## RICH ON PAPER UNABLE TO RAISE BAIL

### SAD PREDICAMENT OF NEW YORKER IN FOR FORGERY

### Apology to Queen of England for Declaration of Independ- ence Among Curious Papers Seized From Prisoner.

(By Morning Journal Special Leased Wire)

New York, Dec. 5.—With a paper fortune of no less than \$200,000,000, Samuel L. Biddison, the broker who was arrested yesterday afternoon on a charge of forgery, today was still a prisoner in the Tombs unable to raise \$10,000 bail. In looking over the prisoner's papers today, representatives of the district attorney's office brought to light bonds, stocks, coupons and prospectuses, running in value from \$10 to \$100,000, and one statement was found which gave an estimate of Biddison's total wealth at about \$200,000,000. Much of this was represented by claims on large tracts of land in various sections of the country. One blue print was of Cumberland county, Tennessee, and tended to show that Biddison controlled 22,000 acres of land there which was said to be rich in coal and oil properties.

Another paper, an abstract of a title, gave Biddison as the owner of the Robert Morris tract of 320,000 acres centering in McDowell county, West Virginia.

The smallest piece of property mentioned was 100 acres in Lake county, Indiana, but other prospectuses named him as the owner of numerous other large tracts in the same section of the country, in fact running all around the southern end of Michigan and running up into the state of Michigan as far as Muskegon county.

Biddison's arrest was an outgrowth of the arrest recently in Pittsburgh of J. Montefiore Meyers on a charge of larceny of four bonds of the Central Coal, Lumber and Construction company.

One curious paper found among Biddison's effects, and which does not seem to have any financial aspect, purported to be a petition to the then Queen of England, Victoria. To it were attached the names of John Sherman, Grover Cleveland, John D. Rockefeller and seven other prominent men of the last decade. It read in full as follows:

"To Her Majesty the Queen of England, and His Royal Highness, the Prince of Wales:

"We, the undersigned, do earnestly beg your majesty, the most gracious and beloved Queen of England, and his royal highness, the Prince of Wales, pardon for the ungracious act of our forefathers of over one hundred years ago in declaring the independence of the United States. "And now, after one hundred years of independence, we come before you with this petition from a humble people and ask your forgiveness. We also acknowledge our inability to run this government alone, and beg of you that we may have the great and glorious privilege of being annexed to your great and glorious domain, in order that we may thereby enjoy all the blessings of a monarchial government, and we here and now promise you we will never advocate a measure without international agreement."

The other names attached to the agreement were those of Marcus Hanna, John Palmer, George M. Pullman, Simon B. Buckner, John R. Tanner, Lyman J. Gage and John G. Carlisle.

## THIS MAN KILLS WOLF WITH HIS BARE HANDS

### President's Friend Exhibits Prowess in Moving Picture Show at White House.

Washington, Dec. 5.—John Abernethy, United States marshal of Oklahoma, who is credited in many stories with catching and killing wolves with his bare hands and with whom President Roosevelt went on a wolf hunt in Oklahoma, a few evenings ago at the White House gave the president an exhibition with a series of moving pictures, which has been made, showing just how he catches and kills a wolf. The pictures are contained in 6,000 feet of film and embrace, besides the wolf hunting scenes, pictures of "broncho busting," lariat throwing and other characteristic scenes of western life. Arrangements are being made for another view, as the president is to give a treat to some of his friends. It probably will be given at the White House next Tuesday evening.

## GRAVE CRIME ALLEGED AGAINST NIGHT RIDERS

### Aged Negro and Family Brutally Whipped by Lawless Whites.

Camilla, Ga., Dec. 5.—Judge W. N. Spence, of the Albany superior court, has issued warrants for the arrest of Frank Adams and John Rodney, prominent white men of Miller county, charging them with a serious offense. According to the story of Andrew Moore, an aged negro, and

corroborated by members of his family, he had a son in the Miller county chain gang who recently escaped. It is alleged that a party of night riders, led by Adams and Rodney, the latter a deputy sheriff, went to the old negro's house in Baker and charged him and his family with hiding the escaped convict. They denied this, whereupon the night riders, it is charged, took them into the woods and severely whipped the old man, his wife and son, and his son's wife. This bringing forth no confession, it is charged a rope was put around the old man's neck and thrown over a limb of a tree, and he was being slowly choked to death when the rope broke and he managed to escape, followed by a volley of shots.

## CHICAGO STUDENTS ORDERED SEGREGATED

Chicago, Dec. 5.—The University of Chicago today issued a rule that after January 1, women students will not be allowed to live at the same boarding houses where male students are housed. It is the custom of the university to "assign" students to suitable boarding places and as landlords upon the institution, the faculty hopes to be able to enforce this new rule without difficulty. The landlords are to be instructed to provide reception parlors for the young women where they can receive calls at "suitable hours."

**Thompson Wins Decision.**  
Seattle, Wash., Dec. 5.—Maurice Thompson, of Montana, was given the decision over Gene Sullivan, of Butte, in the fifteenth round at Aberdeen last night. The men fought at catch weights. Thompson, weighing 145 pounds and Sullivan 135 pounds. Thompson had the better of the fight from the start and the referee awarded him the decision at the end of the fifteenth round.

**Unsuspected Woof Hangs Himself.**  
Minneapolis, Minn., Dec. 5.—After acting as best man at the wedding of a young woman who he had himself wooed in vain, Edward Thomas last night went home and hanged himself with a strap. The body was discovered today.

## FIGHT TO FREE FUGITIVE FAILS

### COURT DECIDES AGAINST MAN WANTED BY RUSSIA

### Only Action by President or Secretary of State Can Save Christian Rudowicz From Trip to Siberia.

(By Morning Journal Special Leased Wire)

Chicago, Dec. 5.—Christian Rudowicz, Russian refugee, must go back to Russia to stand trial on a charge of murdering three people unless he is saved by the intervention of the department of state or of the president. This decision was clearly indicated by United States Commissioner Foote today after a hearing lasting over a month. Rudowicz is accused by the Russian officials of participating in the murder of Mrs. Wilhelmina Kinzie and her parents at Tabak province of Courland, Russia, in January, 1905. Although admitting that he was a member of a revolutionary body which "condemned to death" the Kinzie family on the ground that they were "traitors of the czar," Rudowicz contended through attorneys that he did not participate in the murder and claimed the right of asylum in this country as a refugee.

Much anxiety was felt when Commissioner Foote announced that the hearing was closed. "If a long decision is wanted I can give it," he said. "It is decided that this is not a political offense and that the evidence of this decision should go to the state department and you wish me to go into detail."

The attorneys for the defense said a detailed decision would be desirable. "Well," continued Mr. Foote, "I have pretty clearly indicated what this decision is to be, but I see no reason for not waiting until Monday to give a formal statement."

Pending the final decision of the department at Washington, Rudowicz will be held in custody, probably in Chicago and if the extradition papers are issued he will be taken to Russia by a United States marshal. It is expected in Russia, of all the charges made against him—robbery, murder and arson—he will be called at penal servitude for no less than forty-three years. No death penalty is imposed for crime, not political in its nature, it is said.

The murder of the Kinzie family took place on the night of January 6, 1906, when a band of armed men knocked at the door of Theodore Kinzie, of Indiana, and Simms, of Tennessee, also attended the nomination. Upon Representative Chandler's motion the election was made unanimous. Representatives Lloyd, of Missouri; Russell, of Texas; and Bartlett, of Georgia, then brought the new leader into the caucus to tell him the news.

## CLARK TO LEAD DEMOCRACY IN HOUSE

### MISSOURIAN UNANIMOUS CHOICE OF THE MINORITY

### New Floor Leader Asks Cordial Support of Colleagues in Diffi- cult Position to Which He is Chosen.

(By Morning Journal Special Leased Wire)

Washington, Dec. 5.—Representative Champ Clark, of Missouri, was chosen minority leader of the house of representatives tonight at a caucus of the democratic members of that body.

Mr. Clark's election was unanimous. His name was suggested to the caucus by the retiring leader, Senator-elect John Sharp Williams, of Mississippi. Resolutions were adopted thanking Mr. Williams for his services to the party on the floor of the house.

In accepting the leadership Mr. Clark said:

"I am profoundly grateful for the great honor just conferred upon me, an honor doubly prized because of the unanimity with which it comes. I hope to discharge the numerous and difficult duties of the position so as not to cause you to regret the action of this hour, but I can not do it, no man can, without the cordial co-operation and constant assistance of his fellows. This co-operation and constant assistance I now invoke in the name of the country and of a great historic party. These interests are largely committed to our hands. To promote them by securing unity of action, there must be some self-abnegation, some yielding of opinion, some sacrifice of ease on the part of every democratic member."

By conference, by pulling together, by regular and punctual attendance on the sessions of the committee and of the house, by sinking personal jealousies, by mutual concessions, we can accomplish much for the welfare of the country and the strengthening of the party of which we are members; for let it never be forgotten, he serves his party best who serves his country well."

"I shall confer with you as frequently as possible and invite suggestions on the principle that in a multitude of counsel there is wisdom. Each member should make himself thoroughly familiar with the business pertaining to his committee and should be in the house to look after it. I have no policy other than to carry out your wishes. Truth to tell, being elected to fill out the unexpired term of my brilliant and long time friend, John Sharp Williams, who voluntarily relinquished the burdens and honors of the position, I feel that it is really his term and his arrangements will be carried out so far as possible. On political questions he and I have agreed as nearly as two men who think for themselves can agree."

"The chief thought in my mind on this occasion and always is that in unity there is strength, and that we must stand together if we would increase the influence of the democratic party as a factor in public affairs. I feel that I now enjoy the friendship of every member here tonight, and of every member who has a right to be here tonight. The fondest wish that I could entertain for myself is that on the fourth of March I will have, as many friends as I have on the fifth of December."

