## MILLION DOLLAR HARRISBURG FIRE

Eight Buildings in Center of  
Business District,  
the Scene.

## STEAMER GOES ASHORE AND TWELVE ARE DEAD

Only Twenty-Four Bodies Re-  
covered From Stuart Mine and  
They Unrecognizable.

Harrisburg, Feb. 1.—Eight build-  
ings in the center of the business dis-  
trict of the city were either destroyed  
or badly damaged by fire early this  
morning, involving a loss esti-  
mated at a million dollars. The  
Grand opera house, in which were  
five stores, was also destroyed. The  
Park hotel and the Columbus hotel  
were badly damaged. The United  
Telephone building, the Security  
Trust building, the Bijou theater, col-  
lege block, the Harrisburg Gas com-  
pany building, and others were dam-  
aged. The fire started from an ex-  
plosion in a hat store in the opera  
house block.

## TWELVE OF SHIP'S CREW PERISH FROM COLD

London, Feb.—Life boats from  
Hartlepool this morning rescued  
twenty-four of the crew of the British  
steamer Clavering, ashore at the  
mouth of the Tees, including Captain  
Scott. The bodies of nine seafarers,  
who died of exposure during the  
night, were thrown overboard, mak-  
ing the total number of deaths twelve.  
The vessel is breaking up.

## BODIES OF RECOVERED MINERS UNRECOGNIZABLE

Charleston, W. Va., Feb. 1.—Twenty-  
four bodies, all mangled beyond  
recognition, have been taken from  
the Stuart mine at Oak Hill, and it  
is expected that by this afternoon it  
will be possible to get most of the  
other fifty bodies, which are certain  
to be in the mine. The officials be-  
lieve the total dead to be between 75  
and 80.

## THAW TRIAL NOT TO TAKE ANY TESTIMONY

Till Next Week Though Jury  
Completed Today After  
Two Discharges.

New York, Feb. 1.—The morning  
sessions of the Thaw trial ended to-  
day without the selection of a man to  
complete the twelve needed to try  
the case. Thirteen talesmen were  
examined, the defense twice interpos-  
ing peremptory challenges when it  
seemed that the strongest counsel  
would be selected. Rumors that another  
juror, possibly two more, may be ex-  
cused again is in circulation today,  
and when Justice Fitzgerald set back  
the hour for the afternoon session to  
2:30 at the request of District At-  
torney Jerome, the jury was con-  
tinued today to ply talesmen with  
questions as to what consideration  
they would give to the plea of insanity.  
During this part of the examina-  
tion the defendant seldom looked  
at the talesmen, but kept his glance  
upon the table before him.

## REPORT SHOWS ENORMOUS IMMIGRATION TO CANADA.

Ottawa, Feb. 1.—The annual re-  
port of the department of the interior  
has been issued today. There  
was an increase of 168,742 in the  
gross revenue of the department and  
the area of land disposed of by  
land companies holding grants from  
the crown was nearly double the  
figure sold during 1904-5. These  
results, the report says, should be  
considered the strongest possible  
ground for prosecuting with in-  
creased vigor the land and immigration  
policy of the administration. The  
total revenue from Dominion lands  
for the past decade was \$15,139,941,  
as compared with \$2,343,824 for the  
preceding ten years. The homestead  
entries for 1906 were 41,865, com-  
pared with 30,819 for 1905. In 1896  
the entries were 1,857. The entries  
for the past year represent a total  
population of 108,429 souls, over 65-  
000 of those immigrants who came  
to Canada last year settled on gov-  
ernment lands. The report says that  
a contract was entered into with the  
Robbins Immigration company, of  
London, England, for immigration of  
350,000 acres lying to the west of  
Medicine Hat. This will greatly as-  
sist a district which requires irriga-  
tion to develop its full possibilities.  
The average price obtained for  
school lands in Alberta was \$11.55  
per acre and in Saskatchewan \$14.32  
per acre.

## HARRIMAN TAKES FIRST STEPS TOWARDS

Consolidation of Illinois Cen-  
tral Soon to be Followed  
by Others.

## TWO ENGINES IN MONTANA CARRY MEN TO DEATH

Excessive Rate Charges Still Be-  
ing Heard by Commissioner  
Prouty in Oklahoma.

Chicago, Feb. 1.—The Record-Her-  
ald says today: Edward H. Harri-  
man has begun to extend the juris-  
diction of the Harriman system of  
officers over the Illinois Central. An  
official circular has been issued an-  
nouncing the appointment of H. P.  
Thrall as superintendent of mails for  
the Illinois Central. Thrall has been  
superintendent of mails for the Uni-  
on Pacific, the Southern Pacific, the  
Oregon Railroad & Navigation com-  
pany and the Oregon Short Line, for  
about two years. Whether other  
changes are contemplated it is impos-  
sible to learn, but it is reported that  
J. C. Stubbs and Julius Kutschmitt  
may have authority over traffic, and  
operation and maintenance, respec-  
tively.

## TWO KILLED AND SCORE INJURED ON LOCOMOTIVES.

Missoula, Mont., Feb. 1.—Two en-  
gines, upon which were riding a  
number of men who had been break-  
ing a snow blockade near Salter,  
Mont., plunged over an embankment  
near Deborgia, yesterday, killing two  
and injuring nearly a score, some  
seriously.

## EXCESSIVE RATE CHARGES DISCUSSED IN OKLAHOMA.

Oklahoma City, Feb. 1.—Charges  
of excessive rates against the Mis-  
souri, Kansas & Texas and the Frisco  
were taken up at this morning's ses-  
sion by Commissioner Prouty. Be-  
fore beginning the session he read a  
telegram from a Texas miller protest-  
ing against a twenty-cent rate on  
flour and wheat to Fort Worth, and  
asking a date for hearing.

## HELP ALONG WITH THE NEW DI- RECTORY

Canvassers Have Finished  
Getting Names—if You Are  
Overlooked Say So.

The canvassers for the new direc-  
tory soon to be issued by The Citizen  
Publishing company have completed  
their work of gathering names and  
the revision thereof is about to begin.  
The desire of the publishers is that  
this shall be the most correct as well  
as the most complete publication of  
the kind ever issued in this city, and  
with that end in view they appeal to  
all those who may for any reason  
have been overlooked in the canvass  
to take the initiative and hand in  
their names and addresses at once.  
Nothing can be of greater impor-  
tance to the city at large and to the in-  
dividual in particular than the pos-  
session of an up to date and accurate  
list of citizens and their residences,  
together with banks, business houses,  
institutions, etc. In order that this  
may be accomplished in the present  
instance, the co-operation of all our  
citizens is most earnestly solicited.  
Especially is the help of the proper  
officers of churches, lodges, societies  
and clubs of all kinds in this city  
desired in the furnishing of the names  
of their officers and such other sta-  
tistics as are usually set forth in city  
directories.

## ISSUE OF \$300,000 OF STOCKS AND BONDS.

New York, Feb. 1.—Comptroller  
Metz today issued \$300,000, 600  
per cent stock and bonds of the city.  
The corporate stock to the amount  
of \$230,000 will be used for vari-  
ous municipal purposes and will be  
payable on Nov. 1, 1909. Corporate  
stock to the amount of \$2,500,000 to  
provide a water supply will be pay-  
able on the same date. Corporate  
stock to the amount of \$250,000 for  
the New York public library will be  
payable in 1906 and assessment  
bonds to the amount of \$2,200,000  
will be payable in 1916. All the  
stock has been subscribed for.

## COSTLY SPREE TO A YOUNG MINER AT THE KELLY CAMP BURNED TO A CRISP.

Cabin in Which He Slept, Destroyed  
by Fire and His Body  
Burned to a Crisp.

Special to The Evening Citizen.  
Kelly, N. M., Feb. 1.—As the result of a spree, indulged in  
yesterday by a young man, named George Kelly, this mining town  
mourns his horrible death.  
Kelly, who was about 22 years old, had a day shift on the Key  
mine, but yesterday he did not work. He was in town and in-  
dulged in strong drink. On returning to his cabin located at the  
mine, on the hill about a mile from the town, his night shift partner  
noticed that he was pretty drunk, and put him to bed, after  
which he went to work.  
Early this morning, on leaving the mine and going to the  
cabin, he discovered that the cabin had been consumed by fire  
during the night, and a further investigation revealed the dead  
body of young Kelly burned almost to a crisp.  
The unfortunate young man, whose spree cost him his life,  
was a brother-in-law of J. L. Terry, superintendent of the mine,  
which is under the management of C. T. Brown, of Socorro. The  
father of the deceased, James Kelly, is a ranchman near White  
Water canyon. Last summer Kelly was a butcher at the town  
camp, and had been mining only the past few months. The re-  
mains will be buried at Kelly.

## BOOSTERS WHO WERE PRESENT IN SPIRIT

## ALL COUNTY OFFICIALS

D. K. B. Sellers and Passen-  
ger Agent Brown Send  
Communications.

Indications today are to the effect  
that in spite of the great crowd pres-  
ent at the mass meeting of the Boost-  
ers' club, held at the Elks' opera  
house last night, not all were present  
who would have been glad of a  
chance to be had it been possible.  
This is shown in the communications  
received by various members of the  
committee and officers of the club to-  
day to be read before the meeting,  
of which the following are samples:

## TELEGRAM FROM A NATURAL BORN BOOSTER

Canon City, Colo., Jan. 31.  
Frank McKee, Commercial Club, Al-  
buquerque, N. M.  
Shoot off two sticks of dynamite  
for me or I'll have a fit.  
D. K. B. SELLERS.

## PASSENGER AGENT BROWN SEEMS LITTLE RESENTED

El Paso, Tex., Jan. 30, 1907.  
Mr. Maynard Gunsul, Secretary of the  
Albuquerque Boosters' club, Albu-  
querque, New Mexico.  
Dear Sir:—I have your invitation to  
be present at the organization of the  
Boosters' club, this evening. I am  
much obliged for this invitation and  
if it is possible will be on hand. I  
know that if I keep up with the Al-  
buquerque crowd, I will have to be  
in at the start and will try to be in  
the finish, even if I burn off a  
journal. This is my country and will  
be glad to do anything I can to pro-  
mote its interest.  
Yours truly,  
W. R. BROWN.

## THE GREAT JAMES- TOWN EXPOSITION

Norfolk, Va., Feb. 1.—Three cen-  
turies ago, this storm-torn  
vessel, leaving the boisterous Atlan-  
tic behind them, passed through the  
portals of the nation's finest water-  
way, and came to an anchorage up-  
on the serene bosom of Chesapeake  
Bay. The vessel bore the royal  
charter, for the settlement of an  
English colony in the domain of  
Virginia, signed by the king and  
sealed with the seal of a nation, and  
little did these pilgrims dream of  
that far greater bond of fate, mo-  
mentous in the affairs of time, and  
heavy with the seal of destiny, which  
they carried. Where they landed  
is now a bronze tablet with the fol-  
lowing inscription: "Near this spot  
landed April 26, 1607, Captain  
Gabriel Archer, Christopher New-  
port, Hon. Geo. S. Percy, Bartholo-  
mew Gosnold, and Edward Wing-  
field, with twenty-five others, who  
called the place Cape Henry and  
planted a cross April 26, 1607. Dei  
Gratia Virginia Conditae." After  
some weeks of exploration of the  
shores of Chesapeake Bay and what  
is now called Hampton Roads, the  
ships sailed up the Powhatan river,  
christening it the James, and select-  
ed as their future home an island  
which they called Jamestown in hon-  
or of the king. The intention had  
really been to found this settlement  
at Roanoke Island on the site of  
Raleigh's ill starved colony but a  
violent storm drove the ships to the  
north of Chesapeake Bay, where the  
inviting aspect of the shores pre-  
sented an allured and fertile land.  
Three hundred years have passed away  
but the ancient heroes names are not  
forgotten.

## ST. LOUIS GETS BALLOON RACE FOR OCTOBER.

St. Louis, Mo., Feb. 1.—There are  
already sixteen entries for the inter-  
national balloon race which will be  
held here in October. The entry list  
closed today but so many inquiries  
have been made by European aéro-  
nauts as to conditions, etc., that the  
closing date has been fixed for  
March 1st.

## CONGRESS SOME WHAT BUSY TODAY

Both Houses Were Evidently  
Impressed With Need of  
Doing Something.

## HOUSE COMMITTEE FAVORS COTTON INVESTIGATION

President Asked if He Will Veto  
Oklahoma Constitution if Jim  
Crow Cars Adopted.

Washington, Feb. 1.—The house  
today resumed consideration of the  
river and harbor bill.  
Cotton Investigation Approved.  
The house committee on interstate  
and foreign commerce decided to-  
day to make a favorable report on  
the Livingston and Burleson resolu-  
tion, providing for an investigation of the New York  
cotton exchange by the department  
of commerce and labor.

The resolution is an amended form  
of the Livingston and Burleson resolu-  
tions and extends investigation to  
all cotton exchanges, as well as New  
York, dealing in futures.

Wording of Resolution.  
Representative Lovering, who will  
report the bill for the committee, said  
today that the New Orleans and New  
York exchanges were two of the prin-  
cipal ones dealing in futures, but  
that Memphis and St. Louis ex-  
changes have some dealings of that  
sort. The resolution follows:  
"Resolved, That the secretary of  
commerce and labor, through the  
bureau of corporations, be and he is  
hereby requested to investigate the  
causes of fluctuations in the price  
of cotton and the differences between  
the market price at various classes  
of cotton. Said investigation shall be  
conducted with the particular object  
to ascertain whether or not said fluc-  
tuations in prices have resulted in  
whole or in part from contract and  
deliveries thereon made upon cotton  
exchange dealings in futures, or are  
the result of combinations or con-  
spiracy which interferes with inter-  
state commerce."

Committee Won't Approve.  
A sub-committee of the military af-  
airs committee of the house by a  
strict party vote, laid upon the table  
the resolution of Representative  
Simms, of Tennessee, commending  
the president for his action in the  
charge of the colored soldiers engaged  
in the "shooting up" of the town  
of Brownsville, Texas. The demo-  
crats voted solidly against the mo-  
tion. Simms will now try to bring  
the motion directly before the house.

## IN THE SENATE.

Washington, Feb. 1.—Senator Pat-  
terson, of Colorado, today presented  
the credentials of Simon Guggenheim,  
his successor in the senate. Guggen-  
heim was present and was introduced  
to many senators.  
Charges on Guggenheim.  
Hearing upon the bill to give a gov-  
ernment charter to the Alaska Rail-  
road company for its projected rail-  
road from Cordova Bay to a point on  
the Yukon river, was continued today  
before the senate committee on ter-  
ritories. Andrew F. Burleigh, of  
New York, one of the promoters of  
the railroad, declared the opponents  
of the bill were trying to corner  
the copper fields of Alaska, and their  
plans would be interfered with if  
the railroad invaded the field. It is  
charged that Simon Guggenheim,  
senator-elect from Colorado, was  
identified with the movement to se-  
cure a monopoly on the Alaskan  
copper fields.

