BRIEF WIRINGS.

A Railroad Conference.
TOPEKA, Kas., Feb. 13.—The grievance committee of the order of railway conductors have had several conferences with the officials of the Atchison, Topeka & Santa Fe. Though nothing is made public it is understood that the committee are here in the interest of the Southern Kansas division of the road.

A Rush of Home Seekers.
KANSAS CITY, Feb. 13.—A special to the Star from Guthrie, O. T., says large numbers of settlers are going into the Cherokee strip all along the line and making preparations to settle at Arkansas City, Caldwell, Hennessey, Kiowa, Oklahoma, this city and other places. The prospects are organizing to move into the strip in a body of 30,000 on March 22 unless congress takes action toward opening it before that time.

Murder Near El Paso.
EL PASO, Feb. 12.—News has just reached this city of a double murder committed by unknown parties, at a point seven miles north of here. A Mexican, Francisco Mariano, in driving a herd of mules down from New Mexico stopped at an old adobe building to rest and on looking inside the door beheld the dead bodies of two Americans. The bodies were naked and covered with blood. The coroner and county officers have left for the scene. Some believe the murder to have been done by renegade Indians, who are reported off the Mesquero reservation.

For the Starving.
PHILADELPHIA, Feb. 13.—Collections for the starving subjects of the czar will be made in many churches of all denominations here to-morrow and as a result there is likely to be a large roll of cash for the famine fund. A circular which is being distributed says that there are from 10,000,000 to 12,000,000 of Russians who are now or soon will be suffering from famine as a result of the failure of the crops, and that with all the civilized world can do to relieve the suffering, 5,000,000 or 6,000,000 of people are slowly and intently starving to death as no earthly agency can reach them.

Labor's Call.
PHILADELPHIA, Feb. 13.—The executive board of the Knights of Labor have issued a bulletin requesting telegraph operators, engineers, firemen, brakemen, switchmen, mechanics and laborers to stay away from Houston, Tex., that a large number of men are out of employment and there is a strike on the San Antonio & Aransas Pass railroad. Another bulletin instructs carpenters, elevator men and laborers to stay away from Galveston, where more than one-half of the men belonging to the building trades are out of employment, and the Stewart Bros., elevator builders, are fighting organized labor. The bulletin says that everything is dull in Texas at present.

WASHINGTON NEWS.

WASHINGTON, Feb. 13.—The house committee on territories to-day accorded a hearing to a delegation of citizens of Oklahoma and the Indian territory on DeLoach's bill enabling the people of Oklahoma and the Indian territory to form a constitution and state government and be admitted to the union as one state.

The hearing sea joint commission met at the state department yesterday afternoon for the first time for business. The president yesterday sent to the senate the following nominations: Joseph McKenna, of California, United States circuit judge for the ninth judicial circuit; Rowland J. Mahony, of New York, envoy extraordinary and minister plenipotentiary to Ecuador.

The senate in executive session confirmed William Grinnell, of New York, to be third assistant secretary of state.

"August Flower"
For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDRICK, Saugerties, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

LINCOLN'S ANNIVERSARY.

A Grand Celebration of the Event Under the Auspices of the Republican League.

The Addresses and Letters from President Harrison, Secretary Blaine, Mr. McKim and Others.

The county court house was filled with a patriotic people last night to participate in the commemoration of Lincoln's anniversary under the auspices of the Republican League. As presiding officer, President A. L. Morrison was in his happiest element, and he touched a responsive chord in the hearts of his hearers when he spoke as follows in making his opening address:

