## BRIEF WIRINGS.

**Confirmations.**  
WASHINGTON, March 16.—Senate confirmations: Judges of probate in Utah; Isaac Burton, in Uintah county; James McCarty, in Beaver county; Daniel Page, in Iron county; G. C. Valle, in Millard county; Lars P. Elholm, in Morgan county; W. A. Kelley, of Ogden, commissioner for the district of Alaska.

**Sailed Him.**  
YOKOHAMA, March 16.—The inquiries into the circumstances attending the death of George Govey Robinson, the prominent broker and society man shot by Lieut. J. B. Hetherington, of the United States steamer Marion, February 13, was concluded on the 15th with the verdict charging Hetherington with willful murder.

**A. T. & S. F. Extension.**  
WACO, Texas, March 16.—Survey has been made and preparations are on foot to extend the Texas Central railroad from Albany, Shackelford county, to Anson, Jones county, forty miles further westward. This is regarded as the initial step in a further extension to Wabash, Armstrong county, at which point connection will be had with the Fort Worth & Denver city and the A. T. & S. F. routes.

**The Irrigation Convention.**  
LAS VEGAS, March 16.—A largely attended convention of irrigation delegates assembled here to-day in response to an invitation issued by the governor for the purpose of considering the subject of irrigation and the improvement of arid lands in New Mexico and adjacent regions, and to ratify the platform of the national irrigation convention held at Salt Lake, and which adopted resolutions calling upon congress to cede the arid lands to the western states and territories.

**A Big Cut by the Santa Fe.**  
CHICAGO, March 16.—The Atchison, Topeka & Santa Fe road management, in view of the fact that commissions of \$20.70 were allowed on second class passenger business from Chicago to the Pacific coast, applied to the western traffic association for permission to give the public the benefit, by reducing the rate that much. This was refused and now that line gives notice that it will put such a rate in effect, June 1st, next.

**Holding Their Wheat.**  
MINNEAPOLIS, March 16.—The Evening Journal has collected reports from sixty different points in Minnesota and the Dakotas, showing that there are, on safe estimate, about 32,000,000 bushels of wheat in Minnesota and the Dakotas in farmers' hands, after deducting wheat required for seed and for the consumption of the average amount of wheat unsold is about 31.3 per cent of the crop. The seedling conditions are almost perfect, the moisture conditions being the best for five years. The indications are for almost the same acreage as last year.

**Leaders All at Sea.**  
LOUISVILLE, March 16.—Ex-Governor Boies, who will probably be a delegate to the Democratic convention, next June, was interviewed, yesterday, in regard to candidates. He says the leaders are all at sea. They are discussing Boise, Fattison, Russell, Palmer, Grace and others. The general sentiment is that disunion in New York are so great that they must look elsewhere for a candidate. The Hill movement seems to have disposed of Cleveland, also says Hill's political grave. The drift of congressional sentiment seems to be toward Gorman.

**Boehm Failure and Suicide.**  
DANVER, March 16.—The affairs of the defunct wholesale whisky firm of Jacob Boehm & Co., are still in an unsettled condition, and no detailed statement of liabilities has yet been made. Jacob Boehm, head of the firm, committed suicide yesterday by taking poison. Evidence before the coroner showed that for the past six months Mr. Boehm had been suffering intensely from nervousness, brought on by the bad condition of his business affairs. During all these six months Mr. Boehm had carried a bottle of poison, renewing it from time to time, evidently for the purpose of insuring its being able to perform its work quickly. To total amount of attachments so far aggregate \$120,000. Boehm's wife will receive \$12,000 life insurance money.

**Jerry Simpson's Ideas.**  
NEW YORK, March 16.—The Herald's correspondent at Washington talked with Hon. Jerry Simpson yesterday, and Simpson said Gen. Weaver, of Iowa, could get the Alliance nomination for the presidency if he wanted it. The Alliance would carry eight states this year—four northern and four southern. If Weaver should decline Donnelly, of Minnesota, would be the best choice.

**Said Simpson:** "It is not the presidency we are after. Our underlying purpose is either to obtain control of the house and the senate or else to hold the balance of power in both houses."  
"What we want is the control of the state legislative branch of the government. We can never accomplish our purpose in any other way."

