HENRY REFUSES TO TELL BANK OFFICERS' NAMES; HELD FOR CONTEMPT

EXCITING TURN IN MONEY TRUST INVESTIGATION MAY TEST THE RIGHT OF CONGRESS TO COMPEL TESTIMONY IN CONNECTION WITH LEGISLATIVE AFFAIRS—SILENT NEW YORKER FACES FINE OR IMPRISONMENT

GEORGE F. BAKER IS THE STAR WITNESS AT TO-DAY'S HEARING

Washington, D. C., Jan. 9.—The question whether the house money trust committee may investigate the affairs of national banks was started on its way to the courts today and when the banking and currency committee unanimously voted to certify to Speaker Clark for contempt, George G. Henry, of Solomon & Co., New York bankers, who refused to tell the money trust committee the names of 24 officers of national banks who made \$50,000 out of a syndicate to market California petroleum stock. The speaker presented the certification to the house and that body voted to certify the facts to the United States attorney for the District of Columbia with authority to proceed with a criminal action involving fine or imprisonment. The case ultimately involves the right of congress to compel testimony in connection with its legislative affairs.

George F. Baker, chairman of the board of the First National bank of New York, popularly referred to as "the biggest man in Wall street since J. P. Morgan retired from active business" was the principal witness before the money trust committee today, telling of the organization of the First Securities company, which holds the stocks of various banks throughout the country. The company was organized, he said, to do business which the government claimed the bank act forbade the First National bank to do.

Mr. Baker testified that in 1874, the capital of the First National bank was \$500,000, increased in 1901 to \$10,000,000 by a dividend of \$9,500,000. Surplus of \$11,641,000 was left after that dividend. He went over the yearly dividends since then, showing they ranged from 20 to 126 per cent. In the last four years dividends of 226 per cent have been paid. In 1908, beside a regular dividend of 32 per cent, an extra dividend of 100 per cent was declared for organizing the First Security company to do business not authorized by the National Bank act. He said the company did little business in stocks.

Mr. Baker testified that in 1908 he owned individually more than one-half of the stock of the Chase National bank. None, he said, was held by the First National. He could not say when that control was acquired but thought about five years ago. He said no assets of the First National had been used for the purchase of the Chase stock.

Mr. Baker testified that when the Securities company was organized

FEDERAL JOB FOR JUDGE M'FIE

Washington, D. C., Jan. 9.—The nomination of John R. McFie as register of the land office at Santa Fe, N. M., was sent by President Taft to the senate today.

When the above news was communicated to Judge John R. McFie today, he stated that in October M. R. Otero had resigned the post of register of the local land office and that U. S. Senator Catron had asked him if he would accept the appointment as his successor. Judge McFie consented to do so.

A curious coincidence was mentioned by the judge in discussing the matter. He said that he came out to New Mexico in 1884 as register of the land office at Las Cruces, receiving his appointment from President Arthur. Later he served on the bench, having been reappointed several times.

It has been known for some time that M. R. Otero was in poor health at his home in Albuquerque and it was said he was unable to transact the business of his office here.

In view of the election of a democratic president, it is not known how long Judge McFie, who is a republican, will hold over should the senate confirm his appointment.

NO COMBINE WITH THE G. O. P.

THEODORE ROOSEVELT TELLS MR. MUNSEY THAT CHANCE FOR HONEST GOVERNMENT LIES IN PROGRESSIVE PARTY ONLY.

New York, Jan. 9.—Theodore Roosevelt replied today to a proposal advanced by Frank A. Munsey yesterday to bring the progressive and the republican parties together. He said: "I am simply speaking as one of the men in the ranks of the progressive party. Personally, I strongly feel that we should no more enter into a combination with the republican machine than with the democratic machine."

"I firmly believe that all good progressives who may happen yet to adhere to either the republican party or the democratic party will in the end see that the chance for honest government and for practical achievement, of social and industrial justice, lies in the progressive party and only in the progressive party."

"We welcome all honest men who believe in our principles. If they come in with us they shall have exactly the share that any other people have of the party management. I hold that we are under the same obligations to ex-democrats, like Judge Lindsey and Don Dickinson, as to any ex-republicans."

"To my mind the whole attitude of those at present responsible for the leadership and management of the republican party shows that it would be folly to try to combine them."

SAVED FROM A WATERY GRAVE

Astoria, Oregon, Jan. 9.—The two survivors of the wrecked tanker Rosecrans who have been marooned aboard the Columbia river lightship, with their rescuers, the Point Adams Life Saving crew, since they were taken out of the rigging of the sunken steamer, are enroute to this place. A wireless message from the tug Oneta, which has been trying to take the men off since the day of the wreck, said this morning that the sea had gone down sufficiently to permit the transfer from the lightship to the tug and that the latter was coming in.

Four of the eight bodies thrown up by the sea since the tanker carried 32 men to death with her, have been identified. That of Captain Johnson has been sent to San Francisco.

TRAPPERS MAY BE LOST.

Grand Junction, Colo., Jan. 9.—Searching parties are scheduled to start from here and Delta tomorrow in an effort to find R. K. Palmer and O. L. Wright, both of Golden, Colorado, who started on a trapping expedition on Grand Mesa early in the winter. The men were to have reported in Delta Christmas, but no word from them has been received. The recent cold weather on the Grand Mesa was the most severe in the history of the western slope, and grave fears for the safety of the trappers are entertained.

DEATH PUNISHMENT INFLICTED ON WOMAN FOR OPIUM SMOKING

Shanghai, Jan. 9.—Death as a punishment for opium smoking was meted out today to a woman of this city who persisted in the use of the drug despite stringent manifestos issued by the government on Christmas day prohibiting the people from indulging in the habit.

By order of the governor of the province, the woman was taken to a public place and executed by shooting this afternoon in the presence of a large crowd of spectators.

The manifesto by the Chinese government expressed the desire for the suppression of the evil in order to save the people from a life of degradation, but at the same time voiced the fear that although the govern-

EXTENT OF THIS IMMUNITY BATH QUESTIONED

Washington, D. C., Jan. 9.—The extent of the "immunity bath" was brought today before the supreme court for determination with arguments as to whether Charles P. Heike, former secretary of the American Sugar Refining company, was entitled to immunity from the prosecution for conspiracy to perpetrate sugar weighing frauds against the customs. Heike was convicted on this charge and sentenced to imprisonment.

It was shown that Heike testified about the affairs of the company at a grand jury investigation as to whether his company was violating the Sherman law. Government lawyers replied that this immunity extended only to prosecutions for violating the interstate commerce acts and do not to a prosecution for conspiracy to defraud the government out of customs.

THE DAY IN CONGRESS.

SENATE.

Convened at noon.

J. N. Henshell, of Little Rock, Arkansas, sworn in as successor of the late Senator Jeff Davis.

Closing arguments of defense in the trial of Judge Archbold begun before court of impeachment.

Indian affairs committee heard witnesses in connection with Townsend resolution to refer to the attorney general records pertaining to Crow Indians.

HOUSE.

Convened at noon.

Banking and currency committee voted unanimously to certify to speaker for contempt George G. Henry for refusal to answer certain questions before the money trust investigating committee.

Views on changes in the financial system heard by currency reform committee.

Hearings of various interests on revision of Schedule B of the tariff before the ways and means committee.

Secretary Stimson advocated restoration of the army canteen at hearing before military affairs committee.

Merchant Marine committee continued its investigation into alleged Brazilian steamship pool.

Notice of contest of re-election of Representative Kent, first California district, filed by I. G. Zimwail, democratic candidate, defeated.

FIRE KILLS TWO. MAIMS MANY

San Francisco, Jan. 9.—Two unidentified bodies have been removed from the ruins of two water front lodging houses destroyed by fire early today and there is a possibility that other bodies may be found in the ashes. A score or more were injured in the dash for safety and three firemen badly hurt by the collapse of one of the buildings.

The records of both lodging houses were destroyed and the police cannot ascertain how many guests were cared for last night. The search of the ruins is the only way of determining the loss of life.

OVER 24,000 FIREMEN ARE INVOLVED IN CONTROVERSY.

New York, Jan. 9.—In rejecting the committee of seven proposals, W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers, spoke for his union in a letter in which he severely arraigned and criticized the arbitration in the

STARVATION MAY LEAD TO FALL OF FORTRESS IN NEXT FEW HOURS

APPALLING CONDITIONS AT ADRIANOPLE ARE REPORTED, ACCORDING TO CIPHER MESSAGES RECEIVED BY DR. DANIEFF FROM BULGARIAN CAPITAL—DEFENDERS LIVING ON FOUR OUNCES OF BREAD A DAY

RUSSIAN BLACK FLEET PREPARES FOR A BIG NAVAL DEMONSTRATION

London, Jan. 9.—Dr. S. Danieff, the Bulgarian peace plenipotentiary today received cipher messages from the Bulgarian capital which represented conditions in Adrianople as appalling and the fall of the city is imminent.

The progress toward resumption of the peace negotiations here is slow. It may, however, be accelerated after today's meeting at the foreign office of the European ambassadors, who are expected to agree on united action which they hope may put an end to the deadlock in the event that intervention should become necessary.

The delegates themselves in the meantime are consulting in separate groups but neither side appears anxious to convene another meeting of the conference until Turkey is ready to make proposals which promise a basis for fruitful discussion.

ONLY FOOD IS BREAD.

Belgrade, Serbia, Jan. 9.—Fugitives from the fortress of Adrianople who have reached the Serbian camp in front of that city, report that the only food obtainable inside the walls is bread. The rations distributed to inhabitants and soldiers have now been reduced to four ounces per head daily.

SAVOFF WAS DIPLOMATIC.

Sofia, Bulgaria, Jan. 9.—The official story of the recent meeting between General Savoff, the Bulgarian commander-in-chief, and Nazim Pasha, the Turkish commander-in-chief, made public today says the Turks asked for authorization to recapture the fortress of Adrianople. General Savoff replied that that matter had been settled by the armistice protocol.

The Turks are said also to have raised the question of the future possession of the fortress but General Savoff declared that the peace delegates in London would deal with that subject.

FLEET IS MOBILIZED.

London, Jan. 9.—The Russian Black Sea fleet was mobilized today in preparation for the naval demonstration projected by the European powers in the event of it being found necessary to appear to coerce Turkey.

If the demonstration should be carried out, the Russian vessels probably will appear in the gulf of Inada on the Black sea, seventy-five miles northeast of Adrianople, while those of the other European powers will gather in Besika bay on the coast of Asia Minor near the entrance to the Dardanelles.

Such a demonstration, it is believed, would make easier the Turkish government's task of surrendering to the demands of the allies, as it could then plead coercion.

PRICES "STEADY" IN WALL STREET

New York, Jan. 9.—The success with which manipulated issues were marked up encouraged more general buying of standard stocks, and by noon a large number of issues were quoted from 1 to 3 points above yesterday's close. Preparations to market bond and note issues were regarded as evidence of confidence.

Bonds were firm.

Individual stocks crept up to a higher level but the general market rested after the forenoon jump and prices scarcely moved more than one-eighth either way.

Heaviness of Southern Pacific and the subsidence of the general demand induced profit taking and the list went off slightly. Southern Pacific reacted from 106 7/8 to 105 7/8.

The market closed firm. Trading operations were reduced to a minimum in the late afternoon and the market scarcely varied, although the undertone was better.

TARIFF HEARING IS CONTINUED

Washington, D. C., Jan. 9.—John S. Sull, of the Gantt's Quarry, (Ala.) a witness before the house ways and means committee today contended that the only result of reduction of the tariff on marble in blocks, now 65 cents a cubic foot, would be to diminish the government's revenue.

Mr. Sull said American producers were not putting a penny's worth of interior marble into Greater New York, because of the imported marble.

Frank Wilder, of North Holston, Va., representing a gypsum company, wanted the present tariff on gypsum undisturbed.

Jerome Jones, of Boston, chairman of a committee of Pottery Jobbers, urged reduction on pottery to 30 or 35 per cent.

STEAMER SINKS; CREW IS SAVED

Halifax, N. S., Jan. 9.—The British steamship Evelyn, 2,300 tons, sank today at the entrance to Louisburg harbor. Her crew of 33 were saved.

The Evelyn, bound from Bremen to Savannah, ran ashore yesterday at St. Esprit during a snowstorm. The crew succeeded in getting her off and were trying to reach Louisburg when she suddenly collapsed and went down.

O'GORMAN CONFERS WITH WILSON.

Trenton, N. J., Jan. 9.—United States Senator O'Gorman of New York came here this afternoon and immediately went to the state house for a conference with President-elect Wilson. Senator Culberson of Texas, and E. S. Johnston, who ran for governor of South Dakota, were expected later in the day.