Ladies and Gentlemen: The Republican league of the United States has set apart the natal day of our great martyr-president, Lincoln, as an occasion of special commemoration, and in pursuance of that patriotic purpose we have assembled here to-night to strew his sacred grave with the immortelles of our fondest love and gratitude. "God always raises great men for great occasions," is a venerable maxim which has come down to us from our ancestors, but never in the history of our race was it more literally verified than in the life of the lamented statesman whose name and virtues we will hand down to our children as a sacred, priceless heritage. It is often and truly said that the ways of God are not the ways of men. He sees the boundless universe, from the revolutions of the night-sphere to the twinkling of the stars, the vastness of space, the flimsy hues of the finest insect's wing, while we survey the objects in contracted sphere with the weak eyes of finite humanity. What human brain could have devised (half a century before the civil war burst like a volcano on our startled people) that in the woods of Illinois, a rough, uncouth, uneducated boy was growing up amid the most squalid surroundings who, in God's good time, was to be his chosen agent to crush the hydra-headed serpent of rebellion and save from ruin the only nation on earth which has in very truth "a government of the people by the people and for the people." Often my eyes have filled with tears while reading of the rule and almost roofless hut within whose humble walls our Lincoln first saw God's blessed sunlight, and from which his darling mother passed away from him in his infancy, leaving him early bereft of that tender natural love which is so seldom supplied by any other heart but that of her who gives us birth. Oh, how pathetic it is to see that poor lonely child, slowly groping his darkness way towards the light, painfully acquiring the humblest elements of education, borrowing here, there, anywhere (that rarest of all treasures in a frontier settlement) a book, having found it, devouring its mysterious contents before the flickering blaze of a log fire during the lonely watches of the night. Let the history of the noble life of this young manhood appreciate the majestic greatness of the mighty soul which all unknown to them was being prepared by the hands of God to accomplish the greatest work which then lay hidden in the mysterious womb of the future years. He was not one of those minds which, like Napoleon or Alexander, bursts like a meteor upon the astonished world. On the contrary, it was of slow and painful growth. His early life was one of weary and unremitting toil, spent in honestly and industriously performing the heaviest labors which came to his hand. Splitting logs as carefully as he afterwards studied the abstract sciences of Blackstone. Steering his flatboat through the snags and sawyers of the turbulent Mississippi with as steady a hand and as clear a brain as in the troublous days of the war he guided our ship of state over the tempestuous waves of internecine strife which often threatened to engulf him in their tumultuous depths. If ever it might be said of any man it might be said of him, that he was an open book. For four long years, during which he bore the heavy burden of our imperiled republic, the fierce light of cruel, merciless, hostile criticism was turned on his every action without discovering one weak spot in the invulnerable armor of his incorruptible rectitude. The malevolent abuse, the vulgar sneers, the baseless slanders of the enemies of the union fell harmless from his unshaken soul "like dewdrops from the lion's mane." And, in humble imitation of the world's Redeemer, he could truly say that he had "charity for all and malice toward none."

We know how often his purest motives were misrepresented by his enemies, misunderstood by his friends. We know the troubles he suffered from a discouraged and sometimes a half hearted cabinet, but we have only caught imperfect glimpses of his inner life, of the caring care which gnawed his heart, of the long, sleepless nights he must have passed when defeat after defeat overtook our armies and spread like a pall of death over our afflicted country. All these hours of agony are hidden from our eyes, and were only known to his tortured soul and to the God of hosts who gave him fortitude to bear them in uncomplaining silence. And then, when the first rays of sunlight were dispensing the sullen war clouds and disclosing to his enraptured eyes the promised land of peace, when the ransomed land was throbbing with wildest joy, when every town echoed with peals of silver bells, when our veterans, crowned with glory, were preparing to re-

turn to the homes their valor had saved from desolation, when "liberty and union, now and hereafter," were secured to us and ours forever, then, my countrymen, in that hour of supreme triumph, then, "Oh, blessed est picture in the book of time," our martyred hero, and fell without a crime.

In an instant our joy was turned to deepest grief. Our glorious flag was hauled down from its native heaven and heavy palls of funeral black hid its resplendent folds. Oh, the gloom, the horror of those days of woe, when with crushed and breaking hearts we felt "like sheep without a shepherd."

When the snow shuts out the sky, will never be forgotten while our country lives. But at last we realized, in the language of our other beloved martyr, Garfield, "that though Lincoln was dead, the government still lived," and that we must live for it and give it the service of devoted American hearts even as he would desire us to do.

Oh, great soul, thou art gone from us, back to that All-wise God who mercifully gave thee to us to guide us through the darkest period of our history. As thou didst bequeath to us an undivided union, an undivided country, and an undivided flag; we, thy admiring friends, swear by thy holy grave and sacred name to perpetuate the memory of thy virtues and thy glorious deeds and to remain ever true, loyal and faithful to the happy land, the peerless constitution and the stainless flag for which thou didst sacrifice thy glorious life.

