UNION LABOR
IN UNITED
PROTESTLEADERS QUICK TO GO
TO SUPPORT OF GOMPERSJudge Alton B. Parker Declares
the Court's Ruling Will Be
Fought to the Last Ditch.

(By Morning Journal Special Leased Wire)

Washington, Dec. 24.—William J. Bryan was chief among the nearly two score of men who today sent messages expressing their cordial sympathy to President Gompers, Vice President Mitchell and Secretary Morrison of the American Federation of Labor.

The messages, which voiced the sentiments of persons in almost every avenue of labor, convey feelings of regret over the court's decision, extend moral and financial support and express indignation.

Mr. Bryan, in a telegram, dated Pittsburgh, Penn., says:

"Sorry to read decision. You did your duty in testing law. Glad you are taking appeal."

"What action on the part of the organized wage-workers will in your opinion be most useful to establish freedom of the press and speech?" asked H. B. Perham, president of the Order of Railroad Telegraphers in a telegram from St. Louis, addressed to Mr. Gompers.

Perhaps one of the most unique among the messages is that from J. S. Parry, of Oklahoma City, who, after expressing regret over the decision, declares:

"Stay with the language, right must prevail."

W. D. Mahon, president of the Amalgamated Association of Street Railway Employees, located at Detroit, expresses sincere regret at what he considers "an unjust and un-American sentence," upon the labor leaders. He says:

"You are clearly the victims of judge-made law, which is wholly unconstitutional. It should be carried to the highest court and contested to the bitter end, and we pledge you the united support of our association to that end."

The declaration is made by John R. Atkins, president of the United Association of Plumbers, at Chicago, that the decision will bring organized labor closer together.

On behalf of the International Steam Fitters association, J. J. Sullivan expresses his indignation over the verdict and conveys sympathy to the defendants.

That history will place the names of Messrs. Mitchell, Gompers, and Morrison on the roll of honor with those men who have made real sacrifices for human uplift is the declaration of John B. Lennon, treasurer of the American Federation of Labor.

"Two hundred union farmers of Texas sympathetic with the three labor leaders," declared J. J. Neill, president of the Farmers' Educational and Co-operative Union of Texas in a message from Fort Worth.

After wishing Messrs. Gompers, Mitchell and Morrison a Merry Christmas and a Happy New Year, Edwin W. Wright, president of the Illinois Federation of Labor, declares them to be the "finest victims of judicial oppression."

"Victory of greed is but temporary, justice will yet prevail," is the way John P. McNamee, editor of the Louisville Freeman and Engineer's magazine, telegraphed.

J. A. Franklin, president William C. Gilchrist, international secretary-treasurer, and A. Bierman, of the International Brotherhood of Bookbinders, at Kansas City, sent a message declaring that Judge Wright's sentence is "unjust."

"The evidence proves that you played Judge Gould's order," says the message, "but human judges refuse and reflect the evil in which they live. The judgment throttles free speech and free press and tramples on the principles of the American free-man."

On behalf of the entire membership of the Switchmen union, P. T. Hawley, president, extends "sympathy and support."

From a committee of Union No. 1, Cement Workers' International union, at San Francisco, this message came: "Defying outrageous court order, we guarantee you financial and moral support to the end that the people may win, and the constitution live."

**PARKER HOLDS IT A
BLOW AT FREE SPEECH**

New York, Dec. 24.—Commenting on the sentence imposed yesterday by Justice Wright against the officers of the American Federation of Labor in the contempt proceedings growing out of the Buck Stove and Range company, former Judge Alton B. Parker, of counsel for the Federation officers, today declared that the decision would be subjected to review by a higher tribunal and that he believed "that the speaking and writing which Justice Wright holds constitutes contempt of court, can not be prevented either by statute or judicial decree."

"The constitution of every state," said Mr. Parker, "provides in effect that every citizen may freely speak, write and publish his sentiments on all subjects, being responsible for abuse of that right and that no law should be passed to restrain or abridge the liberty of speech or of the press."

Analyzing the scope of the court's injunction against the publishing of the name of the Buck Stove and Range company in the "we don't patronize" or "unfair" list of the American Federationist, Mr. Parker avers that "if the order can be construed as to prevent respectful editorial comment upon the scope of the decree, or to prevent a free discussion of it and an expression of opinion that if it does not seek to prevent, it offends against the constitution, then so much of it as attempts to do so is void."

"It has been urged that even if the court in violation of the constitution does make an order prohibiting a man from making a speech on a certain subject or prohibiting a newspaper from publishing an editorial on the same subject, the party enjoined must nevertheless obey the decree; if he does not, the court may punish him, although it has no power to make the order. But certainly that which the constitution prohibits the court may not do any more than the legislature. The unconstitutional statute need not be obeyed; and no courts have held time and again. It would seem to follow that the decree of a court enforcing against the constitution need not be obeyed, because it is wholly and completely void. It seems to me that the judicial department of the government may be defied by the humblest citizen with impunity, because absolutely void, but that, on the other hand, a decree of the judicial department equally offending against the constitution, has such force and vitality as to support imprisonment of him who, standing on his constitutional rights, dares to violate it."

Half Million Enter Protest.
Springfield, Dec. 24.—The 500,000 trades unionists of Illinois, through their officers, tonight sent a protest to President Roosevelt against the sentencing of President Gompers, Secretary Morrison and John Mitchell, of the American Federation of Labor.

"These men may be guilty of a breach of the law," said the letter, "but a law that denies the use of free press and free speech is a breach of the fundamental principles of our country. Such decisions only tend to create anarchy and class hatred. We respectfully solicit your influence to prevent the incarceration of these men."

HALE WANTS
DUTY ON
TAPIOCASENATOR FROM MAINE
WORRIED ABOUT PUDDINGTariff Framers Have Big Job
in Caring for the Govern-
ment's Revenue in Revising
Present Schedules.

(By Morning Journal Special Leased Wire)

Washington, D. C., Dec. 24.—The tariff framers met again today to continue the work of preparing the tariff bill. While protection to industries which must compete with cheap labor abroad will be the keynote of the revised tariff, much consideration will be given to the question of raising sufficient revenue for the government.

The revenue feature involves more difficult problems than the protective or other phases of the tariff revision question. It is claimed by some that the government has been deprived of millions of dollars of revenue during the operation of the Dingley tariff because of the numerous changes made in the bill after it passed the house of representatives.

These changes were principally in the wording of the bill, rather than in the rates of duty. It is freely said that numerous large interests that will be affected by the new tariff law as it will be reported to the house will make a strong fight when the bill reaches the senate.

