BROWNSVILLE CASE AGAIN REVIVED

SUBJECT OF SPECIAL
MESSAGE TO CONGRESS

Senator Foraker Champions
Cause of Negro Soldiers Dis-
charged for Disgraceful Raid
on Border Town.

[By Morning Journal Special Leased Wire]
Washington, Dec. 14.—President Roosevelt today sent a message to congress, including a letter from the secretary of war in transmitting a report of the investigation made by Herbert J. Brown, employed by the department in conjunction with Captain W. G. Baldwin, of the Brownsville shooting affair of August 13 and 14, 1906. The message in part is as follows:

"This report enables us to fix with considerable definiteness, at least, the identification of some of the criminals who took the lead in the murderous shooting of private citizens at Brownsville. It establishes clearly the fact that colored soldiers did the shooting. The investigation, however, has not gone far enough to enable us to determine all the facts and we will proceed with it."

"It appears that almost all the members of B company must have been actively concerned in the shooting, either to the extent of being participants or to the extent of virtually encouraging those who were participants."

"As to companies C and D, there can be no question that practically every man in them must have had knowledge that the shooting was done by some members of B troop, and possibly by one or two others in one of the other troops. This concealment was a grave offense of itself and was greatly aggravated by their testifying before the senate committee that they were ignorant of what they must have known."

"Nevertheless, it is to be said in partial exoneration that they were probably misled by threats made by the more desperate men who had actually been engaged in shooting, as to what would happen to any man who failed to protect the wrongdoers. Moreover, there are circumstances tending to show that these misguided men were encouraged by outsiders to persist in their course of concealment and denial."

"I feel, therefore, that some measure of allowance should be made in the misconduct of these men. In other words, I believe we can afford to reinstate any of those men who now truthfully tell what happened, give all the aid they can to fix the responsibility upon those who are really guilty, and show that they themselves had no guilty knowledge beforehand and were in no way implicated in the affair, save by having knowledge of it afterwards and failing and refusing to divulge it."

"I recommend that a law be passed, allowing the secretary of war, within a fixed period of time, say a year, to reinstate any of those soldiers whom he, after a careful examination, finds have been innocent and whom he finds to have done all in their power to bring to justice the guilty. Meanwhile, the investigation will be continued."

The report submitted by Brown says: "Ex-Private Boyd Conyers, of Company B, Twenty-fifth Infantry, now at Monroe, La., told William Lawson, a detective, that he and three or four others, all men of the Twenty-fifth Infantry, were leaders in the Brownsville raid. Conyers tried to commit suicide after he found out that he had made his statement to a detective, saying that the other negroes would kill him when he got out."

"He finally wrote to Senator Foraker and received a reply. That reply he construed to mean that he should stick to his original story told before the senate committee, at all hazards, and there he stands."

The report is accompanied by affidavits in support of the statements made by Brown. According to Conyers' alleged confession, John Holleman, a money lender of Company B, was the chief conspirator and leader in the raid, and the custodian and distributor of cartridges, but his plans could not have been carried out had not Sergeant George Jackson of Company B, in charge of the keys to the gun racks, and Sergeant Field, in command of the guards, co-operated both before and after the raid. The four men who are alleged to have led the raid are John Holleman, John Brown, Boyd Conyers and Caroline de Saussure. The motive for the shooting, according to Conyers, was retaliation for threats said to have been made by the "crackers" (whites) that they would have no negro soldiers at Brownsville.

Senator Foraker took the floor as soon as the president's message and the accompanying reports had been read. He read the letter from Boyd Conyers, a discharged soldier, who is alleged to have made a confession to Detective Lawson. In his letter Conyers speaks of the visit of Lawson to Monroe, La., where Conyers had been living. Conyers says he learned that Lawson was there to "pick" him, and that he had the "high sheriff" arrest Lawson. As Lawson had not had an opportunity to have a private talk

with Conyers, according to the latter's letter, it made him angry, and Conyers says Lawson "told lies" to the sheriff about him.

Mr. Foraker referred caustically to the colored detective, calling attention to the fact that his "high-sounding, smooth, logical report is signed with his mark," and then added:

"Oh, Mr. President when this thing is gone to the bottom of all honest men will be ashamed of it."

Taking up a second letter from Boyd Conyers and before reading it Senator Foraker said:

"This is a little tedious, perhaps, but I think it is due to this soldier, due to truth and due to common decency that the story be told."

Mr. Foraker said the president's statement concerning this investigation by detectives showed the propriety of advantage such a provision as that embodied in his amendment.

"It seems to me," he said, "that one of the worst features of this whole unfortunate business is that this man should be pursued in this way by secret detectives in the manner I have described."

Senator Foraker read a letter he had written to Conyers, in which he said he (the senator) would "look after" the detectives who were visiting him.

"That promise will be made good," declared Mr. Foraker.

"Enough has been shown to make it the imperative duty of the senate to create a tribunal before which these men can go and receive a hearing. Is there anything more atrocious than this case against these men? This is the sixth time they have been put on trial, and five times they have been acquitted in my opinion."

Mr. Foraker concluded by declaring that the president's statement that the espionage against the soldiers of the Twenty-fifth regiment would be continued, was additional reason for some prompt action by the senate.

Clerk Seized for Embezzlement.

San Francisco, Cal., Dec. 14.—Elmer Long, a clerk in the freight department of the Southern Pacific railway, was arrested today charged with having embezzled about \$10,000 worth of jewelry and coin from a jewelry store in Atlanta, Ga. An officer will come from Atlanta to take Long back for trial.

Army Surgeon Retired.

Washington, Dec. 14.—By direction of the president, Colonel Philip Harvey, of the medical corps has been placed on the retired list of the army.

TARIFF HEARING TO SIT THROUGH HOLIDAYS

Commission to Hear Promi-
nent Steel Men Before Re-
porting Schedule Affecting
This Industry.

[By Morning Journal Special Leased Wire]
Washington, Dec. 14.—In drafting the new tariff bill to be introduced at the special session of congress the house ways and means committee is to give special consideration to the steel schedule. Charles M. Schwab, the steel magnate, will appear before the committee tomorrow. Andrew Carnegie, who has been subpoenaed, will not appear until other steel men, including Henry C. Frick, of Pittsburgh, and Judge E. H. Gary have testified before the committee.

The republican members of the committee who will draft the new tariff bill, will sit at the committee room every day after Monday, during the Christmas recess. It is the desire of the committee to have all the testimony before it as soon as possible but wherever it is found that the testimony has been insufficient, it is proposed to call those manufacturers before it who can give the desired information.

When the majority members of the committee complete their bill they will submit it to the democratic members. The latter will offer the bill a minority report unless the bill is reported by the republicans provides for the reductions that the democrats favor. The main differences of opinion probably will be on the lumber, metal and paper schedules. Champ Clark, the minority leader of the house, has brought out much important testimony in his examination of witnesses on the lumber and steel schedules and he favors a material reduction in the duties.

Two hearings were held by the committee today, one witness appearing at each. At the afternoon hearing Colonel Joseph W. Allison, a cotton seed oil manufacturer of Texas, asked for a reduction in the duty on pressed camel's hair cloth, the present duty on which, he said, is prohibitive and permits a monopoly of the product. This cloth is used in crushing cotton seed in the manufacture of the oil.

ORGANIZED BASEBALL TO FIGHT COAST OUTLAWS

Chicago, Dec. 14.—Wednesday next, or Thursday will see the findings of the national commission in the scalping growing out of the Detroit-Chicago world's championship baseball series made public, according to a declaration made today by Harry Pulliam, president of the National League. Mr. Pulliam reached here today and after a few hours spent with Dan Johnson, president of the American League, the two national commissioners departed on a Chicago-Milwaukee-San Francisco trip. Mr. Pulliam was called to Chicago, where they have been called to lead the Pacific Coast league in its

fight to bring the California State league into organized baseball or to inaugurate a reprimand.

SIX JURORS SECURED TO TRY T. JENKINS HAINS

Flushing, N. Y., Dec. 14.—When court adjourned tonight after two long sessions consumed in examinations of witnesses, six jurors sat in the jury box to try Thornton J. Hains, author on charges of being an accessory in the killing of William E. Ansel and four others at the Bayview Yacht club, last summer, by Captain Peter C. Hains, Jr.

The difficulty of securing a jury, because of opinions formed early became apparent, and Justice Crane decided that a night session be held. The court hopes that the trial may be concluded by the end of the week.

The questioning of witnesses by Hains' counsel indicated that the defense will be based principally on the proposition that Thornton, fearing his brother's life was in jeopardy from the crowd at the club house, drew his revolver and held the crowd back. His act was one of defense, and not of offense, according to his counsel.

John M. McIntyre, counsel for Hains, announced that Hains would take the stand in his own defense. He likely will tell of the events at Port Hamilton which led to the separation of Captain Hains and his wife and to the tragedy. Mr. McIntyre will also offer in evidence the alleged confession made by Mrs. Claudia Hains to her husband.

Counsel for the defense were subpoenaed by District Attorney Darrin tonight to appear as witnesses in the case. Mr. Shay of Hains' counsel said Mr. Darrin desired to secure certain letters written by Thornton J. Hains to Captain Hains last summer, asking him to return from the Philippine Islands.

MUTILATED BODY OF
MURDER VICTIM FOUND

Idaho Falls, Idaho, Dec. 14.—The body of a man supposed to be Waldo A. Schlack, of Dillon, Mont., was found in a rooming house here yesterday. Schlack had evidently been murdered. His head had been horribly mutilated with an axe, which was found near the body. Correspondence found on the body showed he had recently drawn several hundred dollars from the State bank of Helena, Mont. Schlack was accompanied to the hotel by another man who has since disappeared and for whom the police are looking. Schlack had relatives in Columbus, Ohio.

TO PROMOTE RIFLE PRACTICE IN SCHOOLS

Washington, D. C., Dec. 14.—With recommendations for their passage, President Roosevelt today sent to congress drafts of two bills providing aid for the military departments of civil educational institutions. One authorizes the secretary of war to issue equipment stores and supplies, such as may be required for field instruction in such schools, and the other appropriates \$100,000 annually for the promotion of rifle practice in public schools, colleges, universities and civilian rifle clubs. Both bills have the approval of Secretary Wright.

FANATIC RANTS AGAINST PRESIDENT MCKINLEY

"Divine Healer" Schlatte Narrowly
Escapes Violence at Hands of
Angry Hearers.

Macomb, Ill., Dec. 14.—Declaring at a meeting here last night that President McKinley was an anarchist that he had turned more people loose to prey upon society than any man in the world and that the assassination of McKinley was all right, excepting that it did not happen soon enough, the self-styled "Divine Healer" Schlatte, only escaped personal violence from a mob last night through the intervention of the police. The officers escorted Schlatte in the first train out of town, followed by a mob of citizens threatening violence if he did not leave at once.

No Canvass Vote for President.

Washington, D. C., Dec. 14.—Senator Burrows, chairman of the committee of primaries and elections, today introduced a resolution providing that the two houses of congress shall assemble in the chamber of the house on Wednesday, February 18, to canvass the vote for president and vice president.

ROCK ISLAND REDUCES RATE ON BEET SUGAR

Salt Lake, Dec. 14.—Beet sugar factories of Utah and Idaho will hereafter be enabled to compete in Oklahoma with the output of the big factories of the east and south. This is made possible by a rate reduction announced by the Rock Island system today, that raised making a rate of 25 cents a hundred on sugar in Utah and Idaho refineries to Oklahoma common points. Heretofore the intermountain refineries have not been able to compete in this field.

