### BRIEF WIRINGS.

**Damage to Crops.**  
FUCHS, Texas, Aug. 9.—Boll worms are playing havoc in many cotton fields, and nothing can be done to stay their ravages.

**Probable Promotion.**  
WASHINGTON, Aug. 9.—The name of Mr. Marshall Cushing, the private secretary to Postmaster General Wannamaker, is prominently mentioned as a probable successor to First Asst. Postmaster Whitfield, who is soon to retire.

**A Queer Statement.**  
CHICAGO, Aug. 9.—In a published interview, Director General Davis, of the World's Columbian commission, is quoted as saying that congress had really given the fair \$3,283,000 or \$783,000 more than is generally understood that the bill called for.

**A Naval Accident.**  
LONDON, Aug. 9.—Two torpedo boats attached to the British blue squadron, while manœuvring near Portsmouth yesterday, came into collision. One of them was so badly damaged that she sank a few minutes after the accident. The other boat rescued everybody from the sinking vessel.

**Garza Again.**  
WASHINGTON, Aug. 9.—The Mexican charge de affairs called on the secretary of the state yesterday and showed him a telegram from the president of Mexico, saying that it is rumored at the Mexican capital that the Garza revolutionists are re-organizing along the border in Texas and asking that the attention of the United States government be called to the report. The department has ordered an investigation at once.

**Illinois Republicans.**  
PEKIS, Ill., Aug. 9.—Gov. Fifer will formally open the Republican state campaign in this city to-day. Meetings will be held this afternoon and evening at which speeches will be made by the governor and several leading candidates for state offices. The first gun of the national campaign will be fired at Springfield next week, when Whitlaw Reid and several other speakers of national reputation will address a monster meeting which has been arranged for the 13th.

**A Democratic Fracas.**  
NASHVILLE, Tenn., Aug. 9.—The Democratic state convention was called to order to-day by Chairman J. W. Baker, of the state central committee. The indications all point toward Peter Turney, who has been on the bench for thirty years, and is now chief justice of the supreme court of this state, as the nominee for governor. In fact, Turney has secured two-thirds of the delegates, and the recent withdrawal of Gov. Buchanan leaves him in undisputed possession of the field. Buchanan's retirement from the field a week ago, the political sensation of the campaign. Turney's success in manipulating the primaries and county conventions, and the determined wing which his wing of the party has waged upon the Alliance, disgusted Buchanan to such an extent that he gave up all hopes of receiving the nomination from the present convention. It is generally thought that he will announce himself as an independent Democratic candidate, and that his candidacy will be endorsed by the People's party convention to be held next week. The Republicans, of course, are jubilant over the prospect of a row in the Democratic camp, and are putting renewed strength into their campaign. The Prohibitionists also have a ticket in the field, and between the four candidates the game of politics promises to be an exciting one in this state during the coming three months.

**More Trouble.**  
MADISON, Wis., Aug. 9.—The supreme court of Wisconsin assembled at noon to-day, and it is generally thought that Attorney General D'Cornor will enter a motion before the day is over on behalf of C. E. Lamb of this city, petitioning the court for leave to bring action in the name of the attorney general against the secretary of state to enjoin him from executing the apportionment law passed by the recent special session of the legislature. In case the attorney general refuses to make the motion, it may be made by the petitioner himself. From the petition it appears that the rule of equity of representation required by the constitution has been violated, and in some cases the number of voters included in a Republican district is more than twice as large as the registered vote of districts that are known to be Democratic. The petition sets forth in this way it is sought to increase the number of Democrats in the coming legislature, and to defeat the Republican party of its rightful representation. The supreme court of this state and that of Michigan having just been over the same ground an early decision is looked for. In case the decision goes against the Democrats the Republican apportionment of 1887 will go into effect. The Democrats, in this case, will try to have this law declared unconstitutional, and to have the present Democratic body hold over as the de facto legislature.

