BRIEF WIRINGS.

Crop Returns in Hungary.
BUDA PEST, Aug. 2.—The official crop returns report estimates the yield of wheat to be from 3,500,000 to 3,700,000 tons, of rye from 1,100,000 to 1,200,000 tons, against the yield for 1891, which was 3,778,000 wheat and 1,086,000 rye.

Statehood for Utah.
WASHINGTON, Aug. 2.—Delegate Caine, of Utah, has introduced a bill to enable the people of Utah to form a constitution and state government and to be admitted into the Union on an equal footing with the original states.

Is New Mexico In It?
CHICAGO, Aug. 2.—Applications for space in the horticultural department closed yesterday, and every portion allotted has been asked for. Among the floral exhibits, will be at least twenty from New York, as many from California and some from almost every part of the habitable globe.

France is Alert.
PARIS, Aug. 2.—Activity in French dockyards indicate that France will send a large fleet at once to Morocco if England should make any warlike demonstration. The tone of the political press is very warlike. France is prepared for any sacrifice rather than see Morocco in the hands of the English or hitherto the car of the Triple alliance.

Harrison Means Business.
OTTAWA, Ont., Aug. 2.—From the highest official circles, it is learned that the Dominion government fully expects that President Harrison will carry the retaliatory threat against Canada into effect as regards the use of the St. Mary's canal. An official in high authority said that it was a matter of surprise to the government that no more had been made up to the present time.

Monopoly's Grasp.
NEW YORK, Aug. 2.—A transfer of express business of some magnitude from one company to another took place yesterday. Up to Sunday the express business of the lines of the St. Louis & San Francisco railroads has been conducted by the Adams Express company. Yesterday the whole business was transferred to Wells, Fargo & Co., the Adams retiring. The lines of the San Francisco road run west and south from St. Louis, and now are a part of the Atchison, Topeka & Santa Fe system, the express business of which Wells, Fargo & Co. operate.

Congress.
WASHINGTON, Aug. 2.—The house has passed the bill changing the date of the dedication of the buildings of World's Fair Columbian exposition from the 12th to the 21st of October.

Mr. Holman moved in the house to suspend the rules and pass a joint resolution, extending until August 4, the appropriation made by the sundry civil bill of last year. The resolution was passed without opposition, but its passage was preceded by a discussion.

A Connecticut Yarn.
NEW HAVEN, Conn., Aug. 1.—Thomas W. Hawkes lives at No. 61 Collis street and has a rooster that has become apparently crazed by the heat. The rooster flew at a small child of Mr. Hawkes yesterday morning and pecked his face in a frightful manner. The child fell on its back and the rooster stood over the breast of the child, flapping its wings and pecking savagely at the child's face, which was covered with blood and terribly disfigured. Physicians say that the child may die of blood poisoning, and that in the event of recovery it will be terribly disfigured for life.

Big Western Crops.
CHICAGO, Aug. 2.—Additional railroad reports from Kansas show that the corn crop is beyond danger. Enough rain has fallen during the week to last until the corn ripens, no matter how hot the weather meantime. As far as can be ascertained, there are less than 5,000 acres in the state where corn has been severely damaged. In less than 1,000 acres in the western part the crop will not be worth harvesting. In the east, 4,000 acres will average from a fourth to half a crop. In general, reports indicate that both corn and wheat will be larger and better crops than last year. Traffic Manager Bowen of the Chicago & North Western has carefully canvassed the condition of the Iowa and Dakota crops, and tersely summarizes it as follows:

In Iowa the corn crop average is 25 per cent off; yield 30 per cent off; quality, 15 per cent off; yield in bushels, 225,000,000. Wheat in Dakota was ahead of the phenomenal crop last year. Farmers are in pressing need of harvest hands.

Becoming Very Tame.
HOMESTEAD, August 2.—The 334, or upper Union mills, in this city, started up, non-union, yesterday. The plate mill is running and other departments appear to be in operation. A guard of police are about the property and no trouble has occurred.

Pittsburg, Pa.—Those who participated in the disgraceful Homestead riot, after the surrender of the Pinkertons, on July 6th, will be prosecuted for aggravated assault and battery, highway robbery, larceny, pocket-picking and other crimes and misdemeanors. The work of securing the necessary evidence to convict those engaged in the assault on the Pinkertons and the robbery of the surrendered men, has been going on for some time, and it is now so far advanced that information

will be made in a few days and persons will be arrested. Among them are several women, who were particularly active and aggressive during the time the Pinkerton men ran the gauntlet, and at it, in taking the property of the men and hiding it.

PLATOONS OF TRAINS.
Knights Templar by the Thousands—Traveling in Style on Special Flyers.

