-BRIEF WIRINGS-

A Snow Slide.
DENVER, Feb. 4.—Reports from Leadville tell of a snow slide which covered the Deer Lodge tunnel and destroyed the cabin over it. This tunnel is about fifteen miles from Leadville. Jim Cronan and Pat McGuire, two miners, are supposed to have been in the mine at the time and as they are undoubtedly dead. A party of men are digging for them now.

Yelling for Votes.
DES MOINES, Ia., Feb. 4.—The Democratic State Central committee assembled here at noon today for the purpose of selecting time and place for the state convention for choosing delegates to the national convention to be held in Chicago in June. Davenport, Des Moines and Dubuque are in the race for the honor. The date will probably be between April 1 and 15.

A Well on the Pacific.
SAN FRANCISCO, Feb. 4.—The marriage of Miss Louise Catherwood, the society belle and heiress of this city and Ernest La Montagne, of New York, one of the "400" of that city, was solemnized at the cathedral today with considerable ceremony. Among the guests were a large number of relatives and friends of the groom, who had accompanied him from New York and Boston.

An Old Landmark Gone.
RICHMOND, Va., Feb. 3.—The historic old Appomattox court house building was destroyed by fire yesterday. All of the county records and court house furnishings were entirely burned. Surrounding houses also caught fire, but were saved. The library of the clerk's office is said to have been one of the finest arranged in Virginia. The loss of the records leave the county in fearful straits. The McLane house, in which General Lee signed the terms of surrender to General Grant was at one time threatened with destruction.

Florence's Alleged Daughter.
SAN FRANCISCO, Feb. 4.—Miss Florence Hall, who claims to be a natural daughter of the late eminent actor, W. J. Florence, will return to the east in a few days. She has had several consultations with Gen. Barnes, her counsel, and it is understood that the plans have all been laid for contesting in the New York courts the will of the late comedian. A firm of New York lawyers has been retained by telegraph, and the contest will first be inaugurated before the surrogate when the will is offered for probate. Gen. Barnes insists that her case is a strong one.

Chicago and the Crowd.
CHICAGO, Feb. 4.—Speculators are trying to get in their work on the hotels in anticipation of the Democratic national convention. Many of the principal hosteleries have received letters from unknown parties asking that suites of rooms ranging all the way from ten rooms to thirty be reserved for their use. All such requests, however, have been denied, and only those emanating from delegations, newspaper correspondents or well known politicians have so far been entertained. A canvass of the hotels situated within the business center and for ranges of one mile around it indicates that 50,000 strangers can be housed and fed without crowding or inconvenience.

Excitement at Creede.
CREEDE, Colo., Feb. 4.—S. D. Coffin and others, owners of the New York mine, today secured an injunction to prevent the owners of the Last Chance mine from disposing of any ore from the latter mine. The location of the two mines is in dispute, each claiming that the other has encroached upon their territory. A third interest in the Last Chance mine has just been purchased by Henry K. Wolcott, Senator E. O. Wolcott and J. Z. Dickson, of Denver, and Jake Saunders, of Leadville. The Last Chance was about to pay a January dividend of \$100,000.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been afflicted with Neuritis of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I tached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure."

G. G. GREEN, Sole Man for Woodbury, N.J.

CONGRESSIONAL.

WASHINGTON, Feb. 4.—In the senate, Senator Duffie reported in favor of continuing in force for ten years all laws now in force prohibiting and regulating the coming into this country of Chinese persons and persons of Chinese descent.

The joint resolution proposing an amendment to the constitution of the United States relating to marriage and divorce, heretofore introduced by Mr. Kyle, was taken up and referred to the judiciary committee.

On motion of Senator Wilson senate bill for the creation of the 4th judicial district in the territory of Utah was passed. The bill for postoffice buildings in towns where the postoffice receipts are \$3,000 a year was discussed and went over without action.

HOUSE.
The house resumed the consideration of the rules. The pending motion was that made by Mr. Bonner, of Louisiana, striking out the clause permitting general legislation on appropriation bills, provided that, being germane, it retrenched expenditures. The motion was defeated. Yeas, 59; nays, 119.