**A Tobacco Combine.**  
CHICAGO, March 16.—The members of the Chicago Cigar & Tobacco growers' association, an organization of nearly all the leading jobbers, and which practically controls the entire tobacco business of the west, is jubilant on account of its victory over the American Tobacco company, which is generally known as the cigarette trust. The association, which has been in existence only a short time, was formed for the protection of its members against the efforts of any company to cut prices, and already the American Tobacco company has come to time and allowed a larger rebate than the most sanguine of the members of the western organization had hoped for. It is now proposed to go gunning for a number of prominent tobacco concerns which for some time past have been ignoring the jobbers by giving rates to retailers.

**New York, March 16.**—A dispatch from Paris says: A conference of physicians and professors of medicine will be held in a few days for the purpose of investigating a new treatment for paralysis recently discovered by Dr. Leon Paul, an eminent Parisian physician. Dr. Paul holds that paralysis may be entirely cured by a treatment consisting of subcutaneous injections of a solution of the gray matter of a sheep's brain, sterilized. The gray part of the brain of the rabbit or other animal would do as well, he says, but that of sheep is preferable because it is a good deal of that matter in its head. Dr. Paul has, during the past two weeks, made numerous experiments upon patients, many of them far advanced in the malady, and he declares that the case has there been any reaction. In almost every instance after a series of subcutaneous injections the muscular strength was restored, and the afflicted paralyzed limbs began to walk.

**Odd Fellows' Penalties.**  
NEW YORK, March 16.—Advices received from prominent Odd Fellows of London say that what is known as the Manchester Unity Odd Fellows has stolen a march on Joseph Chamberlain's pension scheme by framing one of its own, which will be submitted for approval to the coming annual conference. This will be the first time an organization in the world to adopt a plan of superannuating its aged members. It is proposed that a fund shall be raised to be known as the Odd Fellows superannuation fund, from which weekly allowances shall be made to all members who have attained the age of 65 years. Under the plan proposed members joining the order at 30 years of age will be admitted to the sick, funeral and superannuation divisions for a payment of 70 cents a month, the scale of payments increasing in proportion to the age of the members. It is intended that the scheme shall go into practical operation during the coming autumn.

**The Kansas Billiard.**  
KANSAS CITY, March 16.—The storm of yesterday continued last night with unabated fierceness. A fall of snow varies in Kansas from six to eight inches on the level which is proving very troublesome to the railroads. The evening trains from the west are belittled late from ten to four hours, and some of them posted as indefinite.

**been suffering intensely from nervousness, brought on by the bad condition of his business affairs. During all these six months Mr. Boehm had carried a bottle of poison, renewing it from time to time, evidently for the purpose of insuring its being able to perform its work quickly. To total amount of attachments so far aggregate \$120,000. Boehm's wife will receive \$12,000 life insurance money.**

**Jerry Simpson's Ideas.**  
NEW YORK, March 16.—The Herald's correspondent at Washington talked with Hon. Jerry Simpson yesterday, and Simpson said Gen. Weaver, of Iowa, could get the Alliance nomination for the presidency if he wanted it. The Alliance would carry eight states this year—four northern and four southern. If Weaver should decline Donnelly, of Minnesota, would be the best choice.

**Said Simpson:** "It is not the presidency we are after. Our underlying purpose is either to obtain control of the house and the senate or else to hold the balance of power in both houses."  
"What we want is the control of the state legislative branch of the government. We can never accomplish our purpose in any other way."

It is intended that the scheme shall go into practical operation during the coming autumn.

**The Kansas Billiard.**  
KANSAS CITY, March 16.—The storm of yesterday continued last night with unabated fierceness. A fall of snow varies in Kansas from six to eight inches on the level which is proving very troublesome to the railroads. The evening trains from the west are belittled late from ten to four hours, and some of them posted as indefinite.

**A dispatch from Wichita states that the fall of snow in the southwest averages eight inches on the level.**  
A special from Guthrie states that it has been snowing there faithfully for twelve hours, the snow being accompanied by a heavy "norther." The fall of snow has not been sufficient to cause delay to railway trains, but it has caused much discomfort and some suffering among the pioneer settlers on the Indian lands that were opened to settlement last fall. The dispatch also states that the great suffering is among the negroes, who have been lured to Oklahoma by unscrupulous agents, who have promised them sustenance until they shall be able to support themselves.