CHICAGO, Aug. 2.—A special limited, vestibuled train bore the advance guard of the great army of knights Templar into this city this morning, and from now until the end of the week a steady stream of knights will pass through this city en route to the triennial convocation at Denver. This morning's arrivals were the members of St. John's commandery of Philadelphia, one of the gilded commanderies of the order. There were about 150 in the party, and most of them are spending the day at the World's fair grounds. The railroads have arranged to make Chicago the pivotal point of the journey, both going out and returning, and all the bodies from the east will be given an opportunity to visit the World's fair grounds and other places of interest. The great feature of the undertaking, on the part of the railroads, will be in the fact that there will be no mixed trains. Each delegation of knights will travel in its own special, and will return by it after the convocation is at an end.

The Chicago, Burlington & Quincy railroad has just completed schedules for a train service that promises to eclipse anything of the kind ever attempted by a western road. Every detail of the complex system which it has undertaken is completed. Thirty special trains loaded with knights and their families from Chicago, New York, Brooklyn, Washington, Philadelphia and many other eastern cities will leave the Union depot, in addition to the regular Denver trains, between noon of August 6 and noon of the following day. The entire traffic of the Omaha and Kansas City divisions will be subordinated to the special flyers, and during August 6 and 7, when the exodus for Denver is being made, all east-bound merchandise, together with grain and live stock traffic, will be side-tracked at division points. The trains will be run in platoons, with sufficient time allowance between each group to provide for any unlooked for emergencies. Special relay engines will be waiting at division points to lend their assistance if required. The entire journey of 1,020 miles will be made in from twenty-nine to thirty-four hours, according to the divisions over which the special train. The Burlington has every movement of its special trains arranged, even to the most minute details, and the accommodation of the heavy special traffic will be utilized as a feeder for the operations that are to be undertaken during the progress of the World's fair.

New Mexico the Best.
At a recent meeting of the "American Health Resort association" held at Chicago, the president, T. C. Duncan, M. D., Chicago, delivered a lengthy address, in which he outlined the good work of the association, and how it was appreciated by the profession, enabling them to select climates adapted for the various cases of consumption. From reports received from the various points, New Mexico has proven the most satisfactory, and Dr. Duncan urged that the medical profession give careful study to New Mexico's superior advantages in this respect.

The facts are certainly all in favor of New Mexico. On this line an exchange says: "What a comfort to live in New Mexico at such a time as this, and what a rebuke to those who would complain of this climate must be the dispatches which tell of the intense heat, the floods, the cyclones and the sun strokes, which occur in almost every other quarter of the world every day. What a little dust, now and then, compared with hundreds of deaths of men and animals from the sheer force of the sun's rays, as Chicago and New York are reporting every day, or as compared with the cloud bursts and cyclones which we read of in different parts of the Mississippi valley, or even the floods that hang over the Pacific coast regions till near noon every morning. When we take all the disagreeable points of the climate of New Mexico, and magnify them to the utmost, we still have such a positive balance on the credit side, as compared with any other section of the country, that no one but the chronic grumbler can find any fault with it—as he is not to be pleased with anything."

I am introducing a mineral water from a spring of Santa Fe county, and when tried will prove it is fine. I am the first bottler of the territory to have the water from the Baca spring, east of Albuquerque, bottled for the trade, which is fine. Acme mineral water is much better as it is entirely free from anything injurious to health.

Helena, Mont. and Return.
The Atchison, Topeka & Santa Fe railroad will place on sale August 4 to 10, inclusive, tickets to Helena and return at one lowest first class fare, with a 21-day limit in each direction and final return limit of October 10, for the benefit of those who may wish to attend the annual encampment of the Sons of Veterans, U. S. A., and Ladies' Aid Society. Choice of routes given passengers.

Notice to Teachers.
Notice is hereby given that an examination of teachers for the public schools of the city of Santa Fe will be held in Santa Fe, at the study hall of St. Michael's college, commencing August 16, 1892.

TERRITORIAL TIPS.

George W. Blankenship, a leading citizen of Eddy county, died of apoplexy. The lower Pecos valley has a new town called "Jacville"—another illustration of what water will do.

Mrs. Gorman, of Las Cruces, is an applicant for the position of matron at the territorial insane asylum.

Two Mexican boys while herding sheep near Hatch station last Sunday afternoon, were killed by lightning, and a companion dangerously shocked and not expected to live. About forty of the flock of sheep were killed at the same time.—Kingston Shaft.

Eddy note: The county commissioners have ordered the census taken of that part of the town it is proposed to incorporate, and it is quite probable that the question of incorporation will be submitted to the vote of the people some time next month.

Very encouraging news was received here last Thursday in regard to railroad matters. It is now more than ever apparent that work will be resumed in a very few weeks at the earliest. Everything indicates that the long protracted delay is nearly over, and that the day of deliverance from doubt and uncertainty is nearly here.—Deming Headlight.

Walter B. Stevens, correspondent, and Amund Weicher, staff artist of the St. Louis Globe-Democrat, were among the arrivals last Thursday. These gentlemen are here for the purpose of getting material for an article which will appear in the columns of that paper. S. W. Russell had them in charge and drove them around to the different places of interest in this valley.—Eddy Citizen.

