BRIEF WIRINGS.

Confirmed.
WASHINGTON, March 10.—The senate yesterday confirmed John B. Burford, to be an associate justice of the supreme court of Oklahoma.

The Sick.
WASHINGTON, March 10.—It is reported at Secretary Blaine's house that the secretary rested well last night; that the fever is gone and that he is much improved. Representative Springer's condition is reported to be about the same as yesterday.

To Expel the White Men.
SAN FRANCISCO, March 10.—Company D, 1st cavalry, will leave Presidio today for Round Valley, Indian reservation. They go to expel white men who are in the habit of driving cattle on to the reservation.

New York Again Speaks.
ROCHESTER, N. Y., March 9.—Assemblyman Richard Curran, Republican, defeated William Carroll, Democrat, the present incumbent, for mayor, by 2,906 majority, yesterday. The whole Republican ticket is elected by even larger majorities.

Inspecting the Mexican Boundary.
SAN ANTONIO, Texas, March 10.—Gen. O. O. Howard, U. S. A., is here from a tour of the Mexican border. It is believed he has been investigating for the war department the condition of the recent Garza campaign on the part of the United States troops.

Confessed.
DUBUQUE, Iowa, March 10.—J. H. White, brother of the general superintendent of the railway mail service, was arrested last night on a charge of robbing the mails, and brought to this city today. He pleaded guilty and gave bail for his appearance at the April term of the United States court.

Appointments.
WASHINGTON, D. C., March 10.—The president has sent the following nominations to the senate: Treasurer, George W. Mills, of Pennsylvania, to be collector of internal revenue of the 23d district of Pennsylvania; Judson C. Clements, of Georgia, to be interstate commerce commissioner vice Walter L. Brazz, deceased; and William Lindsey, declined.

To the Gulf.
WACO, Texas, March 10.—It is said that the San Antonio & Aransas Pass, Chicago, Rock Island & Pacific and the Texas Central are about to enter into an arrangement by which the Rock Island will extend to Albany, Shackelford county, connecting there with the Central, following to Waco and thence to the gulf, over the San Antonio & Aransas Pass.

A Woman's Fall.
LONDON, March 10.—Mrs. Florence Edith Osborne, against whom the grand jury, a few days ago, returned a true bill for larceny and perjury, was arraigned for trial, yesterday. She pleaded guilty to the charge against her and was sentenced to nine months imprisonment at hard labor. This case, so far as the public is concerned, is a case that has excited world-wide comment.

Elkins for Governor.
WASHINGTON, March 10.—Ex-Congressman Langston, in discussing West Virginia politics, said: "With Stephen Elkins at the head of the Republican state ticket West Virginia Democrats would be out of the race. I have just returned from the biggest convention of Republican organizations West Virginia has ever known, and the enthusiasm for Elkins was wonderfully unanimous and business like. If he is the gubernatorial candidate you may safely count on West Virginia's electoral vote being Republican."

Settled.
TOPEKA, Kas., March 10.—The joint grievance committee of the Order of Railway Conductors and the Brotherhood of Railway Trainmen, who have been in session since February 2, have settled their grievances with General Manager

"German Syrup"

J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted with this lad was, will do well to make a note of this.

J. F. Arnold, Montevideo, Minn., writes: "I always use German Syrup for a Cold on the Lungs. I have never found an equal to it—far less a superior."
G. G. GREEN, Sole Man'fr, Woodbury, N.J.

Robinson and General Superintendent Nickerson, of the Santa Fe. They have succeeded in securing a schedule of wages satisfactory to both the men and the company. The committee had other grievances under consideration, but the wages was the most important.

The Prize Ring.
ST. PAUL, March 10.—Danny Needham, whose fight with his old-time antagonist, Tommy Ryan, at New Orleans, was declared off after Needham had stripped and was ready to enter the ring, is resting here preparatory to his trip to California, where he has a couple of salacious. So far he has received no definite word from Ryan's backers relative to the breaking off of the match, and both Needham and his friends are inclined to the opinion that the Chicago man does not want to fight, and won't fight if he can help it. If you arriving in San Francisco Needham will endeavor to induce one of the clubs to hang up a purse, and if he is successful he will challenge Ryan to either come to time, or forfeit his title of light weight champion.

