SABBATH REST MARK OF AMERICAN LIBERTY

Declares Judge Wallace in Significant Statement Concerning His Interpretation of Missouri Blue Laws.

DETERMINED EFFORT TO ABOLISH SUNDAY LABOR

Eleven Hundred Indictments Already Returned, Kansas City Is Promised Continuation of Fanatical Crusade.

[By Morning Journal Special Leased Wire.]
Kansas City, Dec. 22.—Judge William H. Wallace, of the Jackson county criminal court, who has been credited with having started the Sunday observance movement that now has become widespread, has issued a significant statement to the Associated Press on his interpretation of the Missouri law that he is seeking to enforce. He also arraigns those whom he says violate the law for pecuniary gain, and dwells upon what he says is a crying need of one day of rest out of every seven. As a result of Judge Wallace's campaign the grand jury has, since September 20, returned 1,101 indictments against violators of the Sunday law, forced hundreds of shopkeepers to close their places of business on that day and within the past three weeks, has placed over half a thousand Sunday working men, actresses, theatrical managers and their employees, and others, under bond for hearing later. That jury is still in session and the judge says he will not until the law is respected to the letter.

Judge Wallace has for many years been one of the foremost lawyers in the state, and has always fought for the enforcement of the law. He is now to his present position by Governor Joseph W. Folk, who has accomplished what no other Missouri executive has ever done, namely the closing of the state on Sunday.

Judge Wallace, in his statement, says: "It is a mistake to suppose that the Sabbath is purely a religious institution and that its enforced observance is for the benefit of the church. The Sabbath was ordained before man had fallen or there was a church or need for a redeemer. By divine example the Almighty ordained it by resting from the work of creation on the seventh day and He impressed forever upon its sacred character by hallowing it. The Sabbath would be a divine had sin never entered the world.

"Hence when we think logically and historically, it is easy to conceive how it is that a desire for a day of rest is a latent intuition with the laboring man. The tyranny of six thousand years of human avarice has not eradicated it. Justice Field, so long a member of our United States supreme court, said when asked as one of the supreme judges of California, he declared that Sunday laws are enacted primarily for the protection of labor. We cannot work for wages in the departments of human industry, are sending in the unanimous endorsement of the labor unions to which they belong. Nor should we work on any other three days of the week combined. The Sunday theaters, as rich a harvest as the Sunday saloons, is proof of this fact.

"But contentment as it is with the needs and constitution of man, the idea of one day in seven as a day of rest was not evolved by natural reason or human philosophy. It is the feature of Christianity, by which is meant the system of theology taught by the old and the new testament, origin is with the Bible and with the confessions of the Christian church, or the religious of Greece or Rome or of any other nation.

"Upon the two doctrines briefly stated above, namely that the constitution of man requires and the Word of God commands one day in seven as a day of rest, and that the Sunday statutes of the union, with the rarest exceptions, whose name is legion, rest upon precisely the same foundation. Ministers and priests could not have pronounced the Sabbath more sacred than have the judges. Sunday laws have been declared constitutional by practically every state in the union. The supreme court of the United States, Justice Brewer rendering the opinion, has declared that Christianity is a part of our national life.

"Answering your query as to the cause of the widespread movement for Sunday closing, it seems to me to be the result of a habit of mind which is the cause of prohibition, so the open and defiant desecration of the Sabbath is opening the eyes of men to the importance of Sunday observance. Then, too, the truth contained in the statement of Daniel Webster, that the Sabbath is the bulwark of our morality, is pressing itself upon the attention of patriotic Americans and the Anglo-Saxon everywhere when his attention is turned to the subject, is quick to appreciate the sublime truth so aptly expressed in the declaration of Mr. Gladstone that the question of Sunday observance is for the masses of the people pro-

eminently the greatest of all questions. "Answering your query as to the progress of Sunday closing, I can only state the fact as to Kansas City. When the grand jury was convened here in September last over 600 retail groceries were open on Sunday. Now they are closed. Every barber shop in the city is closed. Retail merchants have closed, except a few, who observe some other day as Sunday, as permitted by our statutes. The 2,000 places where cigars and tobacco were formerly sold are observing the law, excepting now and then a clandestine sale. Only three pool halls and the theaters defy the law and two of the latter have recently closed. The credit for this result is due largely to the grand jury composed of fearless, magnificent men."

SUNDAY SWEEPS CLEVELAND.
Cleveland, Dec. 22.—Today was the most peaceful Sunday Cleveland has experienced in a year or more. Saloons were closed and the theaters closed. The police had no excitement. The police blotter was practically clear. Coroner Burke had no bodies to view and only two persons were arrested for intoxication. The police explain the sudden observance of the law as a possible precaution on the part of the saloons to avoid exciting a local crusade against them in sympathy of the Sunday law observance in effect in many other cities.

Blue Sunday in Omaha.
Omaha, Dec. 22.—Omaha experienced another "blue Sunday" with the police on the alert for violators of the law. About 20 arrests were made and the names of 50 other persons against whom information will be filed were taken.

Actress Accidentally Poisoned.
Webster City, Dec. 22.—Mrs. Cyrus Johnson, aged 23, member of a theatrical company, died at her hotel here early this morning from an overdose of fluid extract of cotton root bark. The coroner's jury returned a verdict to the effect that the fatal drug was swallowed accidentally. Mrs. Johnson's stage name was Miss Ruth Sybil. She was playing the role of Sybil in "Faust."

NEW YORKERS ENJOY SUNDAY SHOWS

Resorts Under New Ordinance With Policemen As Censors of Form of Entertainment.

[By Morning Journal Special Leased Wire.]
New York, Dec. 22.—With policemen as monitors prepared to stop any performance that offended the Sunday ordinance, the Sunday amusement promoters generally resumed business today. With few exceptions, the entertainments were such as had been permitted before Justice O'Grady's strict interpretation of the Sunday closing law interfered, and after two blue Sundays resulted in the adoption by the aldermen of a more liberal ordinance, the exceptions were the moving picture shows of the east side, which were not allowed to open, though proprietors of some promised to picture only biblical scenes. The penny shows of the penny arcades, however, were held permissible, a line of easy distinction being drawn between views that moved and those that stood still.

The theaters, opera houses and higher class music halls continued closed as before. The vaudeville houses confined their program to sketches, monologues, stereopticon and singing. The only departure of consequence for the week day presentations was that stage "business" scenes, including the "make-ups" were barred. Dancing was also prohibited on the stage, but those who would dance for their own entertainment, the dancing academies were open. The police, too, were again in full swing. The freedom from arrests of the day convinced police headquarters that the theatrical people generally had observed both the spirit and letter of the law.

NEVADA MINERS IN SORRY PLIGHT

Two Men Buried Alive Thousand Feet Below Surface Face Prospect of Two Weeks in Gloomy Cavern.

