BRIEF WIRINGS.

She's Great, Anyway.
St. JOSEPH, Mo., Sept. 16.—Nancy Banks attempted to lower her record yesterday on a regulation track, but the best she could do was to cover a mile in 2:07 1/2.

Missing.
CLEVELAND, Ohio, Sept. 16.—Commissioner Davis, one of the largest dealers in this city, is reported missing. He owes \$100,000, and a warrant, charging him with fraud, has been issued, but he can not be found.

Good for the Barings.
LONDON, Sept. 16.—The government of the Bank of England states that the Barings' liabilities have been reduced to £5,000,000, of which sum \$5,045,000 is due to the Bank of England. It is expected the affairs of the firm will be wound up without calling upon their guarantees.

Somewhat Improved.
LOON LAKE, Sept. 15.—The following bulletin by the physicians attending Mrs. Harrison was issued this morning: "Mrs. Harrison passed a restless night, but is a little better this morning, although no marked change has taken place. There has been no further accumulation of watery matter in the lung cavity. The progress of the disease has been temporarily arrested."

Probably Innocent.
SAN ANTONIO, Texas, Sept. 16.—The indications are that the San Antonio and Aransas Pass railroad will soon pass into the hands of the Southern Pacific company. About ten days ago, General Manager Kruttschnitt, and a party of minor officials of the Southern Pacific, made an inspection trip over the Aransas Pass road, and soon after they had completed their work, a force of engineers were sent out by the Pacific to make measurements of all bridges on the Aransas Pass, and they are still engaged in that work.

Official Irrigation Figures.
WASHINGTON, Sept. 16.—The census bureau has issued a bulletin upon the general subject of irrigation in the western states. It shows that out of 124,000 farms enumerated, in the arid region, in June 1890, 52,584, or 42.13 per cent, contained lands on which crops were raised by the artificial application of water. The entire area of land irrigated is 3,594,416 acres, or 20.42 per cent of the total area of 52,584 irrigated farms; 9.66 per cent of the total area of the whole number of farms enumerated, and about one half of 1 per cent of the total land area of the arid region.

Figures that Talk.
WASHINGTON, Sept. 15.—A man who has had a peep at the proof sheets of the statistics of labor sent to be issued from the bureau of labor statistics of Massachusetts announces that the report will be in keeping with the admirable showing made for the McKinley act by Statistician Peck, of New York, and Mr. Peck, of Indiana. The only difference in this case is that Mr. Wadlin, the chief of the Massachusetts bureau, has taken the wind out of the sails of Democratic arguments made in reference to New York, that the natural increase in population had increased the amount of wages. Mr. Wadlin works the net earnings among the working population, and shows a remarkable increase per capita. And Mr. Wadlin is not a partisan. Massachusetts has always been noted for the academic exactitude of its statistics. Mr. Wadlin's predecessor was Carroll D. Wright, commissioner of labor for the United States. Mr. Wright, appointed by President Arthur, suited Mr. Cleveland as well as a non-partisan that he never molested him in his place. When Wright was appointed from the State of Massachusetts the governor appointed Wadlin as the most eligible man in the state to succeed him, and Mr. Wadlin's figure have never been questioned. The report shows that not only the wages but the manufactured products have materially increased under the McKinley act in Massachusetts. While there have been longer hours there has been more work to be done, and wages have increased accordingly, the report showing a net increase in both directions.

THE REPUBLICAN LEAGUE.
The Women Take a Hand—Campaign Clubs to Compete for Prizes.

BUFFALO, N. Y., Sept. 16.—The business session of the Republican clubs was held this morning. The attendance of visitors was not as large as at the opening meeting yesterday and the mass meeting last night, but the delegates turned out in force there being nearly 1,000 of them on the floor when the meeting was called to order. The first business on the program was the reading of the reports of the national officers. These were lengthy documents devoted to statistics of the growth and present condition of the league, and the best methods to be adopted in still further enlarging the field of its usefulness. In another hall the Women's Republican association of the United States held a meeting at the same time at special invitation of the executive committee of the league of Republican clubs. This invitation was extended to the women in recognition of the work being done by them for the Republican cause. Mrs. E. Ellen Foster, president of the association, presided over the meeting and delivered the opening address. She was followed by several of the leaders from different parts of the country all of whom reported a most favorable condition of affairs in their respective states.

THE DEMON CHOLERA.

New York Has It, and Baltimore, Chicago and Other Points Are Badly Scared.

