IMMENSE CROWD GREET'S ROOSEVELT AT ALBUQUERQUE 1,000 COW BOYS ASSEMBLE IN BIG PARADE

ALARM IS NOW SHINTO RITES FELT FOR MARK NOGIS' FUNERAL

FEDERALS WILL RUSH 500 SOLDIERS FROM AGUA PRIETA TO PROTECT AMERICANS, IN MINING CAMPS IN SONORA.

CHARGES MADERO IS A BLUFFER.

Douglas, Ariz., Sept. 18.—Rebel bands in northern Sonora are reported to be mobilizing at Colonia Morelos, the Mormon settlement which has been twice devastated by the insurgents. The rebel band of Antonio Rojas, which arrived at Morelos Sunday, was joined there by Salazar's rebels after they evacuated El Tigre and today the insurgent force of Alanis, who has been operating south of Naco, merged with the rebels at Morelos.

Ten men sent out by Alanis ate breakfast this morning at the Cucuvarachi ranch, 25 miles southeast of Agua Prieta.

They were apparently making for the international line presumably to smuggle across ammunition. The foreman of the ranch, immediately rode to the nearest telephone at San Bernardino ranch and telephoned the news to Douglas. The rebels are reported to have a large supply of ammunition cached in a canyon about five miles from El Tigre, where a heavy guard is maintained. After holding communication with Colonel Munoz and Colonel Obregon, commanding the federal forces at El Tigre and Naco, respectively, General Sanjines ordered preparation for the sending of 500 men from the Agua Prieta garrison to the south. The combined force of rebels now at Morelos is estimated at 1700 men and with the troops at Naco and El Tigre, Sanjines expects to put as many men into the field against the rebels. The federal general declared today that he would make an aggressive campaign against the combined rebels now that the several strong bands had combined, greatly increasing the jeopardy of the American mining towns in Sonora south of here.

Great anxiety is felt here lest the rebels again put out of commission the Nazari railroad, repairs to which have nearly been completed.

New York, Sept. 18.—General Emilio Zapata, the rebel chieftain, who is threatening to attack Mexico City, gives his reasons for his uprising against President Madero in a statement forwarded to the Herald from his camp at Yaupeque, Morelos. He says: "So that the people of the United States may know why the revolution is going on against Madero, in southern Mexico, I make this statement.

"I charge Madero with making promises to reduce taxes to induce the people to follow him against Diaz. He has kept none of these promises. I charge him with promising to increase the taxes on large estates so that the owners would have to cut them up and thus give the poor man a chance to buy a little farm. He has not kept this promise.

"I charge Madero with ignoring the man who helped him win, and with putting into places of trust at large salaries, 75 of his relatives.

"I demand that Madero resign the presidency, that he and his family leave the republic forever. This government must not give them a cent on which to go, for the Madero family has had enough of the government.

"I do not want the presidency but I do demand an honest election at which I will agree not to be a candidate. Immediately on the election the laws must be revised from top to bottom, so as to give the poor man a chance.

"I have 18,000 men under arms in 18 states of Mexico, while Pascual Orozco, with whom I have no connection, has control of two states, making twenty states under arms. If I am victorious I shall drive Orozco from the country.

"Accompanying the statement is the following declaration regarding the rumors of pending intervention by the United States in Mexico.

"If intervention comes I will kill every American in Mexico. Then I will join the federal army to fight the northern invader."

MEN OF HIGHEST RANK IN JAPANESE ARMY AND NAVY AND FOREIGN DIPLOMATS DO HONOR TO GREAT WARRIOR AND WIFE WHO SUICIDED OUT OF RESPECT TO DEAD EMPEROR.

Tokio, Sept. 18.—The double funeral of General Count Maresuke Nogai, supreme military councillor of Japan, and his wife, the Countess Nogai, who committed suicide on the night of September 13, just as the body of the late Emperor Mutsuhito passed out of Tokyo city on its way to the imperial tomb at Monoyama, was held today with impressive ceremony at the Aoyama cemetery. The funeral cortege left the Nogai residence in Akasaka, a Tokyo suburb, at 3 o'clock this afternoon and passed through the streets of the capital. The body of Japan's great warrior was borne on a gun carriage while the casket containing the body of the countess was carried in a hearse. The pallbearers were chosen from the highest ranks of the Japanese army and navy. One regiment of infantry acted as a guard of honor.

Representatives of the special foreign envoys who came to attend the funeral of the late Japanese monarch and the various ambassadors and ministers participated in the procession, which numbered 50,000. Marching behind the coffins were great numbers of relatives of soldiers killed at Port Arthur while serving under General Nogai, in the spring of 1904.

The special ambassador of the United States, Philander C. Knox, did not participate in the ceremony, being absent at Kyoto, where he went to visit the grave of Emperor Mutsuhito. He was represented by Brigadier General John J. Pershing, of the special embassy staff. Mr. Knox sent a magnificent wreath.

The ritualistic ceremony at the great funeral hall was extremely impressive and was attended by immense orderly crowds. All the foreign diplomats and seats within the temple.

Prince Arthur of Connaught personally laid a floral tribute upon the coffin. Many hundreds of wreaths were received from all parts of the world.

After the Shinto rites had been performed, bugle salutes blared forth, and a triple volley was fired over the grave, ending the funeral of the hero of Port Arthur and his wife.

ITALY MOWS DOWN 1000 TURKS

BY BRILLIANT BAYONET CHARGES MUSSELMANS ARE MADE TO FLEE IN DISORDER LEAVING 1,000 MEN WOUNDED ON THE FIELD.

Rome, Italy, Sept. 18.—The most sanguinary engagement of the war in Tripoli was fought yesterday near Durne, a town on the Mediterranean coast, 140 miles northeast of Benghazi.

The Italians lost 61 men and 113 wounded. The Turks and Arabs left more than 800 dead on the field. Forty-one prisoners, including an Arab chief, fell into the hands of the Italians.

BEGAN AT DAYBREAK.

Rome, Sept. 18.—The battle opened at daybreak, when a force of Turks and Arabs surprised and attacked the Italian lines. The fight raged for four hours, but the superior Italian artillery supplemented by brilliant bayonet charges won the day and the Musselmans fled in disorder. General Reissol, commander of the Italian army, in Tripoli, in his report to the war office estimates that the Turks and Arabs must have lost 1000 men killed, including those who were carried off and that more than 1000 others were wounded.

ENTIRE STATE PAYS RESPECT TO GREAT LEADER OF NEW PARTY AT ALBUQUERQUE TODAY.---HE WILL ARRIVE LATE BUT WILL BE GIVEN THREE STRENUOUS HOURS IN THE METROPOLIS OF NEW MEXICO.---CANDIDATE FOR THE HIGHEST OFFICE IN THE LAND WILL BE RECEIVED WITH HIGH HONORS.

With one thousand cowboys waving red bandanas and one of the biggest crowds ever assembled in Albuquerque, the state of New Mexico today prepared to welcome Theodore Roosevelt, progressive candidate for president of the United States. President Roosevelt will arrive shortly after 4 o'clock this afternoon. The train is due here at 3:55 but a telegram received from Gallup states that it left there twenty-five minutes late, but as it makes a stop at Laguna of ten minutes, it cannot get here on time.

Every hotel in the city is crowded to full capacity. People are here from all parts of the state. There are many women among the visitors. Colonel Roosevelt will spend about three hours here.

After his speech he will be given a big reception and the remainder of his time will be spent as he directs. It is only justice to say that Albuquerque is doing the honors properly. The band stand at the Alvarado Park has been freshly painted and is a mass of bunting and flowers. The park has been put in first class shape and can accommodate 20,000 people. While Mr. Roosevelt is speaking most of the stores will be closed and the street cars will not run past the park, in order that there may be no confusion.

A half holiday has been given the men at the American Lumber company and every railroad man not employed in the railroad yards will meet the Colonel. Old party leaders who are here today admit that they are surprised at the way people have come from far and near to hear Mr. Roosevelt. The speech he will make is expected to deal with local conditions and will be his second in this morning. A delegation of progressives met Colonel Roosevelt at Gallup accompanying him here in his private car, "Mayflower."

Everybody in town is asking when Colonel Roosevelt will get here. There is the greatest enthusiasm. Prominent progressives, newspapermen and the reception committee will occupy the platform with Col. Roosevelt.

ROOSEVELT AT GALLUP.

Gallup, N. M., Sept. 18.—A day in the new state of New Mexico, was the program of Colonel Roosevelt's western tour today. The Roosevelt party entered the state from Arizona, early today, the second stop being scheduled at Albuquerque, where he is due at 4 p. m.

It is planned to close the day's speaking tour at Santa Fe, departing thence for Colorado.

INDIANS GREET "WHITE FATHER". At Laguna, an old hunting ground of the Pueblos, a brief stop was made and the Indians trooped down from the houses of rock and adobe, perched on the hillside, to shake hands with the ex-president.

Col. Cecil A. Lyon, of Texas, who is accompanying Mr. Roosevelt, arranged the stop, having sent word to the Indian village that the great white father was coming.

In a speech here from his car, Col. Roosevelt said:

"I make the same appeal here that I am making in every part of the country for ours is in no sense a sectional party. We are going to win this fight and I want New Mexico to do its part."

IN PUEBLO TOMORROW. Pueblo, Colo., Sept. 18.—A dispute between the state fair management and Colonel Roosevelt for a time threatened to prevent the visit of Roosevelt to the fair here on Thursday. The fair management refused to pay the expenses for a special train and it was announced that Roosevelt would cancel his engagement.

Word was received this morning from E. H. Costigan of Denver, Roosevelt candidate for governor, that Roosevelt would appear here as arranged and that the original program would be carried out without a hitch.

SKETCH OF ROOSEVELT

Theodore Roosevelt, American politician and author, was the twenty-sixth president of the United States. He was born in the state of New York, on the twenty-seventh of October, 1858. His education was gained privately, primarily, his later work being done at Harvard university. He graduated from that institution in 1880, and traveled for a year in Europe, a portion of the world which he frequently revisited.

His first book was published on the completion of his tour. It was entitled "The Naval War of 1812," and was characterized, as were his later works, by accuracy, creditable research and vigorous statement.

Mr. Roosevelt came into politics as a champion of civil service principles. He was elected in the fall of 1881 to the state assembly of New York, representing the twenty-first district. He served continuously in that body until 1884. In that body he introduced the first civil service act ever presented to it, which passed in 1882. In 1884 he was made chairman of the New York delegation to the republican convention.

He was nominated in 1886 as an independent candidate for the governorship of New York, but was defeated by Abraham S. Hewitt, candidate of the united democracy, although he received republican endorsement against Mr. Hewitt, his opponent had about 22,000 plurality.

President Harrison named him a member of the civil service commission in 1889 and there he continued until May, 1895. During this six years' incumbency he endeavored to apply the test of merit to all executive positions, with the result that the commission attained a position of importance which it has never lost. Civil service law gained a new vitality through his efforts. When he began his term, 14,000 employees held their positions under civil service regulation; when he left the commission, the number had increased to 40,000.

Mr. Roosevelt resigned from the civil service commission to become head of the board of New York police commissioners during the administration of Mayor Strong. In this capacity he took up a thorough reorganization, insisting among other principles, upon an impartial application of the civil service idea to the police force

and to appointments and promotions in it. By his rigorous enforcement of laws and ordinances he gave unwonted effectiveness to the office.

This post he relinquished in 1897 to become assistant secretary of the navy, under John D. Long, in the first administration of President McKinley. He rapidly acquired the wide knowledge necessary to the proper execution of his position, and with it a knowledge of the needs of the country's navy. He began to advocate the preparation of the navy for war, with the effect which was so signally to the triumph of American arms in the Spanish-American war. He called for appropriations totalling \$1,300,000 for ammunition for naval target practice, and though this was at the time deemed extravagant the course was justified at Manila and Santiago, in the skill of the American gunners.

