-BRIEF WIRINGS-

Nominations.
WASHINGTON, Feb. 5.—The president has sent to the senate the following nominations of postmasters:
Texas—Henry A. Sparks, McGregor;
David H. Long, Burnett.
Colorado—John Rose, Trinidad.
Arizona—Joseph H. Hamill, Globe.

Court Martial.
CLEVELAND, Ohio, Feb. 5.—The court martial trial of Major Overman, for the alleged embezzlement of government money was continued today. The defense is trying to have the proceedings quashed on account of technicalities in the specifications of charges.

The First Output.
WEST SUPERIOR, Wis., Feb. 5.—The first steel plate from the West Superior Steel and Iron Plate company has been delivered to the Wheelock shipyard. This is the first plant at the head of the lakes and employs 1,000 men. It is capitalized for \$5,000,000.

Finally Settled.
WASHINGTON, Feb. 5.—The senate yesterday confirmed the nomination of James H. Beatty to be district judge for Idaho. This confirmation marks the termination in favor of the administration of a struggle lasting nearly a year which it has had with the Idaho senators.

Unitarians Excluded.
LONDON, Feb. 5.—James Spurgeon declares that, while the heads of every religious denomination will be invited to attend the funeral of his brother, the Rev. C. H. Spurgeon, which will be held on Thursday next, in the Metropolitan tabernacle, no Unitarians will be asked to be present.

Open for an Investigation.
VALPARAISO, Feb. 5.—Minister Egan was asked what he thought of the resolution introduced at Washington requesting his recall. "I court a full investigation of all my acts," said Mr. Egan. "I have no fear that anything detrimental to my reputation would be discovered. My actions throughout these difficulties have been approved by Secretary Blaine and the administration at Washington."

Rio Grande Earnings.
DENVER, Feb. 5.—The estimated earnings of the Rio Grande Railway company for the month of January makes a good showing. They were \$694,600, an increase over the earnings of the corresponding time of last year of \$42,873, and an increase over the earnings of the corresponding time of the year before of \$88,100. The earnings for the fourth week in January were \$152,500, an increase over the corresponding time for last year of \$31,015, and the year before of \$42,554.

Colored Vote for President.
NEW YORK, Feb. 5.—The members of the several colored churches in the states of New York, Indiana, Ohio, Illinois, Massachusetts, Pennsylvania and New Jersey were polled through their pastors on the following question: "Who is your next choice for president?" The returns show that for a total of 400,000 who expressed their choice 227,000 favor Blaine, 113,300 favor Harrison, 33,730 favor Cleveland, 500 favor Fred Douglas, 33 favor Hill, 16,261 favor Alger and 20,170 the Republican candidate.

The silver caucus.
WASHINGTON, Feb. 5.—Will the members of the Democratic side of the house be willing to bind themselves by the decision of to-night's caucus on the silver question? This is a question that several of them were asked this morning, and that every one of those approached evaded. The caucus has been called by the instance of Congressman Harter, of Ohio, who is a strong anti-silver man. There will be almost as many propositions as participants in the caucus. Some of the congressmen favor the old suggestion for an international conference, while others are determined to get a fair and square vote on the question whether

the coming measure shall be a free coinage or not. The indications are that Blaine and his free coinage supporters will carry the day.

Boyd on a "stunt."
OMAHA, Feb. 5.—It is expected that Governor Boyd will call an extra session of the legislature as soon as practicable, and will recommend the passage of the following act:

To restrict the state into legislative districts, that duty having been neglected by that body at its regular session.

To restrict the state into congressional districts.

It is thought that the Alliance and Democratic members will unite and govern the state in their interests.

To provide for the election of two presidential electors-at-large and one from each congressional district. This will divide Nebraska's vote on the president.

To pass a maximum freight bill such as the governor may suggest in his message.

The Race Course.
NEW YORK, Feb. 5.—Representatives of the American Trotting association and the National Trotting association are holding a secret conference at the Murray Hill hotel to-day for the purpose of discussing the proposal for a consolidation.

Among those present are President P. P. Johnson, Governor M. G. Bulkeley, of Connecticut, and Major G. M. Foss, of Tennessee, on behalf of the National, and W. Benjamin, of Wisconsin, J. McFall, of Iowa, and W. C. Evans, of Indiana, representing the American.

The feeling in favor of an amalgamation has been growing throughout the country, and most of the prominent horsemen are getting around to the opinion that the interests of both owners and breeders would be best served by having all the trotting tracks in the United States under one authority. This would at least prevent a repetition of the numerous scandals that have been ventilated during the past twelve months.