PERUVIAN WILL FLY OVER THE ALPS

Geneva, Switzerland, Jan. 9.—Jean Bielovueci, the Peruvian aviator, arrived today at Brig, whence he will attempt a flight in a monoplane across the Alps into Italy.

Bielovueci intends to follow the same course over the Simplon Pass as was attempted by George Chavez, his late friend and compatriot, who died on September 27, 1910, after accomplishing the flight over the mountains from Brig to Domodossola, Italy, where he was seriously injured in landing.

Bielovueci, who is not yet 24 years old, holds a French pilot's certificate. He made a flight in Paris in August, 1910, when he circled the Eiffel tower. In September of the same year he flew from Paris to Bordeaux. He traveled today over the course in an automobile and now awaits only favorable weather.

FALSE CHARGES MAY HAVE UNHINGED HIS MIND.

Denver, Jan. 9.—Mrs. L. A. French, wife of the American Express company agent at Longmont, came to Denver today to enlist local officers and officials of the company in the search for her husband, who has been missing since Saturday. Mrs. French thinks her husband's mind has been unbalanced by false accusations of robbing his employers. Since his disappearance officials of the company have audited his books and found them in perfect condition.

Friends of French says he incurred the enmity of various persons by refusing to deliver to messenger boys shipments of intoxicating liquor sent to Longmont, which is a dry town. The express company's office was robbed of \$240 last August.

JAPAN WILL ISSUE NO GOVERNMENT LOANS.

Tokio, Japan, Jan. 9.—The new Japanese cabinet, under Premier Prince Taro Katsura, has decided to abandon the project of increasing the army by two divisions which brought about the recent political crisis. It will also limit its naval program to the maintenance of the normal standard.

The new budget will be on lines like those of last year. No government loans will be issued during the year, while 50,000,000 yen (\$25,000,000) of the outstanding debt will be redeemed.

The cabinet is determined to adhere to the Anglo-Japanese alliance.

TARIFF CHANGES DISCUSSED.

Cheyenne, Wyo., Jan. 9.—Probable tariff changes and federal control of forest reserves were among the topics discussed by the National Woolgrowers' association convention which opened its 49th annual convention here today. At the opening session former Governor Gooding, of Idaho, responded to the address of welcome by Governor J. M. Carey, of Wyoming.

CONTEST IS FILED.

Washington, Jan. 9.—Notice of contest against Representative Kent, re-elected from the first California district on the progressive ticket was filed today by I. G. Zimwail, the democratic candidate. The contestant alleges Representative Kent spent \$50,000 to secure his election in violation of the law limiting expenditures of candidates and failed to make a correct report of his expenses.

CASCARETS' MAKE YOU FEEL GREAT

Gently Cleanse Your Live and Sluggish Bowels While You Sleep.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing sickening headache.

Salts, cathartic pills, oil and purgative waters force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, indigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels clean and regular for months.

A JAMMED CALENDAR

Washington, D. C., Jan. 9.—With final adjournment of the Sixty-second congress two months away, the house is confronted with a jammed calendar and a grist of supply bills that promise weary days and sleepless nights for the legislators up to the final moment of the session.

Only a single appropriation bill, the legislative, executive and judicial supply measure, has been passed by the house. The Indian appropriation bill is now under consideration, and it should be completed early next week. The big appropriation measures, which involve a vast amount of detail likely to cause lengthy discussion, are still to come. The postoffice appropriation bill has been reported from the committee and is awaiting action by the house.

The military affairs committee has practically completed the army bill, which is expected to develop considerable friction. Besides these there remain the naval appropriation bill, with its prospects for a fight on the battleship program; the Military Academy bill, the agricultural appropriation bill, the fortification bill, the voluminous sundry civil bill and two so-called "pork barrel" bills, for river and harbor improvements and public buildings.

With these prospects piled up for the next two months, Representative Fitzgerald, chairman of the appropriations committee, declared that the house would soon be forced to call night sessions for the consideration of appropriation bills. He said that committees would have the supply measures ready for action on the floor before the house was ready for them. Mr. Fitzgerald believes general legislation will have little chance on the floor.

Members of the house are looking forward to about a month of night and day grinding just before the conclusion of the session, and the leaders are already making plans to hold a quorum of members, that work may be rushed through.

LIBRARY BOUGHT WITH CORKS.

Chicago, Jan. 9.—The Chicago Waiters' association has a library purchased with champagne corks.

This fact became known last night through the curiosity of a guest who watched a waiter chasing the corks along the floor at the ninth anniversary of the celebration of the waiters' club.

"What's that for?" asked the guest.

"Mark Twain," answered Secretary McMullin, of the club, "old Mark Twain."

"You see, when we started the club, we wanted to have a library, so we saved champagne corks. We got 2,000 volumes, best authors, all bought with champagne corks."

"Members save them wherever they are employed, and we sell them for \$3.50 a thousand. That cork just dropped in the barrel will help buy a set of Mark Twain."

EVERY STREET IN SANTA FE

Has Its Share of the Proof That Kidney Sufferers Seek Backache? Kidneys weak? Distressed with urinary ills? Want a reliable kidney remedy? Don't have to look far. Use what Santa Fe people recommend. Every street in Santa Fe has its cases.

Here's one Santa Fe man's experience. Let Jose Ortiz y Baca, of Alto St., tell it.

He says: "In 1907 I used Doan's Kidney Pills for pains in my back that had troubled me for three years. They brought prompt relief and proved so satisfactory that I gave a public statement in their praise. Now after two and a half years have passed, I gladly confirm every word of that testimonial. I can add that I have since used Doan's Kidney Pills, giving them a more thorough trial and have received great benefit. I know that this remedy is a cure for backache and kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BRYAN CAN HAVE IT WILSON WANTS HIS HELP

IT IS DECLARED THAT THE POSITION HAS BEEN TENDERED THE NEBRASKAN—OTHERS UNDER CONSIDERATION.

GARDNER AND GOETHALS BEING CONSIDERED

Trenton, N. J., Jan. 9.—William Jennings Bryan will be in President Wilson's cabinet if Mr. Wilson can induce him to accept the portfolio. Those persons who have intimated that Mr. Bryan seeks the place and his impurity has embarrassed the president-to-be, are wrong. The shoe is on the other foot. Mr. Wilson wants Mr. Bryan to be inside the breastworks and not outside. Mr. Wilson does not propose to embarrass his administration at the outset by offending the man who did most to place him in the presidential chair. So it is up to Mr. Bryan to say what place he will take, or if he will take any.

Another man likely to be in the cabinet is Senator Obediah Gardner of Maine. He is talked about for secretary of agriculture. He was former master of the state grange, and is supposed to stand well with the farmers.

Here is a new one. How about Col. Goethals for secretary of war? He is the man who put the canal in Panama, and Mr. Wilson desires the canal opening to be one of the features of his administration. As secretary of war Col. Goethals would be in constant touch with the great project which he has so close to his heart. But these matters of patronage, while interesting to the persons concerned, are secondary to the other questions which the next president now has under constant consideration. He is more concerned just at present in framing his legislative policy. The impetuous young legislative Lochinvars just out from the west who think they are coming to Washington upon the assembling of the extra session and write their names high on the scroll of fame have another guess coming to them. They will not get a look-in.

Mr. Wilson and Oscar Underwood and Speaker Clark have a thorough understanding as to what is to be done and what is not to be done at the extra session. There will be absolutely perfect team work of those three. The tariff bill will be ready by the time congress meets in March and will be jammed through the house in less than thirty days.

They hope to get it out of the senate by June. The republicans will be asked not to filibuster, but to aid in getting the agony over as soon as possible, since the result is inevitable.

Appointments to office may be a little slow pending the tariff legislation. Of course, this statement is made with all delicacy and is far from intimating that the new president intends to "hold up" anybody. However, "you get me," don't you?

All the budding statesmen will introduce bills to their hearts' content, but they will not get anywhere. Oscar Underwood and Champ Clark will wield the blue pencil which Mr. Wilson will hand them, and mark "nothing doing" on the backs of the bills which the new men will offer.

Coming back to cabinet gossip, we find that Josephus Daniels and Albert Bursleson and A. Mitchell Palmer are still on the slate. There was demur against Mr. Palmer as attorney general on account of his youth until it was suggested that in the long run the attorney general is the president's lawyer to do what the president wants and that as a matter of fact the president himself will dictate the policy of the department of justice.

It is going to be a whirlwind administration. Things will start a-moving at noon March 4, and there will be something doing every moment.

AMERICA SUPPLIES THE WORLD

Washington, D. C., Jan. 9.—With the world's consumption of oil aggregating 1,000,000 barrels a day, of which the United States supplied almost two-thirds, production of petroleum in this country during 1912 was 220,200,000 42-gallon barrels or about 250,000 barrels less than 1911. While the production was less, the rising price of oil increased the total value of the product markedly. Last year the output was valued at \$150,000,000, an increase of about \$16,000,000 over 1911.

David T. Day, of the geological survey, says the year was full of remarkable incidents.

The eastern oil fields, as a rule, declined in production. The decline, however, was offset by the increase in California, where the San Joaquin valley fields are still at the height of gusher stage.

The advent of internal combustion engines, says R. Day, promises an increase in the price of fuel oils.

Prices advanced so greatly during the year as to simulate drilling, even in the old New York and Pennsylvania pools. In the Appalachian fields prices rose from \$1.30 to \$2 a barrel.

One feature tending to strengthen the position of oil in the United States was the decrease of about 6,182,000 barrels in the production in Russia.

A little want ad costs but a few cents and brings wonderful results when published in the New Mexican. Try one.

Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child.

Mother's Friend

Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

BRADFORD REGULATOR CO., Atlanta, Ga.

BIG GUNS ON LEGISLATION AND BUSINESS

Washington, D. C., Jan. 9.—Important matters affecting the relation of business to legislation will be discussed by prominent speakers at the annual convention of the chamber of commerce of the United States which will convene here January 21 for a three-days' session.

The convention will be featured by a banquet on January 22, when President Taft, Speaker Champ Clark and Dr. Charles W. Eliot, former president of Harvard, will make addresses.

The delegates to the convention will be welcomed to Washington by Secretary of Commerce and Labor Nagel. On the program of speakers are Representative Clayton, of Alabama, chairman of the house judiciary committee, who will discuss the subject of a federal charter for the chamber, and Representative Glass, of Virginia, chairman of the subcommittee of the house committee on banking and currency, who will discuss currency reform.

The President and Mrs. Taft will entertain the delegates at a tea and reception January 22.

CLINGS TO PILOT AND CHEATS DEATH ON TRACK.

Lapeer, Mich., Jan. 9.—Lewis Baldwin, a farmer of Elba, while driving home, was struck by a fast freight on the Grand Trunk crossing west of here, the buggy in which he was riding being smashed. Baldwin was injured but slightly, as he was thrown on the pilot of the engine. The engineer stopped the train as soon as possible and went back, with the rest of the crew.

Baldwin climbed down from the pilot and staggered by them, asking where his horse was.

Baldwin had clung for dear life to the pilot when he landed.

NOTICE FOR PUBLICATION.
Department of the Interior, U. S. Land Office at Santa Fe, New Mexico, Dec. 6, 1912.
Notice is hereby given that Felipa Lucero, heir to Maria Lucero, Deced., of Galisteo, N. M., who, on May 29th, 1906, made Homestead Entry No. 9482-07500 for Lots 3 and 4, Sec. 2, and Lots 1 and 2, Section 3, Township 9 N., Range 13 E. N. M. P. Meridian, has filed notice of intention to make Five year proof, to establish claim to the above described, before Register and Receiver U. S. Land Office at Santa Fe, N. M., on January 14, 1913.
Claimant names as witnesses: Augustin Ramirez, Galisteo, N. M.; Emeterio Chavez, Palma, N. M.; Francisco Chavez, Palma, N. M.; Faustina Salazar, Palma, N. M.
MANUEL R. OTERO, Register.
HINTS FOR HOUSEKEEPERS.
Keep Foley's Honey and Tar Compound always on hand, and you can quickly head off a cold by its prompt use. It contains no opiates, heals and soothes the inflamed air passages, stops the cough, and may save a big doctor's bill. In the yellow package. For sale by all druggists.

HAIR STOPS FALLING, DANDARUFF DISAPPEARS-25 CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp!
Danderine Grows Hair and we can Prove It.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it

through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and draw to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

GEORGE ADE BUMPED.

Lafayette, Ind., Jan. 9.—George Ade, humorist, was rendered unconscious by a fall on a sidewalk, and though was soon restored, he is still disabled and it is feared may have sustained internal injuries.