Montana Pioneer Dead.

Helena, Mont., Dec. 14.—Joseph Steele, one of the earliest pioneers of Montana and Colorado, died at his home in Deer Lodge today. Mr. Steele, with his three brothers, was in California when Leadville now stands.

Noted Odd Fellow Dead.

Nashville, Tenn., Dec. 14.—Judge John L. Nolen, grand sire of the Independent Order of Odd Fellows of the World, died here at 11:20 tonight.

UNITED STATES BATTLESHIPS SUPERIOR TO BRITISH

Admiral Evans Warmly De-
fends American Vessels and
Contrasts Them With Same
Class in Foreign Navies.

RUETERDAHL CRITICISM PRONOUNCED RIDICULOUS

Veteran Urges Desirability of
Keeping 13-Inch Gun Re-
cently Replaced by Those of
Smaller Calibre.

[By Morning Journal Special Leased Wire]
New York, Dec. 14.—That the latest battleships built by this country are vastly superior to England's Dreadnoughts is emphatically stated by Rear Admiral Robley D. Evans in a magazine article, wherein he strongly defends the American navy and replies to criticisms of it made some time ago by Henry Rueterdahl and others.

"I do not for a moment claim that the Indiana and her sister ships are equal to the Dreadnought of the English navy," says Admiral Evans, "only that she is the equal of the English ships designed at the same time. But I do claim that our latest ships are vastly superior to the Dreadnought and I believe that every fighting man who has given the subject intelligent consideration will agree with me."

Admiral Evans urges the superiority of the 13-inch gun over the 12-inch gun and asserts that the change to the lesser calibre to conform to England's type was a most serious blunder. "This is chargeable," he says, "to the sea-going officers of the navy and not to any staff corps. Regarding the water line armor belt he says: "I am sure, after many weeks of close observation that the lower edge of the armor belt is too high rather than too low."

It had been strenuously contended by critics that the low location of the belt was a vital point of weakness. "As the upper edge of the belt is always even with or above the level of the protective belt," continues Admiral Evans, "the danger to be apprehended from a projectile penetrating above the belt, beyond the wrecking effect of such projectile, is that due to the amount of water that may enter the hole. It is the damage that may be done by such projectiles entering below that may cause the destruction of the ship—none projectile so placed may cause the ship to sink by explosion of the magazines or boilers, but this is improbable. It will require many 12-inch shells on the water line or in any other place to disable or sink such a ship if the officers and men know their business and want to fight."

Admiral Evans declares the statement "that a wound on a turret may disable that turret's guns" is absolutely inaccurate unless by "wound" penetration is meant. "Of all the inaccurate and misleading statements in this wonderful Rueterdahl criticism," he continues, "the most incorrect is that the battleships of the United States are in exactly the same condition as were the Russian ships after the Russo-Japanese fight in the sea of Japan not temporarily but permanently."

"I assert," continues the admiral, "that the battleships of the United States never was, never can be, or never will be in the condition of that Russian battleship when it went into battle the last time."

CASTRO GIVEN OVATION IN BERLIN

VENEZUELAN DICTATOR CHEERED BY GERMANS

Welcome Marked Contrast to
Frigid Reception Accorded in
Paris; Not Worried About
Capture of Warships.

[By Morning Journal Special Leased Wire]
Berlin, Dec. 14.—President Castro of Venezuela arrived here this evening. The train was late but was awaited by a dense crowd of people who had gathered out of curiosity. No precautions had been taken to prevent

the public from crowding the platform and as the train steamed into the depot the president was greeted with shouts of "long live Castro!" There was a general lifting of hats and much cheering.

The Venezuelan charge d'affaires at Berlin, Senator Veloz-Gottche, Senator Nachod, the consul at Berlin, and other prominent Venezuelans had the greatest difficulty in making their way to the entrance of the car where Castro was standing waiting to descend. The president, although having the appearance of a sick man was full of energy. He wore a gray soft hat and black overcoat. As soon as the train came to a standstill he stepped out quickly and cordially embraced Senators Veloz and Nachod. Further cheering broke out as the president's wife and fifteen other members of the party descended. They then left the station and found drawn up outside several motor cars which were elaborately decorated with Venezuelan flags. In these they drove to the Hotel Esplanade. The corridor of the hotel was crowded when they arrived and a band struck up the Venezuelan hymn as President Castro entered. The president declined to be interviewed.

Members of Castro's suite stated that the president had sent a dispatch to Emperor William from Harbort stating that he had come to Germany for medical treatment and expressing the profoundest homage to his majesty.

According to the same authority when he learned the news of the capture of a Venezuelan vessel by the Dutch cruiser Gelderland he was not greatly affected, merely remarking that there was "no such vessel in the Venezuelan service."

While at Cologne, the president and his party visited the cathedral and other places of interest and enjoyed an automobile trip along the Rhine.

NAVAL APPRENTICE CONFESSES MURDER

Police Inclined to Doubt Story of
Youth Confined in Prison
Ship at Manila.

Vallejo, Cal., Dec. 14.—Chief of Police Stanford has received a request by telegram to investigate the story told by L. P. Stout, a naval apprentice, who is being held on board the prison ship at Manila as the result of having confessed committing a murder in Pittsburgh, Pa. In his confession he failed to name his alleged victim and the Pittsburgh police are unable to verify his story.

PITTSBURGH POLICE HAVE NO
INFORMATION AGAINST STOUT

Pittsburgh, Dec. 14.—Pittsburgh police have found no information against L. P. Stout as a murderer charge or any other. Stout is being held for Hermann Hirsch, however, who is accused of murdering and robbing Congressman McMillen in November of last year and as they have believed for a long time that Hirsch eluded capture by joining either the army or navy and leaving the country. They would not be surprised if Stout is an alias assumed by Hirsch.

Contractor McMillen arriving from the east on a late train took a street car for his home. Several men followed him from the car and in the morning the contractor was found dead near his home.

Several men were arrested on strong circumstantial evidence but before their trial a woman gave the police convincing evidence presumed to have come from Hirsch to the effect that he was the murderer and that the others were innocent.

DYING MILLIONAIRE AVOIDS WILL CONTEST

Wealthy Russian Converts Fortune
Into Bank Notes and Burns
Them Before Expiring.

London, Dec. 14.—A special dispatch from St. Petersburg to the Daily Mail relates that a dying Moscow millionaire named Petroff had his whole fortune withdrawn from the bank and the bank notes brought to the sick room. They were then piled before him and set on fire. Petroff then called his relatives and showed them what he had done, congratulating them on escaping the evils of wealth.

CANADA NEGOTIATING FRENCH TRADE TREATY

Paris, Dec. 14.—W. S. Fielding, the Canadian minister of finance, arrived here today. His visit to Paris is in connection with the Franco-Canadian treaty which was negotiated last summer. This treaty was ratified by the Canadian parliament and the French chamber, but it has been declared in the French senate that the convention is too favorable to Canada.

Mr. Fielding will use every effort to remove the obstacles the senate's ratification of the treaty. The French protection interests are making a strong campaign against it.

FEDERAL JUDGE SCORES ATTORNEYS FOR DELAY

Missouri Rate Case Called Up in United States Court at Kansas City.

Kansas City, Dec. 14.—Calling up the Missouri passenger and freight hearing after a four weeks' recess, today, United States Judge Smith McPherson severely scored the attorneys in the case for their tardiness and declared that he would not tolerate any further delay. The case has been on the docket for three years.

Part of the state's issue is to prove whether or not the railways operating in Missouri can afford to carry passengers in Missouri for two cents

a mile on trunk lines. The law does not apply to short lines.

Two witnesses, W. H. Whitten, superintendent of the Chicago and Rock Island lines in Arkansas, and R. E. Kimbell, auditor of the Cotton Belt railroad testified today. In depositions given previously the railroads had set up that it cost more to carry intra-state than it did interstate passengers. Attorney Lehman, for the state, made both witnesses admit that through trains carried both state and interstate passengers, that sometimes state passengers rode as far on their respective trains as interstate passengers did; that the same train hauled both and that it cost no more for the state than it did for the interstate passengers.

Court Martial for Army Officer.

Manila, Dec. 15.—A court martial to try Major Charles J. T. Clark, of the Twenty-sixth Infantry convened today at Mariveles, in the province of Matano. Major Clarke is charged with having drawn checks upon the Wood National bank at San Antonio, when he knew that he had no funds in the bank; with contracting unnecessary debts and with dilatoriness in answering official communications.

Roosevelt May Hunt in Congo.

Brussels, Dec. 14.—President Roosevelt has applied to the Belgian government through the American legation for a hunting permit in Belgian territory in Africa. This will be granted. It will cover 1909 and include both big and small game.

EARL CONGRATULATED ON BETROTHAL TO AMERICAN

London, Dec. 14.—The king and queen have sent congratulations to their master of the horse, the Earl of Granard, whose engagement to Miss Heather Mills, daughter of Ogden Mills of New York, has just been announced. The Earl of Granard will sail for New York on Wednesday. It is said that the wedding will take place in January. The earl's brother, Donald Forbes, is obtaining leave from his military duties and will take passage for New York later. He will act as the earl's best man at the ceremony.

HARRIMAN UPHELD BY HIGHEST TRIBUNAL

Supreme Court Denies Power
of Commerce Commission to
Press Questions Concerning
Private Transactions.

[By Morning Journal Special Leased Wire]
Washington, D. C., Dec. 14.—In deciding today the case of Edward H. Harriman and Otto H. Kahn versus the interstate commerce commission, the supreme court of the United States held that the commission is not entitled under the interstate commerce law to press questions relative to private transactions, even when they involve dealings in the securities of railroad companies. The majority opinion, of which such questions are a part, are begun on the commission's initiative.

The opinion was announced by Justice Holmes and dealt with the refusal of Messrs. Harriman and Kahn to make reply to questions put by the commission in the course of an inquiry concerning the dealings of Mr. Harriman as president of the Union Pacific railroad in the stocks of other railroad companies, many of which were competing lines. Justice Holmes said the commission's inquiries should be confined to cases in which complaint had been made. He said private should be properly regarded in proceedings begun by the commission for its own purposes and that the powers conferred in the interstate commerce law exceeded any which have ever been delegated by a constitutional body of law makers.

In a dissenting opinion, concurred in by Justices Harlan and McKenna, Justice Day declared that the effect of the opinion of the majority of the court would be materially to narrow the scope of the interstate commerce law. These three justices declared the questions of the commission, so far as they were sustained by the United States circuit court for the northern district of New York, were entirely proper and should have been answered by Harriman and Kahn.

Justice Harlan went even further and held that all of the commission's questions should have received responses. Justice Moody did not participate in the case.

DECISION NO SURPRISE TO COMMERCE COMMISSION

Washington, Dec. 14.—No surprise was expressed by the interstate commerce commission at the decision. It is not felt by the commission that the decision will effect seriously its powers of railroad regulation. The question passed upon by the supreme court is considered by the commission to be largely academic, inasmuch as the questions propounded to Mr. Harriman and to Mr. Kahn did not affect materially the determination of the so-called "Harriman case."

Chairman Knapp of the commission said he did not care to discuss the decision will effect seriously its powers. He believed it would not detract from the powers of the commission in the making of future investigations regarding railroad transactions.

STORM SEWER WILL NOT BE VOTED ON

WILL WAIT UNTIL THE
STREETS ARE PAVED

Aldermen Decline to Recon-
sider Provisional Contract
With Kansas City Firm for
Benefit of New Bidder.