Illinois Republicans.
SPRINGFIELD, Ill., March 10.—One hundred and five young Republicans, representing the different county and congressional organizations of the Republican League of Illinois, assembled in the Le Land hotel this morning with W. R. Tracy, president, for the purpose of comparing notes and taking steps toward putting the organization in first-class shape for the coming campaign. In welcoming the delegates, President Tracy said that an immediate inauguration of the campaign would induce thousands of young men, who do not now take sufficient interest in politics, to wake up and join the ranks of the young Republicans, and that were the organization of the league perfected and extended 100,000 voters could be organized for work by the opening of the presidential campaign in 2,000 township clubs with an average membership of fifty each. All the delegates present seemed to be first, last and all the time favorable to the nomination of President Harrison. Reports presented to the organization indicated that the local leagues have already begun to manifest considerable enthusiasm and energy.

Railroad Talk.
DENVER, March 10.—The railroad meeting at the chamber of commerce this evening will be one of the most important ever held in this city. Gov. Evans, who has recovered from his indisposition will be present, and will make known new facts. The governor holds that there are six new lines which this city needs to tap the territory, which may be said to be properly tributary to it, and that every one of them will be a paying investment. Among these are the El Paso short line, the short line to the gulf, a direct line west and a road straight to Duluth, of which only a little over 400 miles remains to be built to connect with the existing line at Niagara, therefore it is probable that definite statement will be made regarding the Denver, Apex & Western, which is expected to supply the direct western line, the El Paso project will be handled by Messrs. Karyana and Lough-ton, of Las Vegas. Several other well known gentlemen will express their views.

Senatorial.
WASHINGTON, March 10.—Senator Hale, from the naval committee, reported back his bill to further increase the naval department, with an amendment appropriating \$500,000 for experiments in the development of torpedoes and in the procurement of standard torpedoes. Placed on the calendar.
Senator Seque moved to reconsider the vote by which the senate yesterday passed the bill in relation to the collection district of Puget Sound. The motion was entered.
Among the bills introduced and referred was one with the following curious title, presented by Senator Culion (by request): "To test and try the science of spelling, and to provide for establishing 100 schools for that purpose; and to establish a spelling school in the World's Columbian Exposition, to be held in Chicago in 1893."
Senate bill appropriating \$187,038 to compensate the Indians of the Crow Creek reservation, to be added to the permanent fund, for loss sustained by them in receiving less land per capita in their diminished reservation than was received by other Indians, was passed.
The pure food bill was then taken up and after the adoption of several slight amendments, it was passed without a division.

A Narrow Gauge Policy.
WASHINGTON, March 10.—In the opening of his speech in the tariff debate, yesterday, Representative McMillin, in behalf of the majority of the committee on ways and means said: "The last congress imposed the highest tariff taxes ever levied in this country. It also made the most extravagant appropriations ever made here in time of peace. This congress was sent here to correct both evils. The expenditure in the two years, for which the last congress appropriated, besides the deficiencies, aggregated \$1,000,000,000, \$40 per family annually, or more than \$200,000,000 each year, about one-third of all the money in existence in the United States. When we take from our currency the \$100,000,000 gold, held for redemption purposes, in the treasury, the reserve required in the national banks, and the different reserves held for circulation in other ways, we find that these expenditures are each annually nearly one-half of the money in actual circulation. Can there be permanent prosperity while one-half or even one-third of the money has to go through the hands of a federal tax gatherer every year, besides taxes for state, county and municipal purposes? There is a remedy: impose less taxes and spend less money. That is what this congress means to do."

THE GREAT PECOS.

A Representative Chicago Man Talks to Californians of New Mexico's Prosperity.

A New Farming Region and Its Splendid Promise—What Water Can Accomplish in the South-West.

Mr. R. W. Tansill, of Chicago, president of the R. W. Tansill company, a gentleman who has achieved a national reputation as the proprietor and manufacturer of the celebrated Tansill's Punch brand cigars, is telling the San Francisco papers about the Pecos country in New Mexico.

Mr. Tansill came to the Pecos valley in search of health some two years ago, and his investigations there since have gone a long way toward making him a millionaire. Says Mr. Tansill in the San Francisco Chronicle of the 6th inst:

"The Pecos Irrigation & Improvement company has within the past two years, constructed in this valley one of the finest systems of reservoirs and irrigating canals in this country. Over 100 miles of main canals, besides as many more of laterals have already been constructed, and fully as many more are being built. The main canals are from twenty to forty feet in width on the bottom, and carry five to seven feet depth of water. About six miles above Eddy, at a cost of over \$100,000, one of the largest and finest dams in the country has been constructed. It is built of limestone, is 300 feet wide at the base (which rests on solid bed rock), rises to the height of fifty feet and is nearly a quarter of a mile in length, forming a lake about seven miles in length, more than a mile and a half wide at its widest point and capable of storing over 5,000,000,000 gallons of water, or nearly a month's supply for the main canal, were the river to go dry, which it has never been known to do. The system of canals extending from Roswell, N. M., on the north, and below the Texas & Pacific railway in Texas, south a distance of over 200 miles, either constructed or in course of construction, will irrigate about 400,000 acres of the choicest lands under the sun. More than \$2,000,000 have already been expended; it is expected that \$1,000,000 more will be expended during the coming year in extensions and new canals and reservoirs."

