## CENTRAL BANK SOLUTION OF MONETARY PROBLEM

Scheme Proposed by President Reynolds of American Bankers' Association Has Administration's Endorsement.

TAFT AND ALDRICH TO URGE ITS ACCEPTANCE

Powerful Opposition Looked for Despite Varied and Eloquent Arguments Furnished by Panic of 1907.

[By Morning Journal Special Leased Wire] Washington, Oct. 5.—One eloquent fact, that with officers overflowing with gold, America was obliged to appeal to Europe for relief in the panic of 1907—is a strong point of the argument that will be made to congress by the advocates of a revision of the monetary system of the country. According to the treasury statistics produced by George H. Reynolds, president of the American Bankers' association, in the course of his statement to that body, when the first blast of evil times came in 1907, the United States treasury held over one hundred million dollars more gold than the great national banks of England, Germany and France combined, while circulating outside the treasury, among the national and state banks and the people, was at least twice the gold treasure held by all of those great European banks. Yet this vast hoard in the United States was entirely unavailable. The credit of the national government stood unimpaired, but the business interests of the country were crippled for lack of the currency which is their life-blood, and only a resort to the issue of clearing house certificates prevented the panic from assuming greater proportions than it did.

Congress must meet this situation in the near future, for the legislation that was enacted a little over a year ago was but temporary in its nature and must be either supplanted or re-enacted into permanent law. This realization of the need for action by the national legislature has served to direct attention to various projects that have been advanced as proper solutions of the problem, and first and foremost among them stands the proposed national central bank. The scheme stands in this relation to others for a double reason. It is the common belief that it will form the basis of the currency legislation to be recommended by the monetary commission and President Taft, in his recent Boston speech, has signified his own favorable disposition towards the project. Consequently, it is timely and appropriate to disclose to the public just what is believed to be in the minds of the president and Senator Aldrich and the latter's seventeen colleagues on the monetary commission when they refer to the central bank; for, undoubtedly, there is a great lack of information even among bankers upon this subject.

Mr. Reynolds again is probably a competent authority, and in his Chicago speech he sought to outline this important project. Here he pointed out, what to be a bank of the people and for the people. The people were to be the stockholders, for anyone would be privileged to buy the bank stock just as he might a government bond. A small interest on such an investment would be guaranteed by the government and by the stockholders. Political control of the great bank would be made at least extremely difficult by the life appointment of the officers. Integrity of operation would be assured by a board of supervisors, appointed by the president, the secretary of the treasury and the comptroller of the currency (subject to the approval of the senate), for alternate terms of at least eight years to bridge over political mutations. Thus would be met the objections founded upon the history of the old United States bank that the central bank might be prostituted to political uses and be made a powerful engine for the perpetuation in power of one party. It is not intended that the central bank should support the credit of the nation; that must stand or fall by itself. If the national government needs funds, it it spends more money than it collects by taxation, it must continue in the old way to borrow money from the world at large by the sale of bonds.

For the single purpose of this projected bank would be to safeguard the business interests of the people in their private relations. If there were need for more money for business purposes, the bank would supply it by notes, and if there were a plethora, in dull times, these notes would be withdrawn rapidly. Government assistance to the institution would be limited to the deposit with the

central bank of all government funds how in the national banks. Perhaps that feature of the project would be obnoxious to the existing banks, but it is hoped that they would find their compensation in being relieved from their present burden of carrying the whole weight of responsibility for increases in the circulating medium to meet sudden demands of business. At any rate, there would be no interference with the most profitable feature of the banking business, for the central institution would not receive deposits from individuals.

The question as to how the business man is to benefit by a central bank is sought to be answered by the statement that the project included a provision for the acceptance of good commercial paper as a basis for the issue of money. Such paper would represent actual transactions between solvent concerns—all short time credits—and sure to be redeemed when the transaction, the sale and delivery, was concluded. Of course, there would be a reasonable collage reserve to maintain equilibrium.