The city council at a brief called meeting last night decided not to submit the matter of a \$50,000 storm sewer to the voters at the election on a sewer bond issue January 19 and after a discussion declined to reconsider the resolution passed at the last meeting, making a provisional contract for the building of the sewer with the American Light and Water company of Kansas City. No other business of importance was transacted. On motion of Alderman Wroth, seconded by Alderman Con, the council voted to postpone action on the storm sewer proposition on the ground that the city could wait for this improvement until the street paving has reached a stage where it will be practicable. It will be recalled that Expert Samuel Gray estimated the cost of a storm sewer auxiliary to the sanitary sewer at \$75,000. The action of the council on this matter last night means that the bond issue will remain at \$250,000 covering the sanitary system alone.

NEW BIDDER IN FIELD
ON SEWER SYSTEM

George A. Rogers, of George A. Rogers & Co., general contractors of Los Angeles, Archibald Douglas being the other member of the firm, appeared before the council last night with a proposition to enter a competitive bid against the American Light and Water company of Kansas City, which has been given a provisional contract by the city for building the sewer system. Mr. Rogers explained that he merely awaited the action of the council to reconsider the provisional contract, after which he would feel at liberty to make a counter proposition, saying that in this event the Kansas City firm should also be given a chance to make a second bid.

Alderman Hanley made a motion to reconsider the action of the council in passing a resolution at the last meeting awarding the contract provisionally to the Kansas City people. It will be remembered that this resolution provided that the proposal be accepted on condition that the bond issue pass at the election; that upon investigation the American company should be found reliable, and that a satisfactory contract could be agreed on. Mr. Hanley took the position that last night's meeting being an adjourned session it was quite within the rules governing the council to reconsider the resolution. This precipitated a discussion that lasted some time, Mr. Hanley insisting that for the city's interest any other bidders should have a hearing before a contract was closed.

The mayor believed the provisional contract binding upon the council and was supported by an opinion of the city attorney. The mayor stated his position at some length saying that he was in favor of the city's getting the work done at the lowest possible expense, but believed that the conditions of the provisional contract must be carried out before it would be feasible to break with the American company. The mayor reviewed the proposition made by Mr. Bullock of the Kansas City firm at some length, dwelling upon its advantages. He called attention to the fact that the sale of the bonds was guaranteed, that the city will have a perfect check on the work and that the railroad rebates on shipments will be a most important consideration. "I have no interest whatever in giving the work to the American Light and Water company or any other concern," said the mayor, "but I do think the council is bound by the resolution it passed, to close with the American company, unless the bond issue fails or it is found to be an unsatisfactory concern; in other words, unless the conditions stated do not materialize."

Alderman Wroth took the floor and declared that while he had voted for the resolution for the sake of harmony, as he stated at the time, he thought the council had taken a wrong step. "The only square deal," said Mr. Wroth, "is to get your bonds sold, prepare your complete engineers' specifications and then throw the proposition open to all the contractors who still bid. The resolution as passed, however, is, in my opinion, binding unless reconsidered."

Alderman Leonard thought it would be wise to reconsider the resolution. After Alderman Hanley had stoutly defended his motion it was lost by a vote of five to two, Alderman Hanley and Leonard voting to reconsider.

In his brief talk to the council Mr. Rogers said that if his people were given a chance to bid, the council would be better than that of the Kansas City firm and would be along the same general lines. He made the interesting statement that he had talked to a number of financial houses in Los Angeles and had been informed the bonds contemplated here could sell easily at a premium. He assured the council of the reliability of his firm and the character of its work and said that a satisfactory bond would be given. He gave the council to under-

Navajo Blanket Bargains at El Curio. WRIGHTS Trading Post

25 to 30 off

Cornor Third and Gold, Open Evenings

stand that his proposition would be a similar one to that of Mr. Wright's company.

In speaking on his motion Mr. Wright declared any desire to shut out the Navajo City company but wanted to let other contractors in. The mayor in discussing the subject proposed called attention to the fact that it will be impossible to get complete specifications ready for the sewer builders in less than ninety days after the house are issued. The following report, which the council tabled, states his position at length:

SEES DELAY IN GETTING READY FOR CONSTRUCTION

Chairman Wright of the sewer committee in submitting a report, announced his positive conviction that it will be impossible to get complete specifications ready for the sewer builders in less than ninety days after the house are issued. The following report, which the council tabled, states his position at length:

Albuquerque, Dec. 14, 1908.

To the Mayor and Council of City of Albuquerque:

Gentlemen: In view of the fact that a resolution was adopted by this council on December 11, 1908, adopting the report of Mr. Gray with the addition made by Mr. Gladding, city engineer, and also that a resolution was at that same meeting adopted giving a conditional contract looking to the construction of sanitary sewers provided bonds were favorably acted upon, it will be necessary for the city engineer to at once make necessary arrangements to prepare complete specifications for said contractor to work to.

In this connection, and on a work of this magnitude, it will be impossible for the city engineer and the present force to properly handle the same within a reasonable time. It will take at least four men and three months' time to give the needed accurate data for the construction of the proposed system.

The sewer committee would therefore suggest that arrangements be made looking to the immediate commencement of preliminary surveys so that any contract may be entered upon with the least delay and to this end would also suggest the increase of the city engineer's office in such a degree as will sufficiently care for this work.

Respectfully submitted,

JAMES H. WRIGHT,

Chairman.

The council reconsidered a resolution passed at the last meeting regarding bonds and other details of the bond election preliminary, and passed the resolution with a number of minor changes.

The council adjourned at 9:30 p.m. Present were the mayor and Aldermen Ayer, Conn, Harker, Hansen, Norstrom, Leonard and Wright.

FILES SUIT TO HALT COPPER COMBINATION

Portland, Me., Dec. 14.—A bill in equity was filed in the United States court today in behalf of Morris Davis, of Seattle, against the Davis-Poly Metals Copper company and the Davis-Poly Metals, Messrs. F. Augustus Hines and Thomas M. T. Kiborg, of New York, and Charles B. Leonard, of Butte, were made parties to the suit which is brought to enjoin the consolidation of the two companies. Davis complains that he was not given adequate or proper notice of the stockholders' meeting at which a consolidation of the two companies was voted.

Two Hurt in Auto Accident.

Chicago, Dec. 14.—William Garret, a wealthy manufacturer, was probably fatally injured and his daughter was less seriously hurt today when Mr. Garret's automobile skidded on a slippery pavement and collided with a street car.

WOULD CALL CONFERENCE OF INDUSTRY'S CAPTAINS

Washington, D. C., Dec. 14.—Secretary Strauss has referred to a special committee in the department of commerce and labor the advisability of calling together the important labor leaders, publicists and directors of big industries for the purpose of considering several questions of importance throughout the country.

Some of the subjects, he believes, ought to be considered are: The extension of the standard inspection service, the prevention of misleading information being disseminated in European countries concerning the demands for labor, more effective work in locating immigrants, the problem of the unemployed, the Roosevelt foundation for the promotion of industrial peace.

PREHISTORIC BODY DISCOVERED IN FRANCE

Human Remains Believed to Be 170,000 Years Old Prove Man of That Period Walked on All Fours.

(By Morning Journal Special Lensed Wire)

Paris, Dec. 14.—Abbé Bouysson and Bardon, who are conducting excavations at Chappelle Aux Salines in the Corvaze department, have discovered what are believed to be the oldest human remains, dating back 170,000 years, to the middle of the pleistocene age, the earliest period of geological history.

The skull presents a strong resemblance of that of a monkey, having a long jaw and being devoid of canine teeth. The other bones are archaic, showing that the man usually walked on all fours. The skeleton has been acquired by the natural history museum of Paris.

DIVIDED OPINION IN CAR DISCRIMINATION CASE

Richmond, Va., Dec. 14.—Circuit Judge Goff and District Judge Morris, sitting in the United States circuit court of appeals today heard arguments in the case of the Baltimore and Ohio railroad against the interstate commerce commission. As the court was divided in opinion the case was ordered certified for review to the United States supreme court.

The case grows out of the complaint of the rail and river coal company, to the interstate commerce commission, alleging that the Baltimore and Ohio distributed its cars unfairly in the coal regions and asking that the railroad company be enjoined from so distributing its cars. The commission decided that the corporation did so distribute its cars and the railroad company appealed to the United States circuit court of the United States.

PROHIBITION BURNING ISSUE IN TENNESSEE

Nashville, Dec. 14.—Indications multiply that the liquor question will be a burning issue before the Tennessee legislature, which meets here in January. Advocates of a state-wide prohibition law make sweeping claims, and today opened headquarters here with former State Senator L. L. Penland of this city in charge.

Thaddeus Austin Peary, chairman of the democratic state committee and a close friend of Governor Patterson, announced that as democratic state chairman, he has opened headquarters here to oppose state-wide prohibition legislation. Chairman Peary has also issued a call for the democratic state committee to meet here December 27, to "consider the situation."

Banker on Trial for Fraud.

Lansing, Mich., Dec. 14.—Frank P. Chasler, of Chicago, who resigned as state treasurer a year ago soon after the failure of the Chelsea Savings bank and the Chelsea-Savings company, was placed on trial here charged with appropriating to his own use and the use of the Chelsea Savings bank of which he was president, \$245,000 of state funds.

STOLEN BANK NOTES DISCOVERED IN POSTOFFICE

Fifteen Thousand Dollars in Bills Part of Loot from Portland Bank Turns Up in Ogden.

(By Morning Journal Special Lensed Wire)

Portland, Ore., Dec. 14.—The most tangible view as to what became of \$15,000 stolen from the East Side bank December 7, became public today, when it was learned that two bills, one a gold certificate and the other a currency of large denominations of the same number as some of the money stolen, had been discovered in the postoffice at Ogden, Utah.

It occurred through the wrong address getting hold of an old newspaper in which was wrapped \$2,400 in currency. The address was "Chas. E. Price." A postmaster of that name being called for and was given the package. On discovering the contents Price hurried back to the postoffice and handed it over to the postal authorities.

The large denominations of some of the bills and the peculiar way in which they were transmitted aroused suspicion and the Portland authorities were notified, the numbers of the bills being sent. President H. H. Newell immediately identified the numbers and the Ogden officers were ordered to watch for "Price."

This man, however, failed to put in an appearance. The matter looked out when Newell had claim for the money with the local postal officials, in spite of the fact that everything has been done to keep the matter secret.

POINTS OUT WEAKNESS OF BANKING SYSTEM

Detroit, Mich., Dec. 14.—George E. Roberts, of Chicago, former director of the mint, addressed the bankers' club of Detroit tonight and argued for a central bank of issue in which existing banks would be permitted to hold stock in proportion to the capital of their respective institutions.

Mr. Roberts suggested that a capital stock of \$100,000,000 for the central bank would call upon existing banks to pay in about ten per cent of their capital.

"The weakness of our banking situation in every time of strain," said Mr. Roberts, "is in the isolation of the individual units. The natural impulse of the scattered banks to take care of themselves always aggravates the dangers of the situation. There is no help upon which it can rely."

"There is \$800,000,000 of gold coin in the United States treasury today as a reserve against \$600,000,000 of gold certificates. It is the greatest and most ineffectual gold reserve in the world."

BISHOP INVOLVED IN FIDELITY LOAN SUITS

Pittsburgh, Dec. 14.—The name of Bishop Joseph Egan Canavan, of the Catholic diocese of Pittsburgh was today connected with the litigation growing out of loans to Catholic churches and auxiliary societies placed through the Fidelity Funding company of which P. J. Keenan was president. The suits in which the bishop's name is mentioned were filed by the Carnegie Trust company of New York. The actions are on two notes amounting to \$11,000 against the Holy Cross Catholic church of Glassport, Pa., and against St. Joseph's Catholic church of Pittsburgh on notes for \$11,000.