"It is not the object of this company to own the natural lands. Less than four years ago they were all government land, but since which time they have almost all been entered under the homestead and desert and laws, while desirable deeded lands, including a perpetual water right, subject to an annual rent of \$1.25 per acre, can still be purchased at from \$15 to \$30 per acre, making them the lowest priced irrigated lands on the continent. The extremely low prices now prevailing are caused by the fact that the company is proving up on thousands of acres filed on by speculators, who are anxious to develop the land, has expired, or is about to expire, so that this is the opportunity for the farmer to secure land in this valley, suited to his means, at prices far below its actual value. It is a most wonderful fertile country, while all other crops produce enormously, such as beets, potatoes, etc., and cotton, hemp and tobacco can also be profitably grown. In fact, forty acres of property tiled in this valley will, I believe, produce better results than will 160 acres in the northwest. Since the soil and climate and conditions are very similar to those of southern California, and being 1,600 feet lower than the eastern markets, this valley will rival this section in the production of semi-tropical fruits. Eddy, the county seat of Eddy county, is situated on the Pecos river, and is the present terminus of the Pecos valley road, a standard gauge steel track railroad, completed last year. It is the headquarters for both the irrigation and railroad companies, also of large cattle interests, and although barely two years old, it already contains a population of over a thousand people, is growing steadily, and is certain to become a city of importance in the near future. It already has a \$65,000 hotel, one of the finest in the Pecos valley, and in the southwest, a national bank and many substantial business houses. Work is actively progressing on a \$30,000 court house, while in connection with others a \$30,000 business block is being constructed. Its residences are both neat and tasty, and are rapidly increasing in numbers. The town is beautifully situated, has a handsome park, and is laid out with shade trees on either side of the streets, under which flow streams of clear water, producing a beautiful effect. Eddy is today one of the most active towns in the United States; labor of all kinds is in demand at good prices, and this is true of the whole valley."

"Who is the president of the irrigation company?"
"Mr. J. J. Hagerman, of Colorado Springs, Colo., is the president and financial head of the Irrigation & Improvement company, and also of the Pecos Valley Railway company. To his faith in the bright future in store for the Pecos valley, to his almost unlimited command of money and to his splendid executive ability, coupled with his untiring energy, which would exhaust several ordinary men, the great Pecos valley owes its wonderful and rapid development."

"Is this the Hagerman, who built the Colorado Midland railway?"
"Yes, he took hold of that road after others had failed, and readily raised the money in Europe and America for its construction, and carried it to successful completion, although it was one of the most expensive as well as difficult railroads, for its mileage, to construct in the United States. It is now owned by the Santa Fe, and constitutes one of their popular transcontinental routes, the scenery along this line being grand beyond description."

"Is not Mr. Hagerman also interested in mining?"
"Yes, he is one of the most extensive and probably the most successful miner in the United States today. But the great Pecos valley is one of Mr. Hagerman's pets, since nothing delights him so much as when engaged in development, be it building a railroad, mining upon a grand scale or reclaiming an arid country, so that nothing that man and money can accomplish will be spared by him in making the Pecos valley of New Mexico one of the grandest, as it is one of the most extensive, irrigated districts in the world."

The New Mexican is the oldest newspaper in New Mexico. It is sent to every office in the Territory and has a large and growing circulation among the educated and progressive people of the southwest.

THURSDAY, MARCH 10.

REPUBLICAN CALL.

A convention of the Republican party of New Mexico is hereby called to meet at Santa Fe, N. M., on the 15th day of April, 1902, at 10 o'clock a. m., to select delegates to represent the Republican party of New Mexico at the national Republican convention, to be held at Minneapolis, Minn., on June 1, 1902.

The vote of counties of the Territory are entitled to the following representation:
Bernalillo county, 14 delegates
Chavez county, 1 delegate
Cochise county, 1 delegate
Conejos county, 1 delegate
Cotton county, 1 delegate
Crowswing county, 1 delegate
Lincoln county, 1 delegate
Mora county, 1 delegate
Rio Arriba county, 1 delegate
San Juan county, 1 delegate
San Miguel county, 1 delegate
Santa Fe county, 1 delegate
Sierra county, 1 delegate
Tucson county, 1 delegate
Valencia county, 1 delegate

County committees are requested to make all proper arrangements for the holding of county conventions, which shall not be called later than April 1, 1902.