## PRESIDENT HASN'T ANSWERED.

The president has received a resolu-  
tion passed by the constitutional  
convention of Oklahoma, asking him  
if he would approve the constitution  
if it should contain certain provision  
upon the "Jim Crow" car question.  
No answer has as yet been received  
from the president.

## PRESIDENT WRITES OF HIS APPRECIATION

Christiana, Norway, Feb. 1.—In a  
letter to Foreign Minister Loveland,  
who is president of the Nobel com-  
mittee, President Roosevelt, who was  
awarded the peace prize on Decem-  
ber 10 last, writes that he will value  
the diploma and medal so long as he  
lives and after death they will be  
highly valued by his children. The  
president, in informing Minister  
Loveland of his disposition of the  
money part of the prize, added that  
he was determined to give the money  
to society in modern civilization is of  
just as great importance as that be-  
tween nations. He believed, there-  
fore, that the use to which he is put-  
ting the money, is entirely in sym-  
pathy with the aims of the Nobel  
foundation.

## TURBINES ORDERED FOR ENGLISH NAVY.

London, Feb. 1.—In marine en-  
gineering nothing has made greater  
advances recently than the Parsons  
turbine engine, and there will be  
important developments in this line  
soon in the navy. In point of fact  
the admiralty has resolved that in  
future all British warships will be  
fitted with turbine engines. This has  
been determined after the most com-  
plete investigation and trial, the de-  
cision being mostly due to the splen-  
did success of the battleship Dread-  
nought. The fact that turbines are  
being installed in the kings new  
yacht, now under construction, in-  
dicates the drift of admiralty feel-  
ing, and with the exception of some  
unimportant craft, such as river  
boats, etc., turbines will be all pow-  
erful in the navy. Russia is report-  
ed to be laying down two huge tur-  
bine battleships.

## HEBERT SEIGERT, NOTED INVENTOR, DIED AT HIS HOME

Brother of Late Banker Hip-  
ple Followed Example  
add Suicides.

## SON OF GEN. MAGRUDER DIES AT ROME, ITALY.

New York, Feb. 1.—Herbert Sei-  
gert, an inventor of international re-  
putation, died Wednesday night at his  
home in Westfield, N. Y. The United  
States patent office had issued him  
over fifty patents, several being for  
rock drills and air compressors. His  
development drills made possible the  
great engineering feats of the last  
quarter of a century.

## BROODED TOO MUCH OVER THE FALL OF HIS BROTHER

Philadelphia, Feb. 1.—Edward P.  
Hipple, brother of the late Frank A.  
Hipple, who ended his life last sum-  
mer after wrecking a real estate  
trust company, of which he was  
president, committed suicide today by  
shooting himself. He was about 70  
years of age and had been in the real  
estate business. The cause is un-  
known, but it is believed he brooded  
over the tragic end of his brother.

## GREAT SNOW RAGING IN THE NORTHWEST.

St. Paul, Feb. 1.—The weather of  
1907 will long be remembered  
throughout the northwest as the  
most terrible season the inhabitants  
have experienced in all their lives.  
The suffering throughout states along  
the northern coast has been in-  
tense and the country has been on  
the edge of starvation and freezing  
to death. The coal dealers of the  
section have proved to be hand-  
mouth producers, and when the rail-  
roads have been covered with snow  
and the bargains, things  
indeed look dreary.

## CANADIAN GOVERNMENT AFTER COAL MINES.

Winnipeg, Manitoba, Feb. 1.—The  
Hon. W. R. Motherwell, provincial  
minister of agriculture, has held  
lengthy conferences with the Whyte  
regard to the coal supply of  
Saskatchewan province. Motherwell  
has appraised white of the fact that  
the local government of Saskatche-  
wan is profoundly interested in the  
fuel question so much that they are  
now considering the advisability of  
purchasing a coal area from the Do-  
minion for the purpose of operating  
it on public ownership principle.  
Mr. Motherwell is still investigating  
the matter and the project is becom-  
ing more important every day. The  
further settlement of the country,  
which is proceeding so steadily, will  
greatly depend on Mr. Motherwell's  
efforts.

## ANTICIPATE TROUBLE WITH DOUKHOBERS.

Calgary, Feb. 1.—Some of the  
Doukholders here are proving very  
unreasonable and it has become  
necessary to send a special mission-  
ary among them in the person of  
the Rev. John McDougall, of Saskat-  
chewan province. A strong majority  
is insisting on becoming naturalized  
and also insisting on living a com-  
munist life, and none other. The  
greater part have settled down, but  
a remnant has proved so unyielding  
that arrangements are in progress  
by means of which they will be en-  
abled to lead this life. Mr. McDou-  
gall is engaged in this work at present.

## FEBRUARY 27 TO BE LONGFELLOW DAY.

Augusta, Me., Feb. 1.—An order ap-  
pointing February 27th next as Long-  
fellow day, in observance of the one  
hundredth anniversary of the poet  
Henry Wadsworth Longfellow, has  
been passed in both branches of the  
Maine legislature.

## SUP. OF SCHOOLS OF BASTROP, TEXAS, KILLED

Bastrop, Texas, Feb. 1.—Col. J. C.  
Edmonds, superintendent of schools  
of this city, was shot and killed in  
front of his residence today. Great  
excitement prevails, and a prominent  
citizen of Bastrop is suspected of the  
crime. No arrests have been made.

## ARIZONA LEGISLATURE PASSES ANTI GAMBLING BILL TODAY

Phoenix, Feb. 1.—The legisla-  
ture assembly today passed and the gov-  
ernor signed a bill, previously pas-  
sed by the senate, repealing the sta-  
tute permitting licensing of gambling  
in Arizona. The new law takes effect  
April 1.

## BILL INTRODUCED TO ABOLISH TERRITORIAL MOUNTED POLICE

Bill Relative to Jury Commissioners  
Reported Favorably--Bill to Abolish  
Fish and Game Warden  
Is Introduced.

Special to The Evening Citizen.  
Santa Fe, Feb. 1.—The council  
met at 2:30 this afternoon and ad-  
journed until Monday at 3 p. m.  
The house met at the same time  
and after the introduction of bills ad-  
journed until Monday at 2 p. m.  
The judiciary committee favorably  
reported council bill No. 1, relative to  
the appointment of jury commission-  
ers. The bill passed the house with-  
out dissent.

## NATURE SURELY IN ANGRY MOOD

Mississippi River Is Playing  
Havoc Below Mouth of  
Ohio River.

## ALPS GET THE HEAVIEST SNOW IN TWENTY YEARS

Earthquakes Widespread and De-  
structive Are Reported by  
Delayed News.

Memphis, Feb. 1.—Many people  
are moving from their homes in the  
northern part of the city, as a result  
of the breaking of the protective  
levee built by the city a year ago.  
The levee gave way early today, and  
the district north of Poplar boulevard  
and west of Fourth street is now two  
feet under water. The river  
reaches forty-one feet, which today  
seems probable, a larger area near  
the business portion will feel the ef-  
fects. Advice from Marion, Ark.,  
states that the levee at Holly Bush re-  
mains intact, although a break is ex-  
pected at any hour. Should a  
crevasse occur at Holly Bush, the en-  
tire St. Francis basin in Arkansas  
will receive a rush of waters. At  
Helena, the northern part of the city  
is flooded from a break in the auxil-  
iary levee, and the people of that dis-  
trict have been housed elsewhere. A  
steady downpour of rain is recorded  
from the vicinity of Memphis, last  
night.

## Arkansas Also Involved.

Charleston, Ark., Feb. 1.—The over-  
flow of the Mississippi river, which  
is filled with great blocks of floating ice,  
has swept away two residences and a  
school house at Dorent, a village  
twenty-five miles south of here. No  
loss of life is reported. Dorent is  
not on any railroad.

## WESTERN ALPS VISITED BY UNPRECEDENTED SNOW.

Grenoble, France, Feb. 1.—The  
heaviest snow in twenty years has  
fallen in the western Alps. It is five  
feet here.

## SOLID GROUND STILL SHIVERS AND SHAKES

San Francisco, Feb. 1.—The Solom-  
on Islands, in the south seas, were  
visited by a frightful earthquake sev-  
eral months ago and so heavy was  
the force that the earth was opened  
and deep gorges created. The entire  
appearance of the islands has been  
changed by the great upheaval; but  
so far as can be learned there was  
no loss of life. It is deemed probable  
that the quake was the one recorded  
on seismographs in various parts of  
the world, but which was believed to  
have occurred at sea. The news  
was brought yesterday by the steam-  
er Sirra from Apia. It reached  
Samoa by a trading schooner and the details  
are very meager.

## Tasmania Gets a Visit.

Melbourne, Feb. 1.—The earth-  
quakes were felt Tuesday in Tas-  
mania, no damage was done but the  
people were greatly alarmed.

## Shocks Continue at Kingston.

London, Feb. 1.—Governor Sweet-  
tenham has notified the colonial office  
that slight shocks of earthquake  
continue at Kingston.

## ICE CUTTING ON THE HUDSON RIVER.

Catskill, N. Y., Feb. 1.—Ice cut-  
ting has proceeded on the Hudson  
river with steady progress since it  
commenced in January, and the as-  
pect of a full crop, if not an ex-  
ceptionally large one, are excellent.  
The zero weather of the third week  
in January helped things amazingly  
and the ice men improved the oppor-  
tunity to the utmost. The conditions  
in England are reported to be still  
better, every lake and river having  
been frozen with thick, heavy ice.

## ARIZONA LEGISLATURE PASSES ANTI GAMBLING BILL TODAY

Phoenix, Feb. 1.—The legisla-  
ture assembly today passed and the gov-  
ernor signed a bill, previously pas-  
sed by the senate, repealing the sta-  
tute permitting licensing of gambling  
in Arizona. The new law takes effect  
April 1.

## BILL INTRODUCED TO ABOLISH TERRITORIAL MOUNTED POLICE

Bill Relative to Jury Commissioners  
Reported Favorably--Bill to Abolish  
Fish and Game Warden  
Is Introduced.

Special to The Evening Citizen.  
Santa Fe, Feb. 1.—The council  
met at 2:30 this afternoon and ad-  
journed until Monday at 3 p. m.  
The house met at the same time  
and after the introduction of bills ad-  
journed until Monday at 2 p. m.  
The judiciary committee favorably  
reported council bill No. 1, relative to  
the appointment of jury commission-  
ers. The bill passed the house with-  
out dissent.

## THE EVENING CITIZEN

Published Daily and Weekly by  
The Citizen Publishing CompanyEntered at Postoffice for transmission through the  
mail as second class matter.OFFICIAL PAPER FOR  
CITY OF ALBUQUERQUETO HARDEN THE  
PRECIOUS  
METALSWithout Alloy is a Recent Dis-  
covery Coming From  
Montgomery, Ala.CONDITIONS OF WEATHER  
HAMPER ARIZONA MININGMuch Other Interesting Mining  
News Gathered From All Parts  
of the Country.

Montgomery, Ala.: A process for hardening and tempering the precious metals without alloying them is claimed to have been discovered by A. P. Weaver and J. E. Carney of this city. The process can be used in the treatment of gold, platinum, silver, etc. Mr. Weaver says that his method greatly reduces the fusing point of the metals and imparts to them hardness in some instances surpassing that of the best hardened steel. Further developments are awaited with great interest.

Jerome, Ariz.: Unprecedented weather conditions in the Jerome mining district are compelling the operators to resort to coal instead of wood for fuel, the coal being carried from Jerome on burroughs. The fall of rain and snow has been very heavy, greatly hampering the work at the mines.

Breckenridge, Colo.: Ore shipments have been continuing steadily from the Wellington mine, the company being under contract to deliver seventy-five tons daily to the Colorado Zinc company. The ore is hauled from the mine to the railroad on teams and from there sent by rail to South Denver for treatment. Three railroad cars are filled daily.

Gelena, Kans.: The unprecedented demand for lead ore is forcing up the prices to still higher levels and bringing renewed satisfaction to the producers. Mineral assaying \$3 per cent for metallic lead commanded last week \$38.50 per ton f. o. b. cars. Since the competitive market has become so strong it has been found necessary to make all purchases on an assay basis. Zinc ore has been bringing prices ranging from \$16 to \$48.50 per ton.

New York City: Preparations for the mining exhibitions to take place in Madison Square Garden are going forward rapidly. William M. Porter has the matter in hand and reports that the liberal co-operation met with both here and in the west is most encouraging. The United States geological survey will also very probably extend its aid to the enterprise, so that it is safe to predict a notable success, and mining interests in general will undoubtedly be greatly benefited.

Rhyolite, Nev.: The price of seats to charter members in the newly organized Rhyolite mining stock exchange has been fixed at \$100 each. The sale of fifty additional seats at \$250 each has also been authorized, and practically all of these have been taken. The exchange will proceed at once with the erection of a building, but the first regular call is expected to take place in February. There have been over fifty applications from outside brokers and mining men desirous of membership.

Douglas, Ariz.: The Calumet and Arizona copper mines are to have another furnace in this city to handle the increasing output of the Superior and Pittsburg. The Copper Queen also is about to construct a giant furnace with a capacity of 1,200 to 1,300 tons every twenty-four hours. The production cost of blister copper at the Calumet and Arizona has been reduced to about four or four and one-half cents per pound, so that the profit is enormous. All reports indicate increasing prosperity among the copper producers throughout the territory.

Barter Springs, Kans.: The barter mining exchange at a banquet given to a delegation from the Joplin Commercial club has rendered good service in the advancement of local interests in the lead and zinc camps of the district. The discussion following the banquet dwelt chiefly upon the ways and means for the betterment of the next meeting of the American mining congress, to be held at Joplin, Mo., next October. This coming session of the congress undoubtedly holds in store large possibilities for the lead and zinc mines of the southwest.

Goldfield, Nev.: Thousands of fortune hunters are still pouring into Goldfield, and this in spite of the severity of the winter, poor trade, scarce snow, blizzards, and other signs of food and fuel. An inspection of many camps shows very widespread activity throughout the district in preparations for the coming spring. Everybody seems well supplied with money and prepared to meet whatever adverse conditions may arise, and even the women of the camp put on a brave front and display an amount of fortitude that does them credit.