Mr. Dingley, Maine, offered an amendment providing that no bill or resolution shall at any time be amended by inserting therein the substance of any other bill or resolution pending before the house; lost.

On motion of Mr. Enloe, Tennessee, an amendment was adopted providing that all bills shall be introduced by presenting them to the clerk properly endorsed and shall be appropriately referred by the speaker.

Mr. Dingley, Maine, offered an amendment providing for the consideration of senate amendments to house bills (not appropriating money) as soon as they are laid before the house by the speaker; agreed to.

Mr. O'Neill, Missouri, offered an amendment providing that on Tuesdays, Thursdays and Saturdays the house shall meet at 10 o'clock, the two additional hours to be devoted to private bills; lost. Yeas, 58; nays, 133.

Otto Means.
DENVER, Feb. 4.—Otto Means has returned from the east. He is quite reticent about the business matters he attended to in the east, but from information obtained it is believed that he is working like a beaver for the Rio Grande Southern road south of Colorado.

A representative of the Gurley Investment company was in the city yesterday from the Shenandoah valley, and he reports that he has positive information from the headquarters of the corporation that the Rio Grande Southern will build down the San Miguel to the Dolores and thence down the Colorado river to the Pacific coast.

The Sooner.
GUTHRIE, Okla., Feb. 4.—The supreme court has rendered a very important decision in reference to the clause of the law opening Oklahoma known as the "sooner clause." It provides that any person who entered the lands before the hour of opening set by the president should lose all rights to obtain title to any land whatever. The "sooner" clause was sustained, and all the "sooners" will lose their title to the land.

Satisfaction in Valparaiso.
NEW YORK, Feb. 4.—The Herald's Valparaiso special says: "After thorough inquiry I am able to state that there is extreme gratification felt both in official and unofficial circles at the message sent by Secretary Blaine to Minister Egan announcing that the reply to the ultimatum was satisfactory."

Among officials, especially those of the navy and intelligent civilians generally, there has been a revision of feeling in favor of the North American republic.

Will Be Carried Up.
WILKESBARRE, Pa., Feb. 2.—An important decision has been rendered by Judge Rice, in which the question was: Are banks rendered exempt from local taxation on securities upon payment of the 6 mills state tax. The issue was raised by the Wilkesbarre Deposit & Savings bank, and the court decides that the act of 1880 does not exempt banks from the payment of the local state tax. The court will probably be taken to the supreme court.

Following Graves.
CHICAGO, Feb. 4.—J. H. Conrad, of Helena, Mont., the son-in-law of Mrs. Barnaby, said to have been murdered by Dr. Graves, is at the Grand Pacific hotel. The visitor was not in newspaper men, but in conversation with a friend Mr. Conrad said he had no fear that Dr. Graves would escape the penalty imposed upon him through having a new trial. Mr. Conrad is evidently busy looking up new evidence to make the case stronger against Dr. Graves.

Garza's Bloody Work.
LAREDO, Texas, Feb. 4.—The news of the killing of Rufus Glover by a detachment of Garza's band, which was confirmed today, created intense excitement in this city, where the deceased was well known and had a host of friends. The almost unanimous opinion was expressed that Governor Hogg should at once order out 200 picked rangers, if necessary to put a quietus on this disgraceful state of affairs.

Scared to Death.
SAN ANTONIO, Feb. 3.—Mrs. Emma Schaeffer, of this city, was frightened to

death last night by a tramp, who entered her room unexpectedly by forcing open the door. Her husband was lying sick in the same room. Before he could reach her she gasped and died. The tramp gazed horror-stricken at the face of the dead woman a moment and then fled.

A Hard Winter.
HOT SPRINGS, Ark., Feb. 4.—News has just reached here that two families who started to Oklahoma from Cedar Glades, near this place, were frozen to death in the recent blizzard. Their bodies were found on the prairie near the Arkansas line. The names of the families were Watkins and McGuffy.

