-BRIEF WIRINGS-

High Climbers.
LONDON, Sept. 29.—A special to the Times from Calcutta, says: Conway's Kanchenjunga, now in the Hindu Kanchenjunga, has climbed a peak 23,000 feet high. This is 1,000 feet higher than any recorded climb.

A Railroad Purchased.
HOUSTON, Texas, Sept. 28.—This is Texas headquarters of the Southern Pacific road and from reliable authority it is learned here that the papers in the matter of the purchase by the road of the Arkansas Pass road were signed yesterday.

Arizona Water Content.
PHOENIX, A. T., Sept. 29.—The Mohawk Canal company is about to sue the South Gila, Farley, Gila Bend and Florence Canal companies, claiming first rights to water on original location. The case will be tried before Chief Justice Gooding, and will be bitterly fought.

Texas Wool Sales.
SAN ANGELO, Texas, Sept. 29.—The fall wool market has opened here, and 75,000 pounds have been sold, prices ranging from 14 to 16 cents, which was regulated by the shrinkage and quality of the staple. The wool receipts to date are over 500,000 pounds and it is arriving at the rate of 75,000 to 100,000 pounds daily.

Enlarging a Ditch.
ANTONITO, Colo., Sept. 29.—A contract for enlarging the Antonio irrigation canal was awarded to-day to Moore and Barlow of this place. The town has secured water from this ditch for a number of years. By its enlargement a large section of agricultural land adjoining the town will be brought under cultivation.

It was a Howler.
SAVANNAH, Ga., Sept. 28.—A special from Brunswick says: Brunswick was visited this morning by a cloudburst and a terrific electric storm that damaged \$200,000 worth of property, filled Newcastle, Mansfield Bay, Union and Grant streets with water four feet deep and penned the citizens in their homes and threatened to inundate a block of three stories.

Very Wide Awake.
CLEVELAND, Sept. 29.—Gov. McKinley spoke at Wellington, Ohio, yesterday afternoon to a mass meeting of between 4,000 and 5,000 Republicans.

South Carolina Republicans.
COLUMBUS, S. C., Sept. 29.—A large number of Republicans from all over the state are assembling here with a view of holding a state convention to nominate a state ticket. Thomas B. Johnson, collector of Charleston, is regarded as an available candidate for governor. Sixty-five thousand negroes are registered, and if they can be induced to vote they can elect Johnson owing to the lack of interest that usually prevails among the whites at a general election. Johnson is popular with all classes, liberal and wealthy.

The Drummer's Friend.
CHICAGO, Sept. 29.—Over 1,000 commercial travelers, or "drummers," will start on a pilgrimage to Washington this evening for the purpose of paying their respects to President Harrison. This custom was inaugurated four years ago when the Commercial & Travelling Men's Republican club made the trip to Indianapolis and were addressed by Gen. Harrison, then the Republican candidate. The president has intimated his readiness to address the travelling men on Saturday, and the organization will have his speech printed and distributed among travelling men throughout the country.

Acres Ablaze.
BUENA VISTA, Colo., Sept. 29.—Big mountain fires are raging on Rifle creek. Nearly all of the timber covering the mountains from Tin Cup to Texas creek has been burned, and the fire still continues. Last reports say that the fire has even gone so far as to drive out the Texas creek placer miners, who have left their camps to the mercy of the flames. The fire originated from campers carelessly letting a dry tree and shrubs catch, thus connecting it in a short time with all of the timber on the mountain. Fully twenty square miles of timber have been completely destroyed at this writing, and the damage is something enormous.

350th Anniversary.
SAN DIEGO, Sept. 29.—Seventy-five Diegueño Indians in charge of Chief La Choppa and Gen. Canan and fifty-four Luisianans under Chief Josepha Chilo and Gen. Pedro Pabla are taking part in the celebration of the 350th anniversary of the discovery of San Diego Bay. Gov. Markham and party, Gen. Torres, governor of Lower California, and Gen. McCook and staff arrived yesterday. The rock sailing regatta used to illustrate the landing of Cabrillo, was managed by a crew dressed in Portuguese and Spanish costumes in imitation of those of 350 years ago, and made its triumphant entry up the bay yesterday amid the plaudits of a vast concourse of people.

Louisiana Republicans.
NEW ORLEANS, La., Sept. 29.—The members of the national Republican committee, Hon. John N. Huston, of Indiana, and John G. Long, of Florida, who came here for the purpose of adjusting the differences existing in the ranks of the Republican party in Louisiana, have been quite successful in their mission. The basis of settlement is as follows: The state central committee has been increased from eighty-five to 110. The twenty-five new members

are to be selected by the Warmouth faction, but from and after this date no members of the state committee shall be an office holder. The Warmouth faction is to disband its organization and the committee in every district in the state and support the regular Republican organization, heretofore known as the Leonard faction.

A Cholera Preventive.
NEW ORLEANS, Sept. 29.—A Times City of Mexico special says: The wife of President Diaz accompanied by 100 other prominent ladies made a pilgrimage to-day to the Shrine of Our Lady of Guadalupe for the purpose of invoking the aid of the patron saint of Mexico against the threatened invasion of cholera. The ceremony was very impressive. The Mexican board of health declares officially that there is no cholera in Mexico.

