ANTI-GAMBLING BILL IS MISSING FROM DESK OF HOUSE CHIEF CLERK

IMPORTANT MEASURE MAY HAVE BEEN STOLEN BY ENEMIES OF PROPOSED LEGISLATION, BUT IF THE INTENT WAS TO DEFEAT SUCH A LAW IT HAD EXACTLY OPPOSITE EFFECT.—MRS. BERGERE FOUND IT OUT

INVESTIGATION IS BEGUN AT ONCE TO FIX RESPONSIBILITY

Speaker Baca this morning named Representatives Nichols, Tully and Hilton as a special house committee to investigate the disappearance of the anti-gambling bill at the last session and the disappearance of an emergency clause from the bill to abolish the coal oil inspector's office. This committee will proceed at once with the investigation.

Has some one "swiped" the anti-gambling bill? This is the question that a special committee in the house will today seek to determine. It was empowered to make the investigation when the house adopted a resolution by Mr. Nichols last evening, instructing the speaker to name a special committee of three to determine what had become of Senate Bill No. 115.—An act prohibiting gambling by Mr. Holt. It had passed the house and reached the desk of the chief clerk in the house. Then it vanished into thin air and was seen no more.

The bill was missed when Mrs. A. M. Bergere, who is an enthusiastic prohibition and anti-gambling worker, besought members of the house to call the bill up for consideration. Mr. Lopez consented to call up the bill and notified the speaker. It was then found that the bill was not in the drawer of the chief clerk's desk with the other senate bills. Frank Staplin, the chief clerk, at once reported the fact to Mr. Holt in the senate as did Mrs. Bergere.

Mr. Holt promptly introduced Senate Bill No. 206, being a duplicate of the missing bill. The senate immediately passed the measure again and it was sent to the house. Last night the bill passed the house by a vote of 33 to 7. The seven members opposing the bill asserted that they did so because they had not been given a chance to examine its provisions. But indignation in the house was at a high pitch because the members generally believed the other bill had been stolen hence if the object was to defeat the bill it had exactly the opposite effect and members of the house voted for the measure who might otherwise have opposed it.

The new anti-gambling bill is short but effective. It provides:

Section 1. That any person who shall play for money or other thing of value any game of chance, by whatever name known or howsoever played, upon conviction thereof shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not more than three months, or both.

Sec. 2. That any person who conducts or operates any such game, or who knowingly permits any such game to be played upon premises of which he is the owner, lessee or occupant, upon conviction thereof shall be punished by a fine of not more than five hundred dollars, or by imprisonment for not more than six months, or both.

Sec. 3. That any officer charged with the enforcement of this act who shall knowingly and willfully fail to prosecute violations hereof, upon conviction thereof shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not more than three months, or both.

The passage of the anti-gambling bill in both senate and house was marked by expressions of indignation from members of both houses, over the disappearance of the other bill and a demand was made by all who spoke for a thorough investigation into the subject.

When the Nichols resolution was introduced, Mr. Catron amended it with the consent of Mr. Nichols, to include an investigation into the missing weights and measures bill of last session and the missing emergency clause which Mr. Blanchard spoke about yesterday. The resolution provides that a full report shall be made to the house prior to adjournment of the legislature.

tains is not where I left it. I hope that the investigation will be full and complete."

Mrs. A. M. Bergere who has been one of the chief lobbyists for the bill and who remained present in the house last night until the bill finally had been passed said:

"I discovered that the bill was gone when I asked Mr. Lopez to call it up and to help pass it. He asked to see the bill and was told that it could not be found. I at once informed friends of the measure in both the senate and the house. You can not fool me; some one took that bill for the purpose of defeating it, but they did not succeed. Taking that bill, only helped to pass it. I am working this session for prohibition and an anti-gambling bill that will shut out gambling completely."

The resolution to investigate is as follows:

HOUSE RESOLUTION NO. 26.

Whereas, Senate Bill No. 115, a bill relating to gambling, was duly passed by the senate and duly delivered to the house of representatives some time ago; and

Whereas, the said bill when called for by the speaker of the house of representatives was found to be missing and its whereabouts have not been ascertained; and

Whereas, at the first session of the legislature of the state of New Mexico a bill pertaining to weights and measures was duly passed by both the senate and house of representatives and failed to reach the governor of New Mexico, and was undoubtedly taken from the records of the legislature, and

Whereas, the bill abolishing the office of coal oil inspector was duly passed at the first session of the legislature of the state of New Mexico, said bill having attached to it the emergency clause but which bill, when it reached the governor, failed to contain the emergency clause.

Now Therefore Be It Resolved, by the house of representatives of the state of New Mexico that a committee of three be appointed by the speaker of the house to investigate the loss of said Senate Bill No. 115 and said senate bill pertaining to weights and measures and the loss of the emergency clause from said bill to abolish the coal oil inspector's office, and to report the result to this house prior to the adjournment of this session of the legislature.

POPE PIUS BETTER.

Rome, March 11.—The condition of the Pope continued to improve. The patient still feels some weakness from his continued coughing but the physicians consider that his progress is satisfactory.

ANOTHER PUBLIC MONIES BILL GOES INTO SENATE NOW.

Measure is Said to Remove Objectional Clause Which Would Permit a Few Banks to Secure All County Funds in Their Vicinity.

As a result of a conference of the senate committee on finance and of various members of the senate there is a new public monies bill now before the senate in the shape of a substitute for Senate Bill No. 24. The new bill is said to be along similar lines as the old one, but to have had the objectionable features eliminated. The clause which Senator Crampton exposed and which would have permitted a few favored banks to have corralled all of the public funds as deposits, has been eliminated it is said and the bill otherwise altered. Under the new bill, political banking, members of the committee assert, will not be necessary in order to compete for deposits of state and county funds.

The senate yesterday adopted House Joint Resolution No. 6, which provides that a state seal shall be selected by a commission. The senate also passed H. B. No. 101, which authorizes the land commissioner to employ extra help in looking after suits against the state lands, etc.

The senate passed, under suspension of the rules, Senate Bill No. 15 which provides for the abolishment of the state insurance department.

GOVERNOR WAS DR. MYTHEN A SCIENTISTS ARE OJEDA'S ARMY BOTTLED NOT MIXED UP IN IT WITNESS FOR PARADERS READY TO SAIL UP AT AGUA PRIETA; BATTLE IS IMMINENT

HE ISSUES STATEMENT GIVING FLAT DENIAL TO ARTICLE BY MR. NORMENT, AND DISCUSSES FEDERAL APPOINTMENTS

HE FAVORS DELGADO FOR THE LAND OFFICE

Governor William C. McDonald this afternoon, issued a statement in which he made specific denial of the charge that he had participated in a conference with other prominent party Democrats and there discussed the parcelling out of public offices whereby Francisco Delgado was to be transferred as candidate for the land office receivership to the land office registration. The governor takes exception to an article which he asserts was written by James W. Norment of Santa Fe and which appeared in Albuquerque newspapers. The governor's statement is as follows:

In the Albuquerque Morning Journal and also in the Albuquerque Evening Herald of March 10th appears an article over the signature of one James W. Norment of Santa Fe which so far as I am personally concerned, is not worthy of any consideration. The only reason why I give it any attention is because of an attempted injustice to others.

In that article this statement appears: "A conference was held in which Governor McDonald, Summers Burkhart, National Committee-man A. A. Jones, State Chairman A. H. Hudson and others participated and acquiesced, and at which it was agreed to switch Mr. Delgado from the receivership to the land office." Now this statement is absolutely false. No conference has been held since the state committee met between the other gentlemen named and myself, and there has never been a conference pertaining to this subject. Since the pretended foundation for this article is untrue it is not worth while to consider it further. I think the people of New Mexico will take it for what it is worth all things considered.

I will say this, however, for myself, that some weeks ago I promised Mr. Francisco Delgado to assist him so far as I might be able to obtain an appointment in the Santa Fe land office. This I have done. I think it was the 5th of March that the lieutenant governor, secretary of state and myself joined in a telegram to Congressman Ferguson asking the appointment of Mr. Delgado as receiver of this land office. I have also asked other friends to endorse Mr. Delgado and believe that they will do so and I sincerely hope he may receive the appointment, notwithstanding both the open and concealed opposition of gentlemen who try to pose as the Democratic party of New Mexico.

SALARIES BILL IS AGAIN VETOED

SENATE BILL NO. 205, WHICH IS ALMOST A REPLICATION OF FORMER MEASURE, MEETS WITH PROMPT ACTION IN EXECUTIVE OFFICE

The governor this afternoon sent to the senate another veto message disapproving of Senate Bill No. 205 which was the second Old Guard salary bill. The message is brief. It says the bill resembles the former one except that it is a trifle higher. The governor's message in full is as follows:

March 11, 1913.

To the Honorable President, and Members of the Senate, Santa Fe, N. M.

I return herewith Senate Bill No. 205, as amended, entitled "An act relative to salaries of county officers," without my approval.

This bill is practically a duplicate of Senate Bill No. 104 which I vetoed on February 28th. The only difference, so far as I have been able to ascertain, is that this bill raises salaries in some particulars over what they were in the other bill.

In examining these bills I have found it quite important and a source of considerable information to go thoroughly into the provisions because we do not learn all there is to the salary proposition in the salaries as provided on the face of the bills. These provisions do not decrease but always are intended to increase salaries. I do not deem it necessary to give any further reasons for the veto of this bill and will simply emphasize what I said in vetoing Senate Bill No. 104. There has, however, been raised a question as to the legality and constitutionality of this act because of the manner in which it was passed. This I do not deem it necessary or proper to discuss at this time.

Respectfully yours,
WM. C. McDONALD,
Governor.

FORMER SANTA FE MINISTER AND BRILLIANT ORATOR SCORES THE POLICE FOR TREATMENT OF SUFRAGETTES

THE REV. MR. MYTHEN

The Rev. James Gratian Mythen, now called "Dr. Mythen" in the Associated Press reports, was formerly minister in charge of the Church of Holy Faith in Santa Fe. His pleasing personality, his eloquence and his energy for civic improvements, endeared him to a host of friends. From Santa Fe Mr. Mythen went east. He now is the secretary of the Equal Suffrage Association, of Baltimore, Md. His testimony given at the investigation held in Washington today will likely arouse interest not only in suffragette circles, but wherever Americans are found who believe in law and order being maintained at parades.

Washington, D. C., March 11.—Edward S. Droop, president of the Washington Board of Trade, was today's first witness in the investigation of the suffrage riots March 3. He declared that half an hour before the parade began he believed Pennsylvania avenue was clear.

Dr. James Gratian Mythen, a clergy-

Secretary Mythen.

man of Baltimore, who marched in the Maryland division, said the marchers were forced to walk in single file and that they were greeted all along the line by jeers and shouts and obscene remarks from the bystanders. He gave the numbers of several police who, he said, neglected the work of keeping the crowds back. One officer to whom he complained, he said, told him to "Go to Hell!"

Dr. Mythen said that the police generally had become a part of the crowd and did nothing to restrain those who insulted the paraders. He testified that he had been told that Mary Melvin, a blind girl, who marched in the parade, had been pulled out of line by the crowd and her guide had difficulty in rescuing her.

John A. Johnston, commissioner of the District of Columbia, who has charge of the police department, was the next witness. He placed in the record all of the correspondence between his office and the suffrage leaders, relating to the issuance of the parade permits and the protection of the parade.

DEFENDS POLICE.

Commissioner Johnston made a general defense of the conduct of Superintendent Sylvester and the police force in the disorders during the parade. He said the superintendent and police framed comprehensive orders embracing perfect arrangements for the protection of the marchers. That the execution of plans failed, he said, could not well be explained, nor could the responsibility for the disorder be accurately placed.

Commissioner Johnston further declared that the crowd was "disorderly in a good natured way" and that it looked upon the parade in a "light vein." He said that the police officers in the streets did "prodigious" policemen whose actions called for physical work and that he saw no reproach, nor did he hear remarks of an insulting nature from the crowd.

The commissioner took occasion to laud Major Sylvester as the "most efficient chief of police in the United States" in the handling of large crowds.

MORE BILLS SIGNED.

The governor today signed the following bills:
S. B. No. 118.—Establishing county high schools.
S. Sub. for H. J. R. No. 11.—For the payment of expenses of canvassing board.
S. B. No. 161.—Amend Section 1 Chapter 77 of Laws of 1912.
H. B. No. 226.—Permanent street improvements.
H. B. No. 175.—Publishing catalog of Spanish archives.
H. B. No. 238.—Expenses of district judges.

EXPLORERS, HEADED BY DR. STEFFANSEN, WILL SEEK RELICS OF M'CLURE EXPEDITION IN ARCTIC REGION

WILL CARRY WIRELESS AN ALSO "MOVIES"

San Francisco, March 11.—The steam whaling bark Karluk is moored at harbor today, ready to sail tomorrow for Esquimaux, on the voyage of Arctic exploration to be undertaken under the auspices of the Canadian government by Dr. Vilhjalmur Stefansson, discoverer of the blind Eskimos.

On board will be Captain Theodore Pederson, a naturalized American citizen in command as navigator and Dr. H. M. Anderson, at the head of a party of ten scientists. Dr. Stefansson, who is now abroad, will join the expedition, Captain Pederson said today at Esquimaux with a wireless outfit and a motion picture equipment.

Under the terms of the Canadian subvention crew and navigation officers of the Karluk must be Canadians. Captain Pederson was still hoping today that he could come to an agreement by which he will not be required to forfeit his American allegiance.

The expedition expects to be gone three years. It probably will touch at Banks land, but more particularly is headed for the unknown stretches of Prince Patrick land and Prince Albert land. There is hope that it may find relics of the lost McClure expedition of 1851-53, and abandoned bark investigator.

SENATE MEMBERS CAUCUS LONG ON THE AMENDMENTS

Republican members of the senate spent the morning in a caucus on the proposed amendments to the constitution pending in the senate committee on census amendments and then recessed the senate again this afternoon until 4:30 p. m. to continue the caucus. It is said that the Republican members have about agreed to report the amendment for the direct election of senators favorably and that they have not yet agreed upon what report to make on the state wide prohibition amendment. The amendments for initiative, referendum and recall are also before the senate committee and Mr. Mabry asked that they be reported upon today.

SENATOR WALTON IS EXCUSED FOR SESSION.