**Catholicism and Education.**  
CHICAGO, March 16.—A national movement looking to the organization in this city of an educational temple in commemoration of St. Patrick, Ireland's patron saint, will be formally inaugurated here to-morrow by Right Rev. Michael J. O'Farrell, Roman Catholic bishop of Trenton, N. J., who arrived in this city to-day. The movement in support of this project has so far been confined to a few prominent Irish-American Catholics in different parts of the country. Sufficient work has already been accomplished to insure its success. There are in Chicago alone more than 40,000 Catholics, many of whom rank individually among

the richest citizens of America. From this source alone it is believed that a sufficient fund could be obtained to erect a suitable building. Outside of Chicago it is estimated that the Catholics of the United States number more than a million families, and every one of these, it is believed, would be ready and willing to contribute according to their means to support such an edifice, and to furnish an endowment sufficient to maintain a faculty of the highest order of talent.

**A Jack the Kisser.**  
NEW BRUNSWICK, N. J., March 16.—Not the least important business of the South Jersey Methodist by conference which assembled here this morning in the consideration of the charges preferred against Rev. B. F. Sherman, pastor of the Tabernacle M. E. church at Cold Springs. According to the charges Pastor Sherman seemed to have a mania for kissing the fair members of his flock, and for using language that could scarcely be described as clerical when they repulsed his advances. The principal complaint is a woman blonde, Miss Eliza Church, who alleges that on several occasions he imprudently chaste salutations followed up these manifestations by dry hugs until the hot blood coursed through her veins much after the manner once so graphically delineated by Ella Wheeler Wilcox in one of her poems of passion. Eliza seems to have liked this kind of thing, until the pastor's ardor began to cool, and testimony will be produced on behalf of the divine tending to show that when his visits became few and far between, Eliza coaxed him to come and come often. It is probably that in accordance with the general custom a special committee will be appointed to try the case in the case and report back to the general conference.

**The Denver & El Paso Road.**  
DENVER, March 16.—The Denver & El Paso railway company was organized at a meeting in the office of Judge E. T. Wells yesterday afternoon, and it is proposed to proceed in regular course with the building of the line. Judge Wells will draw the incorporation papers, which will be made to form a construction company which will handle the actual work of building. The gentlemen in the two concerns will be practically the same.

**The incorporators will include** Ex-Gov. Evans, President, Elbert of the chamber of commerce; Mahlon D. Thatcher, of Pueblo; O. L. Houghton and J. Reynolds, of Las Vegas, and other prominent men of the cities along the new road.  
When the incorporation papers have been filed a committee will proceed to New York to interest eastern capital. Less than \$1,000,000 will suffice to put the railway well under way, additional funds being easily obtainable by holding bonds.  
It is understood that New York men of large means have been impressed by statistics of the resources of the country which will be penetrated that they have announced their willingness to co-operate.

**CONDENSED NEWS.**  
Senator Morrill is very low.  
Sociology Simpson will speak at Detroit.  
Paris anarchists are exploding bombs in public places and much excitement prevails.  
President Carnot yesterday signed the commercial reciprocity convention with the United States.  
Senator Sherman favors arbitration of the Boer-British matter.  
Cleveland has written another letter. He thinks the Democracy may yet win.  
Springer will close the tariff discussion with a speech. The debate may continue three or four weeks more.

**TERRITORIAL TIPS.**  
The committee of the San Miguel auxiliary World's fair commission will give an entertainment at Las Vegas March 24 to raise funds to carry on their country work.  
The body of the late Rev. B. J. Cyrus is lying at the undertakers awaiting the charges for embalming. Who ordered the work done, and why is the bill not paid?—Las Vegas Optic.  
G. F. Whitehead, traveling correspondent of the Denver News, and Will Hall, associate editor of the Irrigation Age, are in Las Vegas, ready to do full justice to the sessions of the irrigation convention.

**Yesterday afternoon Sheriff Luna came up from Los Lunas, having in charge Frank Blake, whom he placed in the county jail.** Blake is charged with sheep stealing, and at the last term of the Valencia county court secured a change of venue to this county. He is a son of Col. F. A. Blake, of Las Vegas, and the young man desires a speedy trial.—Citizen.

