# HOUSE FORCES COUNCIL INTO A CONFERENCE ON APPROPRIATIONS BILL

## New Bill Practically Same as Old Without Riders---Republican Majority Deals Generously With This City.

### SKIDOO FOR GAMBLING ON JANUARY THE FIRST, 1908

#### All Bills Will Be Cleaned Up To Night or They Die a Natural Death When the Legislature Adjourns Sine Die.

Special to The Evening Citizen.  
Santa Fe, N. M., March 21.—The passing of the Sless anti-gambling bill last night in the house, and the fact that it was signed by the governor today, means that licensed gambling in New Mexico will close January 1st. Mr. Beach, of Otero, and Mr. Green, of Socorro, opposed the bill.

The bill is very stringent and there is no doubt whatever that it will do the work for which it was passed. The present republican house deserves great credit for having passed this bill. It indicates that the legislature, though buffeted on all sides by lying insinuations, has stood for what the people want and has given it to them as far as possible, even against the efforts of an antagonistic council.

#### NEW BILL DIFFERS BUT LITTLE FROM OLD

Santa Fe, N. M., March 21.—The special conference committee reported in the house this morning a new appropriation bill. The bill was taken up at once and passed the house without opposition. The bill provides the following changes:

- Interest on bonded debt, \$20,000.
- Agricultural college, \$16,000.
- School of Mines, \$15,000.
- University of New Mexico, \$22,500.
- Normal school, Silver City, \$16,000.
- Normal university, Las Vegas, \$16,000, with an additional \$1,500 for a summer school.
- Military institute, \$17,000.
- Insane asylum, or so much as may be necessary \$60,000.
- Miners' hospital, Raton, \$10,000.
- Blind asylum, \$10,000.
- Reform school, \$5,000.
- Deaf and dumb institute, \$7,500.

The hospitals and other charitable appropriations are left unchanged from present appropriations and the penitentiary appropriation remains the same; also territorial officers' salaries remain unchanged. The miscellaneous fund is the same, with a few minor items.

Section 29 gives the mounted police \$25 additional pay for railroad fare and contingent expenses.

The bill also provides a levy by the territorial auditor in excess of fourteen mills.

It provides a bond issue of \$27,000 for permanent improvements at the educational institutions, as follows:

- University of New Mexico, \$30,000.
- Military institute, \$17,000.
- Normal university, Las Vegas, \$16,000.
- Normal school, Silver City, \$16,000.
- School of Mines, Socorro, \$15,000.
- Agricultural college, \$16,000.
- Miners' hospital, Raton, \$10,000.

The house then took a recess until 3 o'clock this afternoon, when the bill was reported immediately to the council.

In the council the appropriation bill was taken up at once, on motion of Mr. Sargent, under suspension of the rules. Sargent moved to amend the bill to insert for the bureau of immigration \$4,000 for contingent expenses, and \$1,500 for salary of clerk or secretary; also \$3,000 for salary of the attorney general, salary for fish and game warden and other minor amendments. These amendments were adopted and the bill passed the council by unanimous vote.

The house is deserving of the highest credit. It is due to the efforts of the house that the present legislature passed an appropriation bill of any kind whatever, and it is also due to the diplomacy and to the stand taken by the house members that the council consented to act on the bill. It is not known whether the governor will sign the bill or not; but if he does not, the legislature has done all it possibly can do.

#### Taken Up in the Council.

House bill No. 169, relative to new school districts, was passed by unanimous vote.

House bill No. 186, relative to the sale of liquor to Indians, was passed by unanimous vote.

The general educational bill was reported by the committee on territorial affairs. Mr. Miera, chairman. The committee recommended that the bill be amended to strike out the educational qualifications for county superintendents and substitute a modifying educational qualification bill. The bill will be considered later in the session, probably tonight.

The council then took a recess until this afternoon.

#### In the House.

Last night the house took action on a number of council bills, there being no opposition to any of the measures, and a number of other measures will be taken up and acted upon in both the house and council.

#### Afternoon Session—March 19.

The house reconvened at 2:30 o'clock. Speaker Baca in the chair. The chief clerk read the roll, and answering present.

A message from the council was received, announcing the passage by the council of council substitute for house bill No. 142, the general appropriation bill. This bill was taken up at once on motion of Mr. Holt, and was tabled indefinitely by the house. Mr. Hudspeth objecting. Mr. Holt then moved that a conference committee be appointed by the speaker to meet with a like committee from the council to draft a new appropriation bill. This motion prevailed and the speaker being given time to consider his appointment.

The house then resolved itself into

a committee of the whole and considered the special committee's report on the new election law. At 3:30 o'clock the committee of the whole arose and the speaker convened the house. He announced the appointment of the following as members of the conference committee: Mr. Abbott, of Santa Fe, chairman; Mr. Sanchez, of Taos; Mr. Galego, Mr. Beach and Mr. Studley.

The committee on enrolled and engrossed bills reported a large number of bills previously passed as properly enrolled and engrossed. The report was adopted and the speaker signed the bills.

Mr. Holt then suggested that the speaker should name a conference committee of three, one from each house, to consider the bill. The speaker appointed Mr. Holt, Mr. Abbott, of Colfax county, and Mr. Al-drich, as members of the committee.

In order to give the two above named committees a chance to meet the house went into recess until 4 o'clock.

When the house reconvened the election law, known as house bill No. 329, was taken up. Mr. Beach moved that as 79 out of the 171 sections had been read, and as the bill had been carefully drawn, the reading of the remainder be dispensed with, and that Mr. Mirabal report the same to the house favorably from the committee of the whole. This motion prevailed. The report was adopted and the bill without further reading passed the house. It is hardly probable that it will reach the council in time to allow that body to examine it, as it will likely wish to do, and take action thereon before final adjournment.

Mr. Holt created considerable merriment by moving that the joint conference committee be discharged with honor. Mr. Beach amended to extend a vote of thanks to the committee, which amended motion prevailed. The following special order recommended by the steering committee was then taken up: Council bill No. 15, without recommendation—an act to change the county seat of Torrance county to Willard was read by title. Mr. Abbott of Santa Fe moved to table the bill indefinitely. Roll call was demanded, the vote being 12 to 42 and the motion being declared lost by the speaker. Mr. Holt moved that the bill be read preparatory to its passage. Mr. Abbott of Santa Fe moved to amend to table Mr. Holt's motion indefinitely. This motion prevailed by a vote of 13 ayes 10 nays, and Mr. Holt's motion was declared tabled, the house thereby refusing to pass the bill. Mr. Abbott of Santa Fe moved that the vote by which the motion was tabled be re-considered and the same be tabled. The motion was lost, the vote being again 12 to 12, the speaker deciding.

Mr. Beach then moved to defer action on the bill and make it special order for Wednesday at 10 a. m. This motion was lost by viva voce vote. This probably ends further consideration of the attempt to change the county seat of Torrance county.

Council bill No. 45, relative to assessment of bank stock. The bill upon motion of Mr. Holt seconded and carried, was considered, read the third time in full. Mr. Mullens offered an amendment, which was tabled by a vote of the house. The bill then passed.

(Continued on Page Five.)

# YOUNG BLOODS SUFFERED MOST IN STOCK FURRY

## Youthful Scions of Wealthy New York Families Financially Crippled by Heavy Declines Due to Bear Raids in Wall Street.

New York, March 21.—Following the cessation of the hysteria which occurred last week in the stock market, Wall street has learned that among the chief sufferers in the collapse of security prices is the younger element of many of New York's best known families. Never before, so well informed bankers say, have the young and speculatively inclined of Wall street as has been the case within the last few weeks.

Rather definite statements were made concerning the stock market operations of three young scions of some of the wealthiest New York families. According to statements made in Wall street the particular favorite of this coterie was Union Pacific common stock, around which the great financial storm of last week broke.

Older members of the Union, Knickerbocker and Metropolitan clubs state that their junior fellow members, the sons of wealthy fami-

lies, have lost in the recent Wall street slump anywhere from \$250,000 to \$500,000 each. The bulk of this money was lost either in Union Pacific or the Hill railroad shares, Great Northern and Northern Pacific.

It will be recalled that Newport last August was a scene of great festivity among the younger element of New York's wealthy families, all of whom apparently had received the information of the great Union Pacific dividend coup in advance. The stock jumped 49 points following the announcement of that dividend and many millions were made as a consequence.

Not content with taking their profits, the young men abandoned their conservatism and plunged deeply into the office of ticket-taker, also heads in Union Pacific that the stock would sell at more than \$200 a share. The stock never reached that price, but has slowly been declining until it reached the toboggan slide last week, when it went down with a terrible crash.

## ILLUSTRATING STORIES OFTEN HEARD

## U. S. SENATOR STONE SAYS JAPAN WANTS PHILIPPINES

### Sending Fleet to Wipe Japan From Sea Hugs and Costly Task.

## ARCHIPELAGO COULD BE SEIZED IN ONE WEEK

Kansas City, March 21.—United States Senator Wm. J. Stone, in the course of a speech here last night, at the monthly dinner of the Knave and Fork club, said:

"If we are to have serious trouble with any nation it will be with Japan. Japan wants the Philippines. I am not sure it would not be best for all concerned if she should get them; but one thing is certain and that is she will never get them with our consent. Japan could seize the archipelago in a week and we would be reduced to sending over a big enough fleet to wipe Japan from the sea, and that would be a huge and costly task."

## FORMER COURT CLERK SENTENCED ONE YEAR

Columbus, Ohio, March 21.—Charles G. Irwin, former clerk of the justice court of this city, who was indicted on three counts for embezzlement, pleaded guilty today on one count and was sentenced to one year in the penitentiary and a fine of \$450.

## BRIGADIER GENERAL WINT DIES IN PHILADELPHIA

Philadelphia, Pa., March 21.—Brigadier General Theodore J. Wint, U. S. A., commanding the department of Missouri, with headquarters at Omaha died suddenly at his hotel here today. He came to Philadelphia for medical treatment, and was 62 years old.

## BENEFIT PERFORMANCE FOR EMIL SELVA

Patterson, N. J., March 21.—Emil Selva, acquitted of the murder charge on which he was so long imprisoned in France, is now in Italy, anxious to return to this country and his friends, in order to raise funds to bring him here and to give him a fresh start after his terrible experience in madhouse and prison, Henry Weismann, the man who managed Selva when he was in France, has arranged a big benefit for tonight, for which a large number of tickets have been sold. A fine performance will be given. Tom Sharkey will be present, and all the office of ticket-taker, also a number of first class boxers will perform, all to be referred by the only Bob Fitzsimmons. The response is sure to be very generous.

