THREE BILLS DIE BECAUSE PRESIDENT

Favored Them. Also They
Were Objectionable to Many
Sections of Country.

GRADE OF LIEUTENANT GENERAL NOW REMAINS

Negro Troop Business Is Post-
poned Because Senator Tillman
Is on Sick List.

Chicago, Jan. 9.—A dispatch to the Tribune from Washington says: It is now said that three important bills, each representing a distinct administration policy, are practically dead for this session of congress. It is hinted that in each case, behind the killing of the bill, is to be traced personal antagonism to the president and a desire to belittle and injure his administration. The subsidy bill, the immigration bill and the Philippine tariff bill are all moribund, but chiefly because each contains provisions of a radical character which have aroused the enmity of powerful interests in various parts of the country.

**ARMY FIFTH WHEEL IS
CONTINUED FOR PRESENT.**
Washington, Jan. 9.—The house today considered the army appropriation bill. When the paragraph abolishing the grade of lieutenant general of the army on the active list, when it becomes vacant, was reached, Cooper, of Wisconsin, made a point of order against it, which was sustained by the chair. This leaves the grade of lieutenant general as it is now.

**NEGRO SOLDIER TALK IS
POSTPONED FOR TILLMAN.**
Washington, Jan. 9.—When the Brownsville resolutions were laid before the senate today, discussion was postponed until tomorrow on the statement of Foraker that Tillman is still indisposed and unable to speak.

**TO EVANGELIZE THE WORLD
IN TWENTY-FIVE YEARS.**
Philadelphia, Pa., Jan. 9.—Plans to evangelize the world in twenty-five years or, at the longest, within a generation, are being discussed at the thirteenth annual conference of the mission boards in the Y. M. C. A. building here today. The movement was originally inaugurated by some of the most influential laymen representing all Protestant denominations and several millionaires have come forward to help in the gigantic task. Among those who spoke on the subject today were Samuel B. Copen, of Boston; John S. Huxley and William J. Schieffelin, of New York; Joseph Levering, of Baltimore; John W. Foster, of Washington; Major A. P. Burchfield, of Pittsburgh; H. W. Harris, of Chicago; Bishop Bashford, of China, and the governor of the state of New York. It was announced by Bishop Bashford that investigations in foreign lands would be made by a commission of fifty wealthy members of the church, who will devote a portion of their time this year while traveling to the business of Christianity. The work already accomplished in foreign mission fields will be fully investigated during this year and the work greatly extended. The movement has been organized as a result of the centennial anniversary of the Haystack prayer meeting held in the Fifth avenue church, New York, in November.

**ANNUAL CONVENTION
OF CEMENT USERS.**
Chicago, Ill., Jan. 9.—At the third annual convention of the Cement Users of the United States here today, Stephen M. Wright, of the Wright Lime and Cement company, and president of the Memphis Hydraulic Stone company, stated that within the last few years the use of concrete as a building material had grown wonderfully. In 1882, according to statistics, 185,000 barrels were consumed in the United States, and the industry had thrived so remarkably that estimates placed the 1906 consumption at 40,000,000 barrels, while those who had studied the matter believed that more than 60,000,000 barrels will be used this year.

FRIENDS SUSPECT DEATH FROM POISON

Special to The Evening Citizen.
Laguna, N. M., Jan. 9.—A considerable feeling exists among the friends in life of Gerónimo Chaves, who died at Cubero suddenly on Monday. There is a strong suspicion that he died from poison, whether taken with suicidal intent or whether made the victim of foul play, and some of those most interested have gone so far as to propose exhuming the body, have an analysis made of the contents of the stomach and should poison be found, ascertain if possible the source from which it came. Chaves was recently deserted by his wife, who is said to be now living with another man. The woman also took with her a child. Chaves had brooded much over the unfaithfulness of his wife and this might have driven him to suicide.

ter Chances For Life Than
Russian Grandee.

PAVLOFF SHOT DOWN IN ST. PETERSBURG STREETS

Was Known Among the Masses as
Hangman Pavloff and Was
Especially Execrated.

St. Petersburg, Jan. 9.—General Pavloff, judge advocate general, was shot and mortally wounded at 10 o'clock this morning in front of the military court building. The assassin was captured after wounding a policeman. Pavloff was prominent during the sitting of the late parliament, in answering interpellations. He was especially execrated by the revolutionists. It is alleged that he delayed the reprieve of a number of Baltic revolutionists until the men had been executed.

Another Account.
Lieutenant General Vladimir Pavloff, military procurator of the advocate general, generally known since the day of the late parliament as Hangman Pavloff, was shot and killed at 10 o'clock this morning. The assassin, who was disguised as a workman, was captured after a long chase through the crowded streets, during which he fired about forty shots, killing a policeman and wounding a small boy.

SHEEP BREEDERS IN ANNUAL CONFERENCE.

Columbus, O., Jan. 9.—In the Great Southern hotel today the annual meeting of the American Delaine-Merino Record association was held, and was largely attended by breeders of this particular class of sheep from all parts of the states. The president of the association, R. K. Willis, of Delaware, in the course of the annual address explained that the consolidation of the different Merino record associations of the United States and its objects were the preservation and publication of the blood lines of American and Delaine-Merino sheep in the United States. All persons who were owners of this strain of sheep and whose flocks were traceable to one or more importations of these sheep into this country prior to 1812 were eligible for membership of the association. How the breed was to be improved and treated and other matters dealing with the Merino were fully discussed by F. W. Haverstock, Butler, Ind.; J. W. Carpenter, Quaker City; J. C. Wood, Delaware; E. N. Bessell, East Shortland, Va.; Chas. E. Crothers, Taylorsville, Pa.; J. Beal, Wellsburg, W. Va.; and J. J. Rumsdell, Moscow, N. Y. The art of the association showed some capital pictures of recent Merino prize winners. The annual banquet will be held in the Southern hotel tonight.

SAIS WILL HANG FRIDAY, JANUARY 11

Socorro, Jan. 9.—The execution of Carlos Sais, murdered by a mob of brutal way prospectors McLaughlin and Billingslea, will take place here on Friday, Jan. 11, at 3 o'clock in the afternoon. Twenty-three persons only will witness the proceedings. Preparations for the hanging have already begun under the personal direction of Sheriff Aneceto C. Abeyta, who, it is anticipated, will pull the trap at the final moment. The scaffold itself is being set up beneath a passageway which connects the court house and jail and it will be completed tomorrow.

As the time for his execution approached Sais shows signs of losing his nerve. He refuses food and indifference which formerly characterized his demeanor is rapidly giving way to terror at the approach of death. No effort has as yet been made to secure for him an extension of time, and it is not expected that any favor of this kind will be granted him.

UNIQUE EXHIBIT FOR JAMESTOWN EXPOSITION.

Philadelphia, Pa., Jan. 9.—A corps of workers interested in historical research headed by Professor Melton Dexter Learned, of the University of Pennsylvania, are preparing for the Jamestown exposition an exhibit which must prove highly interesting for it will be a fully illustrated history of Pennsylvania and will have a permanent value. Upwards of 190,000 documents have already been examined and maps discovered illustrating the period of 1650, when the state was under the Swedish and Dutch influence before the arrival of Penn. A map of 1715 will show the extension of settlement from Pennsylvania through the Blue Ridge valley into the valley of Virginia. There are a number of other maps equally interesting and the work will include manuscripts, photographs and other historical objects. The work which is pushed forward rapidly is receiving great assistance from Governor Pennypacker and members of historical and antiquarian societies.

PROSPECTS FOR TUNNEL ENGLAND TO THE CONTINENT

Seems Now to be Pretty Good
—Railway Will Run
Between
LONDON AND PARIS
UNDER THE CHANNEL.

London, Jan. 9.—A bill was deposited today to incorporate the Channel Tunnel company and to authorize the construction of works which will form part of the scheme intended to connect England and France by means of a railway under the English Channel. Powers are sought to execute such works up to the three-mile limit, and it is proposed that a new company shall hereafter be registered for the purpose of carrying out the entire project. It is estimated that the scheme will involve a total outlay of \$50,000,000. It is intended to raise half of that amount in this country and the remainder is promised by France as soon as the scheme shall have received parliamentary sanction here. A limited liability company was registered here today with a capital of \$40,000,000. Two parallel tunnels will be constructed, the total length under the sea being twenty-four miles, and with the land approaches on either side, thirty miles. Careful calculations show that in the first year after the opening of the "Coldwater Tube," as it will be called; 1,300,000 passengers will be conveyed through the tunnels, and the gross receipts from all sources of traffic in the same period are put at \$7,600,000. A liberal estimate made by French and English engineers, fix the annual expenses at \$2,000,000 leaving a net profit of \$5,600,000. When the trunk line, now in the course of construction through Greece, has been completed, the opening of the Channel tunnel will shorten the mail route to India by twenty-six hours, and it will be possible to travel from London to Shanghai without having to step on a ship's deck.

CANADIAN GOVERNMENT ON NATURALIZATION ACT.

Ottawa, Jan. 9.—Parliament re-assembled today. There was a full attendance of members when Sir Wilfrid Laurier, the premier, again brought forward his bill to amend the naturalization act. The premier complained that the existing law was defective and that it was necessary to amend it. The bill is to be introduced by the legislature enacting the law. The object of the bill was to do away with the three years residence, which is now necessary under the law in the case of any one coming to Canada who was naturalized in any of the colonies. The bill is being discussed.

UNIQUE BOND ISSUE BY LARGE RAILROAD.

New Haven, Conn., Jan. 9.—The New York, New Haven & Hartford company today issued notes to the amount of \$7,000,000, which will bear interest at the rate of 5 per cent. Three million five hundred thousand dollars will be due in January, 1910, and the same amount on January 9, 1912. They are issued as coupon notes in denominations of five, ten, twenty-five and fifty thousand dollars each. The whole issue has been underwritten.

HIGHWAY FROM LAS CRUCES TO EL PASO

Meeting For Its Promotion
Held Yesterday—Governor
Hagerman Present.

An enthusiastic meeting of El Paso and Las Cruces people was held yesterday in the latter city for the purpose of promoting the immediate construction of a highway between the cities represented. The El Paso delegation, comprising some 200 citizens, arrived in Las Cruces in a special train at 10:20 a. m. and were met at the depot by a reception committee, with brass band accompaniment. Interest in the proceedings was heightened also by the presence in Las Cruces of Governor Hagerman, who had gone there for the purpose of assisting in the laying of the cornerstone of the new Y. M. C. A. building at Mesilla Park. So great was the interest taken in the proceedings and so universal the approval of the project in the interest of which the meeting had been called, that the day was generally observed as a holiday, the citizens giving themselves over to the entertainment of their guests. The convention was held in the rooms of the chamber of commerce and was presided over by its president, R. L. Young, while H. D. Slater, editor of the El Paso Herald, acted as secretary. A very interesting discussion of ways and means followed the organization of the meeting, to which Governor Hagerman was an important contributor. The governor expressed his entire approval of the project and also volunteered some suggestions regarding the best way of interesting the territorial legislature in the carrying out of the work. As a result of the meeting a permanent organization was effected and a standing committee appointed to work out the plan of the road and bring about active work at an early date as possible. At the close of the meeting the following resolution was passed.

Resolved, By the people of Dona Ana county, N. M., and El Paso county, Texas, in mass convention assembled, that a first-class, modern highway shall be built at once between Las Cruces, N. M., and El Paso, Tex. After adjournment was taken many of the El Pasoans visited the site of the Leasburg dam, on which construction has begun. They were conducted over the works by Engineer Hall, who explained to them the plans for the structure.

DISCUSSING SWINE BREED- ING AT CONFERENCE.

Indianapolis, Ind., Jan. 9.—The Indiana Swine Breeders association met in annual conference in the state house here today under the auspices of the state board of agriculture. The attendance was very large. Mayor Bookwalter welcomed the delegates and President Nowlin and Governor Hanly spoke as to the great importance of the industry. In the course of his annual address Dr. W. J. Quick, of Gosport, mentioned that the value of the swine in the United States at present exceeded \$300,000,000 and was annually increasing. Addresses on the breeding, feeding and care of swine were delivered by R. A. Craig, Purdue university; W. E. Osborne, Lafayette; Allen Butler, Indianapolis; Charles Willington, Lafayette, and others.

BATTLE ON STREETS IN EUREKA, CALIFORNIA WAS FATAL

Union and Non-Union Long-
shoremen Met in Dead-
ly Conflict.

SENTENCE OF TELLER
ANDERSON IS REDUCED

Eureka, Cal., Jan. 9.—A. W. Jenks is dead, his brother, S. W., is dying, and Jack Hays is probably fatally wounded as a result of a street battle last night between the union and non-union longshoremen. Jenks was a non-union man, while Hays was a member of the union. The battle broke out as the result of the trouble which has been brewing for a long time.

ANDERSON GETS YEAR CUT OFF OF SENTENCE.

Kansas City, Jan. 9.—The sentence of Wm. C. Anderson, embezzling assistant paying teller of the First National bank, was today reduced by Judge Wolford from four years to two years and nine months. Anderson confessed to the embezzling of \$9,000. He disappeared December 1 and three weeks later was arrested in Austin, Texas. Most of the stolen money was recovered and Anderson made over his home to cover the balance.

CHEESEMAKERS HOLD ANNUAL CONVENTION.