The Roswell Record is confident that the fair to be held there this fall, represented by Chaves, Lincoln & Eddy counties, will be a greater success than even the most sanguine at first anticipated. The nearer the time for holding the fair approaches, the more interest seems to be manifested in it. It will be attended by several thousand people from Texas and New Mexico, and a great number of eastern people have signified their intention of taking advantage of the cheap rate of transportation to visit the valley.

Lincoln Leader: The parish priest of Manzana, Father Alejandro Gorenbever, and Fathers Leon and Manuel, Jesuit missionaries, have held a four days' mission in this town, beginning Sunday. Nearly all of the children over 6 years of age in this village, have taken their first communion, the little daughter of Mr. Geo. Sena being the youngest of the group. The fathers go from here to Nozai, Picacho and other places, and will leave the country about August 22.

Prof. F. C. Reinhardt, of Mt. Carmel, Ill., who is spending the summer visiting C. H. Price, of Alamosa, passed a few days here this week en route of John Chance. Prof. Reinhardt is a graduate of the Boston conservatory of music, and was also a pupil of Hayden, the famous guitarist. So many expressing a desire to hear him play, the professor kindly gave a musicale at the residence of W. L. Stevens Monday evening. The professor was greeted by an appreciative company, who enjoyed the finest piano recital probably ever given in Chama.—Chama New Mexican.

Speaking of the success which has attended the starting up of the Hillsboro smelter, the Kingston Shaft says: "Viewed as a process of concentration, the copper matte furnace is a most pronounced success. For every ton of matte produced, from twelve to fifteen tons of ore are consumed and the greater proportion of worthless slag in the dump represents the saving effected. The average expense of marketing ore in Pueblo, or Denver, is about \$20 per ton. The cost of smelting does not exceed \$8 per ton, so that on from eleven to fourteen tons the saving effected is about \$22 per ton. It must be readily perceived that \$30 or less value ore can not be shipped at any profit and that this home process opens a remunerative market for unlimited amounts of low grade ore, hitherto thrown over the dump, or left in the mine."

Santa Fe, the sanitarium of the west, has through Reber, the bottler, who first had the mineral waters of the Baca spring bottled at Albuquerque for the trade has put up a water from a spring here which he calls Acme. A name it will in the future hold, as when it has been fully introduced will stand equal to the Salvia water from the Wankasha for kidney complaints. Try it once and see the effects.

TUESDAY, AUGUST 2

THE NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT—
BENJAMIN HARRISON.
OF Indiana.
FOR VICE PRESIDENT—
WHITELAW REID.
OF New York.
GROVER CLEVELAND is a bitter and uncompromising enemy of free silver.

New Mexico is a fine section of country to be in during these hot summer days.

The New York Sun, a paper that has been bitterly opposed to Grover Cleveland for eight years, now finds solace in the sentence, "principles are greater than candidates."

GROVER CLEVELAND is putting Adlai Stevenson into the role of a wicked partner; he is doing it slowly, but surely. Grover is no spring chicken, even if the Mugwumps think he is.

CHARLES A. DANA, editor of the New York Sun, is getting ready to take a two month trip to Europe; Mr. Dana is not quite as enthusiastic for Grover Cleveland's election as he might be.

The New York World asserts that there is no war between Cleveland and Senator Hill; the World is on the ground, but seems to be in a condition that it can not see anything that it does not want to see; very happy condition of mind, indeed, but one that does not pay.

If there is one thing more certain than another, it is, that the people of New Mexico can not afford to elect any man to the legislative assembly, who may run upon the Democratic-White Cap platform and who shall be nominated by that combination. The best interests of the voters and tax payers demand the defeat of that combination.

THE JUDICIAL VACANCY.

The resignation of Chief Justice O'Brien being under discussion, several of the former members of the bar of New Mexico would have greatly liked to recommend Mr. Frank W. Clancy for the appointment to the vacancy. However, Mr. Clancy could not allow his name to be presented. His extensive law practice is on the increase and he prefers being a member of the bar, to presiding on the bench, although by learning, experience, integrity, legal ability and temper he is eminently well fitted for a high judicial position.

WITH BATED BREATH.

The last few days sessions of congress have developed one very amusing thing. Representative John C. Tamm, of the Kansas City district, "which the same is" in poor, old Missouri, the state supposedly owned by the St. Louis Republic, has proclaimed openly and above board, that he does not read Col. Jones' "St. Louis Republic," and that he does not care a continental red cent what the afore said colonel thinks of him. This is what Col. Tamm says to Col. Jones: "If this be treason, make the most of it" and poor old Missouri is waiting with bated breath.

THEY CAN GIVE POINTERS.

New Mexico is not represented upon the Democratic national campaign committee; evidently Chairman Harritt does not know as much about the leaders of the New Mexico White Cap Democracy as he might know; when it comes to hallooing stealing New Mexico White Cap Democratic leaders can give the whole country pointers, vide the stealing of a ballot box containing a large Republican majority from a vault in the court

house and from the custody of a Democratic board of county commissioners and a Democratic county clerk in Santa Fe county in November, 1890.