County conventions shall be composed of delegates chosen at Republican mass meetings.
County committees will arrange for calling precinct mass meetings, which meetings shall be held not later than March 24, 1902. In the event of a failure of the county committee to issue the call for such precinct mass meetings and county conventions and in counties where there may be no county committee, then such call shall be issued by the territorial committee for that county.

The chairman and secretary of precinct meetings will certify to the chairman of the county committee a list of delegates elected to the county convention.
The chairman and secretary of each county convention will certify a list of delegates elected to the territorial convention and mail the same to the secretary of this committee at Santa Fe, N. M., not later than April 10, 1902.

Under existing rules no alternate delegate to the territorial convention can be elected and proxies will be recognized unless properly executed and given to persons resident of the county from which the delegate giving the proxy was chosen.
R. E. TWITCHELL, Chairman.
L. A. HUGHES, Secretary.

It depends a good deal upon the ticket put up by the Democracy as to how the campaign for the city officials will be conducted during the next four weeks.
Too much politics in the coming city election may defeat the proposed issue of sewer bonds. Be careful, put the professional politicians to the rear and give the tax payers a chance.

The outlook for speedy direct rail communication between this city and the rich mineral and coal sections of the southern part of this county is excellent. The sooner it is realized the better for all concerned.
Representative WILLIAM M. SPRINGER is one of the ablest Democrats in congress. He is a good friend of this territory; his illness is greatly regretted here. The sympathy of the people of New Mexico, regardless of party, is extended to his family and the hope that he may soon recover is indulged in.

The second Friday in March, which has been designated by law as Arbor day in New Mexico, is near at hand, and school teachers all over the territory should prepare at once for having the children observe this occasion. Next to water development tree planting in New Mexico ought to have the heartiest commendation of every public-spirited citizen.

THE MINER'S INTERESTS.

Of course, there is not the least possibility of success attending the efforts of the Democratic house to wipe out the duty on the cheaply mined lead ores of Mexico as long as Republicans are on guard in the senate; but the effort to accomplish it is being made just the same. And if it should succeed, what would the miners of New Mexico then have to say? As long as the Republican party has its motto protection for American labor, the more intelligent of the mining fraternity can but vote for that party, as a matter of pure self protection.

GOOD POLITICS.

The Democratic house of representatives is according Delegate Antonio Joseph a good deal of prominence; that is good politics; it strengthens Mr. Joseph at home and makes him the most prominent candidate for a U. S. senatorship should New Mexico be admitted and come in as a Democratic state. It must be acknowledged if one wants to be fair, that Mr. Joseph is the best equipped man in his party in New Mexico for that position. He is head and shoulders above the little

clique of 4 by 9 bosses, that is now running the Democratic machine from Albuquerque.

LAND OWNERS' ATTENTION.

If New Mexico would forever get rid of the incubus of uncertain land titles, her people must be up and doing. Comparatively speaking, only a few land grants have thus far been filed with the court of private land claims for final adjustment, and no attention whatever seems to have been paid to the small holdings provisions in the act establishing the land court. Under said provisions persons having claims of less than 100 acres must deal with the surveyor general who is authorized, after they have filed their claims, to make examination of the same, and report them to the general land office for patent unless these small holdings are so filed before March 3, 1903, they become void. Already the time allowed by law for this action has expired by half. It is imperative, therefore, that no more time be lost in this matter. Persons who have friends whose little home can be secured under these sections of the land act should call their attention to the danger of further delaying action and insist on filing their claims at once in the office of the surveyor general.

THE COLORADO SUN, ONE YEAR OLD.

On Sunday last, March 6, the first anniversary number of the Daily Colorado Sun, published at Denver, was issued. It was a paper of thirty-two pages, filled with carefully selected and remarkably interesting news, editorial and literary matter, and was indeed a marvel of a newspaper; the issue would have been a credit to any paper published in a city five times the size of Denver.

The growth of this journal has been somewhat phenomenal, and the New Mexican doubts if its career has ever been equalled; but 1 year old, started in a city of 130,000, then and there supplied with two first-class and long established morning papers, the Republican and the News, and one very good evening paper, the Times, the Sun, in the short space of twelve months, has succeeded in gaining a circulation, a bona fide circulation, of over 20,000 copies daily.

