect.

Sensational Rumor.
WASHINGTON, Jan. 27.—A sensational rumor was doing the stock exchange in New York to-day to the effect that Minister Egan had been assassinated at Santiago, Chili. Officers in the state department laugh at the idea and say there is nothing in it.

Dyspepsia

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion."

Intense Suffering

I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the first bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Rio Arriba's New Sheriff.

Sheriff J. H. Burns, of Rio Arriba county, is in the city on official business. He has furnished very satisfactory bonds as sheriff and collector and assumed the duties of his office. He, to-day, turned over to the territorial treasurer the neat little sum of \$7,782 territorial taxes for the year 1891, collected under the administration of the late sheriff, William F. Burns. Sheriff Burns is starting in well and from all appearances will make a first class and honest official and collector.

In Memoriam—Ned Wynkoop.

A golden chain, whose never dissolving links the roses wreaths of comrades have received, bound close the hearts of two who oft did meet.

"Ned" (Nelson's) flag, upon the venerated field, they fought in widely separated regions. One in the grand Pantheon's battle house, the other battled with the rebel in regions And equi fearless southern in the west.

When the white dove of peace with drooping pinions Sailed over the hosts of late contending foes, and all the southern's poor, mistaking the dove, Lay crushed beneath the Cuban's heavy blow.

These comrades met far out amid the mountains, And each felt ready to that chain of love, While from their hearts, in clear, unclouded tones, Flowed friendship pure as if from heaven above.

off clasped their hands in true fraternal greeting, When life's tide threw them in each other's way.

And love was stronger at the final meeting, Than was before their heads were touched with gray.

Their parted-in their hearts there was no parting, Of what hung over one comrade's loyal head, Till to the other came the wordy message, "on earth electric wings," "Ned Wynkoop's dead."

For now dark hour that golden chain cannot break, My stricken heart was rent with keenest pain: And I tried to feel to send a token, That I loved on earth would live again. Then came a voice: "That chain is yet unbroken."

New links are added—links of holier love—It reaches now from earth to highest heaven—From your breast heart to comrades heart above.

SANTA FE'S GREETING.

How the Delegates of the International League of Press Clubs were Received and Entertained.

A Royal Body of Visitors Hospitality Received—Chats with and Personal Gossip About the Guests.

Santa Fe again proved up her claims on true hospitality and good fellowship by the manner in which the delegates of the International League of Press Clubs were received and entertained. There were eighty-five people in the party. Their special train, after an hour's halt at Albuquerque, reached the historic capital at 9 o'clock last night. Then the fun commenced and there was a whole lot of them who stood off Morpheus until their train pulled out for the east at 11 o'clock this morning. This, of course, doesn't refer to the ladies, but the average cosmopolitan journalist is a night owl by training, and the local Bohemian who attempts to lay him out very rarely succeeds.

Governor Price, with a military escort and accompanied by the citizens' committee, met the visitors in carriages at the depot where the 10th infantry band was playing "Hail to the Chief," and in a few minutes the guests were welcomed into New Mexico's handsome capital, where, in the hall of representatives, a great throng was gathered to greet them. The governor made a very happy address of welcome and outlined the program of entertainment. When he referred to New Mexico as the coming "sunshine state" there was a significant tumb of applause on the part of the visitors.

The governor said it would require a stay of at least thirty-five days for the visitors to even partially do the thirty-five points of historic and modern interest hereabouts, and he assured them that Santa Fe's committee and carriages were at their disposal just as long as they would prolong their stay. Several lively airs were rendered by the band while the guests were making acquaintances, and then fifty-two children from the Ramon Indian school sang very sweetly a song of welcome. Shortly afterward the visitors were again in carriages and whirling toward the historic seat of government, the old palace, where, in the governor's rooms, were assembled a brilliant company of citizens. Here Governor and Mrs. Price, assisted by members of the Board of Trade and the committee and their wives, dispensed genuine hospitality. About midnight a superb collection was beautifully served, the orchestra lending valuable service toward the enjoyment of the occasion. It was 2 o'clock this morning before the banquet board was dissolved.