Cripple Creek, Colo.: The mining industry of the local gold camp has been given a fresh impetus by the announcement of reduction in haul-

ing rates within the district. This action was recently taken by the management of the allied railroad systems, and will result in the immediate construction of receiving stations in the Cripple Creek yards of the Midland Terminal, Golden Circle, Florence & Cripple Creek, and Colorado Springs & Cripple Creek railroads. In these stations the ore will be temporarily stored pending removal to the mills, where they will be hauled by teams. Later an aerial tramway will be constructed for this purpose.

Manhattan, Nev.: The recent new strike of gold ore here is proving sensational, and seems likely to bring a revival of the boom days. Ore is being mined at the rate of 100 tons a day in a vein said to be over three feet wide and in a shaft that has been sunk but 33 feet. The foot wall or the hanging wall has not yet been encountered, and there seems to be every evidence of depth and permanency. Ore shipments are expected to begin shortly, and the strike is the topic of discussion throughout the camp.

Baxter Springs, Kans.: Mining operations in the lead and zinc camps of the southwest have been somewhat hampered by adverse weather conditions, but the mine operators themselves were never more confident. The roads of the district are in poor condition, but this is being rectified as rapidly as possible. One road is being made from Quapaw to the Mission mine, which will add materially to that already valuable property. The general prosperity of the district is evidenced by the extensive building operations now under way, both for mining and commercial purposes.

Las Vegas, Nev.: What is known as the Silver Lake district is proving to be highly mineralized, having been the center of extensive volcanic disturbances in past ages, which produced enormous "blow-outs" or chimneys of rich ore. Mining engineers and geologists who have recently examined the formation assert that the mineral veins have the so-called iron cap, a good indicator of rich and permanent ore at depth. A range of lava covered hills surrounds the district, which has an area of about 21 square miles. The region has heretofore been shunned by prospectors, being known as a range of malaple hills.

Vancouver, B. C.: The recent bonding of the Guggenheims of several copper mines on Lake Superior and Leech river has revived a story of several years ago regarding a large treasure said to be buried at Leech, near the creek. It is suggested that if the Guggenheims' prospectors should ever run the district they may set sturdy upon the treasure. It seems that a dying man in San Francisco confessed to a jailer who had befriended him that many years ago he had stolen \$50,000 and buried it at a spot marked on a map of the Leech river in British Columbia. All attempts to locate the treasure have so far been in vain.

Patagonia, Ariz.: The mining interests of the Wrightson copper district are drawing new satisfaction from the events of each week, and the increasing activity noticeable in all the large camps is exciting the most favorable comment. Capital is flowing freely into the development of new properties, and many new and important undertakings are being reported. The Mansfield group of mines are rapidly coming to the front. The latest feature being the penetration of the true fissure vein by cross-cutting at the first level. The ore is now being raised and laid upon the dumps with a view to shipment to the El Paso smelter. Much interest is being taken in the proposed plans for the new town of Mansfield, which is expected to assume an important place in the development of the Wrightson district.

Washington, D. C.: The director of the mint estimates Nevada's gold production for 1906 at \$11,000,000. This estimate is entirely conservative, and some of the best judges are inclined to believe that the figures will prove altogether too small, for the reason that many new properties have been brought to the production stage within the past few months and have been producing carload after carload of gold. The United States geological survey will also very probably extend its aid to the enterprise, so that it is safe to predict a notable success, and mining interests in general will undoubtedly be greatly benefited.

MISS ROSE MELVILLE AND  
CHAS. B. HANFORD COMINGTHE FORMER IN "SIS HOPKINS"  
AND THE LATTER IN  
"JULIUS CAESAR"

Miss Rose Melville will be seen again this season in "Sis Hopkins," that charming pastoral comedy of Indiana rural life, which has been seen by theatergoers in all parts of the country for the past six years. So popular is this play that it is her quaint portrayal of the old little country girl that she has been booked straight through the coming season until next June, her tour including a trip to the Pacific coast. Mr. J. R. Stirling, Miss Melville's manager, has given her this season the best company and production she has ever had. Tuesday, February 5th.

Julius Caesar, Feb. 11. The American mind delights in politics and this fact may account for the popularity which Shakespeare's great tragedy of statesmanship, "Julius Caesar," has always had. It is a picture of great nature moved by tremendous events; picture whose representation requires not only artistic fitness, but intellectual robustness. Its three great characters, "Brutus," "Cassius" and Marc Anthony, have each in turn invited the most eminent players to display their best talents. Yet it is "Marc Anthony" who has been the most popular of the complete actors on the American stage, and it is this character which he will again portray during his engagement at the Elks' opera house on Monday, February 11.

Give us your ROUGH DRY work Monday, and get it back Wednesday Imperial Laundry Co.

AFTER SHE WAS  
CONVICTED AS  
LUNATICFor Murder of Her Mother.  
Woman Escaped But Is  
Located.DAUGHTER OF BRETT HARTE  
INMATE OF A POORHOUSEEl Paso Gets Still Further Reduc-  
tion on all Railway  
Rates.

Cleveland, Ohio: Detectives from Pittsburgh, with the help of the Cleveland police, hope soon to have under arrest S. Bertha Beilstein, the wealthy Pittsburgh matron, who last fall escaped from the Dixmont insane asylum at Pittsburgh, and has been missing ever since.

Miss Beilstein, who possesses a considerable fortune in her own right, killed her mother and attempted suicide, but recovered after a long trial she was declared insane, and sent to the asylum. She climbed down a fire escape and leaped into a waiting automobile and made her escape. A report reached Pittsburgh that a certain prominent and wealthy man living near Pittsburgh was seen on the streets of Cleveland with the missing heiress. The home of this man was called by telephone from Pittsburgh, and it was learned from a servant that the man was in Cleveland. So the detectives hastened to Cleveland.

The man must have passed them on the way, as they found their man had returned home. Then they called him by long-distance telephone, and he said he had just returned from Cleveland. They asked him what he had been doing there, and he gave the names of several persons he said he had been visiting. Upon investigation his story was found to be false.

It is claimed that he took Miss Beilstein to the theater while here, and that he had stolen her car for a long time. The detectives have reasons to think that she is in a certain house on fashionable Prospect street, and is in hiding.

DAUGHTER OF BRETT HARTE  
PARTNER IN FUR AND MEAT.

Portland, Me.: Mrs. W. H. Steele, formerly Jessamy Brett Harte, daughter of the poet, Bret Harte, has been sent to the Portland poor house, ill, penniless and apparently friendless.

It is alleged by her husband, who is now somewhere in the west, that his wife's tastes were so expensive that he couldn't keep her in funds. He says he sent her \$15 a week, but this wasn't enough.

NURSE'S MISTAKE CAUSES  
DEATH OF AN INFANT.

Baltimore, Md.: The mistake of a nurse caused the death of Etta Finkelstein, the week-old daughter of Mr. and Mrs. Benjamin Finkelstein, 1049 North Caroline street, yesterday.

It was necessary to give the infant a dose of castor oil. In getting the medicine, however, the nurse mistook a bottle containing a bottle of carbolic acid and glycerine for the castor oil bottle, and administered a dose of the poison to the little one. A few minutes later the mistake was discovered, and a physician was summoned. Every effort was made to save the child's life, but all to no effect, as it died several hours after the dose had been administered.

MERCHANT AND DAUGHTERS  
MYSTERIOUSLY MISSING.

Chicago: William R. Wieboldt, a rich department store proprietor, and his two grown daughters, have disappeared. Their relatives have

called the aid of the police in the search for them. Their home was destroyed by fire a few nights ago, and an attempt was made to burn the store.

Wieboldt said he would take his daughters temporarily to the home of E. Collierman, a cousin. The family never went there, however, and W. A. Wieboldt, millionaire manufacturer, says he has canvassed the homes of every other relative, and can find no trace of the missing.

Fire Attorney Hogan says the fire in the department store started in three places at once, in piles of oil-soaked baby carriages, and not a doubt exists that it was of incendiary origin.

Whether there was any connection, however, between the plot to burn the family out and its subsequent disappearance, is not known.

**Isabella Mining Company.** Principal place of business changed from Tres Piedras, Taos county, to Tusas, Rio Arriba county. Otto Rosenfield has been appointed as agent upon whom process can be served, vice Frank Bolton resigned.

**Floresheim Mercantile Company.** Principal place of business at Springer, Colfax county, and Solomon Floresheim of Springer. Territorial agent. Capital stock increased to \$200,000.

## ITALIAN CHARGED WITH SETTING FIRE TO MINE

THREE LOSE LIVES IN BLAZE PRISONER IS ACCUSED OF STARTING TO AVENGE FANCIED WRONG.

A Trinidad, Colo., dispatch, dated January 30, says:

Under heavy guard, John Rodriguez, an Italian, was this afternoon taken from Van Houton to Raton, N. M., charged with having deliberately set fire to Willow mine No. 5, belonging to the St. Louis, Rocky Mountain & Pacific Railroad company, at Willow Arroyo, forty miles south of Trinidad.

He is said to have remarked that he fired the mine to avenge a fancied wrong. The three men who lost their lives in the mine were Peter Lumley, pit boss, and a relative of R. J. Lumley, who was killed at the Primo disaster a few days ago; Matt Kil-murray, fire boss, and Jake Harris, colored.

There were four men in the mine at the time it was set on fire, and one of them, Robert Anderson, managed to escape the same evening. He was painfully hurt but not seriously burned. He holds out no hope for the escape of his comrades, giving it as his belief that they were incinerated within a few hours of the time he made his escape.

## OFFICIAL MATTERS

Notaries Public Appointed.

The following have been appointed notaries public by Governor Haggan:

Frank A. Halmhaugh, of Cimarron, Colfax county; Lee G. Rendall, of Central, Grant county; Henri de B. Heflin, of Roswell, Chaves county; Donaciano E. Rodriguez, of Victoria, Dona Ana county; A. W. Pollard, of Deming, Luna county; Eugenio Romero, of Mora county; Juan Pateghe, of Wagon Mound, Mora county.

Inspector of Small Arms Practice of New Mexico National Guard.

(General Orders No. 3.)

Territory of New Mexico, Adjutant General's Office, Santa Fe, N. M., January 30, 1907.—Major Robert C. Rankin, First squadron of cavalry, is detailed as inspector of small arms practice, national guard of New Mexico, for the season of 1907, and will report, by letter, to the adjutant general at Santa Fe, for instruction.

By command of the governor.

A. P. PARKINGTON, Adjutant General.

A Jamaica Lady Speaks Highly of Chamberlain's Cough Remedy.

Mrs. Michael Hart, wife of the superintendent of Cart Service at Kingston, Jamaica, West India Islands, says that she has for some years used Chamberlain's Cough Remedy for coughs, croup and whooping cough, and has found it very beneficial. She has implicit confidence in it and would not be without a bottle of it in her home. Sold by all druggists.

## TARIFF REVISION BOBBING UP SERENELY

Other Interesting Gossip About Political Matters in Washington.

Washington, Feb. 1.—As one session after another dies out in congress and matters begin to run along in the old fashioned, quiet manner that pleases those who are willing to avoid hard work, the tariff revisionists bring out from their hiding place their "tariff reform" banner and start the agitation. With the cessation of the struggle in the senate over the Brownsville affair and the increase of the salary of members that stirred the house from top to bottom, legislative matters began to grow monotonous. The northwestern members, unimpaired of the dismal failure of the New England revisionists, under the leadership of Butler Ames, of Massachusetts have begun to talk energetically of tariff revision and are now circulating a petition calling for a caucus of republicans for the purpose of urging an extraordinary session of the sixtieth congress to take up the tariff question.

Just how a caucus of members of the present congress can control the action of the congress which is not yet in existence does not appear, except that if a caucus of the present republican members were to declare in favor of the wisdom of such action, the president might be guided in that direction. President Roosevelt, however, has shown that he is quite capable of doing what he believes should be done, regardless of whether such action meets the approval of members of congress or not. If he believes the time is not ripe for the consideration of the tariff question, he will not call congress together, no matter how insistent the tariff reformers may be.

Judged by the consensus of congressional opinion, however, it would seem to be little danger of a caucus being called. Some time ago the impression was gathered from the talks of party leaders that nothing would be done with regard to the tariff until after the next presidential election, and nothing has happened since to indicate a change in this program. The republican party managers favor going to the people in the next campaign with a plank in the platform that will pledge the party specifically to a moderate revision of the tariff, and if the people believe that is the party of wisdom they will endorse the party at the polls. As to the result of such a platform republicans profess to have no doubt.

On the other hand, the democrats declare their readiness to go to the country on the tariff issue alone. Recent events in congress and the speeches of the president suggest to many that it is upon the tariff and that alone that the parties now disagree. There is little hope for revision so long as the speaker and the party leaders oppose it, and certainly nothing of the kind will come about before the next presidential election.

Party Fight for Oklahoma.

Both parties are just now bending every energy to capture the new state of Oklahoma. The republicans have been greatly cheered of late because of what they believe will be a big political mistake on the part of the democrats that will surely put the new state in the republican column at the first general election. Democratic leaders in Washington realize the situation too, and are doing all they can to prevent this mistake from being made. As the territory now stands, owing to the large influx of population from Arkansas, Texas and other states, the indications are that it would be democratic. The democratic party controls the constitutional convention now in session. There appears to be a strong determination on the part of the convention to put into the state constitution a "Jim Crow" law similar to that in force in some of the southern states. Some politicians hold that to do this would cause congress to refuse to approve the constitution and prevent the president from issuing his proclamation declaring the admission of the state into the union.

They likewise fear that such a proviso in the constitution at this critical juncture would throw the state into the hands of the republicans. Influential democrats here have sent sharp telegrams to the members of the convention urging them not to make this mistake and pointing out that after the state is admitted and given all the sovereign rights of every other state it would be within the power of the state by legislation to make this proposed discrimination against negroes as effective as by its incorporation in the constitution. If congressional influence has any weight among the members of the convention there will be no reference to "Jim Crow" law or anything equivalent.