On May 6, 1898, he resigned his assistant secretaryship to enter the army. As a basis for such a career he had some experience gained in the New York national guard, of which he was a captain from 1884 to 1888, serving in the Eighth regiment of infantry. He joined Leonard Wood, captain and surgeon, now a major general, in recruiting the first United States volunteer cavalry, a regiment which became famous later as the Rough Riders. Of this he became lieutenant colonel, Wood being regimental commander. Notwithstanding the fact that he was second in command, the organization was almost universally called "Roosevelt's Rough Riders." Many of its members were cowboys from the western ranges, New Mexico and Arizona furnishing a large number of troopers.

On July 1 he led this regiment in its victorious charge up San Juan hill, a charge in which the Ninth cavalry participated under his leadership. On July 11 he was promoted colonel, and in September was mustered out.

On September 27 he was nominated republican candidate for the governorship of New York, obtaining 753 ballots against the 218 given Governor F. S. Black. He entered on an active campaign, visiting nearly every portion of the state and winning the support of many independent members of both parties, winning by a plurality of 18,079 over his democratic opponent, Judge Augustus Van Wyck.

He at first declined to sanction the use of his name in connection with the vice presidency in McKinley's second campaign, but finally yielded and was nominated by acclamation at the republican national convention in Philadelphia on June 21, 1900. He immediately went on an extended speaking tour, including the far western states. It is believed that his efforts had much to do with the success of the ticket.

The assassination of President McKinley placed him in the presidential chair, the oath of office being administered to him on September 14, 1901, by United States District Judge John R. Hazel.

Upon his accession he announced that he would unbrokenly continue the policies of McKinley, whose cab-

ARMED PICKETS PREVENTS 5,000 MEN FROM GOING TO WORK IN UTAH COPPER MINE UNTIL INCREASE OF 25 CENTS A DAY IS GRANTED.---OFFICIALS DISCUSS SITUATION WHILE MINERS FLOCK TO OTHER DISTRICTS.

Bingham, Utah, Sept. 18.—Union miners of this camp who disregarded the advice of President Charles H. Moyer, and voted unanimously last night to strike for a 25c advance in daily pay, had everything their own way today. Only a few of the five thousand workmen in the district attempted to go to work and these were turned back by strike pickets. While Sheriff Sharp was consulting with other state officials in Salt Lake City and trying to reach Governor Spry, who is in southern Utah, a deputy sheriff was fired upon, it is said, by a strike picket at the Utah copper property. He returned the fire, wounding the picket, a foreigner.

Sheriff Sharp has ordered 100 deputies to Bingham from Salt Lake. They will arrive this afternoon.

Salt Lake City, Utah, Sept. 18.—The county sheriff, secretary of state and secretary to Governor Spry, are in conference today discussing reports from Bingham, a copper mining camp eighteen miles from Salt Lake, where strikers and strike pickets armed with rifles, guns, pistols and clubs, are preventing any of the 5,000 men usually employed in the mines from going to work this morning.

The force of deputy sheriffs stationed in the camp is entirely inadequate to handle the situation should trouble arise and the conference at the capital relates to the advisability of declaring martial law, and filling Bingham with state troops.

At noon quiet continued throughout the district.

Bingham, Utah, Sept. 18.—Bingham waited anxiously this morning for developments following the vote at a miners' meeting last night in favor of a strike for higher wages to begin today. A strike will affect immediately four thousand men, principally aliens, and it continued for many days, will involve nine or ten thousand men, including those employed in the reduction mills and smelter at Garfield.

An increase of 25 cents a day is the bone of contention. The Utah Copper company and many smaller concerns have refused to treat with union officials representing the miners.

Charles H. Moyer, president of the Western Federation of Miners, advised against an immediate strike at the meeting last night but was overruled by unanimous vote.

By ten o'clock, all the mines were idle. Strike pickets, many of whom were said to be armed, turned back the shifts which started for work. Twenty-five deputies sent to the camp by the sheriff of Salt Lake county were powerless.

Miners were leaving yesterday, in large numbers for other districts and many more are preparing to follow.

inet he retained. In November, 1904, he was elected for a full term by a plurality of 2,000,000 votes, the largest plurality ever given a presidential candidate.

In was in June, 1909, that Colonel Roosevelt attracted world-wide attention by a hunting trip to the wilds of the Congo region in Africa. The expedition was primarily for the purpose of getting specimens of near extinct big game, such as the rhinoceros, lion, elephant and other wild beasts. As a result of his trip through the jungles he sent home a shipload of specimens, which were donated to the Smithsonian institute at Washington. On Roosevelt's trip homeward he visited the various European capitals, where he was feted lavishly by the monarchs, his journey being a triumphant tour. On his arrival at New York he was welcomed by thousands of people, much as a returning national hero, rather than as a plain citizen, or ex-president. It was not long after his return that Roosevelt began an "expedition" for the presidency, resulting in his nomination at Chicago in August as the candidate of the progressive party, after having been defeated in the regular republican convention at Chicago in June as the candidate of that party for the honor, which convention renominated President Taft.

SAYS THEY ARE ALMOST ONLY MEN WHO HAVE SUCCESSFULLY OPPOSED UNION LABOR IN UNITED STATES.

THEIR MOTIVES MAY BE HONORABLE

Minneapolis, Minn., Sept. 18.—How the United States steel corporation incidentally would benefit by the plank in the third party platform proposing regulation of trusts by a federal commission, was discussed by Governor Woodrow Wilson in his speeches as he passed through Sioux City, Iowa, to Minneapolis and St. Paul today.

It was at Sioux Falls, S. D., that the democratic nominee first drew attention to the origin of the third party plank for handling the trust problem. "Where was the method now proposed of regulating the trusts suggested?" asked the governor.

"It was suggested in the inquiry by the house of representatives into the steel trust and it was suggested by Mr. Gary and Mr. George W. Perkins. They have thought this out.

"I am not interested to question their motives. It may be, for all I know, that they think, and honestly think, that that is the way to safeguard the business of the country. But whatever they think, they know, that it will save the United States steel corporation from the necessity of doing its business better than its competitors.

"For if you will look into the statistics of the business of the United States steel corporation you will find that wherever it has competitors, the amount of the product which it controls is decreasing, not increasing. In other words, that it is less effective than its competitors and that its control of the product is increasing only in those branches of business whereby purchase and otherwise it has a practically monopoly.

"Moreover I have this to say to the workmen: Carry out the plan of Mr. Gary and Mr. Perkins and you will have given them a control in the market for labor, which will suit those gentlemen perfectly. They don't want competitors to come into the market for labor, because new competitors will mean new wages and new wage scales. These are the very men and almost the only men who have successfully opposed union labor in the United States."

HOME RULE IS VERY LIFE OF OLD IRELAND

Enniskillen, Ireland, Sept. 18.—Twenty thousand persons participated here today in the first series of demonstrations preliminary to Ulster day, Sept. 28, when Ulsterites throughout the United Kingdom will sign a covenant pledging themselves not to submit to home rule in Ireland.

Sir Edward H. Carson, president of the Ulster-Orange association, and formerly solicitor general for Ireland, in a speech declared that home rule was not a question of politics but of the very life of the country.

Other demonstrations at which the Unionist leaders will make addresses are being held.

The Cork Free Press, a newspaper controlled by William O'Brien says that the speech delivered by Winston Spencer Churchill in which the first lord of the admiralty favors the establishment of parliaments in different sections of the United Kingdom, really means that he will not join in the coercing of Ulster.

MURDERED IN COLD BLOOD

Washington, D. C., Sept. 18.—Today's Nicaraguan dispatches to the state department indicate that the American first named as Phillips, who was murdered by the rebels with another American named Dodd, at the battle of Leon, on August 19, really was an American named Craven, although no more is known of him.

It is developed that Craven, badly wounded, was carried by Dodd to a hut, where the rebels fell upon them. Neither was armed and they were murdered in cold blood. General Zeledon, in command of the federals, was hacked to pieces with a machete, by a woman.

PRAISE GIVEN TO SIRINGO'S PUBLICATION

The following letter, which explains itself was recently received by Charles Siringo for his recent book, "A Cowboy Detective."

Boise, Idaho, Sept. 9, 1912.
Mr. C. A. Siringo,
Santa Fe, N. M.
My Dear Siringo:

I have just finished a review in the Sunday Statesman of the early pages of your recent publication, giving conditions in the Coeur d'Alenes from the time you went to Gem until after your escape to Wallace, following the surrender of the Gem property. It has brought back many former recollections and I am truly glad that you have been enabled to bring out this work. I think it unfortunate too that it could not have appeared when you first contemplated its publication; I remember of your writing me something in relation to it which was followed by the announcement that its publication had been restrained by the Pinkerton people. It presents the case where facts are stranger than fiction. The review does not give the name of the publisher or where it may be purchased. I want a copy at once and shall be glad to send my check for a well-bound volume. The pages reviewed seem to be finely written and I think they are only excelled by the narrative review of your testimony given at Coeur d'Alene city in the conspiracy trial in September following the Gem and Wardner difficulties. You will remember, I presume, that a narrative statement was reduced to a narrative statement and wired as news and appeared the following day in the morning Statesman. These pages recall many familiar names; I presume you refer to Kneebone in some later pages. I regarded him as one of the bravest of the non-union men, but he later paid for his bravery with his life. I remember of suggesting to him before I left Coeur d'Alene that they would get him if he remained there and his reply was that he would rather be killed than be driven out. I congratulate you upon the conciseness and style of your narrative. I am writing you at Santa Fe because that is given as your address in the paper. I will be glad to hear from you.
Very truly yours,
PREMONT WOOD.

THE "NET"

Is the name of the big fifteen thousand dollar serial story which will appear in The Weekly Kansas City Star soon, for the newspaper rights of which the author received \$15,000. The story, pronounced the greatest this popular novelist has written, will not be published as a book until it has run serially in this newspaper. The theme is the Italian Mafia, and against that sinister background the author has thrown the softer colors of an absorbing and fascinating love story. The story, while tragic in tone, has the humor, sprightliness and action that have characterized his previous successes.

"The Net" will be continued in liberal installments each week, with fifteen powerful illustrations by Howard Giles. The subscription price of The Weekly Kansas City Star is 25 cents a year.

THE BOY SCOUTS COMMENDED

Dr. Robert M. Yerkes of Harvard University heartily approves of the Scout movement. He says that it is a great growing power for good in the development of our boys. "Its ideals," he writes, "appeal irresistibly to the youth. During the years between ten and sixteen the boy persistently seeks ideals; he must have heroes; he must imitate. Surely no more admirable traits can be kept before his imagination than those of the true Scout: Trustworthiness, loyalty, helpfulness, obedience, cheerfulness, thrift, kindness, cleanliness and reverence. Self-knowledge, self control, and service are the watch words of scouting."

"Fortunate is the youth who falls under the influence of an older man whose ideals are worthy; and whose knowledge of boy nature and of the values of life render him a fit guide to a strong, well rounded, useful manhood. I have faith in the Scout movement because it demands for the boy the ennobling, educative influence of a man who is vitally interested in manliness and in service; who has faith in boys, love for them, and the will to help them to make the most of their capacities."

"Youth is imitative. — strenuously, impatiently imitative. The least we grown-ups can do for our boys is to exemplify in our lives the Scout ideals."

"The power of this widely spreading movement must depend upon the strength of character and the qualities of leadership possessed by those who serve as Scout Masters. May the ablest of the young men of our land prove as eager, earnest and faithful as leaders as are our boys as followers."

Henry W. Holmes, Assistant Professor of Education, Harvard University, regards the Boy Scout movement as an unusual opportunity to educate the boys by getting them to do things in which they actually are interested. "No normal boy of 12," he writes, "can fall to be enthusiastically interested in woodcraft, tracking, signaling, archery, canoeing, campcraft, and seamanship. With these the Scouts combine first aid, hygiene, nature study, citizenship and chivalry."

