AHERN RESISTS NEW YORK GOVERNOR

Court Injunction Sought to Stay Removal of Borough President of Manhattan; Tammany Mixed in Fight.

(By Morning Journal Special Lensed Wire.)

New York, Dec. 10.—The refusal of John P. Ahern to submit passively to removal upon charges from the office of borough president of Manhattan by Governor Hughes has brought about a situation out of which may grow a legal fight of moment as well as a lining up of partisans and the development of the feeling of the public interest in the case. Today counsel for Ahern secured temporary injunctions restraining the county clerk from filing the governor's order of removal of the mayor from presiding at a meeting of the aldermen for the election of a successor to Ahern. The order is returnable Friday, when the effort to make it permanent will be opposed by the corporation counsel, thus, in a sense, arraying the forces of the friends of Mayor McCellan and, in this instance, of the governor, against Ahern, who has open and powerful support of Tammany hall. Should Ahern's court action fail and he be removed finally, the board of aldermen, it was confidently declared in Tammany circles today, will immediately re-elect him borough president. Tammany leaders before now have declared that Ahern would be re-elected as fast as he was removed, but whether this threat will be carried out, in the face of the governor's action, is problematical.

Another question raised by Ahern's friends today was whether Governor Hughes would have power to remove him a second time on the same grounds, were he re-elected by the board of aldermen.

OIL TRUST SHIPS KEEP TO SEA TO AVOID SEIZURE

Standard Officials Fear Execution of Texas Judgment at Pensacola.

Pensacola, Fla., Dec. 10.—Fearing that the vessels might be seized upon the judgment secured against the company by the state of Texas, the Standard Oil company today ordered the steamer Captain A. F. Lucas, and Bark Number 95, to proceed to sea, and not to come within three miles of shore until further orders were received.

The vessels, both of which are the largest oil carrying fleet of the company, had just returned from London, where they carried an immense quantity of oil from Pennsylvania. The vessels are now anchored off Pensacola awaiting wireless orders.

WONDERFUL DAY'S RUN BY ENGLISH MOTOR CAR

Fifteen Hundred Miles in Twenty-four Hours on British Race Track.

London, Dec. 10.—On the Brooklands race track at Weybridge, which was built especially for automobile speeding and where recently S. A. Edge traveled 1,581 miles and 1,210 yards in twenty-four hours, a marvelous performance, Clifford Ealp today set up a number of world records. In a 60-horsepower car he covered fifty miles in 39 minutes and 10 seconds, and 150 miles in one hour, 54 minutes and 34 seconds. He also broke the one-hour world's record with 732 miles to his credit, and the two-hour world's record with 1511 miles 144 yards.

KENTUCKY NIGHT RIDERS SUCCUMB TO WOUNDS

Two Men Engaged in Raid on Hopkinsville Reported Dead.

Mayfield, Ky., Dec. 10.—Two alleged "night riders," Will Gray and Ed Cook, died today as the result of wounds received during the visit of the 500 "night riders" at Hopkinsville Saturday morning.

Both reside on Muddy Fork, in Trig county, near Middlesboro. After receiving the wounds the men were taken quietly to their homes by others in the "night riders" order, and the fact that they were wounded was kept quiet and did not come out until their deaths occurred today.

It is believed that several other members were wounded at the Hopkinsville assault.

COMMANDED TROOPS IN NEW YORK DRAFT RIOTS

Major General Hamilton Passes Aboard at Tarrytown, Aged 92.

Tarrytown, N. Y., Dec. 10.—Major General Alex. Hamilton, grandson of Alex. Hamilton, secretary of the treasury under George Washington, died at his home here today, aged 92 years. He was born in New York in 1815, and early in life was aide to Governor Morris and later to Governor Seymour. He spent two years at West Point and at the outbreak of the civil war organized the Fifth artillery. General Hamilton served directly under President Lincoln for a time, and was in command of the troops in New York at the time of the draft riots.

PENNSYLVANIA SWEEP BY DISASTROUS FLOOD

Philadelphia, Dec. 10.—Loss of life and great damage to property is reported from central and eastern points in the state by floods caused by the heavy rains of the past few days.

The Delaware, Susquehanna and Schuylkill rivers are rising rapidly, and small streams about the coal regions have overflowed their banks, flooding mines, causing cave-ins and doing great damage to property.

Since noon today the Susquehanna river at Wilkesbarre is reported to have risen a foot an hour and the situation is alarming. Silk mills and other manufacturing establishments were compelled to shut down and traffic is interrupted.

Kentuckians Fear Another Raid. Lexington, Ky., Dec. 10.—Sixty-five men here were brought up tonight over persistent reports that a mob of 500 night riders would visit the town to destroy half a million pounds of tobacco which is ready for tomorrow sale. Police are on the alert and reserves are in waiting.

ALDERMEN WRESTLE WITH SUNDAY LAW

New Yorkers Divided On Question of What Kind of Amusements Are Permissible On Sabbath.

(By Morning Journal Special Lensed Wire.)

New York, Dec. 10.—After a heated debate a proposed ordinance removing the ban from Sunday concerts and other forms of mild amusement on the first day of the week was referred by the board of aldermen today to the committee on laws and legislation and New York is promised another "blue" Sunday as the board will meet again until next Tuesday. The law committee will hold a public meeting on the question Friday.

Alderman Reginald Donahue presented an ordinance which, while forbidding pugae, operas, farces, ballets, minstrel shows, dancing or other stage performances, would permit vocal or instrumental concerts, lectures, recitations and singing. Although the ordinance was less liberal than had been expected it provoked sharp debate.

Alderman Donahue said that he had submitted the ordinance to the corporation counsel, who declared it legal and not in conflict with the penal law. Alderman Myers said that the ordinance was in the interest of the vaudeville trust and respect should be shown those who wished a quiet Sunday.

Little Mixed on Natural History

Under the captivating heading, "The Wolf in Sheep's Clothing," the vexed editor of the Almanac declares that the Morning Journal has the cloven hoof. Max is seeing queer animals these days. The following is the latest gem discovered in the new columns of the Original Antelope.