He had come here for a visit with Judge Henry Vinton, and started down toward a severe sleet storm. A slip on the icy pavement sent him to the ground.

BOY BADLY BURNED.

Cadillac, Mich., Jan. 9.—Ten-year-old Joel Cross, son of Albert Cross, Kalkaska, was badly burned about the face when it held a lighted match to the spout of a gasoline can. The gasoline exploded and the boy may lose the sight of one eye.

Landmarks of Typewriter Progress

Such are all the recent developments of the

Remington

(Visible Models 10 and 11)

Among these developments are:

The Built-in Decimal Tabulator—which makes the decimal tabulating mechanism an integral part of the typewriter.

The Tabulator Set Key—which eliminates all hand setting of the tabulator stops.

The Column Selector—which determines, by the stroke of a single key, the exact point on each line where the writing is to begin.

The Adding and Subtracting Remington (Wahl Mechanism)—which combines in one typewriter, and in one operation, the functions of the writing machine and the adding machine.

Every one of these new developments is an evidence of the perpetual leadership of the Remington Typewriter. Illustrated booklets descriptive of all recent Remington improvements, sent on request.

"PEOPLE MUST RULE" SAYS MARSHALL

GOVERNOR TELLS LEGISLATURE THAT
IF PROGRESSIVE LEGISLATION IS
NOT ENACTED PURE SOCIALISM
AND PATERNALISM MAY RESULT.

Indianapolis, Ind., Jan. 9.—"Unless progressive legislation is enacted, the people, some day, will open up the end-dance even though the opening may lead representative government over a precipice into pure socialism or paternalism," said Governor Marshall in his message to the Indiana legislature today.

"Representative government does not mean that present-day conditions cannot be remedied. Upon the contrary, progressive legislation may be enacted with no disturbance to the checks and balances of our system of government."

"The last general assembly recognizing our unfortunate condition with reference to the amendment of the state constitution, ordered presented for adoption or rejection by the people at the election in 1912 a new constitution. An action was brought to enjoin and restrain the governor and the other members of the state board of election commissioners and the secretary of state from putting the question for adoption or rejection upon the ballot. The litigation resulted in a permanent injunction by the Indiana supreme court upon a divided opinion, three members of the court being in favor of the injunction and two against it."

"With utmost respect for the majority of the supreme court, I felt that it had usurped the functions of the legislative and executive branches of government; that the sheriff of the court would have a rather interesting time in getting possession of my body and punishing me for contempt; and that such decisions gave greater impetus to the recall of judges and decisions than all the opinions of mere laymen touching the usurpations of the courts. Yet, I realized I might be wrong."

"Though believing that it was making of the supreme court the only branch of government which we had, still I felt that while there was a possibility of a judicial review, I should not set myself up as a judge and resist by force of arms what to me was an encroachment of the judiciary upon my constitutional rights. I was wholly unwilling to permit my personal views to result in anarchy. I believed that an orderly procedure with respect for the court, however little respect I might hold for its opinion, was the one for me to pursue. I felt assured that the supreme court of the United States would not punish me for trying to be a law-abiding citizen by refusing to decide the great questions involved in this controversy upon the theory that they were not judicial but political in their character."

"The question has not passed beyond the mere domain of party politics. The majority opinion leaves the state in doubt as to whether it can even call a constitutional convention, and as to whether our fathers did not foreclose upon posterity its right to alter and reform its system of government. It also leaves involved a far greater determination—that of the right of the court to strip the legislature and executive of their constitutional rights and to set itself up, not as a co-ordinate, but as a supreme branch of government."

"In accordance with these views, I have sued out a writ of error to the supreme court of the United States with confidence that that court will assume jurisdiction and decide the questions involved and with confidence that it will not dismiss the case and tell me that if I thought I was right, I should have totally disregarded the decision of the supreme court, defied its authority, thrown its sheriff out of my window, called out the militia to defend my position and submitted the question to the people regardless of the court."

Governor Marshall's message contained a warning "against the subtle influences of the lobbyist" and recommended that all bills be reported out of committees within four days. Continuing Governor Marshall said:

"You are today facing conditions and principles which if yielded to and accepted, may result in a peaceful revolution in the substance of your government. I do not contend that under the police power of the state, a representative democracy has no authority with reference to the life, health and safety of the individual. Upon the contrary, I insist that the use of this power is of as much value to each individual citizen as it is to a majority of the citizens. What we should clearly understand and conscientiously preserve is the line of demarcation between private and public social service. In a representative democracy, that line of demarcation may be charted in this language: It is the right and duty of the state to provide for the case and treatment of all of her unfortunate children who cannot provide for themselves. Unintentionally and unconsciously the generous impulses of mankind are lowering the self-respect of the individual. Abraham Lincoln would not have been a Biblical and Shakespearean scholar had he lived in a town with a Carnegie library. The constitution of this state provides for a general and uniform system of common schools wherein tuition shall be without charge and equally open to

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. J 50

all. The observations which I have heretofore made, do not apply to this system because the people needed that right and placed that duty upon the general assembly. But they did not provide that books should be furnished gratuitously to the pupils in our schools, regardless of their ability to buy or not to buy them. I have seen these school books in states where they are furnished gratuitously to the pupils and wish to add that if Dr. Hurty would permit such books to be used in Indiana, he would cease to be the enemy of the microbe and would become the godfather of the germ."

Governor Marshall suggests among other things that a Panama-Pacific exposition commission with women representation thereon be appointed. He recommends the enactment of an inheritance tax law.

Legislation to prohibit stock watering and to "prosecute unwary against investing their money in that which is not property but mere promise in those schemes which are ordinarily known to the business world as 'blue sky'."

Immediate enactment of a workman's compulsory compensation act. Anti-loan shark legislation.

That trust companies be treated the same as banks and that the people be protected against panics.

Stringent housing laws.

Establishment of a state penal farm for male prisoners.

Strengthening of laws against sale and use of cocaine and opium.

Revocation of liquor licenses upon third conviction of their holders.

Ratification of proposed amendment for popular election of senators.

A mean, stuffy cold, with hoarse wheezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions but take Foley's Honey and Tar Compound promptly. Quick and beneficial results are just what you can expect from this great medicine. It soothes and heals the inflamed air passages. It stops the hoarse racking cough. For sale by all druggists.

DUCHESS PASSES GOOD NIGHT.

Montreal, Quebec, Jan. 9.—The Duchess of Connaught, wife of the governor general of Canada, and by marriage, aunt of King George of England, passed a comfortable night at the Victoria hospital and was resting easier this morning. She was brought here yesterday from Ottawa suffering from peritonitis.

STEAMER IN TERRIFIC GALE.

Queenstown, Ireland, Jan. 9.—A terrific battle with the gale is being fought of this port by the liner Philadelphia, which left Southampton yesterday for New York. The Philadelphia arrived off Roches point at 11 o'clock this morning.

NO CAUSE FOR ALARM.

Washington, D. C., Jan. 9.—The naval tug Sonoma, which left Hampton Roads, with the Panther, arrived

at Guantanamo today. No word has been received from the Panther but navy officials insist that there is no reason to fear for her safety.

W. H. CHRISMAN IS BACK FROM WASHINGTON

"A mighty blow has been struck in the temperance cause," declared W. H. Chrisman, member of the house from San Juan county, upon his return from Washington D. C., where he was a delegate from New Mexico to the Anti-Saloon League of America.

"Thirty-two states were represented," continued Mr. Chrisman, "and the greatest interest was shown in the bill by Mr. Kenyon to prohibit interstate commerce in intoxicating liquors in certain cases. This bill would empower the police in dry territory to stop this interstate traffic in quantities of liquor for general distribution. It is considered the greatest move of the age that has been made in congress for the temperance cause."

Mr. Chrisman says that many prominent men attended the banquet at the Raleigh hotel and that enthusiasm over the new bill was raised to a high pitch. Mr. Chrisman was one of the delegates from New Mexico appointed by Governor McDonald and is said to have been the only one who attended the convention.

VOTING BY MAIL IS ADVOCATED

Madison, Wis., Jan. 9.—Broad plans for industrial, social and economic betterment were recommended to the Wisconsin legislature by Governor Francis E. McGovern, in his message to that body today. Some of the more prominent recommendations are:

Simplification of the income tax; more flexible women's and children's labor laws; taxation of mineral deposits underground; general law for regulation of waterpower; mother's pensions; minimum wage for women; abolition of prison contract labor at Waupun; enactment of a "blue sky" law for the protection of investors against fraud through the worthless corporate stocks and absent voting, or "voting by mail" for citizens out of their own home precinct election day.

ESCAPED AFTER FIFTEEN YEARS.

W. P. Broyles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley Kidney Pills released him and will do just the same for others. He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim. Refuse substitutes. For sale by all druggists."

It will not pay you to waste your time writing out your legal forms when you can get them already printed at the New Mexican Printing company.

DELICIOUS "SYRUP" OF FIGS FOR A BAD LIVER OR SLUGGISH BOWELS

This Gentle, Effective Fruit Laxative Thoroughly Cleans
Your Stomach, Liver and 30 Feet of Bowels of Sour
Bile, Poisons, Gases and Clogged-up Waste.

A harmless cure for sick headache, for biliousness, for a sour, gassy, disordered stomach, for constipation, indigestion, coated tongue, sallowness, pimples—take delicious Syrup of Figs. For the cause of all these troubles lies in a torpid liver and sluggish condition of your thirty feet of bowels. A teaspoonful of Syrup of Figs to-night means all poisonous waste matter, the undigested, fermenting food and sour bile, gently moved on and out of the system by morning, without griping, nausea or weakness. It means a cheery day tomorrow—many bright days thereafter. Please don't think of gentle, effective Syrup of Figs as a physic. Don't think you are drugging yourself, for luscious figs, senna and aromatics can not injure anyone. This remarkable fruit preparation is

a wonderful stomach, liver and bowel cleanser, regulator and tonic, the safest and most positive ever devised. The day of violent purgatives, such as calomel, pills, salts and castor oil is past. They were all wrong. You got relief, but at what a cost! They acted by flooding the bowels with fluids, but these fluids were digestive juices. Syrup of Figs embodies only natural ways. It does what right food would do—what eating lots of fruit and what plenty of exercise will do for the liver, stomach and bowels. Be sure you get the old reliable and genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by The California Fig Syrup Company. Hand back, with scorn, any Fig Syrup imitation recommended as "just as good."

PFLUEGER'S

OUR MESSAGE to you
this week is simply
a deep-from-the-heart wish
for a Happy New Year
for you and yours.

MAY the NEW YEAR
come to you well
laden with all the good
things to be had; and as
for sorrow and disappoint-
ments, may they be strange
to you.

FOR OUR PART WE'VE RESOLVED TO DO
better things in attending to
the shoe requirements of our patrons than we've ever
done before—and that's certainly saying something!

THE NEWS

NO CHAMP EVER MATCHED McCARTY'S PAST---OR FAMILY

Home Village Prattles Proudly of Hero's Life; Lute Knocked Out by Dub; Was a Great Sewer Digger; Father Is Huge "Indian Doctor," Mother Was a Giant; Sister "Champion Bag Puncher."