Concerning the purpose of the Scout movement, he writes: "The aim of the Scouts is to help boys to be physically capable, practically self-reliant mentally alert, and morally earnest—a general educational aim. It is the aim of every school that has not set itself to prepare for a special phase of life. But it is hard for schools—especially for public schools—to produce even mental alertness in all the varieties of that quality which life calls for. The Scouts have come to help the schools by the use of means beyond the ordinary range of school affairs."

It is easy to see that many boys would never know the delights of scouting nor get its fundamental training if it were not for the existence of the Boy Scouts. City life makes woodcraft and campcraft only an impossible dream to thousands of boys, until some organized agency opens the way to forest and stream. Scouting may remain forever a mystery to boys who live five miles from good sailing. And the finer technique of these good things may be lost, even to those who have the initiative or the luck to try them, unless someone happens to be at hand to teach it."

Prof. Norman E. Richardson of Boston University, who has made a careful investigation of the Scout movement, endorses the Boy Scouts of America in a statement concerning the psychology and the principles of the movement. He writes: "It is now an established principle of moral and religious education that the place to begin is where the boy is found. The first step is to find out what are his natural or spontaneous interests. After a careful analysis of those objects to which the boy is instinctively drawn, the next step is to so relate the subject matter of moral instruction to these centers of natural attraction that interest will be conserved. It is a law of the mind that interest is as subject to growth or development as is memory in music. A boy can be educated to be interested in the Bible, the moral law and the church. Interest develops by fastening upon those things which are shown to be closely related to the objects of instinctive interest."

"The Boy Scout movement is doing two things. First, it is taking full account of the boy as he is. His natural or inherited interest in woodcraft, campcraft, archery, and organization are not looked upon with suspicion, but are brought under adult supervision to its fullest realization."

RE-RECORDING OF BRANDS

IMPORTANT NOTICE TO CATTLE MEN AND STOCKMEN.

In consequence of the great number of brands now on record in the office of The Cattle Sanitary Board, not now in actual use, the State Legislature has passed a law requiring all owners of recorded brands to record their brands within a period of six months, commencing on Sept. 10th, 1912. A failure upon the part of each holder of a recorded brand to record his brand in the time required by law, forfeits all right of further use. In a short time circular letters together with proper blanks for sending in renewals to the office of the Cattle Sanitary Board will be sent out to each holder of brands now of record. To facilitate this work as much as possible, and to avoid the lapsing of brands, it is earnestly requested that all parties now having recorded brands, upon receipt of proper blanks from this office, send in their renewals with the least possible delay.

NEW YORK LETTER

New York, Sept. 18.—Private advices from London say J. P. Morgan has removed from his residence at Prince's Gate five famous pictures known as the "Grasse Fragonards," and has shipped them to his private gallery in New York.

Fragonard was the artist who expressed in his paintings most perfectly the graceful, frivolous and scandalous atmosphere of the French court in the Eighteenth century. It was his custom to paint the portraits of famous men and especially women into his scenes, and consequently they found themselves represented in situations that we of today would consider highly embarrassing.

The five Morgan panels have a particularly curious history. They were painted by Fragonard for the notorious Mme. du Barry, the favorite of Louis XV, who prepared the way for the revolution by her extravagances. Fragonard endeavored to paint the du Barry in the most interesting and daring situations he could think of, together with her royal sweetheart. The original order from the king was for only four panels. One represented the beauty crowning Louis with a garland of flowers. Another was called "The Rendezvous," another "The Confidence," and another "The Kiss."

But the panels did not please the du Barry, not because they were too bold, but because they were too modest and reticent. She refused to accept them, and left poor Monsieur Fragonard sadly out of pocket. Then the du Barry fell out of favor, and to revenge himself Fragonard painted another panel called "The Desertion," in which he represented her miserable and alone, abandoned by her royal sweetheart. He kept them quietly at Grasse during the troubles of the revolution, and afterward sold them for a handsome price.

The greatest throng that ever visited Coney Island—estimated by old timers at 2 1/2 million persons—at-

tended last night's carnival celebration. The crowd was so great that at 9 o'clock Inspector Schmittberger telephoned to Brooklyn for all policemen who could be spared. Two hundred men were sent. That made seven hundred uniformed men in charge of the Coney Island situation, the largest body of police ever on duty there at one time. The crowd was orderly, only ten arrests being made. The royal ball was a feature of the night. It was held in Luna park ballroom, the king and queen of the carnival presiding.

Mary Kedinas skill in preparing savory dishes won the heart of wealthy Joseph Havlicek, whose cook she was, and he sought to retain her permanently in his home, hence he proposed marriage to her, Miss Kedinas says, in a \$15,000 suit for breach of promise. Although her suitor kept reiterating that he could never be completely happy without her, she avers, he never had time to get married, and therefore, tired of waiting, she sought legal redress.

Walter Creighton, with pure London-drawn whiskers, clothing an agrat and wrist watch par excellence, is here bringing the 1913 English styles.

Never in its history did the marriage bureau do such a business as yesterday. All told 261 couples avowed their intention to wed. The former record, attained one day last June, was 237.

Completing its five hundred and first trip across the Atlantic, the ex-White Star liner Majestic, the one-time champion of the ocean race course, came to port yesterday, its long showing 1 1/2 million miles.

Flora Zabelle and Raymond Hitchcock have forgotten their differences and Zabelle has joined "The Red Widow" company, which opened at the Apollo theatre in Atlantic City Monday night.

and in the house by the two Dona Ana county representatives. Effective and enthusiastic support was given by other good roads boosters from other parts of the state, especially from Bernalillo county, and the good roads bills were passed without material opposition.

The latest move on the part of Dona Ana county is to outline and work for a county bond issue of \$100,000 for the construction of good roads within the county. The sentiment in favor of the issuing of these bonds is practically unanimous. Petitions have been circulated in all parts of the county, and now bear more than the necessary number of signatures required by law. In a few days they will be presented to the board of county commissioners, who will set the date for the necessary election.

Dona Ana county is also heart and soul in favor of the proposed state bond issue of \$500,000, for the construction of state roads; and is arranging to roll up at the coming election a big majority in favor of this bond issue.

BIG BURGLARY AT DEMING

Deming, N. M., Sept. 18.—The gent's furnishing store of Clark & Tidmore, on Gold avenue, was burglarized Sunday night. An iron bar on the back window was broken and the window was raised to allow the entrance. Several suits of clothes and an overcoat were taken, as well as neckwear and jewelry, amounting in all to over \$200. There is no clue as to who the miscreant is.

The barn of Henry Meyer burned Sunday night. The loss uninsured was about \$500. The origin of the fire is unknown.

Harry Snyder left Monday night for Lawrence, Kan., to enter the Kansas University and complete his law course. This is his senior year in that institution.

Glover Chapman, of Newton, Miss., writes his friend, J. S. Vaughn, of this place, that he will leave shortly for Deming. He expects to make his permanent home here.

Jim Irvine left for California Saturday, to join his wife who is there for her health.

G. W. Wells, of Iowa Park, Texas, is prospecting in the valley.

S. F. Longborough, of San Luis Potosi, Mexico, is here on business. The chamber of commerce has received ten thousand new booklets for distribution to inquirers interested in this section. The covers are done in three colors and with very attractive designs. The booklet was written by Edmund Mitchell, a writer of great ability. It contains thirty-two pages well illustrated with half-tones.

THE ROAD CONGRESS

Giving her complete approval to the purposes of the American Road congress which is to be held in Atlantic City, September 30 to October 5, and making a plea for the restoration of the Old Trails' road Mrs. Donald McLean, honorary president-general of the Daughters of the American Revolution, in an interview declares that more real prosperity will be brought to the United States by the development of public highways than by many of the new-fad movements that are engaging the attention of the country at the present time.

Speaking specifically of the interest taken by the D. A. R. in the Old Trails' road, Mrs. McLean says:

"Such old trail is nature's highway, followed first by the buffalo, then by the heroic settlers, who carried civilization across the continent. Notable among such pioneers are Daniel Boone, James Brindley and Kit Carson. The natural Old Trails Highway is the only road of such character conceived of and endorsed by women. And to a woman must be credited the suggestion that telegraph and telephone poles along this national highway should bear markings of red, white and blue bands, so that transcontinental travelers and tourists by following the flag need neither guide nor road map, and yet cannot get lost."

In her letter to President Page, of the road congress, Mrs. McLean says that she believes the work of the congress will have a remarkable influence on the happiness and prosperity of the country, and adds:

"It would seem eminently suitable and creditable that the congress should endorse this D. A. R. project, making the transcontinental highway that of the Old Trails, thus insuring a patriotic as well as practical interest in such touring, and also inculcating without effort a knowledge of American history in its earliest development."

Mrs. McLean has accepted the invitation of the directors of the congress to make an address at one of the sessions in Atlantic City.

GOOD ROADS MOVEMENT ALIVE AT MESILLA PARK

Mesilla Park, N. M., Sept. 18.—Hon. James A. French, state engineer, and Hon. E. L. Ervien, state land commissioner, were in Las Cruces Saturday of last week, conferring with the good roads boosters of Dona Ana county. A delegation of citizens from the Las Cruces Auto club and the Fibab club, which is Dona Ana county's red hot commercial organization, took Messrs. French and Ervien out to the town of Organ, to show them the urgent need for the construction of the new road to Organ at an early date. They stayed over night at Cox's ranch, and were driven by automobile over to Alamogordo the next morning, where Mr. Ervien's car and his son were in waiting to bring them back to Santa Fe.

Dona Ana county is at present full of enthusiasm, from one end to the other, for better roads and better road administration. This live county has made a remarkable record in good roads movement in the past few years. Just two years ago a few good roads boosters got together, organized a series of meetings throughout the county, each one of which was a center of good roads enthusiasm, and raised about \$3,000; which, with the aid of some state road money, was applied to opening up and making passable the Camino Real from the Texas state line to Dona Ana, a distance of thirty-eight miles. The larger part of this had previously been an impassable wilderness. It is now a good and heavily traveled road. From time to time other brief, stirring campaigns have been conducted and the necessary money raised to make permanent improvements on the road, in the way of gravel surfacing and grading.

Dona Ana county also claims the fatherhood of the present good roads laws, passed by the last legislature. These laws were the direct outcome of a little meeting of a handful of good roads enthusiasts who met at Mesilla Park one Sunday afternoon last winter. These men outlined the main points needed in the matter of good roads legislation. These were worked into the shape of definite resolutions, which were carried up to the annual convention of the New Mexico Good Roads association last spring, and there unanimously adopted. A Dona Ana county man put these suggestions into definite legal shape, and as such they went to the legislature in the form of five good roads bills. Their passage was urged in the senate by the Dona Ana county senator

A Feast of Bargains

THE PEOPLE OF THIS CITY have never before in the old town's history had such a feast of bargains as they have had at our GOING OUT OF BUSINESS PRICES during the last week. Some of our best friends came in a little skeptical, but timidly asked, "ARE YOU REALLY GOING TO QUIT?"

To all such inquiries we simply had to refer them to the prices we are making to fully convince them. These prices are not on one or two catch articles, but on our ENTIRE LINE of the highest grade of merchandise that we could find in the markets of the country. "THE BEST BASEBALL STORY I EVER HEARD"

HOW THEY STAND

SCHAEFER TELLS OF THE RUNNER WHO SCORED, ALTHOUGH HE WAS "OUT."

(By Herman Schaefer.)

Comedian of the Washington team, and the "funniest man in baseball." I have heard many a funny baseball story, but the funniest ever came directly under my own observation. The game was played in the bush league days, and it is just as well to leave out names and places.