It is claimed by the congregations that these loans were made for by partial payments and redemptions and that the originals instead of being returned to the owners were rediscounted.

Tax on Cigarette Dealers.

Washington, Dec. 14.—The house today passed a bill placing an annual tax of \$100 on all dealers in cigarettes and cigarette papers in the District of Columbia. The measure was offered by Representative Mann of Illinois, as an amendment to a bill imposing a tax of \$12 a year on all dealers handling manufactured tobacco products.

pending for several years came to a close.

The money will be used in settling the claims which purchasers of stock in the Tribune Colony company filed against the concern.

The case had its inception some three years ago when the American Tribune New Colony company was organized to purchase land in Texas and in other Southern states, to form a land company. Stock was sold at \$25 a share.

Marathon Race Starts Today.
New York, Dec. 14.—Dorando Pietri, the Marathon runner, and Tom Longboat, the Canadian Indian, today ended their training for the race in Madison Square Garden tomorrow night. Both men are said to be in prime condition.

The race will be 26 miles, 283 yards, the Olympic distance, and will be run over the same track on which Dorando defeated John J. Hayes, a short time ago.

Bengal Leaders Arrested.
Calcutta, Dec. 14.—By the arrest of nine of the most prominent Bengal leaders in the deportation to a secret destination, it is believed the authorities have successfully put down the seditious movement. All those arrested are men of great prominence, some of them Choudhri Malik, a Calcutta millionaire, being an influential socially as Dutt is politically.

THE APPROPRIATIONS FOR TERRITORIES CONSIDERABLE

Book of Estimates for Fiscal Year Submitted to Congress by Secretary of Treasury Has Interesting Items.

(Special Correspondence to Morning Journal) Morning Journal Bureau, Munsey Building, Washington, D. C., Dec. 15.

In the book of estimates for the fiscal year 1910, submitted to congress by Secretary Cortelyou of the treasury, is contained the following items of interest to New Mexico and Arizona:

For the completion of the erection of the postoffice building at Albuquerque, \$50,000.

For the purchase of a site and for continuing the erection of the postoffice and courthouse building at Roswell, \$55,000.

For the construction of a cold storage and central power plant at the United States army general hospital, Fort Huachuca, and the installation therein of an ice-making and refrigerating plant, and a power pumping plant for the water supply and generating electricity to light the post, \$80,000.

Appropriations for Indian schools in New Mexico and Arizona: For support and education of 260 Indian pupils at the Indian school at Albuquerque, and for pay of the superintendent, \$34,500; general repairs and improvements, \$5,000.

For the support and education of 260 pupils at the Indian school located at Santa Fe, and pay of superintendent, \$51,200; for general repairs and improvements, \$5,000; for water supply, \$1,500.

For pay of one special attorney for the Pueblo Indians of New Mexico, \$1,500; for necessary traveling and incidental expenses of said attorney, \$500.

For general incidental expenses of the Indian service in New Mexico, including traveling expenses of agents, \$1,500.

For the construction of a bridge across the San Juan river, near Shiprock school, in the Navajo Indian reservation, \$10,000.

Provisions are made that no part of this appropriation shall be available until the proper officer of the Indian bureau shall investigate and report that the work contemplated can be completed for the amount thus appropriated.

For pay of Indian agent at the San Carlos agency in Arizona, \$1,500.

For the support and civilization of the Apache and other Indians of the Pima agency in Arizona, \$40,000, to be expended for their benefit in such a manner as the secretary of the interior, in his discretion, may deem best.

For support and education of 260 Indian pupils at the Fort Mojave, Arizona, school and for the pay of the superintendent, \$24,100; for general repairs and improvements, \$5,000; for construction of a deep well, \$1,000.

For the support and education of 160 pupils at the Indian school at Tucson, Arizona, and pay of superintendent, \$18,200; for general repairs and improvements, \$5,000.

For general incidental expenses of the Indian service in Arizona, including traveling expenses of agents, \$1,500.

For salary of surveyor of the territory of New Mexico, \$2,500; salaries for the clerks in his office, \$10,500; for pay for messenger, stationery, printing, instruments, plans, drawing paper, binding records, telephone registration of letters, postoffice box rent, drayage, towels, books of reference for office use, and other incidental expenses, \$1,000.

For the protection of Casa Grande Ruin in Arizona, \$2,500.

For a Lame Back.

When you have pains or lameness in the back, the hands or feet, Chamberlain's Liniment twice a day, massaging with the palm of the hand for five minutes at each application. Then dampen a piece of flannel slightly with this liniment and bind it on over the seat of pain, and you may be surprised to see how quickly the lameness disappears. For sale by all druggists.

KOREAN YOUTH ON TRIAL FOR MURDER

Case Against Oriental Who Shot Durham White Stevens Commenced at San Francisco.

San Francisco, Cal., Dec. 14.—Prosecution of evidence in the case of the young Korean who shot and mortally wounded Durham White Stevens, adviser to the Japanese government in Korean matters, was begun today. A special description of the shooting at the Perry building on the morning of March 23 last was given by E. B. Finley, a hotel runner, who failed to see the actual attempt at assassination, but who witnessed the striking of Mr. Stevens by Chung, another Korean who since his arrest has disappeared. Dr. W. W. Huntington described the effects of the three bullet wounds which caused Mr. Stevens' death.

In Whang Chang is well represented by counsel but up to this time their policy has not been defined.

EVILDOERS TO LEARN FATE TODAY

Judge Abbot Will Pass Sentence This Morning on Those Found Guilty at Present Term.

Twenty-five or thirty men who were convicted or pleaded guilty during the last term of court, to various infractions of the law, will be sentenced by Judge Ira A. Abbot shortly after court convenes this morning.

The criminal docket during the full term has been an unusually lengthy one and was cleared but three days ago. A number of convictions were secured and several pleaded guilty rather than stand trial. Most of those who will receive sentences today have been in jail for various periods of time, extending from six weeks to six months.

Among those who will have sentence passed upon them are Dick Eagle, a half blood Cherokee Indian, who was convicted of murder in the second degree; Jack La Run, convicted of assault with a deadly weapon, and many others who were convicted upon minor counts.

THE DAY IN CONGRESS

Washington, Dec. 14.—While considering bills dealing with affairs in the District of Columbia the house today passed a measure providing for 85 cent gas in Washington. The bill now goes to the senate, as well as another bill, abolishing "bucket shops" in the district. A bill providing for free lectures in the public schools was voted down.

An attempt by Representative Henry (Texas) to obtain a change in the reference of a bill prohibiting the making of future contracts on agricultural products brought forth the presence from Chairman Scott of the agricultural committee that his committee would soon grant hearings to farmers' unions and others on this subject. The house voted to adjourn Saturday, December 13, to Monday, January 4.

The Senate.

Washington, Dec. 14.—The Brownsville affairs consumed nearly the entire session of the senate today. Senator Foraker obtained the floor early in the day, and read letters from a former soldier of the Twenty-fifth regiment, telling of the procedure of government detectives in attempts to get a confession from him. Mr. Foraker introduced an amendment to his original bill for the readjustment of these soldiers, providing that a com-

mission of three retired army officers be created to determine whether the discharged soldiers are innocent of complicity in the shooting up of Brownsville as a prerequisite for their readjustment. Instead of leaving that duty with the president, as provided in the Warner bill.

The president's message giving the results of the war department investigation of the Brownsville affair was read, and Mr. Foraker again took the floor to comment upon the message.

Senator Carter announced that tomorrow he would speak on the postal savings bank and would ask that it be made the unfinished business of the senate.

CONVICT BANKER SICK IN PRISON HOSPITAL

Pardon Expected for Rocky Ford Man Confined in Colorado Penitentiary.

Canon City, Colo., Dec. 14.—John E. Godding, the Rocky Ford bank wrecker and convict, is lying in a cot in the penitentiary hospital in a very dangerous condition, suffering from an ailment so serious that a fatal termination is not at all unlikely.

Godding was ordered to the hospital yesterday and today was prepared for a surgical operation.

For several years the banker convict has been suffering from an aggravated case of progressive distula, which has now reached the stage where a drastic surgical operation is necessary if his life is to be saved.

Godding will not be assigned to any prison labor, pending his confinement to the hospital, and he will not be compelled to wear a convict's striped uniform until after his recovery.

Semi-official information has been received in Canon City by friends of Godding that Governor Buchtel has promised to make him the recipient of a Christmas or New Year's pardon or parole.

WARNS PRESIDENT OF DANGERS IN AFRICA

Roosevelt Told to Guard Himself Against Attacks of Venomous Insects.

Washington, Dec. 14.—J. O. E. Thompson, of Richmond, Ind., who has passed much time in Africa, was introduced to the president today by Representative Boies of Minnesota.

Mr. Thompson told the president that the most danger in Africa would not come from wild animals or reptiles, but from poisonous insects. He said that the bites of some of these had been known to produce blood poisoning. He recommended that the president sleep at night in an insect-proofed place. The president asked Mr. Thompson to write him all the information he had at hand on this subject.

BIG IRRIGATION WORK STARTED IN SAN JUAN

GREAT PROJECTS WILL TRIPLE THE ACREAGE

Large Forces of Men at Work on Systems of Eden Canal Company and Citizens' Ditch Concern.

(Special Correspondence to Morning Journal)

Astec, N. M., Dec. 12.—San Juan county is happy. Within the past week work has started on two big irrigation projects that will put under cultivation more than three times the acreage at present under water. These new canals will cover the higher mesa lands on both sides of the Animas river from above the Colorado state line, and on the San Juan river from above Blanco almost to Farmington.

The Eden Canal, Land and Power company canal takes its heading in Colorado, at the present Indian ditch, on that Cedar Hill branches. The east side canal crosses the river by an immense leaved siphon, and covers approximately 1,000 acres of the fruit and farming lands in the vicinity of Astec. The west branch covers more than 25,000 acres of equally good land between Astec and La Plata.

The construction firm of Wood and Morgan, of Durango, have the contract for the first part of the work and are on the ground with a large force of men and teams.

The work will all be under the charge of George Anderson, of Denver, one of the most prominent engineers in the west, and who has to his credit the successful building of some of the most important high line canals around Denver. W. Goff Black, the promoter of the Eden company, has been granted an electric light franchise for the company by the town board of Astec. The plant must be built inside one year and is a liberal one for the town.

The Citizens' Ditch and Irrigation company, on the San Juan river, covers about 8,000 acres of good and the country around Astec. It is estimated that they will have water flowing in the ditch for the crops of 1909.

CARLSBAD PLANS TO BUILD ROAD

Twenty-Five Miles of New Highway Needed to Accommodate Freight Business to the Pecos Valley.

(Special Correspondence to Morning Journal) Carlsbad, N. M., Dec. 12.—The Commercial club has had under consideration for the past few days the building of a first class road across the plains to Knowles, a rapidly growing town about seventy miles to the northeast. About twenty-five miles of the way to Knowles is through very heavy sand which makes freighting slow and expensive. The club has decided to have this road put into first class condition, and has just appointed a committee to make an investigation of the best route and the probable cost of construction.

The very rapid growth of all parts of the country has made the construction of a passage road to Carlsbad the county seat, absolutely necessary. Automobile lines from Carlsbad are also under consideration, and will be established in the near future.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c.

