### BRIEF WIRINGS.

**Nominations.**  
WASHINGTON, March 11.—The president has sent the following nominations to the senate. To be judges of probate in the territory of Utah: Isaac Burton, for Uintah county; Lara P. Edholm, for Morgan county; George C. Veila, for Millard county; Daniel Page, for Iron county; James McCarry, for Beaver county.

**Disappeared at Albuquerque.**  
MARTINSVILLE, Ind., March 11.—Ora E. Allison, who left Spencer several weeks ago for Wichita, Kas., to accept a position as traveling salesman for a wholesale house, is missing. He was last heard from at Albuquerque, N. M. His friends at Spencer fear foul play, as he carried large sums of money.

**Gifts from Gould.**  
New York, March 11.—Jay Gould has given \$25,000 to the university of the city of New York. The gift was made a few days after he gave his check for \$10,000 to the Presbyterian church extension committee. It was Mr. Gould's desire that the gift should be kept a secret, but the Rev. Dr. John R. Paxton, the pastor of the church which Mr. Gould and his family attend, let out the gift unintentionally.

**A Pioneer Goes Under.**  
PUEBLO, March 11.—Sheriff Moss has placed an attachment on the stock of carriages and agricultural implements of W. H. Hyde for the sum of \$23,000, in favor of the First National bank of Pueblo. Mr. Hyde has been in continuous business here for over twenty years, and has always been considered one of the most conservative business men of Colorado. As other attachments are to follow it is not likely that the business will be resumed.

**The Ex-Speaker Smiles.**  
WASHINGTON, March 11.—A reception was given to ex-Speaker Reed by the National Republican Auxiliary association, Senator Perkins presiding. A congratulatory address was delivered by Representative Barrows of Michigan, to which Mr. Reed responded. Remarks were also made by Congressman Payne of New York and Dolliver of Iowa. The reception was tendered Mr. Reed for the purpose of felicitating him upon the recent decision of the supreme court, which sustained his course as speaker of the 51st congress.

**Waiting on Salisbury.**  
WASHINGTON, March 10.—The senate committee on foreign relations spent an hour yesterday in the consideration of the hearing on a treaty. A vote was practically decided that the treaty should be reported to the senate with a recommendation that it be approved, no formal action of that nature was taken, as the committee believed that the president would be to await the receipt from the president of Lord Salisbury's reply to his last proposition looking to a renewal of the modus vivendi.

**Western Suicides.**  
SAN DIEGO, Cal., March 11.—Geo. Golden, aged 65, yesterday shot and killed himself. This makes the second suicide in the result of the failure of the California national bank. Golden left a note saying he had been induced to put all his money in the California national bank, and had deposited over \$1,300 the day before the bank failed.  
PHOENIX, A. T., March 10.—T. H. Seelig, a well-known business man of this city, committed suicide yesterday by shooting himself in the mouth, death resulting instantly. The cause is supposed to have been business trouble, as he was short in his accounts with the Knights of Pythias. He was a prominent Mason and also a Pythian. He had been in Phoenix since 1871.

**Senatorial.**  
WASHINGTON, March 11.—In the senate the resolution offered by Mr. Morgan instructing the committee on privileges

## "August Flower"

How does he feel?—He feels blue, a deep, dark, unfading, dyed-in-the-wool, eternal blue, and he makes everybody feel the same way—August Flower the Remedy.

How does he feel?—He feels a headache, generally dull and constant, but sometimes excruciating—August Flower the Remedy.

How does he feel?—He feels a violent hiccupping or jumping of the stomach after a meal, raising bitter-tasting matter or what he has eaten or drunk—August Flower the Remedy.

How does he feel?—He feels the gradual decay of vital power; he feels miserable, melancholy, hopeless, and longs for death and peace—August Flower the Remedy.

How does he feel?—He feels so full after eating a meal that he can hardly walk—August Flower the Remedy.