This morning at sun rise—ah! and what a sun rise it was—the Board of Trade's carriages, each with an attendant committee man, were on hand to convey the visitors from their dining car to the various points of interest about the city. They saw enough in the next three hours to whet their appetites for more. Guard mount was witnessed at Fort Marcy—and by the way, what true generosity Col. and Mrs. Pearson, the officers and the ladies of the post have displayed in the reception and entertainment of this party—then the 10th infantry band gave a plaza concert in their honor, rendering the program of which souvenir copies were printed cream colored silk. Here this was concluded the delegates were once more in carriages and headed for the A. T. & S. F. depot, and at 11 o'clock they resumed their jolly junket across the continent to their far east homes.

SNAF SNOTS.

Gay crowd, that. Every one of 'em a brack.

How about that \$550? All is well that ends well.

Marshall P. Wilder's face is a study. My! but he's solid with the ladies.

Miss Lucinda Pera, of Albuquerque, came up with the press visitors last night.

Jake Gold's old curiosity shop was a favorite rendezvous for the delegates this morning.

Mr. and Mrs. Dampman, of Redding, Pa., were entertained by Col. and Mrs. Pearson.

Mr. S. C. Austin's recreation, "and the wind blew through his whiskers," was a treat that the ladies missed.

Librarian F. F. Pino had the territorial library so arranged that the many ancient archives kept there attracted great attention.

Dr. Hunt, of Maryland, a health seeker here, found an old college chum in Mr. Lynn R. Meekins, of the Baltimore American.

The high moral influence of Mr. Foster Coates, managing editor of Col. Elliott Shepard's Mail and Express, was plainly noticeable.

When the governor began his address of welcome at the capital last night there were a score or more of stenographers following him.

J. Seaver Pace, of the party, is a "big one" in the Union League club, and for all-around ability and good fellowship, he's hard to beat.

Wm. N. Penney, of the New York Daily News, is a bright fellow and a thorough Bohemian. He will have to do the square thing later on.

Mrs. Crowley (Dennie Jane) and Nellie By, the globe trotter, were heard to say the trip with this party, but had to give it up at the last moment.

Mr. Lynn R. Meekins, of the Baltimore American, was happy over a copy of EL NUEVO MEXICANO, and was at 3 a. m. writing Spanish poetry.

Miss Maria Parlon, the noted authority on culinary sciences, was one of the Boston delegates, and she found many hearty admirers among the ladies at the reception.

Mr. Wm. Berri, of the Brooklyn Standard-Union, and chairman of the New York delegation, declared that nowhere had the party enjoyed themselves more than in Santa Fe.

UP-COUNTRY COMMENT.

Sheep! A. H. Burns, of Rio Arriba county, came in from the north last night. He happened to be in Alamosa day before yesterday, and he says that at least 150 people passed through there on that day en route to Creede Camp, and it wasn't counted by the natives as a particularly fine day for travel either.

Mr. Burns says all his section of New Mexico is much elated over the boom which has struck this magic gulch in the mountains, and the people look forward to the coming of spring with the promise of much local business as a result of this new city being established so near. Beef and mutton and produce raised all along the line of the D. & R. G. in New Mexico expect to find a market at Creede this spring and summer, says Mr. Burns, that will yield them rare and ready profits, though as respects the shipments of fresh fruits and garden truck, of which there is a large quantity, there is late and too short to raise fruits and hence when Santa Fe products come into market from six weeks to two months earlier than those of any competitor for the Creede market, it is bound to give the prospects of this valley a great prestige. Mr. Burns says that if Santa Fe people ever had the least incentive for developing their water enterprises for irrigation purposes, this place would be the place to go to, and so near our doors ought to inspire renewed efforts to develop water and bring under cultivation thousands where now the producing area is but hundreds of acres.