Milwaukee, Wis., Jan. 9.—There was a very large number of exhibits at the annual convention of the Cheesemakers' association here today and some very practical addresses on dairying subjects by prominent agriculturists. R. B. Watrous, of the Citizens Business league in the course of a lengthened address gave a full history of the cheese industry in this state. The lecture illustrated by pictures provided by Mr. Baer a prominent cheese manufacturer. Mr. Watrous in the course of his address explained that Canada was far ahead of the United States in cheese production, but explained that Canada's production was mostly consumed in England and the continent of Europe, where it was driving the famous cheddar and cheshire brands of England out of the market. Today's exhibits will be judged by Canadian experts and tonight the prizes, which are valuable, will be awarded.

LOVE SICK YOUNG MAN COMMITTS SUICIDE

Special to The Evening Citizen.
Kelly, N. M., Jan. 9.—Abel Somora, a young man about 24 years old, who lived with his mother here, committed suicide last night, at about 9 o'clock, by shooting himself through the head. Disappointment in love was the underlying cause, the young lady, of whom he was enamored, having today united herself in marriage to a rival. All the parties affected by the tragedy are members of families engaged in the mines at this place.

GOVERNMENT IS AFTER RAILWAY MERGERS BOTH HOT AND HEAVY FOOTED

Combination in Restraint of Trade by
Harriman's Mergers Is Left Without
Doubt by Disinterested Witness.

STUBBS KEEPS EYE ON SALARY EQUALING PRESIDENT'S

Hadley Is Moving Things in Missouri Against Gould's Com-
bination of Transportation Interests as In
Restraint of Trade.

Chicago, Jan. 9.—M. C. Markham, traffic manager of the Missouri Pacific, was the first witness called before the Interstate Commerce commission, when investigation of the Harriman lines was resumed today. Markham was questioned by C. A. Severance of St. Paul, acting for the commission. The witness was asked if the Union Pacific and the Southern Pacific were, prior to their consolidation, business. He said that they were. Before going to the Missouri Pacific, Markham was connected with the Illinois Central and both roads were active competitors for Pacific Coast business originating along the line of the Illinois Central.

"Was there any lessening of competition after consolidation?" "It was generally understood that the competition was lessened," said Markham.

Hits Harriman Lines Hard.
Markham declared that in his opinion the Union Pacific was not a link in trans-continental transportation, as was contended yesterday by the attorneys of Harriman, but as long as the Portland gateway is open it is a Pacific coast line in itself.

Witness said that before the consolidation of the Union and the Southern Pacific lines were competitors for California fruit trade, and for passenger business also. Markham was cross-examined by Milburn, representing the Harriman lines, who took exception to the statement made by the witness that he considered the Union Pacific an independent Pacific line.

When asked of the witness if the Southern Pacific, acting as an independent line, could not give the Union Pacific a large or small amount of east-bound traffic, he replied "I don't know whether it could or not. There are influences at work which would prevent it."

But the Southern Pacific, as an independent line might do this?" "It might and destroy itself," replied the witness.

Milburn then asked if the Union Pacific via Portland to San Francisco was to be compared to a direct line west of Ogden. Markham replied: "Rate settles those things, and rates can be made as low via Portland to San Francisco as by any other route."

Stubbs Stands By \$50,000.

The next witness was J. C. Stubbs, traffic director of the Union Pacific and the Southern Pacific systems. He said there is a strong competition in Chicago for Pacific coast business. He was asked if Mr. Nelmeyer, the Chicago agent, is a competitor for business.

"He is."

"Is he competitor as between the Union Pacific and the Southern Pacific?"

"As much as ever."

"That means he was never a competitor?"

"Nelmeyer has always been instructed to ship from this territory via Ogden, if he worked for any other road he violated his instructions."

Stubbs was asked many questions regarding the Union Pacific and the Southern Pacific, designed to show that prior to 1901, but not now, the roads were competitors. His answers were not always satisfactory to the attorneys.

Chicago, Jan. 9.—M. C. Markham, traffic manager of the Missouri Pacific, was the first witness called before the Interstate Commerce commission, when investigation of the Harriman lines was resumed today. Markham was questioned by C. A. Severance of St. Paul, acting for the commission. The witness was asked if the Union Pacific and the Southern Pacific were, prior to their consolidation, business. He said that they were. Before going to the Missouri Pacific, Markham was connected with the Illinois Central and both roads were active competitors for Pacific Coast business originating along the line of the Illinois Central.

**ATTORNEY GENERAL HADLEY
AFTER GOULD INTERESTS**
Jefferson City, Jan. 9.—Suits to dissolve the alleged merger of the Wabash, Missouri Pacific and Iron Mountain railway companies and the Pacific Express company; to revoke the licenses and charters of the Pacific express company, the American Refrigerator Transit company, Western Coal and Mining company, the Rich Hill Coal Mining company and the Kansas-Missouri Elevator company, were filed in the supreme court by Attorney General Hadley today. The petition alleges that the stock of the companies named is owned by the same interests, the Goulds, in violation of the provisions of the constitution and laws of Missouri.

What Hadley Has to Say.

Concerning the nature of the suits, Mr. Hadley said:

"These suits are brought for the purpose of forcing the discontinuance of the ownership of the stock of the Wabash, the Missouri Pacific and the Iron Mountain companies, and the control of these three companies, two of which are paralleling and competing lines, by the same interests, and to force a discontinuance of ownership of the stock by these companies in the Pacific Express, Western Coal & Mining company and the Kansas-Missouri Elevator company. By this stock ownership these roads have, in fact, been engaged in a business not authorized by their charters and prohibited by the constitution and laws of the state. Forfeiture of the charters of the coal mining companies and of the Kansas-Missouri Elevator company is prayed for; license of the Pacific Express company and the American Refrigerator or Transit company, to do business in the state, is asked, but forfeiture of the charters of the railroad companies is asked if they should refuse to discontinue certain illegal practices."

Court Grants Quo Warranto.

Chief Justice Gantt of the supreme court made the quo warranto writs asked by Attorney General Hadley, returnable in the supreme court on January 23, upon which day the defendants must appear, and make answer to the allegations in Hadley's petition.

ST. LOUIS ANNUAL POUL- TRY SHOW OPENS.

St. Louis, Mo., Jan. 9.—The judging of the 1906 exhibits at the thirteenth annual show of the St. Louis Poultry association is taking place today. Exhibitors from Canada, Indiana, Illinois, New York and Michigan, are in attendance. Sharpe Butterfield, of London, Ontario, who is placing the awards says he never, during his career as poultry judge, saw a finer collection of fowls.

ANOTHER SON OF THE KAISER TO WED

PRINCE AUGUSTUS
Princess Alexandra Victoria of Schleswig-Holstein-Sonderburg-Glücksburg, who has been betrothed to Prince Augustus William, fourth son of Emperor William, is the second daughter of Duke Frederick of Schleswig-Holstein-Sonderburg-Glücksburg. She was born in April, 1887. Prince Augustus was born Jan. 26, 1887. The princess is a niece of the em-

PRINCESS VICTORIA
and the young couple are also related on the male side, as they had a common ancestor at the beginning of the 17th century. The princess is just completing her education under private tutors. Prince Augustus is a student at Bonn. The emperor at one time thought he would send Gustav to an American university, but probably didn't have enough money to keep him going with the push.

OFFICIAL PAPER FOR
CITY OF ALBUQUERQUEBOSTON IS
IN THROES
AGONIZINGOver Enforcement of the Sun-
day Blue Laws of the
State.MAN WHO IS ABLE TO
WALK SECURELY ON WATEROklahoma Making Big Prepara-
tions to Celebrate Her Advent
Into the Union.

Boston: Under Sunday laws, commonly known as Massachusetts blue laws, 1,300 residents of Boston have been hauled into court. The decisions of Special Justice Duff, who was assigned to try the cases, were many and varied. The court found, for instance, that the transfer of scenery and other theatrical effects from theaters, after midnight of Saturday, is not a work of necessity which is permitted under the statutes. The collection of offal from hotels on Sunday was declared unlawful on the distinction that it was collected, not because it was necessary feed for the swine, but because of the probability that it would spoil and become useless as a product if not collected on the Sabbath. The playing of orchestras in the hotels of Boston on Sunday is unlawful and must be discontinued. Boston must do without ice cream that is delivered by carriers on Sunday, as this was held by the court to be outside the law. Justice Duff left for the consideration of the entire municipal bench the far-reaching question of whether the transfer of personal baggage by express companies on Sundays is legal, but ruled provisionally that the transfer of a basket on the Sabbath was unlawful unless it was intended for the immediate use of the dead.

The general government has stepped into the controversy over the enforcement of the laws. When William Hession, an employee at the federal building, was called in the municipal court to answer to the complaint that he had broken the Sunday law by cleaning the sidewalks in front of the federal building, Assistant United States District Attorney Lewis announced his intention to defend Hession on behalf of the government on the ground that the police of Boston have no jurisdiction over federal property or federal employees. The case was continued until January 14.

MAN WHO WALKS ON WATER SUCCESSFULLY.
Madison, Ind., Jan. 8.—U. O. Oldreive, walking on the water, left Madison eight hours behind time on his forty days' trip from Cincinnati to New Orleans. His wife, who is champion oarswoman of the world, keeps near him in a skiff, and J. W. Weatherington, of Louisville; Arthur Jones and E. F. Madden accompany him with a launch. Weatherington has wagered \$25,000 that Oldreive will succeed. Oldreive's arrival was heralded by blowing of whistles, and thousands of people saw him.

OKLAHOMA PREPARES ITS AFFAIRS FOR STATEHOOD.
Denver: According to Secretary Francis, of the Trans-Mississippi Commercial congress, when in Denver on route to his home in Cripple Creek, after attending the seventeenth annual session of the congress at Kansas City, plans are already under way for the Oklahoma session, to be held in a few months at Muskogee, coincident with the admission of the two territories into the union as a state.

"This will be a commemorative gathering in which it is proposed that all the western states shall be actively participant," states Mr. Francis. "The business interests of Muskogee have already begun the construction of an auditorium and a six-story hotel now in course of erection is to be completed for the delegates. The railroads have agreed to make cheap fares from all points west of the Mississippi."

HEINZE OUSTS GOULD IN MERCANTILE BANK.
New York: Wall street learns with astonishment that E. Augustus Heinze and his associates who were with him in Montana copper have acquired so great an interest in the Mercantile National bank, a Gould institution, that they expect, in the annual meet-

ing on Tuesday, to place their representatives on the board of directors. Mr. Heinze said there would be several changes of importance in the directing force of the bank, and he would not deny that there would be a complete reorganization. "He has obtained control of most of the Mercantile holdings of E. H. Thomas and Charles W. Morse, and it is reported, will thus be able to supplant Edwin Gould."

Financial circles yesterday were stirred by a rumor that Mr. Heinze planned to merge the Consolidated National bank with the Mercantile. While it is believed this is his ultimate aim, it is not his intention to consolidate them at present.

REMARKABLE YEAR OF ACCIDENT AND CRIME.
New York: The report of the board of coroners for 1936, just published, shows a remarkable year of accident and crime. In all there were 5,850 deaths reported to the coroners, of which 2,600 were by violence. For Manhattan alone and excluding the casualties reported in Jersey City, Long Island City and Brooklyn, the tunnel work caused sixty-eight deaths.

There were 349 felonious assaults causing death. Surface cars caused 907 deaths, elevated trains 14 and tunnels, trains 17. Automobiles killed 66 people in Manhattan during the year.

The 398 suicides were brought about as follows:

One hundred and ten by shooting, 61 by throat-cutting, 51 by poison, 124 by gas, 27 by hanging, 27 by jumping from windows or roofs, 4 by jumping in front of trains and 34 by drowning.

The total number of deaths by casualties, including falls, explosions, collapse of buildings, premature births, falling of rock, timber and stone were 684. Alcoholism caused the death of 115 persons.

TOO MUCH OF CHURCH CONNECTED WITH STATE.
Denver: The ecclesiastical government of Colorado, who chose to be inaugurated in a church, was placed upon the verbal toasting irons in the state senate, and cooked to a rich brown turn.

He was given an unmerciful flaying for his action in requesting that the inauguration be held in Trinity church, while the committee which agreed to his request also came in for censure.

"In a short time we have to elect a United States senator. If we consult Mr. Guggenheim he would have a perfect right to ask that his election be held in a synagogue," declared Senator Barela.

It was the general opinion that the new governor has made a "break" at his very first opportunity. Most of the senators were inclined to treat him personally with considerable courtesy, but the undercurrent of feeling and expression of protest against his action was strong.

But the inauguration was held in the church just the same. The fight did not end, except to bring out a resolution that will be pushed later in the session that all inaugurations hereafter will be held at the state capitol, which is a mild way of placing the stamp of official censure upon Governor Buchtel's action.

NO APPEALS AFTER TERM OF OFFICIALS EXPIRED.

Washington: The supreme court dismissed the case of Charles S. Elder, plaintiff in error, vs. the people of the state of Colorado, for want of jurisdiction. The case involves the expulsion of democratic county officers at Denver two years ago. As the term of office has expired, the court, following other decisions, claimed no jurisdiction.

POTATO SHORTAGE REPORTED IN CALIFORNIA.

Los Angeles, Jan. 9.—All the potatoes grown in this state are held by George Shima, the potato king, and two others working with him. Fancy prices are expected as they are now selling at \$2 a sack. They will have to dispose of them however this week as potatoes are ordered from Wisconsin and Minnesota, where there are good crops. Owing to the shortage this season all the potatoes in this state will not feed the people for ten days longer.

OREGON STATE HORTICULTURAL SOCIETY.

Portland, Ore., Jan. 9.—The annual show of the Oregon State Horticultural society was opened today by the mayor of the city. The number of exhibits is over 200 per cent greater than that of last year, while the quality all round is far better. There are exhibits from Washington, Idaho, California, Nevada and Montana. Some very valuable presentations of cups and money prizes will be awarded.