**A conference by President Hale, of the New West Education commission, with the city school board last night resulted in the board buying the academy building for \$22,000.** The New West commission will expend the purchase money right amongst us in educating Mexican children and in time promise to erect a fine academy building in this city.—Albuquerque Democrat.

**Prisoners are being boarded in Santa Fe for 12 cents per day, and yet all of the counties of the territory are compelled, under the law, to pay 75 cents per day, and furnish fuel and guards besides.** In Grant county for some months past the prisoners have averaged from thirty-five to forty which forces an expense on the tax payers sufficient to bankrupt any county in the southwest.—Enterprise.  
Rowell was honored, last week, by a visit from J. J. Leeson, grand chancellor of the Knights of Pythias order of this territory, whose residence is in Socorro.

**Hood's Sarsaparilla**  
Is a concentrated extract of Sarsaparilla, Yellow Dock, Pipsissewa, Juniper Berries, Mandrake, Dandelion, and other valuable vegetable remedies, every ingredient being strictly pure, and the best of its kind it is possible to buy.  
It is prepared by thoroughly competent pharmacists, in the most careful manner, by a peculiar combination, proportion and process, giving to it curative power.

**Peculiar To Itself**  
It will cure, when in the power of medicine, Scrofula, Salt Rheum, Blood Poisoning, Cancerous and all other Humors, Malaria, Dyspepsia, Biliousness, Sick Headache, Catarrh, Rheumatism, and all difficulties with the Liver and Kidneys.  
It overcomes That Tired Feeling, Creates an Appetite, and gives great mental, nerve, bodily, and digestive strength.  
Hood's Sarsaparilla is sold by all druggists; \$1; six for \$5. Prepared only by C. I. Hood & Co., Apothecaries, Lowell, Mass.  
N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

**100 Doses One Dollar**

**Mr. Leeson is also connected with the school of mines at Socorro, and has one of the finest collections of minerals and ancient relics in the west, if not the finest, which he intends sending to the World's fair for exhibition in the New Mexico department.**—Roswell Record.  
Cook's Peak item: Hugh Teel, of the Teel & Poe Mining company of Cook's Peak, has retired from the company. Mr. Poe purchasing his interest. Since his retirement Mr. Poe in sinking a prophylactic dyke ran suddenly down on to a very rich vein of zinc ore five feet thick. This, with the great amount of zinc ore already shown up in the Flower Open mine, would indicate that the Cook's Peak district may prove to be one of the finest zinc producing camps in the United States.

**About 8:15 o'clock this morning, Miss Halcyon Charlotte Shank, daughter of John Shank, chairman of the board of county commissioners, and superintendent of the Las Vegas street car line, slipped and fell to the sidewalk, near the Bridge street crossing, expiring in less than a half hour, either from internal injuries sustained in the fall or from heart disease.** Only a gasp escaped her lips and she sank into unconsciousness never to recover. The lady was 21 years old and a school teacher.—Las Vegas Optic.

**They are still scrapping up in San Juan county.** Says the Index: "When the people of Farmington and Junction City delegate to the rear where they belong such men as Lewis W. Coe, James H. Willett, Silas T. Maupin and Frank Brewitt, and put forward as their leaders such men as Alex. Bowman, D. J. Craig, Sylvester Blake, C. H. McHenry, D. B. Ross, J. C. Carson, Orange Phelps and Josiah Starrett, they will have a country and build up a town and not before."

**The Chronicle is informed that there are a number of prospectors working in the vicinity of Elizabethtown, and the result of their work will undoubtedly create a sensation.** There is gold, silver, copper and iron in large deposits, and with such a combination coupled with our great coal fields, and with Trinidad as headquarters, the second city in the state will be here. The time to take advantage of what nature has so richly bestowed is now, and our people should at once interest themselves in the matter.—Trinidad Chronicle.

**Deming note:** George Darling, an old and famous frontier character, has just arrived from his home in the ancient Mexican town of Casas Grandes. He reports the recent discovery, away in the heart of the Sierra Madre mountains west of the very ancient village of Temoachiche, of several large and well preserved brick buildings, as well as many other things connected therewith, indicating a former large and intelligent population. The ruins will undoubtedly prove of great historical value. Mr. Darling comes to receive a pension recently granted as a Mexican veteran.