The First Aluminum Suit.
CINCINNATI, Ohio, Sept. 29.—A very important patent suit came up in the United States court to-day. The title is the Pittsburgh Reduction against the Cowles Electric Co. N. M. "For sixteen years," said the plaintiff, "I have been claiming that the Cowles company has infringed upon its patents, and now seeks to restrain it from any further infringement, and asks the court to assess damages for sales already made. The case is one of the first aluminum trials that have taken place. The hearing will last several days."

And They Endorsed Protection, Too.
DENVER, Sept. 27.—L. A. Watkins has returned from an extended trip through the southern country where he went to attend the wool convention at Albuquerque, N. M. "For sixteen years," said he yesterday, "I have been attending wool conventions, but I never before met so many bona fide sheep men and wool growers as were there. That country is well adapted by nature for that business and is fast being developed. It is the future home of the wool and mutton interest as the immense transactions now going on in that line shows."

San Luis Valley Road.
TRINIDAD, Colo., Sept. 29.—From present indications our people have every reason to believe that the San Luis Valley railway will be built and the day is not far distant when the work will be commenced. It is the intention to have the surveying completed this week. From the time Mr. DeBiemer commenced work on this line our people have firmly believed that the road would be built and that the work would be commenced on the construction this fall or winter.

The Keeley Secret.
CHICAGO, Sept. 29.—The formula of Dr. Keeley's bi-chloride of gold treatment for the cure of drunkenness will never be given to the medical profession or made public to the world, as was vaccination by Dr. Jenner, inoculation by Pasteur, Koch's discoveries and the numerous other triumphs of medical investigation that have been made public without let or hindrance, during the past half century, and Keeley and his heirs will go on enjoying millions annually by a monopoly of the business for years to come. So much at least may be gathered from the statement of Major Moore, of Pittsburgh, who is prominently identified with the Carnegie company and is president of the National Bi-Chloride of Gold club. He says that Dr. Keeley will never make the secret of his cure known to the world because he is in duty bound to protect the interests of those in this country and abroad who have invested their money in the branch Keeley institutes. Even to give the secret to the medical profession would be practically to destroy the vested interests of the branch institutes, and the latter could resort to law were it proposed to make the formula free for the benefit of suffering humanity.

CONDENSED NEWS

Crop reports from India are very favorable.

Emperor William says that he will not enter his yacht, the Meteor, in the race for the American cup.

A company to manufacture cold rolled wire has been organized at Chicago. The plant will cost \$1,500,000.

The murder case of Aetor M. B. Curtis was again postponed at San Francisco, and his case set for Nov. 14.

The "Judge" Short gang of cattle thieves in North Dakota is reported cleaned out by the settlers and the "Judge" lynched.

The Cotton Spinner, federation at Manchester recommended a 5 per cent reduction in wages. A strike will probably follow.

Lewis, one of the Lombard Investment defaulters of Kansas City, has been surrendered to the United States officials in Mexico.

The Pan-Prebyterian Alliance, representing thirty nationalities and every branch of the Presbyterian church, is meeting in Toronto.

The Brotherhood of Locomotive firemen, in session in Cincinnati, set aside \$28,500 for relief of disabled members and widows and orphans.

The Kiowas and Comanches are ready to take lands in severity. This will result in the opening of more than 2,000,000 acres to settlement.

Postmaster General Wannamaker has issued an order to establish free delivery service, commencing December 1, at Laredo, Texas, and Oklahoma, O. T.

J. C. Oswald, of Minneapolis, a Democratic candidate for presidential elector, has withdrawn, as he considers himself ineligible, being a national bank director.

A letter from Kootenai Lake, B. C. relates that two mining prospectors, William Corlett, of Galveston, Texas, and Henry Gestford, formerly of St. Paul, Minn., were September 10 attacked and devoured by mountain lions.

Habeas corpus proceedings in the case of "Lord" Beresford, wanted in Georgia for forgery, were dismissed at Albany, N. Y., and he will have to serve his ten years' sentence.

The Cherokee commission has begun negotiations at Fort Sill, I. T., with the Kiowa, Iowa and Comanche Indians for the purchase of their reservations in the Indian territory.

Judge L. B. Morris, in accepting the nomination for governor of Connecticut, declares that state officers should be elected by a plurality vote, and that a majority should not be required.

The influenza has spread with alarming rapidity at the port of Lima, Peru, and the deaths are counted by the dozens daily. The epidemic also prevails in the Pachamayo, Cieneguilla, Huaycan and Manchay valleys.

The Republican managers have issued a circular in Kansas outlining the organization, which is to be vigorously pushed. Precincts are to be divided into subdivisions of twenty voters each, and to be in charge of a reliable Republican until the polls close.

The report of the inspector general of bankruptcy at London states that there has been a gradual decline in the amount of insolvency since the operation of the present bankruptcy law, which acts as a check. He states that the increase since his last report was "due to the McKinley bill."

Mobile, Ala., was startled at the net of E. R. Quattlebaum, secretary of the Mobile society for the prevention of cruelty to animals, who stopped the high-stepping team of James H. Masson, president of the First National bank, while his wife was shopping, and had the driver arrested. He charges that the horses were cruelly checked.

Albuquerque sports are catching catfish in the Rio Grande pools with clubs.

Mandell Bros., of Albuquerque, have bought out L. Hunning's Los Lunas store, paying \$25,000 therefor.