Under the heading, "The Political Situation," the New Mexican Albuquerque morning yellow sheet, contemplates the editorial it displays its cowardice and its wickedness, although it claims to be on the right side of the courts and of the prosecuting officials and that therefore no harm, no libel or criminal cases can come to it. The republican party of this territory will at its next year's convention nominate candidates for a state ticket, for the legislature, for county and precinct officials, if the stevedore bill shall become law in time. If so, the chances are five to one that these tickets will be elected, the state, by a very handsome majority, that the senate will be the case in the legislative assembly, and also in a majority of the counties. Certainly neither the Albuquerque morning yellow sheet nor its backers and its editors will be able to do the work of nominating and the majority of the people will vote for the candidates nominated. In case of a territorial election the results will be the same. No Unscrupulous and dishonest adversaries will not be recognized in republican councils. It is well established that the Albuquerque morning yellow sheet and its backers are in that category. No

politics except such as are based upon political chicanery, downright boodism, self and pelf and unbounded conceit. In the editorial mentioned it tells the dear people what must happen and what shall happen because it says so, and because it wants it so. It purports to quote from "what our able democratic contemporary, the Tucson (Arizona) Star says." Now, the fact of the matter is that the Tucson Star is a republican newspaper and the chances are the quotation should have been credited to the Tucson Citizen, which is a democratic paper. Be this as it may, neither of the papers has any well defined or correct idea of the Albuquerque political affairs, if the clipping quoted in the editorial by the Albuquerque morning yellow sheet is correctly given, the opinions expressed by the Arizona paper are based upon information gathered from the columns of the Albuquerque morning yellow sheet.

It is about as nearly correct as that white is black or that the moon is made of green cheese. Thereafter the Albuquerque morning yellow sheet again assails the "albuquerque" and men who compose this plunder-bund which it charges has ruined and is ruining this territory. In addition to making absolutely false and untrue assertions in the editorial it displays its cowardice and its wickedness, although it claims to be on the right side of the courts and of the prosecuting officials and that therefore no harm, no libel or criminal cases can come to it. The republican party of this territory will at its next year's convention nominate candidates for a state ticket, for the legislature, for county and precinct officials, if the stevedore bill shall become law in time. If so, the chances are five to one that these tickets will be elected, the state, by a very handsome majority, that the senate will be the case in the legislative assembly, and also in a majority of the counties. Certainly neither the Albuquerque morning yellow sheet nor its backers and its editors will be able to do the work of nominating and the majority of the people will vote for the candidates nominated. In case of a territorial election the results will be the same. No Unscrupulous and dishonest adversaries will not be recognized in republican councils. It is well established that the Albuquerque morning yellow sheet and its backers are in that category. No

danger exists and no threats made by them need be feared.

Sic Em. Had the Journal any proof or grounds for the uncalculated attacks it has been making on the republican leaders in New Mexico, there would be some excuse for the sort of work it has been doing. However, every charge it has brought forth has been refuted.

There remains but one thing to do, and that is to shear the Journal of all support it is receiving at the hands of the individual officeholder, who betrays his party, should be kicked higher than a kite—Deming Comic.

Sure! It may be true that a court has pronounced our delegate and former great citizen of Pennsylvania as innocent as a new-born babe. In fact, courts have been known to do some strange things in this line. In this connection, however, there is one thing that people who are familiar with the features of the case cannot forget. Clark, the dead snail, just before he suicided, knowing that he would be in eternity in a short time, laid the ruination of the bank at Andrews' door.

He certainly knew more of the bank's business than any jury could find out since, and again he would not certainly elect to pass out into the beyond with the last act a lie to his dependent family. An ante mortem statement is taken as strong evidence in the codes of law. We are in no wise disposed to attempt to drag a man down by damaging his reputation, wrack at our efforts might be, but on the other hand we hope to see justice done to every sinner high or low. It might, therefore, be asked very pertinently, how St. Andrews been exonerated?—Alamogordo Advertiser.

Muscular Pains Cured. "During the summer of 1903 I was troubled with irregular pains in the instep of my foot," says Mr. S. Pedlar, of Toronto, Ont. "At times it was so painful I could hardly walk. Chamberlain's Pain Balm was recommended to me, so I tried it and was completely cured by one small bottle. I have since recommended it to several of my friends, all of whom speak highly of it." For sale by all druggists.

Mesilla Valley Will Turn Out En Masse to Give the First Big Boost For the National Irrigation Congress.

[By Morning Journal Special Lined Wire.]
Las Cruces, N. M., Dec. 9.—The Mesilla valley will have the honor of entertaining Governor Curry and the board of control of the sixteenth National Irrigation congress of New Mexico on Wednesday, December 11. The house of the Mesilla valley association, assisted by the Mesilla Valley chamber of commerce, on request of the water users' association, and the chamber of commerce, a mass meeting of citizens of the Mesilla valley was held on Monday night and committees appointed for a fitting celebration in honor of the guests, who are to be here on Wednesday.

The board of governors of the Elephant Butte Water Users' association and committees appointed for a fitting celebration in honor of the guests, who are to be here on Wednesday.

On Wednesday evening the visitors will be invited to meet the people of the whole Mesilla valley at the court house at which time speeches will be made and a general good time had. The people of the valley are all anxious to meet Governor Curry and get acquainted.

The Mesilla valley is very anxious to do everything possible to make the sixteenth National Irrigation congress a success, and will lend every assistance possible toward that end. The congress is of much interest to the valley, which is to have one of the largest irrigation projects of the reclamation service. Already the reclamation service has constructed the Losburg diversion dam for the purpose of furnishing water to the upper valley at a cost of \$200,000 and many indications point to immediate commencement of the great storage reservoir of Elephant Butte near Engle, which will furnish water for the entire valley as well as the El Paso valley. The Elephant Butte Water Users' association has invited Judge A. B. Falk, ex-attorney general and Hon. Felix Martinez, of El Paso, secretary of the El Paso Water Users' association, to be present on Wednesday as its guests and meet the committee from Albuquerque. The El Paso valley is also much interested in the success of the irrigation congress at Albuquerque, and will help out.

Everything will be in readiness on Wednesday and the guests of the Mesilla valley will be given a big reception.

MAKES LIFE MISERABLE.

Troubles That Keep Half of the Albuquerque Doctors Busy.

Half of the prescriptions the Albuquerque doctors write are for troubles that result directly from a weak stomach. Strengthen the stomach muscles, increase the secretion of gastric juices, and you will find that common afflictions—indigestion, with its headaches, dizziness, depression of spirits, spots before the eyes, nervousness, sleeplessness and general debility—have been overcome.

From now on build up the strength and health of the stomach with Miso-lin tablets. You will soon find yourself strong and never know the meaning of indigestion.

If Miso-lin did not have an unusually curative effect in stomach disorders, it could not be sold on the guarantee given by the J. H. O'Reilly Co. to refund the money unless it does all that is claimed for it. They give an absolute, unqualified guarantee with every 30-cent box of Miso-lin, that the money will be refunded unless the medicine cures. They take the whole risk, and you certainly can afford to get Miso-lin from them on this plan.