We have had wonderful success in curing many thousands of the worst and most aggravated cases of

## SYPHILIS

Gonorrhea, Gleet, and every one of the terrible private diseases of that character.

We most positively guarantee a cure in every case of that distressing malady.

## STRICTURE

Removal complete, without knife, cauterization, or dilatation.

We know of no method equal to ours in the treatment of either

## VARICOCELE

or Hydrocele. Our success in these difficulties has been phenomenal.

A SAFE, SURE AND PAINLESS METHOD FOR THE CURE OF

## PILES

Fistula and Rectal Ulcers, without danger or detention from business.

Call upon or address with stamp for free consultation or advice.

**Drs. Betts & Betts**

929 17th St.  
DENVER, COLO.

## The Daily New Mexican

### SHOOTING STARS.

**Hearing Paderewski Play.**  
As Shelley to the skylark, I to thee, Great master in the realm of melody; The secret of thy music grant to me For one brief hour;  
That I with tuneful words my flight may wing,  
A poet for a day; to soar and sing,  
And know the whole wide world is listening.  
And that were power.—J. A. Thomas.

**Grave Mistake.**  
Physicians frequently make mistakes in treatment of heart disease. The rate of sudden deaths is daily increasing. Hundreds become victims of the ignorance of physicians in the treatment of the disease. One in four persons has a diseased heart. Shortness of breath, palpitation and fluttering, irregular pulse, choking sensation, asthmatic breathing, pain or tenderness in side, shoulder or arm, weak or hungry spells, are symptoms of heart disease. Dr. Miles' New Heart Cure is the only reliable remedy. Thousands testify to its wonderful cures. Book free. Sold by A. C. Ireland, Jr.

**Appropriate.**  
"I'll were you," the schoolboys said, Before his teacher quailing,  
"I'd go and I'd a sailor be— You are so fond of whaling."  
—Brooklyn Life.

**Who Committed Suicide.**  
Mrs. F. C. Cone, at Paris, left this letter: "My husband—Forgive me if I cause you trouble, but I suffer so. You do not know what the long, wakeful, wretched nights are to me, and I am so tired, darling—the pain will never be better. It is not easy to take my own life, but I have been sick so long. Good-bye, my husband, I love you—your wife." This is but one of thousands that give up, instead of using Dr. Miles' Restorative Nerve, and being speedily cured of their wretchedness. Go to A. C. Ireland, Jr. and get an elegant book and trial bottle free.

**Miles' Nerve & Liver Pills.**  
Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Smallest, mildest, surest! 50 doses, 25 cts. Sample Free at A. C. Ireland, Jr.

**Made From Beans.**  
I don't want any castor-oil, said a sick little Boston boy petulantly, and I won't take it.  
Why, Horace, expostulated the mother, don't you know that castor-oil is made from beans?  
And the little boy, whose faith in his mother is perfect, took the dose and feebly asked for more.

**Desire to Bear Testimony.**  
Henry Thorne, traveling secretary of the Y. M. C. A., writes from Exeter Hall, Strand, London, February 2, 1888:  
"I desire to bear my testimony to the value of Alcock's Porous Plasters. I have used them for pains in the back and side arising from rheumatic and other causes never without deriving benefit from their application. They are easily applied and very comforting. Those engaged as I am in public work which involves exposure to sudden changes of temperature, will do well to keep a supply of Alcock's Porous Plasters in their portmanteau."

**My Girls.**  
I have many girl friends on my list. As fair as exist in the nation, And so varied in beauty that I Have a favorite for every occasion.

**MY CHURCH GIRL.**  
On Sunday fair Nellie's my choice;  
In her neat gown of gray so demure,  
So sweet and so good does she seem  
That my soul wanders but her for its cure.

**MY THEATER GIRL.**  
Sweet Ethel I take to the play  
And watch her glad smile or her frown  
As love triumphs or falls; then she talks  
So well—when the curtain is down.

**MY BALL GIRL.**  
For a ball I like Adeline best,  
She looks so bewitching in cream  
Decollete gown, for her arms  
And her neck are a beautiful "dream."

**MY OTHER GIRL.**  
And there's Alice, the fairest of all,  
Who pleases in every place,  
But seems still more charming at home—  
So I'll ask her if my home she'll grace.

All miserable sufferers with dyspepsia are cured by Simmons Liver Regulator.