To Suppress Bucket Shops. Washington, Dec. 14.—The house today passed a bill designed to suppress bucket shops in the District of Columbia.

BENNETT'S CURIO STORE

San Francisco, Cal., Dec. 14.—Prosecution of evidence in the case of the young Korean who shot and mortally wounded Durham White Stevens, adviser to the Japanese government in Korean matters, was begun today. A special description of the shooting at the Perry building on the morning of March 23 last was given by E. B. Finley, a hotel runner, who failed to see the actual attempt at assassination, but who witnessed the striking of Mr. Stevens by Chung, another Korean who since his arrest has disappeared. Dr. W. W. Huntington described the effects of the three bullet wounds which caused Mr. Stevens' death.

In Whang Chang is well represented by counsel but up to this time their policy has not been defined.

GOVERNOR TELLS OF TERRITORYS RESOURCES

CURRY ENTHUSES OVER ITS VAST DEVELOPMENT

Ralph Cameron With His Rosy Cheeks and Merry Blue Eyes Mingling With Statesmen at Capital.

(Special Correspondence to Morning Journal)

Washington, D. C., Dec. 11.

Arguing that New Mexico is entitled to every viewpoint to become a state of the Union, Governor Curry, who is here discussing the conservation congress, said that since the year 1898 the tide of immigration was once more directed toward New Mexico, due to a certain realization of the vast undeveloped mineral wealth and agricultural possibilities.

"First and foremost of any natural legacy to which New Mexico points with the greatest assurance and pride," said the Honorable Governor, "is its vast coal deposits. The exact area of all the fields has not, as yet, been fully defined and mapped, but it is safe to say that at least an area of 15,000 superficial square miles are available with coal-bearing rocks. The estimated workable beds of coal of the whole of this area are 250 billion tons, and the half of it in thick beds. This would also approximately to the available coal supply of the territory 100,000,000,000 tons, so vast in this amount that the imagination fails to grasp it, and the figures appear meaningless. Conservatively speaking, every ton of this coal in the ground is worth at least \$1 in value, hence this asset alone represents an empire of wealth of \$100,000,000,000.

"During the year 1937," added the governor, "the output production of New Mexico was 19,149,140 pounds of molybdenum, showing a net increase over the previous year of 20 per cent.

"The percentage of molybdenum in our healthful, and it begins to illustrate that New Mexico is destined to become an important factor in the near future. Besides this, we have gold, zinc, lead, iron, gypsum, coal and everything under the sun which makes a desirable commodity to be added to the list of state assets."

The president has been to the state of the following appointments:

Frank H. Parker of Phoenix, Arizona, who was appointed October 12, last, as registrar of the land office at Phoenix, to succeed Lyman W. Wakefield, resigned.

Thomas C. Tilton of Lower California, New Mexico, to be registrar of the land office at Roswell, to succeed Howard Leland, deceased. Mr. Tilton was appointed during the recess of congress—October 12.

Charles E. Arnold of Phoenix, Arizona, to be registrar of the land office at Phoenix, in place of Mr. Tilton, resigned. Arnold was appointed last month.

New Mexico's nominated for post-office appointments. Robert Kelchman at Roswell, reappointment. Ira O. Wetmore, to succeed himself at Carlsbad. This office became vacant last July.

The postmaster general has appointed George H. Merlon postmaster at Roswell, Dona Ana county, New Mexico, to succeed J. Molinar, resigned.

Ralph Cameron, who, as a result of the recent election, will succeed Mark Smith as delegate in the House from Arizona, after March 1, has come to town to stay. He is spending most of his time around the capital building.

Mr. Cameron is rather small and has red cheeks, merry blue eyes and a happy smile. He used to be sheriff of the most seismically active area of the state, and although that was a tough job, he says that nothing gave him more satisfaction than being good at his job. He says that when he was out on the trail he never quit until he had the purpose, alive or dead.

Valuable Home Prescription For Kidneys

Says Anyone Can Easily Prepare This Simple Mixture at Home For the Kidneys and Rheumatism.

Put this out and put in some safe place, for it is valuable and worth more than anything else in the world. You should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever. The prescription is simple and can be made up by anyone at home. The ingredients can be had at any good prescription pharmacy and all that is necessary is to shake them well in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; compound Kargon, one ounce; compound syrup of sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination, pain and swelling, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism because of its direct and positive action upon the eliminative function of the kidneys. It gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood, relieving the worst forms of rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constipation and indigestion. Compound sarsaparilla cleans and enriches the blood. There is nothing better than Kargon Compound for the kidneys. This prescription is safe to use at any time.

dead. So he is expected to help a lot on the trail of statehood. That's what he's down here to get.

The secretary of the interior has submitted a letter to congress giving an estimate of appropriation for the completion of the irrigation system on the Zuni reservation in New Mexico.

L. Bradford Prince of Santa Fe, New Mexico, is in Washington attending the deep waterway convention.

L. W. THAVIS.

KELLOGG CONSIDERED FOR ATTORNEY GENERAL

Noted Trust Prosecutor May Succeed Bonaparte.

New York, Dec. 14.—President-elect Taft found this the quietest day he has had since leaving that capital. During the morning and afternoon he received a number of callers at the home of his brother, Henry W. Taft, and tonight went to a theater. During the day Mr. Taft found time to sit for several photographs and gave the first of a series of sittings to a portrait painter. Mr. Taft's most protected conference was with Frank E. Kellogg, the prosecuting attorney for the government in the Standard Oil and Harman cases. Mr. Kellogg frequently has been mentioned for attorney general in Mr. Taft's cabinet. The president-elect said that he and Mr. Kellogg had discussed a number of subjects, among them that of anti-trust laws and legislation. Mr. Taft said the names of former Governor Franklin Murphy of New Jersey had been presented to him for a cabinet position by the New Jersey senators.

Congressman Fowler, who is chairman of the house committee on commerce, discussed financial legislation with Mr. Taft.

The president-elect will leave for Virginia, on Thursday morning.

CIVIC FEDERATION IN SESSION IN NEW YORK

New York, Dec. 14.—With a session of Yonkers' department at which Mr. Taft, wife of the president-elect, presided a report of the committee on the welfare work for government employees, of which she is chairman, the National Civic Federation held its annual meeting here today.

The sessions were devoted to the discussion of the general topic of this annual gathering—the promotion of friendly relations between employers and employees. Both Mrs. Taft and her husband are on the list of speakers, the president-elect being scheduled to speak tomorrow night.

The afternoon meeting was devoted to a discussion of trade agreements, addresses on the subject being delivered by John M. McKim, Herman R. Lohr, Samuel Gompers, James M. Lynch and James O'Connell.

Mr. McKim, director of the Big Four railroad system, said that the trade agreement plan was not necessary for him or for his firm, which he understood his first railroad work. Every one of the men could see him if they so desired, he said.

RUSSIAN AMBASSADOR TO ROME DIES SUDDENLY

Rome, Dec. 14.—Nicholas Y. Muraviev, the Russian ambassador to Italy, was seized with an attack of apoplexy while walking on the Corso today. He was carried into a hotel and died shortly afterward.

Any person who desires to protest against the allowance of said protest, or who knows of any substantial reason under the laws and regulations of the interior department why such protest should not be allowed will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

Count Muraviev died suddenly in 1938, when minister of foreign affairs. M. Muraviev was born in 1859, and with his brother, was instrumental to a large measure in the transformation of the Russian penal system and in utilizing the vast resources of Siberia. In August, 1902, Emperor Nicholas appointed M. Muraviev arbitrator at The Hague of the case between Venezuela and the blockading powers and in October of the same year he was made president of the Venezuelan tribunal.

GENERAL SMITH COMES TO CALIFORNIA COMMAND

Manila, Dec. 14.—Major General John F. Weston, until recently commanding a division of the Philippines, sailed today on the transport Sheridan for San Francisco, where he goes to take command of the department of California.

A guard of honor composed of a squadron of cavalry and detachments of scouts and constabulary, escorted the governor from his residence to the governor's yacht on the water front. On the yacht General Weston was joined by Governor General Smith, members of the insular commission, Generals Miles and Mills and Rear Admiral Harbor, who accompanied him to the Sheridan. As the general boarded the transport, the cruiser Charleston fired salutes and the crews of the Asiatic squadron gave three hearty cheers.

General Weston will take command of the department of California on January, succeeding Brigadier General Frank A. Smith.

Cruiser Given Trial Trip.

Rockland, Me., Dec. 14.—The scout cruiser Birmingham was given her standardization trial on the Rockland course today in preparation for the competitive trials with the scout cruisers Salem and Chester. Fourteen runs were made at top speed, three at twenty-three knots, three at fifteen knots and three at ten. The average of the top speed runs was 23.224 knots.

Tomorrow the scout cruiser Salem will be given her standardization trial over the same course.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ, stops the hair out of the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1.00. H. B. Briggs & Co., special agents.

HOUSE INSURGENTS TO HOLD CAUCUS TONIGHT

Washington, Dec. 14.—The republican representatives who are endeavoring to secure a revision of the rules of the house and who are designated "insurgents" claim that they will have nearly double the number of members present at their meeting tonight than were present at the first meeting, which was held on Friday night. A resolution introduced in the house last Monday by Representative Gardner, of Massachusetts, one of the insurgents, and which required the secretary of state to inform the house whether the house of commons of England recently appointed a committee to consider what changes would be made in the rules of that body, was considered at today's meeting of the house committee. Mr. Gardner did not appear before the committee, and the resolution was laid on the table.

IT'S A SHAME

To neglect your health. The worst neglect that you can be guilty of is to allow constipation, biliousness or any liver or bowel trouble to continue. It is poisoning your entire system and may lead to a serious chronic condition. Take Ballard's Herbine and get absolutely well. The sure cure for any and all troubles of the stomach, liver and bowels. Sold by J. H. O'Reilly & Co.

LEGAL NOTICES.

NOTICE FOR PUBLICATION. Department of the Interior, United States Land Office, Santa Fe, N. M., December 8th, 1938.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1857 (26 Stats. 834), as amended by the act of February 21, 1892 (27 Stats. 459), and that said proof will be made before H. W. S. Otero, U. S. Court Commissioner at Albuquerque, N. M., on January 20th, 1939 viz: Patent to be made in the name of Vicente Lujan, for Lots 1, 2 and 3, sec. 26 lot 4, sec. 35 and 36, township 1 N. R. 2 E.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz: Crescencio Aragon, of Albuquerque, N. M.; Escalante Vigil, of Albuquerque, N. M.; Policarpo Sanchez, of Albuquerque, N. M.; Pablo Salazar, of Albuquerque, N. M.

Any and all persons claiming adversely the land described, or desiring to object because of the mineral character of the land or for any other reason, to its disposal to applicant should file their affidavits of protest on or before December 15, 1938.

MANUEL R. OTERO, Register.

H. B. HENNING, Business Manager

Entered as second class matter at the postoffice at Albuquerque, N. M., under act of Congress of March 3, 1879.

THE MORNING JOURNAL IS THE LEADING REPUBLICAN PAPER OF NEW MEXICO, SUPPORTING THE PRINCIPLES OF THE REPUBLICAN PARTY ALL THE TIME AND THE METHODS OF THE REPUBLICAN PARTY WHEN THEY ARE RIGHT.

TERMS OF SUBSCRIPTION.
Daily, by carrier, one month, \$5.00
Daily, by mail, one month, \$4.00

Largest circulation than any other paper in New Mexico. The only paper in New Mexico issued every day in the year.