You receive intense, direct heat from every ounce of fuel burned—there are no damp chimneys or long pipes to waste the heat from a

PERFECTION Oil Heater

Equipped with Smokeless Device

Carry it from room to room. Turn the wick high at low—no bother—no smoke—no smell—automatic smokeless device prevents. Brass lent holds 4 quarts, burns 9 hours. Beautifully finished in nickel or Japan. Every heater warranted.

The Rayo Lamp gives a bright, steady light to read by—just what you want for the long evenings. Made of brass, nickel plated—latest improved central draft burner. Every lamp warranted.

If your dealer cannot supply the Perfection Oil Heater or Rayo Lamp write our nearest agency.

CONTINENTAL OIL CO. Incorporated

has been arranged:
Morning Session, 9:30 to 12.
Address of welcome, Colonel W. M. Berger.

Response, Manuel Trujillo, School of Education, Saturnino Baca, Primary Reading, Mrs. A. J. Smith, Primary Numbers, Miss Alice Martin.

Afternoon Session, 2 to 4.
Language, Miss Dorcas Hunsing, Modern Discipline, A. J. Smith, Schoolroom Sanitation, W. F. Newell.

New Mexico History, Clarence Ortiz.

Evening Session, 8 to 9:30.
Music, home talent.

Address, J. E. Clark, superintendent of public instruction for New Mexico, Saturnino Baca is president of the association, and A. J. Smith secretary.

The report of Jesus C. Sanchez will show the schools of Valencia county to be in a flourishing condition. It will show that where his predecessor left a balance of a few thousand dollars, that there is now a balance on hand of over twenty thousand dollars. His report will also show that the school attendance is much greater than ever before.

The teachers of Valencia county will be at this meeting urged to be present at the teachers' meeting to be held during the latter part of December in Santa Fe. The teachers have largely signified their intention of giving to Santa Fe.

INTERESTING ADDRESS BY CRAIG IN PASS CITY

Former Albuquerque Minister Now Superintendent of Educational Department of Home Missions, Preaches in El Paso.

The El Paso Times has the following regarding Rev. R. M. Craig, formerly a Presbyterian minister of this city, and now of New York City: Rev. Robert M. Craig, D. D., superintendent of the educational department of Presbyterian Home Missions, with office in New York, preached an interesting sermon in the First Presbyterian church yesterday morning before a large congregation. Before becoming identified with the board of home missions, Dr. Craig was for years superintendent of Presbyterian churches in New Mexico and Arizona. Since then he has visited the missions of the church among the Indians in different states in Alaska, in Cuba, in Porto Rico, among the Mountain

FIRST TROPHY COMES FOR CONGRESS

American Fuel Company Offers Board of Control Sum of \$500 For Purchase of Handsome Prizes.

COMMITTEE ON TROPHIES GETS RESULTS SPEEDILY

Letters Show How Big Interests Regard the Congress--Governor and Committee Off to Las Cruces.

The first big trophy fund for the sixteenth National Irrigation congress has arrived. It is for \$500, and is the gift of the Colorado Fuel and Iron company, and it came unsolicited. This voluntary contribution shows how the big interests of this section regard the irrigation congress and what they are willing to do to make it a success. The American Fuel company is a Colorado corporation, although it has some mining interests in New Mexico. The offer of this fund came to Colonel R. E. Twitchell in the following letter from President Bowen of the American Fuel company:

Denver, Colo., December 7, 1907.
Colonel R. E. Twitchell,
East Las Vegas, N. M.

My Dear Colonel:—I am informed that the next National Irrigation congress will hold its meeting in Albuquerque and that you are chairman of the committee on trophies. The American Fuel company will contribute \$500 with which to purchase a trophy to be given for the best fruit or cereal produced in New Mexico or Arizona. I want to leave it to your committee to select the trophy and also to select the fruit or cereal for which the trophy will be given.

Yours truly,
G. W. BOWEN.
This letter shows clearly the importance attached to the irrigation congress outside of New Mexico and here. It is a good beginning and Colonel Twitchell advises that he has several other equally attractive trophies in view.

LETTERS SHOW HOW THE PEOPLE LOOK AT IT

Colonel Twitchell has also forwarded a letter from Mr. W. B. Walton, editor and a member of the board of control. Mr. Walton's letter represents sentiment as it exists in Silver City and vicinity toward the congress. His letter follows:

Silver City, N. M., December 7, 1907.
Colonel R. E. Twitchell,
East Las Vegas, N. M.

My Dear Colonel:—I am in receipt of marked copy of issue of Albuquerque Morning Journal of date of Dec. 4, containing an account of the organization of the sixteenth National Irrigation congress. Please accept my thanks for your kindness in this regard. I assure you that I am heartily in accord with the plans proposed and believe that securing the congress for New Mexico, for which you are at most entirely responsible, will be the biggest advertisement that New Mexico has ever had. I will be pleased to extend any assistance within my power and influence to the congress. I can do to make the meeting a success let me know. My services are at your command.

Sincerely,
W. B. WALTON.

Delegation Off for Las Cruces.
Governor Curry arrived in Albuquerque last night from Santa Fe and left at midnight for Las Cruces, where he will attend the meeting of the Elephant Butte Water Users' association today in the interest of the irrigation congress and statehood. With the governor went a number of Albuquerque men, Colonel Twitchell, of Las Vegas; Mr. H. H. McCord, of Las Cruces; and General Eastley, of Santa Fe. The party will be joined this morning at Rincon by President Hopewell, of the board of control. The visit of the Albuquerque delegation is expected to bring about a definite plan for the Mesilla valley's part in the congress.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure, or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys become weak and the blood is not properly purified. The kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and swelling pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SAYS IT'S TIME FOR ALBUQUERQUE MAN TO WAKE UP

PROPERTY OWNER WANTS \$1,000,000 BOND ISSUE

To Be Used For Sewers, Utilities, Street Paving and Parks; The City's Opportunity is At Hand.

Albuquerque is approaching a condition in her career that will have to be met with more modern methods than we have employed in the past if we wish to build here a city commensurate with the importance that is already in sight for the future state of New Mexico; and the coming year will present an unusual opportunity to force, principally for two reasons, the irrigation congress and the general depression that is gradually settling down over most of the United States. In the midst of one of the most severe panics this country has ever seen this territory and our city have but slightly felt the shock, and it is almost an assured fact that as the country at large is forced into the changed financial and economic conditions that are sure to arise, New Mexico will find herself on the high way of great prosperity.