## BOOR LAND NOW HOLDS RAILROADS WILL TEST FIRST PARLIAMENT-CONSTITUTIONALITY STATE LAW

### Nicaragua Whips Forces of Salvador and Honduras Combined.

## MORE ENGLISH WOMEN SUFFRAGISTS TO JAIL

Pretoria, Transvaal, March 21.—The first parliament of the Transvaal colony, under the newly granted constitution, met here this morning. In a speech at the opening of the legislature the Earl of Selborne, high commissioner of South Africa, dealt with all the important questions of Chinese labor, and declared that the employment of Chinese labor in the mines shall cease at the earliest possible moment. As to the Chinese already employed, steps will be taken for their repatriation at the end of their indenture. Excepting a small number whose indenture expires in June, no indentures expire before August.

## THREE DAYS BLOODY BATTLE FOUGHT IN NICARAGUA

Paris, March 21.—The following was received by the Nicaraguan legation from the minister of foreign affairs of Nicaragua. Five thousand Salvadoreans and Hondurans were decisively defeated at Portillo de Namiasque, after a bloody three-days battle.

## SUFFRAGETTES GO TO JAIL FOR SEVERAL MONTHS

London, March 21.—Seventy-six suffragettes, who were arrested for brawling in the precincts of parliament, were sentenced this morning to fines or from a fortnight to several months of imprisonment. They all elected to go to jail and were taken away amid the mingled cheers and jeers of the crowds outside the police court.

## PRINCIPAL FEATURES OF OLD AGE ANNUITIES BILL

Ottawa, Ont., March 21.—The principal features of the bill submitted to the senate by Sir Richard Cartwright providing for the establishment of a system of government annuities shall not be made in favor of any person other than the actual annuitant, nor for any larger amount than four hundred dollars a year, the total amount payable by way of government annuity or government annuities to any annuitant shall not exceed the sum of four hundred a year, nor shall any government annuity be paid to any annuitant until and unless that annuitant has reached the age of sixty years. The minister may refuse to contract for any government annuity in any case where he is of opinion that there are sufficient reasons to prevent the same. The annuitant in any contract for a government annuity shall not be transferred, either at law or equity, and the annuity shall not be affected by notice, however given, or any trust in any way affecting any government annuity. The interest in an annuity is exempt from any bankruptcy proceedings, and cannot be seized or levied upon. In case of the death of any annuitant before the time at which a government annuity becomes payable to him, all moneys paid to him in consideration of such annuity shall be paid to his heirs or legal representatives, with interest at three per cent.

## YUMA LOSES; FLORENCE WINS

## ARIZONA LEGISLATURE MAKES APPROPRIATION FOR MOVING PENITENTIARY.

Special to The Evening Citizen.  
Phoenix, March 21.—An important bill providing for the removal of the territorial penitentiary from its present location to Florence passed the Arizona house yesterday. The bill carries an appropriation of \$120,000 for the purpose and it is believed that it will pass in the council practically without opposition.

# IN CALIFORNIA SPECIALISTS IN PROSECUTION AFFIRM

## FLOOD RUN FEARFUL

### San Francisco Is Cut off by Rail From All Directions.

### SANTA FE IS LEAST OF ALL IN DAMAGE

#### Clark's Road Suffered \$2,000,000 In Loss and May Seek New Route For Line.

San Francisco, March 21.—Owing to floods in many parts of the state there is practically no railroad communication between this city and other points, north, south or east. No trains left or arrived this morning and the officials are unable to state when the schedule will be resumed. The rivers in the northern part of the state are falling rapidly, although the town of Yuba City in the Sacramento river, in Yuba county, is still completely under water. The city of Sacramento has suffered no damage and is taking care of many flood refugees. At Stockton the flood is over and business has been resumed. The damage there is not yet estimated but will be very heavy.

#### LOSS EQUALLY HEAVY IN SOUTHERN PART OF STATE

Los Angeles, March 21.—For the first time in ten years rail communication with San Francisco and the north was severed today as a result of numerous floods and washouts. All the transcontinental lines are affected, the Santa Fe suffering the least. The Salt Lake line is in worse shape than ever. For weeks through traffic on the Clark road has been suspended, owing to the destruction of eighty miles of roadbed in Meadow Valley canyon in Utah. Notice has been received of rain again falling there and that the road cannot be restored in months. The damage is already in excess of \$2,000,000. The management is reported as considering the making of a new survey and the entire abandonment of the damaged portion.

#### MEN ACCEPT TEN PER CENT INCREASE AND GO TO WORK

Hammond, Ind., March 21.—The strike at the plants of the Republic Iron & Steel company, and at the East Chicago, was ended today. The men accepting ten per cent increase. All the men returned to work.

#### GRAFT TRIALS PROGRESS AT SAN FRANCISCO

San Francisco, March 21.—The grand jury met at 10 o'clock this morning and resumed investigation of the alleged telephone graft. Although twenty-seven indictments had already been secured in connection with granting a franchise to the Home company, and the fight made by the Pacific States company against it, during which fight the alleged supervisors collected \$62,000 from the two companies, General Service Agent Burns declares the probing of the telephone scandal has but commenced. Sixty-six indictments have been returned against Abraham Ruef and his bond has been fixed at \$600,000 on these counts. Alleged corrupt city fathers will be removed from office if they do not resign, but as yet no public indictments have been returned against them. In reward for their confession they probably will receive lenient treatment.

#### NEW MEXICO LANDS ARE RESTORED TO ENTRY.

Washington, D. C., March 21.—The president has modified his order of March 12, and restores 2,000,000 acres of coal land to public entry, in the land offices of Santa Fe, Roswell, Clayton and Las Cruces.

The president signed the commission of Robert E. Wherritt as postmaster at Clayton. C. Martinez has been commissioned as postmaster at Guadalupe.

#### Metal Market.

New York, March 21.—Lead quiet, 66@68; copper quiet, 25@26.

# TRAINMEN OF WESTERN ROADS READY TO STRIKE

## Reject Compromise Offer of Managers. Refuse to Arbitrate and Decide to Walk Out Unless Their Demands Are Granted.

Chicago, March 21.—Trainmen and conductors on all railroad lines west of Chicago have rejected the recent offer of the general managers of the systems for an increase in wages, according to information reaching the Record-Herald. The official canvass of the referendum vote which have been in progress for a fortnight, will begin tomorrow.

It is stated further that the trainmen have voted to strike if their demands are not granted. Unless the railroad managers offer further concessions a strike of 50,000 men is likely to result.

When the conference between representatives of the employees and the companies adjourned February 2, it was with the understanding that another conference would be held after the men had voted upon the managers' offer. This second meeting is expected to be held next week. The managers have already offered to submit the entire controversy to arbitration, but it is stated that this proposition has also been rejected by the voting members of the unions.

The offer, which the men are said to have rejected, was for an increase of 10 per cent to men in the freight service and of \$10 a month to conductors, \$6 a month to baggage men and \$5 a month to brakemen. The men originally asked an increase of 15 per cent with an eight-hour day, on through freight trains, but later these demands were reduced to an increase of 12 per cent and a nine-hour day.

It was explained to the men when the vote was started that a verdict rejecting the offer of the railroad managers would carry with it a strike vote.

As the matter now stands, the strike vote has been carried, but no order to quit will be issued until further efforts to reach an adjustment have been made.

### Seven Alienists Give Their Affidavits to be Used in Argument.

### SAY THAW NOW INSANE, SHOULD NOT BE RELEASED

#### Also Testify Thaw Knew Nature and Quality of His Act in Killing White.

New York, March 21.—Seven alienists employed by Jerome in the Thaw case today signed affidavits for presentation to Judge Fitzgerald in an argument this afternoon for the appointment of a commission in lunacy to examine Thaw.

The six alienists in their affidavits declare that Thaw was suffering from paranoia; that he should not be discharged from custody; that if he should be discharged he would be dangerous to the public peace and safety, and that it is reasonably certain that he will never recover.

The seventh alienist, Dr. Harish, agreed with his colleagues except that he declared Thaw cannot possibly recover. The document includes also an affidavit by Irving S. Cobb, reporter, describing a note given him a few weeks ago by Thaw, in which Thaw commented upon his wife's testimony and upon the conduct of the prosecution.

The affidavits signed by Drs. Flint, Mahon, McDonald, Pritchard, Ferris, Harish and Diffendorf, alienists, declare under oath that Thaw was the nature and quality of his act in shooting Stanford White.

#### Judge Takes Bench.

Justice Fitzgerald took the bench at 2:05 this afternoon to hear the affidavits regarding the Thaw lunacy commission. Thaw was not in court.

#### Discredited Gleason Gets Back.

John B. Gleason, of counsel for Thaw, said today that Delmas is responsible if the commission is appointed, as it was he who called Dr. Hamilton to the stand and told Jerome to go ahead and ask the witness anything he wished to. Delmas said he would gladly assume all responsibility.

Daniel O'Reilly, of the Thaw counsel, said today that Thaw's counsel has no doubt of being able to convince the court or the insanity commission of Thaw's sanity. He said that each one of the counsel would submit an affidavit to the effect that Thaw had been during the trial and is now capable of advising with his attorneys.

#### Delmas in Saddle Again.

After Jerome had presented his affidavits he said he would like to introduce the testimony of Dr. Hamilton. Delmas said he had not been served with the affidavits prepared under the direction of the district attorney until 12:15 this afternoon. He wanted more time to prepare an answer. He objected to any further examination of Dr. Hamilton by Jerome and Judge Fitzgerald refused to permit the examination.

The hearing was then adjourned until tomorrow, when the jury will be sworn and the examination of Dr. Hamilton allowed both sides until Saturday afternoon to present additional affidavits.

#### BRITISH STEAMER WAS BEACHED AFTER INJURY

Hakodate, Japan, March 21.—The British steamer Fernley from Tacoma, February 10, for Takau, has been beached near here after having sustained extensive damages. It is supposed that she struck a floating mine in the straits of Tsugaru. Divers are examining the vessel. The straits of Tsugaru are between the main island of Japan, Honshu, and the northern island of Hokkaido. The straits had to have been carefully mined during the war with Russia.

#### CARNEGIE HALL'S LAST SYMPHONY CONCERTS.

New York, March 21.—Carnegie Hall's last two concerts will be given tonight and on the 22nd. On this evening's program is the three part symphony piece by Claude Debussy, entitled "The Sea."

## PHILADELPHIA'S REMARKABLE PREACHER

Ministerial Record Not Only  
Phenomenal But Absolute-  
ly Without Parallel.