The play that caused the mob scene happened in the 14th inning. We went to bat in the first half of the fourteenth, hoping to end the game, as darkness was approaching and it was evident that only one more inning could be played. Our first man up reached first, was sacrificed to second and took third on a passed ball. With only one out, it looked like a run.

The batter was a clever bunter, and the manager signalled for a squeeze play. The pitcher had plenty of speed and smoked one over. Naturally the runner on third was off with the ball, the batter connected, and while the ball was in the air the runner slid over the plate. The batter hit the ball too hard and almost made a single over short.

The third baseman had raced for a bunt, and of course, was out of the play. It was evident, however, that the shortstop could make the catch.

As the runner who had crossed the plate got to his feet his teammates yelled to him to get back to third to prevent a double play. He started for the bag as if mad. The shortstop muffed the ball when the runner was about half way back. Seeing the error, the runner dashed for the plate again, but the throw retired him.

At this stage the mob scene was put on. No one seemed to know what had happened. Every player rushed at the umpire. The official kept his head and ruled that when the man on third touched the plate a run had been tallied and that everything that happened afterwards was void. The decision being in our favor, we gracefully retired, but not so the home team.

They kicked long and loud, and the bleachers, believing the umpire had made a terrible decision rushed on the field. So did a few policemen. The umpire stood his ground and finally forfeited the game to us.

The play created all sorts of comment and the ruling of the umpire was upheld by the league president. I know of no other case in baseball where a man actually scores, tries to go back to third and then tries to score again, only to be retired, the run being allowed.

BASEBALL

BRENNAN TO STAY AT HOME. St. Louis, Sept. 18.—Some capital is being made of Roger Brennan's announcement that he will not pilot an all-star team around the world in competition with the Giants. C. Webb Murphy and some excitables in Chicago yelled when it was announced that Brennan had received an offer from McGraw to run the second club.

It is believed that Chicago howled because it hated to see St. Louis parade hither and yon on baseball skirts. That was the plan and it would have given the city thousands of dollars' worth of advertising.

The club was in New York when Brennan received the offer from McGraw, and he said at that time he did not believe his duties to the St. Louis club would permit his absence all winter. So there is nothing so startling in the publication that he will not make the trip. He isn't afraid of Mrs. Britton and Mrs. Britton did not advise him not to go. He never had any intention of going.

It would have been a great advertisement for this city, though, if Brennan had made the trip with a ball club known as the St. Louis team. They'll be talking about that trip a decade hence.

WHY LEAVE THESE TWO OUT?

Many doers in comparing the Giants' pitching staff with the Red Sox, evidently have forgotten all about Collins and Hall. They seem to think that Wood, Bedient and O'Brien are the only three men on the corps who amount to anything, when in fact, both Hall and Collins stand above O'Brien in the twirling records for the season and have pitched far more consistent ball. Collins ought to be ranked with the best. He has been called upon to go in many games that looked as if they were lost, only to pitch ruffless ball for the rest of the time and have his mates eventually bat out a victory.

DAVIS TO JOIN ATHLETICS AGAIN?

Detroit, Mich., Sept. 18.—Talk to the effect that Harry Davis, who recently resigned the management of the Cleveland club in disgust, would become assistant manager of the Athletics next year, was given a good color here today by the arrival of Davis in Detroit for a conference with Connie Mack. Davis came yesterday, but was unable to see Mack because the latter was detained in the east by the funeral of a relative. So Davis had a talk with Secretary Ohl of the Athletics and waited until today for Mack.

Neither Mack nor Davis would disclose the subject of their conference.

33,000 MAY SIT AT BIG BALL GAMES

Boston, Sept. 18.—Arrangements for the baseball games in this city of the coming world's championship series at Fenway Park, are well under way. Nearly 100 persons are at work completing the arrangements for accommodating between 30,000 and 35,000 persons at each of the games expected to be played here.

The carpenters are rearing temporary stands on all available space. Ten thousand seats in addition to the normal capacity of 22,000 will, it is expected, result from their labors.

The Boston management has adopted an elaborate system of protection against the securing of tickets by speculators. The system already has uncovered attempts to buy tickets in bunches for speculative purposes. It is announced that all of the 15,000 reserved seats will be distributed to individuals in person, except in the general allotments to the national baseball commission and to the players. No tickets will be sent out by mail, or otherwise. No money is accepted with applications. Only those requests for tickets for all the games in this city are being noticed and only one ticket will be issued for three games. This, it is expected, will minimize the operations of the speculative element.

Cincinnati, Ohio, Sept. 18.—Chairman August Herriman of the national baseball commission, announced that the commission would meet in New York next Wednesday and arrange for the world's championship series.

Mr. Herriman said all matters pertaining to the games would be placed in the hands of the national committee.

He believed the arrangement for the distribution of tickets as made by the Boston American League club management, was premature, and, even if applied, would not be successful. He is rather in favor of obliging mail requests as much as possible.

BUBONIC PLAGUE AGAIN IN HAWAIIAN ISLANDS.

Washington D. C., Sept. 18.—Indications of bubonic plague have been discovered in the Hawaiian Islands. The capture of one plague infected rat of Oahu, Island of Hawaii, 250 miles from Honolulu, and one suspicious death have been reported to the public health service.

LUCK FOR McALEER.

The success of the Boston Red Sox this year means much to James McAleer and Robert McRoy, who purchased a half interest in the club last year. McAleer, once a star center fielder when a member of the Cleveland under Pat Tebeau, has been a loyal American League man from the time that Ban Johnson and Charley Comiskey started to organize the circuit.

As manager of the St. Louis Browns McAleer made a strong bid for the pennant one year, but soon accidents to players and other bits of hard luck made his road a rocky one. So he gladly consented to a deal that placed him in charge of the Washingtons. In that capacity McAleer met new misfortunes, and when the chance came to buy into the Boston Americans he did not hesitate.

He had a snug sum saved up which he promptly invested, and, helped by some money furnished by McRoy, 50 per cent of the stock was secured. McAleer and McRoy also gave notes indorsed by at least one rich magnate which they will be able to take up at the end of the present campaign, especially if the Red Sox happen to win the world's championship.

McRoy's progress in baseball has been rapid. Formerly a Chicago newspaper man, he was appointed secretary of the American League by President Johnson. McRoy made a record as an expert schedule maker and became so valuable as Johnson's right hand man that Ban rewarded him with the Boston opportunity. John I. Taylor still retains a half interest in the club, but he has little to do with the management.

The great success of the Boston club this season is shown by the recent series with Washington. The four games drew nearly eighty-five thousand spectators and the receipts were close to \$44,000. Clark Griffith, the Washington leader, carried away a check for \$16,000, his bit of the series.

ATHLETICS TO CUBA.
Philadelphia, Sept. 18.—The Phila-

delphia American league baseball team will leave here on October 26 for a barnstorming trip to Cuba under the management of Secretary John Shibe. En route games will be played in Jacksonville, Louisville and other southern cities. The games in Cuba will be divided into two series of six games, each to be played with the Almendares and Havana.

SOX TO TRAIN SOUTH.

Chicago, Ill., Sept. 18.—Ted Sullivan, righthand man for President Comiskey of the White Sox, is expected back in a day or two from the Pacific coast, and with his return plans will doubtless be announced for White Sox training trip next spring. It is as good as settled that the first of March will find the regulars and recruits alike quartered at a hitherto unheard of place—Paso Robles by name—there preparing for a campaign that they expect will land them somewhat higher up than the bottom place of the first tier. Paso Robles, so those who claim to know inform us, is midway between Los Angeles and Frisco, and so situated that little week-end jaunts may be made to either of those cities for Saturday and Sunday games without involving a car ride that is too tedious.

HABEAS CORPUS PROCEEDINGS INSTITUTED

Amarillo, Texas, Sept. 18.—Application for a writ of habeas corpus was agreed upon by counsel today as the next step to secure the release of J. Beal Sneed, under indictment here for the murder of Al G. Boyce, Jr. This decision was reached upon failure to agree on the amount of bond. Counsel stated that the application would be made today.

Members and friends of the Sneed Boyce clans, who gathered here from the southwest following the shooting, announced that they would remain in Amarillo until after the hearing on the writ to secure Sneed's freedom.

WOMEN'S CLUBS IN 18th ANNUAL CONVENTION.

Trinidad, Colo., Sept. 18.—The second day of the Eighteenth Annual Convention of the Colorado Federation of Women's clubs in session opened with the reports of standing committees. At the afternoon session the reports of officers were received and later the delegates visited several large collieries near this city. The election of officers will take place Friday morning. Mrs. W. B. Garrettson, of Denver, is the probable choice of the delegates.

MR. ROOSEVELT TO TESTIFY

Washington, D. C., Sept. 18.—Col. Roosevelt will reach Washington at 2:30 o'clock Tuesday afternoon, October 1, according to a telegram received from the colonel's train today by Frank J. Hogan, progressive leader in the District of Columbia.

Chairman Clapp of the senate campaign expenditures committee, will arrange for Colonel Roosevelt to be heard that afternoon regarding the alleged contribution of \$100,000 by the Standard Oil company, to his 1904 campaign fund.

It is expected that Colonel Roosevelt will go direct from his train to the capitol.

Mr. Hogan has taken up with the New York progressive headquarters, a plan to have the colonel remain in Washington for a mass meeting the night of October 1.

DENY KILLING ROSENTHAL

New York, Sept. 18.—Harry Horowitz, alias "Gyp, the Blood" and Louis Rosenweig, alias "Lefty Louie," charged with being two of the four men who fired the shots that killed Herman Rosenthal, entered pleas of not guilty, to indictments of murder in the first degree when arraigned before Supreme Court Justice Goff today. The plea was made through their attorney. The accused men were remanded pending the naming of a date for their trial.

EVERY STREET IN SANTA FE

Has its Share of the Proof That Kidney Suffers Seek.

Backache? Kidneys weak? Distressed with urinary ills? Want a reliable kidney remedy? Don't have to look far. Use what Santa Fe people recommend. Every street in Santa Fe has its cases. Here's one Santa Fe man's experience.

Let Jose Ortiz y Baca, of Alto St., tell it. He says: "In 1907 I used Doan's Kidney Pills for pains in my back that had troubled me for three years. They brought prompt relief and proved so satisfactory that I gave a public statement in their praise. Now after two and a half years have passed, I gladly confirm every word of that testimonial. I can add that I have since used Doan's Kidney Pills, giving them a more thorough trial and have received great benefit. I know that this remedy is a cure for backache and kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TAFT CONSULTS WITH OLD GUARD LEADERS.

Beverly, Mass., Sept. 18.—New York and Massachusetts politics today occupied much of President Taft's attention. He had invited as luncheon guests Fred Greiner, postmaster at Buffalo, and one of the up state republican leaders in New York; Samuel J. Elder, a Boston attorney, prominent in republican councils, and Congressman Robert O. Harris, of Massachusetts.

PERSONALS

Attorney Neil B. Field is here from Albuquerque. Mrs. Helen C. Wiley, of Lyden, is visiting friends here. Alvan N. White, superintendent of education, has gone to the Duke City. Miss Agnes C. Laut, the magazine writer and author, is expected back today from Taos.

Mrs. Elias Clark, wife of the merchant and postmaster at Alcalde, is registered at the Palace hotel. Road Engineer Meriwether will leave tomorrow or Friday for Alamogordo to look after the Box canon road.

Miss Eleanor H. Johnson, prominent member of the School of American Archaeology, is here from New York City.

Hebert W. Clark, the newly elected chairman of the state central committee of the stand patters, is here from Las Vegas. He is registered at the Palace.

Major Fred Muller, prominent Rough Rider in the war with Spain and personal friend of Colonel Roosevelt, left last night for Gallup to meet his colonel and escort him to the Duke City where Mr. Roosevelt speaks this afternoon.