GEORGIA COTTON MEN IN CONFERENCE.

Valdosta, Ga., Jan. 9.—There was a very large gathering of cotton planters and others interested in the cotton industry yesterday at the annual convention of the Sea Island Cotton association of Georgia and Florida. Harvey Jordan, the president, occupied the chair. After lengthened discussion it was decided to incorporate the association with a fund sufficient to protect the prices set by the association during the coming season. The amount named is \$1,000,000.

WISCONSIN CROPS TO BE LOOKED AFTER.

Grand Rapids, Wis., Jan. 9.—At the annual meeting of the Wisconsin state union of the American society of Equity here today it was decided to completely organize the counties producing potatoes and to promote thorough organization for all crops throughout the state. Delegates from national and state organizations of trades and labor councils were present and agreed to become affiliated with the various agricultural organizations. The mayor of the city who welcomed the delegates wished the efforts of the association every success.

HEINZE OUSTS GOULD IN MERCANTILE BANK.
New York: Wall street learns with astonishment that E. Augustus Heinze and his associates who were with him in Montana copper have acquired so great an interest in the Mercantile National bank, a Gould institution, that they expect, in the annual meet-

THE AMERICAN MAGAZINE HAS CHANGED HANDS.

For 30 Years It Was Leslie's Popular Monthly

Ida M. Tarbell, who wrote Lincoln and the famous "Story of Rockefeller," William Allen White, the well known Kansas editor; E. P. Dunne, creator of "Mr. Dooley;" Ray Stannard Baker and Lincoln Steffens are under the leadership of John S. Phillips, now editing The American Magazine.

Never before has such a brilliant group been gathered together, and they are not only contributing themselves, but are filing the magazine with the very best novels and short stories and great timely articles by other famous writers and beautiful pictures by great artists.

A Great Bargain.

The regular price for the twelve numbers of The American Magazine is \$1.25—little enough as it is, but for a limited time you can get the November and December, 1936, numbers, with a full year's subscription for 1937 for a dollar, or

14 Numbers for Only \$1.00.

Think of it! Think of the quality of reading you get for \$1.00. Think of the quantity—at least two great novels, 98 short stories, 28 poems, 70 timely articles, 800 beautiful pictures, and all for \$1.00.

How About Your Winter Reading?

Put this offer out, write your name and address on a slip of paper and will be with \$1.00. Send it now—today—before the special 14 months' offer is withdrawn. Send it by check, postal money order or a dollar bill, at the publisher's risk, to The American Magazine, 141 Fifth Avenue, New York City.

How to Cure Chills.

"To enjoy freedom from chills," writes John Kemp, East Otisfield, Me., "I apply Bucklen's Arnica Salve. Have also used it for rheumatism with excellent results." Guaranteed to cure fever sores, indolent ulcers, piles, burns, wounds, frost bites and skin diseases. 25c at all drug stores.

LONDON NEWS WITH GOSSIP TO THE BRIM

Hilarious Lords Disgrace
Closing Session of
Parliament.

EVERYTHING IRISH IN
DUBLIN FUNCTIONS

Young French Woman Avenges
Herself on Her False and
Former Friend.

(By William True Hawthorne.)

Special Correspondence.
London, Jan. 9.—The closing sessions of the house of lords were marked by incidents which shocked the sensibilities of some members of the lower house of parliament, notably those whose feeling of resentment toward the peers had already been aroused by the killing of the education bill. One M. P., who had seen a noble lord carried out of the chamber by attendants, and another so illiterate that he had to be kept in his seat by force, was so impressed by the spectacle that he brought the matter up in commons, though fully aware that any action in such a matter was indelicately unparliamentary. Getting recognition from the speaker, Mr. Crooks, the labor member for Woolwich, put the following question in the house of commons:

"I beg to ask the first commissioner of works a question of which I have given him private notice—whether it is a fact, that during the course of the discussion on the merchants' shipping act amendment bill, in another place, last night, the attendants of the house of lords had to remove one of the members who was obviously intoxicated, and that another member who took part in the debates was suffering from overindulgence in drink?" (Opposition cries of "order.")

The Speaker—Order! Order! The honorable member has not submitted the question to me. It does not appear to me to come within the rule of urgency in any way. (Laughter.)

Mr. Flavin, member for Kerry—It was very urgent last night. (Renewed laughter.)

This closed the incident, but Mr. Crooks had succeeded in getting into the official report of the proceedings the noteworthy fact that the house of lords, in handling lemons to the house of commons, was stimulated by something more potent than a jealous seat for the "wise, deliberate and well considered legislation" its members prate about.

Lady Aberdeen Fully Irish.

Lady Aberdeen has hidden the Irish peacocks to a lace ball at the vice regal mansion in Dublin, the details of which are reviewed with envious interest by London hostesses on the lookout for the novel and original. The Irish lace ball is only one of the unique functions Lady Aberdeen has planned for the season, which is to be one of the most brilliant the Irish metropolis has ever witnessed. A special feature of the lace ball will be the quadrilles, in which lace of various descriptions will be worn by the dancers. In fact, Lady Aberdeen expects that every lady guest wear a dress trimmed with Irish lace or crochet, while the men will appear in court dress, with Irish lace jabots and ruffles. Her excellency has expressed the wish that Irish poplin shall also be used in the ladies' dresses. Eight-handed Irish reels and jigs will be introduced, and many of the old step dances of Ireland are being revived by the dancing instructors of Dublin, in preparation for these forthcoming vice-regal entertainments. Another novelty planned by Lady Aberdeen is an afternoon party, at which gowns of Irish cloths only are to be worn, while the men are to come in suits of Irish manufacture. With such an impetus, it would seem that Irish society would be the galier, no less than Irish politics has been, through the sympathetic dispensation of the liberal regime.

Meteors Dangerous at Sea.

Captain Anderson, of the steamer African Prince, advancing a new theory, based on a startling experience, to account for the mysterious disappearance of vessels at sea, with special reference to the many untold disasters on the Atlantic. Captain Anderson, describing the narrow escape of his vessel from destruction by a meteor on his last voyage from New York says: "I was on the bridge with the second officer when suddenly the dark night was as light as day, and an immense meteor shot toward the earth. Its train of light was an immensely broad electric-colored band, gradually burning orange, and then to the color of molten metal. When the meteor came into the denser atmosphere close to the earth, it appeared like a molten mass of metal being poured out. It struck the water with a hissing sound close to the ship. At the same time, a passage on fine weather and in the open sea, where there are no navigation dangers. Such losses make us think of boiler explosions and other theories, which might, under circumstances of very bad weather, cause the loss and total disappearance of a steamer, but my experience on the voyage from New York has brought to my mind that ships which have never been heard from were lost by a meteor falling on them. Neither seamanship, engineering nor ordinary theory can explain the many mysteries of the Atlantic otherwise."

Dramatic Story of Revenge.
A dramatic story of a woman's revenge was told at the Guildhall police court when Emilie Foucault, a young Frenchwoman, was sent to trial on a charge of throwing vitriol in the face of M. Delombre, thus causing the loss of one eye and disfiguring him for life. M. Delombre, who is the son of persons of very high circumstance in Paris, had been the woman's lover, and she followed him to London, after a quarrel in Paris. They went to Tranter's hotel to discuss their troubles, and ordered a cup of coffee. Explaining that she had medicine to take with the coffee, Emilie poured something from a bottle into the coffee cup. A little later, as they stood at a window, the girl, with the cup still in her hand, said to M. Delombre: "Either you shall marry me, or you shall kill yourself, if you are not a coward, or I will kill you." To this Delombre answered: "Marry you? Certainly not. You do not love me—indeed, you hate me, and neither do I love you." Emilie repeated her demands, all the time perfectly calm. "I shall marry you," declared the other decisively, and picked up his overcoat to leave. He had got one arm in the sleeve

when Emilie violently dashed the contents of the cup in his face. He rushed to the door, only to find that he was locked in. In his agony he kicked one of the panels out, and his screams attracted a policeman to the scene. He was taken to St. Bartholomew's hospital, where his terrible condition caused grave doubt at first for his recovery.

Emilie was arrested, and a loaded revolver and box of cartridges were found on her. She vehemently denied offering Delombre the fluid to take his own life. She raised the cup to her lips, she said, intending to commit suicide in his presence, but a remark of his caused her to lose control of herself, and she flung the contents in his face. The sight of her lover's disfigurement threw her into a fit of hysterics in court, and she appeared very distressed throughout the hearing. In her purse was found her will, dated Paris, November 17, 1906.

Delombre's story was dramatically related by counsel, the scene at the hotel vividly described, and the denunciation of the girl delivered with unsparring force, indeed, the atmosphere of Guildhall courtroom seemed

sphere of Guildhall courtroom seemed sarcharged with Frenchness—the flavor of romance and crime that rarely crosses the channel having lost nothing of its British quality.

Called to Attend Himself.
The tragic death of Dr. James Lambert at South Kensington station was attended by one of the most extraordinary episodes that perhaps ever fell to the experience of a medical man. Dr. Lambert was usually summoned when accidents occurred at the station, and when, last Sunday, a man was badly injured there, the station officials, unaware of the identity of the victim, promptly sent for Dr. Lambert to attend to the case. The doctor failing to respond, the dying man was removed to St. George's hospital, where he was recognized as Dr. Lambert himself. He had been maimed and electrocuted in attempting to jump on an electric train, just as he was starting, and, by the irony of fate, was called to attend to injuries—himself.

Man Masquerade as Woman.
The curious story of De Raylan,

the Russian consular officer at Chicago, who turned out to have been a woman with two or more wives, as cabled from America, has its counterpart, with the sex reversed, in an extraordinary episode just reported from Breslau, Germany. A Breslau teacher fell in love with a lady named Dina Alma de Pareda, whom he met in Paris, and who said she was the daughter of a French consul in Brazil. They became engaged, and the teacher returned to Breslau. Dina Alma arrived there shortly afterward, and went about with her fiancé making purchases for their future home. In some unexplained way, the people of the hotel where Dina Alma was a guest began to have misgivings about her. Like Charley's aunt, she was also from Brazil, she was not what she seemed, and the suspicion that she was a man masquerading in woman's finery grew. Finally, she was accused of false pretenses. Dina Alma thereupon took poison and died. Her hair, bust, and hips were all false. Her magnificent diamonds were paste. The police discovered that Dina Alma was the son of a physician who once lived

in Berlin, and that "she" was thirty-five years old, though, with her feminine make-up, no one would have judged her over twenty-five. As a man, Dina Alma had been knocking about Europe for years before assuming the garb and name of a woman.

HAGAN COAL FIELDS
PRODUCING MUCH COAL
Special Correspondent.
Algodones, N. M., Jan. 7.—The Hagan Coal company are shipping coal from this point to the Santa Fe Central. They have every available team they can get engaged in hauling coal from Hagan to Algodones. The San Pedro Gold & Copper company are also hiring teams to haul coal from Madrid and are paying, it is said, as high as \$7 per ton freight. J. A. Montoya passed through here day before yesterday with three teams on his way to work hauling coal from Madrid to San Pedro.

School has been running here for several weeks, with Abelin Lucero, of Bernalillo, as teacher. He has a good attendance of scholars and is well liked by everybody. The parents of the children say they are learning faster than with any teacher they ever had.

The weather is very fine. A light snow fell here on the night of December 31st, but it is all gone now.

