BRIEF WIRINGS:

Delaware Goes for Cleveland.
WILMINGTON, Nov. 11.—Total vote of state gives Cleveland 614 plurality.

Oklahoma Splits.
GUTHRIE, Nov. 11.—Flynn, Republican, elected delegate to congress, and the Democrats and Alliance secure the legislature.

Wisconsin Democratic.
MILWAUKEE, Nov. 11.—Democrats carry the state by 5,000 and the legislature by twenty-nine on joint ballot, they also elect six out of ten congressmen.

Harrison Carries Wyoming.
CHEYENNE, Nov. 11.—Harrison carries Wyoming by 800 majority, and Clark, Republican, is elected to congress. The Democrats elect their state ticket and probably the legislature.

Iowa Handsomely Republican.
DES MOINES, Nov. 11.—Latest figures show 20,000 Republican plurality; Republicans 228,000, Democrats 208,000, Populists 18,000, of the eleven congressmen ten are Republicans.

How They Carry Elections in the South.
RALEIGH, N. C., Nov. 11.—In Mitchell county, this state, on election day during an election riot fourteen men were seriously wounded and six fatally. The men hurt were mostly Republicans.

Washington Elects Republicans.
TACOMA, Nov. 10.—The Republicans carry the state for the entire ticket, elect two congressmen and a Republican legislature which insures the return of a Republican to the U. S. senate, vice Allan.

Miles and Howard to Change Stations.
CHICAGO, Nov. 11.—There is a well founded rumor in army circles that Major Gen. Howard and Miles are to change stations at an early date, Miles going to New York and Howard to Chicago.

North Dakota Democratic.
BISMARCK, N. D., Nov. 11.—Twenty leading counties completely knock out the Republican state ticket. Harrison also is possibly defeated. The Republicans may elect the congressmen, but the legislature is very doubtful, though probably Republican by 4 or 5 majority.

Ohio Still Doubtful.
COLUMBUS, Nov. 11.—This morning finds the situation still doubtful. The Republicans made a mistake of 1,000 in their footings upon which they figured 700 plurality. The Democrats therefore claim 300 for Cleveland. The official count can alone decide the result.

Russell Harrison's Paper Closed.
LEXINGTON, Nov. 10.—Russell Harrison's paper, the Daily Journal, was closed yesterday by the sheriff, pending a settlement of indebtedness in dispute. The managers state that the paper will issue again in a day or two with all claims adjusted. They say unfair advantages were taken.

Nebraska Safely Republican.
OMAHA, Nov. 11.—Sixty out of ninety counties in Nebraska give Harrison 7,000 plurality over Weaver and Cleveland. On joint ballot the legislature stands, Republicans 45, doubtful 9, Mercer, Raines, McElroy and Whitelock, all Republicans, Bryan, Democrat, and McKnight are elected to congress. The state is safe for the Republicans.

Kid Outwits the Soldiers.
DEMING, N. M., Nov. 11.—The renegade under "Kid" got wind of Capt. Ben's plan to surprise them in Doubtful canon and decamped. The troops only secured the camp supplies. "Kid" saved ammunition and arms. The pursuit is now hot after the reds, with a good prospect of killing or capturing the renegades, as they can not cover much country without horses. A slight noise made when the troops were in plain sight of the Indians gave them the chance to escape.

He Takes It Philosophically.
WASHINGTON, Nov. 10.—The president takes it all philosophically. Soon after disposing of some business the president received an official call from Secretary John W. Foster on matters in relation to the international monetary conference. Throughout the day the president gave no indication whatever of disappointment or chagrin at the result of the election. He was undoubtedly the calmest person in the house and observed his customary routine as though nothing unusual had happened. As one of his friends expressed it, "if he is defeated he will lay down the cares of official life without the least personal regret and seek the more genial sections of private life with undisguised satisfaction."

BRIEF TELEGRAMS.

WASHINGTON, D. C., Nov. 11.—William D. Cross, who has now been three times elected, is to be executed to-day. The crime which he will expiate in death to-day was a brutal wife murder. Cross is a colored man and has persisted in declaring his innocence continually. His trial was before Judge Cox, of the district criminal court.