Jesus Jaramillo, of Los Lunas, has commenced the foundation for a two story block next to the Armijo hotel.

Albuquerque Times.

Judge Boone, of Deming, has been secured by the public school management, of Las Vegas, to deliver the address, on October 21, in connection with the public school Columbian celebration.

Dr. Gaylord, a prominent physician of Flanagan, Ill., is registered at the Armijo. He is looking for a site for a sanitarium, being sent west by a very wealthy syndicate of Illinois.—Albuquerque Times.

Quite a number of stockmen in this section are talking of going into the sheep business. Sheep can live where cattle can not and there is always some profit in growing wool, which is more than can be said of the cattle business here.—Silver City Sentinel.

Albert Eisenmann, of Albuquerque, is of the impression that the wool clip this season will be several hundred thousand pounds shorter than last fall, owing to the large number of sheep which have been driven out of central New Mexico, and the dry weather.

The grocery business of Glosson & Burns will be removed to Cerrillos. The change will probably be made to-morrow. It is to be regretted that these young men shall leave the city. They are faithful, competent and full of business vigor. There can be little doubt that they would do better to remain in Las Vegas.—Las Vegas Optic.

Charles H. Dane and Mary L. Dane made an assignment of all their property except that which is exempt by law for sale under execution, to Israel King. The assignments were made September 15.

* * * Ex-Gov. Ross, Fred M. Smith and James Gwin have been appointed by the court to appraise the estate of Charles H. and Mary L. Dane who made an assignment for the benefit of their creditors.—Silver City Sentinel.

San Juan irrigation notes: Contractor Starrett is finishing up work on the Soda Springs division of the La Plata ditch, and will shortly move camp down into the McDermott glade. * * * Messrs. LeCount and Doppelheimer, of Gunnison, are visiting San Juan to investigate irrigation enterprises. * * * Senor Quintana has finished his sub-contract in rock on the La Plata ditch, and it has been accepted by the engineers.

Contractor D. W. Schoonmaker, of Las Cruces, is in the city. He has just completed the addition to the school house at that place and is here for the purpose of purchasing material for the building of a handsome brick residence of nine rooms for Mr. O. K. Snow on his ranch near Cruces. Mr. Schoonmaker is the architect as well as the contractor for this work and the house is to be of the most modern style.—El Paso Times.

Grant county note: "It is too late in the season for rain to do the ranges much good." Feed is shorter on the ranges now than it has been before at this season of the year. Cattlemen have made up their minds that very heavy losses this winter are inevitable. There has been a succession of dry seasons such as was never before known before in this section of the territory, and the situation has been growing worse every year for four or five years.

Roswell note: After obtaining a fine flow of artesian water on M. V. Corn's farm, three and one-half miles east of Roswell,

at a depth of 350 feet, last week J. D. Bush removed his machine to the public school house, a mile nearer town, and succeeded in obtaining flowing water at a depth of 148 feet in three days. Rev. Bush has a contract to sink a well on J. P. White's farm, near the school house, and will begin work as soon as Mr. White arrives.

Cannage farming is on a regular boom in southern New Mexico. The Eddy Citizen says: In each acre of land can be planted 22,000 roots, and each plant, it is estimated, will produce five pounds of new roots, making a total production for the acreage of fifty-five tons of green roots. The green roots can be sold now, at the present time, for \$10 a ton, delivered to any railroad station. By this it will be seen that the planter would realize at least over \$500 an acre for his product after all necessary expenses had been deducted. The planter is taking no risk in planting cannage. The mere fact that several offers have already been received from large firms in Europe, offering to buy all the roots that can be raised here for the next five years, is a guarantee that he will always have a good market for his product at good prices.

L. J. Lowenstein, of El Paso, says his experience satisfies him that cannage can not be grown for less than \$1 a ton in Arizona, but that it can be grown there at a profit of \$2 per ton. Mr. Lowenstein had given Mr. Lowenstein an estimate that it could be grown for 75 cents per ton in the Pecos valley. The writer is willing to make five years' contract with farmers to pay \$5 per ton. Mr. Lowenstein knows by experience that fifty tons of cannage will grow per acre, with proper care, climate and soil, but can not say what will be the percentage of acid under cultivation. It is estimated that 1,500 acres is being planted in New Mexico, and 640 acres in one tract in Arizona. The El Paso factory expects to need 100 tons of green root per day, and if successful in getting the cultivated root in sufficient quantities, will increase so as to turn out ten cars of extract daily.—Eddy Argus.

I want to be a fakist.

And with the fakists stand.

A horny handed fakist.

With a bunch of fakes in my hand.

—Antonio Joseph.

The claim that Delegate Antonio Joseph is a truthful man is evidently incorrect.

A look at the Democratic county central committee of this county is more than enough to disgust honest men and tax payers.

DAVID BENNETT HILL, being "a Democrat still" is said to be very popular in Kentucky; anything that is connected with a "still" goes in Kentucky, you bet.

It would be a terrible thing indeed if Antonio Joseph, after eight years' dawdling in congress and drawing a fat salary, should have to go to work for a living.

THERE is no shuffling and there is no evasion in the speeches that are being delivered by Hon. T. B. Catron in this campaign; the shuffling and evading and lying and prevaricating he leaves to the Democratic candidates, who are adepts at that business.