Owing to the receipt of a message telling of the death of his mother in Pennsylvania, Senator Walton of Grant county, today, requested to be excused for the remainder of the session which was granted. He has arranged a pair for the Summer county bill with Senator Aldredge. Senators Holt, Mabry and McCoy were appointed to draft suitable resolutions.

Both the senate and the house will likely be in session tonight. The house this afternoon is considering the banking bill.

SIDELIGHTS ON HARVESTER CO'S BUSINESS

Omaha, Neb., March 11.—A co-operative binding twine factory started a few years ago in Sioux City as a competitor of the International Harvester company was a failure for lack of capital. H. E. Brown, of Sioux City, la., an officer in the defunct concern, so testified today in the defense to the government's merger suit against that corporation.

Mr. Brown qualified as an expert in farming, binder machinery, binder twine and grain elevators. His testimony threw some side lights on the Harvester conditions generally and the twine business in particular.

"I guess that factory is still located in Sioux City," Brown said, speaking of his efforts, "but I never heard of it turning out any twine. There was plenty of machinery in the plant and plenty of twine to be had, but a wretched lack of cash. It is possible the International has got hold of it and shut it down. None of the stockholders appear to care."

Other witnesses in the forenoon session testified generally as to conditions in the binder and other farm implement trade.

ORDERS SALE OF RAILROAD.

Denver, March 11.—Judge Robert E. Lewis, in the U. S. district court today signed a decree ordering the sale of the Denver, Northwestern and Pacific railroad to the highest bidder because of the failure of the company to meet interest obligations due the Bankers' Trust company of New York. The court ordered that the property must bring at least \$1,000,000. It is expected that the property will be bid in by the syndicate headed by Newman Erb.

MEXICO'S SECRETARY OF WAR ORDERS HIM TO MOVE, BUT HE CAN'T OBEY WITHOUT ENCOUNTERING AN OVERWHELMING FORCE OF STATE TROOPS.—GENERAL CABRAL IS AFTER HIM

PLOT TO FORCE INTERVENTION DISCOVERED IN MEXICO CITY

THE DEATH ROLL.

Mexico City, Mex., March 11.—The death roll of the battle fought in front of the National palace on February 9, when Felix Diaz attacked the government, totaled 500, according to a report by the military authorities today. The victims included 170 women, six children, 200 combatant men, 10 military students and 10 federal soldiers, the remainder being rebels.

Douglas, Ariz., March 11.—With orders in his pocket from the secretary of war to evacuate Agua Prieta and move west toward Nogales to join other federal commands, General Ojeda today finds himself bottled up beyond the chance of obeying without an encounter with insurgent state troops. Constitutional forces much superior to the federal garrison opposite this point, surround Agua Prieta, demanding Ojeda's immediate surrender. The possibility of Ojeda's state troops taking Nogales, the destruction of the railway between Naco and Cananea, the presence of 1,200 insurgents in the field near Agua Prieta and only reinforced by the defeated federals from Naco and El Tigre makes Ojeda believe that it would be suicidal to attempt to move his troops.

Agua Prieta was strongly entrenched and fortified some days ago, but if he does not move, as ordered from Mexico City, the general admits that an attack is imminent. Two constitutional leaders, Miguel Samaniego and M. M. Diquez, with their forces located within striking distance, each has demanded Ojeda to capitulate. Elias Calles, former commissioner of Agua Prieta, ejected by Ojeda today, is on his way from Colonia Morelos to join in the expected attack on the border town.

The only federal garrisons in the northern part of the state are at Agua Prieta, Nogales and Cananea. With depleted ranks and no one point containing more than 500 men, each is hard pressed today. Ojeda today dispatched a message to Mexico City, explaining his and the other commander's predicament.

MOVING ON NOGALES.

Magdalena, Sonora, March 11.—General Juan Cabral, with 600 of his constitutionalists, is moving on Nogales today. He is expected to arrive shortly after noon at a point just south of the border town where Colonel Kostelitzky with his federal rural police.

Three hundred federals and a machine gun are stationed in hastily dug trenches a half mile below Nogales. Cabral carries a railway repair outfit, as the federals have destroyed the Sonora railway some distance below the border to prevent the movement against Nogales. Ojeda's state troops have returned from this place to Hermosilla, it being reported indirectly that a strong force of Huerta soldiers is moving against the state capital from the vicinity of Guaymas, the California gulf port.

Nogales, Ariz., March 11.—A deserter of the state troops advancing on Nogales, Sonora, arrived here today to report that the Constitutionalists are only twenty miles away and advancing rapidly considering the condition of the railway. He related that the advance contained nearly 1,000 men with horses and building material on the trains.

WILL HE BE ACCEPTED.

Washington, D. C., March 11.—Inquiry from the Mexican foreign office as to the acceptability to this government of Emilio Rabasa as Mexican ambassador to Washington to succeed Senator Calero, retired, has brought the state department face to face with the question of formal recognition of the new provisional government of Mexico. Up to this time Ambassador Wilson has been treating with the Huerta administration on a de facto basis and it now becomes necessary to decide whether formal recognition shall be extended, such as would be involved in the reception by President Wilson of the new ambassador. Senator Rabasa is a lawyer, 56 years old, who speaks English fluently and is regarded as one of the great authorities on international law in Mexico.

OJEDA HEMMED IN.

Douglas, Arizona, March 11.—Although ordered to evacuate Agua Prieta to prevent the possibility of international complication in the event of a battle, General Ojeda and his 500 federal troops today found themselves hemmed in all directions south of the

border by a horde of state troops. Ojeda feared that should he attempt to leave the town, he might precipitate a battle that would endanger residents on the American side of the border.

PARKER COMMANDS.

Washington, D. C., March 11.—Brigadier General James Parker, recently promoted from colonel, has been assigned to command the first cavalry, with headquarters at Fort Sam Houston. Dispatches to the war department indicate a serious situation at Piedras Negras, Mexico, where the forces under General Carranza appear to be in full control. General Aubert with federal cavalry is reported near Monclova.

It is reported that General Carranza is trying to operate trains by imprisoning discharged employees. Inhabitants of Piedras Negras fear the town may be destroyed. It is also reported that Carranza intends to take part of his forces to Cuernavaca.

Each Pass, Texas, March 11.—Mexican railroad employees who arrived here last night from Monclova reported that the federal leader, General Aubert, who was expected to fight Governor Carranza, has apparently retreated south. The closing of the railroad through Piedras Negras is expected to cause a shut down of the many coal mines in Coahuila. Throw the coal miners out of work and result either in their joining the constitutionalists or bands of looters.

AMERICANS BACK OF IT? Mexico City, March 11.—Charges that an American syndicate is financing the revolt of former Governor Jos. M. Maytorena in the state of Soagora, created a sensation here today. The charges were formally made in the chamber of deputies last night by Deputy Querida Moheña.

AN INTERVENTION PLOT.

Mexico City, Mex., March 11.—A plot to bring about intervention in Mexico is said to have been frustrated by the suppression three days ago of disorders at Santa Rosa in the state of Vera Cruz, when Camerino Mendoza, a former chief of rural guards, was killed.

Documents have since been recovered outlining a plan for securing intervention, first by a direct appeal to President Taft to restore Madero, failing in which, it was proposed to make attack upon American residents in Mexico. The plotters are said to have been personages connected with the Madero government.

FIGHT WITH FEDERALS.

Monterrey, Mex., March 11.—The federal troops are reported to have driven a large body of adherents of Venustiano Carranza back toward Muzquiz after a fight on Sunday at San Salvador Bonavides in the state of Coahuila.

Followers of Carranza are said to be spreading the rebel propaganda among the Kickapoo Indians, many of whom are flocking to Carranza's standard.

General Truce Aubert, with a column of federal troops, has advanced to Barotran, 60 miles north of Monclova, and it is expected he will attack Carranza's men at Muzquiz shortly.

The city council of Torreon has been removed from office owing to the support given by its members to Madero. It has been replaced by a government commission presided over by Juan Castillon. The commission has been empowered by the government to use all available means for the pacification of the city and the surrounding country.

General Manuel Blasquez has been named military governor by the state of Coahuila.

WHAT DOES CHURCHILL KNOW ABOUT NAVIES?

Ottawa, Ont., March 11.—The house of commons was divided on straight party lines today in its views on the Churchill correspondence which the premier presented last night in connection with the naval bill debate.

The government members maintain that the correspondence is complete and timely justification of their opposition to the principle of a Canadian navy, the great obstacle to which they have all along contended is the heavy cost of a plant and the difficulty of manning the ships.

Members of the opposition on the other hand, say that Winston Churchill does not know what he is talking about when he discusses Canada's ability to build and maintain dreadnaughts. They hold that his estimate of \$75,000,000 for ship yards is ridiculous, in view of the fact that the United States built a dreadnaught shipyard for \$4,000,000.

STOMACH UPSET? SOUR? "CASCARETS"

Sluggish, Bowels Cause gases
Sourness and Food
Fermentation.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

SUFFRAGETTES GO TO JAIL

London, March 11.—The London suffragettes who attempted to reach the king with petitions while he was on his way to parliament were today sent to prison for periods ranging from 21 days to a month. The young women gave their names as Lillian Wilcox, Dorothy Smith, Kathleen Paget, Gertrude Vaughn and Grace Stuart.

The Bow street magistrate before whom they were arraigned gave them an opportunity of escaping prison sentences by filing sureties for their future good behavior. The young women indignantly rejected this alternative.

They were formally charged with obstructing the police. The evidence showed that the police had received orders to prevent any one from throwing a letter or a petition to the king while he was on the way to parliament.

The accused argued that their action was perfectly legal and was based on the right of every British subject to present a petition to the king. The magistrate explained that the right to present a petition to his majesty must be exercised through a minister.

VALUED NECKLACE WORTH 6 DOLLARS

Detroit, Mich., March 11.—Investigation by Justice Jeffries of the police court for their mysterious disappearance of a necklace, that was supposed to have been stolen from an apartment in the North Woodward district, has proved the affair a myth.

According to the tale, the owner of the jewelry had entertained two women well known in Detroit. After their departure, the police were notified that the necklace which was valued at \$1,000, was gone.

Justice Jeffries refused to issue a warrant and the owner of the jewelry was investigated by friends of the women accused. She had come here from another Michigan city, where her husband, now dead, had been in business. It was decided that her word and veracity were not of the strength to demand a warrant. The necklace is said to be worth only \$6.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

STATE POLICE BILL PASSED BY SENATE

MEASURE DEFERRED FROM DAY TO
DAY ON CALENDAR PASSED BY
VOTE OF SEVENTEEN TO SEVEN
AFTER DEBATE.

OLD GUARD WERE OPPOSED TO FORCE

The bill to abolish the state mounted police, the most efficient force for law and order in the state, passed the senate yesterday afternoon late by a vote of 17 to 7.

For days, the bill has occupied first place on the senate calendar and has been deferred from time to time. Mr. Holt moved its passage yesterday afternoon as it had been made special order. The passage of this bill was marked by lively debate participated in by Senators Gallegos, Holt, Crampton, Hinkle, Barth and Mabry.

Senators Barth and Mabry favored the state police while the other speakers opposed it in no uncertain terms. Mr. Holt told of a killing at Las Cruces in which a member of the police force had shot a jailor during a scuffle. He declined to say that the pistol did not explode by intent out of deference, he said, to the verdict of a jury.

Mr. Holt said he always had opposed the police and that he believed the peace officers of the various counties could well handle the situation without outside interference. Much the same sentiments were voiced by Mr. Gallegos who told of a mounted officer in his county, who, he said, did nothing for the suppression of crime. He made other charges.

Senators Parth and Mabry defended the state police, asserting that they had done excellent work and that they would run down criminals when local officers either would or could not. They argued for the defeat of the measure and charged that its passage was aimed chiefly at the governor in order to wrest more power from him.

This, Mr. Crampton denied, asserting that he always had consistently opposed the state police and that he did not believe such a force was needed in the state.

Senator McCoy asserted that the police force was an agency for law and order and that it should be retained. He asserted that the effort to abolish it at this time was partisan and that the peculiar nature of the state, its long distance and isolated districts, made the force a necessary and effective one in the suppression of crime.

The vote on the passage of the bill stood as follows:

Ayes: Abeytia, Bowman, Burns, Clark, Crampton, Doepp, Gallegos, Hartt, Hinkle, Holt, Hield, Laughren, Miera, Navarro, Page, Romero, Sulzer.

Nays: Allredge, Barth, Evans, McCoy, Mabry, Pankey, Walton.

AMERICAN RED CROSS SOCIETY IN NEW MEXICO

The American Red Cross has formed a New Mexico State board consisting of Governor McDonald, as president, and Hon. Richard Hanna, of Santa Fe, Nathan Jaffa, of Roswell; Mr. J. R. Joyce, of Carlsbad; Mr. H. S. Rame, of Santa Fe; Mr. Owen N. Marron, of Albuquerque, and Mr. W. D. Murray, of Silver City.

This board is to serve as a standing finance committee for the American Red Cross in the state of New Mexico. Its functions is to become the custodian of contributions given for relief purposes by the people of the state, in response to appeals from the governor or from the Red Cross, in the event of the occurrence of a great disaster. Relief contributions sent to any member of the board will be forwarded by that member to the treasurer. He, in turn, will forward all contributions to the treasurer of the American Red Cross at Washington, or to the properly authorized Red Cross representative in charge of relief work at the scene of the disaster.

Governor McDonald has very cordially entered into the plan and has accepted the presidency of the board. The American Red Cross is the only organization of national scope engaged in the work of emergency relief caused by great calamities or epidemics. It has a special charter from congress and is under federal supervision. It is required annually to submit a report of its operations to congress and its financial affairs are required to be audited annually by the war department. It is governed by a central committee of eighteen members, six of whom are appointed by the president of the United States from the executive departments of state, war, navy, treasury and justice. This governmental supervision assures the safe-guarding of all relief funds entrusted to the Red Cross for expenditure.

The organization, however, receives no appropriation from congress for its support, but is dependent entirely upon private resources for all its income. During the last seven years the Red Cross has expended over Five Million Dollars in its relief work. This record far surpasses that of any other similar organization in existence.

PASSENGERS SAFE BUT VESSEL WILL SINK.

Key West, March 10.—Reports today from Ajax reef are that Captain Penwill and his crew remain on the British Lugano, from which 116 pas-

Cottolene

is far superior to lard

Pastry made with Cottolene is smoother in texture, finer-grained and better in flavor than if made from butter or lard.

And Cottolene costs no more than lard, and will go one-third farther than either butter or lard.