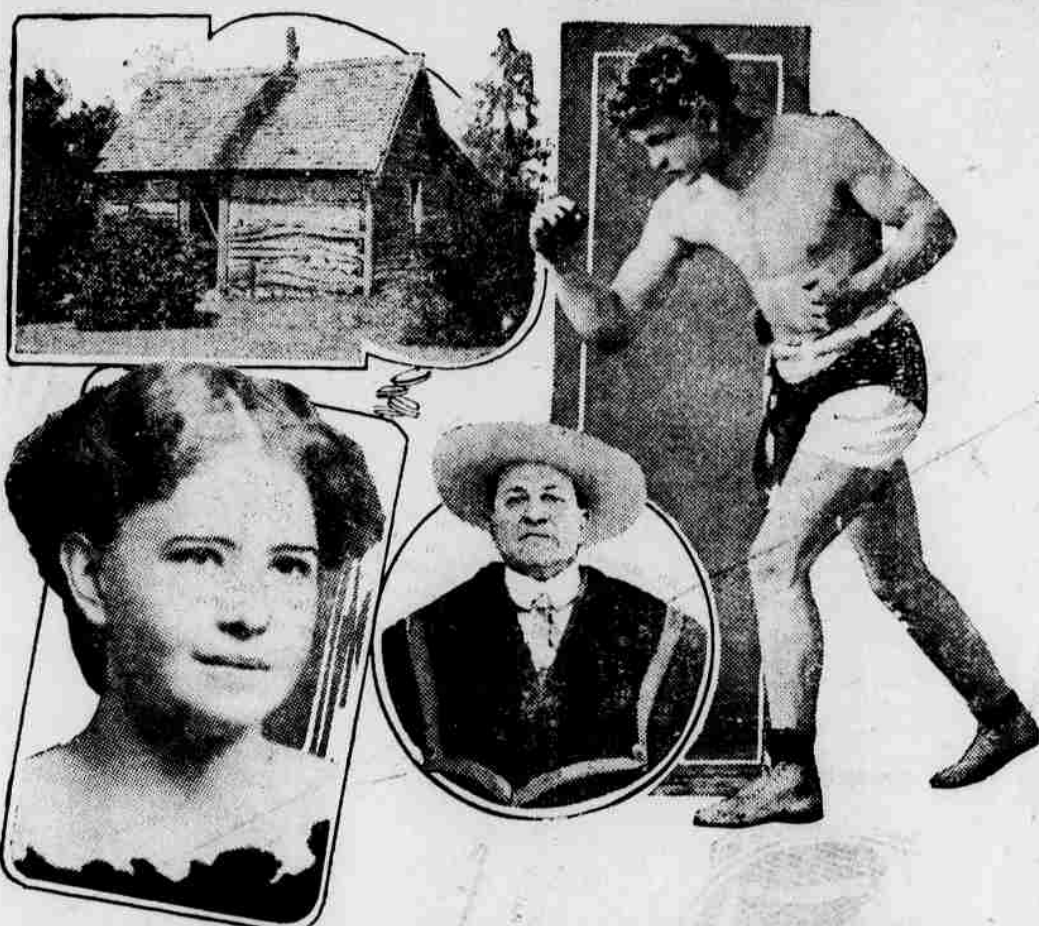

Sidney, O., Jan. 9.—"Wham!" said a man near the ring side, as a left hand swing, delivered by Harry Hollinger, an obscure laborer in a local tannery, knocked out Luther McCarty—and made McCarty champion of the world.

Hollinger, a giant, put over the epoch making punch in a vacant store in this town, one August night, in 1911.

Incidentally, McCarty's remuneration for the pummeling was a quarter, and he received this sum because, he explained, "I needed two-bits to buy some lute."

In this, his first boxing contest, McCarty was literally beaten to a pulp. When he regained consciousness Luther offered his hand to the victor and exclaimed:

"You made a dub of me, Harry, but I'm going to stick to the game and show up some of you fellows before I'm through."

LOG HOUSE WHERE McCARTY WAS BORN; CHAMPION AT AGE OF 17, HIS SISTER, "HAZEL KIRKMAN," AND HIS FATHER, "DR." ANTON P. McCARTY, KNOWN AS "WHITE EAGLE."

Driftwood creek, in that portion of Nebraska known as Wild Horse Canyon, March 20, 1892. McCarty took up his residence in Sidney, in 1907.

The boy's father, "Dr." Anton P. McCarty, known as "White Eagle," was for years proprietor of a traveling Indian medicine show. He lives in Piqua, 10 miles south of here.

"Dr." McCarty's stock in trade when he was "on the road," was "rattlesnake oil," and when the family came to Ohio, it was Luther's task to care for the diamond backs used as advertising.

Soon after settling in Piqua, Luther tired of his job as valet to a bunch of rattlers and sought work in a local plant. Within a few months he was "jack of all trades," requiring only muscle and willingness, of which he possessed plenty.

"Sure I'm proud of my boy," said "Dr." McCarty, "but his being champion is no surprise to me. I predicted that years ago. And do you know why? Well, sir, because Luther told me he would be champion."

"He was always 'daffy' about prize fighting. Even as a boy the little cuss never said he'd do a thing but that he did it."

"But don't think my boy's being champion would keep me from spanking him if he needed it!" and the father of Palmer's conqueror drew up his 6 feet 5 inches and his 315 pounds of anatomy with pardonable pride.

"Luther's a fine boy, but he hasn't got a decision over his dad, and he won't until he becomes of age next March."

"I've only one regret," and the giant's eyes were suspiciously moist, "and that is that Luther's mother didn't live to see him champion."

Luther's mother weighed 200 and was six feet in height.

Until she retired recently, McCarty's sister, who lives at Boise,

LUTHER McCARTY, HEAVYWEIGHT CHAMPION OF THE WORLD.

Idaho, was known in vaudeville as Hazel Kirkman, world's champion woman bag puncher.

Luther McCarty was married at 16 to Miss Rhoda Wright, 19. A daughter,

ter, Cornelia, aged 20 months, is their only child. Mrs. McCarty is the daughter of Theodore Wright, a prosperous farmer residing several miles northeast of this place.

foot six-inch form of Willard looms up the most menacing of all. It can be argued that Wells was eliminated when he lost to Palmer. Smith, although a terrific hitter, is not so much of a boxer, and besides, is badly handicapped in the matter of weight. But Willard's right to the next match with Palmer's conqueror cannot be argued away.

Willard and McCarty already have crossed arms, and the result was not altogether favorable to McCarty. In fact, during the last two rounds of their ten-round bout, McCarty looked to be all primed for a knockout. He was badly cut up, while Willard escaped without a mark. After that affair many of the critics could see no hope for McCarty, and put him down as a greatly overrated fighter. If the bout had had ten more rounds to go, Willard would have been a ten-to-one favorite, with no takers. But McCarty has since shown great improvement. Still, Willard also has learned a lot since then.

Willard is a very mysterious person. The exact extent of his ability is still very uncertain. Even his closest friends do not understand him. "A queer fellow, a very queer fellow," was Charlie Cutler's comment while discussing Willard just prior to the latter's bout with Soldier Kearns. Cutler is the wrestler-pugilist who helps Willard train and assists in making his matches. Many shrewd managers have made overtures to Willard. He will have none of them. As one of them explained it, Willard believes he can look after his own interests and thus obliterate the necessity of splitting the proceeds with a manager. He figures that he is now so prominent he cannot be overlooked, and needs no manager with the necessary influence in fistic circles to secure for him a championship match.

Are You a Seller?—An advertisement in the classified columns of the New Mexican will put your real estate on the market effectively. It will put the facts of your property before the eyes of all possible buyers.

GRIFTH HAS A STRONG STAFF

(By J. Ed Grillo.)

Even though John Henry has to undergo an operation, there is no need for worrying about the National's catching staff. Henry will undoubtedly be ready to take his turn behind the bat when the season opens, and the most encouraging kind of news comes from Eddie Ainsmith down in Texas as to his condition.

Manager Griffith received a letter from his youthful catcher this morning, stating that he had entirely recovered and that he was now in better physical condition than he has been in years.

Ainsmith and Alva Williams could

workers

day without going

According to the New York

Chase believes that Washington

the best trio of catchers in the league.

Here is what it says:

"Hal Chase says that the best

young catchers in the American

league are Ainsmith, Henry and Wil-

liams of the Washingtons. He can-

not understand why the Red Sox parted

with Williams. Chase also be-

lieves that Schalk, the ten-thousand-

dollar catcher of the White Sox, will

be a star next season; that Alexan-

der, the young backstop uncovered

by the St. Louis Browns last fall, will

be heard from. Incidentally Prince

Hal is sure that Chase will make a

first-class catcher out of Charley Ster-

rett, the former Princeton College

man."

While there is hardly a chance of

Griffith accepting the offer of the

Brownsville, Texas, business men to

build a training grounds and house for

the Nationals this year, it is probable

that he will make some arrangements

to go there next year. Griffith wants

a training place of his own. He fig-

ures that it would be of benefit to any

city to have him go there every

spring, and he expects Brownsville or

some other town to make concessions

to have him go there.

LOOKS DIFFERENT TO JOE JACKSON

Cleveland, Jan. 9.—That a baseball player can rise more rapidly than any other human being is the belief of Ben Smith, partner of Hugh Jennings in vaudeville. While here last week Mr. Smith related an incident supporting his belief.

Joe Jackson of the Cleveland club, is holding out today for a raise of \$1,000 in salary, said Smith. "When I read that I remembered the incident of Joe Jackson's first raise in baseball. He was playing with the Greenacres, S. C. club six years ago, having been taken out of a sawmill, where he had been earning \$2 a day. The first time he went to bat as a professional he struck out. He blamed the spiked shoes, and the next time he went to bat in his stocking feet and hit the first ball for a homer."

"He went along after that setting a home run at least every other day, and the fans were wild about him. One day, his pal, a fellow named Kelly, asked Joe what salary he was getting. Joe proudly told him \$16 a week."

"You're a big chump," said Kelly. "Why don't you hit the boss for more pay. Go to him and tell him you want some real money."

"Joe finally summoned up courage and called upon the boss. He returned to Kelly all smiles."

"Did you get it?" asked Kelly.

"Sure," boasted Joe.

"Well, what are you drawing now?"

"Joe glanced around to make sure no one was within hearing, leaned toward Kelly and in a stage whisper announced, 'Eighteen.'"

WOULD PLAY IN COMIC OPERA

SO DECLARES MISS MOLLY M'INTYRE THE BONNY SCOTCH LASSIE WHO PLAYS THE LEAD IN THE GREAT DRAMA "BUNTY PULLS THE STRINGS."

Miss Molly McIntyre, playing the role of Bunty in "Bunty Pulls the Strings," coming to the Elks theatre Friday, January 17, confesses that it is her ambition to sing in light opera in America—this, mind you, after her wonderful success in the role of Bunty, both in Chicago and in New York.

After her confession Miss McIntyre hastens to add: "Oh, you don't, you cannot believe that there is no place for real acting in light opera! I think that if you can sing at all, your singing makes you feel and your feeling makes you act. Professionally, you know, I'm a singer and dancer. My last role in light opera was that of the Irish girl in the 'Arcadians,' and I think I may truthfully say that I made a hit in the provinces."

"Do you miss the singing, even in Bunty?" she was asked.

"Yes, I do miss the singing," she replied. "The silence of the audience seems such an extraordinary thing—so still, so tense, almost strained."

"Is there nothing wonderful and strange in the fine success that has made you in a single night?"

"I hardly can realize that I have made a success—I have," said Miss McIntyre with characteristic modesty. "It was not with any idea of personal glorification that I undertook the part. I loved the play and I loved Bunty. I loved her before I ever dreamed of having the opportunity to play her. Mr. Graham Moffat, the author, has known me since I was a child. He survived seeing me in amateur theatricals when I was fifteen years old. The first time I saw Bunty in London I said to myself that there was the part I would give the world to play. And it was not long after that that Mr. Moffat asked me how I'd like to go to America, to Chicago, to play Bunty. He engaged me on the spot."

Miss McIntyre made her debut to an American audience in the Comedy theatre, New York City, where "Bunty Pulls the Strings" rounded out a run of nearly two years. She played Bunty with the New York company for two months or more during the temporary absence of Molly Pearson, then went to Chicago when "Bunty Pulls the Strings" opened at the Princess theatre. She has captivated the hearts of all who have seen her.

MARRIAGE

THE DANCE

audience, consider...

which was not conducive...

strolls. The performance gave plea-

sure to those present.

The bill tonight is the popular play

that caused such a furore in New York

and later in other cities, "Is Marriage

A Failure." It is a rich comedy com-

bined with melodramatic flavor and

will give pleasure to those who at-

tend. The prize tickets given each

evening give an added attraction to

the performances. They will be given

out on Saturday evening.

Tomorrow night, "Theima" will be

presented and Saturday, "Mary Jane."

JACK JOHNSON FACES

SMUGGLING CHARGE.

Chicago, Jan. 9.—Jack Johnson,

negro prize fighter, appeared before

Federal Judge Carpenter today for

trial on a charge of smuggling a dia-

mond necklace valued at \$6,000 into

this country from England two years

ago.

The ornament was presented to his

former white wife who committed

suicide in Chicago some months ago.

The necklace was confiscated by the

government.

Judge Carpenter continued the trial

indefinitely.

ELECTION PROCLAMATION.

An election of the qualified voters

of the County of Santa Fe, State of

New Mexico, is hereby called to be

held at the several precincts of said

county as established by the said

board on the 13th day of January,

1913, for the purpose of voting for a

Justice of the Peace and Constable

Said election to be held in conformity

with the laws of the State of New

Mexico, the polls in the various pre-

incts shall be open from 9 o'clock a.

m. to 6 p. m.

The following persons are hereby

appointed judges of election, and the

following places for holding the elec-

tion are hereby designated:

Pet. No. 1. Encarnacion Salazar y

Trujillo, Antonio Romero y Valdez,

Emiliano Roibal.

Pet. No. 2. Juan de Dios Dier-

guez, Santiago Martin, Timoteo Griego.

Pet. No. 3. Seferino Alarid, Manuel

Baca y Campos, Luis Lujan.