THE NEW MEXICAN will be with you till election day; this journal will tell the truth about White Cap Democratic candidates and bosses all over New Mexico, and if any one dislikes the truth, the location of the publication office of the New Mexican is very well known. Just all you who run, had better read.

PECK, the New York Democratic labor commissioner, whose statistics on state industries have so completely backed up the McKinley bill, is being bitterly howled by the Cleveland faction, but he is evidently a man who has the courage of his convictions, and thus far his political persecutors have none the best of him.

THIS is not a campaign of innocuous desuetude; Thomas B. Catron is not that sort of a man; he works hard in season and out of season to be successful in this campaign; if elected he will do the same in Washington; he will work constantly and hard for the advancement of the best interests of the people of New Mexico, for statehood and for self-government.

THE news from all portions of New Mexico are very encouraging for Republican success; the people are very tired of the upstart and low down speeches and antics of the Democratic bosses and of the Democratic candidate for congress. This feeling will find expression on election day when many thousands will vote for T. B. Catron will receive a goodly majority of the votes cast.

A GOLD FACT.

The New Mexican may be mistaken in its estimate of the intelligence of the people of New Mexico, but it desires to remark right here and now that it doesn't see how any wool grower, miner, land owner or fruit raiser in this territory can be consistent, true to himself and loyal to his home, and do otherwise than support the Republican nominee for delegate in congress. When it comes to serving the best interests of this class of New Mexico citizens the Democratic nominee has not a leg to stand on. Indeed he is not in it at all. Bear this in mind, and reflect—is it not a fact?

BUILDING WISELY.

The people of Eddy and San Juan counties are away ahead of those of any other region of the territory in the vital matter of water development, and from the excellent reports lately received it is evident that they mean to hold the lead. They have seen it demonstrated that, after water comes everything that's good, and the way they are constructing new storage reservoirs, building irrigation canals and sinking artesian wells, is a caution to all New Mexico. Those sections are building wisely upon the only enduring foundation the arid west can hope to attain prosperity on, and they are rapidly getting into shape to catch and hold the very cream of the immigration that seeks a foothold in the southwest during the coming few years.

AMBROSIO PINO.

Ambrosio Pino, the Republican candidate for the council from this county, is a worthy man, well known throughout the county and favorably known; he is not a political trickster and does not follow politics as a livelihood; he is a heavy property owner and every interest of the county of Santa Fe is his interest. If elected, and he certainly should be, as he is far superior to his opponent in everything that goes to make a man in the true sense of the word, he will zealously and at all times guard the interests of this county and of the people of the territory; he was born and raised in this county and everything he possesses is located therein. All good citizens should vote for him and he should be elected, as his election will subserve the good of the property owners, tax payers and good citizens of the county of Santa Fe.

TERRITORIAL PRESS COMMENTS.

And is Made By Liar and Slanderers. The fight made against Mr. Catron is the fight of desperation and despair.—San Marcial Reporter.

Antonio's Talk is composed of shoddy and falsehood. Mr. Joseph's talk is always "shoddy," and the people of New Mexico propose to "protect" against any more of it by electing Mr. Catron to represent them in congress.—San Marcial Reporter.

The Tongue of Liar. On the first page of this paper, one of the prominent Democrats of New Mexico, which gives the lie direct to the article from the Democrat published in this paper last week, giving a report of an attempt to assassinate some of the Democratic delegates while attending the territorial convention. It is strange that a newspaper which thought well of its reputation would print such a story.—Silver City Enterprise.

Truthful Antonio, who Prevaricates. Mr. Joseph, after the lapse of several weeks since the publication of an interview with him appearing in the Santa Fe New Mexican on his return from Washington on the adjournment of congress, now denies its authenticity, and claims that it misrepresents him. The interview suggested the maintenance of the status quo by electing a Democratic delegate—presumably Mr. Joseph, as he has accepted a renomination—and a Republican legislator. The interview was with George Cross, the city editor of the New Mexican. Every newspaper man in New Mexico knows and respects Mr. Cross. His only fault, in the opinion of the Reporter, is that he is a Democrat, as are many other personal friends of the editor of this paper. Mr. Joseph was in Santa Fe at the time the issue of the New Mexican containing the interview appeared. The portions he complains of and attempts to deny appeared then in the New Mexican over his own signature or in the subsequent issue of the Santa Fe New Mexican organ at the capital, which was a strong advocate of Mr. Joseph's renomination. The natural presumption is that Mr. Joseph would have been willing to have traded the legislature for the delegateship. His denial comes late and no newspaper man in the territory believes that George Cross would misrepresent Mr. Joseph or any other person. If he was misrepresented in the interview complained of, the complaint should have been made at the time and not weeks afterward.—San Marcial Reporter.

Modest Grove's Political Creed. Grove's Cleveland's political creed is simple. You do not have to read all his letters and speeches to get at it. Implicitly or explicitly it is stated in everything he writes. It is this, "The country is going to the devil because I am not president." Nothing could be simpler.—Milwaukee Sentinel.

What Hill is Waiting For. When Hill begins to boom Cleveland you may know that a corrupt bargain has been made. That is all he is waiting for.—Trenton State Gazette.

THE FACTS OF TRADE.

THEY ARE ALL DEAD AGAINST THE FREE TRADERS.

Some Figures Concerning Cotton Production and Manufacturing Which Cannot Be Contrived—Some Interesting Facts About Wool and Iron.

