POST-OFFICE SUNS UP GROWTH

BUSINESS DOUBLED IN
THE PAST FIVE YEARS

Figures Compiled From the
Records by Postmaster Hop-
kins Form a Life-size Boost
for Albuquerque.

For use in a forthcoming publication on Albuquerque, to be issued under the auspices of the Commercial club, and a work, which it may be said in passing, is to be the most attractive advertising publication ever issued in the city, the Postmaster, Postmaster H. W. Hopkins has compiled from the records of the Albuquerque post office some figures which show the increase in business done at that office between 1901 and 1907. There is no surer indication of the growth in population of a city than in the postoffice receipts and disbursements, through money orders, and this brief statement by the postmaster, in a postoffice which shows the growth in population, general and in the money order department, have doubled within the five-year period, while there has been an enormous increase in the remittances from money order offices of from \$55,535.14 in 1901 to \$1,095,719.69 in the fiscal year ending June 30, 1907, or an increase of \$1,040,184.55. This would indicate that in the past five years Albuquerque has been doing some growing. The statement covering general receipts is as follows:

1901 \$212,443.21
1902 253,112.50
1903 272,146.24
1904 404,625.68
1905 464,625.68
All the above being for the fiscal year ending June 30.
In the fiscal year 1901 there were issued domestic money orders to the amount of \$84,149.23; while in 1907 the amount of the domestic money orders issued here had increased to \$177,118.17, an increase of more than double.
In 1901 domestic money orders were paid here to the amount of \$112,857.97, while in 1907 there were paid orders to the amount of \$175,034.15, which is again quite a notable increase. The statement, in a brief form, makes a strong case for Albuquerque, both from the standpoint of business activity and increase in population.

FRENCH BANK TRIFLE SLOW IN COMING ACROSS.

(Continued From Page 1, Col. 1.)
tributed to the demands from the interior for payroll purposes.
There has been no indication as yet of a syndicate bid for the treasury certificates forthcoming from the associated banks of this city, such as has been indicated since Monday, unless it be in the fact that several large loans were called in today. Some of the New York banks are said to be holding out in the matter of subscriptions to give the small investors with hoarded savings a chance to put in their claims and thus draw into circulation the money for which the certificates were largely designed. Nearly all of the larger banks here have received orders from customers to make purchases of certificates for their accounts. These purchases are to be made out of deposits already in hand, however, and are not bringing new money into the market.

WASHINGTON AT WORK ON PROBLEMS OF THE INSURE.

Washington, Nov. 20.—Offers for Panama bonds, the first of the new treasury certificates continued to come to the treasury today, but no official announcement was made regarding them. Reports were received today by telegraph from United States assistant treasuries at New York, Philadelphia, Boston, Chicago, Cincinnati, New Orleans, Baltimore, San Francisco and the amount of the applications for certificates received from each point. One of the questions which is causing some inquiry relates to the ability of the banks to withdraw circulation based upon the new securities when the need for it has passed.
As all the one-year certificates will be called for redemption at the expiration of the term fixed by law the notes issued against them will gradually retire outside of the circulation a limit of \$9,000,000 per month. In this respect the short term certificates will have an advantage over the Panama bonds. There is another method, however, in which the banks can gradually curtail their circulation outstanding without regard to legal limit. This method is another method, in which the banks can gradually curtail their circulation outstanding without regard to legal limit. This method is another method, in which the banks can gradually curtail their circulation outstanding without regard to legal limit.

garding the condition of national banks. The number of failures thus far has been less than a dozen, which compares very favorably with conditions in 1892, when over 160 institutions closed their doors. The fear which has prevailed in some quarters that the creation of banks with capital between \$25,000 and \$50,000 which was first authorized in 1900 would prove a source of weakness to the banking system in periods of strain, has not, up to this time, been fully justified. The small banks appear to be holding their own as well as the larger ones and the number of suspensions of either class has been a negligible quantity.

THE SAVINGS BANKS WILL OBTAIN VOTE PROTECTION

New York, Nov. 20.—A meeting of the presidents of all the largest savings banks in New York and Brooklyn was held today to take steps for a plan whereby all the savings institutions of the state may stand together in times of stress, just as the banks and trust companies do. By thus concentrating the enormous resources of the savings banks of the state, whose total deposits amount to more than \$1,000,000,000, the position of each individual institution would be greatly strengthened. To draft a plan by which this desired condition may be brought about, it was voted to appoint three committees, one for Manhattan and the Bronx, one for Brooklyn, and the third for the rest of the state. These committees will report at another meeting of the presidents in the near future.

ILLINOIS STATE BANKS ON CONSERVATIVE BASIS

Chicago, Nov. 20.—Reports made by the state bank association today in response to a call of the public auditor show that at the beginning of business yesterday \$3,000,000 of deposit liabilities had been dropped since August 26, when the last previous figures were published. It was further indicated that loans had been reduced by nearly the same amount and that the banks had added \$3,000,000 to their total cash reserves. In other words, while deposit liabilities were decreased about 8 per cent, the cash resources were augmented about 2 per cent.
The bankers of the city contend that the showing made by the state bank institutions is exceptionally strong and they assure that there will be no difficulty in resuming cash payments in Chicago if banks in other cities were in a position to do the same.