## S.S.S. PURELY VEGETABLE

Not only is a medicine valuable for its ability to cure disease, but the way in which it affects the system is a very important factor. When the system is infected with the germs of disease as in Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., every particle of its recuperative strength is needed to assist in eliminating the poisons and impurities which are causing the trouble. It should not be dosed and treated with strong mineral mixtures and concoctions that further add to the burden, by disagreeably affecting the bowels, producing indigestion, or eating out the delicate linings and membranes of the stomach. The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons for its being now the most widely known and universally used blood medicine on the market. It is made entirely of healing, purifying roots, herbs and barks of the forest, and are known at the same time to possess the qualities to build up and strengthen every part of the system by their fine tonic effect. Not only is S. S. S. the king of blood purifiers, but it is the one medicine that may be taken with absolute safety by young or old. We guarantee it non-injurious and offer a reward \$1,000 for proof that it contains a particle of mineral in any form. S. S. S. is a safe and reliable treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and any and all diseases arising from a poisoned or impure state of the blood. It goes to the very bottom of these troubles, removes every trace of disease, enriches and builds up the blood and permanently cures where mineral medicines fail. If you are suffering with any form of blood disease write for our book on The Blood and ask for any medical advice you may desire; no charge for either.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

ing at it. Democratic politicians are convinced that proposition at this precise moment is decidedly dangerous, but they know how to accomplish the same results later on when the matter may not be disastrous to the party.

**Government Clerks' Wages.**

Scattered throughout the city of Washington and the country at large there is an army of government clerks and other employees aggregating something like 200,000 persons, and every one of this army of wage earners is looking to Washington in the hope that the long discussed and postponed proposition to make a general increase in their pay may be realized. There is little hope of action in this direction being taken at the present session of congress, but events seem surely to be moving toward that end. Once last week the congress increased by fifty per cent the salary of its members, the speaker, the vice-president and the members of the cabinet. Having done this, similar action in behalf of other government employees can not well be denied.

Congress has already recognized the fact that salaries need adjustment. The postoffice committee in its bill to be reported next week will increase the pay of railway mail clerks, rural and city carriers, involving an increase in the budget on that account of something like \$10,000,000. A resolution is pending to give an increase of 20 per cent to all congressional employees. The legislative bill which is now in conference carries a large number of increases in salary for bureau and other important officials. The trend of public opinion is decidedly favorable to pay more for government clerks and all the arguments advanced by members of congress with regard to the increase of living are applicable, and probably with added force, to the more humble public servant. It is probable that when the legislative bill is taken up by the house committee in the long session of the next congress some scheme of general revision of salaries will be agreed upon.

## ADDITIONAL DUTIES ON FRENCH LIQUORS

Paris, Feb. 1.—The additional duty on absinthe and other liquors will come into effect tomorrow and the half a million publicans in France are at the present moment much exercised in their minds because of the additional duty. Their syndicate has just issued a proclamation recommending them to vote only at elections for candidates pledged to defend their interests. As they put hundreds of millions of dollars into the coffers of the state annually, they are, they argue, deserving of consideration and they will make their influence felt. Meanwhile M. Ribot, a former president of the council, who is at the head of the parliamentary party which has been formed to combat alcoholism, is out with some pretty emphatic interviews upon the subject. The ravages of alcoholism as he points out are gradually extending. There are no signs of a reaction. Such a parliamentary group as that over which he has been called on to preside would not have been possible ten years ago, and it is a satisfactory symptom he says that up to date of 200,000 signatures should have been appended to a petition for the suppression of absinthe. A bill for the limitation of the number of public houses is now before the senate and a determined effort will be made to check the spread of alcoholism.

## CHARGES AGAINST THE STANDARD OIL COMPANY

Chicago, Ill., Feb. 1.—The trial of the Standard Oil company of Indiana, on the charge of receiving concessions on shipments of oil from Whitcomb, Ind., as set forth in one of eight indictments recently sustained by Judge Landes of the United States district court, has been set for March 4, after John G. Miller, attorney for the company, had entered a formal plea of not guilty on behalf of his clients to the first count of the indictments. There are no less than 1,993 counts in the indictment and Mr. Miller tried to have each and all except the first count of each of the eight indictments against the company, thus reducing from \$28,000,000 to \$20,000 the possible maximum fine against his clients upon conviction. The motion to have these counts quashed was promptly overruled by Judge Landes, and Mr. Miller then declined to enter any plea upon the counts in question. The court ordered the clerk to enter a plea of not guilty.

INDIANS DISAPPEARING FROM NOVA SCOTIA.

Halifax, N. S., Feb. 1.—Indians are fast disappearing from Nova Scotia. The few hundred that now remain live at hand to mouth existence and will not work. According to a report published today by the department of Indian affairs great difficulty is found in getting them to attend school. The general conduct of the Indians is good but most of them are passing into the United States.

## REALTY TRANSFERS DURING JANUARY

Trade Was Steady—The Kind That Inspires Confidence.

RURAL PROPERTY IS ACTIVE

Farm and Garden Land is in Demand According to Sales.

The business of the month compares favorably with that of last. The sales have not been large but the trade was steady and the kind that inspires confidence.

There was considerable activity in small holdings throughout the county, which shows that there is a demand for farm and garden land as well as city property.

The records show that the following sales took place in the city precincts during the month:

January 2.—L. R. Thompson and wife to J. E. Matthews, several pieces of property in and about Albuquerque, \$1.

January 2.—Nestor Armijo and wife to Frank Steffen, lots 16 and 17, block 13, original townsite, \$1.

January 3.—Felix H. Lester and wife to R. S. Owens, lot 3, block "E," Highland addition, south, \$250.

January 4.—Myron H. Sabin to Edna C. Sabin, lot 9, block 17, Hunning Highland addition, \$1.

January 4.—Mrs. Madge Tilton to Henry Hunning lots 21 and 22, block 19, New Mexico Town company's addition, \$1.

January 4.—Surety Investment company to John E. Sargeant, lots 17 and 18, block 34, Perea addition, \$350.

January 5.—Juno Frampton and husband to Wm. H. Shoat, lot 1, block 1, Belvidere addition, \$1.

January 8.—William K. Preston and wife to Mrs. Rose Shelby, lot 8, block 42, Hunning Highland addition, \$1.

January 9.—University Heights Investment company to M. F. Angell, lots 2 and 3, block 7, University Heights addition, \$1.

January 9.—Broadway Land and Investment company to Jose G. Salazar, lot 12, block "X," Eastern addition, \$175.

January 9.—Arno E. Huning and wife to Rebecca Mac Fee, lots 4, 5 and 6, block "X," Atlantic and Pacific addition, \$1.

January 12.—N. E. Stevens et al. to Edna Sabin, north 47-1-3 feet of lots 13, 14, 15, 16 and 17, block 42, Original Townsite, \$1.

January 12.—Pio Lammori to Amadeo Matteoli, undivided half interest in lots 10, 11 and 12, block 51, Original Townsite, \$1.

January 12.—Margaret Kass and husband to Arthur E. Walker, lot 2 and fraction of lot 3, block 25, Hunning Highland addition, \$1.

January 12.—Roderick Stover and wife to Geo. P. Leonard et al., lot 30, block "K," Atlantic and Pacific addition, \$1.

January 12.—Mary Ruby and husband to Otto Dieckman, lot 6, block "A" and lot 1, block "B," Park addition, \$1.

January 14.—J. M. Solite et al. to C. A. Reynolds, lots 10, 11 and 12, block 2, Ames addition, \$1.

January 14.—Geo. W. Harrison and wife to Ruth C. Kuhn, lots 19 and 20, block 40, Perea addition, \$250.

January 16.—Lloyd Hunsacker to Edward Blesde Jr., lot 2, block "H," Highland addition, south, \$1.

January 16.—Lloyd Hunsacker to Inez Bone, lot 5, block "J," Highland addition, south, \$1.

January 16.—Jennie Myers and husband to P. J. Wilson, lot 6, block 2, Baca addition, \$1.

January 18.—Surety Investment company to the Porterfield company, lot 1, block 13, Perea addition, \$40.

January 22.—Lizzie Mendenhall et al. to the Superior Lumber and Mill company, lots 1, 2, 3, 4 and 5, Atlantic and Pacific addition, \$1.

January 22.—G. W. Harrison and wife to Rutherford Hicks, lots 1 and 2, block 6, Perea addition, \$450.

January 22.—Lizzie Mendenhall and husband to Fred Mann, lots 1 and 2, block 24, Perea addition, \$475.

January 22.—A. C. Henry to J. A. Henry, lots 1, 2, 3, 4, 5, 6, 10, 11 and 12, block 6, Brownwell and Lail addition and other property, \$1.

January 22.—Joseph J. Heilweg et al. to Paulina Heilweg, lot 138, block 12, P. Armijo & Bros., addition, \$1.

January 22.—Herbert F. Reynolds to C. M. Stokes, half lot of lot 1, block 31, Hunning Highland addition, \$1.

January 23.—C. L. Diehl and wife to C. F. Allen, lot 5, block "B," Park addition, \$400.

January 23.—Emma F. Boeklett to Stephen E. Roehl, part of lot 3, block "A," Highland addition, south, \$1.

January 23.—C. M. Caplupe, attorney in fact for A. M. Gentile, to C. A. Grande, a piece of land in Belvedere addition, \$400.

January 23.—Frank McKee, trustee to John C. Calhoun et al., piece of land north of Albuquerque, on Fourth street, \$1.

January 23.—City of Albuquerque to A. T. & S. F. R. Co., piece of land south of city of Albuquerque, \$1.

January 25.—T. S. Hubbell and wife to F. J. Wilson, lots 5 and 6, block 55, Original Townsite, \$1.

January 28.—Broadway Land and Investment to W. C. Booth, lot 9, block 41, Eastern addition, \$35.

January 28.—J. A. Gleason and wife to Blanch E. Wiley, lot 11, block 15, Eastern addition, \$1.

January 29.—John A. Gleason and wife to Blanch E. Wiley, lot 8, block 6, Lewis and Simonds addition, \$1.

January 30.—R. S. Elwood and wife to Geo. E. Power, lots 1, 2, 3, 4, 5, 6, 7, and 8, block 36, Perea addition, and other property, \$1.

January 30.—Thomas Walsh and wife to Henry Chas. Roehl, part of lots 14, 15, 16 and 17, block 5, Baca addition, \$1.

January 30.—Clara M. McSpadden and husband to Eva B. Brigham, lot 8, block 7, Hunning Highland addition, \$1.

January 31.—W. S. Strickler, guardian et al. to Whitney company, lot 18 and fractional parts of lots 19, 20, 21 and 22, block 42, Original Townsite, \$1.

## THE POLICY OF THIS STORE

Is to clean up stock once yearly and open season with new goods.

The Name

Wm. CHAPLIN

Not only means the Best Shoes but it stands equally for honest advertising.

3000 Pairs Men's Fine Shoes

All Other Shoes at 10 Per Cent Discount

Our window display will give you an inkling of the shapes that stylish dressers will wear, but come in and carefully inspect the shoes themselves. We feel confident that if you are a man who wants the best money can buy we will have your trade.

Wm. CHAPLIN---SHOE STORE 121 RAILROAD AVE.

EVER WATCHFUL.

A Little Care Will Save Many Readers Future Trouble.

Watch the kidney secretions. See that they have the amber hue of health.

The discharges not excessive or infrequent.

Contain no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

C. G. Lott, for ten years station master in Albuquerque, now retired from active care of life, residence 315 North Arno street, says: "I had attacks of backache stretching over a period of three years. One of them occurred shortly before Doan's Kidney Pills came to my notice, and I procured a box. I knew the cause of my trouble arose from imperfect action of the kidneys because the behavior of the kidney secretions and their condition fully proved it, but what to do to check the trouble was a mystery. Doan's Kidney Pills effectively stopped the difficulty. If everyone in Albuquerque receives as undoubted benefit as I did from that remedy, kidney complaint, backache, and trouble with the kidney secretions will cease to exist in this vicinity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

ELECTIONS BEING HELD IN THE PHILIPPINES.

Manila, Feb. 1.—The elections under the new law took place yesterday. Three months residence is required to become eligible to office. The new law provides for a constitution, and divides the islands into eighty districts. The Moro and non-Christian provinces excepted.

## SCHOOL LEGISLATION

Colorado finds that a number of its state institutions of learning are not in a flourishing financial condition, while it also finds that the state's resources at the present do not permit of the relief needed; but the legislative committee appointed in the case makes no suggestion of elimination of any or consolidation of some. They look for gradual improvement with greater growth in the immediate future.

In this course of Colorado there is a lesson for New Mexico, where the desires of the people and their appreciation of the needs of education, present and future, have, perhaps, caused them to go at rather a good pace. But even if this fact be a fault, it is one that lies on virtue's side, and one which time will not only remove but amply endorse.

New Mexico has always been noted for her devotion to free public education; for, as Mr. Klock so forcefully brought out last night at the boosters' rally, in the first constitution formed by her people, in 1850, she gave in perpetuity, for the purposes of public education, one-twelfth of the annual income to be raised by the state; they hoped to create. With such a record for its past, and with the present prospect for its future, it would be unwise, retrogressive and unpardonable for New Mexico to now eliminate a single one of its public institutions by consolidation or otherwise. Bear present stringency for a while; the good time is coming.

In this connection, The Citizen takes pleasure in saying, on the authority of Governor Steyer, that the regents of the University not only do not desire to absorb the School of Mines, but that they refused to take action on that subject when it was proposed to them. Nor was the recent visit of President Tilt to Santa Fe for any such purpose. Of course, if the School of Mines as a distinct institution shall be abolished, Albuquerque would be glad to have that department of learning added to the curriculum of the University; but The Citizen is prepared to say that the sentiment of not only the city, but of the University board of regents is that the School of Mines should retain its individual existence and remain at Socorro, in one of New Mexico's most important mineral sections.

## PAY FOR EMPLOYEES

Congress has at last found the nerve to openly increase the salaries of its own members from \$5,000 to \$7,500 a year. The cry of protest that seemed to be feared is not raised. The country has accepted the action. Perhaps the present pay of congressmen is insufficient on account of the high cost of living, for the high cost of living is no more theory; it is a fact of universal experience.

But now, having raised their own pay, the congressmen will find it difficult to maintain any reputation whatever for consistency if they fail to provide higher salaries for others who serve the government. For there has been thus far a strange oversight of the department clerks at Washington and the postal clerks and carriers all over the land, to whom the cost of living is higher as well as it is to the congressmen.

The argument of higher cost of living is good all down the line. It would be as easy for congress to raise the pay of the clerks as it was to raise its own—and a good deal more indiscreet. It would convince the public that congressmen care for others as well as themselves. The people of the country have shown that they are willing to give to public servants a share of the prosperity, but they are not willing that this share shall be taken by congressmen for themselves alone, while the vast army of faithful public servants are entirely left out of the deal.

## RIGHT NEVER FAILS

Many people have predicted that the bill recently passed by congress to prohibit corporations from contributing to campaign funds will prove a failure in practice.