The business done during the past year by the business department of the paper amounted to more than a quarter of a million of dollars.
The Sun is a Republican paper in the best sense of the term; it has established a first-class press and news service; its editorial page is clean, bright, strong, sparkling and convincing; its Sunday issues are simply grand. The paper evidently represents and voices the sentiments of the strongest and best classes of citizens of the Centennial state and prominently represents western and Colorado push, enterprise, vim, progress and advancement.

Mr. W. H. Griffith, the general manager of the Sun, is a very young man indeed to have attained such great success in such a short time; but he has done it and "nothing succeeds like success." This is the strongest proof of the ability of the management.
The New Mexican rejoices in the strength and the success of the Sun, as that journal is a staunch and valued friend of the people of this territory and advocates forcibly every measure that could prove of possible benefit to New Mexico.

For the sake of the state of Colorado, of the territory of New Mexico, and of the great southwest, whose interests and advancement are successfully championed by the Sun daily, the New Mexican hopes that the Sun will continue to grow and increase in power and circulation. The unique and phenomenal growth of the journal during the past year is a certain augury, that such will be the case.

POLITICAL GOSSIP.

Boston Herald, Ind. Dem.: Continued Republican gains are reported in the local elections throughout New York state. The moral is obvious.

Washington Post, Ind.: The anti-Hill men have demonstrated that they are able to defeat any presidential ticket in the state of New York.

Springfield Union, Rep.: The indications are unmistakable that New York will cast its thirty-six electoral votes in November for the Republican ticket.

Chicago Tribune, Rep.: Mr. Frank Hurd is engineering a Cleveland and Campbell boom in Ohio, and the friends of Senator Hill are greatly encouraged.

Boston Journal, Rep.: Democrats are racking their brains for some combination which would elect their candidate, though conceding New York to the Republicans.

New York Tribune, Rep.: It is rumored that Grover Cleveland does not look with favor upon the proposition to hold another Democratic state convention in New York. It would be rather strange if Mr. Cleveland turned out not to be a Cleveland Democrat.

Albany Times Union, Dem.: Were it not for Hill there would be a solid delegation from New York for Cleveland, Springfield Republican.
If Mr. Hill were dead, the Democracy

of New York could not be induced to send a delegation to the national convention for Mr. Cleveland.

Omaha World Herald, Dem.: Hill has the states of New York even more overwhelmingly than had been anticipated. It is a stupendous political triumph. It is greater than any which had anticipated. It shows that Senator Hill is stronger and stronger Cleveland weaker than any one had supposed in New York state.

Memphis Appeal-Avalanche, Dem.: Whether the feeling developed among the recallists in New York is sufficient to cause a bolt in case Mr. Hill should receive the nomination for president we do not know. The Democrats of the country hope this may not be the case, but that he will be able to command every Democratic vote in the state.

San Antonio Express, Dem.: Henceforth every Democrat who favors the nomination of Grover Cleveland will thereby confess not only his approval of the unpatriotic course pursued by his friends in New York, but that the gratification of his ambition outweighs the success of the Democratic party. Cleveland and defeat are now synonymous terms.

Denver Sun, Rep.: The anti-Hill men of New York declare that they will contest the delegation chosen to go to Chicago at the recent Albany convention. But how are they going to do it? How are they to secure a standing and a hearing in the national body? They insist that Hill, if nominated, would be beaten in New York by 50,000 to 100,000 votes. Cleveland and the other leaders would not support him. But there are a great many of their followers who would not follow. But when the Democrats go to hunting for a man who will run better in the empire state than Mr. Hill, they will search a long time before they find him.

SPIRIT OF THE TERRITORIAL PRESS.

He Would Make a Strong Race.
The friends of T. B. Catron think that he could be elected delegate to congress over Anthony Joseph and are quietly laying the ropes to secure for him the nomination. Mr. Catron would make a strong race.—Junction City Times.

A New Man for Congressional Honors.

Now it is U. S. Attorney Eugene A. Fiske, for the district of New Mexico, who is said to be willing to allow his name to come before the Republican convention as a candidate for the delegateship from New Mexico.—Las Vegas Optic.

Beyond It's Ken.

Statehood for New Mexico means the settling up of arid lands, the opening up of new mineral districts, advancement in educational matters. And in the face of all this, men of all political parties oppose the admission of this territory, on what ground is beyond our ken.—Junction City Times.

Not a Profitable Business Venture.

It is claimed that the Albuquerque Democrat put up \$400 bonus and a loan of \$800 for the Spanish White Cap paper there, but forgot to devote anything to the English papers. A prominent citizen of the place told us a few days ago that they were heartily sick of their bargain and wanted to get rid of the paper.—Las Vegas Free Press.