REMOVED CHARGES AGAINST DEFUNCT BROOKLYN BANK

New York, Nov. 20.—Three indictments are said to have been ordered by the King's county grand jury which has been investigating the affairs of the defunct Borough Bank of Brooklyn. The grand jury has completed its labors and there were indications tonight that there might be other indictments.

LONDON DEMANDS EXPOSITION OF POSITIVE STATEMENT

London, Nov. 21.—The London papers today take a gloomier view of the financial situation in the United States and fears are expressed that the bank of England will raise its discount rate to the 8 per cent.
The Tribune in an editorial says: President Roosevelt has come to the last and most severe test of his public career. His recent speeches show that his heart is in the right place, and that he does not lack the courage to expose the truth. What is now wanted is prompt and determined application of positive statements to the known facts of the case.

BROOKLYN BANK NOW READY TO RESUME

New York, Nov. 20.—Announcement is made that the Terminal Bank of Brooklyn, which suspended during the recent banking flurry, will reopen its doors tomorrow. The largest depositors in the bank have agreed not to withdraw any of their funds for an indefinite period.

PIONEER MANUFACTURER OF WAGONS GOES TO WALL

Grand Rapids, Mich., Nov. 20.—Involuntary bankruptcy proceedings were today instituted against William Harrison, president of the Harrison Wagon works and the Harrison Land company, all heavily interested in the Harrison Automobile company. The proceedings are directed against Mr. Harrison, president of the Harrison Wagon works and the Harrison Land company, all heavily interested in the Harrison Automobile company. The proceedings are directed against Mr. Harrison, president of the Harrison Wagon works and the Harrison Land company, all heavily interested in the Harrison Automobile company.

BONAPARTE ON PUBLIC OPINION

New York, Nov. 20.—Attorney General Bonaparte addressed a meeting of the National Municipal League tonight on "government by public opinion." He declared that a healthy public opinion is not merely the ally of all really useful and sensible reforms, but is in such a sense the indispensable instrument through and by which all really useful and sensible reforms are brought about. In certain cases, he said, there undoubtedly exists a genuine and widespread popular antipathy to black, red or yellow men, even to some white men of foreign birth, and its consequences are a source of anxiety and regret to all thoughtful and patriotic citizens, but the ebullitions of this almost instinctive feeling are usually based upon a misapprehension of the facts, and a misapprehension of the facts, and a misapprehension of the facts.

As all the one-year certificates will be called for redemption at the expiration of the term fixed by law the notes issued against them will gradually retire outside of the circulation a limit of \$9,000,000 per month. In this respect the short term certificates will have an advantage over the Panama bonds. There is another method, however, in which the banks can gradually curtail their circulation outstanding without regard to legal limit. This method is another method, in which the banks can gradually curtail their circulation outstanding without regard to legal limit.

JAPANESE DESIRES TO ENTERTAIN FLEE

Will Extend Formal Invitation
to Evans and His Ships to
Call at Japanese Ports.

(By Morning Journal Special Leased Wire.)

Washington, Nov. 20.—A revival of the rumors that the Japanese government, as an evidence of its confidence in the intentions of America, has signified its intention of extending a formal invitation to the American battleship fleet to visit Japan as an incident to the approaching cruise, developed today the fact that there have been no formal exchanges between the two governments on this subject so far as is known at the Japanese embassy or the navy department. It is intimated, however, that if the Japanese government learns that it is the intention of the navy department to have Admiral Evans' fleet return to the Atlantic from its Pacific cruise by way of Asia an invitation will be forthcoming to have the ships pass a fortnight in Japanese ports where the personnel will be hospitably received.

PROGRAM FOR PRESIDENTIAL KEY AT HAMPTON ROADS

Washington, Nov. 20.—Secretary McCall today signed an order prescribing the outlines of the program for the review of the battleship fleet by President Roosevelt at Hampton Roads December 16, when it starts on its journey to the Pacific and the arrangements of the details will be left to Admiral Evans. The Mayflower, with the president and navy board, is to arrive in Hampton Roads from Washington shortly after 8 o'clock in the morning and will anchor in the center of the fleet. Immediately upon anchoring the fleet officer, followed by the commanding officers of the fleet will repair on board the Mayflower to pay their respects to the president.

Returning, their ships the fleet will get under way and stand out to sea preceded by the Mayflower. The latter vessel will anchor, the fleet passing in review and out to sea. The customary salute will be exchanged.

PROHIBITIONISTS TO MEET IN OHIO

National Convention to Be Held
in Columbus the First Week
in June of 1908.

(By Morning Journal Special Leased Wire.)

Chicago, Nov. 20.—The national convention for the prohibition party will be held in Columbus, Ohio, during the first week of June, 1908. That fact was announced at the meeting of the party in this city today. Fifteen hundred and eighty delegates and alternates will attend, the ratio being one delegate for every hundred for each hundred votes cast for Jacob S. Swallow for president in 1904.

Charles R. Jones, of Chicago, was elected chairman of the national committee; W. G. Calderwood, of Minneapolis, secretary, and P. M. Wharton, of Indianapolis, treasurer. The National Prohibitionists was endorsed as the official organ of the party. Columbus won by a margin of only four votes over Kansas over the other states.

The proceedings during the twelve hours' session were enlivened by intense rivalry between the Stewart and the Harrison wings. The Stewart wing was routed at every point.