Warning is expressly given in the proclamation to all persons not to enter or make settlement upon the tract of land reserved.

JOHN W. NOBLE,
Secretary of the Interior.

Accused of Forgery.

August Hunter, a former hack driver well known about town, was arrested by City Marshal Gray last night and placed in jail on the charge of forgery. Billy Kane, his companion, also believed to have some knowledge of the transaction, is also in jail. Hunter is accused of having gone to Lamy junction night before last and induced Chas. Haspelmath to cash a check for \$25, which bore the signature of Frank Chavez, ex-sheriff. It is claimed that the signature is a forgery. The preliminary hearing took place at 11 o'clock this morning, when Kane was released and Hunter was held in the sum of \$1,500 bail.

The Newest of all Heating Stoves! The Cheapest of all Heating Stoves! The Best of all Heating Stoves! The Most Economical Heating Stove ever invented and placed on the World's Market. We call attention to our patent "Hagopyr King Heating Stove," made of the best Russia iron, and lined with charcoal iron. Ornamented and suitable for room or parlor. We do not hesitate to say it is the best, cheapest and safest quick heating stove ever offered. It is King Heater because it consumes the whole wood pile, burning knots, chunks, chips, trash and anything that will go into the 13 inch opening at the top. It is King Heater because it will warm the whole room in five minutes. It is King Heater because no fire can fall from it. It is King Heater because the ashes do not need removing but once a month. It is King Heater because one or two knots or chunks will run it twelve hours in cool weather. It is King Heater because the fire is everlasting.

Las Cruces, N. M.

Within three miles of the city of Santa Fe is located the noted Aztec spring, and it is reached by a wagon road of such easy grades that the drive is most exhilarating and delightful, and the scenery is unsurpassably grand.

You will find yourself spell-bound and perfectly entranced in gazing from the lofty mountain heights to the valley below.

The view from the Long Ridge near the spring (which has an elevation of 7,940 feet above the sea level) is unsurpassed in America and should be seen by every lover of nature.

Here you see in the distance, and almost beneath you, the city of the Holy Faith (Santa Fe) and the magnificent Rio Grande threading its course through the valley to its exit in the gulf of Mexico.

On reaching the summit you get your first view of

GOO DEL XIGANTE and the canon in which is located this famous spring. Old Montezuma Bay near his snow-covered head in the distance and sits like a sentinel guarding

A short descent from the summit brings you to the bottom of the canon, which is a most picturesque valley—being deep, long and narrow. The mountain sides are covered with cedars, and the place seems especially adapted for a place of resort.

On looking up about sixty feet above you will see the

TRADITIONAL FOUNTAIN OF HEALTH.

The water pours directly out of a cave in the mountain, never varies in temperature—being 40 degrees Fahrenheit, and the flow is always the same, viz: 4,000 gallons per hour.

Chief Chemist Clarke, of the Smithsonian Institute, Wash., says: "The water contains eighteen grains to the gallon of solid matter. It resembles many of the noted German springs, and would be found useful in troubles of the bladder and catarrh."

A study of the Aztec spring water shows that it is strongly impregnated with mineral, which medical science universally concedes to possess curative properties and it is recommended by physicians for the following diseases:

For affections of the stomach and ailments of the digestive organs, acidity of the stomach, etc.

Useful for dyspepsia, biliousness, headache, etc.; it also acts as a mild cathartic.

It has the general effect of stimulating and toning up the system.

It is also very valuable in the treatment of rheumatism, neuralgia and kindred diseases.

An excellent remedy for chronic disorders and skin diseases, such as scrofula, etc.

It is almost a certain cure for diseases of the kidneys and the urinary organs.

Used as a bath, it is the finest water in the world for the treatment of skin diseases.

Baths are being erected at the spring, and the water can now be procured from all leading chemists throughout the country.

This valuable spring and adjacent property may be purchased, or leased on long and easy terms.