Pet. No. 4. Manuel Ortiz y Mar-

tin, Jose Dominguez, Manuel Ortiz

y Rodriguez.

Pet. No. 5. Fabian Lopez, Cande-

lario Romero, Nestor Gallegos.

Pet. No. 6. Tomas Narvaez, Erineo

Mares, J. A. Carrillo.

Pet. No. 7. Cesario Martinez, Ra-

fael Granito, Manuel Lucero.

Pet. No. 8. Juan N. Sandoval, Ro-

aulo Chavez, Juan J. Silva.

Pet. No. 9. Teodoro Garcia, Reyes

Royal, Fernan Gonzales.

Pet. No. 10. Atilano Sanchez, Ralph

Kinsell, E. A. Olmstead.

Pet. No. 11. Juan Martinez, Pedro

Martinez, J. D. Hart.

Pet. No. 12. Margarito Chavez,

Eulogio Sandoval, Eusebio Gonzales.

Pet. No. 13. R. N. Clokey, Ceferino

Lucero, Gumecindo Garcia.

WHY NOT BUY

Useful & Lasting Presents?

This is the season when people are buying things, either to make others happy or to add to their own comfort. Just a word: Why not get presents of lasting value for the home? We have all kinds of furniture to appeal to your taste—OAK, MAHOGANY, WALNUT, and WICKER. Also some VERY FINE, LARGE RUGS. All at much reduced prices. Look also at our NEW CHINA SETS and CUPS and SAUCERS, etc. They are superb and will make any table look glorious. Call on us during your shopping journey.

THE AKERS-WAGNER FURNITURE CO.

PERSONALS

(Owing to the great interest manifested in the Personal Column, the New Mexican requests its readers to send in by mail (a postcard will do) or by telephone (call "31 J") items for this column. By doing so the readers will confer a favor on the New Mexican and on their friends. Communications sent by mail should bear the signature of the writer.)

J. M. Hartley, the Espanola merchant, is in the city.

Eugenio Romero, treasurer of San Miguel county, is here on business.

Mr. and Mrs. John Arrington are tourists here from Colistown, Kansas.

Col. W. S. Hopewell, the well known railroad man and capitalist, arrived from Albuquerque yesterday.

Among the arrivals of members of the legislature yesterday, was Representative George Tucker, of Sierra county.

Representative J. P. Lucero, of Rio Arriba, arrived in the city today to remain until the opening of the legislative session.

Frank Staplin, chief clerk of the house of representatives of the state legislature, left for Albuquerque this morning on business.

The Rev. W. N. Shields, one of the county commissioners of Colfax county and well known throughout the state, is here from Dawson.

Traveling Passenger and Freight Agent Cameron, of the Santa Fe, was in the city today, making a pleasant call at the New Mexican office.

Guy H. Herbert, assessor of Chaves county, is in the city today and is upon attendance at the meeting of county assessors being held at the capitol.

Representative James W. Mullens, of Portales, "Sunny Jim," as his friends know him, came to the city today to remain until the opening of the session.

Miss Schimmelfennie, of Little Rock, Ark., arrived in the city yesterday to visit with her aunt, Mrs. Schimmelfennie and her cousin, Miss Pauline.

William B. Prince, son of former Governor and Mrs. L. Bradford Prince has recuperated from the effects of an appendicitis operation. He was one of those initiated in the B. P. O. E. last night.

C. P. Young, sheriff of Chaves county, arrived in the city last night, bringing with him two prisoners, whom he registered today with Proprietor McManus at the state boarding house.

Sheriff Clason drove to Pojoaque in his auto, the coldest day of the season, on official business, bringing to the city Usaro Vigil, alleged to be insane. The sheriff says it was sure a chilly ride.

T. B. Beaman, chairman of the board of county commissioners for Eddy county, arrived in Santa Fe last night and is today attending the meeting of the chairman of boards of county commissioners being held here.

Dr. Edgar L. Hewett, who has been in Washington in the interests of the western district, School of American Archaeology is expected to return to Santa Fe tonight. Dr. Hewett's trip was a successful one, as the concessions asked for were granted.

W. M. Atkinson, of Roswell, chairman of the board of county commissioners and mayor of Roswell, arrived in the city last evening to attend the meeting held here of the chairman of county commissioners of the various counties, and also the meeting of assessors.

Dr. George L. Cole, a noted lecturer

for Safe Quality.

er on archaeology is in Santa Fe. He is returning from a trip to the Pacific coast to his home in Chicago. Dr. Cole stopped in Santa Fe to confer with the directors of the archaeological school here on matters concerning that institution.

Jesse L. Nussbaum, photographer with the School of American Archaeology, has started for Yucatan to join Sylvanus G. Morley in taking moving pictures of the Mayans enacting a drama written by Mr. Morley. Mr. Nussbaum carried with him the latest moving picture machine received from Paris.

M. Abousselman, whose left arm was nearly shot off in a terrific engagement with sheep thieves some weeks ago, arrived in the city yesterday to submit to an X-ray examination. He was accompanied by his wife, Mrs. Abousselman, and his physician, Dr. Brock. Mr. Abousselman is a guest of Nathan Salmon, formerly his business partner.

Judge Lorin C. Collins, referee in the New Mexico Central railroad litigation, accompanied by Hon. John Wendt, C. C. Murray, receiver, Colonel W. S. Hopewell and others, with Mrs. F. R. Stevenson as stenographer, left for Albuquerque today to take further testimony in the hearing now pending. They will be gone for a few days, and will then return to Santa Fe for the final taking of testimony.

W. H. Jack of Silver City, member of the executive committee of the National Live Stock association was in Santa Fe today, on his way to Phoenix, Arizona, to attend the annual meeting of the association. Mr. Jack is going to make an effort to have the next meeting held at Albuquerque and hopes to be able to bring it about. He is a New Mexico booster, and realizes that an annual meeting held in this state would be of great value.

MORE LIGHT ON "SHIP" TRUST

Washington, Jan. 9.—Agreements between the Lamport and Holt, the Prince and Hamburg-South American steamship lines to maintain rates and regulate sailing dates were produced today before the House Merchant Marine committee investigating the "shipping trust," by Lorenzo Daniels, New York agent of Lamport & Holt. He denied they were in agreement to control trade, but said the lines had "working agreements."

All the three lines are defendants in the government's pending suit against the "shipping trust." The agreement produced was dated to expire December 31, 1913. He declared there were no such agreements in force now and that special rebates had been abandoned in 1905 on advice of attorneys that they were illegal. Other witnesses have told the committee that a combination of foreign lines keeps American ships out of the South American trade and diverts commerce to Europe.

"Who told you the agreements were abrogated?" asked Representative Hardy.

"Our London officials."

"Your practice is the same today as it was before the agreement was abrogated?"

"We are told to cooperate. Yes, it is the same, only there is no penalty for violating the agreement."

Mr. Daniels said that deferred rebates were not granted on shipments from the United States, but that "published discounts" were allowed on shipments from Brazil to the United States.

"This discount is not what I understand by a rebate because it is published and is open to all who comply with the terms," said Mr. Daniels.

"Our present tariff is made up under instruction from London to conform to the English, German and other continental tariffs for similar classes of goods; in other words, we charge the same rates to American shippers as are paid to shippers from Europe."

"JACK FROST" LOSING HIS GRIP

The icy grip of Jack Frost has weakened and today Santa Feans are basking in sunlight and fairly mild weather. The mercury showed a tendency to climb yesterday, going from minus zero to 27 above. At 8 o'clock this morning it was 12 degrees above zero. The average relative humidity yesterday was 79 per cent.

While Santa Fe is warming up, the surrounding country shows no let up in the Alaskan blasts. A phone message from Espanola states that last night the mercury was 23 below zero and this morning it was 19 below.

HOURLY TEMPERATURE.

WANT CANTEN RESTORED TO THE ARMY

Washington, Jan. 9.—In favor of the restoration of the army canteen, Secretary Stimson, Surgeon General Torney, Brigadier General Witherspoon and Representative Bartholdt, of Missouri, appeared today before the house military affairs committee, to urge Mr. Bartholdt's bill for that purpose. Secretary Stimson said that with-

out the canteen, conditions were worse than when the sale of beer and light wines was allowed at army posts.

Secretary Stimson testified that the government was anxious to clean out the red light district in Colon before the Panama canal opened for traffic. He said that on his recent visit to Panama he attempted to open negotiations for the government to buy ten acres comprising the district, but was unable to do so, despite his offer of a high price. Such acquisition would have to be made by treaty with Panama.

WORKMEN SOON BECOME PEONS

St. Louis, Mo., Jan. 9.—Thomas Holland, deputy state labor commissioner, has requested Secretary of State Knox to investigate labor conditions in railway construction camps in the Canadian Rockies.

The action of Commissioner Holland was prompted by a letter written from the camps by Randolph Bowman to his mother in Crystal City, Mo.

Mr. Bowman, in his letter, said life in the camps in a virtual peonage from which the only "escape" is an almost unendurable tramp through 150 miles of mountain wilderness to the nearest railway station.

Seventy-five men from St. Louis went to the construction camps last October and Mr. Holland says he learns that sixty of these men have broken down as a result of their hardships.

SHOOT TO KILL IS THE ORDER

Chicago, Jan. 9.—Chicago's flying squad of twelve detectives armed with rifles and traveling in taxicabs toured the city today in a determined effort to quell the reign of terror caused by several bands of automobile robbers who have committed more than a hundred daring holdups in a month.

The detectives were divided into three special squads and covered every section of the city. They have instructions to shoot to kill in the event of coming in contact with the holdup men.

FIRST SNOW IN 2 YEARS.

San Francisco, Jan. 9.—All the fields sloping down to San Francisco Bay were white with snow this morning for the first time in 2 years. On Mount Tamalpais there was five inches of snow and the temperature was 28. In the city there were brisk flurries, melting as they fell. The temperature was 38 degrees.

BUSINESS OFFICE 31 W EDITORIAL ROOMS 31 J

MR. WILSON RIGHT.

In the minds of a large number of people, holding views that are in line with the controlling action of the last few years, any expression from a public man that has a suggestion of "equality" about it, means socialism, anarchistic suggestion or revolution. President-elect Wilson in his Virginia speech last week said:

"The one thing that the business men of the United States are now discovering, some of them for themselves and some by suggestion, is that they are not going to be allowed to make any money except for a quid pro quo; that they must render a service or get nothing, and that in the regulation of business the government—that is to say, the moral judgments of the majority—must determine whether what they are doing is a service or if not a service, and that everything in business and politics is going to be reduced to this standard: 'Are you giving anything to society when you want to take something from society?'"

That sentiment expressed by Mr. Wilson is in exact line with the sentiment of a great mass of the people of today. It has been awakened by conditions gradually brought about through greed and selfishness. There is not a revolutionary expression in it, nothing dangerous, nothing tending to overthrow our national institutions.

It is just common sense. It is, as well, an old bit of philosophy, long established and always true that all dealings among men must be mutually beneficial to be economically sound.

Mr. Wilson but stated a long established principle, in his own words. No one need be frightened about it. There is no dynamite in it, nor is it connected with an infernal machine.

It is only the enunciation of a principle that is true and that we should recognize as just.

THE CRY OF A CHILD.

It has been said that the lonely cry of a child in the dark is a far more terrible arraignment of things as they are than the most eloquent speech, hot from the heart of an angry man.

A committee was probing the labor situation in a certain place and was astounded to find a child of three at work. One of the party asked the babe how long it had been thus employed.

"Ever since I was," came the simple response. And yet in those little words, falling so naturally from the lips of a tot, is a more scathing expose of conditions than any novelist, dramatist or orator could frame, no matter how carefully he picked and chose his English.

"Ever since I was"—what a searchlight that throws upon industrial conditions; what poverty it lays bare; what terrible wolfish greed it exposes!

And mark this: The incident did not take place in crowded Italy, nor the new commercial Germany, nor in callous England, nor in any of those countries against whose "pauper output" the labor of American men has to be "protected." No, this took place right in New York state!

Is America really the land of the free and the home of the brave? Are we a free people when our babies are exploited? Are we a brave people when we allow such conditions to exist? Isn't it time to end the rule of the dollar and begin the rule of justice and human rights?

THE RIGHT WAY OUT.

The meeting of the chamber of commerce Tuesday evening should bring about results that will benefit the city.

The action taken was wise and was the only proceeding that would be likely to bring any tangible results. The selection of Mr. Renahan, chamber of commerce president, was judicious. It is expected that he will name the other two members tonight.

That Santa Fe is entitled to some consideration there should be no attempt to deny. The arguments touching her right to recognition are all in her favor. Working in harmony, benefits would accrue to the city and the railroad alike; working with an antagonistic feeling on the part of either toward the other, nothing of mutual value could possibly be gained, and one or the other would lose. Santa Fe does not intend to be the loser.