NEW YORK, Sept. 16.—The board of health reports another case of cholera, the victim being Mary Connelly, aged 19, of Second avenue. Two suspected cases have been found in Brooklyn—a young German girl, name unknown, who died in a few hours, and Simon Kolinsky, who was taken ill on the street. All cases were isolated.

New Haven, Conn.—Two brothers, Italians, residing in the slums of the city, were suddenly prostrated yesterday with symptoms of cholera. The men have been isolated during the investigation by experts. The city is greatly excited. Baltimore, Md.—A Russian woman, who arrived here from Hamburg three days ago, died in this city yesterday. Two physicians attended her, and one insists that her death was due to cholera. The other asserts that it was merely septicemic cholera. The health commissioners are investigating. Meanwhile there is great fear manifested by the people.

New York, At 1:30 yesterday afternoon four cases of cholera had been developed on the Scandia; one case, a child, also reported on the Wyoming. No cases reported on any other vessel in the fleet.

Chicago.—The railway companies have notified the Chicago health department that no foreign passengers will be accepted from New York and other eastern points, unless each one bears a bill of health. What to do with the passengers now on the road was a question which confronted the department yesterday. To guard this city, and points west of here, the quarantine authorities have decided to quarantine all passengers from the infected ships who do not bear a certificate. Also to detain all baggage that does not bear a certificate of inspection.

Tampico, Mexico.—A cholera quarantine decree, applicable to all Mexican ports and eight foreign ports, has been made public. It is a voluminous document, granting to health officers ample authority in the absence of cholera and discretionary powers, based on the appearance of the cholera, their duties become mandatory and clearly defined. Vera Cruz, on the gulf, and Acapulco on the Pacific, are the only ports where a vigorous quarantine can be performed.

Paris.—Eight deaths from cholera were reported here yesterday. There is little change in the situation, except that there is a decline in the number of deaths. Babylon, L. I.—The quarantined passengers on Fire Island are in good health. It is reported that six of them, by bribing boatmen, escaped to the mainland and got away to New York. All the Normanna's passengers will be released this afternoon.

TERRITORIAL TIPS.

The average attendance at the Raton schools last week was 333.

W. A. White, of Colfax county, sold "Fortune Springs" ranch to R. Miller and brother; consideration \$1,000.

Gilbert and Sullivan's opera "Patience" is soon to be presented by local talent at Silver City.

The Felix dam, on the P. I. & I. Co.'s canal, Chaves county, was washed over again by the large head of water caused by the heavy rain.

The Roswell public school opened with a pupillage of ninety-two, under the tutelage of Prof. Hill as principal and Miss Alma Root, as assistant.

Blanching only. Our schools began on the 5th with about 180 pupils enrolled. Miss Boardman in the intermediate and Miss Brooks in the primary rooms.

At the preliminary hearing of John C. Hill, Dr. North and Jack Woods, at Springer, Monday and Tuesday, on a charge of crookedness in shipping cattle, they were bound over to court, the two former under \$3,000 and Woods \$2,000 bonds.

Hon. S. W. Dorsey and wife spent Monday and Tuesday in Raton. The senator left on Wednesday for Washington city via Denver. He is department commander of New Mexico Grand Army of the Republic, and will attend the national encampment next week.—Raton Range.

Grant county waif: There will be a special meeting of the board of county commissioners next Monday to take some action on the question of the payment of interest on the bonds of the county. The interest on the bonds has not yet been paid and the holders of the bonds are getting impatient. The interest is now more than two months overdue.

What water is doing for Raton: Dave Dwyer is working an eight horse power grader on Second street and will soon have that thoroughfare in good condition.

Raton badly needs and must have more houses. There are five new houses now under process of construction, two more under contract and they are all engaged and not a vacant house in town.

Work has at last been commenced on the great reservoirs to be thrown across the Honda river, about nine miles west of Roswell, in Chaves county. The franchise, since then, for the scheme, were recently secured by the Pecos Valley Irrigation company, and they will make these reservoirs a portion of their already immense system.

Tom York, of Roswell, gave an exhibition of rifle shooting which was, without exception, the best ever seen in this country. He hit nickels, dimes and pennies, blocks of wood and clay balls that were thrown in the air. Out of forty-seven shots he missed two. For good sport for a man that does not claim to be a world beater. Mr. York is going to give an exhibition of his skill at the Roswell fair.