Arrangements for the convention were left entirely in the hands of the local committee. The annual report of the chairman showed \$5,000 contributed to the party fund during the past three years and \$24,000 expended in campaigning in the four states.

ADAMS FORGETS ON CLOSE EXAMINATION

Says His Memory is Very Bad as to
Dates and Incidents.

Bathurst, Idaho, Nov. 20.—After being on the witness stand almost continuously since 10 o'clock Tuesday morning, undergoing direct and cross-examination, Steve Adams, who is on trial here for the alleged murder of Fred Tyler, was let down today and Clarence Darrow, for the defense, said his side would finish within half an hour tomorrow morning. The state's rebuttal will not take long and it is possible that the arguments may be begun some time tomorrow. In this event the jury will have to cross-examine the defense, and then Adams again went on the stand. He said his memory was bad when plied with questions as to dates and incidents. The cross-examination was far more severe and much longer than at the former trial.

TO BETTER PROTECT CALIFORNIA DEPOSITORS

Governor to Appoint Special Committee
to Investigate and Repair
Banking Laws of the State.

Sacramento, Cal., Nov. 20.—Resolutions were introduced today in both houses of the legislature for the appointment by the governor of a special committee to investigate the banking laws of California and the banks and to report thereon to the legislature. The resolutions are to be introduced at the next regular session of the legislature.

SANTA CLAUS LEAVES FOR THE PHILIPPINES

Big Cargo of Christmas Gifts of Soldiers and Sailors to San Francisco

San Francisco, Nov. 20.—The army transport Crook sailed today for Manila via Honolulu and Guam with over 200 sacks of Christmas mail and 200 packages of gifts for the men of the army and their wives stationed in and about Manila. In addition to a cargo of supplies the vessel carried sixteen coils of cables, which is to be used in anchoring mines for the defense of Subig bay.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle wrapper, what his medicines are made of and verifies in plain English. This he feels he can afford to do because his medicines are made of such pure and wholesome ingredients that they are understood and appreciated by the most intelligent and sensible people.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommending each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be so effective, may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

HOW COAL PRICES ARE MADE IN COLORADO

Indictments Found by Federal
Grand Jury for Violation of
the Sherman Anti-Trust Law.

(By Morning Journal Special Leased Wire.)

Washington, Nov. 20.—For several months officials and agents of the department of justice have conducted investigations of alleged violations of the Sherman anti-trust law in Colorado and Utah. One of the cases was that of David J. Sharp, a Utah coal dealer, who complained that he was being made the subject of a conspiracy on the part of the railroads and thereby his business was being destroyed. It appeared from Sharp's allegation that he had cut the price of coal. Thereupon the Union Pacific Coal company refused to carry for him. Sharp maintained that the action of the two corporations and their allied companies was a conspiracy to monopolize the coal trade for the action constituted a violation of the anti-trust act as being in restraint of trade.

It is known here that the results of the inquiry made by the government officials were to be presented to the federal grand jury. The information of the indictments does not create surprise.

Shippers Object to Pooling.

Kansas City, Nov. 20.—The National Industrial Traffic league composed of the principal traffic managers of the several railroads in session here tonight, sent a message to President Roosevelt protesting against any amendment to section 5 of the interstate commerce act which will legalize pooling by carriers of the tonnage or earnings on freight or passenger business.

The action was taken by the league which represents 20,000 shippers, because of the individual responsibilities of the interstate commerce commission favor legislation which will allow pooling by the railroads.

SHORTS' MILLIONS TO HELP FRENCH TITLE

Washington, Nov. 20.—Mr. and Mrs. Theodore P. Shorts announce the engagement of their daughter, Theodora, to the Duc de Chaulneset de Plouisy, of France. The wedding will take place in January. The duke comes from the oldest French nobility and is possessed of vast estates though they are said to be embarrassed with debts.

Naval Squadron Returns.

Vladivostok, Nov. 20.—The American naval squadron, consisting of the battleship "Albatross" and the gunboat "Rainbow," returned to Manila this morning after a cruise in the Philippine archipelago.

SENATOR GORE STARTS THE CONGRESS

Oklahoma Senator-Elect Approves of Roosevelt Policy in Conserving the Coal Lands of the West.

PRINCE INTRODUCES NEW MEXICO RESOLUTION

Many Leaders of American Affairs Address Delegates to Muskogee Convention; Coast States Want 1908 Congress.

(By Morning Journal Special Licensed Wire.)

Muskogee, Okla., Nov. 20.—Thomas P. Gore, the blind United States senator elect of Oklahoma, addressed the Trans-Mississippi congress this afternoon before one of the largest crowds that ever attended a meeting of that body. Mr. Gore on questions of public import, declared himself in favor of the speedy construction of the Panama canal, advocating navigable inland waterways, abating Wall street for its alleged abuse of money from the west given to it in trust and in endorsing and approving of the administration of President Roosevelt. Referring to the president's policy he said:

"I endorse the policy of the national administration with reference to preserving the coal of the west from private interests. In saying that I endorse the national administration I do so to say that what is good in any administration will receive my support. I am a friend of the west. All friends of the west whether democrats or republicans look alike to me."

Thomas F. Walsh of Colorado spoke on the subject of good roads. The beef monopoly was defended by S. F. Cowen, attorney of the American Livestock association. The beef monopoly was necessary he said for the handling of the immense amount of meat which comes from the west. Darwin P. Kingsley of the New York Life Insurance company, praised Oklahoma's insurance laws as the best of any state.

