-BRIEF WIRINGS-

A Rothschild.
LONDON, Sept. 22.—The Daily Telegraph states that Alfred Rothschild will be one of the English delegates to the international monetary conference.

Got There.
LONDON, Sept. 22.—Capt. Andrews in his sixteen foot dory which sailed from Atlantic City, N. J., on July 2, arrived here yesterday. The captain is well.

Will Make Two More Cardinals.
LONDON, Sept. 22.—The Telegraph Vienna correspondent says: "It is reported that the pope will create Archbishop Ireland and Monsignor Preston cardinals at the next conclave."

The I. O. O. F.
PORTLAND, Ore., Sept. 22.—At a session yesterday of the sovereign grand lodge of Odd Fellows the headquarters of the order was changed from Columbus, Ohio, to Baltimore, Md., the vote standing 150 to 125.

The Dead Messenger.
EL PASO, Texas, Sept. 22.—J. A. Blomberg, who was killed in the Santa Fe wreck yesterday, lived in this city, where he has for several years been one of the most trusted messengers of the Wells Fargo company. He left here Tuesday as a special messenger in charge of a large package of bonds from the City of Mexico.

He Played and Lost.
DENVER, Sept. 22.—John J. Shotwell, manager of the Colorado Hammer Brick company, has left for parts unknown and there is a \$10,000 deficit on the books of the company. He is accused of squandering his money in gambling. The company holds the checks which he gave for his gambling debts, and the gamblers will probably be sued.

Phoenix Find.
PHOENIX, A. T., Sept. 22.—In digging a sewer on Madison street, workmen have broken into a burial place of a prehistoric race, and the find will settle many questions heretofore disputed by scientists. The fact that they cremated their dead is proven by the finding of several urns containing the ashes of their bodies, together with their teeth and pieces of skull.

Wants his Pay.
OMAHA, Sept. 22.—Brad D. Slaughter, United States marshal for the district of Nebraska, has vacated his office because the government has not, he asserts, paid his bills for fourteen months. He says he will not resume his duties until his claims for \$10,000 are paid. Uncle Sam twice before was too slow for Slaughter, delaying pay for a year and again for eighteen months.

For Conspiracy.
PITTSBURGH, Sept. 22.—The grand jury yesterday returned true bills against all the Homesteaders charged with murder and aggravated riot and conspiracy. There are 167 indictments in all. Among the indictments are three for murder against Hugh O'Donnell, Hugh Ross and Burgess McLuckie. O'Donnell is also indicted for riot and conspiracy. It is not known when the trials will begin.

The Grand Army.
WASHINGTON, Sept. 22.—The 26th national encampment of the Grand Army of the Republic began its session in Alhambra's opera house yesterday. The address of Commander-in-Chief Palmer and various reports occupied the greater part of the day. Just before adjournment Indianapolis was chosen by acclamation as the place for the next encampment. The day is not yet fixed.

Wants to Fight Corbett.
NEW YORK, Sept. 22.—A local sporting journal received a cablegram from London yesterday stating that Bill Dexter had issued a challenge to fight George Dixon, the colored feather weight champion, for \$2,000 or \$5,000 a side and the largest purse offered. The message also says that Charlie Mitchell has deposited a forfeit of 500 pounds and renewed his challenge to Corbett for \$10,000 a side and a purse of 500 pounds in the Olympic club in February. Mitchell says that Corbett must fight in six months or forfeit the championship.

A Dying Poet.
CHICAGO, Sept. 22.—A story appeared in one of the local papers to-day to the effect that the A. T. & S. F. company had given notice of withdrawal from the Trans-continental association. Nothing of the kind has been done. President Marvel was probably more surprised than anybody else by the story and it is said it was not the intention of his company to file such notice at present. It is believed that a sufficient number of members have already withdrawn from the association to kill it, and that the rest will accordingly be released without any formal action on their part.

An El Paso Tragedy.
EL PASO, Sept. 22.—Yesterday John L. Hart, a gambler, shot and killed a woman supposed to be his wife, shot at her 2-year old girl babe and then shot himself twice in the left breast. It transpires after the killing that the woman is the wife of Myer Cohen, a bartender in San Antonio, and that she left her husband about three months ago and came away with Hart, who deserted his wife. It is said that Hart has been abusing the woman and threatening to kill himself for several weeks. On this account she had left him, and at the time of her departure was in one of a suite of rooms occupied by "Doc" Bolton and the woman who smuggled him out of a Mexican jail last year. Hart is still living.

Good for Carnot.