It is understood that President Taft will exert every influence to have the bill go through the senate as it comes from the house. It is even said that Mr. Taft will veto the bill if the senate makes too many changes tending to increase the rates of duty.

One case in point of which the senate amended the Dingley bill as reported from the house in 1897 was brought out in a humorous incident during the hearings several weeks ago. Senator Hale, of Maine, appeared to ask that tapioca starch, now on the free list, should pay a rate of 1 1/2 cents a pound. Chairman Payne called Mr. Hale's attention to the fact that tapioca was made of potatoes at that rate in the Dingley bill, as it left the house, and that the court struck out the paragraph and left tapioca as it appears in the law now, on the free list.

Monument to Barbara Peck.
Ogdensburg, N. Y., Dec. 24.—Contracts for the erection of a memorial monument to Barbara Peck, the founder of Methodism in America were awarded to local contractors today.

The monument, the cost of which is to be defrayed by popular subscription of Methodists, both in the United States and Canada, is to be erected on the Canadian bank of the St. Lawrence river, close to the spot where the body of the founder is buried. The monument is to be ready for unveiling next August.

**BANKS PAID A
FAT GRAFT
FUND**

FOR PITTSBURG'S
MUNICIPAL FUNDSHundred and Seventy-Six
Thousand Dollars Distributed
Among Councilmen in Select-
ing the Several City Deposi-
tories.

(By Morning Journal Special Leased Wire)

Pittsburgh, Dec. 24.—That at least \$176,000 was paid councilmen for the selection of certain bank depositories for the city's funds has been almost positively established through evidence submitted and statements furnished by the Voters' league and the Scranton, Pa., detective employed by the league aid in fixing the city's municipal house-keeping. Whether all of the banks selected as depositories contributed to this fund has not been established.

Officers of but one bank have so far been arrested, and they are charged with the payment of only \$17,500 of the alleged bribery fund. That other bankers are to be arrested is almost positively stated by those back of the probe.

Mayor Hughes, who refused to make contracts with the banks as authorized by the council, on the ground that they were illegal, said tonight that the selection of the depositories is void because secured by bribery and fraud, and that councilmen can set them aside without the formality of court proceedings. The period for which the depositories were selected expires early in February.

Other arrests are to be made, he practically admitted by all concerned in the cases, but the present intention is to let the matter rest until after Christmas. Detectives are still at work, however, and if developments make it necessary officers will close in upon the suspects before the time now fixed by the league.

The Voters' league has been assured of all the financial backing needed, it was said by Vice President H. B. English tonight.

The league depends wholly upon voluntary contributions, but Mr. English said any sum up to \$50,000 can be secured any time it is needed without effort, proferees having been made by leading wealthy men of the city.

ASKS \$25,000 MORE TO COMPLETE THE ZUNI DAM

Indian Department Wants to
Finish Work on Important
Irrigation Project for In-
dians in Western New Mex-
ico.

Morning Journal Bureau.
Munsey Building,
Washington, D. C., Dec. 24.
The secretary of the treasury department has submitted to congress an estimate of \$25,000 for the completion of the irrigation system on the Zuni Indian reservation in New Mexico, with a request that the appropriation be made immediately. With the estimate he transmitted two letters, one from Jesse E. Wilson, assistant secretary of the interior, and the other from W. H. Code, chief engineer, department of the interior.

Washington, Dec. 24, 1908.
"Sir:—On July 13, 1908, W. H. Code, chief engineer of the Indian service, submitted to this department an estimate for funds for general irrigation purposes on Indian reservations during the fiscal year 1910, in the sum of \$200,000, and this amount was named in the regular estimate.

"I am now in receipt of a report from Mr. Code, dated November 14, 1908, in which, in view of the detailed estimates recently received from the superintendent of irrigation in charge of irrigation work on the Zuni reservation, he recommends an increase of \$25,000 in the regular estimate, or that a special item of \$25,000 for the Zuni work be included in the Indian appropriation bill.

"The Zuni project has already cost in round numbers \$200,000. Practically none of the lands under the reservoir, which is finished, can now be irrigated, and the amount already expended will not be of any benefit to the Indians until the distributing system is completed.

"When the work is done some 8,000 acres of land can be irrigated.

"In view of Mr. Code's representation that with an additional appropriation of \$25,000 the entire work can be completed, and the system made available to supply water to a large body of land now of no practical use, his recommendation has my approval, and the draft of an act appropriating that sum, to be immediately available, is respectfully forwarded through your department for the appropriate action of the congress.

"I also inclose for transmission a copy of Chief Engineer Code's report.

Respectfully,
JESSE E. WILSON,
Assistant Secretary,
The Secretary of the Treasury."

"Department of the Interior,
Chief Engineer Indian Service.
"Los Angeles, Cal., Nov. 14, 1908.
"Sir:—On July 13, 1908, I submitted to the department an estimate for funds for irrigation purposes during the fiscal year 1910, naming the sum of \$200,000 under the general heading of 'Irrigation on Indian Reservations, 1910.'

It is the policy of the government to record its words.

"I again respectfully recommend that surveys be made by the land office during the present fiscal year, and in the earliest time possible, in order that at least the probable lands under the Zuni project be identified. If this is not done it will be impossible to locate to the best advantage the necessary distributing laterals for the irrigating project to make his allotments which he should do, if possible, in advance of lateral construction.

"If the department does not deem it advisable to increase the amount for irrigation on Indian reserves, 1910, no recommendation, it should be for \$25,000 should be included in the appropriation bill for Zuni work, and the additional \$10,000 or \$15,000 to complete construction could be safely be provided for the general fund of 1910.

"W. H. CODE, Chief Engineer,
The Secretary of the Interior."

Cause.

(By Morning Journal Special Lensed Wire)
New York, Dec. 24.—Moved by the protests of many ministers who complained to him that the great majority of the 550 moving picture shows or greater New York, were exhibiting pictures detrimental to the morals of the youth of the city, Mayor McClellan today suspended the license of every picture show in the city.

The order intimates that this suspension is only temporary, but the conditions under which new licenses will be issued are such that it is doubtful that more than a third will be resumed.

The mayor also had a report from the fire department stating that the halls where such shows are given are only partially equipped with fire safety devices. Mayor McClellan, declares that his action is taken on "personal knowledge of existing conditions and with the firm conviction that I am securing a public safety."