There is as much difference between Cottolene and its imitations, as between extra good and very poor butter. Be careful, avoid substitutes.

Cottolene is never sold in bulk—always in air-tight tin pails, which protect it from dirt, dust and odors. It is always uniform and dependable.

THE N. K. FAIRBANK COMPANY

engors were taken yesterday by the tug Rescue.

Rescuers are standing by to give whatever help is needed. Assistant British Consul Taylor received instructions today to forward the passengers, most of whom were immigrants, bound from Spain to Cuba. They will be sent to Havana probably Wednesday.

The chances of saving the Lugano are slight. The first, second and third compartments are flooded. The cargo is said to be valuable.

SAN FRANCISCO BOOSTERS ARE COMING TONIGHT

A delegation of boosters for the exposition to be held in San Francisco in 1915 will arrive in Santa Fe tonight to urge upon the legislature at its closing sessions to pass some kind of an appropriation for an exhibit at the exposition.

A bill to appropriate \$30,000 for the San Diego exposition passed the senate yesterday. The San Francisco boosters wired Governor McDonald that the following would be in the party: Rev. Father J. P. McQuaid, W. C. Kelfer, Charles A. Vogelsang, of San Francisco, and B. K. Hoak of Los Angeles. The message received by the governor was from Charles C. Moore, who said that the party desired first to confer with the governor and be advised by him as to what further steps to take looking to an exhibit from New Mexico for the exposition.

SOCIETY WOMAN GAVE HER BLOOD TO SAVE SISTER

New York, March 11.—After Miss Eva Terry, daughter of the late Henry P. Terry, who was president of the Suffolk County National bank, had sacrificed all the blood she could spare in the effort to save the life of her sister, Hetty, who is ill of tubercular trouble in Roosevelt hospital, Captain Edward G. Young, of Riverhead, Long Island, who is well known in yachting circles, offered his blood and, last night the transfusion was accomplished at the hospital.

This morning it was said that Miss Terry was much improved and that her recovery was hoped for. Before she became ill Miss Terry was a prominent society girl.

LIGHT

IN THESE DAYS OF MODERN METHODS, Electricity plays a most important part. The grandfather would be amazed at the radiance of the modern home—and why all this light? To make the home more homelike—to make the home the most pleasant spot on earth for father, mother and children. Good light that is easy on the eyes is very much to be desired.

POWER

NOTHING IS QUITE SO CONVENIENT as to touch the button and your stove is ready to cook—your iron ready to use, your toaster ready for the hurried breakfast, your vacuum cleaner ready for the fray, your washer ready to cleanse, fan ready to cool the heated rooms. Electricity will do every thing for you. We furnish it at reasonable rates, day and night. Estimates and full information cheerfully given.

Success depends largely upon Good Health

In your race for success don't lose sight of the fact that only through good health can you attain success.

The tension you must necessarily place upon your nerves, and the sacrifice of proper exercise you have to make at times must be balanced in some way.

Dr. Pierce's Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition, thus purifying the blood and giving strength to the nerves, indirectly aiding the liver to perform its very important work. Dr. Pierce's Golden Medical Discovery has been successful for a generation as a tonic and body builder. Sold by medicine dealers in liquid or tablet form—trial box of "Tablets" mailed on receipt of 50 one-cent stamps.

If in failing health write Dr. R. V. Pierce's faculty at Invalids' Hotel, Buffalo, New York.

DR. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser—newly revised up-to-date edition—of 1008 pages, answers hosts of delicate questions which every woman, single or married, ought to know. Sent FREE in cloth binding to any address on receipt of 31 one-cent stamps, to cover cost of wrapping and mailing only.

TAX BILL IS THE SPECIAL ORDER

H. B. No. 344—A general tax bill which would assess property on thirty three and a third percent basis and which is a voluminous and intricate measure, is the special order before the house for this afternoon. The house could not take up the appropriation bill as its special order this morning because that bill had not been printed.

At the morning session today, the

house passed H. R. No. 69—An act to amend Section 25 of Chapter 22 of the Laws of 1899; also H. B. No. 5—Providing for collection of the income tax. The bill by Mr. Moreno—Making it a misdemeanor to defraud owners of property out of rent, was defeated by a vote of 22 to 19.

Representatives Sanchez, Toombs and Lobato were named as a committee on conference on H. B. No. 109, by Blas Sanchez—For the teaching of Spanish in the normal schools. The bill has passed the house and was recalled from the senate yesterday afternoon.

Automatic Principles are the principles which have determined all recent improvements of the Remington Typewriter

Take, for example, that latest exclusive Remington improvement, the TABULATOR SET KEY

The Set Key of the Decima! Tabulator eliminates all hand setting of the Tabulator stops. It makes the setting of these stops for any kind of form or tabular work as quick, as easy and as simple as the operation of the Tabulator itself.

This is another important, labor saving step toward the goal of Remington effort, which is to bring every essential act in the operation of the typewriter within the compass of the keyboard. The labor saving value of the Set Key of the Model 11 Remington is attested by thousands of operators.

Send for our illustrated booklet describing the new and exclusive features of the Remington Typewriter Visible Models 10 and 11.

PROGRESSIVES ARE SATISFIED

WITH THE START OF PRESIDENT WILSON'S POLICY, HE HAS SURROUNDED HIMSELF WITH MEN WHO ARE PROGRESSIVE.

BY GILSON GARDNER.

Washington, March 11.—President Wilson's first official acts are very satisfactory to progressives of all parties, particularly the selection of his cabinet. Its membership is progressive. He has fulfilled his pledge to surround himself with none but progressives, and if there is any criticism of his cabinet, it comes from the reactionary side.

The appointment of William J. Bryan is the most important political act of the Wilson administration. That Bryan would be appointed has been somewhat discounted as a matter of news, but its importance cannot be overestimated. On Wilson's part it is a pledge to give an administration which will be in accord with the well-known Bryan doctrine; and on Bryan's part, it is a pledge that the Democrats whom he has led for sixteen years will be supporters of the Wilson administration. It means that Bryan becomes a helper and not a critic; that he assumes a burden of executive responsibility, whereas for years he has been in the position of an academic theorist. It means that with him as premier, the Wilson administration is committed against such things as "dollar diplomacy," Mexican intrigue, meddling with foreign affairs, imperialism and colonial exploitation. It means that Bryan's counsels will be heard in the cabinet on remedies for trusts, in favor of lower tariffs, and against all the policies of special privilege advocated by the reactionary wing of the Democratic party. It may be said that the Wilson administration must be loyal to all these things if Bryan is to remain in the cabinet. Bryan is not the kind of man who would stay in the cabinet and see the opposite kind of things carried on. Should Bryan lose confidence in the Wilson administration, his first act would be to send in his resignation and go back to his editorial and lecture work. Also, he would undoubtedly become the leader of a radical movement in the Democratic party, opposing a continuation of the Wilson regime. This, however, is not to be expected.

The rest of the Wilson cabinet is harmonious with the selection of Bryan as its dominating figure. William G. McAdoo, of New York, is an engineer-financier who has used his faculties for financing and actually constructing great and useful public works, rather than selling more or less useless stock flotations to an easily gullible public. He is not the Harriman-Morgan type of financier. His record is clean and the fact that he has the confidence of Wilson argues well for a wise and sound administration of the treasury department.

The choice of Franklin K. Lane, as secretary of the interior meets with the cordial endorsement of Gifford Pinchot, who voices the sentiment of the organized conservationists. This portfolio involves the custody of the nation's undeveloped wealth, the inheritance of future generations, and Lane is a man who, as Interstate Commissioner, has been consistently on

Tuberculosis Remedy Based on Medicine

To say that a specific exists for the cure of Consumption is perhaps too strong a statement, but in Eckman's Alternative we have a medicine that has been the means of saving many a life to years of usefulness, and in permanently benefiting a large number of Consumptives.

Certainly a person afflicted with a wasting disease should be well fed with wholesome, nourishing food, but frequently raw eggs in quantities cause a digestive breakdown, and then no food nourishes. As for milk, a very good food for many, but a producer of tuberculosis for some.

Any diet that keeps a Consumptive well nourished is the right one, but what is going to improve the patient? Eckman's Alternative has brought about full recovery in many cases of Consumption. Let those speak who know. Here is one—

Dr. Savannah, N. Y. "Gentlemen: On June 3, 1907, I was operated upon for Tubercular peritonitis at St. Mary's Hospital, Rochester, N. Y. After the operation my physician gave me up as hopeless. I was then urged by a priest to take Eckman's Alternative, which I did. My weight at the time was 72 lbs. I began to improve and steadily gained in health and strength. I now weigh 125 pounds, and am absolutely well. Believing I owe it to myself and others, I make this statement."

(Signed Affidavit) EDNA PINZER

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa. For more evidence. For sale by all leading druggists and by Zook's Pharmacy in Santa Fe.

THESE TWO YOUNG WOMEN

Tell How They Suffered and How Lydia E. Pinkham's Vegetable Compound Restored Their Health and Stopped all Pains.

Zanesville, Ohio.—"I would have cramping spells, distressed feeling in the lower part of my back, headaches and felt weak and very irregular. After taking five bottles of Lydia E. Pinkham's Vegetable Compound with Liver Pills for constipation, I felt well and strong and have no more female troubles. I hope every suffering woman will give your medicine a trial. I give you permission to publish what your remedies have done for me."—Mrs. ROY SIMMS, R. No. 6, Box 34, Zanesville, Ohio.

What Ten Dollars Did. Danville, Va.—"I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all now and I sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it to your remedies. I take pleasure in telling my friends and neighbors about them."—Mrs. MATTIE HALEY, 501 Colquhoun Street, Danville, Va.

the people's side and may be expected to continue so.

James Clark McReynolds, the new attorney general, made his record in the prosecution of the Tobacco Trust. His work resulted in the decision of the United States supreme court, which decision did all that was possible under the law as it exists. The take dissolution which was accomplished through the circuit court with the connivance of Wickesheim, does not reflect on McReynolds, who proved himself an efficient and honest prosecuting officer.

The post office department will be managed by Albert Sidney Burleson, of Texas, who for years fought as a Progressive Democrat for things that were opposed to the special privilege policies of the old Republican regime and later of the Underwood administration of the house. Burleson is a Progressive Democrat.

As secretary of the navy another progressive is recognized in Josephus Daniels of North Carolina. Daniels was one of those pioneer editors who fought early and hard for the nomination of Woodrow Wilson, at a time when it seemed the remotest kind of possibility that Wilson could even figure prominently in the convention. Daniels voiced the progressive sentiment from the old south. What he will do with the navy is of less consequence than what he will do in the councils of the cabinet. There are efficient navy men to whom he can leave the technical details of naval administration.

A man quite modestly known, but with an excellent record has been chosen for the department of agriculture; David Franklin Houston, of Missouri. Houston appears to be one of the new school agriculturists; men who see the vast opportunities for the application of scientific knowledge to the cultivation of the soil and to the general improvement of the condition of the rural dweller. It will also be a large part of Secretary Houston's duty to see that the pure food laws are enforced and that his department is not dominated secretly by the beef trust through the meat inspection bureau and other instrumentalities which are supposed to look after the cleanliness and wholesomeness of the public's food. The Forest Service also comes under the Department of Agriculture and Houston will be brought into immediate touch with the problems of forest conservation and administration.

For the first time in the history of the government there is direct recognition of the man who labors for a wage. A department of labor has been created and William Bauchop Wilson of Pennsylvania, chairman of the labor committee of the house of representatives, fills the position of secretary of that department. Wilson has for years been a union labor advo-

cate, and his voice will practically be the voice of the federated craft unions of which Mr. Gompers is the head. In this time, when the economic struggle is the biggest phase of politics, no office can be more important than this one.

At the head of the department of commerce is William Cox Redfield, of New York, a man who became famous in a day by reason of his speech which showed his intimate acquaintance with all the practical and infinite details of commercial business. Redfield has been one of the radical group in congress and recently worked to expose the fire insurance companies which had been improperly exploited in the District of Columbia in connection with the use of judicial influence.

The office of secretary of war will be filled by Lindley Murray Garrison, of New Jersey, a personal appointment of Mr. Wilson. Little is known in Washington of Mr. Garrison, but in an administration which will be so devoted to peace as this must be with Bryan at the head of the state department, the secretary of war will probably not be called into very active service. There is no reason to believe that Garrison is anything but what the others are—good progressive advisers to the president.

FINAL RUSH OF LEGISLATION IS NOW ON

MEASURES HAVE PILED UP UNTIL CLOSING DAYS OF SESSION AND GOVERNOR WILL BE KEPT BUSY SORTING OUT THE GOOD ONES.

The final rush of legislation is now on and from today until the close of the present session on March 14, there will be a constant stream of bills en route to the office of the governor.

This method of legislating was forecast some days ago by the New Mexican which then pointed to the fact that measures were accumulating and that the bills slated for passage would be rushed through in the closing hours whence most of the poor and ill considered legislation of the state has been turned out in the past.

The house held its first night session last night, convening at eight o'clock and working until nearly midnight. Speaker Baca told the members that they ought to stay until 4 o'clock in the morning, but they could not see it that way and finally adjourned until 10 p. m. today.

Much of the time was given to H. B. No. 160—A game law which was made the butt for every joke the house members could make up. It was considered in committee of the whole house and was amended with all kind of freak amendments, including the power of the game warden to use the state troops in enforcing the game laws. The bill was in many ways, a meretricious measure and some of the house members expressed indignation at the way it was being treated. It finally was tabled, amendments and all, but

MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Whittemore's Shoe Polishes

"GILT EDGE" the only ladies shoe dressing that positively contains Oil, Black and Polishes, lightens and restores a luster and shine without rubbing, etc. "TRENCH GLASS" the only shoe polish for cleaning and polishing all kinds of dress or tan shoes, etc. "STAR" shoe polish, "QUICK WHITE" in liquid form with strong quickly cleans and whitens dirty canvas shoes. Whittemore Bros. & Co., Mass. 20-26 Albany Street, Cambridge, Mass. The Oldest and Largest Manufacturers of Shoe Polishes in the World.

not before representative Tripp had expressed his feelings in the matter by the following motion which evoked applause from many of the members: "Mr. Chairman, if this is a comic opera, I move that we now proceed to rehearse in full costume and that we then give the opera at the opera house tomorrow for the benefit of the taxpayers of the state. Otherwise, I move that we proceed in a parliamentary manner."