Terrell of New Mexico, County of Bernalillo, ss.
I, J. B. Henning, appearing before me personally, and first being duly sworn, declares and says that he is the Business Manager of the Albuquerque Morning Journal, and that during the month of October, 1908, the circulation of the said Albuquerque Morning Journal averaged 5,661 copies per day.

I, J. B. Henning, do hereby certify that the foregoing is a true and correct statement of the circulation of the said Albuquerque Morning Journal for the month of October, 1908.

Sworn and subscribed before me, a Notary Public in and for the Territory of New Mexico, at Albuquerque, the 15th day of November, 1908.

(Seal.)
Notary Public.

"The Morning Journal has a higher circulation rating than is accorded to any other paper in Albuquerque or any other daily in New Mexico."—The American Newspaper Directory.

ALBUQUERQUE - - - NEW MEXICO

NATIONAL EXTRAVAGANCE.

We are living beyond our means—not individually, because it is undoubtedly true that during the last ten years a large proportion of the American people have been laying up more for a rainy day than ever before in the history of the country—but as a nation we are spending more than we earn. Of course, as the country grows, it costs more to govern it, but our income does not keep pace with our outgo, and that does not speak well for our management of affairs. The secretary of the treasury, Mr. Cortis, calls attention to the fact that twenty years ago in the last year of President Cleveland's first administration, the net receipts of the government had grown to \$279,266,975, while the expenditures were but \$259,653,959, leaving a surplus of \$120,203,016. Mr. Cleveland suggested a reduction of taxation, but congress thought it better to spend the surplus, whether wisely or unwisely. The increase in the annual appropriation that began has gone on so rapidly that in 1908, while the receipts had advanced by about 58 per cent, to \$600,126,178, the disbursements had grown to \$659,196,219, an increase of 153 per cent, converting the former annual surplus into a deficiency of \$58,670,041. The treasury figures vary, of course, with various modes of statement, but this particular comparison shows exactly how the expanding activities of the government in the past ten years have run beyond any corresponding provision of revenue. The secretary estimates the deficit for the current year at \$114,000,000, and for 1910, on the same basis, \$142,000,000.

Much of this is due, of course, to the cause that during the last few years has set nearly all the great powers of the earth in favor of rapid expansion—armaments—a cause which has brought a world-wide paralysis upon the planetearthly industry of hoarding wealth and means to agricultural implements, and makes business at The Hague look less promising than ever. But, fortunately, this folly has about reached its limit. The burden has grown so great that the nations are becoming seriously alarmed, and see that a halt must be called. The increase of the expense of the German empire, on this account, is leading to the search for new forms of taxation, and the constantly heavier burden of public debt in France is causing rumors of another large loan. Fortunately these undesirable conditions are not paralleled fully in this country, because of the rapidity of our growth and the elasticity of our source of revenue. It is a startling fact, however, which is set forth by Secretary Cortis, that if interest on the public debt is excluded, the growth in ordinary expenditures for carrying on the government, including payments for pensions and many public works has been increased during the period from 1878 to 1908—only thirty years—almost four hundred per cent.

Congressmen and members of the incoming administration will find a good deal of food for thought in the foregoing facts.

TAFT AND CANNON.

A great deal of nonsense, or still worse, than nonsense, has been written and printed about some sort of alleged disagreement between President-elect Taft and Speaker Cannon, which clearly had no other object than a desire to create discord in the republican ranks. There has never been any reasonable foundation for any such stories, and the following from the Kansas City Journal, the reader may be assured, is a plain, truthful statement of the case as it really exists:

So far as the general public is now informed, the net result of the conference between President-elect Taft and Speaker Cannon was the not surprising discovery that the two are pretty well agreed as to the party's tariff policy. For a long time the political trouble makers have been endeavoring to sow seeds of discord and make it appear that the president-elect and the speaker are not friends. The ultra Taft newspapers have insisted that Mr. Cannon was not in sympathy with tariff revision and that therefore he was an "enemy" of the incoming administration. That there was no foundation for such an assumption has been shown by the complete accord of the two men since the election.

It is said that this conference between Taft and Cannon established a "definite understanding that each represents a co-ordinate branch of the government." If that is so, it demonstrates clearly that Mr. Taft does not hold to the administrative idea of his predecessor, who lost no opportunity to encroach upon both the legislative and the judicial branches of the government and make the word "co-ordinate" a mockery. Speaker Cannon may have his faults, but one thing can be said to his credit, he never yielded to the successive assaults of the president, and he preserved the dignity of the house of representatives as an independent body of the people's delegates. No doubt this firm attitude brought upon him the enmity of President Roosevelt, as it did the abuse of those newspapers throughout the country that were eager to catch the cue from the White House and carry away by denouncing everything subservient to every Rooseveltian whim.

All that speaker Cannon and his associates in the lower house of congress have contended for was a proper recognition of their own rights and privileges under the constitution. When they differed from the president they insisted that this was their right, and they resented the threats and the application of the "big stick" invoked in continuous efforts to bully them into submission. Both Speaker Cannon and President-elect Taft have expressed themselves in favor of tariff revision on republican protection lines. What consolation do the trouble makers find in this eminently reasonable and satisfactory agreement?

A BIG THING IN COPPER.

The various copper properties of Phelps, Dodge & Co., the output of which has been as high as 100,000,000 pounds a year, are to be merged into a new corporation, capitalized at \$20,000,000. The old firm will go out of existence on January 1, and in its stead will be formed a stock company to be designated as Phelps, Dodge & Co., incorporated.

The new company will take over the Copper Queen, Consolidated Mines company, the Detroit Copper Mines company, of Arizona, and the Star Cannon Fuel company.

ALL THE ARMY WE NEED.

The proposals embodied in a bill for the reorganization of the regular army and the militia in such a way that the regular army, however small, may be a serviceable nucleus and skeleton for the handling of the volunteer, are reasonable in time of need are practicable and reasonable. It is the duty of the government and of the war department to hold the army to a high state of efficiency, whether it be large or small, and to form a working plan for emergencies, though they may never come. But the enthusiasm for the increase of the establishment needs the brake rather than the spur.

now, and congress may be expected to apply the check in a perfectly rational and calculating manner. The regular army is large enough; there is no occasion for alarm; the enemy is not at the gates; no outcrying impends; let us have peace.

Give the boys of the national guard good, liberal treatment, so that they may see and feel that the national government regards them as real soldiers, and then you will have all the standing army that the country has any use for, in addition to the skeleton of a regular army that we have maintained heretofore. These young fellows of the national guard have got it "in 'em" and you can trust it to come out very promptly whenever the emergency may arise.

A GOOD SUGGESTION.

Here is a little item from the Kansas City Star, suggesting an idea that is worthy of careful consideration by the people of other towns:

The contributor of the Star who protests against the peanut, candy and fruit vendoring, whose carts so often encumber the busy corners of the streets, does not give the best reason that may be urged against those obstructions. The inconvenience involved is nothing as compared with the danger to public health from the sale and distribution of candies, sugary corn, fruits or any other articles of consumption, whether sold from these corner stands or from the exposed displays of the grocery stores, meat stores or confectioneries. A city that permits articles of food thus to be exposed to the germ-laden dust of the street has not progressed very far in sanitary precautions.

TO PREVENT STOCK WATERING.

Senator Duffell has introduced a bill, the object of which is to prevent the issue of new stocks or bonds by public service corporations doing interstate business except upon approval of the interstate commerce commission. It is not likely to pass the present congress, but it is very likely, indeed, to be ultimately enacted into law. There is nothing new in the principle. Such issues are very carefully supervised in some European countries, and by the public service commissions of the state of New York and by some public authority in Massachusetts and Indiana in other states. It has been for some time strongly advocated in official quarters as an adjunct to the present interstate commerce law. The object sought to be attained is to assure the public that no security shall be issued which does not represent actual value according to its face, or actual equities to be realized some time, and in the latter case a clear statement of the nature of those equities. It is assumed that official approval could never be had for the extensive stock watering which has discredited American corporation finance.

THE COLOR LINE.

The supreme court of Kansas has just handed down a decision which upholds the validity of "Jim Crow" schools in Kansas. In other words, it declares that it is constitutional for the school authorities of that state to maintain separate schools for white and black children, provided that the one shall be accessible, and in all respects as well kept up, as the other. A recent regard for consistency will now require our neighbors of Kansas to keep him in the matter of Jim Crow business in the Southern states.

WHAT THE EDITORS OF THE SOUTHWEST ARE SAYING.

The AMT. CHURCH.
With Champ Clark, the wild orator of the Missouri valley, as the minority leader, the house of representatives will sound like a blacksmith shop on a busy day.—Las Vegas Optic.

Fine Disease.

There were fifteen deaths and over 325 injured in football games during the past season in the United States. Football is a splendid disease. It helps to develop bumps and a fat cemetery.—Cocoonino Sun.

UNIVERSITY.

Those women who think that a lady ought to have \$50,000 a year for clothes ought not to proceed to put their theories into practice before their husbands are able to earn at least a hundred or so dollars a month.—Tucson Citizen.

For Mutual Benefit.

Rev. A. M. Harkness, pastor of the M. E. church, called on us Monday. He has charge of the work of the M. E. church here, at Helen and Mountain. He also expects to preach at West Willard. He is holding a meeting at Mountain this week. We welcome him among us and hope that he will do us much good and that we will do him no harm.—Willard Record.

WHAT WE LEARNED FROM EXPERIENCE.

We have used one of the Royal \$65.00 Typewriters in our business office since last March. We are convinced that the machine is all that has been claimed for it. We believe the \$65.00 Royal to be as good as any machine, and recommend it to any concern wanting a strictly first class typewriter at a reasonable price.

PRO AND CON ON NAME FOR THE NEW STATE.

(Carrizozo News.)
Many have made the suggestion—and some have grown eloquent over the proposition—that, in the event of statehood, the new state should assume another name. Some have suggested the name of Lincoln, to which we would interpose no objection. We were nameless, while various other names have been mentioned, all with the idea of getting away from the name of a foreign country. It is urged by these advocates that such a proposition would give us strength in the east, where, it is said, many people still consider our territory a part of Mexico, and, therefore, a prejudice has been created in the minds of that people.

WE SELL High Grade Pianos

COWS MILKED BY MACHINERY AT NEW DAIRY

WONDERFUL ELECTRICAL
DEVICE GREAT SUCCESS

Mathew's Jersey Dairy Now
Conducted Along Lines of
Most Modern Eastern Plants

There is no more ingenious modern mechanical device now in use than the electrical suction milker, which has been introduced into New Mexico by Mr. T. J. Mathew, who is associated with Mr. Mathew Schmidt in the management of the new Mathew Jersey dairy on the extension of North Fourth street. A visit by a Morning Journal representative to the dairy yesterday revealed the fact that this city now has a modern sanitary plant which compares favorably with the best concerns in the east. That the mechanical milker is an unqualified success and from a sanitary point of view and especially for superior to milking by hand has been fully demonstrated here. It is worth any man's while to step into the plant about 4 o'clock p. m. and see the novel spectacle of twenty-four sleek Jerseys carefully curried and with udders freshly washed, quietly feeding in two long rows in a dust-proof, cement-floored, spotless milking shed, while two rows of big milk buckets are being rapidly and almost noiselessly filled with no one in evidence save two attendants, dressed in spotless white uniforms, who adjust the milking machines, and remove the buckets as they are filled. Piping extends along each side of the building with valves to each stall to which the individual milking machines are attached by short rubber hose. A quadruple smaller hose extends from the bucket to the cow's udder, to which it is easily and quickly attached. A strong pulsating suction, produced by an electric air pump in another building, draws the milk easily and rapidly into the closed patent bucket which it enters through a short glass tube. Two dozen cows are milked in half an hour, 120 cows being milked in a day at this dairy. The cows are carefully curried and udders washed in the sanitary feeding sheds just before entering the milking sheds. After they are milked, the milking sheds are flushed out thoroughly with a hose, and the greatest possible cleanliness thus secured. After use, the milking machines are washed with cold water and brushes, then flushed with hot water, then with a salt soda solution,

and are kept immersed in lime water while not in use. The buckets, with connecting apparatus are most ingenious contrivances and the system was selected by Mr. Mathew after a careful inspection of the latest dairymaking methods in the east. The machines work so smoothly and naturally that the cows give no sign of uneasiness and are much more tractable than when milked by hand. The patent is owned by the Burdell-Lawrence-Kennedy company.