CONDENSED NEWS.

A big snow storm is raging in Utah. Cleveland Democrats in New York are organizing.

Kansas City parties are trying to form a minor western base ball league.

The treasury department paid to the state of Maryland her share of the direct tax, amounting to \$371,299.

Senator Power was taken suddenly ill with hemorrhages at Washington yesterday. He ought to come to New Mexico.

The Cedar Grove community, twenty miles east of Milan, Tenn., is being terrorized by two families fighting over the possession of land.

Jerry Simpson today introduced a bill to promote and encourage agriculture by authorizing the United States government to lend money on farm land at 2 per cent interest per annum.

A lamp exploded in the paper car of the Chicago and New York express, and the contents, including newspapers from Chicago and points west for New York and the New England states, were totally destroyed.

Secretary Blaine, through the acting treasurer of the United States, has asked congress for an appropriation of \$50,000 to complete the preliminary survey of the boundary line between Alaska and British Columbia.

The controller of the currency has decided to pay an additional dividend of 20 per cent on the claims proved against the National Bank, of Boston, Mass., a first dividend of 60 per cent having been declared on the 4th ult.

In the assembly, New York, Mr. Hitt offered a resolution authorizing the board of managers to prepare for the state representation on October 14, 1892, at the Columbus celebration in New York, by the Spanish and Italian people and to invite the original thirteen states to participate with the state in commemoration of the event.

W. H. Arnoux, A. W. Lozier and Robert Graham, on behalf of the Associated Temperance Excise Reform, Sunday & Protective League organizations, of New York City, have issued an appeal to the people of the state against the proposed excise legislation at Albany, which they denounce as the most iniquitous measure ever introduced in any legislative body in any civilized community. It legalizes the sale of liquors from 1 p. m. Sunday to 1 a. m. Monday.

IRRIGATION ITEMS.

Rio Arriba county has irrigation ditches that have been in use nearly 200 years.

Mr. T. A. Thayer, of Salda, Colo., has 1,200 acres of fruit lands at Eddy all under ditch.

A number of north Las Vegas residents have in hand a project of great prospective benefit to the Meadow City.

The El Paso Times and the Albuquerque Citizen are the only papers in the west not opposed to Major Powell's wild schemes for attempting the reclamation of the arid lands.

People from South Dakota are inspecting the lands of the Pecos Land & Water company and its irrigation system. A favorable report will result in considerable immigration.

Fruitlands, a new town in San Juan county, is the center of a big irrigation canal enterprise. A Pennsylvania colony will build up the town when water is turned on May 1.

The executive committee in charge of the irrigation convention at Las Vegas is doing good work for the cause and a great gathering of representative citizens will be held there on March 16.

It is truly wonderful what water and plenty of it is doing for the lower Pecos valley. Farmers and fruit growers from all over the west are flocking into Eddy and Roswell.

Hon. J. J. Dolan, Hon. E. C. Wade and others of Dona Ana and Chaves counties have compromised the Rio Pecos water tangle and will put in ditches to irrigate a large body of land.

Very little has been heard of late relative to the irrigation enterprises of Spaulding, the Chicago base ball man, who was in Grant county last fall. Wonder what the matter is?

Prof. Hay, connected with the government's investigation of the underflow in the arid region, is confident that artesian water can be developed at almost any point in New Mexico east of the Rio Grande.

A London, England, firm has written to Santa Fe for information relative to the Yucca plant. They wish to open business relations with any house that prepares this article for export.

One fruit grower in northwestern New Mexico marketed ninety loads of fruit last season in Durango, Colo. This was at a profit, regardless of the distance and absence of railway connection.

At the present time tubular wells to test for artesian water are being bored in San Juan, Dona Ana, Eddy, Lincoln and Chaves counties. In the latter there are half a dozen flowing wells.

Just above the New Mexico line in the San Luis valley of Colorado, and 130 miles north of Santa Fe, English capital is now going into a canal that will irrigate 200,000 acres of land. The victims alien act keeps similar capital out of New Mexico.