New York.—Joe Goddard, of Australia, and Peter Maher, of Ireland, go into training to-day for their big fight before the Coney Island Athletic club, December 1. Goddard has taken up his quarters at Mechanicsville, and Maher is doing active work on Long Island. The fight has aroused a great deal of interest in sporting papers and big bets have already been placed.

WASHINGTON, D. C.—The chrysanthemum show, which is to be visited to-day by the members of the diplomatic corps and by members of the cabinet as are in the city, is reported to be the richest and most complete floral display ever made in this country. The White house gardens are represented by specimens of chrysanthemums valued at thousands of dollars and the national botanical gardens have a display almost as fine. It may be interesting to add in this connection that no year has witnessed so great a number of flower shows as 1892. There are now in progress in the cities of the country over 100 of these exhibitions and the chrysanthemum is in each case the especial variety displayed to the best advantage. Almost all of the shows in the larger cities are equal, if they do not eclipse that last week at Madison Square garden in New York.

New York.—The Ohio society will to-day give a formal reception to the big delegation which attended the launching of the Cincinnati, yesterday. This party includes Mayor Mosby and his daughter, the young lady who christened the ship. It is likely too that speeches will be made by some of the Ohioans now resident in New York, including Gov. Hoadley, should he be well enough to attend. Gen. Butterfield and Whitelaw Reid.

Washington.—Mr. Quay sentimentally attributes Republican defeat to "lack of votes." Secretary Foster says it was the tariff.

Washington.—The air of gloom that pervades the departments seem to show that the clerks take little or no stock in civil service.

Philadelphia.—The officers of the Knights of Labor will leave this evening or to-morrow for St. Louis, where the annual convention begins early next week. While no announcement has been given out of the possible retirement of Grand Master T. V. Powderly, it is said to-day on excellent authority that if the various elements in the order can be harmonized, he himself will favor the election of A. W. Wright, the general lecturer of the order, to succeed to the position Mr. Powderly now holds. The only cost promised at the convention is that directed against the political action of some of the labor leaders during the recent campaign. It is asserted that Mr. Powderly and others went beyond the plan of political action outlined and endorsed at the Denver convention in 1891. John W. Hayes, the secretary of the order, is certain of re-election.

London is Delighted.
LONDON, Nov. 11.—The Pall Mall Gazette says briefly that both merchants and unemployed workmen rejoice at Democratic victory. The capitalists of Birmingham, Bradford and Manchester are jubilant over the chance to again invade the American market and say every English workman will now have a chance to secure decent wages without the necessity of striking.

The St. John's Gazette follows in the same line, and says the Democratic regime was very distasteful to English interests.

In Alabama.
BIRMINGHAM, Ala., Nov. 11.—Cleveland carries 39 out of the 66 counties and Weaver 10. The Kolb Democrats of the white counties voted for Cleveland. In the black belt the Jones vote of the state election returned to Harrison. Of the 17 counties yet to hear from 10 will be for Cleveland. The Democratic majority will be 40,000.

Weaver Carries Kansas.
TOPEKA, Kas., Nov. 11.—Returns from all the counties show a Populist majority of 4,327 for Weaver. Three congressmen are Republican. The legislature is an alliance by one majority on joint ballot. The Republicans have sufficient majority to organize the house, and will probably seat enough Republicans on contest to secure the legislature on joint ballot.

Defeat Acknowledged.
NEW YORK, Nov. 11.—Chairman Carter,

of the Republican national committee, sent the following telegram to President Harrison this afternoon:
"The returns show that we have been defeated by a pronounced majority. The defeat can only be attributed to a reaction against the progressive policy of the Republican party." Thomas H. Carter.

Indiana Returns to Democracy.
INDIANAPOLIS, Nov. 11.—The Democratic state committee figures show a plurality for Cleveland of 8,638. The People's party vote will reach 25,000 and the Prohibition vote 12,000. The congressmen elected are ten Democrats and two Republicans. The legislature will probably stand, senate, Democrats 24, Republicans 16; house, Democrats 65, Republicans 28, Populists 7.

DUTIES OF CANVASSING OFFICERS.
What the Statutes Prescribe as to the Mode of Canvassing Returns.

