OTTOMAN NOW ASKS HELP AT ONCE

POWERS ARE ASKED TO ARRANGE ARMISTICE TO PREVENT FURTHER FIGHTING UNTIL PEACE CAN BE PERMANENTLY ARRANGED

London, Nov. 14.—With the Turkish armies beaten in every battle during the month's war and now behind the fortifications at Tebatalla defending the capital of the empire, the Ottoman government has appealed to Bulgaria for an armistice pending the opening of negotiations for peace according to an official dispatch received from Constantinople today. What terms, if any, Turkey has proposed have not been disclosed. They must, however, in the opinion of diplomats, be unlimited if they are to prove acceptable to Bulgaria. With the last defenses on Constantinople almost in her hands, Bulgaria is unlikely to consent to any armistice except on conditions giving her full military advantages.

Turkey will have the support of the European powers in her request for a cessation of hostilities. The representatives of the various nations at Sofia have now received full instructions regarding the proposal of mediation and they held a meeting at noon today to discuss the method to be adopted for making the communication of the Turkish request to the Bulgarian cabinet.

The armistice asked for by Turkey will affect only the fighting at the Tebatalla fortifications while the step the European powers have taken has the object of putting an end to the war in all parts of the Balkan peninsula.

Until the powers succeed in influencing the allies in the direction of peace, the fighting at Adrianople, Monstir, Scutari and in other portions of Turkey's European dominion, will continue, no matter how Bulgaria regards the appeal made by Kiamili Pasha.

While therefore Turkey's recognition of the realities has smoothed the path of diplomacy and may result in Constantinople, the Dardanelles and perhaps some other parts of her European possessions being left to her, and prevent a scramble for them by the powers, there still are some serious questions to be dealt with. Among these are, notably, those of the position of Albania and of the Serbian ambition to have a port on the Adriatic sea.

The Albanians are taking steps to make their country independent and besides publishing a proclamation have issued a protest against any attempt to interfere with the freedom and integrity of the country. The organization also makes the charge that the Servians have secretly murdered all the Albanian prisoners of war. As to the Adriatic, which according to a report from Alessio today, the Servians have not yet reached, there is no official change either in the Austro-Italian or the Serbian attitude.

A dispatch from Alessio confirms the previous reports that the Montenegrin army advancing on that town has suffered a reverse. The Montenegrins were unable to take the town owing to the Miridite tribesmen joining forces with the Turks. The Montenegrins were driven back as far as the Boyana river.

London, Nov. 14.—Official confirmation that Kiamili Pasha has addressed King Ferdinand of Bulgaria, directly, asking for the conclusion of an armistice pending the negotiation of peace preliminaries, was received here from Constantinople this morning.

Berlin, Nov. 14.—Insinuations that the Bulgarians have been guilty of atrocities against the Turks and that the present war is more of a butchery than orderly warfare, are made by the correspondent of the Vossische Zeitung. Telegraphing from Semlin, Hungary, on the opposite side of the river from Belgrade, the correspondent declares he has been reliably informed that the Bulgarian troops mutilated the bodies of the Turkish soldiers after the battle of Kirk-Kiliseh and carried Turkish heads about on the points of their bayonets. He continues: "Barbarism is fighting barbarism, and century-old hate is fighting century-old oppression."

Berlin, Nov. 14.—The reports of atrocities committed by the Serbian troops on the Albanians are confirmed by Captain Persius, correspondent of the Tageblatt, writing from Uskup. He says he witnessed the burning of Albanian villages and heard from numerous eye witnesses of the reckless shooting not only of men, but of women. The Servians, he adds, admitted they were carrying on a war of extermination against the Albanians, whom Serbian officers declared "must be swept from the face of the earth."

Sofia, Nov. 14.—The Turkish request for mediation by the powers was presented to the Bulgarian premier this afternoon by the ministers of the great powers. Premier Guechoff promised to submit it at headquarters immediately and also to confer on the matter with the cabinets of the allied Balkan nations. The text of the note follows: "The Ottoman government having approached the great powers of Europe to ask their mediation, we are charged to inquire of your excellency if Bulgaria is disposed to accept this mediation and if so, to what conditions her acceptance will be subject."

Belgrade, Serbia, Nov. 14.—A report that the Turkish fort at Adrianople has fallen before the attack of the Bulgarian allies is current here, but without any confirmation in official circles.

Rieka, Montenegro, Nov. 14.—King Nicholas of Montenegro, gave a curt and pointed reply to the Austro-Hungarian minister when he made representations with reference to Montenegro's action against Alessio and the port of San Giovanni Medua. His majesty, admitting that he had no authority from his allies to give a definite answer on the subject, continued:

"For my part I at once emphatically reject even the suggestion that the two Serb Kingdoms will not be allowed to occupy Giovanni de Medua and Alessio, all the more so as at present neither Turkey nor Autonomous Albania exists. I consequently consider the communication of the Austro-Hungarian minister null and non-existent."

Constantinople, Nov. 14.—The Turkish naval gunners are doing great execution among the Bulgarian troops attacking the Tebatalla fortifications, according to a report from the commander of the Turkish cruiser Hamidieh. The squadron lying off Bogodas, on the coast of the sea of Marmora, he says, found the range at from 8000 to 8500 yards and poured such a withering hail of shells into the Bulgarian ranks that the besiegers were forced to retire from their positions at Diermontepe, Teflikdere and Drankocui to the northward from Bogodas and withdraw behind the heights. They suffered great losses.

M'CLUNG QUILTS AS TREASURER OF NATION

Washington, D. C., Nov. 14.—Announcement of the resignation of Lee McClung as treasurer of the United States was made by President Taft today. McClung tendered his resignation to the president at a conference at the executive mansion today and its acceptance was later announced by the president from the executive office with the explanation that Mr. McClung resigned voluntarily. It is believed that Carmel Thompson, now private secretary to the president, will succeed him.

The treasurer declined to discuss his retirement in any way today, but it was rumored that his resignation came as the result of a continued friction with Secretary MacVeagh. The resignation of Mr. McClung means that the money and securities for which the treasurer is responsible must be actually counted and receipted for. This will be the greatest single financial transaction in the history of the world. When McClung assumed the duties of treasurer he gave a receipt to his predecessor for \$1,260,946.88.

PUBLICITY FOR TOLL RATES IN PANAMA CANAL

Washington, D. C., Nov. 14.—Out of consideration for the great maritime interests of the world, which are expected to furnish the business for the Panama canal, the state department today dispatched copies of President Taft's proclamation, fixing the tolls for the use of the canal to all United States embassies and legations abroad, with instructions to give it wide publicity.

SACK RACE IN KANSAS.

Topeka, Kans., Nov. 14.—The Capper-Hodge race for governor still sees-saw back and forth. Hodge, democrat, leads by 22 votes. Eighty-nine out of 105 counties have reported to the secretary of state. It is impossible to forecast the winner.

COLORADO WATER RIGHTS CASE UP.

Denver, Nov. 14.—President Taft has agreed to take up at a cabinet meeting at an early date the question of Colorado's water rights, according to private advices received here. The controversy involves the right of the federal government to use the waters of the Rio Grande in the state of Colorado for irrigation purposes in New Mexico, Texas and Mexico, in connection with the Eagle dam reclamation project.

TO CITIZENS OF SANTA FE.

For the Arizona delegation to the Ocean to Ocean Highway association, we beg to thank the citizens of Santa Fe for their kindness and hospitality. The entertainment of our delegates was unaffected and spontaneous and just of the kind most pleasing to Arizonans.

To the Santa Fe New Mexican and ex-Governor Otero we are especially indebted.

(Signed) R. W. SMITH, MALCOM FRASER.

ANDERSON TO JAPAN.

Washington, D. C., Nov. 14.—Lars Anderson, of Washington, now minister to Belgium, has been named as ambassador to Japan to succeed Charles Page Bryan, whose resignation was announced a few days ago. Through the Japanese embassy it was learned today that Mr. Anderson would be satisfactory to the Japanese government.

RYAN DEMANDS SECRECY IN VISITS

HIGHER UPS, M'ANIGAL, ASSERTS ON STAND, WERE NERVOUS AND WANTED HIM TO KEEP AWAY FROM THEM

Indianapolis, Ind., Nov. 14.—Direct charges that Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers had full knowledge of explosions and that he even advised the dynamiters to disguise themselves, were made by Orrie E. McManigal in his confession at the "dynamite conspiracy" trial today.

ROOSEVELT IN LEAD AGAIN IN CALIFORNIA

San Francisco, Calif., Nov. 14.—With but one precinct missing and only nine counties to be canvassed officially, California gave Roosevelt today a plurality over Wilson of 56. The final result remained, however, in the keeping of three populous counties, which had not certified to their returns.

In Los Angeles county, the best unofficial information was that Wilson had gained 72 votes on a canvass of the county nearly completed.

In Alameda county, containing the cities of Oakland and Berkeley, similar sources gave Wilson 32. In San Francisco, although democratic headquarters announced a Wilson gain of 34, the registrar believed that corresponding clerical errors in the Roosevelt column would leave the net result negative.

In the missing mountain precinct, the registration records show 12 republican voters, one socialist and one renegade who refused to state his party affiliation. Not reckoning this precinct, Wilson had an unofficial lead of 50 votes.

Los Angeles, Calif., Nov. 14.—Alleging that ballots cast in several precincts in Los Angeles city and county had been tampered with and that return sheets had been abstracted, Mayor Fox, a democratic presidential elector, obtained from the district court of appeals today a writ of mandamus to compel the county board of supervisors to give a fair and honest count of the ballots cast in the election of November 5.

The writ was made returnable next Monday and will have the effect of delaying until after that date the announcement of the result of the presidential vote canvass by the board of supervisors.