Bill Pulling Wires.
WASHINGTON, Feb. 5.—Some extremely significant suggestions are being made here regarding Hill's relations to the next presidential nomination. These suggestions are peculiarly interesting because they come through friends of Gorman and are supposed to have originated from him. They are to the effect that Hill is convinced that he can not with safety be a candidate for his party this time, and his course in capturing New York is for the purpose of effectually killing off Cleveland with the expectation of himself being a candidate four years hence. His plan, according to this story, is to give his strength this time either to Palmer or to Gorman, with the agreement that he is to be supported for the nomination in 1896. The suggestion comes through sources controlled by Gorman, and in view of this fact is looked upon as especially interesting.

Wigwag Talk.
CHICAGO, Feb. 5.—Some time to-day the committee on arrangements for the National Democratic convention will know for certain whether they can have the use of the exposition building on the lake front, or whether the tearing down of that structure must proceed. If the decision is against them only one of two things will happen. Either they must take the Auditorium or build a wigwag.

A careful computation goes to show that not more than 7,000 people could be crowded into the Auditorium, and that the favorable circumstances, which would leave room for but 2,500 enthusiastic Democrats after the delegates, alternates, press and National committees had been provided for, while on the other hand at least 15,000 people will have to be accommodated. At the same time it would cost a great deal of money to build a wigwag, the lowest estimate being in the neighborhood of \$35,000. The committee is puzzled already regarding ways and means whereby they can raise \$50,000 to pay the regular bills of the convention, and they would be still more puzzled if it became necessary to raise two thirds of that amount additional for a wigwag.

CONGRESSIONAL.
WASHINGTON, Feb. 5.—In the senate, Senator Peffer offered a resolution, which was agreed to, changing the day for holding special services in memory of the late Senator Plumb, to Thursday, the 18th instant.

The report of the committee on privileges and elections in the case of the Florida senators, declaring Mr. Call entitled to his seat, was taken up for action, and the report was read, closing with the sentence: "The appointment of Mr. Davidson was an act of irrelevancy which it is not necessary further to notice."

The speaker laid before the house senate joint resolution authorizing the secretary of the treasury to pay to the state of West Virginia the sum of \$151,058 due her under the provisions of the direct tax law, notwithstanding any claim of the United States against the state of Virginia.

Mr. Watson, West Virginia, asked for its immediate consideration, but Mr. Holman, Indiana, objected, and the resolution was referred.

The consideration of the rules having been resumed, Mr. Enloe, Tennessee, offered an amendment providing that eulogies to deceased members shall be delivered on Sundays, and Sundays only, on which day the ceremonies shall be opened with prayer by the chaplain.

Mr. Moses, Massachusetts, seconded the amendment.

The amendment was defeated; yeas, 91, nays, 155.

Mr. Chipman, Michigan, offered an amendment providing for Friday night sessions for consideration of private pension bills. Agreed to.

Consideration of the rules reported on by the committee on rules having been

concluded, Mr. Reed, Maine, on behalf of the Republicans, offered as a substitute therefor the rules of the 51st congress.

Lost without division.

The code of rules was then agreed to.

Mr. Dickerson, Kentucky, offered a resolution directing the committee on judiciary to make an investigation and report whether congress has the constitutional authority to appropriate money for the World's Columbian exposition. Adopted.

On motion of Mr. Goodnight, Kentucky, a senate bill was passed to provide for the creation of a fourth judicial district in the territory of Utah.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every corner of the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, FEBRUARY 5.

Will the coming man sleep? asks a San Francisco paper. Give it up, ask something easier.

New Mexico is great to be sure, but she would be a good deal greater, had she a couple of thousand miles more of railroad within her borders.

It is right hard on Silver City to have a boodle White Cap paper, like the Southwest Sentinel published within its limits. A sheet like that is bound to injure any community.

HE IS ON HAND.

The Hon. Thomas Brackett Reed is on hand, and much on hand, during the present session of the Democratic house. That's what he is there for, and that's what his constituents elected him for by a tremendous majority.

TO BE DEPLORED.

Grant county has been very unfortunate with its banks for several years past. The New Mexican greatly deplores the recent closing of the First National bank at Silver City and at Deming. This will prove quite a drawback not only to that community, but to the entire territory.

NOT TO BE BLAMED.

The Mogump press in this country is not to be scorned because it defends everything English and fights for the interests of the British government and of the British manufacturers. It gets its support from England and is only trying to give back value received.

IT WILL BE ALL THE SAME.

The Fort Worth Gazette is a very able newspaper, and especially able in demonstrating fully that Mr. Cleveland should not be nominated as the Democratic standard bearer. However, be it Hill or be it Cleveland, it will be all the same to the Republican nominee; the latter will be elected.

FRANCE AND FREE TRADE.