Such, in brief, is a bare outline of the plan, which, with minor details, probably will be laid before congress as an accomplishment of the report of the national monetary commission. That it will meet with fierce and prolonged opposition can not be doubted and this, too, in spite of the best efforts of the administration to have the matter regarded as non-political. The mere suggestion of a central bank already has sufficed to excite deeply the great banking interests and the line of division began to be apparent at the last bankers' convention at Chicago. Many of the bank officers regarded the project with deep suspicion. They were told that no encroachment upon their business was contemplated beyond the withdrawal from their vaults of the government's funds; but they regarded the measure as the opening wedge for the destruction of the most lucrative portion of their business and viewed with anything but favor the plan whereby the government bank was to enter into competition for the enormous discount operations which gave them very great influence in the industries of the country. Possibly their objections can, in a measure, be weakened by a recourse to some other means of securing a basis for the circulating notes of the central bank than commercial paper, such as an enlarged reserve of gold and silver, or even gilt-edged mortgages on real property. But these very suggestions probably would call forth a new army of enemies to combat the proposition; for not only small banks, but thousands of wealthy individuals, find a large part of their income in returns from mortgages, while the lack of up in government vaults of hundreds of millions in coin or bullion would arouse bitter opposition from the advocates of the perfectly elastic currency. It may be that the existing political parties will be divided on this great question and that there will be a new alignment in congress when it is broached. Indeed, there is some reason to believe that the administration would prefer to wage the battle on this basis, but the one assured fact that in the consideration of this subject congress in the near future will plunge into one of the most prolonged and hard-fought contests it has known since the days of the "sixteen to one" struggle.

## SAYS RECEIVER IS NOT TO BE ASKED

RAILROAD MATTERS NEARING ADJUSTMENT

Bondholders' Committee and Principal Creditors Do Not Desire Receiver for New Mexico Central.

"If a receiver is to be asked for the New Mexico Central railroad I have heard nothing of it," said Attorney Neill B. Field yesterday afternoon. Mr. Field represents the interests of a number of the larger creditors of the road and is in a position to know what is going on. "Counsel representing the Dominion Construction company tell me that they do not propose to ask for a receiver. I believe the members of the bond holders' committee have no such intention and I have no reason to believe that any such action will be taken."

Mr. Field indicated that instead of desiring a receiver, the larger creditors of the road were very much interested in preventing any such thing and that everything now pointed to an early and generally satisfactory adjustment of the affairs of the road.

"I have heard the rumor of a proposed application for a receiver for several days," said Mr. Field, "and have tried to find some basis for it or to find its origin, but thus far have been unable to do so."

Others interested in the railroad's affairs yesterday denied that any of the larger creditors proposed any effort for a receiver and agreed that the indications were favorable for a settlement of affairs which will result in the completion of the road.

## TWENTY EIGHT DIE IN MINE DISASTER

EXPLOSION WRECKS WORKINGS AT NANAIMO

Victims Caught in Flaming Tomb; Scant Hope Is Held Out for Saving Any of Them Alive.

[By Morning Journal Special Leased Wire] Nanaimo, B. C., Oct. 5.—Twenty-eight lives are believed to have lost in an explosion that entombed more than 50 men in the Extension mine of the Wellington Colliery company here this morning.

Twenty-five of the imprisoned men were rescued, but the rapidly spreading fire prevented rescuers from completing their work. Five bodies have been recovered and the workers are making every effort to force an entrance into the two levels affected by the explosion in an effort to save any who may be living and recover the bodies of the dead before they are consumed.

The known dead: THOMAS O'CONNELL, ROBERT WHITE, JAMES MOLINEUX, D. IRVING.

—MISRE.—The accident occurred at 2 o'clock this morning. The force of the explosion was terrific, blowing out stoppings and unshaking doors. The first effects were confined to the stope, in which it occurred, but later the fire spread and is now burning in two levels.

Rescuers hurried to the mine from the neighboring towns. While hundreds of men are available for rescue work, conditions in the mine are such that not more than 50 men can thus be employed, the others being compelled to stand idly by and watch the attempts of their fellowmen to force an entrance.

The fire is constantly gaining headway, and while it continues there is little hope of the rescuers being able to reach them. Should the flames die down the rescuers may be able to force an entrance late tonight.

All the men rescued so far are badly injured.

The men employed in the collieries on Vancouver Island are of the best class of British miners and all are well paid, and have comfortable homes.