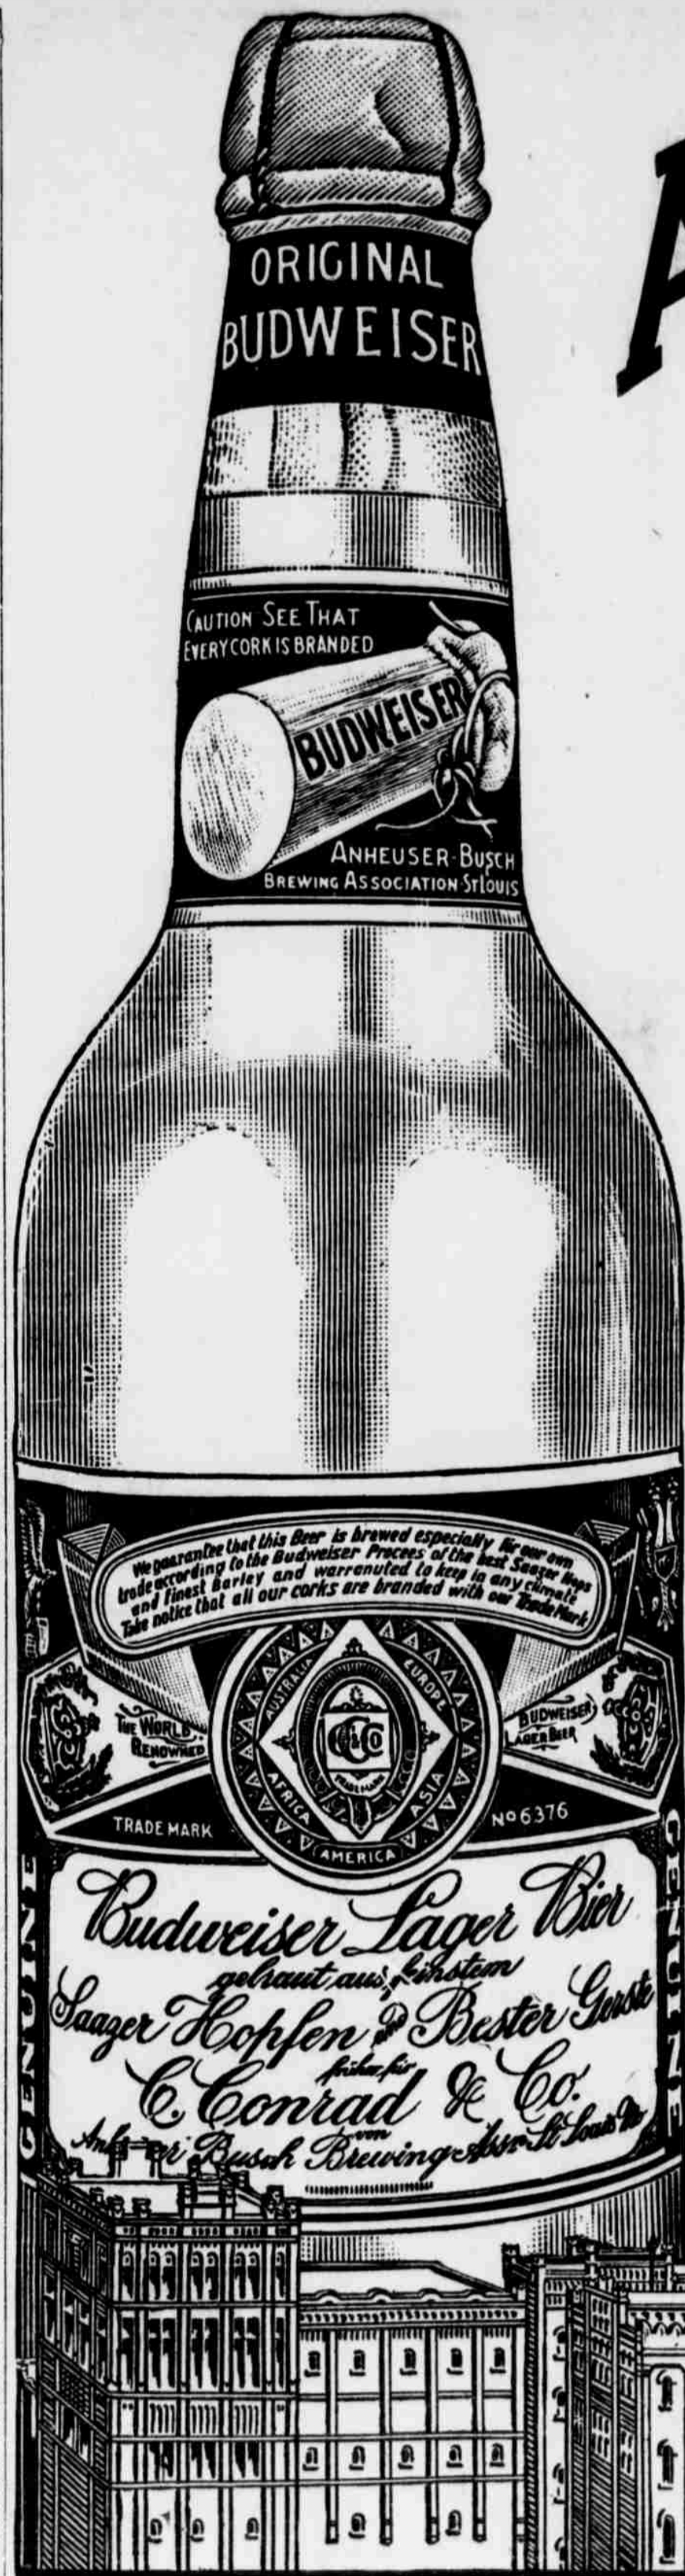

We have the most quietest precinct in Sandoval county; no litigation of any kind and our people on the best of terms with each other.

THE WESTERN GIANT

For many years there was more or less prejudice in the eastern part of the United States against any expenditure of national funds in behalf of the far west. This was manifest in the defeat for years of public appropriations for irrigation. It is quite gratifying that this feeling is rapidly passing away, as is fully evidenced by the following from the Philadelphia Inquirer of recent date:

With agricultural products valued at about \$7,000,000,000, mineral products valued at well up to \$2,000,000,000 and other things taken from Mother Earth, we may conclude that the soil has furnished us wealth valued at easily \$10,000,000,000 during the current year. Although it is customary to think of the east, meaning this side of the Alleghenies, as the richest portion of the country, the truth seems to be to the contrary. The west is making enormous strides and it is no longer a dependency on the east in financial matters. It is the east which yearly looks to the west to send on a supply of money to carry out financial transactions.

Within a few weeks railways alone have asked for \$200,000,000 for extensions and new equipment, and the greater portion of this is not only for the west, but west of the Mississippi river. The trains are loaded down, the demand for cars cannot be supplied and the railways, after the most prosperous year in their existence, find themselves compelled to build new lines to reach the farming lands, the mines and the forests whose yield cannot get to market. The average price of the leading western railway stocks is higher than those of the east. Yet within a generation almost any of them could have been purchased for a few dollars a share. Most of us remember when they were footpaths in the stock market and the man who invested in "grangers" was only a speculator.

If there has been such progress in thirty years, what may be expected in the next generation? It is in the west that there are most of the undeveloped resources of the country, where the greatest progress is being made and where the greatest opportunity seems to lie for the young man. The truth is that the west is almost overburdened with prosperity and its great sorrow is that it cannot market all that it has to sell or what it may easily produce.

The east has no jealousy in this matter. It also has been prosperous, and as the west grows we shall get our share.

WORD ABOUT STREETS

The rain of yesterday has again placed the streets of Albuquerque in a position of excessive unpleasantness to every one who endeavors to pass over them, either on foot or in a vehicle; yet the people of Albuquerque, as will be seen from the report of the street commissioner, are paying a good round yearly sum for work upon the streets. The trouble in the case is that the money is being expended upon the merest temporary substitutes, and the same thing has to be done and the same expense incurred after every rain, year in and year out; and the city streets are in no better condition now than they were years ago.

There are not more than two crossings in the city. If there are that many, worthy of the name. After a rain, along comes the man with the hoe, and he scrapes the mud from where the crossing should be. Then comes the vehicle traffic, picks up the mud on its wheels and dumps it back where it had been. Shortly after comes a wagon with cinders, which are elaborately spread over the narrow crossing and on the mud. The next rain finds the cinders gone and makes the mud as bad as ever. Such work is like putting things in a bag which has no bottom.

What the city needs, and what the city government must realize sooner or later, is an extension of the sewerage, grading of the streets with a view to drainage, paving the streets in the business parts of the city, and the construction of stone or brick crossings wherever there are cement sidewalks.

Stop these temporary makeshifts. Let every dollar spent be for permanent improvements, and in a few years the change for the better will be surprising to ourselves, and attractive to visitors and settlers. At the present rate we may go on for all eternity and be no better off than we are now.

HENRY CLEWS ON OUTLOOK

Those engaged in the development of great enterprises find that consumption is still ahead of production and that much continued activity will be necessary to meet current demands. This country has risen to a point where it is producing 45 per cent of the world's pig iron and nearly 60 per cent of the world's copper, and yet there is a shortage in sight for both. Establishments connected with these industries in many cases have orders on their books which will keep them fully employed for a year to come.

Men in such position cannot but feel hopeful. At the other end of the line are our financiers and disinterested observers who are impressed with the over-extension of credit, with the inflation in values, and with the unpleasant developments in political life arising from great abuses of the money power. In the latter, they see the possibilities of much political agitation and more or less adverse and rash legislation—aimed chiefly at great corporations.

This disposition of the public to punish the latter is becoming more and more pronounced, and cannot be ignored. Ere long, it will be a factor affecting values if it is not so already.

The delegation of British school teachers who took advantage of the liberality of Mr. Mosley and visited the schools of the United States and Canada, found a good deal to commend in our system, and, naturally something to condemn. There is no doubt, says the San Francisco Chronicle, that the claim made by some of the critical teachers "that many of the English schools are equal, if not superior to any of those visited by them in America," is a just one. Americans may freely admit that such is the case without in the least abating their claim that the common-school system of the United States is immeasurably superior to that of any other country because of the far-reaching results it achieves. It is true that the great majority of those who enjoy its benefits are not as thoroughly grounded as the scholars of "some" of the English schools, but the tremendous number who are given an education which makes them something better than mere clodhoppers is so immeasurably greater than that turned out by the schools of England or any of the continental nations that they cannot be reckoned in the same class with out public schools.

The inquiry of the interstate commerce commission into the conduct of the Harriman lines has scarcely begun, says the Denver News, but it has proceeded far enough to show the dire need for investigation and remedy, and to make men wonder what is coming next. Dividends suppressed until Mr. Harriman could get control of the stock on which the dividends were too big to pay; money raised by bond issues, and used to buy and bear the market for Harriman's benefit; gentlemen's agreements, bogus transfers of stock, and secret ownership and manipulation amounting to conspiracy are some of the things already brought to light. What will follow when Harriman gets on the stand—if he is ever put there—perhaps not ever Mr. Harriman could say.

Estancia News: Dr. E. C. Edmonston is one of the more recent comers into the valley and will put out quite an orchard, something like 4,800 trees. These he will irrigate and care for, in a business-like manner, and if he does not make a success of his venture we are badly

mistaken. In this land of "Manana," where the apple tree seems to be indigenous, it is almost like growing weeds to care for fruit trees. But certain it is that with ordinary care and watering, an orchard will pay big profits almost any place in the valley. With practically no care at all, several small orchards have made good growth during the past two years, and who can tell what would have been the result had these same trees been properly cared for?

New Mexican: A Chicago press dispatch has it that United States Senator W. A. Clark, of Montana, intends to purchase the so-called Bartlett ranch property in "J" tax county. This contains about 200,000 acres of fine mountain, agricultural and range land, and title was deeded through the Maxwell land grant. This title is as good as can be had. The price, report has it, for the property will be \$2,000,000. It is certainly true that New Mexico lands are advancing in value steadily. Mr. Bartlett purchased this property from the Maxwell Land Grant company some years ago at a very reasonable rate, and if he now sells it at \$10 per acre he will clear a magnificent profit.

Colorado is asking of its legislature a railway commission. New Mexico is badly in need of one also, and the territorial legislature will fail of its duty if such commission shall not be created.

THE WONDERFUL INFLUENCE OF WOMEN IN ALL AFFAIRS

There are, perhaps, comparatively few who realize the ever-present influence of women upon members of the opposite sex. It has often been said that men are what women have made them, and this is true. For example, a boy's character is moulded by his mother, at least to a very great extent, says Physical Culture. Hardly is he away from the environments of his home, before some other woman comes into his life to, in a sense, take the place of his mother and to continue to affect him either for good or for evil, and the same rule continues all through life.

A good woman is the most precious jewel of life. According to the Scriptures: "Her price is above rubies." She uplifts and to a certain extent, ennoble all with whom she comes in contact. Her value in this respect to the individual or to humanity at large, cannot be measured. Such a woman can make a home almost divine, and every person who comes within the hallowed sphere of her influence sees life from a better and higher standpoint than before.

No reform of any consequence can be accomplished without the aid of woman. On the other hand, a woman will be found at the bottom of the majority of those crimes that stain history or horrify us in the present. This, because men will be good or bad in accordance with the natures and characters of the women who are the mainstays of their actions—of the women who influence them.

When women demand a high standard of masculine morals, when they will only mate with men who approximate physical perfection, such morals and such men will rapidly spring into existence and become the rule, rather than the exception, as now.

A great deal has been said about what is termed the "double standard" of morals. Now we make bold to say that this standard exists simply because women either commend or ignore it. They, or at least a great many of them, are to blame for not demanding a different standard. As in other affairs of life, public morality, on the whole, is that which women make it. So that if they will insist on one standard of morality for both sexes, it will assuredly come to pass sooner or later.

As a good woman cannot be too emphatically eulogized, so a bad woman can hardly be too rigorously condemned. This for the reason that, in the latter case, she exercises a power for evil that may be said to be beyond description or realization. As she sinks into the morass of immorality, she drags others with her, especially those men who are under the spell of her evil fascination. She defames and disgraces her entire sex. Men who begin life with a reverence for woman, quickly lose it when they come in contact with creatures such as she.

We have been trying to teach a high standard of morals. But the truth is, that without the aid of some good woman, the men who can be truly moral are few and far between, unless so constituted that they can readily live the lives of celibates. In other words, no matter how much a man may believe in the theories that we advocate, he is powerless to put them into practice unless he has the precept and example of some virtuous woman. On the other hand if he comes in contact with, or is influenced by, a bad woman, his theories and his beliefs in them go by the board. In using the term "bad woman" it is hardly necessary to remark that these are not by any means confined to the unsavory sections of large cities, nor does the public always recognize them to be that which they actually are. Such women disgrace and often bring misery and ruin into their so-called homes. Also they ignore their promises made at the altar to "love, honor and obey." Under such conditions, home, which was intended to be an earthly Heaven, is, on the contrary, a terrestrial Hell.—Colorado Springs Gazette.

THE SQUARE DEAL CLUB FOR BOTH WOMEN AND GIRLS

This is a new kind of a club. It is for girls and women, but boys and men may join if they want to. The club has no officers and no dues. It costs nothing but effort and it brings large returns. Both you and your next-door neighbor may belong and neither know that the other is a member.

This club has a name and a purpose. Every club has a name, but not every club has a purpose. It is the purpose of the club to help each one of us who wants to try to live up to the square deal. If we join the club we can't keep change given us by mistake. We can't borrow and forget to pay back. We can't sponge. We can't pretend not to see the conductor when he comes to collect fares. We can't fix it so that the man or woman who happens to be riding with us pays both fares. We can't gossip because to say things behind a person's back that we are ashamed to say to his face isn't giving that person the square deal. We can't quibble or hedge or dodge. We've got to face things and face them squarely. We can't steal our employer's time by loitering in the toilet room. The Square Dealers draw straight lines and turn square corners. There are no winning paths or crooked ways in the square deal. Anyone can become a member by signing this pledge. Read it before you sign it. If you sign it, cut it out and keep it where you can see it often enough to refresh your memory.