While preparing for an amicable settlement of the difference at present existing, the city is disposed to stand upon her rights and get, at least, her partial dues.

ALL TOGETHER.

While the members of the legislature can do much toward putting New Mexico to the front by giving us such legislation as will be helpful and will open the way to advancement and growth and prosperity, we, the people, must also do our part.

Upon the members of the legislature, though, rests the responsibility just now. They will have to blaze the way. They will have to give us such legislation as will make a foundation upon which to build. They will have to give us a working, judicious, carefully drawn, equitable tax law and establish a bureau of immigration. They are really the ones who will have to extend the invitation to people to come to New Mexico and they will have to be the ones to put the citizenship of the state in a position to make every newcomer feel at home and be glad to stay.

All hope that the legislature will assume this responsibility.

The necessity of a new compilation of the New Mexico statutes is recognized by judges, attorneys and citizens alike. It is so long since the laws have been compiled that they are in a jumble at the present time from which it is difficult to extricate any particular point needed. Attorneys have again and again expressed the opinion that a correct compilation is necessary and with some of the leading attorneys in the state, members of the legislature, the matter should be considered and passed without difficulty.

More business, less politics; the state instead of selfish interests; the whole people and not a favored few; a distribution of burdens rather than a segregation; careful consideration instead of cursory attention—these will be expected of the legislature assembling on Tuesday next. The people are looking for, and will be greatly disappointed if they do not get, different work than that of last winter, which, it is generally admitted, was not of that nature to awaken a great deal of pride.

The man who has that Rockefeller subpoena to serve certainly has no easy mission. It is as difficult as carrying a message through the lines in war time. William is a slippery customer, to be sure.

A down east doctor says there is no such thing as a perfect woman. The statement will not meet with general acceptance. There are legions of men who know better because they married her.

George H. Hodges, new governor of Kansas, began his career as helper in a lumber yard. Wonder if he learned to estimate good political official timber. If so, it may stand him in good stead.

The Los Angeles Times says the new tariff bill bids fair to be a "mere collection of swags." Then it will be just like every other tariff bill.

State control of marriage along eugenic lines is being proposed in Utah. That state has operated under an unique system of marriage before.

Why do the cabinet aspirants consult a clairvoyant and find out just where they do stand?

THE VALLEY RANCH

AS THE BYSTANDER SEES IT

LUCKY CHANCE.

We speak of luck often when someone makes a strike and wins success financially, but it is not always just. Frank Chance, the ball player and manager, has just signed a contract for \$25,000 a year to manage the New York ball club, and Roger Bresnahan gets a big slice of the coin for signing as catcher, with the Chicago club. It wasn't luck in either case. It was hard work and experience and skill. These are the qualities that win in every department of life, and the men who exhibited them are entitled to the credit.

But it pays to be a good professional ball player, and it seems a little strange when you stop to think of it that a baseball expert receives half as much salary as the president of the United States—yes in the case of Chance, in addition to his salary, he gets five percent of the net profits which will be a neat sum in addition.

That is some incentive to be a famous ball player, isn't it? But, in any department of life we look at a successful man and would wish we could reach his plane. Few achieve big success, and the man who reaches it in any legitimate sphere is entitled to credit. Frank Chance is, though in the abstract, it does seem a little funny that a man playing ball, or even acting as manager of a club, should receive more than half as much salary as the president of the nation.

It may be, though, that the difficulties surrounding the one are as great as those surrounding the other, and baseball has grown to be a big enterprise, making vast profits, in which great sums are invested. So after all, maybe the manager of the New York baseball club is entitled to as much salary as the manager of any other successful corporation, but it seems kind of queer just to think of the manager of a ball club receiving \$25,000 a year and five per cent of the profits.

NOT SO BAD.

We all thought it was awful. Well, it was pretty bad—the worst in thirty years. But in comparison it was just a zephyr with a cool breeze. Just look what Philadelphia got. The Record of that usually quiet city says:

"Widespread damage and many odd accidents were caused Saturday by the most peculiar weather Philadelphia ever experienced. Almost every hour in the day the weather changed. In the early morning it rained hard. Suddenly the sun came out and the thermometer went up to 62 degrees, the highest ever recorded on the same date in this city. Several hours later the barometer went down to 28.65 inches, the lowest ever recorded here on any date. In the afternoon it began to get cold, and snow fell. Before midnight the temperature went down to 30 and another snowstorm began.

"Through all the day a cyclone wind swept across the city, tearing down almost everything before it. In the city it reached a velocity of 52 miles an hour."

That was going some. We thought the wind blew. It really didn't. There was only a healthy breeze, that's all. It blew in the City of Brotherly Love though. Here are a few freakish tricks it played, according to the Record:

The roof of a building at No. 411 South Fifth street was blown off, falling on 11 persons and injuring them seriously.

A chauffeur was blown from his seat on a big auto truck passing over Walnut street bridge, and the machine ran wild, pitching through the rail and hanging for hours suspended above the Schuylkill river.

Two vessels were blown from their moorings at Pier 46, South Wharves, with no one aboard, and could not be found.

Several roofs were torn off all over the city and many persons narrowly escaped being struck.

Hundreds of trees, fences and swinging signs were blown down and dozens of persons slightly hurt.

Traffic was tied up by debris of roofs, trees and fences which piled up in several streets.

Falling wires killed two horses in Frankford and endangered many lives in other parts of the city.

The wind snatched a handbag from a woman's grasp at Broad and Walnut streets and it was blown away.

A taxicab was started going at Broad and Walnut streets by the force of the gale. It was stopped at Chestnut by a policeman.

Seven boat houses in Tacony were lifted from their foundations by the wind and blown into the river.

Plate glass windows by the hundreds were shattered, injuring several persons.

Pshaw! We just had a nice, quiet

little time in Santa Fe. It did not amount to anything at all.

A TURBULENT YEAR.

I see from the published reports that the astronomers and astrologers have put their figures, calculations, observations and notions together and have decided that 1913 is going to be a very turbulent year.

Just in what way this year is going to turn they do not say, but things are evidently going to happen. What is the matter with Santa Fe getting into the game and doing its share toward making a noise and disturbance, too, and getting on the center of the map? Let us tout our horn, scatter our advertisements, fix our roads leading to the points of attraction, go out and get people to come in, show them what we've got here, invite them to stay, keep the gate wide open all the time, keep Santa Fe clean and attractive and up-to-date, and generally make it the banner year for this little city.

Do not let us leave all the turbulence to the sky or the stars or the planets, or to other people elsewhere. Let us stir things up ourselves.

The prophecy about this being a turbulent year is not new. We've heard that at the beginning of many different years when they dawned and nothing of such a very disturbing nature happened. It is the general disposition of forecasters to predict dire things rather than pleasant ones.—just why, I do not know, only that they get more advertisement from it. If they said the year is to be nice and quiet and pleasant and uneventful everyone would look at the announcement casually and say nothing, but to prophesy evil and trouble and turbulence, that attracts attention. Well, we will all go ahead and do our best and if the turbulence hits us we'll have to stand it.

FAMOUS CANOE MAN DEAD.

Seattle, Wash., Jan. 9.—The navy yard has received a dispatch from Tatoosh Island, Cape Flattery, saying that the mail is not being called for by the mail carrier, Charles White, because he had been drowned. No details of the drowning are given. White, an aged Makah Indian, for many years carried the mail between Noah Bay and Tatoosh in canoe, making the journey alone. He was a famous canoe man, having been the subject of a number of magazine and newspaper articles.

INJUNCTION GRANTED.

New York, N. Y., Jan. 9.—The government's petition for a permanent injunction against the Eastern States Retail Lumber Dealers' association, alleged to be a combination in restraint of trade, was granted today by the federal district court. Final arguments for and against the injunction were heard a few weeks ago.

FREAK DANCES ALL CANNED

THE PARK BOARD IN CHICAGO HAS BARRED THE FRISKY DANCES—HEREAFTER THE MUSIC WILL HAVE TO BE PROPER—RAGTIME OUT OF FAVOR.

Chicago, Jan. 9.—That the "bunny hug," "turkey trot" and similar dances have a deteriorating effect on the participants has been decided by the south park commission, who have prohibited them from south park field houses. J. F. Foster, general superintendent of the south park clubs, has issued the following regulations:

"It is the purpose of the south park commission to provide in the field houses opportunities for wholesome recreation only. Social recreation frequently takes the form of dancing. Association in this activity must be wholesome. All clubs and societies using the south park halls are expected to assist in establishing better standards of dancing and in all that surrounds each dancing event.

"Officers and musicians will please eliminate rattle music associated with suggestive titles or words or with dances known as the 'bear' or 'turkey trot.'"

"The accompanying music has great influence on the dancing. Therefore music played must be of standard quality and rendered in such manner as will be applicable to standard and approved dances.

"When a program is furnished to orchestra leaders the music played for each dance shall conform to the proper movement for that dance.

"The position known as waltz position shall be observed in dancing waltz, two step, and other dances requiring close position.

"Only recognized dances such as the waltz, the two step, the quadrille, the minuet, and other dances of staidness and refinement are permitted. Uniformity of dancing is required."

The following dances and styles are positively prohibited:

"Dip" dancing.
The "hesitation" dance.
The "chicken scratch."
The galloping two step.
Two step to three step music.
Three step to two step music.
Walking steps unless a part of a recognized dance.

Rapid whirling or any other "freak" dancing.
Vulgar or improper positions.
Close dancing.
J. H. Rainwater, director of Ogden park, is authority for the statement that the above rules will be strictly enforced.

"We will hold the people who reserve the halls personally responsible for their enforcement," said he. "They must have accredited chaperons on the floor and must in every way see that all objectionable features are eliminated."

Washington, D. C., Jan. 9.—Mrs. Grover Cleveland and her affianced husband, Prof. T. J. Preston, of Princeton, are to be the guests of President and Mrs. Taft at the White House this week and will be guests of honor at a dinner while here. This will be the first visit of Mrs. Cleveland to the White House since she left there nearly sixteen years ago as the wife of the former President Cleveland. She will find the interior of the building greatly changed since her days.

Mrs. Cleveland and her daughter, Miss Esther Cleveland, arrived last night to be the guests of Mr. and Mrs. John Hays Hammond, who will give a tea in Mrs. Cleveland's honor tonight and a ball Friday night for Miss Cleveland.

The latter also will visit at the home of Senator and Mrs. Hoke Smith during her stay at the capital. Mrs. Henry F. Dimock, a sister of the late Secretary Whitney, will give a dinner in Mrs. Cleveland's honor during her stay, as will Mrs. Richard Townsend.

TEXAS LEADS ALL

IN COTTON GINNING.
Washington, D. C., Jan. 9.—Cotton ginned prior to January 1 amounted to 12,919,257 bales, including 77,799 round bales and 67,329 bales of Sea Island, according to the department of agriculture figures today. Ginnings by states follows:

Alabama, 1,167,080; Louisiana, 367,195; Mississippi, 937,356; North Carolina, 857,430; Oklahoma, 946,453; South Carolina, 1,173,549; Tennessee, 248,596; Texas, 4,461,932; other states, 82,013.

THE FIRST NATIONAL BANK OF SANTA FE
SANTA FE, NEW MEXICO.
The Oldest Bank in the State. Organized in 1870.

Time is the test of a bank's endurance and strength. Growth determines its adaptability to changing conditions. This bank has successfully withstood all the country's financial and commercial disasters for over forty years. Its management has regarded safety as of the first importance in banking, a tradition that still rules its policy, but the bank is not living on its history but depends for its prosperity upon adaptability to present-day needs.

Commercial bills discounted. Credit and Deposit Accounts opened. Letters of Credit and Drafts issued on all countries. Coupons collected and cashed. Stock Exchange Sales and Purchases effected. Telegraphic transfers of money made.

It is important for every business house to establish banking relations with a strong, service-giving bank where credit can be had when required. Exchange your inactive funds for our time Certificates of Deposit.

Confer With our officers in regard to your banking business.

NEWS OF THE STATE

A GOOD START.
We doubt if Artesia ever started in a new year with brighter prospects than those which confront us in this, the year 1913. The signs of the times point to a very successful year in every line of business and, profiting by our experiences of the past, we will make more of our opportunities than heretofore. Boost, everybody—Artesia News.

GOT RICH QUICK.
R. Welch, living up in the mountains west of here thought it was a fortune when a certain cattlemen offered him \$37.50 a round for all of his 50 head of stock, and he received the cold cash amounting to \$1875, besides a little more for a few head of calves. Welch was a rancher on a small scale and had never thought he was worth half that much until he got the cash. He has left overland for California to spend the money and have a good time.—Roswell News.