The Wellington colliery company, which owns the Extension mine is controlled by British Columbia capitalists, Lieut. Governor James Dunsmuir being the head of the corporation.

## MILLION DOLLAR MINE LITIGATION SETTLED

Council Bluffs, Ia., Oct. 5.—The famous million dollar Doyle-Burns mining suit which has been in the courts of this state for several years has been settled and this afternoon, in the district court at Glenwood, where the case was to have come on for trial next week, a stipulation was filed, signed by attorneys representing the litigants. Each side is to pay half the costs in the case which will amount to many thousands of dollars. The terms of settlement are not divulged in the stipulation and cannot be learned. This case has three times been tried.

## NEW FEDERATION OF LABOR IN WYOMING

Cheyenne, Wyo., Oct. 5.—A movement to counteract the activities of the Industrial Workers of the World and at the same time to wield a greater political power, is believed to be the impelling motive of the Wyoming State Federation of Labor, which has been organized and will establish headquarters here at once. James Buckley of Cumberland is president. The organization includes all the labor bodies of the state including the United Mine Workers with 10,000 members. The organization has been perfected so quickly that but few knew of it.

## RUNAWAY HUSBAND FOUND AFTER 10 YEARS

Cheyenne, Wyo., Oct. 5.—Elmer Skomore, Elliott Eashy, formerly of Pittsford, Ill., disappeared ten years ago, has been found in Sheridan, Wyoming.

He left Pittsford ten years ago. He was found recently running a popcorn stand in Butte, Mont., where he is married to another woman. His first wife brought suit several years ago against a fraternal organization for his insurance and the lodge investigation has resulted in his discovery.

## MEXICAN MINERS HAVE CLOSE CALL

Trinidad, Colo., Oct. 5.—Eight Mexicans were entombed for more than an hour by a cave-in in the Jeffries mine today. All were rescued unharmed.

## LETTER OPENS NEW CHAPTER IN POLAR FIGHT

Peary Little Better Than Pirate According to Document in the Hands of Canadian Arctic Explorer.

WRITTEN BY COOK IN WILDS OF GREENLAND

Claims Commander Confiscated Supplies, Sold Them to Natives and Prevented Relief Expedition Starting North

[By Morning Journal Special Leased Wire] Quebec, Oct. 5.—Captain Bernier of the Canadian steamer Arctic, today arrived here today from a cruise in the Arctic regions. Captain Bernier said the northwest passage had been negotiated. First Mate Green, in May of this year, with a party of six selected men drove over the ice westward, before returning to Etah suffered terrible hardships.

The dogs all had to be killed for food, and the men arrived at the winter headquarters dragging their sledges in the last stages of exhaustion.

## LETTER CARRIES UGLY CHARGES AGAINST PEARY.

Quebec, Oct. 5.—Captain Bernier of the Canadian steamer Arctic, today made public a letter written to him by Dr. Frederick A. Cook, May 22, and delivered to Captain Bernier on September 1, at Epernavik, Greenland, saying:

"My dear Captain—I have to write you the first letter after having been sealed behind ice barriers for two years. It was your supplies, so kindly left in charge of Mr. Whitney which aided me greatly in getting to Epernavik. All my other property had been a relief station for Dr. Cook, Murphy, however, was instructed not to engage in any relief efforts; not to allow Eskimos to cross and search until March of the following year, 1909. My large store of supplies and my station was used for barter with natives to satisfy Peary's commercial greed."

"Fortunately we were able to work out our problem without relief efforts except as you offered. We have pushed into the border center and picked up the polar prize, but the effort was dangerous beyond conception. The splendid assistance which you have given and the liberality of the Canadian government in sending the ship is a happy contrast to the hindrance and injustice of one of my own countrymen."

Describing the journey to the pole, Dr. Cook says:

"Starting from Annatook on February 19, 1908, we crossed Ellesmere land, pushed along its western coast to the polar sea, feeding ten Eskimos and 100 dogs on route on musk ox and bear."

"From 82 north I started with but two young Eskimos and 26 dogs pulling two sledges and supplies for 80 days. The ice was fine after crossing 84 degrees."

