### BRIEF WIRINGS.

**All are Active.**  
ROME, July 15.—The eruption of Mount Etna is rapidly increasing in violence. Immense streams of lava are pouring down the mountain side, and it appears certain that several villages and a number of dwellings will be destroyed. All the craters are active.

**Close Figures.**  
LONDON, July 15.—At 2:10 o'clock yesterday afternoon the returns show the election of 246 conservatives, 220 liberals, 38 liberal-unionists, 48 anti-Parnellites, 7 Parnellites and 3 laborites. This makes the consolidated opposition on equal terms with the government.

**Won't Be Disturbed.**  
WASHINGTON, July 15.—Friends of Gen. Green B. Ramm say that they are paying little attention to the report of the congressional investigating committee. The Democrats, they say, are welcome to make all the use of it they like for campaign material, but the general will certainly not be disturbed in his tenure of office in the pension bureau.

**Bob Ford's Murderer.**  
LAKE CITY, Colo., July 15.—The sentence for life passed upon Ed. O'Kelly, the murderer of Bob Ford, by Judge Bell, was more severe than was anticipated, but all admit it was deserved. The condemned man refused to talk further than to say that the witness against him swore falsely. In company with three other homicides O'Kelly was taken to Canon City by Sheriff Brennan.

**Chicago Republican Headquarters.**  
CHICAGO, July 15.—A local paper has the following: "It has been definitely settled that branch headquarters for the Republican committee be established. Mr. Tanner was placed on the executive committee, and his chief lieutenant, Gen. Mithener, of Indiana, and this was done with a purpose in view, that purpose being the establishment of a branch here."

**Tremendous Death Rate.**  
NEW YORK, July 15.—For the twenty-four hours which ended at noon yesterday there were reported to Dr. John Nagle, registrar of vital statistics of the board of health, 226 deaths. This is the largest number of deaths for one day reported in several years. On Sunday 147 deaths were reported, and on Monday 127. Dr. Nagle says that the big jump in the death rate was principally due to an increased mortality among children.

**The Next Vice President.**  
NEW YORK, July 15.—The statement made directly after the Minneapolis convention that Hon. William D. Washburn would not take any active part in the political campaign is confirmed by the announcement from a member of the family that early next month the Republican nominee for the vice presidency will go to the Adirondacks for a visit that is likely to last until the end of September. Meanwhile he is spending most of his time at Ophi Farm, his country seat. He has had many invitations to speak in the west, but it is regarded as doubtful whether any single one of them will be accepted.

**Sad Condition of Things.**  
LONDON, July 15.—An investigation that has been in progress for several months has developed the fact that the milk supply of London and the large towns is yearly becoming more and more a deadly distributor of sickness among all classes. Fully 30 per cent of the total number of milk cows in twenty large towns have been found to be afflicted with tuberculosis, and to this fact is attributed the terrible mortality, especially among children, from tubercular diseases, such as diphtheria and diphtheric sore throat, as well as enteric fever. It is also claimed that much of the milk contains pyrotoxin, a deadly poison discovered some years ago in cheese, and which is most rapid and alarming in its fatal effects, especially in the case of children.

## "German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled with colds, and he Hereditary often coughs enough to make him sick at Consumption his stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."

### STATEHOOD DEFEATED.

The Senate Committee Declines to Report the Pending Bill.

Special to the New Mexican.  
WASHINGTON, July 15.—The senate committee on territories this afternoon declined to make a favorable report on the pending bill providing an enabling act for the admission of New Mexico as a state. This defeats the state movement so far as the present session is concerned.

**Caught a Colonel.**  
LONDON, July 15.—The marriage of Miss Bessie French, of New York, and Hon. Herbert Francis Eaton, colonel of the Grenadier guards, and which took place yesterday, was one of the most brilliant events of the season. The pretty little church at Knights bridge was filled with representatives of the aristocracy and military men in full uniform. The New York colony turned out in force. The bride's maids, all of whom, with one exception, were New York girls, were attired in white muslin gowns of the finest texture, and were preceded up the aisle by ushers in knee breeches and scarlet coats. The bride wore a gown of one of Worth's most magnificent creations.