The 10th infantry orchestra, which was present because of the kindly offices of Col. Pearson, rendered patriotic airs frequently throughout the evening; such selections as "Hail Columbia," "The Star Spangled Banner," etc., serving to arouse the auditors to a high pitch of enthusiasm.

The principal oration in English by Hon. E. P. Seelye was an eloquent effort. It was really Judge Seelye's first appearance here before an audience of the general public, and the fluent, scholarly, graceful manner in which he handled the ever interesting history of the nation's statesman, president won for him the warmest praise. B. M. Read, esq., spoke in Spanish, and acquitted himself in his usual able and dignified manner, his remarks being frequently interrupted by applause.

Mr. Joseph E. Morrison's recitation was another highly entertaining feature. He recited Lincoln's famous speech at Gettysburg—that wonder of condensation and American statesmanship, and he did it most admirably.

During the evening the following letters, addressed to Judge Morrison as president of the Republican league of New Mexico, were read and heartily applauded:

EXECUTIVE MANSION,
Washington, Feb. 3, 1892.
My dear Sir: The president is so much engaged that it is not possible for him to acknowledge the receipt of your letter of Jan. 23 with his own hand, and therefore he has directed me to do so, and to thank you for your kind words. Of course it will be impossible for him to be present on the occasion to which you invite him, but I am sure he will be very truly identified with him in maintaining the supremacy of the law.

DEPARTMENT OF STATE,
Washington, Feb. 4, 1892.
Dear Sir: Your letter to Mr. Blaine has been received. Mr. Blaine would be pleased to oblige the Republican league of New Mexico, but there are so many important matters before his department requiring his personal attention that it is not possible for him to find an opportunity to do so at this time.

Very respectfully yours,
SYDNEY T. SMITH,
Private Secretary.

WASHINGTON, Feb. 2, '92.—My dear Mr. Morrison—I have just read your courteous invitation of the 23rd, asking me to join with friends in Santa Fe to celebrate the birthday of our martyred president, Lincoln, February 12, 1892. I appreciate very much that you have remembered me. It will be quite impossible, as you all know, for me to attend, yet I rejoice to see that in dear old Santa Fe the fires of patriotism and loyalty are still burning, and as time goes on greater interest is taken in celebrating the memory of Lincoln. While I can not be present on the evening of the celebration, I beg you will convey to one and all my kindest remembrances and good wishes.

Yours truly, etc.,
S. B. ELKINS,
EXECUTIVE CHAMBER,
Columbus, Ohio, Feb. 2, 1892.

Dear Sir: I beg to acknowledge receipt of your favor of January 28, inviting me to be present on the 12th to commemorate with you the anniversary of Mr. Lincoln's birth, and regret very much that a previous engagement for that date will prevent the pleasure of my being with you. Extend to your association my hearty congratulations. Very truly,
[Signed] WM. MCKINLEY, Jr.
HEADQUARTERS REPUBLICAN NATIONAL LEAGUE,
New York City, Feb. 6, 1892.
Dear Sir: I have your letter stating that the Republicans of New Mexico will celebrate Lincoln's birthday on the 12th inst., and kindly sending me an invitation to be present. I would much like to comply, but many reasons will prevent. I am already under engagement to speak at a similar meeting in the state of Ohio, at Columbus. It is gratifying to see this indication of energy among the Republicans of New Mexico. Republicans need more enthusiasm, leading to more organization and more work. If the Republican party was half as partisan as the Democratic party it would be invincible, but our people always leave the work of politics until the election is nearly at hand. The Republicans of your territory have the inspiration of the great ambition to make New Mexico a Republican by the time it is admitted as a state. Certainly, men could have no prouder worthy set before them for their achieve-

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The talent of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from breathe, the food we eat, or the water we drink. There is more proven positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

ment. It would be a great pleasure if I could be with you; but I can only send you my best wishes and good speed.

Very truly yours,
J. S. CLARKSON.

Letters of a similar vein were also read from Senator John Sherman and other distinguished public men. The following resolutions were offered by Major A. McKinney were then adopted, and the assemblage soon afterwards dispersed:

Resolved by the Republican league of Santa Fe in mass meeting assembled: 1. That we in common with all members of similar organizations throughout our broad land, deem it eminently wise and proper to commemorate the birth and emulate the virtues and unswerving patriotism of Abraham Lincoln.