[By Morning Journal Special Leased Wire.]
Ely, Nev., Dec. 22.—The 500-foot level of the Alpha shaft was reached today by the rescuing force seeking to save the two men imprisoned on the 1,000-foot level and as all the indications point to the probability that the ground from there down is still settling, it is expected that the work will progress very rapidly. The ground where the run occurred is still settling, however, and from time to time it will be necessary to fill in the space with cord wood. The entombed men stated today that they have enough provisions on hand to last them for three weeks. Owing to the frequent runs of the hoist, the bottom of the shaft each man works with a rope tied around his body and secured from above.

Pennsylvania Mine Burning.
Pittsburg, Dec. 22.—Fire broke out in the Schoenberger mine near Monaca, Pa., and is still raging. The mine has been closed for a month and a strike is being reported that another mine explosion had occurred, but investigation shows that the fire started from cross wires. The loss will be heavy.

CURRY PARTY CAPTURES CARLSBAD

TOWN ENTHUSIASTIC FOR IRRIGATION CONGRESS

Business Men Pledge Unanimous and Hearty Support; Governor Finds Friends of Statehood Everywhere.

[Special Dispatch to the Morning Journal.]
Carlsbad, N. M., Dec. 22.—Governor Curry and party arrived here this morning and spent the day visiting friends in Carlsbad and calling on business men in the interests of the irrigation congress. The people were anxious to hear the governor speak. The business men of Carlsbad have pledged their unanimous and hearty support to the irrigation congress, as have all other towns in the Pecos valley. That the valley will fill its 5,000 feet of space at the exposition is certain and its contribution toward the expense of the congress will undoubtedly surpass the generous sum promised at the big meeting in Roswell. The trip through the Pecos valley has been a tremendous success in every way. The irrigation congress men have secured everything they came for. The governor has met hundreds of his old friends and has placed the statehood question squarely before the people of the valley, who are satisfied with the situation and ready and willing to do everything they can to help at home or in Washington. At Carlsbad also the Commercial club proposes to pay the expenses of a delegate to Washington should he be necessary.

Governor Curry and party will leave for Albuquerque Monday morning at 4 o'clock, arriving in Albuquerque at midnight on Monday.

BUSINESS QUIET IN NEW ENGLAND

Trade Expected to Improve With Coming Year Though Full Revival Is Not Looked For Until After Election.

[By Morning Journal Special Leased Wire.]
Boston, Dec. 22.—The opening of the last full week of the year finds conservatism predominating in the New England industries, but there is no feeling of hopelessness apparent anywhere and the general sentiment appears to be that the trade will partially recover during 1908, though a full revival is not looked for until after the presidential election. As this city is the center of the wool, hide, leather, and shoe industries, and the textile trades of the United States, and nearly a hundred cotton and woolen mills have their head offices in Boston, the commercial situation in the country at large is usually reflected here. New England banks stood the financial strain better than institutions in other sections, only three banks being compelled to close, and two of these, however, are being reorganized and making arrangements to do so. It is generally admitted that the financial outlook is brightening.

TAFT CONFERS WITH CAMPAIGN MANAGER

Washington, Dec. 22.—A conference was held here today between Secretary of War Taft and his campaign manager, Arthur I. Vorys, of Ohio. Beyond the national situation, as reviewed with Mr. Taft generally what had transpired in the field of politics since the secretary's absence around the world, Mr. Vorys declined to talk. He will return to Ohio tomorrow, but in the meantime he expects to talk over the Taft movement with political leaders here.

CALIFORNIA BANKS IN NORMAL CONDITION

San Francisco, Dec. 22.—The legal holidays declared by Governor Gillette for the purpose of aiding the banks during the financial stringency, ended at midnight last night. Homer S. King, president of the clearing house, says of the situation: "During the past two weeks everything in banking circles has been normal. The need of the holiday is past. Gold is plentiful on demand. The clearing house certificates have served a useful purpose but they are gradually being retired."

DENVER MEN PLAN TO HOLD ANNUAL INTERSTATE FAIR

Denver, Dec. 22.—The business men of this city have organized and incorporated the Colorado Industrial Exposition association, of which Charles E. Hughes is president and proposes to hold an annual interstate fair at Overland park, Denver. Their plans provide for the expenditure of \$100,000 in improvements at the park in the next eight months, creating one of the most elaborate exhibitions ever seen in the United States.

APPOINTMENTS WAIT ACTION OF SENATE

NO UNDIGNIFIED HASTE TO CONFIRM NOMINATIONS

Governor Curry and Bunch of Important Office Holders Must Remain in Suspense Until After Holiday Recess.

[By Morning Journal Special Leased Wire.]
Washington, Dec. 22.—The senate adjourned for the holidays with a number of executive appointments unconfirmed. The president had sent to the senate practically all of his appointments made during the summer recess of congress, and the larger part of these have been acted upon by the proper committees and confirmed in action session by the senate. The scheduled postmasters, consular appointments, land office appointments, certain judicial nominations and a list of over a thousand promotions in the army and navy. Of the nominations reported favorably by committees to the senate for confirmation, but remains to be acted upon is that of John G. Capers to be commissioner of the internal revenue. An attempt was made to secure the confirmation of Capers a few days ago but objection was made and it went over until after the holidays. No direct charges have been made but the nomination was simply passed over at the suggestion of one senator who had conferred with others before he took the action.

At Carlsbad also the Commercial club proposes to pay the expenses of a delegate to Washington should he be necessary. Governor Curry and party will leave for Albuquerque Monday morning at 4 o'clock, arriving in Albuquerque at midnight on Monday.

The committee on territories has received a favorable report for the present on the nomination of George Curry to be governor for New Mexico, but has seen no reason for holding up the appointment of David J. Leahy United States attorney for that territory.

MANGLED CORPSES TAKEN FROM MINE

Only Thirty-Three of Two Hundred Bodies Buried in Jacobs Creek Explosion Recovered By Rescue Parties.

[By Morning Journal Special Leased Wire.]
Pittsburg, Pa., Dec. 22.—Only thirty-three of the 200 or more men caught by the explosion in the Darr mine of the Pittsburg Coal company last Thursday have been found by the rescue parties. Nearly all of the others are presumed to be a mile or more beyond the point to which the rescue parties have been able to prosecute their search.

Twenty of these bodies were found today but none of them have been identified. All the bodies found today were taken out yesterday morning and transferred to the morgue, where they are being prepared for burial and placed in caskets. These caskets in the morning will be removed to a big hall to be viewed and identified by friends. The rescuers are now at the "swamp heading" about one and a half miles from the mouth, from which entries diverge.

ALLEGED MURDERER DEIES DEAD

Missourian Accused of Slaughtering Family Seeks to Fasten Crime On Dead Brother.