**Columbian Fair Rates.**  
CHICAGO, July 15.—The Columbian passenger committee is holding a lively meeting today at its office in the Bockery building over the question of the rates for the World's fair dedicatory ceremonies in October next. At its last meeting, which was not largely attended, the committee adopted a rate of a fare and a third from points within a certain distance from Chicago. Against this action, however, including the Alton, Rock Island and Maple Leaf entered a protest, on the ground that they regarded the rate of one fare for the round trip as about the proper thing. This is strongly opposed by many other lines and an effort will be made to bring about an agreement on the question at today's meeting.

**Is Royal Ignorance Mifled.**  
NEW YORK, July 15.—A dispatch from London says: "The prince of Wales is refusing all invitations to participate in laying of corner stones, in county fairs and similar events, as a result of the fact that he was recently mobbed by a curious crowd at the annual exhibition of the Agricultural Society, Warwick. On this occasion the prince was accompanied by the somewhat noted Lady Brooke, and the latter was considerably annoyed at the action of a woman newspaper writer and her not only made several sketches of her in different positions, but also made a full report of her costume, and those of the ladies accompanying her. She complained of this to the prince as a lack of common politeness, and as a result the royal party abruptly left the show. It has been semi-officially given out on behalf of the prince that if his expressed wishes that himself and his party be protected can not be respected, he must be compelled to avoid a repetition of such scenes by refusing all invitations."

**Cholera Riots.**  
ST. PETERSBURG, July 15.—Owing to a report that the doctors were causing cholera patients to be buried alive, the lower classes of the city of St. Petersburg revolted against the authorities, and the doctors on the 10th inst. The excited populace wrecked and plundered the police station, cholera hospitals and the residences of a chief of police and physicians. Several patients were dragged out of one hospital to save them, as the ignorant mob thought from being buried alive. The medical assistants were attacked and two of them were killed. The rioters threatened to take full possession of the city and would undoubtedly have done so had it not been for the opportune arrival of the troops who had been summoned. The mob resisted the soldiers and the latter were ordered to fire upon them. A volley was poured into the mob, killing three of them and wounding four others. The rioters then dispersed.

**The Labor Troubles.**  
HOMESTEAD, July 15.—The borough of Homestead has been placed under martial law. The strikers are convinced that men will be put to work in the mill under the protection of the military. The workmen were more subdued than during the early part of the week, and do not threaten either the works or to drive out, non-union men. Pittsburgh—The employees in the upper and lower union mills of Carnegie, in this city, quit at noon, and the gas was turned off in the furnaces. The men struck because the company refused to confer with the Homestead men. It is the most remarkable strike on record, the firm having signed the Amalgamated scale for the ensuing year. Walla Walla, Wash.—The crisis in passed, and peace once more reigns in Cœur d'Alene, and martial law prevails in the community. Minneapolis.—A special to Journal from Spokane says: "Gen. Carl's infantry from Fort Sherman reached Wauer last night. They took possession of the town and placed the county (Shoshone) under martial law."

Springfield, Ohio, was visited by a destructive tornado which demolished fifteen residences and partially ruined forty more. Several people were killed.

The surgeon general of the marine hospital service has ordered that all vessels arriving from cholera infected districts must be thoroughly disinfected.

Ex-County Treasurer Charles Paul, of Hastings, Neb., convicted of embezzling \$50,000 of Adams county, Neb., was sentenced to three years at hard labor.

A public demonstration under the auspices of a committee appointed by Mayor Grant will probably occur in New York the day after tomorrow.

A riot in the Rio Grande has cut through the main land near the city of Matamoros, Mexico, making the river two miles shorter and leaving quite a piece of Mexican territory on the Texas side.

At the government target grounds for the United States soldiers of Fort Thomas, Ohio, Private Louis Young, of company D, 6th infantry, shot and mortally wounded Corporal Henry Sunold, of the same company.

Senator Peffer apologized to the senate and the country at large for having voted for the allowance of a year's salary of their husbands to the widows of the chief justice and associate justices.

The treasury department has been informed of the seizure of the steamship Wilmington, plying between Victoria, B. C., and Portland, Ore., for smuggling. Ninety-two cases of opium, valued at \$5,000, were captured. The captain and crew of the vessel were arrested and will be tried for smuggling.

The mines in the vicinity of Elizabethtown and Ute Creek, Colfax county, are attracting attention from outside investors, although there is no lode and none is desired by those interested.

P. H. Marcellino, of Socorro, has let a contract to John J. A. Dobbin to drive a tunnel into the Bob Ben well on the side of Socorro mountain. This will give plenty of water for his orchard.