EL NUEVO MEXICANO.

EL NUEVO MEXICANO, the weekly Spanish paper, published by the New Mexican Printing company, has just closed the second year of its existence. The paper has steadily grown and increased in influence and circulation, until to-day it is the best conducted, most reliable and strongest paper published in the Spanish language in the territory. The people of New Mexico who read and speak the Spanish language have become satisfied that in EL NUEVO MEXICANO they have a journal worthy of support and confidence; they fully understand now that EL NUEVO MEXICANO works for their advancement and best interests and can be relied on as a true, constant and staunch friend.

The growth and success of EL NUEVO MEXICANO are certainly phenomenal in the history of the publication of Spanish papers in New Mexico.

NEW MEXICO'S FRUIT MARKET.

Because of its superior climate and special adaptability of its soil, New Mexico can never have a rival as the best horticultural region in the west. California is too far off to count for much in this matter; Texas soil is too heavy, the seasons uncertain, and the market more so. Colorado comes nearest competing with New Mexico, but the fact that our products are from six to four weeks earlier than those of the same variety in Colorado settles this question in favor of New Mexico and makes the Centennial state New Mexico's chief fruit market. This is a market that can be relied upon; no other state can reach it, and its growth and expansion mean prosperity for New Mexico fruit growers. Here are some figures which demonstrate the value of the Colorado fruit market. Last year dealers up there sold \$700,000 of home grown fruits and shipped in from other states \$3,520,000 worth. New Mexico ought to be able to send Colorado \$3,000,000 worth of fruit annually.

A GREAT DEAL OF DIFFERENCE WHOSE OX IS GORED.

Thomas H. Carter was elected chairman of the Republican national committee; he was then commissioner of the land office and upon accepting the chairmanship promptly resigned the office of honor and trust he held under a federal commission.

William Harritt is secretary of state of Pennsylvania, by appointment of that great Mugwump idol, Patterson; it may be presumed that there are some duties attached to that office; there certainly is a very fat, liberal salary paid to the person holding the office. Mr. Harritt three weeks ago was elected chairman of the Democratic national committee. No one has as yet heard the slightest intimation that Mr. Harritt will resign, and he certainly has not yet resigned. The position of our Mugwump friends concerning this state of affairs is about as follows: D—A Republican, no matter how decently and fairly he acts; but bless the Democrat or Mugwump as long as he supports Grover Cleveland and free trade, no matter how indecently, dishonestly or unfairly he acts.

Will the people of the United States be caught by such a hypocritical outfit as the one, that shouts for Grover Cleveland and free trade, the force bill bogie and alleged reform?

PRESS COMMENTS.

What It Will Be.
The controversy's growing hot. Concerning Steyer's name: Some say it's Adlai, some say not; 'Tis Adlai, others claim.
The question does not stir our blood, But we have this to say: The name will certainly be "Mud" On next election day.
—New York Press.

All on Account of McKinley.
The McKinley tariff law has reduced the cost of living 3.4 per cent; raised the rate of wages .34 per cent; reduced the annual revenue, \$50,000,000; raised the trade balance to \$203,000,000. So the Senate Committee reports; and its findings, after most careful investigation, were concurred in by the Hon. John G. Carlisle, of Kentucky, and the Hon. Isham G. Harris, of Tennessee, two of the leading Democratic members of the senate.—Albany Journal.

Carpenters' Wages in England and the United States.
The carpenters working on the new Astor hotel, who went on strike on Monday, were receiving \$4.00 a day. The English wages of carpenters, as given in the senate finance committee's report on wages and prices, investigated so impartially as to be satisfactory to Senators Carlisle and Harris, Democrats, are \$1.62.

Republican Success Would Bring Foreign Manufacturers to the United States.
The consul of the United States at St. Etienne, France, states an important fact as to European opinion touching our presidential election. The success of the

Republicans, assuring the solidity of our tariff policy, would cause the transfer of many industries to this side. The manufacture of gloves is named. If the Democrats are going to upset the tariff laws, capital will not come.—Brooklyn Standard-Union.

That's the Game.

Mr. Frank Adams, one of the gentlemen appointed by the Chicago convention to tell Cleveland and Steve of their nomination, is in New York, and in an interview with the World says: "Things of a political nature are badly mixed on account of the silver question. The Democrats are seeking to make a fusion with the People's party, but they first want to get the sanction to do so from the national committee. Whatever combination is made will be solely in the interest of Mr. Cleveland."
Well, that is the idea in Iowa and Kansas and Nebraska and everywhere where fusion has been proposed. It is hoped by fusion in Republican states to throw the election into the hands of the present congress.—Chicago Inter Ocean.

The Aim of the People's Party.