THREE DAUGHTERS OF  
REVOLUTIONARY SOLDIERS

Wealthy Woman Prisoner in Ala-  
bama Is Allowed Telephone  
In Her Cell.

(By Frederic J. Haskin.)

Russell H. Conwell, the pastor of the Temple Baptist church, in Philadelphia, the largest church in the world, has turned his diversified genius to many accounts. Besides preaching to a record breaking crowd every Sunday, he is the most popular lecturer on the platform and is acknowledged to have spoken to more people than any other living man. He has filled 6,000 lecture engagements, one of his subjects having been given on 3,000 different occasions. Between times he has served through the civil war, built up a flourishing law practice, studied theology, built a university and a hospital, and laid to his credit more individual charities than any other preacher in America. He is a genuine apostle of strenuousness.

It has been said of him that he can lecture a year without disclosing the fact that he is a preacher, and can preach six months without letting one discover that he is a secretary. He once heard of a man in his congregation who had failed at the trade of bookbinding. Instead of offering spiritual consolation, he studied the art of binding books, and preached a sermon on it, which has been preserved as an authority on the subject. This also served to put the unfortunate bookbinder on his feet again. He is now a man of comparative wealth, and he accredited it to that sermon. His methods, simple of Mr. Conwell's methods. His university was originated as a free high school for working men, until its growth necessitated its present commodious buildings. His Samaritan hospital is built entirely from subscriptions he solicited and portions of his Sunday collections. His congregation at Temple Baptist church each Sunday outnumbers any other congregation in America.

More than 50,000 women in the United States trace their ancestry back to some brave officer or soldier or sailor who rendered valiant service for the colonies in the time of the revolution. Although it is 124 years since Washington disbanded the last of his army, there are a few real daughters of the revolution still living—daughters of men who saw actual service. Of these there are three on the pension list, being pensioned by special act of congress. Mrs. Sarah C. Hurlbutt, of Little Marsh, Pa., is eighty-nine, the daughter of Elijah Weeks, who served two and a half years in a Massachusetts regiment. Miss Rhoda Augusta Thompson, of Woodbury, Conn., aged eighty-six, is the daughter of Thaddeus Thompson, who served six years in a New York regiment. Mrs. Elmer M. Palmer, of Talleite, N. Y., aged eighty-six, is the daughter of Jonathan Wooley, who served two years in a New Hampshire regiment. It has not been long since the last pensioned revolution or widow died. This was Esther S. Damon, of Plymouth Union, Vt., who died last fall at the age of ninety-two. She was the widow of Noah Damon, private in a troop of Massachusetts volunteers.

There were three survivors of the Bennington disaster at San Diego, Cal., who are not recorded in the official report sent to the navy department, though news of their safety was the first received from the scene of the wreck. They were the pets of Commander Lucien Young, a little white deer, an Angora cat, and a sleek little fox terrier puppy, now grown to manhood with the weight of his trying experience. These three little companions were with Commander Young on every voyage, and each had developed a fine pair of sea-legs, equal to any emergency short of an actual explosion under the decks. Needless to say the animals were petted and spoiled by every one abroad, from the commander to the middies. When they were found unharmed after the explosion, Commander Young telegraphed his wife, "John and I and the three babies are safe." "John" is Commander Young's old servant, who goes with him on voyages.

Three American families are the proud possessors of sacred scarabs from Egypt, not the usual kind that any tourist with plethora pocket-book can buy from the Arabs at the foot of Cheops, but scarabs that at one time adorned the neck of no other than that great potentate, Ramesses II, the Pharaoh of the Oppression. These scarabs were secured by the late Charles Dudley Warner, who was present at the opening of the famous tomb about twenty years ago, when the famous Pharaoh mummy was exhumed.

He furnished some of the funds for the work, and as his share of the royal spoils took the three scarabs that hung on a cord about the neck

of this proud king who had driven the Israelites into exile many weary centuries before. The three roughly carved beetles of some black stone were taken by Mr. Warner and set in rings made from a lump of virgin gold that had been given him by a friend in Mexico. One of these rings he kept, and it is now a treasure valued by his heirs; the second he gave to Dr. H. B. Storer, of Richmond, Va., and it is now the property of his widow, who uses it as a most unique stamp for her personal letters. While the third was given another friend, Thomas Nelson Page, the creator of "Meh Lady" and "Marne Chan."

Mrs. Yolande Degg, confined in a county jail in Alabama, sentenced to a twenty-three year term of imprisonment for manslaughter, devised numerous ways of beguiling the tedium of her enforced retirement. The most unique idea is to have in her cell a private telephone, by means of which she can talk with her friends whenever it pleases her. Mrs. Degg has appealed from her sentence, and expects to be liberated soon. Having the wealth and political power, she has been granted many privileges not ordinarily the lot of prisoners. They say she keeps the operator busy with her numerous calls. It is the only instance ever known where a telephone has been put in a prison cell.

A visit to Boston is never complete until one has gone to Cambridge to see the former home of Longfellow. It stands on a lot terraced up from the street just as it was built long before the revolution, when it was the home of the Craigs. Later it passed into history as the headquarters of General Washington when he was in Boston, and still later as the house of the most popular of all American poets, Henry Wadsworth Longfellow. It is now the property of his unmarried daughter, Miss Alice Longfellow, who is the "brave Alice" of the famous poem, "The Children's Hour." The other daughters, "laughing Allegra and Edith with golden hair," were married some years ago, and went to live in homes on each side of the old Craigs mansion.

The fair chateleine of the famous home has kept it almost the same as it was when her father died. In summertime she may be seen dressed in white, moving slowly over the beautiful kept lawn, or through the great rooms hallowed by the presence of the children's poet. She has kept the old clock on the first landing of the stair, and it recalls the one her father knew when he heard the refrain "Never, forever, never," and wrote a poem about it. His study she keeps just as he left it, and shows intimate friends the chair that the children of Cambridge gave him, the chair made from the "spreading chestnut tree," under which the "villainous blacksmith" had his shop and quaint forge.

A good story comes from Montana which shows the shrewdness of business methods of James J. Hill, the great railroad magnate. In the early nineties Hill and Marcus Daly completed the Butte, Anaconda & Pacific railway from Butte to Anaconda. This little "jerk water" line was an exclusive road, and the owners were experimenting to ascertain the best equipment for handling the Anaconda output. At this time the Union Pacific was putting in some brand new steel gondola hopper cars, which were admirably adapted to this class of traffic on account of their great strength and quick, easy method of unloading. Hill conceived the idea of making a test by having one of the cars for his own use. He arranged to have a string of them taken up on a hill at Butte, and turned loose down a 15 per cent grade. Part of them were loaded and part empty. The wreck was a success, and so were the cars. They stood the shock so well that Hill ordered 250 of the same type, many of which are still in service.

Seldom has a book had such an appropriate title as Quila's "Two Flags," but the novel was written and hung fire in the publisher's hands for a month, because the author could not name it satisfactorily. A dozen titles had been suggested and rejected when one day her little niece ran up to her gayly waving a flag in each hand. "See," she said, "I shall call you first under this flag, and then under this." As Quila was kissed under the French and American flags, the idea came to her to call the new book "Under Two Flags." It is so well named that one would think it just named itself.

What  
does

Sutton, ex-champion at 18.1 balk line  
billiards, are to tour the country.

New world's record made at west-  
ern bowling tournament, Denver,  
when Voght and Everhardt rolled  
1,289.

The boxing game has been killed  
in Omaha. An athletic club gave a  
few exhibitions, but was closed by  
the police.

Many a pitcher will be sorry to  
hear that Lumley, the hard hitting  
first baseman of the Brooklyn Na-  
tionals, has finally signed.

The White Sox's decisive defeat of  
the Mexican champions, 12 to 2,  
gives them an added right to the  
world's championship title.

Intercollegiate sports at Harvard  
are not to be abolished, but ex-  
travagance in management must be  
stopped.

Young Bowen, who fights at 115  
pounds, has set a new ring record at  
Philadelphia. He was knocked out  
in 20 rounds by Jack Fogarty.

Jockey Tommy Walker tells at  
Toronto, Can., he has inherited  
\$700,000 from a Spanish uncle.  
Probably this is only another "Cas-  
tle in Spain."

Jockey Shilling, star rider at Hot  
Springs, set down for remainder of  
meet, because he struck rival jockey  
during a race.

Hughes Jennings is gaining an  
ante-season rep as a manager. Play-  
ers are enthusiastic in praising his  
advice to Yankees and vets.

Western rowing regatta on Lake  
Mendocino, ascertained since University  
of Wisconsin students have raised \$1,-  
000.

The baseball world will be glad

ber of entries of national tourna-

STOPS TRAINING TO AD-  
VISE AMATEURS HOW  
TO BAT

HOT DOPE FROM WILLIE KEEL-  
ER'S BAT ON WHAT A SLUGGER  
MUST DO AND WHAT HE MUST  
CUT OUT.

Atlanta, Ga., March 21.—No mem-  
ber of the New York American team  
in training here excites more com-  
ment than Willie Keeler. Griffith's  
hard hitting outfielder. He is per-  
haps the most scientific batter in the  
American League, and a crowd of  
amateurs always watch him when he  
takes his turn at the stick.  
Last year Keeler batted at a .364  
gait in the 152 games he played, and  
lacked but one point of tying the top-  
notchers in the fielders.

For the readers of the Evening

KEELER AND HIS FAVORITE  
BAT READY FOR ANY OLD KIND  
OF A BALL.

Citizen Keeler has given in concise  
form his idea of what would be slug-  
ger's should keep in mind when they  
step up to the plate. Keeler says:

NEVER  
"Draw back your foot and step  
away from the ball."  
"Bend the back foot or shift its po-  
sition as the ball approaches."  
"Lunge at the ball as if trying to  
make a home run."

ALWAYS  
"Strike at every ball that is thrown."  
"Rubber at the other players."  
"Lose your nerve after two strikes."  
"Wait for instructions if you see a  
chance to win the game."

Watch the ball so it will not pop up  
in the air.  
"Step into the ball and meet it with  
your whole weight on your front foot.  
This puts your whole weight into the  
blow."

Hit the ball from the time it  
leaves the pitcher's hands.  
"Hit at the good balls only. Don't be  
too anxious. Wait and you can  
rip out the good ones."  
"Get into your position quickly  
when your side is out. Show life."

ment at Philadelphia. Eastern tourna-  
ment has 129 five-men teams, 289  
doubles and 487 singles.

Philadelphia Nationals are trying  
out twelve pitchers. All of them are  
to be given a chance to show why  
they should not be sent to the minors.