G. G. GREEN, Sole Manufacturer, Woodbury, New Jersey, U. S. A.

and elections to inquire into the manner of electing United States senators, was taken up and agreed to. Senator Teller offered a resolution which was agreed to calling on the secretary of the treasury for information as to the amount of treasury notes issued under the provisions of the act of July 4, 1890, the amount of silver dollars coined under the provisions of that act; the amount of silver bullion in the treasury purchased under the provisions of that act; whether the silver dollars coined under its provisions are available for the ordinary expenses of the government; whether silver dollars or silver certificates have been redeemed or exchanged for gold, and if so to what amount; and if silver dollars and silver certificates are used in the discharge of government obligations, and if so what class of obligations are discharged by them. The agricultural most inspection deficiency bill was taken up and passed. A bill was passed making Laredo, Texas, a sub-office entry.

**The Scoundrel Case.**  
CHICAGO, March 11.—Whether or not Dr. H. M. Scudder was insane when he made a murderous attack upon his mother-in-law, Mrs. Danton, that resulted in death, and whether he is insane to-day, are the difficult problems which the country court was called upon to grapple to-day. So great is the public interest in the case that long before the hour set for the hearing the court and its approaches were packed, and the corps of bailiffs had to be reinforced. That the effort to prove the prisoner insane will be resisted by the husband and other relatives of the dead woman was evident by the appearance of ex-United States Senator Doolittle and his law partner, W. Tolman together with Frank Walker, a trio of strong and able lawyers. It was explained on their behalf that there was no disposition to deal unfairly with the prisoner, or to try to make him out sane if he was really insane.

They simply proposed that the matter should be thoroughly inquired into, and that the evidence produced should not be all on one side. Dr. Noble, of the Detention hospital, and Dr. H. H. Lyman, the noted specialist on nervous diseases, are prominent among those in attendance. Dr. Noble, when first called to the stand, told at length of the prisoner's actions since he has been an inmate of the institution. The case will very likely be closed to-day. Public opinion is very much divided regarding the plea of insanity, a great many well informed people believing that the murderer is just as sane to-day as he ever was. It has only just developed through one of his old classmates that he was expelled from Yale college in 1874 for viciousness, disrespect and general dishonesty; and the fact is cited, as showing how viciously his morals must have been in those days, that the class from which he was expelled has gone down to history as the insolent ever graduated from that famous institution.

**A Railway Sensation.**  
CHICAGO, March 11.—The peremptory dismissal from the service of the Illinois Central railroad of Gen. Freight Agent Horace Tucker, has caused more excitement and comment than any similar event of recent date. The has, in fact, been no similar event, for the spectacle of an official who for thirty years had been in the continuous employ of one corporation, being given his walking-papers without a word of grace is declared by old railroad men to be unparalleled in the history of any corporation in this country. Capt. Tucker, who is regarded as one of the best freight men in the country, might have drawn another month's salary had he been willing to give heed to the request of President Fish for his resignation. Instead of complying, however, he demanded a letter of resignation, and when it came to him it was with the intimation that it took effect from the moment he received it. All kinds of rumors are afloat regarding the reasons which precipitated the trouble, and although neither side has anything to say at present it is understood that there will be startling developments in the near future, and those of a kind that may demand more earnest action on the part of the interstate commerce commission than it has yet been called upon to perform. If the rumors in circulation are correct every shipper on every branch of the road will be interested in the future developments, and they may be revelations that, if confirmed, will be fraught with very serious results to those directly concerned.

**Good for Traveling Men.**  
WASHINGTON, March 11.—Now that the interstate commerce commission has withdrawn its opposition to the bill introduced by Representative O'Neill, of Philadelphia, and which allows railroads to grant to commercial travelers reduced fares and a greater weight of sample packages than is allowed to other passengers, efforts will be made to rush a bill through both houses during the present month in order that it may receive the signature of the president at the earliest possible date. Numerous petitions from business houses and commercial travelers in all parts of the country urging the prompt passage of the measure, as enacting justice to a large and influential class of the business community have been received here and presented to both the house and the senate.