Gen. Field, the People's party candidate for the vice-presidency, admits that there is no hope of the election of the People's party presidential ticket, and that the utmost which the support of that ticket can accomplish is to throw the election into the hands of representatives and thereby elect Grover Cleveland. We should like to know how in the face of this the silver men of Colorado can support Weaver. They all know that Grover Cleveland is one of the most bitter enemies of silver coinage among the men in public life, and that if he should be elected there would be no possible chance of passing a free coinage bill. It is utter nonsense for any man to support Weaver on the theory that by so doing he would be advancing the cause of free silver.—Denver Republican.

California Fruit Under Protection.

Five car loads of fresh California peaches, plums, pears, apricots and other fruits arrived in New York on Tuesday night and were shipped to Europe yesterday morning by the White Star line steamship Majestic. This is the beginning of an exportation to Liverpool for English consumption of a great Pacific coast product, and is more important in its bearing on the national policy of protection than any recent event. The fruit, grape, raisin and wine industries of California have been built up under protective tariff until all of them have an enormous home consumption. With California fruit entering into European exportation it may be anticipated that the raisins and wines of California will also become articles of export. This is one of the reasons why the entire Pacific coast can be counted upon to support the Republican party and protection in the national contest against Democracy and free trade.—New York Press.

Practical Politics.

The Mugwumps are snarling at Harrison and Reid, the Republican candidates, for assisting, as practical politicians, in the management of the Republican campaign and for looking after the other managers. We tell these Mugwump snarlers that the Republican candidates are acting wisely and properly in giving heed to their own political interests, and in promoting the success of their party and their own election. The prudent farmer keeps an eye on his fences even if he hires other men to fix them up. Harrison and Reid are clever men. They know how to run a campaign.

On the other hand, everybody may be sure that Cleveland and Stevenson, the Democratic candidates, will not stand aside while the battle rages, but will use the wise example of Harrison and Reid. Mr. Cleveland must not allow himself to be outdone by his old headman, Stevenson.

Even the English politicians, whom the Mugwumps admire, attend to the practical business of politics in time of trial. Look how Gladstone worked the machine and stumped the country in the recent elections.—New York Sun.

Only 28 Hours—Denver to Chicago.
Under its new summer schedule the Burlington route is enabled to offer increased facilities in train service and fast time from Denver eastward.
Train No. 6, "The Chicago Special," leaves Denver daily at 9 a. m.; reaching Omaha at 11:40 the next evening and Chicago at 2:15 the next afternoon, making the run—Denver to Chicago—in 28 hours and only one night on the road.
This train also has through Pullman sleepers from Kansas City and St. Louis, making quicker time than any other line.

Train No. 2, popularly known as "The Flyer," continues to leave Denver as formerly, at 8:30 p. m., reaching St. Louis at 7:10 and Chicago at 8:00 the second morning.
Both of these trains consist of vestibule Pullman sleepers, chair cars and diners, serving all meals en route. For full information, tickets and sleeping berths, call on local ticket agents, or address G. W. Valley, General Agent, 1700 Larimer street, Denver.

A Peek at Pike's Peak.

For Kinkadee Temple and their friends, the great meeting of 1892 is that of the silver triennial convention at Denver, August 9.

The rate is less than the usual summer tourist ticket rates. It is low enough to catch business. Will it catch yours for the Santa Fe route? Perhaps that depends upon what the Santa Fe route offers. It offers this: A 11-mile view of the Rocky mountains.
Cheap side trips to various points in Colorado, Utah and New Mexico; Good service at reasonable rates.
Address W. M. Smith, Agent, A. T. & S. F. R. Co., Santa Fe, N. M., for full information.

The World's Greatest Wonder.

Hunt up half a hundred fanciful and adjective, suitable for description of sublime and inspiring scenery; then take a trip to the Grand Canyon of the Colorado, and you will throw them aside as being inadequate.
The world's greatest wonder is the Grand Canyon of the Colorado river, in Arizona. Yellowstone Park and Yosemite take second place; Niagara Falls is dwarfed; and the Adirondacks seem like mere hills, compared with the stupendous chasms and heights of the Grand Canyon. This hitherto inaccessible region has just been opened for tourist travel by stage line from Flagstaff, A. T., on the transcontinental highway of the A. T. & S. F. R. R. The round trip can be made comfortably, quickly, and at a reasonable expense.
Nearest agent of Santa Fe route will quote excursion rates, on application. An illustrated pamphlet is in preparation, fully describing the many beauties and wonders of the Grand Canyon. Write to G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. R., Topeka, Kas., or J. J. Byrne, Asst. Pass. Traffic Mgr., Chicago, for free copy, which will be mailed when ready for distribution.

Visit the Grand Canyon of the Colorado.

Commencing at once, I will sell to those desirous of visiting the Grand Canyon of the Colorado, round trip tickets from Santa Fe via Flagstaff, for \$54.60 for the round trip. Tickets will have a transit limit of thirty days in each direction, with a final limit of ninety days from date of sale. The stage connects with our through Pacific coast train, and leaves Flagstaff Monday, Wednesday and Friday, returning from the canyon each Tuesday, Thursday and Saturday. The Grand Canyon Hotel company have provided tents for tourists, meals \$1 per capita and lodging \$1 per night. Apply at city office for full information.
Ticket Agent A. T. & S. F. R.