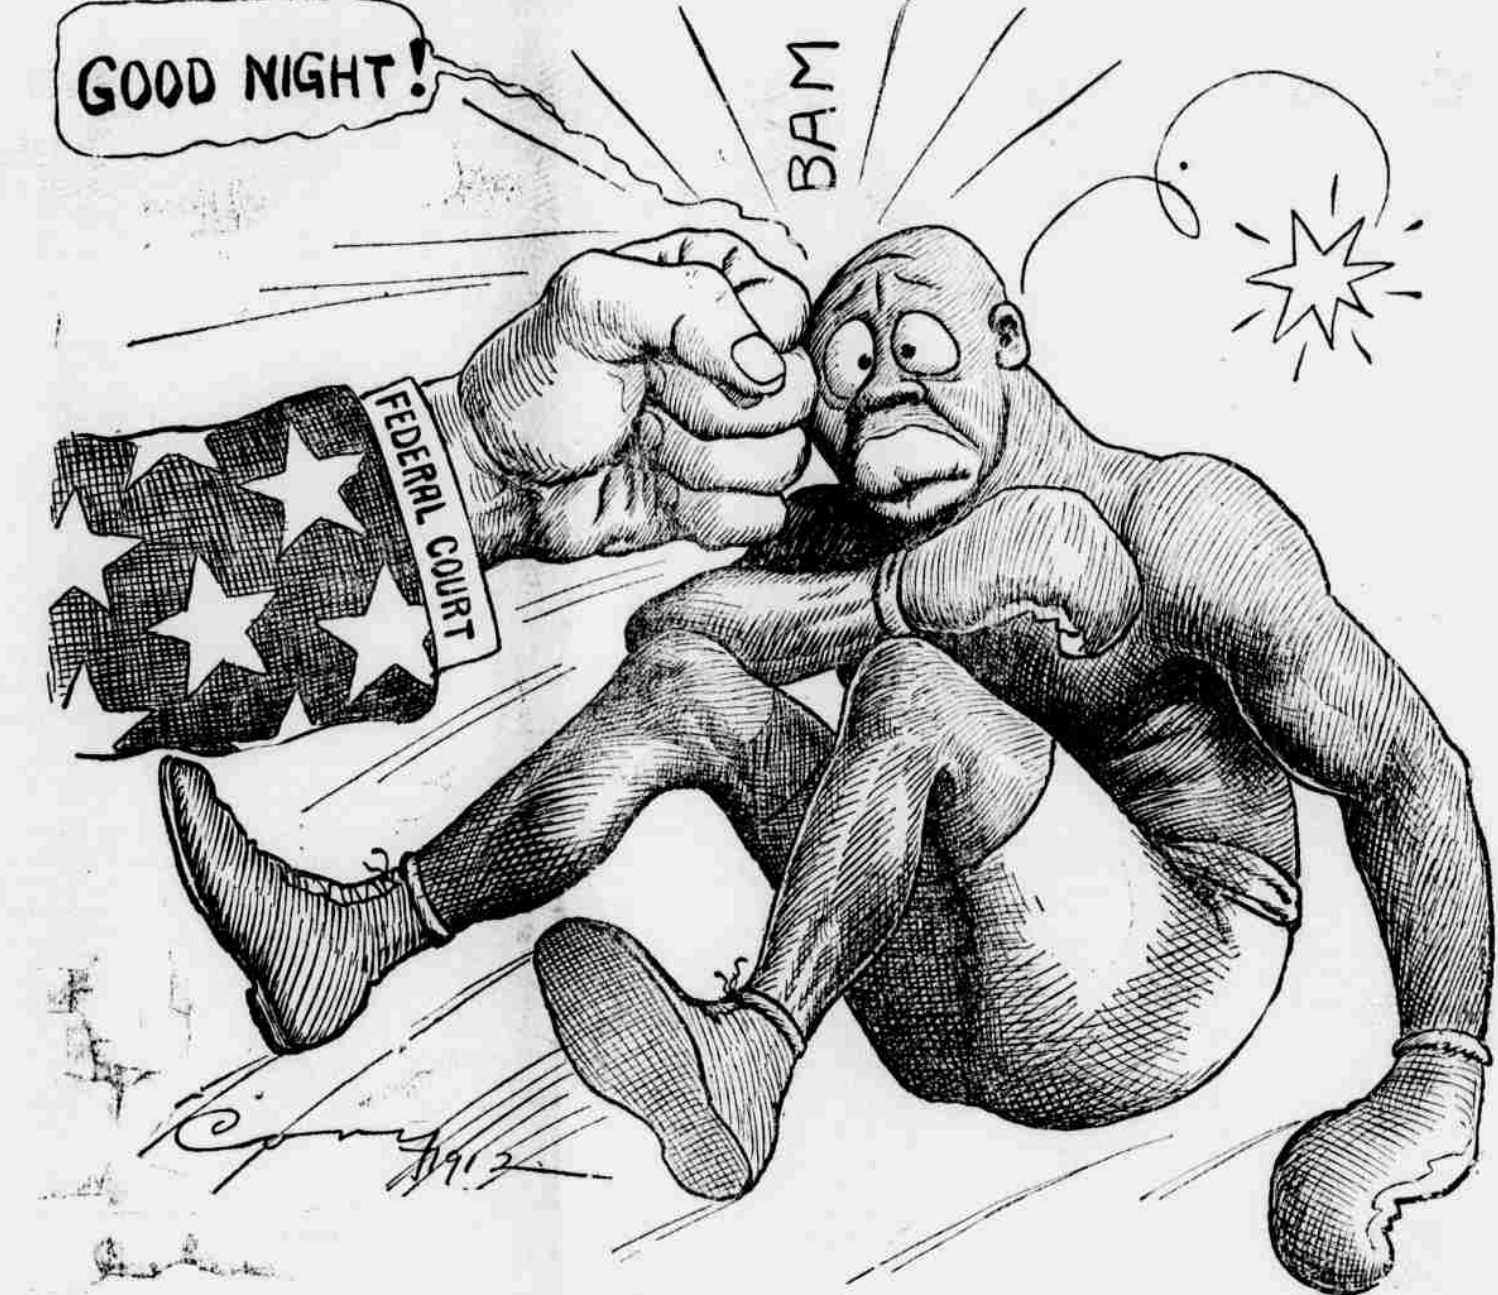

Seattle, Wash., Nov. 14.—With only eight small precincts in the state to hear from, the plurality of Lister, democrat, over Hay, republican, for governor, was 472.

It was stated today that six of the missing precincts gave Hay a plurality of 60 and that the other two had but 30 registered voters all told.

TRYING TO PROVE ALIBI IN TAR CASE.

Norfolk, Ohio, Nov. 14.—The defense today attempted to prove an alibi for Ernest Welch, the first tried of the six men charged with "tarring" Minnie LaValley. His mother, Mrs. Alice Welch, testified he was at home the evening of the tarring took place. Other witnesses testified the LaValley girl's reputation was "bad."

AT LAST! HERE'S A REAL "WHITE HOPE."

RYAN DEMANDS SECRECY IN VISITS

HIGHER UPS, M'ANIGAL, ASSERTS ON STAND, WERE NERVOUS AND WANTED HIM TO KEEP AWAY FROM THEM

Indianapolis, Ind., Nov. 14.—Direct charges that Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers had full knowledge of explosions and that he even advised the dynamiters to disguise themselves, were made by Orrie E. McManigal in his confession at the "dynamite conspiracy" trial today.

"I had blown up the Kansas City Job, August 23, 1910, and at Peoria, on the way back," McManigal testified. "Edward Smythe, business agent of the Iron Workers union, showed me some non-union jobs he wanted me to blow up. He said J. J. McNamara had agreed I should do it. I told Smythe I had had luck at Kansas City where I lost four quarts of nitro glycerine and three alarm clocks. Smythe said a dynamiter, known as the 'New York Kid' had been around Peoria and he (Smythe) was suspicious of him, thinking he might be a spy of the National Erectors association."

"When I returned to the Iron Workers headquarters in Indianapolis, McNamara was not there. I saw President Ryan. I told Ryan about the Kansas City explosion and showed him a newspaper account of it. Ryan said: 'I want you fellows to stop coming around this office openly and you don't change your appearance enough. When any one gets a good look at you he will be sure to know you the next time.'"

"I told him we were not reckless and that no one knew what we were doing."

"Ryan said he did not know the 'New York Kid.'"

McManigal spoke of the time J. J. McNamara was in Kansas City and Omaha. While in Kansas City on this trip, the government alleges, McNamara had a talk with W. Bert Brown, a local business agent, about J. B. McNamara, being on the Pacific coast preparatory to "cleaning up" Los Angeles.

"Later when J. J. returned to Indianapolis," said McManigal, "he arranged for greater secrecy in my reporting to headquarters. At night he was to put a light in the window, signifying the coast was clear. If there was no light I was to stay away."

McManigal said he and Herbert S. Hockin bought 129 quarts of nitro glycerine at Albany, Ind., and hid it at Munies, later removing it to Indianapolis. At one time when eighty quarts of the explosive were stored in the vault of the Iron Workers office, the witness said McNamara remarked: "If this should explode, there would not be enough people left in downtown Indianapolis to tell what happened."

McManigal then returned to Peoria. "I asked Smythe what he would do if there was any trouble in Peoria on account of the explosion," said McManigal. "Smythe said he stood in with the police and nothing would be done."

McManigal testified this afternoon: "On the day of the Los Angeles Times explosion, I took a newspaper account of it to J. J. McNamara's office. I asked him if he noticed people had been killed. He replied: 'Yes I have no doubt J. B. did it. He went out there to give Los Angeles a good cleaning up and I suppose he got in touch with those state building trades council people and they put him on as to what to do. It will make them sit up out there.'"

Salem, Mass., Nov. 14.—The state today ended its cross-examination of Joseph J. Ettor, on trial charged with the murder of Anna Lopizzo.

Ettor admitted he advised the strikers to go down to the mills on the first Monday after the strike, but not to go to work, and that he urged them to induce all the workers to leave the mills.

CONTRACT SYSTEM FOR CONVICTS IS CONDEMNED.

Baltimore, Md., Nov. 14.—The contract system of prison labor was condemned in the report of a committee on prison labor presented today at the Congress of the American Prison Association in annual session here. The committee, however, recommended the system when no other means of employment could be provided, believing it preferable to idleness.

way and working for the National Erectors association. He replied my life wouldn't be worth anything, if I did."

On the way to the Iron Workers convention at Rochester, N. Y., in September, McManigal said he accompanied McNamara as far as Cleveland, taking 20 quarts of nitroglycerine for Peter Smith at Cleveland.

The witness said McManigal spoke of the success of the plan of blowing up non-union jobs, saying the railroads were beginning to be afraid to handle non-union iron and steel.

Salem, Mass., Nov. 14.—Joseph J. Ettor, on trial here with Arturo Giovannitti, and Joseph Caruso, charged with the Anna Lopizzo murder, during the Lawrence textile strike, declared on the witness stand today that Jesus Christ and Abraham Lincoln were sources of inspiration to him as a labor leader.

Asked on redirect examination by Attorney Fred H. Moore, of the International Workers of the World as to his religion, Ettor replied: "I am an early Christian."

"What is meant by that?" "I mean I believe in Christianity as Jesus Christ taught it himself."

"Did you ever read anything by Abraham Lincoln?" "Yes."

"Did anything of Lincoln's that you read have anything to do with your idea that labor should get the full products of its toil?" "It did," said Ettor as he left the witness stand, which he had occupied for two days.

Court adjourned because of the illness of counsel for Giovannitti, one of the defendants. The latter will take the stand tomorrow.

MASONIC ANNOUNCEMENTS.

There will be an organ recital at the new cathedral, at 3 p. m. Sunday afternoon to which the public is cordially invited.

The lodge dedication services will take place at 7:30 Sunday evening and the public is invited to attend at 8 o'clock, when Hon. A. C. Stewart, of St. Louis, Mo., will deliver the address of the occasion.

The reception and dance will occur at 8 o'clock Tuesday evening. The large attendance of out-of-town visitors makes it necessary to restrict invitations for this function and Masons who have friends they desire to invite must secure an invitation from the chairman of the entertainment committee. Many of our visitors will not be prepared for a full dress occasion and the courtesy to them requires that this be an informal affair.

R. H. HANNA, Chairman Entertainment Committee.

LAST LORIMER CASE IS NOW NON-SUITED.

Chicago, Nov. 14.—States Attorney Weyman today non-suited the case against State Representative Robert E. Wilson of Chicago, whose trial on charges of perjury was scheduled to start today. This case was said to be the last of the criminal matters growing out of the election of United States Senator William L. Lorimer.

HOROWITZ IS ON STAND TODAY

HE CORROBORATES STORY OF OTHER GUN MEN AS TO KILLING OF HERMAN ROSENTHAL NEW YORK GAMBLER

New York, Nov. 14.—Harry Horowitz, otherwise known as "Gyp the Blood," the dandy of the four gunmen on trial charged with murdering Herman Rosenthal at Charles Becker's bidding, took the witness stand today and swore that the shots in front of the Metropole, were fired by Harry Vallon, "Bridge" Webber, informers for the state, and a third man mysteriously unnamed.

He denied every incriminating statement made by "Bald Jack" Rose and said he and his companions did not even hear of the murder until seven hours after it had occurred. They were within a stone's throw of the scene, whether they had gone at the stranger's invitation, he said, and fled when they heard the shots.

"Gyp," under the questioning of his attorney, told of being in Webber's poker room with Rose, Schepps, Vallon, Croflet and a strange man whom he did not know.

Webber went out with the stranger, but the two returned in fifteen minutes. The stranger was a man about five feet 9 or 10 inches tall, of stocky build, and wore a black slouch hat.

"Gyp" was not allowed to tell what the stranger said.

The four gunmen left the power rooms with the stranger, "Gyp" said. "Dago" Frank said he was going home and the others, including the stranger, walked to the Hotel Cadillac at Forty-third street and Broadway.

"We stood there by the Cadillac," the witness declared, "and the strange man walked across Forty-second street. He approached Rose, Webber, Vallon and Schepps, who were standing opposite the Metropole. All five of them then walked over toward the Metropole. Webber and Vallon first."

at of a sudden we heard a shot. We saw Harry Vallon and Bridge Webber and the strange man shooting. "How many men did you see shooting?"

"Those three, Harry Vallon, Bridge Webber and the strange man."

"As soon as we saw them firing," continued "Gyp," "we ran for the subway. A train was just pulling in and we boarded it without paying fare. We rode to 145th street and Lenox avenue and went to our flat."

Croflet, "Dago Frank," was then at the flat, the witness said. The witness denied that Rose had ever asked him and his companions to murder Rosenthal. Rose's motive in seeking them, he said, was to assure them that he had no part in the framing up of "Big Jack" Zelig.

On cross-examination, "Gyp" admitted that he had been convicted five times for larceny offenses and had served several terms in penal institutions, but denied participation in various East Side holdups.

"Gyp" detailed his movements with "Lefty Louie" from the time of the flight the day after the murder until their arrest in September.

Mr. Moss then read from the stenographer's notes taken at police headquarters the night of their arrest. There were several conflicts with today's testimony.

"I lied at headquarters," admitted "Gyp."

"I wanted my fate in the hands of a jury and an honorable judge, not with the police."

"Why didn't you say then, if you knew it, that Vallon and Webber and the strange man had killed Rosenthal?"

"I would have been a fool to tell it then," said "Gyp."

"You didn't want that any way. You offered me immunity if I'd accuse the others."

"That's not true," shouted Mr. Moss. The answer was stricken out.

ROCKY MOUNTAIN HOTEL MEN WILL BE REASONABLE

Denver, Colo., Nov. 14.—Delegates to the twelfth annual convention of the Rocky Mountain Hotel Men's association today agreed unofficially that they would make no extra charge for bread and butter served their guests. The convention opened today with more than 100 in attendance, mostly from Colorado towns. Delegates from New Mexico and Wyoming are expected to arrive tonight. The report of President C. B. Hamilton, showed that 20 hotel men had joined the association last year.

LONGWORTH IS DEFEATED.

Cincinnati, Ohio, Nov. 14.—The official count of Hamilton county, made public by the board of election shows that Congressman Nicholas Longworth, son-in-law of Colonel Roosevelt, was defeated for congress in the first Ohio district by Stanley Bowdler, democrat, by 97 votes.

"CASCARETS" BEST BOWEL CLEANSER

Headache, Sour Stomach,
Biliousness and Bad Taste
Gone By Morning.