The milk is carried in the air tight buckets up an outside stairway, dumped into a receiver which takes it into a large can near the ceiling of the cement-floored milk room. Thence it passes into a tank which is cooled by a continuous stream of cold water. The milk then runs into another tank where it flows into the bottles. The milk is not handled at all from the time the milk buckets are emptied. Milk is diverted to a separator from the cooling tank as desired, this dairy doing quite a large cream business.

When the bottles are returned they are cleaned in boiling water with a revolving brush, rinsed and then separated by jets of steam which are sprayed inside the bottles. The cleaning is as near absolute as possible and in fact the whole arrangement represents the perfection of sanitary science as applied to dairymaking. The possible bacteria content is reduced to the very minimum and it is difficult to see how further precautions could be devised.

"The new plant not including the stock represents an outlay of over \$10,000," said Mr. Mathew last evening, "and we are not through yet. A lot of lumber has arrived for the construction of another milking shed, an additional feeding shed, and a shelter shed, besides other additions."

The whole plant covers about eight acres, there being at present beside the main office and bottling building, four feeding sheds, one milking shed, and other buildings, the whole outfit including pastures for the cows, covering eight acres of ground.

"I have been studying the sanitary dairy proposition for a great many years in Albuquerque," said Mr. Mathew, "and I believe Mr. Schmidt and I now have come as near achieving a perfectly germ proof establishment as is possible anywhere."

DEATH OF POPULAR
YOUNG WOMAN DEPLORED

Passing of Miss Ellen Rexer Removes
One Who Had Hosts of Warm
Friends in Albuquerque.

The funeral of Miss Ellen Rexer, whose death occurred in this city Monday morning, will be held from French and Lowber's parlors at 2 o'clock this afternoon. Rev. Hugh A. Cooper, of the Presbyterian church, will preach the funeral sermon. The remains will be shipped tonight to the young lady's former home in De Graffe, Ohio.

Miss Rexer, who had made her home for some time with the family of Mr. and Mrs. S. Houghton at 429

Pure Flavorings DR. PRICE'S DELICIOUS Flavoring Extracts

have been given the
preference and are now
used and appreciated by
millions of housewives
who have used them for
half a century.

West Lead avenue, had lived in Albuquerque for some five years and during that time by her remarkably lovable disposition and sunny nature, had made warm friends of all who knew her. Her death is a loss that will be keenly felt by a great many people in Albuquerque as well as at her old home in Ohio.

"THE CLANSMAN" IS WELL PLAYED

Stirring Drama of Reconstruction
Days Pleases Packed
House at Elks' Theater.

"The Clansman" played to a big house last night at the Elks' theater, and the strong story was well presented by a very clever and capable cast. While the general effect of the performance, as can be easily seen, might have a very undesirable effect in certain sections of the country, the drama is a powerful one and held the close interest of the audience last night from start to finish. On the lighter side some of the darker characters were exceedingly funny and every part was splendidly interpreted.

LOCAL AND PERSONAL

The park commission is making for contributions in services toward the public meeting tonight in the library building, to the press of the city for kindly notices of the meeting, to the Albuquerque Business college for the use of the hall, to Al Knight and Anderson for printing 1,000 dogtags, to Strong Bros. for chairs, to French & Lowber for chairs, and to many friends who are bringing person to attend.

The members of Leonard and Lindemann Boys' band are requested to meet at the music store at 7:15 sharp tonight, and to wear their uniforms and bring their instruments. The boys will render a number of selections at the Highland park meeting at the library building tonight.

The members of the Athletic club and Minors' basketball team are practicing daily in preparation for the match game to be played at the Armory next Friday evening. The lineup of both teams is unusually strong being composed of players who have had much experience in the basketball line. Four members of the Minors' belonged to the Minors' team of last year, which cleaned up every team in the territory. At the conclusion of the game a dance will be given, the music to be furnished by a three piece orchestra.

Plans for the handsome Masonic temple and auditorium which will be erected in the near future on the corner of Third street and Copper avenue, adjoining the present temple, have been completed and are now on exhibition in one of the Second street windows of the El L. Washburn company store. The building, as now planned, will be four stories in height, and all the floors with the exception of the first, will be reserved for the exclusive use of the Masonic societies. The plans call for a clever arrangement of lodge rooms, private offices for the grand master, and other secretaries, and a large banquet hall, with all necessary accessory rooms. The matter of financing the construction of the edifice has been taken up by a finance committee, which reports good success in raising funds. It is expected that actual building operations will be commenced within sixty days at the most.

In compliance with his custom of affording the public every possible convenience and accommodation in the matter of furnishing incidentals for tying and addressing Christmas packages, cards and letters, Postmaster R. W. Hopkins will today install a long table in the postoffice, upon which will be placed pairs of scissors, manila bags, pens, ink, wrapping tissue and other articles which will assist Uncle Santa's patrons in the way of securely wrapping and addressing mail matter. The long table has been a feature of the holiday rush for several years past and has proved to be a big convenience to persons who make purchases down town and do not care to go home to wrap and address them. This year Postmaster Hopkins will have almost everything for free use on the table, except stamps and wrapping paper. The only restriction placed upon those who use the property on the table is that they kindly refrain from sticking machine brushes into the ink stands.

For Eczema, Tetter and Salt Rheum. The intense itching characteristic of these ailments is almost instantly allayed by Chamberlain's Salve. Many severe cases have been cured by it. For sale by all druggists.

WINDOW SHADES
In stock and made to order, lowest prices. Satisfaction guaranteed. Furniture Co.

PARK MEETING AT THE LIBRARY TONIGHT

Greatest Interest Being Taken
in Public Gathering for Im-
provement of City's Pleasure
Grounds.

The big meeting at the public library in the interest of better and more numerous and more beautiful parks for the city of Albuquerque will be held this evening, the announcement that it was to be Monday night being erroneous. The members of the park commission have given this meeting the greatest publicity with the object of arousing as much public interest in the matter as possible, and it is believed that the meeting tonight will be a largely attended and most profitable one. The subject is one of great importance to every citizen of Albuquerque and Albuquerque's prosperity, and every citizen should be present and make his views known.

SHRINERS ELECT OFFICERS

At a largely attended meeting of Shriners of the Ballut Alved temple, held in the Masonic temple last night the following officers were elected to serve during the ensuing year:

Illustrious Potentate—Dr. L. H. Chamberlain.
Chief Rabbi—E. C. Allen.
Assistant Chief Rabbi—C. O. Nathan.
High Priest and Prophet—Paul Feuchst.
Oriental Guide—C. N. Blackwell, of Baton.
Treasurer—A. J. Maloy.
Secretary—Harry Ballard.
Illustrious First Ceremonial Master—George Tetzl.
Illustrious Second Ceremonial Master—Fred Perkins.
Illustrious Marshal—Frank H. Strong.
Illustrious Director—Dr. J. H. Krohn.
Illustrious Captain of Guard—Fred Miller.
Illustrious Officer of Guard—A. M. Whitcomb.
W. D. McFerran, E. L. Medley, of his city, and John W. Poe, of Roswell, were elected as representatives of Ballut Alved temple to the imperial council to be held in Louisville, Ky., on July.

The officers elected at last night's meeting will be installed tonight, the work commencing promptly at 8 o'clock. The ceremonies in connection with the installation will be conducted by W. D. McFerran, present orator. At the conclusion of the installation the Shriners will tender a reception to the ladies.

"THE HUB" NEW NAME OF
SECOND STREET STORE

"The Hub" will hereafter be the name of the gentlemen's furnishings

store located at 113 South Second street, which has been conducted for some time under the firm name of Reynolds and Loken. By a business deal closed yesterday, Mr. George A. White takes over Mr. Reynolds' interest in the firm, the latter gentleman retiring to enter other business. Mr. Loken will still retain his share in the business and it will be conducted under the firm name of Loken and White. The establishment will be known as "The Hub." Mr. White, the new member of the firm, has been a resident of Albuquerque for the past five years, being employed a greater part of that time at the American Lumber company and is well known and popular, having many friends in the city who will wish him success in the new venture.

Gov. Hughes Appoints
ANOTHER COMMISSION

Latest One to Inquire Concerning
Speculation in New York.

Albany, Dec. 14.—Governor Hughes tonight announced the appointment of a committee of nine, consisting of bankers, business men and economists to inquire into the facts surrounding the business of the exchange in New York, and suggest what changes, if any, are advisable in the laws of the state bearing upon the speculation in securities and commodities, or relating to the protection of investors.

The committee includes Horace White, author and editor; Charles A. Scherwin, merchant, formerly mayor of Brooklyn; David Leaventritt, former

justice of the supreme court; Clark Williams, state superintendent of banks; John B. Clark, professor of political economy in Columbia university; Samuel H. Ordway, lawyer; Edward D. Page, member of the firm of Paulsen, Page and company, of New York; and Charles Spague Smith, director of People's Institute, New York.

CHURCH PEOPLE FAIL TO
PREVENT CHICAGO BALL

Aldermen Pull Off Annual Fundion
Despite Strong Opposition.

Chicago, Dec. 14.—With an attack in a newspaper photographer and the smashing of his camera as a prelude, the First Ward ball, the annual affair presided over by Alderman John Coughlin and Alderman Michael Keenan, was held in the Coliseum tonight, all efforts of the church people and law and order organizations to prevent it having proved unsuccessful.

A large guard of police surrounded the building, extra precautions being taken because of the explosion of dynamite in the vicinity last night. Photographers were forbidden to attend the ball, and in the efforts of one to violate this rule resulted in his attack on him.

It was estimated that the receipts from the sale of tickets amounted to \$25,000. This, according to the regular custom, will be used in electing the aldermen of the ward whose terms expire next spring.

Take your lame horse to the L. E. L. Shoeing Forges to have him shod. 315 Upper ave.

OPIE READ PLEAS LARGE AUDIENCE

Presbyterian Church Well Filled
to Hear Versatile Novelist;
First Number of the Brother-
hood Course Success.

Opie Read, one of the best known writers of story and fiction in the country and a prince among story tellers, delighted a large and appreciative audience at the Presbyterian church last night with his lecture "Anything and Everything." Mr. Read is one of the foremost humorists and clever platform speakers of the day and was at his best last night, provoking his audience to laughter one moment by the recitation of a funny incident, to tears the next by a touching narrative. It was Mr. Read's first appearance before an Albuquerque audience and he was most cordially received. He was accorded generous applause throughout the course of his lecture. The Brotherhood is to be congratulated upon the success which attended the first number of its course. If last night's lecture is a foretaste of the future attractions which have been booked for the course, the Brotherhood may rest assured that it will receive the substantial support which it deserves.