"Trackers land was sighted and was passed and a new land found to the north of it, extending 85 degrees. Beyond no land was seen. The pole was reached April 21, 1908. The return was forced slightly westward of the northward route, but about 35 degrees we drifted east and south. Below 84 we had drifted with an active pack."

"We were helplessly carried to the west, unable to reach our caches along Nansen sound. We were pushed into Prince Gustave sea with food and fuel exhausted. Still unable to press eastward, we went with the ice to the

## WRIGHTS WORK TO PERFECT MACHINE

WILL GIVE NO MORE PUBLIC EXHIBITIONS

Aviators Have No Desire to be Classed as Showmen and Will Bind Efforts to Improving Motors of Aeroplanes.

[By Morning Journal Special Leased Wire] New York, Oct. 5.—Unless some change of heart shall alter a decision announced by Wilbur Wright, the spectacular flight made here yesterday is the last which he or his brother Orville will make in public.

"Hereafter," said Mr. Wright, "we shall devote all our efforts to the commercial exploitation of our machines and only fly as a matter of experiment to test the value of whatever changes we decide to make in their construction."

Mr. Wright added that neither he nor his brother wished to be looked upon as show men, and that all efforts to fly for exhibition purposes would be rejected.

Wright left for Washington tonight to continue the instructions of army officers. He expects to pass two or three weeks in teaching Lieutenants Lahm and Foulkes and other officers.

After that he will go to Dayton and engage for the manufacture of his aeroplanes on an extensive scale.

"We have received many orders," he said, "but have fixed no time for delivery as yet. We are making a serious study of the aeroplane. Every time we go into the air we make a study of some part of the mechanism or some peculiar weather condition with a view to improving our machine. We could not do that at hired attractions."

"I regard this flight of yesterday as a different proposition. My brother and myself regard our experiments as being in the same class with Fulton's experiments. We are working with an art that is still in its infancy. So I wanted to take part in this celebration and thus pay my respects to the man who had the nerve to build the first steamboat."

"The accident yesterday afternoon, though me a lesson—that until motors are perfected we shall have no perfect aeroplanes. The science of flying now depends upon the motor. My aeroplanes seem all right, but my motors are not. I hope the day will come when we shall have a perfect motor."

South. Polar bears came to our rescue as life savers. We then went into Wellington channel, hoping to be able to reach whalers in Lancaster sound, but we were soon stopped by falling food supplies and young small ice.

"With no game this short route to an early ship was no longer possible and to satisfy the pangs of hunger we worked to Joe's sound. Here after a long run of hard advent we by hand and sledge a cruel necessity forced us into winter camp in September at Cape Sparke, without fuel or food, ammunition or winter clothing, with no dogs, no guns."

"Our situation was almost hopeless, but fortune came our way. Rows and arrows, harpoons, lances and musk implements were made. The musk ox and bear were taken with lines. The lance knife secured an small game. Foxes were trapped, walrus and seals attacked and secured in our little folding canvas boat. An underground den was built and the winter of 1908-1909 was passed with a taste of nothing save fresh meat. We had not a morsel of civilized food, not even salt."

"A new equipment was devised and as soon as the sun of 1909 rose over the hills of North Devon we started for Annatook in February, 1909, dragging dried musk ox meat as food and melted tallow as fuel for 30 days on sledges. Deep snow, bad ice, open water and continued storm made the return slow and arduous. We reached Annatook after a run of hard luck on April 5. Here we were met by Mr. Whitney, only to find that Peary's men had misused our station with its equipments under the protection of Mr. Whitney. We enjoyed good health at all times."

## COOK REGAINS GOOD WILL OF COPENHAGEN.

Copenhagen, Oct. 5.—Professor Torp, the rector of the university here has received the following cablegram from Dr. Cook:

"The press reports are incorrect. My records will go to you first. (Signed) 'FREDERICK A. COOK'."

According to a cablegram from Copenhagen received yesterday, it was said that Dr. Cook's willingness to resign the university of Copenhagen to waive its claim to the first examination of the records of his journey to the North pole had caused keen disappointment in Denmark.