CARD GAME. DRAWN PISTOLS.
King's place on the Negro near August Klehne's ranch was the scene of an argument with pistols last week. Juan Romero seems to have gotten the better of the argument, for when time was called Jake Hultz was considerably the worse for having taken one view of the case. The question at issue was one concerning a game of cards. At the conclusion of the argument Romero went to the justice of the peace at lower Frisco and delivered himself up to the representative of the majesty of the law for safe keeping. Sheriff Emil James was notified went over for the offender, and returned with him on the following day. Romero was given a preliminary hearing before Judge Green, who thought he was entitled to free lodging in the county jail or the privilege of raising a bond of \$5,000 for his appearance before the next grand jury. It was so decreed by the court.—Alamogordo News.

HOUSE TOTALLY DESTROYED.
Last Saturday night fire broke out in the rear of the residence property, over on Twenty-first street, belonging to Mr. and Mrs. R. W. Lackey, and before it was extinguished destroyed a large portion of the beautiful residence and did large and serious damage to the fine trees and shrubbery around it. Had it not been for the prompt and efficient action of our fire boys, headed by Fire Chief John L. Hill, the whole property would

have been swallowed up by the fire in short order. At it was the damage done consists of the loss of the three rooms in the rear of the house and much damage to the furniture. Mr. C. D. Eakin was occupying the front part and Capt. Perry Cravens the rear part of the residence, and we are informed that these good people suffered quite a loss in addition to the loss of the owners of the place.

There are no bugs on Clayton's fire boys, and our citizens ought to be proud of them and help them to the purchase of new waterproof suits, which they appear to need badly.—Clayton Citizen.

MONKEYED WITH UNCLE SAM.
James T. Fay, who was arrested last week by Deputy U. S. Marshal Collier, had his hearing before U. S. Commissioner Frank Staplin, at Farmington on Monday. Fay was bound over in \$300 on one count which charged that he removed six barrels of stamped liquor on the night of December 10, 1912. On a second count, charging that he had removed three gallons more or less of untaxed brandy on December 9, 1912. Fay was held to the federal grand jury under \$500 bonds. The federal grand jury will convene in Santa Fe on April 7, 1913. Fay was dismissed on a third count which charged that he and Ernest Westbrook had broken into the Farmington distillery on the night of November 10, 1912. Commissioner Staplin recommended in his report that the federal grand jury investigate other interested parties whom the evidence before him showed to have been concerned in the distillery troubles. The distillery is in charge of a United States internal revenue collector and unless something like \$3000 is paid, Uncle Sam will sell the plant.—Aztec Index.

HAD CLOSE CALL.
Monday morning, Dad Sandefer, as he is familiarly known to the public, was hurt while driving the coal wagon of the Conally Coal company. It seems that the team which Mr. Sandefer was driving became frightened at a weed or some small thing just as they started to cross the railroad and Dad not being in a position to hold them and not in a very good position to hold on to the seat was thrown down across the tongue of the wagon and lay there helpless while

the team made a run for the scales where they stand all the time. By the time that the team was in front of the scales the wagon was turned at an angle so that Dad made a jump for the ground and luckily jumped far enough that neither the team nor the wagon hit him. However, when he fell he sprained the ankle which he landed on very severely and it was thought for a while dangerous, but proved upon examination by Dr. Garmany, who rushed to the scene, that it was more painful than dangerous. It was a close escape from death and those who saw it say that they did not see how when the horses were running and kicking that they kept from kicking the head of their victim. It seems that it was another of those miraculous escapes that we hear of every now and then and which shows us that there is someone watching over us all of the time, regardless of everything.—Portales Herald.

CHINA WANTS THE BARS LIFTED

Pekin, China, Jan. 9.—Delegates representing the Chinese chamber of commerce at Manila have drawn up a memorial imploring the central government to open negotiations with the United States to remove the stringent rules against the immigration of Chinese laborers to the Philippines.

The memorial declares the treaty between the United States and China does not apply to the Philippines because they are not a portion of the United States proper. Irrefutable evidence of this, the Chinese declare, is the fact that the United States contemplates giving the Philippines their independence.

Seventy per cent of the business of the Philippines, the memorial continues, is in the hands of the Chinese, and for this reason Chinese labor is required. The Chinese, it contends, do not compete with native Philippine labor because the former receive better pay.

BURNED TO DEATH.
Mt. Clemens, Mich., Jan. 9.—Matilda five-year-old daughter of Paul J. Ulrich, former mayor and cashier of the Ulrich savings bank, was fatally burned while playing with matches. The child had been refused matches in the kitchen, but found some in another part of the house and struck a number to see them blaze up. Her clothing caught fire and she was fatally burned before help was attracted by her cries.

Success depends largely upon Good Health

In your race for success don't lose sight of the fact that only through good health can you attain success. The tension you must necessarily place upon your nerves, and the sacrifice of proper exercise you have to make at times must be balanced in some way.

Dr. Pierce's Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition, thus purifying the blood and giving strength to the nerves, indirectly aiding the liver to perform its very important work. Dr. Pierce's Golden Medical Discovery has been successful for a generation as a tonic and body builder. Sold by medicine dealers in liquid or tablet form—trial box of "Tablets" mailed on receipt of 50 one-cent stamps.

If in failing health write Dr. R. V. Pierce's faculty at Invalids' Hotel, Buffalo, New York.

CUT THE HIGH COST OF LIVING.
W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." No opiates. For sale by all druggists.

TIME TABLE ALL LOCAL TRAINS
The following are the time tables of the local railroads:
"A. T. & S. F. Ry."

POLICE GET TWO HOLDUPS.
Grand Rapids, Mich., Jan. 9.—The police have arrested two men, following the attempted murder and hold-up of Benjamin Harmelink, South Division avenue grocer, at an early hour while he was returning home with \$400, his day's receipts. Harmelink was riding his bicycle when a stranger blocked his way. Harmelink alighted and was commanded to throw up his hands. He laid the highwayman low. The robber pal, armed with an ax handle from which long nails protruded, approached from behind a clump of trees and struck at the grocer. Missing his blow, the robber fled. The first robber recovered his senses and fired two shots at Harmelink, one bullet passing through the collar of his coat. The police threw out the dragnet and the arrests were made during the day. The men refused to make any statement concerning themselves.

WORKING GIRLS.
Kansas City, Jan. 9.—Mayor Jost has directed H. E. Barker, city assessor, not to assess personal taxes against working girls in Kansas City. "Girls who work for salaries have troubles enough without having tax burdens heaped upon them," said the Mayor. "We need money mighty badly, but we don't need it badly enough to take it away from the girls who work, any part of their too small wages." "The city ought to do more for the working girls than it does, and so long as it does so little we'll not add insult to injury by taxing them."

NEW MEXICO CENTRAL RY

Other members of my family have used them with similar results." Take at the first sign of kidney trouble. For sale by all druggists.

A live paper makes a live town. We are making a live paper. Read it.

A Coffee Cup

Contains Over 2½ Grains of Caffeine.

Physicians recognize the drug to be of poisonous effect upon stomach, heart and nerves. Scientists employed by the U. S. Government found, in the famous Rabbit Case, that an amount of caffeine equivalent to that contained in two average cups of coffee killed a Rabbit.

What wonder then, if you are a coffee-drinker, that you suffer from indigestion, heart disturbance, headache and biliousness, sleeplessness, or nerve irritation?

☞ Multiply 2½ grains of caffeine by the number of cups of coffee you drink each day and you will determine the amount of poison you give yourself daily.

Eminent physicians are protesting against the present use of coffee. (Your family doctor can vouch for this.)

The aches and ills of your own body also protest when the burden becomes too heavy.

Doesn't your common sense suggest that you quit coffee NOW?

The New Food-drink,

Instant Postum

offers the easy way.

This charming table beverage furnishes a hot drink of remarkable palatability. It has a rich seal brown color which changes to golden brown when cream is added. Tasting much like high-grade Java, it makes an ideal cup for those who want to get away from coffee troubles.

Instant Postum Requires no boiling.

It is made "quick as a wink" by pouring hot water upon a level spoonful of the powder in a cup and stirring until dissolved. Add sugar and cream to taste and you have a very fascinating beverage.

Grocers sell Instant Postum, 90 to 100-cup tins, 50c; 45 to 50-cup tins, 30c.

"There's a Reason"

Made by Postum Cereal Co., Ltd., Pure Food Factories, Battle Creek, Mich.

CALL FOR SPECIAL MEETING OF STOCKHOLDERS.

We, the undersigned, Directors of the New Mexican Printing Company, do hereby call a special meeting of the stockholders of said company, to be held in its office, in the City of Santa Fe, New Mexico, on the 13th day of January, 1913, at eight o'clock p. m., for the purpose of taking action on the proposition of changing the date of the annual meeting of the stockholders from the second Monday in July of each year to the second Monday in January of each year, and for the transaction of any and all business necessary in connection therewith.

It will not pay you to waste your time writing out your legal form when you can get them already printed at the New Mexican Printing Company.

It will not pay you to waste your time writing out your legal form when you can get them already printed at the New Mexican Printing Company.

OFFICIAL NEWS.

Governor William C. McDonald has appointed Edward Gardner an additional member of the New Mexico mounted police. He has also appointed J. L. G. Swinney who is superintendent of the county schools of San Juan county, member of the state board of education vice Dr. M. D. Taylor, of Farmington, resigned. Dr. Taylor found that his professional duties prevented him from attending the meetings of the board. The governor has appointed Leopoldo Contreras of Los Ranchos, Socorro county, member of the board of regents of the New Mexico School of Mines, vice Matias Contreras, resigned.

IN SUPREME COURT.

The state supreme court met again today, Chief Justice C. J. Roberts and Associate Justices Frank W. Parker and R. H. Hanna, and Supreme Court Clerk Jose D. Sena, being present. The court disposed of the following business:

Case No. 1471. The Territory of New Mexico, appellee, vs. Telesforo Gallegos and Felix Duran, appellants, on appeal from district court, Rio Arriba county. Judgment of the lower court is affirmed.

Case No. 1498. Territory of New Mexico, appellee, vs. Liborio Lucero, appellant, appeal from district court, Guadalupe county, argued and submitted.

Case No. 1501. Pablita Candelaria and Andres Candelaria, infants, ap-

pelles, vs. E. A. Miera, appellant, on appeal from district court, Sandoval county, reset February 1.

Case No. 1505. Reset for January 17.

FORNOFF RETURNS TODAY.

Word was received at mounted police headquarters that Captain Fred Fornoff would be back this afternoon. He has been in the City of Mexico perfecting the arrangements for the extradition to this state from the republic of Mexico of Don Andres Calles, wanted runaway cook. It appears, however, that Calles and several other prisoners broke jail in Juarez just before Captain Fornoff arrived there with the papers for Calles' extradition. Therefore, another chase is likely scheduled.

FAULKNER NOT FRANKLIN.

Through an error the New Mexican stated yesterday in the official column that W. E. Franklin had been admitted to the bar. It should have read W. E. Faulkner. He is from Albuquerque.

ASSESSORS MEET.

It is reported that various assessors from different parts of the state are to meet at the Palace hotel this afternoon to take up matters of common interest. It is said the question of the fixing of salaries will be threshed out.

BRINGS 2 PRISONERS.

Sheriff Young, of Chaves county, arrived today with two prisoners for the state penitentiary. They are Jim Martin and Jack Padgett who will serve 24 to 30 months for cattle stealing.

TWO NEW COMPANIES.

Articles of incorporation were filed today by the Albuquerque Farm and Ranch Land company, with office at Albuquerque. It is capitalized at \$40,000, divided into 400 shares at \$100. The Duck Creek Trading company, of Silver City, also filed articles, naming C. C. Royall agent. It is capitalized at \$10,000, divided into 10 shares.

LOCAL ITEMS.

THE WEATHER.

Santa Fe, N. M., Jan. 9.—For New Mexico: Tonight and Friday fair, with rising temperature.

IN TELEPHONING

The New Mexican, if your business is about advertising, subscriptions or job work, please call up "31 W." If you wish to speak to the editor or give any news, please phone "31 J."

GOLDEN STATE LIMITED—When you take that trip "back east" try the New Mexico Central in connection with the Rock Island Golden State Limited. Superb equipment, club observation car. Excellent dining car service. No trouble to secure Pullman reservations.

Vocal Class—Pupils wishing to join Mrs. Winchester's vocal class will please communicate with her, Mrs. R. V. Winchester, 702 W. Coal Ave., Albuquerque, N. M.

A full line of Eastman Kodaks and Kodak supplies. Zook's Pharmacy.