The facts of trade are not Democratic. They have no sympathy with the calumny party and refuse to distort themselves for the benefit of free traders. A few records have just been made public which exhibit in a striking manner the progress of certain great industries under protection. The cotton manufacture is crowded with cotton for goods, and yet The Financial Chronicle's annual review shows that the aggregate consumption of cotton during the last year has been 2,806,471 bales, against 2,530,916 in the previous year—an increase of 11.3 per cent.

The weight of bales was scarcely one pound in 500 less than the year before. So remarkable a gain in production is rarely seen in any year. But in the following table is shown the consumption in bales of 400 pounds each during the last year, the year before and ten years before in Great Britain, on the continent of Europe and in the United States:

	Great Britain.	Continent, States.	United States.
1892	4,080,000	4,320,000	3,200,000
1891	4,230,000	4,520,000	3,000,000
1890	3,960,000	4,180,000	2,107,000
1889	3,960,000	4,180,000	2,107,000
1888	3,960,000	4,180,000	2,107,000
1887	3,960,000	4,180,000	2,107,000
1886	3,960,000	4,180,000	2,107,000
1885	3,960,000	4,180,000	2,107,000
1884	3,960,000	4,180,000	2,107,000
1883	3,960,000	4,180,000	2,107,000
1882	3,960,000	4,180,000	2,107,000
1881	3,960,000	4,180,000	2,107,000
1880	3,960,000	4,180,000	2,107,000
1879	3,960,000	4,180,000	2,107,000

SYPHILIS
We have had wonderful success in curing many thousands of the worst and most stubborn cases of this terrible disease.

STRICTURE
We most positively guarantee a cure in every case of that distressing malady.

VARICOCELE
We know of no method equal to ours in the treatment of either.

PILES
A SAFE, SURE AND PAINLESS METHOD FOR THE CURE OF PILES.
Fistula and Rectal Ulcers, without danger or detention from business.

Drs. Betts & Betts
929 17th St.
DENVER, COLO.

The Daily New Mexican

SHOOTING STARS.

His Cross.
Druggist—Well, my little man, what can I do for you?
The Little Man—I want a bottle of paragon to put me to sleep.
Druggist—Aren't you pretty young to be troubled with insomnia?
The Little Man—Not when I am roaming with trip-lets.

Wonderful Gains.
Dr. Miles' Nerve and Blood Purifier cures all nervous diseases, headache, dizziness, poor appetite, sleeplessness, neuralgia, St. Vitus dance, fits and hysteria, but also builds up the body. "I am pleased to say that after years of intense suffering with nervous disease, headache and prostration, I tried Dr. Miles' Restorative Nerve and Blood Purifier, and in two weeks gained eight pounds in weight. I could not lie down to sleep, but now sleep perfectly easy, and am still improving wonderfully."—Mrs. L. B. Millard, Dunkirk, N. Y. "One customer used Nerve and Blood Purifier and gained fifteen pounds in flesh."—Brown & Mayberry, Cortland, N. Y. Trial bottles and elegant book free at A. C. Ireland, Jr.

We Miss Her.
The autumn glory you behold,
A richer beauty adorns the plain,
The groves are tinted with red and gold,
And the sunbeams brighten the rural lane,
The swamps are glowing with wondrous hues,
But, alas, with her beauty no more we're cheered,
The radiant girl with the milk white shoes,
And the frills and flounces has disappeared.

To eradicate the poisons which produce fever and ague, take Ayer's Sarsaparilla. It cures without leaving any injurious effect upon the system, and is the only medicine in existence which may be considered an absolute antidote for malaria.

The Family Stock Goes Up.
Madden wasn't much thought of here a little while ago; now he is one of the most popular men in town. What's the reason, do you know?
He's a distant relation of Corbett.

Miles' Nerve & Liver Pills.
Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Smallest, mildest, surest! 50 doses, 25 cts. Samples free at A. C. Ireland, Jr.

Damaged Goods.
Jack told me last night that he had given me his heart.
Well, it's damaged goods. He told me last week that I had broken it.

Cheap Excursion Rates to Colorado Points.
Taking effect June 3 the popular Santa Fe Route will sell excursion tickets to the following points: Denver, \$23.75; Colorado Springs, \$19.00; Pueblo, \$17.00. Tickets have transit limit of two days in each direction, with final limit of Oct. 31, 1902. Sale of above tickets will be discontinued Sept. 30th, 1902. Passengers leave Santa Fe at 8:35 p. m., breakfast at La Junta, arriving at Pueblo 11:50 a. m., Colorado Springs at 2:20 p. m., and at Denver 5 p. m. Or leave Santa Fe at 8:50 a. m., arriving at Denver 5:30 the following morning. For further information apply to
W. M. SMITH, Agent.

Do Married People Ever Talk Like This?
Mrs. Crimmonback—I hope I make myself plain, sir?
Mr. Crimmonback—Nature saved you that trouble, ma'am.

A Bad Blunder.
Magazine Office Boy—Oh, there's been an awful time up in the editorial room today.
Business Manager—Eh! what's the trouble?
Office Boy—The janitor made a blunder and put the "No Admittance" sign at the subscription office, and the "Welcome" doormat in front of the editor's office.
—Good News.