It is not desirable nor pleasant to think of being benighted by the adversity of one's neighbor and fellow beings, but this will be a case of benefit all around, as the millions of capital that are seeking the west will not only fill up our territory with an industrial population, but give employment to thousands of men who might otherwise be idle. Better conditions are fixed upon a new basis, this government will be confronted with an enormous unemployed problem; and no more intelligent solution can be offered than pushing the government irrigation works of the west, and thereby give a new meaning to the western part of the United States which will increase many times in population. We should take steps at once to get a special act of congress empowering us to bond this city for one million dollars, using it for a new sewer system, the ownership and operation of both the water supply and traction lines, building parks, etc. As soon as the sewer system is installed, we ought to commence the paving of all the business section of the city and gradually extend it to the residence districts. The condition of this town today is a disgrace and makes the assertion that we are pushers and up-to-date seem ludicrous, and if we expect to impress strangers with our progress and future greatness we have got to tear down and build up and clean up. I have lived in Albuquerque too long not to know what the moral is, and I am afraid of one element of our population will say to my proposition, but that class should not be allowed to hold this city in a Rip Van Winkle slumber while there are possibilities ahead of us that not many young cities in the United States can boast of. Let us not go to sleep upon our opportunities; these bonds can be sold at par, drawing 5 per cent interest. What is \$50,000 a year, even at present, for this town to pay for privilege of such improvement, and how rapidly this sum will become a mere nothing as our city increases in size and wealth under the impetus of this modern progress.

What was radical a few years ago is conservative now and we don't want to be the last to have that truth forced upon us. What if these public utilities don't pay for the present, a given per cent upon the investment; we know what the cost will be, fifty thousand a year and we will get that back many times in the growth of the city and the increased value of real estate and business. By and by they will pay directly and honestly, and then we will wonder why we did not comprehend the fact before.

M. P. STAMM.
Albuquerque, Dec. 10, 1907.

COMMITTEE OF NINE MEETS THIS AFTERNOON

Meeting Yesterday Afternoon Postponed to Allow All Members to Attend.

Four of the nine members of the joint committee to devise ways and means for providing additional funds for the convention hall plan, were unable to attend the meeting in the Commercial club yesterday afternoon, and the meeting was postponed until 5 o'clock this afternoon to allow the members to attend. The five members present held an informal discussion of possible plans for carrying through the convention hall. All members are urged to be present when the committee meets this afternoon at 5 o'clock in the Commercial club.

ALBUQUERQUE — NEW MEXICO

WE MUST WAKE UP.

We most sincerely hope that every Albuquerque reader of The Morning Journal will read and carefully consider an article from the pen of M. P. Stamm, which appears in our issue of today.

Mr. Stamm, though not at present in active business here, is one of the men who have made Albuquerque what it is today: one who has always stood in the front of progress, and has always been ready and willing to carry his share of every public burden. His communication, printed elsewhere in this paper, is directly to the point, and tells us the plain cold truth as to what we should do to further our own best interests—and what we must do to see the van of progress go past and leave us in the rear.

Albuquerque is just now entering upon the most critical period that ever occurred in the history of the town. That tide in the affairs of men which, taken at the flood, leads on to fortune, is now setting our way. If we take it, the paramount importance of Albuquerque as the city of New Mexico, is assured, but if we sleep on our opportunity, we may prepare to go the way of scores of other western towns that once considered themselves so big, so important, so powerful that everything would be forced to come their way. Their wrecks are scattered all along the road of years. It is not necessary to name them. We can all call them to mind, and if we are wise we will utilize them as "frightful examples," and escape their fate by improving the opportunity now held out to us to make Albuquerque's calling and election sure.

The boom of immigration and development to which we have looked forward, almost hoping against hope, for at least twenty-five years, is even now upon us, and the question that at this moment confronts us is, will Albuquerque be wise enough and progressive enough to seize the grand opportunity which this condition now holds out to her to become the great central city of New Mexico, or will she fold her arms, shut up her pocketbook, and permit some other town possibly as yet unborn, to carry off the prize, and leave her to join the company of those communities that have been too short-sighted, too indolent or too penurious to put forth the little effort or the little money that was required to permanently endow themselves with commercial supremacy when good fortune generously held it out to them.

MAY INTEREST SOME PEOPLE.

The anti-gambling law goes into effect with the coming in of the new year, and it is commonly believed that so far as the city is concerned a high license law for the sale of liquor will go into effect at the same time. It is also believed by some persons—though The Morning Journal regards such belief as without any good foundation—that some of the places in which gambling has hitherto been licensed, will continue after the new law takes effect to run a game or two "on the sly." As we have said above, we do not believe there is any warrant for such a suspicion, nevertheless, for the benefit of any one who may possibly contemplate taking such a chance, we think it timely to call attention to the fact that in other cities where such laws as the New Mexico anti-gambling act have been put in force, the courts have held that the violation of that law was sufficient ground for canceling the liquor license of the house in which the offense was committed.

In view of this fact it is not likely that any sane man would take the chance of losing a ten, twelve, or fifteen hundred dollar liquor license, for the sake of the little he might make by running or trying to run an illicit gambling game. It would not be "business."

INJUNCTION PROOF LAWS.

Readers of The Morning Journal will remember that only a little while ago there was a great deal of very noisy posturing, especially in the southern states, about bringing the railroads to law, in a summary manner, through laws that were to be, as we were told, "injunction proof"—that is, they were to be so framed that they were to be absolutely immune to any sort of form of injunction, by having that fact plainly stated in the body of the law itself—after the manner of lifting yourself over the fence by the stick of your own breeches.

and thus the railroads were to be brought to time in a summary manner, by laws which, whether constitutional or not, would have to be obeyed first, and tested in the courts afterwards.

Several of the states made moves in that direction, but Alabama made herself rather more conspicuous than any of the others, and her story is told as follows:

The legislature met, remained in session a short time and, against considerable opposition from a minority, passed bills covering freight and passenger rates, classification of commodities, methods of enforcing such rates and so on. The advisers of the executive had assured him that the bills were so artistically drawn that in the event of their passage it would simply be impossible for any court to interfere with their enforcement. The most original idea or device in them was to avoid putting any direct and specific duty on state officers. Passengers, shippers and others were empowered to bring suits against offending railroads, and the statutes were given the form of "penal" acts in order to disarm equity jurisdiction.

But scarcely was the ink dry on the engrossed acts when the resisting railroads went to Judge Thomas C. Jones of the federal circuit court and applied for a sweeping injunction of a "blanket" order, an injunction directed at the citizens of the whole state, and suspending the enforcement of the new acts by any means whatever until after a determination of their constitutionality in the federal courts. This order was based on the assertion of the complainants that the new acts were unreasonable, oppressive and confiscatory. The injunction is temporary, but for the time being Alabama is put back in the position it occupied before the extra session, and all that the executive accomplished by that session was to create more work for the courts and to add to the already numerous pending questions the issue whether laws can be made injunction proof by the particular device above specified.