A Cold, La Grippe, Then Pneumonia is too often the fatal sequence. La Grippe coughs hang on, weaken the system, and lower the vital resistance. K. G. Collins, postmaster, Barnegat, N. J., says: "I was troubled with a severe La Grippe cough which completely exhausted me. Foley's Honey and Tar Compound soon stopped the coughing spells entirely. It can't be beat." For sale by all druggists.

By Practising Economy You Can Buy Future Independence

BY JOHN P. FALLON.

Every time you practice economy, whether in the purchase of a spool of cotton at a penny less than usual, or in the buying of a home at the right time and in the right place, you are buying independence for yourself.

Save a penny here and a dollar there and the foundation for your future independence will be safely laid.

One of the best and quickest ways to secure independence through economy is to read the advertisements in the Santa Fe New Mexican every day. They tell you how to get the full value for your money, when you can buy most economically, where you can secure the things you need at the lowest prices.

Follow the advertisements in the Santa Fe New Mexican carefully and constantly so you will be able to purchase everything you buy most economically.

SPORTING NEWS

"HAPPY JACK" CHESBRO MADE THE SPIT BALL EFFECTIVE, BUT HE NEVER LOOKED THE SAME AFTER 1904.

Is it right to class "Happy Jack" Chesbro with the old-timers of baseball?

Why not? Jack is heading along toward the 40-year mark as fast as Old Man Time can flop the sand glass, and the one-time master of the spit ball has retired from the game.

Chesbro is of too recent memory to make it necessary to recall his sterling qualities, save that he took hold of Elmer Stricklett's discovery, the spit ball, and developed it.

"Happy Jack," as young looking as when he was pitching the Yankees to a near championship, was at Hot Springs, Ark., last spring, getting into condition. Fred Clarke promised to give him another trial with the Pirates, if the old "super" showed signs of life. But his good right wrist had lost its snap and Chesbro returned home to count the money he has made in baseball and the lumber business.

When in his prime Chesbro was one of the real ones. In 1901 and the succeeding year he led all pitchers in the National League, his average being .700 and .818, respectively, for 33 games each year.

In 1903 Chesbro jumped the Pirates with Jesse Tannehill and cast his fortunes with the newly organized New York American League club. In 1904 he led the American league boxmen with an average of .774 in 53 games. His spit ball, brand new, made him a marvel and lowered many batting averages.

It was Fred Clarke who really developed Chesbro. The latter may not agree with this, but he never was a wonder until the Pittsburgh manager began to handle him. Chief Zimmer and Jack O'Connor were his catchers, and, of course, played their part in the developing.

Chesbro is a firm believer in a third

major league and predicts it will come within five years, because there is plenty of room for it.

Wild Bill Donovan is Chesbro's idea of the greatest pitcher, and he is not alone, other players naming the great Tiger.

Fleider Jones, according to "Happy Jack," was the greatest player.

Chesbro was born at North Adams, Mass., June 5, 1874, and played his first ball with Springfield, Mass., in 1895. He was with the Roanoke, Va., team in 1896, with Richmond from 1897 to 1899, then with Pittsburgh through 1902 and wound up with the Yankees in 1910.

Chesbro's business, a prosperous one by the way, is located at Conway, Mass., where he makes his home. He is still as happy as ever and says, "I loved the game and the money that went with it."

DELLA CLARKE IN "INTRODUCE ME"

Manager Stanton's offering for Thursday, March 13, will be Della Clarke's new candidate for popular favor, "Introduce Me," a four act comedy, which is full of fun from beginning to end. Never does it become serious until nearing the climax of the third act, which ends strongly dramatic. The last act it is claimed, makes the audience laugh almost continuously from the rise to the fall of the curtain.

The moral of the play is a particularly strong one, and especially delights the women of the audience inasmuch as it gives an example of the fit of jealousy and rage a married man having affairs gets into when he suspects that his faithful and self-sacrificing wife also has a love on the side. His accusation made at the close of the third act is as deep as the strongest drama.

The story is told in four acts. Geo. Nichol falls in writing classics. His wife engages a separate apartment and writes a successful novel, entitled, "Susan." A publisher places the book before the critics and it becomes the talk of the day. Her husband attributes her absence from home while writing her book to her many engagements at the various women's clubs he thinks she belongs to.

When the money begins rolling in

Tom McCarey or Jim Croffoth will match up the two winners—Rivers and Murphy—for another big battle over the marathon route.

Of course, the entire situation will depend on the outcome of the second Murphy-Wolcast fight.

SHANLEY IS A RINGER FOR COBB

Gulfport, Miss., March 11.—If ever one ball player was a "ringer" for another in size, build and actions on the diamond, Harry Shanley is a ringer for Ty Cobb.

Shanley does not resemble the greatest of the great a particle in looks as he is dark while Ty is light and their features are dissimilar, but he might trade heads with the Peach and nobody ever would be the wiser; not even Cobb himself.

This resemblance is so strong at a little distance that today one of the Tiger veterans who saw Shanley dashing around out in the outfield wanted to know when Cobb got in. The men have the same broad shoulders, slender waists and the same shaped limbs. Shanley runs like Ty, walks like him even throws like him.

According to men who have seen Shanley perform when in shape, the resemblance is carried even further in that Harry is a speed demon like the Peach. Some people declare that he is even faster, a statement that is hard to believe after seeing Ty race around the bases a few times. But if Shanley is as expeditious as the Georgian in getting over the ground, he will do fairly well and there is no danger of his being returned to the minors for lack of speed.

They say that Harry has cultivated the same hook slide too and that he is one of the hardest men in the game to touch going into a base.

The more one sees of Shanley the harder it is to figure out how in the world the St. Louis Browns ever let him go after a short trail. Right now he looks better than nine of every ten men on the Hedges squad barring the pitchers. Yet the St. Louis papers said at the time Mr. Navin had been secured for the Providence club and that he would have to develop before being good enough even for that company.

PNEUMONIA FOLLOWS A COLD

But never follows the use of Foley's Honey and Tar Compound. It stops the cough, heals the sore and inflamed air passages, and strengthens the lungs. The genuine is in a yellow package with beehive on carton. Refuse substitute. For sale by all druggists.

WILL RIVERS MEET THE NEXT WINNER

Detroit, March 11.—Two of the hardest lightweight battles seen on the Pacific coast in years, occurred on the same day—Washington's birthday—when Ad Wolcast, former lightweight champion, fought a terrific 20-round draw with Harlem Tommy Murphy of New York before Jim Croffoth's club near San Francisco, while Jose Rivers, the Spanish-American 133-pounder, put Knockout Brown, the New York lightweight, to sleep in 10 rounds.

Both were near championship battles, as the winners are expected to get together to determine which one will meet Willie Ritchie next July for the American title. Wolcast put up a wonderful battle, considering that he had not a great deal of time to condition himself. For the first half of the battle Tommy Murphy gave the Michigan bearcat, as many call him, a fierce beating and had him in bad shape, but remarkable endurance came to his aid again in the thirteenth round and he fought with renewed courage and ambition, but was near collapse at the final bell; in fact, according to all reports both were ready to shout enough. Murphy showed the better form and the most cleverness during the greater part of the battle and if he could have staved

off Ad's constant body punches he would no doubt have gained the referee's decision. There seemed to be no doubt in the minds of the critics that Murphy earned the right to fight Ritchie for the title, even though he has not met and defeated Jose Rivers.

Wolcast also proved that he is far from being "all in" as has been reported but it was also evident that while he showed wonderful endurance, still he was not there with the punching powers that characterized some of his former battles. And while Ad was fighting like a wild man to gain the verdict over his rival, Murphy, another rival, was handing the New York boy, Knockout Brown, a beating, only in shorter time. Rivers was the master of Brown through out the fight, letting him tear in and meeting him with vicious lefts or rights to the head as he came in. Brown is a fighter of the Charlie Neary order—always boring in—and being naturally left handed, he is rather hard to get at sometimes. However, Rivers solved his style early in the combat and sent home enough drives to the head and jaw to stop an ordinary lightweight, but the husky New York German kept plunging for more, and he certainly got it, until the tenth, when a series of hard smashes to the jaw put him down and practically out.

The chances are now that either

ANTI-FIGHT BILL IS TABLED IN HOUSE BY GOOD SIZED VOTE.

Measure Introduced By Chrisman Would Have Put Boxing Game on the Blink in New Mexico But it Meets Summary Finish.

House Bill No. 89—Defining and prohibiting prize fighting, was tabled indefinitely in the house yesterday by a viva vote. This bill by Mr. Chrisman was a strict anti-prize fight measure and was so drawn that opponents of the arts, assert it would have put even boxing contests on the blink in New Mexico.

There was considerable opposition to the measure but so quickly had this fact been kept that the sudden tabling of the measure came as a surprise to many. This is the only anti-prize fight legislation pending and the slaughter of this bill in the house will probably end all efforts to abolish the sport at this session of the legislature. Except for the governor's well known stand against fights lasting over ten rounds, there are no regulations on the fight game in New Mexico now.

FEBRUARY COLD AND STORMY

February was a cold, stormy month, with large excess in precipitation, and heavy snowfall in all of the higher districts of the state, especially over the upper reaches of the Sangre de Cristo range in Taos county, the San Juan in Rio Arriba, the Black and Mogollon in Grant, and the Sacramento in Otero.

The deficiency in temperature was general, and ranged from 2 to 3 degrees a day in practically all parts of the state, increasing, however, to 5, 6 and even 7 degrees a day deficiency in the northeast counties. The month began with fairly warm weather but a cold wave quickly followed on the 2d to 4th, continuing to grip the state, with slight interruption, till the 8th. A comparatively warm period followed until the 20th. The 16th to 18th were the warmest days of the month, then the most severe cold wave (and quite generally the coldest weather) of the month followed from the 21st to 24th. Western counties experienced cold weather again the last day. In the average temperature for the month a difference of 25 degrees occurred between that of the lower Pecos valley and some of the higher northern districts.

The precipitation of the month averaged much above the normal, although not so great as February, 1911, when unusually heavy snow occurred. East-central counties and the greater part of the Pecos valley had less than normal precipitation, but elsewhere over the state an excess occurred. This amounted to more than an inch at many of the southwestern stations, and at a few of the northern ones.

In all of the higher districts the precipitation came as snow, and the fall in the mountains was heavy, especially along the west faces of the Sangre de Cristo range in Taos county, and over the San Juan in Rio Arriba. Some of the observers reported the storms of the last five days of the month the worst in many years.

Much cloudiness occurred, there was an average of only 12 clear days, while 9 were partly cloudy and 7 cloudy, fully one-third greater cloudiness than the normal condition during February. At Santa Fe there was only 59 per cent of the total possible sunshine, and at Roswell 67 per cent. The humidity was high; at Santa Fe the average was 66 per cent, at Roswell 60 per cent, and at the Agricultural College 63 per cent. Rather frequent wind storms occurred, and a number of gales were reported the prevailing direction for the month was from the west.

TEMPERATURE.

The mean temperature for the state, as determined from the records of 90 stations having a mean altitude of about 5,000 feet, was 33.8 degrees or 2.2 below the normal, and 1.1 degrees below the mean of February, 1912. The highest monthly mean temperature was 46.0 degrees at Carlsbad and the lowest 21.2 degrees at Elizabethtown, closely followed by 21.4 degrees at Chama. The highest recorded temperature was 77 degrees at Artesia and Carlsbad on the 17th, and the lowest 21 degrees below zero at Dulce on the 4th. The greatest local monthly range of temperature was 79 degrees at Vermejo Park, and the least 37 degrees at Cloudercroft, while the greatest local daily range was 62 degrees at Blackrock on the 6th of the month. The district averages were as follows: No. 7 (Canadian and north-east), 31.7 degrees; No. 8 (Rio Grande and Pecos), 35.0 degrees; No. 9 (Western), 33.6 degrees.

PRECIPITATION.

The average precipitation for the state, as determined from the record of 153 stations, was 1.07 inches, or 0.31 inch above the normal, and 0.13 inch greater than the precipitation of February, 1912. The greatest monthly amount was 5.18 inches at Bergers ranch, near old Fort Wingate, McKin-

ley county, and the least 0.12 inch, near Los Lunas, Valencia county. The greatest amount in any 24 hours was 2 inches at Pratt on the 6th and 7th. The average snowfall for the state was 11.2 inches, giving a total fall thus far this winter of 27.0 inches. Precipitation occurred on an average of 5 days. The district averages were as follows: No. 7, 0.75 inch; No. 8, 0.98 inch; No. 9, 1.88 inch.

CHARLES E. LINNEY,
Section Director.

OLD REPUBLICAN IS GROWING WEARY

From the Lordsburg Liberal.

The Liberal is not disappointed in Governor McDonald. As it is expected he vetoed the salary grab bill passed by the legislature, and in his veto message he pointed out what excessive wages the bill provided for the work done. The bill was promptly passed over his veto by the senate and sent to the house, where it was found there were not enough votes to carry it through. The Democratic central committee, at its meeting in Santa Fe, endorsed the action of the governor, and an attempt was made to discipline Senators Walton, Hinkle and Doepf for voting to pass the grab bill, but these astute politicians had too big a pull with the members of the committee to allow any such thing to go through. Some papers and politicians are making a party matter of it, claiming that the governor vetoed the bill simply as a party play, and demand that the legislature pass it as a party measure. The Republicans of New Mexico have done many foolish things, because some of the leaders thought it was a good play, but if they pass this as a partisan matter they deserve to lose the hold they have on the people of New Mexico. If it is a tenet of the Republicans of New Mexico that county officers must be paid extravagant salaries there are many people who have voted the Republican ticket for years, who were Republicans before they ever came to New Mexico, who will have to retire from the Republican party on state issues.

VICE COMMISSION NOW SEEKS FULL INFORMATION.

Chicago, Ill., March 11.—Although the state vice commission took an indefinite recess yesterday, a force of its investigators went to work today gathering data on the following subjects:

The stage with particular reference to the environment of chorus girls. Stenographers, their wages and environment.

Reports that vice resorts since the closing of the Chicago segregated district now exist in residential sections.

Questionable popular songs, whose words are suggestive.

Lieutenant Governor O'Hara, chairman of the commission, was in the city today. The governors of Wisconsin, Iowa, Michigan, Nebraska and New York have promised co-operation.

in the crusade against vice in their respective states.

HIRES DETECTIVES.

Chicago, Ill., March 11.—E. W. Mills, of San Antonio, whose wife reported the loss of \$10,000 in Evanston, ten days ago, arrived in Chicago last night and at once arranged an interview with F. H. Rawson, president of the Trust company from which Mrs. Mills drew the money.