Former Governor Miguel Otero, national committeeman of the progressive republican party in New Mexico, left last night for Gallup to meet Colonel Roosevelt. Col. Bronson M. Cutting, publisher of the New Mexican, accompanied Governor Otero.

D. W. Daley, of Ft. Madison, Iowa, general transportation inspector of the Santa Fe, and Mrs. Daley, arrived in the city yesterday, and Mrs. Daley will be the guest of Mr. and Mrs. C. F. McKay for several weeks. Mr. Daley left this morning for a trip over this section of the Santa Fe.

Nathan Jaffa, formerly territorial secretary of New Mexico, and minister of candidate for the nomination of governor, is here from Roswell. Mr. Jaffa is now the nominee of the G. O. P. for congress. Mr. Jaffa has many friends in Santa Fe where he resided several years.

Miguel Otero, son of former Governor M. A. Otero, left today per auto for Albuquerque. The car he traveled in was Colonel Bronson M. Cutting's pearl gray Stevens-Duryea, driven by William Fay. Jack Evans and Frank Horn were also in the car. When the car reaches the Duke City it will be put at the disposal of the Roosevelt party.

ALTAR IS TAKEN.

Nogales, Ariz., Sept. 18.—The town of Altar, Sonora, was taken by the rebels under Emilio Campa Sunday after a battle in which Campa's 300 followers overwhelmed the garrison of 50 federals. Several were killed.

Colonel Giron, with 300 cavalry and 200 infantry, who were sent from Cananea to overtake Campa, started in pursuit of the rebels Monday.

According to passengers arriving on the first train from the south in nearly a week, anti-American feeling is high at Magdalena, and other towns.

The country is reported to be full of rebel sympathizers and Americans were warned of their danger.

An anti-American speech was the feature of the independence day celebration at Magdalena, Monday. Americans there have been subjected to daily insult and looting.

All of the Americans who were marooned at Magdalena when Campa put the railroad out of commission arrived last night.

GRAND JURY FAILED TO INDICT

JUDGE ABBOTT THEREUPON REFERRED CASES OF ALLEGED BRIBE TAKERS TO NEXT GRAND JURY--MCLAIN FOUND GUILTY

The grand jury has failed to bring in true bills against Jose P. Lucero, Manuel Cordoba, Luis R. Montoya and Julian Trujillo, the four men in the limelight during the recent session of the legislature, because of the charge made against them of accepting bribes. Judge Abbott referred the cases back to the grand jury but again the jury failed to indict, whereupon the court referred all four cases to the next grand jury.

The news of the failure of the grand jury to bring in true bills in these cases was the topic of conversation around the court house today.

The grand jury also failed to indict in the case of the state vs. Isias Alarid, who was charged with cutting with a knife. The case was referred by the court to the next grand jury.

A number of interesting cases were disposed of. O. E. McLaughlin was found guilty of forgery after the jury had been out but a few minutes. McLaughlin was formerly in the employ of Territorial Engineer Charles D. Miller. Sentence was not pronounced.

In the case of the State vs. Joe Vergolio, charged with assault with deadly weapon, an error in the indictment of the court led the judge to take the case from the jury and sustain Attorney G. Volney Howard's motion to dismiss.

The grand jury indicted William Cranford for robbing a store at Hyer and Cranford pleaded guilty. He was given two years in the reform school.

Manuel Roybal y Lopez was also indicted, for larceny of neat cattle. A case bristling with fine legal points now being heard by Judge Abbott is that of Estefana Sandoval de Lopez vs. Jacob Armijo for damages. Attorney Neil B. Field of Albuquerque, is appearing for the defendant.

IN SESSION 8 DAYS.

The grand jury has been in session eight days and during that period returned twelve true bills and examined 74 witnesses. The jury investigated 23 separate cases and found but little crime in the county of Santa Fe. The jury returned seven no true bills, submitted its final report and was excused.

The district court has drawn a jury every day and the dockets are being rapidly cleared.

HILLES WANTS COMMITTEEMEN TO RESIGN

New York, Sept. 18.—The seats of the members of the republican national committee of New Jersey, West Virginia, North Carolina and California will be declared vacant by the committee today, and the resignations of committeemen from Oklahoma and Minnesota will be accepted according to a declaration made by Chairman Hilles shortly before the hour scheduled for the committee meeting.

The loyalty of the members of the republican national committee to President Taft will be tested at the meeting of the committee today. Members indicated that some of the committeemen were working in the interest of Colonel Roosevelt and that these would be dropped.

NAMED SUCCESSOR.

New York, Sept. 18.—The republican national committee today accepted the resignations of its members from Minnesota, Oklahoma and Ohio and declared vacant the seats held by members from New Jersey, West Virginia and North Carolina, who are Roosevelt's supporters. Successors were named to retiring members from Oklahoma, New Jersey, Ohio and North Carolina.

VOTE TO EXPEL HIM.

New York, Sept. 18.—The committee refused to recognize a telegram from Russ Avery, of California, announcing his resignation and voted to expel him for disloyalty to the republican party.

Chairman Hilles was empowered to appoint a sub-committee of three to recommend a successor to Avery. This action was taken, it was explained, because a majority of the state committee are supporters of Colonel Roosevelt, and the choice of a republican national committee could not be left to him.

The sub-committee, Mr. Hilles announced, would confer with republican leaders in California concerning both the matter of Mr. Avery's successor and the situation in that state.

OTHER APPOINTMENTS.

New York, N. Y., Sept. 18.—Mr. Hilles said that in New Jersey Borden B. Whiting, a Roosevelt follower, had notified the committee of his refusal to resign his membership. The committee, Mr. Hilles said, would declare Mr. Whiting's seat vacant and probably would fill it with Franklin Murphy, a former committeeman.

The seat of William E. Edwards, from West Virginia, Mr. Hilles added, would undoubtedly be declared vacant and the state committee would be asked to choose his successor.

From North Carolina, Mr. Hilles continued, E. C. Duncan would probably replace Richmond Pearson.

The resignations of C. C. Priestley and I. A. Casewell, from Oklahoma, and Minnesota, respectively, will be accepted, Mr. Hilles said.

The resignation of Walter F. Brown, of Ohio, Mr. Hilles continued, would be formally accepted and Chairman Sherman Granger, the state committee's choice would be ratified as Mr. Brown's successor.

A discussion of the electoral situation in Pennsylvania, West Virginia,

California, Kansas and other states was scheduled for this afternoon.

New York, Sept. 18.—In the cases of whose seat was declared vacant, "the William Edwards of West Virginia, cause of his disloyalty to the republican party" and I. A. Casewell, of Minnesota, who resigned, the committee voted to ask the state committees of West Virginia and Minnesota, respectively, to recommend their successors. Franklin Murphy, formerly committeeman from New Jersey was elected to fill the vacancy from that state created by the declaration that Borden Whiting no longer was a member.

E. C. Duncan was elected to succeed Richmond Pearson of Ohio.

Sherman Granger was elected to succeed Walter F. Brown, the retiring member from Ohio, and J. A. Harrison was elected successor to C. C. Priestley of Oklahoma.

UNCLE SAM IS TRUST BUSTING

Chicago, Sept. 18.—Contracts and other documents by which the International Harvester company is alleged to have formed and carried on a trust were introduced by the government today in its anti-trust suit against that corporation. One of the eleven contracts showed that in the purchase of the D. M. Osborne and company, with a plant at Auburn, N. Y., George W. Perkins had signed for the harvester company.

In this instance, the government charged "for two years the defendant concealed and denied its association with the Osborne company, and operated the latter as an independent company. This was in pursuance of the defendant's policy, by denying ownership, to use controlled companies to break down competition and secure for themselves the benefit of public sentiment against combinations."

In connection with the other contracts, the government's contentions were similar.

Edwin P. Grosvenor, special assistant attorney general, in introducing exhibits, said: "The Osborne company was the largest independent manufacturer of harvesting implements in 1902 in the United States, after the formation of the trust."

"The Harvester company, through Mr. Perkins, acquired control in January, 1903. This contract is signed by Mr. Perkins as chairman of the finance committee of the International Harvester company. The consideration was \$500,000. The government charges that the Osborne company for several years thereafter was masqueraded as independent. Mr. Grosvenor also introduced contracts alleging the acquisition by the Harvester company of Keystone company, of Sterling, Illinois, the Aultman Miller company, Akron, Ohio, and the Minnie Harvester company, of St. Paul.

MINERS QUIET DOWN

IN COLORADO TOWN.

Lafayette, Colo., Sept. 18.—With deputy sheriffs patrolling the streets, there was no attempt made today by union and non-union miners to resume the disturbances of last night that resulted in promiscuous shooting and for several hours terrorized the inhabitants. At the conclusion of an investigation today, Sheriff M. H. Capp stated that the shooting started within the stockade but merely marked the close of a celebration participated in by several miners and not done with felonious intent.

THE SYSTEM.

The state board of equalization now in session here had a funny proposition presented to it yesterday morning, and yet it was the usual thing. It seems that some lands up in San Juan county had been assessed as coal lands. Of course this was a palpable error. There are no coal lands in San Juan county. That government expert who investigated the matter and reported that the coal lands in San Juan were the most extensive in the United States, greater even than Pennsylvania, was mistaken; when he said the coal underlying these lands was the highest grade yet discovered he did not know what he was talking about.

To prove the territory assessed as coal lands could not be in that class, there appeared before the equalization board a distinguished array of attorneys who argued that the land under question is utterly without value; that it is not fit even for grazing; that the land just lies out there, a barren waste, good for nothing under the sun. This raises the inquiry: Why then the presence of eminent lawyers who draw large fees for their services? Why are they here arguing for a reduction of taxes on utterly worthless land? Why not let it go back and be sold for taxes, for what it will bring? Why go to all this useless expense of hiring high priced attorneys to fight a phantom?

It is the system.

Such performances as this, started the great wave of indignation which is sweeping the country. It brought the progressive party into existence. It is wealth against those in modern circumstances; it is corporative selfishness in conflict with the honest rights of the people; it is law against equity; it is chicanery against a square deal.

New Mexico has had more than its share of this kind of thing because of its great natural wealth. It has been under the iron rule of the system. The burden has been upon the common geezer, while the Rocky Mountain and Pacific railroad, and corporations of its character, together with the land grant hogs have sat back and smiled while their "worthless lands" have gone untaxed and practically unassessed.

The miner, in his humble little home; the farmer in his cottage; the working man in his adobe house; the man in moderate circumstances, has shouldered a burden heavier than Christian's sin pack, that the dodging corporations might thrive.

It is the system.

THAT SORROW.

The sorrow felt by the standpatters and their allies, who are obsessed with a wisdom different from "owlish", regarding George Curry, is truly touching. The remarks made by some of them during the campaign but a few months past, about the same gentleman, makes the present tribulations really pathetic. Through all this pall of gloomy grief Congressman Curry retains his customary cheer, and his labors for Roosevelt and the progressive ticket go on unremittently. The glooms have not appeared in his neighborhood. It is a pity that so much sympathy should be wasted, especially at a time when nobody can use it, but those who are handing out gloom and dubiousness have nothing else in stock at present, as they are low on enthusiasm, have no positive policy, are vacillating between parties, men and principles and have nothing especially to offer except commiseration and compassion.

MOTHERS' PENSION A RIGHT.

Mothers who find themselves penniless, either through widowhood or desertion, are entitled to state help in rearing their children. Such help is a right—not a mere gift or charitable dispensation—just as opportunity for public school education or trial by jury is a right, not a gift. It is merely bringing life to a normal standard.

Children were meant to grow up in homes not in institutions. It is necessary that they understand and appreciate the obligations of home associations in order that they may realize the broader obligations in the state. All this is so undeniably true that no one—not even in this contentious age—denies it, but it is the wonder of the world that such an eminently sane and natural solution of juvenile poverty as the mothers' pension was not arrived at long ago.