If the voters of Las Vegas vote down the proposition to improve their water supply next Saturday, that town will have to take a lower rating than it has heretofore had for enterprise.—Raton Range.

The Hillboro smelter grounds begin to look like business. Ore is piled up in every direction, and the hills are all full. At present writing it seems probable that the furnace will blow in about the 20th inst.

Messrs. Chas. F. Hunt and J. J. P. Phenix, of Albuquerque, have purchased a half interest in the Canon de Carmel grant in the Sandia mountains. This is very valuable property and these gentlemen will endeavor to have the grant speedily confirmed.

Las Vegas note: Capt. L. C. Fort, district attorney, and W. E. Gortner, court stenographer, have come over to Mora, where the preliminary examination of Jose D. Gallegos began yesterday. N. Segura, county assessor of San Miguel county, is Gallegos' attorney.

Old Abe Eagle: "Every foot of development opens up new, rich bodies of ore and demonstrates that gold is everywhere. The most returns and dividends on the two great operative mines, the Old Abe and North Homestead, are 'proof of the pudding.' Outside capitalists are coming to look over our country, and the coal fields are one of the greatest attractions for both railroads and investment."

months to come. This is the suit which brought Col. Ingersoll to Las Vegas a few weeks ago, as the prosecutor of his old friend Dorey. The charge is that Dorey, in the division of the cattle, made a fraudulent miscount against the company. Dorey denies the charge and pleads the immense losses sustained by the cattle industry in the territory in the last few years.

Prof. A. F. Smith, of Las Vegas, who went to New York to skate a contest for the championship on roller skates, against the champions of England, has been heard from. He was met in Chicago by the sporting millionaire, Harry Burbank, who accompanied him to Gotham. Other members of the sporting fraternity, among them the inventor of roller skates, joined them in New York. Prof. Smith writes to his friends in this city that he is in active training, and says that it will be no fault of his if that championship does not remain where it has been for the past decade—in his possession.—Optic.

Eldy notes: Owing to the heavy rains in the vicinity of Seven Rivers and Rocky Arroyo, the river rose five feet in a few hours last Tuesday. The ranches near the Crow farm and Milne ranches near Roswell are reported to have been made this week by the F. I. & I. company for parties in the east. A young lad was selling fish around town last Tuesday, and when informed by some parties that he was violating the law by so doing and was liable to arrest, he answered that before he sold any, he asked the sheriff if it was wrong to do so, and was told "no," to "go ahead it will be all right." Such advice is contrary to law, as any one may see by reading chapter 23, of the laws of the 28th session. This act also make the sheriffs of the territory fish wardens for their respective counties, and it is their duty to enforce the law, not to advise its violation.

**Knights of Pythias, Attention!**  
The biennial session of the supreme lodge and encampment of the Uniform Rank, Knights of Pythias, to be held at Kansas City, August 23 to 27, inclusive, promises to be one of the best attended, and most successful, gatherings in the history of the order.

The accessibility of the point of meeting will be an inducement to draw a vast number of Knights and visitors, and the Missouri Pacific railway, with its vast net work of lines extending Kansas City from every direction, offers greater facilities than any other line, and will be in better position to take care of divisions and regiments, and the large delegations that are expected. Its trains will be found of the handsomest, equipped with Pullman buffet sleeping cars, Pullman parlor cars, reclining chairs cars, (seats free) and elegant day coaches.

The Missouri Pacific railway is prepared to land divisions and regiments within four blocks of the encampment, (the nearest railroad point in the grounds).

The general committee has made complete arrangements for camping outfits; tents with flooring, will be provided; wagons will be on hand to transport baggage to and from the grounds. The game will be provided with water, and lighted with electricity; wire-woven coats, pillows, and blankets, can be rented at a very low rate.

Remember—The Missouri Pacific railway is the only line that lands its passenger trains within four blocks of the encampment grounds. The Missouri Pacific railway is the only line running out of Colorado, which is so situated as to be able to properly handle the Knights who may make a direct connection from all points in the west, at Denver, Colorado Springs and Pueblo.

FRIDAY, JULY 15.

## THE NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT—  
**BENJAMIN HARRISON.**  
OR Indiana.  
FOR VICE PRESIDENT—  
**WHITELAW REED.**  
OF New York.

Fort Worth, Texas, Democracy has indulged in a bolt, and is squarely against Gov. Hoag. There may be some hope for Texas yet, in the course of a century or two more.