Dr. Cook after his lecture in Baltimore last evening, said: "A wrong impression has been received in Denmark as to just what I said in Washington. I am glad to announce that I shall adhere to the original plan to have the university of Copenhagen make the first examination of my records, but I shall ask that university to withhold the announcement of the result of such examination until the records shall have been examined simultaneously by all the

geographical societies of the world. "Immediately after they have been examined by the university of Copenhagen, duplicate copies of my records will be submitted to all the geographical societies of the world and to any other scientific body desiring them."

Dr. Cook's cablegram to Professor Torp has created an excellent impression throughout Denmark. The Danish people who are most anxious to ascertain the result of the examination of Dr. Cook's data, are disappointed, however, over the report that the explorer has requested the university to keep its verdict a secret until his records have been investigated by other geographical societies of the world.

## NEW YORK ALDERMEN PLAN RECEPTION FOR COOK

New York, Oct. 5.—At a meeting of the board of aldermen today a committee was appointed to make arrangements for a public reception for the city's hero, Dr. Cook, in recognition of his Arctic exploration.

## PRESIDENT SCHURMAN CONGRATULATES PEARY.

New York, Oct. 5.—The following message from President J. C. Schurman of Cornell university, to Commander Peary has been received in this city from Ithaca, N. Y.

"Robert E. Peary, New York. "Cordial congratulations on your discovery of the North pole. Superb triumph of organization, skill and endurance. Regret Marvin is not here to share in your triumphs. (Signed) 'J. C. SCHURMAN'."

## AMERICANS RELEASED FROM MEXICAN DUNGEON

Unfortunate Florida Fishermen Win Liberty but Lose Their Vessel.

Pensacola, Fla., Oct. 5.—After being held in a Mexican prison at Progreso since September 4, and for the first seven days not even allowed to communicate with the American consulate, Captain Joseph Schless and seven men of the fishing schooner Caldwell H. Colt, of this port, were released today according to a telegram received by the owners of the vessel from the American consul.

The Mexicans have refused to give up the schooner, having lodged a formal complaint against her for poaching.

The master of the schooner declared he was caught in the gulf storm of nearly three weeks ago and was so badly damaged that he went into Progreso for repairs, but was seized.

## KANSANS MAY LAWFULLY IMPORT INTOXICANTS

Wellington, Kan., Oct. 5.—It is not a violation of the state prohibition law to import liquor from other states, according to a ruling by Judge C. L. Swartz in the district court here today. The decision was given in the case of George Wright, charged with selling liquor. The defense proved that Wright and several friends had sent outside of Kansas for intoxicants.

The court refused to permit the case to go to a jury and dismissed Wright.

## GREEN GUILTY OF SMUGGLING CHINAMEN

FORMER IMMIGRATION INSPECTOR SENTENCED

Year in Santa Fe Prison Penalty for Participation in Conspiracy to Flood Country With Undesirable Asiatics.

[By Morning Journal Special Leased Wire] Los Angeles, N. M., Oct. 5.—Pleading guilty in connection with Chinese smuggling cases, William H. Green, a former active worker among the republicans at El Paso, and a former railroad man and former United States immigrant inspector was sentenced by Judge E. W. Parker, in the United States court, here today, to one year and one day in the penitentiary.

Green's arrest followed that of H. M. Maynard, a conductor on the Santa Fe railroad, who was found guilty of conspiracy to smuggle Chinese into the United States, and who was sentenced to a term of imprisonment at the territorial penitentiary at Santa Fe.

Green at first entered a plea of not guilty, but changed this plea this morning, and threw himself on the mercy of the court.

Green is an old time railroad conductor. At the time the offense was committed Green was employed at Albuquerque, N. M., as an immigration inspector. The prosecution claimed that Green and several employees of the railroad, among them Conductor Maynard and his negro porter, were engaged in a wholesale conspiracy to smuggle Chinese into the United States. The conspiracy was hatched, it is said, by the attempt of Conductor Maynard to bribe an immigration inspector at Santa Fe to release two Chinese found on a north bound train without the necessary papers entitling them to remain in the United States.

## TROOPS BOUND FOR FAR EAST CHEERED BY PRESIDENT

Watching Transport Sail for Philippines, Mr. Taft Is Seized With Desire to Resume Globe Trotting.