Furred Tongue, Bad Taste, Indi-
gestion, Sallow Skin and Miserable
Headaches come from a torpid liver
and clogged bowels, which cause
your stomach to become filled with
undigested food, which sours and fer-
ments like garbage in a swill barrel.
That's the first step to untold mis-
ery—indigestion. foul gases, bad
breath, yellow skin, mental fears,
everything that is horrible and nause-
ating. A Cascaret tonight will give
your constipated bowels a thorough
cleansing and straighten you out by
morning. They work while you sleep
—a 10-cent box from your druggist
will keep you feeling good for months.
Millions of men and women take a
Cascaret now and then to keep their
stomach, liver and bowels regulated,
and never know a miserable moment.
Don't forget the children—their little
insides need a good, gentle cleansing
too.

NEWS NOTES FROM STATE COLLEGE

State College, Nov. 14.—Santa Fe is
well represented this year at the
State College of Agriculture & Me-
chanic Arts, eight students being en-
rolled from there. Charles Elliott
and Dillman Kinsell are two ap-
pointees under the territorial act, and
both are now finishing up their last
year of appointment. Elliott is en-
rolled as a commercial student this year,
taking stenography. Kinsell is in the
third preparatory class, which is
equivalent to the junior year of high
school. Miss Felicitas and Gustav
Kaune, daughter and son of H. S.
Kaune, and both graduates of the
Santa Fe high school, are now taking
their second year of work at the col-
lege. Miss Felicitas is a sophomore
in the domestic science course and
Gustav is doing special work in the
commercial department, with the rank
of sophomore. Misses Pauline Kin-
sell and Charlotte Weintge entered
the college last September and are
taking work in the stenography de-
partment. While Goebel and William
Mueller are two more students from
Santa Fe who enrolled for the first
time last September. The former is
a senior preparatory student and the
latter a first preparatory student in
the course in agriculture. The Santa
Fe young people in attendance at the
State College are giving an expecta-
tionally good account of themselves.

President W. E. Garrison and Direc-
tor Luther Foster have gone to Atlan-
ta, Ga., to attend the annual meet-
ing of the American Association of Agri-
cultural Colleges and Experiment Sta-
tions which is being held there. They
go as representatives of the New Mex-
ico State College and Experiment Sta-
tion.

Clarence Thomas, a freshman in the
New Mexico State College, won first
prize in the state intercollegiate orator-
ical contest held at Albuquerque
during the annual meeting of the Edu-
cational association. Thomas' oration,
which was entitled "Our Unguarded
Gates," dealt with the immigration
problem, and was so well delivered
that he received the unanimous vote
of the judges for first place. Thomas
was one of the members of the college
debating team which won the debate
on woman suffrage with the State Un-
iversity last year.

FIRST SHIPMENT OF THE SEASON

Cloudercroft, N. M.—Mr. and Mrs. R.
D. Hiller and the baby returned to
Cloudercroft Monday after a very plea-
sant visit to Chicago, points in Indiana
and other eastern places. Mr. Hiller
who is agent for the El Paso & South-
western system here has been taking
his vacation and spent the time in the
north and east.

Mr. Brinkerhoff, traveling auditor for
the El Paso & Southwestern system
arrived in Cloudercroft Monday to
check out P. A. Carter, who has been
agent at this point during the absence
of R. D. Hiller on his vacation. Mr.
Hiller is being checked in and will
resume his duties at once.

Scott B. Williams returned Monday
from Alamogordo where he has been
since Saturday on business. While
there he was the guest of Dean Sher-
ry.

J. C. Jones was in Cloudercroft Mon-
day from his ranch near here.
Mrs. A. E. Bassett, wife of A. E.
Bassett, who conducts the pool hall
barber shop has arrived in Cloudercroft
and Mr. and Mrs. Bassett will keep
house at the "Wheeler" cottage on
Glorietta avenue.

The first car of oats this season was
shipped Monday, the 11th, by the
Cloudercroft Trading company at Carri-
zozo, N. M. F. S. Riggs, manager of the
Cloudercroft Trading company states
that the oats shipped are of a
very fine quality, raised in James and
Cox canons and run about 44 pounds
to the bushel. This firm will ship an-
other car Friday. Practically all the
farmers in this section have thrashed
their oat crops and will now begin to
ship. The oat crop is one of the most
important in the Sacramento moun-
tains and many cars are shipped from
Cloudercroft during the season.

Democrats To Celebrate—The dem-
ocrats will have a celebration at the
capitol tonight, with speeches in
English and Spanish and music by the
First Regiment band. There will be
a parade at 7:30.

GREAT EXHIBIT IS ALMOST READY

ON MONDAY NIGHT SANTA FEANS
WILL SEE MODELS AND PICTURES
OF "OLD-NEW SANTA FE" AT
OLD PALACE

This morning was commenced the
installation of the new-old Santa Fe
exhibition to be opened here next
Monday evening at 9:30 o'clock with
a reception at which the visiting
Scottish Rite Masons will be the
guests of honor. Full particulars of
this function will appear in a later
issue.

Last night the model of the old
San Miguel church was completed.
This exhibit will be of particular in-
terest because of the age of the
church as well as its well known his-
torical associations. The model is
19 feet long, 4 feet wide and about 2
feet in height. The church has been
reconstructed not as it is today but
as it was before the present repairs.
The chief differences are in the west-
ern facade or front of the building.
Originally the tower had three stories
and the large stone buttresses one
sees today were lacking in former
times. Formerly there was a "campo
santo" (cemetery) in front of the
church surrounded by an adobe wall.
This inclosure was entered by a pic-
turesque gateway on the western
side over which stands the emblem of
the cross.

Within the enclosure there were
the customary graves surrounded by
small wooden fences, one of which
has been reproduced in the model to
be exhibited. Another interesting
feature of the model is the row of
rooms along the southern side, the
westernmost of which was originally
used for depositing the bodies of the
dead during the prayers and services
held at night for the repose of their
souls.

At the eastern end of this tier of
rooms was the sacristy which has al-
so been reproduced. Altogether the
model will fix for all time in an im-
perishable way the memory of the
old church.

The model is made of plaster of
paris on a framework of wood and
metal lath and is the handiwork of
Percy Adams well known in this
city, and formerly of Greeley, Colo.
Mr. Adams accompanied the expedi-
tion of the School of Archaeology to
Guatemala three years ago as sur-
veyor and while there he contracted
malaria which on his return to the
states nearly proved fatal.

The exhibition will occupy three
rooms at the western end of the Old
Palace of the Governors, namely,
the library, the Rito de los Fríjoles
room and the reception room.

WHAT IT CONSISTS OF.

The exhibition will consist of:

(1) Models in plaster of paris of
historic buildings and projected im-
provements about Santa Fe.

(2) Enlarged photographs of points
of interest about the city particularly
views illustrating the Santa Fe style
of architecture which is the keynote
of this exhibition.

(3) A large relief map of the city,
the first of its kind ever attempted
for Santa Fe, and which will prove
invaluable when the sewage system
which is now a matter of months
rather than years, is installed.

(4) A large map of the city to ac-
company the relief map showing the
revised naming of the streets as pro-
posed by the city planning board.

In renaming the city's highways it
has been the practice of the board to
utilize Spanish-American names in so
far as possible and particularly those
which have a special historic inter-
est here in Santa Fe such as "Onate
Trail," "Paseo Coronado," "Calle Oer-
min," and "Calle Real de San Fran-
cisco."

(5) A series of loaned exhibits con-
sisting chiefly of paintings and archi-
tecture.

Motherhood

The highest point of woman's hap-
piness is reached only through moth-
erhood, in the clasping of her child
within her arms. Yet the mother-to-
be is often fearful of nature's ordeal
and shrinks from the suffering inci-
dent to its consummation. But for
nature's ills and discomforts nature
provides remedies, and in Mother's
Friend is to be found a medicine of
great value to every expectant mother.
It is an emulsion for external
application, composed of ingredients
which act with beneficial and sooth-
ing effect on those portions of the
system involved. It is intended to
prepare the system for the crisis, and
thus relieve, in great part, the suffer-
ing through which the mother usually
passes. The regular use of Mother's
Friend will repay any mother in the
comfort it affords before, and the help-
ful restoration to health and strength
it brings about after baby comes.

Mother's Friend
is for sale at
drug stores.

ers which contains much valuable
information, and many suggestions of
a helpful nature.
BRADFIELD REGULATOR CO., Atlanta, Ga.

drawings of structures in the
Santa Fe style.

Finally, there will be a series of
"triplicate" pictures which will be
explained in a later issue.

From the foregoing it will be read-
ily seen that this exhibition is of
Santa Fe, and for Santa Fe. And as
such it is worthy of the support of
every Santa Fean.

TOWN IS "SHOT UP."

Marion, Ohio, Nov. 14.—Infatuated
with the fourteen-year-old daughter
of Mrs. John K. Harris, and angry
because he had been forbidden to
visit the girl, Elliott Swift Nimmo, 27
years old, of Mansfield, according to
the police visited the Harris home
and asked to see his child sweet-
heart.

When Mrs. Harris protested Nim-
mo is alleged to have shot at her.
Nimmo then ran. He shot out several
window panes and seriously wounded
James Wolfe, when the latter sought
to capture him. Nimmo later gave
himself up.

The Weather—The range in tem-
perature yesterday was from 27 to 53
degrees and the average relative hu-
midity for the day was 45 per cent.
Yesterday was clear and a pleasant
day.

LIGHT

IN THESE DAYS OF MODERN METH-
ODS, Electricity plays a most impor-
tant part. The grandfather would
be amazed at the radiance of the mod-
ern home—and why all this light? To
make the home more homelike—to make
the home the most pleasant spot on earth
for father, mother and children. Good light
that is easy on the eyes is very much to be
desired.

POWER

NOTHING IS QUITE SO CONVEN-
IENT as to touch the button and
your stove is ready to cook—your
iron ready to use, your toaster
ready for the hurried breakfast, your vacu-
um cleaner ready for the fray, your washer
ready to cleanse, fan ready to cool the heat-
ed rooms. Electricity will do every thing
for you. We furnish it at reasonable rates,
day and night. Estimates and full infor-
mation cheerfully given.

YOU Can stick a lot of money into a suit. You can get the very best of material. You can get the latest style garment,

BUT If it has been made in a crowded sweat shop. If it has been made with a thousand others. If it has not been made to fit you.

How Can You Expect It To Have

the lines worked into it to fit you when the very laws of nature say that there are no two persons exactly alike?

It stands to reason that you cannot get anything to fit you as we will fix you up. We have spent our whole life and are learning every day. How are the sweat shop workers? Do they have any interest in you? No, if you want individuality, then come to where you can see with your eyes how the work is done, by whom it is done, and when you place the garment on your back, you know what you have.

All of this you get and you need not pay one cent more than what you are asked to pay for the ready made. Judge for yourself which you want.

THE CAPITAL TAILOR

Automatic Principles

are the principles which have determined all recent improvements of the

Remington Typewriter

Take, for example, that latest exclusive Remington improvement, the **TABULATOR SET KEY**

The Set Key of the Decimal Tabulator eliminates all hand setting of the Tabulator stops. It makes the setting of these stops for any kind of form or tabular work as quick, as easy and as simple as the operation of the Tabulator itself.

This is another important, labor saving step toward the goal of Remington effort, which is to bring every essential act in the operation of the typewriter within the compass of the keyboard. The labor saving value of the Set Key of the Model 11 Remington is attested by thousands of operators.

Send for our illustrated booklet describing the new and exclusive features of the Remington Typewriter Visible Models 10 and 11.

TELLS THE WHOLE STORY.

To say that Foley Honey and Tar Compound is the best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis, and other affections of the throat, chest and lungs. Stops Ja grippe, coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, and accept no substitutes. For sale by all druggists.

COMMUNICATION

To the Progressives of New Mexico: On behalf of the state progressive committee and myself, as its chairman, I desire at this time to thank every loyal progressive in this state for the support and assistance rendered the progressive party and this committee, during the campaign just closed.

The progressive party in New Mexico has come to stay and the work will go on with renewed vigor and confidence. The showing made by our candidates for congress and presidential electors was a complete surprise and has demonstrated their strength and popularity with the people. That we did not sweep them on to victory was due solely to the severe handicaps under which the new party in New Mexico was launched. We were without even funds to properly organize; we had no political offices at our disposal; we were opposed by the two old parties both of which were equipped with standing armies in every precinct of the state, and we were without representation on the election boards. Therefore, I feel that we have no apologies to make.

One thing is certain, the results of this election have driven forever from power, a set of political bosses who have settled one of the greatest political parties that the world has ever known and out of it has been born the great progressive party—the party of principles, and the party of the people and it will endure so long as it adheres strictly to the principles upon which it has been so quickly and so successfully founded.

I urge upon all county and city organizations to stand by your colors and await the outcome in nation and state like true soldiers of a cause that is higher than public office or public honors.

The democratic party, by a vote of the citizenship of the United States, has been given full and complete control of our government. It therefore, has a wonderful opportunity, and is on trial, as was the republican party on trial when the immortal Lincoln, with his great love for all men, refused at the close of the Civil war to take the drastic actions he was urged to take towards the brave men of the south. If the democratic party heeds the mandate of the sovereigns of the nation—the people—it will endure. If it does not, then the progressive party, four years hence, will be selected to handle the reins of government by an overwhelming vote.