Congress is rapidly pushing its work on the appropriation bills and a few days more, ten or a dozen at most, will find the national law makers pulling out for the bosom of their respective constituencies.

A miners' convention in New Mexico doesn't necessarily mean a free silver coinage convention. Let us take sense and be reasonable. Fair play for both silver and gold as money is the idea.

Another "traffic association" was practically gone by the board. This time it is the Western association, and in a week or so eastern freight rates to Colorado points are very liable to be sadly cut out of shape. It will be nuts for the shippers, but the railroad interests of the west will get a black-eye out of it.

### AN UNFORTUNATE AFFAIR.

Possibly it was intended in all kindness, but a half column editorial in the Denver News commending somebody's foil proposition to hold a New Mexico silver convention at Albuquerque in September, next will do New Mexico irreparable injury just at this time when we are striving so earnestly to secure the passage of our statehood enabling act through congress. No one conversant with the facts can read that editorial without exclaiming: "My good Lord protect us from our friends."

One of the chief objections the far east congressmen have, they say, to the admission of New Mexico, is the fear that it will admit another free silver delegation to congress. We do not believe this fear well founded. Certainly the New Mexico representatives would not be radical free silver men in the sense expressed by the Denver News and a few other half-dart western newspapers on this subject; they would rather take a conservative position, one demanding fair play for both gold and silver as money on a basis calculated to bring the greatest good to all classes, debtor and creditor alike.

But how absurd it is to talk about New Mexico holding a convention on the silver question. That would be simply time wasted, for have not the representatives of the people recently expressed their sentiments on the subject in the two territorial political campaigns? These views, to be sure, are not in accord with the sentiments of the Denver News, and perhaps this is the cause of the News' solicitude in the premises. Perhaps it thinks a convention would tie New Mexico to the free coinage idea it represents. We do not believe it would. At any rate, no convention is at all probable, and again we say it is most unfortunate that the News should have sprung the subject now and at this particular time.

### STATUS OF THE STATE BILL.

Any day, any hour, may bring news from Washington of a definite character, one way or the other, touching the fate of the statehood bill. Perhaps the outside page of the paper containing this article may have some information to convey to the reader of a more cheerful or more

disheartening nature than is now at hand.

Enough is known, however, to make it clear that the situation is critical. Aside from the fears of some members of the senate that, if admitted, New Mexico would send a free silver contingent to congress, Arizona now holds up to annoy and imperil New Mexico's chances for getting into the Union. If there be no effort to yoke up Arizona with New Mexico during the next few days we may yet be safely landed within the sisterhood of states; but should the Democratic politicians insist on Arizona's admission at the same time, the cause, as it now appears, is lost for this session. The Republican majority in the senate is opposed to Arizona's admission at this time, not because it would come in as a Democratic state, but because of the very large and growing Mormon element there which is deemed unwelcome to vest with complete American citizenship at this critical period. New Mexico's friends are therefore straining every nerve to draw the line between the two territories as distinctly as possible, and the chief feature of it is that Arizona has Mormons, New Mexico has none.

The program at this writing is about as follows: The sub-committee composed of Senators Platt, of Connecticut; Carey, of Wyoming, and Jones, of Arkansas, has agreed to report the bill to the senate committee on territories, with some amendments and this committee has said it would make a favorable report to the senate either to-day or to-morrow. The amendments fix the election of delegates for the state constitutional convention in November next, and authorize the said convention to fix a day for submitting the constitution to the people for ratification or rejection, the election for state officers to take place at the same time.

The understanding is that when the measure is favorably reported to the senate it will be taken up at once passed, though information on this point is somewhat vague, some of the senators being in favor of giving it a place on the calendar with the evident expectation that, upon their return, they will be able to call it up out of its regular order, and the session will close before action can be had.

However this may be, it is also understood that, should the bill pass the senate, everything is arranged whereby the house will forthwith concur in the amendments.

Under the above circumstances the news from Washington during the next few days promises to be very interesting for all New Mexicans.

### PRESS COMMENTS.

#### His Stories Don't Dove-Tail.

"Boss" Croker says that Cleveland will carry New York state this year by an immense majority. If this is the same Mr. Croker who made a few predictions about the time of the Democratic national convention he should go away somewhere and hold a caucus.—Chicago Mail.

#### Caric Pictures.

It is well to bear in mind just now the important fact that Republican reciprocity increased our exports of cotton cloth to Brazil from 8,255,344 yards in eleven months of the fiscal year ending June 30, 1891, to 8,796,093 yards in eleven months of the fiscal year ending June 30, 1892.—New York Press.