PARIS, Sept. 22.—President Carnot has pardoned Edward Parker Deacon, who was sentenced to prison for one year for killing Abelle, his wife's paramour. Mrs. Deacon was a daughter of Admiral Baldwin, of the United States navy, and had passed a number of years abroad, where her beauty and wealth gave her great social success. She fell in love with Abelle, a representative of one of the oldest and proudest French families, and they were inseparable. Deacon followed them to a hotel where he found her and wife, and killed him before her eyes. The whole of France applauded his act.

Sensational Tauby.

CHICAGO, Sept. 22.—A dispatch from St. Louis to the Interior Office says that Chairman Taubeneck, of the People's party national committee received summons by wire yesterday to hasten to Indianapolis to attend a meeting of the national executive committee to-morrow. When he was asked the object of the meeting he replied: "I will say that there is a big deal and if I choose to make it public I could create a sensation in every close state in the Union and several other states that are not considered doubtful. There is a gigantic deal going on in these states. It will come to a head in two or three weeks and then I will be prepared to give out some startling information. I do not care for the sensation to originate in the People's party headquarters if I can help it."

Cholera.

NEW YORK, Sept. 22.—Patrick Stewart, aged 50 years, was yesterday removed to the reception hospital as a suspected cholera case.

NEW YORK.—Courtlandt Van Rensselaer, of this city, who was a passenger on the Normanna during her recent trip from Hamburg to this port, and who was detained at quarantine and afterward, has begun suit for damages against the Hamburg-American packet company for \$10,000.

NEW BRUNSWICK.—A bacteriological examination shows that James Carr, who died here recently, had the real Asiatic cholera.

WRECKED BY ROBBERS.

AN A. T. & S. F. Train Carrying \$1,000,000.—Failed to Get the Booty.

TOPEKA, Kas., Sept. 22.—The passenger train on the A. T. & S. F. was wrecked by train robbers three miles west of Osgood City early yesterday morning. The train, consisting of baggage, express and mail car, two day coaches, two chair cars, and three sleeping cars, was thrown over an embankment and the first six cars telegraphed. Four passengers were killed outright and twenty-five seriously injured. The killed are: Frank Baxter, express messenger, Kansas City; J. A. Bloomberg, express guardman, Mexico; James Chaddock, fireman, Topeka; Ed. Myer, engineer Topeka.

There is a heavy down grade and the train was running fully forty miles an hour. It was impossible for the engineer to stop the train in time to check the train and the coaches were piled on over the other with the baggage and express cars completely hidden from view.

The Pullman sleepers broke loose and remained on the track, but the other cars were entirely demolished. Men, women and children were piled together in writhing, shrieking heaps, dead, dying and wounded. Many were caught in the seats or thrown through the windows.

The train carried \$1,000,000 owned by the Mexican Central railroad in transit to Boston.

Major W. H. H. Llewellyn, live stock agent of the road, was on board the wrecked train and claims to have taken possession of the box in which the Mexican Central currency was placed. Major Llewellyn says the money was in an iron-rimmed box, three feet long, and was buried so deep in the wreckage that the robbers could not have found it.

THE GREAT SAN JUAN.

A Progressive People Promise the Republican Nominee Hearty Support.

Messrs. Catron and Bartlett at Aztec.—Telling Speeches Enthusiastically Received.

SPECIAL CORRESPONDENCE OF THE NEW MEXICAN.
AZTEC, N. M., Sept. 16.—The trip of Mr. Catron and Gen. Bartlett into San Juan county is very auspicious of good results to the Republican party in New Mexico. On the journey from Durango to Aztec, out of the thirty odd people met, all but one expressed themselves as hearty supporters of Mr. Catron for delegate; and the lonely one said, "If Tom Catron will pledge himself to work for statehood as hard as he works for himself, I will vote for him." As the Republican candidate's interests all lie in that direction, and as the pledge was cheerfully given, the head of the ticket is sure of that vote. It may possibly have been that Republicans were out traveling yesterday, but the hearty reception tendered the party on the road and at this point, certainly augurs good for the party.

The only lingering trace of the feeling aroused over the county seat contest finds expression in a determination of the Junction City advocates to cut out all Bartlett pear trees, and never plant another in that end of the valley.

TALKING TO THE PEOPLE.

The meeting to-night was held at the church, and a large assembly greeted Messrs. Catron and Bartlett, and the numbers of the audience were constantly augmented by fresh arrivals until after the meeting was well underway. Mr. Allen T. Bird, editor of the Index, presided, and happily introduced the speakers.