Former Governor David R. Francis of Missouri presented a resolution commending President Roosevelt for his authorization of the Panama bond issue.

F. H. Newell, director of the reclamation service, told of what had been done in the way of irrigation. He said, in part:

"A decided impetus has been given to the rapid development of the west by the operation of the reclamation service, which began in 1902 to subjugate vast areas of the great American desert."

In this brief space of time nearly \$40,000,000 have been expended on sixteen states and territories in the construction of huge masonry dams, in broad canals and reservoirs of enormous capacities. Several of those works are employed and are supplying today water to thousands of acres of land. In the spring of 1908, more than a million acres of land will be watered by the government works, and 15,000 families will be living on farms in regions which only a short time ago were covered with sage brush.

"The present plans of the bureau provided for the expenditure of nearly \$100,000,000 and the reclamation of more than \$2,000,000 acres of land, an area larger than the combined cultivated acreage of Massachusetts, Connecticut, New Hampshire and Florida. Land values all over the west have greatly increased since the beginning of the federal work of reclamation."

"The expenditures of millions of dollars for irrigation by the government is proceeding under a law wholly unlike any other law governing national work. Under the reclamation law every dollar invested is to be returned to the treasury by the settlers who take up the lands reclaimed. While the terms are easy, the burden of cost falls upon the people directly benefited."

"Under the wise provisions of the law, the reclaimed regions are quickly turned over to bona fide settlers, whose farms are restricted in area from 40 to 160 acres, insuring farming communities and extensive cultivation. The land speculator has small chance under this law which compels actual and continuous settlement and cultivation. There is no class of farmers who, as a rule, are more prosperous or receive a larger share of profits from the soil than the successful irrigator."

"The creation of thousands of homes out of what was otherwise a desert, in the midst of broad grazing areas, or near the great mining regions of the west, insures a stability to the commonwealth which cannot be obtained in any other way. These homes serve as an offset to the rural population on the grazing lands and to the restless miners who make no permanent habitation."

San Jose, Cal., and Spokane, Wash., are striving for the next year's meeting.

Among the resolutions introduced today were a resolution for statehood for New Mexico, introduced by Governor Prince of that territory, advising the national congress to issue \$20,000,000 in treasury notes, same to be expended by the government in building host roads.

The T. Pryor of San Antonio, Texas, introduced a resolution compelling the railroads to do away with the car shortage.

The resolution explained the car shortage and suggested inter-railroad ownership of cars.

A sweeping resolution favoring the improvement of the deep waterways of the country and the tributaries was passed at tonight's session of the congress after a heated debate.

A resolution recommending the establishment of a department of mining by the government was also passed. James A. Brisson of Colorado spoke on the need of a department of mining.

He said that five departments had been added to the executive branch of the government since the administration of Washington and the operation of these departments and the benefits produced by them confirm the wisdom of their creation.

The jurisdiction of the interior department embraces so many important and diverse interests, he said, and its duties are so multifarious, that adequate supervision of the mining industry by the government or efficient

YOUTH AND OLD AGE WEDDED IN LAS VEGAS

(Special Dispatch to the Morning Journal.) Las Vegas, N. M., Nov. 20.—At the age of 74, Luther Wentworth, of El-Hera, three months after the death of his former wife, was married last night after a courtship of a few days to pretty Venice Mallory, aged 22 years, a trained nurse here who recently arrived from Boston. Wentworth is reputed to be very wealthy. He met Miss Mallory on Sunday and being at once infatuated, pressed his suit all day Monday, with the result that the wedding occurred last night.

Socialists Repudiate Brigands. Warsaw, Nov. 20.—The Polish socialist organization has issued a decree providing for the dissolution of its fighting organization and declaring that the organization has been wholly used to further the aims of brigands.

ANOTHER ATTEMPT AT POISONING BY WOMAN OF HILLSBORO.

Woman Under Arrest for Putting Morphine in Beer With Intent to Cause Death of Mrs. Orchard.

LANDLADY SAVED FROM FATE BY SUSPICION

Hearing of Kubale Woman on Charge of Attempted Murder Held Yesterday Morning at 10 o'clock.

(Special Correspondence Morning Journal.) Hillsboro, N. M., Nov. 18.—Hillsboro this morning was startled by the report of another case of poisoning. This time the victim did not die. The facts so far learned are as follows: Saturday evening, at the home of Mrs. Sadie Orchard, Mrs. Orchard, Mr. Kubale and Mrs. Kubale were about to enjoy a bottle of beer together before retiring. When the glasses had been filled, and before any of the beer had been drunk, a disturbance in the yard, caused by cattle, induced Mrs. Orchard to leave the room. When she returned, Mr. and Mrs. Kubale each drank their portion and Mrs. Orchard began to partake of her drink when she discovered a very bitter taste. She at once became suspicious and set her glass down, after she had taken one or two sips. She got enough of the poison, which was morphine, to cause her to become quite ill, but she summoned a physician, who applied the proper remedies and was soon out of danger. Mrs. Kubale is under arrest and in the county jail, charged with attempting to kill Mrs. Orchard by putting morphine in her beer. The hearing is set for Wednesday at 10 o'clock a. m.