In conclusion, we progressives in New Mexico have but to keep our ranks solid, and with shoulder touching shoulder await the workings of the next four years in nation and state.

With kindness towards all and with malice towards no man, I am,

Respectfully,
MIGUEL A. OTERO, Chairman.
E. C. BURKE, Assistant Secretary.

ANCIENT TAOS IS FITTING MATERIAL

In a letter from Bert S. Phillips, the noted painter of Indian and western life, some ideas are offered to the Publicity Department of the Chamber of Commerce of Santa Fe concerning another unique attraction for all those who visit this portion of the state. Mr. Phillips asserts that the ancient town, the ancient pueblo and the little artists colony should form an attraction for visitors that would place Taos on the map of tourist travel. The Publicity Department has undertaken to secure a large amount of data concerning the entire Taos country and will work with the people of Taos in placing advertising matter concerning Taos in the hands of all visitors to this city and in furnishing them facts concerning the Taos country both from a business and from a tourist standpoint. The Publicity Department has received a number of excellent suggestions since its organization a week ago by the board of directors. Mr. Phillips letter is as follows:

Taos, N. M., Nov. 14, 1912. Publicity Department, Chamber of Commerce, Santa Fe, N. M. Gentlemen:

I desire to call your attention to historic old Taos, in relation to your "Publicity" program, believing that the beautiful scenery, the wonderful old Indian village, the home of Kit Carson and the studios of the Artists' Colony form an asset for your charming city which should not be overlooked.

During the fourteen years of my residence here I have never met a tourist who has expressed any disappointment for having visited here but all have united in the most enthusiastic self-congratulation in making the trip and many have returned to renew the pleasures and brought friends to share their delight.

Our hotel accommodations are good and the roads are being improved rapidly so that automobiles coming by the ideal route via Chino, Las Trampas, Penasco and U. S. Hill, will be able to make the trip in a few hours.

The able judge of this district promises an early settlement of the land grant litigation which has held this beautiful valley in its direful grip for many years and when that happy day arrives, thousands of fertile acres will blossom into fruitful harvest and the wise and early investors will reap a rich reward.

Wishing you all success,

BERT G. PHILLIPS.

You cannot get up to date printing, unless you have up-to-date materials and facilities. The New Mexico Printing Company has both, and at the same time expert mechanics. Your orders are always assured personal attention.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. 150

FAMILIAR FACES WILL BE MISSED IN NEXT CONGRESS

(By Gilson Gardner.) Washington, D. C., Nov. 14.—As the result of the late political shake-up, some familiar faces will be missed from the next congress.

Among the best known and most agreeably missed will be Senators Crane, of Massachusetts; Guggenheim, of Colorado; Gamble, of South Dakota; Bailey, of Texas; Curtis, of Kansas; Paynter, of Kentucky; Foster, of Louisiana; Richardson, of Delaware; Brown, of Nebraska; Briggs, of New Jersey; Wetmore, of Rhode Island; Barnham, of Vermont; Percy, of Mississippi; Cullom, of Illinois, and Perkins, of California.

Some of these went down in the primaries, some as a result of changes in the political complexion of the state legislatures, some retired because they knew they could not come back, as for example, Crane, Guggenheim and Wetmore.

Death and other causes have depleted the tory ranks. Heyburn, of Idaho, and Nixon, of Nevada, and Frye, of Maine, have died. Lorimer was expelled.

The old combination, headed by that greatest toy of them all, Nelson W. Aldrich, has vanished. When Taft came into office in 1909, there was a republican party majority of tories, including in addition to those mentioned above, such familiar names as these, now all absent:

Aldrich, of Rhode Island; Bulkeley, of Connecticut; Burkett, of Nebraska; Burrows, of Michigan; Carter of Montana; Depew, of New York; Dick, of Ohio; Dillingham, of Vermont; Elkins, of West Virginia; Flint, of California; Hale, of Maine; Kean, of New Jersey; Piles, of Washington, and Scott, of West Virginia.

These were all Taft's friends. They were assistants in passing the Aldrich tariff bill, and defeating progressive measures. Now they have all walked the political plank.

The list of the politically dead in the house of representatives since Taft came into office would fill a solid column, but among the most conspicuous servants of special privilege, who, since March, 1909, have suffered the penalty of their torism are: Joseph G. Cannon, of Illinois; James A. Tamm, of Minnesota; William D. McKinley, of Ohio; Duncan E. McKinley, of California; John Dalzell, of Pennsylvania; Samuel W. McCall, of Massachusetts; John J. Gardner, of New Jersey; Ebenezer J. Hill, of Connecticut; William E. Humphrey, of Washington; Nicholas Longworth, of Ohio; Cyrus A. Sullivan, of New Hampshire; William A. Rodenberg, of Illinois; J. Warren Kellar, of Ohio; Henry C. Loudenslager, of New Jersey; Harry S. Bontell, of Illinois; Joseph H. Gaines, of West Virginia; George Edmund Foss, of Illinois; D. R. Anthony, of Kansas; John A. T. Hull, of Iowa; Frank O. Lowden, of Illinois; Edwin Denby, of Michigan; E. D. Crumacker, of Indiana, and D. J. Focht, of Pennsylvania.

The Taft administration opened with the fight of the insurgents in the house of representatives on the Cannon ring. This fight was led by men like George W. Norris, Victor Murdock and Miles Poindexter. Taft took the Cannon side. At the congressional election two years later the republican majority was broken and the demands of the republican insurgents were carried out to a certain extent.

NEIGHBOR SHOT.

Kenton, Ohio, Nov. 14.—While a party of 20 young men were "belling" Mr. and Mrs. Guy Garner, a newly married couple, at the Oates home, five miles north of this city, a rifle was fired from an upstairs window by a member of the household, the bullet striking Emmet Kinnear, 30 years old, a neighbor, and inflicting a serious wound in the thigh.

It is said that the shot was fired by the groom in an effort to frighten away the noise makers. Kinnear, with one or two others, was standing in the roadway some distance away. It is said that the injured man is opposed to any attempt at prosecution.

S. R. Mass, Beachley, Texas, says: "My baby had a dangerous attack of croup, and we thought we would lose him. But one bottle of Foley Honey and Tar Compound pulled him through. We would not be without it in our house." For sale by all druggists.

DONKEY CAUSES \$25,000 SUIT.

Philadelphia, Pa., Nov. 14.—Joseph F. Hasskarl, former director of docks of this city, has brought suit in the federal district court here for \$25,000 damages against Joseph Cook & Son of England. He alleges he was thrown from a donkey and seriously injured on February 1, 1912, at Ben-Hassen, Egypt, while on a "Cook

RETURN LIMIT, NOVEMBER 24.

THE ONLY TOOLS YOU WILL NEED

IT IS so simple to lay PEERLESS ROOFING that anyone can do the job. But that is only one of the minor advantages. In the first place it costs less than other roofings, in the next place it wears much longer and in the last place it is far more effective as a weather resistor. These facts are all backed up by the leading architects all over the country, who are universally recommending PEERLESS. Come in and see a sample—also ask for Free Booklet describing ARCOTILE Ornamental Roofing.

A. WINDSOR, SANTA FE, N. M.

NOTICE FOR PUBLICATION Department of the Interior, U. S. Land Office at Santa Fe, New Mex., Oct. 10, 1912.

Notice is hereby given that Walter Kraul, of Santa Fe, New Mexico, who, on October 25, 1909, made Homestead Entry No. 011996 for Lots 4, 5 and 6 of Section 6, Township 16 N., Range 10 E., and on March 26, 1912, made additional homestead entry No. 016512 for Lot 1 of Section 1, Township 16 N., Range 9 E., N. M. P. Meridian, has filed notice of intention to make three-year Proof, to establish claim to the land above described, before Register or Receiver, U. S. Land Office, at Santa Fe, New Mexico, on the 22d day of November, 1912.

Claimant names as witnesses: Cristobal Garcia, Nicolas Griego, Crespin Gallegos, Eustaquis Padilla, all of Santa Fe, New Mexico.

MANUEL R. OTERO, Register.

Mrs. A. Grove, 1145 Dalton Wichita, Kas., states: "I suffered with kidney trouble, with severe pain across my back and felt miserable and all tired out, but after taking Foley Kidney Pills for a few days, the pain left my back and I felt full of life and activity. Gladly do I recommend Foley Kidney Pills to all whom have kidney trouble." For sale by all druggists.

SPORTING NEWS

"MISS BILLIE UNAFRAID"—TORN BY A TIGER, BUT NERVOUS AS EVER TO ACT THE MOST DARING THINGS EVER SEEN ON THE STAGE.

BY GERTRUDE M. PRICE.
The Daily New Mexican Moving Picture Expert.

Earth, sea or sky have no terrors for Kathryn Williams, the beautiful

Miss Kathryn Williams and some of her favorite roles; as Maud Muller (above) in "Back to the Primitive" and "Capt. Kate" at the right and in "Lost in the Jungle" lower left hand corner.

star of the Selig photo players, whose pet ambition is to be the first successful woman hydroplane operator in the world.

One look at her fearless face is a good omen of the fulfillment of her plan. "Billie" or "Unafraid," as her friends call her, has run the gamut of moving picture sensations all the way from flying machines to acting in a cage where there were untamed lions.

She has never refused to risk her own safety for the sake of a good picture.

In the big animal film, "Lost in the Jungle," she was compelled to crouch down within a few feet of a tiger, and drop behind a projecting rock when it turned. There was some misunderstanding on one of the signals and before she could save herself the animal leaped upon her and tore a gash in her scalp which required six stitches of the surgeon's skillful needle.

Another time, in the "Girl With the Lantern," she was obliged to lie across a railroad track, until a train, traveling at great speed, was within 50 feet of her. The only assurance she had of safety was the promise

and quick action of actors who were to rescue her at that moment.

If there had been a single misstep or the slightest delay Kathryn Williams would have been crushed to death.

But what is the daring actress like out of the picture? you ask. A perfectly unspoiled girl as natural and genuine as a child; a remarkable horse-woman and a good conversationalist.

Her hair is the real kind of golden. She laughs as if life were a great big song. And she talks as if the living of it were the best thing on earth.

At home, the moving picture star, who will dare anything to make her last picture the greatest, reads and plays and cooks and eats and primp like any other girl. This winter while she creates new roles at the Eden-dale studio near Los Angeles, and plays the leading part in some big new animal picture, she promises to learn to operate the hydroplane. She has already made the preliminary plans.

Chatting about the pictures to me she said:

"Seeing himself in the moving pictures is the most helpful and the most discouraging criticism an actor can have. It's the severe test of look-

ing at yourself at the outside and at a distance.

"Mannerisms positively stare at you from a picture when they would pass unnoticed on the stage. The searching light of the picture camera seems to have revealed in your faults.

"Daylight hours, the opportunity to

live at home, the wonderful variety of characters and the chance for study are the chief inducements the pictures offer to the player.

"I like being a photo player because I like doing the difficult, unexpected things. Maybe that's the reason I'm going to be the first woman hydroplane pilot. The strange sensation of flying through space fascinates me.

"I am not afraid.

"Look," she whispered as I started toward the door, "hardly anyone knows—my life is charmed!"

"See my talisman!"

She lifted into the light a tiny bit of ivory wonderfully carved in the shape of a fish. It is the gift of a woman who saw Kathryn Williams in a moving picture adventure on a screen in a remote hamlet in England.

HAVE YOU SEEN THIS ACTRESS AT THE ELK'S THEATRE?

COWBOY, SAILOR, LUMBER-JACK, PRIZE FIGHTER—ALL IN 20 YEARS.

LUTHER MCCARTHY'S FIGHTING POSE.

Luther McCarthy, who will fight Jim Flynn for the heavyweight championship of the world in Los Angeles December 10, has been about everything else except heavyweight champion.

He has been a district messenger, boy, cowboy, farm hand, lumberjack, deep sea sailor, bill "sticker," roustabout, and many and various other things. Of all the fighters now in the ring he has had the most picturesque career.

Luther McCarthy was born March 17, 1892, on a ranch owned by his father, thirty miles outside of Lincoln, Neb. Luther was always outdoors and most of the time astride a horse.

His mother died when he was less than two years of age, but it was not until his father sold the ranch, in 1901, that Luther struck out for himself, making his first stop at the home of a relative in Colorado Springs, Colo. Here he stayed for nearly two years, attending school, much against his wishes. He had no liking for the classroom and to avoid it took "French leave" in the night and started away alone—and penniless. He wasn't 22 then. Having

been raised on a ranch, he naturally drifted into the corn fields of Kansas.

With the corn-shucking season over, McCarthy ambled into Omaha and landed a position as an advertising bill distributor. He held this for a few months, then landed a "berth" with the Western Union Telegraph company. He delivered messages and the number on his cap was "1323." Strange coincidence, but it was in his 13th ring engagement that McCarthy hung the "23" sign on Carl Morris and made a leap into the limelight.