Jim McGuire, New York American,  
who has been catching in big leagues  
for over a score of years, is tipped  
as a coming ax victim. The signing  
of Branch Rickey is the sign on the  
wall.

George Hackenschmidt, champion  
wrestler of the world, has written  
from London that he will not come  
to America until 1908. Kansas City  
has offered \$10,000 for a match be-  
tween Hack and Frank Gotch.  
American champ.

Latest fight "pipe" is that Jim Jef-  
fries, the best of them all, is broke.  
Worse than that, it is claimed, his  
wife refuses to give him any more  
money. For these reasons he is said  
to be anxious for another fight.

Mexico has failed to enthrone over  
baseball. Compared with bull fights,  
the American game seems tame to  
the Mexicans, and they are slow to  
give up their coin at the fair game.  
Those who do go appear to think  
baseball is a dull sort of an amuse-  
ment. Comiskey says he did not  
take the Sox on the trip to make  
money, but to reward them for win-  
ning the world's championship.

Found at Last.  
J. A. Harmon, of Idemore, West  
Va., says: "At last I have found the  
perfect pill that never disappoints  
me; and for the benefit of others  
afflicted with typhoid fever and  
chronic constipation, will say: take  
Dr. King's New Life Pills." Guar-  
anteed satisfactory. 25c at all deal-  
ers.

FIRST AMERICAN SUF-  
FERER FROM GRIP HAS  
IT AGAIN

THEY TOLD HIM HE'D GO  
CRAZY IN 1882, BUT HE'S GET-  
TING WELL FROM A 1907 AT-  
TACK.

Rahway, N. J., March 19.—Henry  
Kipp Woodruff, the man who had the  
first case of grip diagnosed as such in  
America and who was a novelty to  
the physicians far and near in 1882,  
has had it again. He is convalesc-  
ing now.

"They declared that I would be a  
raving maniac when I first had the  
grip," said Mr. Woodruff when he  
dressed and came down stairs to pose  
for his picture for the correspondent  
of this newspaper.

"I was a sergeant of the police in  
New York City at that time and no-  
body in America ever had such a thing

HENRY K. WOODRUFF.  
The First American Sufferer From  
La Grippe. He was At-  
tacked in 1882.

as the grip. When I was taken ill the  
disease was making great havoc in  
Russia and the newspapers were full  
of it. Some of them called it the grip  
and some la grippe. My symptoms  
were found to be like those of the  
Russians, who were going crazy by  
the thousands.

"The doctor who first came to see  
me could not tell what was the mat-  
ter. Neither could the second, and  
nobody could for a time. Then the  
reports from Russia seemed to be so  
like my case that they said I had the  
grip and would inevitably go mad.  
Not much!

"They told me I would begin to go  
crazy and would know it myself. Well,  
I thought at first that they were. But  
after a day or two I began to figure  
out that it was the quinine that they  
were giving me.

"This time I have the grip all right,  
but not a very severe case of it. I am  
about well now—and not crazy—be-  
cause I say that.

### TRY THIS FOR CATARRH.

Get the following from any  
good prescription pharmacy  
and mix by shaking well in a  
bottle: Fluid Extract Dandel-  
ion, one-half ounce; Com-  
pound Kargon, one ounce;  
Compound Syrup of Sarsapa-  
rilla, three ounces. Take a  
teaspoonful of this mixture  
after each meal and again at  
bedtime.

This harmless Vegetable  
Prescription, while simple, in-  
expensive and easily prepared  
at home, is said to readily re-  
lieve Catarrh, and if taken a  
few doses occasionally, will  
prevent an attack during the  
entire season. Try it, anyway.

## FRENCH INCOME LAW

According to an exchange, France, the home of industry and thrift, and of political experiments, is proposing a new solution of the taxing problem. A measure treating of national finance has been introduced into the assembly which would base all taxation on earnings or income.

Heretofore the more advanced nations have made of the income tax merely an emergency resource or an auxiliary, but the French now propose to make it the one and only source of national revenue. It was promised in advance that the law would avoid that most unpopular feature of this form of taxation, the apportioning of private affairs.

But that inevitable result in practice in all income tax systems is found here in the extreme. It provides ultra methods of discovering what individual earnings are, and is inquisitorial beyond any measure ever before attempted.

The day laborer's earnings of the previous year are made the basis of his present tax, though he may be out of employment or on a strike. Even a man's house may be searched to find if he has made a false return of his property.

In general the income of every citizen is listed. This includes returns from rents, from investments at home or abroad, wages, salaries, the profits of merchandise and tradesmen, earnings from farms, annuities or pensions, from art or any other source, and no one runs any revenue-earning property is supposed to escape.

An income of \$1,000 will pay \$2; \$2,000 will pay \$25; \$4,000 will pay \$88; \$8,000 will pay \$252, while all amounting to over \$20,000 will pay 4 per cent. But this is merely a minor and additional tax.

Incomes on lands, buildings and securities will pay 4 per cent; commerce, manufacture and agriculture will pay 3½, and wages, salaries, pensions and professional incomes 3 per cent. These reach to every individual citizen, even the day laborer.

Under this system double and often treble taxes will be paid. It does away with all the valorem taxes, the much-disliked tax on doors and windows and other antiquated and offensive forms of taxation, such as the numerous forms of licenses for which France has been conspicuous.

This new system must supply \$20,000,000 heretofore received from the direct tax on lands; nearly as much more which came from buildings; \$28,000,000 from licenses, and \$13,250,000 from doors and windows, while preserving the old returns from incomes, which was large. France evidently proposes to illustrate the limit of the possibilities of the patience of a people.

## MENACE TO NEW MEXICO

The following is taken from the Denver Field and Farm, and shows that what little of the waters of the Rio Grande Colorado has left us, will probably be soon still further reduced. Whether or not a remedy can be found, it is well enough to know what our danger is. Says the Field and Farm:

After a great many years of nonsensical delay in which the cloven hoof of the politician was seen around the edges, the government has revoked its order forbidding individuals and companies filling reservoirs on the Rio Grande and tributary streams in Colorado. As a result of this final come-down a dozen reservoirs will be built in the San Luis valley and 200,000 acres of land will be redeemed. The change in the attitude of the department of the interior will mean millions of dollars to this state. The order was first formulated upon the complaint of Mexico that we were taking so much water from the Rio Grande that farms along the river in Mexico were being destroyed. After a brief inquiry the government forbade the making of any more fillings for reservoirs on the Rio Grande. We went to Senator Teller at the time and filed a complaint against this injustice and he advised us to pay no attention to the order, but to go ahead with the development of the country and we notified our friends to this effect. The result of the government's reversal at this time means that the San Luis valley will again come into its own and the whole country will soon be alive with the spirit of improvement and increased settlement. Thousands of new acres will be brought under irrigation which will increase the population of the valley.

## CONDITION STATED

It is probable that the supremacy of the republican party in New Mexico is more vitally endangered today than at any other period in the life of the party in this territory. As The Citizen said yesterday, discord blighted the prospects of the best legislature assembled for years, but that is the least of it. The point apparently has been reached when such discord must cease, and the republican party must present a united front to the foe. But, demanded as harmony is, there can be no harmony in which the majority must submit to the minority. There may be compromise, but even a self-respecting dog would not let his tail wag him.

Of course, the democrats are jubilant over the condition which they, aided by a few self-seeking, self-styled reformers, have brought about, but no republican worthy of the name can contemplate conditions other than with mingled disgust and disapprobation. Harmony and energetic party work can alone retrieve the position lost, prevent the damage threatened.

It is said that the railroads of Kansas employ 40,000 people and pay out annually to employees \$22,600,000 in wages, according to the reports of the various companies filed with the state board of railroad commissioners. Thirteen of the fifteen railroads operating in Kansas had made report, showing 34,424 employees at an annual compensation of \$21,798,424.53. The Kansas City Southern and the Burlington, at the time of this compilation, had not yet reported, but it is expected that their reports will swell the total number of railroad employees in Kansas has never reached above 30,000 before. The Santa Fe being the big road of Kansas, with its general offices and principal shops within the state, naturally leads in the number of employees. The Santa Fe works nearly 16,000 people in Kansas and pays them \$8,500,000 annually. The Missouri Pacific is second, with less than 9,000 people, and pays out \$4,500,000 in wages each year. The Rock Island holds third place.

At this writing The Citizen understands that the legislative council last night appointed a committee of conference to meet the similar committee previously appointed by the house, and agree on an appropriations bill. The Citizen also understands that the bill on which the joint committee will agree will be virtually the previous house bill without the riders which that bill contained. This will assure the university here the larger yearly appropriation, as well as the bond issue of \$35,000. It also assures the like appropriation. But the significant fact in the whole matter is that Mr. Sauer, who misrepresents this county in the council, and the clique with which he trains, fought against the appointment of the council committee of conference. If Albuquerque gets these appropriations it will be in spite of her own members of the legislature.

The Wichita Beacon, in recently discussing the bill before the Kansas legislature to create a tax commission, said: "Should the legislature have enacted no other legislation than the Davidson law, providing for and creating a tax commission and endowing it with powers beneficial to the people, the session would have been worth the price. It abolishes the board of railroad assessors, giving into the hands of the tax commission the power to assess the railroads and levy the

tax. In addition to this, it acts as a board of equalization, and in fact its powers are so far-reaching and at the same time so beneficial in their operation that the entire people of the state cannot help but be benefited by this law."

The reformers stripped of their disguise, are shown up in their true light as being out for office only. In scanning the list of the new appointees, it is plain that a large proportion would never be recognized by the republican party in this territory, and it only emphasizes from a political standpoint the seriousness of the joke cracked on a republican by a prominent democrat that the present situation is about thus: "Heads, we democrats win; tails, you republicans lose."

Francis Bacon, greatest philosophical mind since Aristotle, said of envy: "It is also the vilest affection, and the most depraved; for which cause it is the proper attribute of the devil, who is called 'the envious man,' that soweth tares amongst the wheat by night; as it always cometh to pass that envy worketh subtly, and in the dark, and to the prejudice of good things, such as is the wheat." Yet envy is one of the commonest, as it is the most contemptible, of human passions.

The republican party will not down, despite the efforts of certain fake reformers, whose sole purpose seems to be to put the democratic party in power.

The New Mexican said last evening that among the territorial appointments made Tuesday and the day before, "are some that are very good, some that are not so good and some that are wholly improper. More anon and in due course of time."