Mr. Clark, in succeeding Mr. Williams, who has been the democratic leader for six years, takes up the leadership with a united democracy behind him. During the six terms he has served in the house he has won the reputation among his admirers of both parties of being one of its most solid and eloquent members. As ranking minority member of the ways and means committee, he has been well to the front in legislative affairs during the last few years.

The program of this expedition will be the election of the new leader was disarranged by the retiring leader, Mr. Williams, who did not wait for the man selected to nominate the Missouri representative, but performed that function himself. As soon as Chairman Clayton, of Alabama, had read the resignation of Mr. Williams as leader, Mr. Stanley, of Kentucky, presented a set of resolutions thanking Mr. Williams for his services and accepting the resignation. Just as that resolution was adopted Mr. Williams arrived. He responded to the applause with a speech which concluded with a prediction of what an excellent leader Mr. Clark would make, not appreciating the situation that the selection had not yet been made.

Mr. Henry, of Texas, was to have followed with a speech nominating Mr. Clark, but all he could do was to approve the manner in which Mr. Williams had performed that task, and to second the nomination.

Messrs. Sulzer, of New York; Mason, of Arkansas; James, of Kentucky; Cox, of Indiana, and Simms, of Tennessee, also attended the nomination. Upon Representative Chandler's motion the election was made unanimous. Representatives Lloyd, of Missouri; Russell, of Texas; and Bartlett, of Georgia, then brought the new leader into the caucus to tell him the news.

## FIFTY SEAMEN PERISH IN STORMS

### NORTH ATLANTIC COAST SWEEP BY HURRICANE

### Mystery Still Shrouds Loss of Steamer Soo City; Now Thought Vessel Was Sunk in Collision.

(By Morning Journal Special Leased Wire)

Halifax, N. S., Dec. 5.—More than fifty seamen have lost their lives off the upper north Atlantic coast during the past few days as the result of a storm of unprecedented severity. The reckoning itemized as accurately as the meager reports will allow, follows:

December 3, seventeen members of the crew of three fishing schooners drowned off the New Foundland coast. December 4, twenty-eight members of the crew of the steamer Soo City, which is believed to have sunk in the Gulf of St. Lawrence.

December 5, seven members of the crew of barge No. 101, which went down off the coast of Nova Scotia. In addition to this death toll, which it will be noted, includes no passengers, there developed a mystery tonight in the discovery of life belts bearing the name "M. G. Stanley," which were washed ashore with the wreckage from the Soo City. No steamer of that name navigating in this vicinity has been reported, and in lieu of any other explanation it is said that these life belts may have been a second hand purchase for use aboard the Soo City.

## ROOSEVELT TO SPEND YEAR IN AFRICA

### OFFICIAL ITINERARY OF FORTHCOMING HUNT

### Party Goes Well Equipped to Secure Big Game and Supply Specimens for New National Museum.

(By Morning Journal Special Leased Wire)

Washington, Dec. 5.—President Roosevelt today, in a statement prepared by Secretary Walcott, at the Smithsonian institution, made his first official announcement regarding the hunting trip to Africa on which he will start within two weeks after he retires from the presidency. The expedition is to be outfitted by the Smithsonian institution, the president defraying his own expenses, and will gather natural history materials for the new National Museum. Mombassa will be reached in April next year, but no detailed itinerary beyond that place has been made except the general route to Victoria Nyanza and thence down the Nile to Khartoum, where it is expected the party will arrive about April 19. The official statement follows:

"In March, 1909, Theodore Roosevelt will head a scientific expedition to Africa, outfitted by the Smithsonian institution and departing from New York City. This expedition will gather natural history materials for the government collections to be deposited by the Smithsonian institution in the new United States museum at Washington, D. C. Besides the president and his son Kermit, the personnel of the party on leaving New York will consist of three representatives of the Smithsonian institution, Major Edgar A. Mearns, medical corps, United States army, retired; Edmund Heller and J. Alden Leeding. On arriving in Africa the party will be enlarged by the addition of R. G. Cunningham, who is now in Africa preparing the president's outfit. He will have charge of a number of native porters, who, with necessary animals, will be formed into a small caravan."

"Mr. Roosevelt and his son will kill the big game, the skins and skeletons of which will be prepared and shipped to the United States by other members of the party. Kermit Roosevelt is to be the official photographer of the expedition. The national collections are very deficient in natural history materials from the dark continent, and an effort will be made by the expedition to gather general collections in zoology and botany to supply some of its deficiencies, but the main effort will be to collect the large and vanishing African animals."

J. Cunningham, who is now engaged in assembling the materials for Mr. Roosevelt's use, has been employed to act as guide and manager of the caravan. Mr. Cunningham is also an experienced collector of natural history.

## WINE MEETING IN PITTSBURG ADJOURNS

### OFFICERS CHOSEN FOR ENSUING YEAR

### Resolutions Urge Compensation of Victims of Accidents; Safe- ty Appliance in Mines; Den- ver to Retain Headquarters.

(By Morning Journal Special Leased Wire)

Pittsburg, Dec. 5.—The eleventh national convention of the American Mining congress adjourned today after a four days' session. The congress adjourned at noon but the election of officers and other routine business was transacted at an afternoon meeting at the Colonial Annex hotel.

The officers elected are: J. H. Richardson, Boise, Idaho, president; Dr. E. R. Buckley, Flat River, Mo., first vice president; John Dearn, Salt Lake City, second vice president; W. F. R. Mills, Denver, third vice president; J. F. Galbreath, Denver, secretary.

The directors elected are: E. G. Bromley, Denver, Colo.; H. Foster Bain, Urbana, Ill.; and Samuel A. Taylor, Pittsburg. Mr. Bromley and the second and third vice presidents comprise the executive council. The secretary was instructed to submit the question of the next meeting place to the directors by a letter vote.

Resolutions were adopted declaring for the "prevention of mine disasters," "compensation for injured miners," "equipment of mines with scientific apparatus to prevent mine explosions" and the "government make a tax of one cent a ton on soft coal to be used for the support of miners' widows and injured miners."

As no action was taken by the convention relative to changing the seat of the national headquarters from Denver, that city will remain the headquarters.

Disappointment seemed to be general that no action was taken on the resolutions referring to the proposed measures to decrease the alleged frauds practiced in the sale of mining stocks and relating to mine accidents and their causes. All these resolutions were referred to a committee.

The reading of a telegram, from Judge Taft, president-elect, in which he said that the mining industry of this country deserved all the assistance which the government can render it, and that the mining resources of the country must be conserved, caused much enthusiasm at the morning session today. President Richards before leaving tonight, summed up the projects upon which the congress will wage a fight during the coming year as follows:

"The most important movements in which we are interested are the establishment of a bureau of mines and mining, federal aid to mining schools, protection to lead and zinc operators and a revision of forestry laws whereby mining operators may be given more latitude."

## UPLIFT COMMISSION AT WORK IN WYOMING

Cheyenne, Wyo., Dec. 5.—Three members of President Roosevelt's country life commission, Kenyon L. Butterfield, of the Massachusetts Agricultural college; C. J. Blanchard, of the United States reclamation service, and Henry Wallace, of Iowa, editor of Wallace's Farmer, arrived in Cheyenne this morning and held two hearings on Wyoming, leaving for Denatons at 5 o'clock this afternoon. The hearings were held at the Industrial club rooms and were largely attended. Governor Brooks, ex-Senator J. M. Carr, President Morica and Prof. Tower, of the Wyoming University, and other prominent citizens and agriculturists taking part in the proceedings which were conducted by Mr. Butterfield, the other members assisting. They expressed themselves as greatly pleased with the interest manifested in their investigations and the assistance they had received here. Three other members of the commission are now traveling along the country by the Northern Pacific.

## SEEK PARDON FOR CONVICT LABOR MAN

Carson City, Nev., Dec. 5.—Charles Moyer, president of the Western Federation of Miners, is spending several days here in the interests of Preston and Smith, the men convicted of the murder of John Silva, the restaurant keeper of Goldfield, during the labor troubles there. Moyer will be joined in this city by Jim Hays, also a prominent Western Federation official, and the two will work together in behalf of the convicted men.

## ARTILLERYMEN KILLED BY COLLAPSE OF BRIDGE

Lawton, Okla., Dec. 5.—Two United States artillerymen from Fort Sil were killed and another fatally injured today when a bridge across Cache creek collapsed with eight

horsesmen on the structure. Privates Bryant and Maxwell, of Battery C, First Field artillery, were killed outright and Private Hicks of the same battery can not recover. Twenty-five artillerymen were making a run to a prairie fire northeast of the post. Some had crossed, eight were crossing and some had not reached it when the structure, which had been considered unsafe and which had been further weakened lately by high water, went down. It was necessary to destroy several houses.

## BANK OFFICIAL SELF SLAIN; BOOKS CORRECT

New York, Dec. 5.—While being driven to his home in Plainfield, N. J., from the railway station late today, William Murray, for many years paying teller of the Empire Trust company of this city, committed suicide by shooting himself in the head.

It appears that Murray, shortly after reaching the office of the Trust company today, complained of feeling ill, and, yielding to the advice of President Leroy W. Baldwin, started back home. Murray's acquaintances are at a loss to account for a motive in the tragedy. President Baldwin said:

"His act is utterly inexplicable. We have had an examination of his accounts made, and find his cash is absolutely correct."

**Hawaiian Governor at White House.**  
Washington, D. C., Dec. 5.—Governor Poyer, of Hawaii, called at the White House today with Secretary Garrison and discussed with the president the needs of the territory and recommendations in its behalf.

**Body of Mine Victim Found.**  
Pittsburg, Dec. 5.—Workmen removing debris from Agnes shaft No. 2 of the mine at Marianna, Pa., where a disastrous explosion occurred a week ago today discovered the decomposing body of another victim, bringing the total number to 140.