SQUARE DEAL FOR 1907.

During the year 1907 I pledge myself to the Square Deal.

I'll be square with myself.

I'll be square with my family.

I'll be square with my friends.

I'll be square with my employer.

I'll be square with my grocer and tradesmen.

I'll be square with my enemies.

When I buy I'll pay.

When I speak I'll speak the truth.

When I work I'll do my best work.

When I play I'll be fair.

When I sign this pledge I promise that every time I slip to brace up and begin over again.

I believe in the Square Deal. I believe that it is the Square Deal that counts, and I want to count.

I pledge myself to membership in the Square Dealers' club.

I'll begin today to give the Square Deal a fair trial for one year.

(Signed) _____

CHURCH, CLUB AND SOCIAL MEETINGS

There will be a coffee social held at Mrs. Selby's, 222 South Arno street, Thursday afternoon, from 2:30 to 5:30. Everybody invited.

The Ladies' Aid society of the Presbyterian church will meet tomorrow afternoon at 2:30 o'clock, at the home of Mrs. Frank Ackerman, 1110 West Railroad avenue.

The Woman's Circle of the Baptist church will hold its business meeting and social tea at the home of Mrs. Pajomere, 919 North Second street, Thursday at 2:30 p. m.

In spite of the unpromising weather of last evening there was a good attendance at the meeting of the Presbyterian Brotherhood called for the purpose of completing its organization. The new society begins its work with a membership of more than forty.

The Optic says: The girls' basketball team of the Las Vegas high school is practicing daily for their game with the girls of the University of New Mexico at Albuquerque on next Friday night. The young ladies will leave this city on Thursday night and a number of rooters and friends of the team in Las Vegas will accompany them to see them defeat the girls of the Duke City.

A regular meeting of the Elks will be held this evening in the lodge rooms. There will be initiation followed by refreshments. Visiting Elks are invited to be present.

A special meeting of the Retail Merchants' association will be held this evening in the association's rooms in the Whiting building at 7:30 o'clock when the annual election of officers will take place. Attorney G. W. Klock will address the members on the subject, "Shoppers Rights Under the Railway Rate Law."

MISSION BOARD BUYS BUILDING SITE

SANTA FE TO GET NEW BUILDING, WHICH WILL COST SOMETHING LIKE \$50,000.

George E. Ellis announced this morning that the board of home missions of the Presbyterian church had purchased about two acres of ground from him in Santa Fe, located north of the federal building there, for the purpose of erecting a handsome building. The citizens of Santa Fe subscribed the money to construct the building, which will cost in the neighborhood of \$50,000. The board of home missions has a girls' building in Santa Fe and the new one will be for boys and young men. The deal is said to have been hanging fire for the past six months. Mr. Ellis received a check for the ground from the First National bank of Santa Fe this morning.

MORTUARY

Mrs. Juanita Marino, wife of Martinez Marino, a farmer who resides in Atrisco, was buried this afternoon in the Atrisco cemetery. Mrs. Marino was 43 years of age and died at her home in Atrisco yesterday morning.

Mrs. Dolores Martinez. The funeral of Mrs. Dolores Martinez, who died at her home in Sandoval, N. M., of pneumonia, was held this afternoon in Sandoval. Mrs. Martinez leaves six sons and a husband. She was the mother of David Perea, postmaster and general merchant of Los Griegos.

SHOULD PRESCRIPTIONS COME UNDER PURE FOOD LAW?

San Marcial Druggist Expounds on Impartiality of Law to Territorial Pharmacists.

PURCHASERS SHOULD LOOK FOR LABELS ON EVERYTHING THEY BUY

To The Evening Citizen.

San Marcial, N. M.—The undersigned has read with considerable interest the articles appearing in The Evening Citizen during the last few days regarding the pure food and drug act, and as they seem to be like the opinions of the writer, without any degree of authority whatever, I cannot see why a few lines of my ideas would be out of place.

Apparently, the law seems to be a direct imposition on the druggists of the territories, and of the District of Columbia, and were one of us disposed to take a narrow view of the matter, that would be the only logical conclusion, at which we could at present arrive; but as we all know that the United States government is not an administrator of justice, but rather of justice, we will have to take another view of the situation.

We here, like we presume all other druggists of New Mexico and Arizona, in fact, of all the territorial possessions of the United States, have been so engaged for the past month or so, in getting labels from the various manufacturers and placing them upon the preparations for which they were intended, but even at this date we are far from having our stock completely labeled, and the law is supposed to be at present in full force and effect. We are of the opinion that if the intent of the law were carried out and the terms of it had been strictly put into force, on the first of the year, there would not be a single drug store, bakery, grocery store, saloon, confectionery, butcher shop, restaurant nor hotel in the territories running at this date. Again, we do believe that every druggist's

business in these territories has decreased in value from the misinterpretation or misconception that the inquisitive public is likely to place upon them. Take for example the fact that the district of ginger, according to the eighth revision of the United States Pharmacopoeia, contains in the neighborhood of from 90 to 95 per cent alcohol, is only one instance where people are likely to think that as staple an article as this, is put before them with a view to induce them into the alcoholic habit, and very few of the unfortunates are willing to accept the fact that this per cent of alcohol is necessary to maintain the true medicinal properties of the medicine.

Again, what are the doctors going to do with their prescriptions? Probably I am wrong, but it does seem that in order to be strictly in accordance with the law, every druggist when he prepares a doctor's prescription should figure out the per cent alcohol and the different other ingredients it contains, and put them on the label of the bottle, if that is the case the pharmaceutical vendors should take an additional course of instruction in rapid calculation.

I would like to hear from some more of our friends on the above subjects, and see if any of their ideas run in the same channel as mine.

Respectfully,
C. E. MEAD.
Note—The story Mr. Mead has reference to was taken from a copy of the pure food and drug law which was passed during the session of the fifty-ninth congress last summer, and the opinions of eminent lawyers thereon.

GEO. E. ELLIS WILL REFURNISH THE ELITE

ROOMING HOUSE WILL BE RUN AS MODERN EUROPEAN HOTEL IN FUTURE.

When the deal was closed yesterday by which George E. Ellis became proprietor of The Elite rooming house, on Silver avenue, it marked a new epoch in the history of the house, which will hereafter be run as an up-to-date European hotel.

Mr. Ellis has placed a large order for furnishings with a local dealer and he purposes to refurnish the house throughout. Himself a hotel man of twelve years' experience, the new proprietor has as his assistant T. R. Peters, of Lafayette, Ind., who will be in direct charge of the house. Mr. Peters is an experienced hotel manager, having disposed of his hotel interests to acquire the interests of M. H. Sabin in the Bennett curio store, on First street. Later he purchased the proprietorship in The Elite rooming house, a new structure which is modernly equipped with electric lights, hot and cold water and baths.

APPARENTLY TOOK ALL THEY WANTED

THIEVES APPROPRIATE REV. J. W. BARRON'S HARNES AND ROBE, WHILE MINISTER DREAMS OF THIEVES.

With great deliberation, some one walked through the front gate at the home of Rev. J. W. Barron, 819 South Edith street, last night, while the family was asleep, and Rev. Barron himself was dreaming of thieves, and entering the barn in the rear, took from the buggy a fine laprobe and from a peg a set of single harness, and went the same way he came, leaving not the slightest clue to his identity.

Rev. Barron discovered at 6:30 this morning that the gate had been opened and saw the barn door standing open, and suspected that something was wrong. "My first intuition was that the horse was gone," said Rev. Barron this morning, "but my fears were soon set at rest on that score by the animal whinnying. The theft of the other things I discovered a few minutes later, but I could find no tracks or other evidence that might lead to the identity of the thief or thieves. I notified the police, but I think that it was some one from the country and there is little possibility of capturing them. A peculiar thing about it, too," concluded the minister, "I was dreaming of thieves last night."

SHOES WILL REPLACE DRY GOODS AT GLOBE STORE

Leon Hertzog, who has been managing the general store on north First street, owned by the Weiller-Benjamin-Hertzog combination, will have charge of the Globe store, purchased yesterday by the same firm. Mr. Hertzog will begin active management January 15, which is next Tuesday, and begin closing out the stock on hand. When this is done, the store will be remodelled and a stock of shoes will replace the dry goods. J. G. Caldwell, who has been in charge of The Globe store since the retirement of Otto L. Rice, which occurred some months ago, will remain with the store under the new ownership.

The purchase of The Globe store gives the Weiller-Benjamin-Hertzog four stores in the city.

OBSERVE BIRTHDAY OF ROBERT BURNS

EVENING OF JANUARY 25TH THE TIME—ELKS' HALL THE PLACE.

The rejuvenated St. Andrew society of Albuquerque will observe the birthday of the poet, Robert Burns with a big banquet at the Elks' hall on the evening of January 25. This was determined at a meeting last night called at the office of Dr. W. N. Macbeth in the Barnett building for the purpose of organizing an Albuquerque branch of the Society of St. Andrew.

The organization is almost universal in its scope for it exists in every country, where there are enough Scots to form a society. The purposes of the society are social, fraternal and benevolent. Dr. Macbeth called the meeting to order, Judge B. F. Adams succeeded him in the chair and R. W. Hadden was made temporary secretary. The following officers were then elected:

President—William McIntosh.
Vice President—D. A. Macpherson.
Second Vice President—George Arno.

Honorary Vice President—Col. William S. Hopewell.
Secretary—R. W. Hadden.
Treasurer—Dr. W. N. Macbeth.

The committee on permanent organization includes Dr. Macbeth, Dr. Macbeth, E. F. Adams, D. A. Macpherson and R. W. Hadden. This committee will report Saturday night in the constitution and by-laws.

The banquet invitation list contains the name of Governor Hagerman. Dr. Macbeth, R. W. Hadden and D. A. Macpherson are the banquet committee. An appropriate program is in preparation.

ORTIZ WITHDRAWS FROM ELECTION CONTEST

NO TESTIMONY TAKEN BEFORE JUSTICE OF PEACE IN PRECINCT NO. 5, YESTERDAY.

Modesto Ortiz, candidate on the republican ticket for a legislative seat, has withdrawn his contest of election against Lucero y Montoya. He announced, when Attorney Elfege Baca appeared before Justice of the Peace Antonio Barera, of precinct No. 5, before whom the notice of contest directed Montoya should appear for the taking of testimony. Attorney Baca appeared as Montoya's counsel to cross-examine the witnesses. The notice of contest was filed several weeks ago and named January 8, at 10 a. m., as the time for taking the testimony.

ARGUMENTS CLOSE IN RAILROAD CASE

JUDGE ABBOTT'S DECISION WILL PROBABLY BE RESERVED FOR SOME TIME.

The injunction case of the Arizona & Colorado railway against the Denver & Rio Grande railway is now with Judge Ira A. Abbott, of the district court. Argument in the case closed yesterday afternoon at 5 o'clock. Hon. T. R. Catron, of Santa Fe, and Attorney E. N. Clark, of Denver, closed the argument for the defendant.

Owing to the large amount of testimony and the fact that Judge Abbott will be engaged with supreme court matters for some time, it is not thought that he will reach a decision in the case for a week or ten days. Argument on the merits of the case occupied two and a half days, while the ruling on evidence took up almost all of last week. All of the out-of-town attorneys have departed for their respective homes.

REV. O'MALLEY DISCOURSES ON CONFESSION

Quotes Scripture as Authority for Forgiveness of Sin.

Despite the inclemency of the season, a fine and appreciative audience attended the Catholic church last evening to listen to the eloquent discourse of Father O'Malley on the great dogma of confession.

After sketching the pernicious influence of sin as portrayed in the Bible and confirmed by all records of human history, where the high achievements of man are chronicled, he asked if there was any remedy for this terrible evil, was there any panacea provided for by a loving father in regard to his wayward, erring and sinful children. Must the garnered woe of our youthful, sorrowing youth and numb us in our declining years.

We know that the advent of Christ was to herald most consoling doctrines to broken more stupendous prodigies and to achieve more surpassing wonders in the moral order. When Christ mingled among men, he heeded the cry of every suppliant, he gave sight to the blind, speech to the dumb, and hearing to the deaf, while curing their wretched bodies, he enhanced the gift by curing their souls from their base servitude of sin.

Are we then the lost children of his providence? Are we who are supposed to be the children of his love, cut off from every avenue of divine consolation? We accept the preaching of our non-Catholic brethren, while the coming of Christ emphasizes the villainy of sin, it left us no power to stem its fated tide of corruption. If the power of the sacrament of penance be denied, we who are supposed to have received life more abundantly, are as a matter of fact, no better spiritually than the denizens of this world who lived two or three thousand years before the coming of the Christ child of Bethlehem.