A protective tariff went into effect in France on the first of this month. For thirty years France was a free trade country. Finding that free trade cost too much and empty kept on enriching the rich and grinding the laborer, the workmen, the farmer and the poor man down in the dust, France after a long trial has abandoned free trade. So, note it be.

FOR AUGHT ANYONE CARES.

A little clique of unscrupulous bosses on the Democratic central committee, at Albuquerque, will, so they say, hold the Republican party responsible, should New Mexico not be admitted as a state by the present congress. Well, let them hold; they can hold and go where the woodbine twine for aught the decent, law abiding citizens of New Mexico care.

THE DEMOCRATIC BOSSSES WILL NOT HAVE IT.

Delegate Joseph writes that he is ready and willing to amend his bill for an enabling act in the matter of the apportionment of delegates, and make it as fair as possible. That, however, will not suit the close corporation in Albuquerque that runs the Democratic party in New Mexico. Anything and everything fair or just that gang abhors.

TWO WILL BE ENOUGH.

The New Mexican is of the opinion, should the Republicans of New Mexico select six delegates to represent them in the Republican national convention at Minneapolis, that but two of the six would be entitled to votes and seats in the convention and that but two would be admitted. At the same time the New Mexican must say, that it does not sufficiently care about the matter to make any bitter fight over it; there is not so very much at stake. The nominee of the convention, whoever he may be, will be nominated with great unanimity; there will be no fight over the Republican nomination.

LOOK TO THE NORTH.

No one can read the newspapers of Colorado without feeling impressed with the wonderful progress the Centennial state is making. In all lines of industry there is the same splendid activity prevalent. The mines are simply humming; horticulture and agriculture are causing irrigation enterprises to spring up everywhere; all manufacturers have a hand in the prosperity; live-stock interests are in excellent shape; really investments are on a firm basis; money for developing the state's resources was never so free, and so it goes, all along the line of progress.

New Mexico can take heart from this state of affairs. We have been taught all along to look toward the east for the coming of our dawn; for the influx of immigration, capital and American energy; but have we not probably been mistaken in this?

Take a glance at southern and southwestern Colorado to-day. Gradually the industrial stir there is encroaching upon New Mexico's northern border. There is a region whose diversified resources are capable of supporting the inhabitants of an empire. The people have confidence in Colorado, particularly southern Colorado, and they are not afraid to settle there. Even now there is a boom on the headwaters of the Rio Grande that has startled the nation. As people settle there they will become better acquainted with New Mexico and its people; they will find out that we are not a bad set down here; that we have resources undeveloped the peer of Colorado any day, and they will come and help us to make of New Mexico the grand commonwealth nature designed her for.

While still feeling kindly toward the east, New Mexico can now look confidently toward the north. Those things which will give her the greatest impetus to modern growth are coming through Colorado—down through the Rio Grande valley.

EDITORIAL COMMENTS.

The Silver City Lion and Slanderer Again at Work.

Las Cruces is beginning to suffer at the hands of the Santa Fe boodle gang. There are "no funds" for a term of the district court at Las Cruces this month. "Turn the rascals out!"—Silver City Sentinel.

This Year May Be Well Founded.

In conversation with a press correspondent, Delegate Joseph expressed himself as believing that the bill for the admission of New Mexico will pass the lower house without opposition, but he is not so sanguine of success in the senate. He fears the Republicans will antagonize the admission of another possibly Democratic state—Raton Reporter.

Leave the Wool Tariff Alone.

At the recent meeting of the National Wool Manufacturers' Association which was held in Boston, resolutions were passed asking that no change be made in the present tariff relating to wool until sufficient time had elapsed to thoroughly test its provisions. This is a setback for Mr. Springer and the tariff engineers, and it is to be hoped that the manufacturers would free wool—Brooklyn Standard Union.

Wants the Convention Called and to, it is true.

There are many reasons why the call for the territorial Republican convention to elect delegates to the national convention should be issued at once. It is desirable that the convention should be as representative as possible, and that all interested parties should be given an opportunity to be heard. In large counties, like this, for instance, there is required for all these things.—San Marcial Reporter.

How About the Markets of the World?

The McKinley bill is increasing our exports of cotton goods to our natural neighboring markets. Our total exports of manufactured cotton goods to British North America for eleven months of 1899 were \$469,757.

For eleven months of 1899 they amounted up to \$606,979.

The Mississippi valley cotton growers knew too much to take up the line and cry of the free trade press for the "markets of the world." They don't need to repeat the McKinley bill to get them.—New York Press.

They Will All Come To It.