Mills remained in seclusion, but it was rumored that he had hired private detectives to work on the case.

"Mr. Mills said little about the loss of the money," said Mr. Rawson. He said his wife still was in a nervous condition as a result of the loss and notoriety she received. He gave me no idea as to where he was going when we parted. He said he was disgusted with the whole affair.

PERSONALS

Mrs. Theo. Corrick will not be at
home tomorrow.
Mayor D. K. B. Sellers, of Albu-
querque, is at the Montezuma hotel.
F. S. Blackmar, the well known
merchant of Espanola, is here on busi-
ness.

A. K. Singer, of Albuquerque, who
visits Santa Fe once or twice a year,
is here on business. He is at the
Montezuma.

C. A. Whitely, prominent merchant
and Progressive of Raton, who has
been here attending the meeting of
the Progressive state central commit-
tee, left for his home yesterday.

Dr. Dora F. Thomas, nominee for
presidential elector on the Progressive
ticket last fall, has returned to his
home in Roswell, making the trip by
motor. Dr. Thomas was a prominent
figure at the state central committee
meeting held here Saturday.

Sheriff Julius Meyer of Torrance
county, is here from Estancia. He is
stopping at the European hotel.

Earl A. Whitaker, mail clerk on the
D. & R. G., is at the European hotel.
Mrs. Frank Clancy will not be at
home tomorrow afternoon.

Captain Fred Fornoff, of the New
Mexico mounted police, is back from a
tiring visit to Albuquerque.

Edward L. Safford and Millet
Clancy, well known young men of
Santa Fe, were visitors in Albuquer-
que yesterday, guests at the Sturges.

—Albuquerque Herald.

Says the Albuquerque Herald:
Mother Florence, head of the com-
munity of the Sisters of Charity; Sis-
ter Alexin, community treasurer, and
Sister Loyola, superior of St. Vin-
cent's academy, left yesterday for the
Grand Canyon and the petrified forest
for a brief vacation. Mother Flo-
rence and Sister Alexin are in the west
from Cincinnati, visiting institutions
conducted by the Sisters of Charity.
—Mother Florence visited the Sisters
of Charity in Santa Fe before going to
Albuquerque.

Frank Fogarty, nephew of Attorney
A. B. Renahan, has come here from
Washington and will likely make his
home in Santa Fe. Mr. Fogarty has
been prominent in the National Guard
in the east and he has also gone in
for athletics.

H. R. MacGibbon, who has been
connected with the real estate and
insurance firm of O. C. Watson & Co.
company for the past four years, is now
associated with the Santa Fe Products
company, which company is conduct-
ing a modern dairy business in con-
nection with their irrigated ranch a
mile and a half southwest of the city.
Mr. MacGibbon has not entirely se-
vered his connection with O. C. Watson
& Company, however, and he will con-
tinue to be interested in this com-
pany's real estate department.

Mrs. Norman L. King left today for
El Paso and other southern points
where she will visit friends for sev-
eral weeks.

DISAPPEARED IN AUGUST;
BODY IS FOUND.

St. Louis, Mo., March 11.—The body
of a woman, partly identified as wife
of Mrs. Ethel Keating Bogness, wife
of Dr. John S. Bogness, of the United
States marine hospital service, was
taken from the Mississippi river at
St. Genevieve, Mo., yesterday.

Mrs. Bogness disappeared from
Kansas City, last August. Detectives
traced her to St. Louis, where it was
found she had taken a row boat and
gone down the Mississippi. A boat
half-filled with water was found.

The discovery was made at Fort
Gage, Illinois, a few days later and
from this it was concluded that Mrs.
Bogness was drowned.

For Eczema

Use a mild soothing wash that instantly
stops the itching.

We have sold many other remedies for
skin trouble but none that we could per-
sonally guarantee as we do the D. D. D.
Prescription. If I had Eczema I'd use
it.

SUPREME COURT
WILL DECIDE

Washington, D. C., March 11.—
Counsel for the New York Journal of
Commerce today applied to the su-
preme court to restrain Postmaster
General Burleson from immediately
enforcing the newspaper publicity
law.

Former Postmaster General Hitch-
cock had agreed not to attempt to
enforce the law pending a prompt ap-
peal to the supreme court from the
decision of the federal courts in New
York.

The request was based on an agree-
ment between counsel, the depart-
ment of justice and the postoffice de-
partment last October that no action
would be taken by the postoffice de-
partment to compel newspaper pub-
lishers to comply with the law or en-
force any of its penalties until the
supreme court had passed on its val-
idity. Robert G. Morris, counsel for
the Journal of Commerce, in a state-
ment to the supreme court declared
that on March 4 the postmaster of
New York had notified the paper
that unless the statements required
by the law were filed at once, he
would proceed to enforce its pen-
alties.

Similar letters, the attorney
charged, had been sent to other news-
papers throughout the country. Since
March 4, Attorney Morris declared,
Postmaster General Burleson had in-
formed him verbally that unless the
required returns were made on or be-
fore March 11, he would enforce the
penalties, which include abridgment
from the mails. The law requires
newspapers to file with the govern-
ment and publish twice each year a
sworn statement showing the names
of their bondholders, security holders,
stockholders, the amount of the daily
circulation and to designate all paid
for articles as "advertisement."

The supreme court has had the val-
idity of the law under consideration
several months, but has announced
no decision.
The court took the motion of Mr.
Morris under advisement.
Solicitor General Bullitt stated
verbally that the government took
cognizance of the motion, but did not
agree to all the statements set forth
as facts in the statement Mr. Morris
filed with the court.

Later Mr. Bullitt stated that his
recollection was that the postoffice de-
partment had informally agreed not
to enforce the law for a reasonable
time, but that it did not specifically
agree not to enforce the law until the
supreme court had passed on it.

NO AGREEMENT ON
DISSOLUTION OF
UNION PACIFIC

New York, March 11.—No agree-
ment on the dissolution plan of the
Union Pacific Railroad company and
the Southern Pacific company was
reached today at meetings of the di-
rectors of the two companies and the
executive committee of the Union Pa-
cific.

Neither the executive committee
nor the directors of the Union Pacific
will meet again this week. This was
accepted as an indication that the
agreement between the Union Pacific
Railroad company and the syndicate
of bankers to finance its \$126,000,000
holdings of the Southern Pacific would
be permitted to lapse. This agreement
expires Saturday.

Regarding reports of a possible ap-
plication to the courts, for the ap-
pointment of a friendly receiver to
take charge of the Union Pacific as-
sets in the Southern Pacific company
directors of the Union Pacific said
that "such action would rest with the
courts."

CONN CONFESSES TO
OVER 100 ROBBERIES.

San Francisco, March 11.—Owen
Conn, the Chicago burglar who posed
by daylight in the lobbies of the fash-
ionable hotels as a capitalist, and
made a specialty of robbing vacant
apartments and houses at night, did
not work single handed. His partner
was a young woman who carried an
automatic pistol and went out with
him on his jobs.

This information was given out to-
day by the chief of police, following
the discovery of Conn's identity last
night, when he confessed to more than
100 robberies in Chicago, San Fran-
cisco, Los Angeles, Pasadena, Oak-
land, Berkeley and San Jose.

Early last month, the woman de-
serted Conn, taking with her between
\$30,000 and \$50,000 worth of jewelry,
half their loot. Her arrest is expected
soon in an eastern city.
In Conn's confession, he said he had
been led into crime by the former
wife of a Chicago pastor, who took ad-
vantage of his infatuation for her to
squeeze money from him. "She start-
ed me in robbing flats," said Conn.
"In one or two jobs she helped me.
Then she wanted me to hold up a man.
I refused and she got a younger man
to do it. Then she ran away with him
and I came to the Pacific coast."

TWIN STATESMEN CAUSE
MUCH EMBARRASSMENT.

Washington, D. C., March 11.—Tags
of identification may be used to dis-
tinguish James McReynolds, the new
attorney general of the United States,
from Representative Gordon Lee, of
Georgia. The two statesmen are al-
most twins in appearance if not by
birth.

Already a number of embarrassing
and humorous incidents have occur-
ed to both as a result of the strong
resemblance.
Former Senator Jos. F. Bailey was
among the first to become confused
by the striking similarity. He counts
them both among his close friends.

On his way to the department of
justice he saw the attorney general, as
he supposed, headed toward the
White House about half a block dis-
tant.

"Oh, Mac," called the senator,

EVERYTHING NEW IN

MILLINERY

MRS. W. LINDHARDT

125 Palace Ave

breaking into an undignified run.

"Hey, wait a minute."

Pedestrians looked with surprise on
the former senator's sprint and the
Texans' ruffled feelings were not
smoothed when on overtaking his
supposed quarry, Representative Lee
laughed at him merrily.

SIXTY MILE GALE
DOES HEAVY DAMAGE.

Sydney, N. S. W., March 11.—A six-
ty mile gale swept this city today,
causing several fatalities and doing
great damage ashore and afloat. Six-
ty street cars were derailed by the
wind, several yachts wrecked at their
moorings and chimneys toppled over
throughout the city.

A deluge of rain accompanied the
gale. One man was electrocuted and
10 horses killed by a fallen wire and
three men were drowned in the har-
bor. Suburban traffic was brought to
a standstill until the storm abated.

A number of buildings were wrecked
and trees uprooted.

Many accidents were reported in
which people were injured and in one
case death may result.

The storm came from the south
Thunder and lightning added to its
terrors and a fall record of fatalities
has not been compiled. Several of
the finest yachts in the harbor had
not been moved to winter quarters as
early as usual and felt the full force
of the gale.

HANDS BURNING
ITCHING, DISFIGURED

Cracked and Swollen. Could Not
Sleep. For 2 Years Nobody Could
Cure His Eczema. Cuticura Soap
and Ointment Completely Cured.

905 Lowell Place, Chicago, Ill.—"The
trouble began by my hands burning and
itching and I rubbed and scratched them
till one day I saw little red
sores coming out. My
hands were disfigured and
swollen, and troubled me
so that I could not sleep.
They were cracked and
when the small sores broke
a white matter would come
out. I could not do any
hard work; if I did the sores
would come out worse.

"For two years nobody could cure my
eczema, until one day I thought I would try
the Cuticura Soap and Ointment. I used
warm water with the Cuticura Soap and
after that I put the Cuticura Ointment on
my hands twice a day for about five or six
months when I was completely cured."
(Signed) Sam Marcus, Nov. 28, 1911.

Not only are Cuticura Soap and Ointment
most valuable in the treatment of eczema
and other distressing eruptions of skin and
scalp, but no other emollients do so much
for pimples, blackheads, red, rough skin,
itching, scaly scalp, dandruff, dry, thin and
falling hair, chapped hands and shapless
nails, nor do it so economically. A single
cake of Cuticura Soap (25c.) and box of
Cuticura Ointment (25c.) are often sufficient
when all else has failed. Sold throughout
the world. Liberal sample of each mailed
free, with 32-p. Skin Book. Address post-
card "Cuticura, Dept. T., Boston."

Tender-faced men should use Cuticura
Soap, shaving stick, 25c. Sample free.

GIVE US THE OLD TRAIL

Congressman Francis, of Ohio, has introduced a bill which is of great importance to this section of the west and which will have the cordial support, particularly, of the people of New Mexico.

"Be It Enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the highway extending from Washington, District of Columbia, through the States of Maryland, Pennsylvania, West Virginia, Ohio, Indiana, Illinois, Missouri, Kansas, Colorado, New Mexico, Arizona and California, as the same shall be located by the commissioners hereinafter provided for, being the amalgamation of the roads variously known as the "Braddock Road," the "Old Santa Fe Trail," the "Camino Real," the "Don's Lick Road," the "Old Santa Fe Trail," the "El Camino Real," the "Kearney's and Doniphan's Road," with certain extensions as hereinafter provided, shall be known as the "National Old Trails Road," with extension from Washington, District of Columbia, to the City of New York."

Efforts have been made in several cases to divert this proposed highway over other routes which have to special historic associations and would not touch those very portions of the big west that seem with attractions and are full of interesting and fascinating allurements which invite both scholars and tourists through this land of wonders and of unapproachable beauty.

But it is not sentiment alone that makes the proposed highway the truly appropriate one. It is the natural route, the one most traveled and the one that is most practical.

It can be used all the year around, and is always one of comfort, while that one known as the northern route would, at certain times of the year, be impassable and wholly lacking for arable travel.

The familiar names of certain portions of this highway appeal to everyone who has followed, even in a casual way, the stirring history of the great west, and Congressman Francis' bill should have the enthusiastic support of congress in this giving to Americans a chance to "see America first," and gain a knowledge of this marvelous section which can be gained in no other way than by traveling through it by the great highway which passes through the most interesting and historic and beautiful portions of the American continent.

All the influence that can be brought to bear, should be exerted toward the passage of this bill, which means so much to, not only the country at large, but to the west, particularly.

THEY DON'T CARE

"Be It Resolved, That it is the sense of this meeting that the present legislature of the state of New Mexico should and that they be and hereby are earnestly requested so to do, appropriate at least the sum of \$10,000 per annum for the next ensuing two years for the maintenance of the Bureau of Immigration or some like state agency to perform the functions heretofore performed by the Bureau of Immigration, and that copies of this resolution be signed by the president and secretary of this meeting and furnished to each house of the legislature and the state press."

The above resolution was adopted at the meeting of the "New Mexico League of Commercial Organizations," held in Santa Fe on February 13.

The meeting was called for the purpose of boosting New Mexico and putting the state to the front, advertising it to the world.

Being that kind of a meeting, of course, Spiess, Springer and Bursum were not there.

It was an open, public meeting—not a star chamber proceeding. It had no political significance. It did not further any one individual. It was not in the interest of any person's advancement or aggrandizement. It was only for the purpose of starting a movement that would help New Mexico, and aid in bringing this splendid state into that position which she is so well qualified to occupy.

These things may account for the lack of interest in certain quarters, and the reason why no attention has been paid to the resolution and why the immigration bureau bill has been permitted to languish unacted for and disregarded.

The resolution was not even recognized sufficiently to be sent to the morgue. It was just left on the dump heap and regarded with all that arrogant indifference which has become the leading characteristic of certain members of the present legislature.

What is done for New Mexico must be done by the citizens of New Mexico, through their own organizations backed by their own enthusiasm and their own contribution.

The legislature refuses to aid them.