## KANSAS MILLER TALKS WELL

### OF LONDON GRAIN MARKET

C. B. Hoffman, the Enterprise, Kansas, miller, had been over the water and on his return sent a communication to the Abilene Reflector which is of interest to all interested in grain. In it he says:

In a comparatively small hall, and somewhat dingy, on a street not wider than the alleys of Topeka, is the famous London market familiarly known as Mark Lane. Here there assemble from 10 a. m. to 2 p. m. the flour, grain and feed buyers and sellers of Great Britain. The hall is divided by breast-high partitions into perhaps 150 stalls, occupied by dealers, besides a large central space. Great piles of samples of flour, wheat, barley, speltz, rye, several kinds of peas and beans, splits or whole, prepared chicken, hog and cow feed, dog bread of many varieties, samples of hay, fodder and straw, give the hall the appearance of a great country fair. Here men dicker and trade, buy and sell. Flour and grain buyers from all parts of the kingdom attend, for not only are the products of England on those tables, but the food products of the world, as well. Here are wheat from India, Russia, Australia, La Plata, Canada and our own country. Here are cargoes of the world's mart done in various shades of English hum and buzz for six hours.

Adjoining the trade hall are lobbies where one reads cables from all points of the world. Here are bulletins giving the markets simultaneously at all the important points. The time is June—prices on wheat and corn in Kansas City and Chicago have been advancing for several days because of dry weather in Kansas. "Liverpool and London were reluctantly following." "If Kansas don't get rain by tomorrow I am going to buy Kansas flour—must have it—my trade demands it." "Yes," remarked a miller, "Kansas flour is cutting in on my trade more than any other. Kansas flour has strength, flavor and color. It is rapidly coming to the head of the list. Five years ago Minneapolis patents brought four shillings more than Kansas—today I am lucky if I can get it for six pence less—what's more," he added, looking at me pleasantly, "I don't want to flatter my Kansas friend, but the truth is, it's better flour than the Minneapolis."

I sauntered back to the lobby. Prices on wheat and corn had gone down half a penny—great slump for conservative London—and all because Kansas had cabled: "Copious rain in western Kansas—wheat crop assured—corn doing well."

On all European markets the one product which "stands up for Kansas" is our flour. Our wheat, what little is exported, loses its identity, for which give thanks, for only our poorest goes abroad, but our flour stands out proudly, typical of our soil, our climate and our people.

Kansas flour goes to Cuba, Central America, Mexico, Japan and China. Quite a little is shipped to South Africa, Belgium, the most densely populated country in the world and the heaviest buyer of foreign flour, gets ninety per cent of its American flour from Kansas.

The following comparative tests are interesting and conclusive. At Columbia laboratory, Chicago, during November, 1906, Northwestern Standard Patent taken at 100; Kansas Patent, 101½; test made by United States army expert, Kansas City, Mo., Northwestern Standard, 100; Kansas Patent, 103½.

Having gained this high degree of superiority, what shall we do to maintain it? To make good flour these things are required: Good wheat, good mills and intelligent, competent millers. Without good, sound wheat, free from all impurities and admixtures of rye and of the right variety or kind, good flour can not be made. The farmer holds the key. If he will carefully select his seed, planting only the best varieties of hard wheat, if he will guard against deterioration or running down by frequently getting fresh seed, or raising his own carefully, Kansas flour will continue to command the world's markets.

There are vast possibilities to western Kansas. Millions of acres are better adapted to wheat culture than anything else. Intelligent selections of seed adapted to climate and soil with proper cultivation. (Campbell or other dry farming systems) will make Kansas the granary of the world.

## LOVER'S DECLARATIONS SAYS

### COURT ARE MERELY HYPERBOLE

A simple-minded rural jury down in Iowa some where and somehow conceived the notion that when a man in the throes of love solemnly declared that he would give every dollar he had in the world to make his sweetheart all his own, he meant it.

It was considering the case of one Asa C. Bailey, a wealthy farmer, who had made his vow as to the wife of his neighbor. When Bailey was sued for alienating her affections for her wedded lord the jury was permitted to consider this avowed willingness to part with all his wealth and start in the world again with nothing but his two empty hands and two arms full of her as being more than a passing remark.

But the supreme court of Iowa is composed of men, real men. They promptly, unanimously and with emphasis reversed the lower court, pointing out the absolute folly of presuming that any man ever seriously meant anything he said when in love.

Even when at the altar he swears before high heaven that he endows the object of his affections with all his worldly goods he only means that she is to be his cook, housemaid and seamstress and work for him.

The court holds in this decision, which will thunder down the ages, that when a man uses such terms as those credited to Bailey he is only dealing in diseased imaginations, and is not playing in cold-blooded calculation a fixed value of his desires. He is taking to hyperbole, which is the amorous synonym for lying. It is to be taken neither as the measure of his intentions nor as the measure of the damage occasioned.

If the jury now does exact justice, it will make Bailey take the woman and have the plaintiff pay him compensatory damages.—Duluth Tribune.

## MARIA MARTINEZ SAID TO BE HIDING IN THE CITY

### Police Believe that Friends Are Concealing Her Away.

Mystery in the case of Maria Martinez, the 13-year-old foster child of Pedro Gabaldon, who disappeared from her home in Barajas Sunday afternoon, deepens with the lapse of time.

The girl, who was with her last, is, say the police, the only one who will ever be able to solve the problem, and unless she can be made to divulge the secret it is likely to remain intact for all time.

A clue acquired by the officers today, however, leads to the belief that Maria is yet in this city and that she is being secreted by friends who want her to make good her escape. The girl, who was with her Sunday, says she refused to return home after leaving against her guardian's wishes, and that the last she heard her say was that she would meet a young man named Romero in the park at Twelfth street and that he would take care of her. The girl, however, says she does not know Romero's first name, and in this the police believe she is telling falsehoods and attempting to shield the man who has her.

## DUKE CITY LOOKS GOOD TO MR. THOMPSON

Frank Thompson, the vag picked up by the police several days ago and who was ordered out of town after a term served in jail, is again in town and in the same quarters he quit last when leaving the county jail.

Thompson evidently likes Albuquerque and refuses to leave. Several times the officers have found him again within the city after having hurriedly quit it, and each time they have again escorted him to the city limits and told him to hike. Thompson always obeys orders and will out of sight of the officers, when he would hike back to town again. Today Officer Salazar gave him a buggy ride to the city limits, sent him hurriedly on his way, and then returned to town, only to find Thompson here. The man was given another ride—this time to the county jail.

Thompson is a done fiend—not any particular kind, but any old thing that will quiet his nerves will do for him. It was perhaps because drug stores are too scarce along the way that he dreads quitting this city.

## VARSITY DRAMATIC HAS AN OFFERING

The University predicts to the public an evening of side-splitting fun in the presentation of "Mrs. Bushby's Pink Tea" and "Turn Him Out" at the Casino, Friday night.

Both productions are one-act farces just long enough so that the two, with specialties that have been promised, will fill out the evening well. A number of oil heaters will be distributed so as to keep the hall comfortably warm and a treat is to be expected.

Both casts have been rehearsing diligently and the matter of costumes and details in "make-ups" is being carefully worked out.

"Mrs. Bushby's Pink Tea" presents a thousand and one more funny situations than the name suggests, and "Turn Him Out" is one big laugh all the way through. Following are the casts:

"Mrs. Bushby's Pink Tea."  
Mrs. Bushby.....Margaret Keleher  
Mrs. Dashlight.....Jean Hubbs  
Miss Mary Bushby.....Ruth Goss  
Mrs. Hightone.....Edith Walker  
Mrs. Upperton.....Jessie Mordy  
Mrs. Wisacre.....Josephine Mordy  
Annetta.....Janet Grlson  
Mr. Bushby.....J. Ralph Tascher

"Turn Him Out."  
Mrs. Julia Moke.....Miss Lillian Spitz  
Susan the maid.....Jessie Mordy  
Eugenie Roseleaf.....Kirk Bryan  
Nichodemus Nobbs, vander of wind mills.....Jno. Cannon  
Moke.....Elwood Albright  
Natty pink tickets are out and selling like hot cakes for a quarter.

We do it right, ROUGH DRY. Imperial Laundry Co.

## DISAPPOINTED WOMAN TAKES HER OWN LIFE

Young and Attractive Mrs.  
Bean Prefers Death to Sep-  
aration From Husband.

With money in abundance, excellent health and possessed of an unusually attractive personal appearance, Mrs. Estelle Bean, a young woman of 704 North El Paso street, El Paso, swallowed the contents of a vial of carbolio acid yesterday, after secreting herself in a pile of lumber. As a result she died as the physicians say in terrible agony. The body was found about four hours after her death in the lumber yard by Captain Greet of the Pass City police force, who had instituted a search for the missing woman in response to the request of friends. The body had imbibed enough of the acid to kill a dozen persons and when found her lips and mouth were terribly burned.

Mrs. Bean had been a resident of El Paso for some time. She lived with a Mrs. Carolyn White, the two conducting a well patronized manicure and hair dressing parlor, she had no children and for some reason had been separated from her husband during the last four years. It is believed that this fact had preyed on her mind as to bringing about the rash act of yesterday. Mrs. White, who was her friend as well as her business associate will see that she has a proper burial. It is stated that the husband of Mrs. Bean, is a member of the well known family of shoe manufacturers and that at the present time he is somewhere in the Republic of Mexico. The suicide was but 21 years of age and had many friends, who greatly regret her tragic end.

## CHAS. MYERS DIES IN ST. LOUIS

Typhoid Fever Carries Away  
One of City's Most Influ-  
ential Citizens.

Following less than twenty-four hours after a later announcement of his safe arrival in St. Louis, and his apparent improvement in health, came a message this morning, announcing the sudden death of Charles F. Myers, of this city.

Accompanied by Alderman P. H. Hanley, Mr. Myers left for Alexian Brothers' hospital, St. Louis, ten days ago. Mr. Hanley, who was with Mr. Myers by the local Masonic lodge, of which both men are members. In his letter to Frank H. Strong, which reached here yesterday afternoon, Mr. Hanley stated that they had arrived at the hospital and that Mr. Myers' malady had been diagnosed as typhoid fever. He entered the hospital immediately upon reaching the city and was showing every sign of rapid recovery. The death message came early this morning.

Mrs. Myers was made acquainted with the sad news early this morning and will leave tonight for St. Louis, where the remains of her husband will be cremated. The ashes will then be returned to this city for interment.

The news of Mr. Myers' death comes as a severe shock not alone to the members of his immediate family, but to almost every resident of the city. He was one so well known and who had been closely associated with so many men in business and fraternal circles that his loss is keenly felt in many homes.