The old wanderlust again took hold of the big boy and he made the jump to Los Angeles. Stopping necessarily, many times along the route, he gathered eating money by all manner and kind of work. In southern California McCarthy spent several months, then journeyed back to St. Louis, but did not tarry long, making tracks for Boston, Mass. Once there McCarthy hiked to the wharves and shipped as "an able-bodied seaman." He was able-bodied all right, but was not a seaman, so on his first day out was reduced to the position of apprentice. The boat he was on was an old-fashioned "wind-jammer" and it took four months to make the trip to Buenos Ayres. From there he shipped twice around Cape Horn, then on a Norwegian bark for China and Japan. It was off one boat and onto another for three years with him, finally landing back in Buenos Ayres and then making his last trip on the water "jumping" the boat on which he had shipped from the Argentine capital to Boston, when it was outside of Mobile.

From Mobile, McCarthy roamed into the lumber camps of Pine Hill and later into the coal mines of Blue Creek. His stay at each place was short, the work not being to his liking. His next stopping place was at Nashville, Tenn., where he took a try at work in a dairy, but left it to go to work in a construction gang at bridge builders.

Having seen the greater part of the world, McCarthy went back to his first love, looking after cattle on the wide range of the northwest. Interfering at a time when the ranch owner, Dick Collins, was in trouble, won him a fine saddle horse. With his gift horse he started out to do "some" riding. He landed in the Sioux reser-

vation and spent about a month among the Redskins, then drifted into Montana.

Lack of funds caused McCarthy to sell the horse and he took up with an advertising concern, doing the country-wide advertising for a well-known tobacco. When arriving at Culbertson, Mont., he learned there was to be a battle in the town he decided to stick around and see the fuss. He tied in with one of the principals as sparring partner. He had, from his earliest youth, liked boxing and whether aboard ship or on land never let pass an opportunity to fight.

January 7, 1911, he went in as a substitute for a fighter who had "run out" of a match against Walt Adams, heavyweight champion of Canada. McCarthy put out the champ in the second round.

He and Adams afterward went on an exhibition tour and McCarthy attracted the attention of Tommy Burns by beating Joe Grim, the "Iron Man" of Philadelphia. Tommy looked the big cowboy over and told him he was liable to be champion of the world some day. McCarthy, with this encouragement, plunged into the game in good earnest.

He first attracted nation-wide fame by knocking Carl Morris cold.

JOHNSON'S AFFIDAVIT MAN GOES TO JAIL.

Chicago, Ill., Nov. 14.—Albert C. Jones, a real estate dealer, who signed \$20,000 bonds for Jack Johnson in an attempt to obtain the negro pugilist's release from jail, was today sentenced to one year in jail for contempt of court by Federal Judge Landis. Jones, it was charged, scheduled property he had decided to sell to his wife. Judge Landis declared Jones had "wittingly and maliciously lied under oath in court in relation to his ownership of the property."

Cleveland, Ohio, Nov. 14.—C. J. Crawford, a negro policeman, said here today that he is going to Chicago Saturday prepared to put up \$200,000 bail, if necessary, to obtain the freedom of Jack Johnson. He says two white Cleveland men will provide the collateral, but will not divulge their names.

MAXIMUM SALARY.

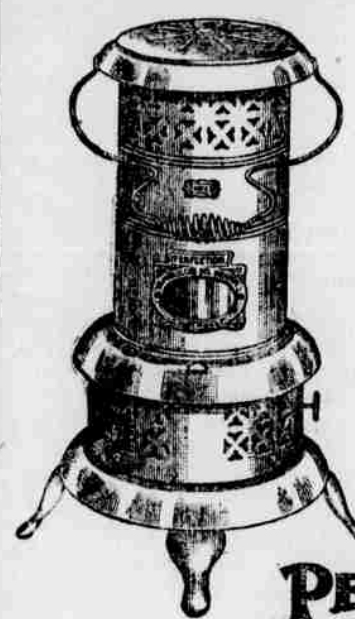

Milwaukee, Wis., Nov. 14.—With the problem of maximum salaries disposed of, baseball men representing minor leagues making up the National Association of Professional Baseball clubs, expected to settle several matters relating to constitutional affairs governing the organization.

NEW MINISTRY BY ROMANONES SAYS ALFONSO

Madrid, Spain, Nov. 14.—Count Alvaro de Romanones, president of the chamber of deputies, has been selected by King Alfonso to form a new cabinet in consequence of the assassination of Premier Canalejas. It was announced that Count de Romanones had decided to retain all the Canalejas ministers.

Count Romanones has held portfolios in various cabinets. He was formerly minister of the interior, minister of justice, and minister of public instruction.

Senor Moret y Prendergast, former premier and minister of justice, has been appointed president of the chamber of deputies.

If Benjamin Franklin Were Alive

he would like to know our stove experts.

Franklin perfected a heating stove that burned coal. Our manufacturers have perfected the Perfection Heater, which burns oil, the cheapest fuel in the world. Our

PERFECTION
SMOKELESS
OIL HEATER

is the result of years of scientific study and experimentation. It is today the most efficient and yet the most economical heating device obtainable.

The Perfection Heater burns nine hours on one gallon of oil. A simple, automatic device prevents smoking. Easy to clean and re-wick. It is ornamental (nickel trimmings, with plain steel or enameled turquoise-blue drums). Inexpensive. Lasts for years.

DOUBLE MURDER CAUSES A NEGRO TO BE MOBBED

Tampa, Fla., Nov. 14.—Preece Nells, a negro arrested for double murder at McIntosh, Florida, yesterday, was shot to death by a mob at Ocala today.

Nells was charged with killing Miss Mary Stevenson, 18 years old, and J. B. Berges, 80 years old. Berges was killed when he attempted to save Miss Stevenson from her assailant. The girl's throat was then cut. Nells, wearing blood stained clothes, was arrested. A mob organized but officers spilt the negro to Ocala, where he was placed in jail.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office, Santa Fe, New Mexico, October 21, 1912.

Notice is hereby given that Epitacio Salaz, of Cuba, New Mexico, who, on October 1, 1911, made Small Holding Claim No. 5278-015975, for SW 1/4 NE 1/4, N 1/2 SE 1/4 NE 1/4, N 1/2 S 1/2 SE 1/4 NE 1/4, NW 1/4 NE 1/4, W 1/2 NE 1/4 NE 1/4, W 1/2 SE 1/4 NE 1/4, NE 1/4 SE 1/4 NE 1/4 NE 1/4, E 1/2 SE 1/4 NE 1/4 NW 1/4, of Section 3, Township 21 N., Range 1 W., and the SW 1/4 SE 1/4 SE 1/4, S 1/2 SE 1/4 SW 1/4 SE 1/4 of Section 34, Township 22 N., Range 1 W., New Mexico Principal Meridian, has filed notice of intention to make final proof, to establish claim to the land above described, before Juan C. Sandoy, U. S. Commissioner, at Cuba, New Mexico, on the 9th day of December, 1912.

Claimant names as witnesses: Eubudgen Gurule, of La Jara, New Mexico; Hilario Lacero, of Cuba, New Mexico; J. J. Salazar, of Cuba, New Mexico; E. A. Miera, of Cuba, New Mexico.

PERSONALS

TELEPHONES.

Editor's office, 31 J. Business office, 31 W.

Jake Levy is steadily improving. Mrs. Elias Clark is here from Alameda.

F. W. Drake, the well known lumberman, is here from Hodges.

A. Gaudorf, a well known salesman from St. Louis, is a visitor here.

Mrs. Silverthorn, of northeast Pennsylvania, is a visitor in the city.

Mrs. Hayward has returned from the east where she spent six weeks visiting relatives.

Jack Collins, who has been ill for several days, has recovered and is back at work.

County School Superintendent J. V. Conway is today visiting the Agua Fria schools, and will leave in the morning to inspect the two schools at Chispa.

Mr. and Mrs. A. C. Weeks of Wyoming, New York, are visiting Mr. and Mrs. J. C. Candelario. Mrs. Weeks before her marriage was Miss Alice Candelario, who was a student at the University of Michigan before her marriage.

Miss Goebel, the eldest daughter of Mr. and Mrs. W. H. Goebel of this city, is reported ill in Pittsburgh, Pa. As this is the first time she has ever been in poor health her parents have been somewhat alarmed and are anxious for her to return to the perfect climate of Santa Fe.

Mrs. George Raine of Louisville, a village near here, accused Mrs. Mima Johnson, a neighbor with the theft of the fowls. Mrs. Johnson demanded a trial by a jury of women.

The testimony showed that both Mrs. Johnson and Mrs. Raine raised white Plymouth Rock chickens and that they both allowed their fowls to run at large. After deliberating two hours the jury returned a verdict of not guilty, basing their decision on the presumption that the poultry of two women living so close together might easily get mixed.

GRAND JURY IN CHAVES COUNTY WANTS TO PROBE

Roswell, N. M., Nov. 14.—A request that the district court demand an audit of the county books and a detailed statement by county commissioners as to the cost of the new court house, supposed to have been about \$165,000 are two of the important acts of the grand jury which concluded a ten day's sitting here last night.

The report further states that the county commissioners have not complied with the law in publishing a statement of receipts and expenditures January 1st, and not acted in accordance with the provisions of the law in the collection and expenditure of county funds. The jury also recommended police action looking to the maintenance of the high moral tone of Roswell.

WELLS FARGO IS ROBBED OF A LARGE SUM

Lake Charles, La., Nov. 14.—The Wells Fargo Express company's office here was robbed of a package of currency that is said to have contained \$25,000 early today. Thornton Chevis, night express clerk, who reported the robbery, has been arrested.

According to Chevis, he left the office in the Southern Pacific depot to meet the east-bound midnight train. He locked the safe and the front office door. When he returned ten minutes later, he said, he discovered that a door on the west side of the building, against which a number of express packages had been piled, was ajar. He found the safe still locked but a package of money which he had placed therein was missing.

Merit, Texas, Nov. 14.—Three bandits stole \$4000 from the First National bank of Merit, early today, then escaped in an automobile. They got into the bank's vault by the use of nitro glycerine.

COLORADO COAL IS USED BY OUR NAVY.

Denver, Colo., Nov. 14.—A report of recent tests on board the battleship Maryland to determine the efficiency of Colorado coal has been submitted to the Colorado Fuel & Iron company by the navy department.

This report shows that the Colorado product is adapted to the use of the navy and that it will be considered available in the event of war.

During the last summer the navy department placed an order with the Colorado Fuel & Iron company for 1000 tons of coal from the Primero mine, near Trinidad. The coal was delivered to the navy at Mare Island, California.

WOMEN TRY A SUIT OVER FOUR WHITE HENS

Wamego, Kans., Nov. 14.—Six women, wives of prominent citizens of Wamego, composed the jury in a law suit here yesterday, in which both the plaintiff and defendant were women and in which the controversy was over the ownership of four white Plymouth Rock pullets.

Mrs. George Raine of Louisville, a village near here, accused Mrs. Mima Johnson, a neighbor with the theft of the fowls. Mrs. Johnson demanded a trial by a jury of women.

The testimony showed that both Mrs. Johnson and Mrs. Raine raised white Plymouth Rock chickens and that they both allowed their fowls to run at large. After deliberating two hours the jury returned a verdict of not guilty, basing their decision on the presumption that the poultry of two women living so close together might easily get mixed.

GRAND JURY IN CHAVES COUNTY WANTS TO PROBE

Roswell, N. M., Nov. 14.—A request that the district court demand an audit of the county books and a detailed statement by county commissioners as to the cost of the new court house, supposed to have been about \$165,000 are two of the important acts of the grand jury which concluded a ten day's sitting here last night.

The report further states that the county commissioners have not complied with the law in publishing a statement of receipts and expenditures January 1st, and not acted in accordance with the provisions of the law in the collection and expenditure of county funds. The jury also recommended police action looking to the maintenance of the high moral tone of Roswell.

HE WAS DEAD THEN BROUGHT BACK TO LIFE

Washington, D. C., Nov. 14.—Although his pulse virtually had stopped, Werner L. Hoffman was drawn back from the brink of the grave by use of the plumbot and today physicians in a local hospital believe he will live.

Hoffman, a former member of the marine corps and with an enviable service record in China, and the Philippines, has been ill for some time because of fever contracted in the Orient. Despondent, he is said to have taken fifteen grains of virulent poison. He was rushed in an automobile to a hospital. He apparently was dead. Artificial respiration by utilization of the plumbot was resorted to with apparent success. Physicians regard the case as remarkable.

SCHRANK THINKS UNTIL IT HURTS SAYS ALIENIST

Milwaukee, Wis., Nov. 14.—One of the alienists examining John Schrank the confessed assassin of Theodore Roosevelt, today said privately that Schrank shows evidences that he considers himself a deep student of psychology; that he thinks he is capable of adjusting any wrong and that he thinks he is peculiarly fitted to be a judge of the psychological merit of the question affecting the public.

Hence, the alienist said, Schrank might again come to believe in the use of force to correct political ills and therefore might be dangerous to human life. If the alienist report Saturday Judge Backus expects to set Monday as the date of deposition of Schrank.