Decidedly Democratic.

This is a Democratic paper—don't for a moment forget that. And while you are perusing the bright illusions which fill our Republican contemporaries concerning the coming election, remember that when the proper time comes we shall be on hand with our little opinions—which will be distinctly and decidedly Democratic.—Eddy Citizen.

Insists on Six Delegates.

It is highly probable that before the meeting of the Republican national convention at Minneapolis on the 7th of June, a bill for the admission of New Mexico will at least have passed the house. With such recognition of our claims to statehood it is hardly reasonable to suppose that the national convention will refuse to admit six delegates, if the Republicans of New Mexico send them.—Rio Grande Republican.

THE MAXWELL LAND GRANT

Farm Lands! UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE

For the irrigation of the prairie and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.
In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.
The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.
The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.
Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

LAS VEGAS HOT SPRINGS, N. M.

THIS great health and summer resort is situated on the southern slope of the Santa Fe range of the Rocky Mountains, and an elevation of nearly 7,000 feet above the sea. The Springs, some forty in number, vary in temperature from very warm to entirely cold, and are widely celebrated for their curative effects upon rheumatism and almost all forms of chronic disease. The bathing facilities are unequalled.

Is a commodious and massive structure of stone—the finest watering-place hotel west of the Alleghenies. It has every convenience, and is elegantly furnished and supplied.

The Springs and Hotel are located on a branch of the main line of the Santa Fe Route, six miles from the town of Las Vegas, New Mexico; is readily accessible by telegraph, telephone, and four passenger trains per day. It is extensively used as a resort and bathing place by transcontinental tourists, as well as by all classes of rest, pleasure, and health seekers from every part of the country.

Round-trip tickets to Las Vegas Hot Springs on sale at all coupon stations. Round trip tickets from Santa Fe, N. M.

SHOOTING STARS.

And Such is Life.

They loved each other years ago,
They thought their love was true,
He dotted madly on her,
On him she doted, too.

A something came between the two,
As happens oft in life;
Another's hand he became
And she another's wife.

They met to-day; the past was but
A recollection dim.
He wondered what he saw in her,
She what she saw in him.

A Real Estate Room

Attracts the attention of every property holder in this city. But when Dr. Frank Miles, the eminent Indiana specialist, claims that heart disease is curable and proves it by thousands of testimonials of wonderful cures by his New Heart Cure, it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, wind in stomach, pain in side or shoulder, smothering spells, fainting, dizziness, etc. A. F. Davis, Silver Creek, Neb., by using four bottles of Dr. Miles' New Heart Cure was completely cured after twelve years suffering from heart disease. This new remedy is sold by A. C. Ireland, Jr. Books free.

Family Pride.

In writing up the burglary, said the excited caller, you can say the thieves in their hurry overlooked \$750 worth of jewelry and silver plate in one of the closets.

Might not that bring the burglars to your house a second time? suggested the city editor.

I don't care if it does! exclaimed the other. I don't want the public to get the impression that a gang of robbers can go through my house and only find \$25 worth of stuff worth stealing.

—Chicago Daily Tribune.

Financially Embarrassed.

A large manufacturer, whose affairs were very much embarrassed, and who was overworked and broken down with nervous exhaustion, went to a celebrated specialist. He was told that the only thing needed was to be relieved of care and worry, and have a change of thought. This doctor was more considerate of his patient's health than of his financial circumstances. He ought to have advised him to use Dr. Miles' Restorative Nervine, the best remedy for nervous prostration, sleeplessness, dizziness, headache, etc. Thousands testify to cures. Book and trial bottle free at A. C. Ireland, Jr.

Enough to Bother Him.

So you have called in answer to my advertisement for an American coachman?

Yes, sir.

Are you an American?

O! am, sir.

Where were you born?

In old Ireland, sir, county Cork.

And how is it that you are an American and were born in Cork?

Falk, sir, O'm bothered about that same meself, sorr.—Boston Transcript.

Miles' Nerve & Liver Pills.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation, indigestion, etc. for men, women, children. Smallest, mildest, sweetest! 50 doses, 25 cents. Samples free at A. C. Ireland, Jr.

One of the Funny Things of Life.

You want to join a club, do you?

Yes.

And you're an author?

Yes.

Well, then, join the Players' club.

Why not the Authors' club?

Oh, that wouldn't do at all, you know. If you were an actor, you might join the Authors' club, but being an author the proper thing for you is to join the Players' club. That's the way in New York, don't you know.

The Amende Honorable.