Water does this for the town of Eddy: "H. Gaudier has cabled from Switzerland that a number of Swiss families will leave there about the 1st of February for the Pecos valley. He has also asked that several hundred acres of land be reserved for others who will join the colony in the spring."

In the February Forum there is an article by Governor Jno. N. Irish, of Arizona, entitled "A Great Domain for Irrigation," which is calculated to do much good for the arid region, and especially that part of it comprised by Arizona and New Mexico. The governor asserts that the prosperity of the people living in the so-called arid region averages better and higher than the prosperity of those living in any of the portions under the rain belt of the United States, and he deals with the whole question of irrigation with a bold and practical hand.

So easy in its action, harmless and effectual in relieving is Simmonds Liver Regulator.

The New Mexican is the oldest newspaper in New Mexico. It is published daily, except on Sundays and public holidays, and is a large and growing circulation among the intelligent and progressive people of the south-west.

THURSDAY, FEBRUARY 4.

The German emperor is 33 years of age. He has plenty of time ahead to learn wisdom. He needs some of the latter.

New Mexico must have more railroad facilities, and it looks as if some of these would be obtained during the present year.

U. S. Senator D. H. Hill has a very strong hold on the governorship of the state of New York, although Roswell P. Flower is nominally the governor of the Empire state.

This law and order league of Pittsburg is making desperate efforts to stop the sales of newspapers on Sunday in that city. The fool killer might find a very large and profitable job among the members of the law and order league in the Smoky city.

Nobody is having more fun in Washington these days than ex-Speaker Reed. When it comes to framing rules for the government of the house Mr. Reed can give the Democracy very many valuable pointers—pointers, too, that the Democrats are inclined to take very kindly.

THEY ARE COMING TO IT.

On the last of this month a law went into effect in the state of Georgia, providing for a reduction of telegraph charges, between any points within that state, to 25 cents per message of ten words, exclusive of address and signature, and for 1 cent per word additional for each word over ten words. They are coming to it all over this country, slowly but surely.

NOTHING ELSE COULD BE EXPECTED.

The Las Vegas Optic, in a recent issue, comes to the rescue of some slanders who take every opportunity to slander this city and its people and institutions and lie about them. However, there was nothing else to be expected from the Optic. Nature is nature and will out.

IT IS ALRIGHT.

Silver has experienced a dreadful tumble of late, falling almost to ninety or lower than it has been for a century or more, but its friends do not appear to be greatly alarmed about it. They regard it as the calm, before the storm soon to break which will elevate silver to its old position as money. In fact the present low price makes additional legislation imperative and that legislation can result in nothing other than free coinage.

THE OLD MAN ON DECK.

It cost Uncle Sam about \$2,000,000 to make Chili show her hand and back down. But it was worth the money; Chili does not go with Uncle Sam any longer; he is getting too old; Central America, South America, Europe and the rest of them from the north pole to the south pole and all the way around east and west might just as well understand this and act accordingly.

IT'S GANG AND BOSS RULE WITH THEM.

The Democratic Albuquerque bosses are to have a meeting shortly and will deliberate whether or not Mr. Joseph's bill for an enabling act for New Mexico suits them. The people have nothing to say about it; if it suits these bosses and the little Democratic elite at Albuquerque, well and good; if not, why then all is wrong. Gang and boss rule is the order of the day in the Democratic party in New Mexico.

INTERESTING BUT NOT ADVISABLE.

The political pot in Colorado has been set boiling all of a sudden by the new paper, the Sun, opening out on Senator Wolcott, supposedly in the interest of David H. Moffatt. The News is somehow also mixed up in the deal, indicating that neither the Democrats or the Republicans of Colorado are doomed to run in harmonious harness this year. This fight will be an interesting one in many respects for New Mexicans, but it ought at the same time suggest to all of us the wisdom of keeping purely personal affairs wholly out of our party matters.

SETTLED BY LAW.