An anniversary requiem mass will be celebrated at the Cathedral Saturday, January 11 at 8 o'clock for the soul of the late Mrs. Faustina R. de Oyaca. All relatives and friends of the family are invited to attend.

A Chicken Supper, Friday, January 10, at the Library hall, to be given by the Ladies' Aid of St. John's M. E. church. Supper commences at 5 o'clock. Price 50 cents.

The mid-winter examinations of teachers for the distribution of teachers' certificates will be held at the court house at 8 a. m., January 19, under the supervision of Superintendent John V. Conway. There are twelve applicants.

Elegantly Furnished Rooms for rent. The finest rooms in the city, having electric light, steam heat and bath. The European Hotel, centrally located. State Progressive Headquarters in the hotel.

The Holidays are over and everyone has settled down to work again. The Santa Fe Electric Laundry is right on the job. Send us your fine

SOUTHEAST CORNER PLAZA.

linens and embroideries and let us show you the beautiful work our expert ironers can turn out.

Salazar Renominated—The republican voters of precinct 18 have renominated Manuel B. Salazar for justice of the peace and Rogue Guerrero is nominated for constable. Ramon L. Baca presided at the meeting and J. W. Chaves acted as secretary. There was much enthusiasm following a brief and eloquent speech by the presiding officer.

Sanitary Wagons—Cesspools and vaults cleaned in a most sanitary manner. Work guaranteed. Phone the City Marshal's office.

Does your nose feel badly? Is your throat stopped up? Take Zook's Cold Tablets at once; they afford relief and a speedy cure.

Precinct primaries were held last evening in precinct No. 18 by the democrats of that precinct for the purpose of nominating candidates for justice of the peace and constable, and the following proceedings were had: Chairman, James Seligman; secretary, Meliton Castillo. For justice of the peace, David Gonzales; for constable, Romolo Dofflemyer.

After the holiday receptions, balls and dinner parties it becomes necessary to do some housecleaning. Keep in mind the fact that the Santa Fe Electric Laundry will clean your rugs and carpets, blankets, portieres, curtains and pillows. We clean them carefully, we clean them thoroughly and we clean them reasonably.

The annual election of officers for the Sunday school of the Presbyterian church took place last night and the annual report was presented. The report showed an average attendance of 152 for the year. The collections were \$247, of which \$112 was given on Christmas day to Children's Home Society of Albuquerque. The balance was used for local benevolence and expenses, except \$34, which is now in the treasury. The officers chosen were: Fred McBride, superintendent; Roy Creighton, assistant superintendent; Owen Wood, secretary-treasurer; Evelyn McBride, organist.

Now is the time of the year when coughs are roaming around. Don't let one attack you. Zook's Syrup of White Pine is quick, safe and reliable.

David Gonzales, progressive candidate for justice of the peace in Precinct No. 18, has been endorsed by the democrats and his election seems assured. Mr. Gonzales is well known as a man with progressive ideas and owns property in Precinct 18 for which he pays his share of taxes. Friends of Mr. Gonzales say the voters in that precinct could not do better than cast their votes for Mr. Gonzales on election day. Mr. Gonzales is so well known and esteemed that the democrats decided not to put any candidate in the field but endorsed Mr. Gonzales for the position, considering that he will do justice to all if he is elected justice of the peace.

Equal to the best the word over. Every commercial subject taught. New terms from today Jan. 6, 1913. 1 mo., \$15; 4 mo., \$45; 6 mo., scholarship, meaning competency, \$60. Daily lessons 9:30 to 4 p. m.; night school, Mondays, Wednesdays and Fridays, 7:30 to 9 a. m., \$2 a week. Santa Fe Business College.

Morley Has Trouble—Reports received from Yucatan indicate that Sylvanus G. Morley, Harvard student and playwright who is staging a Mayan drama for the "movies," is having a peck of trouble about one feature of the performance. The Mayans have lent themselves readily to enacting a love-drama which takes them back centuries to the glories of their race. But the playwright has arranged for a plunge into the ancient cistern of Senote, and he is not sure he can get anyone to "act" the feat properly. This may be readily understood from a statement of Mr. Morley that the diver must go down seventy feet before hitting the water. Friends of Mr. Morley have written him to ask Annette Kellerman to give the Mayans a demonstration of how the dive should be taken.

The Fifteen Club will meet with Mrs. Asplund tomorrow afternoon. **Fire at Vickroy Home**—An alarm of fire was sounded this afternoon about 1 o'clock from the Vickroy home on New York avenue, and but for the fact that the fire was discovered before gaining headway serious damage might have resulted. The blaze was soon extinguished and the damage will be comparatively light.

Solitaire—Not diamonds, but canned goods, at the Little Store. See Winter Grocery Co. new ad.

Died—Monday morning the 8 days old baby, and son of Manuel Baca, one of the barbers of the O. K. barber shop. The funeral took place Tuesday at 2:30 p. m. and the remains were laid at rest at Rosario cemetery. The funeral was largely attended. The parents of the child have the sympathy of their many friends.

INTERVENTION IN MEXICO

New York, N. Y., Jan. 9.—Joint action with Argentine and Brazil would be the proper course to be pursued by the United States in the event of intervention in Mexico, in the opinion of Charles H. Sherrill, formerly American minister to Argentina.

In an address here today, Mr. Sherrill said that he strongly approved the attitude of non-interference maintained at Washington and if intervention ever became unavoidable the two great republics of South America should be invited to participate.

"This policy," he said, "would remove any idea among our South American neighbors that our purpose was land grabbing, and it would relieve the Monroe doctrine of its unilateral character—its one great defect."

Mr. Sherrill recommended that all countries concerned in the benefits and responsibilities of the "Monroe doctrine" should be asked to participate whenever this government found that its obligation required armed intervention in the affairs of any republic on this hemisphere.

WITNESS TELLS ABOUT "OIL" LETTERS

Chicago, Jan. 9.—Willis W. Winkfield, the former negro employee of the Standard Oil company, who is charged with having assisted in the theft of what are known as the Archbold letters, which eventually reached the public through William Randolph Hearst, today told his version of the affair. He ridiculed a report that \$34,000 was paid for the letters and brought into the story a new name, that of Frank Morrell, who, he said, was an office boy and file clerk for the oil company.

Winkfield said that his connection with the letters was partly accidental. He caught Morrell and Charles Stump, he said, in 1903 or 1904 taking letter copy books from the files after office hours.

Morrell and Stump, Winkfield declared, were so startled that they promised to "let him in on the deal" if he would keep quiet.

His attorney said that Winkfield accepted this proposal because the Standard Oil company had refused to raise his wages although he had worked for them for seven years.

Winkfield was asked if he had been followed by emissaries of any one concerned in the publication or suppression of the letters, but he declined to answer on advice of his counsel.

"Regarding the report that three of us got \$34,000, that is a joke," Winkfield said. "I don't know how much they got, but I was to have received a third of that amount I didn't get it. I don't want to say just how much I did get, but I'll tell the committee I don't know the nature of the letters they were stealing. I know only that they were the copy books. I cannot say whether the letters published were the ones stolen by Stump and Morrell."

Winkfield will leave tonight for Washington to appear Saturday before the special senate committee investigating campaign expenses.

SUFFRAGETTES SENTENCED

London, Jan. 9.—Long sentences were passed today on two of the militant suffragettes, many of whom in recent months have engaged in a campaign of destruction of the mails. May Billinghurst and Louisa Gay, two of the first to be arrested in connection with these outrages, were brought up for trial at the old Bailey today and condemned to eight months imprisonment each.

May Billinghurst, who is a cripple, and is unable to get about except on a tricycle, has been imprisoned on several occasions in connection with the suffrage campaign.

BIG FORECLOSURE SALE.

Cheyenne, Wyo., Jan. 9.—Representatives of the bond holders of the Hanover canal project in Big Horn basin, in northern Wyoming, purchased the assets of the company today at foreclosure sale for \$125,000. The original surveys were made about twenty-five years ago by the late Governor W. A. Richards. Plaintiffs in the foreclosure proceedings represented liabilities of \$220,000.

TWO DYNAMITERS MAY LEAVE PRISON

San Francisco, Cal., Jan. 9.—Bail bonds in the sum of \$240,000 for the release of Olaf A. Tveitmo and Eugene Clancy, the convicted dynamite conspirators, sentenced to six years in the federal prison at Leavenworth, Kansas, were filed here today before the United States commissioner. The bonds will be forwarded to Leavenworth, Kansas, where they must be signed by Tveitmo and Clancy before they are submitted to Judge Anderson, who tried the case.

Tveitmo was president of the Asiatic Exclusion league and secretary of the California Building trades council, which furnished the bonds through P. H. McCarthy, president of the council and former mayor of San Francisco. Clancy was formerly an officer of the Structural Iron Workers' union.

The government charged Tveitmo with having financed the dynamiting of the Los Angeles Times building by James B. McNamara, now serving a life term in San Quentin penitentiary. Leavenworth, Kan., Jan. 9.—Warden McLaughery, of the federal prison here, said this afternoon he had received no notification of the acceptance by a federal court of bail bonds for release of Olaf A. Tveitmo and E. A. Clancy. If the usual procedure were followed, he said, the completed bonds would be sent by mail and several days must elapse before the men could be released.

RAIN SHOWERS GOLD DOLLARS IN CALIFORNIA.

Los Angeles, Calif., Jan. 9.—Rain which began near midnight and probably will continue, greatly benefited today the citrus fruit growers whose oranges and lemons suffered in the recent cold snap.

Citrus experts said that the rain, coming directly on the heels of the freeze, made conditions ideal for the effort to save that part of the crop which was only slightly nipped by the frost. A hot sun would have been fatal, it was asserted.

According to the weather bureau, the present condition may continue for 36 hours and bring a copious precipitation.

SIX TIMES THEY BALLOT.

Springfield, Ill., Jan. 9.—Six ineffectual ballots were taken by the legislature in the lower house today in the speakership deadlock. The state senate also failed to perfect permanent organization.

WOMEN HISS AS THEY DEBATE

Washington, D. C., Jan. 9.—Indications of factional feeling developed at the convention of the Women's National Democratic League today and furnished at least one "interesting scene."

When Mrs. Matthew T. Scott, president general of the D. A. R., mounted the platform to place in nomination for president of the league Mrs. Steven B. Ayres, of New York, Mrs. John Sherwin Crosby, the incumbent, invited Mrs. Scott to quit the platform and make her nomination from the floor.

The announcement was greeted with hisses from one part of the hall. Mrs. Scott nominated Mrs. Ayres from her place on the floor. Mrs. Crosby had already been nominated.

A debate developed over the credentials of Mrs. Medill Parker, of the Women's Democratic club of New York. The credentials committee was called upon to decide her right to a seat on the floor.

UNCLE SAM.

Norfolk, Va., January 9.—That Uncle Sam intends to make a country-wide investigation of charges against contractors accused of bribing commissary stewards and defrauding the government by short weights and measures in furnishing supplies for warships was made known today when Captain A. C. Marx, Judge advocate general of the navy, announced that the court of inquiry, which has been in session for three weeks, had adjourned subject to call of its president, in order to permit the gathering of more evidence.

It is also announced that the department of justice, at the request of Assistant Secretary of the Navy Winthrop, has taken a hand in the affair and will direct the prosecution of contractors.

District Attorney D. Lawrence Groener early next month will present the cases against contractors to a federal grand jury in this city.

PANTHER IS SAFE.

Washington, D. C., Jan. 9.—The naval repair ship Panther, for whose safety fears were felt, reported her arrival at Guantanamo late today.

"Don't Break Your Back" or Cramp Your Muscles

With an Old Style hand-crank or one-treadle Grind Stone, that wobbles and creaks every time the stone revolves.

Drop into our store the next time you're in town and let us show you how easy it is to sharpen an axe, scythe or heavy tool with the improved **R-W Tubular Steel Frame Grind Stone**.

"Easy" because the R-W is equipped with a quick cutting, non-chipping Berea stone that can be moved to suit convenience of operator, a wide comfortable seat that can be raised or lowered as desired, easy operating, ball-bearing journals, and light-running crank and treadles that cause the stone to turn rapidly and evenly.

Come in—we'll not urge you to buy. All we ask, is an opportunity to show you how much better the R-W is than the machine you are now using, or thinking of buying.

The Santa Fe Hardware and Supply Co.

Globe-Wernicke Sectional Bookcases

ONCE books either overcrowded limited shelf space or empty shelves yawned and waited for books. When one bookcase overflowed, a new one was purchased, and its gaping shelves were gradually filled. That was before the Globe-Wernicke period in bookcases. Now, books and their shelves come together. The bookcase grows apace with the library. This is the modern way of building a library. This is the Globe-Wernicke idea.