SUCH COURTESY

We did not know before just why it was that certain joint resolutions recommending the submission of certain amendments to the constitution, were lying silently and inactive in the morgue annex, known charitably as "the committee on constitutional amendments."

Senator Holt, with his customary suavity, gave the reason. It was "out of courtesy to the Republican majority in the senate."

How truly beautiful!

Rarely has such thoughtful and graceful courtesy been seen anywhere in a legislative body outside of the United States senate.

To be sure, in this instance, this beautiful and exemplary courtesy is not extended by Senator Holt and his followers, to the people of the state, whose measures now before the senate are being used in this courtesy treatment, but it is all reserved for the "Republican majority in the senate" whose exhibition of the gracious and thoughtful spirit has been so conspicuous throughout the session.

They have been so thoughtful of the feelings of others that they have even acted delicately about the bills and resolutions of members of the senate. They did not ruthlessly hit these measures with a club or murder them in public, but quietly slid them into the morgue, thus to pass peacefully and unobtrusively into the land of forgotten things and uselessness, as far as the future is concerned.

Resolutions of vast, vital importance to the people of the state, morgued for the sake of courtesy!

These are the things to be remembered in the future when the people come to act again at the polls.

It is another item for the political note book.

THE GOVERNOR IS RIGHT

Governor McDonald, in spite of his physical illness, still has his nerve. Yesterday he vetoed the district attorney bill because he considered the salaries incorporated in it, as being too high. The governor has in mind justice toward the people of the state, rather than favoritism toward officials, and he is right.

Just why a district attorney who is not pushed with labor in the public service, having more leisure than the average attorney who has even a reasonable practice, should be handed this juicy fruit from the tax tree, the tax payers cannot figure out.

It will be generally admitted that the great majority of attorneys, now holding the position of district attorney, could not earn one half the amount given in this bill, if they depended on an income derived from their private practice.

Why hand them this expensive plum?

The people of the state will stand back of Governor McDonald in the position he has taken. He is right.

A New York man is soon to set out for South America to hunt big snakes, with a moving picture outfit. There are a lot of men in New York and elsewhere who have seen snakes nearer home than South America, and they were not trying to photograph them, either.

REMARKS FROM THE SIDE LINE

What became of the anti-gambling bill?
Well Major, the fourteenth will soon be here. Please remit.

Members of the Old Guard are beginning to see veto messages in their sleep.

A Chicago merchant says that literally is a state of mind. So is hunger.

Gallup is going to have a new light plant. Gallup has a new light plant every springtime.

For the benefit of the taxpayer, it is really too bad that the present legislative session could not be prolonged until April 1.

If this salary bill game keeps up, we shall keep the "veto message" by the governor, in type and simply change the number from day to day.

We have not received the \$100 from the major yet. The major is a trifle slow in paying up. We would dislike to place the bill in the hands of a collector.

What became of the emergency clause to the coal oil inspection bill asks Mr. Blanchard. Probably the same thing that happened to the coal oil probe.

Carlsbad is excited over the tax situation. However, Carlsbad should not be so excited but should take lessons from the placid legislature now in session here.

The final legislative rush is on. It evidently takes our legislators fifty days to make up their minds. The taxpayers, however, have reached certain definite conclusions some days ago.

Perhaps if some of those house members could receive a few telegrams from their constituents, they might reconsider the opening of that coal oil probe as requested by the major.

Carlsbad is reveling in the throes of a real auto bandit scare. Some one in Carlsbad tried to steal an auto but evidently they were not up to the job, because when last seen they were pushing the auto slowly down a side street.

It is indeed a sad state of affairs, when the house will not permit the major to resume that coal oil probe. The major is unfortunate in not having the co-operation of the legislators in so worthy an undertaking. Please remit, Major.

AS THE BYSTANDER SEES IT

GOOD SUGGESTIONS.
Though, as Dr. Standley G. Small says, he does not talk in "stentorian tones," yet I have always noticed that when he does talk, he has something good to say.

That suggestion of his about advertising in the west as well as the east, has good sense in it.

During a seven years' residence in Arizona I learned quite a little of the climate and the habits of the people. I know that when the heat of the summer settled down upon them and the mercury climbed higher and higher in the tube, 95-100-110-115-120, the people of Tucson and Phoenix, and particularly the latter place, began to think of getting to a cooler spot. Some sought the mountains, some went to California resorts, but they did not come to Santa Fe, because they did not know much about it, only that it is the capital of New Mexico and a very old city. They did not know that it has a summer climate, unequalled in all the world. They did not know that those living here choose the summer to stay at home, because that is so wonderful a season here; but that if they go away to visit elsewhere, it is at another season as they are unwilling to be away from Santa Fe at the most delightful season of the whole year.

They do not know that all about this attractive old city are places to visit where those things may be seen that are reproduced nowhere else under the sun.

But they should be made to know what we have here, and if it were shown to them we would have an increased visitation from abroad, both from the east and the west.

Santa Fe summers are not understood or known as they should be. They are unapproachable in beauty

and in an atmosphere that revivifies. They are never sultry and enervating. As Doctor Small says we should let the west know of it, too.

PLEASANT TO KNOW.

It is gratifying to know that those who come among us from other points even those from foreign lands, carry away with them pleasant impressions of Santa Fe.

The article in "Science," February number, shows that Santa Fe left an impression upon the guests who came here last fall and that the scientific scholars who composed the party were not taken up so much with research and study of archaeology that they could not see those things that interest the common multitude of whom humanity is mostly composed.

They speak of the attire of the ladies of Santa Fe being equal to that seen in Chicago or Philadelphia.

And, why not?

We recognize the fact that we are, in a sense, out of the way, not in the big swim, as it were, but Santa Fe is a cosmopolitan city. Resident here are those who come from all sections of the United States and if the impression has gone out that we are still of the wild and woolly stripe, perhaps we are partially to blame.

We all know how fellows come out here from the east, and borrow a pair of chaps, buy a big hat, strap on two of three revolvers, and then prance into the photographer's to have their picture taken to send back east to the folks.

They proudly write on the photo, "You see I am a true westerner," and the people who receive them think that we go about in buckskin and jeans and that the dress suit is never used and would be regarded as a novelty as great as the chaps and revolvers seem to the untutored easterner.

If the boys who dress up in "western garb" for a photo to send back would explain about it and tell the truth, that it was done just for a fancy picture, it would do no harm, but they don't do that. They want to make a show of themselves, and make their friends think they are "the real thing."

So, it is well for those abroad to see us as we are; to meet the ladies of Santa Fe, who are unsurpassed anywhere for those qualities which go to make up true womanhood, and do indeed, attire themselves in a manner as "might be seen in Chicago or Philadelphia."

THE DUMP PILE.

They say time changes all things, but it doesn't. It never changes the dump heap. Year follows year and the summer sun reflects back the glisten of glass bottles which are a never failing embellishment of the pile which farther or nearer decorates the landscape about every town—in Santa Fe it is nearer.

Everywhere on the dump pile, beside the glass bottle are the tin cans, millions of them, and prominent always among them are the sardine cans, the little fish that seems to be so popular in this country of ours, and most of the time, he isn't a sardine at all, but just the smelt found off the coast of Maine, and whatever he is, he is canned, and masquerades for sardines and the receptacle in which he is disposed in alleged olive oil, becomes the conspicuous feature of the dump pile.

It is strange how alike they all are, the dump piles, not the sardines, for they vary from smelt to herring, and not often are they the genuine article at all but the dump pile never varies, and like the old relics that are so dear to the archaeologist, they tell often, of a place once inhabited, but now no more.

Many a time in this western country I have seen, far from a habitation, and in almost wilderness, these piles of cans and bottles that tell of what was perhaps once a prospector's camp, perhaps that of a road gang, surveying a line for a railroad or highway, or even perhaps a settlement, when people had lived in hope and in anticipation, and on canned goods.

I have always noticed that close in the race for supremacy with the sardine can is the tomato can. I don't know what a camp would be without the canned tomatoes which every man who has ever been in camp life, recognizes as a companion that is a necessity to at least, a satisfactory existence. Of course, there are accessories that are pleasing and palatable, but they are not like canned tomatoes, a necessity. So, every dump heap, whether civilized or uncivilized, near a town or the relic of a people who once lived and have now vanished, and are far removed from a present habitation—every dump heap has the distinctive mark of glistening glass and sardine and tomato cans.

I sometimes wonder what grocers used to sell before the canned goods craze came in, when they sell in the tin package, every imaginable thing from sardines to eggs.

It will not pay you to waste your time writing out your legal forms when you can get them already printed at the New Mexican Printing company.

\$30,000 TO BE USED AT SAN DIEGO

SENATE PASSES BILL FAVORING THAT SUM AND IT IS UNDERSTOOD THAT COUNTIES WILL MAKE UP EXHIBITS IN ADDITION.

The senate yesterday went on record for an expenditure of \$30,000 for an exhibit at the exposition at San Diego in 1915 when it adopted a minority report favoring the San Diego bill with that sum substituted for the proposed appropriation of \$75,000. The majority report favored no appropriation. The bill originally was House Bill No. 195 and carried a total of \$75,000 for both exhibitions. It provides for a board of five members to be named by the governor and who shall receive expenses of \$4 a day while engaged in work and traveling expenses additionally.

While friends of the exposition had hoped to increase the amount, opposition to a larger sum was so pronounced that an agreement finally was made for \$30,000 and the bill passed the senate. The house, it is said, will concur in the senate provision to the bill by a safe majority.

Various members of the senate asserted that their respective counties desired to make an exhibit at this exposition and that they would gladly go to that expense. \$30,000 it is believed will erect creditable buildings and aid in the general work on the grounds while the New Mexico museum will contribute some excellent features. Colfax county, Mr. Cramp-ton said, would place a big exhibit at San Diego. Senators Laughren, Holt, Hinkle and others, said their counties would also contribute along similar lines.

AUSTRIA TELLS SERBIA TO KEEP TROOPS AWAY

Belgrade, March 11.—The Austrian government today took a step regarded as equivalent to forbidding Serbia to send troops to assist the Montenegrins in capturing the Turkish fortress of Scutari.

The Austrian minister to Serbia, Baron von Ugron von Abranfalva, informed Premier Pasitch that his government objected to Serbian troops assisting in the siege of Scutari, which was to become the capital of Albania. He requested the immediate recall of any Serbian troops which had been dispatched.

The Serbian premier in reply pointed out that under treaty arrangements Serbia was compelled to assist her allies without regard to the future of Scutari. The situation is regarded as extremely delicate. Feeling here is at a high pitch over the attitude taken by Austria.

The fortress of Scutari near the Montenegrin frontier has been besieged by the Montenegrins without material success since the beginning of the Balkan war. Its capture and inclusion in the Kingdom of Montenegro were the chief reasons for King Nicholas joining in the struggle. Then the European powers decided in principle on an autonomous Albania in which Scutari was to be included, the King of Montenegro declared he would enter the fortress at the head of his troops, otherwise the reign of his family was doomed.

In the meantime the Serbian troops had completed their campaign in Macedonia and Albania and advanced to the Adriatic coast at Durazzo, whence, on March 7, they dispatched on board transports 5,000 Serbian troops including artillery to assist in the siege of Scutari. It was the activity of Serbia which called forth the Austrian protest today.

"GO ON, KILL EM" SAYS JUDGE TO THE CHAUFFEUR

New York, March 11.—"Gentlemen, you seem to think that a drunken chauffeur can run his car through the street, killing people, and go unpunished. You say so by your verdict. You are the judges of the facts, and your verdict must stand; but in this case your state of mind in arriving at such a decision can be best described as the 'peace of heaven which passeth all understandings.'"

Justice Foster made this statement to a jury in General Sessions this afternoon when the jury had refused to convict Leon Gerard, taxicab chauffeur, who ran down and killed Mrs. Mary Dillridge.

Turning to Gerard, Justice Foster said: "You may go home and get another taxicab, and you may go out and kill some one else. This jury has given you permission to do so."

Just Try a New Mexican Want Ad if you want quick returns.

Two Generations Now Using It

Nation's Most Popular Laxative Keeping Millions of American Families in Good Health.

There must be genuine merit to an article that has stood the test of two generations of users.

In the field of medicine none has had greater success, nor retained that success to a great degree, than Dr. Caldwell's Syrup Pepsin, which is now being used by two generations of people. Its use in families is constantly becoming more general. The reason, primarily, is that it has merit. It is what it represented itself to be, a laxative. It does not make exaggerated claims nor use coarse language to set forth its virtues.

It is a medicine, but so mild and gentle a medicine that thousands of mothers give it to their infants, and yet, in a slightly larger dose, it is equally effective for grown-ups. It is for any disorder of the stomach, liver or bowels, for constipation no matter how chronic, for dyspepsia no matter how severe, for biliousness, sour stomach, gas on the stomach, headaches, drowsiness after eating, and similar complaints arising from a clogged-up condition of the bowels. It is pleasant to the taste and does not gripe. It can be used with safety and good results by anyone at any age or in any condition of health, and that person's health will improve. Every druggist sells it and the price is only fifty cents and one dollar a bottle.

Thousands of families throughout

ELSIE LEWIS.

The country are never without it in the house, among them Mrs. Clara Lewis, Beck's Store, Ky., who gave it to her baby, Elsie, while teething, and says: "It is the best medicine in the world for the stomach and bowels." She writes that she keeps it in the house for every member of the family, takes it herself and that her mother recovered her health and gained in flesh by using Dr. Caldwell's Syrup Pepsin.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

NEWS OF THE STATE

PRETTY OPALS.

Rock Rodgers and Young Hitchcock, nephew of Hank Hitchcock, the hunter and trapper, have located two opal claims nine miles east of Silver City and are developing same. They have taken out some very fine looking opal matrices which have all the fire of the choice Mexican opals.—Silver City Enterprise.

STRUCK BY BICYCLE.

P. R. Birdwell was struck by a bicycle last week one night in the dark and thrown into the ditch near his home, losing his hat and eyeglasses. He was in bed several days after the shakeup. Whoever rode the bicycle carried no light and made his escape in the darkness. Such cases should be looked into by local peace officers and the ordinance against such things enforced. Mr. Birdwell does not hear well and a light would have saved a serious accident.—Rio Grande Republican.

FINED FOR GUN TOTING.

