## BRIEF WIRINGS.

**Austrian Silver.**  
LONDON, Jan. 30.—The Chronicle's Vienna correspondent learns from a good authority that no considerable quantity of silver will be thrown on the markets through the American currency reform.

**Small Pox.**  
SAN FRANCISCO, Feb. 1.—Small pox is spreading rapidly among 500 Chinese in quarantine off Angel Island. They were landed from the Steamer Rio Janeiro Jan. 23, when there were two cases on board. Now there are eleven well defined cases of confluent small pox in the Lazaretto.

**Army Officers at the Fair.**  
WASHINGTON, Feb. 1.—Chairman Outwater has been authorized by the house committee on military affairs to report favorably to the house the bill introduced by Mr. Newberry authorizing the secretary of war at his discretion to detail for special duty in connection with the World's fair such officers of the army as may be required, the officers detailed to be subject to no loss of pay or rank.

**Call for a Silver Caucus.**  
WASHINGTON, Feb. 1.—A call for a caucus was circulated by Congressman M. D. Hart, of Ohio, among the Democrats of the house to consider what action should be taken upon the question of whether any legislation concerning the coinage of silver shall be brought up during the present session for final action. The necessary number of signatures were soon obtained, and Mr. Holman, the caucus chairman, will issue a call for the caucus to take place next Friday evening, February 5.

**Begun to Hustle.**  
CHICAGO, Feb. 1.—The directors of the World's fair have begun to hustle in behalf of the proposition to secure a gift of \$5,000,000 from the national government. General J. W. St. Clair, of West Virginia, chairman of the committee on federal legislation of the national board, arrived here this morning in response to an urgent call, and is in consultation with the principal officers of the directory regarding a plan of action upon which the national and local bodies may work in harmony. The national commission wants \$1,000,000 for expenses and awards, while the \$5,000,000 are required to finish the buildings. The entire amount must be appropriated if the fair is to be a success.

**A Grand High Executioner.**  
PARIS, Feb. 1.—The resignation of Monsieur Deibler, better known as "Monsieur Paris," the official government executioner, goes into effect on Wednesday, and hereafter he will live at his ease on a pension equal in amount to the salary he has received for his gruesome services. During the fourteen years in which he has officiated as chief headman he has been instrumental in sending no less than 220 souls into another world. He proposes to write a book on his experiences, or rather to get some versatile journalist to write it from the facts and recollections that he has by way of material. He is succeeded by his assistant, Berger by name, and who is not only the son of a headman, but married the only daughter of another.

**Creede's Boom.**  
CREEDE, Colo., Jan. 30.—Careful examination by experts shows that the mineral formation at Creede extends probably for a great distance down the Rio Grande, and that the ore body is not an isolated one, as at first supposed, but continues for a great distance. The Daily Amethyst of yesterday states that one of the richest finds known in Creede district was made this week by Croft, Webb and Dornette. The ore is silver bearing, and runs 240 ounces in silver per ton. The mine is known as the

## "German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled with colds, and he often coughs enough to make him sick at Consumption's stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."

**Jackpot.** Mining men here are wild over the discovery. Wealthy Colorado capitalists have entered the school land with Valentine scrip. There is a big rush for locations on the state land, and the state rights will be vigorously contested. Fifteen cars of ore were shipped from here yesterday.

**Said to be Hustling.**

DENVER, Feb. 1.—A Washington special says: If the people of Colorado, Wyoming, New Mexico and Arizona do not get any benefit from the present congress it will not be due to lack of ability or energy upon the part of their representatives. The men who represent these states and territories in congress are using every effort to carry out the will of their constituents. If they fail in getting through the legislation their constituents desire the Democratic congress will be to blame.

**Representative Townsend is alert,** as usual, and Delegate Joseph, of New Mexico, is a hustler. Delegate Smith, of Arizona, is a good running mate.

**Tell-tale Blotting Pads.**

LONDON, Feb. 1.—The official lists of the divorce cases to be tried during the coming session of the court in London has just been issued, and proves to be much more lengthy than in previous years. In one of the cases the petitioner is a well known actress, and in another there are no less than eight co-respondents. In the case of Horley against his wife, the petitioner holds an important government appointment in Ceylon, and the man accused is an officer in the Gordon Highlanders. Some of the chief evidence will be in the form of several blotting pads, which have the impress of spiny tell-tale letters. The case of Armstrong against the Duke of Orleans, which the Prince of Wales tried his best to get settled out of court, and in which the defendant is Madame Melba, the Australian prima donna, is not yet ready for trial. In this case damages of \$100,000 are asked against the duke. An effort will be made to avert the threatened disclosure on the ground that the suit should have been brought abroad where the offenses were committed.

## Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humors is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the food we eat, or the water we drink. There is nothing more proven positively than the power of Hood's Sarsaparilla to purify the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every office in the territory and has a large and growing circulation among the intelligent and progressive people of the Southwest.

MONDAY, FEBRUARY 1.

It seems pretty well established that the house of representatives will pass an enabling act for New Mexico. The senate; ah, there is the rub.

Several White Cap sheets in New Mexico are just now engaged in throwing chunks of mud at the New Mexican. They must feel hurt, poor things.

It is a great pity that Chitt, the bully of the South Pacific, can't be punished. An apology is all right, but a sound drubbing would teach Chitt a very much needed lesson.

It is about time that our more or less esteemed contemporaries were beginning to understand that this journal makes no "sucking dove" fight on any measure or any corporation, on any man or any paper, it opposes.

The Socorro Chittain is steadily improving and is becoming a very influential weekly journal. There is but one fault noticeable, and that is its size. It ought to be increased in size, and course will gain thereby in influence.

## GETS ALL HE CAN.

In accordance with orders from Senator Hill the New York Democratic state convention to elect delegates to the national convention will be held on February 22 next, and seventy Hill delegates out of a possible seventy-two will be selected. The list containing the names of these delegates has already been prepared. When Senator Hill wants a good thing and can get it, he gets it without any "divvy."

## A NAVY ASSURED.

It is estimated that something like \$2,000,000 have been expended as a result of the anticipated bust with Chili. This has gone into the naval department, and is a very small matter compared with the permanent benefit it has brought. The day for looking at the American navy has passed. Out of this incident the United States will be long able to greet the world with a navy in every respect befitting her position among nations.

## A WORD TO NEW MEXICO WOOL GROWERS.

The free trade Democrats in congress will undoubtedly think, as far as they can, with the tariff on wool; this tinkering alone will cost the New Mexico wool growers and sheep raisers at least 2 cents per pound on the wool they raise. Prices will undoubtedly be lower this spring, and all on account of the Democratic free trader fooling with the wool tariff. Mr. Springer and his confederates will do the talking and the New Mexico wool growers will do the losing. Not very evenly divided that, but that's what they are bound to get from a Democratic house.

## HARRISON AND CHILI.

The Chilian business is as good as settled. Chili has conceded everything demanded by the United States, only the details remaining to be arranged; the offensive note has been withdrawn and the American flag will receive a "chivalrous salute" at the hands of the South American fire eaters. Truly, all's well that ends well.

But how admirably has President Harrison and his cabinet guarded the national interests in this matter! Has it not been handled in such a broad spirit of dignity and toleration as to challenge the admiration of every fair-minded inhabitant of the country? We believe this will go unquestioned.

From all quarters of the country come sentiments of approval toward Gen. Harrison's course. Even the leading Democratic journals of the nation can but say good things of the administration in this connection.

It merely serves to again emphasize the fact that the Harrison administration has the confidence of the masses and enjoys even the profoundest respect of its bitterest partisan opponents.

## THERE MUST BE NO LAWLESSNESS.

The New Mexican is informed that there is some trouble brewing at the coal camps at Cerrillos. According to our information and judging by the papers filed in the district court, two coal operators, formerly members of the White Ash Coal company, are not satisfied with the offer of arbitration made by the Cerrillos Coal and Iron company for the machinery and improvements heretofore put up and used by their company, and propose to work the coal lands, which they have heretofore worked and lately under a lease from the C. C. & L. company, without the permission of the company.

A temporary injunction was granted yesterday by Judge Seeds restraining the defendants from working these coal lands or interfering in any manner with the property of the C. C. & L. company. This injunction is returnable on the 13th of February and is being served to day on them.

The New Mexican understands that the C. C. & L. Co. is ready and willing to have the district court appoint a third arbitrator and abide by the decision of a board of arbitration to consist of an arbitrator named by the court, one by the company and one by the defendants.

There is not much to say in this matter. The orders of the district court must be promptly carried out and strictly obeyed. There must be no lawlessness connected with this affair. The property rights of the Cerrillos Coal and Iron company, the law recognizing them as bona fide and lawful owners of these coal lands, must be fully respected and protected.

The courts and the court officers must do their full duty in the premises. There is too much at stake for the town of Cerrillos, for the county of Santa Fe, and indeed for the whole territory, to allow anything else to happen.

Any lawlessness, any injury to just and honest property rights will harm the town of Cerrillos, the county of Santa Fe and the territory of New Mexico very seriously and for many years to come.