Rock Will Fight for Claims.
Reno, Nev., Dec. 24.—The Rock, the Frenchman who was driven out of Nevada yesterday for his claims, arrived in Reno today and has employed attorneys to look after his interests at that camp. He insists he owns the claims he is supposed to have pumped and will invoke the aid of the state police if necessary to restore him to possession.

Rock Will Fight for Claims.

Respectfully recommend that this item be increased to \$25,000, twenty-five thousand or which should be made immediately available in view of the detailed estimates recently received from Superintendent Robertson for the completion of the north side of the Zuni canal and lateral system.

"Mr. Robertson estimates that approximately \$40,720 will be required to complete this work, which consists of a large number of permanent concrete structures.

"If the general fund is not increased as recommended, there will be a shortage of money for other projects. The Zuni work has cost a large sum of money to date, and when construction is again resumed it should not be stopped until sufficient lands are cultivated with a distributing system to afford the Zuni Indians a fully adequate living along agricultural lines, which

INVITES SHIPPERS TO COOPERATE

Extraordinary Tariff Issued by
Rock Island System by Special
Permission of the Com-
merce Commission.

(By Morning Journal Special Lensed Wire)
Washington, Dec. 24.—By special permission of the interstate commerce commission the Chicago and Eastern Illinois Railroad company has issued, and for the Rock Island and Price lines will file with the commission in a few days one of the most remarkable freight tariffs constructed by an interstate carrier.

The proposed tariff will be a compilation of local, joint and proportional rates on lumber and lumber products in carloads from various points in the middle West and south to other points in the middle West and the east and Canada.

For some time the interstate commerce commission has had its experts engaged in examining the records of the proposed tariff and the commission has directed that the tariff shall contain the following notes:

"As an assistance in reporting more simply and clearly in tariff construction and consolidating essential statements of rates in specific form, the interstate commerce commission has by its special authority of December 12, 1908, Number 1,366 to Chicago and Eastern Illinois Railroad company granted temporarily and subject to revocation by the commission permission to issue this tariff and to include this note therein:

"Contained in the tariff is another note by the Chicago and Eastern Illinois Railroad company as follows:

"For the publication of this tariff, it is the desire of these companies to place in the hands of their shippers and connections clear and complete information as to the lumber rates not only from the gateways from which these companies operate, but in a special section providing rates to particular gateways, so that the persons using this tariff will have in one tariff complete information concerning rates from the point of origin of the lumber to the final destination of the shipment."

"Cooperation with the shipper is invited by the following paragraph in an address by the carrier:

"To our patrons: It has been the aim to show this information in a comprehensive manner as much as possible in order to perfect it in all its details and maintain this basis on a correct basis, we wish to organize you freely to communicate with the undersigned (P. C. Riley, general freight agent) calling attention to any correction, omission or inconsistency which may appear to you. In other words, we invite suggestions or criticisms which will tend toward making this tariff a most perfect and complete one, and one which will in every way fulfill your requirements."

One Survivor of Wreck.

Newport News, Va., Dec. 24.—News of the loss of Hog Island Wednesday of the three-masted schooner, Dennis Lloyd, and the drowning of Captain Hollister and five members of the ship's crew, was brought here today by Andrew Jorgensen, the sole survivor of the wreck, who was picked up at sea Wednesday by the American schooner, the Captain John Smith. The Lloyd was bound on the coast from Jacksonville for New York with a cargo of lumber. She ran into the recent heavy northerly gale off Cape Charles Tuesday afternoon, and after taking aboard considerable water and sustaining much damage to the hull, she ran on a shoal off Hog Island, and soon went to pieces.

Government Changes in Lisbon.

Lisbon, Dec. 24.—A new cabinet was formed today by General Francisco Balsem, but after the ministers had been named, owing to unforeseen difficulties, General Balsem relinquished his office as president and minister of foreign affairs. The king then summoned General Antonio Azavedo, the former minister of marine under whom it is expected the other ministers will resign their portfolios.

Princeton Man Street Cleaner.

New York, Dec. 24.—William H. Edwards, from 1887 to 1904 a member of the Princeton football team, was appointed street cleaning commissioner today. Edwards was captain of the Princeton eleven during his last two years in college, and at the close of his career he was chosen coach of the Michigan team. He refuted the fact Yale-Harvard game.

DROP A PENNY IN THE SLOT

And Get One of Your Uncle
Samuel's Nice New Green
Postage Stamps; Guaranteed
to Stick.

(By Morning Journal Special Lensed Wire)
Washington, Dec. 24.—If you can drop a penny in a vending machine and obtain a piece of chewing gum or a handful of peanuts, why not be able to drop in a coin and secure a postage stamp? That is what the postoffice department wants to make a popular feature of its service, and in an order issued today, announcement is made that the department is now prepared to issue limited quantities of postage stamps in rolls of 500 or 1,000 for use in stamp vending and stamp affixing machines. Postmasters desiring to try the new proposition are requested to make application to the department.

Postmasters Must Not Solicit.
Washington, Dec. 24.—Postmasters will not in the future, under penalty of dismissal, be allowed to solicit the mailing of matter at their offices by persons living or doing business within the delivery of another postoffice, according to an order issued by the postmaster general today. The order further provides that fourth-class postmasters are instructed not to claim credit for cancelling postage stamps on matter diverted from other offices to their offices for mailing.

Says Letters Are Troublesome.
Washington, Dec. 24.—Rear Admiral McVilly, commander of the Philadelphia Commandery of the Loyalty Legion, and Colonel John P. Nicholson, recorder-in-chief of the Philadelphia Commandery, asked the president today to write the Philadelphia Commandery a letter on the occasion of Lincoln's birthday. February 12. The president jokingly said that his letters were getting him into trouble, and that his sentiments as to Lincoln would be voiced in the speech he will make at the Lincoln farm in Kentucky on February 12.

GUILTY OF COUNTERFEITING.
Passing counterfeit money is no worse than adulterating soup. An unknown worthless remedy for Foley's Honey and Tar, the great cough and cold remedy that cures the most obstinate coughs and heals the lungs, for sale by J. L. O'Reilly Co.

Pratt's Heave, Cough and Cold Cure.
A scientific preparation used for many years by horse owners and veterinary surgeons. Will help the worst cold in a single day. Several days will show a vast improvement and in a few days the cough will stop. F. W. Fox, 602-604 S. 1st. Phone 16.

First Air Ship Exhibition.