## SAN FRANCISCO WELCOMES THE CHIEF MAGISTRATE

Speeches, Parades, Drive Over City and the Inevitable Banquet Make Up Somewhat Strenuous Program.

[By Morning Journal Special Leased Wire] San Francisco, Oct. 5.—After spending the entire forenoon in the cities of Oakland and Berkeley, across the bay, President Taft was welcomed to San Francisco this afternoon by a throng which lined the walks in some places ten deep along the line of march extending over nearly three miles of the principal streets. The school children of this city, Oakland and Berkeley gave their joyous cheers for the president and as in other cities were one of the prominent features of his reception.

Visiting three cities and spending three-quarters of an hour on San Francisco bay, the president had a busy day. As he was crossing from the Oakland mole to San Francisco the army transport Thomas was setting sail for the Philippines, and by the president's request the revenue cutter McCullough, on which he was a passenger, was drawn up alongside the big vessel, whose sides were lined with soldiers and the families of officers. On the bridge of the transport the Philippine constabulary band, which was playing at the president's inauguration in Washington, was with him recently at Seattle, and was present this morning in the Greek theater at Berkeley when he made an address in that classic amphitheater, was drawn up and was playing "Hail to the Chief" as the president shouted across the water to the khaki clad soldiers:

"Good bye, boys. I wish you a pleasant voyage."

Answering cheers came back to the president. The propeller of the transport began to churn the water into a foam, a rippling wave spread from the bow as the vessel, gay with flags, gained headway, and the president looked wistfully toward the Golden Gate.

"Does it make you feel homesick, Mr. President?" asked Captain Butt, his aide, who, himself, had seen long service in the Philippines.

"Indeed it does," replied Mr. Taft, "and I would give anything if I were going with them."

The president reached San Francisco bay early this morning with a typical fog hanging over the cities that front the harbor. Before 11 o'clock, however, the sun had burned its way through the gray mist clouds and when the president reached San Francisco at 1 o'clock the day was one of blue skied splendor.

Berkeley had the honor of being the first city overlooking the bay to welcome the president. He was driven in an automobile to the Greek theater of the University of California, where he was welcomed by Professor Howard Mowse, who had served with Mr. Taft in the Philippines. The president made a brief address in which he declared that ideals in popular government were a splendid thing to cultivate, but that the man at the helm must be content with a compromise, must accept his responsibilities and "play the game" whether he succeeded in bringing the people to follow him or had to follow the people.

From Berkeley the president went to Oakland and made an address to an outdoor throng of several thousands. In both Berkeley and Oakland he received a hearty greeting from crowds lining the sidewalks of the long lines of march.

Crossing the bay on the revenue cutter McCullough and eating lunch on during the trip, the president upon his arrival in San Francisco was taken for a three-mile carriage ride through Market, Montgomery and Golden Gate avenues. He reviewed on Van Ness avenue nearly all of the public and parochial school children of the city. Next he laid the cornerstone of the new Young Men's Christian association building in this city and expressed again the great interest he always feels in Y. M. C. A. work.

Later in the day the president was the guest of honor at a reception at the Union League club. Tonight he was tendered a banquet at the Fairmont hotel by more than 400 residents of San Francisco, and later was entertained at the Press club. The president retired at midnight at the St. Francis hotel and will leave at 3 o'clock tomorrow for the Yosemite valley.

In his speech at the banquet tonight he reiterated his views on the subject of a merchant marine and

aroused great enthusiasm by his declaration that he would urge the passage of a ship subsidy law as one of the principal subjects in his forthcoming message to congress. Mr. Taft asserted that the country was ready for an experiment in the way of a subsidy. The extension of the Pacific trade is one of the objects of his administration, Mr. Taft said, and he added that he knew of no more important topic to which congress can devote itself.

"The business of government is not an easy one when you are in it. It has a somewhat different aspect when you are engaged in pulling the throttle or putting on the brake from the outside. The extension of the Pacific trade is one of the objects of his administration, Mr. Taft said, and he added that he knew of no more important topic to which congress can devote itself.

"No one the less the high standard set by these critics is of the utmost use in lifting up government and lifting up a people. The resultant feeling is an inspiration for higher things and being compelled either to modify or qualify your ideals in practical results is, after all, progress.