Sidney John Moore, who was a visitor in town Saturday from a neighboring ranch, was discovered to be totting a gun from the fact that he attempted to make a grand stand or other play with it. He was caught and disarmed. The offense of carrying a gun in Silver City he discovered to be a very serious one when he appeared before Justice of the Peace Newcomb yesterday morning and attempted to explain his conduct. He discovered that there are no cut rates on the gun carrying business so far as Judge Newcomb is concerned. His fine and costs amounting to \$106.50.—Silver City Independent.

IMPORTANT SUIT SETTLED.

The case of J. S. Fitzhugh, of Clovis, vs. Dr. C. E. Lukens, of Albuquerque, which has been pending in the district court of Curry county for more than a year has finally been settled by the parties. It was alleged in the complaint that Dr. Lukens through fraudulent misrepresentations sold Mr. Fitzhugh 1500 shares of brick stock at twice its value. Mr. Fitzhugh claims that having known Dr. Lukens as a preacher for several years, he relied on his statements and bought the stock without further investigation. The case was tried a year ago and resulted in a hung jury, seven for plaintiff and five for defendant. The case is of considerable importance and has caused quite a considerable comment on account of the prominence of the parties. Mr. Fitzhugh is one of our prominent lawyers of Clovis, and Dr. Lukens is the head of the Orphan's Home at Albuquerque, N. M.—Clovis Journal.

EDITOR WOOD SEEING THINGS.

When we look about us this beautiful day and see the activity now being manifested by our people; the immense tomato and onion fields which will cause everybody to get busy; the oil development which is sure to prove successful with Lakewood in the center of the field; and when we

think of the great rush which will follow all of this, and the rapidly with which Lakewood will grow and build up, we are alarmed. Alarmed at the prospect of having to make the Progress a daily. Gentle reader this is no idle dream. The signs of the times all point to this final result. But if it comes to it we will do our level best, as we have always done. And with the assistance of our good progressive citizens, and under a Democratic administration we will tackle the job with our ears pinned back, and will succeed. See if we don't!—Lakewood Progress.

BIG FRUIT TRACT.

The Roswell Nursery firm have started work setting 8000 peach and apple trees for the Rev. A. D. Crile and Mr. Percy on an 80-acre tract of land south of the city. The trees are equally divided, the peaches being used for fillers.

The Nursery firm has received a carload of trees and the bulk of them will go to the Crile & Percy orchard. The planting is being supervised by Wyatt Johnson, manager of the Nursery.—Roswell Record.

EX-FIRE CHIEF'S HOUSE BURNS.

Tuesday night the ranch house of Roman Ohnemus, located southeast of town about two miles, was burned to the ground. Ben Wheeler and his wife and child barely escaped from the house, being nearly suffocated by smoke. Wheeler saved no furniture at all, and had just time to drag one trunk to the door, before he was driven away from the house by the flames. "Rome" had been down there that night visiting his daughter's family returning to town about seven. He was awakened from sleep at about nine by a telephone from Mrs. Craft, a neighbor living near his country house, who told him that his house was in flames. Hurriedly hitching up he started for his place, but the ex-fire chief got on the scene too late to do any good. The house was insured by Swigart & Patterson for \$1000 and the F. L. Hopkins agency had \$500 on the furniture.—Carlsbad Argus.

A MESSAGE TO RAILROAD MEN.

E. S. Bacon, 11 East St., Bath, Me., sends out this warning to railroaders everywhere. "My work as conductor caused a chronic inflammation of the kidneys and I was miserable and all played out. From the day I began taking Foley Kidney Pills I began to regain my strength, and I am better now than I have been for twenty years." Try them. For sale by all druggists.

MCMANARA YEILDS.

New York, N. Y., March 11.—John McManara, alias "Australian Mac" today gave up his long fight against extradition to Canada and will be taken once to British Columbia for trial in connection with robbery of \$375,000 from a branch of the Bank of Montreal.

McManara was arrested here in January, 1912. The United States Supreme Court affirmed commissioner Shields' order of extradition.

THE OIL AND TELEGRAM EDITORS WAX SARCASTIC OVER 'EM.

Further comments on "oil" and "bogus telegram" are culled from New Mexico papers.

The "Rio Grande Republican" published at Las Cruces, declares that the oil investigation resulted in a boomerang for the Republicans. Says the "Rio Grande Republican":

"Spontaneous combustion got the coal oil investigation after all—just as we predicted the explosion occurring. Wednesday night at Santa Fe, Major Llewellyn had some amusement at the expense of the state since the time of those making the since is paid by the state, in his investigation of Brian Born Dunne's connection with the coal oil inspector's fund in territorial days, made in retaliation for some amusement furnished the public by the Santa Fe New Mexican, by which paper Dunne is now employed, regarding a telegram which the New Mexican attached to Major Llewellyn and which as a bit of pleasantry was not relished by the major.

"However the incident revealed some side incidents of the use of the oil fund not known to the general public and quite enlightening to many. This cast a stronger light than usually made by coal oil upon the practices of the 'old guard' who permitted various uses of an oil fund that was legalized by the territorial laws as belonging solely to the coal oil inspector and the surplus of which, after paying the real inspectors who actually inspected all oil coming into the territory, was spent in a multitude of ways, not many of which were in accord with business methods, and with little regard to the rights of the state to the money. It is hoped some same substitute will be given the

public for oil inspection work, for the grade of oil has fallen very perceptibly since the abolishment of the examination of oil in the state. However, the oil inspectors practices are stopped, and it may here be said that those who recently attempted the unearthing of these dead bones, who were probably as cognizant of the condition then as they are today had conscientiously given the same effect to the same cause years ago when investigation would have been of real benefit to those robbed in the use of the oil fund.

"However as a joke the investigation was a boomerang for the Republicans and is not relished as being in the interest of 'harmony.'"

IT IS "FARICAL."

In a second editorial "The Rio Grande Republican" says:

"If the farcical 'oil' investigation at Santa Fe had been a real investigation it could hardly have shown more to the public than did the testimony of Mrs. Anita Chapman. She showed that the men who really inspected the oil for the territory, who made reports each month and drew small salaries for the duties performed, were the small end of things, and that the big ones who controlled the money did as they pleased with the bulk of it. The entire matter reverts to a spirit still in evidence in public matters that money belonging to the public is anybody's money."

NO SINECURE.

In the "Las Cruces Citizen" of March 1, "Stilled Pete" says: "Don Prisciliano says that he prefers to be elsewhere when a rumpus is started. The major says the sinucure in the inspection of coal oil is not what it's cracked up to be."

SANTA FE PAVING BILL IS PASSED

House Bill No. 57, by Speaker R. L. Baca, which passed the senate with some amendments and was reported to the house yesterday received the concurrence of the house yesterday afternoon and is now before the governor. This is the bill providing for some \$13,000 worth of bricks for paving the streets of the capital, as soon as the property owners on streets adjoining state property, raise their pro rata.

Speaker Baca has been working hard for the passage of this measure and it is entirely due to his efforts that the measure is now enacted. Since the speaker has been in legislative sessions, he never has failed to secure the passage of some such bill for the benefit of his home town and the adoption of the senate amendments by the house yesterday was another victory for the little speaker.

"You can always count on Liberato going something for old Santa Fe," said the speaker, after announcing the vote on the bill. This measure will greatly improve the capital and will be of benefit, not only to us here locally, but to all the state since anything that tends to improve our capital and build up our city, is an improvement which the whole state enjoys. The bill will permit the paving of the

streets around the capital and of the plaza, including the street in front of the Palace of the Governors. These bills passed the house yesterday afternoon and evening.

H. B. No. 136.—To amend the present laws relative to poisoning of wild animals.

H. B. No. 174.—For the preservation of public health—an act providing for the drainage of swamps and stagnant pools of water.

H. B. No. 268.—Prescribing the methods for collecting poll taxes.

H. B. No. 286.—For the return of monies paid to the commissioner of irrigation under terms invalidated by land laws.

H. B. No. 293.—Relative to the teaching of history and civics of the United States and New Mexico.

H. B. No. 294.—Providing for the building of the Albuquerque, Socorro and Silver City highway.

H. B. No. 299.—The new medical act. This bill was opposed by Mr. Rogers who charged that a medical trust existed and that the doctors had combined to prevent practitioners in other lines from operating in the state.

The house concurred in the senate amendments to House Bills No. 133 and 132—the Tully road bills which passed without appropriations.

MAJOR'S REPORT WAS A TRIFLE TOO SOON

Major Llewellyn became a special committee all to himself yesterday when he placed on file with the chief clerk of the house, a report in which he stated that whereas and therefore, an opinion had been rendered by the attorney general by which it was shown that the coal oil funds belonged to the coal oil inspector, etc., and etc., and that therefore, the special committee begged leave to report that it had examined two witnesses and quit or something to that general effect. Likewise, the major added that any money paid to Mr. Dunne, city editor of the New Mexican was paid without Mr. Dunne having done any work therefor or something to that general effect.

It was all signed W. H. H. Llewellyn, chairman. The report was read. Mr. Rogers arose with a startled air and asked if any other member of the special committee had attended any meeting where such a report was prepared. No other member had. Mr. Rogers then asked who authorized W. H. H. Llewellyn, chairman, to file any such report. At this stage of operations, the major entered the house.

He said that he thought he merely was complying with the wishes of the house in the matter as expressed at the morning session, seized the report and proceeded to get busy. Some five minutes later, he returned with the names of W. H. H. Llewellyn, chairman; J. C. Campbell and O. T. Toombs, members of the committee as filed to the document and it was filed again. It is understood that Representatives Marcos C. de Baca and Rogers declined to affix their signatures to the report. The major announced that a transcript of the "evidence" would be filed with the report when it has been "transcribed." Mr. Clancy wanted the major to withhold the report until the testimony had been transcribed which the major denounced as a "gratuitous insult, sir."

It was the closing chapter in the history of "Standard Oil" in New Mexico and caused a general smile in the house. At last reports, the document was on the desk of the chief clerk awaiting the "transcribed evidence" gleaned from two deputies of the coal oil inspector's office. There were no telegraphic communications from Las Cruces attached.

CABINET MEETS TO DISCUSS MANY PLANS

Washington, D. C., March 11.—President Wilson held a two hour meeting with his cabinet today, in which general principles governing the organization of various departments were outlined and a few minor appointments discussed.

The president declared after the meeting that "merely routine" had been taken up. He added that he regarded cabinet meetings as a clearing house for the handling of the details.

Members of the cabinet were reticent as to what had taken place in that a general statement covering the business of the meeting might be prepared later. One of the cabinet officials stated that the president had not taken up with them the question of what legislation he should recommend to congress.

Postmaster General Burleson who remained with the president for some time after the cabinet meeting, later

gave his opinion of Mr. Taft's order placing \$5,000 third and fourth class postmasters in the classified service.

"The policy of the administration toward that order has not been determined," said Mr. Burleson. "Personally I am in sympathy with it, but I don't believe it went far enough in that many men retained office for political reasons instead of having to pass a test of merit which should have been required."

The postmaster general's declaration was the subject of some comment as the third and fourth class postmasters are the prizes sought by thousands of Democrats throughout the country.

SOUTH AMERICA.

The policy of the Wilson administration toward the Central and South American republics, which come with in the meaning of the Monroe doctrine has been decided upon by the president and secretary and will be announced in a statement from the white house late today.

The administration's policy toward South America was understood to have been discussed at today's cabinet

Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten It.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of childbirth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded joy and anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up to veneration; they are aided in their mission to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

There are thousands of women who have used Mother's Friend, and thus know from experience that it is one of our greatest contributions to healthy, happy motherhood. It is sold by all druggists at \$1.00 per bottle, and is especially recommended as a preventive of caking breasts and all other such distresses.

Write to Bradford Regulator Co., 131 Lamar Bldg., Atlanta, Ga., for their very valuable book to expectant mothers. Get a bottle of Mother's Friend today.

meeting. The statement is being prepared by the president himself.

Foley Kidney Pills will reach your individual case in you have any form of kidney or bladder trouble, any backache, uric acid poisoning or irregular and painful kidney action. They are strengthening, tonic and curative, and contain no habit-forming drugs. For sale by all druggists.

Large transfers of Montana half blood from 21-1-2 to 24-1-2 and some sales of Texas fall wool at 17-1-2 are reported.

A WORD WITH WOMEN.

Valuable Advice for New Mexican Readers

Many a woman endures with nobility the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored and contain sediment; the passages are too frequent or scanty. Don't expect them to get well alone.

Don't's kidney pills have won the praise of thousands of women. They are endorsed at home—Read this woman's convincing statement:

"Mrs. Bernarda R. de Escudero, 106 Griffin St., Santa Fe, N. Mex., says: 'I have just as high an opinion of Don's Kidney Pills today as when I publicly recommended them in January, 1907. For about a year I was bothered by dull ache and weakness around my loins and kidneys. I tired easily and any exertion brought on severe pains in my back. Hearing Don's Kidney Pills highly spoken of, I was induced to try them. The results proved beyond a doubt that this remedy lives up to representations. The cure it has brought has led me to praise it on more than one occasion.'"

MARSHALL VISITS WILSON.

Washington, D. C., March 11.—Vice President Marshall paid his first visit to President Wilson at White House today. Mr. Marshall slipped in a side door and after a short conference slipped out again practically unobserved.

CROSS OR FEVERISH, HALF-SICK CHILDREN.

If Tongue is Coated, Breath Bad, Stomach Sour it Means a Torpid Liver and Clogged Bowels.

Mother! Don't scold your cross, peevish child! Look at the tongue! See if it is white, yellow and coated! If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad; has stomach ache, diarrhoea, cross throat, or is full of cold, it means the little one's stomach, liver and 39 feet of bowels are filled with poisons and foul, constipated waste matter and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little waste clogged bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not dragging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

OFFICIAL NEWS.

Attorney General Frank W. Clancy has put the quietus on a report about the state board of equalization. The attorney general received the following telegram which is self explanatory:

"Carlsbad, N. M., March 7, 1913.
"Frank W. Clancy,
"Santa Fe, N. M.

"Statement is made here by County Treasurer Merchant, that the State Board of Equalization has cancelled its orders and action in fixing values on the valuation basis and that proceedings of boards and schedules sent out are to be disregarded. We had agreed to comply with action of your board and have the cooperation of citizens of Eddy county. Wire answer.

"C. W. BEEMAN,
"Chairman."
To this the attorney general sent the following reply:

"March 7, 1913.
"Carlsbad, N. M.

"No such change made and will not be unless legislature should make it, in which event every county will be immediately notified.