**Business Notice.**  
Frank Masterson has opened a cabinet shop two doors from the electric light house, Water street, and is prepared to do all kinds of cabinet work. He is also agent for Santa Fe county of the celebrated Kellogg weather strip, which has been successfully placed in several buildings in this city, and gives such well known references as Hon. E. A. Fiske, Hon. T. B. Catron, Sister Victoria, G. W. Knaebel, Julius H. Gerdes and E. W. Seward.

### THE KNIGHT'S PAGEANT.

Denver's Great Day—A Gorgeous Affair Graphically Pictured.

DENVER, Colo., Aug. 9.—Nearly 50,000 knights turned out to-day in the great street pageant which forms the principal feature of the triennial gatherings of the Knights Templar, and the spectacle was one which will be remembered by the good people of Denver for many a day. The commander-in-chief began to assemble as early as 9 o'clock, but it was almost 11 before the streets were cleared, and the immense body of men set in motion. Although the line of march extended over several miles every inch of side walk on the route was crowded from curb to curb, and every window was filled with eager spectators, and even the house-tops were covered with people watching the parade. The knights moved steadily forward like the current of a mighty river many feet beneath them. Those on the house-tops and in the upper windows, in fact, obtained by far the best view of the procession, as much of its beauty consisted in the intricate symbols of the order which were exhibited in the formation of the ranks as they passed through the streets. It was only from an elevation that the machine-like accuracy of the movements could be appreciated as commander after commander broke the regularity of its ranks, for a moment seemed lost in confusion, and then as if by magic emerged in the form of a Greek, a passion or a Maltese cross, or maybe a hollow square, a triangle or some of the myriad mystic combinations formed from the figure three. At scores of places on the line stands had been erected, and thousands of people cheerfully paid their quarters, half-dollars or even dollars for a foot-hold on these points of vantage.

Just before the order to march was given Grand Master Gobin was escorted by St. John's commandery, of Philadelphia, from the Palace hotel to the reviewing stand at the corner of 10th street and Broadway, and here, in the company of the governor and chief officials of the state of Colorado and the mayor of Denver he reviewed the hosts of sir knights. Everything that money and forethought could provide for the comfort of the knights was placed at their disposal, and the most fatiguing event of the convocation was accomplished without serious mishap of any kind. One feature of the parade which gave rise to much favorable comment was the ample supply of cold water which the local committee provided at over 100 points along the line of march. Each water barrel was placed in charge of a score of small boys armed with cups, and during the halts the thirsty knights kept the boys on the move, and often let a stray nickel or dime drop in their hands to show their appreciation of attention. At the conclusion of the parade, and after the commanders had been dismissed, Grand Master Gobin was escorted to the Masonic temple, and there convened the first session of the grand encampment.

The decorations of the city are in themselves a sight and well worth a journey to behold. The decorations have covered the city with glory and the city with bunting. By day the buildings present a bewildering maze of drapery of every hue and texture, and woven into designs symbolic of the knightly order. By night the city hall, court house, Union depot and other large buildings are wreathed in a halo of light, the court house alone being hung with over 1,500 incandescent lights and several scores of arc lamps, the latter being hung at the corners of the dome and over the principal entrances. Over thirty miles of wire have been laid to provide for the illuminations, and fifty-two Knights Templar emblems are suspended at different points in the city, some of them being made up of over 500 incandescent globes. These florid decorations are in the most magnificent and beautiful imaginable. A magnificent arch has been erected in front of the depot, built on classic lines, and in imitation of stone. A mailed knight is painted on the side facing the depot, and two modern knights on the reverse side. A life-size statue of a mailed knight is a prominent feature of the structure, and a profusion of electric lights produces an immense pyrotechnic display. An elaborate arch has also been erected in front of the Masonic temple and one on Eighteenth street, besides numerous less sumptuous affairs in different parts of the city. Search lights of 50,000 candle light power each have been placed on several of the high buildings, including the Union depot and court house, each of them throwing a flood of light a distance of three miles. Thirty-two thousand incandescent colored lamps have been hung along the streets, and their light alone would make the city as bright as day.