**The President's State.**  
INDIANAPOLIS, Ind., March 11.—The Republican convention met here yesterday. Warren C. Sawyer was chosen permanent chairman. The rules of the 51st congress, as interpreted and applied by Thomas B. Reed, were adopted to govern the convention, amid applause. The resolutions endorsed the administration of President Harrison and agreed

to work earnestly for his re-nomination. The following delegates at large to the national convention were elected: Richard Thompson, of Terre Haute; ex-Congressman Peck, of Indianapolis; ex-Secretary of State Charles N. Griffin, of Hammond; N. Depauw, of New Albany.

### CONDENSED NEWS.

Emperor William is sick a-bed. Blaine and Springer are somewhat better.

Snow storm and blizzard at St. Paul, Minn., and Bayfield, Wis.

Medical men in Mexico are studying the question of the execution of criminals by poisoning.

William A. Dase, confidential clerk for Mallison Bros., paper merchants, New York, has been arrested charged with embezzling \$31,702. He has been employed there for eleven years.

The trial of Gen. Milton S. Littlefield, who was indicted for grand larceny, Mrs. Stephanie, of New York, has been reset for Monday. He forfeited his bond by not appearing Tuesday last.

The house committee on the World's Columbian exposition has designated Monday, the 21st inst., as a day on which it will hear arguments on the bill introduced by Representative Durborrow, making further appropriations for the World's fair.

William Starkey, the alleged jury briber and writer of the Cronin decoy letters from Canada, and under five indictments for forgery and conspiracy in suits against the Chicago City railway company, and who has been missing three years, has surrendered at Chicago.

### IN TAOS VALLEY.

A Correspondent Writes of the Country, the Schools and on Other Matters.

Correspondence New Mexican.

TAOS, N. M., March 8.—Complying with my promise to drop you a line once in a while during my trip, I wish to say that I came as far as the valley of Taos in company of Hon. Amado Chavez, the territorial superintendent of public instruction. We reached this city after a very hard trip owing to the horrible condition of the roads. After having traveled all over the territory I have no hesitation in saying that this is the most lovely valley in New Mexico. It is surrounded on all sides by high and picturesque mountains, and the whole valley is traversed by streams of clear, pure water in great abundance. To-day we have visited the schools in the city and also in the neighboring pueblo of Taos, one of the most prosperous Indian villages in New Mexico. A new school house has just been finished in this place and the same is under the control of a genial and competent teacher; Mr. P. M. D. lan, who, with the assistance of the directors, is doing good, honest and conscientious work for the people. There are eighty children attending the public school, and there are a number of private schools also. At the Indian village, Miss Lena Schenck, a very agreeable young lady and a most excellent teacher, is doing good work for the young Indians. She has quite a comfortable school house and has about all the children one teacher can well attend to. All the younger Indians are anxious to educate their children, but the older ones are not so very anxious for fear that when their children are educated they will be dissatisfied with their humble homes and leave them. These Indians have one of the most valuable tracts of land in the territory and are industrious, independent and happy, like the other Pueblo Indians in this territory. The population in this valley is not increasing much at present, but the time is not far distant when there will be a population of 50,000 people instead of 12,000. There is everything requisite here to make this a thickly settled and prosperous community. The soil is extremely fertile; it produces the finest kind of grain and the most delicious fruit. The people are taking great interest in planting trees and young orchards are growing on all sides. The inhabitants of this section are all getting ready to present their land claims to the court of private land claims for adjudication. There is in this vicinity one of those imaginary grants, containing tens of thousands of acres, that the court will, no doubt, reject the moment it is presented. It is known as the Lucero grant.

At nearly all the points that we have visited we find the samples of the good work of the Santa Fe schools in the shape of bright and enterprising young men. Right in this city there are dozens of such, and among the most promising of them is Don Enriquez Gonzalez, who not long ago married a beautiful niece of Hon. Frank Manzanares.

J. A. C.

**To My Patrons.**  
With increased facilities and better cooks, I hope merit increased patronage. Thanking all friends for their favors of the past and asking for a continuance of the same, which I shall cherish by furnishing my tables with the best in the market, well served and carefully served. Day board, \$5 per week; single meals, 25c. Respectfully, the public's servant, WILL C. BURTON—"BILLY." One door east of Staab's store.