Paris, Dec. 24.—President Fallieres, accompanied by his wife, today opened the aerodrome built in the grounds of the palace, where is the most complete exhibition of aeroplanes and balloons arranged. Large crowds attended the presidential party gave particular attention to the Wright aeroplane, the first to be built in France by a company that acquired the French rights

BENNETT'S CURIO STORE

115 W. Central Ave. FORMERLY 109 N. FIRST ST.
Always has been the cheapest place to buy Indian and Mexican goods. We have a very large stock on hand suitable for the holidays; with prices lower than ever before.
Times have been hard with all of us this year, but prospects are good for the future. You have friends you want to remember, but want to make your money go as far as possible, and we will assist you all we can. We have selected an assortment of goods, that no one would hesitate in sending to their best friends, they can be sent without fear of criticism or danger of damage or breakage in transit, and, best of all, we have CUT THE PRICES JUST ABOUT IN HALF, as quoted below:
Navajo Blankets, regular price \$18 and \$20; cut to \$10.00 and \$12.00
Navajo Cushion Tops, regular price \$1.25; cut to .75c
Navajo Looms, regular price 75c; cut to .50c
Genuine Mexican Hand-Made Zaranas, size 42 by 90; make handsome portieres or couch covers, regular price \$15.00; cut to \$7.50
Genuine Mexican Zaranas, size 42 by 90; the prettiest you ever saw, regular price \$22.00; cut to \$12.50
Genuine Mexican Drawn Work Table Covers, 6 feet square, guaranteed hand-made and all linen; regular price \$30.00; cut to \$18.00
Genuine Mexican Drawn Work Lunch Cloths, 33 inches square, guaranteed all linen, regular price \$3.75; cut to \$2.50
Genuine Mexican Drawn Work Shirt Waist Pattern, complete, regular price \$4.00; cut to \$3.50
Genuine Mexican Drawn Work Handkerchiefs, regular price 50c; cut to 25c
Genuine Mexican Drawn Work Collars, regular price 25c; cut to 15c
Indian Bracelets, Mexican Filigree Jewelry in Gold and Silver, Native Gems, such as Garnets, Topaz, Turquoise and Leather Goods, Japanese Goods, and everything in the novelty line, all to be sold at hard-time prices.
Store open every evening until 10 p. m.

NEWS NOTES FROM FORESTRY HEADQUARTERS

Work was suspended in the local district headquarters at 1 o'clock yesterday, and the employees will enjoy a holiday until tomorrow morning.

Supervisor Goldard, of the Magdalena National Forest, Forest Assistant Balthus, and Ranger Fred Winn, also connected with the Magdalena Forest, are in the city on leave to spend the holidays.

Supervisor MacKay, of the Sitka National Forest in Alaska, was a visitor at the district headquarters yesterday and left on the limited last night for Moscow, where he will spend the holidays.

R. L. Rogers, connected with the office of silva culture, with headquarters at the third district office in this city, has returned from an extensive trip through the forests in Mississippi and Oklahoma. Mr. Rogers was occupied most of the time in preparing preliminary plans for wood lots.

John La Feh, a lumberman connected with the local district headquarters, was in the city yesterday and left last night for his home in Kentucky, for a visit of several weeks. Mr. La Feh has just completed the work of

crusading some timber lands in the Coconino National Forest in Arizona.

L. L. Jones, forest assistant at the Alamo National Forest, near Alamogordo, is in the city on a short leave of absence.

Finds Cox Death Accident.
Hot Springs, Ark., Dec. 24.—That H. M. Cox, a wealthy and retired manufacturer of Portland, Me., had fallen head first from a third-story window of a hotel to his death instead of having jumped from the window with suicidal intent, as at first reported, was the verdict of a coroner's jury today.

After accompanying Mrs. Cox to the dining room of the hotel, Cox went to his apartment on the third floor to complete his toilet. A few minutes later he was found dying on the sidewalk.

Cox, who was a sufferer from neurasthenia, came to this city a month ago with his wife to spend the winter. His brother lives in Bloomington, Ill., and his son is a prominent merchant of San Francisco.

Emmanuel Interested in Cabinet.
Rome, Dec. 24.—Ambassador Giannini spent the day in shooting with King Victor Emmanuel at the hunting lodge at Castle Porzano. The king was most interested in the formation of the new Italian cabinet, and made inquiries as to the chances of the different candidates mentioned.

AWFUL LOSS OF LIFE AND TREASURE IN OUR MINES

THE ANNUAL WASTE OF NATURAL RESOURCES

Million Dollars a Day the Estimate for Mining Industry Alone While 10,000 Lives Go Each Year.

According to the report made by John L. Cotnam, technical station, United States geological survey, the waste of mineral products in the United States amounts to \$1,000,000,000 per day in value.

The waste of natural gas amounts to 1,000,000,000 cubic feet per day, or more than enough to light all the cities of the United States having more than 100,000 population.

These statements were made by Senator Flint of California at the recent meeting of the National Conservation commission in Washington, D. C., in his report on the mineral section of the commission.

Senator Flint called attention to the large waste of material and the large loss of life which characterize the mineral industries in all parts of the country, which he said, was deplorable.

The enormous waste in coal mining is equivalent to about one-half of the total product mined, or for the year 1907 about 200,000,000 tons, said Senator Flint. "With an entire waste of all mineral products approximating \$1,000,000,000 per day, and with the mineral production of the United States during the past year amounting to \$2,000,000,000, this waste is equivalent to more than one-sixth of the value of the total production."

"The seriousness of this loss is more clearly appreciated when it is remembered that our production and consumption are increasing much more rapidly than is the population of the country; that the mineral supplies for future use are limited in quantity and cannot be reproduced; that new supplies are being created to take the place of those being withdrawn from the earth and either used or wasted. When once these supplies are exhausted, exhaustion is complete and permanent; at the increasing rate of consumption which has characterized the industry during the past few years, the available supplies of certain of our more important resources, like coal and iron, will be nearly exhausted in twenty or thirty years, and the country so seriously approaching exhaustion as to bring real hardship to the nation."

That more serious even than this waste of materials is the excessive loss of life in our mining operations. We are grieved to find that during the past year in coal mines alone more than 3,000 men were killed and more than 7,000 injured, and our distress is increasing rather than diminishing, to find that the number of men killed in the United States for each 1,000 people employed in the mines is from two to four times as great as it is in other coal mining countries.

"The seriousness of this problem is shown when the fundamental facts are brought to the front that these mineral resources have required untold ages for their accumulation; that no human being has contributed toward this accumulation or has increased the intrinsic value of these resources; that the acquiring them through discovery or purchase, have no right to waste or destroy that which is necessary to the wealth of the nation, which they did not create and which they cannot replace."