The following extracts from the statutes of New Mexico as to the duties of canvassing officials are of timely interest:
"County commissioners to canvass the voters within six days after the election. (Sec. 1128, 11th Nov.) and give notice thereof two days before by posting in court house." (Laws '89, p. 321.)
"Within ten days after canvassing votes they shall forward by special messenger to the secretary of the territory a certified copy of the votes polled in their county for delegate and members of the legislature, together with a poll book for each precinct." (Sec. 1127.)
"The territory to pay 10 cents a mile to such messengers for each mile travelled." (Sec. 1127.)

"Within thirty days after the election the secretary in the presence of the governor shall count the number of votes polled for delegate and give him a certificate of election." (Sec. 1128.)
"Clerks of county board shall receive for preparing poll books \$1 for each county for delegate and counting returns from each precinct, to be paid by the county." (Sec. 1129.)

"County commissioners shall forward certificates of election to members of the legislature and each county officer." (Sec. 1131.)
"The secretary of the territory shall administer the oath to members elect of the legislature and each county officer." (Sec. 1131.)

Tangled Up.
Louis De Lange and W. S. Rising have branched out as stars in a very bright and humorous musical farce from the French, to which they have given the name of "Tangled Up." It is decidedly a farce of situation and not of horse-play. Miss Lottie Mortimer, adding the celebrated serpentine dance for the De Lange-Rising company and quite to the satisfaction of the admirers of grace, beauty and daintiness.

Mr. De Lange is a clever comedian. Mr. Rising is a good actor and a sweet-voiced singer, and their company is deserving the average mark. Mr. Alexander Clark and Miss Agnes Stone do particularly good work.—Kansas City Times.

First Heart.

I love her so,
But does she know
How fondly I adore her?
Dread makes me dumb
When I come
To plead my suit before her.

Some commonplaces
Devoid of grace
Or meaning, then I utter.
I come to woo,
And stately sue
For love—I only stutter.

Sometimes I think,
When on the brink
Of a brave declaration,
She knows what my
Fond looks imply,
And waits for my oration.

But even then
I stammer again.
And eloquence deserts me,
While all the while
I gaze a smile
In her bright eyes that burn me.

Oh, cruel fate!
My wretched state.
Must surely waken pity.
When I would speak
My tongue grows dumb,
She so divinely pretty!

What shall I do?
Unless I woo,
Some other chap will get her—
By Jove, a bright
Idiot! To-night
I'll just write her a letter.

SHOOTING STARS.

Answered.

"Does its own-don't pretty love
its ducky?" sighed the young man from
New York.

"Yes," responded the Boston girl. "This
particular and favorite little possession
cherishes a strong affection for its water
fowl of the order aspers."

Newspapers Endorse.

"Editors are certainly the greatest
benefactors of the race, and after reading
Dr. Franklin Miles' popular works, can
not help declaring him to be among the
most entertaining and educating authors."
—New York Daily. He is not a stranger to
our readers, as his advertisements appear
in our columns in every issue, calling
attention to the fact that his elegant work
on Nervous and Heart Diseases is dis-
tributed free by our enterprising druggist,
A. C. Ireland. Trial bottles of Dr. Miles'
Nervine are given away, also Book of
Testimonials showing that it is unequalled
for nervous prostration, headache, poor
memory, dizziness, sleeplessness, neu-
ralgia, hysteria, fits, epilepsy.

Stand It as Long as He Could.

The Orator—"This is a big ball to fill
with one voice. How much could you
hear of my speech?"

The citizen—"The first five minutes of
it I could hear first rate. Then I lost
consciousness."

Strong Witnesses.

Among the thousands of testimonials of
cures by Dr. Miles' New Heart Cure, is
that of Nathan Allison, a well-known
citizen of Glen Rock, Pa., who for years
had shortness of breath, sleeplessness,
pain in left side, shoulders, smothering
spells, etc., one bottle of Dr. Miles' New
Heart Cure and one box of Nervine and
Liver Pills cured him. Peter Jaquet,
Salem, N. J., is another witness, who for
twenty years suffered with heart disease,
was pronounced incurable by physicians,
death staring him in the face, could not
be down for fear of smothering to death.
Immediately after using the New Cure he
felt better and could lie down and sleep
all night, and is now a well man. The
New Cure is sold, also free book, by A. C.
Ireland, Jr.

WHAT IT WAS.

The Stillness of the Twilight Hour Was Broken.

It was evening.
Softly came the summer zephyr from the
shadows sleeping in the valley, cooling as
the breath from scented fans, yet with no
touch of chill.