Mrs. Orchard is an old timer, who has a small hotel in this place. The Kubales came here about one year ago to engage in mining. Mr. Kubale claims to be a mine engineer of large experience. He claims to have followed that profession for several years in South Africa, Japan, China, India, Germany, England and America. He was for a time superintendent of the Ready Pay mines in this district.

A Hair's Breadth Escape.
Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? It is hardly conceivable that you could get back in perfect health and stop that cough with Ballard's Horehound Syrup. Price, 25c. Sold by all druggists. Sold by the J. H. O'Reilly Co.

AN APPRECIATION BY POSTOFFICE DEPARTMENT

Albuquerque Postmaster Receives Letter of Thanks for Satisfactory Work in Weighing the Mails for October.

The month of October was a strenuous one in the local postoffice on account of a special thirty days weighing of the mails done by order of the postoffice department. The work required that all mail be separated by states and classes, counted and weighed by dates before being handled in the usual manner in the postoffice and the amount of extra work was almost overwhelming. Postmaster R. W. Hopkins, however, by his capable force of assistants, went to the proposition determined to do the thing up right and the mail was weighed with quickness and accuracy without detracting from the general postoffice service here. Seven new men were taken on the force, about four of these being extra men, and the way in which the work was done reflects credit on the office. That the department recognizes this fact is evidenced by the following letter received by Postmaster Hopkins from headquarters:

Postmaster, Albuquerque, N. M.
Sir:—Your report on Form No. 15, Special Weighing of the Mails of 1907, for the October weighing has been received. It is realized that the work of the postmasters designated to keep this

WHAT IS WRONG?

Many People in Albuquerque Are Asking That Question of Late.

Within the last few weeks, more people than usual have complained of frequent sneezing fits, tickling in the throat, stoppage in the nose, spasms of coughing, raising of mucous droppings in the throat, and offensive breath, and have asked themselves what is the matter.

The trouble is that they are affected with catarrh and unless immediate steps are taken to remedy their condition, the disease will increase and spread through the delicate mucous membrane that lines the air passages, and a chronic and serious stage of the disease will result.

At the first symptoms of catarrh, Hyomel should be used. There is no other treatment like it or just as good, none that can take its place and cure so surely, so quickly and at so little cost. It is a scientific medicated air treatment that does not drug and deplete the stomach, but is breathed in, directly destroying all disease germs that may lurk in the nose, throat and lungs and soothing and healing the irritated mucous membrane.

J. H. O'Reilly company, the local agents for Hyomel, have so much confidence in the merits of the remedy that they offer it on trial to any catarrhal sufferer with the agreement to refund the purchase price of \$1.00 for the complete course to anyone who is not satisfied with the results. You certainly can afford to test Hyomel with an offer like this, for it now and then is cured of catarrh.

A LAS VEGAS MAN HITS SEVEN FOOT COOPER VEIN

Considerable Excitement in the Meadow City as Result of the Discovery by Well Driller.

(Special Correspondence Morning Journal.) Las Vegas, N. M., Nov. 18.—That a vein of copper underlies this section is indicated by the discovery of R. K. O'Dell, who, while drilling a well on the Lockhart ranch east of here, struck a vein of rich copper ore seven feet in thickness at a depth of 139 feet. The drill pierced seven feet of the stuff, reaching water below and it is believed that there is more copper further below. There is considerable excitement over the find, which is an undeniably rich one, the more so because twelve miles distant similar ore was struck some years ago in putting down a well for the insane asylum. The fact that the identical ore is found at so widely distant points in the whole locality. The samples of ore brought up by the drill are being saved and the result will be awaited with eager interest by the public.

FAT BEEF CATTLE MYSTERIOUSLY DISAPPEAR

William Farr Searching in Vain for Thirty-two Animals That Vanished From the Pasture South of City Yesterday.

William Farr, the well known cattleman and meat merchant, is considerably mystified over the rather remarkable disappearance of thirty-two fat beef cattle which he drove into his pasture south of the stock yards Tuesday night. The pasture is enclosed in a good fence in which no breaks are visible but when the owner came to look at the cattle yesterday morning, they had entirely disappeared. At last accounts last night Mr. Farr and a number of men had searched all over the locality in vain for the cattle. It is hardly conceivable that any stock thief would be so enterprising as to attempt to trek for the tall timber with thirty-two fat cattle. Meanwhile Mr. Farr is considerably puzzled. The cattle had just arrived to Mr. Farr's order on a train from the south.

Colds and Croup in Children.
My little girl is subject to colds," says Mrs. William R. Berg, No. 41 Fifth street, Wheeling, W. Va. "Last winter she had a severe cold and a terrible cough but I cured her with Chamberlain's Cough Remedy without the aid of a doctor, and my little boy has been prevented many times from having the croup by the timely use of this syrup." This remedy is for sale by all druggists.

ARMORY MATTER IS TIED UP FOR THE PRESENT

Adjutant General Says Albuquerque Must Wait Until Las Vegas Decides Upon Site for One in That City.

The question of an armory for Albuquerque is tied up at present, and will probably remain so for at least a month, until Las Vegas can secure a suitable site on which to erect the armory for that city.

A. P. Tarkington, adjutant general of the New Mexico national guard, arrived in Albuquerque yesterday afternoon and during the day he visited the proposed site for the armory, the site for a new rifle range on the mesa and the new quarters of company E in old town.