#### Weighted and Found Wanting.

Gov. Pattison, of Pennsylvania, is a unique specimen of a public official. Sworn to enforce the law, he counsels with the law-breakers as to how he should do his duty. Had Gov. Pattison's presidential boom been successful at Chicago and by an accident he might have become president of this nation, we then might have had a spectacle that would make Uncle Sam regret that there had ever been a declaration of independence or a nation formed. With Pattison as president, even little Chili might shoot down American seamen and Pattison would call in the murderers to ask them how they would like to be punished.—Chicago Inter-Ocean.

#### The Law of Parties.

The closeness of the vote in Great Britain is astonishing. It is as strange a spectacle as the closeness of the division between 12,000,000 voters in America. Great Britain is full of factions, but there are only two parties. The United States is full of factions, but there are only two parties. It is a mysterious law of metaphysics as certain as the unknown physical law which provides for equal numbers of the sexes. The idea of there being three or four political parties is repulsive to the law of social growth. There may be various factions, but they must inevitably gravitate into two great central bodies.—Pueblo Chieftain.

#### A Word to Dan Voorhees.

The San Antonio, Texas, Express, Democratic of course, brings reassurance and support to Dan Voorhees and his class all this time: "It is difficult to see why the riot at Homestead should disastrously affect the Republican party, a result which seems to be feared in Washington. The protective policy made possible the employment of the strikers. They are certainly aware that the establishment of free trade would result in their getting no work at all at any price whatever." With Democratic papers in the south talking this way, no wonder the leaders of the old party feel the need of working the force bill for all it is worth to keep that section solid for one more national election.—Colorado Sun.

### A Timely Comparison.

In a message sent to the senate on the 25th of last April in relation to an international monetary congress, Mr. Harrison used the following language, which is certainly the most encouraging to the free coinage cause which has come from any president since the demonetization of silver: "Believing that the full use of silver as a coin metal, upon an agreed ratio, by the great commercial nations of the world, would very highly promote the prosperity of all their people, I have not and will not let any favorable opportunity pass for the promotion of that most desirable result, or if free international silver coinage is not presently attainable then to secure the largest practicable use of that metal."

How different this is from the attitude of Grover Cleveland shown by his letters to public men and by his messages to congress.—Denver Republican.

### Trustee's Sale.

Notice is hereby given, that whereas, John T. Doyle, did on the 5th day of March, 1892, by his certain deed of trust of that date, and recorded in book G, of mortgage deeds, on pages 326 to 330 in the office of the probate clerk and ex-officio recorder's office in the county of Santa Fe, convey to one W. S. Strickler, as trustee, the following described real estate, situate, lying and being in the county of Santa Fe and territory of New Mexico, to-wit: Lot No. 3, in block No. 80, in the town of Cerrillos, Santa Fe county, N. M., according to the plat of said town; to secure to Lowenthal & Meyers, or order, the payment of seven certain promissory notes, bearing date the said 5th day of March, 1892, six of which are for the sum of \$100 each, and one for the sum of \$150 and which said notes are payable in 1, 2, 3, 4, 5, 6 and 7 months respectively, after the date thereof, and which said notes bear interest at the rate of 10 percent per month from date until paid.

And whereas, three of said notes payable respectively in 30, 60 and 90 days, each for the sum of \$100, are now past due and unpaid, and according to the terms and conditions of said notes, the holder of said notes the property therein conveyed should be sold for the purpose of paying off said indebtedness.

And whereas said deed of trust provides, that in the case of the absence from the said county of Santa Fe, or refusal to execute of said deed of trust, or failure or inability of the said W. S. Strickler as trustee, to act, then the then acting sheriff of the county of Santa Fe should be vested with all the powers of the said W. S. Strickler, with full power to act, and whereas, said W. S. Strickler is absent from the said county of Santa Fe, and is unable to act, and it has become necessary for the said sheriff of the county of Santa Fe as the successor in trust, to act.

And whereas, the legal holders of said notes have requested the undersigned to advertise and sell said property so conveyed, as aforesaid, for the purpose of paying off said indebtedness, which on the day of sale hereinafter mentioned amounts to, together with principal and interest, to the sum of \$705.00.