She (with some severity)—I have been told that you speak in very complimentary terms of me to others. I do not wish you to do so, for people may get the idea from your praise of me that there is something between us. That is an impression that I do not wish should get abroad.

—He—I'm sorry for what I said. It was only in fun.

She—Fun?

—He—Yes, when I said you were beautiful and amiable and all that I did not mean in, upon my word, so please forgive me.

You can now feel well without a clear head, and for this take Simmons' Liver Regulator.

Fell Flat.

The conversation flagged a little at a recent high tea held within the select circle of the One Hundred and Fifty, and one of the guests—a practical joker by the way—said, facetiously:

"Evidently we are at a loss for a subject to keep the conversation going. Let us talk about the genealogy of our families."

Strange to say this suggestion, instead of loosening the tongues of the company, acted like the traditional wet blanket, and the silence that followed became so thick that it could have been cut with a butter knife.

The most of our ailments come from a disordered liver which Simmons' Liver Regulator cures.

It Sometimes Turns Out So.

"Mr. Smith and Miss Jones used to be great friends. Are they as friendly as ever?"

"Why, no; they're married now."

Dyspepsia in all its forms is not only relieved but cured by Simmons' Liver Regulator.

Truthful but Complimentary.

"Were you ever kissed before?" he asked, after imprinting on her rosy lips his love's first salutation.

"Never," she said, drawing a long breath of pleasure, "never like that."

Vile and Unworthy

Of consideration are nostrums of which it is as serious and there are many such that they cure immediately bodily ailments of long standing. There are none such that can, chronic disorders cannot be instantaneously removed. Constipation in the use of a genuine medicine, such as Hostetter's Stomach Bitters, will eradicate chronic physical evils. Not the least of these is the force of its opposition to medicine is continuing to the removal of which, if persisted in, the illness is particularly adapted. Constipation of the bowels is a complaint which should be dealt with early and systematically. So are its usual attendants, liver complaint, indigestion, headache, neuralgia, rheumatism, kidney trouble, and more recently "via grippe," this highly and profoundly remedied medicine is an undoubted specific. Nothing can exceed it, moreover, as a means of imparting strength to the feeble and nervous.

The Democratic Leaders Alarmed.

That they flirited with Tammany now they are roiling.

And they wish that advice they had heeded.

For Hill and his henchmen much damage are doing.

It is by the leaders conceded.

The party is now in a sorry position.

And it may, to steer clear of disintegration, be obliged to award to a ward politician the prize of the coming convention.

Bucklen's Arnica Salve.

The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at C. M. Creamer's.

When the Cold Comes.

When March comes in with smiling air,
And daffodils their heads are showing,
And signs are plenty everywhere
That cheerless winter's surely going.

And we believe the times gone by
For heaping anthracite or coal
Upon the stove, the days are nigh
For putting on a thicker flannel.

Strength and Health.

If you are not feeling strong and healthy, try Electric Bitters. If "La Grippe" has left you weak and weary, use Electric Bitters. This remedy acts directly on Liver, Stomach and Kidneys, gently aiding those organs to perform their functions. If you are afflicted with Sick Headache, you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need. Large bottles only 50c. at C. M. Creamer's Drug Store.

Poor Encouragement for Her.

"They used to fine a man \$500," she said playfully, "if he refused a proposal made to him in leap year by a lady."

"Well," said he, "if a man could afford it I should say that was a cheap way of getting out of it. No—a day's man would just have to refuse and be done with it, no matter how mean he felt about it."

A Little Girl's Experience in a Light house.

Mr. and Mrs. Loren Trecoott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with Measles, followed with a dreadful Cough and turning into Fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "bundle of bones."

—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at C. M. Creamer's Drug Store.

Bound to be a Wedding.

Do you think he is likely to marry her? I don't know what his intentions are, but she means to marry him.

Solitaires in Clusters.

Perdita—Are you going to make him give you a ring with a solitaire in it.

Penelope—No; one with two or three solitaires in it.

TEN POUNDS IN TWO WEEKS THINK OF IT!

As a Flesh Producer there can be no question but that

SCOTT'S EMULSION

Close competition; enlarged views; closer relations between railway officials and the public; newspaper comment; liberal advertising.

All the above are the direct causes of the luxurious facilities all-rail to travelers at the present time.

The Washburn Line has kept itself in the front rank during the march of progress and offers to travelers every luxury and convenience which human ingenuity can devise or the liberal expenditure of money procure. Its passenger trains from Kansas City and Council Bluffs to St. Louis, Chicago, Toledo, Detroit and intermediate points, its through car lines to New York, Boston, and other seaboard and eastern points, its magnificent track and unsurpassed running time, leave nothing to be desired.