Anyway, isn't it better that the statutes should de-ounce wrong than be silent on the subject? A good law, even if it serves no other purpose, molds public conscience and crystallizes public opinion. Like a ship's compass, even if it be carelessly disregarded, it still points true. In some storm, some crisis, soon or late, it will be turned to as the guide to safety.

It took public opinion a good many years to properly shape itself after the principles of the Sherman anti-trust law. But right principles set up in statutes are guide-posts. They turn hundreds, then thousands, then millions of minds to traveling in the road of right thinking. For twenty years the interstate commerce commission was commonly considered powerless and next to worthless, but at last we have learned to appreciate its purpose and to vest it with necessary powers.

Great reforms do not begin and end in "Be it enacted." All real reform is in popular feeling, popular thinking and popular acting. When the people at last get the right view of a great wrong and the right feeling toward it, and moved to the right action, the wrong must end, and not before. The new law against corruption control of elections may long be evaded by one subterfuge after another, but some day the people will learn the good there is in this law and demand its rigid enforcement. The enactment of a law is the planting; the enforcement of it is the harvest.

## THE SALTON SEA

From reports of climatic conditions gathered in Arizona and southern California, there remains no doubt there has been in those places a change from aridity to increased moisture, as New Mexico has herself experienced.

In California, flowing wells which had ceased to flow, are again spouting with old time vigor. In Arizona, no great has been recent precipitation in snow and rain that mining operations have been hampered. In New Mexico, we all know what strange moisture conditions have astonished the oldest inhabitants.

These previously unknown phenomena apparently have one and the same cause. What is that cause? Many think it to be the Salton Sea. There is but one way to determine the matter, and that is scientific examination of climatic data through a number of years. Only the authorities at Washington can do this. It must be done at once or a great injury may be inflicted on the southwest. Again The Citizen would call the attention of the legislature to the importance of a memorial to Washington.

Daily Optic: No other advance more strikingly marks the superiority of this age over former ones than that which has been reached with regard to the treatment of the insane, frequently among the poorest persons on earth, and all deserving of pity and protection. The solons of New Mexico at Santa Fe assembled must stand on the highest plane of ethical development by providing amply for the maintenance of the New Mexico asylum for the insane located at Las Vegas. Let it be their will that every insane person shall receive the proper attention, cost what it may. The care of New Mexico's insane must not be overlooked.

There never was, in the history of Albuquerque, a greater success than the boosters' rally last night. It showed that the people of Albuquerque fully appreciate that now is the accepted time, and that they have fully awakened from the apathy of the last few years.

A Chicago scholar estimates that Columbus' voyage of discovery cost exactly \$7,200. Eh? What kind of crown jewels were those Queen Isabella looked?

An Arizona cowboy, single-handed, killed six Indians in Mexico. The story, however, is absolutely

spoiled for a dime novel plot. The cowboy was working on a section crew. The Indians also were working.

Says Chancellor Day, "the wage earners get enough for what they do, and a great many of them get more." Who'd have thought any Day could be so benighted?

Under the new salary congressmen will get \$20.55 for each day of the year. Not an exorbitant reward for the days they don't make speeches.

New York disposes of fifty tons of condensed fruit every day. Ah, this is what becomes of all the lemons that are banded about.

## WORLD NEEDS INCREASE OF ITS EDIBLE OIL SUPPLY

The fact is there is a world-wide demand for edible greases, which has increased much more rapidly than has the production of the raw material. Within recent recollection practically the total crop of copra oil went into the soap industry, whereas today several of the most important mills in Marseilles are converting copra oil into high-priced comestible grease, sold commonly as a substitute for butter. Other countries, notably Germany, have become importers of raw material, and America itself is now manufacturing copra oil, though in comparatively small quantities. India for many years exported practically its entire product of oil seeds, while today it is manufacturing a considerable prosperity, is consuming much of its own product.

In the United States the supply of animal grease has not increased with the demand or with the population, and the foolish prejudice which once existed in regard to the use of cotton oil as a substitute for butter and lard has largely broken down. But, while improved processes of manufacture have revolutionized the oil-making industry within recent years and new markets and new applications have been found in every land, no country has increased its annual crop of raw material by a notably increased acreage, and the only differences in the amount of available material are due to the bounties of nature.

The only region from which a genuine increase in the available amount of raw material may be expected within the coming few years is the west coast of Africa. Here we have native populations which cannot consume their product, and the different French colonial governments are vying with each other in furthering the development of their territories. Every additional mile of railroad—and in nearly every colony railroads are being extended—means an increased amount of natural products for export, and among these arachides take an important place. Another African product very little known is now being offered for sale and promises to yield excellent results as an oil and soap material. I refer to the fruit of the karite tree, large forests of which exist in the Sudan, and the special virtues of which have been known to the natives for centuries. At the recent colonial exposition in Marseilles the demonstration of the possibilities of this fruit received much attention and favorable comment. The fruit itself is a sort of chestnut, from the hull of which the African natives extract a nut which they mash and boil, skimming off the floating grease. This crude butter is now worth 50 centimes a kilogram (9.6 cents per 2.29 pounds) at the place of production. The French authorities have been studying this tree and its fruit with scientific minuteness since 1890 and during the past year with great energy. The product they pronounce as of the first class for alimentary, soap and candles. In tests by Marseilles manufacturers, from 15 to 20 per cent of karite grease has been used successfully in combination with other oils. I am told that, as transportation facilities are improved, immense quantities of this raw material will become available.—Consular Report.

## WHAT BENEFIT CAN BE OUR PROSPERITY WITHOUT THRIFT

What are you doing with your share of the general prosperity? Throwing it away in high living? Carelessly letting it run out through your fingers in a thousand and one unnecessary little expenses? Then it is being lost to you forever. The tremendous increase in wealth in the United States today is a phenomenon that amazes the world. It is due primarily to the fortunate succession of good crops and to the development of natural resources. The western farmers and the southern planters have had an abundance of grain and corn and cotton, and the prices have been good. The mines of Montana, Colorado, Utah, Idaho, Nevada and other western states have contributed enormously. Every line of business has unusual activity. There seems indeed no end to the general accumulation of riches.

The present situation is not without its lesson. We must not forget the Biblical story of the seven fat kine and the seven lean kine. The time is coming, though not now visible, when the lean years will be upon us. He is a wise man who in prosperity saves up against adversity. Nature is profuse, open-handed and lavish. But it is not wise for us to attempt imitation without understanding. While nature is plentiful and bountiful and generous with one hand, she is careful and prudent and economical with the other.

Nature at times bathes the world in unstinted showers of rain and floods of sunlight, but no single ray is wasted. Every drop of the generous rain is gathered up again into the clouds. Even the dead plants and the leaves of the trees are utilized for the benefit of next year's fruits and flowers. If we truly understand nature's open-handedness we may safely imitate, but open-handedness is suicide unless balanced by thrift.

A few dollars in a savings bank or in a safe investment or in a home is as good seed as ever sown. Out of it grow quickened energies, firmer courage, more stalwart thought and hope, more ordered citizenship, education for the children and the independence and self-respect that lift aimless, hopeless drudges up to true manhood and true womanhood.

## NEARLY TWO THIRDS SENATORS SELECTED FOR THEIR ABILITY

When Curtis, of Kansas, William Alden Smith, of Michigan and Joseph M. Dixon, of Montana, take their seats in the United States senate in March they will find there many men with whom they have served in the house of representatives.

Of the ninety members of the present senate thirty-four or more than one-third sat in the popular branch of congress before they became senators. Five of the thirty-four also have been governors of their respective states—Cullum of Illinois, Daniel of Virginia, McCreary of Kentucky, Nelson of Minnesota, and Stone of Missouri. In all there are twenty-four former governors in the senate.

When Mr. Curtis becomes the colleague of Mr. Long, Mr. Smith that of Mr. Burrows and Dixon joins Mr. Carter, Kansas, Michigan and Montana will each be represented by two senators who acquire legislative experience in the house. Iowa, with Allison and Dooliver, Kentucky with Blackburn and McCreary, and Maine with Hale and Frye are so represented now.

Of the ex-governors, excluding those who served in the house, Crane of Massachusetts, Culberson of Texas, Foraker of Ohio, La Follette of Wisconsin, Proctor of Vermont, Tillman of South Carolina, and Peabody of Rhode Island are among the more active members of the senate. Beveridge and Spooner are prominent among the senators who had not been representatives or governors.

With thirty-four members of the house in the senate and twenty-four former governors it is apparent that nearly two-thirds of the membership of the senate consists of men who had won political distinction in open contests before becoming senators.—New York World.

## LETTER ON AN IMPORTANT SUBJECT

To Sheep Men of the Territory.  
Big Convention Here  
in 1909.

Col. H. A. Jastro of Bakersfield, Cal., one of the promoters and owners of the Albuquerque Traction company, is in the city, after having attended the convention of the National Wool Growers' association at Salt Lake City, Utah. He informed The Evening Citizen this afternoon that, beyond any doubt, Albuquerque would get the convention of the above association for 1909, and he would advise the people to begin preparations at once for the entertainment of the delegates, he believing that between 1,500 and 2,000 sheepmen from all over the west and southwest would be in attendance. Mr. Jastro expects to visit his cattle ranges in southern New Mexico tomorrow night, and after a stay there of a few days he will return to this city and then continue on to California.

The following circular letter of general interest is here given in full:

New Mexico Wool Growers' Association, Albuquerque, N. M., January 31, 1907.

To All Who are Interested in the Welfare of the Sheep Industry in New Mexico.

Gentlemen: The secretary and several members of the executive committee of the New Mexico Wool Growers' association have but recently returned from attending a convention of the National Wool Growers' association held in Salt Lake City, Utah, and a convention of the American National Live Stock association held in Denver, Colo.

Mr. Gifford Pinchot, forester and member of the land commission of the United States, was present at both of these conventions and delivered a message from the president to the stockmen of the west. The message was to the effect that the government control of the public domain for grazing or other purposes was a fixed policy of his administration and that the president would do all he could towards that end, and indirectly an invitation was extended to the stockmen of the west to assist in framing a bill which would best meet with the demands of all concerned.

A resolution was adopted by the National Wool Growers' association urging the president of the United States to appoint a commission of live stockmen, representative of the grazing interests which will be affected by the proposed legislation which said commission shall be authorized to confer and act with the present government land commission with a view to suggesting and formulating such amendments to said proposed law as may be deemed wise and proper, and for the best interests of those concerned. This committee will undoubtedly soon be appointed.

The secretary of the New Mexico Wool Growers' association had several conferences with Mr. Pinchot and Mr. Potter, his assistant, and with officers of the bureau of animal industry. The rates for grazing in forest reserves in New Mexico were discussed and are fixed at lower rates than in forest reserves in any other state or territory. This is on account of the grazing districts in reserves in this territory not being as good as in other states and territories. A number of matters of great importance to the sheep growers of New Mexico were discussed and policies determined on, as well as some concessions granted.

Every sheep man in the territory grazing a sheep on or off the public domain is vitally interested in this question of government control of range and what shall be in the bill to be passed. The contents of that bill may make or break you. To get what you want in that bill must be through united action. It is not probable that you can accomplish anything alone. You must get organized, and thoroughly organized. Each and every sheep grower, merchant or banker interested in the welfare of the sheep growing industry should become a member of the New Mexico Wool Growers' association, and let the association know what provisions should be put in that bill to meet your needs. Do not stand off and let some one else attend to your business, and find when the bill is passed that the requirements in the act that will prevent you from continuing in business or take away practically all your profits. If you are not interested in this matter, then you are not interested in your own business. To be able to do business with any committee that may be appointed, the New Mexico Wool Growers' association must have all the sheep growers behind the association; they must be members of the association. The association with only two or three hundred members cannot go before that committee and state that it represents the sheep growers of New Mexico, who number several thousand.

There is nothing there can be nothing, that is of so much importance to you as this range control measure. It is of far greater importance than the price of wool or lambs, or the car shortage, or any other question, and it is not a question of whether you want it, because it is coming whether you want it or not, but it is a question of what provisions we can get inserted in that bill that will best meet with the needs and demands of the sheep growers of New Mexico.

The yearly membership fees in the New Mexico Wool Growers' association is only ten dollars, but even this amount will be reduced providing the association can attain its proper growth. Money is needed to carry on the work of the association, but what is of vastly more importance is an association that represents by its membership all the sheep growers in the territory.

Fill in the enclosed application and send it in at once, with the membership fee of ten dollars, and become a member of the association and take part in fixing its policy. If you are

# HOUSAS COERCE THE "BOOSTERS" MOVE

## Albuquerque "Boosters" to Make the Great Southwest Greatest Empire on Earth.

### ALBUQUERQUE'S POPULATION WILL BE 50,000 IN 1912

Band Music, Red Fire, Blazing Torches, Grotesque Costumes and Rampant Enthusiasm on Duke City's Streets. Governor Hagerman and Other Speakers Address Crowded Meeting at Opera House.

Ten thousand people cheered themselves hoarse in the Duke City last night. Red and green lights glared apace and a long flaming stream of flickering torches was the chief feature of a pot pourri parade, led from the Alvarado hotel through the principal streets of Albuquerque to the Elks' opera house, where an assembled multitude heard the appeals of orators, whom they cheered to the echo.

It was boosters' night. 50,000 people for Albuquerque in 1912 was the dominant spirit reflected in numerous illuminated banners, some of which bore these legends:

"This car for your suburban home in Kansas City."  
"Chicago would be a great town were it not for Albuquerque. No?"  
"50,000 in 1912 or bust."  
"Watch us grow."  
"Push a good thing along."  
"Where are the knackers?"

It was a tumultuous crowd abroad in the only one of Albuquerque last night. Mayor McKee had literally turned the place over to the people and they "Boosted" with a will.

The Governor Arrives. The spirit and enthusiasm was spontaneous. Both were catching, and an epidemic of rampant optimism resulted. The pavements on both sides of Railroad avenue west from the Alvarado hotel were black for blocks with cheering people. Tin horns blared, drums beat, whistles shrieked and pandemonium reigned at the corner of First street and Railroad avenue, where the parade formed. The peevish American Lumber company band discoursed stirring music here until time for Santa Fe train No. 1 to arrive. It brought Governor H. J. Hagerman from Santa Fe. He was accompanied by Hon. Solomon Luna, Counselman E. A. Miera, his brother, Percy Hagerman and others. Mr. Luna had been in Santa Fe watching the proceedings of the territorial legislature. The governor and party were met by the band and a long following of torch bearers and a crowd of people which congregated in the hospitable piazza of the Alvarado. Then the parade started.