**Resisting Temptation.**  
Rosalie—Now don't tell any one what I have said.  
Grace—I won't. I'll stay home from the sewing class on purpose.—Puck.

Facts speak louder than words. Simmons Liver Regulator has cured blood disorders.

**A Paying Investment.**  
Bob Thimble—Watts Hygiene's funeral cost \$300.  
Tom Biddle—Well, it was worth every cent of it.—Puck.

Nothing like it for dyspepsia and indigestion. Simmons Liver Regulator is a safe, sure cure.

We hear some statesmen talk, and find it puzzles all our will  
To settle how so small a mind  
So large a mouth can fill.  
—Detroit Free Press.

**Wrenched Out of Shape.**  
Joins enlarged and contorted by rheumatism are among the penalties for allowing this obstinate malady to gain full headway. Always is it dangerous from its liability to attack the vitals—unavoidably it is agonizing. Hostetter's Stomach Bitters has in nothing more clearly asserted its supremacy to the ordinary remedies for this malady than in its power to expel the rheumatic virus completely from the blood. It is safe, too, while colic, vomit, vertigo and minor poisons prescribed for it are not. The curative of the bitters as a cleanser of the circulation is also conspicuously shown where the poison of miasma infects the vital fluid, or where it is contaminated with bile. Constipation, dyspepsia, "the grippe," kidney and bladder trouble, nervousness and debility are also removed by it. The convalescing and the aged and infirm derive much benefit from its use.

**A Good Joke.**  
What are you laughing at?  
"Thieves broke into my house while I was away and stole all the plumbings."  
"What's funny by that?"  
"They'll all have malaria inside of a week."—Puck.

**Merit Wins.**  
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity on their merits. C. M. Creamer Druggist.

**Next Best.**  
He—Will you marry me?  
She (emphatically)—No!  
He (undismayed)—Then will you promise not to marry Bob Sawyer?—Puck.  
He—No, I won't.  
A Safe Investment.  
Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from advertised Druggist a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc., etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottles free at C. M. Creamer's Druggist.

**HIS INSPIRATION.**  
The Greatest Effort of His Life and Its Fearful Effect.  
"Horrors, what an obscure hand you were!" said the literary editor of the new space writer as he turned in a bit of poetry.  
"Oh, it's plain enough," interjected the poet hastily. "The rhymes and the meter will help the compositor out, and there'll not be the least bit of trouble if they just follow copy."  
And the copy went bustling up the tube to the composing room.  
"Say, what do-gasted chump has been scribbling in his Chinese laundry bill for copy?" wildly yelled out Slug 10, wiping a sudden burst of perspiration from his forehead and glaring at his last take. "I can't make head or tail out of this thing!"  
"Well, Chinese or no Chinese," cried the hurrying foreman, "make whatever you can out of it and snag it up in mighty short order, for we're late now."  
And the typeflyer jumped from the case into the stick.  
"Good Caesar!" gasped the proofreader, clutching at his brow. "Are my eyes failing or is this a premonition of nervous prostration?" Then he rubbed his eyes and stared. "By the gods! I've had the blind staggers or Slug 10's on a royal took!"  
At that instant a scream came down the spout of the proof along, for heaven's sake!  
The proofreader, groaned, galloped down the column, hesitated and then desperately thrust the slip into the tube, buskily muttering, "I compared it with the copy and that's as near as I can get to Hebrew these days."  
That night the new space writer hurriedly wrapped up and addressed a copy of the issue without a glance, and dropped it into the mail with this brief note:  
"MY ONLIESWEET AND DEAREST MARY—Send you a number of the Sunday supplement containing my little poem. Your face was an ever present inspiration to me when I wrote and happy thoughts of you inspired every sentence. Here you will find expressed what I have ever felt toward you, but have hardly dared to voice before. Till death, etc."  
Miss Marie Cortlandt Van Clifton glanced through the tender note, blushed with pleasure and hurriedly opening the paper read:  
TO MARY.  
When the breeze from the bluebottle's blue  
Twirls the treads in a totemoaloo,  
And the whistling white of the wheelies  
Whirls  
Drowns the roll of the rattatattoo,  
Then I dream in the shade of the shallows—  
And the voice of the lollypop  
Brings the smell of stale poppy-cods blundering in blue  
From the lollypop-wad over the day,  
Ah, the shuddering shoe and the blinkey-blanks  
When the penguin falls from the bough  
In the black of a hurricane's blinkey-blanks  
On the hills of the blinkey-blanks  
Give the rhapsody to the clanging wail  
If they care for such fiddlediddles,  
But the thimble-kiss of the whangery-bang  
Keeps the blinkey-blanks for me.  
L'ENVOI.  
It is pili-pod-diddle and alibogging  
When the lollypop covers the ground,  
Yet the piddie piddie piddie-pang  
When the hummy-jumpies come  
If the soul cannot snore at the giggle-some  
care,  
Seeking succor in blinkey-blank  
He'll be sure to say to the blinkey-blank,  
"Pinky-doodle-oo-chug-chug-chug."  
The new space writer and Miss Marie Cortlandt Van Clifton are not engaged now.—Cincinnati Commercial Gazette.