The reverend gentleman showed that confession instead of being a monster hob goblin is conformable to human nature and even congenial to it. Its conformity is supported by the general saying, which Webster so elegantly developed in his famous speech of the Knapp trial "Murder will out." We find the same manifestation of mind and heart in the domestic, social, commercial and even political world. It is a balm to bruised feelings; to make another a sharer in our affliction. He proved it from the text of Matthew XVII, 16 "Whatever you shall bind on earth shall be bound in Heaven, and whatever you shall loose on earth shall be loosed in Heaven. It is quite evident that he is not speaking of material, physical or corporal bonds, for such do not obtain in Heaven, and at best could bind the soul only indirectly, namely, through the instrumentality of the body. Hence he is speaking of bonds in the moral order, which comprises bonds of law, bonds of punishment and bonds of sin. Christ made this promise to Peter alone as "we head of the Church, Chapter XVII, and subsequently to Peter and all the apostles assembled together. Christ could not give a strictly divine power, as omnipotence or omniscience to any human creature. But whatever power Christ had as man he could give to his fellow creatures. Christ had power as man to forgive sin, for the reason that he performed a miracle, to prove that he had this power, as witness the instantaneous cure of the helpless paralytic. On Easter Day after his death and glorious resurrection he appeared in the midst of his apostles and said to them "Peace be to you." Having breathed upon them he said, "Receive ye the Holy Ghost, whose sins you shall forgive, they are forgiven them, and whose sins you shall retain, they are retained." He does not say, "Whose sins God forgives, they are forgiven them," or "whose sins I, the redeemer, forgive, they are forgiven," but "Whose sins you shall forgive, they are forgiven them." It is a canon accepted by all scriptural critics to accept the words of scripture in their plain, simple, obvious sense. Hence by this canon we are warranted in accepting the power of forgiving sins.

If you admit the apostles had power to forgive sins, and deny that power to their legitimate successors, then if you are logical, you must deny the power of baptizing or preaching the word of God, or any other ministerial work. The sacrament of penance, and hence either stand together or fall, and our non-Catholic friends, who deny the power of confession, logically destroy all foundation of religious faith or practice. Christ knew that the apostles being men, were doomed to death, and his work was to endure for all time, namely, to teach truth and do away with error, to destroy sin and build up virtue, he organized in the apostles an organization with power and privileges to carry out those great works. As in the constitution of the American government the president dies, but the office remains, so apostles die, but the office remains and his successors enjoy all the ordinary power of the office.

The power of the confession was an ordinary one, which Christ established in combat with sin. It is the ordinary means prescribed by a loving father for all his sinful children, to be reconciled to him.

In conclusion we have the highest warrant in saying that if the Bible and revelation have any meaning, confession is the ordinary means for every baptized person to enter Heaven.

If we neglect the one ordinary way of getting to Heaven, we cannot expect that an extraordinary way will be ready at hand to suit our convenience.

This evening's subject will be "Sanction of the Divine Law."

AUTO RACES ON THE MESA TRACK

The automobile fever is taking a good hold on Albuquerque, the streets are quite lively with them now and several more will be here the coming

spring, when matinee races on the mesa track will be held. Joe Barnett is expected to bring one home when he comes. C. D. Klemp has one under way at Los Angeles. T. J. Shinick has the fever and is selling his fast road mares. Emil Mann is figuring on a racer, and work on the new track will soon be finished, when automobile matinees will be something worth going out to see.

JUSTICE OF THE PEACE ELECTION

Next Monday, Jan. 14, the election for justices of the peace and constables throughout the county and city precincts will take place, and in some of the precincts the contests will be close and exciting.

This evening the people's party will hold primaries in the two city precincts and will nominate candidates for justice of the peace and constable. Several names are being mentioned today as available candidates for those two precinct offices.

George R. Craig, the present justice of the peace of precinct 26, is again up for renomination by the republicans of his precinct, and he will surely be nominated.

It is understood that A. J. Crawford, the police magistrate and justice of the peace of precinct 12, will submit his claims to the republican primary for a renomination.

A few evenings ago a large number of republicans, democrats and independents of precinct 12 met and nominated W. W. McClellan for justice of the peace, and William C. Burgess for constable. These two gentlemen are well known to the voters of precinct 12, and are doing some effective work these days toward securing promises from the voters.

TRAYLOR BOOMS THE KELLY MINE AND CAMP

And in His New York Interview Tells Some Interesting Facts About the District.

Samuel W. Traylor, president of the Traylor Engineering company of New York City, who was recently in Albuquerque, has submitted to the Evening Citizen an interview by the New York Globe, wherein he gives out reliable information which is of interest to all persons living in New Mexico. Traylor is supervising engineer as well as the largest individual owner of the Tri-Bullion Smelting and Development company, which company owns what is known as this section of the country as the Kelly mine in the Magdalena mountains, and it is the facts given in relation to this great property which are of so much interest locally, especially when it is taken into consideration that Mr. Traylor is recognized everywhere in the east and west as being one of the most eminent and practical mining engineers in the United States, and that anywhere he is willing to invest his own money, unlimited capital is willing to follow.

The Evening Citizen is confident that not one person in a thousand living in this territory has realized that not only one, but two or more of the greatest mines in the world are located at Kelly, less than one hundred miles from this city, and that these mines are steadily producing more than two millions dollars a year, and what is of more importance, the ore deposits are of such a nature that mining on an extensive scale will continue in that camp for generations to come. In referring to other mines in the camp, we particularly have in view the Graphic, which is a mine equally important in every respect as the Kelly, wherein only last week we chronicled the striking of the greatest and richest body of ore ever found in the Magdalena mountains.

In addition to the great properties mentioned, the Little group adjoining these and owned by the Kelly interests is undoubtedly an adjoining ground in proportion to its acreage as either of the others, and moreover following the great rhyolite contact for a mile north and two and one-half miles south of the Kelly and Graphic mines, there is an extensive nature that mining on an extensive scale will continue in that camp for generations to come. In referring to other mines in the camp, we particularly have in view the Graphic, which is a mine equally important in every respect as the Kelly, wherein only last week we chronicled the striking of the greatest and richest body of ore ever found in the Magdalena mountains.

The large reduction works mentioned by Mr. Traylor in his interview will be of great and lasting value to New Mexico in general and Albuquerque in particular as they will employ from 800 to 2,000 men, and the supplies for such a force will be drawn almost wholly from Albuquerque. It is understood that the commencement of the building of a large plant will be within the next thirty or forty days, and that it will be completed about the first of next November.

The Globe article reads as follows: Samuel W. Traylor, president of the Traylor Engineering company and supervising engineer of the Tri-Bullion Smelting and Development company, 43 Exchange place, has returned from a trip through the west and southwest. He visited mining camps in Colorado, Nevada, Arizona, California and New Mexico, spending some time at Rhyolite, which is owned by Charles M. Schwab.

In the course of a chat with a Globe reporter Mr. Traylor said that a crushing amalgamating and cyanide plant is in process of erection there by the Traylor Engineering company, while at Ely the company is constructing a new plant with smelting, concentrating plant for the Grouse Consolidated. Mr. Traylor believes that the Grouse mines are the source of a great mineral deposit of copper, the only well-defined vein showing on the property of the Grouse company, and is the source of a secondary deposit occurring in the large quartz porphyry deposits lying below the immense vein, consisting of the properties of the Grouse Consolidated and of the Nevada Consolidated, which it adjoins. The finding of large bodies of rich sulphide ores on the 1,500-foot level in the Alpha shaft of the Grouse company would seem to bear out Mr. Traylor's opinion concerning this property. He is one of the few engineers who, in the opening up of the Ely copper deposits in the early history of the camp, realized the possibilities of this property, which was not fully understood by many engineers at that time, and was reported on unfavorably by some of the best engineers of the country. Since then, however, many of them have changed their opinion as to the greatness of the ore reserves in the district as a whole.

Many experts now hold that Ely is unquestionably the greatest copper camp in America. Mr. Traylor's standing among the mining engineers of the country makes his opinion and advice of great value. When asked to state the condition of New Mexico in the matter of mining development and something about the Kelly mine, rumors of the great richness and extent of the ore of which have reached the east, Mr. Traylor said that New

Mexico had been neglected, especially in the southern section, where the big producing mines, which have made the history of the section are located. "Here," said Mr. Traylor, "are the Kelly and Lake Valley, mines which produced millions since they were opened in the Hillsboro district many millions have been produced in placer gold and gold and copper from quartz lodes. The old Kingston camp above Hillsboro, which has produced large quantities of lead and silver, is now being re-opened. The lead and silver production of Silver City has reached millions and Georgetown, Santa Rita, Pinos Altos and the Mogollon mountains have added their quota to the mineral wealth of the region. In the Magdalena mountains, just south of Albuquerque, I and my associates are interested in the development of the Kelly group of mines, which are one of the most valuable properties I have ever been personally connected with or interested in. The ore bodies are not so extensive in width as some low grade properties in Arizona and Nevada, but they are of greater length, some of the ore less than a foot being mined. This represents the thickness of the vein, which is forty feet thick in some places. It is a remarkable feature of the deposits that the entire mass mined is mineral, without gangue or quartz matter, and the richness of the ore will be appreciated when it is understood that it requires only about seven cubic feet in place in the mine to equal a ton, while the average in most mines is from fifteen to twenty-five feet."

The Tri-Bullion Smelting and Development company has already shipped some 27,000 tons of ore with a gross average value in gold, silver, lead, zinc and copper of about \$55 per ton, making in round numbers \$1,485,000 for the mine as the result of one year's operations. At present 100 tons of ore are shipped daily. The Tri-Bullion company is now completing plans for the construction of a modern and complete plant for successful treating and extracting all of the values from the Kelly ores; or in fact, any similar ores to be found in the United States. The first unit of the plant will be for handling 200 tons daily of crude ore, averaging about 35 per cent zinc which will be extracted in the form of zinc oxide. The addition of about 3,000 retorts will produce from twenty to twenty-five tons of spelter daily.

Regarding the extent and value of the Kelly mines Mr. Traylor said: "The lead in our Kelly ores of itself considering the cheapness of mining, the simple method of extraction and the enormous tonnage shown, would be considered in many of the mining camps of the United States as a mine in itself and a most valuable one. The lead, however, in our mine represents only a small portion of our ore values. It is my belief that we have conservatively the largest zinc mine, considering no other values whatever, thus far developed in the United States, and that the Tri-Bullion Smelting and Development company, which controls the Kelly mines, will be the largest producer of this metal in a short time. We will be able to secure from what is known as clinker or residue coming from the zinc oxide plant in connection with smelting, which consist almost wholly of iron. This iron contains all of the gold, copper and about 75 per cent of the original assay of the silver. We shall make the most valuable use of this product by using it in our blast furnace in connection with smelting of the high-grade ores, which we shall either produce from our own mines in Arizona and elsewhere or possibly purchase in the general market. We have developed, conservatively, at the Kelly mine at this time about 100 tons of ore before the end of the year, unless there should be some unforeseen delay in carrying out our development, we shall be able to increase this estimate to at least a million tons."

SUPREME COURT NOW IN SESSION

AT CAPITAL—NO BUSINESS IS TRANSACTED—ADJOURNMENT TAKEN FOR SESSION BEGINS TODAY.

The supreme court of New Mexico met in adjourned session at 2 o'clock Tuesday afternoon in chambers at the capital. There were present: Chief Justice William J. Mills, Associate Justices John R. McPherson, Frank W. Parker, William H. Pope, Edward A. Mann, Jose D. Sena, clerk of the court, was at his post. Deputy United States Marshal H. F. Bough represented United States Marshal Creighton M. Foraker.

No business was transacted at the session yesterday. Immediately after court was called all of the cases under advisement were continued for the term and court adjourned sine die, officially ending the term of 1906. The January, 1907, term convened at 10 o'clock this morning.

Associate Justice Ira A. Abbott was the only absentee at the adjourned session yesterday afternoon. He was detained here on account of hearing arguments in the injunction case of the Arizona & Colorado railroad vs. the Denver & Rio Grande railroad.

MORRIS WILL BE ALLOWED BOND

MESSENGER WHO KILLED CATALINO LOBATO AT LAMY MUST FACE GRAND JURY.

Express Messenger John M. Morris who is charged with the murder of Catalino Lobato, was bound over to await the action of the grand jury by Judge John R. McPherson at Santa Fe yesterday. The prisoner was admitted to bail in the sum of \$5,000. At 2:30 o'clock yesterday afternoon when the preliminary hearing was resumed at the court house, the counsel for the defense of the prisoner produced evidence, whereupon the court ordered the prisoner held to the grand jury.

ROWDY GIANTS PUT ALL TEAMS "IN BAD"

The injury which one or two ill-mannered men can do to the reputation of a baseball team was illustrated in the case of the visit of the Philadelphia Athletics at New Orleans last spring. The Chicago Americans were training at the Crescent city and each member of the team had been extended the courtesies of the Y. M. C. A.

gymnasium. The players kept their ball suits at the gymnasium where they dressed for the morning and afternoon practice, and hardened their muscles by walking or running out to the grounds. After practice they would return to the club house, take a shower bath and don their street clothes. The Chicago team was made up of a well behaved lot of men and there was no trouble till Connie Mack's team happened along on a barnstorming tour.

They, too, were given the privileges of the gymnasium, but paid absolutely no attention to the posted rules, used language that ill became them, and finally made such nuisances of themselves that the gymnasium privilege was withdrawn from all ball players. The New York Nationals, under the leadership of McGraw, have made such a reputation for themselves in a reputable hotel in the south that they will now book them during the spring training series. Memphis is about the only town open to the Giants, and last season almost put up the bars there.

Captain Dan McGann threw a negro rubber through the Clarendon hotel window and Mike Devlin went on a tour that advertised the team to its discredit. There are a number of nice fellows on the New York team, but there are also other kind of fellows whose manners plainly indicate lack of breeding or consideration for the feelings or opinion of others.

ITALY AND JAMES TOWN EXPOSITION.