**Legal Notice.**  
District Court, Santa Fe County. In the Matter of the Voluntary Assignment of The Fischer Brewing Company, for the benefit of its creditors.

To all the creditors of the above named assignor, The Fischer Brewing Company, and to all others whom it may concern: Notice is hereby given pursuant to statute, that on Tuesday, April 12, A. D. 1892, at 9 o'clock a. m., at the law office of my attorney, Mr. George W. Knaebel, in the Catron Block, on the east side of the public plaza, in the city and county of Santa Fe, and territory of New Mexico, I, the undersigned, assignee of the said Fischer Brewing Company, will commence to adjust and allow demands against the estate of such assignor, and, for such purpose I shall attend, in person, at the time and place above designated, and for two consecutive days thereafter, from nine o'clock a. m. and continue the same to five o'clock p. m. on each of said days respectively. Dated, Santa Fe, N. M., March 31, 1892. J. G. SCHUMANN, Assignee.

**A Real Estate Boom**

Attracts the attention of every property holder in this city. But when Dr. Franklin Miles, the eminent Indiana specialist, claims that heart disease is curable and proves it by thousands of testimonials of wonderful cures by his New Heart Cure, it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, wind in stomach, pain in side or shoulder, smothering spells, fainting, dizziness, etc. A. P. Davis, Silver Creek, Neb., by using four bottles of Dr. Miles' New Heart Cure was completely cured after twelve years suffering from heart disease. This new remedy is sold by A. C. Ireland, Jr. Books free.

**Spring, Gentle Spring.**

Come, put away the winter big,  
And the sleekskin cap we wore  
For gentle spring is coming on.  
We shall not need them more.

Pull down the camphorated trunk  
Forth from the attic high,  
And pack those winter clothes away  
For spring is drawing nigh.

And when we get them packed away  
Up out of sight, Why then  
We'll shiver and we'll shake to find  
That cold snap's here again.  
—Clothing and Furnisher.

**Financially Embarrassed.**

A large manufacturer, whose affairs were very much embarrassed, and who was overworked and broken down with nervous exhaustion, went to a celebrated specialist. He was told that the only thing needed was to be relieved of care and worry, and have a change of thought. This doctor was more considerate of his patient's health than of his financial circumstances. He ought to have advised him to use Dr. Miles' Restorative Nervine, the best remedy for nervous prostration, sleeplessness, dizziness, headache, ill effects of spirits, tobacco, coffee, opium, etc. Thousands testify to cures. Book and trial bottle free at A. C. Ireland, Jr.'s.

**A Chance Shot.**

Brother Gotrox, said the Rev. Mr. Wilgus, did you ever reflect that your wealth is not really your own—that it is but committed to your hands as a trust, yet to be accounted for?

That is the way I got hold of most of it, answered the great man, surprised into sudden candor, but I don't see how you discovered it.—Indianapolis Journal.

**Miles' Nerve & Liver Pills.**

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery, Dr. Miles' Pills specially cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Scallions, mildest, sweetest! 50 doses, 25 cts. Samples Free at A. C. Ireland, Jr.'s.

**The Last Gun.**

This, then, Miss Grassneck, said the young man as he started for the door, is your final decision?

It is, Mr. Wickliffe, said the young girl firmly.

Then, he replied, his voice betraying an unnatural calmness, there is but one more thing to add.

What is that? she asked, looking absent-ly with the love of her shell-like ear.

It is this, he muttered—shall I return those black satin suspenders by mail, or will you have them now?—Clothing and Furnisher.

**The Time-Difference.**

She—Tell me, what difference is there between a ready-made tie and one you tie yourself?

He—About an hour.—Life's Calendar.

**Dyspepsia in all its forms** is not only relieved but cured by Simmons Liver Regulator.

**A Candid Cousin.**

She—Will you write to me on your return to college?

He—Why—er—your know I can't write.

She—Oh, don't expect you to write brilliantly or amusingly; just write as you talk.—Princeton Tiger.