The lowing herds, now silent on the lea,
lay resting in the fragrant fields of gently
waving grass, where daisies nodded kisses
to the red tipped clover.

The dusky air, low lying on the shaded
hills, rose purpling to the sky about their
tops, and here and there far off in the still
distance twinkled one or two lone stars,
the first to come, and they stood there
blushing near the dark blue curtains
draped above the threshold of the night,
uncertain yet if they should enter now or
wait until the gay and glittering throng
in which they moved had come to bear
them company.

The song of birds was stifled in every
bush and tree, and every warbling throat
was tucked away beneath a tired wing.

The hum of insects, resonant all day,
had lulled itself to the quiet leaves,
and every fluttering insect wing was resting
till the morn.

The lazy stream had seemed to stop and
now no longer bobbed to the flowers
which grew upon its pretty banks.

Above, below, beyond, the soft, delicious
stillness of the bedtime of day pervaded
the air and touched the earth and floated
to the sky.

They sat there in the gloaming, he and
she, and watched the silent shadows creep
slowly out from those dim hiding spots in
which no man can find them in the day.

Suddenly they noticed a crash as if some
one had struck a heavy timber with an ax
and shivered it.

"What's that man breaking?" he in-
quired with a start.

"The stillness of the twilight hour," she
murmured softly, and the man passed
them on his way to the woodshed with a
stick of kindling on his shoulder. —Detroit

Family Financiering.

"They tell me you work for a dollar a day.
How is it you clothe your six boys on such
pay?"

"I know you will think it concealed and queer,
But I do it because I'm a good financier."

"There's Pete, John, Jim and Joe, and Wil-
liam and Ned—
A half dozen boys to be clothed up and fed—
And I buy for them good, plain victuals to eat.
But clothing—only buy clothing for Pete."

"When Pete's clothes are too small for him to
get on.

My wife makes 'em over and gives 'em to John.

"When for John, who is ten, they have grown
out of date,
She just makes 'em over for Jim, who is eight."

"When for Jim they become too ragged to fix
She just makes 'em over for Joe, who is six."

"And when little Joseph can wear 'em no
more.

She just makes 'em over for Ned, who is two."

"So you see, if I get enough clothing for Pete,
The family is furnished with clothing com-
plete."

"But when Ned has got through with the cloth-
ing, and when
He has thrown it aside, what do you do with
it then?"

"Why, once more we go round the circle com-
plete
And begin to use it for patches for Pete." —Merrory

HISTORICAL.
Santa Fe, the city of the Holy Faith of St.
Francis, is the capital of New Mexico, and
the seat of the Archbishop and the
Bishop. It is the oldest city in the
United States. Its name was
Oga-phego, but it was abandoned
before the Spanish time. The Spanish
name of Santa Fe was founded in 1581, and
before the second oldest European settlement
still extant in the United States. In 1591
came the first venture American trader
—the first of the great line of the
Santa Fe trail, which made it the
gateway to the West.

THE WATER OF SANTA FE.
Dr. J. P. Dauter vice-president of the
American Health Resort association says:
"It is worth traveling miles to drink of
such water as flow through this deep-cut in
the mountains and supply the city of Santa
Fe for domestic purposes and for irrigation
of the fruit farms. The water is absolutely
pure, cold and fresh from the melting
snows above, or trickling from springs in
the mountain side. It is free from all lime,
alkali or other ingredients so very injurious
to the consumptive patient. Such water is
pure and healthful in any time, hot or
cold, where other features of climate and
pure air combine to produce an ideal
climate, it is of special value."

CITY OF SANTA FE.
The city lies in a charming nook on the
west side of the Santa Fe range and is sheltered
from the northern winds by a spur of
low hills which extend from the mountains
west as far as the Rio Grande. It lies in
the center of the valley at the mouth of a picturesque canon, the canon of the Rio Santa Fe,
a beautiful mountain stream, having its rise in the Santa Fe valley
and flowing into the Rio Grande. Its population is 7,500. It has good schools and
churches. There is an excellent system of
water works. The city is lighted with gas
and electricity. It has more points of historic
interest than any other place on the
North American continent. Land may be
acquired at low prices to suit the rich or the
poor. Five acres in Santa Fe or vicinity
will produce more than can be produced
anywhere else in the world. Our markets
are close at hand and we can successfully
compete with any other locality. Since the
first fruit tree was planted in the Santa Fe
valley there has been but one failure in the
fruit crop. What other place, what country can
approach this record?