Washington, D. C., Nov. 14.—An agreement between the United States and Russia to take the place of the commercial treaty of 1832, the abrogation of which becomes effective January 1, next, has been virtually reached, according to information from high official authority. Nothing as to the exact nature of the agreement is announced. It was declared probable, however, that it would be worked out satisfactorily to both countries before the day when the old treaty would expire.

MURDER AND SUICIDE.

Pittsburg, Nov. 14.—John Mathews, aged 35, this afternoon shot and killed his wife and another woman, whose name the police do not know, and then himself. The tragedy occurred in the apartment occupied by the Mathews' family on the North Side. No cause for the crime is known.

London, Nov. 14.—The house of commons this afternoon adjourned until Monday acting on the suggestion which is believed to have emanated from King George himself.

The proposal was made by Speaker Lowther, who intimated that it would be advisable "for the house to take further time to consider the points at issue" between the two factions in regard to the home rule measure.

A graceful apology from Ronald McNeill, the unionist member who hurled the book at Winston Churchill, first lord of the admiralty, during the disturbance last night, helped to cool the atmosphere today. Churchill accepted the apology with equal heartiness. Speaker Lowther in his remarks suggested that the members take a period for relaxation and emphasized the undesirability of parliament departing from its established precedents. He could not help thinking, he said, that some solution of the difficulty might be found which would be acceptable to all parties and would be more in accordance with precedent.

LADIES!

WILSON WILL RIDE BICYCLE LIKE A BOY

Princeton, N. J., Nov. 14.—President-elect Wilson is going to lead the newspaper correspondents a merry chase when he begins his vacation next week. He said today that he intended to make long bicycle trips, as he has been accustomed to do for years on his vacation in England. The president-elect will sail on Saturday afternoon for the retreat, a short distance from New York, where he is going to spend a month and there will be a party of correspondents along who already are training for the bicycle journeys.

SALOONS CLOSED IN DES MOINES

Des Moines, Ia., Nov. 14.—With the police and deputy sheriffs making a final effort to preserve peace in the teamsters' strike here, Mayor Hanna today again ordered that all saloons in Des Moines remain closed. Governor Carroll yesterday notified the city and county officials that any more riots growing out of the teamsters' strike would mean the calling out of the state troops to maintain order.

NOTICE!

The secretary of state, after giving every automobile owner in the state ample opportunity to procure the state license for his car, as provided by Chapter 28, Laws of 1912, has instructed the district attorney of Santa Fe county to bring suits for the collection of said tax against all those who have failed to comply with the law.

Different Keyboards

Would you like what they call a flexible keyboard? That is, if you depress the wrong key in the column, by depressing the right one you automatically restored the wrong key to normal and set up the proper amount to be printed on the machine.

Other people like the lock-keyboard, which prevents any possibility of error in having your fingers strike the wrong key in the column after the right one has been depressed.

We make adding machines to suit people; to suit the conditions under which they have to work.

We make both kinds of keyboards.

Of course, we make the best of both kinds, because we scientifically standardize the results. We can't afford to do anything else because we take care of the machines after we sell them.

STUDY MAN.

Schrank, the man who shot Roosevelt, is a "matoid" or crank. So was Guiteau, the slayer of Garfield. So was Czolgosz who killed McKinley. So was the man who killed Mayor Harrison of Chicago, and the would-be assassin of Mayor Gaynor of New York.

Are these men different from the rest of us? Isn't there some way to tell them from the rest of us? There are snakes which are harmless and useful—others which are venomous. But we study snakes so as to be able to tell the one from the other.

Why not study men? Not in the pedagogical-psychological, mock-sociological way in which the universities study them in the laboratories, but in a big, governmental way. We might then learn the causes of crime. We might find that there is some way to tell the rattlesnake-man from the gartersnake-man—the harmless and useful from the venomous.

We have the subjects for study—in our penitentiaries and reformatories. We hire them out to contractors. We lash their back. We lay on them burdens too grievous to be borne. But where do we study them? Nowhere. Most of these men are criminals in environment, and in studying them, we should be studying normal men. Some of them are abnormal men. The study of them ought to enable us to tell the abnormal from the normal.

There is pauperism—what is its cause? How much has pauperism to do with crime? If there were no poor, how much crime and degeneracy would there be?

We send the body of the criminal to the dissecting table—for study; why not study him when alive? The dead criminal does not react very well to laboratory tests.

The governments which have to deal with these unfortunates, should establish agencies by which the lives, the history, the heredity, the physical qualities and peculiarities of all sorts of people should be studied according to the best laboratory standards, but for governmental reasons. And the people in trouble with the government should have special attention.

"The proper study of mankind is man!"

PLATFORM PLEDGES.

The pledge in the democratic platform to submit an amendment to the constitution limiting the presidential term to a single one, is fraught with very great importance.

Of course, platform pledges are not always taken seriously and it is gently hinted that the next president of the United States does not regard a convention pledge as binding on him at all. On the other hand, it is also whispered that another distinguished member of the democratic party with a vision of 1916 before him, considers this particular pledge, of which he is the acknowledged parent, the most binding pledge ever written into a party platform.

Out of this divergent view may yet arise the specter of disagreement which may lead into rupture as effective and spirited as that which finally put the old republican party out of existence as a political organization.

It relegates the ex-presidents into the impossible class, and in case of adoption, the three contestants in the battle just over, Wilson, Roosevelt and Taft, could not appear as leaders in the next struggle for political supremacy. In spite of the apparent disagreement on the part of Mr. Wilson with this party's pledge, it still remains an agreement between his party and the people.

There is no valid excuse for not keeping it. The democratic party will have the president, both branches of congress, a sufficient control of state legislatures, to make certain, with the support assured by republican legislatures, the ratification of the proposed amendment.

It might, would be, in all probabilities, a wise provision and would give to our republic a more secure footing still and would be an anchor of safety in any future political storm.

CHANGE NEEDED.

The next session of the legislature will be confronted with one of the most important questions that comes up for consideration by legislative bodies, and that is the question of an adequate taxation system for New Mexico.

The state board of equalization which closed its session in this city a short time since, found the taxation condition in our state, in a most unsatisfactory condition, and without remedy unless some further action is taken by the legislature in putting authority where it belongs and opening a way for gathering information from another source than that of county officers, which is not successful and not always reliable.

There can be no proper equalization of assessments between counties under the present inadequate and inefficient system.

That New Mexico assessments are not equalized is not even open to argument. That they should be equalized is simply justice to the people of the state.

The published records of the unjust method of taxation in vogue in New Mexico, which have been given in this paper recently, emphasize very strongly the great need of a reform and a thorough equalization, not between counties, but between the people and the corporations and between the people and land grant owners.

The people will look to the legislature for a reform in this important matter, and will demand a just regulation and honest equalization. Failure to give attention to this matter will be remembered in the future. That a lesson can be administered by the people has been recently demonstrated.

The experts now say that the stable fly is a carrier of infantile paralysis germs. The fly is a pretty small creature to carry the burden of germs which he is said to bear, but it is generally admitted that he is guilty as he seems to have been caught with the goods on him.

"The cooking in Boston, taken all in all, is the best of any city in the United States," says Dr. Wiley. It will be remembered that the doctor is a devotee to baked beans, and no one can deny that they do know how to bake beans in Boston.

"If you have incipient consumption take a flight in an airship," says Dr. Fleming in Berlin. That would be likely to effect a sudden cure, anyway.

Let's see, what is the name of the sacrifice who is going to be put in Vice President Sherman's place? O, well, it is immaterial, anyway.

A California woman who is making a study of politics, asks: "How did Wilson win?" By getting the most votes, Janey.

"I am happy and free," says William J. Bryan. Free to take a cabinet position, does he mean?

War always awakens sympathy, but somehow, it is difficult to stir up any for the Turks.

The American as well as the European Turkey is facing gloomy days just now.

THE VALLEY RANCH.

VALLEY RANCH, N. M.

REMARKS FROM THE SIDE LINE

We have me the old tin can and he is ours.

Everybody loves a booster except a knocker.

The time to boost is while the boosting is good. Get busy.

The way to boost is to boost. Everybody knocks a knocker.

Boost and the world boosts with you; knock and you knock alone.

The development of New Mexico is just starting. Help the good work along.

The issue in this campaign is plain, gentle, do we want Santa Fe to hit the ball or don't we? It's up to you.

Now Mexico is going to be the greatest state in the union. Do you know what there is in New Mexico?

The tombstone belongs in a cemetery not in a town. The knocker carries a cemetery of blasted hopes around with him.

When you write back east to that friend of yours, tell him to put his money in his pocket and come right out. There's plenty of room.

"Wal now that I hev got rid ov them thur tin cans en them leaves, I air going to pay sum attenshun to them thur chickens," says the Old Clogger. "I air still a figurin on a gettin me sum ov them thur thorbreds en a grin into th chicken business, got darn et, fur while they air peepin whut see thet yu can not raze chickens in Santy Fee I know thet yu kin en I air agot to show 'em, en thet's a fac, by heck."

All together for a bigger, prettier, better Santa Fe. No one can afford to be a knocker now because there is no room for a knocker in Santa Fe.

Take the time as you go along, to tell the stranger within our gates that this is the oldest, newest and liveliest old burg in the country.

There are places trying to make a noise like tourist resorts that haven't got even as historic old tin cans as we have right here in Santa Fe. Wake up; this ain't a cemetery.

Some of us have lived here so long, we take Santa Fe as a matter of course, but as a matter of fact, Santa Fe is the best tourist proposition in the whole of North America.

AS THE BYSTANDER SEES IT

A TAXPAYERS' LEAGUE.

The citizens of Santa Fe, grown weary of having money expended with no apparent results are going to form a tax payers' league, and make a business of it, employing a book-keeper and an attorney to investigate the matters of the expenditure of the people's money and try to discover where it goes to and why they cannot discover any benefits from the taxation which is by no means light, but which does not seem to be used to any public advantage.

The citizens would like to know where any money is being expended or has been expended for the betterment of our streets and roads.

Where has the money gone? Who got it?

Why cannot the citizens discover some tangible results from the expenditure?

These are the very important questions that the taxpayers' league is going to investigate and members of it are going to the bottom of the taxation matter and of the expenditure of the money raised by taxes.

One of our leading citizens was talking to the Bystander this morning. He was protesting about the road conditions. Not only in Santa Fe's streets but in the roads leading

out, there is no evidence of the expenditure of the people's money.

Where has it gone?

We take, or try to take our visitors out to Tesuque. It is a pretty drive and an interesting bit of western scenery and western life. But the road leading out is execrable. Nobody has done any work on it.

Why? The condition of the section of the city in the neighborhood of Johnson and Grant streets and of lower Palace avenue is not only an outrage, but a menace.

Why is it neglected? Why is nothing done? It may be that the taxpayers league will be able to find out.

THE SPIRIT UNIVERSAL.

Our old friend Thomas P. Gable, who has been back home for a few days, leaves this evening for Dawson, taking with him about forty men who are going to work in the Dawson coal mines, where the scale of wages is high and where especial attention is paid to the safety of employees.

Mr. Gable's errand here to get men for the mines was brought about by the far off Balkan war, which has brought out, throughout the United States, the spirit universal, which is implanted in the heart of every man. From the cities, from the factories, from the mines in America men have thrown up their positions, and hastened back to the land of their birth, filled with the fire of patriotism, to aid their countrymen in the overthrow of the tyrant Turk.

From the Dawson mines alone, went 125 men to offer their services, perhaps their lives for their country which they love.

Mr. Gable told me that the demand for men throughout Colorado, on account of the war, was greater than can be filled.

There is something inspiring in it. It is the true patriotism. It is one of the great qualities which the Almighty has given to human nature. It is the spirit of love, of sacrifice, of devotion to a great cause.

Now and then we see it when a great emergency arises; when the honor and the life of one's own land is in the balance, and the spark of true patriotism flashes into a consuming flame.

We forget sometimes that it existed at all. We think of the coal miners, going on day after day at their work down in the darkness, away from the sunlight, and come to regard them almost as machines without other thought than the day by day toil.

Then comes the trumpet call. All else is forgotten. They drop the pick and seize the musket. Patriotism is awakened and their country is calling.

It is the spirit that makes humanity great.

REMOVE THE CESSPOOLS.

I understand that there is a city ordinance forbidding the using of cesspools within the city limits and it appears as if the ordinance was being violated.

Coming down Washington or Lincoln avenue mornings, between Marcy street and Palace avenue, there is, at times, an offensive odor. An inquiry led to the information that within that block there are two cesspools in operation in violation of the law.

This is a matter, not of private convenience, but a question of public health, and needs immediate investigation and attention.

It involves the health of the city, which is a vital matter and should be given immediate attention by the authorities. The question of care and cleanliness in our cities has become one of the big questions of the day and is receiving throughout the country, an especial consideration. The health department is second to none in importance in every city.

Just now we are all boasting for Santa Fe. We are all trying to put it on the map.

Let us have a care. Do not let our neglect or carelessness at this important period of our life, bring about an epidemic of typhoid or any kindred disease which may injure the reputation of our city just on the eve of what seems to be the dawn of a new day.

Carelessness just now may give us a setback from which we may be years in making a recovery. We cannot afford to do it. Nothing can so effectively injure a city or a community as a reputation of being unhealthy and that is one of our big assets—climate and our reputation for freedom from disease.