[By Morning Journal Special Leased Wire.]
Camden, Mo., Dec. 22.—Alford Filley, who is in jail charged with killing his wife, daughter and brother, and perhaps fatally injuring his sister-in-law, at the family home at Camden, Mo., yesterday morning, today made a statement in which he charges his brother, Henry Clay Filley, and the latter's wife, with killing Mrs. Albert Filley and her daughter. The prisoner said that while he was absent from the house for a half hour his brother and sister-in-law killed his wife and daughter. When he returned he found his brother and sister-in-law attacking him with a club and he shot his brother in self defense. He said he also had a desperate struggle with his sister-in-law.

He seemed pleased today when told that his sister-in-law probably will die. The officers do not believe his story.

Shah Promises To Be Good.
Tehran, Dec. 22.—The shah today gave an audience to the British and Russian ministers. He solemnly assured them that he did not intend to abolish the constitutional regime, but would strive to work in co-operation with the parliament.

LATIN AMERICAN HOLD LOVE FEAST

AMICABLE ENDING OF PEACE CONFERENCE

Presidents of Central American Republics in Complete Accord; Amnesty Granted All Political Offenders.

[By Morning Journal Special Leased Wire.]
Washington, Dec. 22.—A telegram sent by President Luis Anderson of the Central American peace conference, which has just been brought to a close in this city, to the presidents of the five Central American republics, a reply has been received from the heads of three of these governments—Costa Rica, Nicaragua and Salvador—showing that these governments are in complete accord with the action of the conference. Prompt and favorable replies are expected from the presidents of Honduras and Guatemala. President Anderson's telegram and the replies thereto are as follows:

"December 20, 1907. The presidents of the republics, Costa Rica, Guatemala, Honduras, Nicaragua and Salvador. The Central American peace conference, having happily terminated their labors today have agreed by acclamation to recommend the governments of Central America, to grant full amnesty for political offenses and others connected therewith.

"Upon communicating to your excellencies this generous proposal we rely upon your high sentiments in accepting the hope that you may see fit to crown our labor with a measure which will be a pledge of reconciliation and fraternity and a happy beginning of an era of concord for our Central American family.

(Signed.) "LUIS ANDERSON," President.

"I applaud the generous appeal of the conference. In Costa Rica amnesty is unnecessary because no one is actually suffering on account of political offenses or others connected therewith, otherwise it would be pleasing to me to comply with the request of the conference.

"GONZALES VIQUEZ," President of Costa Rica.

"Pleased to hear of the happy termination of the Central American peace conference. In accord with high sentiments that animate the honorable delegates my government has already granted amnesty for political offenses. I congratulate the honorable delegates.

"J. S. ZELAYA," President of Nicaragua.

"Impressed with the generous appeal of the conference, I have the pleasure to advise you that with respect to Salvador the government has decreed amnesty since the latter part of November.

"FIGUEROA," President of Salvador.

COSTLY WRECK ON PENNSYLVANIA

Passenger Train Dashes Into Debris of Piled Up Freight Cars; Four Hurt; Traffic Badly Blocked.

[By Morning Journal Special Leased Wire.]
Pittsburg, Pa., Dec. 22.—Four persons were injured, heavy property loss was sustained and three tracks of the Pennsylvania railroad were blocked for the night by two wrecks near Bohlav, Pa., fifty-eight miles east of here, tonight. An extra freight left the rails of track No. 1, an amount of a broken rail, and it is believed that twenty cars were smashed and piled up over tracks Nos. 2 and 3. Almost immediately after the accident to the freight the Chicago and North Western high speed to make up lost time, plunged into the debris with terrific force. Everybody on the train was badly jolted and shaken, and many of the passengers being thrown from their seats. None of the passenger cars left the tracks, but a number of windows were broken and several persons were cut by flying glass. At the office of the company here it is said that one mail clerk was severely bruised and bumped by being thrown against the side of his car, and that three passengers were more or less cut and bruised. No one on the freight train was injured.

The mail train was drawn by two locomotives. The front locomotive almost completely demolished.

COLORADO STATE BANKS HOPELESSLY INSOLVENT

Receivers Wind Up Affairs of Dozens of Institutions Closed Last Week.

Denver, Dec. 22.—Neither the Colorado state bank of Durango and its branch bank at Pagosa Springs, nor the Southern City state bank, also at Durango, both of which closed their doors the week before last, will be able to reorganize and re-open, according to H. M. Beatty, state bank commissioner, who returned from Durango yesterday, after placing the institutions in the hands of receivers to wind up their affairs.

The liabilities of the Colorado State and its Pagosa branch are \$120,000, which do not include a capital stock of \$25,000. The assets have a face value of \$450,000, but are of such character as to fall very far short of meeting the indebtedness of the institution.

SPARKS AGAIN APPEALS TO PRESIDENT

FEARS DISORDER WHEN TROOPS ARE WITHDRAWN

Local Officials At Goldfield Join in Request of Executive For Retention of Portion of Federal Force.

[By Morning Journal Special Leased Wire.]
Goldfield, Nev., Dec. 22.—(Overland Sparks.) It is understood, is preparing a statement of present conditions in Goldfield to be telegraphed to President Roosevelt. The governor is not satisfied that the president has the true light on the situation, notwithstanding the report of the commission and the order of the war department for the withdrawal of the soldiers. The communication to the president will also, it is said, contain a request for the retention at least of a portion of the troops now here after the date set for their going. The order for the movement of the troops over to their permanent quarters came from General Funston to Colonel Reynolds, in command of the troops here, today. To supplement the request of the governor, a communication has gone to him from Sheriff Ingham, chairman of the county commissioners, and Commissioner Spink. This statement to the president asserts that the county officials will be unable to handle the situation after the departure of the troops, should trouble ensue.

The sheriff is re-organizing his force of deputies and adding thereto. The newly appointed deputies are in the pay of the Goldfield Mine Owners' association and have begun already to patrol the mines. The sheriff's force, armed with shot guns and automatic revolvers. Acting President Mahoney, of the Western Federation of Miners, and after going over the situation with officials of the local miners' union that the Western Federation of Miners would uphold the local in all that it had previously done, and will stand squarely behind it in future actions. He says they can be, with the Goldfield Mine Owners' association, as compromise which discredits or eliminates the Western Federation of Miners and he is not optimistic of any speedy settlement. He will remain some time. The union pickets surrounded the mine again today and the guards of the mine owners patrolled close by. Around the property of the Consolidated company a high barbed wire fence is being built.

OFFICIAL ORDER WITHDRAW TROOPS

Washington, Dec. 22.—It was stated at the white house tonight that telegraphic appeals sent by civic bodies, mine owners and individuals of Goldfield, Nev., to President Roosevelt asking the necessity for retaining a portion of the federal troops at Goldfield indefinitely, had been received, but that no action had been decided.

Adjutant General Ainsworth stated tonight that the order signed by Secretary of War Taft yesterday directed to General Funston for the withdrawal of the federal troops from Goldfield on December 20 was forwarded today.