NO DENATURED CHRISTMAS.

Under the above heading the Kansas City Journal directs public attention to the fact that at about this time every year those melancholy or dyspeptic individuals who are unable to enter into the joys of the Christmas season, send out their wallowing protests against the observance of the time-honored customs of the holiday and decry the fact that the children of the commonwealth are being "deluded" into a belief in Santa Claus. To the credit of civilization these would-be assassins meet with little encouragement and the joyous celebration of Christmas goes merrily on.

To the ranks of the advocates of a denatured Christmas have been added certain members of the Chicago Women's club, who are followers of a Mrs. Blackwelder, the president. This woman expresses herself in these words: "I have come to believe that the whole custom of giving at Christmas is pernicious and has no excuse for being." This sweeping denunciation of a custom that has become a part of our modern life is uncompromising and unqualified. Had Mrs. Blackwelder modified her statement so as to say that the custom of giving too lavishly is pernicious, she would have gained some sympathy.

The fact of the matter is that Christmas, like many other good things, is often abused. In our zeal to give fitting expression to our generosity and devotion to those we love and esteem we often overdo the matter and bring financial embarrassment to ourselves. It is foolish to give beyond our means, and in so far as Christmas frequently encourages men and women to buy presents they can ill afford, Mrs. Blackwelder is right. Grown up people need cautioning in this respect for it should be retained in mind that the spirit of Christmas is good fellowship and remembrance, and that the giving is only an expression of these sentiments.

But Christmas is not alone for the grown-up. It belongs to the children and they should be considered first in the distribution of its blessings. If there must be retrenchment on this day, let it not be at the expense of the little folks who are in no way responsible for a tightening of the money market. Ordinarily it takes but little to bring happiness to a little girl or boy, and the beauty of the anniversary should be preserved to these innocents. If Mrs. Blackwelder and her associates want to discourage grown people from squandering their money on each other, let them do so, but they should not encroach upon the historic rights of the children which must and shall be preserved.

IT OUGHT TO BE DONE.

An effort is being made to secure the widening of the road from the city limits over to Old Town, and this is a work that ought to be done, by all means. The road ought to be widened and straightened. It is one of the principal thoroughfares in this vicinity, and is used as much as some of the principal streets of the city, yet in places it is so narrow that there is scarcely room for a team or wagon to stand when the trolley car is passing.

This road has always been much used, ever since the present city of Albuquerque was founded, and there is every reason to believe that it will be very much more than ever before, because on account of the irrigation congress, the exercises at the fair

grounds will be more than ever attractive, and there will be more people in the city from abroad, who will naturally want to see whatever of interest there is to be seen within convenient reach of the town.

Nearly all the property holders, we believe, along the line of the road, are willing to give the land necessary to make it a passable and respectable thoroughfare, and the prospect is that it will soon be put in creditable condition.

Reports from all over the country indicate that the usual aftermath of a monetary stringency in this country will scarcely be in evidence, as a result of the trouble from which we are emerging. If this hopeful outlook is realized there will be ample opportunity afforded to those who hold to the theory that a depression is inevitable after a period of prosperity to explain where the hitch occurred in their alternation program.—San Francisco Chronicle.

The San Francisco Chronicle says Mr. Harriman has many sins to answer for, but, it adds, no one will deny that he is a good judge of financial and industrial conditions. When he says, therefore, that the shock to confidence is past, that "we are in the rebound and in it to stay," we must all recognize that we have the opinion of one of the most competent men in the country to form an opinion on that subject.

China shows that she is able to keep up with the times. A dispatch from Tientsin states that an unprecedented business stagnation has caused the local Chinese chamber of commerce to pass a resolution acquainting foreign merchants with the fact that many firms were unable to meet their liabilities and asking for an extension of several years in which to meet their obligations.

The bureaus of two of the ministers of the Sultan of Morocco have been captured and divided among rebel chiefs, and the Chicago Record-Herald thinks it milk and meat and groceries are as high in Morocco as they are here the ministers are likely to exhibit a good deal of fortitude in bearing their affliction.

The Philadelphia Inquirer thinks the inland canal question is sure to be fully exploited within a short time and to become a matter of serious national importance.

President Dinkley of the Carnegie Steel company predicts that next year will be one of the most prosperous the industrial world has ever known.

What the Editors of the Southwest Are Saying

HOODED MEN.

Acting Governor Jaffa, on the 15th inst. ordered William Mears, serving a three years' sentence from Luna county, but formerly of Colorado, who figured prominently in the sensational charge which resulted in the removal of former Superintendent Arvin Treiford, to be transferred to the territorial insane asylum at Las Vegas. Mears has manifested unmistakable signs of insanity.

Were all the witnesses hooded who testified against Treiford in the recent investigation? Let's see; one has been convicted of murder, another was shot while resisting an officer, and now one is insane. There must be something wrong somewhere.—Estancia News.

As They Do It in Roswell. Did you ever try to make an estimate of the amount of money worse than thrown away for liquor, right here at home? The six saloons of Roswell pay the city treasury thousands of dollars a year license money. Well, the twelve thousand dollars license paid is but a small part of their profits on sales. Over one hundred thousand dollars a year is "blown for booze" in Roswell.—Roswell Record.

Fairy Tales. The butchers and grocers of Phoenix seem to be awaiting with heroic patience a confirmation of the Kansas City and Chicago rumor that the prices of all meats and packing house products have been reduced.—Phoenix Republican.

The Disgraceful Part. The most disgraceful phase of the political situation in New Mexico, is that Andrews is getting ready to run for congress again. If we expect to obtain stability we must cut out such company.—Springer Stockman.

A Soldier and a Wise Man. Sam Phillips is carrying his right arm in a sling, as the result of mixing up with a steel wire Sunday. Says he won't do it again.—Patencia News.

Valuable Advice. Hon. Henry M. Hoyt, solicitor general of the United States, who has come to New Mexico to look into pending federal litigation, should be assured of a hearty welcome, and the moral support of the great, right-minded majority of the people of the territory. If land frauds have been committed in New Mexico, let the guilty parties, whether of high or low degree, be punished to the full extent of law. If no such frauds have been committed, let that fact be established beyond question, so that the good name of the territory may no longer suffer in that regard from the accusations of a few reckless and designing persons. If the honorable so-

Croup

When a child wakes up in the middle of the night with a severe attack of croup as frequently happens, his time should be lost in experimenting with remedies of a doubtful value. Prompt action is often necessary to save life.