We have won the name of being a health giving city. We must hold jealously to that reputation. Abolish the cesspools.

Joseph McCaffrey, Vice Pres. for Nebr. Greeters of American, Omaha, states: "I cheerfully recommend Foley's Honey and Tar Compound as a sure cure for coughs and colds. I have used it myself and have recommended it to others who have since told me of its great curative power in diseases of the throat and lungs." For sale by all druggists.

HERE AT HOME.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Santa Fe citizen:

Alberto Garcia, Gallisteo St., Santa Fe, N. M., says: "I deem it a pleasure to confirm the public statement I gave in praise of Doan's Kidney Pills about seven years ago. I found them to be an excellent remedy and I have never hesitated to vouch for their merit when an opportunity has been presented. For two years I was in bad shape from backache and kidney trouble and when Doan's Kidney Pills were brought to my notice, I resolved to try them. I procured a box and they not only drove away backache, but regulated the passages of the kidney secretions and toned up my entire system."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE DISTRICT OF NEW MEXICO.

United States of America, Plaintiff,

vs.

The Sierra Irrigating Ditch Company, Defendant.

No. 78.

It appearing from the complaint in the above entitled cause that the same is commenced for the purpose of removing a cloud upon the title to real estate of plaintiff, the United States of America, within the district of New Mexico; and it further appearing that the Sierra Irrigating Ditch Company, the defendant herein, is not an inhabitant of and can not be found within the said district of New Mexico, and that said defendant has not voluntarily appeared in this cause;

Now, on motion of plaintiff, it is ordered by the court, that the said defendant do plead, answer or demur in this cause by the 6th day of January, A. D. 1913.

It is further ordered, that as personal service on said defendant, the Sierra Irrigating Ditch Company, can not be had as shown by the affidavit of Leroy O. Moore, Esq., filed herein and made on the sixth day of November, A. D. 1912, that a copy of this order duly certified under seal by the clerk, be published in the Santa Fe New Mexican, a daily newspaper published within the District of New Mexico, once a week for six consecutive weeks, the last publication to be made at least one week before said return day.

Done in open court at Santa Fe, New Mexico, this sixth day of November, A. D. 1912.

WM. H. POPE,

Judge,

United States District Court,

ss.

District of New Mexico.)
I, Harry P. Lee, Clerk of the United States District Court for the District of New Mexico, do hereby certify that the above and foregoing is a true and correct copy of an order of court made on the 6th day of November, A. D. 1912.

Witness my official signature and the seal of said court at Santa Fe, in said District, this 6th day of November, A. D. 1912.

HARRY P. LEE,

Clerk.

NOTICE FOR PUBLICATION.

Notice is hereby given that Pablo Sanchez, of Kennedy, New Mexico, who, on March 5, 1909, made Homestead Application No. 09058-104811, for S. 1-2 SW. 1-4 and Lot 3, Section 5, Township 13 North, Range 9 East, New Mexico Principal Meridian, has filed notice of intention to make 3-year final proof, to establish claim to the land above described, before Register and Receiver, U. S. Land Office at Santa Fe, New Mexico, on the 6th day of December, 1912.

Claimant names as witnesses: Florencio Sanchez, Roberto S. Torres, Julian Garcia, Hilopito Robal, all of Kennedy, New Mexico.

Costs Less Bakes Better

CALUMET BAKING POWDER

ECONOMY—that's one thing you are looking for in these days of high living cost—Calumet insures a wonderful saving in your baking. But it does more. It insures wholesome food, tasty food—uniformly raised food. Calumet is made right—to sell right—to bake right. Ask one of the millions of women who use it—or ask your grocer.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Ill.
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

NEWS OF THE STATE

ALFALFA SEED PAYS.

W. T. Gissler brought in a load of alfalfa seed from the Stromberg farm at the Spur and received in payment for same a check for \$428.65.

The price paid was 11 cents per pound. This would indicate that growing alfalfa seed is not a bad crop to raise in the Pecos Valley.

THE BEST EVER.

Edward Owens, of Rocky Ford, Colorado, was in Portales this week prospecting. Mr. Owens says we have the best irrigation proposition he has ever seen and expects to return and make his home in the Portales valley, the greatest country on earth.—Portales Times.

NAVAJOES ARRESTED.

Deputy Game Warden Randal and W. T. Johnson arrested eight Navajo Indians in Ditch canon last week who had 40 deer hides. The Indians were brought to this city, where the hides and some deer meat was confiscated. Mr. Randall is right in compelling obedience to the game law.—Aztec Index.

WORMLESS CORN.

We are in receipt of some sample ears of corn which are the best we have seen in the Pecos valley. They were raised by B. T. Camp on his farm north of town. Mr. Camp seems to have solved the problem, as there is hardly a trace of worms in this corn and he tells us that his field will average 50 bushels per acre.—Lake Arthur Times.

TAKES SAMPLES BACK.

H. L. Dougherty left Tuesday morning for a prolonged visit with relatives and friends in his old home at Kaufman, Texas. Mr. Dougherty

has a nice homestead about seven miles north of Bard. He states that he planted twenty acres to milo maize last season which produced forty bushels per acre. Mr. Dougherty is a happy homesteader and took along with him samples of many products that he might show his friends what is being produced in this country.—Bard City News.

WANT SOME OF IT.

It might be well to remark that it is now up to some of our statesmen to see that San Juan county gets some substantial benefits from her share of the apportionment of the State Highway Bond Issue, which will amount to some \$10,000. We need every dollar we can get to put into our roads. If getting a railroad to build through here is beyond our power, building good roads is not. There is little or no excuse for a county of intelligent and civilized people like San Juan to be guilty of poor roads. Good roads are the earmarks, so to speak, of advanced civilization, and will be inevitably established. And we might just as well receive the benefit that comes from such roads now as to wait twenty or thirty years.—Farmington Enterprise.

MORE PRAIRIE FIRE.

What might have been a very serious prairie fire started on the Harris place, about four miles northwest of Logan, Tuesday. The wind was from the north and the fire swept a strip about a half mile wide a distance of about two and a half miles straight south, where it was stopped by the road and a number of men, who had turned out at the first alarm. The fire endangered a few houses and several crops but these were saved by prompt work. Had the wind

been from the southwest, as it usually is, it would have blown the fire into the tall grass and our whole northern country would have been endangered. As it was it ran down into the short grass and was more easily controlled.—Logan Leader.

NONE BETTER.

When Mr. Clement Hightower of Capitan was in town during court week recently he found time to call at the News office and voice his approval of the paper's efforts to advertise the resources of Lincoln county.

"I honestly believe we have one of the best, if not the best county in the whole southwest," said he, "so far as extent and variety of natural resources are concerned. We not only have wonderful mineral deposits, a large area of fertile lands suitable for agricultural purposes, a splendid range country, undeveloped water power, magnificent mountain and valley scenery, but we have a climate especially adapted to raising fruits—and this includes not only apples, peaches, plums, etc., but small fruits and berries. I believe we have everything in soil, water and climate for the highest quality of fruit production.—Carrizozo News.

HAD HALLUCINATIONS.

Bennie Bill, colored, carried a bundle down North Main street recently and came to grief. He also had a hallucination. The "bun" he carried was of the intangible sort, but got him into tangible difficulty. The hallucination was of brief duration. At Fourth and Main, aforesaid Bill bumped into a knot of young men with a prize fighter's dogged stubbornness. He imagined he was the world's big "bug" and started to make good. Before the "cleanup" was well under way, Frank Higgins, who stood in the crowd had located the point of the negro's jaw, which took kindly to the punch and the big smoke collapsed like a folding egg case. Sheriff Young instinctively arrived on the scene pronto, and was making a companionable escort toward the grey stone building, when the big fellow took serious objections to the direction of the promenade. Sheriff Young brought his gun into view and kindly requested his man to move along.

Before the bar of justice, phony named Bennie Bill listened attentively to the judge's pronouncement, which entitles Bill, the bundle, hallucination and all to about two weeks in the calaboose.—Roswell News.

MINING NEWS IN THE STATE

GRANT COUNTY.

Based on China's estimated cost of 6.1 cents a pound, the gross copper production for September of 3,549,862 pounds, the company's earnings were at the rate of \$4,700,000.

Fairview—The Treasury Mining Co. is ready to start its mill which has a capacity of 50 tons per day. The ore will be treated by cyanidation and amalgamation. The ore averages \$10. There is said to be over 5000 tons of ore on the dump. The mine will shortly be started up with a full force of men.

A full force of men is at work at the Silver Monument mine taking out shipping ore, the values being in copper, gold and silver. After completing its 1800-ft. tunnel the company struck the vein at a depth of 450 ft., which averaged 12 ft. in width. Four feet of this is shipping ore. The remainder the company intends to put through its mill.

Mogollon—The Oaks Co. is sending a good grade of ore to the custom mills from the nine development headings now being advanced on its properties.

The Socorro's 3-compartment shaft is being sunk to the 9th level. A good tonnage of mill ore is coming from the 500, 700 and 800 levels. Drifts have been advanced 50 ft. east and west on the 6th level.

The main tunnel west on the property of the Ernestine Mining Co. has opened into a new ore body 10 ft. wide, of an excellent mill grade. This is the fifth great ore shoot proven on this property. The main tunnel east is also entering pay ground. Both of these discoveries are in virgin territory.

Fierro—The Phelps-Dodge Co.'s electric plant at the Emma mine will soon be put in operation. The ore on the property runs high in copper.

Socorro County.—The main tunnel, west, has opened new ore, 10 ft. wide, of excellent mill grade. This is the fifth great ore shoot proven on this property. The main tunnel, east, is also entering pay ground. Both of these are in virgin territory. The first 20 days in October yielded 22,550 oz. of gold and silver bullion and 13,500 lb. of high-grade concentrates; 720 tons of ore was milled during the week ended October 26.

Socorro—Drifts have been advanced 50 ft., both east and west, on the eighth level, and the three-compartment shaft is being sunk to ninth level. The 500, 700 and 800 levels are all yielding a good tonnage of milling ore.

Deadwood—Five bars of gold and silver bullion were shipped for second 10-day cleanup, in October. During the week ended October 26, 350 tons of ore was milled and 35 ft. of development work done in the mine. Fine milling ore is coming from the lowest level.

Oaks Co.—Eight out of the nine development headings now being advanced by this company are yielding a good grade of ore, which is being sent to the custom mills. Shipments for the week ended October 26, amounted to 102 tons.

Deep Down—During the week ended October 26, 30 tons of ore was shipped to the custom mill.

An Unseen Enemy a biography at the Elks' tonight.

CHARMING PLAY IS POLLY OF THE CIRCUS

There is no wonder that Margaret Mayo's beautiful play "Polly of the Circus" has held the attention and patronage of the people of this country for so many consecutive seasons. As presented at the Elks theater last night, it completely charmed the audience.

It is remarkable how a play of this kind can be staged so effectively as it was last night where the room is comparatively limited, but even with this drawback the presentation proved to lack nothing in its approach to perfection. Elsie St. John as "Polly" really seemed to lack nothing in making the part as natural and effective as it could possibly be made. In manner, in method, in facial expression and in the reading of her lines, this young lady seemed to reach the acme of dramatic art. She was a constant delight to the audience whenever she appeared on the stage and proved in the final act that she was as great an artist in the circus ring as on the dramatic stage. She left a host of friends in Santa Fe.

The Rev. John Douglas, presented by Charles F. Newson, was a clear cut, refined and effective actor. In no place was it overdrawn and his reading of the touching passages which were a part of the character, lost nothing by Mr. Newson's construction. His work was a pleasure to the eye through.

The rest of the cast, which was rather a large one, seemed to meet every requirement and there were no weak places in it. But the part of Big Jim by Mart E. McLeary, stood out prominently and the DeBenedictis show man was clearly brought out by Mr. McLeary's excellent work.

Stan Jon's part of Tom Sanders, was a fine bit of negro characterization. The old colored mammy was given a portrayal which was most humorous and effective from every point of view.

In reviewing a play so well presented as was "Polly of the Circus" last evening, one is likely to use rather extravagant expressions, for when tears and laughter on the part of the audience are mingled as they were last evening, it plainly shows that the heart strings were touched and the play and the dramatic action have taken a firm grip on the audience who listens to it.

This is the second appearance of "Polly of the Circus" in Santa Fe and if it comes again in next season's list of plays, there is no doubt that it will meet with a hearty reception and a large audience.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. Safe and always sure. Try them. For sale by all druggists.

BADLY HURT IN COLLISION.
Owosso, Mich., Nov. 14.—Frank Kuchar, a laborer, 35 years old, is in a critical condition, his left groin having been penetrated to a depth of several inches when he collided with a rig while riding his bicycle.

MADAM! IF YOU DON'T FEEL RIGHT HEADACHY, BILIOUS, CONSTIPATED.

Waste-Clogged Bowels, Torpid Liver and Decaying Food In Stomach Cause the Sick Headache, Gas, Backache, Sallowess, Biliousness and Indigestion.