The Pullman Palace Car company for some years has refused the payment of taxes in Kansas on the ground that taxes were paid in Illinois on the stock of the company, but in a suit brought by the attorney general in the United States supreme court, a decision has now been rendered that the state taxes must be paid and the attorney general has instructed the treasurer of sixty counties to collect from the Pullman company the penalties and interest at the rate of 60 per cent per annum, making a total, it is said, of more than \$100,000.—Las Vegas Free Press.

Kansas City Star, Ind. Dem.: The New York World characterizes the election of "the solid Hill delegation" from Hornellville as a "case of shipwrecked men." "Done with indecent haste and upon utterly insufficient notice," The World then asks: "Will not the convention itself, resent the attempt to force a candidate upon the party by overruling the fundamental principle of democratic procedure?" To this question the west and south answer unhesitatingly, "it will."

"Fornut" Six Delegates.

We observe that some of our contemporaries still talk of electing six delegates to the Minneapolis convention, where we are distinctly invited to send just two. Of course this is obviously in the interest of some ambitious politicians who think a large delegation gives them their only chance of being named. But why limit the number to six? Why not appoint thirty or forty? That would accommodate all who want to go, and the result would be just the same. In either case we should be laughed at, and in either case those who were selected would have to designate the two to be admitted. If there is to be a child's play about it let us send our whole territorial convention, and let the members do their work there instead of here, and then every man in the convention could boast of the fact that he was a delegate to Minneapolis. But seriously, the project is pure nonsense, the child of inordinate ambition, and fraught with nothing but danger.—Albuquerque Citizen.

PRESIDENTIAL GOSSIP.

Fort Worth Gazette, Dem.: If the Democrats elect a president this year his name will be David B. Hill. This is a prediction.

Boston Herald, Mug.: The New York World concludes that Mr. Cleveland still remains an important factor in the political situation. This information seems to be in accordance with the facts.

Chicago Democrat, Rep.: Cleveland had a reception in New Orleans, but he did not make a speech, probably for the reason that he could not have expressed his feelings about the present Democratic situation without using profane language.

Globe-Democrat, Rep.: It is true, as a Philadelphia contemporary observes, that if Hill is nominated for president the Republicans will carry every northern state; and it is most safe to predict that they will do so if Hill isn't nominated.

Brooklyn Standard Union, Rep.: "Chicago will name the next president," says the "Herald" of that ilk. The "Herald" seems to have a short memory for news. The Republican national convention meets at Minneapolis, and not at Chicago.

Boston Herald, Mug.: It is not to be supposed that National Committeeman Lewis represents the Democratic majority in Massachusetts in his reported preference for Hill as against Cleveland. He reflects his own peculiar judgment. That's all.

THE BUSY MAN'S MAGAZINE. "It is not only the 'Busy Man's Magazine,' but is especially adapted to the 'Busy Woman'—such as most of us are." (Mrs.) L. V. A. BISHOP, Bingham State Normal School.

IT PLEASES EVERYBODY. Miss Frances Willard. "The bright outlook window in Christendom for busy people who want to see what is going on in the world." Providence Telegram. "A great boon to the busy, the lazy and the economical." The Congressionalist. "This monthly has no peer in originality of design, scope and accuracy of vision, thoroughness in execution and ability to transform its readers into citizens of the world." Chicago Interior. "The Review of Reviews of New York has come to the rescue of busy people. We know of one high railroad official who for a month has worked until 11 o'clock at night, and yet has kept well informed of current events. He reads this Magazine. It gives him a running commentary on important events, besides a digest of the best articles in contemporary magazines."

THE PECOS VALLEY!

THE GREAT FRUIT BELT of NEW MEXICO!

1000 Miles Nearer all Eastern Markets than California.

The canal system of the PECOS IRRIGATION AND IMPROVEMENT COMPANY covers 300,000 acres of MAGNIFICENT LAND in this MATCHLESS LOCALITY. The land is all PUBLIC DOMAIN and enterable at the Government price, of \$1.25

ONE DOLLAR AND TWENTY-FIVE CENTS PER ACRE!

Either under the Desert Act, Timber Culture, Preemption or Homestead Laws. The soil is a rich, chocolate-colored, sandy loam, from six to twenty feet deep, underlain by lime-stone. In fact it is a lime-stone region UNSURPASSED IN RICHNESS by the famous Cumberland Valley. With an altitude of 3,500 feet above sea level, it has—A CLIMATE WONDERFULLY EQUABLE AND HEALTHY!—No snows; no Northerns; no dampness; no malaria; no consumption! PURE and ABUNDANT WATER; so here produces five cuttings of alfalfa the year, and two crops of grain; wheat, oats and barley being harvested in June and corn then planted in the same land being cut in the Autumn. For further particulars, address,

"THE PECOS IRRIGATION AND IMPROVEMENT COMPANY," Eddy, Eddy County, New Mexico.