**The Partaker as Bad as the Other.**

She—You ought to be ashamed of stealing a kiss.

He—You are equally guilty. You received the stolen goods.—Truth.

The most of our ailments come from a disordered liver which Simmons Liver Regulator cures.

**For the Complexion.**

"Doctor, I wish you'd prescribe for my complexion."

"Certainly madam," returned the doctor, and then he wrote: R—Let it alone.

—From Brooklyn Life.

**Nothing the Matter.**

Clubberly (at the club)—Glad to see you back in the club, old man. You resigned about a year ago on account of your engagement, I believe. What's the trouble, broken off?

Plunkinton—Oh, no; I got married.

—Brooklyn Life.

**Wrenched Out of Shape.**

Joins ailments and contorted by rheumatism among the penalties for allowing the oblate malady to gain full headway. Always is it dangerous from its liability to attack the joints—invariably it is agonizing. Hostetter's Stomach Bitters has in nothing more clearly asserted its supremacy to the ordinary remedies for this malady than in its power to expel the rheumatic virus completely from the blood. It is safe, too, with colic, vertigo, and neuralgic pains, and is a powerful remedy for the biliousness, the griping, the kidney and bladder trouble, nervousness and debility are also relieved. The convalescent and the aged and infirm derive much benefit from its use.

**Diagnosis Better Than Declaration.**

The Youth—Is love you fondly.

The Boston Girl—Let me feel your pulse. You do not object to my making a scientific analysis, do you?—Puck.

**Bucklen's Arnica Salve.**

The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at C. M. Creamer's.

**No Man Can Find It.**

Bachelor—You married a rich woman and yet you never have a cent.

Benedick—She supplies all my needs, but she won't give me any spending money.

Bachelor—Why don't you get up in the night and go through her pocket?

Benedick—I did that once, but I could not find her pocket.

**Merit Wine.**

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity on their merits. C. M. Creamer Druggist.

**BE CAREFUL!**

A sore on an ulcer that resists ordinary treatment is a very serious matter. It is either of a cancerous nature, or it is the result of a very bad condition of the blood. Don't tamper with it. Take

**The Great Blood Remedy**

and get rid of it. Don't delay. Rev. Jesse H. Smith, of Columbus, Ga., writes: "A woman with a cancerous ulcer of years' standing, and five inches in diameter, has been entirely relieved by a bottle of S. S. S. I consider its effects wonderful—almost miraculous." This is the record of

C. M. Conklin, services attending sessions probate court during 1891	39 00

Mr. Rito Dominguez appeared before the board and asked for an abatement of \$100 in taxes for 1891. The collector was instructed to settle with Mr. Rito Dominguez on that basis.

Mr. Miguel Silva appeared before the board and asked an abatement of taxes for 1891. The matter was taken under consideration.

A petition from Mr. Pedro Chavez, Galisteo, was presented, asking an abatement of taxes for 1891. Same was taken under consideration.

Account of H. S. Clancy, clerk supreme court, for \$7.70 in regard to case in the county of Santa Fe. N. C. Coler et al. vs. the county of Santa Fe. Was referred to the district attorney for examination.

New bond of Ignacio Lopez as clerk was approved.

Account of H. S. Clancy for services as clerk during 1891 for \$25 was approved.

Account of J. H. Crist, for stationery and advertising for \$97.25 was approved, payment of delinquent taxes.

The following resolution was adopted: Whereas, It is advisable to employ counsel to appear for the county before the U. S. court of private lands claims to protect any interests that county may have in the way of land property and the settlement of which by act of Congress is or may be had by suit in that court. Now therefore, John H. Knaebel and E. L. Bapiste, esquires are hereby appointed to represent the county in said court, together with the district attorney.

Account of Jacob Weltner for stationery \$10.15 was approved.

The following resolution passed by the Board of Trade recommending the refunding of the bonds issued to the Texas, Santa Fe & Northern railroad was read and spread upon the minutes.