The Parade. First came the brilliant display on wheels of the Albuquerque Traction company. The bed of an old street car had been converted into a moving transparency, which bore the word "Boost" in box car letters on the sides. Also the car bed bore a troop of the irrepressible young America which was armed with every kind of noise producer imaginable. Over the whole was a canopy of brilliant incandescent lights. The Albuquerque fire department followed the transparency at the head of the band, which was led by Supt. Cowles of the American Lumber company. John Borradaile, grand marshal of the Boosters, assisted by able lieutenants, Maynard Gunsul and "Bobbie" Hadden, had formed the procession of "Boosters" in good order and it filed behind the band. In it a bunch of Varsity students was conspicuous. Then the Cactus club with its illuminated signs and amusing slogans, and the Geronimo club, fifty strong, dressed after the fashion of Indians, and some of them mounted on burros. The "Barnyard" club was one of the hits of the parade. Not to be outdone in the matter of "Boosting," the Leonard & Lindemann Juvenile band brought up the rear. These ambitious young musicians always excite favorable comment.

Crowded to Suffocation. The opera house was crowded to suffocation. Every seat held a booster, the foyer of the house was crowded with standing people and in the four boxes, which embrace the stage, were many lady boosters of the high-society set. On the stage were such well known boosters as Governor H. J. Hagerman, Hon. Sol. Luna, W. P. Johnson, F. A. Hubbell, Geo. S. Klock, Mayor McKee, Gov. E. S. Stover, Maynard Gunsul, R. W. Hadden, W. P. Miera, E. A. Miera, Sandoval county, Dr. John P. Pearce, J. N. Coffin, Col. John Borradaile, B. Cowles, H. B. Fergusson, M. L. Stern, W. T. McCright, Prof. Sterling, Dr. Geo. T. Gould, Dr. L. H. Chamberlain, J. B. Herndon, D. A. Macpherson, T. Y. Maynard, W. H. Gillenwater, A. E. Walker, A. J. Maloy, M. Mandell, Dr. E. J. Alger, M. O. Chadbourne, J. H. Bearup, W. J. Johnson and John Lee Clarke.

Mayor McKee announced that at the "Bobbie" Burns banquet of his week past the booster ball was started rolling, and that the purpose of the movement was to boost Albuquerque to a population of 50,000 by 1912. "I will now introduce to you," said the mayor, "a well known booster from Santa Fe, Governor Hagerman."

The governor did not talk long, but he said some things which will long be remembered. "Ladies and gentlemen, I assure you it is a great pleasure for me to be here tonight. I always feel at home in Albuquerque. I have always found them plucky, generous, cheerful and hospitable. I was thinking as I came down from Santa Fe tonight, and then the governor told what he thought in a story."

the mountain, until at last the Alpine climber, this surmounter of obstacles, came out in a beautiful valley, where the sun was shining, the birds sang in the trees, and the people were cheerful, prosperous and hospitable. (The governor undoubtedly meant this picture for Albuquerque.)

He touched on the loyalty every person should have for his own freeland, and spoke of the strife that usually comes in county divisions. He said that these fights were greatly to be deplored. They tend to separate the people instead of amalgamating them.

The Elks orchestra struck up "We Won't Go Home Till Morning." There was great applause. The audience was thoroughly enthused. Some overenthusiastic young men in the audience yelled "Who's all right; Governor Hagerman," and nearly every booster on the stage was given the same greeting in turn. The University boys gave their college yells and an atmosphere of booster enthusiasm was everywhere.

The mayor then announced a solo by T. Y. Maynard, one of the original boosters, composed by Original Booster "Bobbie" Hadden. It ran something like this:

Boost, Boost, the boys are boosting. The time of "Tramp, tramp, tramp" the boys are boosting. The audience helped out with the chorus.

Trend of Booster Talk.

Attorney H. B. Fergusson was the next speaker and Mr. Fergusson painted the inevitable future of Albuquerque as no one else could. Its infancy, its present and what the Boosters' club is going to make it. "This is an inauguration, the birth of the Albuquerque Boosters' club; the A. B. C." he shouted the speaker. "New Mexico has more coal than Pennsylvania, coal will bring the railroads. New Mexico has a wealth of timber, which is now being developed by lumbermen of experience from Michigan and Albuquerque, geographically, is the center of all these things. There is a corporation organized under the laws of New Mexico and owning hundreds of acres of iron deposits in New Mexico, that is planning to build steel mills in Albuquerque." Mr. Fergusson said many other things too numerous to publish.

And the band played "Yankee Doodle."

Applause. Mayor McKee then introduced Dr. Gould, of The Evening Citizen. "The paper that is boosting all the time." "Ladies and gentlemen," said the doctor, "regardless of age, sex, color or previous condition of servitude, a ripple of laughter ran over the house, which gradually grew into a roar of applause. Dr. Gould boosted along a different line from the previous speakers. He entertained as well as boosted, by making references to little stories with depth of meaning. He told of a statesman who represented a county called Buncombe. The community which the statesman represented was unimportant and sleepy, and so was the statesman who represented it. He often slept on duty. One day a matter came to a vote while he was asleep, and he was aroused to cast his ballot. "Well, gentlemen," he said, "I don't know what is to be voted on, but if it's against Buncombe, I'm agin' it, and if it's for Buncombe, I'm for it."

That's the way the people of Albuquerque should be. They should be anything for Albuquerque, and against anything against Albuquerque.

"Albuquerque is to be kissed into new life," continued Dr. Gould, "and I want to put a kiss." The band played another bar of "Yankee Doodle."

Attorney Geo. S. Klock made a short talk to the point and there was more music, when Mayor McKee introduced "Uncle Johnny" Bearup of the Rio Grande Woolen mills. Mr. Bearup read a lengthy paper on facts and figures which reflected some on the intelligence of the boosters in the reckoning of the population of Albuquerque in the year 1912. Mr. Bearup said that 50,000 was just half the figure the disk should be put at. In his criticism of the boosters, just after a good rain, the gentleman forgot that Street Commissioner Tierney worked hard to get them in condition for the parade last night.

we want is boosters; the kind that go after things."

Permanent Organization Effected. Secretary Maynard Gunsul then read the report of the committee appointed at the Burns banquet and a permanent organization was effected. The secretary's report follows:

Mr. Chairman:—The committee appointed by the booster, Hadden, the toast master of the Burns banquet, upon the unanimous vote of all those present is as follows: Frank McKee, J. C. Baldridge, John Borradaile, J. N. Coffin, J. B. Herndon, Dr. J. W. Elder, Maynard Gunsul and R. W. Hadden.

With instructions to call a mass meeting and take all necessary steps to organize the Albuquerque Boosters' club, takes pleasure in reporting as follows:

We recommend that the name Albuquerque Boosters' club be adopted; That, each and every one present at this meeting together with all those who have made application or indicated their desire to boost be made charter members, and that anyone, regardless of business or social conditions, politics, religion or creed, professing a desire to join or who can be persuaded by any of the forces of peace or war, or by fair means or foul, be permitted to join and boost;

That, the objects of this organization be, first a greater Albuquerque; second, a great New Mexico, third, a greater southwest. And incidentally and primarily to boost the population of Albuquerque to 50,000 in 1912, and to make the great southwest the "Greatest Empire on Earth."

We recommend that the officers be: A president, vice president, secretary and a treasurer, who, together with seven additional members, shall form a board of control with full power and authority to act and to adopt rules and regulations for the government of this club.

We further recommend that, the following gentlemen be named to act for the first year:

President—Frank McKee.  
Vice President—J. N. Coffin.  
Secretary—R. W. Hadden.  
Treasurer—D. A. Macpherson.  
Together with the following: M. L. Stern, Dr. J. W. Elder, George Arnot, John Lee Clarke, Ivan Grunfeld, J. H. O'Reilly, Maynard Gunsul.

We finally recommend that, "If you can't boost, don't knock," and request that this committee be discharged.

Respectfully submitted,  
FRANK MCKEE,  
Chairman.  
Maynard Gunsul, Secretary.

## HOMESEEKERS FLOCKING INTO NEW COUNTRY

### NEW MEXICO GETS A GOOD SHARE OF TEXAS PANHANDLE IMMIGRATION

United States Marshal C. M. Foraker, who returned yesterday from the Texas Panhandle country, talked interestingly this morning of that part of the new southwest at his office in the Grant building. Mr. Foraker stated that the panhandle country is growing very fast and the land is being settled upon in every direction from Amarillo, Tex., which appears to be the acknowledged metropolis of those parts. Mr. Foraker says the railroad immigration agents are playing an active part in the settlement of the virgin lands.

"A train load of people reach Amarillo every two weeks," said the marshal, and they are rapidly filling up the adjacent country.

"These people come from the more congested centers of population, Kansas, Illinois, Missouri, Iowa and Arkansas are furnishing many of the homesteaders. Indiana hasn't been tapped yet but it soon will be. The land and immigration agents work one state at a time and very often they get a whole rural neighborhood enthused with the cheap land proposition which they offer. The cheap homesteaders rate is also an inducement to get them to travel and when once they have seen what they make up their minds to remain."

"The tide of immigration is not confined alone to the Panhandle country. It is sweeping into the southeastern counties of New Mexico too. Union, Quay, Roosevelt, Chaves and Eddy counties are getting their quota of new settlers. They are buying every available acre of tillable land or homesteading it, as the case may be, and that part of New Mexico is rapidly filling up with people."

"The class of people who are going into that part of the southwest are mostly young farmers. It is a thrifty class of people and well behaved."

"Amarillo is a town of about 12,000 and during the time I was there I did not see a policeman. When I inquired of a citizen if they had any police there, he replied:

"Yes, we have a city marshal."

"The city marshal apparently had little to do."

## BILLIARD RESORT IN HANDS OF RECEIVER

### SCOTT KNIGHT IS APPOINTED AGENT OF COURT TO CONDUCT MAX GUSSAROFF'S BUSINESS.

Scott Knight was this morning appointed receiver of the Gussaroff billiard and pool hall by Judge Ira A. Abbott in the Bernallillo county district court at the instance of Joseph Barnett. The billiard and pool hall is in the Barnett building on Second street and has been a popular resort for devotees of the cue for some time past.

Mr. Knight is in possession of the business as the agent of the court. This proceeding is the aftermath of a suit filed in the district court for a sum of money which Mr. Barnett alleges Mr. Gussaroff owes him for rent. David Weinmann, the Brunswick-Balke-Coller company and others are made parties defendant to the suit because they have claims against certain fixtures and goods which the plaintiff in the action desires to secure to liquidate the amount owed for. Some articles were removed from the hall yesterday. Local parties have chatted rignages on the same, it is said.

Several days since, Gussaroff broke a lock on the door placed there by Constable James Smith, who attempted to take possession of the place by order of Mr. Barnett.

Brief Bits of Court News.

Teofilo Aragon seeks to recover

\$100 from Eduardo Chaves, which he alleges the latter owes him on sheep transactions. He has brought suit by his attorney, Neil E. Field.

Flora Langigan desires a divorce from her husband, John Langigan, and has caused Attorney R. W. D. Bryan to take the initiative for securing the separation.

## SALARIES FOR OFFICIALS

(Continued from Page One.)

National bank: "I am in favor of putting all county officials on a straight salary, so the people will know what they are paying."

H. E. Fox, of the J. H. O'Reilly company: "I think all officials should be placed on a straight salary. It seems to me for the best interests of both the taxpayers and officials, for the former will know what the officials will get for their work, and the latter will know what wages he will receive for public service to be performed."

J. B. Herndon, cashier State National bank: "I am in favor of the per cent plan, as advocated in the governor's message. If the salaries seem to be too large, the county could be reclassified."

A. J. Maloy, grocer: "I am in favor of straight salaries for county officials."

M. P. Stamm, wholesale commission merchant: "All county officials, in any state or territory, ought to be on the salary basis. It is the only intelligent way to pay a man for his services, whether those services are of a public or private nature."

Ivan Grunfeld, wholesale dry goods: "I think it best all around to place county officials on a straight salary."

W. R. Whitney, president Whitney company: "I am in favor of the sal-

ary plan, as far as I have investigated into the subject."

Simon Stern, clothier: "I am in favor of putting all county officials, with the possible exception of assessor, on straight salaries; but would try and make assessors part salary and part per cent, as an incentive for them to be careful and get all assessments in."

E. L. Washburn, of E. L. Washburn company, clothiers: "I signed the petition to put all county officials on a salary basis, and I am surely in favor of that plan."

## MERCANTILE CHANGE OF FIRM AT WILLARD

A business change of considerable interest occurred at Willard this week, when the firm of Dunlavy, Jackson & Co., was dissolved and the Dunlavy-Bond Mercantile company was created. The new company succeeds the old, says the Estancia News. George Bond of Trinidad, Colo., and Willard A. Dunlavy of Willard, purchased the interest and good will of Benton S. Jackson and A. B. McDonald, who, with Mr. Dunlavy, comprised the old firm. The negotiations had been under way for a month and were finally consummated Tuesday. Mr. Jackson, who was manager of the Dunlavy-Jackson Co., will remain with the new firm in a responsible position, and Mr. McDonald as well as Mr. Jackson will doubtless be largely interested in a wool scouring mill at Willard, soon to be established as a result of developments which have been in progress for some little time.

The Bond stores in this section of the territory will be put under management with Mr. Dunlavy of Willard in charge. The various stores of the Bond Mercantile Co. will be supplied from Willard.

## THE LEGISLATIVE DOINGS OF YESTERDAY

### Bill For the Proper Bonding of Officials Introduced by Mr. Sargeant.

The council of the thirty-seventh legislative assembly held a session yesterday morning, convening at 10:30 o'clock. The routine of business was taken up in regular order, several bills being introduced and referred to committees. Council bill No. 1 was passed by the house, having been reported favorably by the judiciary committee. House joint resolution No. 3, amended by the same committee, passed the council. The only suspension of rules was in order to adjourn when there was considerable difference of opinion as to when to again convene. The house met yesterday afternoon at 2:30 o'clock. The proceedings of yesterday were as follows:

#### THE COUNCIL.

**Ninth Day—Thursday Morning.**  
Pursuant to adjournment the council met yesterday morning at 10:30 o'clock. President Spies in the chair. The invocation was offered by the chaplain and Chief Clerk Martin read the roll, all answering present except Mr. Murray. The journal of the eighth day's session was read and upon motion of Mr. Martinez, seconded and carried, was ordered approved as read.

The committee on judiciary, Mr. Dalles, chairman, then reported favorably upon council bill No. 1, an act for the election of jury commissioners and the appointment of jurors, and on house joint resolution No. 3, to provide members of the assembly with an official roster in pocket form, which was amended to carry an appropriation of \$50 instead of \$100, to be taken from the territorial monies not otherwise appropriated.