**Denver Retains Mining Temple.**  
Pittsburg, Dec. 5.—The national headquarters of the American Mining congress will be retained in Denver as no other action was taken on this question today.

## URGENT PLEA FOR LOWER TARIFF

### MANUFACTURER CLAIMS PRESENT DUTY TOO HIGH

### Convincing Comparison of La- bor Cost of Products With Protection Afforded by Dug- ley Act Schedules.

(By Morning Journal Special Leased Wire)

Washington, Dec. 5.—Referring to over a "dozen trusts" in his arguments for tariff reduction Herbert E. Miles, of Racine, Wis., chairman of the tariff commission committee of the National Association of Manufacturers, was the principal witness before the house ways and means committee today. He was on the stand five hours and will again appear next Tuesday. He was severely questioned by republicans and democrats alike and his remarks caused considerable discussion of the attitude of the political parties in respect to tariff revision. He compared the percentage of the price of certain articles which represented the labor cost with the percentage of production afforded these articles by the tariff.

Chairman Payne repeatedly told Mr. Miles that the committee would like to have a detailed statement of his comparative figures. He contended that the oil, steel, brass goods, car builders, locomotives, farming tools, tinware, glass, rubber goods, leather and lumber so-called "trusts" receive protection that is much too great in comparison with the labor costs on their products.

Although he is chairman of the tariff committee of the National Association of Manufacturers, Mr. Miles made it plain that he did not appear for the association. He claimed to address the committee "as one of the million consumers, as one of the 150,000 to 175,000 manufacturing consumers, as an employer who pays half a million dollars annually in wages and as an independent, non-trusted manufacturer."

"A stone labeled as bread is what we said the farmer is given through the Dugley tariff."

Mr. Miles said the Standard Oil company benefited most from the duty on oil. The standard's wage cost is six per cent of the price to the consumer an duty tariff offers a protection of 33 per cent of the price.

(Continued on Page 2, Column 4.)

## WOMEN RIOT IN SUFFRAGIST MEETING

### CAT-CALLS GREET EFFORT OF MINISTER TO SPEAK

### Militant Suffragettes, Armed With Whips and Chained to Seats Defy Efforts to Remove Them From Hall.

(By Morning Journal Special Leased Wire)

London, Dec. 5.—The rift between the suffragists and suffragettes, the latter being the term generally used to describe the militant section of women agitators who believe in street fights and attacks on cabinet ministers as the quickest means of attaining the ballot for their sex, was further widened this afternoon through a fierce demonstration indulged in by the suffragettes at Albert Hall against David Lloyd-George, chancellor of the exchequer.

The chancellor was addressing a suffrage meeting under the auspices of the Woman's Liberal association. He had hardly got beyond announcing that he was present to make known the government's intention regarding the problem of woman suffrage, when a great uproar broke out. Strident voices from all parts of the hall shrieked: "We want deeds not words."

The stewards of the hall, and there are 320 on hand to deal with the anticipated disturbances, at once moved down the aisle toward the women who had interrupted the speaker, to eject them. They found the women chained to their seats. There then began a confused struggle but finally the chains were cut and the suffragettes expelled.

But the numbers of the disorderly seemed to increase rather than diminish. Some of the women were armed with whips and they repelled vigorously every attempt to eject them. There were fierce tussles every few moments in different parts of the hall and every time the noise became more deafening. The stewards at length lost their tempers and as they continued their work of throwing out the demonstrators, the clothes of many of the women were torn off their backs.

At the end of half an hour or more, the opposition became worn out and Mr. Lloyd-George was able to continue his speech with only occasional interruption. He assured his audience there was a majority in the cabinet and in the liberal party in favor of woman suffrage and that a suffrage clause would be included in the government's franchise bill, which, however, could not be introduced until the eve of the dissolution of parliament. This charge was added that the time of dissolution had not yet arrived, though the end of this parliament was not so distant as some people thought. The liberals, however, still had several accounts to settle and they would demonstrate to the house of lords that the house of lords was not so important as was imagined.

## PROTEST AGAINST IMMUNITY TO FUGITIVE

### New Jersey Governor Demands Re- turn of Alleged Forger Seized in Washington.

Seattle, Dec. 5.—Governor John Franklin Fort, of New Jersey, in protesting against Governor Mead's refusal to return extradition papers for the extradition of Elliott A. Archer, alias C. Archer Carter, wanted in New Jersey on a charge of forgery amounting to \$20,000, and also for wife desertion, wires the Washington governor as follows:

"No purpose in Archer extradition case to take civil proceedings. He is a fugitive from justice and charged with forgery. He left here with another man's wife. Every effort has been made to locate him until now. I protest against immunity to this man."

## FIRMIN CLAIMANT FOR HAYDEN PRESIDENCY

San Juan, Porto Rico, Dec. 5.—General Firmin arrived here today on the Hamburg-American steamer Virginia from St. Thomas. He has with him sixty followers, and is bound for Port au Prince. He declared that he will succeed Nord Alexis as president. The Virginia sails for Kingston, Jamaica, tomorrow.

In Black, Blue and Brown.

Value \$10.00, our price ..... \$5.98  
Heatherbloom Petticoats, the \$3.50 kind. Our price, for ..... \$1.98

## EARLY DOWNFALL OF LIBERAL PARTY PREDICTED

Opposition Gloats Over Defeat of British Education Bill as Evidence of Coming Dissolution of Parliament.

[By Morning Journal Special Leased Wire] London, Dec. 5.—The conservative politicians and press are raising a chorus of joy over the defeat of the government's education bill, and are prophesying the early termination of the liberal administration. The collapse of the government's two most pretentious and carefully prepared measures within a few days of each other, together with the liberal defeat in the Middlesex parliamentary election following several successive rebuffs at the polls, give support to the

assertion that the liberals have lost the country's confidence.

It is well within the range of possibility that the next six months may see a general election.

Some of the liberals suggest that the government frame and pass a bill curtailing the power of the lords, and that when that body throws it out, the government should appeal to the country on that issue.

The only noteworthy project left to consider at this session is the Irish land purchase bill, but the chance of its passing is poor.

The liberals object to the scheme of the committee of the house of lords, directed toward reform in that house, because their party under the proposed plan, would be deprived of only a small fraction of the members of the upper house.

How One Doctor Successfully Treats Tuberculosis.

"In treating tuberculosis," says Dr. W. J. Smith of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While, of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have not failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by all druggists.

## ENGINEERS DISCUSS FIRE PROBLEM

Enormous Loss of Life and Property in United States Every Year From Avoidable Conflagrations.

[By Morning Journal Special Leased Wire] Pittsburgh, Pa., Dec. 5.—The national advisory board on fuels and structural materials, a body composed of the most distinguished engineers and scientific men of this country gathered here today to discuss the work now under way at the Arsenal testing station of the United States government in this city. The board was appointed two years ago by President Roosevelt.

At the close of today's session Richard L. Humphreys, of Philadelphia, secretary, said:

"We have some tremendous problems before us. In the first place we are making an earnest endeavor to reduce the number of deaths in coal mines. The members of the board believe firmly that there will be a lower death rate within the next few years.

"Another phase of the work relates to stopping the waste and once to the mining of coal but also to its utilization. The government is also endeavoring to save the timber resources. Last year the losses in the United States amounted to the tremendous total of \$225,000,000. This is from six to seven times the loss in Europe. Three-fourths of the entire loss in the United States resulted in frame buildings which contain faulty and defective construction. A sad feature is the number of persons injured to death each year."

**SURETY CONCERN IS UNDER SUSPICION**  
New York Company Ordered to Reject New Business Pending Investigation by State Insurance Department.

[By Morning Journal Special Leased Wire] New York, Dec. 5.—State Superintendent of Insurance Otto D. Kelsey was in this city today to personally look into the affairs of the Metropolitan Surety company in whose capital and surplus a report of the department reported an impairment of \$150,000. The company has been ordered by the department to reject new business pending further new business. The present financial condition of the company

has been reported. Superintendent Kelsey states, after a steady decline in its surplus due to various causes. The present management, it was said, had inherited from former regimes the results of bad risks and there have been more recent losses especially in Chicago and San Francisco. Efforts to secure additional capital were not successful.

Mr. Kelsey states that the company has thirty days in which to put its affairs on a solid basis.

The company's business was chiefly the bonding of contracts, private and governmental building state and municipal deposits and leasing insurance against losses by burglary. It did business of a million dollars a year.

According to A. J. McCloskey, president of the Metropolitan Surety company, the company will be able to strengthen out its affairs in a day or two and in a short time will have met all its obligations.

President McCloskey said today that after a conference with the directors he was able to state that the company will rehabilitate itself through an agreement to be made, and through help that has been offered from outside.

**HER FIGURE IS TRIM, HER FORM SUBLIME**

The actress looked debonair, though the play had been pronounced a flop by the critics.

"It's got to succeed," she explained, "and for that reason I'm not nervous. Last season I played seven new parts and I learned a lot of good things from the customers. This season I am indulging with health. My form is ideally proportioned. I look the Marmola prescription to get this sublime figure, and a woman's figure cannot be made perfecter than what Marmola has made in me. A doctor friend of mine gave me the prescription. It's a brick. It's so simple, just eat at any drug store 15 ounces Marmola, 15 ounces Fluid Extract Cascara Aromatica and 15 ounces Peppermint Water and take a teaspoonful after meals and at bedtime. Now I have the strength, endurance and power of a dozen stars. I tell you I am going to be it." With this the leading lady bowed the audience and smiling after him. "If you have any lady friends tell them about Marmola, but impress upon them that there are cheap substitutes on the market that do not do the work." Marmola Co., Detroit, Mich.