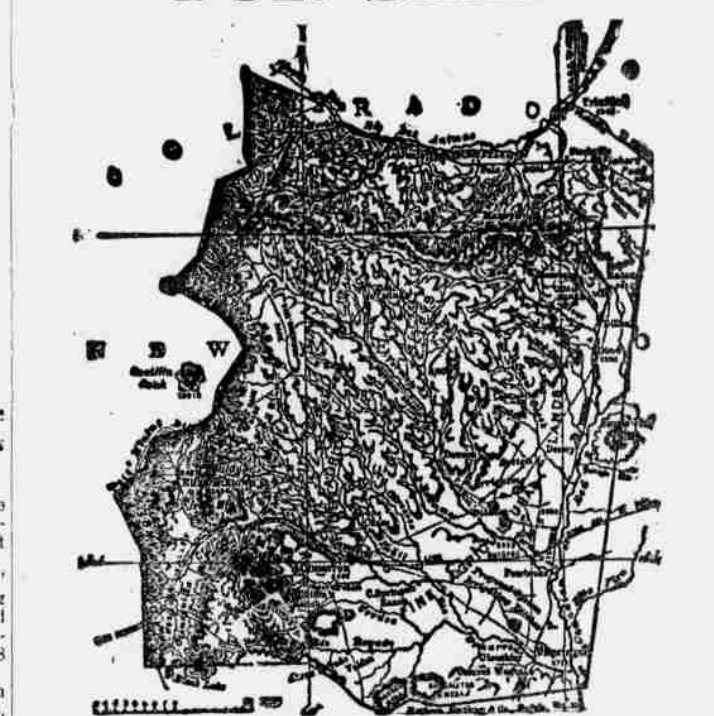

Cheap Excursion Rates to Colorado Points.

Taking effect June 3 the popular Santa Fe Route will sell excursion tickets to the following points. Denver, \$23.75; Colorado Springs, \$19.90; Pueblo, 17.55. Tickets have transit limit of two days in each direction, with final limit of Oct. 31st 1892. Sale of above tickets will be discontinued Sept. 30th, 1892. Passengers leave Santa Fe at 8:55 p. m., breakfast at La Junta, arriving at Pueblo 11:50 a. m., Colorado Springs at 2:20 p. m., and at Denver 5 p. m. Or leave Santa Fe at 6:50 a. m., arriving at Denver 5:30 the following morning. For further information apply to

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.
Choice Mountain Valley and Lands near the Foot Hills
FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.
In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.
The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.
The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.
Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

Knights of Pythias, Attention!
The biennial session of the supreme lodge and encampment of the Uniform Rank, Knights of Pythias, to be held at Kansas City, August 23 to 27, inclusive, promises to be one of the best attended, and most successful, gatherings, in the history of the order.

The accessibility of the point of meeting will be an inducement to draw a vast number of Knights and visitors, and the Missouri Pacific railway, with its vast net work of lines connecting Kansas City from every direction, offers greater facilities than any other line, and will be in better position to take care of divisions and regiments, and the large delegations that are expected. Its trains will be found of the handiest; equipped with Pullman buffet sleeping cars, Pullman parlor cars, reclining chairs cars, (seats free) and elegant day coaches.
The Missouri Pacific railway is prepared to land divisions and regiments within four blocks of the encampment, (the nearest railroad point in the grounds).
The general committee has made complete arrangements for camping outposts, tents with flooring, will be provided, and wagons will be on hand to transport baggage to and from the grounds. The lights will be provided with water, and fought with electricity; wire-woven coils, pillows, and blankets, can be rented at a very low rate.
Remember!—The Missouri Pacific railway is the only line that lands its passenger within four blocks of the encampment grounds. The Missouri Pacific railway is the only line running out of Colorado, which is so situated as to be able to properly handle the Knights who may contemplate making the journey; making a direct connection from all points in the west, at Denver, Colorado Springs and Pueblo.

SHOOTING STARS.

Across the Line.
Give me the Russell horse, he cried,
To the telephone girl on duty.
Will you wait till you get it or have it now?
She cried in accents fluty.
He had hurt her sense of culture and ease.
By omitting the monosyllable "Please."
—Detroit Free Press.

Strong Witnesses.

Among the thousands of testimonials of cures by Dr. Miles' New Heart Cure, is that of Nathan Allison, a well known citizen of Glen Rock, Pa., who for years and shortness of breath, sleeplessness, pain in left side, palpitation, smothering spells, etc.; one bottle of Dr. Miles' New Heart Cure and one box of Nerve and Liver Pills cured him. Peter Jaquet, Salem, N. J., is another witness, who for twenty years suffered with heart disease, was pronounced incurable by physicians, death stared him in the face, could not lie down for fear of smothering to death. Immediately after using the New Cure he felt better and could lie down and sleep all night, and is now a well man. The New Cure is sold, also Free Book, by A. C. Ireland, Jr.