According to General Tarkington the bonds for the Albuquerque armory cannot be sold until the Las Vegas armory site is chosen and its bonds are ready for sale. The last congress authorized the erection of an armory in both Albuquerque and Las Vegas, and while bids have been offered for the local bonds, Territorial Treasurer Vaughn says that he cannot sell them except in a lump.

General Tarkington during the day was the guest of Major R. Ruppe. He returns in San Francisco this morning. He stated that the rifle practice work of the territorial national guard was never before so good as today and that he is getting up a report on rifle practice and sharpshooting, that will be published soon.

He said that plans for the new armory would be gladly received by Major Ruppe until orders were received stating that the contract for the construction of the armory had been let.

A BROKEN BACK.
That pain in your back caused by lumbago, stiff muscles or a strain is an easy thing to get rid of. Backache shows itself in various forms: lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, swellings, and all aches and pains. You need a bottle in your house. Sold by the J. H. O'Reilly Co.

A GENERAL INVITATION IS EXTENDED TO THE PUBLIC TO ATTEND A SOCIAL IN LUTHERAN CHURCH, THURSDAY EVENING, NOV. 21st. REFRESHMENTS AND PROGRAM. ADMISSION, 10c.

A HOME RECIPE EVERYBODY IS TRYING HERE

Said to Overcome Rheumatism of Years Standing and is Easily Prepared and Harmless to Use.

To make up enough of the "Dandelion treatment," which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore, weak bladder and rheumatism, get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bed time. Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties almost instantly. Most cases of rheumatism are known to have been relieved within a few days, the pain and swelling diminishing with each dose. But unless you go to the trouble to ask the druggist for the Dandelion and Sarsaparilla separately, and then buy one ounce Kargon Compound, in an original (unopened) package, plainly printed, Guaranteed No. 188 under National Drug Laws, and mix the Kargon with the other ingredients at your home, you had better not use this effective prescription at all. It may be worse than useless, perhaps even harmful, and your money wasted. Under no circumstances accept the prescription as already prepared, nor accept any excuse for offering it to you that way. Purchase separately the Kargon Compound, No. 188 Guaranteed, as explained above, and mix these ingredients at home yourself, or don't use at all.

A well known local druggist who is in a position to know, asserts that this prescription, wherever it becomes known, always ruins the sale of the numerous patent medicine rheumatism cures, kidney cures, etc. It is a recipe which the majority of patent medicine manufacturers, and even certain physicians dislike to see published. Few cases, indeed, which will fail to fully yield to its peculiarly soothing and healing influence.

PROGRAM AND REFRESHMENTS AT THE LUTHERAN LEAGUE, 1216 WEST CENTRAL AVENUE, THURSDAY EVENING, NOV. 21st. DO NOT FAIL TO ATTEND AND INVITE YOUR FRIENDS. A GOOD TIME IS PROMISED.

WILLIARD RETURNS TO POST WITH PRISONERS

Captain of the Fifth and His Men Bring Ten Navajos to Fort Wingate, Where They Will Have Hearing.

STRENUOUS STUNT DONE IN ONLY SEVEN DAYS

Practice March to Albuquerque and Fair Performances Put Men in Good Shape for the Campaign.

Captain Harry O. Williard, commanding troop K, Fifth United States Cavalry, arrived at Fort Wingate, N. M., yesterday in charge of ten Navajo Indians, who were mixed up in the recent Indian outbreak on the Navajo reservation which resulted in a battle between the troopers of the Fifth and the Indians, the defeat of the aborigines and capture of By-lille, their ring-leader.

The Indians will be tried by court martial and probably sent to the Alcatraz Island military penitentiary, in San Francisco bay, to serve terms for inciting an outbreak. The hearing of the Indians will be held shortly.

Both Captain Williard and the troopers of the Fifth enjoyed their expedition into the Navajo country greatly. When asked by an Albuquerque man, how he liked being sent on the warpath, he shortly after attending the Albuquerque fair. Captain Williard is said to have remarked:

"First rate. Our trip to Albuquerque gave us exercise, excitement and a good old time. We were just settling down to post routine when ordered against the Navajos, and to say we were delighted is putting it rather mildly, for we were tickled to death."

"We marched overland nearly 200 miles, fought and subdued the troublesome redskins, and now are back in Fort Wingate after an absence of only seven days. Pretty fast traveling, but

our march to Albuquerque put us in trim condition for our hunt."

Captain Williard left yesterday afternoon for California.

IMPROVEMENTS AT LOCAL SHOPS SUSPENDED

Work on Machine Shop Addition, Storehouse and Station Betterments Called Off; Retrenchment Policy Denied.

Write the local Santa Fe officials deny that the railroad has adopted a retrenchment policy in Albuquerque, the fact that the big addition to the machine shops, the new storehouse and the improvements in the yards were last week ordered stopped, makes it look as though the Santa Fe had decided to stop all construction work for the time being.

I. J. Custer, storekeeper for the coast lines, arrived here last night from San Bernardino, Cal. When asked about the report that the Santa Fe had decided to annul all construction work until after the first of the year, he professed ignorance.

Mr. Custer is here on an inspection trip.

E. H. Harlow, master mechanic, leaves this morning for Chicago, for a two weeks' visit with relatives. He said last night that he believed that the addition to the shops would not be started until about next spring, although more facilities are needed every day.