**FRENCH ADMIRAL LOSES OFFICE FOR LOOSE TALK**

Paris, Dec. 5.—Vice Admiral P. L. Germeau, commander-in-chief of the French Mediterranean squadron, has been relieved of his command because of the publication of an interview in which he was alleged to have declared that the warships of France were not sufficiently supplied with ammunition.

## FUMES DEVASTATE VAST AREA IN MEXICO

Poison Gases From Phenomenal Oil Wells Near Tampico Offer Problem Difficult to Solve.

Washington, Dec. 5.—Fumes so strong that all metals in a town sixty-five miles away are turning black, buzzards, parrots and other birds are dying in great numbers, and the eyesight of people far away is affected, are announced as among the many remarkable results of the great flow of the Mexican oil well at Dos Bocos, Mexico. Since the recent fierce conflagration there, which, as published at the time, consumed several million barrels of oil, during its almost two months' continuance the best engineering skill on both sides of the Mexican-United States boundary has been engaged in the effort to control the flow and conserve the oil. Immense earthen reservoirs and dikes have been built, but the oil passed over these with ease and spread over the landscape for several miles. Men and animals, reports General Griffith of Tampico, are dying from the effects of the noxious gases constantly blown off in great quantities by the wells. Occasional a bog in Vera Cruz state, several leagues distant, and Tampico, sixty-five miles distant, are experiencing the blackening of metal from this cause and all ships entering Tampico from Vera Cruz and passing near the wells show the effects of the poisonous gas. The Diaz government has sent the army to the well and supports to assist the company and protect the lives and property of the people living and working in that vicinity.

**GERMAN NAVAL PROGRAM OPPOSED IN REICHSTAG**

Berlin, Dec. 5.—The debate in the Reichstag today on the imperial budget resulted in animated discussion of the naval program as well as the foreign situation of Germany. Herr Juchacz, secretary of the imperial treasury, went over the details of the revenues and the expenditures. He reported to the assembly the necessity to put the budget of his ministry on a proper basis and he was followed by speakers of various parties who criticized the increased outlay in building battleships, a fact, a member of the center party said, that was taken as a challenge by other nations.

## CHRISTMAS BUYING STARTS WITH A RUSH

First Day of Active Holiday Shopping Indicates Busy Three Weeks for Albuquerque Merchants.

Yesterday marked the opening of the holiday shopping season in Albuquerque with indications that the coming twenty days will be busy ones for local merchants. Threats of rain failed to keep the people at home and during the afternoon and the early hours last night the streets were unusually busy, with the stores where Christmas goods are on display getting the major portion of the shoppers.

The special Christmas lines on display this year are unusually attractive, offering a wide range of acceptable holiday gifts at prices that are somewhat in favor of the buyer as compared with the past three or four seasons. The tendency in selecting holiday lines this season has been plainly

toward useful articles and there will be general distribution of the holiday buying among all retail lines. Practically all of the larger retail stores of whatever lines, have already placed their holiday lines on display and those who have not will come forward with that this week. The buying season in Albuquerque for Christmas things is usually a short one, confined generally to the two weeks just before Christmas. This year buying has begun somewhat earlier, several merchants last night commenting on the tendency to buy at once this season instead of the customary period of looking things over. Next Saturday will find the holiday trade in full swing.

State of Ohio, City of Toledo, Lucas County, ss:

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney and Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Signed to before me and subscribed in my presence this 6th day of December, A. D. 1908. A. W. GLEASON, (Seal.) Notary Public.

## DENVER UNIVERSITY DEFEATED BY INDIANS

Hard Fought Football Battle  
Ends in Score of 8 to 4 for  
Carlisle Aggregators.

(By Morning Journal Special Leased Wire)  
Denver, Dec. 5.—On a field soft and  
in spots muddy from the recent snows,  
Denver university held the Carlisle In-  
dians to a close score, the latter team  
winning, 8 to 4.

All of Carlisle's points were scored  
in the first half by Hauser, who made  
two pretty goals from the field. Den-  
ver's score came in the second half  
after a brilliant exhibit of the new  
and old styles of football. Bruce  
kicked a field goal from the thirty-  
eight yard line. The teams were about  
evenly matched in all departments of  
the game, with the exception of run-  
ning back points. It was here that Den-  
ver showed to the best advantage.  
He brought forth extra time after  
time on his runs through a broken  
field. Crawley, of Denver, played a  
strong defensive game, closely follow-  
ed by Leiber. For the Indians, Thorpe,  
Hendricks, Hauser and Balcutt star-  
red.

Denver kicked off at 2:25. After an  
exchange of punts in midfield, Carlisle,  
by line bucking, carried the ball to  
Denver's thirty-yard line. Hauser  
kicked a place goal. Score, Carlisle  
4, Denver 0.

After the kick-off the ball was  
carried back and forth, Carlisle finally  
scoring it on their own five-yard line.  
They rushed the ball to the Denver  
twenty-five yard line, but it was on a  
fumble. Denver punted and Carlisle  
ran the ball back to Denver's forty-  
yard line. Hauser kicked another  
goal. Score, Carlisle 8, Denver 0.

Thorpe, on a beautiful end run, car-  
ried the ball to center field for a twenty-  
two yard gain. The half ended with  
the ball on Carlisle's twenty-eight-  
yard line. Score at half, Carlisle 8,  
Denver 0.

In the second half the aborigines  
kicked off to Denver on the eight-  
yard line. In a series of end runs,  
track plays and line bucks, Denver  
carried the ball to within a foot of  
the goal line, but lost the ball on  
down. It was a magnificent exhibition  
and brought the crowd to its  
feet with loud cheering. The Indians  
kicked out and after a series of in-  
teresting attempts to pierce Carlisle's  
line, Bruce fell back for a Princeton  
and placed the ball between the posts  
for Denver's only score. Score, Carlisle  
8, Denver 4.

## MRS. READ TOO ILL TO APPEAR

Attorney Secures Continuance  
for Woman Who Used Dynamite in Alleged Blackmail At-  
tempt.

(By Morning Journal Special Leased Wire)  
Denver, Dec. 5.—Again the sensa-  
tional and almost deadly exhibit of  
Mrs. Allen J. Read, who on January  
1, attempted to extort \$25,000 from  
Mrs. Genevieve Chandler Phelan and  
hurled a stick of dynamite when  
Special Officer J. R. McDonald, of the  
International Trust company, sought  
to arrest her, has been revealed to  
public notice.

Attorney Charles W. Waterman,  
counsel for Mrs. Read, appeared in  
the criminal court today and asked  
for further time in which to demand  
plea to the charges brought against  
his client. He represented that Mrs.  
Read is still too ill to appear, and  
offered an affidavit of her attending  
physician in substantiation of his  
statement.

Judge McBride reset the case for two  
weeks hence.

Two informations against Mrs. Read  
have been filed. The first, made up  
of the affidavits of the Phelans, charges  
Mrs. Read with attempt to extort  
rob and commit tax evasion. In this case  
the bail was fixed at \$3,000, and was  
furnished by W. A. Davis and R. S.  
Morreghon.

The second information, made up  
of the sworn statement of Special Detec-  
tive McDonald, charges that Mrs.  
Read made an attempt with intent to  
kill the officer.

Panama Loan Oversubscribed.  
Washington, Dec. 5.—A loan for \$10,  
000,000 of the bonds of the Panama  
canal zone, under Treasury Depart-  
ment's circular of November 13 last,  
closed at the treasury department at  
4:20 this afternoon.

The number of bids of entry indi-  
cates that the loan has been greatly  
oversubscribed. Secretary Clegg  
stated this evening that in view of the  
work involved in the tabulation of  
the bids no information as to the num-  
ber and prices could be obtained un-  
til Monday.

HARRIMAN ORDERS  
FREIGHT EQUIPMENT

Portland, Ore., Dec. 5.—Anticipat-  
ing an entirely unprecedented period  
of prosperity for the coming year the  
Harriman interests have placed orders  
for additional freight equipment val-  
ued at \$1,250,000 for the Oregon Rail-  
road and Navigation company. The

## RACE HORSES GO TO MEXICO

Proposition Made to American  
Turf Association to Establish  
Circuit in Mexico City.

Louisville, Ky., Dec. 5.—Propo-  
sition to race American horses in  
Mexico City was learned here today.  
Hats recently been made in Colonel  
M. J. Wilson of this city, president  
of the American Turf association.  
Within a few weeks, Colonel Wilson,  
accompanied by Alexander, Danvers,  
secretary of the Eastern Jockey  
club, and Mr. Davis, secretary of the  
Louisville Jockey club, will go to  
Mexico to look over the field. If the  
plans develop as expected the work  
of establishing American racing in  
Mexico will continue and the first ses-  
sion will open in January, 1919, with  
the running of the \$25,000 Mexican  
Derby as the opening event. Some  
time this month a meeting will be  
held in New York City with those in-  
volved in the project.

Colonel Wilson said today that he  
believes the outlook for racing in Mex-  
ico is most encouraging and thinks it  
will afford a fine field for American  
horsemen and breeders and one that

will in part compensate for the re-  
verses they have recently met.

He also said the American Jockey  
club which will have supervision and  
general control of racing in Mexico,  
has already been formed with many  
of the most famous American turf-  
men and breeders interested in it.  
Among them are Messrs. Keene, Hag-  
gin, Whitney, Butler, Dwyer, Fellans-  
lee and Mackay.

Ground for the race track at the  
City of Mexico has already been ac-  
quired. It is near the castle of Cha-  
pultepec, within fifteen minutes ride  
by street car from the heart of the  
city. There are one hundred acres in  
the site and the Jockey club is ready  
to spend \$300,000 on the plant.