A Louisiana court has just taken official cognizance of a matter that, sometime in life, more or less worries all of us. A cunning young woman went into court with a complaint that a young man had caught and kissed her against her will. The young man admitted that he had kissed her, but swore that it was with her full consent; that he had kissed her as often as 150 times, with her permission, and was ready to do it again. The court found him guilty, however, and fined him \$150, or \$1 per kiss. This then may be set down, in all cases of doubt in future, as being the legal value of a kiss. It is dirt cheap, too, when a pretty girl makes a fellow feel that way.

TWELVE AND ONE-HALF CENTS PER DAY.

During the past month, namely the month of January, 1902, the cost of subsisting the inmates of the territorial penitentiary amounted to 12½ cents per ration per day. This is four cents cheaper than the government of the U. S. obtains the regular army ration for the ration at the prison, as established by law, was augmented by many articles of food purchased from the saving of the regular ration. Colonel Bergman, the acting superintendent, served for years as a quartermaster and subsistence officer in the army, and knows how to handle that sort of business successfully. Twelve and one-half cents—cost of ration per day—ought to be small enough for anybody, especially when it is remembered that the food is ample, wholesome, well cooked, and of sufficient variety.

EDITORIAL COMMENTS.

The Game May Be Blocked.

The Democrats propose to admit Arizona and New Mexico as states, and give Utah authority to elect her own governor and other territorial officers; but a Republican senate stands ready to stifle all little games of that sort.—St. Louis Globe-Democrat.

Secretary Tracy's Great Ability.

This war scare has shown the American people that they have a respectable merchant marine left and the beginning of a marvellously efficient navy. The prospect and confidence in which our national preparations have been made reflects the utmost credit upon the executive ability of the gentleman at the helm of the navy department.—Boston Journal.

Wages and Wages.

In the bituminous coal mines of great Britain under free trade weighmen get 6 cents per day.

In the United States under protection they get \$1.75 per day.

—New York Press.

Would Certainly Be a Bedlam.

Congressman Davis, of Kansas, has introduced a bill in the house authorizing the yearly issuance of \$100,000,000 in treasury notes to pay for postoffice buildings to be erected at all county seats in the country and at all other towns that have 3,000 or more inhabitants. A few more Alliance victories in the country would convert congress into a lunatic asylum.—Kansas City Star.

The Free Trade's Chinese Wait.

The free trader says that the McKinley tariff puts a "Chinese wait" about our coasts. How does it happen, then, that while in the eleven months ending November 30, 1899, only \$12,867,357 of food products were admitted free?

In this same period in 1891 the amount of food products admitted free was \$218,504,883?

One of the most pronounced features of the McKinley tariff is its wide free list in products that do not compete with American labor.—New York Press.

W. A. Hawkins' Resignation.

Hon. W. A. Hawkins, district attorney for Eddy, Chavez and Lincoln counties, has tendered to Governor Prince his resignation of that position, to take effect upon the appointment and qualification of his successor. His professional duties as attorney for the several companies engaged in the development of the Pecos valley demands all his time, and rather than neglect his official duties he asks the appointment of some one who can give the office the attention it demands. The people of the 5th judicial district will regret that this step has become necessary, as few men are so well qualified in all respects to discharge the duties of the office as W. A. Hawkins.—Eddy Argus.

In Favor of Statehood, per se.

Delegate Joseph's bill for an enabling act for New Mexico, with possibly some slight amendments, seems to meet the approval of the friends of statehood irrespective of party. The Reporter is in favor of statehood per se, and not for party considerations. The material interests of all are at stake, and question as to who shall hold the offices under the new form of government is of minor importance. We can fight the matter after we have secured that which will benefit all. The Reporter believes that this law, as the territory should rally to the aid of Delegate Joseph, and if possible secure the passage of the bill. It will need the hearty support of all the friends of statehood to insure its becoming a law—and even then it is a doubtful issue.—San Marcial Reporter.

PRESIDENTIAL GOSSIP.

Washington Post, Ind.: If the people of New York state are really for Cleveland they ought to have no serious difficulty in sending a Cleveland delegation to Chicago. There's nothing in a date.