We are under obligation to Mr. Taft's department of state for definition of the term "right of belligerents," on which we had got all fozzled up by certain affairs in Mexico, Nicaragua and other communities of malcontents. The belligerency of the Mexican rebels is not recognized by Uncle Sam because said rebels hold no important towns, have no accredited head and fail to follow any set military program.

Lucky that definition did not work 50 years ago, when John Bull and other foreigners were talking about recognizing our own rebels, wasn't it?

Another text in our creed:

We pledge ourselves to readjustment of the business methods of the national government and a proper co-ordination of the federal bureaus, which will increase the economy and efficiency of the government service, prevent duplications and secure better results to the taxpayers for every dollar expended.

One is led to wonder just how Nathan Jaffa is feeling as the congressional nominee of the standpatters. He must be undergoing the sensation of a fish out of water. He is not in his natural element. He is really too good a man to be allied with gangsters, but if he enjoys the company, that's his own business.

The eagerness of the standpatters to have the progressives "get together" with them is amusing. The way they plan to "get together" would be that of the lion and the lamb. The progressives would be on the inside.

Dorothy Kerin of London, England, says she has been cured of tuberculosis by the visit of an angel. We never heard it that way, but we have heard of persons being cured of disease by a visit to an angel.

Fountain Wetmore Rainwater is rather a wet name. As the man to whom the name is annexed lives in Kentucky, it's probably all right, dwelling, as he does, in a state that is not dry.

The Detroit Free Press asks plaintively: "Have you heard the call of the dying moose?" No, not yet, and judging from his present healthy condition, we will not hear it this fall.

The Buffalo Courier remarks: "There is no doubt about it,—the republican elephant has a trunk full of trouble." Yes, and the people are packing more into it all the time.

The Chicago Record-Herald says: "The Michigan penitentiary appears to be an excellent place to keep out of." Just like any other penitentiary, isn't it?

And now comes a physician from Geneva who says that too much sleep is as bad as too much food. What are the doctors trying to do to us, anyway?

For President,
 THEODORE ROOSEVELT.
 For Vice-President,
 HIRAM W. JOHNSON.
 For Member of Congress,
 MARCOS C. DE BACA.

The Roosevelt electors in New Mexico are Dr. Thomas of Chaves county, Elmer E. Studley of Colfax county and George Armijo of Santa Fe county. In voting for Theodore Roosevelt, every voter should remember that he must vote for the three Roosevelt electors who in turn will vote for Mr. Roosevelt in the electoral college if elected. He also should remember that those electors are merely his agents, and if elected, are pledged to vote for Theodore Roosevelt. That is their only function in this election and the only connection they have with the campaign. The opponents of Colonel Roosevelt are industriously circulating a report to the effect that all that is necessary to vote for Theodore Roosevelt is to write his name upon the ballot. This is not true. Vote for the presidential electors and help elect Theodore Roosevelt.

AS THE BYSTANDER SEES IT

THE FILMS COMING.

Santa Fe had a bit of luck strike here last July in the coming of the Kalem people to get some movies of the big DeVargas celebration. These films are to be released for production September 28 and Manager Stanton has promised four evenings for their display in this, the city where the action took place.

The advertising comes in that Santa Fe is mentioned specifically in each production; the advertising papers all tell where the events took place, and thus all over the United States the people will be brought to see, in this attractive form, this old city and its surroundings.

We are fortunate too, in being the first to see these pictures of our own people, familiar to us in every day life, depicted on the canvas, in the popular form of the movies.

In this advertisement we ought to adopt the "follow up" plan. We ought to supplement the moving picture show in every city in the United States. We ought to make the name Santa Fe known from end to end of this country of ours. The name should be in every hamlet. I wonder why we can't be as well known as San Diego, which is a name known today in every crossroads. We can, too. It only needs advertising to do it.

Aside from the movies, we are going to get a good line from Colonel Collier and Frank Owen through the medium of the Pecos grant, but we ought not to expect them to do it all. It's our town. We are proud of it; we know its beauties and advantages and attractions. Other people far from here do not, but we can make them. We should let them know that this is a modern city, backed by tradition and historic associations; a city modern and yet old; combining the ancient and the up-to-date. We live in the oldest city in the United States and I wonder how many

people in the east know it. We ought to force it upon their attention.

DIFFERENT VIEWS.

Of course, if everybody liked what everybody else likes; if we all enjoyed the same things; if everybody admired what everybody else does, we would be in a constant turmoil and personal scraps would be of daily occurrence.

This thought is brought to me by the pretty play given at the Elks last night. One man said: "I do not like the romantic plays," but another man or woman does. One person enjoys minstrel shows; another thinks they are punk; one man likes the problem play, to another it is tragic; one likes comic opera; another considers it frivolous, and so it goes. Were it not for the spice of variety, things in this little old world would be tame indeed.

The theatrical season in Santa Fe promises much pleasure, as Manager Stanton has a fine list of attractions and all tastes will be gratified during our dramatic season.

But it is not alone in plays that our tastes are so divergent. We admire different styles of beauty; we enjoy different pleasures; we "take to" different people; we like different sorts of sport; we buy different styles of clothes.

I sometimes wonder what would really happen if we all admired the same style of beauty in womanhood, for instance. The man who does not like romantic plays would see it in real life then. There would be shooting and abductions and duels and all sorts of such things as Anthony Hope and George Barr McCutcheon wrote about. Business would be a secondary consideration.

It was to save all this trouble and unhappiness and fighting that we were given all these differences in opinion, likes and dislikes.

The arrangement of life's affairs and conditions was pretty wise, after all, wasn't it?

BUILD A FENCE.

Yesterday one of our prominent cit-

izens suggested to the Bystander a way to hide from sight the garbage burning apparatus between the post office and the Catron block.

It was suggested that a high board fence be erected, like a baseball fence, or the one around the air dome. Let the fence be erected along the sidewalk and used as a bill board if necessary. I know that there has been a crusade in many cities against bill boards, and it is a just crusade, but a bare wood fence, or one covered with pictures, for theatrical shows, the Gold Dust Twins, Cottolene, Bull Durham, or anything else that is decent, would be preferable to a collection of old wrecked pieces of sheet iron filled with refuse, which sends out an odor anything but fragrant to greet the nostrils of the residents of the neighborhood or the passerby. We had in Santa Fe, a little cleaning up process last spring. The mayor and city officials and citizens entered into the suggestion of making the city more attractive, by cutting the weeds, cleaning the gutters, and doing their share toward giving an air of neatness to our streets. It was a very great improvement.

Through it all, the dumping ground between the postoffice and the Catron block, remained unaltered. The fact that strangers in the city spoke of it; residents protested; attention was again and again attracted to it, the unsightly spot, passed by more people in a day than any point in the city, remained unchanged.

The suggestion of the prominent citizen looks good to me. If we cannot remove a disagreeable appearance, hide it. Put up the high board fence, paint it; cover it with pictures or leave it unadorned; do any thing that will not compel every person who passes this spot to look upon this obnoxious view.

The Oldest Blood Disease

The most ancient history furnishes evidence that mankind suffered with Contagious Blood Poison. The disease has come down through all the ages and is to-day, as it has ever been, a scourge and blight upon humanity. The symptoms of Contagious Blood Poison are the same as in its earliest history, but its cure has now become an accomplished fact, whereas, it was once considered an incurable infection. S. S. S. is an antidote for the virus of Contagious Blood Poison, and cures it in all its forms and stages. S. S. S. possesses both purifying and tonic properties, and cures out all the poison, and at the same time builds up the general health. A person who has been cured of Contagious Blood Poison by the use of S. S. S. need not fear a return of its symptoms at any future time. This great medicine checks the progress of the poison and gradually but surely all sores and eruptions heal, ulcerated mouth and throat pass away, the hair stops falling out, copper-colored spots fade away, and when the blood is thoroughly purified no sign of the disease is left. Home Treatment book and any medical advice free.

NEWS OF THE STATE

BOUND OVER.

The preliminary hearing of Jacob Cartwright, charged with the murder of Lon Beall, last Friday before Justice Massie resulted in holding Cartwright to the grand jury under \$5,000 bond, which was furnished. There were some sensational features and the prisoner was examined as to his sanity.—Carriazo News.

WHY NOT?

There were lots of big pumpkins and squashes raised in the country surrounding Vaughn this year, and many other kinds of vegetables. Why not have a street fair and agricultural exhibit this fall? A start once made it might grow into a big institution after a while. Who will make the move?—Vaughn Reporter.

SAFE ON THE WAY.

The Morris State bank has just received word from the Elly Norris safe works at Perth Amboy, N. J., that their big safe, one of the best of the latest model and one of the best safes made, as soon as the safe arrives the bank will open for business in its temporary quarters, in the room now occupied by Mr. Chapman, two doors south of the post office.—Gallup Republican.

BEAR OR FISH?

A hunting party consisting of B. F. Laughlin, Blanche Clouthier, Frank Hixenbaugh, Frank Foward and Roy Weir spent several days in the mountains west of Springer this week, enjoying an outing. When asked what they had killed one of the party said they had succeeded in slaying five bears. Eh? and that one of the boys started to bring one home alive, but the bear could not keep up with him. They caught a few fish while on the Rayado, so we will have to call this a fish story.—Springer Stockman.

MINE TO BE OPENED.

It is stated that the Bennett-Stephenson mine is soon to be in active operation. The mine has been developed to the 400-foot level, the vein being 400 feet wide at the bottom level. It is planned to continue sinking the shaft and run levels every 100 feet. Large reserves of silver and lead ore are in sight. There are a 250-ton concentrating mill, compressors, drills and engines and several buildings on the property.—Las Cruces Citizen.

FIRE AT TEXICO.

Texico sustained a great loss last Tuesday night and an entire block of that city is in ashes as a result thereof. There was only one occupied building in the block, it is said, and from a business standpoint, the town is only a few miles from ruin. The origin of the fire is unknown, but it is thought by some that incendiarism played a part in the blaze. The city authorities phoned to Sheriff Moye early Wednesday morning for blood hounds; there having been a residence fired some blocks from the business district that burned.—Clovis Journal.

DRY FARMING SUCCESSFUL.

Dr. C. H. Hale in making his travels over the plains, reasons out the farmers who are doing the most work toward the development of the dry farming section of New Mexico. He came in this week and told us of a farm near Leganville, C. S. Moss, who had planted, harvested and threshed 2185 pounds of Mexican beans off of three acres of ground this year. Just think over a ton of beans from three acres of land. And beans sell wholesale at any time of the year at 4 cents per pound and more. But, figuring these beans to be worth now, 4 cents, we have a total of \$87.40 from a three acre field, or better still, about \$29.13 per acre. He also has a fine crop of maize, broom corn and Indian corn as one will find in any state, the Indian corn will yield at least 20 bushels per acre. This crop was planted and cultivated

by the bit by Mrs. Gibbs. After Miss Prewitt was released from her perilous position the two ladies walked to the Henderson home and M. Henderson bought them to town. Miss Prewitt has a badly bruised leg and will be confined to bed for some time. But she is lucky to be alive.—Cor. to Farmington Enterprise.

BEVERLY WAS ENJOYABLE

Manager Stanton's first offering in the dramatic season gives much promise. Beverly of Graustark was the play and a full house greeted it, the audience seeming to enjoy in full the situations and the acting.

There were no rough spots in it, but each one of the performers gave full and complete satisfaction. It was a romantic story, of course, as it had to be, coming from a dramatization of one of George Barr McCutcheon's fanciful creations.

The comedy centered mostly about Aunt Fanny, the rouged colored maid, attending Beverly, impersonated by Lillian Allen. Miss Allen was genuinely funny. In make up, in action, in speech, she kept the audience in a constant ripple of laughter. She was comical just to look at and the remarks which she threw out in a sort of reckless abandon had in them real humor that caught the house.