"The coal supplies of the United States, which occupy an aggregate area of 300,000 square miles, are estimated to contain about 1,000,000,000,000 tons of coal available for mining under existing conditions. The boundaries of these coal fields are already so well known that the discovery of deposits outside these boundaries is not likely to equal one per cent of the total known supplies."

"The estimates of our iron supplies, based upon data gathered from every available source, indicate that of the high grade ores we have on hand available for use are present economic conditions \$340,000,000 tons of which nearly two-thirds are located in the Lake Superior district. In addition to this, the final estimate of low grade iron ores, those not available for use under existing conditions, shows that there are about \$2,000,000,000 tons distributed throughout the iron producing districts. At the present increasing rate of consumption it is estimated that the high grade iron ores will have been largely consumed by the middle of the present century, while the supplies of low grade coal may be extended to near the middle of the next century.

"The chief waste in our oil supplies lies in their misuse, that is, their excessive use for fuel purposes—more than 18,000,000 barrels having been used during the past year for locomotive fuel, for which purpose coal is a more abundant fuel might be appropriately used, leaving the major uses for petroleum for lubricating, illuminating (in low-grade districts) and other uses for which it has no known satisfactory substitutes."

"As to copper, lead, zinc and the precious metals, it is estimated that without discovery of other deposits at the present increasing rate of consumption, the known supplies of these materials will not last beyond the present century, and the probability of discovery of new supplies is diminishing with each year. The losses in the mining and treatment of these materials are greater than with any other mineral product, and the waste of these materials is a serious problem."

"In all our efforts to conserve our resources and to protect the health and wealth of the nation, we must also protect the health of the nation. The health of the nation is dependent upon the active operation of the states. The federal government should, and definitely will, extend its investigations of these resources with a view to determining both their quality and their quantity, and in showing how these resources may be used with increasing efficiency. It will not doubt extend its investigations into the causes and methods of preventing mine accidents of all classes, but it must look to the states for the enactment and enforcement of laws looking to the protection of life and prevention of waste—legislation based upon the facts developed through these investigations, legislation which shall be fair to all interests concerned and which will help in the development and conservation of our resources."

"The conservation of this loss is more clearly appreciated when it is remembered that our production and consumption are increasing much more rapidly than is the population of the country; that the mineral supplies for future use are limited in quantity and cannot be reproduced; that new supplies are being created to take the place of those being withdrawn from the earth and either used or wasted. When once these supplies are exhausted, exhaustion is complete and permanent; at the increasing rate of consumption which has characterized the industry during the past few years, the available supplies of certain of our more important resources, like coal and iron, will be nearly exhausted in twenty or thirty years, and the country so seriously approaching exhaustion as to bring real hardship to the nation."

THE POSTAL SAVINGS BANK BILL IS DEAD

Has No Show of Passage at Present Session of Congress; To Check Waste of Natural Gas.

(Special Correspondence to Morning Journal) Washington, Dec. 25.—The postal savings bank bill has no show of passage this session is now regarded as a certainty. It is doubtful if it will be allowed to get through the senate, to say nothing of running the gauntlet of the house and of the postoffice committee on the house side.

Scholar Taylor is prepared to lead a fight against the measure. He is reported this morning when he addressed the bill being made the unfinished business before the senate or to fixing a day for a vote.

Senator Bailey will not be alone in his opposition to any measure. Many democrats are against the bill, and more than this, the monetary commission is doing all it can to obstruct the measure. It is the theory of the commission that the question involved in banking questions, and that the bill ought to be considered by the finance committee.

Senator Aldrich's powerful influence is against passage of the bill at this session.

While it is pointed out that the republican national convention has agreed on record for the postal savings bank system, at the same time it is emphasized that the present congress was not elected on a platform that favored postal savings banks. The sixty-first congress was elected on such a platform, and it will be left to that congress to carry out the platform promise.

This congress will wash its hands of it unless there is an entirely unexpected change in the situation.

To Check Gas Waste.

The secretary of the interior has withdrawn from entry, by the president's order, all the public lands in the petroleum and natural gas field in northwestern Louisiana, known as the Caddo oil field, and embracing some 6,500 acres. This action is taken pending a careful geological investigation by the United States geological survey, with a view to preventing the terrible waste of natural gas now being done in the Caddo field.

Representatives of the survey recently visited the Caddo district and report a waste of natural gas which is beyond all precedent. This field is a large oil producer has only lately come into prominence, but several years ago one of its natural gas wells began to leak badly as a result of poor work in putting the well above the ground bearing sand. The leakage increased and the well blew out; the pipe, derrick and entire apparatus were carried in the hole and submerged by water which blew out with the gas. This waste of natural gas which is reported, and to industrial work the gas blowing out under the tremendous pressure, and a fifth eruption of expected soon. In one well the waste has been going on for four years, an incredible amount of gas having been dissipated. In another well a crater about 200 feet in diameter has been formed, containing water and some petroleum and in the center the gas boils up in the form of a large mud volcano. The well has been reported, and to industrial work the gas blowing out under the tremendous pressure, and a fifth eruption of expected soon. In one well the waste has been going on for four years, an incredible amount of gas having been dissipated. THE CHRISTMAS DAY IS OBSERVED IN MANY CHURCHES

Appropriate Exercises Held Last Night by Various Denominations; Others Will Celebrate Greatest Anniversary in the Christian Calendar Today.

The birth of the infant savior in Bethlehem nearly two thousand years ago, was almost universally observed among the churches of different denominations last night, and those which did not hold services last night will celebrate the day by holding divine services either this morning or in the evening.

A feature of the services held last night was the large attendance at nearly all of them, indicating that the Christmas spirit is abroad in Albuquerque this year in the good old-fashioned way.

At all three of the Catholic churches the immaculate conception, the Sacred Heart and the San Felipe de Neri church in the old town, the coming of the Christ Child was hailed by the celebration of midnight mass. In all of these churches the ancient hymn "Adeste Fideles" was sung by the choir, which have been practicing the anthem for weeks. Large numbers received the holy communion in all three Catholic churches.

In churches of other denominations the Christmas eve was celebrated with appropriate programs, given under the direction of the pastors of the various churches, or of the Sunday schools.

Baptist Church.—The evening was fittingly celebrated by an appropriate program, which was rendered by the members of the Sunday school class, who had been carefully trained by the class teachers.

The following program was rendered: Cantata—"Kris Kringle and His Crew." Opening Chorus—"The Same Glad Story."—School.

Responsive Readings: Matthew 2:8-11. Song—"The Christmas Night."—School.