PUBLIC INSTITUTIONS.
Among the more important public institutions
located here in spacious and attractive
modern buildings, are the U. S. court
and federal office building, the territorial
capital, St. Vincent's sanitarium, territorial
penitentiary, New Mexico orphan's training
school, St. Vincent's charity hospital, U. S.
government Indian school, Ramona mem-
orial institute for the deaf and dumb, St. Catherine
Indian boys training school, Fort Marcy
barracks, St. Michael's college, Loreto academy,
Presbyterian home missions industrial
school for girls, New Mexico deaf and dumb
institute, New West academy, Catholic
cathedral and four parish churches, Epis-
copal, Presbyterian, Methodist and Con-
gregational churches, the governor's residence,
the archbishop's residence of Archbishop J. B.
Salpate and Bishop P. L. Chapelle
and many others, including first-class hotel
accommodations, and several sanitary in-
stitutions for the benefit of health seekers.

RESOURCES.
Santa Fe county has an area of 1,498,000
acres and a population of 16,000. The principal
occupations are mining, sheep and cattle
raising, truck farming and fruit growing.
The valley soils are especially adapted to
horticulture and there is as hard a never
failing market in the mining camps.

In the southern portion of the county
mining is the principal industry. The
large deposits of coal, lead, silver, iron, copper
and gold, in veins as well as in the form
of placer gold, at Corralito, New Placer
(Dolores), Golden and San Pedro being just
noted for their richness.

THE WORLD'S SANITARIUM.

But it is to Santa Fe's superior climate
and its fame as nature's most
potent healing power as a cure for consump-
tion and other pulmonary diseases that Santa
Fe bases its great future upon. The highest
American medical authorities concede the
superior advantages of the city's location.
The records of its climate curative of
consumption, are, according to the best
medical testimony, altitude, dryness, equal-
ity of temperature, light and sunshine,
and a pure and invigorating atmosphere.
These must be sought in localities interesting
and attractive, where variety and occupation
may be had, and the social advantages
are good.

An eminent German authority says: "The
altitude most favorable to the human organ-
ism is about 2,000 meters," somewhat more
than 6,500 feet.

THE OLD SANITARIUM.
The old Sanitarium stands on the spot
where the old Spanish palace had been erected
shortly after 1680. That ancient structure
was destroyed in 1840, and the present one
was constructed between 1847 and 1874.

The chapel of San Miguel was built be-
tween 1699 and 1700. In later years the
Indians destroyed it. Fully restored in 1874,
it had previously and after 1823, been the
only Spanish church in Santa Fe. It still
remains the oldest church in use in New
Mexico.

The walls of the old cathedral date in part
from 1623; but the edifice proper is from the
past century.

Other points of interest to the tourist are:
The Historical Society's rooms; the
"Garcia," the military quarters chapel and
cemetery of Our Lady of the Rosary; the
church museum at the new cathedral, the
archbishop's garden; church of Our Lady of
Orsanpiche with its rare old works of art;
the soldiers' monument, monument to the
Pioneer Path-Finder, Kit Carson, erected by
the G. A. R. of New Mexico; St. Vincent's
Hospital, conducted by the Sisters of Charity,
and the Orphan's industrial school; the In-
dian training school, Loreto Academy and
the chapel of Our Lady of Light, the Ramon
Indian school; St. Catherine's Indian
school.

The sight-seer here may also take a
vehicle and enjoy a day's outing with both
pleasure and profit. The various spots of
interest to be visited are: Rocky Mountain
park, taking in the divide route; Monument rock,
up in picturesque Santa Fe canon; the Aztec
mineral springs; Naube camp; Agua Fria
village; the turquoise mines; place of the as-
sassination of Governor Perez; San Ildefonso
pueblo, or the ancient cliff dwellings, beyond
the Rio Grande.

THE MILITARY POST.
At Santa Fe is the oldest military estab-
lishment on American soil, and has been an
almost continuous occupation since 1602
when the Spaniards first established here
their base of operations. Old Fort Marcy
was built by U. S. soldiers in 1846 and the
new post was occupied a few years later.
Appended is a roster of the present garrison
at Fort Marcy.