Mr. Catron spoke with his usual vigor, was listened to attentively, and his many hard hits at the non-progressiveness of the Democratic party were heartily appreciated. He paid his respects first to present situation and the condition of present slavery in which the territorial constitution holds the people of New Mexico, and placed before his hearers the disadvantages of our present status and the difference that would result when we put on the vestment of statehood. The infamously alien act was then taken up and dissected. It was shown how it was passed by a Democratic congress in 1887, signed by Grover Cleveland, and not opposed in its passage through the house by the Hon. Antonio Joseph, then a member of the house committee on territories, at whose deliberations his vote counts as much as that of any other member. Had Mr. Joseph displayed any force of character or had shown up the false resultant to his country from the passage of such an act, it would never have been recorded among the United States statutes. The manifold evils flowing from its passage were never better illustrated than in San Juan county—a section highly favored by nature, blessed with fertile fields and personal streams, covered with miles of blooming farms, and yet all the industry of the people and the advantage of their situation

IS PRACTICALLY PARALYZED

by the effect of the "alien act," which, standing as a fence against foreign capital, prevents the building of a railroad. The bringing home of this matter so directly to the people had a marked effect. And the opinion was expressed freely after the speech that the purpose of the act was to compel investment of foreign capital in the older states rather than in the territories, and much comment was made on the large investments that had flowed to the east since 1887.

THE WOOL INTERESTS.

The speaker called attention to the great loss which would result to our sheep growers and miners by the passage of the bills abolishing the duties on wool and lead ores which have lately passed the house of representatives without any objection from our delegate, Mr. Joseph, and without a word of protest from the Democrats of New Mexico, especially the convention lately held at Santa Fe where Mr. Joseph was nominated for re-election. Also to the fact that no demand was made for the repeal or change of the anti-alien act.

Gen. Bartlett followed Mr. Catron and paid particular attention to the necessity of statehood to properly handle our great land interests. The litigation about the Navajo lands was subjected to analysis, and the methods by which the lands were first given to the Indians, then to the settlers, and back to the Indians again was sharply criticized. Gen. Bartlett's cordial relations with the citizens of this county tended to greatly facilitate matters.

Mr. Catron and Gen. Bartlett speak to-morrow, the 17th, at Farmington and the next day at Largo. Mr. Catron is assured of a rousing reception and majority by such a leading Democrat as Jim Lorin, who has just bought an interest in the San Juan Times, which while Democratic will advocate the election of Catron.

What a really gay old time the grizzly veterans of the grand army have been having in Washington for the last few days. The brave boys in blue deserve it all.

The corruption fund in this county is to be swelled by large contributions from the candidates; this money is to be made back in the sweet by and by, provided success is attained by the Democratic ticket; well, it's all in all wind that blows no one any good; the contributions will have to be spent with the people.

DO YOU?

Do the voters of this city and county want a return to the corrupt and raffish rule under Democratic officials, when the public funds were squandered and handcuffed prisoners were abused and mangled over the head with pistols and clubs in the hands of raffish so-called officers of the law? If they do, why let them vote for the Democratic bosses' candidate for sheriff and collector and they in all likelihood will have some of this sort of business and lawlessness.

FEELING SHAKY.

It is an open secret about national headquarters that the Democracy is feeling very shaky just now over the political situation in North Carolina, South Carolina and Alabama. Within the past week representative men from these states have brought the most cheering reports to national Republican headquarters, coupled with the demand that Republican speakers be sent there to enlighten the people on the subject of good government, protection and reciprocity. Chairman Carter feels right well over the outlook in the states named.

THE POLL TAX LAW.

The poll tax law, in its effect upon elections, is an instrument of fraud. It is un-American, and must be repealed—Eddy Argus.

The law in question was passed by the Democratic White-Cap house of the 29th legislative assembly; this body is the one which unseated honestly and regularly elected Republicans without hearing and without contest and simply for the purpose of making a two-thirds majority therein.

In the council five Democratic-White Cap members and two Republican councilmen voted for it. This is the record.

But the Democratic bosses and candidate Antonio Joseph now go about perverting these facts and asserting that the statute in question was passed by Hon. T. B. Catron in order to put additional burdens upon the people and to restrict the elective franchise.

WHAT DEMOCRATIC SUCCESS IN SANTA FE COUNTY MEANS.

The Democratic county administration owes the people of this county to-day the neat little sum of \$21,000 tax money collected. Were this money in the county treasury every floating debt could be paid off, salaries could and would be paid promptly, a new sale and modern jail could be built, and the roads and bridges of the county would be improved.