ALASKAN GOVERNOR FILES REPORT

Asks Congress For Money For Mail and Telegraph Lines in Far North; Whiskey Peddler Curse of Territory.

[By Morning Journal Special Leased Wire.]
Washington, Dec. 22.—The development of the resources of this vast territory and in the welfare of its people, with continued liberal appropriations for coal, timber, railroad, and other extensions, highways, bays, aids to navigation and geological surveys, is bespoken by Governor W. H. Townsend of Alaska in his annual report to the secretary of the interior.

The governor estimates the population of Alaska at 21,000 exclusive of 6,000 or 7,000 people of mixed nationality employed in mines, canneries and railroad construction during the summer. He reports extensive prospecting in the various mining districts and says that some valuable findings in silver, lead, zinc and manganese are being made. The whiskey peddling is stated to be the worst enemy of the natives here, for the sake of Alaska along the coast Indians to live as the whites do are increasing. The governor recommends revision of the code of laws relating to a civil judicial system for the state of Alaska along the west coast of Yakutat bay and extending inland 200 miles, legislative restrictions of liquor sales within five miles of any railroad or other enterprise employing 100 or more men, except in an incorporated town, development of coal lands and amendments to the laws of governing placer locations.

Steel Works Close For Christmas.
Pittsburg, Dec. 22.—Pittsburg's entire force of the steel mills here will have a vacation during the holidays week, nearly all departments closing until January 1. Resumption of the date is promised.

Nearly 3,000 men will be affected.

REST MARCH OF FLEE STILL UNDECIDED

SOME OF EVANS SHIPS MAY RETURN VIA SUEZ CANAL

Others May Remain in Pacific Ocean As Permanent Addition to Naval Force Guarding Western Coast.

[By Morning Journal Special Leased Wire.]
Washington, Dec. 22.—The program for the return of the battleship fleet is a matter that has been discussed among the officials of the navy department, but as yet no decision has been reached and will not for some time to come," said Secretary Mahoney. The secretary's remark was called out by a wireless message from the flagship Connecticut stating that Admiral Evans had authorized the Associated Press to say it is his personal belief that the navy department's present intention is to have the battleships return by way of Suez canal next summer or fall. As the president, through Secretary Loeb, previously had spoken to the same effect, it seems clear that Admiral Evans' statement was not suggested by any definite movement so far as determined upon by those supreme in authority. In naval circles the opinion prevails that at most only a squadron, composed of such vessels as the voyage to the Pacific shall have demonstrated to be the pick of the fleet, will be sent home through the Suez canal, while the remainder will take shorter routes around the Horn. It is not likely, however, that all sixteen battleships will make the return voyage, as the desirability of a stronger fleet in the Pacific may be met by the retention of perhaps several of Admiral Evans' ships in those waters. But, like Admiral Evans, the navy department is expected here to be returning via the Suez canal, the question of permanent reinforcing the Pacific squadron has not progressed beyond the discussed stage and its final determination, including developments of the next six months.

BRAZIL PLANS WARM WELCOME TO AMERICANS

Rio Janeiro, Dec. 22.—When the American fleet of warships reaches this port it will be accorded a royal welcome. It is intended, however, that the welcome shall be demonstrative and that all courtesy shall be paid the visitors as though the visit were expressly made to Brazil. The fleet is expected here about January 11 and will remain at Rio Janeiro for ten days. Admiral Alencar, the minister of marine, has issued an order for a division composed of the cruisers Barroso and Tamandaré and the gunboats Tybera, Tamoya and Tyndalus to hold themselves in readiness to meet the American fleet on the high seas and accompany it into the harbor. A number of fêtes are being arranged, among which are dances, picnics and banquets. The finance minister will give a ball and in the bay of Rio Janeiro and the minister of marine has arranged for two excursions, one to the summit of Corcovado, a mountain peak about two miles from the city, from which a magnificent view of the surrounding country can be had and thence to Tijuca park. The Brazilian government will give a banquet to the officers and higher officials of the fleet. Other social events are being arranged to make the stay of the Americans here one to be remembered.

STRIKE BREAKERS IN PHILADELPHIA

Two Thousand Men Camped in Park Ready to Fill Places of Union Men in Case Walk-out.

[By Morning Journal Special Leased Wire.]
Philadelphia, Dec. 22.—The local street car union today voted to give the executive head of the national body authority to call a strike unless the street car companies give consideration to their request of arbitration on wages and working conditions. The Rapid Transit company officials have brought 2,000 strike breakers into the city. These men are being kept at a large park opened by the company on the outskirts of the city, where they are being provided for, street car employees profess to believe that the Rapid Transit company wants to get rid of every man on its roster who has joined the Amalgamated Association, and will, if given the opportunity force them out.

More than seventy-five policemen were put on guard in every street car barn in the city last night and arrangements have been made to utilize the entire fire department together with the police in case of trouble. The original strike resolution of the street car men gives the Rapid Transit company forty-eight hours in which to treat with their representatives before a strike is voted in the executive committee. The period of the time will not expire until tomorrow.

SCHOOL CHILDREN STARVE IN BERLIN

Municipal Authorities in Kaiser's Capital Powerless to Cope With Increasing Destitution.

(By Morning Journal Special Staff Writer.)
Berlin, Dec. 22.—The municipality is faced with a very serious problem in connection with the supply of food to thousands of virtually starving children attending the primary schools in consequence of industrial activities. Hitherto, the children's cantine society has been able to cope with the task in a fairly satisfactory way by means of subscription from private sources, but the great that it will be unable to supply many of the children. In the first week of December, according to official statistics from 245 out of the 255 primary schools, there were no fewer than 11,847 children attending school in most cases without breakfast and in all cases without the prospect of obtaining a mid-day meal at home. Of these, 2,489 receive a simple daily meal from the fourteen cantines belonging to the above mentioned society; the other 7,448 are totally unprovided for.

The question of the city's responsibility for the children has now been raised by the socialist in the municipal council who propose that the council should in the future undertake this task. The socialist leader, Dr. Loh, said that the cost of the sum of \$2,421,500, and this will all be taken up by the provision of a meal a day to the 4,498 children already on the books. Altogether, the cost of feeding the 11,847 children would be \$2,750,000, and the council is to be asked to vote \$2,000,000 to make up the amount required and place it at the disposal of the society for administration. This course is suggested in order to obviate the loss of civil rights entailed by the children's parents should their offerings be directed to the socialist authorities. Parents who do not send their children to school are fined unless they can give medical authority for keeping them home. Therefore poor parents send children to school even though foodless and miserably clad.

PACIFIC FLEET SOURCE OF WEAKNESS, SAYS STEAD

Anything Short of Strongest Fleet About as Fully Declares English Editor.