**AGENTS WANTED—Male and Female,** old and young, \$15 to \$25 per day easily made, selling our Queen Plating Outfits, and doing Gold, Silver, Nickel, Copper and Brass Plating; this is warranted to wear for years, on every class of Metal, Tableware, Jewels, etc. Light and easily handled, no experience required to operate them. Can be carried by hand with ease from house to house, same as a grip sack or satchel. Agents are making money rapidly. They sell to almost every business house and family, and workshop. Cheap, Durable, Simple, and within reach of everyone. Write almost instantly, equal to the finest new work. Send for circulars, etc. Queen City Silver & Nickel Plating Co., East St. Louis, Ill.

### TERRITORIAL TIPS.

Prospects never looked brighter for the mining future of the Kingdom district than it does at present.

December 5, 6, 7 and 8 have been fixed as the time of holding the southwest miners' convention, and El Paso as the place of meeting.

The matter at Socorro is receiving large quantities of ore for treatment from all over southern New Mexico. A new stock is being placed in position.

The new public school building at Las Cruces is about complete, is a beauty, and a structure of which any community might well feel proud.

The Pecos Valley Telegraph company will extend their line from Eddy to Roswell as soon as the necessary material arrives. This will prove a great accommodation.—Pecos Valley People.

Dr. Neely takes the place of Rev. J. M. Major as presiding elder of this district, which has been enlarged so as to embrace the territory lying between the San Juan and Denver and from the river to Rio.

Mrs. Joseph Waddingham has received a telegram from Prof. A. F. Smith, informing her that he has won the roller-skating contest for championship of the world. The professor should have a public reception when he returns home.—Las Vegas Optic.

Persons who have climbed to the top of Baldy will be surprised to hear that a Mexican lady, 70 years of age, made the ascent yesterday, and after coming down spent some time in picking red raspberries, which there are a great many in the canon.—Las Vegas Free Press.

John C. Neel, the former traveling man out of the city, now located at Flagstaff, A. T., in the hardware business, writes to friends in this city that, on the 4th of July, his little daughter, Bernice, was taken with convulsions and has not been able to utter a syllable since. This, indeed, is sad affliction to the family.—Las Vegas Optic.

The Black Range Cattle company has disposed of its cattle, ranches and horses to H. M. Porter, of Denver, the consideration being \$5 per head for the cattle, with all the calves and ranches thrown in. The cattle are to be counted during the next two years, after which the horses are to be turned in at \$20 per head.—Silver City Enterprise.

Wm. Dumber passed through Falcon last Monday, with two head of sheep belonging to Seldomridge & Peabody, of Colorado Springs, Colo., which he is driving to pastures near that place. The ranch has something over 10,000 head of sheep which are being driven to the north, where they are to be sold. There are a few more sheep in the territory, and nearly all of which were purchased in this territory.—Metropolitan.

Corporal Tanner, with a world-wide reputation, and who had both of his legs shot off above the knee at the battle of Bull Run, accompanied by his son passed down the road on this morning's delayed passenger train for San Marcial, where he will reside for a few days. He is the guest of Capt. Jack Crawford.—Citizen.

**San Juan note:** This time it is the winter wheat yield of Ira Fulcher, a beautiful field of grain that will yield not less than a fifty bushels to the acre. There can be no question but that winter wheat is the most successful grain for our country. It matures before the dry hot summer comes on and does not need the work nor care that spring wheat does. A large number of the La Plata ranchmen are going to put in this fall. Among others, we noticed Dennis Canfield is busy plowing for wheat.

In 1891 there were 40,964 acres of land listed; in 1892 this had increased to 42,633 acres, an increase of 5.5 per cent per annum. We can not help feeling gratified at the material advancement our country is making in all those essentials that go to build up a solid country. On every side are seen steadily improvement in the really beautiful homes scattered along the valleys. There are in progress of building, while nearly every precinct throughout our country has its own neat school house.—San Juan Times.

Mr. C. T. Lawrence, of Scotland Neck, N. C., writes to Eddy and says that a portion of the Pecos valley, said before to be left: "I have great faith in Eddy and the Pecos valley. It appears to me to have an assured future that will be very prosperous." Before leaving Mr. Lawrence purchased half a dozen choice lots and selected some fruit land down the valley. He expects to return within a month, and will be accompanied by a wealthy capitalist of his section, who, he is confident, will invest largely in city property and valley lands.—Eddy Argus.