But so far, although it is plain and patent that the money in question is justly due this county, the bondsmen of the late sheriff are fighting for delay and are doing everything to get out of making good the shortage. Democratic success means more of that self-same business for this county and means the loss absolute of the \$21,000 shortage in question.

Here is another very important point for the tax payers, property owners and the business men of this county to consider and to consider seriously. Democratic success means more of that self-same business for this county and means the loss absolute of the \$21,000 shortage in question.

ENGLAND IS UNCOMFORTABLE.

Protection in the United States is gradually working a change in free trade England. It is not a change that is very satisfactory to our English cousins, nor is it altogether pleasant to those on this side of the water, but on the principle that charity begins at home this change must certainly be accepted as a sure indication that we are on the right track to make this more than ever "America for Americans."

That the policy pursued by this government in past years has served merely as a prop to bolster up England's free trade government is amply shown by the tenor of the financial and trade journals over there, and since they have ceased to bluster and deal in facts it must be admitted that England is to-day on the verge of very serious financial troubles, compared with which the Baring collapse will amount to nothing. A very shaky feeling is reported to exist in financial and trade circles, as witness what the London Journal, Land and Water, of date 17th September, says:

"Within the past twenty-four hours seven cities in the west end have been definitely closed; several London journals are on the verge of disaster; five of the largest and most important estates in England are shortly to be sold; several commercial firms of high repute and reputation are now distressed, and the number of well known men prominent as society entertainers is vanishing."

SOME MORE PREPARATIONS, MR. JOSEPH?

In a recent interview at Albuquerque, Mr. Joseph asserted plainly, as plain as English can make it, that Gov. Prince had written letters to poll tax collectors anent the receipt of the poll taxes. The following is Mr. Joseph's language:

"What about your chances for election, Mr. Joseph?"

"I feel entirely confident on that point. I will be elected by a good majority. In Taos and Rio Arriba the Republican clerks of school districts have, acting under instructions, systematically refused to receive poll tax from Democrats. It has been a most reckless proceeding, but Governor Prince, has written to these school clerks and told them to issue receipts for every poll tax tendered before the 8th of September when the tax was offered at a later date. I will carry my own county by a good majority and every other county in the territory except Bernalillo, Santa Fe, Valencia and possibly Rio Arriba."

Shortly after the publication of Mr. Joseph's assertion, however, comes Gov. Prince and states just as plainly that he has written no letters, as asserted by Mr. Joseph. He says this in the following interview, taken from the Albuquerque Citizen.

"Gov. Prince was asked this morning as to the correctness of Mr. Joseph's statement regarding the poll taxes in Taos county, and said: 'Mr. Joseph is certainly mistaken when he says that I have written letters to the school collectors directing them to issue receipts. I have written no such letters and would have no power to direct them to do anything.'"

In view of the emphatic denial by the governor, people are bound to assume that Mr. Joseph allowed himself to talk again too much and make statements not borne out by the facts and such as are untrue.

TERRITORIAL PRESS COMMENTS.

A Good Nomination.

Col. Albert J. Fountain has been nominated for representative in the legislature by the Republicans of Dona Ana. A good nomination, one that will bring success to the Republicans of Dona Ana county and dignity and ability to New Mexico's legislative hall.—Kingston Shift.

New Counties.

There is no objection to the eastern portion of this county cutting off and setting up a household of its own. It is for the people of that section to say whether they want it or not, and if they want it and are willing to take upon themselves the burdens and responsibilities, there can be no objection from the balance of the county. We are told that the people east of the creek are practically a unit for a new county. If that is the case, let the new county be created by the next legislature.

ture. The time must come when all the great countries will be divided up. We do not think that the proper time has arrived for a division of this county and Moqui, but the people here will not have to wait any of the land, and if our neighbors over there are willing to assume the responsibilities, let them depart in peace and friendship.—Springer Blockman.

A Safe Prediction.

The Democratic territorial convention at Santa Fe last Saturday, renominated Hon. Antonio Joseph for delegate to congress. The gentleman will have the political fight of his life, and while the index man is neither a prophet nor the son of a prophet he will venture a prediction that Mr. Joseph will not get there this time.—San Juan Index.

Democratic Chickens are Coming Home to Roost.