Now therefore, I the undersigned, by virtue of the power and authority vested in me as successor in trust, and in accordance with the terms and conditions of said deed of trust, for the purpose of paying off said indebtedness, together with costs of sale, do hereby give notice that I will, on Thursday, the 28th day of July, A. D. 1892, at 12 o'clock noon, at the front door of the postoffice, in the city of Santa Fe, county of Santa Fe, and territory of New Mexico, sell the above described property at public auction to the highest and best bidder for cash.

CHARLES M. CONKLIN,  
Sheriff of County of Santa Fe,  
and Trustee.

### Notice.

In the matter of the assignment of the Fischer Brewing District court, San Antonio, Texas, to the county of Santa Fe, N. M., to the benefit of its creditors.

Office of the clerk of the first judicial district court, in and for the county of Santa Fe, territory of New Mexico.  
I, R. M. Goshorn, clerk of said court do hereby give notice pursuant to an order of this honorable court, made, entered and filed herein on the 24th day of July, A. D. 1892, that on said day and year, John G. Schumann, Esq., the assignee herein, exhibited on oath to said court, a statement of the accounts of the level of him, the said assignee, with proper vouchers, and that said statement and vouchers were thereupon filed in my said office on said day and year. I do further give notice that, pursuant to the terms of said order, said accounts will be allowed (unless good cause to the contrary is shown,) by the judge of said court in vacation, at his chambers in the Santa Fe county court house, in the city of Santa Fe, on Saturday the 23rd day of July, A. D. 1892, at the hour of 10 o'clock a. m.

In witness whereof, I have hereunto set my hand and affixed the seal of said court, at my office in said county, this 24th day of July, A. D. 1892.

[Seal.] R. M. GOSHORN,  
Clerk.

## AT HAND

In a dangerous emergency, AYER'S CHERRY PECTORAL is promptly to act and sure to cure. A dose taken on the first symptoms of Croup or Bronchitis, checks further progress of those complaints. It soothes the inflamed membrane, induces sleep. As a remedy for colds, coughs, loss of voice, la grippe, pneumonia, and even consumption, in its early stages,

## AYER'S Cherry Pectoral

exerts all similar precautions. It is endorsed by leading physicians, is agreeable to the taste, does not interfere with digestion, and needs to be taken usually in small doses. "From repeated tests in my own family, Ayer's Cherry Pectoral has proved itself a very efficient remedy for colds, coughs, and the various disorders of the throat and lungs."—A. W. Bartlett, Pittsfield, N. H. "For the last 25 years I have been taking Ayer's Cherry Pectoral for lung troubles, and am assured that its use has

### Proposals for Purchase of Penitentiary Bonds of the Territory of New Mexico.

Whereas, there has accumulated in the territorial treasury, to the credit of the penitentiary interest and sinking fund, a surplus in excess of \$5,000, I, L. Bradford Prince, governor of New Mexico, hereby give notice that I will receive bids for the sale of the penitentiary bonds of the territory at the governor's office, at Santa Fe, up to 12 o'clock of Saturday, July 16th, 1892, and will then purchase from the lowest bidder said bonds to the amount of \$5,000, reserving the right to reject any and all bids which may be deemed disadvantageous to the territory.

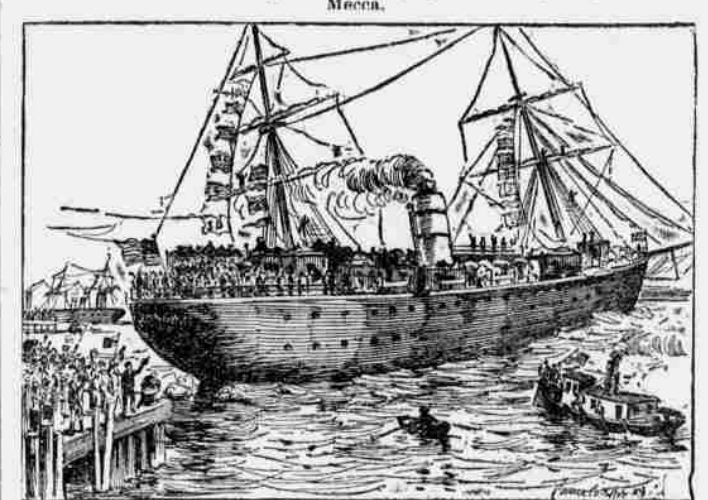

L. BRADFORD PRINCE, Governor.  
Santa Fe, N. M., June 13, 1892.