Song—"I'm Jolly Kris Kringle." Song—"The Kris Kringle Crew." Recitation—"The Kris Kringle Crew."—Grandfather Popper and 5 Girls.

Duet—"O, Thro' Away Fear."—Misses Mattie Morris and Vida Nicholas. Song and Drill—"Flowers for the Christmaseve."—The Chrysanthemum Girls.

Recitation—"He Does Not Belong to the Club."—Three Evergreen Boys, Sunny Jim and His Surprise Pie. Song—"Sing to the King."—Primary Department.

Recitation—"The Christmas Tree."—Sunday School Boy. Recitation and Reading—"The Christmas Tree."—Miss Holmbeck's Class.

Recitation—"Love is the Christmas."—The Holy Girls. Recitation—"Gift of the World."—Orville Kaiser.

Presentation, by classes, of gifts for the poor. Distribution of candy to school. Closing Song—"Beautiful Star of Bethlehem."—Choir.

First Methodist Church.—A clever and interesting program of exercises in commemoration of the evening was held at the First Methodist Episcopal church. The program, which was prepared under the direction of L. A. Porterfield, superintendent of the Sunday school classes, was rendered by the little Sunday school workers.

It consisted of songs, recitations and other features in keeping with the festival.

The program was as follows: Song—"Hark the Herald Angels Sing."—School.

Prayer—Pastor. Responsive Scripture Reading—"The Gift."—Mrs. R. M. Miller. Recitation—"The First Christmas."—Mrs. R. M. Miller.

Song—"Joy to the World."—School. "The First Christmas."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Recitation—"The Christmas Tree."—Mrs. R. M. Miller. Recitation—"The Christmas Tree."—Mrs. R. M. Miller.

Class of Girls.—Song—"Christmas Carols." Recitation—"Amie's and Willie's Prayer."—Lucy Meyers. Song—"This Christmas Night."—Class of Girls.

Class of Girls.—Distribution of gifts, by Santa Claus. **Christian Church.**—At the Christian church of the Disciples of Christ, a varied program was rendered. The whole congregation, including the Sunday school classes and the adult members, participated in the program, which was very interesting and entertaining. The following program was delivered:

Chorus—"Joy to the World."—Sunday School Classes. Prayer—Mr. J. H. Weir. Response by Choir—"Glory be to the Father."—Choir.

Chorus—"Christmas Bells."—Sunday School Classes. Recitation—"Mother, Hubbard's Christmas Carol."—Miss Lillian Bacon.

Piano Duet—"Selected."—Misses Mabel Phillips and Olive Lind. Drill—"Holly Branches."—Five Girls.

Recitation—"The Bethlehem Town."—Miss Marie Crane. Violin Solo—"Selected."—John Abbott.

Drill—"The Lament for Christ."—Five Girls. Piano Duet—"Selected."—Clarence and Gladys Fouts.

Recitation—"The King of the Jews."—Willie Bacon. Vocal Solo—"Lo, in the Manger."—Hazel Carns.

Exercise—"The Shepherd."—Four Boys. Address—Rev. H. E. Brisson. Vocal Duet—"Selected."—Misses Barbara Shelby and Lillian Weir.

Recitation—"When Santa Claus Cried."—Miss Grace Gibson. Vocal Duet—"Rock of Ages."—Mrs. C. H. Carns and Miss Eva Mize.

Recitation—"Selected."—Helen Lind. **Congregational Church.**—Christmas services were held in the Congregational church Wednesday evening, consequently no program or services were held in that church last night. A Christmas program will be rendered Sunday evening, commencing at 7:30 p. m.

The musical part of the program will be under the direction of Miss Strong.

The services will consist of the following numbers: Voluntary—"Hark the Herald Angels Sing."—Rev. J. H. Heald.

Invocation—Rev. J. H. Heald. Organ Solo—"Hallelujah Chorus."—Handel.

Scripture Reading—"The Three Kings."—Selected. Solo—"Mr. J. G. Gould."

Offertory—"Lullaby for Orchestra."—"He Shall Feed His Flock."—(By Request.)—Handel. Hymn 129.

Reading—"The Three Kings."—Mrs. J. H. Heald. Cantata—"The Hope of the World."—Schaefer.

Postlude—"Chorus of Shepherds."—Lemmens. **St. John's Episcopal.**—Christmas day will be observed in St. John's Episcopal church this morning with holy communion at 7 o'clock and 9 o'clock, and worship with a ten minute sermon by the rector, Rev. Fletcher Cook, at 10 o'clock. The musical program follows:

Professional, "Christmas, Awake."—Vocalists. Solo—"Daddy Back to Daddy."—Daddy Back.

Drill—"Daddy Back to Daddy."—Daddy Back. Solo—"The Christ Child."—Mrs. Frank Christmas.

Christmas Anthem, "The Holy Child."—Harry Rowe Schell. To be sung by Mrs. McDonald, Mrs. Lyon, Mrs. Hubbs, Mrs. Gurney, Mr. Lyon, Mr. Ballard, Mr. Nettleton and Mr. Jones.

Miss Pratt, organist. **Festival of Chanukah.**—A special invitation to all to worship with us this day.

FESTIVAL OF CHANUKAH AT TEMPLE ALBERT

Ancient Feast of Lights Will Be Observed by Jewish Congregation Tonight.

The last day of the Festival of Chanukah will be observed at Temple Albert this evening, services commencing promptly at 7:45. Rabbi Chapman will preach the sermon, the subject for the evening's discourse being "Jew and Jew." The feast of lights commemorates the rededication of the temple at Jerusalem after it had been polluted by Antiochus Epiphanes of Syria, who had attempted to enforce the worship of Jupiter Olympus on the Jews and compelled them to deny the faith of their fathers. The wonderful delivery was brought about by the valor of Judas Maccabeus, the chief of whom was Judas, who successfully met the armies of the Syrian monarch, defeating them again and again, with only raw recruits under his command. Every one is cordially invited to be present at tonight's service and will be very welcome.

A PERSONAL APPEAL.—If we could talk to you personally about the great merit of Foley's Honey and Tar, for coughs, colds and lung trouble, you never could be induced to experiment with unknown preparations that may contain some harmful drugs. Foley's Honey and Tar costs you no more and has a record of forty years of cures. For sale by J. H. O'Reilly Co.

NORDICA TO SING IN ALBUQUERQUE JANUARY 9

The Queen of Song! Coming to Elks' Theater for Singing Concert; Singer a Believer in Hard Work.