2. That the Republican league points with patriotic pride to the public services and blameless private life of President Lincoln, who, "with malice toward none and charity for all," exemplified all that is truly great and good as chief magistrate of the nation.

3. Resolved that in his forbearance and kindness, his unswerving purpose to execute the laws and maintain unimpaired the blessings of constitutional liberty, he endeared himself and his name to all those who by word or deed were identified with him in maintaining the supremacy of the law.

4. That his entire public life is and was inseparably connected with the history of the Republican party, glorious in peace, steadfast and loyal in its defense of the national honor, and ever true to the flag and every interest it represents.

5. That we hold in reverence the name of our martyred president, and commend to all young men, especially Republicans, his lofty patriotism and fidelity to principles as an example worthy of imitation by all members of this league.

False Economy
Is practiced by many people, who buy inferior articles of food because cheaper than standard goods. Surely infants are entitled to the best food obtainable. It is a fact that the Gale Borden "Eagle" Brand Condensed Milk is the best infant food. Your grocer and druggist keep it.

Now is the Time—And Wagner is in it.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

SATURDAY, FEBRUARY 13.

TAKING it all in all, the presidential ice Senator Hill is skating on may break on February the 22nd.

The business men of New York, those that are Democrats, are for Cleveland; but the Tammany brasses are for Hill and Hill will carry the day.

The New York Mugwumps are playing the "I am holier than thou" business on David Bennett Hill; but the latter is too tough and can't be scared.

The Hartford Times desires the re-nomination and re-election of Grover. Just so. But between desire and fact there is a great, big, large, wide difference.

If there are candidates for delegateships to the Republican national convention around, let them blossom forth and not too modestly. Let us know about the matter.

The Globe-Democrat is of the opinion that President Harrison's re-nomination at Minneapolis is a foregone conclusion. So believe many other newspapers and a good many people.

The birthday of the martyred president, Abraham Lincoln, was appropriately observed yesterday by the people of this city. This was meet and proper and it should have been.

The Chilean papers now assert that Chili has always been friendly toward this country. Glad to know it, friends, but you had best not do so again. Uncle Sam might not stand it.

The New York Evening Post, a Mugwump paper, that within a few months strongly supported Senator Hill, now goes for him rough shod and all because Hill is not a Cleveland man. Verily the ways of the Mugwump are past finding out.

A newspaper article "How to make salad" is going the rounds. With us it has not been so much the making of them, that has been the trouble; in obtaining them after they are made, has been the bother.

The territorial weather service is increasing in usefulness and importance. Prof. Harrington, chief of the weather bureau, did a very good and advantageous thing when he established the local service for New Mexico.

OUT OF A JOB.

As it is most likely that the Louisiana lottery will have to shut up shop, those two distinguished ex-confederate chiefs—those who superintended the drawing of prizes for years for that concern, namely, Gen. T. B. Beauregard and Jubal Early, will find themselves out of a lucrative, if not very honest, job. They will be all the more bitter Democratic partisans hereafter, for a Republican congress and a Republican administration are at the bottom of all their woes.

THIS DUFF BUSINESS MUST CEASE.

Princess George, prospective crown prince of Great Britain and at present an officer in "the queen's navy" does not soon marry, the Lady Alexandrina Duff or some other Duff might become a sovereign of the British empire. Hence his grandpa is after him with a sharp stick. What's the matter with Princess Mary of Teck? She is a nice, pretty girl if a princess and George would make her a good husband. The sooner George marries the better, for this Duff business must be eliminated from the British affairs of state.

THE POLITICAL SITUATION IN SAN MIGUEL COUNTY.

The New Mexican's advice from San Miguel county are to the effect that the White Cap element that carried the county in November 1890 is strongly entrenched and very formidable, and will make a hard fight in the coming election. The county administration is in possession of that element, and much money has been spent during the past year by the leaders and county officials in perfecting the or-

ganization and making it more compact. The New Mexican's informant is of the opinion that the only hope for the Democracy is to go in again with the White Caps and get a share of the spoils as was done at the last election. This informant is well posted upon all matters connected with San Miguel, and is a very good judge of political matters. The Republicans in that county will have to fight hard and courageously in order to be successful. There is yet time for all personal differences to be adjusted, and the Republicans to start in vigorously and unitedly. As at present advised, San Miguel county is a mighty uncertain quantity as far as the Republicans are concerned.