Globe-Democrat, Rep.: If the Cleveland men are right in saying that their favorite could be elected without New York, his party ought to nominate him. It is safe to say that neither he nor Hill could carry that state this year.

Fort Worth Gazette, Dem.: The majority of the Democratic state executive committee of Alabama who expressed themselves on the subject are for Hill for president. A western man would suit the Gazette, but nearly all the straw now point to New York and to Hill.

Fort Worth Gazette, Dem.: There is hardly a doubt of the authenticity of the report that Mr. Cleveland has determined to withdraw from the presidential contest. His personal following is expected to divide between Patterson, Carlisle, Palmer, Boies and Gray, while it is admitted that his going out will strengthen the New York demand for Hill.

Globe-Democrat, Rep.: The Democratic Philadelphia Record says that if Hill is nominated the Republicans will carry every northern state. This is true, and for this reason the Republicans would be glad to see him selected. The fact that it is true, however, will probably strike the national Democracy early enough to enable it to drop Hill and put up somebody else.

Denver Republican, Rep.: President Harrison and Mr. Blaine seem to understand each other perfectly regarding the best presidential nomination. If Mr. Blaine wants it he can have it by acclamation, as he is undoubtedly the most popular of Republican leaders and the most striking personality in public life in this country at the present time. If he does not want it the odds are a thousand to one that President Harrison will be nominated on the first ballot at Minneapolis. Either of them would be sure of an election in November.

Just 24.

In just 24 hours J. V. R. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Bruns, Sick House & F. Geo. A. Werner, 23 California St., S. F.; Mrs. C. Melvin, 125 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G. W. Vincent, of a Tennessee Court, S. F. writes: "I am 60 years of age and have been troubled with constipation for 25 years. I was recently induced to try J. V. R. Vegetable Sarsaparilla. I recognized it at once as a herb that the Mexicans used to give us in the early 1800s for bowel troubles. (I came to California in 1820) and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairie and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. & S. P. railroad and the D. & T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

Either under the Desert Act, Timber Culture, Pre-emption or Homestead Laws. The soil is a rich, chocolate-colored, sandy loam, from six to twenty feet deep, underlaid by lime-stone. In fact it is a lime-stone region UNSURPASSED IN RICHNESS by the famous Cumberland Valley. With an altitude of 3,500 feet above sea level, it has—A CLIMATE WONDERFULLY EQUABLE AND HEALTHY!—No snows; no Northerns; no dampness; no malaria; no consumption! PURE, and ABUNDANT WATER; so here produces five outtings of alfalfa the year, and two crops of grain; wheat, oats and barley being harvested in June and corn then planted in the same land being cut in the Autumn. IN A LIGHTER VEIN.

Little Giffen, of Tennessee. Out of the focal and foremost fire, Out of the hospital-ward as dire, Smitten of grape-shot and grenade (Eighteenth battle and he sixteen!) Specter such as we seldom see, Little Giffen, of Tennessee.

Take him—and welcome, the surgeon said; Much your doctor can help the dead! And so we took him and brought him where The baln was sweet on the summer air; And we laid him down on a wholesome bed— Utter Lazarus, heel to head!

Wearry war with the bated breath, Skeleton boy against skeleton death, Months of torture, how many such? Weeks of the stick and crutch! Still a glint in the steel-blue eye Spoke of the spirit that would not die.

And didn't say, more! In death's de- spite The crippled skeleton learned to write! Dear mother, at first, of course; and then, Dear captain—inquiring about the men. Captain's answer—of eighty and five Giffen and I are left alive!

Johnston's pressed at the front, they say? Little Giffen was up and away. A tear—his first—as he bade good-bye, Dimmed the glint of his steel blue eye; I'll write, if spared. There was news of a fight, But none of Giffen—he did not write!

I sometimes fancy that were I a king Of the princely knights of the Golden Rule, With the theseng of the minstrel in mine ear, And the tender legend that trembles here, I'd give the best on his bended knee, The whitest soul of my chivalry, For little Giffen, of Tennessee.