Mr. Myers was for two years mayor of this city and during his administration the city enjoyed a very substantial growth and the citizens saw him retire, confident that he had given two years of conscientious service to the welfare of the town. He also served two years as president of the Territorial Fair association and helped to free that association from its burden of debt at that time. He was instrumental in securing the location of the lumber mills for this city and was one of those most influential in making possible the Elks' opera house building.

Among the fraternal orders of which the deceased was a member are the Masons, Elks, Woodmen, Eagles and the Knights of the Macabees. He has held positions of honor and distinction in almost every one of the orders, and he carried considerable life insurance in these orders.

Mr. Myers was a native of the city in which his death occurred. He was born in St. Louis on August 1, 1859. On July 5, 1886, he was married and the year later left St. Louis for Kingston, N. M., where he engaged in the hardware business with a Mr. Wagner under the firm name of Wagner & Myers. Two years later, he came with his family to Albuquerque where he has since resided. Here, he acquired the interest of J. T. Barracough in the E. J. Post company and disposed of it about a year ago, since which he has been retired from active business.

Five children were born to Mr. and Mrs. Myers, four of whom, with the widow, survive. The children are Charles F. Jr., Elsie, George and Anna, all at home, in North Sixth street, Albuquerque. Two daughters, R. H. and John Myers, with the mother, survive and are now residents of St. Louis.

It is not known just at this time what arrangements will be made for the funeral, though it is thought probable that it will be held in St. Louis Sunday or Monday. Mrs. Myers will reach the city Saturday evening and will accompany the remains.

## BERANILLO COUNTY DISTRICT COURT

In the case of Carlos Chavez versus Beshara Baracat, an appeal from the Justice of the Peace court of a suit to recover \$400 for services rendered in handling the collection of certain accounts. The plaintiff testified that part of the bill was for serving processes at Chihuahua and defendant objects to these accounts, claiming that they could only be collected through the name of the sheriff. The principal items were for tips made to the mountain men and at the close of the plaintiff's case, the cause was compromised by the payment of a certain sum, which was not stated in open court.

The attention of the court is occupied this afternoon with the case of Trujillo Bros. against Maximo Griego. R. J. Baracat, appellee, this morning filed suit in the district court against Eduardo Chavez, appellant. The appeal was docketed by the appellant and judgment was taken against the appellant by default.

Jose Trujillo has filed a suit in the district court against Alfredo Sanchez, appellant. The case is one appealed from the justice court. Eduardo Baca and Gaspar Garcia, who assaulted Deputy Sheriff Querino Coulter in the Sanchez saloon, in the last term, have been released on bonds of \$100 each for their appearance before the present session of the grand jury. Coulter was severely beaten, though he is now able to be around. He was on duty as assistant jailer at the county jail when Eliseo Sanchez, proprietor of the saloon in which the fight occurred, called to him to come over and stop a fight that had previously ensued. It was while he was obeying this order that Baca and Garcia assaulted him.

William McClellan has filed his bond in the probate court, required by him holding the office of justice of the peace. The bond is one for \$500 and Charles Melini and James McClellan are the sureties.

**MORTUARY**  
Roy Gasher, an employee of the Gray Construction company, now operating at Belen, died at the sanitarium in this city last night, where he was taken a few days previously, suffering from complications. After a short funeral service in Strong's chapel tomorrow morning, the remains will be interred in Fairview cemetery.

Leroy George Armitage, the five-month-old son of Mr. and Mrs. Edwin P. Armitage, of 409 North Twelfth street, died at the home this morning. The funeral will be held at the home tomorrow afternoon, conducted by Rev. Conner, and interment will take place in Fairview cemetery.

25c Double header—Mrs. H. B. "Pink Test" and "Turn Him Out." Casino, Friday, 25c.

## AMERICAN LUMBER CO. DIRECTORS IN SES- SION HERE

Meeting Brought West So As  
to Be Held at Scene  
of Action.

Domiciled at the Alvarado are a dozen directors and stockholders of the American Lumber company. They arrived from the east last night and expect to stay several days. The occasion is an adjourned meeting of the board of directors. The original meeting was held in Chicago last December, but adjourned here so that several members of the board who had never been west could see the plant.

In the party are Vice President W. H. Sawyer, Hillsdale, Mich.; C. A. Black, Detroit; J. H. Avery, Detroit; C. H. Winchester, Elkhart, Ind.; A. F. Freeman, Annapolis; Mr. Webb, Warren, Ohio; J. M. Mulkey, Detroit; F. M. Stewart, Hillsdale; Lawrence De Golyer, Chicago; Hoyte Post, Detroit; Mr. Wood, Warren, Ohio, and Chas. T. Mitchell, Chicago.

Mr. Mitchell is a son of Senator W. W. Mitchell, of Mitchell Bros., former owners of the Zuni mountain lumber reserve, which is widely known throughout the country as the Mitchell tract. Mr. Mitchell spent some time in Albuquerque in 1892, when Mitchell Bros. were sole owners of the Mitchell tract.

The first three named are members of the executive board, as well as being directors, and the remainder of the party excepting the last three named, are of the directorate. These three, however, are heavy stockholders of the company.

D. W. C. Merriam, who is also identified with the American Lumber company interests, is expected to arrive from Long Beach, Cal., tonight. The forenoon was spent in an inspection of the company's immense mills here, under the guidance of President Johnson. Tonight it is very likely the entire party will leave in a chartered car for Kettner, where a day will be spent in an inspection of the work being done in the timber.

## BIRTHDAY DINNER

Last evening Byron T. Ives, the Albuquerque florist, celebrated the passing of his forty-eighth milestone on the highway of life. A few friends were invited to enjoy the occasion with him. They were Mr. and Mrs. W. R. Cannon, J. A. Cannon, Miss Phillips, the Knights of the Macabees, H. Baker, Miss Brown, of the Central school faculty; Dr. and Mrs. Geo. T. Gould and Miss Alice Gould. Each guest was supplied with buttonhole bouquet, and when invited to the dinner table found his appropriate place by a bouquet of the same flowers. Results showed that the seats had not been left to chance, but that were governed by the eternal fitness of things.

The elegant rooms of the new Ives home were decorated with the taste and profusion in floral adornment which only the greenhouses of the only establishment of its kind in New Mexico could supply. The repast, which was in courses, occupied a large part of the evening in its discussion, and left most of the participants too full for utterance. An exceedingly pleasant evening was spent with many happy returns were wished by the appreciative guests to Mr. and Mrs. Ives.

## HOUSE FORCES COUNCIL INTO CONFERENCE ON APPROPRIATION BILL

(Continued From Page One.)

passed by viva voce vote.  
Mr. Holt moved that the house take up council bill No. 44, an act relative to the municipal government of Gallup. The bill was read the first and second time by title and in full on its third reading and passed the house by viva voce vote.

House bill No. 173, providing for armories at Santa Fe, Las Cruces, Silver City and Roswell, was taken up and the house by viva voce vote concurred in the council amendments thereto, thus passing the bill.

Similar action was taken on house bill No. 70, an act relative to malicious prosecution; and on house bill No. 199, an act relative to road tax and for other purposes.

The steering committee reported favorably house bill No. 169, an act relative to school trustees and for other purposes. The bill was considered, read in full the third time, on motion amended and carried and passed the house by viva voce vote.

The same committee reported favorably house bill No. 207, an act relative to bonds, and on house bill No. 135, an act relative to salaries of water commissioners; council bill No. 126, providing funds for the purchase of bonds for counties, etc.; council bill No. 127, an act to amend chapter 45 laws of 1905. The house then took a recess until the same evening at 7:30 o'clock.

**ELKS' GRAND SYMPHONY  
CONCERT IN JERSEY CITY.**  
Jersey City, March 21.—Carrying out the promises made by them last week, the Elks' organization will give a symphony concert tonight, held under the management of the Schubert Glee club tonight. The organization has undertaken this work as a purely educational feature, in connection with its regular subscription concerts. The club will not sing at this concert, but the program will be given up to music played by the New York Symphony orchestra. The new conductor of the Schubert Glee club, Elliott Schneck, will conduct the symphony here.

Get the pink tickets to "Mrs. Bueh's Pink Test" and "Turn Him Out." Casino, Friday, 25c.

"Preventions" will promptly check a cold or the grippe when taken early or at the "sneeze stage." Preventions cure catarrh of the nose and throat. Are little candy cold cure tablets. Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free, if you will write him. The samples prove their merit. Check early colds with Preventions and stop pneumonia. Sold in 5c and 25c boxes by all druggists.

LEON B. STERN, PROPRIETOR

## SANTA FE COUNTY DISTRICT COURT

Considerable business was transacted before the session of the First Judicial district court at Santa Fe yesterday. The first case which came to the attention of the court was that of Florencio Garcia, now held on the charge of murdering his brother. On motion of attorney A. B. Tenehan, the case was continued. A decree of absolute divorce on the ground of infidelity and abandonment was granted in the case of Samuel Mejias in Madera vs. Ma Leonadia Martinez, de Mestiza, which had been originally filed in the district court of Rio Arriba county. The defendant in the case failed to appear.

Among the several true bills returned yesterday by the grand jury were several against saloon keepers for violations of the Sunday closing law and permitting lewd women to enter their bar rooms on Sunday. Edward Astler and George Atkinson, proprietors of the saloon on lower San Francisco street, Santa Fe, were fined \$100 and costs on these charges. Other saloon keepers were arraigned on similar complaints today. Ignacio Garcia, the wife beater, after being guilty to the charge against him, was sentenced to one year in the territorial penitentiary. The court then adjourned till 10 o'clock this morning.

**FRANK H. STRONG  
BUYS BUSINESS BLOCK**

Through the recent transfer to him of the property known as the Strong block, Frank H. Strong has become the owner, both of the important business formerly conducted by the firm of O. W. Strong's Sons and the building which it occupies. The transfer was made during the visit of O. W. Strong to this city, which ended with his departure for Los Angeles yesterday. The consideration has not been made public.

Through this sale the final retirement of O. W. Strong and Harry Strong from Albuquerque business circles, in which they had for so many years been prominent figures, is emphasized. That they will be as successful and acceptable in the new field of endeavor which they have selected and that the present owner of the business here will continue to maintain the efficiency and the high standard of quality which the old firm had established cannot be doubted.

# VITALITY SAPPED BY MANUAL LABOR; WEAKENED LITTLE CHILD SLAVES DYING BY HUNDREDS

(By W. H. Briggs.)

New York, March 21.—The evils of child labor are coming home to the greatest city in the land this month.

Since March 1st the list of deaths among the child slaves has lengthened to such an extent that the people who think it worth while to give thought to the lowly are shocked.