NEW MEXICO'S MINERAL OUTPUT.

The mining industry in New Mexico has now reached a stage where it deserves a far better fate than mere rough guess work as to what it is worth annually. For years past the Wells, Fargo express company's secretary has been accustomed to send out from its chief office in California an estimate of the mineral output of the mines in the west, basing the figures on the amount of shipments made by express, but for some cause or other these figures for New Mexico have always been away below all estimates by competent home authority.

Last year and the year previous the New Mexican and other territorial newspapers so outspoken and so earnest against this systematic method of misrepresentation, and showed so conclusively that the express company's statistics were incorrect, that it served to bring about a change in 1891. Now, however, the Wells-Fargo figures appear to have gone to the other extreme, and are giving us credit for a mineral production which well-informed mining men of the territory would readily recognize as quite beyond the facts. The express company's estimate, showing the production of gold and silver in New Mexico for 1891 as follows:

Gold dust and bullion by express \$ 408,649
Gold dust and bullion by other carriers 100,000
Silver bullion by express 26,321
Silver dust and bullion by freight 50,012,750
Total \$ 51,057,740

This does not include copper and lead bullion and ores and zinc and iron ores mined in the territory, which, it is claimed, will run the total value of our mineral products up to nearly \$6,000,000, or about three times greater than the valuation assigned by Mr. Walter C. Hadley, of Sierra county.

We believe that both of these estimates are incorrect; Mr. Hadley is unquestionably too low, much further from the truth than is Wells-Fargo. In the above estimate freight shipments are probably from \$1,000,000 to \$1,500,000 too high, and were it possible to get at a fair estimate, the total output would likely be somewhere near \$5,000,000 for the past year.

But at most, it is all rough guess work, and as before said, New Mexico's mines ought not much longer be compelled to rely upon this method to estimate their worth. It is hoped that at the next session of the legislature some very vigorous efforts will be made to place the territory abreast of its neighbors in this respect.

PRESIDENTIAL GOSSIP.

Wheeling Intelligencer, Rep.: New York is a very inviting field of labor for the Republican party this year.

Chicago Times, Dem.: The national Democracy will not attempt to compose the quarrels of the New York Democracy. The time for a Western candidate has come.

New Haven Palladium, Rep.: Democrats are alarmed at the outlook. The Republicans will sweep the nation this fall—or rather the discordant Democracy will win the victory for us.

St. Louis Republic, Dem.: The fight will be a vendetta, and Mr. Hill will have to settle for the action of his friends in defeating Cleveland and Warner Miller to elect Harrison and Hill in 1888.

Philadelphia Record, Dem.: Between Harrison and Hill it would be a matter of serious consideration whether it would not be better to take straight Republicanism rather than spurious Democracy.

Atlanta Journal, Dem.: David B. Hill has gotten the New York Democracy into a pretty mess. Such conduct will not win for him the support of Democrats who believe in fair and honorable methods.

Kansas City Star, Dem.: If the Democratic party is true to its principles and its protestations, and has the courage that loyalty requires, it will accept the issue forced by the New York ring of politicians and meet it boldly.

Lynchburg News, Dem.: The February convention is as far to Cleveland as to Hill. The primaries are open to the friends of both. The pretence that the people are not now prepared to decide between the two is a preposterous subterfuge.

Springfield Daily Democrat, Dem.: If New York is to be accepted as a necessary Democratic factor in the election this year, either Cleveland or Hill will be the nominee, and the question of relative amiability will be determined by the complexion of the delegation to the national convention.

WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on a lung and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will tell you that.

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you trust with so serious a matter? Are you aware that "IT STARTED WITH A COLD." Can you afford to neglect it? Can you trust with so serious a matter? Are you aware that "IT STARTED WITH A COLD." Can you afford to neglect it? Can you trust with so serious a matter? Are you aware that "IT STARTED WITH A COLD."

For sale by A. C. Ireland, Jr.

Nashville American, Dem.: Those who support Hill find absolutely no argument in his favor except the fact that by virtue of the power of Tammany Hall he controls the party machinery in New York, and that this same deleterious institution will knif the party if it can not control it.