**San Juan Times:** The quantity of fruit that has been sent out of San Juan county during the past two weeks, would raise the belief of any one not on the road to Durango and thus able to see for himself. No fewer than from ten to twenty teams a day have steadily transported thousands of boxes of fruit, principally early peaches, into Durango, whence it is shipped up into the mountain towns, to the San Luis valley or consumed there. The early season is drawing to a close and there will be a lull of two weeks, which will give the growers a breathing spell and time to prepare for the more steady trade of the later fruits. The quality of the season is so much superior to previous years due greatly to the smaller quantities on the trees, that the fruit is preferred to that of California. The price realized has been from 8 to 10 cents though there was a material dropping off toward the last. Early apples, plums and blackberries are beginning to be placed on the market.

Fruits and Climate.

Socorro Climate. The NEW MEXICAN says that the editor of this paper had Santa Fe in his mind when he penned the following:

"New Mexico has not only the finest climate to be found anywhere upon God's green earth, but it can produce a greater quantity and better quality of fruits than any other section of the United States." No, he did not. He had the whole of New Mexico. There are few places in New Mexico that for an all-around summer and winter climate, can beat Socorro, and in fact there are none. Outside of New Mexico probably there are some, but they have never been found by man, and their record has not been written. As a summer climate, we give the palm to Santa Fe. It is the best of any place in this territory, or the world, for that matter; next to it we think Las Vegas and the Hot Springs stand as one of the best and most pleasant places in the territory, and with Las Vegas, Silver City may be classed, then Albuquerque and Las Cruces as winter and spring and fall places, but Socorro in summer and winter holds over them all, her climate is not so cool as that of Santa Fe in summer and is warmer in winter; while it is cooler than Las Cruces or Albuquerque in summer, it yet is a better winter climate and then it is so pleasantly and beautifully situated. We, in fact, are pleased with all parts of New Mexico and its climate, and so far as the outside world is concerned, it is far ahead of any. As between ourselves, a few hours ride will get us to any kind of climate or weather one may wish for.

### The Territorial Fair.

A sixty-page pamphlet, the nearest ever turned out of the Citizen office, comes to hand to-day from Albuquerque, it being the premium list of the twelfth annual territorial fair, which opens at the Duke city, Sept. 12, and continues one week. A perusal of the list of premiums shows that the prizes in the speed ring and in all other departments are the largest ever offered by the association, and should draw to the exposition the largest assemblage that ever gathered in the south-west. Aside from fair topics the pamphlet contains a great deal of statistical information referring to Albuquerque in particular and New Mexico in general, and is, in itself, a valuable advertisement to the fair. Business men of Albuquerque have not been slow to take advantage of the citizens of Albuquerque are preparing to treat fair visitors unusually hospitably, and all who attend will be pleased, instructed and entertained.

TUESDAY, AUGUST 9

## THE NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT—  
**BENJAMIN HARRISON.**  
OF Indiana.

FOR VICE PRESIDENT—  
**WHITELAW REID.**  
OF New York.

### Call for Republican Convention.

HON. REPUBLICAN CENTRAL COMMITTEE OF N. M.

A convention of the Republican party of New Mexico is hereby called to meet at Las Vegas, N. M., on the 25th day of August, 1892, at 11 o'clock a. m., to nominate a candidate for delegate to represent the territory in the 53d congress of the United States.

The several counties of the territory are entitled to representation as follows:

Bernalillo, 14 votes.  
Colias, 2 votes.  
Eddy, 1 vote.  
Lincoln, 1 vote.  
Rio Arriba, 2 votes.  
San Miguel, 1 vote.  
Santa Fe, 4 votes.  
Taos, 1 vote.

County committees are requested to make all proper arrangements for the holding of county conventions.

In the event of failure of the county committee to call such precinct meeting and county convention, and in counties where there may be no county committee, then the call for precinct and county conventions will be issued by the members of the territorial central committee for such county.