The C. C. & L. company intends to make vast and costly improvements in the working of its coal lands and during the coming season probably 1,000 men will be employed by it. That means a great deal for the development and prosperity of this section. The company, judging from the New Mexican's information which is believed to be correct, has so far done the fair and just thing by the operators and miners who have for years been mining coal at a large profit upon the company's lands without paying for it, and intends so to do in the future. The company is a heavy tax payer and is entitled to the full protection of the law. This it must have and if it takes every able bodied man in the county for a posse. The courts are here for the peaceful and just solution of all questions arising in such matters. Any attempted lawlessness must be nipped in the bud and nipped in no uncertain and squeamish manner.

This territory has a bad name for lawlessness already to its very great injury. There must be none at the Cerrillos coal camp. Prevention is better than cure. We do not advise any cure, but if prevention does not work, why then a cure must be resorted to that will settle any impending trouble in no uncertain manner and for all time to come.

## EDITORIAL COMMENTS.

No Politics in Statehood.  
There is no politics in statehood, and if there were, it is the duty of every citizen in New Mexico to sink them for the common good.—Socorro Chittain.

## Will Stand No San Miguel County Business in Bernalillo.

The White Caps are said to be active in certain portions of this county. Any outbreak will be summarily suppressed by the law-abiding people.—Albuquerque Citizen.

## An Excellent Sheriff.

Sheriff Perea and his excellent deputies have collected about \$110,000 in taxes in New Mexico to date. The people are paying promptly, showing that they are in prosperous circumstances.—Albuquerque Citizen.

## Another Bit of Difference.

In the United States the worker in finished bar iron earns annually \$750.

In free trade Great Britain the bar iron worker's annual wages amount only to \$375.

—New York Press.

## More Favorable to New Mexico.

Appearances are more favorable for the admission of New Mexico as a state at this present session of congress than ever before. The growth and extension of her public school system has removed most of the well grounded opposition to New Mexico's admission.—Denver News.

## The Stand of Wells-Fargo Express Company.

Railroad wrecks may occur but Wells-Fargo Express company escapes every time.—New Mexican.

Yes, Wells-Fargo Express company is the one that tells the people to stand and deliver. In leaving tribute on the people it is a success. The truth is that Wells-Fargo and some other corporations need looking after in the next legislature. New Mexico has been pestered by foreign corporations quite long enough.—Socorro Chittain.

## WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on a lung and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that.

## "IT STARTED WITH A COLD."

Can you afford to neglect it? Can you tell with so serious a matter? Are you aware that a little cough is a dangerous thing? Are you aware that it often fastens on a lung and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that.

For sale by A. C. Ireland, Jr.

## We Can at Least Try.

If New Mexico can and will elect an honest, independent and intelligent legislature this fall, the extortionate and oppressive tariff of Wells Fargo & Co. will be regulated and largely reduced. To accomplish this and other needed reforms we would favor men of character regardless of politics, who are willing to serve one term for the good of the territory and who will steer clear of the bosom of the conscienceless leeches who have dominated former legislatures, and who will avoid the usual legislation favoring a few speculators in our territorial honor and credit. Are we capable of electing such a legislature?—Raton Range.

## A Colorado Opinion on Statehood for New Mexico.

It is probable that the house committee on territories will soon report a bill in favor of the admission of New Mexico. This bill will probably be passed in the house, but there is danger that it will be defeated in the senate. Unfortunately there exists in the far east an impression that New Mexico is plunged in the depths of ignorance, and that it would be disastrous to admit it to the Union with such population. We should regret to believe it, but it is also possible that some Republican senators would oppose the admission of New Mexico on party grounds. If there are any such, they are mistaken in their view. In the first place, no question of partisan politics should interfere with the admission of a new state, and in the second, it is an open question as to whether New Mexico is Republican or Democratic. It is possible that the Democrats have a majority now, but after the creation of a state government the bulk of the immigration would be from Republican states like Kansas, Nebraska and Iowa, and the Republicans would obtain control. The same immigration would in a short time overcome the political power of the illiterate class, and New Mexico would have as good as a liberal government as any other western state.—Denver Republican.

## Railroads in New Mexico.

The Atchison, Topeka & Santa Fe will soon begin the construction of a branch road from Cerrillos, New Mexico, to the San Pedro mining district, which lies in the southern part of Santa Fe county, nearly due east of the city of Albuquerque.

In connection with this information there are rumors to the effect that the Santa Fe Southern will also be extended to San Pedro, and that the Atchison, Topeka & Santa Fe will build a line from a little place called Cartage to White Oaks. The purpose of the Atchison, Topeka & Santa Fe in building to White Oaks would be to forestall the construction of the road from El Paso to Trinidad via White Oaks.

These rumors are interesting chiefly because they indicate that the Atchison company can be stirred up to do the construction work in New Mexico which it ought to have done long ago. The El Paso-Trail route will probably be built. In this it will be a good thing for the eastern part of New Mexico, and it will prove still further a benefit if it causes the construction of a branch of the Atchison system to White Oaks.