The most notable musical event in the recent history of the southwest will be the appearance here on January 20th of Mme. Lillian Nordica, one of the greatest singers of the age, and probably better known to the American public than any other woman who has sung in opera during the past decade. Mme. Nordica is supported by a strong company, and her single concert in Elks' theater will be the occasion for a gathering of all lovers of real music.

Mme. Nordica is a rare example of what heredity, natural talents and hard, clear-headed work can accomplish.

She traces her descent straight back to John Tilly and the Mayflower through a line of ancestors who were eminent and distinguished people of their times. The men of both branches have been either clergymen or soldiers for many generations, and to Mme. Nordica they have given that rare blending of the idealist and the man of action. Both father and mother were noted for their vocal accomplishments. From her mother, she inherited also the same qualities of will and energy that marked her line of New England ancestors, and from her father, who was an idealist, the poetic strain. When to these we add her magnificent physique, her eloquence of face and gesture, and her rich, glowing, thrilling voice, can we wonder that she has succeeded?

Mme. Nordica stands today upon a pedestal of her own, the greatest dramatic soprano of the day, and she is as successful in her work, more work and then more work.

At the beginning of her career she learned one rule after another, but because she had been engaged to play them, but to prepare herself for any opportunity that might come, and at the start many of her best classmates did come through the complete equipment.

One of the epochs in her career was the creation of the role of Elsa in "Le Teuillier," under the direction of Mme. Wagner, the widow of the composer. In the three months' study and preparation for this part, Mme. Nordica seemed to crystallize all the results of her previous study and experience. The vocal and dramatic beauty of her portrayal of the part was a revelation to the German audiences.

The role of Isolde in "Tristan and Isolde" was also studied under Mme. Wagner, both musically and dramatically, and paved another way toward the opera-going world. She played the part in Chicago, Boston and New York, and at the end of the season was presented with a diamond tiara on the stage of the Metropolitan opera house, and enthusiastically hailed as a Queen of Song.

One of her critics calls her "The embodiment of beauty, strength, courage, energy and animation." In a few years she rose from a comparatively obscure position as singer in a Boston choir to a unique position in the operatic world, and she has done this by dint of hard work.

Mme. Nordica's own words are the most fitting comment on her career. "Work means success," and success has certainly come in overflowing measure.

COUNTY PAYS BILLS AND HAS MONEY LEFT

NEW OFFICERS TAKE CHARGE WEEK FROM TODAY

Meeting Thursday to Take Up Matter of Bonds; Some of the Probable Appointments to Deputyships.

Business administration in Bernalillo county is showing results that should make every taxpayer sit up and return thanks. The county commissioners at a meeting yesterday morning paid all the bills presented and approved, and wound up the finances of the county for the past twelve months with substantial balance in every county fund with the exception of the wild animal bounty and the road fund on which latter fund heavy drains have been made by the good roads campaign.

Because of economy in general county expenses, however, there has been enough money to make substantial additions to the road fund and the county still has money left. Every just bill is paid dollar for dollar; every county office is in first class shape; every book is ready for the territorial auditor and Bernalillo county is at least on a sound financial basis, entirely as the result of honest, capable, business administration by the commissioners and county officers.

That this administration will continue is assured since both Mr. Grunfeld, chairman of the board, and Mr. Springer, re-elected on November 3rd, while Mr. Armijo, the third member of the board, has a year yet to serve.

Thursday next the commissioners will be sworn into office by the county clerk, Mr. Grunfeld for four years, Mr. Springer for two years, and on the following day, January 1st, all of the new county officers will take their places. The bonds of the new officers will be taken up by the commission on Saturday.

Much Discussion of New Officers.—There is much interest manifested in the disposition of the several county appointive offices and deputyships for the coming term.

It is understood that Fred B. Heyn who has served for the past two years as chief deputy sheriff by Sheriff Romero, Mr. Heyn has made a faithful and efficient officer, has conducted the heavy routine of the sheriff's office to the complete satisfaction of the people and his re-appointment will be universally approved.

Treasurer Edward Pinney has not announced who his deputy will be, but it is understood that Mr. Scott of the Santa Fe shops office force is the probable appointee. Mr. Pinney is himself a railroad man and Mr. Scott has received generous endorsement from the railroad employees here.

There are several candidates to succeed County Physician Dr. John F. Pearce, who was appointed two years ago when the citizen's ticket was successful. Dr. Pearce is a democrat and is not a candidate for re-appointment. It is understood that Dr. C. A. Frank is being favorably considered by the commissioners, who make the appointments.

PILES CURED IN 4 TO 14 DAYS.—PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 4 to 14 days or money refunded. 50c.

BIG DEAL CLOSED IN MONTANA COAL LANDS

Chicago, Milwaukee and St. Paul Buys 6,000 Acres in Yellowstone Country.

Chicago, Dec. 24.—President A. J. Easting, of the Chicago, Milwaukee and St. Paul railroad today announced that by the purchase of from 5,000 to 6,000 acres of coal fields in Yellowstone country, Montana, that railroad may save more than a million dollars annually in fuel in the operation of its Pacific coast extension. The coal which was long thought to be worthless, has been discovered to be as good as that obtained in Illinois, and the situation of the fields will save a haul of a thousand miles. It is said the vein will produce 8,000 tons to the acre.

SIX MORE SUSPECTS HELD FOR FRENCH ROBBERY

Men Arrested in Las Vegas Taken to Raton in Irons Pending Further Investigation; Second Arrest Made Here.

Special Dispatch to the Morning Journal.

East Las Vegas, N. M., Dec. 24.—Six more suspects believed to have knowledge of the robbery of the Santa Fe safe at French Monday night, were arrested here today. The men have been taken to Raton in bonds to be held pending a further investigation. It is now believed that the robbery was committed by a number of henchmen, who divided the money, about \$400, among them.

SECOND ARREST MADE HERE LAST NIGHT.—Officer Marquette of the night police force, last night arrested Tom Alsup, upon telegraphic advice from Ben Williams, of the Santa Fe secret service, as a suspect in connection with the safe robbery at French. Alsup, who was entering the Almonte hotel, as the officer detained him, says he has been in Albuquerque for some time.

As nearly as the officers have been able to learn he has been here two days. The man is wearing a complete new outfit of clothing, every article being new, with the exception of the hat, which he says he purchased from Simon Sierra a month ago. He declined to say where he had purchased the new clothing and intimating to the officers that his grandmother's age was equally pertinent. He will be held for investigation on the return of the Santa Fe officer.