It is proposed to have a circuit of  
Mexican cities. Beside the City of  
Mexico it is particularly certain that  
Jamaica and Monterey will be in this  
circuit. The Mexican government has  
agreed to give the Jockey club \$25,-  
000 a year for ten years. It provides  
for the ground on which the plant  
at the City of Mexico will be built  
and concedes the racing privileges for  
twenty years to the Jockey club.

## REVIVAL OF BICYCLE RACING

Expected Exciting Event at  
Madison Square Proves Dis-  
appointment; Six Day Event  
Starts.

(By Morning Journal Special Leased Wire)  
Madison Square, Garden, N. Y., Dec.  
5.—What promised to be an excit-  
ing revival to the introductory program  
of exciting events heralding the an-  
nual six-day race at Madison Square  
Garden wound up disappointingly to-  
night.

Bobby Walthour, of Atlanta, Ga.,  
America's best pace follower, was  
matched for a ten mile motor paced  
race against Albert Willis, of London,  
who holds the world's one-hour paced  
record of 51 miles 94 yards. The  
event which was expected to be hotly  
contested was won easily by Willis.

The race had to be started twice as  
Walthour had a flat tire after they  
had gone three quarters of a mile.  
This caused a delay of twenty min-  
utes. When the race started afresh  
Walthour was penalized fifteen yards.  
When they had gone four miles and  
eight feet Walthour lost his pace and  
could never make up the handicap.  
The little Englishman finished in easy  
fashion twelve laps ahead. All of the  
men who were to take part in the ten  
mile contest for professionals, which  
was won by Floyd MacFarland, of  
San Jose, Cal., who was about five  
yards ahead of Eddie Root, of Brook-  
lyn, twice winner of the six-day race  
in the Garden. Summary:

Three cornered match race, profes-  
sional, best heat, one-half mile.—Won  
by Frank L. Kramer, East Orange, N. J.  
Major Taylor, Worcester, Mass.  
second, Victor Dupre, Paris, third,  
Time 1:47 3-5.

Second heat, mile.—Won by Dupre;  
Taylor, second, Kramer, third. Time  
2:20 1-5.

One-quarter open amateur, final  
heat.—Won by A. L. Halstead, Sacra-  
mento, Cal.; Wm. Vanderdries, New  
York, second; Adam Heyerman, Ne-  
bora, third. Time 2:25 2-5.

One-half mile, handicap amateur,  
final heat.—Won by Guy Perdon,  
Brooklyn (25 yards); E. O. Dredt,  
Williamsbridge (75 yards); second,  
Herman Heints, New York (65 yards),  
third. Time 2:20 seconds.

Three cornered race, professional,  
final heat.—Won by Kramer; Dupre,  
second; Taylor, third. Time 2:28 1-5.

The first heat in the international  
at triangular race between Kramer,  
Taylor and Dupre puzzled the onlook-  
ers as Kramer won the first of a half  
mile in the form but was badly beat-  
en in the second at a mile, finishing  
a poor third with Dupre and Taylor  
finishing as named about two wheel  
lengths apart. The French champion  
won the time as to the distance of the  
third which proved to be the decisive one  
and chose a mile. Kramer after the  
first two laps went for the inside in  
doubt and won by a scant margin of  
eighteen inches from Dupre with Tay-  
lor trailing.

The two amateur events were pro-  
ductive of spirited finishes. A. L. Hal-  
stead, of Sacramento, winning the  
one-quarter final. The half mile handi-  
cap went to Guy Perdon, of Brook-  
lyn.

Ten mile open professional.—Won  
by Floyd A. MacFarland, of San Jose,  
Cal.; E. F. Root, Brooklyn, second;  
George Wiley, Syracuse, third. Time  
2:24 4-5.

Ten mile motor paced match race.  
—Won by Albert Edward Mills, Lon-  
don, paced by Charles Harrell, Rob-  
ert A. Walthour, Atlanta, Ga., sec-  
ond, paced by Lawson. Time 17:02 3-5.

## Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

### Dr. Pierce's Golden Medical Discovery

**Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.**

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insist that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Address: World's Dispensary Medical Association, R. V. Pierce, M. D., Pres., Buffalo, N. Y. Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

## ASKS BIG DAMAGES FOR DEATH OF HIS SON

Twenty-five Thousand Dollars  
Asked From City on Account  
of Death of Adolfo Ruiz, Al-  
leged to Have Been Caused  
by Poor Street Crossing.

Narciso Ruiz, administrator of the  
estate of Adolfo Ruiz, deceased, yester-  
day afternoon filed a suit in the  
district court, through his attorneys,  
Chavez and Sedillo, asking judgment  
against the City of Albuquerque for  
\$25,000, costs of the suit and attor-  
neys' fees, as the result of the death  
of his son, Adolfo Ruiz, which, it is  
alleged, was caused by negligence on  
the part of the defendant in allowing  
a bridge crossing at the corner of  
Edith street and Copper avenue to re-  
main in an unsafe and insufficient  
condition. The complaint alleges that  
on September 2 of this year, young  
Ruiz was riding on a horse on North  
Edith street, on his way home to the  
north part of the city, and that as he  
was riding across the Copper avenue  
bridge, both himself and the horse  
were pitched headlong down the em-  
bankment into the arroyo below. Ruiz  
receiving a fractured skull, internal  
injuries and bodily bruises, from which  
he suffered great pain and anguish of  
mind and body and subsequently died  
three days later. The complaint fur-  
ther states that young Ruiz was a man  
twenty-one years of age, in the prime  
of life, endowed with good physical  
and mental capacities and capable of  
earning large sums of money, with  
which he supported his parents. As  
compensation for the death of his son,  
Mr. Ruiz asks judgment in the sum  
of \$25,000.

Hart Asks for New Trial.  
John Hart, through his attorneys,  
Kramer, E. Wood and G. S. Klock,  
yesterday afternoon filed a motion in  
the district court asking for a new  
trial in the case of Hart versus the  
Citizen Publishing company, which  
which was tried a week ago, and in  
which the jury rendered a verdict in  
favor of Hart, allowing him \$500 as  
compensation for the publication in  
the Evening Citizen of August 23,  
1906, of two alleged libelous articles  
concerning the late John Hart, which  
as a result of the publication of the  
articles his character and business had  
been damaged to that extent. In the  
petition for a new trial, a number of  
contentions are made which allege  
that various errors were made by the  
court in the rulings made on matters  
of law and the admission of certain  
evidence.

Sullivan Asks on Promissory Notes.  
Sullivan, through his attorney,  
Messrs. Chavez and Sedillo, filed a suit  
asking judgment against Robert J.  
Chavez, for the sum of \$118, attor-  
neys' fees and costs of the suit. Plea  
alleges that on April 1, 1907, he signed  
a promissory note for Chavez and that

neither the principal or interest of the  
same has been paid.

Ferguson and Crews, attorneys for  
Mrs. Olive Corcoran, filed a suit ask-  
ing judgment for \$450 against T. M.  
Mickiewicz, alleging that the defendant  
owed this amount to the plaintiff on  
account of a promissory note dated  
September 2, 1908.

Liquor Cases on Trial.

Steve Balling, proprietor of the Ice-  
berg saloon, was found not guilty of  
selling liquor to a minor, by the jury  
which sat in the case brought against  
him on that count by the territory.

Balling was indicted by the grand jury  
on a charge of selling intoxicating  
liquor to Ralph Pollock, an eighteen-  
year-old boy. Pollock was the chief  
witness for the prosecution and testi-  
fied that he had purchased various  
intoxicating liquors at the Iceberg on  
different occasions. The jury was  
out but a short time when it rendered  
a verdict of acquittal. W. C. Hancock  
was counsel for Balling. Young Pol-  
lock was also the chief witness in a  
similar case brought by the territory  
against Joe Barnett, proprietor of the  
St. Elmo saloon. Pollock's testimony  
was taken and filed away for future  
reference. The case will be taken up  
further later during the term of court.

Pollock's testimony was to the effect  
that he had purchased a glass of beer  
in the St. Elmo on a certain occasion,  
but was unable to fix any approximate  
date, or unable to say whether he paid  
for the liquor or whether it was paid  
for by some one else.

HAPPY RESULTS OBTAINED.  
By the Use of the New Scalp Anti-  
septic.

It wouldn't take long to number the  
hairs in the heads of some people,  
the reason being that they haven't  
many to number. In most instances,  
however, the fault is their own. A  
germ at the root soon plays havoc  
with the most luxuriant growth and  
causes it to fade and fall out. A remedy  
for this has been recently discovered,  
called Newbro's Herpicide, that acts  
by destroying the germs that cause the  
damage, besides removing all impuri-  
ties from the scalp. In addition it  
permits new life and vigor to enter  
the scalp, and happy results are sure  
to be obtained from its use. Try it.  
Sold by leading druggists. Send for  
in stamps for sample to The Herp-  
icide Co., Detroit, Mich. Two sizes, 50c  
and \$1.00.

B. H. Briggs and Co., special agents.

## NEW GOLD CAMP IS WELL DESCRIBED

Dr. Fayette A. Jones in "South-  
western Mines," Tells of  
Conditions at Sylvanite, N. M.

Dr. Fayette A. Jones, the well  
known geologist and mining expert of  
this city contributes to the issue of  
"Southwestern Mines" just published  
a comprehensive writeup of the new  
gold camp of Sylvanite, N. M., which  
has caused so much of a sensation in  
mining circles in the last few weeks.  
The article is illustrated with a view

## BENNETT'S CURIO STORE

# FINANCE AND COMMERCE

## Wall Street.

New York, Dec. 5.—Violent fluctuations and excited speculation in a number of stocks were the fruit of speculation of rumors which lacked confirmation. The movement in the stocks immediately affected had so much of an appearance of artificiality that stocks were sold in other portions of the list and the price movement thus made irregular and confused and at last greatly weak. The favorable reports from Vienna of the outlook in the Balkans had some depressing effect. Another increase in sugar freight rates for the half month ending November 25 reported by the American Railway association was not liked and was coupled with the opinions expressed by several railroad officials that buying of railroad equipment would be slight for the immediate future.