"E. W. CLANCY,
"Attorney General."
The boosters for "Aguilar county" took the capital by storm this morning. Their red badges told what they

wanted for the word "Aguilar" loomed up brilliantly in gold letters. In the party were Sam Colley, C. C. Lewis, Dr. A. Northwood, J. R. Aguilar, Ellis E. Jones, Edward Howe, Henry Swain, J. D. Medina, John Pugh, George Crocker, Felix Villareal, A. W. West, Vicente Mares, J. Frank Burns and Epimelio Martinez.

Mr. Burns and Mr. Martinez arrived last night and the others came this morning. The spokesman of the committee said to the New Mexican: "We are here to work for a new county. Aguilar by name. We want it and we are going to ask the legislators to give it to us."

WATER APPLICATIONS.
The following water applications were filed in the office of the state engineer:

No. 755, from Robert Brownell Silver City, for Mineral Creek's flow to carry lumber in a flume and then to furnish power.

No. 756 from William C. McDonald for the waters from "Bar W." draw near Carrizozo to irrigate 160 acres by direct diversion.

It will not pay you to waste your time writing out your legal forms when you get them already printed at the New Mexican Printing Company.

GOVERNMENT BEGINS TESTS OF DR. FRIEDMANN'S CURE

Washington, D. C., March 11.—Government tests of Dr. Friedmann's tuberculosis vaccine were begun here today in the hygienic laboratory. Director John F. Anderson, chairman of the board, appointed by Surgeon General Blue, of the public health service to investigate the new remedy, returned today with cultures placed at the government's disposal by Dr. Friedmann and tests on animals and other culture media were at once begun.

MAY REVEAL SECRET.

New York, N. Y., March 11.—When Dr. Frederick P. Friedmann returns from Montreal for which city he left last night, to demonstrate his tuberculosis vaccine, he may reveal his secret.

"On my return from Canada," the doctor is quoted by his secretary as saying, "I shall deliver accurate and scientific lectures on the preparation and application of the vaccine."

These lectures will be delivered before the medical bodies, although just when or where has not been finally determined. Dr. Friedmann also may find Bellevue hospital, which is the largest of the city hospitals, opened for him for further demonstration here when he returns. It is learned that Dr. John F. Anderson, director of the hygienic laboratory of the house health service, has opened negotiations with the directors of the hospital for the admission of Dr. Friedmann.

IN MONTREAL.

Montreal, Canada, March 11.—Dr. Friedrich Franz Friedmann demonstrated his treatment for tuberculosis at the Royal Edward Institute here today. A large crowd of sufferers from the malady waited outside the building all morning for him to make his appearance.

Prior to visiting the institute, Dr. Friedmann was taken to the medical laboratory of McGill University, where he prepared his vaccine.

"My first step in Montreal," Dr. Friedmann said, "will be to treat cases of visible tuberculosis in the presence of physicians, and thereby accomplish the double purpose of instructing them and proving the efficiency of the use of live germs in tuberculosis. What I mean by visible tuberculosis is fungus on the knee, for instance, visible to the eye."

Thirty cases in all were treated by Dr. Friedmann here today. While he was holding his office, the throng of sufferers outside the building was swollen by hundreds. They were all turned away. The hospital authorities, touched by the place, gave them medicine and arranged for those in advanced stages to return again for regular treatment.

"BEARS" ATTACK UNION PACIFIC STOCKS TODAY

New York, March 11.—After several days liquidation the stock market was in a position today to respond to the exhibition of strength of Americans in London and indications that the political situation abroad was clearing. Many traders took the view that the market again had been oversold and pointed to the celerity with which prices improved when bears attempted to cover. Yesterday's losses were more than retrieved in short order. Reading, Steel, Southern Pacific, St. Paul, Erie, Amalgamated and Smelting sold above Saturday's close.

Slight concessions were made from the best figures of the forenoon and business became small. Foreign interest took back much of the stock unloaded here lately. London and the continent buying 20,000 shares.

New York, March 11.—Bear operations attacked Union Pacific on the failure of the directors at their meeting today to give out definite information regarding the prospect for the dissolution plan. Union Pacific reached 2 points and sold slightly below yesterday's final price. Canadian Pacific gave way three points and a half.

The market closed firm. Some high priced coal stocks turned weak and there was active selling of Pennsylvania, despite an improving tendency elsewhere. Covering of shorts in Union Pacific carried up that stock briskly again and amalgamated and steel returned to their high figures.

MISS A. MUGLER
SOUTHEAST CORNER PLAZA.

LOCAL ITEMS.

THE WEATHER.

Santa Fe N. M., March 11.—For New Mexico: Cloudy with rain tonight or Wednesday; not much change in temperature.

Johnston's candy at Zook's Pharmacy.

Tailors to Women.—Unexcelled styles, fit, and best materials that money can buy. W. H. Goebel Co.

The Art, Music and Literature Department of the Santa Fe Woman's club will not meet Thursday owing to the serious illness of Mrs. Henry Dendahl.

Elegantly Furnished Rooms for rent. The finest rooms in the city, having electric light, steam heat and baths. The European Hotel, centrally located. State Progressive Headquarters in the hotel.

Ladies' Attention—I have just received a fine line of spring styles for suits, jackets, skirts and long coats. Come and inspect them. Prices reasonable. Julius Murralt, 101 Washington avenue.

From 30 to 52 Degrees was the range in temperature here yesterday and the average relative humidity was 42 per cent. At 6 p. m. today the mercury stood at 33. Yesterday was a partly cloudy day somewhat windy at night with a southeast wind, followed by a light snow.

A large, front room for rent with board. Suitable for husband and wife. 107 1-2 Washington Ave.

Anderson Brothers Parcel Delivery Packages and messages delivered to any part of the city, 10 cents. Day or second, and minute in the boy. Our motto: "Prompt service and safe delivery." Office 214 Palace Ave. Phone 203 J.

Warranty Deed—A warranty deed was filed in the office of the county clerk by Frank and Aniceta Abeytia to Gross Kelly & Company, for land in precinct four near the depot. A deed also was filed by Collier and Owen, real estate agents, to Gross Kelly & Company for two lots in precinct four. Zook's Pharmacy will continue to handle Johnston's chocolates.

There is no real competition in Santa Fe for the Capital Tailor for he is not in competition with the sweat shop clothing "made to order" at some place in the east. Here you can see what you get, pick it out from his large assortment and you know who makes it. He makes it right too, or no money, and the hundreds of suits now being worn by Santa Fe's best people, is the best recommendation. Beautiful spring and summer patterns. Order your Easter suit right now and you will have it in time.

Club To Entertain—The "Roney Boys" are expected to arrive at 6:20 p. m. today and while here they will be entertained by the Good Fellowship club of which Elmer Friday is chairman. The boys will sing at the Elks tonight and it is said there will be a large audience as their musical treat has been well advertised and has made a great hit in other cities.

Triads, Extraordinary and Quintette chocolates. Innovation Sweets, Swiss Style Milk Chocolates Caramels, all Johnston's, to be found at Zook's Pharmacy.

Sunnyside Dairy—The Santa Fe Products company on March 7th purchased the dairy business and part of the herd of G. W. Jacobs, proprietor of the Sunnyside Dairy, and will operate the new business in connection with their large interests now doing business in Santa Fe. This firm has now one of the most complete plants of the kind in this section of the country and is considered a credit to its promoters and the "City with the Open Gate."

WIFE OF DR. HYDE
WITNESS FOR DEFENSE.
Kansas City, Mo., March 11.—Mrs. F. Clarke Hyde, wife of Dr. Hyde and principal witness for the defense in the Hyde murder trial, testified today.

Beyond a statement that in her opinion, Dr. Hyde knew nothing concerning the contents of Colonel Swope's will, her early testimony was perfunctory. She told of the going to the Swope home in the fall of 1909 with her husband when he was called there to see Moss Hutton. She said Hutton died within a half hour after their arrival.

BOYLE TESTIFIES
Chicago, March 11.—Receiver F. A. Boyle, receiver of the United States land office at Juneau, Alaska, resumed his testimony today in the trial of Albert C. Frost and four other defendants charged with conspiring to obtain Alaska coal lands by dummy entries. Boyle identified original land documents purporting to show that the conspirators used sixty four names of alleged dummies to get that number of 160-acre claims.

Among the government witnesses, it is stated, will be Duncan H. Stewart, of New York, and S. E. Ward, Alaska, who was discharged as a defendant at the opening of the trial.

STUDENTS AIR VIEWS ON LEGISLATIVE MATTERS.
Denver, March 11.—The views of faculty and students of Colorado College on legislation pending before the Nineteenth General Assembly was made known to the legislators in a petition received at the capitol today.

Haven't You Some Old Furniture That You Would Like to Refinish?

That old shabby looking chair you have placed to one side or that scratched up dining room table which you have given up as unsalvageable and unattractive at small expense. You can do the work yourself, too. How? Just this way. First remove the old finish with

Johnson's Electric Solvo

This preparation will take off all the finish down to the clean wood. Then if you discover that your chair, clock or whatever it may be, is made of some expensive wood like mahogany or rosewood, wipe it perfectly dry and then apply a coat of Johnson's Prepared Wax. Or, if you find that your furniture is made of ordinary wood apply a coat of Johnson's Wood Dye, desired shade, such as mahogany, walnut, oak, French oak, etc. This prepares the wood for a finish that is difficult to distinguish from the genuine wood. Then apply

Johnson's Prepared Wax

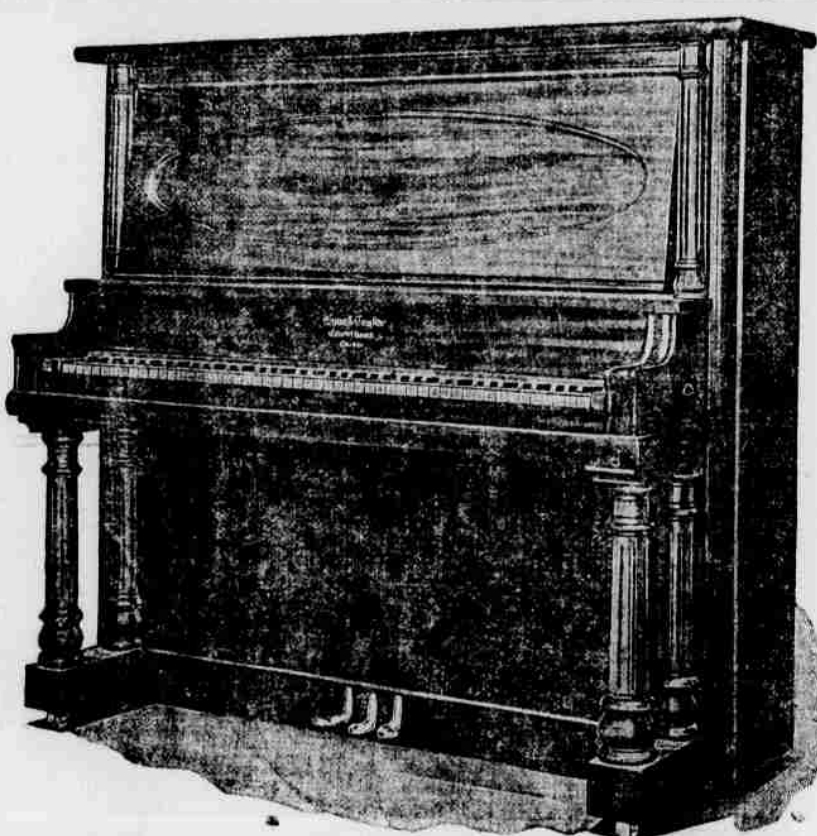

"A Complete Finish and Polish for All Wood"
It produces a rich, dull finish that is so much desired, but rarely produced. Fine for polishing all furniture and wood-work, no matter how finished. Prevents scratches from showing; marred spots can be touched up without going over the entire surface. Try it.
Ask for FREE book, "The Proper Treatment for Floors, Woodwork and Furniture." Practical and interesting.
Johnson's Electric Solvo and Johnson's Prepared Wax are sold and recommended by

Piano Contest on the Move

Many Changes in the Positions. The Wide-Awake Candidates Forging Ahead!

During the past week the Contest Manager has been doing considerable thinking and wishing that each of the candidates in this big contest would work on the most effective methods, for doing beats wishing a thousand ways, only it is harder.

It sometimes happens, therefore, that the man who can tell you how to do a thing is unable to do that very thing himself. Now, we don't want to be in that position, but are going to give all candidates a word of advice.

First, opportunity has got to be worked out and fussed and bothered in order to reach the goal of success. There is no push button placed conveniently on the front door, by means of pushing which somebody else will achieve results for you.

The New Mexican Printing Company and the Contest Stores have furnished the opportunity, but if you will just get one end of the crow-bar, figuratively speaking, and bear heavily on the other you will turn over these opportunities to your own advantage most effectively.

All this leads up to the following point: We would compare the DUE BILLS to a CROW-BAR. They are certainly a great help to any active candidate. They help wonderfully to lift the heavy load. They mean double votes and practically 100 per cent free votes.

LOOK OVER THE LIST BELOW AND PICK OUT ONE OF THE CANDIDATES AND HELP THEM IN THIS CONTEST. It will cost you nothing to help some friend. Remember the contest stores are the following:

THE MODERN GROCERY CO., JOHN PFLUEGER,
THE SANTA FE HARDWARE & SUPPLY CO.,
THE NEW MEXICAN PRINTING CO. (Subscriptions)

It is the snap and progressiveness of these merchants that made this contest possible. Show your appreciation by taking interest in the contest and patronizing them.

THE STANDING OF THE CANDIDATES IS AS FOLLOWS:

Lulu Krick . . . 192,455	Carmen Abreu . . . 37,595	Margaret Miller . . . 10,360	Laura Montoya . . . 3,160	Lola Michaelson . . . 1,210

Mrs. Clay Patterson . . . 41,100	Lucita Sena . . . 14,630	Mrs. Will Parsons . . . 3,445	Lucy Ortiz . . . 1,295	

Be Very Careful and Put On Each Ballot the Name of the Candidate You Wish to Vote For, as there were at one count over 700 votes thrown out on that account.

Get Busy and get one of these Fifteen Pianos

SUBSCRIPTIONS TO THE SANTA FE NEW MEXICAN

COUNT FAST. A year's subscription is good for 6,000 votes and to each of the weeklies 1,000 votes. Have you ever thought of the possibilities of soliciting subscriptions or getting your friends to pay up their subscriptions? One of the easiest ways to get away up in the race. Old subscriptions count double.