Newspapers Endorse.

"Educators are certainly the greatest benefactors of the race, and after reading Dr. Franklin Miles' popular works, can not help declaring him to be among the most entertaining and educating authors." —New York Daily.
"He is not a stranger to our readers, as his advertisements appear in our columns in every issue, calling attention to the fact that his elegant work on Nerve and Heart Diseases is distributed free by our enterprising druggist, A. C. Ireland. Trial bottles of Dr. Miles' Nerve and Heart Pills are given away, also Book of Testimonials showing that it is unequalled for nervous prostration, headache, poor memory, dizziness, sleeplessness, neuralgia, hysteria, etc., epilepsy."

An Impossibility.

Mabel—Do you know, Nellie and I have eyes of almost exactly the same color. We've just been comparing them.
Jacques—Pardon me that's quite impossible.
Mabel—How impossible?
Jacques—Your eyes are incomparable. —Life.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.
Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Calawa, Ohio, had five large liver stones on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by C. M. Creamer, drug store.

Little Johnny Makes a Guess.

Girls are awful lazy. We've got a tennis net an' croquet set an' lots of things to have fun with, but my sister would rather sit in a stuffy room a listenin' to a young man talkin' 'bout dead poets than come out an' have fun with me. She didn't really be to that way. Maybe she ain't really lazy. Maybe it's only old age.

Miles' Nerve & Liver Pills.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Smallest, mildest, surest! 50 doses, 25 cts. Sample Free at A. C. Ireland's.

Wounded His Pride.

Dusty Rhodes—Could you give me a suit of your husband's cast off clothes?
Mrs. Dugood—Here is an old dress suit if you want it.
Dusty Rhodes—Great heavens, madam! Do you think I want to stay in a hog-head every day until 6 o'clock.

Too Fine for a Man.

Mrs. Darley (displaying her purchases)—I have bought these suspenders for Harry's birthday present.
Mrs. Snooper—They are much too fine for a man to hide under his vest.
Mrs. Darley—That's what I think, so I am going to wear them myself.—Brooklyn Life.

When the Dinner Bell Rings

People ought to feel hungry, and when they feel hungry they ought to have good digestion. But, alas! they don't. That plague alike of the just and of the unjust; of the abstemious and the glutton; of youth, middle age and life's decline; the protestant, dyspepsia, excessive penalties for appetite's appetence. In the shape of heartburn, wind and uneasiness, indigestion of the stomach, and general disturbance in the gastric region. Dyspepsia is generally accompanied by biliousness, irregularity of the bowels, nervousness and nervousness, and all of which as well as their causes. Hostetter's Stomach Bitters, is the nation's sweet remedy. Material, rheumatic and kidney trouble, lack of strength and flesh, and failure of appetite and the power to rest tranquilly, are also overcome by the Bitters.

What Will be Necessary for Chicago.

World's Fair trunks with compartments for drinking water will probably be in demand next year, and there might be some sale for modified diving suits with small balloons upholding the air pipes. The pipes should be long enough to extend above the smoke into the pure air, and the material should be soft proof.

Worth Knowing.

The Alcock's Porous Plasters are the highest result of medical science and skill, and in ingredients and method have never been equalled.

That they are the original, and genuine porous plasters, upon whose reputation imitators trade.

That Alcock's Porous Plasters never fail to perform their remedial work quickly and effectively.

That this fact is attested by thousands of voluntary and unimpeachable testimonials from grateful patients.

That for rheumatism, weak back, sciatica, lung trouble, kidney disease, dyspepsia, malaria and all local pains, they are invaluable.

That when you buy Alcock's Porous Plasters you absolutely obtain the best plasters made.

Depends Upon Circumstances.

Uncle Erastus—"I don't believe in countin' yo' chickens befo' dey is hatched. Judge, does yo'?"

Judge Twinkle—No, Uncle Erastus; but experience has taught me in this neighborhood one can't begin too soon afterward.

Bucklen's Arnica Salve.

The best Salve in the world, cures cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at C. M. Creamer's.

How He Took It.

Bagley—I say, Downey, did it ever strike you that pretty Miss Yerkes was 'way off in her grammar?
Downey—No; I have never noticed it.
Bagley—Well, I have. Confidentially. I asked her to marry me the other night and she said: "Mr. Downey, I'm not going to marry nobody—Judge."

During the Day-Season.

The drain of nervous and vital energy may be counteracted by the use of Ayer's Sarsaparilla. In purifying the blood, it acts as a superb corrective and tonic, and enables the system to defy malarial and other climatic influences.

And He Ought to be Disappointed.

An emperor of China is allowed thirteen wives and the present emperor is unhappy because not one of the thirteen was his own choice. All were selected by his female relatives and are no doubt homely as poor fences, but just splendid help at church fairs and perfectly lovely housekeepers.