The only work being done by the Santa Fe at present that will not be affected, it is said, is the new tie treating plant, south of town, which is being rushed as fast as possible. It is about a third completed.

The much needed improvements to be made at the depot, in the form of platforms, enclosure, train sheds and other things, have also been suspended, the carpenters and section men employed on that work having been called off last week.

SOME BEAUTIFUL FABRICS AT THE WOOLEN MILL

SPLENDID SHOWING BY ALBUQUERQUE INDUSTRY

Fleecy Blankets and Suit Materials Exhibited Among the Elegant Samples Shown by Mr. Bearup.

Albuquerque people do not really quite realize, perhaps, what a splendid industrial asset the city has in the form of the Rio Grande woolen mills. Many perhaps are not aware that the local manufacturer takes in the raw wool at its doors and turns out as beautiful finished fabrics as can be found at the biggest and best textile mill in New England.

Mr. Johnny H. Bearup, manager of the establishment, has been a persistent and consistent advertiser. He has addressed great national gatherings of farmers and manufacturers all over the United States and has incidentally given Albuquerque more effective advertising than any other man in the city. Mr. Bearup is a booster, one of the men who do their best to "sell" the goods, but that Albuquerque is a good live city with industrial and manufacturing opportunities second to none in the entire southwest.

Mr. Bearup's co-operative scheme whereby hundreds of farmers and others all over the country become stockholders in the concern has been demonstrated to be an unqualified success. The mills have work ahead to keep them running indefinitely and every blanket or piece of goods turned out is a good, loud, insistent advertisement for Albuquerque, wherever it goes.

Mr. Bearup has gotten out a new line of samples that are beautiful and exhibiting some specimen blankets that are a delight to look upon—soft, and fleecy, with nothing in them but good, unadulterated New Mexico sheep's wool, washed to snowy whiteness in an Albuquerque mill, and here

put through all the processes which makes it the greatest textile material in the world. The blankets are of fine texture, beautifully woven and as good as can be found anywhere in the country.

The line of clothing materials shown by the local mill is well worth seeing and it will open the eyes of a good many people to take a look at them. Every pattern and color and design the most fastidious could wish can be seen among them and it is really hard to believe that the cloth is the product of a mill whose wheels have been whirling along steadily for months within sound of the business center of Albuquerque.

The dyeing done at the local mills is remarkably fine and in short every detail of the process which changes raw wool into fine cloth is perfectly executed. The samples which Mr. Bearup has been showing have caused a great deal of admiring attention during the past week.

SILVER ABOUNDS IN SOUTHERN FIELD

Cleveland Mining Engineer is Optimistic About Conditions Around Mogollon and Kingston.

W. F. Traves, a well known mining engineer of Cleveland, O., who has been in the Mogollon and Kingston mining districts for several months, for the Standard Oil company, spent yesterday in the city, en route to his home to spend the holidays.

In talking about mining conditions in the Mogollon and Kingston districts, Mr. Traves said that a number of promising silver veins had been struck lately and that work of developing them would commence soon. He said that considerable mining was going on in that vicinity on gold, silver, copper and lead properties.

What Would You Do?—In a case of burn or scald what would you do to relieve the pain? Such injuries are liable to occur at any time in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and use the salve in a very severe case, will cause the parts to heal without leaving a scar. For sale by all druggists.

CLOVIS, NEW MEXICO

SANTA FE TOWNSITE FOUR POINT DIVISION

1,100 Population—TOWN FOUR MONTHS OLD.
21 Stall Concrete Roundhouse
\$62,000 Harvey House
\$30,000 Concrete Depot
\$40,000 Recreation Bldg

Large Concrete Machine and Car Shops
100 Ton Ice Plant for R.R. Co.
\$42,000 Concrete Coal Shutes
Numerous Other R. R. Bldgs.

Clovis, New Mexico, is the New Santa Fe Division Townsite, Situated Nine Miles West of Texico, New Mexico, on the Belen Cut-Off

The surface of the land on which the townsite is located is level. Clovis is situated in the best portion of the level plains country and is in the center of the best dry farming and stock raising section of Eastern New Mexico. All this land is settled upon by homesteaders who are improving their land. The Santa Fe Land Improvement Company have 213,000 acres of railroad scrip land, commencing five miles north of Clovis, New Mexico, which is considered the finest farming land in Eastern New Mexico. This land will shortly be open to homeseekers and sold in small tracts on terms to suit purchaser. The country around Clovis, New Mexico, will command trade for fifty miles to the north, thirty miles to the east, twenty miles to the south and twenty-eight miles to the west. There is a settler on every 160 acres, which assures its future rapid growth and permanency. Clovis is on the main transcontinental line of the Santa Fe which is called in this territory, the Eastern Railway of New Mexico, or the Belen Cut-off. Clovis will be the division for the main line of the Santa Fe, the Pecos Valley line and the Brownwood Extension, thus making it a Division Point for three distinct lines of the Santa Fe System.