Chamberlain's Cough Remedy

Has been known to fail in any case and it has been used for over one hundred years. There is no doubt, however, that it is a most effective remedy for croup, whooping cough, and all other respiratory troubles. It is sold in small and large sizes, 10 cents.

GO TO BELEN

The Future Railroad Center of New Mexico

Located on the Belen Cut-off of the Atchison, Topeka and Santa Fe Railway. The new City of Belen is thirty-one miles south of Albuquerque, N. M.; is at the junction of the main line of the Santa Fe system—leading East and West from Galveston and Chicago to San Francisco and Los Angeles, from the Northern states to El Paso, Texas, and the Republic of Mexico.

The Belen Town and Improvement Company

(Incorporated)

Are the owners of the Belen Townsite, consisting of 1000 business and residence lots, size 25x142 feet, fronting upon eighty and ninety-foot streets and avenues, right in the business center of the new city and directly upon the Santa Fe Railway depot grounds. The Atchison, Topeka and Santa Fe Railway Company is now grading its extensive depot grounds and yard limits 800 feet wide and a mile long (capacity of seventy miles of side track) to accommodate its immense passenger and freight traffic, Harvey eating house, roundhouse, coal chutes, water tanks, machine shops, etc.

THE CITY OF BELEN

Has a population of 1500, and several large Mercantile Houses, the Belen Patent Roller Mills with its 150 barrels a day capacity, winery, etc. It is the largest shipping point for Flour, Wool, Wheat, Wine, Beans, Hay and Fruit in New Mexico. From its location upon the great trunk line leading north, south, east and west, to all points in the United States and Mexico its future growth as a commercial point can not be estimated. All fast, limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and the climate unsurpassed. Belen has a \$16,000 public school house, two churches, a Commercial Club, three hotels, restaurants, etc.

The Hotel Belen, with up-to-date improvements, has just been completed and opened.

The lots offered are low in price and the terms are easy. One-third of purchase money cash, two-thirds may remain on note and mortgage for one year, with interest at 4 per cent per annum. Title perfect and warranty deeds given. Come early if you wish to secure the choice lots. For further particulars and prices of lots call in person or write to:

The Belen Town and Improvement Co.

JOHN BECKER, Pres. WILLIAM M. BERGER, Secretary

FARMERS THROG TO CONFER WITH SOIL EXPECT

SPLENDID MEETING AT PAJARITO YESTERDAY

Professors Tinsley and Garcia of Experiment Station Meet Splendid Responses From People of the Valley.

By actual count there were seventy-five farmers, mostly natives, crowded into the Pajarito school house yesterday afternoon to hear Professor J. D. Tinsley and Professor Fabian Garcia, soil culture experts from the experiment station of the Agricultural college at Mesilla Park. The meeting was held under the auspices of County Superintendent A. B. Stroup, who is in the interest of the farmers, and their prosperity and advancement. It was one of the most interesting meetings ever held in the Rio Grande valley, and the enthusiastic response which the farmers gave to the efforts of the experts is a most hopeful and encouraging sign. The spirit of progress has been instantly awakened and with a few more such meetings the farmers of the valley will all be thoroughly alert to ways and means to better their condition and to get better results from their cultivation of the fertile soil of the Rio Grande valley.

Addresses on better methods of farming, good roads and other vital subjects were made by Professors Tinsley and Garcia by Felipe Hubbell, the well known farmer of Pajarito and Superintendent Stroup.

The advantages of modern machinery in the saving of labor and better results; the importance of larger acreage and better yields, and the need for better roads were all brought out strongly by the speakers. All were listened to with close attention and when the meeting was thrown open for two hours, the questions came so thick and fast that the visitors almost had to dodge. Every farmer had some difficulty or a half dozen difficulties which he wanted cleared up and in most cases the matter was easily set right and suggestions made that will prove invaluable to the recipients.

The following are samples of the questions answered by Messrs. Garcia and Tinsley:

How often during the season should things be irrigated?

Should trees be irrigated late in the fall?

Is it well to plow trees late in the fall?

How can one know the San Jose scale?

What is the proper time to cut alfalfa?

What can be done to rid trees of waterpills?

How should wheat smut be treated?

Is wheat smut and corn smut the same?

What is the difference between corn smut and wheat smut?

Have the changes of the moon any effect on planting trees?

What can be done for the squash bugs?

Are there any crops that will grow in alkali ground?

Can pear twigs be grafted on apple trees?

One farmer asked the reason for the failure of certain crops and trees to grow on his land and the discussion developed the fact that the soil was heavily alkaline.

Another reported that he had been troubled by the toothed fruit trees dying for some unexplainable cause and wanted light on the matter.

The visitors with Superintendent Stroup visited the schools also during the afternoon and were entertained at dinner by Felipe Hubbell. They returned home late last night somewhat tired but enthusiastic over the result of the meeting.

Other Meetings This Week.

Today the superintendent will drive to the experiment station men to the Rancho de Arizco. Thursday they will speak at Alameda and Friday night at Los Griegos. Saturday afternoon there will be another meeting at the court house which it is expected will be largely attended. At this meeting Governor E. S. Stover will exhibit a road drag which it is believed will prove of material assistance in improving the county roads, and a drag which can be easily made to any farmer. The drag has been made by Governor Stover at his own expense to help the people along.

The meeting yesterday was one of the most extremely interesting I ever attended," said Professor Tinsley last night. "The instant response and intense interest shown by the farmers promises splendidly for the future of Pajarito county. The questions asked were all intelligent and showed that the people are anxious to improve their methods of farming and make more out of their land."

The concert given last night by the Gemunder Concert company at the Santa Fe reading rooms, was a rare musical event and the company is one of the best attractions that has ever appeared in Albuquerque. It speaks most highly for the good work of Superintendent of Reading Rooms S. E. Busser that such attractions are being secured for the benefit of the Santa Fe men and incidentally for the public.

The Gemunder string quartette, which is engaged to give a series of concerts at the big Raymond hotel in Pasadena, Cal., during the season just opening, rendered three numbers, all of which were excellent. The first two especially being splendid. "Fantasia Tannhauser-Lohengrin" from Wagner, and Weber's "Invitation to the Dance."

To the great regret of the audience, popular music was substituted for the remaining classical numbers which were as follows:

Cello solo, "Adagio" by Bartolotti.

Albert C. Gemunder.

Violin solo, "Concerto Romantico."

Viola solo, "Concerto Romantico."

Violoncello solo, "Concerto Romantico."