An Undisputed Test of Merit.
A medicine that has been a household remedy for over fifty years and used in that time by more than 150,000,000 persons must have great merit. Such a medicine is found in Brandreth's Pills. This fact demonstrates the value of these pills better than any statement of the proprietors. It will be observed that the dose requires to cure is small. One or two pills taken every night for ten or twenty days will cure dyspepsia, constipation, rheumatism, liver complaint, biliousness, or any disease arising from an impure state of blood.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.
Sold in every drug and medicine store, either plain or sugar coated.

Of Course.
You see, it was this way. They were all three so dead in love with her, and all eligible, that to settle the matter she agreed to marry the one who should guess the nearest to her age.
And did he?
I don't know. I know that she married the one who guessed the lowest.
—Indianapolis Journal.

Phantoms.
The hopes of cure held out in the advertisements of numerous remedies are mere phantoms, without the slightest shadow of reality about them. On the other hand, no statement has ever been made in behalf of Hostetter's Stomach Bitters, that is not susceptible of ample substantiation. Care has ever been taken in laying its claims before the public to circumscribe those claims with the bonds of truth. Allegations of cure from no blot on the record of this sterling time-honored remedy, proven by the most respectable evidence to be a remedy for and preventive of indigestion, rheumatism, kidney trouble, chronic indigestion and biliousness. It is an infallible tonic, promotes convalescence and mitigates the infirmities of age. Taken before retiring at night it is a promoter of sleep.

Blood Is What Tells.
The young duke of Orleans is about to visit this country. We bespeak for him that servile flattery and groveling attention which certain elements of our society are ever ready to bestow upon titled blacklegs and noble miscreants. The duke of Orleans is as nasty a rogue as ever was spawned.—Eugene Field.

Admitted the Facts.
Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McComb, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse, his left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at A. C. Ireland, Jr.'s. It tells all about heart and nervous diseases and many wonderful cures.

Suggestive.
Sister—Tom, father says you're to come home right away; he wants to speak to you.
Tom—who has been playing "hooky"?
—What does he want me for?
Sister—He didn't say but he went out to get a willow rod as I left the house.
—Life.

Ayer's Sarsaparilla.
Ayer's Sarsaparilla does what no other blood medicine in existence can do. It searches out all the impurities in the system and expels them harmlessly through the proper channels. This is why Ayer's Sarsaparilla is so pre-eminent effective as a remedy for rheumatism.

Charity.
Mother—What did you do with that medicine the doctor left for you?
Small Boy—I heard there was a poor sick boy in the back street, and I took it around and left it for him.—Good News.

TYLER DESK CO., ST. LOUIS, MO.
Our Mammoth Catalogue of Desks, Cabinets, and other Office Furniture for 1903 now ready. New Goods, New Styles in Desks, Tables, Chairs, Bookcases, Cabinets, etc., etc., and at matchless prices, as above indicated. SOME GORGEOUS FLOATS.
To Be Seen at the Dedication Ceremonies in October.
With many of the details for the dedication of the World's fair buildings at Chicago the general public is familiar, but of the spectacular side of the celebration little has been written of late, although preparations have been going on for nearly a year. This display, which is termed the "Procession of the Centuries," is to include more than forty floats, and will pass in brilliant pageant through the lakes and canals and lagoons of Jackson park. This will be repeated every night and the illuminations will be magnificent. Important events in the life of Columbus and in the history of America will be represented. Many symbolic floats will also be introduced. Designs for four of these floats are particularly worthy of notice. They will cost thousands of dollars, and are calculated to eclipse anything heretofore seen in this sort of pageantry.

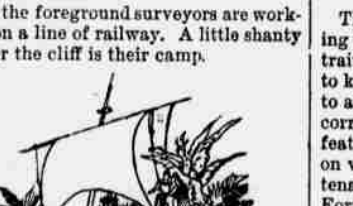

COLUMBUS AT COURT.
of Jackson park. This will be repeated every night and the illuminations will be magnificent. Important events in the life of Columbus and in the history of America will be represented. Many symbolic floats will also be introduced. Designs for four of these floats are particularly worthy of notice. They will cost thousands of dollars, and are calculated to eclipse anything heretofore seen in this sort of pageantry.

The float is a tableau of Columbus before the court of Ferdinand and Isabella. The monarchs sit on their gilded throne under the rich canopy, both attired as becomes the rulers of Leon and Castile. Before them stands Columbus eagerly and earnestly trying to convince them of the truth of his theories. His charts are spread before him on a table. The explorer is dressed in black velvet, with a long gown, which he throws aside in his eagerness. The queen listens intently, the conviction of his truth growing upon her. The king, however, is almost indifferent.

Their Catholic zeal and faith is shown by a large cross behind them. Near Columbus stand several courtiers and some of the wise men. The latter have their own maps with them and cannot suppress a scornful sneer at the presumptuous adventurer, whose mind they suggest is disordered.

The next float is more typically American. "Westward the course of empire takes its way" is the subject. The prominent feature is the prairie schooner drawn by oxen, which is being emerging from a cleft in the rocks. A scout on horseback leads the way, and ahead of him Indians are skulking off behind the rocks and trees. Another Indian peers over a ridge of rock at the advance of civilization.

In the foreground surveyors are working on a line of railway. A little shanty under the cliff is their camp.