The report of the committee on judiciary was adopted, upon motion of Mr. Cameron, duly seconded and carried.

Mr. Cameron, seconded by Mr. Dalles, moved that the rules be suspended for the third reading of council bill No. 1. Upon a roll call vote the motion was lost by a vote of 2 ayes and 9 nays.

Council bill No. 17 was introduced by Mr. Sargeant—an act providing for the proper bonding of territorial and county officials and to amend chapter 106 of the session laws of the thirty-sixth legislative assembly pertaining thereto. The bill was read by title and upon motion of Mr. Sargeant, seconded and carried, was read in full the second time, and ordered translated, printed and referred to the committee on finance.

The bill provides that such bonds must be furnished by surety trust companies, authorized to do business under territorial laws, and that no personal bond or bonds by individuals would be permissible; that section 1537 of the said laws, in conflict with such provisions, and all other laws in conflict therewith, be repealed upon the passage of the bill; that depositories for county and territorial funds be designated according to certain provisions, and that they be required to furnish bond for funds entrusted to them in excess of said funds at least 25 per cent.

The bill further provides that said depositories must pay at least 3 per cent interest on funds entrusted to them, the interest to be added to said funds from time to time; that if said depositories refuse to pay interest, then other depositories in other counties of the territory may be designated; that the bonds of territorial and county officials shall be approved by the attorney general and filed with the territorial auditor.

Additional provisions are that the amount to be charged by the trust companies for furnishing said official bonds is fixed by a section of the bill ranging from \$4 per \$1,000 for bonds under \$10,000, to \$15.00 per \$1,000 for bonds over \$100,000, said amounts to be paid by the territory through the office of the auditor.

Council bill No. 18 was introduced by Mr. Duncan—an act for the equalization of taxes among the counties of the territory, and for other purposes. The bill gives additional powers to the territorial board of equalization and supervision to some extent over the assessment of property in the counties.

It was read by title and upon motion of Mr. Duncan, seconded and carried, was read in full the second time and ordered translated, printed and referred to the committee on finance.

Council bill No. 19 was introduced by Mr. Cameron—an act to constitute the New Mexico Military Institute at Roswell a part of the national guard of the territory, and for other purposes. The bill was read by title and upon motion of Mr. Cameron, seconded and carried, was read the second time in full and ordered translated, printed and referred to the committee on finance.

The bill provides that the military force at the institute shall be a part of the national guard, and shall be subject to the orders of the governor of the territory; that the officers and instructors shall be commissioned by the governor; that the superintendent shall not be commissioned to a higher rank than colonel and aide-de-camp on the governor's staff, and that the other officers shall be of lower rank; that by reason of these provisions the officers of the New Mexico national guard, that the superintendent shall not be allowed to claim pay for their services.

Council bill No. 20 was introduced by Mr. Cameron—an act to repeal chapter 57 of the session laws of the thirty-sixth legislative assembly, which said chapter relates to the giving of aid by the territory for the establishment of a permanent reservoir near the Elephant Buttes to improve the surface flow of water in the Rio Grande bed and for irrigation and other purposes. The bill was read the first time by title, and upon motion of Mr. Cameron, seconded and carried, was read the second time in full, ordered translated, printed and referred to the committee on irrigation.

Under the business of bills on their

third reading, council bill No. 1 was read a third time by title and upon motion of Mr. Dalles, seconded and carried, that the bill do pass, the bill was read by the chief clerk and the bill passed the council by an unanimous vote.

House joint resolution No. 3 was taken up and read the third time by title. The amendments thereto were then read by the chief clerk, and upon motion of Mr. Martinez, seconded and carried, they were adopted. Mr. Cameron then moved that the resolution do now pass, and upon a roll call vote the resolution was passed by the council, the vote being ayes 11, nays 0.

Mr. Miera then moved that the council adjourn until 10 o'clock this morning. Mr. Dalles asked to amend the motion to take a recess until in the afternoon at 2:30 o'clock, saying that he anticipated further business. Mr. Miera insisted upon his motion, and Mr. Dalles withdrew his amendment. Upon a rising vote, the motion to adjourn was lost, the vote being 4 ayes, 5 nays.

Mr. Dalles then moved for a recess until 2:30 o'clock in the afternoon. Upon a rising vote the motion was lost by a vote of 4 ayes, 6 nays.

The council then found itself in the strange predicament of being unwilling to adjourn, and at the same time having no further business before it. Some of the members began raking in their desk drawers for business to bring before the council, but their search was fruitless. A motion was then made that the council adjourn until this afternoon at 2:30 o'clock. This motion was declared out of order by the chair, as according to the rules, the council could not adjourn just after having refused to adjourn, unless in the interim it had transacted other business. Mr. Sargeant then came to the rescue with a motion to suspend the rules and adjourn until 2:30 o'clock this afternoon. The motion was duly seconded and carried and the council adjourned.

#### THE HOUSE.

**Ninth Day—Thursday Afternoon.**  
Pursuant to adjournment the house met at 2 o'clock yesterday afternoon, Speaker Baca presiding. The invocation was offered by the chaplain, followed by the reading of the roll by Chief Clerk Staplin. All responded present.

A message from the council was received. Chief Clerk of the Council Martin announced that the council had passed house joint resolution No. 2, for the appointment of a committee to draft a new election law, and house joint resolution No. 3, to supply members of the assembly with an official roster in pocket form.

Chief Clerk Staplin then read the journal of the previous session in English, and it was also read in Spanish.

Upon motion of Mr. Green, duly seconded and carried, the journal was ordered approved as read.

Mr. Abbott, of Colfax county, then moved that the secretary of the territory be instructed to supply the members of the house with "rat tail" pens, upon which to file bills. The motion carried unanimously, after a discussion of the various makes of files.

House bill No. 29 was introduced by Speaker Baca—an act to amend section 1, chapter 38, of the laws of 1905, so that county officials be obliged to establish offices in county seats. The bill was read the first and second time by title, ordered translated, printed and referred to the committee on judiciary.

House bill No. 30 was introduced by Mr. Mirabal—an act to repeal sections 1867-70-71-72-73-74 of the compiled laws of 1897, relative to the bureau of immigration. The bill was read the first and second time by title, ordered translated, printed and referred to the committee on judiciary.

House bill No. 31 was introduced by Mr. Walters and Mr. Ruppe—an act to regulate the classification of counties and fixing the salaries of county officials. Upon the request of Mr. Sanchez, the bill was read in Spanish, and in full on its second reading, and was then ordered translated, printed and referred to the committee on judiciary.

House bill No. 32 was introduced by Mr. Trujillo—an act to amend section 10 of the compiled laws relative to the distribution of waters in community ditches. The bill was read the first time by title and in full.

On its second reading, and was then ordered translated, printed and referred to the committee on judiciary.

House bill No. 33 was introduced by Mr. Padilla—an act relative to the transfer of real estate records from Colfax to Union county for reference. The bill was read the first time by title and in full on its second reading, and was then ordered translated, printed and referred to the committee on territorial affairs.

An addition to the first message of the governor was received. It consisted of the reports of all territorial officials, boards, etc., to be attached as exhibits to the message. The reports were ordered filed with the message for reference.

Council bill No. 1 was read by title and referred to the committee on judiciary.

House joint resolution No. 3, which was amended by the council to read \$50 for an official roster instead of \$100, and appropriating the monies from those of the territory not otherwise appropriated, was taken up. The amendments were read. Upon motion of Mr. Holt, seconded and carried, the house concurred in the resolution as to the appropriation of the money, but upon motion of Mr. Beach, seconded and carried, the house refused to concur in the amendment cutting the amount of the appropriation to \$50.

The house then adjourned until 2 o'clock this afternoon.

production and a cast which surpasses any that he has before had. It is a production which represents the highest traditions of the stage, combined with its most complete modern resources.

**"A MESSENGER BOY"**  
SCHEDULED FOR FEBRUARY.  
The attraction at the opera house last night was a very creditable one, and the attendance in proportion. The cast includes a number of actors and actresses of considerable ability, who do much toward making the play a rousing success. The role of Rocky, the waif, was admirably carried by Miss Beatrice Terry. In the delineation of which she displayed the marked talent and ability for which she is recognized. Grit is well portrayed by G. D. Sweet. C. P. Post handled well the part of the villainous Count Cordina, and Miss Dottie Ray made an excellent Marie De John. A number of specialties enlivened matters between the acts. A band and orchestra accompany the show and the organization provides a very pleasing entertainment throughout. During the evening they were accorded the hearty applause of the audience by their work.—Cedar Rapids Gazette.

The great play is scheduled to appear at the Elks' opera house, Wednesday, Feb. 6. It is one of the best on the road.

**LOCAL PARAGRAPHS**  
Tomas Werner and Apolinario Gutierrez, of old Albuquerque, are among those from Bernalillo county who secured positions at the territorial legislature.

The Las Vegas Optic says: Frank Quier, an Albuquerque electrician who suffers from a broken ankle, the accident having been sustained in a forty-foot fall from a telephone pole, is in the city of magnificent distances, whiling away some of the leisure moments that hang heavily on his idle hands.

The contract for furnishing all the frame work, store fronts, dash, doors, etc., in the new Alma hotel at Belen has been given to the Superior Lumber & Planing Mill company, on South First street. The hotel when completed will be first class in every respect and will be the most pretentious building in Belen. The property belongs to the John Becker company.

Miss Jane McPartland departs shortly for Chicago, where she will spend a fortnight at the millinery houses in the Windy City, getting a line on the fetching styles in feminine headgear. Miss McPartland, who succeeds the O'Brien sisters on Railroad avenue, has returned to Albuquerque with a beautiful line of all the latest creations. She will engage a trimmer in Chicago, who will accompany her to Albuquerque.

Misses Charlotte and Marguerite O'Brien leave Sunday for their former home at St. Louis, Mo., where they expect to reside in the future. The young women formerly conducted the O'Brien sisters' millinery store on Railroad avenue. During their residence in Albuquerque they were deservedly popular in the social circles in which they moved, and they made numbers of friends in the Duke City who will regret to learn of their intention to leave Albuquerque.

Albuquerque fans are likely to be treated to some real base ball during the month of March. Manager Storts, of the Albuquerque Traction company, is in receipt of a communication from the management of several of the big league clubs that have been practicing at the City of Mexico. They will be returning north in March and want to play a series of exhibition games at Traction park. Mr. Storts has replied that the park is at their disposal and the games may be expected.

**"SIS" HOPKINS HERE AT THE ELKS' FEBRUARY 5.**  
"Sis Hopkins" will come to the Elks' opera house on Tuesday, Feb. 5, beginning an engagement of one night, with Miss Rose Melville in the title role. This is the sixth season Miss Melville has been playing the character of the shy and awkward little country girl of Posey county, Indiana, and each year the part grows in popularity and Miss Melville and her manager find it impossible to put forth a new play which has been ready for production for three seasons now. The demand for "Sis Hopkins" is honest and it speaks well for Miss Melville's art and the fidelity of the author in his handling of the human nature of the people he portrays. Miss Melville shows her audiences the many sides to the character of "Sis Hopkins" in so quaint and faithful a manner that it seems as if the story being told behind the footlights were real and that the funny little girl is experiencing all the pleasures of her enjoyment and all the pangs of her sorrows. There is comedy running through the story, delightful and homely comedy of a clearly type and with it all there is just enough pathos of a delicate character to give the play a heart interest which makes it a masterpiece of rural drama.

**"JULIUS CAESAR" WILL BE HERE MONDAY, FEB. 11.**  
A production of "Julius Caesar," such as Charles B. Hanford will offer at the Elks' opera house on Monday, Feb. 11, represents an extensive study of incident and detail, one which commands the efforts of the artist and archaeologist. Among the historical pictures are the Grand scene in Rome, Brutus' garden, the Roman senate, the tent scene and the plains of Philippi. Mr. Hanford is being surrounded this season with a

We offer one Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney, for the last 15 years, and suffers from Catarrh of the bladder and kidneys. He has tried all the common remedies and failed. He has now secured a cure by using Hall's Catarrh Cure. He writes: "I have been cured of my Catarrh of the bladder and kidneys by using Hall's Catarrh Cure. It is a wonderful medicine and I feel free to say so." Price 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

How's This?

Write Mrs. Polly Tinker, who at three score and ten finds relief in Cooper's New Discovery.

DOUBTING Did Not Cure Mrs. Tinker.

Doubting won't cure you but if you will get a bottle of Cooper's New Discovery and use it according to directions, in one week you will find a wonderful improvement in your condition.

IT'S A REMARKABLE MEDICINE.

Cooper's New Discovery costs \$1.00 per bottle; six for \$5.00. Cooper's Quick Relief, the assistant remedy costs 50 cents per bottle. Where we have no special agent, you can secure the medicine charges prepaid, by sending the price of the remedies you wish direct to The Cooper Medicine Co., Dayton, Ohio.

THE COOPER MEDICINE CO., DAYTON, O.

Gentlemen: "I am seventy-one years of age, and for a number of years I have been in bad health. I had catarrh, kidney trouble and rheumatism. I had a severe cough which became so bad I was afraid I was going into consumption. My stomach and bowels bothered me all the time, and my appetite was poor. I could not sleep, and would cough up a large amount of phlegm. I have only taken two bottles of Cooper's New Discovery, and the cough has almost entirely disappeared. My kidneys and back no longer hurt me. My rheumatism is gone, and my stomach and bowels are greatly improved. My appetite has returned and my sleep is restful. I have so much to thank you for. I know others who have been greatly benefited by your remedies. Cooper's New Discovery and Quick Relief are splendid medicines."

MRS. POLLY TINKER, 1944 Halston Ave., Indianapolis, Ind.

## FINANCIAL CONDITION OF COUNTIES

In the Territory. Showing Receipts and Disbursements For Years 1905 and '06.

Territorial Traveling Auditor Charles V. Safford has just completed a comparative statement showing the receipts and disbursements of the various counties of New Mexico for the years 1905 and 1906.

According to the figures the total receipts from all of the counties in 1906 were \$2,016,117.75 as against \$1,721,989.31 in 1905. The disbursements for the two years were respectively \$1,886,911.23 and \$1,821,666.55. The aggregate balances in the various county treasuries on January 1, 1907, amounted to \$782,343.33.

The financial statement by counties is as follows:

**Bernalillo**—Balance on hand January 1, 1905, \$28,382.50; receipts for 1905, \$222,806.94; disbursements for 1905, \$205,935.15; balance on hand January 1, 1906, \$45,254.29. Receipts for 1906, \$271,796.42; disbursements for 1906, \$247,281.72; balance on hand January 1, 1907, \$69,768.99.