Albuquerque Times: The provisional committee of the Sunday school convention met at the Presbyterian church and organized by continuing the officers elected one week ago. It was decided to call a convention to meet the 11th day of October, also to invite Rev. Lawler, of Trinidad, Rev. G. G. Smith, of Santa Fe, to be present. The secretary was instructed to notify all Sunday schools in the county, request them either to attend "en masse" or send delegates, also to publish notices of the convention in English and Spanish in the county newspapers.—Raton Reporter.

Early this morning it was reported to Policeman Krieglsteiner that Leon Caron was dead in his room over Pillsbury & Walton's drug store, and on investigation he found the report true. The body was taken to Strong's and sometime this afternoon the arrangements for the funeral will be announced. Mr. Caron was proprietor of the Phoenix saloon on North Third street; came here several years ago from Los Cerrillos, and had many friends who mourn his death. He is only said a few days.—Albuquerque Citizen.

Raton note: Tuesday morning, Mr. Alf Bennett, a young and popular engineer on the A. T. & S. F., was sitting on the bed at his home here when he noticed that his revolver hanging at the head of the bed looked as if it was about to fall out of the scabbard. He reached for it to place it more securely in its place, when it fell out and as he attempted to catch it the gun was discharged, the ball entering his right thigh making a very deep and painful wound. Drs. Shuler and Chapman were called and found the bullet had passed through the thigh shattering the limb badly.

One morning last week H. D. McKnight stumbled and fell on a trunk, in his room, at the Timmer house, in such a manner as to sever one of the small arteries in his nose. The fall rendered him insensible for a time and when he regained consciousness he was literally covered with blood. He crawled to the side of his room and rang the bell. A physician was summoned who stopped the flow of blood and Mr. McKnight is rapidly recovering. Had he remained unconscious many minutes longer he would certainly have bled to death.—Silver City Sentinel.

Albuquerque Times: The frame buildings immediately west of Grant's opera house were a mass of flames at 9:30 last night and produced a heat which threatened adjoining property. At one time it was thought that the opera house could not be saved, and, in fact, did catch on the west side of the portal, but the splendid work of the firemen came in at the right time. The Armijo House, across the street, was smoking from the intense heat, but a little wood work with buckets and hose prevented the wood work catching. The burned buildings were occupied by Drago & Bachsch, saloon; B. Ruppe, druggist; J. Rambo, tailor, and P. Rusconi, confectionery and groceries. Very little was saved from the buildings, and most of the tenants will be heavy losers. It will be severe because none of them had much capital. Mr. Ruppe loses everything, having no insurance, and it is stated that the same is true of P. Rusconi. It could not be learned last night by the reporter whether the other tenants had any insurance. The office of La Opinion Publica escaped destruction, although the damage is considerable.

A HYPOCRITE CONVICTED.

Mr. Joseph's most sanguine admirers have never accused him of being a brilliant man, nor one possessed of any very great energy or force of character, but even his enemies have conceded his apparent honesty and sincerity of purpose. That is, they have done so until now. Even the cloak of honesty must now, however, fall from Joseph's shoulders. He has permitted the bosses of the Democratic-White Cap party to strip him of even this semblance of decency and independent manhood and he stands before the people of New Mexico to day a naked picture of political demagoguery, a canting, whining hypocrite, knowing the truth but afraid to speak it.

Let us look into Mr. Joseph's record for honesty somewhat. In an interview published in the Albuquerque Democrat of the 15th inst. we find Mr. Joseph using this language:

"Catron is not only a deliberate liar, but is moreover an enemy of statehood, and quite likely to do all in his power to keep New Mexico out of the union as long as possible."

How does this agree with the following—mark the date and signature: COMMITTEE ON MILITARY AFFAIRS, House of Representatives, U. S. Washington, D. C., July 22, '92.

Hon. T. B. Catron, Santa Fe, N. M.

My Dear Sir: "All things come to him who waits," and at last the oft repeated promise to report our "enabling act" to the senate, was fulfilled. I enclose herewith marked copy of Congressional Record with full proceedings in reference to the admission of New Mexico. The members of the committee have agreed to call up the bill for its consideration early next December, regardless of the result of the coming presidential election; so that, there is no earthly doubt in my mind that the bill will pass the senate next December, and that when the said bill comes back to the house of representatives there is no probability that the house will deny to concur with the senate amendments; and with the approval of the president, it will become a law. I regret that I did not see you before your departure for New Mexico, but I might have had opportunity to thank you in person for your very efficient cooperation in this most important legislation for the future welfare of the territory of New Mexico. With highest regards I remain, Very truly, ANTONIO JOSEPH.