The chairman and secretary of county conventions are requested to mail to the secretary of this committee a certified list of the delegates chosen at such convention.

Under existing rules, no alternate delegates to the territorial convention can be elected. No proxies will be recognized unless properly executed and given to residents of the county from which the delegate whom the proxy represents is chosen.

By order of the Republican central committee of New Mexico.  
L. A. HUGHES, R. E. TWITCHELL.  
Secretary. Chairman.

This city will not amount to very much till the useless Democratic majority in the city council is knocked higher than a kite.

The White Cap-Democratic leaders have made up their minds to inform Mr. Joseph that talk alone will not count in the present campaign, but that it's "boodle" that will have the right of way.

The best work that the Democratic house of congress has done during the last week has been to make the state of Illinois solidly Republican by 30,000 majority. Verily, even good cometh out of Nazareth.

The Democratic party of this territory will have it all to itself in the present campaign. It will have to put up boodle galore to get the White Cap element. The Republicans will have naught to do with that sort of business.

Times have certainly changed for the better; for instance, there is one scandal at present floating about a female member of the British royal family; whereas, seventy-five years ago there were numerous scandals about every member of the British royal family afloat.

HENRY M. STANLEY announces that the allusions to him made in the American newspapers during his last campaign were so offensive that he will never again set foot in this country. This, of course, is a very grave and great misfortune, but the people of this country will have to survive it somehow, and we think they will succeed.

A SUITABLE REWARD.

THE NEW MEXICAN is informed, that in case of the success of the Democratic national ticket at the coming election, the

## Democratic-White Cap leaders, with one accord, will urge the appointment of ex-Governor and ex-Senator Rose to the highly important and very lucrative post of envoy extraordinary and minister plenipotentiary of the United States to the gorgeous and gigantic court of the Account of Swat.

THEY WILL NOT DRINK.

You can take a horse to water but you can't make him drink. Senators Gorman and Bruce are members of the Democratic campaign committee, but they will not put up any extraordinary amount of boodle this time to help elect Cleveland and Stevenson; the Standard Oil company and ex-Secretary Whitney will have to bring forth a full and pithy "barf" this time for the benefit of the Democratic nominees.

TOO SOON—AND CAUGHT AT IT.

AFTER all the foreboding Democratic organs have made over the strike at Carnegie's Homestead steel and iron works, it is rather surprising to find the telegrams from Washington announcing that the Democratic house investigation committee has formulated a report which in no wise reflects on the action of Carnegie & Co. This is another instance in which the Democracy began yelling too soon—before it was out of the woods.

DOING WELL AND WILL DO BETTER.

THAT a revolution is going on in the south on the unit seems to be clear when one considers the result of the recent state election in Alabama. The candidates of the Alliance and Independents have carried the white counties of the state, polled 70 per cent of the Democratic vote and carried over half the lower house in the legislature. Jones, the straight-out Democrat, will have less than 10,000 majority in the state, obtained in six counties in the black belt.

WELCOME GOVERNOR MCKINLEY.

GOVERNOR MCKINLEY, the famous champion of protection, the stalwart Republican, and a man to whom the whole west owes a debt of gratitude, is in Denver for a few days. On behalf of the southwest the New Mexican bids the gallant Old man a most cordial greeting to the Rockies. It is the cause that he has so ably championed that has brought happiness and prosperity to millions of American homes and not least among them are the homes of the New Mexico sheep raiser and silver-lead miner. On behalf of these we welcome Gov. McKinley.

BENEFITS OUR OWN PEOPLE.

AMERICAN gold continues to flow out to Europe in payment for American securities which the foreigners, owing to dull times in their midst, are forced to sell. This outflow of the yellow metal, however, lacks a great deal of indicating dangers in the United States; for it is a very happy condition of affairs that permits the American to take all the securities offered by the foreigners and pay them cash for them. It indicates that the big profits insured by the present crop and industrial conditions in the United States will go to enrich our own people instead of the foreigners.

THAT'S THE RECORD.