London, Dec. 22.—William Stead, editor of the Review of Reviews, in an article in the Daily Mail justifying his recent advocacy of Great Britain replying to Germany's naval program by building two Dreadnaughts for every one Germany builds, argues that Germany has weakened instead of strengthened her position in the world by building a fleet, because the whole German navy is not a grain in the hands of a strong naval power.

"For any power to have a fleet on the high seas," says the writer, "which is not the strongest about, is an increase of not strength but of vulnerability. For instance, the American fleet in the Pacific is supposed to be a menace to Japan. In reality if it ventures in the northern Pacific, Uncle Sam will be bound over to good behavior in the whole value of the fleet. The Pacific is invulnerable on land, is venturing her head into the jaws of the Japanese and while the fleet remains in the Pacific, Americans will be very civil in Japan."

Nicholas Ledesma, murderer, fugitive from justice and escaped convict from prisons in Texas, Arizona and Chihuahua, an outlaw with a record of crime extending through years, was captured in the Chihuahua desert, and is now in jail at Las Cruces, N. M., where he is wanted on a charge of assault to murder, that grew out of his most recent offense, committed about a month ago.

In the early days of November the El Paso police learned that Ledesma was in the vicinity of the border, and a party for his capture was organized. The party was made up of several men, and they followed him from Las Cruces and again the search was taken up.

MELON GROWERS TO GET AFTER THE ROCK ISLAND

Lyon Brothers Advise Alamo-gordo to Demand a Lower Rate and if Refused to Take It Up With Commerce Commission.

(Special Correspondence Morning Journal.)
Alamogordo, N. M., Dec. 21.—If the Alamo-gordo Rock Island railway is to be a success it will be necessary for the business men of this place to get after the Rock Island for a reasonable freight rate, according to a letter received from Lyon Brothers, who have arranged to take the product of 200 acres at Alamogordo. The letter follows:

"Dear Sir:—I wrote to the general freight agent of the Chicago, Rock Island and Pacific Railway company, and asked for a car-load freight rate on cantaloupes from your place to Chicago, and I received a reply that the freight rate on car-loads is 2.00 minimum, and 1.17 per 100 pounds. I have answered that the freight rate from California to Chicago on cantaloupes this past season was 90 cents per 100 pounds, and car-load of 2000 pounds, the rate was 20 cents. It is absolutely necessary for your business men to take the matter up with the Chicago, Rock Island and Pacific Railway company at once, and ask for a 60 cent rate to Chicago from your place, and if you cannot get any satisfaction, it would be best to put the matter before the Interstate Commerce Commission and get a rate of 1.17 per 100 pounds. The rate to New York and Boston from California is 11.25. You can readily see that if the Chicago, Rock Island and Pacific Railway has the published rate of 11.75, arrangements have got to be made for a rate now, so that it will be a living one and must be arranged for ahead of a summer's stock. The rate will be 11.25 to New York. The rate to New York and Boston from California is 11.25. I think you will realize the necessity of taking action through the Business Men's club in your city and do it at once."

ROBBERS GALORE IN HILLSBORO

Epidemic of Petty Thievery Has Struck Sierra County Town and Other Places in Vicinity.

(Special Correspondence Morning Journal.)
Hillsboro, N. M., Dec. 21.—For the past month or so petty robberies have been going on in this town and the adjoining section, and the proportion is now getting close to the limit. During the past week there have been a large number of these expensively offenses. A week ago when Mr. and Mrs. C. P. Johnson were attending church, their three children, a boy and two girls, were taken to the hills. The children were taken to the hills and were taken to the hills. The children were taken to the hills and were taken to the hills.

PASSED EXAMINATION SUCCESSFULLY.
James Bonham, New Britain, Conn., was treated by one of the physicians for diabetes, but did not improve until I took his case. After the second visit he showed improvement and five bottles cured him completely. I have since passed strict examination for life insurance. His kidneys were cured backache and all forms of kidney and bladder trouble. J. R. O'Reilly, Cal.

Mme. Qui Vive Back From Paris.
Every one who writes enters talking and chatting on a healthy and other feminine topics in The Chicago Record-Herald, has recently returned from Paris, where she went to study beauty as the French see it. It is safe to say that she will take her year's experience and give her readers all the new ideas she gathered while abroad. Feminine readers will be glad to learn that there are to appear from time to time in her column, and that she will be a regular contributor to the "Women's Beauty" in the Chicago Record-Herald. The immense popularity of Mme. Qui Vive's articles is largely due to the fact that her advice is of real value to women and is given in a delightfully original style. Even men are known to read with interest, and she sends them epigrams with which she pleases her column every morning. Her columns are so readable and so full of interesting and valuable information, that they are eagerly looked for by thousands of American housewives.

GOOD STRIKE AT TOP MINE AT MOGOLLON

Output of Colorado Fuel and Iron From Fierro Will Be Over 100,000 Tons for Past Six Months; Mining Notes.

(Silver City Independent.)
Mogollon.
News has been received from the management of the Top mine, which has for its neighbors the Last Chance on the one side, and the Confidence group on the other, of a rich strike of ore at 160 feet in depth. This strike will be gratifying news to many stockholders in Silver City. The work of sinking is being carried on as rapidly as men, money and the latest type of mining machinery can take the work. Recently, the air compressor, one of the Sullivan makes, was broken, and the company took it to the Sullivan Mining and Machinery company for what has been done, and for the promptness with which the repairs were accomplished.

BEAUTIFUL STORY OF THE CHRIST CHILD IN ELOQUENT SERMON

'LET US GO TO BETHLEHEM'
TEXT OF REV. DR. ROLLINS

Pastor of the First Methodist Church in Christmas Sermon Tells Graphically of First Christmas the World Knew Centuries Ago.

The story of Christmas was the theme of a sermon in almost every pulpit in the city yesterday. Rev. Dr. Rollins pastor of the First Methodist church yesterday morning preached an eloquent sermon from the text, "Let us go to Bethlehem," Luke 2:15. The sermon follows:

Again the tireless rounds of days and months bring us to the well-known universal acknowledgment of that august event by prophets long foretold of angels bending near the earth to touch the harp of gold. The highest orders of seraphic life join voice and touch with simple peasant and earth and sky and men and angels throb and teem with life effulgent beside the lowly cradle of the infant Christ. The rule and simple shepherds, pious and devout even in their extreme ignorance voiced the ever increasing yearning of the human heart when they said one to the other "let us go to Bethlehem." For it was not here it found "that sad sepulchral rock that was the cradle of Heaven's richest store. To Bethlehem, then, let us this morning, after the lapse of twenty centuries since the birthright more divine than all the race—wound our way and as did the humble men in the long ago see what this is that has come to pass in the lowly hamlet of Bethlehem.

Bethlehem means house of bread. From this vantage ground of lowliness and simplicity began the bread which came down from heaven to break itself to the hungry life of sin furnished humanity.