To the honorable the board of county commissioners of the county of Santa Fe:

Gentlemen:—I beg to state that at a special meeting of the Santa Fe Board of Trade, held at the office of its secretary, in the Catron block, in the city of Santa Fe, N. M., on Friday Feb. 19, 1892, at 4 o'clock p. m., the following preamble and resolution, were unanimously adopted:

Whereas, There is a large amount of 5 per cent railroad bonds outstanding against this county in favor of the Texas, Santa Fe & Northern railroad company; and

Whereas, Said company desires to refund the same at the rate of 5 per cent interest; and

Whereas, These are the only bonds outstanding against the county which bear more than 5 per cent interest, and it is very desirable to reduce the amount of county debt, and thus make a saving to the county as well as redeem its credit, which has been seriously impaired by its neglect to provide for paying the interest on this and other indebtedness of the county.

Be it resolved, Be it resolved, Be it resolved, That in our opinion the said bonds should be refunded at once into 5 per cent bonds for the amount found to be due, and we earnestly recommend that the board of county commissioners of Santa Fe, do so.

In order to ascertain the exact amount so due on said bonds for the purpose of refunding the same, a committee of three is appointed by this board to investigate and report, such amount to this board at an early day. Provided, That said company or its successors shall pay the amount of judgments and legitimate claims against it now outstanding, before the issuance of said refunding bonds.

A true copy of the minutes.

Geo. W. Knaebel,  
Secretary.

Very respectfully yours,  
Geo. W. Knaebel,  
Secretary Santa Fe Board of Trade.

The following communication from Moore & Schley was read and spread upon the minutes:

J. R. Mayo, Esq., Chairman Board of County Commissioners, Santa Fe, N. M.

New York, Feb. 25, 1892.—Dear Sir: I transmit herewith a statement of the bonds, and coupons thereon, of the county of Santa Fe, now in the hands of investors, which, with accrued interest to March 1, 1892, amounts to \$181,020.20. In this total the amount of certain coupons that have been presented to the county treasurer by the Second National bank of Santa Fe and cashed by him should be deducted. I have no information as to what this amount is, but your records will undoubtedly show.

I also enclose a statement of the account of Moore & Schley with the county of Santa Fe, showing an indebtedness of \$24,616.66. As collateral security for this indebtedness Moore & Schley hold coupons detached from the bonds of the county amounting to \$6,000, which they will surrender upon the settlement of this account.

I also enclose a bill of Chase A. Seaford for \$252.25, being the expense incurred in printing, numbering and binding new refunding bonds for which application has been made to your board.

I trust your board will be able to pay at once the amounts due to Moore & Schley and Chase A. Seaford, as above, and I understand there are funds in the county treasury, collected on account of the interest on these bonds, that are available for this purpose.

I understand that the county commissioners have undertaken to levy a tax of

**Stop that CHRONIC COUGH NOW!**

For if you do not it may become consumptive. For Consumption, Scrophulous, General Debility and Wasting Diseases, there is nothing like

**SCOTT'S EMULSION**

Of Pure Cod Liver Oil and HYPOPHOSPHITES

Of Lime and Soda.

It is as good as a palatable and safe. Far better than the other so-called Emulsions. A wonderful Cough producer.

**Scott's Emulsion**

There are poor imitations. Get the genuine.

some sort upon the Santa Fe Southern railway company, under some misapprehension of the facts. The railroad line from Espanola to Santa Fe is owned by the Texas, Santa Fe & Northern railroad company, subject to a mortgage thereon, and is leased to the Santa Fe Southern railway company, so that as a matter of fact, the latter company is not the owner of any railroad in your county. I trust the board, acting in a spirit of general harmony, will see fit to rescind its action in levying this tax, as it can only result in litigation, which is bound to be decided adversely to the county.

I would respectfully suggest that should your board act favorably on our application of funding of the issue of bonds referred to, that the new bonds be executed and deposited with some responsible bank or banking house in the city of New York, so that holders of the original issue of bonds can present them and receive in exchange, new funding bonds. In this way the exchange will be very much facilitated and everything can be closed at a very early date.