The Pecos Valley tracks will be taken up between Texico, New Mexico, and Cameo, New Mexico, and be moved west eight miles to make Clovis the northern division point of the Pecos Valley line. The Brownwood Extension will be run out of Clovis which will give a through line from California to Galveston, Texas. The Railroad Company has retained 320 acres for railroad purposes and there are extensive machine and car shops being erected at Clovis. Clovis will be the first division point west of Amarillo, Texas, and the Santa Fe have just completed a twenty-one stall concrete roundhouse, graded miles of siding and yards, are erecting a \$30,000 concrete two-story depot and a \$62,000 two-story Harvey hotel and \$40,000 three-story recreation building for railroad employees. The recreation building will have a standard library, pool and billiard halls, swimming pool, auditorium and living rooms for railroad employees. All these buildings are of solid concrete and the latest style of mission architecture. The Company is drilling ten large wells to secure all the water that will be required for railroad purposes, the supply being inexhaustible. The Railroad Company will erect a one-hundred ton ice plant for icing refrigerator and passenger cars.

The concrete coal chutes, costing \$42,000, are half completed and are the largest west of the Mississippi river. There are numerous other railroad improvements to be started, but the engineers' reports have not been completed and we cannot give data on the same. As soon as the Belen Cut-off and connecting lines of Clovis are completed, the Company will put all of its extra California fast passenger, freight and perishable fruit traffic on this line, which will be the shortest between Chicago and Southern California and Galveston, Texas, and New Orleans, Louisiana, and Southern California. It will also carry all the Pacific and Oriental mail which is now being largely handled by the Rock Island and Southern Pacific.

Clovis has two national banks with \$25,000 and \$35,000 capital, respectively. There is a water, electric light and ice company located in Clovis, owned and controlled by railroad officials, with equipment now in operation. A complete telephone system is in operation connecting with all adjacent towns and the long distance lines. There are thirty-five business houses, six hotels and rooming houses, four lumber yards, three livery stables, cold storage and other buildings already erected. Clovis has nearly eleven hundred population, is four months old and growing very fast. If you are looking for a business location or a new town for investments, look the situation over at Clovis. The lots being offered for sale are all residence lots and can be purchased at from \$70 to \$90 per lot, one-half down, the balance in six months at 8 per cent interest. On all sales over \$500 10 per cent discount is allowed. On all cash sales, 10 per cent discount allowed. Clovis will make a city of ten thousand in a few years. This is the best proposition ever offered in New Mexico for small investors and now is the time to purchase these lots, as the prices will double within six months' time.

E. J. CARLIN

The ladies of the Presbyterian church will give a dinner at the noon hour and a Dutch lunch from 5 to 6 p. m., at the club house on Friday evening, November 22. Price, 25 cents.

A. Moniano, of Las Vegas, and Miss M. Saracino, of the First M. E. church, will married Monday morning at the Sacred Heart church. After a brief wedding trip to Culver, Jones and Las Vegas, they will return here, where they expect to make their home.

A regular "home coming" and meeting will be held this afternoon at the home of Mrs. H. H. Haggard, 122 West Hunting avenue, by the Indiana women living in Albuquerque in honor of Mrs. Charles B. Perkins, vice president of the Indiana club, who has just returned from a trip to the Hoosier state.

J. E. Hannan, traveling representative for the Continental Oil company, who resides here, was called to Denver, Colo., yesterday by the death of his mother. Mrs. Hannan and children expect to leave soon for Denver to spend the holidays with her, which they will go to Salt Lake City, Utah, where they will reside.

C. M. Purkiss, United States marshal, returned to the city early yesterday morning from Las Vegas, where he attended the closing session of the federal court. The only convictions found were in the case of W. H. Garner and Emma Nelson, charged with adultery. Judge Mills suspended judgment. E. L. Medler, assistant federal district attorney, accompanied Marshal Purkiss home.

Hastings, Stephenson and the other prisoners sentenced to terms in the penitentiary will be taken to Santa Fe this morning or tomorrow morning. Sheriff Perfecto Arriola had not decided last night just when he would transfer the prisoners.

ALBUQUERQUE ELKS ENTERTAIN BIG CROWD

First Social Event in the New Ball Room Proves Success From Every Standpoint.

The first of the series of dances to their lady friends by the Albuquerque Elks, given last night in the Morning reformed ball room in Elks building, was a complete success from every standpoint, and the entertainment committee of the lodge was heartily congratulated on its efforts. The floor, which has just been relaid, was as nearly perfect as could be, and the music was good. An appetizing luncheon was served in the ball hall. Some seventy couples were present and the evening was thoroughly enjoyable.

SAILORS UNITE IN HONORING MISS GOULD

New York, Nov. 21.—First because she is a friend of the sailor, but also because she gave nearly half a million more dollars toward the Y. M. C. A. home in Brooklyn, 5,900 enlisted men of the navy presented to Miss Helen Gould, a silver loving cup today. The new Y. M. C. A. building and furnishings cost \$200,000 and the funds were furnished equally by Miss Gould and Mrs. Russell Sage.

Those present included representatives of all the war vessels in the harbor. The blue jackets cheered Miss Gould with a roar that could be heard blocks away when two apprentice seamen pulled aside the draperies from the cup which James McNeal, third class seaman, afterwards tendered to the woman philanthropist.

Rear Admiral Jos. B. Coghlan, retired, spoke in behalf of the navy and Rear Admiral C. S. Sperry made an address for the fleet.

Miss Gould gave expression of her appreciation in a characteristic little speech.

PNEUMONIA FOLLOWS A COLD
but never follows the use of Foley's Honey and Tar. It stops the cough, heats and strengthens the lungs and prevents pneumonia. J. H. O'Reilly Co.