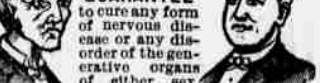

These are all matters that concern Denver. The more the railway system of New Mexico is extended, the larger will be the field of Denver's trade in that quarter. The Atchison is manifesting a disposition to give Denver better freight rates to points on its southwestern system, and there is no doubt that in the course of time all of New Mexico will, through just freight rates, be induced to look to Denver in the purchase of articles manufactured here. The construction of branch lines of the Atchison system in New Mexico would open up a great deal of new country, stimulate mining and promote agriculture.—Denver Republican.

## WHY IS THE W. L. DOUGLAS \$3 SHOE SO FAMOUS?

THE BEST SHOE IN THE WORLD FOR THE MONEY? It is a reasonable question. It will be to have the best made of the best fine calf, stylish and easy, and because you get more shoe for your money than any other manufacturer. It is a hand-sewed shoe costing from \$1.00 to \$1.50. \$5.00 leather hand-sewed, the finest calf shoe ever offered for \$5.00; equals French imported shoes which cost from \$8.00 to \$12.00. \$4.00 Hand-sewed Well Shoe, fine calf, stylish, comfortable and durable. The best shoe ever offered at this price; same grade as our famous \$5.00 shoe. \$3.50 Yellow Shoe, Farmers, Railroad Men, etc. \$2.50 fine calf, no better shoe ever offered at this price. One trial will convince those who want a shoe for comfort and service. \$2.25 and \$2.00 Workmen's shoes. \$2.00 are very strong and durable. Those who wear them a trial will wear no other make. Boys' \$2.00 and \$1.75 school shoes are made on the same plan as the \$5.00 shoe, but on their size, as the increasing shoe size. Ladies' \$2.50, \$2.00 and \$1.75 shoe for Misses, same plan as the \$5.00 shoe, but on their size, as the increasing shoe size. TAKE NO SUBSTITUTE. Insist on foot advertised dealers supplying you. W. L. DOUGLAS, Brockton, Mass. Sold by J. G. Schumann.

## The Wabash.

Why the "Wabash" is the most desirable route, for all points east.

1st. You can purchase through tickets for all eastern points, at any upon ticket office in the west, over this line, taking your choice of routes to the Missouri river.

2d. You can go either by the way of Omaha, or Kansas City, at your pleasure.

3d. From either of those points you can have your choice of five distinct routes, as follows:

Via, the Admiral air line, which is the shortest line of the east.

Via, St. Louis, where close connections are made with all eastern and southeastern routes.

Via, Chicago, the World's fair city, some times called "the windy city."

Via, Toledo, Ohio's great inland city, connecting at that place with the lake shore fast trains for the east.

Via, Detroit, Michigan's prettiest and most beautiful city, where eastern lines connect closely.

All of the above named points are reached, direct, only by the Wabash and direct by no other line running from the west.

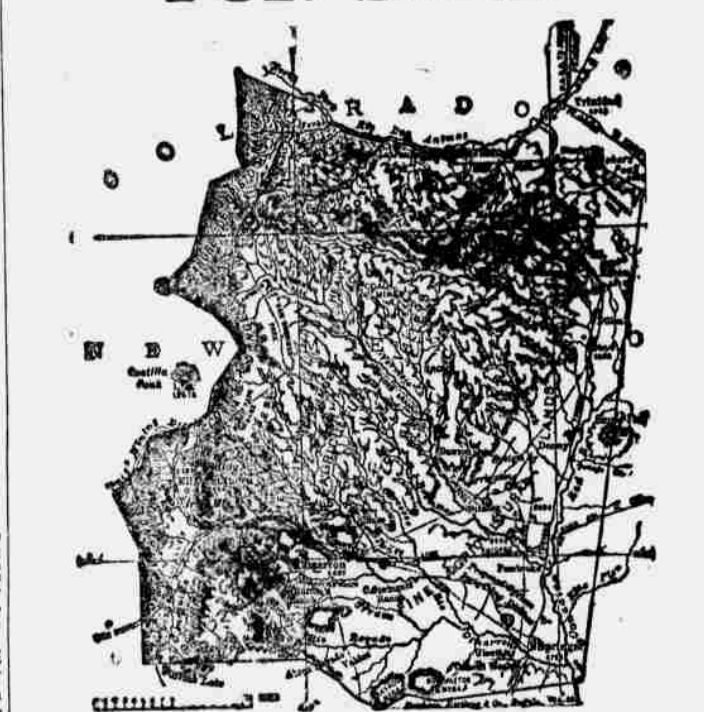

Ask, for your tickets by the way of this line, and accept of them by no other. We run the finest trains on earth. A bold assertion, but a cold fact. Write me for rates, maps, etc.

## THE MAXWELL LAND GRANT Farm Lands! UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.