Thus is Mr. Joseph convicted of his own mouth. To-morrow the New Mexican will take pleasure in showing up this man's duplicity in his attempt to repudiate the correctness of an interview held with him by a representative of this paper, at the Exchange hotel, in Santa Fe, on August 12 last.

And Joseph talked, good gods, how he talked. That's what he gets for listening to evil counsels of the bosses.

THE FACT REMAINS.

The Democratic orators in last Saturday's White Cap-Democratic convention did not "point with pride" to the corrupt judges, district attorneys, clerks and other court officers that robbed the people of this territory under the late unenlightened Democratic administration. But the fact remains nevertheless, that the aforeaid Democratic officials plundered the United States, the territorial treasury and the taxpayers of this territory unmercifully. Some of them have remained here with their ill-gotten plunder; others have left New Mexico for New Mexico's good. But the fact of the robberies committed exists and is too well known and substantiated to be explained away.

TO TALK OUT OF TOWN.

Candidate Antonio Joseph has as yet made no speeches in this campaign; he is waiting to get out into the hamlets and small towns to tell them that the Republican party is the genuine free trade party, and desires to ruin New Mexico; and that the Democratic party is in favor of protecting the woolen interests of the territory of New Mexico and also those of the lead ore mines and that the McKinley tariff law was passed by a Democratic congress and approved by a Democratic president.

CANDIDATE JOSEPH concedes the counties of Valencia, Bernalillo, Santa Fe and Rio Arriba to Mr. Catron; good enough, but he will be astonished at the majorities these counties will give and then he will be still more astonished to find that some counties he is counting on will give Mr. Catron a large majority; there are several surprises in store for him. The longer a man lives, the more he finds out, Mr. Joseph.

The country is being assured that the Tammany tiger has gotten away from Grover Cleveland, civil service reform and the Mugwump idols. It is, however, not very material this. Tammany or not, Grover Cleveland will lose the state of New York on the 8th of November next.

All kinds of sinister and corrupt bargains are being entered into by the bosses in this county as to nominations and candidates on the Democratic ticket. But that's all the good it will do them. They are already beaten and worse beaten than they have the least idea of.

What they lack in ballots in the solid south, the Democrats there will make up in the court; they have the entire election machinery and will use it as to them sees fit; hence there is not much use indulging in rainbow chasing in that direction.

The gay and festive correspondent who wrote the capture of the Dalton gang from Denning must have had some of Barclay-Corn & Co.'s cordial left over from last Saturday's Democratic convention in this city when he wired the alleged news.

It may be presumed, that had Delegate Joseph studied Shakespeare, he would not have delivered himself to the Albuquerque Democrat as he did. "Talkers are no good doers," Richard the III, act 3, scene 1.

The San Miguel county White Caps were of the opinion that they could run this county a la San Miguel county last Saturday; they know better now; law and order will be preserved here.

If the Democratic sheets and the White Cap-Democratic bosses were not so afraid of Hon. T. B. Catron, Republican candidate for delegate to congress, they would not denounce him so bitterly. Straws.

The Democratic bosses in New Mexico object to being denominated "plunderers" by the NEW MEXICAN; will "kleptomaniacs" suit them any better? Anything to oblige the gang.

THERE is no rose without its thorns; Mr. Joseph has the nomination, but now the White Cap bosses are after him to put up a few thousands of pesos dueros. So runs the world away.

BARCLAY-CORN & Co. seemed to have had a strong hold on the bosses that ruled the roost at the Democratic territorial convention in Santa Fe last Saturday.

T. B. CATRON is the natural delegate to congress from New Mexico and the voters of the territory will do very well indeed to follow this natural election.

DELEGATE JOSEPH being a candidate again, has allowed himself to do too much talking and has put his foot into it.

An Unconstitutional Party. The Democratic party, in its platform adopted at Chicago, declares protection unconstitutional. There is plenty of evidence that the Democratic party is unconstitutional. It hopes to win in the present contest by counting most of the Harrison votes in the south for Cleveland. Could anything be more directly opposed to the constitution of the United States—Norristown (Pa.) Herald.

GOVERNOR M'KINLEY.

A FEW PLAIN WORDS TO THE AMERICAN WORKINGMAN.

What the Protective System Has Done. It Has Nothing to Take Back, Nothing to Apologize For—What a Low Tariff Has Never Failed to Accomplish.

The protective system, by encouraging capital to engage in productive enterprise, has accorded to labor, skill and genius higher opportunities and greater rewards than could otherwise be secured, defending them against ruinous foreign competition while promoting home competition, and giving the American consumer better products at lower prices and the farmer a better market than was ever enjoyed under the free trade tariffs of the Democratic party.