The part of Beverly combined the romantic, the piquant, the humorous, and in the capable hands of Dorothy Howard none of these elements lacked in the presentation. Miss Howard dressed the part bewitchingly, looked it very attractively and played it artistically. From the first, she was a favorite with her audience, and the fact that the disguised prince fell in love with this pretty American girl was not to be wondered at.

Princess Yelvie, who ruled the little empire of Graustark, was impersonated by Evangeline Blasdale. She was an attractive ruler, too. Her gown, without doubt, had a tendency to fracture that commandment about covetousness, but Miss Blasdale's clothes were not her only attraction. It did not require any sketch of imagination to think of her as a princess, for she looked like one, and her acting was smooth, graceful and finished.

Robert Lawrence was the prince. This actor has a very pleasing personality, and all through the play his presence on the stage was enjoyed by his audience. The part of the lover in a romantic play is not the easiest to portray. It can be made mawkish and silly, but in the hands of Mr. Lawrence it was handled with the discretion of the artist, and the presentation gave genuine pleasure.

General Marlan was not a popular character. The plotter, the villain as we call him in the drama, never is, but W. R. Coleman made the character one of the features of the play and his work was admired from the standpoint of excellency.

The other parts, Colonel Quinox and Princess Gandace, played respectively by R. H. Russell and Alice Avery added to the completeness of the presentation.

It was an auspicious opening for the season and thoroughly enjoyed.

CERTIFICATE OF INCORPORATION OF NEW MEXICO STATE REALTY AND LIVESTOCK COMPANY.

State of New Mexico,
Office of the State Corporation Commission.

It is Hereby Certified, that the annexed is a full, true and complete transcript of the Certificate of Incorporation of New Mexico State Realty and Livestock Company (No. 7303); with the endorsements thereon, as same appears on file and of record in the office of the State Corporation Commission.

In Testimony Whereof, the Chairman and Clerk of said Commission have hereunto set their hands and affixed the seal of said Commission, at the City of Santa Fe, on this 10th day of September, A. D. 1912.

(SEAL.) HUGH H. WILLIAMS,
Chairman.

Attest: EDWIN F. COARD, Clerk.
Certificate of Incorporation of New Mexico State Realty and Livestock Company.

We, the undersigned, in order to form a corporation for the purposes hereinafter stated, under and pursuant to the provisions of an Act of the Legislative Assembly of the Territory of New Mexico entitled: "An Act to Regulate the Formation and Government of Corporations for Mining, Manufacturing, Industrial and Other Purposes," approved March 15, 1905, do hereby certify as follows:

FIRST: The name of this corporation is:

New Mexico State Realty and Livestock Company.

SECOND: The registered office of the corporation is located at corner Washington avenue and Marcy street, in the City of Santa Fe, New Mexico, and Mr. Lew L. Jewett is designated as the statutory agent therein, in charge thereof, and upon whom process against the corporation may be served.

THIRD: The objects and purposes for which and for any of which this corporation is formed are: to do any or all of the things herein set forth to the same extent as natural persons might or could do, and in any part of the world, viz:

To buy, purchase lease, exchange or otherwise acquire property, real, personal and mixed, and to own, hold, sell, lease, rent, encumber by mortgage or deed or trust, or otherwise deal in, utilize or dispose of such property, real, personal and mixed, and rights and interests in any such property; also to acquire, improve, construct, build, own, operate and maintain, lease and sell dwelling-houses, hotels, apartment houses, business blocks, store rooms and other

structures and improvements; to acquire, own and hold such real property, anywhere in the world, as may be necessary or convenient for the transaction of its business; to subdivide the same, to plat into acreage, or town lots, or subdivisions as to the Board of Directors shall seem best, and to sell the same for cash or on such terms as may be authorized by the Board of Directors, to acquire by purchase or otherwise and hold lands, timber limits or licenses, water privileges and powers and rights and interests therein, and to build upon, develop, cultivate, farm settle and otherwise improve and utilize the same; and to mortgage, lease, sell or otherwise deal with or dispose of the same, and generally to carry on the business of a land and improvement company; and to aid and assist by way of bonus, advances of money or otherwise, with or without security, settlers and intending settlers upon any land belonging to or sold by the company, or in the neighborhood of such lands, and generally to promote the settlement of said lands; also to maintain and conduct a general real estate agency, and brokerage business; to purchase, hold, raise and breed live stock of all kinds, viz: Cattle, horses, sheep, goats and hogs, to buy and sell the same, to promote by all legitimate means the raising of said live stock, to receive and market the same on such terms as the Board of Directors shall prescribe, and to act as agent, broker, or attorney-in-fact for any person or corporation; and to do any and all things incidental thereto, and to the same extent that a natural person might or could do in and about said business.

IN FURTHERANCE AND NOT IN LIMITATION of the general powers conferred by laws of the State of New Mexico, and the objects and purposes herein set forth, it is expressly provided that this corporation shall also have the following powers, viz:

To take, own, hold, deal in, mortgage or otherwise lien, and to lease, sell, exchange, transfer, or in any manner whatever dispose of real property, within or without the State of New Mexico, wherever situated. To manufacture, purchase, or acquire in any lawful manner, and to hold, own, mortgage, pledge, sell, transfer, or in any manner dispose of, and to deal and trade in goods, wares, merchandise and property of any and every class and description, and in any part of the world.

To acquire the good will, rights and property, and to undertake the whole or any part of the assets or liabilities of any person, firm, association or corporation; to pay for the same in cash, the stock of this company, bonds or otherwise; to hold or in any manner to dispose of the whole or any part of the property so purchased; to conduct in any lawful manner the whole or any part of any business so acquired, and to exercise all the powers necessary or convenient in and about the conduct and management of such business.

To apply for, purchase, or in any manner to acquire, and to hold, own, use and operate, or to sell or in any manner dispose of, and to grant license or other rights in respect of, and in any manner deal with, any and all rights, inventions, improvements and processes used in connection with or secured under letters patent or copyrights of the United States or other countries, or develop the same, and to carry on any business, manufacturing or otherwise, which may be deemed to directly or indirectly effectuate these objects or any of them.

To guarantee, purchase, pledge, assign, transfer, mortgage, or otherwise dispose of, the shares of the capital stock of, or any bonds, securities or evidence of indebtedness issued or created by any other corporation or corporations of this state or any other state, country, nation or government, and while owner of said stock may exercise all the rights, powers and privileges of ownership, including the right to vote thereon, to the same extent as natural persons might or could do.

To enter into, make and perform contracts of every kind with any person, firm, association or corporation, municipality, body politic, county, territory, state government or colony or dependency thereof, and without limit as to amount to draw, make, accept, endorse, discount, execute, and issue promissory bills, drafts bills of exchange, warrants, bonds debentures and other negotiable or transferable instruments and evidence of indebtedness, whether secured by mortgage or otherwise, as well as to secure the same by mortgage or otherwise, so far as may be permitted by the laws of the State of New Mexico.

To have offices, conduct its business and promote its objects within and without the State of New Mexico, in other States, the District of Columbia, the territories and colonies of the United States and in foreign countries, without restriction as to place or amount.

To purchase, hold, cancel and re-issue the shares of its capital stock, and to do any or all of the things herein set forth to the same extent as natural persons might or could do, and in any part of the world, as principals, agents, contractors, trustees or otherwise, and either alone or in company with others.

In general to carry on any other business in connection therewith, whether manufacturing or otherwise, not contrary to the laws of the State of New Mexico, and with all the powers conferred upon corporations by the laws of the State of New Mexico.

FOURTH: The amount of the total authorized capital stock of this corporation is Two Hundred and Fifty Thousand (\$250,000) Dollars, divided into twenty-five hundred shares, of Ten (\$10.00) Dollars each.

FIFTH: The names and places of residence of each of the original subscribers, and the number of shares of capital stock subscribed to are as follows:

Name.	Residence.	Shares.	Value.
Frank M. Kolb.	Santa Fe, N. M.	250	\$2500.00
Lew L. Jewett.	Santa Fe, N. M.	250	2500.00
Ray C. Montgomery.	Moffat, Colo.	25	250.00
Harold R. McGibbon.	Santa Fe N. M.	10	100.00
Wm. M. Mabson.	Santa Fe, N. M.	10	100.00

Total 545 \$5450.00
and the aggregate shall be the amount with which the corporation will commence business.

SIXTH: The existence of this corporation is to be fifty (50) years.

SEVENTH: The directors shall have power to make and to alter or amend the By-Laws, subject to the right of the stockholders to alter or repeal the same; to fix the amount to be reserved, and to authorize and cause to be executed, mortgages and liens, without limit as to the amount, upon the property and franchises of this corporation.

The Directors may, by resolution passed by a majority of the whole Board, designate two or more of their number to constitute an Executive Committee, who to the extent provided in said resolution or in the By-Laws of said Company, shall have and exercise the powers of the Board of Directors in the management of the business and affairs of the Company, and may have power to authorize the seal of the Company to be affixed to all papers which may require it.

The Directors may, by a vote of the stockholders, be divided into one, two or three classes; the term of office of the first class to expire at the annual meeting next ensuing; of the second class one year thereafter; and of the third class two years thereafter; and at each annual election held after such classification and election, Directors shall be chosen for a full term, as the case may be to succeed those whose terms expire.

With the consent in writing, and pursuant to an affirmative vote of the holders of a majority of the capital stock issued and outstanding, the Directors shall have authority to dispose, in any manner, of the whole property of this corporation.

The By-Laws shall determine whether and to what extent the accounts and books of this corporation, or any of them, shall be open to the inspection of the stockholders; and no stockholder shall have any right of inspecting any account, or book or document of this corporation, except as conferred by law or the By-Laws, or by resolution of the stockholders or directors.

This corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by the statutes of the State of New Mexico, and all rights conferred on officers, directors and stockholders herein are granted, subject to this reservation.

It is the intention that the objects, purposes and powers specified in the third paragraph hereof shall, except where otherwise specified in said paragraph be nowise limited or restricted by reference to or inference from the terms of any other clause or paragraph in this Certificate of Incorporation, but that the objects, purposes and powers specified in the third paragraph and in each of the clauses or paragraphs of this charter shall be regarded as independent objects, purposes and powers.

NATURE'S LAWS.

Nature's laws are perfect if only we obey them, but disease follows disobedience. Go straight to Nature for the cure, to the forest; there are mysteries there, some of which we can learn from you. Take the bark of the Wild-cherry tree, with mandrake root, Oregon grape root, stone root, queen's root, bloodroot and golden seal root, make a scientific, glyceric extract of them, with just the right proportions, and you have

DOCTOR PIERCE'S GOLDEN MEDICAL DISCOVERY.

It took Dr. Pierce, with the assistance of two learned chemists and pharmacists, many months of hard work experimenting to perfect this vegetable alterative and tonic extract of the greatest efficiency.

MR. C. W. PAWLEY, of Millville, Calif., writes: "I wish to tell you that I have used your 'Golden Medical Discovery' in my family for twenty years. We have had a doctor called in but once during that time. I have a family of ten children, all well and hearty, for what, to a great extent, we owe thanks to you and your 'Golden Medical Discovery' and 'Pelllets,' which we use when sick."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

OFFICIAL NEWS.

Governor McDonald has appointed
James Seligman and Col. Ralph E.
Twitchell members of the board of reg-
ents of the New Mexico Museum to
succeed R. B. Corwin and Charles F.
Lummis, who are not eligible owing to
their residence in another state. Mr.
Seligman is a well known merchant
of this city and has taken a lively
interest in the history of Santa Fe. Col.
Twitchell is the noted historian whose
two superb volumes on the history of
New Mexico have won praise all over
the English speaking world.