The session of congress just expired has been one of the most extravagant and worthless in the history of the country. Beyond appropriating money the Democratic house, by a 141 majority, has done nothing except to talk and trying to make political capital for its party. That's the kind of record that was made, and it is the record. Will the people of this country be again fooled by Democratic promises, never intended to be kept, and false assertions by Democratic politicians and Democratic papers, for certainly the people were so fooled in November, 1890.

TERRESTRIAL PRESS COMMENTS.

Of Utmost Indifference to the New Mexican.

The New Mexican does not like the Optic. That sheet could not pay us a higher compliment.—Las Vegas Optic.

The Shoe on the Other Foot.

The Moscales agency has not worried the G. O. P. ring of Las Cruces or Santa Fe in the least, but it is liable to worry some elsewhere before they get through with it.—Lincoln Republican.

But the Capital Will Beat Santa Fe When the Liberal Will Be No More.

There is a probability that the headquarters of the department of Arizona will be moved from Los Angeles to Santa Fe. This will be a boon to Santa Fe when she loses her name as capital.—Lordsburg Liberal.

This Takes Brains, Boys.

Yes, Messrs. Catron and Elkins are two of the truest friends New Mexico ever had. They came to the territory, guests of Col. Sam Jones, as boys, and honestly built themselves up to their present position. And their evasions and antagonisms will have to elicit brain power before they can rival them.—Lincoln Republican.

A Square Fight and No Favors.

We learn that several Sierra county Republicans wish to put off the holding

## of the Republican county convention until after the Democratic county convention is held. The shaft is in favor of holding the convention before, and the shaft is in favor of holding the convention before, and the shaft is in favor of holding the convention before.

The White Cap-Democratic Bosses Rejoice.

Hon. Mariano Barila, the Republican leader and present sheriff of Dona Ana county, has got tired of the Republican ruling rule and dictatorship, and has notified himself emphatically against the land grabber's party, by forming an independent people's movement in his county. This shows which way the wind blows, but this is only the beginning of the end.—La Voz del Pueblo.

Favors Mr. F. W. Clancy.

The name of Hon. F. W. Clancy is mentioned in connection with the chief justiceship of the territory made vacant by the resignation of Judge O'Brien. The Reporter records the nomination. There are few, if any, better, brighter, abler lawyers or more honorable gentlemen in New Mexico than Mr. Clancy. His election to the bench would insure the maintenance of its present high standard of character and ability, and would give added confidence in the highest tribunal of the territory.—San Marcial Reporter.

He Had No Business Running Up Against the Buzz Saw of the New Mexican.

Col. Hiram Rhodes has finally been ousted by the Santa Fe and Las Cruces political wolves and Dick Hudson is now agent of the Mesqueros. Col. Rhodes' dismissal has caused unbounded pleasure on the part of the Santa Fe ring organ, the New Mexican, whose policy it is to ruin every good man that does not freely cater to and indulge copiously in the sins of the wicked gang which it represents. While Col. Rhodes' official head may have been severed, his well known reputation as an honorable citizen and a fearless and efficient official will stand firmly and more clearly before the public optic.—Chloride Black Range.

The White Cap-Democracy of New Mexico Will Have a Monopoly of the Boogie Business.

We are pleased to note the action taken by a majority of the precincts in the territory regarding the hitherto prevalent plan of carrying New Mexico in political contests by the free and extravagant use of money. It should and must be abandoned. The time is coming, and we trust it will be demonstrated at the polls this fall, when a man will have to have something else beside money to enable him to obtain and hold office. It has been aptly said that, "It is a long lane that has no turning," and true news will yet have its innings.—Eddy County Courier.

Notice to Teachers.

Notice is hereby given that an examination of teachers for the public schools of the city of Santa Fe will be held in Santa Fe, at the study hall of St. Michael's college, commencing August 16, 1892.

CLERK, BOARD OF EDUCATION, City of Santa Fe.

Helena, Mont. and Return.

The Atchison, Topeka & Santa Fe railroad will on Monday August 4 to 10, inclusive, tickets to Helena and return at one lowest first class fare, with a 20-day limit in each direction and final return limit of October 10, for the benefit of those wishing to attend the annual encampment of the Sons of Veterans, U. S. A., and Ladies Aid Society. Choice of routes given passengers.