NEW LONG DISTANCE TROLLEY LINE.—Lansing, Mich., Dec. 24.—The Ohio and Michigan Southern Railroad company has filed articles of incorporation here with a capital of \$175,000. The company will take over the property of the Toledo, Ann Arbor and Detroit railroad, being a partially completed trolley road between Toledo and Ann Arbor. Among the directors are ex-Governor Andrew Lee, of Vermillion, S. D.; William E. Niles, of Sioux Falls, S. D.; John C. Zuel, Toledo, and N. A. Rogers, of Chicago.

The company proposes to equip its road for both freight and passenger business.

Well Known Railroad Man Dead.—Missolonghi, N. Y., Dec. 24.—George Washington West, superintendent of motive power of the Ontario and Western railroad, died at his home here tonight from kidney trouble.

Mr. West was president of the Master Mechanics' association of the United States and a former president of the Railroad club of New York.

Forecast.
Washington, Dec. 24.—New Mexico: Fair and cooler Friday; Saturday fair. Arizona: Fair Friday and probably Saturday.
Insure in the Occidental Life.
B. O. Wright is in the city on a short business visit from Willard.
R. E. Cargo was here yesterday from Estancia, attending to business.
The usual big dinner at the Fashion Cafe Christmas day, 12 noon to 7 p. m. Closes at 2 p. m. sharp.
George K. Pratt, surveyor and civil engineer, is here on a short business trip from Laguna.
D. C. Williams, of Esquire, W. Va., is in the city for an indefinite stay and may determine to locate here.
Wm. McClellan, son of Judge W. W. McClellan, is here from Chavez, N. M., to spend Christmas with his family.
If you want your Christmas packages delivered safely and promptly, call for the Postal Telegraph messengers. Telephone 36.
Mrs. E. H. Millett left yesterday morning for Kansas City where she will spend the holidays with her daughter.
The Postal Telegraph company will have an extra large force of reliable messengers to promptly handle Christmas packages. Telephone 36.
Mr. and Mrs. Henry Connolly, of Los Lunas, are here to spend Christmas with relatives. Mr. Connolly is deputy probate clerk in Valencia county.
Jesse Wootton, one of the Morning Journal linotype operators, left last night for Trinidad, Colo., where he will remain about ten days, visiting relatives and friends.
Marriage licenses were issued yesterday to Ralph W. Guehlert, aged 23, and North E. Werner, aged 26, and to Romaldo Arroyo, aged 21, and Lucy Lagarriga, aged 18, all of Albuquerque.
Mrs. Stella Ferrell, wife of D. D. Ferrell, died last night at the family home on North Twelfth street after an illness of three months. The funeral arrangements will be made public today.
Mr. and Mrs. Simon Stern and Mrs. Leon H. Stern left last night for Socorro, where they will spend Christmas with relatives. Mr. Stern will make a short trip to El Paso before returning to this city.
The fire department was called out yesterday afternoon to extinguish a small blaze in the house of L. Chavez, of 208 West Huling avenue. The fire was caused by a defective flue. Only a few dollars' damage was done by the blaze.
The postoffice will be open this morning from 10 o'clock to 12 o'clock for the convenience of the people. Money orders will be paid and registered packages delivered at the window, but no money orders will be issued and no registered packages received.
Friends of Dr. J. E. Kraft, the well-known dentist of this city, will be known to learn of the death of Dr. Kraft's father, which occurred in Quitman, Mo., December 21. Dr. Kraft left here some days ago for his father's bedside and only reached home a short time before death occurred.
A. D. Hamilton, of Colorado Springs, competed with the Colorado Springs and Cripple Creek railways, has been in the city for several days on business. Mr. Hamilton is another of the many claimants now appearing to the estate of the alleged enormous rich Springer properties in Delaware.

Merry Xmas to All
Store Closed All Day
Ward's Store
315 Marble Avenue.

The excellent bill of pictures at the rink attracted a large crowd last night. The feature film "The United States Fleet in Australia," proved to be a popular set of pictures. "The Ambulance Dogs," a comedy film, and "Ideal Policemen," also took well with the audience. The entire program will be repeated tonight.
James R. Spangberg, of New York City, son of the founder of the pioneer firm of Spangberg & Bros. in Santa Fe, will arrive in Albuquerque at noon today, accompanied by his bride, who was Miss Decker, daughter of Judge Decker, of New York City. Mr. Spangberg, who is well known here, will be a guest of Mr. and Mrs. Alfred Grandin for a day. Mr. Grandin's father and the elder Spangberg were pioneer business men together in Albuquerque.
A special matinee will be held at the Columbus theater this afternoon, at which a number of new moving pictures will be shown on the screen. "The Story of a Soldier," a great feature film, released only three days ago by the makers, will be shown today for the first time. It is said to be one of the finest interpretations of the Shakespearean drama ever produced. A large crowd attended the Columbus last night. "The Roman Boy," "Stimulant" and "Sheridan's Ride," these fine pictures were shown and immensely enjoyed by those present.
At a meeting of the Improved Order of Red Men, held Wednesday night, the following officers were elected to serve during the coming year: Sachin, J. C. Brennan, senior warden; J. E. Wilson, junior warden; William Schickel, president; J. W. Froelich, chief of records; C. L.

Over one hundred and fifty people were present last night at the dancing for the 1909-1910 chess dinner at given by the Wagner Hardware company, to the person holding the lucky number. Ticket No. 62 was the lucky one drawn from the big box which held 1,000 chances, and to the holder of that ticket will go the handsome china set. If the person who holds No. 62 does not call at the Wagner store within two days, the holder of No. 1245 will be entitled to the set. Two other numbers, 4961 and 3949 were drawn and the holders of these tickets will have an opportunity to make a claim on the dollars in the event the holders of the numbers do which were drawn before theirs do not call for the shindies. Tickets for the drawing were issued for only three days and 2,000 of them were given away in that short length of time. A fine dinner was given to each customer.

"CHICAGO AL" THOUGHT REWARDS TOO SMALL
Big Fellow Declined to Go on the Mat With Simon Deschler at the Last Minute.
The wrestling match scheduled to go at the Armory last night before the Albuquerque Athletic club failed to come off. Admission was charged for the match and the audience has congregated about \$30 to the box office by the time the event was timed.
Chicago Al, whose real name is John Ritchie, champion strong man, was to wrestle Simon Deschler, a local blacksmith. At the last minute Chicago Al, who is a giant in stature, decided that he didn't care for it. He said there wasn't enough money in the house and refused to play. Deschler was ready for the go and his supporters are of the opinion that the chilly Christmas evening affected Chicago Al's Chicago feet.
Whatever the facts, the match didn't go and the money went back to its contributors.