Thanking you for the courtesy and consideration I have always received at your hands, and trusting that the action of your board will be favorable to our application, I remain, very truly yours,

E. R. CHAPMAN.

P. S.—I understand that the \$30.20 being the old amount of the bonds and interest will be paid in each. E. R. C.

(To be Continued.)

### Legal Notice.

Thomas Kiddle, In the District Court, vs. County of Santa Fe, Defendant.

The said defendant, Richard Giblin, is hereby notified that a suit in assumpsit has been commenced against him in the district court for the county of Santa Fe, territory of New Mexico, by said Thomas Kiddle, plaintiff, herein damages claimed \$2,000, that your property has been attached and that unless you enter your appearance in said suit on or before the first day of the next regular term of said court, commencing on the 30th day of May, 1892, judgment by default therein will be rendered against you and your property sold to satisfy the same.

THOMAS KIDDLE.

### THE WORLD'S SANITARIUM.

But it is to Santa Fe's superior climate and its famous natural mineral springs that the world's greatest healing power is a cure for consumption and other pulmonary diseases that Santa Fe has its great future upon. The highest American medical authorities concede the superior advantages of the city's location.

The requisites of a climate curative of consumption, are, according to the best medical testimony, altitude, dryness, equality of temperature, light and sunshine, and a porous soil. Moreover, if possible, there must be localities interesting and attractive, where variety and occupation may be had, and the social advantages secured.

An eminent German authority says: "The altitude most favorable to the human organism is about 2,000 meters," somewhat more than 5,500 feet.

**But you can stop them in advance.**

Dr. Pierce's Golden Medical Discovery invigorates the liver, purifies and enriches the blood, and rouses every organ into healthy action. It prevents and cures all diseases arising from a torpid liver or from impure blood. Dyspepsia, Indigestion, Biliousness, Scrophulous, Skin and Scalp Diseases—even consumption (Lung-scrophulous), in its earlier stages, all yield to it.

The makers of the "Discovery" claim for it only what it will do. They guarantee that it will do it. If it fails to benefit or cure, in any case, they'll return the money. Nothing else that claims to purify the blood is sold in this way; which proves, no matter what dealers may offer, that nothing else can be "as good." Therefore, don't accept a substitute.

**In the Lead.**

Close competition; enlarged views; closer relations between railway officials and the public; newspaper comment; liberal advertising.

All the above are the direct causes of the luxurious facilities afforded to travelers at the present time.

The Washburn Line has kept itself in the front rank during the march of progress and offers to travelers every luxury and convenience which human ingenuity can devise or the liberal expenditure of money procure. Its passenger trains from Kansas City and Council Bluffs to St. Louis, Chicago, Toledo, Detroit and intermediate points, its through car lines to New York, Boston, and other seaboard and eastern points, its magnificent track and unsurpassed running time, leave nothing to be desired.

Passengers are always safe when asked to specify their route in naming the Washburn.

**HISTORICAL.**

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitarium and archeological site. An Indian Pueblo had existed on the site previous to the 15th century. Its name was Ogephos, but was abandoned in 1846, before Coronado's time. The Spanish town of Santa Fe was founded in 1602, it is therefore the second oldest European settlement still existing in the United States. In 1846, the first venture American settler—the forerunner of the great line of merchants who have made traffic over the Santa Fe trail, world-wide in its celebrity.

The city lies in a charming nook on the west side of the Santa Fe range and is sheltered from the northern winds by a spur of low hills which extend from the mountains west as far as the Rio Grande. It lies in the center of the valley at the mouth of a picturesque canon, the chief entrance to the Pecos National Park, and through which runs the Rio Santa Fe, a beautiful mountain stream, having its rise in the Santa Fe range of mountains. Its elevation is 6,825 feet. Its population is 7,850. It has good schools and churches. There is an excellent system of water works. The city is lighted with gas and electricity. It has more points of historic interest than any other place on the North American continent. Land may be purchased at prices to suit the rich or the poor. Five acres in Santa Fe or vicinity will produce more than can be produced anywhere else in the world. Our markets are close at hand and we can successfully compete with any other locality. Since the first fruit tree was planted in the Santa Fe valley there has been but one failure in the fruit crop. What place, what country can approach this record?