Naples, Jan. 8.—The president of the chamber of commerce today announced that this country would be well represented at the forthcoming exposition at Jamestown, Va., U. S. A. Exhibits are ready for shipment from Rome, Genoa, Palermo, Florence, Milan and this city. The king has just announced that four battleships and a cruiser will sail from here in such time as to be present at the opening of the exposition and that they would remain there for a considerable time.

CELEBRATING HISTORIC BATTLE ANNIVERSARY.

New Orleans, Jan. 9.—The city state and national flags were flying over city hall yesterday in commemoration of the ninety-first anniversary of the battle of New Orleans which occurred on Jan. 8, 1815, when General Andrew Jackson, afterwards president of the United States, routed the British army at New Orleans. The day is a legal holiday in the state of Louisiana and several patriotic societies banqueted last night.

MME. NORDICA IS NOW IN NEW YORK CITY.

New York, Jan. 8.—There was a very large and fashionable gathering in the Carnegie hall last afternoon when Mme. Nordica sang selections from the "Inferno" from Rossini's "Stabat Mater." She was assisted by Saffronoff and the pianist, Charles Anthony. Madame Nordica was definitely announced that she will not sing in opera during her present visit to this country.

How to Prevent Bilious Attacks.

One who is subject to bilious attacks will notice that for a day or more before the attack he feels hungry at meal times and feels dull after eating. A dose of Chamberlain's Stomach and Liver Tablets when these first symptoms appear will ward off the attack. They are for sale by all druggists.

Iron beds, mattresses, couch covers, portiers, 117 Gold avenue, Borradaile & Co.

The Right Name.

Mr. August Shupe, the popular overseer of the poor at Fort Madison, Ia., says: "Dr. King's New Life Pills are rightly named; they act more agreeably, do more good and make one feel better than any other laxative." Guaranteed to cure biliousness and constipation. 25c at all drug stores.

Our ROUGH DRY work don't have to be washed over. Imperial Laundry Co.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about a month. When my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed by all druggists. 50c and \$1.00. Trial bottle free.

LESS DIRT, MORE HEAT—\$6.00 PER TON, GENUINE GAS COKE. W. H. HAHN & CO.

FEW'S PEERLESS HOME-MADE CANDIES, AT WALTON'S DRUG STORE.

RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acid matter weakens and besets the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poisons which it is loaded into the muscles, nerves, bones and joints and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers; just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE CONVENTION HELD AT SANTA FE SLIMLY

Attended and Constitutional Delegates in Attendance Adjourn to February 5.

The meeting of delegates to the Constitutional convention reconvened Monday afternoon in the Capitol in accordance with the morning adjournment.

In addition to those present at the morning session, Colonel George W. Pritchard, delegate from Lincoln county, and J. W. Akers, delegate from Santa Fe county, were in attendance.

A number of letters from delegates who found it impossible to be present in person were read. Among them were the following:

Hon. H. O. Bursum of Socorro county wrote: "I think it would be advisable for those present in Santa Fe to organize and appoint a committee to confer with the legislature with reference to the holding of a constitutional convention."

Hon. R. H. Tipton of San Miguel county telephoned from Las Vegas that he had hoped to attend but was detained by an important operation. He thought that the meeting was timely and proper and wished to go on record as in favor of the meeting of the convention and he would do everything in his power to aid in the work of framing a constitution to confer with the legislature.

Hon. F. W. Clancy of Bernalillo county wrote: "I am in favor of legislative authorization of a convention as early as practicable after the close of the legislature. As there are many members of the bar among the delegates I suggest that the first of June would be as early as they can attend without inconvenience."

Hon. Celso Buca of Guadalupe county wrote to Hon. L. Bradford Prince, W. H. Tipton and J. W. Akers at this time but I authorize you to represent me at the meeting of delegates and I am in favor of holding the constitutional convention in the summer."

George S. Klock of Bernalillo county expressed regret that he could not be present for the supreme court which occupied every moment of his time prevented his attendance. He said: "I take great interest in the proposed work of our delegates to the constitutional convention for this territory. I am sure that the delegates will make a model fundamental law. I am persuaded that should we present an organic law to congress which is not only a model of comprehensive brevity but which aims at the summit of the science of state government, that congress will give heed to our prayer for admission."

Ex-Governor E. S. Stover of Albuquerque, who has been collecting important data from various states for the work of the constitutional convention, made a special statement, saying that he is just about completed making it impossible for him to attend. Jay Turley, delegate elected from San Juan county, wrote: "I am heartily in favor of holding the convention and though very busy will manage to be on hand when it is convened."

A full interchange of ideas was then had as to the best method of procedure to secure early statehood for New Mexico, in which Colonel George W. Pritchard, Jose Ignacio Garcia, J. W. Akers, and J. W. Clancy made valuable suggestions, and finally the following resolutions were unanimously adopted:

Whereas, the people of New Mexico have demonstrated their desire for statehood in the most emphatic manner at the recent election, and a vote of 28,195 against 14,735, in favor thereof, under very adverse conditions; and the total vote of over 43,000 cast at that election, proves that the present population of the territory is more than ample for separate statehood.

Resolved, That we are willing and ready to perform our part in the preparation of a constitution for New Mexico at such time as shall appear most proper and convenient.

Resolved, That a committee, representing the territory, be appointed to confer with the territorial legislature soon to convene, as to the best time and method of holding the session for the formulation of such constitution, and to take such measures as appear best for the promotion of this object.

The meeting then adjourned till Tuesday morning at 10 o'clock.

Session of Tuesday.

In addition to those previously present, were J. M. C. Chavez of Rio Arriba county, who appeared and took an active part in the proceedings. A letter was read from Edward Hart, delegate from McKinley county, concurring in the action of the meeting, and expressing his interest in the work of the convention.

The chairman stated that the gov-

ernors of a number of states, including Colorado, Oregon, Wisconsin and North Dakota had sent their constitutions and other documents for the use of the convention.

The meeting then proceeded to appoint the committees, as follows: Bernalillo—E. S. Stover, Frank W. Clancy, George S. Klock.

Chavez—John W. Poe, Coffey—Charles Springer, Dona Ana—R. E. McBride, Eddy—E. F. Bujae, Grant—Theodore W. Carter, Guadalupe—Selso Buca, Lincoln—George W. Pritchard, Luna—James N. Upton, McKinley—Edward Hart, Mora—Gavino P. Sanchez, Creencia Fernandez, Otero—J. M. Helm, Quay—C. Davidson, Rio Arriba—L. R. Prince, M. S. Salazar, J. M. C. Chavez, Roosevelt—George L. Reece, Sandoval—Miguel Arriojo, San Juan—Jay Turley, San Miguel—Margarito Romero, William R. Tipton.

Santa Fe—J. W. Akers, T. B. Catron, David M. White, Socorro—H. A. Wolford, Taos—H. O. Bursum, A. A. Sedillo, Taos—Jose Ignacio Garcia, E. D. Leon.

Torrance—Francisco A. Zamora, Union—Eucarnacion Sandoval, Valencia—Baldomero Romero, J. W. Akers of Santa Fe, moved that the secretary send notice to each member of the committee, requesting his presence on the first Tuesday in February, which motion carried.

M. S. Salazar of Rio Arriba county moved that the secretary procure the publication of the proceedings as generally throughout the territory as possible, which motion carried.

The meeting then adjourned to meet with all delegates elected to the convention who can attend on Tuesday, February 5, at 10 a. m.

Territorial Topics

A BARREL OF WHISKEY FOUND AMONG DRIFTWOOD

Last week several natives, while searching for driftwood on the banks of the Gila, found a 50-gallon barrel of whiskey full of the liquor, says the Salomonville Bulletin. They rolled it to town, and as they had no license to sell liquor by wholesale, concluded to distribute it among themselves, friends and comrades.

FOREST RANGER CASE MARRIED MISS MAXWELL

John B. Case, forest ranger on the Gila reserve, and Miss Maxwell of Pleasanton, on the Pecos, were married recently at El Paso. They passed through Silver City last week en route to their home at Mogollon. The bride is a sister in law of Maurice Coats, a prominent merchant of Mogollon, and was reared at Pleasanton, the Pecos. The groom is a very capable forest official and has resided in this section for several years.

LITTLE TOTS TRAVELED THREE THOUSAND MILES

The three little daughters of Emery White were passengers on Friday's train, says the Silver City Independent. The young travelers, aged 8, 10 and 12 years, were placed aboard a train at Philadelphia, Pa., and made the long journey of over 3,500 miles unaccompanied. Mr. White came to Silver City last July to accept a position with Lowe and Hanan, and had only been here a short time when he was called home by the sudden death of his wife.

INVITATION FOR MAN'S WIFE MAY CAUSE CAPTURE

Love for her daughters, strange as it may seem in view of her actions, may make Mrs. Lee Redwine the means of capturing C. E. Phillips, who is wanted badly by the officers for assisting Constable Lee Redwine to escape, says the Phoenix Republican.

Mrs. Redwine has a mother's strong affection for her daughter, and she keeps him here in his infatuation for Mrs. Redwine, who was to have left the city with him, but was prevented by the step which Mrs. Boone took in the probate court.

Officers are of the opinion that Mrs. Redwine will remain hidden, until she has to appear in the probate court to answer her mother's charges that she is an immoral and unfit person to have the custody of four-year-old Inez Redwine, Lee Redwine's daughter.

With the little daughter keeping the mother in the city, and the mother acting as the magnet that holds Phillips in her close vicinity, there is a possibility that this strange condition of affairs may bring about Phillips' capture.

SAMUEL BURNSIDE DEAD AT LOS ANGELES

Telegrams were received Thursday at Silver City by John L. Burnside and W. E. Burnside announcing the death of their father, Samuel Burnside, at Los Angeles on the same day.

Mr. Burnside was 75 years old at the time of his death. He had been in feeble health for some months past and the end was not unexpected. Deceased was well known in southwestern New Mexico, having resided in Deming for ten years, from 1894 to 1904, when he removed to Los Angeles. Before coming to Deming he had spent all of his life in Illinois.

Mr. Burnside is survived by a widow and five children, Mrs. William Harris of Denver, Colo.; Mrs. Frank K. Wyman of Deming; and Laura and W. K. Burnside of Los Angeles, and John L. and W. E. Burnside of this city. During his residence in Illinois Mr. Burnside occupied many positions of trust and responsibility, having served two terms as a member of the Illinois legislative assembly and for many years as supervisor of the county in which he lived, and also as a member of the local school board. He was a man of quiet and retiring habits, but of the utmost integrity and honesty. He was a consistent Christian all of his life and always took a prominent part in church affairs. The news of his death will be received with sorrow by his many friends in New Mexico, who extend heartfelt sympathy to sorrow-stricken family.

PITTSBURG WOULD MUZZLE SCANDAL

IT SEEMS THAT THERE ARE SOME PITTSBURGERS WHO ARE ASHAMED TO GO TO NEW YORK.

Pittsburg, Pa., Jan. 8.—Believing that Pittsburg scandals are ruining the city commercially, the Pittsburg chamber of commerce, whose membership represents about a million dollars of capital, has launched a crusade with the intent of keeping future scandal out of the columns of the newspapers of the country. Appeal has already been made to the publishers of Pittsburg newspapers to keep from their columns reports of divorce cases and other sensational stories arising from the immorality and loose methods of living of the quick-rich. It is the

H. D. W. ENGLISH, President Pittsburg Chamber of Commerce.

Intention of this commercial body to save the Smoky city any further shame.

"This is not a selfish proposition," said President H. D. W. English, of the chamber, in speaking of the crusade. "It is for the commercial and industrial good of the city. I feel that the public should be given the news, but the reports of scandals, such as have filled the columns of the papers not here alone, but elsewhere throughout the country, during the past eight months, have been a positive hurt to the city."

"Already you hear Pittsburg no longer called the 'Iron city' or the 'Steel city' or the 'Smoky city,' but it is now called the 'Scandal city.' That's a misnomer. We're going to correct that."

"Why, I've heard of respectable Pittsburgers, who, when in New York, are almost ashamed to acknowledge that they live in Pittsburg, precipitated, it is claimed, by divorces, the murders, the breach of promise suits and what not, that savors of the sensational. This thing, if it is not doing so already, will soon begin to injure trade, stagnate commerce and industry."

Some of the cases that have prompted the chamber of commerce to try to suppress the publication of scandals in the newspapers are:

The Augustus Hartle divorce case. The slaying of Stanford White by Harry K. Thaw.

The divorce of W. E. Corey, president of the United States Steel corporation, by his wife.

The pending divorce case of R. Gullie, prominent theatrical manager.

The sensational stories printed in connection with the marriages of Miss Magee, Miss Alice Thaw, Miss Lucy Carnegie.

The recent orgy of crime in Pittsburg, precipitated, it is claimed, by the publication of stories telling of the city's marvelous wealth.

The breach of promise suit against Gibson D. Packer, one of the "Carnegie partners."

Irrigated Farm Lands

IN SOUTHERN ALBERTA, CANADA \$18.00 to \$25.00 per acre

Irrigated farm lands in Egypt, according to reports of the United States Department of Commerce, are worth \$225 per acre. Irrigated farm lands in the United States are worth from \$100 to \$2,000 per acre.

Irrigated farm lands in Southern Alberta are worth just as much or more than lands in Egypt and the United States, but the Canadian Pacific Railway Company is selling them at from \$18 to \$25 per acre for the purpose of inducing settlement in their 3,000,000-acre block.

Irrigated farm lands sold by them three months ago at from \$18 to \$25 per acre are now being held by the purchasers at from \$50 to \$75 per acre.

The difference between \$18 and \$25,000 is worth while, if you are interested in doubling and trebling your money within a few months. If you are, drop a card to the address below and receive detailed information, including maps, literature, etc., fully describing the opportunity of the age.