And are you keeping Lent? said she.  
How said that sigh of him—  
No; but, said he, I grieve to see  
Most of my money is.

**Woman who Dies Young.**  
Many of our most beautiful and accomplished ladies die before they have reached the prime of life. Of those who live to middle age only one in 200 is the case. The cause is often a simple one. It is the neglect of the system. The system must be restored; the home made happy, and your life lengthened if you commence at once.  
"Rob Buds" have been used for twenty years in the private practice of one of the most eminent physicians of Paris, and the following diseases and their distressing symptoms yield to them like magic: Chlorosis, Congestion and Falling of the Womb, Ovarian Tumors, Dropsy of the Womb, Bearing Down Pains, Rupture at Childbirth and Miscarriages. One package of "Rob Buds" will make a new woman of you.  
(Leucorrhoea or Whites are generally cured by one application.) Price per package (one month's treatment) \$1 sent by mail post paid, securely packed. The Leucorrhoea Co., 339 Washington St., Boston, Mass.

**Historical.**  
Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitarium and archeological school. An Indian Pueblo had existed on the site previous to the 15th century. Its name was Oga-pogo, but it was abandoned before Coronado's time. The Spanish town of Santa Fe was founded in 1606. It is therefore the second oldest European settlement still extant in the United States. In 1904 came the first venture American trader the forerunner of the great line of merchants who have made traffic over the Santa Fe trail, world-wide in its celebrity.

**CITY OF SANTA FE.**  
The city lies in a charming nook on the west side of the Santa Fe range and is sheltered from the northern winds by a spur of the low hills which extend from the mountains as far as the Rio Grande. It lies in the valley of the Rio Grande, the mouth of a picture-que canon, the chief entrance to the Pecos National Park, and through which runs the Rio Santa Fe, a beautiful mountain stream, having its rise in the Santa Fe range of mountains. Its elevation is 6,838 feet. Its population is 7,850. It has good schools and churches. There is an excellent system of water works. The city is lighted with gas and electricity. It has more points of historic interest than any other place on the American continent. Land may be purchased at prices to suit the rich or the poor. Five acres in Santa Fe or vicinity will produce more than can be produced anywhere else in the world. Our markets are close at hand and we can successfully compete with any other locality. Since the first fruit tree was planted in the Santa Fe valley there has been but one failure in the fruit crop. What place, what country can approach this record?

**PUBLIC INSTITUTIONS.**  
Among the more important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, the territorial capital, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan's training school, St. Vincent's charity hospital, U. S. government Indian school, Ramona memorial institute for Indian girls, St. Catherine Indian boys training school, Fort Marcy barracks, St. Michael's college, Ramona academy, Presbyterian home missions industrial school for girls, New Mexico deaf and dumb institute, New West academy, Catholic cathedral and four parish churches, Episcopal, Presbyterian, Methodist and Congregational churches, the governor's palace, archbishop's residence, Archbishop J. B. Seligson and Bishop P. L. Chapelle and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

**RECORDS.**  
Santa Fe county has an area of 1,498,000 acres and a population of 10,010. The principal occupations are mining, sheep and cattle raising, truck farming and fruit growing. The valley soils are especially adapted to horticulture, and there is a hand never failing market in the mining camps. In the southern portion of the county mining forms the principal industry, the large deposits of coal, lead, silver, iron, copper and gold, in veins as well as in the form of placer gold, at Cerrillos, New Placer, Dolores and San Pedro being justly noted for their richness.