**PUBLIC INSTITUTIONS.**

Among the more important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, the territorial capitol, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan's training school, St. Vincent's charity hospital, U. S. government Indian school, St. Catherine Indian boys training school, Fort Marcy barracks, St. Michael's college, Loretto academy, Probyria, some missions industrial school for girls, New Mexico deaf and dumb institute, New West academy, Catholic cathedral and four parish churches, Episcopal, Presbyterian, Methodist and Congregational churches, the governor's palace, the archiepiscopal residence of Archbishop J. R. Salpointe and the residence of L. L. Chapelle and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

**RESOURCES.**

Santa Fe county has an area of 1,498,000 acres and a population of 10,010. The principal occupations are mining, sheep and cattle raising, truck farming and fruit growing. The valley soils are especially adapted to horticulture and there is a hand never failing market in the mining camps.

In the southern portion of the county mining forms the principal industry, the large deposits of silver, lead, iron, copper and gold, in veins as well as in the form of placer gold, at Corralles, New Placers (Dolores), Golden and San Pedro being justly noted for their richness.

**THE WORLD'S SANITARIUM.**

But it is to Santa Fe's superior climate and its famous natural mineral springs that the world's greatest healing power is a cure for consumption and other pulmonary diseases that Santa Fe has its great future upon. The highest American medical authorities concede the superior advantages of the city's location.

The requisites of a climate curative of consumption, are, according to the best medical testimony, altitude, dryness, equality of temperature, light and sunshine, and a porous soil. Moreover, if possible, there must be localities interesting and attractive, where variety and occupation may be had, and the social advantages secured.

An eminent German authority says: "The altitude most favorable to the human organism is about 2,000 meters," somewhat more than 5,500 feet.

**POINTS OF INTEREST.**

There are some forty various points of more or less historic interest in and about the ancient city.

The old adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1602. That ancient structure was destroyed in 1680, and the present one was constructed between 1687 and 1710.

The chapel of San Miguel, which was built between 1629 and 1680. In the latter years the Indians destroyed it. Fully restored in 1710, it had previously and after 1693, been the only Spanish chapel in Santa Fe. It still remains the oldest church in use in New Mexico.

The walls of the old cathedral date in part from 1629, but the edifice proper is from the past century.

Other points of interest to the tourists are: The Historical Society's rooms; the "Garita," the military quarters; chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral; the archbishop's garden; church of Our Lady of Guadalupe with its rare old works of art; the soldiers' monument, monument to the Pioneer Path-Finder, Kit Carson, erected by the G. A. R. of New Mexico; St. Vincent's hospital, conducted by the Sisters of Charity, and the Orphan's industrial school; the Indian training school; Loretto Academy and the chapel of Our Lady of Light; the Ramona Indian school; St. Catherine's Indian school.

The sight-seer here may also take a vehicle and enjoy a day's outing with both pleasure and profit. The various spots of interest to be visited are: Pecos pueblo, taking in the divide route; Monument rock, up in picturesque Santa Fe canon; the Aztec mineral springs; Nambé pueblo; Agua Fria village; the turquoise mines; place of the assassination of Governor Fort Scott; San Ildefonso pueblo; or the ancient cliff dwellings, beyond the Rio Grande.

**THE MILITARY POST.**

At Santa Fe is the oldest military establishment on American soil, having been almost continuous occupation since 1602 when the Spaniards first established here their base of operations. Old Fort Marcy was built by U. S. soldiers in 1840 and the new post was occupied a few years later. Appended is a roster of the present garrison at Fort Marcy:

## How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues, a feeling of lassitude, drowsiness and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficiency.

**NEVER BEEN DISAPPOINTED.**  
As a general family remedy for dyspepsia, torpid liver, constipation, etc., it hardly ever fails to give relief, and has been given to thousands of people in all parts of the world, and has been found to be a perfect cure for all diseases of the stomach and liver.

W. J. McLEOD, M.D., N.Y.