It was a dreary little hamlet of mud houses some six miles south of the Holy City, from whose gold tipped towers the simple homes of Bethlehem's humble dwellers might be seen rising more than two thousand feet into the clear sky among the Judean hills.

It was the birth place and the boyhood home of David, the warrior king; he whose touch among the strings of the immortal harp set all the on-coming ages a-tune to the sublimest religious poetry the world has ever known; David, in whom was marvelously combined the sagacious statesman, the "matchless poet"—as says John Lord—"who bequeathed to all ages a lofty and beautiful psalmody, and as well the David—who, with all his faults and weaknesses, was a man after the heart of God himself. How wonderful and how lasting the songs he sang. The sermons of the church are forgotten, but the songs endure.

"Thus have his songs become the treasured property of mankind, resounding in the anthems of different creeds and carrying into every land that same voice which on Mount Moriah was raised in sorrowful longings or ecstatic praise."

Here was the deep rock hewn well for whose waters, cool and refreshing, David longed in the cave of Adullam.

From Bethlehem went Naomi in the flush and pride of fortune and inviting years—and back to Bethlehem came Naomi, widowed and in tears, but with her came the sweet-tempered and faithful Ruth about whom there has been woven the sweetest and most ideal pastoral to fall from the pen of man.

Here, to the north of the little village, was the birth place where Jacob gave back to mother earth, dust to dust, ashes to ashes—the loved form of Rachel, the mother of Benjamin and Joseph.

And here, in the same adobe village was later heard the voice of lamentation and of crying the mothers whom the prophet of the ancient days depicted as Rachel dying a hundred deaths when the sword and cruel hate of Herod sought, but sought in vain, to take the young Christ's life.

Apart from being the birth place of the King when he came to his own, Bethlehem is a city of no mean history.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys—poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

royal decree that all the world should be taxed.

And what a journey it must have been. It was in the depth of winter—by our celebration of Christmas is rightly placed. The air of this altitude was stinging cold. Joseph and Mary were bitterly poor. They must have been at least four days on the journey and doubtless on foot. Over the miry plains of Esdraelon and across the bleak mountains of Samaria and down through the tangled passes of the Judean hills these humble and devout pilgrims took this compulsory journey.

Well it has been declared that he extreme simplicity of the story as told by the Evangelist Luke stamps origin as divine.

It was a strange and unneighborly multitude that had come from the remotest corners of the province. Joseph and Mary were among the late comers. The village was already more than filled. Again and again the keeper of the public place had refused entrance to new arrivals. The inn, before which Joseph and his wife finally halted, was similar to hundreds of others in other towns—a long, one-story, flat roofed, rough shelter unbroken by a single window—into which one came only by a gateway which served for both light and exit.

The kahn even was full. But Mary could not pass the winter night under the hills—it would endanger her life. At length the keeper is moved by the statement that both Joseph and his wife are of the house of David. Although a thousand years had passed and strange history had been recorded, since the boyish shepherd had become the successor of the insane king of Israel, his descendants could not become unknown—and, as General Wallace has pointed out, "wherever they were in Israel, acquaintance drew after it a respect amounting to reverence."

After a time the twain and two friends are given leave to enter and appropriate any of the stone stalls and heaps of fodder as yet unoccupied.

The simple evening meal is soon eaten and the weary pilgrims gladly lie down to rest after the tiresome journey from Nazareth.

The hours of the winter night march on with unaccelerated step even though all earth and heaven and the unknown realms beyond the ken of man's latest vision are being hushed into unwanted stillness to mark the hour for which eternities have impatiently waited.

Joseph was a heavy sleeper and Mary must needs have spoken more than once to rouse him from the deep slumber of the midnight hour. Her neighbor, who had lain down near at hand, soon has roused a few of the acquaintances they had made in the early evening, and these good women, whose names are unknown, made welcome the little Jesus as he opened his baby eyes upon the crude surroundings of the sin entangled world.

"The little Jesus came to town. With ox and sheep he laid him down. Peace to the byre, peace to the fold. For they housed him from the cold."

"But a little while, until the whole klan is aroused and there is a strange light shining all the place with a splendor their eyes could not understand. Some who were sleeping on the roof, who were the first to see it said it was a star that had burst and fallen. Others said it might be a light kindled by the shepherds yonder on the hills to frighten away beasts of prey. After that—as you will recall how the author of Ben Hur puts it, another said, "No, No. Though all the wood in the valleys in Judah were brought together in one pile and fired, the blaze would not throw a light so strong and high."

"Brethren what we see is the ladder our Father Jacob saw in his dream. Blessed be the Lord God of our fathers."

And so it was. The star, the star of Bethlehem had arisen and shed its benign light not only over the hills and vales of Judah but far afield all the coming centuries of the unborn millions.

The Christ was born. He, the long expected, the wonderful counselor, the everlasting father and the prince of peace.

Across the valley separating the near by hills from Bethlehem Judean shepherds had been for some days leading their flocks as they sought fresh pastures for them.

Early this same evening they had housed their sheep in the rude protection provided for such a purpose.

All but one of them—the watchman—who, with the star, with the midnight, was fast asleep.

The heavens were brilliant with a multitude of glittering stars. The air was crisp and cold. Stealthily an undusted fear clutched this man's heart. He knew not what nor how, but he became conscious that things had changed. Even the stars as he looked up were gone, and in their place a light, so strange and unknown he feared the more, was blazing into splendor. In terror he aroused the men within. "Awake, awake." They sprang to their feet, well used to such cries of alarm. But never had they seen such a sight. The whole sky seemed ablaze with an ineffable glory and even while they gazed in wonder and awe, the blinding light made them cover their eyes and fall mute to the ground, they heard a voice, and looking up saw a form which they instinctively knew to be an angel, and heard him say, "Fear not, I bring you good tidings." The voice was full of tender assurance as it continued, "for unto you is born this day a Saviour, and in the city of David shall you find him." But as the visitor tarried and it seemed as though he had for a very long time been their friend and neighbor as together they began to recognize the sound of music so unremembered and tender even their uncultured spirits caught the divine harmony as far away, but ever coming nearer until a multitude of the heavenly host was seen in the heavens above them and the heard what man had never before been permitted to hear—nor ever since that night have mortal ears been so divinely blest, the hosts from the realms of the eternal King when God became incarnate in the flesh and heaven unlocked its richest closet to give to earth its rarest gem for the coronation of the Saviour in the redemption of the fallen race.

Their flocks they leave as with all haste they cross the valley and present themselves before the door of the kahn led thither by the light of the blazing star. And there they find him. "Cold on His cradle the dew drops are shining. Low lies His head with the beasts of the stall."

O, Bethlehem, Bethlehem, home of the Shepherd King, honored in all the past—how great thou honor now. For from the rude gates the King eternal—the God made flesh—goes forth to lift nations off their hinges and turn aside the current of the ages.