The governor has named delegates
to the seventh annual session of the
International Dry Farming Congress at
Lethbridge, Alberta, Canada. They are:
Fred W. James of Clovis; W. T.
Conway of Las Cruces; Alexander Mc-
Pherson of Roswell, and J. D. Tinsley
of Albuquerque.

SEES THE ROADS.
State Engineer French is back from
a trip to the southern part of the state,
inspecting roads. With him went Land
Commissioner Ervin. Mr. French
said they motored to Alamogordo, en-
tered for El Paso and thence went
to Las Cruces motoring from that city
to Santa Augustin pass. He found the

roads to Encino and Duran splendid—
suitable for speeding in their machine
but the road between Tularosa and
Three Rivers was very bad.

ADMITTED TO PRACTICE.
J. A. Miller, attorney of Albuquerque,
was admitted to practice in the
U. S. District court for New Mexico.

GAME PROTECTION.
Game Warden de Baca has returned
from a trip to the north of the state
in the interests of fish protection. He
will give out the details of this trip
later. It is said he found several mat-
ters requiring immediate attention.

HAS ARTISTIC TASTE.
A good many friends of Assistant
Attorney General Clancy are perhaps
unaware that besides being an authority
on the intricacies of the law and the
subtleties of baseball he is also the
possessor of a fine artistic sense. The
assistant attorney general is display-
ing this sense to advantage in the
decorating of the rooms of his new
office in the capitol. Not a picture is
hung on the walls until every speck of
dust is removed from the frame and
glass, and until the lawyer's eagle eye
has decided that the work of art will
have the proper lighting.

CAPTURED 15 MINE GUARDS

Charlestown, W. Va., Sept. 18.—The
martial law zone in the strike country
was extended today to include Fayette
county, where disturbances have been
reported among striking miners since
early in the week.

Soon after the boundaries of the
new zone were announced two com-
panies of infantry captured fifteen
mine guards. They were started on
the way to military headquarters
where they will be tried.

Interest here today centered in a
telegram received by President Thos.
Cairns, of District No. 17, United
Mine Workers, from International
President John White, that he and
other international officers would ar-
rive here in time for the meeting called
by Governor Glasscock of miners,
coal operators and commercial bodies
for next Saturday morning.

Charlestown, W. Va., Sept. 18.—The
mine guards were taken into custody
within the extended martial law ter-
ritory and three arrests resulted from
the guards being armed, a direct viola-
tion of military law.

HUNGARIANS ARE IN RIOT

Budapest, Hungary, Sept. 18.—The
riotous scenes which occurred at the
opening of the Hungarian parliament,
were re-enacted today when the sit-
ting of the chamber of deputies was
resumed. The opposition members
concentrated their attacks upon Herr
Beothy, the minister of commerce,
who was struck in the face several
times and knocked down.

As soon as the government deputies
began to come into the chamber the
uproar began. An opposition member
shouted "scoundrel" at Minister
Beothy. He stepped toward the
speaker and asked: "What did you
say?" Immediately the oppositionists
rushed at the minister, striking him
with their fists until he fell to the
floor. After some struggling, the min-
ister was rescued by friends.

When the president of the lower
house, Count Stephen Tizsa, took the
chair the tumult was resumed.

When police appeared in the cham-
ber, the opposition deputies left the
hall in a body and the ministerialists
carried out the business before the
house.

MARSHALL RAPS JUDGES; TOO MUCH PRECEDENT.

St. Louis, Mo., Sept. 18.—Governor
Thomas R. Marshall, of Indiana, democ-
ratic vice presidential candidate, ar-
rived here today at the invitation of
the city club to address its members
at a luncheon given in his honor. In
his address at the club, he touched up-
on the major issues of the campaign
while the chief subject of his talk was
the failure of the American courts to
perform their functions adequately.

He said the courts were too much
bound by precedent, that the judges
were failing more and more into disre-
pute with the general public who could
not understand the force of legal pre-
cedent.

Gov. Marshall was to depart for
Springfield, Ill., at 4 o'clock, to ad-
dress a democratic gathering there to-
night.

STANDARD OIL CASE IS ON

New York, Sept. 18.—William P.
Hutchinson, secretary and treasurer
of the Union Tank line, testified to-
day at the resumption of the Standard
Oil-Waters-Pierce litigation, before
a commissioner here that the chief
business of his concern was leasing
cars to the Standard Oil Company.

"Was there any change in the di-
rectorate of the company after the
dissolution decree against the Stand-
ard Oil?" he was asked.

"Yes, H. C. Folger and two other
directors resigned."

The witness denied that their suc-
cessors had been chosen at Standard
Oil instigation. Likewise, he denied
that any list of directors had been
made before the election. On re-
quest he produced a list of shares
vested which included 29,815 by John
D. Rockefeller, 976 by William Rocke-
efeller, 752 by John Archbold, and
many other shares held by men promi-
nently identified with the Standard
Oil. The estate of H. H. Rogers, he
said, voted 673 shares and the Uni-
versity of Chicago 610.

Examination of the witness was
conducted by Frederick N. Judson of
St. Louis, of counsel for the Waters-
Pierce interests.

TROOPER FACES MURDER CHARGE

Naco, Ariz., Sept. 18.—Aureliano
Valle, assistant chief of police of
Naco, Sonora, died last night from
wounds received in a fight with troop-
ers Brown of the Fourth U. S. Cavalry.
Brown will be formally charged with
murder and taken to Cananea for
trial.

GUILD WILL HOLD JOB

Beverly, Mass., Sept. 18.—It was
learned today that during the recent
visit of Curtis Guild, ambassador to
Russia, to the "summer white house"
here he discussed with President Taft
the steps taken by the St. Petersburg
government to promulgate a treaty to
take the place of the one recently abro-
gated by the United States. Rumors
of his resignation are not given cred-
ence at the summer white house, it be-
came known today.

The state department made it clear
is expected at Tampico today.

CONFERENCE AT MANAGUA

San Juan del Sur, Sept. 18.—Rear
Admiral William H. Sutherland, com-
manding the American forces in Nic-
aragua, left Corinto yesterday for the
capital, according to advices received
here today to confer with the Ameri-
can minister at Managua, George T.
Weltzel, regarding the revolutionary
situation.

A force of 400 bluejackets has left
Managua for Masaya, which is in the
hands of the revolutionists.

GIBBONS DEDICATES A CATHEDRAL

WITH NOTED PRELATES HE ATTENDS
OPENING OF SPLENDID EDIFICE AT
WICHITA ERECTED AT COST OF
\$230,000.

Wichita, Kan., Sept. 18.—Headed
by His Eminence Cardinal Gibbons,
dignitaries of the Catholic church
from all parts of the United States
were here today to attend the dedica-
tion of St. Mary's cathedral, said to be
the finest church edifice in the south-
west.

The ceremonies, which began this
morning with Cardinal Gibbons as of-
ficiating prelate, Bishop John J. Hen-
nessy, of Wichita, celebrant of the
mass, and Archbishop John J. Glen-
non, of St. Louis, as orator of the oc-
casion, were to cover two days.

Cardinal Gibbons was scheduled to
review a church parade, headed by a
uniformed body of knights of Colum-
bus, this afternoon. The program for
tonight called for celebration of vesp-
ers by Bishop J. H. Thien, of Lincoln,
Neb., and a lecture by Archbishop
John Ireland, of St. Paul.

The cathedral, which is in Roman-
esque renaissance style, was erected
at a cost of \$230,000 exclusive of fur-
nishings.

W. J. BRYAN IS IN UTAH

Salt Lake City, Utah, Sept. 18.—A
caravan of automobiles left Salt Lake
City this morning for Provo to meet
William J. Bryan, and after his Provo
speech, to bring him to the capital,
stopping on the way at the number of
little towns in the Utah and Salt Lake
valleys. Mr. Bryan is scheduled for
a speech in Salt Lake City tonight.

Salt Lake City, Utah, Sept. 18.—Ar-
riving at Provo a little after noon, Mr.
Bryan was entertained at dinner by
Jessie Knight, a millionaire mine own-
er, and prominent democrat. Then, un-
der escort of the Salt Lake city auto-
mobile delegation, he proceeded to the
Provo opera house and began his ad-
dress.

IMPERSONATORS TRAILED AND CAUGHT.

New York, Sept. 18.—Detectives em-
ployed by the Austrian consul general
today trailed two women suspected of
having impersonated Mrs. Petronella
Menschik the mother of Mrs. Rosa
Menschik Szabo, who met death while
boating with her lawyer, Burton W.
Gibson, now in jail, charged with her
murder.

One of the women reached New
York recently from Chicago and is
staying at a fashionable hotel. She
says she never has heard of Gibson.
Another is said to have worn a gray
wig when she impersonated Mrs. Men-
schik in signing the waiver attached
to Mrs. Szabo's will.

SAFEBLOWERS ARE FREE; POLICE FACE CHARGES.

Chicago, Sept. 18.—Failure to cap-
ture two members of a gang of safe-
blowers who stole \$271,000 from a
bank of Nova Scotia, in Vancouver,
B. C., was made the basis of charges
today by Chief of Police McWeeney
against two of his subordinates, Cap-
tain John J. Mahoney and Lieutenant
Benjamin Burns.

TOO SCIENTIFIC.
It is alleged that Mahoney and
Burns, knowing that the two robbers
were in a saloon here, engaged in a
Sherlock Holmes attempt to have
Burns, disguised, take the thieves
single handed.

Burns was beaten unconscious by
the robbers and now is in a hospi-
tal.

JUMPS FROM 22nd STORY OF MASONIC TEMPLE.

Chicago, Sept. 18.—Prevented from
jumping to his death in the interior
of the Masonic Temple building by
wire nets, C. R. Rasmussen, 22 years
old, an insurance solicitor, climbed
to the roof of the twenty-two story
structure today and jumped off. His
body crashed on the roof of an ad-
joining building, 14 stories below, and
he was instantly killed.

Fire in Stable.—Fire which broke
out in the stable at the rear of the
home of Mrs. Martina Baca, De Var-
gas street, shortly after noon today,
killed two sheep, several chickens and
destroyed some feed. The fire is
said to have been caused by the care-

come to Santa Fe to make his home
here. His wife arrives today from
Abbott, Texas, where she has been
visiting friends. Mr. Stamper visited
Santa Fe some time ago and fell in
love with the ancient city and like a
good many other people who have set-
tled here lately he sees great growth
for New Mexico during the next de-
cade or two.

Makes Interesting Tour.—Frederick
Alarid, a well known and respected
citizen, left last night for St. Louis,
Mo., where he will visit for two
weeks. Mr. Alarid before coming back
to Santa Fe will also visit Cape Girar-
deau, Mo., where he was educated in
the Christian Brothers College. On
his way back Mr. Alarid will stop for
two days in Kansas City, Mo. The
first time Mr. Alarid visited Kansas
City was in 1858, when he and some

other New Mexico citizens went there
on a visit via the old Santa Fe trail.
The great city then was but a trading
post with a fort stationed nearby. Mr.
Alarid will stop at Jefferson City,
which he knew as a village—before
he returns here in October.

We'll be frank enough to say
that we are intensely proud of
Our New Fall Shoes

We want our trade to see and
appreciate the Choice Styles!

By quoting men's shoes at \$3.00, \$3.50, \$4.00,
\$4.50 & \$5.00, by saying that we've women's
shoes at 2.00, 2.50, 3.00, 4.00 and \$5.00, or at
any other price, would make but very little
impression on your mind. You've seen these
same shoe prices quoted a thousand times.

But! If you'll allow us to show you the
handsome New Fall Models, you'll
notice their Excellence and Beauty
at a glance and you'll say at once:—
"The Finest Shoes I Ever Saw"

OUR SPLENDID SHOES AND OUR
EXPERIENCED SHOE SERVICE
IS AT YOUR COMMAND.