The bank statement gave abundant evidence to the effects of the withdrawal of cash for export of gold and for restoration of government deposits and of the bond flotations of the week. It is manifest also that with the more profitable money rates the trust companies have become bolder in an enlarged scale. The actual conditions of the clearing house banks show a decrease of \$9,000,000 in the last item, although the daily average for that item, however, is \$6,698,200 but the \$26,557,600 net expansion of the banks outside the clearing house and the trust companies indicate the force of the week's demand. Preparations for the day's operations of the Panama canal bond floated in part in the region. The decreased cash holdings of the banks was larger than the previous estimate, and it is believed that the trust companies are responsible also for these withdrawals, in preparation for January disbursements. In consequence of this action the week's clearing house balance rose to \$119,149,550 which constitutes a record. Closing stocks:

### COLORADO RIVER LANDS

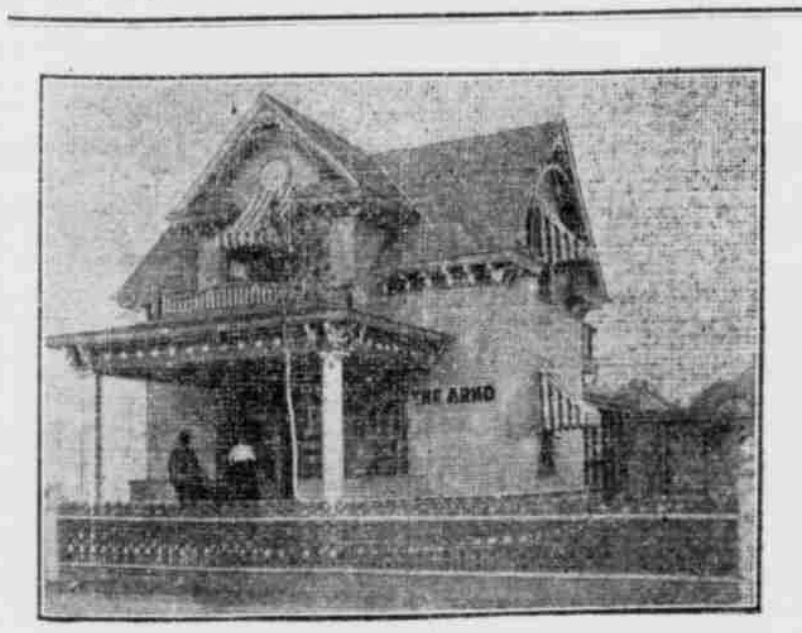

PALO VERDE VALLEY AND BLYTHE RANCH ACREAGE: \$40 AND UP, WITH WATER

The Blythe Ranch, consisting of 40,000 acres in the heart of the Palo Verde Valley, in Riverside County California, is a second edition of the famous Imperial Valley, the soil of which is equal in every respect. It has the advantage of being 245 feet above, instead of below sea level, and it is simultaneously irrigated and fertilized by the Colorado river, through a model system of canals owned and operated by the farmers themselves.

## A Splendid Chance For Investors.

The Blythe property offers an exceptional opportunity to the investor and the homemaker because development has just begun and the initial prices are less than either land or water rights separately are bringing at any point where the soil is fertile or the water unlimited. If you are seeking a location in which you may secure a comfortable home with assured income, together with a chance to benefit through the certainty of largely increased values, write for literature or interview.

**J. C. CLARK,**  
Address Room 12, N. T. Armijo Bldg., Albuquerque, N. M.  
Telephone 547.

**THE ARNO**—Now open for parties wishing first-class board and room. No invalids wanted. \$18 S. Arno. Phone 1027. Sunday dinner, 50c.

# Danderine

GROWS HAIR  
and we can  
**PROVE IT!**

A lady from Minnesota writes:  
"As Danderine grows hair, my hair  
is close to five feet in length."

## Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful, the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nutriment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions). The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. One 2-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

**NOW at all druggists in three sizes,  
25c, 50c and \$1.00 per bottle.**

**FREE** To show how quickly Danderine acts, we will send a larger sample free by return mail to anyone who sends this free coupon to the

## Beautiful Furs at Reasonable Prices—Leaders in the West

Most furs—in most people's—look pretty much alike. But to experts there is a world of difference in the pelt, and it is this difference which we insist upon when selecting our stock. We are now showing all the furs which have found favor with Dame Fashion this season, at uniformly moderate prices. Black fox, black and wolf head, caracul, broadtail, etc., follow. Our prices on sets range from \$7.50. Separate pieces from \$2.50.

## Cut Glass Specials

Decided Reductions. It is the best make and is unsurpassed in crystal and agate cutting. Elegant berry bowls, decanters, pitchers, vases, napkins, celery dishes, water bottles, tea bowls, cups, compotes and other pieces in the new shapes. Just 150 pieces. And to induce you to buy from us we will allow you a special discount of 20 PER CENT from marked price. We have taken all our coffee, salted almond dishes, pickle dishes, that sell from \$2.00 to \$5.00 each and placed them on a separate table and marked them \$1.50 each, for choice of over 20 pieces.

## Christmas Shopping Is Under Way

Farsighted people are doing their Christmas shopping NOW—before the rush begins and when the best selections are to be had. You will benefit by following their example. Make out your list TODAY—bring here TO-MORROW—and later on you'll be thankful that you acted on this suggestion.

We are ready to solve each of your gift-problems with rare satisfaction and economy.

## Christmas Handkerchiefs

Our buyer took up the task of Christmas stock assembling with a determination to still more firmly establish "The Economist" as the Great Handkerchief Store of the West. His persistent seeking and buying in all the handkerchief markets has brought together here for the regular holiday trading.

### ALMOST 1,000 DOZEN HANDKERCHIEFS

representing about every degree of quality and late fad and fancy known to handkerchief factories and to the patient needleworkers of Europe and the Orient. We are convinced that if you carefully inspect this endless array and learn the actual price advantage our direct importation makes possible, you will make this—for most part—your handkerchief store. The following list can convey little satisfactory information until you see the myriad of entirely new and exquisitely artistic little pieces which in our store news must of necessity be classed under the old groupings.

Women's Fine Embroidered Handkerchiefs at 15c, 19c, 25c, 50c, 75c and upwards.

Women's Initials, at 19c, 25c, 35c and 50c.

Women's Embroidered French Linens, colored plaid effects, at 50c and 75c.

Women's Fine Hand Embroidered Madeira at 50c, 75c, \$1.00, \$1.50, \$2.00.

Women's Fine French Needlework at \$1.25, \$1.50, \$2.00, \$2.50, \$3.00, \$3.50.

Madras, Princess and Armenian Lace Trimmed Handkerchiefs at 50c, \$1.00, \$1.25, \$1.50.

Ladies' Pure Linen Hemstitched Handkerchiefs, good at 5c, for 5c each.

Ladies' Pure Linen Crossbar H. S. Handkerchiefs, value 20c, for 15c each.

Children's Handkerchiefs, put up in fancy boxes, such as automobiles, bureaus, telephones, regular selling price each containing 3 handkerchiefs is 50c; sale price 35c.

They also come in upright boxes, suit cases and trunks, each containing 3 handkerchiefs, selling regularly at 35c; sale price 25c.

## A Great Ribbon Sale

## GIANT COLLIER IS CRUISER YANKEE IN LAUNCHED AT MARE ISLAND

First Ship of Her Kind to Be Built by American Government—Slides into Native Element.

(By Morning Journal Special Leased Wire)

Mare Island Navy Yard, Cal., Dec. 5.—Following up a cloud of smoke from her stern the giant collier Prometheus, first of her kind to be built in a government dock yard, slipped gracefully into the waters of Mare Island channel shortly after 11 o'clock today and was brought to a standstill by the great hawsers trailing to her bows within the fort at the end.

When the great black hull began to move an instant after Miss Della Rivers, daughter of Naval Constructor Holden A. Rivers, had started a little of champagne on the vessel's bow and green bow main boom of the Prometheus.

In the shadow of the collier's bow the same instant, Constructor Henry was directing the blue and white boats who cut through the last few blocks that held the Prometheus in her berth of steel and wood. There was a light grating of timbers, a burst of the platform that held the distinguished guests and almost imperceptibly the vessel began to move. She was the first of her kind to be launched with her own weight carrying with her the fragments of wood that had held her in place and slipped easily on the ways, and not on an even keel in the water until she straight and true toward the V-shaped stern until she had cut the length of her bows.

The stream of water from the ways in channel and shore in the next second, the music of a band that played "America" in the air for the launching was given and the cheers of sailors, marines and civilians who witnessed the ceremony greeted the collier's first dip into the water.

A score of distinguished guests thronged about Constructor Rivers and Captain J. S. Phelps, Jr., commander of the yard, tendering their congratulations upon an undertaking that has no precedent on the Pacific coast.

Through the efforts of the California Promotion committee and a joint committee representing the Valley chamber of commerce, the Merchants' association, the Trades and Labor council, the launching was made an affair of state importance and with business men represented for the day in Valley, friends of the Prometheus, proved the threatening weather and came to Mare Island by steamer.

The completion of the vessel in the recent time of sixteen and a half months and the knowledge that she is the first large steel ship ever constructed in a government yard on the Pacific were the principal points of discussion at a brief ceremony that followed the launching.

Following the address of Governor J. S. Gifford, of California, the interest in the event, Naval Constructor Rivers, under the "Ship Building at Navy Yard" and J. O. Henson, of the California Promotion committee, drew upon San Francisco's history to the state's naval navy yard.