Well did the slightest heart give voice to human longings when he sang:

TORPEDO AGAIN IN THE HANDS OF A RECEIVER

FOLLOWS DISAGREEMENT AMONG STOCKHOLDERS

Property in Organ District is a Valuable One and Never in Better Conditions Than At the Present Time.

[Special Correspondence Morning Journal.]

Las Cruces, N. M., Dec. 21.—The Torpedo Mining company, of Oregon, N. M., is again in the hands of the receiver, Mr. Nicholas Gallos. About a year ago the Torpedo was sold on a contract of sale made by the receiver to George E. Fitzgerald and a party of capitalists from Chicago and Wisconsin for \$200,000 to be paid in installments. The purchasers took charge of the property, drained the mine and began shipping ore. They were doing well until the drop in copper came, when they were unable to make ends meet. There was also a difference of opinion between the principal backers and the manager, which resulted in the turning back of the property to the receiver.

The Torpedo is a rich copper property, but has had a hard run of luck. The receiver will keep the pumps running and get the property in shape to sell it. Next week he will also begin prospect work. Two weeks ago the prospectors on the 300-foot level struck a new ore body eighteen feet wide running from 10 to 25 per cent copper.

George E. Fitzgerald, Joseph E. Bonham and J. E. Daley, manager of the Torpedo smelter at Torreon, Mexico, have gone to Chicago to make an effort to get the stockholders together and again take hold of the property.

BEAUTIFUL STORY OF THE CHRIST CHILD IN ELOQUENT SERMON

(Continued From Page 3, Col. 3.)

peries and deceit of the greedy who is, God made flesh—Immanuel God with us.

O, thou who art borne down with world, come to the door of the khan and look on the gift of Heaven—yours for the took.

Come, ye who are red of eye and heavy of heart—you who are lonely and sad this morning, come back to the place where Heaven came down to touch the weary world with a kiss of affection and the child—the little child—shall touch your lips.

make them sing for very joy and put His hand upon your aching head and the very light of the eternal realms shall bathe your life with hope.

And you, come thou as we who are sick of the world's sin, turned with the blows your own choice have laid upon your bending backs—come back to Bethlehem and the little child shall put so much cheer into your dark soul you shall see again the star and find the Christ.

Come, ye as well who are old before your years—for whom disappointment and selfishness has fashioned a shape all their own—until you are not what the Good Father would have you be. Remember how near Heaven is to the little child. Hear, crying in the midnight wilderness for her child was doubtless heard by the Highest, but he record reads, "God heard the voice of the lad"—and all the way from Heaven there came a shining one to give the little boy a drink of cool water who was lost out on the desert.

"And God opened her eyes and she

saw a well of water and went and filled the bottle with water and gave the lad to drink."

And here we come this morning to thank God for Bethlehem and the lowly khan where lay the royal one. Before we take our several ways back to the things of common life look again lest we forget that here was born the King, not alone, but here the sorry gloom of human longing is pierced through with the light of another world—for He who lies yonder has brought light and immortality to light. Well may Heaven sing and earth rejoice—as well may mankind be glad when we hear again today the glad tidings, peace and good will.

Because Immanuel is with us are we strong—because earth is lifted up to Heaven are we out of love.

"Fly, ye birds of the air, out of the nest; call on them laden, lazy stepping hours."

So little is our loss, so little is thou gain; for when as each, thing had thou hast entombed, and last of all thou greedy self consumed.

Then long eternity shall greet our bliss.

With an individual kiss: "On all this earthly goodness quit, Affixed with stars we shall forever sit. Triumphing over Death and Chance and thee, O Time."

And all because the Christ Child became flesh and dwelt among us.

"O Holy Child of Bethlehem; Descend on us, we pray; Cast out our sins and enter in, Be born in us today."

We leave the Christmas angels The great glad tidings tell; O come to us, abide with us, O Lord Immanuel!"

NOTE TO OUR CUSTOMERS.

NEW ENTRY FORM IS ADOPTED

After March, 1908, No Applications Will Be Considered By Federal Land Office Unless Made Out in Changed Form.

Register M. R. Otero of the United States land office in Santa Fe has handed The Morning Journal the following circular from the commissioner of the general land office at Washington. It is a highly important notice and should be read carefully by the public.

Department of the Interior, General Land Office, Washington, D. C.

Notice.

New forms for applications and proofs.

New forms for applications for homestead entry, desert land entry, and for timber or stone tract entries.

Each of said forms is a combination of the several forms and affidavits formerly required to be filed in such cases, and the use thereof will result in a saving of time, labor, and expense to the local land office, proof-taking officers, and claimants.

R. A. BALLINGER, Commissioner.

First—All licenses to be transferred to continue in force unless cancelled by a majority of voters.

These licenses should be transferred from one to another, as any other property is transferred, and the part of an estate as the good will of any other business may be left. This form of license is similar to that employed by all other lines of trade, and if granted to the retail liquor dealers, it will, in our opinion, remove them at once from active participation in politics. Under the present system the saloon keeper is at the mercy of the political boss, and of the authorities elected or appointed for the purpose of issuing licenses each year, and as long as this continues he must of necessity remain an active factor in all political rights.

Second—No license should be issued in the future until the proportion has come not more than one for each 500 of population and thereafter the license should be issued in such proportion as society or convenience demanded.

Third—A license should yield a good annual return to government, but it should be for the purpose of several reasons, principally because it encourages, and in some cases almost compels, the handling of impure liquors, the sale of alcoholic beverages to intoxicated men and to minors, and the violation of laws in regard to closing at certain hours, etc.

If society imposes upon the saloon keeper, the saloon keeper will impose upon society.

Fourth—All licenses to retail liquors should be clear, unambiguous contracts, between the state and individual, and they should provide that conviction (first offense) of the violation of law, should carry with it a thirty day suspension of the business of the license and the second conviction should work immediate cancellation, and furthermore that the holder could never be licensed again to retail liquors in that state.

Fifth—A penalty should be provided in all laws governing the retail liquor trade against any minor over 18 years of age who represents himself to be of age in order to procure intoxicants.

The idea that is paramount in these suggestions is to give as great value and security to a license as possible, so as to encourage the utmost obedience to the will of society as expressed in the laws on the statute books, to remove the liquor dealer from politics by making his right to continue business dependent on his own will and acts, and to provide the immediate and inevitable cancellation of license upon conviction of the violation of law.

If these suggestions are embodied into law, they will not interfere with any provisions that a state of a municipality may choose to adopt for the regulation of the liquor traffic, but they will insure the enforcement of these provisions by an automatic process.

The saloon keeper will enforce the provisions, because it will pay him

LICENSE LEAGUE ON SOLUTION OF THE PROBLEM

The Model License League, of Louisville, Ky., has issued the following circular on the solution of the liquor problem:

To Our Fellow Citizens:

Obedience to law is essential to the continuation of our institutions and no fact in our history, as recorded day by day, is more lamentable than the failure on the part of states and municipalities to enforce the edicts of society as expressed on our statute books.