AT THE MAZE

Christmas Presents for the Old and the Young.

Handkerchiefs, always needed, always acceptable, we have them from 10c to 25c. Gloves made a sensible present. We have them for the whole family, from the baby to grandpa, and they range from 10c to \$1.50. Hosiery, you are always buying and always short. We have just received a shipment from the southern mills, and can offer you some splendid values at popular prices, 10c to 25c. Lace curtain stretchers. Many a woman would be pleased to get a pair for \$1.25. Carpet sweepers, room pay for themselves. You know a broom is awfully hard on your carpets, and besides that, it raises an awful dust. We sell Black's sweepers for \$2.75.

Gov. Hughes Appoints
ANOTHER COMMISSION

Latest One to Inquire Concerning
Speculation in New York.

Albany, Dec. 14.—Governor Hughes tonight announced the appointment of a committee of nine, consisting of bankers, business men and economists to inquire into the facts surrounding the business of the exchange in New York, and suggest what changes, if any, are advisable in the laws of the state bearing upon the speculation in securities and commodities, or relating to the protection of investors.

The committee includes Horace White, author and editor; Charles A. Scherwin, merchant, formerly mayor of Brooklyn; David Leaventritt, former

justice of the supreme court; Clark Williams, state superintendent of banks; John B. Clark, professor of political economy in Columbia university; Samuel H. Ordway, lawyer; Edward D. Page, member of the firm of Paulsen, Page and company, of New York; and Charles Spague Smith, director of People's Institute, New York.

CHURCH PEOPLE FAIL TO
PREVENT CHICAGO BALL

Aldermen Pull Off Annual Fundion
Despite Strong Opposition.

Chicago, Dec. 14.—With an attack in a newspaper photographer and the smashing of his camera as a prelude, the First Ward ball, the annual affair presided over by Alderman John Coughlin and Alderman Michael Keenan, was held in the Coliseum tonight, all efforts of the church people and law and order organizations to prevent it having proved unsuccessful.

A large guard of police surrounded the building, extra precautions being taken because of the explosion of dynamite in the vicinity last night. Photographers were forbidden to attend the ball, and in the efforts of one to violate this rule resulted in his attack on him.

It was estimated that the receipts from the sale of tickets amounted to \$25,000. This, according to the regular custom, will be used in electing the aldermen of the ward whose terms expire next spring.

CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturers of Chamberlain's Cough Remedy, says: "I have used your Cough Remedy for my children. It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that had it not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time." It is pleasant to take and many children like it.

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

justice of the supreme court; Clark Williams, state superintendent of banks; John B. Clark, professor of political economy in Columbia university; Samuel H. Ordway, lawyer; Edward D. Page, member of the firm of Paulsen, Page and company, of New York; and Charles Spague Smith, director of People's Institute, New York.

BRITISH CRUISERS TO VISIT SOUTH PACIFIC

London, Dec. 14.—With a view to showing the British flag on both sides of the American continent the admiralty has ordered the cruisers Camaran and Flora, detached from the Australian and China squadrons respectively, for a visit to the southern ports on the Pacific coast of South America. This will make three separate squadrons cruising in the waters of the American continent. The largest British force hitherto on these waters was composed of the squadron under Rear Admiral Sir Percy Scott and the ships Shearwater and Albatross, which visited at Acapulco, Mexico, and other ports along the southwest coast.

BRILLIANT ARMY BALL BY OFFICERS AT OMAHA

Omaha, Dec. 14.—A ball, the splendor and pomp of which has seldom been witnessed in Omaha, although it has been a headquarters town for thirty years, was given tonight by the officers of Fort Crook and Fort Omaha, in honor of General William H. Carter and General Charles K. Morton and their wives tonight at a local hotel. Every officer stationed at the two forts and those on staff duty at the headquarters of the department of the Missouri were present in full uniform.

Military Honors for Theodore H. Waterberry, Capt. Dec. 14.—Governor-elect George L. Lilley announced the appointment of Theodore Roosevelt, Jr., as an aide on his staff, with the rank of major.

The best of meals at reasonable rates at the Columbus Hotel.

EQUITABLE STANDARD LIFE INSURANCE

In this country there are about FORTY DEATHS TO ONE FIRE. If you have a home or building you insure it for the limit against fire. But your life, which is providing an income for your loved ones is probably inadequately covered by life insurance, if covered at all. Your home may burn—you must die. Provide at once a guarantee of comfort and independence for your wife and loved ones by investing in a STANDARD POLICY, issued under the laws of the State of New York. Invest in one of our STANDARD SURVIVORSHIP ANNUITIES and have your wife an income of \$600.00 a year, and should her demise happen before yours.

We Will Return All Premiums You Have Paid

Good reliable agents wanted in New Mexico and Arizona. To such as can furnish references, liberal contracts will be given.

Annual dividends, extended insurance, liberal cash and loan values. Prompt payment of death claims, no ready money is so-fund money.

A JOINT LIFE POLICY on man and wife protects the mutual interests of each. The rates are lower than for a policy on each life. A CHILD'S ENDOWMENT on your son or daughter will provide them with a business fund when they reach the age of eighteen or twenty-one. The above and many other equally attractive forms of Standard Life and Endowment Insurance issued by

JOURNAL PUBLISHING CO.

Forecast.
Washington, D. C., Dec. 14.—New Mexico and Arizona—Rain or snow Tuesday and possibly Wednesday.

Insure in the Occidental Life.

Mrs. A. Menzies is here from Las Vegas on a brief visit to friends.

C. T. Brown, a mining engineer of Socorro, was in the city yesterday on business.

F. D. Bull, representing the Graham Paper company, is in the city calling on the trade.

There will be a session of the probate court in the court house at 10 o'clock this morning.

Regular review of Alamo High No. 1, L. O. T. M. at Odd Fellows' hall, Tuesday afternoon, December 15th, at 2:30 o'clock.

A marriage license was issued yesterday to William H. Shont, aged 53, and Clementina Montes, aged 34, both of Albuquerque.

The Nash Electrical Supply company are looking for a lost Scotch Collie five months old. Nine black and white. See them for reward.
The Leonard and Lindemann Boys' band will furnish music tonight at the public meeting in library hall which is to be held in the interests of park improvement.

Mr. W. G. Mattoon, the landscape architect of the forestry service; Mr. M. E. Hickey, Dr. W. G. Hope and others will address the mass meeting tonight in the library building.

There is a time and place for all things. The time to purchase dairy gifts in hand painted china, water colors, etc., is next Friday afternoon, the place The Woman's Club Bazaar.
Every property owner and all fathers and mothers should welcome every effort to secure parks for the city and should show their interest by attending the meeting tonight in the library building and thus assist in arousing public sentiment.

Every public-spirited citizen who wants to see the city improved by good parks should attend the meeting tonight in the library building.

There will be a meeting of the Fraternal Order of Eagles at 8 o'clock tonight. Visiting Eagles cordially invited to attend.

Mr. and Mrs. L. L. Leech, of 614 South Walter street, left last night for Chicago, Nashville, Tenn., and other western points. They were accompanied by Miss Grace and Edith Purdy, daughters of Santa Fe Agent T. E. Purdy. The party expects to be in the east about thirty days.

Mr. L. F. Knipp, assistant forester, in charge of the bureau of grazing in the United States forestry service at Washington, is in the city on an official visit to A. C. Ringland, chief forester of the third district. Mr. Knipp will remain here a week looking over the newly established forestry bureau.

The Solie and LeBreton furniture store at 117 West Gold avenue, that has been growing for eight or ten years under the burden of being literally packed with new and second-hand home furnishings of every kind is being rapidly released of its burden on account of the big cost case now being conducted. The firm reports a large number of sales yesterday.

There is every prospect that the hall of the library building will be packed tonight with men and women who are interested in securing ample park facilities. If any one has a well grounded opinion as to the proper method of treating the present Highland park so as to make it an attractive and beautiful resort, he should go to the meeting tonight and enlighten the public.

The funeral of Arch Morgan, who died at his home on the Highlands Saturday afternoon after a lingering illness, will be held at 2 o'clock this afternoon from French and Lowber's chapel. Rev. W. E. Brayson, of the Christian church, will officiate. Interment will be made in Fairview. Deceased came to Albuquerque several months ago from Memphis, Tenn.

where he was connected with the American Car and Foundry company.

G. G. Anderson, a government filing expert, will arrive in the city within a few days from Washington and remain for some time assisting in the work of installing a new filing system in the local forestry bureau offices. A very large amount of correspondence is received daily in the different departments and the installation of the new system will result in much more systematic care of the papers than the present method in use.

Samuel M. Saltmarsh, connected with the land department of the Santa Fe railway at Los Angeles, is in the city on a short business visit. Mr. Saltmarsh was chief clerk in the Santa Fe land office when that department was located in this city many years ago and is well known here by the old timers. He was at one time captain of Albuquerque Company G, national guards, and is yet connected with that organization in California.

EIGHTH LETTER FROM SANTA CLAUS

Toy Land, December 14th, 1908:

My Dear Friend—I want in this letter to call your attention to one of the oldest lines carried in Strong's Book Store—namely the leather goods. To many of you this will only emphasize what you already know, that here is one of the most complete and at the same time one of the handsomest lines of Leather Goods in Albuquerque. I think perhaps I can give you a better idea by listing some of the articles.

Hall Hangers, done in air brush, \$5.50.

Pillow covers, full size, Albuquerque burned on the back, from \$3.25 to \$5.50, for the handsomest applique work.

There are hundreds of novelties in Leather Work, such as Moccasins, Canteens, Duffles, Table Covers, Needle Books, Blotters, Cigar Cases, Purses, Bill Books, etc.

When it comes to ladies' Handbags, and ladies' Purses, Strong has them all beaten. Genuine horn back, alligator from \$2.50 to \$5.50. They cannot be beaten for the price.

There are some very fine novelty and Morocco Bags from 25c to \$3. The line of ladies Purses and Card Cases contains a collection of some of the finest purses on the market and the price is from one-third to one-half off the regular price.

If you are looking for a gentleman's bill book, pocket book, or purse, here is the spot.

Your friend,
SANTA CLAUS.
Phone 1104, next door P. O.

BIG MONEY AGENTS—FREE SAMPLE OFFER, (15 days only). Bright, sparkling, famous, \$5 Barnatto Simulation Diamond. It is brilliant equals genuine—detection baffles experts—fills every requirement of the most exacting—pleases the most fastidious—at only one-third the cost of the real diamond. As a means of introducing this marvelous and wonderful scintillating gem, and securing as many new friends as quickly as possible, we are making a special inducement for the new year. We want you to wear this beautiful ring, this Masterpiece of Man's Handiwork, this Simulation that sparkles with all the beauty and flashes with all the fire of the genuine Diamond. We want you to show it to your friends and take orders for us, as it sells itself—sells at sight—and makes 100 per cent profit for you, absolutely without effort on your part. We want good, honest representatives everywhere, in every locality, city or country, in fact, in every country throughout the world, both men and women, young and old, who will not sell or pawn the Barnatto Simulation Diamonds under the pretense that they are genuine gems, as such action sometimes leads to trouble or embarrassment. If you want a Simulation diamond, a substitute for the genuine—don't wait—act today, as this advertisement may not appear again—first come, first served. For Free Sample Offer, beautiful Ring, Earrings, Stud or Scarf Pin, send your address to THE BARNATTO DIAMOND CO., Grand Building, Chicago. Mention this Paper.