Walter McArthur, Jr., spoke in appreciation of the efforts of the building committee.

## CRUISER YANKEE IN DANGEROUS FIX

Ill-Fated Warship Sinks in Shallow Water When Attempt Is Made to Tow Her from Buzzard's Bay.

(By Morning Journal Special Leased Wire)

New Bedford, Dec. 5.—With only a portion of her forward deck, her funnel and her mainmast protruding above the water, the United States cruiser Yankee, which yesterday was floated from the deep-water dock and taken to Buzzard's Bay, where she had been held for two weeks, ended tonight on the bottom of Buzzard's Bay, not far from Provincetown, the state capital.

Although the Yankee's position and condition are not favorable, it is the opinion of naval engineers that her rescue will not be such an easy task. It is believed that the vessel is in a position to be raised, but the cost of the operation is estimated at \$100,000. The vessel was damaged by a collision with a rock in the harbor of Provincetown, and it was found that the hull was cracked and the machinery was damaged.

The vessel was towed from the harbor of Provincetown to Buzzard's Bay, where it was found that the hull was cracked and the machinery was damaged.

The vessel was towed from the harbor of Provincetown to Buzzard's Bay, where it was found that the hull was cracked and the machinery was damaged.

## THE PUEBLO AS A WORK OF ART

The southwestern Indian as a work of art is a subject that has long been popular in this section. The possibilities of the picturesque Pueblo are being more and more fully brought to the attention of the public. The well-known artist of this city, by his own and careful study of the New Mexican village Indian in his own country, has succeeded in bringing to the public the "artistic" value of the Pueblo. He has produced a series of photographs which show the effect of the Pueblo on the landscape and the effect of the Pueblo on the life of the people. He has produced a series of photographs which show the effect of the Pueblo on the landscape and the effect of the Pueblo on the life of the people.

## SOUTHERN PACIFIC LOSES CHIEF ENGINEER

Seattle, Dec. 5.—I've resigned, not only from the service of the Southern Pacific, but from railroad work for good," said A. M. McPartland, "I have private interests in the Bellingham neighborhood which will occupy my time."

## Don't You Know

POINT NO. 1—That our line of imported hand painted china is the best in the city?

POINT NO. 2—That we handle a choice assortment of post card albums ranging in price from 10c to \$1.50?

POINT NO. 3—And that ours is the store that's never undersold?

SAM KEE'S, 215 S. Second St.

as from of article and the "Variety" team.

The first semester of the present year closes, Friday of next week, December 15, and the second semester will begin January 4, 1909, giving a two weeks' vacation.

The last regular faculty meeting for the term will be held Monday afternoon at 2 o'clock in the university building.

The December bulletin of the regular quarterly publications is on the press and from the pen of Professor Watson of the biological and climatological department.

Mr. E. W. Roberts, architect and inspector of the new government building, visited the campus Wednesday to observe the new buildings. He expressed himself as much pleased with the style of architecture and its appropriateness to the environment.

## OLEOMARGARINE WITH FALSE LABELS SEIZED

Tempe, Ariz., Dec. 5.—What is sold in the biggest mall on the continent, a mass of oleomargarine, has been seized in Tempe, Ariz., by the federal authorities. The amount of oleomargarine in the store, which was valued at \$200,000, was seized by the federal authorities. The amount of oleomargarine in the store, which was valued at \$200,000, was seized by the federal authorities.

The most important seizure so far in the history of the oleomargarine trade in the United States, was made in Tempe, Ariz., by the federal authorities. The amount of oleomargarine in the store, which was valued at \$200,000, was seized by the federal authorities.

**FOURTH LETTER FROM  
SANTA CLAUS**

Toyland, Dec. 4, 1908.  
My Dear Friends—I wrote you  
yesterday about some of the books at  
Strong's Book Store. Today I want  
to tell you something about dolls,  
doll carriages and doll beds. You see,  
Strong has made a big window dis-  
play of these articles and you can get  
some faint idea of the stock from  
the window, though not all the vari-  
eties were used in this exhibition.  
They have everything in blue-  
china, rag, kid covered and hand-  
some dressed dolls ranging in  
price from 5 cents to \$7. I feel sure  
the price can't be beat on these  
lines of dolls and would advise you  
to make your selection early.  
Just a lot of the little folks will  
want doll carriages. Only a few of  
these samples are in the window for  
lack of space, but you can find any-  
thing from a 50-cent to a \$3.50 fold-  
ing carriage. These are the nicest  
line of carriages I have seen for the  
money, and it is worth your while to  
see them.  
Then there are the doll beds, all  
qualities and prices, from 75c up to  
\$4.50. The prices on these are at least  
25 per cent below the ordinary.  
Now, my friends, do not delay your  
Christmas shopping this year. People  
generally are beginning early and  
first thing you know the best stock  
will have been sold and you will have  
to take what is left.  
Your friend,  
SANTA CLAUS.  
P. S.—Don't you know a subscrip-  
tion to one of the standard maga-  
zines would make a nice Christmas  
present? Strong will attend to it for  
you.  
SANTA CLAUS.

One of the largest and most delightful events of the season was the "at home" given by Mrs. Mary Ellsworth Hickey, Miss Hickey, Miss Wether and Miss Hewitt yesterday afternoon from two to six, at the home of the first mentioned. The entire Hickey household was ornamented with pink and greens, a huge spruce tree in charge of Mrs. George S. Klock and Mrs. E. A. Blither affording great amusement for the guests. Each lady was pre-

pared with a package of home-made candy, wrapped in small handkerchiefs and ornamented with sprigs of mistletoe. Presiding in the dining room were Mrs. W. H. Barney, Mrs. W. G. Hope, Mrs. A. H. McMillen and Mrs. Frank Moore, assisted by Miss Bonnie Haddridge, Miss Blanche Perkins, Miss Mary Murrell and Miss Freda Smith. Little Katherine McMillen and Anne Clark attended the door.

\*\*\*

The Theta Kappa Delta society held a meeting last evening at the home of Miss Gladys McLaughlin, 1114 West Marquette avenue. At the conclusion of the routine business, two new candidates for admission to the society, Miss Gertrude Walker and Miss Grace Horradally, were initiated into the mysteries and secrets of the fraternity. Those present were: Miss Margaret Roberts, Miss Jackmann, Lillian Spitz, Lillian Rosenfeld, Gladys McLaughlin, Floucia MacReicher, Ellen McMillen, Estelle Luffy, Josephine Campbell, Jeanette Brown, Gertrude Walker and Grace Horradally. Dainty refreshments were served after the initiation.

\*\*\*

At the Woman's club meeting Friday last week's program was given in charge of the library department. The members of Mrs. Wether's club, being absent, the department was led by Miss Margaret Mueller. Following was the program:

1500 Call—Famous Pioneers.  
Paper, "Spanish and Mexican Rule," Mrs. Lee.  
Reading, Miss Davis.  
Debits—"Should Now Mexico Be Admitted to High-road" ATW motto.  
Mrs. Allright, Negative, Mrs. Frank Moore.

## HARDWARE and SADDLERY

## FOREST BUREAU IS ALL DISTRESS FROM INDIGESTION NOW IN ACTIVE OPERATION

Albuquerque is Now the Official Headquarters for Transaction of all Government Timber Business in New Mexico, Arizona, Oklahoma and Arkansas.

Beginning with yesterday, all matters connected with the occupancy, possession, purchase, operation, settlement or culture of all national forests in what is known as the fifth official district, will be conducted from the headquarters of the forestry bureau in this city. Nearly every one of the sixty-five forestry officials and employees who have been designated to positions in the Albuquerque headquarters were at their desks in the second floor of the Lins-Strickler building yesterday morning. Although handicapped on account of some things which it will take time to overcome, the work of conducting the affairs of the district were taken up with a vim early yesterday morning and continued until late last evening. The clerical work of many typewriters operated by pretty stenographers and typists, messenger boys hurrying on their way to the various offices with important messages, and the concentrated expression on the faces of the higher officials, hard at work, giving their attention to important matters which needed immediate attention, were the impressive sights which met the eyes of the casual visitor to the headquarters yesterday. Although the offices had been in operation but a few hours, there were already evidences that a great deal of business had been transacted within that short space of time. Every one of the employees, from the chief forester down to the messenger boys, were constantly busy—every one of them seemed to have lots of work to do and seemed to be doing it as quickly and systematically as possible. Among the new officials and employees who arrived from the east yesterday morning and Friday night and took their desks at the headquarters were: W. O. Wahn, chief of operation; W. M. Jamerson, law department; A. H. Recknagel, assistant chief of silviculture; G. Griffin and J. R. Hubbard, settlements department; Miss Cornelia Schickles, Miss Glass and Miss Thorne, of the occupancy department; Mrs. A. E. Harris, mail department; Miss Baker, silviculture, and a number of others. Chief Forester A. H. Ringland was at his desk all day, busy issuing orders to his assistants and attending to other important matters. Hugh H. Harris, chief of occupancy, was also at his desk in that office. Mr. Harris is well known here, having been supervisor of the Mescalero forest, with headquarters in Albuquerque for over a year.

"Albuquerque should consider herself fortunate in getting the department," said Mr. Harris. "There were

All Misery in the Stomach Will Be Relieved Five Minutes After Taking Some Diapepsin.

Does it ever seem to you how busy that little stomach of yours is? It actually only holds three pints, though in one year you force it to take in 2,500 pounds of material, digest it and prepare it for assimilation to the blood. Do you wonder at the number of cases of indigestion and stomach trouble? You crowd it with drinks and pastry, irritate its folds with spices and acids and expect this little four-ounce mill to do its work.

Is there any wonder that your food passes undigested, or lays like a lump of lead in the stomach? That everything you eat turns to acid, stomach gas and stomach poison, putrefying the intestines and digestive canals.