**Chaves**—Balance on hand January 1, 1905, \$15,657.67; receipts for 1905, \$142,151.25; disbursements for 1905, \$97,794.97; balance on hand January 1, 1906, \$61,013.95. Receipts for 1906, \$155,697.59; disbursements for 1906, \$155,761.91; balance on hand January 1, 1907, \$70,859.54.

**Colfax**—Balance on hand January 1, 1905, \$4,075.27; receipts for 1905, \$127,878.92; disbursements for 1905, \$119,641.69; balance on hand January 1, 1906, \$112,112.54. Receipts for 1906, \$140,723.54; disbursements for 1906, \$134,214.91; balance on hand January 1, 1907, \$22,611.17.

**Doña Ana**—Balance on hand January 1, 1905, \$30,751.26; receipts for 1905, \$61,086.87; disbursements for 1905, \$74,990.29; balance on hand January 1, 1906, \$16,847.84. Receipts for 1906, \$82,369.57; disbursements for 1906, \$74,274.91; balance on hand January 1, 1907, \$24,922.50.

**Eddy**—Balance on hand January 1, 1905, \$36,275.88; receipts for 1905, \$103,499.24; disbursements for 1905, \$98,112.79; balance on hand January 1, 1906, \$41,662.33. Receipts for 1906, \$120,915.91; disbursements for 1906, \$104,341.25; balance on hand January 1, 1907, \$58,236.98.

**Grant**—Balance on hand January 1, 1905, \$48,337.62; receipts for 1905, \$105,119.23; disbursements for 1905, \$105,422.63; balance on hand January 1, 1906, \$48,034.22. Receipts for 1906, \$132,551.78; disbursements for 1906, \$124,119.49; balance on hand January 1, 1907, \$57,967.11.

**Guadalupe**—Balance on hand January 1, 1905, \$14,989.83; receipts for 1905, \$32,017.66; disbursements for 1905, \$30,568.34; balance on hand January 1, 1906, \$16,438.70. Receipts for 1906, \$34,469.99; disbursements for 1906, \$36,975.87; balance on hand January 1, 1907, \$13,932.82.

**Lincoln**—Balance on hand January 1, 1905, \$19,434.35; receipts for 1905, \$44,195.49; disbursements for 1905, \$44,208.45; balance on hand January 1, 1906, \$20,421.39. Receipts for 1906, \$42,864.89; disbursements for 1906, \$42,864.89; balance on hand January 1, 1907, \$28,522.23.

**Luna**—Balance on hand January 1, 1905, \$17,083.30; receipts for 1905, \$61,954.76; disbursements for 1905, \$65,888.80; balance on hand January 1, 1906, \$23,149.26. Receipts for 1906, \$77,456.11; disbursements for 1906, \$67,384.62; balance on hand January 1, 1907, \$33,220.75.

**McKinley**—Balance on hand January 1, 1905, \$19,450.81; receipts for 1905, \$45,418.42; disbursements for 1905, \$41,612.45; balance on hand January 1, 1906, \$23,256.78. Receipts for 1906, \$42,382.13; disbursements for 1906, \$35,191.92; balance on hand January 1, 1907, \$31,557.19.

**Mora**—Balance on hand January 1, 1905, \$17,048.41; receipts for 1905, \$37,719.63; disbursements for 1905, \$37,602.89; balance on hand January 1, 1906, \$18,165.15. Receipts for 1906, \$38,175.47; disbursements for 1906, \$39,204.46; balance on hand January 1, 1907, \$17,136.16.

**Otero**—Balance on hand January 1, 1905, \$19,717. Receipts for 1905, \$78,490.30; disbursements for 1905, \$85,345.70; balance on hand January 1, 1906, \$10,861.60. Receipts for 1906, \$10,861.60; disbursements for 1906, \$10,861.60; balance on hand January 1, 1907, \$10,861.60.

**Quay**—Balance on hand January 1, 1905, \$9,116.56; receipts for 1905, \$26,329.89; disbursements for 1905, \$25,941.58; balance on hand January 1, 1906, \$19,504.87. Receipts for 1906, \$28,919.23; disbursements for 1906, \$27,920.11; balance on hand January 1, 1907, \$10,504.88.

**Sandoval**—Balance on hand January 1, 1905, \$7,660.92; receipts for

## REAL LIFE MYSTERY SHERLOCK HOLMES BY SIR CONAN DOYLE

ORIGINATOR OF THE FAMOUS DETECTIVE CHARACTER STIRS ALL ENGLAND BY TAKING THE PART HIMSELF IN BEHALF OF A MAN UNDER CONVICTION FOR A HEINOUS CRIME—HIS REPORT TO THE HOME SECRETARY INTENDED TO CLEAR THE UNFORTUNATE EDALJI.

SIR ARTHUR CONAN DOYLE.  
The originator of the great detective, Sherlock Holmes, who has just acted the part himself.

Special Correspondence.

London, Feb. 1.—Conan Doyle has buckled down to sure enough detective work.

As "Sherlock Holmes" in real life, he has investigated a crime mystery which has stirred England a dozen times in the last few years. However, instead of attempting to convict a man, he is trying to clear him.

The labor on the part of Sir Arthur Conan Doyle is one of perfect disinterestedness. He is seeking justice for a man who, he believes, was unjustly convicted by the police of Great Britain. He volunteered his services and his report, 10,000 words, is given to the public for the benefit of the man who was wronged.

Geo. Edalji, a young law student, was sentenced to seven years' penal servitude on the charge of being a midnight marauder, sort of Dr. Jekyll and Mr. Hyde, who mutilated the horses and cattle of his neighbors in a barbarous and horrifying manner. The conviction was upon purely circumstantial and expert handwriting evidence. Edalji was made out a sort of fiend who for years had been writing anonymous letters to himself and other villagers at Great Wymley, near Birmingham.

There was so much public doubt over the case that six months ago Edalji was released from prison, although not pardoned, having served only three years of his seven-year term.

Edalji has always protested innocence. Few believed him, for he and his people were considered queer. His father is a full-blooded Parsee from India, who became Christianized and was made a vicar in a small suburban parish, marrying an English woman.

Says Sir Arthur: "A few weeks ago Edalji sent me cuttings of some articles which he wrote on his own case. For several days the cuttings lay on my writing table, and they might have remained there like other only glances at, had I not found myself one evening with nothing very much to do.

"So I took the cuttings up and be-

lieved him, for he and his people were considered queer. His father is a full-blooded Parsee from India, who became Christianized and was made a vicar in a small suburban parish, marrying an English woman.

Says Sir Arthur: "A few weeks ago Edalji sent me cuttings of some articles which he wrote on his own case. For several days the cuttings lay on my writing table, and they might have remained there like other only glances at, had I not found myself one evening with nothing very much to do.

## LOCAL AND PERSONAL

The W. C. T. U. met this afternoon at the home of Mrs. Vaughn.

Judge W. H. Newcomb, of Silver City, registered at the Alvarado last night.

J. M. Archuleta and A. D. Archuleta came in yesterday from Pagosa Springs, Colo.

Wanted, to buy floor scales. Apply to John Finnigan company, 1422 North First street.

C. G. Phil, United States post office inspector, arrived here last evening from a trip to Denver.

Mrs. H. A. Cooper, of south Walter street, will entertain the Iowa club Monday afternoon, February 4.

Simon Neustadt, postmaster and general merchant at Los Lunas, is spending the day in the metropolis.

M. P. Kelly, representing the Southwestern Brewery & Ice company, was a passenger north this morning.

Mrs. M. R. Williams, who was here visiting her daughter, Mrs. R. C. Dillon, has returned to her home at Las Vegas.

Rev. Hugh A. Cooper will deliver the address this evening before the Salvation Army, at their new hall on West Silver avenue.

Mr. and Mrs. J. N. Coffin expect to leave this evening on the delayed train for California, where Mr. Coffin is called on business.

Governor Hagerman was accompanied to the city last night by his brother and nephew, Percy Hagerman and son, of Colorado Springs, Colo.

Solomon Luna, who has been in Santa Fe for the past few days, came down last night with the gubernatorial party and was present at the meeting of the Boosters' club.

Mr. and Mrs. C. A. Tharp of 318 South Edith street, are entertaining their friend, Mr. and Mrs. J. M. Lee and daughter of Sedalia, Mo., who arrived in this city last night.

A. G. Beauregard has purchased the Tessler barber shop, located at 111 West Railroad avenue. The consideration has not been made public. Mr. Tessler retires from the business.

Mrs. B. A. Sleyster, who submitted to an operation at the St. Joseph's hospital the other day, is reported greatly improved, and friends hope she will be up and down town in a short time.

Dr. Carr is anticipating a visit from his sister, Mrs. E. L. Erweck, of White Plains, N. Y., and brother-in-law, John D. Kerr, of Homestead, Pa., who are expected to arrive from the east tonight.

Miss Belle St. Claire, of Lawrence, Kan., is in the city, a guest of her cousin, Dr. B. M. Williams. Miss St. Claire makes a profession of getting up juvenile minstrel shows for churches and lodges.

A Raymond & Whitcomb special, carrying sixty-one New York people, was in the city for a half-hour this morning. The train consisted of four Pullmans, one buffet car and a baggage car. California is its destination.

Mrs. J. A. Barnard leaves this evening on the delayed flyer for Los Angeles, where she will be joined in the near future by Mr. Barnard and children. The Barnards spent the winter in Albuquerque for Mr. Barnard's health.

Wallace Hesselden denies that J. B. Herndon's overcoat was taken from his back. Mrs. Hesselden discovered that Mr. Hesselden came home with a wrong coat, and not the one she gave him as a Christmas present, and gave the snap away.

Mr. and Mrs. J. B. Neville and Mrs. Regina N. Strong, of Denver, will arrive on the delayed flyer this afternoon and for a week will be the guests of Mr. and Mrs. W. W. Strong. After their visit her they will continue on to southern California.

A regular meeting of G. K. Warren post No. 5, G. A. R. will be held in Odd Fellows' hall tomorrow evening, Feb. 2, at 7:30 o'clock. A good attendance is desired. Visiting comrades always welcome. Jos. N. Warner, P. C.; W. W. Havens, adjutant.

Hon. E. A. Miera, member of the lower house of the legislature from Sandoval and Santa Fe counties, accompanied Governor Hagerman down from Santa Fe last night, and is spending the day in the city. He will return to the capital tomorrow morning.

Rev. Father Tomassini of the church of the Sacred Heart yesterday lost his satchel containing several articles of a purely religious nature. The finder will confer a favor upon Father Tomassini as well as receive a reward if he or she will return the satchel to the pastoral residence, at No. 615 Copper avenue.

Mr. and Mrs. Robert Loudon, well known dairy people south of the city, are rejoicing over the arrival at their home of a bouncing baby boy, which made its appearance night before.

**DOCTOR MCCORMICK.**

Liquor Habit Cured.

522 West Railroad Ave.

last. "Daddy" Loudon is all smiles these days, and invites friends to call at his dairy and get a drink of genuine Jersey cream and milk.

Mrs. Ed Smith and her sister, Miss May Hatcher, have returned home after a pleasant visit with relatives and friends in Kansas.

Karl Lehman, of Denver, field secretary of the Christian Endeavor society of Colorado, will meet local Christian Endeavorers this evening at the Congregational church, where there will be a workers' conference at 7 o'clock. An hour later he will address a mass meeting, at which there will be special music.

Pietro Domancati, arrested several months ago for selling liquor to Indian boys from the local Indian school, was given a hearing yesterday by United States Commissioner Whiting, and bound over to the grand jury. Domancati gave bond for his appearance before the United States grand jury, which will meet March 3.

Henry Connelly and wife returned this morning after a short absence in California. Mr. and Mrs. Connelly went to Los Angeles with a view to making their home, but have concluded that there is no place like Albuquerque. They say that it has been raining there for the past several months and that it is otherwise undesirable as a place to live.

The ladies of the Congregational church yesterday afternoon, at a tea at the home of Mrs. McClaskey, 407 North Fifth street. Mrs. H. S. Lithgow and Mrs. W. S. Holmes assisted Mrs. McClaskey in receiving and the affair was largely attended by the ladies of the church and their friends. The house was prettily decorated in gold and white, a prominent feature of the general scheme being furnished by a generous supply of yellow California poppies. Refreshments were served and the entertainment closed at 6 o'clock.

**CONTINUOUS UNREST STARES IRISH PEOPLE.** London, Feb. 1.—The peace preservation act (Ireland) of 1881, which is included in "The Expiring Laws Continuation Bill," which was brought before parliament today will be the cause of vigorous protest from the unionists who believe the act as it stood was of vital importance to the loyal minority. When, during the committee stage of the bill of last year, Mr. Flynn moved the omission from the schedule of the peace preservation act, on the ground that it was not only an indignity to Ireland but a lasting stigma on the honor of the British ministers. Mr. Lond, the chief secretary for Ireland, reminded the house of commons that Mr. Morley had made it clear at the time that he occupied the same official position (the chief secretary of Ireland) that he regarded the measure not as a coercive act, but as a police regulation, and in the division which ensued only two of the cabinet ministers supported Mr. Flynn.

Have you children who wear out their stockings in no time? Our style 15, narrow ribbed, and style 25, wide ribbed Black Cat hose have triple soles, heels and knees. They are made of the best long fibered cotton, are fast black and will stand the roughest wear. Only 25c a pair, at C. May's Shoe Store, 214 West Railroad avenue.

## Home Insurance the Best

**WE CANNOT** refrain from again saying something about Home Insurance. Every time that the proposition presents itself of the tremendous amount of money that is being sent out of New Mexico and Arizona for life insurance to eastern cities, the conviction comes home with increased force that a home company ought to be patronized and the money remain in the West.

The revelations of the past year of the way the enormous surplus of the big Eastern companies has been handled and speculated with ought to emphasize the fact that the people of the West should stop pouring their money into Eastern channels when it can be placed in home insurance, and every dollar of it kept and invested at home.

It is gratifying to note that home insurance is year by year receiving more and more its just deserts. Statistics show that during the past year home companies far exceeded foreign companies in the amount of business written. Why cannot this same record be made here? It can if every individual who takes out a policy the coming year will carefully weigh the proposition of the value it is to keep his insurance at home before he puts his name to the application of any insurance company.

The Occidental Life Insurance Company of New Mexico and Arizona is owned and controlled by the leading business men of the two territories, and offers exceptional opportunities to ambitious and capable men and women to sell its policies.

Address Home Office,