A Peek at Pike's Peak.

For Knights Templar and their friends, the great meeting of 1892 is that of the silver triennial convention at Denver, August 9.

The rate is less than the usual summer tourist ticket. It is low enough to catch business.

Will it catch yours for the Santa Fe route?

Perhaps that depends upon what the Santa Fe route offers. It offers this:

A 17-mile view of the Rocky mountains; Cheap side trips to various points in Colorado, Utah and New Mexico; Good service with reasonable rates.

Address W. M. SMITH, Agent, A. T. & S. F. R. Co., Santa Fe, N. M., for full information.

Visit the Grand Canon of the Colorado.

Commencing at once, I will sell to those desirous of visiting the Grand Canon of the Colorado, round trip tickets from Santa Fe via Flagstaff, for \$54.00 for the round trip. Tickets will have a transit limit of thirty days in each direction, with a final limit of ninety days from date of sale.

The stage connects with our through Pacific coast trains, and leaves Flagstaff each Monday, Wednesday and Friday, returning from the canon each Tuesday, Thursday and Saturday. The Grand Canon Hotel company have provided tents for tourists, meals \$1 per capita and lodging \$1 per night. Apply at city office for full information.

Ticket Agent A. T. & S. F. R. Co.

## THE MAXWELL LAND GRANT Farm Lands! UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

LAS VEGAS HOT SPRINGS, N. M.

This great health and summer resort is situated on the southern slope of the Santa Fe range of the Rocky Mountains, and at an elevation of nearly 7,000 feet above the sea. The springs come out of the earth in a variety of places, and are of different kinds, and are widely celebrated for their curative effects upon Rheumatism and almost all forms of chronic disease. The bathing facilities are unequalled.

THE MONTEZUMA HOTEL

(Formerly Phoenix Hotel)

Is a commodious and massive structure of stone—the finest watering-place hotel west of the Alleghenies. It has every convenience, and is elegantly furnished and supplied.

The Springs and Hotel are located on a branch of the main line of the Santa Fe Route, six miles from the town of Las Vegas, New Mexico; is readily accessible by telegraph, telephone, and passenger trains. It is extensively used as a training and bathing place by transcontinental four passenger trains per day. It is extensively used as a training and bathing place by transcontinental four passenger trains per day. It is extensively used as a training and bathing place by transcontinental four passenger trains per day.

Round-trip tickets to Las Vegas Hot Springs on sale at all coupon stations. Round trip tickets from Santa Fe, \$5.

Knights of Pythias, Attention!

The biennial session of the supreme lodge and encampment of the Uniform Rank, Knights of Pythias, to be held at Kansas City, August 23 to 27, inclusive, promises to be one of the best attended, and most successful, gatherings in the history of the order.

The accessibility of the point of meeting will be an inducement to draw a vast number of Knights and visitors, and with its vast Missouri Pacific railway, with its vast net every direction, offers greater facilities than any other line, and will be in better position to take care of divisions and regiments, and the large delegations that are expected. Its trains will be found of the handsomest; equipped with Pullman buffet sleeping cars, Pullman parlor cars, reclining chairs cars, (seats free) and elegant day coaches.

The Missouri Pacific railway is prepared to land divisions and regiments within four blocks of the encampment, (the nearest railroad point in the grounds).

The general committee has made complete arrangements for camp and outfit; with flooring, will be provided, and wagons will be on hand to transport baggage to and from the grounds. The game will be provided with water, and lighted with electricity; wire-woven cot, pillows and blankets, can be rented at a very low rate.

Remember—The Missouri Pacific railway is the only line that lands its passenger within four blocks of the encampment grounds. The Missouri Pacific railway is the only line running out of Colorado, which is so situated as to be able to properly handle the Knights who may contemplate making the journey; making a direct connection from all points in the west, at Denver, Colorado Springs and Pueblo.

See your nearest ticket agent at once, or write for full information, to C. A. TURRY, Gen'l West. Frt. & Pass Agent, Missouri Pacific Railway, Denver, Colo.