A number of strong bids in from other cities in this part of the continent, all asking that the headquarters be established in those places. Albuquerque, however, had the most ideal location for the department and won out. The establishment of the bureau will mean a good deal for the city. This is not evident at the present time, but will become soon after things are adjusted to their regular course of business. The payroll of the department officials and employees will amount to more than \$5,000 a year, and nearly all of this will be spent here.

Persons who have never been in Washington and witnessed a bureau or department of the official government in operation can obtain a bird's eye view of the work by making a visit to the local headquarters.

### SEVEN MILLION IDLE WORKMEN IN ENGLAND

Washington, Dec. 5.—Over 7,000,000 human beings in Great Britain are enduring hardships, and want through nonemployment, and the general federation of trades unions has advised all union men to refuse to work overtime, reports Consul General Wynne, of London. The federation points out that for every skilled workman employed two unskilled men are idle. It urges the employment of surplus labor by national and municipal work, and recommends the establishment of a national department of labor whose head shall hold a cabinet portfolio.

**Roosevelt Practices Shooting.**  
Washington, Dec. 5.—President Roosevelt spent several hours today in rifle practice on the farm of Surgeon General Hixley, of the navy, at Cherrydale, Va., about five miles from this city. Accompanied by General Hixley, the president left the White House much earlier than usual, and behind a span of speedy horses was driven to the Virginia farm. Half a dozen rifles and plenty of ammunition were carried along.

### NEW MEXICO LAMBS IN STRONG DEMAND

Heavy Shipments Scheduled to Pass Through Albuquerque for Feeding Grounds During Next Ten Days.

According to the best informed buyers and commission men the demand for New Mexico lambs from the feed pens of Colorado and Kansas may exceed the supply this year. During the next ten days it is estimated that fifty sixty to seventy-five thousand head will pass through the Albuquerque stock yards, a major portion of the shipments coming from Socorro and Valencia counties, consigned to Colorado feeders. The lambs are in fair condition this season though generally not up to the high standard of a year ago. Moreover, the lambing season in New Mexico this year was not as successful as during the exceptional seasons of 1906 and 1907 and it is estimated that the average over the territory will be little better than fifty per cent. This shortage has tended to sharpen competition among the buyers, most of whom make Albuquerque their headquarters.

During the past three years Albuquerque has come to be the recognized sheep and wool center for the entire southwestern territory, a position which the past season has made absolutely secure. The tendency, according to the buyers who know whereof they speak is more and more toward a centralization of the buying operations in this city.

**How One Doctor Successfully Treats Pneumonia.**

"In treating pneumonia," says Dr. W. J. Smith, of Sanders, Ark., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While, of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice, and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by all druggists.

### COURT HOUSE HANGS ON RIVER BRINK

Engineers Declare Costly Structure Damaged by Floods at Pine Bluff Must Be Torn Down.

[By Morning Journal Special Local Wire] Pine Bluff, Ark., Dec. 5.—Early tonight the Arkansas river which for the past few days has steadily encroached on this city, was at a standstill and danger of further great losses is over. At midnight, however, rain began to fall which will add another menace through the softening of the banks. By tomorrow the river will begin to recede.

Three buildings were swept into the stream today. The actual loss during the week is estimated at \$251,000, and the estimated depreciation of property value is at least as much. Hundreds of men are still at work building fascines, and the city has been dumped into the river in the past ten hours in the rear of the Jefferson hotel and the Jefferson county court house. The hotel is now believed to be safe for the time being, but immediate repair of the damages, and the re-establishment of government dykes are demanded now as the business community in order to protect business blocks from further damage. The new court house, erected just two years ago at a cost of \$100,000, will have to be torn down. The north-east corner of the big building overhanging the river's edge, and government engineers declare that the structure should be condemned. It may slide to the river at any moment.

Dine at the Columbus Hotel—you'll be in good company.

### KEEN INTEREST IN CHAFING DISH DRAWING

Five Hundred Ladies Visit "Sign of the Indian Horse" to See Holiday Offerings.

There was keen interest among Albuquerque ladies yesterday in the chafing dish drawing offered by John Lee Clarke, Incorporated, at the Sign of the Indian Horse. Attracted by the offer of a free chance on the handsome \$25 hand hammered brass chafing dish and the opportunity to see the attractive lines of holiday goods on display five hundred ladies called at the store during the day.

The drawing last night at 9 o'clock attracted a crowd that filled the store. The lucky winner was Mrs. Frederick R. Pettit, of 515 South Water street.

"We gave out four hundred and fifty chances during the day," said Mr. Clarke last night, "and there were probably from fifty to one hundred ladies in during the day who did not care for chances."

The chafing dish drawing was very successful and interest in this popular store is likely to continue throughout the holiday season. From now until Christmas day a handsome souvenir watch will be given away with every purchase of \$2 or over.

The drawn work sale will be an especial feature of The Sign of the Indian Horse during the holiday season.

There are fifteen hundred pieces of the finest grade of drawn work, the entire stock, which will go on sale at twenty per cent discount from the regular price.

**LOCAL AND PERSONAL**

**Forecast.**  
Washington, D. C., Dec. 5.—New Mexico—Partly cloudy Sunday with possible rain or snow in east and north portions of New Mexico, Monday fair. Arizona—Fair Sunday and Monday.

Music today at the Arno. See advertisement on page 9.

An excellent home-cooked dinner at the Delaney Cafe, under Savoy hotel, from 11:30 to 7:30.

E. V. Chavez, of the law firm of Chavez and Sedillo, returned yesterday from Los Angeles, where he has been on a visit to his family.

Attend Leon B. Stern's big closing out auction, in progress every afternoon and evening. Have any article put up that you wish. You know you set the price.

Victor Proctor, superintendent of bridge construction at the Albuquerque division of the Santa Fe Coast Line, was a visitor in the city yesterday. Mr. Proctor was accompanied by Mrs. Proctor.

The Cash Millinery Store, at 219 South Second street, will begin a grand clearance sale Monday morning, December 7th, at which their entire stock of hats, worth up to \$15, will be offered at \$5. Over 100 hats from which to choose—nothing reserved. Come early for first choice.

George W. Roope, of Boston, is in the city in the interest of a Hub City wool concern. Mr. Roope was formerly a frequent visitor in Albuquerque, and a heavy purchaser of New Mexican wool clips.

The Modern Brotherhood of America will hold an important meeting Monday evening, December 7, in Red Men's hall. Election of officers to serve during the coming year and other business of much importance is to be transacted. It is desired that all members be present.

The management of the Albuquerque Athletic association is endeavoring to make arrangements to match Harry Wallace, a well known Las Vegas boxer, in a fifteen-round go with Will Petrus, of this city, before the club here.

"The Chansman," the play which has created considerable of a sensation all over the country will be presented at the Elks' theater in Albuquerque on the night of December 14 and promises to be one of the best attractions of the season.

If you are in need of bedroom furniture or furnishings of any nature, do not fail to see the large display advertisement of Solie & Leffert in today's issue of the Morning Journal. The gentlemen comprising this firm are about to retire from business, and with this object in view, are closing out their stock for what it will bring.

A Chicago dispatch says that Miss Mavis Turner, of Evanston, Ill., has come into possession of valuable mining properties near Silver City, N. M., through the death of her father, L. M. Turner, of Albuquerque. Miss Turner is expected to arrive in New Mexico soon to take over the properties.

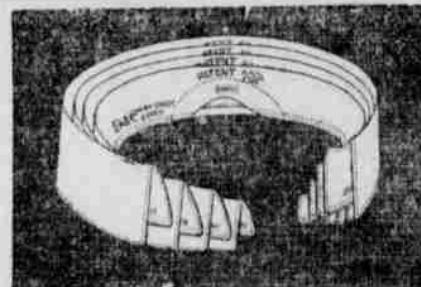

It is estimated that more than 75,000 lambs will be shipped through Albuquerque to Eastern and Northern markets between now and December 15, the bulk of the shipments to come

## CHICKERING PIANOS

### FOR CHRISTMAS

Nothing makes a more appropriate or a more valuable gift to your son or your daughter, your wife or your family, than a PIANO. It is not a thing of a day or a year that will soon pass away as its value belost as are most Christmas gifts, but on the contrary, will last a lifetime. It is something the whole family can enjoy. It will bring the refining effects of music into your home. It will provide the possibility for your daughter to become a musician, which is a certain doorway to social favor and appreciation. It will add tone to your parlor, and all the time it will be a valuable asset, a safe investment of your money. There is no finer piano than the old time-tested CHICKERING & SON. If you buy a piano, buy a GOOD one.

Anything else is a nuisance to yourself and an abomination to your neighbors, besides being a poor investment. Do not allow yourself to be persuaded that a "Chickering Brothers" is a CHICKERING & SON, for it is NOT, only an imitation. We are sole agents of the genuine Chickering in New Mexico, as well as other and less expensive makes. If you are interested in Pianos, Call or Write

**THE WHITSON MUSIC COMPANY**  
EVERYTHING IN THE MUSIC LINE. ALBUQUERQUE, NEW MEXICO

### BORE OF BECKWITH PASS TUNNEL COMPLETE

Salt Lake, Dec. 5.—The final bore in the Spring Garden tunnel of the Western Pacific railroad, the Gold extension to the Pacific coast, was made yesterday when fresh air passed through the entire length of 7,500 feet. This is the famous Beckwith Pass tunnel, and twenty-seven months have been spent in boring it and constructing the difficult loop approaches on the western side of the Sierras. The completion of the tunnel marks

the crossing of the Sierras by the Western Pacific at a maximum height of 5,019 feet and the completion of the entire road with a maximum grade of less than one per cent.

**THE FUTURE FURNITURE CO.**