**THE WORLD'S SANITARIUM.**  
But it is to Santa Fe's superior climate advantages, and its fame as a natural potent healing power as a cure for consumption and other pulmonary diseases that Santa Fe has its great future upon. The highest American medical authorities concede the superior advantages of the city's location. The requisites of a climate curative of consumption, according to the best medical testimony, altitude, dryness, equality of temperature, light and sunshine, and a pure soil. Moreover, if possible, these must be sought in localities interesting and attractive, where variety and occupation may be had, and the social advantages are good.  
An eminent German authority says: "The altitude most favorable to the human organism is about 2,000 meters," somewhat more than 6,500 feet.

**DISTANCES.**  
Santa Fe is distant from Kansas City 800 miles; from Denver 388 miles; from Trinidad, 216 miles; from Albuquerque, 85 miles; from Deming, 316 miles; from El Paso, 340 miles; from Los Angeles, 1,082 miles; from San Francisco, 1,281 miles.

**POINTS OF INTEREST.**  
There are some forty various points of more or less historic interest in and about the city. The various points of interest are: The old adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1606. That ancient structure was destroyed in 1680, and the present one was constructed between 1697 and 1718. The chapel of San Miguel was built between 1698 and 1699. In the latter years the Indians destroyed it. Fully restored in 1719, it had previously and after 1683, been the only Spanish chapel in Santa Fe. It still remains the oldest church in use in New Mexico.  
The walls of the old cathedral date in part from 1622; but the edifice proper is from the past century.  
Other points of interest to the tourists are: The Historical Society's rooms; the "Garcia," the military quarters; chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral, the archbishop's garden; church of Our Lady of Guadalupe with its rare old works of art; the soldiers' monument, monument to the Pioneer Path-Finder, Kit Carson, erected by the U. S. A. R. of New Mexico; St. Vincent's hospital, conducted by the Sisters of Charity, and the Orphan's industrial school; the Indian training school; Loretto Academy and the chapel of Our Lady of Light; the Ramona mission school; St. Catherine's Indian school.

The sight-seeer here may also take a vehicle and enjoy a day's outing with both pleasure and profit. The various points of interest to be visited are: Monument rock, up in picturesque Santa Fe canon; the Arco mineral springs; Nambe pueblo; Agua Fria village; the turquoise mines; place of the assassination of Governor Perez; San Ildefonso pueblo, or the ancient cliff dwellings, beyond the Rio Grande.

**THE MILITARY POST.**  
At Santa Fe is the oldest military establishment on American soil, having been in almost continuous occupation since 1602 when the Spaniards first established here their base of operations. Old Fort Marcy was built by U. S. soldiers in 1840 and the new post was occupied a few years later. Legend has it that a roster of the present garrison at Fort Marcy:

Headquarters, 10th Infantry,  
Colonel E. P. Fennell.  
Lieutenant Colonel, R. S. Gentry.  
Major, W. H. Whitcomb.  
Lieutenant, L. W. Little, adj.

WEDNESDAY, MARCH 16.

For these complaints take Simmons Liver Regulator. It keeps the stomach clean, prevents any of the above poisons from getting in the system, or, if there already is, it will drive them out, no matter how long they have been standing, and you will again have good health and be happy.

Have you a pain in the side, back or under the shoulder blades? It is not rheumatism but dyspepsia. Take Simmons Liver Regulator. Then, your heart, throbs violently after a meal, or you feel an excitement? It is not heart disease, but indigestion.

Take Simmons Liver Regulator. As a matter of fact, there is nothing I wish to have my enemies, to the enemies of Simmons Liver Regulator. If people could only know what a certain medicine is, there would be many a physician without a patient and many an interloper without a license. I consider it my duty to inform the public, that, for many years, back a perfect physical health, a combination of common sense, all the outward and inward organs, and even under the skin, the blood of the liver, the liver, of this city, and the liver, of every being a well woman again, Simmons Liver Regulator was recommended to me. I tried it, and it helped me, and it is the only thing that ever did me any good. I preserved in my old and lame now in perfect health. I know your medicine cured me and I always keep it as a reliable "stand by" in my family. —Mrs. Mary Ray, Camden, Ala.

... in my family. —SRES. MARY  
 RAY, Camden, Ala.