Passengers are always safe when asked to specify their route in naming the Washburn.

C. M. HANSON, Con. Agent, 1227 17th street, Denver, Colo.

DON'T TAKE

Medicines that pretend to do the work of SSS. The effects of them are worse than the diseases they pretend to cure. They are but one permanent cure for contagious blood poison, and that is to be found in SSS. And it is the only medicine that will permanently destroy the effects of MERCURIAL AND POTASH POISONING.

It is a purely vegetable remedy, entirely harmless, and yet it is the most potent blood purifier ever discovered.

HISTORICAL.

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center of the Santa Fe range and is sheltered from the northern winds by a spur of low hills which extend from the mountains west as far as the Rio Grande. It lies in the center of the valley at the mouth of a picturesque canon, the chief entrance to the Pecos National Park, and through which runs the Rio Santa Fe, a beautiful mountain stream, having its rise in the Santa Fe range of mountains. Its elevation is 6,800 feet. Its population is 7,850. It has good schools and churches. There is an excellent system of water works. The city is lighted with gas and electricity. It has more points of historic interest than any other place on the North American continent. Land may be purchased at prices to suit the rich or the poor. Five acres in Santa Fe or vicinity will produce more than can be produced anywhere else in the world. Our markets are close at hand and we can successfully compete with any other locality. Since the first fruit tree was planted in the Santa Fe valley there has been, but one failure in the fruit crop. What place, what country can approach this record?

PUBLIC INSTITUTIONS.

Among the more important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, the territorial capitol, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan's training school, St. Vincent's charity hospital, U. S. government Indian school, St. Catherine Indian boys training school, Fort Marcy barracks, St. Michael's college, Loreto academy, Presbyterian, Methodist and Congregational churches, the governor's palace, the archiepiscopal residence of Archbishop J. S. Alaphont, and Bishop E. L. Chappell and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

RESOURCES.

Santa Fe county has an area of 1,498,000 acres and a population of 16,010. The principal occupations are mining, sheep and cattle raising, truck farming and fruit growing. The valley soils are especially adapted to horticulture and there is at hand a never failing market in the mining camps.

In the southern portion of the county mining forms the principal industry, the large deposits of coal, lead, silver, iron, copper and gold veins as well as in the form of placer gold, at Cerrillos, New Placer (Dolores), Golden and San Pedro being justly noted for their richness.

THE WORLD'S SANITARIUM.

But it is to Santa Fe's superior climate advantages, and its fame as nature's most potent healing power as a cure for consumption and other pulmonary diseases that Santa Fe bases its great future upon. The highest American medical authorities concede the superior advantages of the city's location. The requisites of a climate curative of consumption, are, according to the best medical testimony, altitude, dryness, equality of temperature, light and sunshine, and a porous soil. Moreover, if possible, these must be sought in localities interesting and attractive where variety and occupation may be had, and the social advantages are good.

An eminent German authority says: "The altitude most favorable to the human organism is about 2,000 meters," somewhat more than 6,500 feet.

THE OLD-FASHIONED PILL. Bad to take, and bad to have taken. Inefficient, too. It's only temporary relief you can get from it.

Try something better. With Dr. Pierce's Pleasant Pellets the benefit is lasting. They cleanse and regulate the liver, stomach and bowels. Taken in time, they prevent trouble. In any case, they cure it.

And they cure it easily; they're mild and gentle, but thorough and effective. There's no disturbance to the system, diet or occupation. One tiny, sugar-coated Pellet for a laxative—three for a cathartic. Sick and Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels are promptly relieved and permanently cured.

They're purely vegetable, perfectly harmless, the smallest, and the easiest to take—besides that, they're the cheapest pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. This is true only of Dr. Pierce's medicine.

THE EAST AND WEST.

Short line to NEW ORLEANS, KANSAS CITY, CHICAGO, ST. LOUIS, NEW YORK, WASHINGTON. Favorite line to the north, east and southeast. PULLMAN PALACE SLEEPING CARS daily between St. Louis and Dallas, Fort Worth and El Paso; also Marshall and New Orleans without change. Solid Trains, El Paso to St. Louis. First-class Equipment.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues, a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Stimulant Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficiency.

NEVER BEEN DISAPPOINTED.
A central remedy for dyspepsia, torpid liver, constipation, etc. I hardly ever see anything else, and have never been disappointed in its effect produced; it seems to be almost a perfect cure for all diseases of the stomach and bowels.