We find nothing in history or in our own experience to justify the reversal of our protective system or a change in our protective laws. We have nothing to take back; nothing to apologize for. A low tariff has always increased the im-

GOVERNOR M'KINLEY.

portation of foreign goods until our money runs out; multiplied our foreign obligations; produced a balance of trade against the country; supplanted the domestic producer and manufacturer; impaired the farmer's home market; increased the value of nearly all our property and investments, and robbed labor of its just reward. The lower the tariff the more widespread and aggravated have been these conditions which paralyze our progress and industries. This is the verdict of history.

Industry and property were excessively depressed from 1784 to 1790 and again from 1818 to 1824 under the low tariffs then in operation; also from 1837 to the end of 1842 under the compromise act of 1833, and again from 1850 to 1861 under the free trade tariffs of 1846 and 1857.

The depression which prevailed during all these periods was felt in every individual pursuit and national industry. On the contrary, the industries and energies of the nation revived as if by magic from 1825 to 1834 under the protective tariffs of 1824 and 1828, and also from 1833 to the end of 1842 under the protective tariff of 1842. Our progress in industrial development and prosperity from 1841 to the present time under the Morrill tariff and its supplements finds no parallel in the world's history. Labor was never better rewarded than it is now.

Mr. Edward Atkinson, a careful student and himself a tariff reformer, recently wrote, "The share of the annual product which is now falling to workmen, in the strictest sense, is a bigger share of a bigger product than workmen have ever attained before in this or any other country."

Invention, improved machinery and new processes, stimulated by our industrial conditions, made possible by protective laws, have improved the products of our workshops and have brought articles of comfort and necessity within the easy reach of the masses, with no diminution of the rewards of their labor.

We believe the American policy is best adapted to our citizenship and civilization, and this belief is sustained by the highest American authorities from Washington down, and by a hundred years of experience. We know what it has already accomplished for a self-governed people. The world knows of the wonderful progress we have made. If this policy is to be reversed it must be done not by clamor and misrepresentation, not by schoolmen and theorists, not by falsehood and hypocritical solicitude for the poor man; it must be done by the soundest and most intelligent judgment of the majority constitutionally registered. It will never be so reversed while we remain a nation of political equals. Time and experience have vindicated the great system; time and truth will vindicate the new law, which was founded upon it. False witnesses will be confounded by the unimpeachable testimony of trade and experience. Their portents have already been impeached. False prophecy must fall before good times and abounding prosperity. Campaign prices have already been convicted as campaign lies. New industries are being founded; others now established are enlarging their capacity. Idle mills are being started. The only menace to our advancement and prosperity, to our wage earners and farming interests, is the party which is pledged to the repeal of the new law and the substitution of the British system in its place. Free and full discussion will avert the danger. Nothing else will—William McKinley, Jr.

Visit the Grand Canon of the Colorado.

Commencing at once, I will sell to those desiring to visit the Grand Canon of the Colorado, round trip tickets from Santa Fe via Flagstaff, for \$54.00 for the round trip. Tickets will have a travel limit of thirty days in each direction, with a final limit of ninety days from date of sale. The stage connects with our through Pacific coast trains, and leaves Flagstaff each Monday, Wednesday and Friday, returning from the canon each Tuesday, Thursday and Saturday. The Grand Canon Hotel company have provided tents for tourists, meals \$1 per capita and lodging \$1 per night. Apply at city office for full information. W. M. Smith, Ticket Agent A., T. & S. F.

Attention, Members of the G. A. R.!

The Santa Fe route, with its usual promptness, has not only arranged for reduced rates of less than one fare for the round trip to the national encampment at Washington in September, but has also secured free sleeping accommodations for all old soldiers after arrival in Washington.

New and commodious barracks have been erected in the Washington Monument park, in which we will reserve quarters for all old soldiers and G. A. R. if application is made in advance.

Arrangements have also been made to serve meals in temporary dining rooms in the vicinity of the barracks at very moderate prices.

Special trains containing Pullman and tourist sleepers, chair cars and coaches will be arranged from Kansas, Colorado, New Mexico and Oklahoma, on which we will reserve accommodations if advised of your wishes.

Stop-overs will be allowed east of our lines. Further particulars, such as dates of departure, rates, etc., can be obtained by applying to

W. M. Smith, Agent, A., T. & S. F.

The Best and Shortest Route.

THE MAXWELL LAND GRANT Farm Lands! UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A., T. & S. F. railroad and the D., T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.