NEW SETTLERS ARE BRINGING THEIR MONEY ALONG

EAST NEW MEXICO BORDER SCENE OF STRENUOUS LIFE

Nara Visa Is the Van of Growing New Towns, Peopled By Farmers from Iowa, Illinois and Kansas.

(By Morning Journal Special Licensed Wire.)

Nara Visa, N. M., Dec. 9.—The settlers who are pouring in by the thousands to eastern New Mexico are not only bringing along their livestock and household goods, but have their money with them, as is evidenced by the fact that the business they do is almost entirely on a cash basis.

Nara Visa, a two-year-old town of 700 people, on the Rock Island only two and a half miles from the Texas line, is a new town of the future agricultural country which is being peopled by the pick of the sturdy farmers of Iowa, Illinois, Kansas, Oklahoma and Texas—the home and stock of the new west, men who have been schooled in hardship and who do not come to the southwest looking for soft snags, but who know conditions, who know how to prosper in a new country and come splendidly equipped both to make their fortunes and build up the country.

Today the Morning Journal correspondent, for instance, saw a party of new arrivals from Iowa, unloading their solid hardwoods, which are being taken to their claims a few miles from town.

Willard Belknap, United States commissioner, who was here before there was a sign of a town, and who has borne the burden and the heat of the day in building it up, has already received more than 2,000 filings of claims.

Underwood Standard Typewriter

Read what one has to say about this: Wm. Sangmeister, living at 415 N. 1st St., Albuquerque, N. M., says: "My wife suffered a great deal with pains in her back which became severe when necessarily required even a slight strain on the muscles of the back. If she would sweep the chimney or do any other work, she was obliged to stop at once. Three years ago she was advised to use Doan's Kidney Pills, and procured a box. They afforded her quick and genuine relief and from that time on she has appeared to me as a woman who is well and happy. She is now a healthy and contented woman, and she is convinced that there is nothing more effective for disordered kidneys than Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

LOCAL ITEMS OF INTEREST

THE WEATHER

For the twenty-four hours ending at 6 o'clock yesterday afternoon:
Maximum temperature, 50; minimum, 18; mean, 47; partly cloudy; south winds.

FORECAST.

Washington, Dec. 10.—New Mexico—Fair Wednesday and Thursday; warmer in northern portions Wednesday.

Arizona—Fair Wednesday and probably Thursday.

Thomas Luna arrived in the from Magdalena yesterday.

Edwin Springer, of Elgin, Ill., is a business visitor in the city.

J. D. Hagler arrived in the city yesterday from Tulsa, Okla.

Mrs. B. Bibb, of Bismarck, N. D., visited friends in Albuquerque yesterday.

Miss Anna Erickson, of Flagstaff, Ariz., was among the visitors in the city yesterday.

Mr. and Mrs. A. W. Chase, of Keizer, arrived in the city from that place yesterday.

Miss Lou Chambers and her sister-in-law, Mrs. Buchanan, left yesterday for El Paso.

Mr. Ernest Meyers who has been ill at St. Joseph's sanitarium for the past two weeks, is again able to attend to business.

An interesting program was rendered by the Presbyterian Brotherhood at its regular meeting in the church parlors last night.

The Ladies Aid society of the Presbyterian church meets Thursday afternoon at the residence of Mrs. W. G. Hone, 815 West Copper avenue.

Miss Marie Gallagher, of Marietta, Ohio, visited friends in the city a short while en route home from a visit of several months with friends in Pasadena, Cal.

County Commissioner J. A. Gordon, of McKinley county, was in the city from Gallup yesterday, accompanied by Sheriff Harry Coddington, of McKinley county.

Regular meeting of the Women's Relief corps this afternoon at Redmen's hall. Annual election of officers. By invitation of the president, Sadie Howditch, secretary.

Robert I. Sison, traveling salesman for the Jones-Paddock Tea and Coffee company, of San Francisco, is in the city this week calling on the trade and his numerous friends.

Alvin Pohle has awarded the contract for the erection of a dwelling on South Edith street, to W. H. Davis. Mr. Pohle intends to build three or more houses on the Highlands at once.

Announcement is made of the engagement of Mr. Julius Seligman, of Bernadillo, to Miss Blanche Block, daughter of Mr. and Mrs. H. Block, of San Francisco, Cal., former residents of Albuquerque.

H. Sanders and L. D. Bente, Santa Fe engineers, will leave for the city of Mexico in a few days. They go to Mexico on an extended business trip which will likely keep them away the greater part of the winter.

Elmer Woods, colored, will have a hearing in police court this morning on the charge of stealing \$7.20 from a chainmail bag, the property of Anna Ross, colored, in the rooming house conducted by the Ross woman at the corner of third street and Copper avenue.

P. W. Schaffner is in the city from Chicago.

C. H. Stegman is in the city from San Francisco.

Charles Avery, of St. Paul, Minn., is a business visitor in the city.

Charles E. Doll, the Denver traveling man arrived in the city last night.

The ladies of the Women's Relief corps met yesterday afternoon and elected their officers to serve during the coming year.

Harry Rankin and family from New York city arrived here last night. Mr. Rankin, who is a brother of survivor Don Rankin of this city is interested in the Southwestern Brewery and Ice company.

Rev. K. A. Childs, pastor of the Christian church was the recipient of a pleasant surprise last evening when Mrs. Frank Brainerd and a number of other ladies of the church appeared at his home, 122 South Broadway, armed with various gifts in the way of good things to eat and other tokens of the regard of the congregation. The evening was a very pleasant one both for surprised and surprised.

Adolphus Busch, the millionaire St. Louis brewer, accompanied by his

CONLEY CASE IS BROUGHT UP IN COURT
DISMISSED BY JUDGE ABBOTT
WAIT A PRIMARY ELECTION LAW

INTERESTING DECISION
MADE BY JUDGE ABBOTT

Holds That City Ordinance Does Not Cover Offense With Which Santa Fe Employee Was Charged.

The case of Mrs. John Conley against her husband John Conley, a Santa Fe brakeman, charging assault and battery was dismissed by Judge Abbott in the district court yesterday, the decision of the court resulting in a great deal of public interest, especially among city officials. Conley was arrested on a warrant sworn to by his wife, who alleged that on July 28 last, Conley beat and hit her. The court held that the city ordinance regarding a breach of the peace does not cover such disturbances as alleged by Mrs. Conley unless committed in a public place or in such a manner that the public peace is disturbed.