New York has had a winter of snows and rain and slush. Around the crowded and miserable homes of these modern white slaves have gathered accumulations of ice-congealed filth holes and disease-bearing pools.

Little bodies, weakened by vitality sapped by long hours in ill-ventilated lofts and factories—are easy prey of these conditions and the children are dying by the hundreds.

Little Arvid Nordstrom is one. He left the place where he works—a leaky, ramshackle casting establishment on the upper East side—at noon.

That was all. He is now another victim of child slavery and he had not reached his 15th birthday.

was pneumonia, but the physician found that he had scarcely enough vitality to withstand a cold.

Work-weakened bodies that offer no resistance to disease do not furnish all the victims, however. An arm gone and no chance to work—at 16—is the pitiful story of another boy recently discovered by the factory authorities. He began to be a wage earner at twelve, and an accident in the factory is his end after four years of the hardest toil.

The condition in which the boy glass workers labor is now coming to light and reveals some startling facts. The little fellows who tie on the stoppers bend over their low stools for ten hours. Their daily output is about 200 bottles each.

As a machine the boy is perfect, but the stooped shoulders and hollow chest, the bent back and flabby limbs tell the story of his slavery for \$4.50 a week. They often begin this life at ten.

According to the census bureau's figures 7,000 boys from ten to fifteen years of age work in the glass producing houses. Two thousand six hundred of them are in Pennsylvania.

## AN HONEST MAN WHOSE WORK OF GOD

Remarks at the Ross Meeting. Subsequently Written and Published by Request.

Dr. George T. Gould, of The Evening Citizen, being called on, responded in part as follows:

Ladies and Gentlemen: While not a member of what has been so aptly termed "the art preservative of all arts," I am glad that my position as editorial writer has afforded for me the pleasure and honor of participating in the exercises of this evening.

It was a poet who said it, and yet within the pages of the Bible nothing can be found of greater truth or value—"An honest man is the noblest work of God." There is nothing in nature higher than man, nothing in man higher than mind, and nothing in mind higher than the sense of duty.

A great scientist once said that there were two things in the universe in the presence of which he felt overwhelmed—the starry vault of night and the sense of duty in the human soul. Clouds and darkness may obliterate from sight the glory of the sky. Greed of gain, the lust of lucre, the gratification of self, the indulgence of evil passions—these may obliterate the sense of duty from a human soul.

But neither can the first look down upon us from the far off depths of space, nor the second shine across our path from the conduct of a fellow man, that their grandeur and their glory do not arouse to admiration and approval the element of immortality lingering in every human heart.

An honest man is he who has but one standard of right doing, but one touch-stone to determine duty, but one measurement for obligation; and that standard, that touch-stone, that measuring rod, is the dictate of his own conscience. Foes may hate and friends disown him. The allurements of reward may seek to entice or the fear of retribution may seek to intimidate. Friendship may plead and duty to others may be urged. But like the great apostle none of these things move him. "To thine own self be true, thou canst not then be false to any man." Man's highest duty is obedience to his own conscience, and he is the honest man who realizes this fact and stands by it in life or dies by it.

Friends, I must confess that I have but little admiration for physical courage displayed upon the battlefield. Men may do and die for their country, and the act of enlistment—the severing of the ties of home and the pursuits of peace, to endanger their lives upon the dangerous field—is an act of heroism as well as of patriotism. It is a high and holy consecration to duty. But for that reckless daring when drums are rolling and bullets are hurled, and the blood rushes to the brain, and the madness of carnage debases man to but little more than the brute—for that I have little regard, for in that kind of bravery the hiring and the professional may equal the patriot. But I stand in awe, and I bow down in admiration before that man who, like Jim Butler, sees his duty as a clear, sure thing and goes for it then and there. In the solitude of his own self-communing, he hears the still small voice that to him is the voice of God, and hearing is to obey. Above him may tower mountains of opposition; around him may roar and rise passion-lashed waves of prejudice; at his feet may yawn the depths of oblivion threatening to engulf his highest hopes, his most cherished ambitions, his fondest yearnings for the future of those he loves. On the right or the left may stretch smiling and inviting fields of full fruition in all which worldly success may have to offer. I tell you, friends, that the man thus situated—uninfluenced by the opposition, unawed by the prejudice, unmoved by the promises—the man who under such circumstances hears the still small voice and follows it, knowing that it leads into the chasm—he is the honest man, the noblest work of God.

Such a man, ladies and gentlemen, has been our fellow citizen for years, going in and out among us in the humble path he deliberately chose in obedience to the demand of duty, and that man is Edmund G. Ross.

In honoring him tonight, we honor ourselves in the eyes of the whole country which, like his own state of Kansas, is beginning to realize the magnitude of the injustice inflicted upon him, and the greater magnitude of the benefit conferred upon this nation by his heroic self-sacrifice.

In this day of graft and greed, when the entire standard of success is gauged in dollars and cents, when the motto of the majority seems to be: Get money—honestly if you can, but any way get money—provided you keep out of the penitentiary—in this day the residence of such a man as Edmund G. Ross is a benefit and a benediction. We can point him out to our children, as he totters by on his staff, and say: There goes a man before whom the Harrimans and other leaders of frenzied finance are unworthy to stoop down and unlose the laces of his shoes.

Holy Writ tells us that the fathers murder the prophets and their sons build monuments to them. There are some in this audience who will live to see, not in Albuquerque and Kansas only, but at the national capital itself, a monument in enduring brass and marble erected to Edmund G. Ross, and on those monuments should be inscribed in letters of gold—"An honest man is the noblest work of God."

CONDUCTOR KILLS TWO CROOKED GAMBLERS

A dispatch dated Tonopah, Nev., says: News has been received from Jack Walsh, formerly a railroad conductor, shot and killed Charles Meyers and Jack Harrington Monday morning.

The tragedy was the result of a gambling row. It is alleged that the men who were killed fixed a roulette wheel in a gambling house two days ago.

Walsh, who then was employed by the Silver Peak railroad, played the wheel, caught the combination and won \$600. Meyers and Harrington have said to have demanded half of Walsh's winnings and when he refused to give them the money, are alleged to have beaten him and threatened him with death.

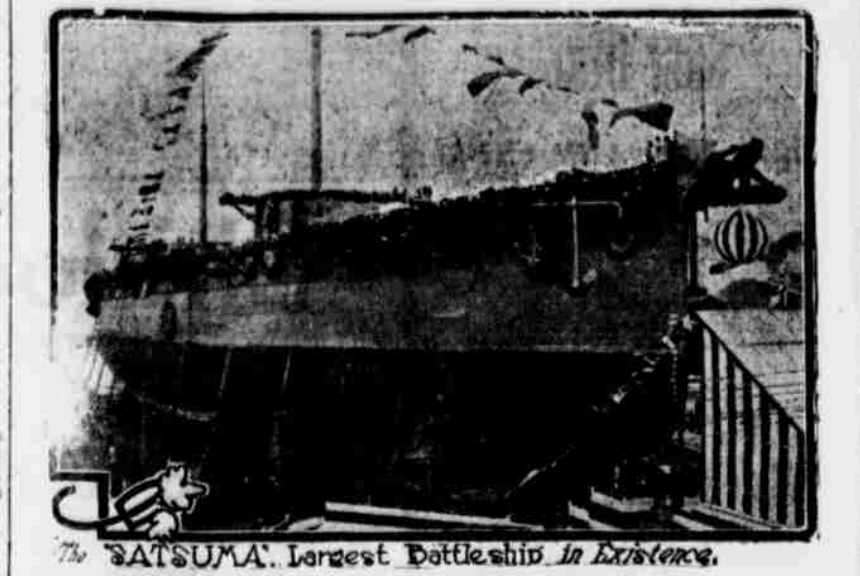

Walsh was discharged by the railroad superintendent for gambling.

This morning Meyers and Harrington followed him to the depot, when he opened fire with a rifle, killing both. He then started for Goldfield to surrender to the authorities.

## Race for Huge Battleships

By ARTHUR H. DUTTON, Late Lieutenant, U. S. Navy.

A "SATSUMA," Largest Battleship in Existence.

Most of the leading nations of the world are now following the fashion set by Great Britain, in her famous Dreadnaught, in the way of monster battleships, with armaments of enormous guns.

Closely following the Dreadnaught, the Japanese "Satsuma" has been launched, being the second of the type in the navies of the world. Like her sister ship, the Aki, which was shortly to be launched, the "Satsuma" has a displacement of 12,000 tons, a speed of nineteen knots and a main battery of four 12-inch and twelve 10-inch guns, there being, as in all the vessels of this type, no intermediate battery, the other guns being numerous but of small calibre, meant only for repulsing torpedo attacks.

Great Britain is now about to build three more Dreadnaughts. The United States has three in view, already authorized by congress, which will be even more powerful than either the Dreadnaught or the "Satsuma." They will carry twelve 12-inch guns each and displace 20,000 tons, with a speed of twenty knots, and perhaps twenty-one.

Russia has ordered four of these monsters; Germany is contemplating a couple, and even Brazil has placed an order in England for the construction of a battleship closely resembling the Dreadnaught.

It seems to be well recognized by experts that the ideal line of battleship for the future is of the type of these big vessels, with as many high calibre guns as possible, as the naval fighting range of the next naval battles will be four, five or even seven miles, the last being the range at which the battle of the Sea of Japan was opened.

The 12-inch gun is generally recognized as the limit of size for naval armaments, it being of weight sufficient to destroy a battleship.

Complete information and blank bids will be furnished on application to the undersigned or to quartermaster, Fort Wingate. U. S. reserves the right to accept or reject any or all bids or any part thereof. Envelopes containing bids to be marked "Proposals for Timber on Fort Wingate, N. M. Reservation," and addressed, Col. C. A. H. McCauley, C. Q. M.

THIS BOY BEGAN WORK AT TEN. He puts glass stoppers on bottles and when he works at night sometimes sleeps near the furnace or on a friendly doorstep rather than make the long trip to his home in the dark.

AN EMPTY SLEEVE FOR LIFE.

He began work at 12, was injured by the machinery, and at 16 his right arm is gone. Now he looks in vain for work.

## HANS HANSON MAKES GUARANTEE

Mr. Theater-goer:

We are going to have Hans Hanson at the opera house on March 25 and 26. A four-act American comedy drama with a Swedish dialect character as a central figure. The management of the company guarantees this attraction thus:

A clean, moral performance, entirely void of vulgarity.

The orchestra of ten pieces is alone worth the price of admission.