The Headlight and some other Democratic sheets are printing an item on tribery with the law, and their comments. This we presume applies to the poll tax law, or is intended by them to so apply. The fact is the Democratic party have been paying poll tax for their voters right and left and are not because they could not get all the funds they wanted. The truth is, gentlemen, your Democratic chickens are coming home to roost. That poll tax law was one of the most iniquitous ever passed, and it was devised and passed by the Democrats in the last legislature.—Socorro Chieftain.

HARRISON'S LETTER.

THE PRESIDENT'S ABLE DOCUMENT ACCEPTING THE NOMINATION.

A Powerful Review of the Work of the Republican Party During the Past Four Years—Results of the Policy—Reciprocity—Other Matters.

President Harrison has issued a message to the American people. In dignity and elevation of tone, in breadth of statement, in deliberation and care of statement it is worthy of a place with the ablest state papers of the nation's history. His letter of acceptance, in form addressed to the committee from the Republican national convention, is in substance a powerful review of the work which has been done for the country by the administration and by congress since power was intrusted to the Republican party four years ago. It directly appeals to the people to decide whether this work merits a vote of want of confidence. The appeal is not personal. Modestly the president attributes to others a great share of the credit for grand accomplishments.

To the leaders and members of the Republican congress he gives high praise, nor does he hesitate to honor Democratic members who have faithfully guarded the honor of the country in foreign affairs. More than once a tribute is paid to Mr. Blaine, whose zealous services, the president says, deserve the nation's thanks. The appeal is on behalf of the principles and measures which the president so ably represents.

President Harrison devotes much of his space to a most convincing statement of the results attained by the policy of reciprocity. He shows how it has alarmed Great Britain and other nations, how anxiously European traders are appealing to their governments in some way to resist what they call "the commercial crusade of the United States," how British exports to Latin American countries have declined \$39,750,000, while our own exports to countries with which treaties have been made have increased \$37.7 per cent.; how great are the benefits already secured for American farmers and workmen; and how then appeals with great power to the people to decide whether the party which styles this "sham reciprocity," and proposes to abolish it, shall be preferred.

The review of the results of protection, and particularly of the new tariff, would gladden the heart of every American citizen if the minds of some were not darkened by partisan prejudice. After showing that prices have been lowered and wages advanced; that new industries transplanted and established here and the revival or enlargement of others "have given employment to many thousands of American men and women, and will each year give employment to increasing thousands," the president urges that its repeal "would throw thousands out of employment and give work to others only at reduced wages." Yet nothing else than repeal can be expected from the party which declares all protection unconstitutional.

This new departure of the Democratic party, the president well says, if executed "would at once plunge the country into a business convulsion such as it has never seen." But if it be said that this radical policy will not be executed if Democracy gains power, the president asks, "What shall be thought of a party that is capable of trifling with great interests?" It is with the dignity of true statesmanship and the earnestness of strong patriotism that the president says, "This mad crusade against American ships, the bitter epithets applied to American manufacturers, the persistent disbelief of every report of the opening of a tin plate mill or of an increase of our foreign trade by reciprocity, are as surprising as they are discreditable."

Not less strong and clear is the treatment of monetary questions. At the very outset the Democratic demand for a revival of the old state bank system, or want of system, is met with an impressive picture of the conditions resulting from the use of such currency, and in contrast the splendid results of Republican legislation are submitted. Regarding the coinage, President Harrison could not have spoken

Ayer's Hair Vigor

Prevents hair from falling out.

"Over a year ago I had a severe fever, and when recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success. Until at last I began to use Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color of a natural color."—Mrs. A. Collins, Dighton, Mass.

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE

For the irrigation of the prairies and valleys, between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

The World's Greatest Wonder.

Hunt up half a hundred forceful and incisive adjectives, suitable for description of sublime and inspiring scenery; then take a trip to the Grand Canon of the Colorado, and you will throw them aside as being inadequate.

The world's greatest wonder is the Grand Canon of the Colorado river, in Arizona. Yellowstone Park and Yosemite take second place; Niagara Falls is dwarfed; and the Adirondacks seem like mere hills, compared with the stupendous chasms and heights of the Grand Canon.

This hitherto inaccessible region has just been opened for tourists by stage line from Flagstaff, A. T., on the trans-continental highway of the A. T. & S. F. R. R. The round trip can be made comfortably, quickly, and at a reasonable expense.

Nearest agent of Santa Fe route will quote excursion rates, on application. An illustrated pamphlet is in preparation, fully describing the many beauties and wonders of the Grand Canon. Write to G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. R., Topeka, Kas., or J. J. Byrne, Asst. Pass. Traffic Mgr., Chicago, for free copy, which will be mailed when ready for distribution.