We shall not undertake to show what causes are responsible for this state of affairs, but shall go directly to the point we have in view, and say that the failure on the part of society to enforce its laws for the regulation of the retail liquor trade has brought that trade into disrepute, has driven from its ranks many of the self-respecting element, and is responsible for a crusade against the entire traffic, widespread, fanatical and destructive to property rights, to revenues and to individual liberty of action.

As citizens we deplore the non-observance of law, and as dealers, however, we are responsible for this state of affairs, but shall go directly to the point we have in view, and say that the failure on the part of society to enforce its laws for the regulation of the retail liquor trade has brought that trade into disrepute, has driven from its ranks many of the self-respecting element, and is responsible for a crusade against the entire traffic, widespread, fanatical and destructive to property rights, to revenues and to individual liberty of action.

In a word, we insist that saloon keepers shall obey all laws or else be retired from this business, and to assist in bringing these things to pass, we have organized The Model License League.

Of course, the saloon keeper is not the only man who violates law, for it is true that a very large percentage of our rich men would now be broke or mechanics, but some saloon keepers do violate law and with marked persistency.

The saloon keeper, like any other man, gravitates, instinctively, toward the circle of mechanics, and in obedience to the immutable laws of trade, toward that line of conduct which seems to promise the most substantial rewards, and like other men he is attracted by the lures of the force of competition, or in obedience to the law of self-preservation, to do things which he condemns at heart, and which he hates in the depths, and persistence to the rights of others.

In doing many things that the laws forbid the saloon keeper finds profit, and this because he finds protection from the officers of the law.

These things are bad of themselves, but they are proving destructive to our trade in a thousand ways, and self-preservation demands that we take a hand in putting a stop to them.

To accomplish this our license law must provide an attractive reward to these saloon keepers who violate the laws, and a suitable penalty for those who violate it.

We have given this matter years of close study, and we submit as a result of same, The Model License League, which we trust you will consider, and criticize, and if it is lacking in any respect offer us your suggestions.

so much better to obey the law than to violate it. To preserve so valuable a license as we have suggested from cancellation, the saloon keeper will be of all men, most anxious to run an orderly place, to refuse to sell to minors or to inebriates, and to close at the hour named by society.

We submit these suggestions with confidence to society, because we believe that they contain the solution of a problem before which this country has stood puzzled for so many years. If they fail of the desired effect, they will offer no obstacle to the enactment of any other form of legislation. The Model License League, Commercial Building, Louisville, Ky.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney Diseases Cause Half the Common Aches and Pains of Albu-

querque People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strain, colds and other causes injure the kidneys, and when their activity is lessened, the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor, and urinary ailments, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Albuquerque cures are the proof.

Mrs. Ida Johnson, living at 414 N. Fourth st., Albuquerque, N. M., says: "Doan's Kidney Pills quickly and effectively relieved me of pain in the back, which had troubled me at intervals for some time. Any preparation which acts as fast as this, and cures made for it, as Doan's Kidney Pills, deserves unqualified praise, and as a genuine kidney medicine can have the confidence of every one."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Denominational College for Arizona and New Mexico Also to Be Considered at Meeting of Committee Here.

Twelve members of the Presbyterian church, clergymen and laymen, appointed a committee at the meeting of the Presbyterian synod here some months ago, will meet in Albuquerque December 31 to confer on the proposed denominational college and sanitarium for New Mexico and Arizona to be built by the Presbyterian church. It is understood that the plan to erect the school in Arizona and the sanitarium in New Mexico. The committee is empowered to take the first steps in the matter, to incorporate and take up the matter of location. The sanitarium is to be a large extent a charitable institution, it is said, and it is not expected that it will be self supporting at least for some years.

Alamogordo, which is getting something of a reputation as a sanitarium site is understood to be an important candidate for the sanitarium location. Through its record to be the plan to erect the school in Arizona and the sanitarium in New Mexico. The committee is empowered to take the first steps in the matter, to incorporate and take up the matter of location. The sanitarium is to be a large extent a charitable institution, it is said, and it is not expected that it will be self supporting at least for some years.

TOURIST'S EYE IS
BADLY INJURED

Missouri Man Taken to Santa Fe Hospital Suffering From Painful Hurt Received in Peculiar Manner.

F. McManus, a tourist from Missouri on route to California, was brought here early yesterday morning on delayed No. 8 from Gallup, suffering from injuries received in a peculiar manner at the Canyon city station. McManus was a passenger on No. 7, and before the train reached Gallup suffered a hemorrhage. In endeavoring to get to the car platform he stumbled. As he fell the engineer applied the brakes, and McManus was hurled against a seat, his right eye being badly hurt.

His injuries were attended to yesterday at the Santa Fe hospital, and he will resume his journey westward today.

SANTA FE SCHEDULE
FEELS THE COLD

All Trains Delayed On Account of Inclement Christmas Weather and Other Fortuitous Circumstances.

Cold weather everywhere seems to have created considerable havoc with the established schedules of the Santa Fe trains, as only two trains of Saturday or yesterday morning reached Albuquerque on time, the others wandering in from an hour to six hours late.

No. 10 of Saturday and No. 10 of yesterday arrived on time. No. 8 of Saturday reached the depot at 1:02 o'clock yesterday morning, while No. 7 of that night pulled in at 4:55 o'clock, an hour later than No. 9, both leaving at 6:50 and 7 o'clock respectively yesterday morning. No. 1 of Saturday night was in two sections, both arriving late.

No. 2 was delayed in California and Arizona, reaching this city at 10:15 o'clock and passing No. 3 near Lamy. No. 3 pulled in at 2:20 o'clock, having encountered trouble in Kansas, Colorado and New Mexico. An additional delay here in transferring the mail caused the flyer to leave here an hour later.

HEAVY FALL OF SNOW
IN NEW MEXICO

Mountains All Deeply Covered and Plains Buried in Places Four Inches Under Blanket of the Beautiful.

During the latter part of the week the territory put on its Christmas clothes in proper style, judging from what is evident from Albuquerque and according to reports from other sections. The fall of snow Friday and Saturday, in the San Juan and Maricao mountains was probably the heaviest of the season. John E. McManus, assistant forest ranger on the Maricao reserve who arrived in the city Saturday to spend Christmas here, reports a very heavy fall of snow in the Maricao and the southern part of the territory. From Alo station on the Helen cut-off for many miles out on the plains east of the Maricao, the snow he fourteen inches on the level. In the mountains it is in places four and five feet. It is six and seven feet in the canyons of the Jemez national forest north of this city and the snow fall was very heavy in the Pecos country and on the Santa Fe range. Temperature for the past week has been unusually low all over the territory and heavy ice has formed on the lakes and streams.