The complaint was brought under the city ordinance regarding disturbance of the peace. It is understood the plaintiff will file information at once under the territorial statute. M. E. Hickey and Thomas N. Wilkerson appeared for the plaintiff and Kluck & Owen for the defendant. The alleged assault occurred at the home of Engineer John Kosh where Conley's divorced wife was staying and where the court had placed the child of Conley in temporary custody. Conley was allowed the freedom of the house and allowed to see his child and take her as desired. The matter of the permanent custody of the child will come up in the district court in a few days. There has been more or less trouble all the time since the divorce of Mrs. Conley from her husband, culminating some months ago in an attempt by Conley to seize the child from his mother at the Santa Fe station.

The trial began in the district court yesterday of the case of Francisco de la Gamme against Filomena de la Gamme, with Hickey and Thomas N. Wilkerson for the plaintiff and Kluck & Owen for the defendant. The action is a forcible entry and detainer suit regarding the possession of a small strip of land.

DAMAGE SUIT MAY COME UP IN THE COURT TODAY

McKinley County Officials in Connection With Action for \$10,000 by Nicholas Hengel.

It is understood that the damage suit of Nicholas Hengel against Sheriff Harry Coddington, of McKinley county, may come up in the district court today. Sheriff Coddington and County Commissioner Gordon were in the city yesterday on business. It is understood to relate to the suit.

Hengel sues to recover \$10,000 from the sheriff on the ground of injury to his sensibilities incurred while he was in the McKinley county jail overnight at election time in 1906.

It is said that Hengel and a number of others were arrested and jailed by the sheriff for fighting and were released after spending a sleepless night in the jail.

Alleged by the defense that Hengel pleaded guilty and was fined next morning, the plaintiff however, averring that the imprisonment was illegal and damaged his feelings and reputation in the sum of \$10,000.

Kluck & Owen are attorneys for the plaintiff and the trial of the case will be followed with interest. A large number of witnesses, it is said, will appear in the case.

CLAIM SHEEP ATE UP \$500 WORTH

Damage Suit Brought By Raymond and McMillen Against Policarpo Amijo in the District Court.

Alleging that defendant allowed 4,000 sheep to invade plaintiff's land and eat up and damage the pasture thereon, Joshua S. Raymond and A. B. McMillen filed a suit in the district court yesterday against Policarpo Amijo for damages in the sum of \$500.

The complaint alleges that defendant is owner of a tract on the Cebollita land grant of 5,116 acres of land, upon which in November of this year Amijo drove a big flock of sheep which ate up and trampled the grass sufficiently to cause plaintiff a loss of \$500, for which costs of which with costs of suit they ask the court. Mr. McMillen appears as attorney.

Committee Appointed By Presbyterians to Confer With Similar Organizations Regarding Legislation.

At last night's meeting of the Presbyterian Brotherhood in the Presbyterian church the subject of the advisability of a primary election law in New Mexico was the topic of the evening and came in for a vigorous discussion. Attorney Frank Ackerman made an address on the subject after which there was an interesting discussion participated in by D. H. Boatright, J. L. Johnson, J. W. Anderson, R. H. Collier and others. As a result of the discussion a committee of five was appointed to confer with like committees of the Brotherhood of St. Paul and other church organizations with the purpose of organizing to urge the passage of such a law in the territory. The committee consists of Dr. W. G. Hope, chairman, R. H. Collier, D. H. Boatright, Phil Ross and Frank Ackerman.

The members of the Presbyterian Brotherhood are unanimously in favor of such legislation and it is believed a similar sentiment prevails among the members of other church organizations.

NEW CRYSTAL BILL IS PLEASING THE PUBLIC

Fancy Banjo Playing, Singing and Dancing and Other Stunts Attracting Good Crowds to Gold Avenue Playhouse.

This week's bill at the Crystal theater is proving very popular. A very supple and graceful young man named Oro L. Goodhue presents the opening number, which consists of banjo playing, singing and dancing. Goodhue is a thorough artist with all three.

One act which is still tardy is that of Sherman and Fuller, comedians, who apparently have gotten lost on the way here from Los Angeles and have not yet turned up. This act, however, will be put on just as soon as it arrives, rounding out the most clever bill the Crystal has ever had. Besides, Martin, an exceptionally good Roman and flying ring performer will fill the bill. Mr. Scott's illustrated song this week is the old favorite, "When the Roses Bloom Again Beside the River." The great act of the week, in fact, for the season is that of the genuine Scottish Highlanders, "The Three Macs," in their superb Scottish dancing and bag piping. All the dances are perfectly executed, but the Highland dance, sword dance and sailors hornpipe are splendid. The little girl who participates in these dances in a genuine wonder. "Stagestruck" is a new and amusing moving picture on the program.

IF A POUND BOX OF FEES CELEBRATED CARAMELS WON'T PLEASE HER, NOTHING WILL.

Our Showing of Holiday Goods Will Be One of the Most Complete in Town.

Large size sleeping blouse, dull large heads, long curly natural hair and eye lashes, a beauty, \$1.10

18 inch full pointed line kid body doll, long curly natural hair and eye lashes, one of the handomest dolls, \$2.50

Trinity chimes, \$1.45

Holmes trumpet mouth harp, something new, \$1.00

12 inch metal top trunk, would please any little girl, \$1.50

We will need a few more extra clerks.

THE MAZE, Wm. Kicke, Proprietor.

AFTER A DAY OF THE STRENGTH OF CHRISTMAS SHOPPING THERE'S NOTHING QUITE SO REFRESHING AS A CUP OF FEES HOT CHOCOLATE—WALTON'S DRUG STORE.

A Walk of two blocks will save you many dollars on your clothing. Buy goods and shoes at our store or other heavy expenses to pay I can sell you a \$25.00 overcoat for \$12.50, a \$20.00 overcoat for \$10.00, a \$15.00 youth's suit for \$7.50, a \$10.00 boy's suit for \$5.00, a \$5.00 man's suit for \$2.50, a \$2.50 boy's suit for \$1.25. A good, all wool, heavy man's suit for \$20.00. An elegant line of ladies' fur and silk made suits, to suit everybody's pocketbook.

E. MAHARAM, 516 West Central, Cash or Credit.

A small part fine corn chop added to cow feed will increase the flow of milk. Our fine ground corn always gives best of satisfaction. E. W. Fox, 602-604 South First, Phone 412.

BACK OF The STYLE

YOU'LL find that there's a lot more than style in Hart Schaffner & Marx clothes; back of the style is the high quality of materials and tailoring which make the style last.

You can find plenty of cheaper clothes than our Hart Schaffner & Marx suits and overcoats; but they'll probably wear as cheap as they cost; they'll look cheaper than you like them in a few weeks.

Hart Schaffner & Marx clothes are all wool; they cost an all wool price and wear like it. Suits \$20.00 to \$28.00; Overcoats \$18.00 to \$25.00.