Ayer's Ague Cure never fails to neutralize the poisons of malaria, and eradicate them from the system. This preparation is purely vegetable, contains no harmful ingredients, and, if taken according to directions, is warranted to cure fever and ague. Try it.

Truthful and Edomantic.

Ethel—I thought at one time he was going to kiss me, but fortunately some one came in and he didn't.

Estelle—You had a narrow escape.

Ethel—It was a tight squeeze.—Life.

Capable of Transposition.

"There!" she said, standing on her tip-toes, "I am about your size."

"On the contrary," said the disconsolate lover, "my sighs are about you." —Chicago Daily Tribune.

Shook Her Up.

Mr. Posttraw—Did yeh ride on one of the Fifth Avenue stages when yeh wuz in New York?

Mrs. Oatcake—Indeed I did, and I wish I had a churnful of cream with me. The ride would have made butter of it.

Surrendering at Discretion.

"Tommy, how did you get the back of your neck all sunburned?"
"Pullin' weeds in the garden."
"But your hair is all wet, my son."
"That's perspiration."
"Your vest is on wrong side out too."
"Put it on that way a-purpose."
"And how does it happen, Tommy dear, that you've got Jakey Du Bois' trousers on?"
"After a long pause." "Mother, I cannot tell a lie. I've been a swimmin'." —Chicago Tribune.

So Nice of Her!

Lady Sparker—Oh, I'm so sorry! I'm engaged for every dance. I'm engaged also for supper twice, but I promise you faithfully you shall have my third glass of lemonade! —Du Maurier in Punch.

At the Soda Fountain.

A nice party of girls went into a drug store. "I will treat," said the little red-haired one.
"Oh, no; you treat last time," objected Katie with the curls.
"Say, Min has never treated at all," shouted some others.
"Well, go on," said Min.
Then they all smiled at once at the soda water man.

"Lemon-Strawberry-Chocolate-Coffee"

"Lemon-Strawberry-Chocolate-Coffee" said the soda water man, who was just as calm as anything.
Red Hair had changed her mind. Then they all changed their minds and swapped off choices, and they all said again: "Coffee-chocolate-lemon-tovannilatter-min-an-sstst!"
"Oh, I guess I will," said Min.
"I think it's awful rude to take yourself first," Red Hair criticised, with much candor and ill humor.
"Well, go on, take it yourself!"
"Me? Oh, I don't want chocolate, I want coffee."
"Well, who will have it?"
Nobody wanted it. Min began to breathe hard.
"You are all just as mean as you can be," she panted.

No More Deadhead Fames.

We are again compelled to announce that obituary notices will be charged for at the rate of five cents per line. Announcement of death, not exceeding five lines, free. We have given up much space in these columns for the notice of deaths, and in almost every instance notice the parties themselves or their immediate relatives have ever contributed a nickel to sustain this paper, directly or indirectly. Those who want newspaper fame after death must make arrangements for its publication or they'll be left.—Townsend (Mon.) Messenger.

Supply and Demand.

Peddler—Any tin, ma'am?
Housekeeper (indignantly)—Those tins you sold me last week have all gone to pieces.
Peddler—Yes'm. I knew you'd want some more by this time.—New York Weekly.

Superstitions Work.

Mrs. Billus—Mary, you needn't waste any time dusting those balusters.
Domestic—I thought yez told me Mrs. Gumpus was a-codin' the day for a visit.
Mrs. Billus—Yes, 'tude her three little boys are coming with her.—Chicago Tribune.

Before and After.

Pater—Do you think that I would allow a man of your uncertain prospects to marry my daughter?
Sutor—Yes, because if I married her, you see, my prospects wouldn't be uncertain.—Harper's Bazar.

The Effect of Contrast.

"I thought I was a wealthy young man," said Simpson, "until I threw my hat into the feet of a Chicago girl. Then I discovered that my pile appeared quite small!" —Truth.

On the Reverse Order.

I know a young pair who are wedded and poor—
For it sometimes happens that way;
Who wrestle each day with the wolf at the door—
For it sometimes happens that way.
Now if this were a novel we'd find them all right.
And living on love and a nap and a bet;
But I'm sure that they quarrel, and I've heard that they fight.
Well, it sometimes happens that way.

There once was a man with a mother-in-law.

For it sometimes happens that way—
For it sometimes happens that way—
When he daily subjected with a vigorous jaw.
For it sometimes happens that way.
Though we all know she should have been sav-
ing and grin.
And a gigantic terror who tyrannized him.
Yet she really was docile and lacking in vim—
For it sometimes happens that way.

There once was a man who went to a "show."

For it sometimes happens that way—
For it sometimes happens that way—
Though he was bewildered he took the back row—
For it sometimes happens that way.
And he didn't sneak home in fear of his life.
Now, when asked where he'd been, told him: "I was in his wife."
In his actions she saw no occasion for strife—
For it sometimes happens that way.
—Indianapolis Journal.