Boston Herald, Mug.: It is observed that Mr. William C. Whitney's name does not appear conspicuously either among those who are aiding the Hill boom in New York or among those who are opposing it. Is Mr. Whitney being groomed as a dark horse in the presidential sweepstakes?

Fort Worth Gazette, Dem.: An enthusiastic ex-officer holder asked the question, "do you really think Mr. Cleveland may be nominated, despite New York?" replied "yes, if the Democrats of the country are courageous." An effort by Democrats to elect a president without New York would be that type of courage which induces a billy-goat to protract the discussion with a stone wall.

Fort Worth Gazette, Dem.: The Baltimore Sun speaks of the Gazette as "the only Hill paper published in Texas." This is disrespectful to the San Antonio Express, the Dallas Times-Herald and a host of bright, discerning weeklies which are not Hill organs, but love a valiant and successful fighter, and do not perceive in the volume or the viciousness of the Mugwump abuse of Hill any ground of objection to him by 15 karat Democrats.

Kentucky Citizen, Dem.: The Democratic state committee of New York has called the state convention to be held on the 22nd of February to select delegates to the national convention. This action is wise and politic. It will enable the Democracy of that state to clearly define their attitude, and may be the means of eliminating embarrassing complications. In fixing an early day for their state convention the Democracy of New York have done the right thing at precisely the right time.

Atlanta Constitution, Dem.: There is but one thing for the Democrats of New York to do, and that is to make their influence felt by selecting delegates to the state convention favorable to the candidate they may prefer. If they are for Mr. Cleveland they will have an opportunity of saying so. If they are for Senator Hill, they can make the fact apparent. Our impression is that the friends of Mr. Cleveland can find the ways and means for keeping themselves as warm at a mid-winter convention as the friends of Mr. Hill, and we advise them by all means to make arrangements for so doing.

Rochester Union and Advertiser, Dem.: The Murray Hill gentlemen have opposed the nominations of the regular and overwhelmingly successful regular Democratic organization in the city of New York, and even nominating for state offices made by the regular Democratic state organization which they now assume to sit in judgment upon, and formed combinations with the Republicans, under the guise of "reforming" to defeat Democratic candidates. If the state convention had been called for the latest day possible prior to the national convention, the Murray Hill party would be kicking and swearing all the same.

SICK

Head-Aches.

Sick-headaches are the outward indications of derangements of the stomach and bowels. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation of Sarsaparilla, it is seen why it is the only appropriate Sarsaparilla in sick-headaches. It is not only appropriate; it is an absolute cure. After a course of it an occasional dose at intervals will forever prevent return.

Jo. M. Cox, of 735 Turk Street, San Francisco writes: "I have been troubled with sick-headaches for the last three years from one to three times a week. Some time ago I bought two bottles of Joy's Vegetable Sarsaparilla and have only had one attack since and that was on the second day after I began using it."

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return; I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst case. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

the market in the mining camps.

In the southern portion of the country there is a large deposit of iron, the deposits of coal, lead, silver, iron, copper and gold, and in veins as well as in the form of nuggets, at Santa Fe, Durango, Placeros, Pecos, Golden and Santa Fe. Pedro being justly famous for their richness.

THE WORLD'S SANITARIUM.

It is to Santa Fe's superior climatic advantages, and its fame as nature's most healing power as a cure for consumption and other pulmonary disease that Santa Fe owes its great future upon. The highest American medical authorities concede the superior advantages of this city's location. The requisites of a climate suitable for consumption, are, according to the best testimony, altitude, dryness, equability of temperature, light and sunshine, and a pure soil. Moreover, if possible, a pure sea breeze. Santa Fe is well suited to be sought in localities interesting agriculturally, where variety and occupation are to be had, and the social advantages of the place.

The eminent German authority says: "The climate of Santa Fe is the best in the world, about 2,000 meters," somewhat less than 6,500 feet above the sea level.

At Santa Fe is the oldest military establishment on American soil, having been in almost continuous occupation since 1602 when the Spaniards first established here a presidio. The Fort of Marcy was built by U. S. soldiers in 1846 and the new post was occupied a few years later. Apache bands are the present garrison at Fort Marcy:

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues, a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, torpid liver, constipation, etc., hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the stomach and bowels.