"WOULD BE THANKFUL FOR \$2 MORE"

The claims department of the Santa Fe received following expressive document yesterday regarding some stock, which was killed by the road in northern New Mexico recently:

"Chapelle, N. M., Jan. 7, 1907.
"Claims Agent.
"I have received your letter of Jan. 2nd in which you are willing to increase \$5 more for all my stock killed and injured and therefore send me a voucher for \$40 Dollars. I accept this offer with much pleasure. But I will be very glad if you will allow me \$2 Dollars more and send me a voucher for sum of \$42 if you will do this with me. But if you do not want them forward to me a \$49. But I hope of you that hurry on this and send my money on 4 days or 5.
"Your very truly

TRINIDAD PUBLISHER ACCEPTS FAT BERTH

C. J. Roberts, for the last year president and manager of the Trinidad Publishing company, which issues the Daily Advertiser and prints the Trinidad Monitor and El Anunciador, at a meeting of the stockholders Monday, resigned in order to go to Raton, N. M., where he will become counsel for the St. Louis, Rocky Mountain and Pacific railroad and allied interests and also take up the private practice of law.

Before coming to Trinidad in December, 1905, Mr. Roberts was district attorney at Madison, Ind., his home town, and had his health not failed probably would have been elected district judge a year later. One of his partners in Trinidad, C. L. Copeland, is also a native of Madison, Ind., and was county treasurer there at the same time Roberts was district attorney.

The stockholders re-elected Roberts president and he will retain his interest in the Advertiser. C. L. Copeland was made business manager and retains the position of secretary. Joe Mulberry was continued until July 1 as vice president and advertising manager.

The money Albuquerque friends of F. J. Toner will be pleased to learn of his appointment to the position of stenographer to General Purchasing Agent F. U. Mahl of the Colorado and Southern railway in Denver. Mr. Toner was located here several months ago, when he occupied the position of stenographer to Santa Fe stockkeeper, Chambers.

Messrs. Cummings and Bennett accepted yesterday, respectively, the positions of bill clerk and revising clerk at the local freight house. Last night Messrs. Cummings and Bennett resigned respectively the positions of bill clerk and revising clerk at the local station.

A raw tremor on the Santa Fe calculates that he spaded fourteen tons of black diamonds on a recent trip from Las Vegas to Albuquerque and return, besides attending to other little duties incident to the position, says the Optimist.

The earnings for the month of December at the railway station at Lake Valley, N. M., were more than for any month for thirteen months prior to that month.

Ben Williams, chief of the secret service of the Santa Fe between La Junta and El Paso, arrived last night from the north.

MARKET LETTER

Special Correspondence.

Kansas City Stock Yards, Jan. 7.—The cattle market has been strong and healthy lately, under moderate receipts and a good demand, until today. The run last week was less than 40,000 head, and all kinds made a small gain. Stockers and feeders doing the best, gaining 5 to 15 cents. Today the supply is 21,000 head, with heavy supplies of feed stuff elsewhere, and the market on feed stuff is 15c lower; stock grades and feeders steady to a shade lower. The bulk of the supply today is stockers and feeders, which branch of the trade has been in the best condition lately, and better able to stand a heavy run. Panhandle and Colorado offerings are very scarce today, but there are two trains of New Mexicans here. These were composed of high-grade feeders mainly, weighing close 900 pounds, black cattle selling at \$4.45, and reds at \$4.25. The market on country kinds is now at the best point touched this winter. Top fed steers are selling at \$5.50 to \$6.25; medium-class fed steers, \$4.85 to \$5.50. Colder weather and normal receipts will soon put the cattle market on a firm basis, as the decline today is because of the heavy run at all points.

The sheep supply last week was 20,000 head, market averaging about steady, but with weaker indications. The supply today is 5,500 head; market on wethers nearly steady, ewes 5c lower, lambs 10c to 15c lower. One lot of 67-pound lambs from Monte Vista sold at \$7.10 today against \$7.20 for the same stuff Friday, while 114-pound Kansas fed western wethers

HORRORS OF AN ARIZONA SNOW

Storm and the Awful Experience of a Mining Man in Escaping Death.

About 1 p. m. last Monday Alex. Ratcliff, the well known mining man, started from Prescott in a livery rig for Maxton, says the Prescott Courier. He arrived there just before dark, found that he could get no lodging for his team, and started for Walker. When he reached the top of the divide, a howling blizzard was raging, the cold was biting and he could not see his hand before him in the driving snow. His wet clothing quickly became a sheet of rattling ice, and his gloves were frozen stiff to his hands. Even then, he says, he would have gotten through all right but one of his horses floundered and fell in the snow, the other became entangled, and he was so near frozen that he could not get them up.

He had only the use of one hand. With this he drew his knife from his pocket, opened the blade with his teeth, cut the harness from the horses, and they were thus enabled to get up and move off. They would have frozen to death had he left them.

Then, partly walking, crawling and dragging himself, he made his way to his cabin, 500 yards distant, found the door locked, broke open the window and pulled himself head-first through. He had plenty of bedding and crawled into it, where he remained for two days and a half before he was discovered.

There was no water in the cabin and he ate snow to quench his thirst; there was plenty of food, but he ate nothing. He made no fire, for the reason that there was a cap on the chimney top to keep out the snow and the rain; and as the door was locked, he could not get out to remove it.

When discovered, he rode a horse to Maxton, and from there took the stage to Prescott, arriving here Thursday. He is now confined to his room in the Scovel block. His feet and left hand are slightly frozen, while his right hand is badly frozen, the ends of the fingers of which hand may have to be taken off.

His experience was certainly a terrible one, and a very unusual one for this section of the country. When the Courier man visited him yesterday, he was eating his dinner, and evidently with a keen appetite. The horses were found all right.

COLONIAL BALL AT SANTA FE, JANUARY 24

Invitations have been sent to the members-elect of the thirty-seventh legislative assembly and to the governor for the colonial ball to be held at the Palace hotel on the evening of January 24, under the auspices of the Daughters of the American Revolution. No invitations will be sent to other residents of Santa Fe, as it is the desire that all who wish to attend may do so. Those who are to take part in the minut are requested to meet at Elks' hall, Santa Fe, at 8 o'clock, on Thursday evening of this week, for practice.

POLITICAL TREACHERY RECORDED AT SANTA FE

There was filed in the office of the county recorder on Saturday a document with a history behind it. It was the appointment by County School Superintendent Fulton of Professor Lee as his assistant. Many people do not know how this thing has come about, for Superintendent Fulton is a democrat, while Professor Lee is a republican. It has been learned, however, that the appointment is a reward for party treachery, a part payment of a premium on political perjury, for evidence has come to light that the new assistant all through the late campaign shamelessly threw down and knifed W. H. Lee, the republican candidate for the office of superintendent.—Phoenix Republican.

ISLAND OF SMOKE AND FLAMES ARISES FROM NORTHERN SEAS

Actual photograph showing Perry in Alaska.

Nome, Alaska, Jan. 5.—A great, smoking island, cast up by some powerful subterranean force has been discovered by the crew of the "Perry," which has been cruising in the Behring Sea.

This new island, which has been named "Perry," is situated about 45 miles southeast of Dutch Harbor, Alaska. It is a mass of lava, 500 feet high, 1000 feet in length at its base and a little more than half as wide.

At the time the island was discovered a tremendous cloud of vapor and smoke hovered about it. The water

for several miles about boiled and bubbled like a seething caldron, and close approach was impossible.

As soon as the surrounding water cooled sufficiently to allow a visit to the new island, a party of five officers landed from the steamer "Perry," made a survey of the island and sent an official report of their findings to the proper authorities at Washington, D. C.

The island of Perry is serrated with huge crevices and fissures, from which issue constant streams of sulphurous smoke.

COPPER KING SAVES DEPOSITORS HERVY LOSSES

Butte, Mont., Jan. 3.—A. Augustus Heinze, the young copper miner who sprang into national prominence, and incidentally amassed a fortune of several millions by waging the longest, hardest and most successful war ever made upon the forces of John D. Rockefeller and H. H. Rogers' system, through his bitter opposition to the Amalgamated Copper company in Montana, has set a precedent by voluntarily contributing a check for \$100,000 to relieve the distress of the victimized depositors of the insolvent Aetna Banking and Trust company. The concern had unlawfully used Heinze's name as a director and "backer" to inspire confidence in the public.

For more than three years prior to the bank's failure Heinze had absolutely no connection with the bank whatever, and could in no way have been held legally responsible for the share.

Previous to Heinze's magnanimous act the receiver stated that the best the depositors could hope for would be a settlement on the basis of 12 cents on the dollar. Heinze's check will materially change the outlook, and once again the young "copper king" scores a point of popularity with the people of Butte, with whom he has warred against corporation rule for the past eight years.

SO SOOTHING.

Its Influence Has Been Felt by so Many Albuquerque Readers.

The soothing influence of relief. After suffering from itching piles, From eczema or any itchiness of the skin, Makes one feel grateful to the remedy.

Doan's Ointment has soothed hundreds. Here's what one Albuquerque citizen says:

A. M. Whitcomb, nursery, corner of Eighth street and Tijeras avenue, says: "In my estimation there is no ointment for the purpose that it is used that can equal Doan's. There was a spot below my knee which annoyed me for ten years. Unless eczema it did not spread out, but at times it itched so exasperatingly, particularly after I went to bed or sat by the stove, that I scratched it until it smarted before relief came. I tried every salve and ointment I came across; when one did not help I bought another and slapped it on. Reading about Doan's Ointment induced me to procure a box. In a few days the itching ceased and the life of the part affected was killed for up to date, and it is now over six months since I stopped the use of the salve. There has not been a symptom of its appearance."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

E. L. WASHBURN CO.

LOCAL AND PERSONAL

Attend the Elks' meeting tonight. G. E. Nunell of Bluewater is in town.

Ben Strickfaden came in yesterday from Las Vegas.

Joseph Bibb is in Albuquerque from Bernalillo.

Joseph Spencer is here from El Paso on business.

Hon. W. B. Childers is at Santa Fe, attending the January term of the supreme court.

J. R. Teasdale, the well known St. Louis traveling man, is once more visiting his Albuquerque patrons.

Mrs. L. C. Armijo, who was here visiting relatives and friends, has returned to her home in Santa Fe.

Civil Engineers B. H. Newlee, W. W. Smith, R. E. Vosse and C. V. Stewart of Las Vegas were here last night.

J. A. Scales, representing Swift's Packing company, is on a business trip to the northern New Mexico towns.

The Optic says: Miss Bertha Papen suffers from a sprained wrist, sustained while practicing basket ball for the game with the Albuquerqueans.

Rabbi Jacob H. Kaplan, whose recent utterances in the Barbarian brought him so much unfavorable publicity, left the city last night for Denver.

Get your tickets for the grand concert at Elks' theater Friday night at Matson's. Reserved seats, \$1; general admission, 75 cents.

Seats for the concert to be given Friday evening by the St. John's Guild, will be on sale at Matson's book store Friday morning at 9 o'clock.

Hon. Solomon Luna will leave tonight for New York city, and will remain until Mrs. Luna is well enough to return to this city. Mrs. Luna is reported as getting along nicely.

Judge Ira A. Abbott of the district court will be at his chambers in the court house today. Tonight, however, he will leave for Santa Fe to attend the session of the supreme court.

Mr. and Mrs. P. Giraldi, of 719 West Gold avenue, are having in the smiles of a baby girl.

Mr. Giraldi is southwestern representative for Bull Durham smoking tobacco.

Mrs. Calvin Chilton, of Mississippi, who will give a monodramatic recital at the Congregational church this evening, arrived from the east on the California limited this afternoon and is quartered at the Alvarado.

Steven Easton, who has recently been appointed ranger for the newly created Mount Taylor reserve, is in the city. Mr. Easton is an experienced range rider, having formerly held a similar position on the Jemez reserve.

Every resident of Albuquerque should take advantage of the opportunity to hear Miss Claude Albright in grand concert work at Elks' opera house next Friday evening. Tickets to any part of the house \$1 each. On sale at Matson's.

A. B. Renahan and Mrs. Renahan, after a week spent in Albuquerque, returned to their home at Santa Fe last evening. Mr. Renahan has been acting as one of the counsel here for the Arizona and Colorado railroad in its case against the Denver and Rio Grande.

Stockholders of the State National bank met yesterday afternoon and elected directors for the ensuing year as follows: O. N. Macron, William Farr, J. A. Weinmann, I. A. Dye, J. A. Hubbs, Frank H. Strong, E. A. Miera, C. H. Harbison, J. B. Herndon.

Do you want the best mare in the city? T. J. Shilick is offering his well-bred driving mares for sale. "Action" holds the matinee record for trotters here, having gone the half mile in 1:07. They are warranted sound and gentle for women to drive. Call and see them, at 219 Copper avenue.

This morning Mrs. J. F. Palmer, wife of the North First street grocery merchant, received a telegram announcing the death of her mother, Mrs. Susan M. Johnson, at Yorkville, Ill., at the age of 90 years. The funeral will take place at Yorkville Friday afternoon at 1 o'clock. The bereaved Albuquerque daughter has the sympathy of a host of friends in her present affliction.

Late yesterday afternoon it was learned that A. J. Little, formerly a special agent for the State Life Insurance Co., of Indianapolis, Ind., with headquarters in Albuquerque, has recently been appointed general agent of the company for the state of Michigan, with headquarters in Detroit.

Mr. Little left Albuquerque about six weeks since. His new position, which entails much responsibility, is said to be a highly remunerative one and his friends here are pleased to receive the news of his good fortune.