THE COLUMBUS AUTOGRAPH.
The Great Explorer Handled the Sword More Skillfully Than the Pen.
There is a never ending dispute regarding the authenticity of the various portraits of Columbus. People who claim to know deny that the picture which is to adorn the souvenir half dollar is a correct representation of the navigator's features, but whether or not the grounds on which their base their criticism are tenable will probably never be decided. Fortunately, however, the quarrel does not extend to a challenge of the verity of Columbus' autograph, a facsimile of which is given herewith.

To the ready pen wielder of the Nineteenth century the zigzag writing of the discoverer of America must seem queer indeed, but it should be remembered that in those days he wielded the sword and left the gentler arts to be preserved at the hands of priests and women. Most of the famed leaders of the Fifteenth century were unlettered and found it a laborious task to sign their names to important documents prepared by the monks who followed in their trains. Columbus of course was a man of great

TYPIFYING PEACE AND PLENTY.
The two floats "War" and "Peace" will probably be the only suggestion of the civil conflict. The first float will be a diamond shaped ship with masts and spars shattered and sails torn in shreds. On the battlefield are cannon, a few dead soldiers and a dead horse. Over it hang the demons of war. The coloring of this float will all be somber. Black will predominate. Lurid red light will throw on the war demons hovering over the battlefield.

"Peace" will be in strong contrast to the last one. Every color will be bright. The horn of plenty will be prominent, pouring forth treasures, and angels of peace will hover over the land. The dismounted cannon will be wreathed with flowers, its muzzle filled with roses, children will play over it, and one darling little one will sit astride the breech, spiking it forever. Herewith are given illustrations showing the general scope of two of these interesting designs.

The School Review.
One of the most striking suggestions for the local observance of Columbus Day is that in every town and city in the land the schools parade after the morning exercises of the celebration. While this is not specifically included in the official programme prepared for the day, it is strongly urged by the committee of educators who have had the uniform celebration in charge.

If there is a general parade of a civic and military organizations, a "public school review" should be its most honored feature. If there is no general procession the schools alone might be reviewed. Let the pupils meet at their school houses at a designated hour and be conducted by efficient marshals, without delays and in perfect order, to their places in the line. The army veterans north and south, the blue and the gray alike, are proper to march with the schools as special guards of honor. As the reviewing stand is reached each part of the column can salute the flag with cheers and waving of handkerchiefs and caps.

The various patriotic organizations might fittingly be invited both to the morning exercises and to serve, in addition to the veterans, as escorts in the review. The beauty of the review would be heightened if each school carried both the national flag and a distinctive banner of its own. The review also might be made impressive by symbolic floats; models of the "old red school house" and of the ship of Columbus are among the appropriate subjects. This feature, however, should not be attempted unless it can be effectively done. In all cases, let it be said, the fantastic should be rigorously barred from the procession.

KANSAS.
Kansas is a great state for corn, wheat, cattle, hogs and financial independence. The A. P. & S. F. R. E. H. has several thousand nice farms for sale in its land grant along the fertile Arkansas river in south central and western Kansas. For copy of folder giving full information relating to crop capacity of Kansas, cost per acre and terms of sale, write to C. H. Monrohouse, D. F. & P. A. El Paso, Texas.

COLUMBUS DAY PREPARATIONS.
Suggestions to the Public Schools for the Celebration of the Anniversary.
The official programme for the national school celebration of Columbus Day is now published. The first duty of each of our schools this fall, if it wishes to be in line with the other schools of America, is to begin preparations at once for its proper observance of Oct. 21, the 400th anniversary of the discovery of America. A few suggestions as to the first things to be done may be of some value.

Teachers, the superintendent and the school board should confer, that action may be harmonious and best results attained. The proposed celebration should be explained to each school at the earliest moment. It should be so presented as to awaken enthusiasm. Interesting topics relating to Columbus and the discovery should be suggested for special investigation. Such topics might be "The Map of the World Before the Discovery," "Important Inventions and Events in Europe Just Before the Discovery," "The Story of Columbus," "The Ships of Columbus," "What Columbus Expected to Find," "Geographical Growth of the United States," "Stories of South America," etc. The teacher should assign the address and the topics to those who can render them most intelligently. The flag salute and the songs should be persistently rehearsed.

Important committees of pupils should be appointed: First—A committee of invitation, whose duty it is to see that the family of each pupil receives a special invitation to the morning exercises of Oct. 21, and also when they arrive to show them through the school. Second—A committee to guard, whose duty it is to see that the school has a flag and a staff in proper condition; (3) to meet the veterans as they arrive and escort them with dignity to the principal in the school house; (3) to act as aids of the principal.

An efficient adult committee of arrangements should also be constituted. This committee must see—first, that seats are prepared out of doors in case of fair weather, and that a room is also engaged for the exercises should the day be stormy; second, that fitting decorations and printed programmes are provided; third, that the local press is interested and invited; fourth, that arrangements are made with the veterans and other special guests for the party they are to take.

But in all cases the school principal must make himself personally responsible for the work of each committee.

THE COLUMBUS AUTOGRAPH.
The Great Explorer Handled the Sword More Skillfully Than the Pen.
There is a never ending dispute regarding the authenticity of the various portraits of Columbus. People who claim to know deny that the picture which is to adorn the souvenir half dollar is a correct representation of the navigator's features, but whether or not the grounds on which their base their criticism are tenable will probably never be decided. Fortunately, however, the quarrel does not extend to a challenge of the verity of Columbus' autograph, a facsimile of which is given herewith.