All women get bilious, headachy and constipated—simply because they don't exercise enough. They don't eat coarse food or enough fruit and green vegetables. Those are nature's ways of keeping the liver and thirty feet of bowels active; but very few women employ them. The best way is to take a little, fruit Syrup of Figs.

Nearly all bills of women can be overcome with Syrup of Figs alone. There is no need to have sick headache, backache, dizziness, stomach ache and full of gases, bilious spells, sallowess, coated tongue, bad breath, bad complexion, nervousness and depression. The surest and safest remedy is one or two teaspoonfuls of delicious Syrup of Figs. Try this tonight—you'll feel splendid in the morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regulated; no more constipation, gases, pains and aches.

It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best.

But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse with contempt the so-called Fig Syrup sometimes substituted to fool you. The true, genuine, bears the name California Fig Syrup Company; look for this on the label.

NEW YORK LETTER

New York, Nov. 14. The forestry experts of the New York City park department say that there will be no shortage of Christmas trees this year, even though the gypsy moth quarantine declared by the department of agriculture causes some increase in price.

The quarantine applies to trees from New England and it is said that New Jersey, Pennsylvania, and the Adirondacks may be depended upon to supply all the trees necessary.

The park commissioners say that the quarantine came none too soon, for the gypsy moth was spreading rapidly westward from Massachusetts.

"Gentlemen, as a matter of law there is no power in the state to compel a wife to live with her husband," said Supreme Court Justice Blanche yesterday in charging the jury in Harry Hadenstein's suit to recover \$25,000 from William Isaacs, a silk importer, for alienating the affections of Hadenstein's wife, Jessie, who is the niece and adopted daughter of Isaacs.

The jury walked out of the courtroom and in about two minutes came back with a verdict for the defendant. Mrs. Lily Langtry, whose suffragette sketch, "Helping the Cause," was barred this week from a Pittsburgh theatre, will not give up her American vaudeville on that account. It was confidently predicted yesterday in theatrical circles.

"Mrs. Langtry has a blanket contract with Martin Beck for twenty weeks in vaudeville at \$2500 a week," said Walter Kinsley of the United Booking Offices.

Announcement of the marriage of a young woman for William Gillette in his revivals of "Secret Service" and "Held by the Enemy," of the birth of a baby girl last March and of the filing of a suit for divorce against her husband, was made at the same time yesterday. Miss Brown went to London in 1911, where she met Robert Liddell, of Dublin, member of a well-to-do Irish family. They slipped away from a tennis party one day and were married, but kept it secret.

The official reports of travel on the New York subways during the year ending June 30 show that 263 million passengers were carried, representing a daily average of 890,000 persons over a railroad designed to carry only 400,000 a day.

Statistics produced at the opening session of the national conference on mental hygiene now meeting here show that the cost of caring for the insane and feeble minded in the United States is now 60 million a year. It is figured that the total number of insane exceeds 14 million.

Thomas McCoy, of Providence, R. I., was found lying near vacant lot on Broadway early today, the victim of a mysterious assault by thugs. More than \$200 was in his pockets.

Announcement is made at Fordham University of the resignation of Dean James J. Walsh, of the medical school, together with twelve or fifteen other members of the faculty. The resignations are the result of a disagreement over policies of administration.

Ell Bates, who was chief of the New York fire department from 1873 to 1884, is dead at his home in Jersey City. He was 87 years old. He was a fire fighter from the time he was 17 years old.

25 CENTS "DANDERINE" FOR FALLING HAIR AND DANDRUFF-GROWS HAIR

Don't Pay 50 Cents For Worthless Hair Tonics—Use Old Reliable, Harmless "Danderine"—Get Results.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—anytime—will surely save your hair. Get a 25 cent bottle of Knowlton's

WANTS

Girls

Read About These Three Girls. How Sick They Were and How Their Health Was Restored by Lydia E. Pinkham's Vegetable Compound.

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sick for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Lydia E. Pinkham's Vegetable Compound and it has restored my health. I think it is the best medicine in existence."—Miss CECILIA M. BAUER, 1161 Lawrence St., Appleton, Wis.

A SCHOOL TEACHER'S GRATITUDE:
Geneva, Iowa—"I have been teaching school for some years and I have neglected my health because I was too busy with my work to attend to myself properly. I suffered greatly every month and was on the verge of a nervous breakdown. I wrote to you about my condition and took Lydia E. Pinkham's Vegetable Compound and the Blood Purifier as you recommended. These remedies have done wonders for me and I can highly and widely recommend them to every suffering woman."—Miss MINNIE SHAYER, R. F. D. No. 1, Geneva, Iowa, c/o Sam Erickson.

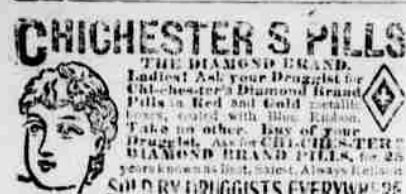

A COLORADO GIRL'S CASE:
Montrose, Col.—"I was troubled very much with irregular periods. Sometimes two months would elapse. I suffered severe headache, was weak and nervous, could eat scarcely anything. I took both Lydia E. Pinkham's Vegetable Compound and Blood Purifier and the result was wonderful. I feel like another person. I think your remedies are the best on earth and cannot express my thankfulness to you for what they have done to me. I help my neighbors when they are sick, and I shall always recommend your medicines."—Miss ELLA McCANDLESS, Montrose, Col.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there are lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself who will not try this famous medicine, made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

CHICHESTER'S PILLS

BIDS FOR PENITENTIARY SUPPLIES.

FROM THIS DATE ON

My Line of Made Hats Will Be Sold at a Big Discount.

Ostrich Plumes in delicate shades at cost. Black Plumes at a large discount.

MISS A. MUGLER
SOUTHEAST CORNER PLAZA.

The European Hotel, centrally located, State Progressive Headquarters in the hotel.

Praise for Mayor Lopez—Regardless of political or other faith, Santa Feans are today praising Mayor Lopez for instituting "Tin Can Day," which they say is one of his acts which will mark his administration for "clean government." Tin Can day was a success and the mayor is to be congratulated.

C. C. Cieson, local agent of the Studebaker Automobile company has been notified that the most important automobile announcement ever made will appear in the Saturday Evening Post this week.

The arch at the northeast corner of the plaza has been taken down because the posts and beams are to be used in the assembly room of the Old Palace where the Exhibition Plan is being installed. A new day has come to old Santa Fe—the city planners are here to show Santa Fe how to become, not merely a city beautiful, but a city comfortable and hygienic.

The Climate Again—Much has been said of Santa Fe's climate and that the city possesses the ideal weather in summer. But how about winter? Where on earth would such delightful November days be found as Santa Feans now are enjoying? The winters of Egypt and the summers of Alaska—Santa Fe seems to have a right to claim, judging by this brand of climate.

As To Landmarks—A good many people are asking: "Will the city plan soon to be shown at the Old Palace, destroy landmarks of Santa Fe?" It is well known that good city planning is careful to PRESERVE local traditions, old buildings, and everything that accentuates the individuality of a city. Santa Fe's expression and individuality will be preserved and not destroyed. Boost that exhibition plan!

Kent, Loonen's and Dupont tooth brushes are the very best money can buy, bristles guaranteed. Zook has them.

Jay Turley Here—Jay Turley, probably the tallest progressive in New Mexico, is here from San Juan county and is Rooseveltian from head to toe, some six feet six inches distance. "I think we did fairly well in our county considering the short time the progressives had to organize," he said today, "and we see a great future for the progressive party in our county and state." Mr. Turley is a civil engineer of ability and is one of the San Juan county pioneers.

Captain Fred Fornoff of the New Mexico Mounted Police, has received a telegram from Mounted Policeman Loveless that the Cox-Truby feud which resulted in the death of one of the Trubys near Durango Sunday night is at an end. Cox, Graves and Carmen, alleged leaders, went to Durango and gave themselves up. It will be remembered that the New Mexico Mounted Police were after the Trubys some months ago but extradition was denied by the governor of Colorado, it is said. There is no need of extradition papers now—Truby has crossed the great divide.

Memorandum Pads on good paper

at less than the cost of the paper at the New Mexican office. 10 pounds for 50 cents.

Dr. Daehne to Stay—News from the Brazilian party in San Diego is to the effect that Dr. Daehne, minister of agriculture of Brazil, is to remain in San Diego until 1915, looking after the exhibit Brazil will make. It is safe to say that great Brazil will make a monster exhibit, too, for Brazil is alive to the value of publicity and sees a golden opportunity to talk to the people of this and other lands at the San Diego exposition all through the year 1915. Dr. and Mrs. Daehne were in Santa Fe recently with the Brazilian party and made many friends here. Mrs. Daehne is an Ohio girl and possesses a charming personality.

Ghost, Ghost, at the Elks' tonight. It's good.

"Bill" Wood, son of Mr. and Mrs. J. B. Wood, was operated upon this morning by Dr. J. A. Massie at St. Vincent sanitarium for an injury received, it is thought, when he fell from a shed several months ago. His condition is reported good.

Always a good show at the Elks'. See it tonight.

Insure With Hayward and Rest Content.

That Exhibition Plan—All eyes now are turning toward the Palace of the Governors where the much talked of New-Old Santa Fe Exhibition Plan is being installed. Should Santa Fe be interested in this plan? Arnold W. Brunner, an authority on city planning, replies to this question, saying: "The desire for a better, more orderly, more liveable city is abroad in the land. There is much loose enthusiasm, some curiosity and a general desire to 'do something.' Then he adds: 'City planning is not a fad today, it is a NECESSITY; it is not an extravagance, it is an economy; it is not an artist's dream, it is a scientific reality.'

County School Superintendent John V. Conway returned last evening from a trip to the northern school districts, where he inspected and held parents' meeting. At Cuyamungue, Miss Ambrosia Rodriguez is in charge, with an enrollment of 38. At Pajarito, Mrs. Santa Pacheco is the teacher, with an enrollment of 42. At Rancho de Hildefonzo, Miss Ruby Rolbal has charge, with an enrollment of 29. Mr. Manuel Lujan has charge of the school in the village of Hildefonzo, with an enrollment of 62. Enthusiastic parents' meetings were held in these districts, and Mr. Conway states that school conditions in Santa Fe county were never better. A great deal more interest is manifested on the part of the parents, this year, than ever before, and the superintendent looks for a record-breaking attendance in the county schools.

Self respect requires clean teeth, possibly only with care with twice-a-day brushing by you. Get a tooth brush today. Zook's Pharmacy.

Dogs As Joy Riders—Since the automobile has been introduced, the auto-mania has been written about, as well as the benefits derived from motoring. But the motor-mania is not confined to humans—dogs get it. One of the most striking examples of this

curious nervous manifestation is seen in the handsome bull dog Jack Collins presented to Dr. Lloyd. The dog is a thoroughbred and shows his fine disposition except when the automobile is around. Then he must go joy-riding. He climbs into the car and as the chug-chug of the machinery is heard, he licks the glass wind shield in his delirious delight, showing canine affection for the motor car. While the machine moves, bringing into sight new landscapes, the animal whines with excitement. The dog is motor-struck. The next invention of the age will doubtless be a small ma-

chine for dogs to ride in, with a steering gear adapted to their paws.

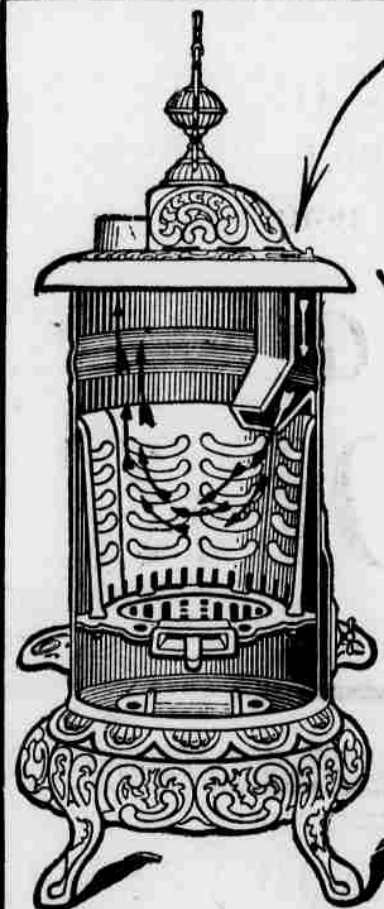

In addition to having an up-to-date electric mill for grinding coffee, the Modern Grocery company handles the best grade of coffee to be had in the United States in the berry, and you can have it ground to suit your individual taste.

The Girl Reporter Big Scoop. It's a Kalem and a good one at the Elks tonight.

Here
Is Where
The Draft
Enters

The most perfect draft ever discovered is the patent Hot Blast Down Draft of the Wilson Heater. The only draft that secures perfect combustion and prevents waste.

This draft is found only in the
Wilson
HOT BLAST
Heater

The air enters at the top, drives the combustible gases into the fire where they are burned—prevents the escape of heat up the chimney—doubles the heating power of the fuel. In other words, only half the amount of fuel used in ordinary heaters is necessary. The Wilson is air-tight, making perfect combustion possible and a fire can be held 24 hours. We sell Wilson Hot Blast Heaters for either wood or coal.