If you are not entirely satisfied after witnessing the full performance of Hans Hanson, I request your manager, Mr. O. A. Matson, to refund your money. Consequently I will not

A CHILD SLAVE WHO DIED.

## Baby Mine

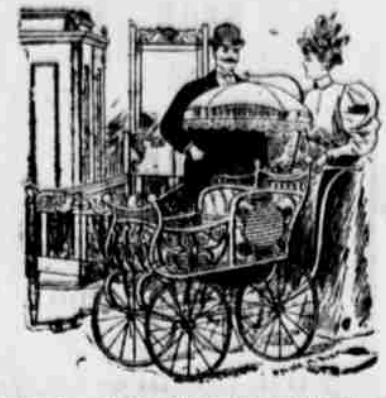

a mother should be a source of joy to all, but the suffering and danger attendant upon the most critical period of her life. Becoming Mother's Friend

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to BRADFIELD REGULATOR CO., Atlanta, Ga.

## SANTA FE BUYS MORE LAND AT TOPEKA

H. S. Reed Property Is Needed by Company For Yard Extensions.

Topeka, Kan., March 21.—The deal by which the Santa Fe becomes the owner of the H. S. Reed property on Jackson street, immediately south of the general offices building, has been completed and the road will be given possession May 1.

Mr. and Mrs. Reed returned Wednesday from the western part of the state, where they had been for several months. The deal for the transfer of the property, which includes a large brick house and almost three lots of ground, was negotiated a month ago, the proceedings being carried to a point where Mr. Reed's signature to the deed was all that was required to complete it. Mr. Reed at that time was on his farm. Since his arrival he has signed the necessary papers and the deal is now closed. The price paid by the Santa Fe, which has been on the market for the place for a number of years, was not given out by the interested parties.

"The deal is closed and we give possession the first of May," said Mr. Reed yesterday afternoon, as he was leaving the house to start for Chicago on business. "I don't know as I care to make public the price. We will continue to make our home in Topeka the same as before."

The Reed house will be used by the Santa Fe as temporary quarters for some of the smaller departments which can not be accommodated in the general office building, in spite of the fact that a big addition to that has only recently been completed. The plans of the railroad company are to build the next addition to the general office building from the south end of that structure and on the three lots purchased from Mr. Reed.

## PITTSBURG AROUSED OVER RISE IN STEEL RATES

Pittsburgh, March 21.—Iron and steel interests in the Pittsburgh district are aroused over the discovery that the railroads are preparing to raise the freight rates on steel and coke, commencing on July 1, and in the Pittsburgh district. It is being discriminated against in favor of Chicago in the making of the new tariffs, vigorous protest is being made. An increase of \$3,000,000 in freight rates has lately been thrust upon the Pittsburgh district, and now the announcement comes that an increase of approximately 15 cents for steel and coke will be made between now and July 1, this for the Pittsburgh district.

Local steel plants assert that this 15-cent increase is against an increase of only 10 cents for steel mills in the Chicago district, giving Chicago steelmakers virtually a discrimination of 45 cents over Pittsburgh steel to be used west of the Mississippi river.

## SANTA FE BUILDING NEW ROAD AT SAN BERNARDINO

A grading crew has commenced work for the Santa Fe on the new line on which the Colton main line will enter the new yards, says the San Bernardino Sun. The track will swing some distance east of the present line leaving the old line some distance south of Third street. The latter street will be crossed east of where the present line is, and the new track will enter the yards just to the north of the junction of Third street and Mt. Vernon avenue. A strip of land off the west side of the George Knight place was recently purchased by the Santa Fe for this new track which will provide a much better entrance to the yards for all trains from the south, including the Salt Lake trains.

The laying of this new line is a part of the general scheme for the rebuilding and enlargement of the yards at this point.

## MEXICAN NATIONAL WILL PAY SEMIANNUAL DIVIDEND

The National railroad of Mexico announces its semi-annual dividend on the \$22,000,000 4 per cent first preferred stock, which was payable on February 11. This is welcome news to the stockholders, for when the 1 per cent dividend was paid in July last it was not believed by some that the second dividend would follow. The increase during the past six months, however, insured the payment of the second dividend, and showed the National line to be in excellent shape. The gross earnings for the six months ending December 31 were \$2,693,320, an increase of \$175,442; net earnings, \$1,349,918, an increase of \$108,298.

## ROCK ISLAND TO BUILD STEEL BRIDGE OVER THE CIMARRON

Lawton, Okla., March 21.—The Chicago, Rock Island & Pacific Railway company has let the contract for a steel suspension bridge over the Cimarron river at Dover, Kingfisher county, to replace the pile bridge which caused the disastrous passenger train wreck last September, when several coaches were buried in the river quicksands. President Winchell says it is almost impossible, however, to secure labor for any work.

A new machine has been installed in the Santa Fe shops at San Bernardino for the turning out of the inside crank pins for the new 1200 class of passenger locomotives now in use here by the Santa Fe. Heretofore it has been impossible to turn out these pins except by hand work, which was very unsatisfactory. The new machine will be in charge of Hal McLean.

FEET'S PEERLESS HOME-MADE CANDIES, AT WALTON'S DRUG STORE.

## LONDON'S CHIEF RABBI AT EDNA MAY'S WEDDING

A NEW PHOTOGRAPH, JUST TAKEN IN LONDON, OF EDNA MAY, WHO WILL "KNEEL AT THE SAME ALTAR" WITH HER HUSBAND.

## Special Correspondence.

London, March 21.—It is now understood that the marriage of Edna May, the American actress, and Oscar Lewisohn will be performed by the chief rabbi of London, confirming partially, at least, the report that Miss May has changed her faith to that of the man she loves.

The family of young Lewisohn in New York were at first opposed to the match on the ground that the beautiful young actress was not a Jewess. It is now believed that they will become reconciled.

Young Mr. Lewisohn is the most attentive of lovers and is seen with his future bride everywhere in London these days.

under the rules of the Atlantic coast conference and all are to be under the universal rules of measurement.

Invitations have been extended to the yacht men of every country in the world and assurances have been received that there will be representation of foreign clubs in keeping with the importance of the contest. Sir Thomas Lipton has shown much interest in the event and will visit the exposition races, at Gravesend Bay, Long Island sound, Massachusetts Bay, the New England coast, the middle and south Atlantic coast and the great lakes.

Hampton roads, with its tributaries, offers a splendid course for yacht racing and it is planned that the smaller classes shall cruise over the inside course which includes the Chesapeake Bay, and the larger classes, over the outside course which is reached through the gateway to the Atlantic between Cape Charles and Cape Henry.

The Jamestown international yacht races will start September 9 and will continue until the end of the month if necessary to complete.

The president of the Jamestown Yacht Racing commission is Dr. J. E. DeMund, Brooklyn, N. Y.; secretary, James P. Duncan, Norfolk, Va.

How to Remain Young. To continue young in health and strength, do as Mrs. N. F. Bowman, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 30 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all dealers. Price 50c.

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is like a rubber tube closed at one end; the sound cannot enter, and the hearing is lost. If you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out of the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Props., Toledo, Ohio.

Sold by all Druggists, 75c.

John R. Grant, of the Grant Bros. Construction company, arrived from Los Angeles yesterday. Grant Bros. Construction company has a large outfit working on the Belen-Rio Puerco extension of the Santa Fe cut-off.

Three Chinamen were picked up on the streets last night and are being detained at the city jail awaiting an investigation before a commissioner. It was intimated this morning that the men may be unlawful immigrants.

The concert given by the American Lumber company band at the beach room last night for the employees of the mills proved of equal class with the grand concert given at the opera house recently and was heartily enjoyed by a large audience.

The Woman's Home Missionary society of the Lead avenue M. E. church will give a tea at the Harwood Industrial home, on Fourteenth street, Friday afternoon, March 22, at 2:30 o'clock. Refreshments will be

### LOCAL AND PERSONAL

erved and a nice program rendered by Harwood home girls and others. There will be a sale of home cooking.

The Kansas "hermit" was entertained at dinner last evening by Major and Mrs. H. A. Heydt, of 419 West Lead avenue. The major was a resident of Lawrence, Kan., the home of the hermit, for a long time, holding the position of ticket clerk there for the Santa Fe. The dinner featured on choice bits of Kansas gossip as well as the viands of a well laid spread.

Juan Salazar came into The Citizen office and left the following for publication "It would be advisable for the Morning Journal and its management to be more careful in the future, and not make such enormous mistakes as publishing names charged with misdemeanors, which are not true. I want that corporation to know that I always attend to my business, and always have kept away from places like to the back of the Gloria salaon."

"JUAN SALAZAR."

Pedestrians on Silver avenue early this morning were treated to a parade of the most unusual character and it was sometime before those at a distance were enabled to know just what it was all about. A number of telephone construction men, about twenty-five participated. Each was rolling a large coil on which wire had been wrapped and their long procession in single file order afforded quite an unusual scene.

The Christian Endeavor society of the Congregational church will give an "accidental social" in the church parlors this evening, to which all young people are invited. A special invitation is extended to the young people of the Baptist church. A very fine program has been prepared in which some of the best talent in the city will take part. Light refreshments will be served and a good time is promised for all who attend.

Prof. Di Mauro has fixed on the 17th day of April for his great concert at Colombo hall. The purpose of this concert, the professor says, will be to display the ability of his pupils. The numbers will not only be instrumental, but all will consist of operatic selections, the professor believing the music lovers of this city are able to appreciate the highest class of music artistically rendered. The concert will be followed by a dance.

## Home Insurance the Best

WE CANNOT refrain from again saying something about Home Insurance. Every time that the proposition presents itself of the tremendous amount of money that is being sent out of New Mexico and Arizona for life insurance to eastern cities, the conviction comes home with increased force that a home company ought to be patronized and the money remain in the West.

The revelations of the past year of the way the enormous surplus of the big Eastern companies has been handled and speculated with ought to emphasize the fact that the people of the West should stop pouring their money into Eastern channels when it can be placed in home insurance, and every dollar of it kept and invested at home.

It is gratifying to note that home insurance is year by year receiving more and more its just deserts. Statistics show that during the past year home companies far exceeded foreign companies in the amount of business written. Why cannot this same record be made here? It can if every individual who takes out a policy the coming year will carefully weigh the proposition of the value it is to keep his insurance at home before he puts his name to the application of any insurance company.

The Occidental Life Insurance Company of New Mexico and Arizona is owned and controlled by the leading business men of the two territories, and offers exceptional opportunities to ambitious and capable men and women to sell its policies.

Address Home Office,  
**Occidental Life Insurance Company**  
ALBUQUERQUE, N. M.