To the ready pen wielder of the Nineteenth century the zigzag writing of the discoverer of America must seem queer indeed, but it should be remembered that in those days he wielded the sword and left the gentler arts to be preserved at the hands of priests and women. Most of the famed leaders of the Fifteenth century were unlettered and found it a laborious task to sign their names to important documents prepared by the monks who followed in their trains. Columbus of course was a man of great

TYPIFYING PEACE AND PLENTY.
The two floats "War" and "Peace" will probably be the only suggestion of the civil conflict. The first float will be a diamond shaped ship with masts and spars shattered and sails torn in shreds. On the battlefield are cannon, a few dead soldiers and a dead horse. Over it hang the demons of war. The coloring of this float will all be somber. Black will predominate. Lurid red light will throw on the war demons hovering over the battlefield.

"Peace" will be in strong contrast to the last one. Every color will be bright. The horn of plenty will be prominent, pouring forth treasures, and angels of peace will hover over the land. The dismounted cannon will be wreathed with flowers, its muzzle filled with roses, children will play over it, and one darling little one will sit astride the breech, spiking it forever. Herewith are given illustrations showing the general scope of two of these interesting designs.

The School Review.
One of the most striking suggestions for the local observance of Columbus Day is that in every town and city in the land the schools parade after the morning exercises of the celebration. While this is not specifically included in the official programme prepared for the day, it is strongly urged by the committee of educators who have had the uniform celebration in charge.

If there is a general parade of a civic and military organizations, a "public school review" should be its most honored feature. If there is no general procession the schools alone might be reviewed. Let the pupils meet at their school houses at a designated hour and be conducted by efficient marshals, without delays and in perfect order, to their places in the line. The army veterans north and south, the blue and the gray alike, are proper to march with the schools as special guards of honor. As the reviewing stand is reached each part of the column can salute the flag with cheers and waving of handkerchiefs and caps.

The various patriotic organizations might fittingly be invited both to the morning exercises and to serve, in addition to the veterans, as escorts in the review. The beauty of the review would be heightened if each school carried both the national flag and a distinctive banner of its own. The review also might be made impressive by symbolic floats; models of the "old red school house" and of the ship of Columbus are among the appropriate subjects. This feature, however, should not be attempted unless it can be effectively done. In all cases, let it be said, the fantastic should be rigorously barred from the procession.

KANSAS.
Kansas is a great state for corn, wheat, cattle, hogs and financial independence. The A. P. & S. F. R. E. H. has several thousand nice farms for sale in its land grant along the fertile Arkansas river in south central and western Kansas. For copy of folder giving full information relating to crop capacity of Kansas, cost per acre and terms of sale, write to C. H. Monrohouse, D. F. & P. A. El Paso, Texas.

WINTORICAL.
Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitarium and Archeological site. An Indian Pueblo has existed on the site from the 15th century. Its name was Oga-pho-ga, but it was abandoned before Coronado's time. The Spanish town of Santa Fe was founded in 1680, it there fore the second oldest European settlement still extant in the United States. In 1894 the civil and military American trader, the forerunner of the great line of merchants who have made traffic over the Santa Fe trail, world-wide in its celebrity.

CITY OF SANTA FE.
The city lies in a charming nook on the west side of Santa Fe range and is sheltered from the northern winds by a spur of low hills which extend from the mountains west as far as the Rio Grande. It lies in the heart of the country, the chief entrance to the National Park, and through which runs the Rio Santa Fe, a beautiful mountain stream, having its rise on the Santa Fe range of mountains. Its elevation is 6,988 feet, its population is 7,860. It has good schools and churches. There is an excellent system of water works. The city is lighted with gas and electricity. It has more points of historic interest than any other place on the American continent. Land may be purchased at prices to suit the rich or the poor. Five acres in Santa Fe or vicinity will produce more than can be produced anywhere else in the world. Cattle and horses are close at hand and we can successfully compete with any other locality. Since the first fruit tree was planted in the Santa Fe valley there has been but one failure in the fruit crop. What place, what country can approach this record?

PUBLIC INSTITUTIONS.
Among the more important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, the territorial capitol, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan's training school, St. Vincent's charity hospital, U. S. government Indian school, Ramon Meryel institute for Indian girls, St. Catherine Indian boys training school, Fort Marcy St. Michael's college, Loreto academy, Presbyterian home missions industrial school for girls, New Mexico deaf and dumb institute, New West academy, Catholic cathedral and parish church, Episcopal cathedral, Presbyterian, Methodist and Congregational churches, the governor's palace, the archiepiscopal residence of Archbishop J. S. Salpointe and Bishop P. L. Chaparral, and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

RESOURCES.
Santa Fe county has an area of 1,408,000 acres and a population of 10,010. The principal occupations are mining, sheep and cattle raising, truck farming and fruit growing. The valley soils are especially adapted to horticulture and there is as hand a never failing market in the mining camps. In the southern portion of the county mining forms the principal industry, the large deposits of coal, lead, silver, iron, copper and gold, in veins as well as in the form of placer gold, at Cerrillos, New Placers (Dolores), Golden and San Pedro being justly noted for their richness.

THE WORLD'S SANITARIUM.