"I like to affirm that I am an optimist and an optimist with respect to popular government. If I were not I should not enjoy being in the business of government, but in that progress we sometimes have to give way in our theories to the views of the general public, and not infrequently years after we have to admit that, on the whole, the result which is reached by reconciling and compromising all the views of different people is better than if we followed with literal fidelity the theory of any one person."

### BARBARIC SPLENDOR PROMISED AT JUAREZ

Mexico City, Oct. 5.—Mexico is preparing to entertain President Taft on a scale of royal magnificence such as has been seldom witnessed on the continent. It has been announced today.

Orders have been issued which will carry to Ciudad Juarez on a special train the celebrated presidential silver and plate, comprising a great portion of the silver and china forming the baroque services of Emperor Maximilian. The set comprises several thousand pieces and is said to compare favorably in richness and splendor with the famed sets of the old-world royalty.

A special florist and huge quantities of flowers will be taken also.

The carriages to be used by President Diaz and his staff have been started for the border.

Massive Mexican columns are being erected in Juarez along the street in which President Diaz and Taft will appear.

Work is being pushed on the Hotel Juarez monument so that General Diaz can lay the cornerstone of the 117,000 shaft the memory of the man who forced Maximilian from the Mexican throne.

### HAPPY RESULTS

Have Made Albuquerque Residents Enthusiastic

No wonder sources of Albuquerque citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements that the following are but truthful representations of the daily work done in Albuquerque at Doan's Kidney Pills.

Mrs. G. Lensch, 119 East Lead avenue, Albuquerque, N. M., says: "For over a year I was subject to pains in my left side, but below my kidneys. It seemed as if there were swellings there and I could not make a move without suffering. The least twist of my body caused sharp twinges and when I took cold it always settled in my kidneys making me feel worse than ever. In the morning on arising, my back was very painful. Finally I was led to try Doan's Kidney Pills after hearing that a number of my friends had taken them with great success when suffering from a similar trouble. The contents of one box completely relieved me of the pain and distress and I have had no recurrence of the trouble. It is a pleasure for me to recommend Doan's Kidney Pills."

### GERMAN ALLIANCE FAVORS "DUTCH" TREAT

American Cashion of Buying Drinks For Others Strongly Condemned

Universal, O. Oct. 5.—The "treats" being had and to be had too strongly condemned according to a resolution adopted today at the closing session of the National German Alliance. The alliance would have stopped the practice of men buying each other liquor. The resolution also was passed favoring a merchant marine and opposing any action on the part of the states tending to restrict merchant shipping. The latter was aimed at a proposed constitutional amendment now pending in Maryland.

## TAMMANY CHOOSES OPPONENT FOR JEROME

Three-Cornered Fight for District Attorneyship Rages in New York; Fusionists Endorse Republican for Mayor.

(By Morning Journal Special Leased Wire) New York, Oct. 5.—The fight for the office of district attorney of New York county became triangular today when the democratic county convention nominated George Gordon Battle, an organization Tammany man, and former assistant district attorney for the place.

William Travers Jerome is running independently for re-election while the republican nomination fell to Charles S. Whitman. The resolutions said in part:

"Any opposition which our representatives have at any time offered to laws dealing with the registration or suffrage of the voter has been specifically based upon the fact that in all such attempted legislation, New York city has been singled from among the thousands of political divisions within the state and subjected to special laws evidently intended to harass, browbeat, annoy and if possible, intimidate our citizens in their undoubted right of exercising the elective franchise.

"No law can be made too rigid to receive our support provided that in its application it be made general throughout the state and all its political subdivisions, and not applied alone to the great democratic city of New York."

After considerable delay and some friction the factionist forces today formally endorsed the republican candidacy of Otto T. Hammond, for mayor.

George Gordon Battle, nominee for district attorney, is 40 years old. From 1892 until 1897 he was assistant district attorney of New York county by Tammany appointment and always has been closely identified with the organization. He is a member of the law firm of Battle & Marshall and was one of the counsel who defended Roland B. McInnes during his trial on a charge of poisoning Mrs. Kate Adams.

Joseph Hargraves, who in 1870 at the age of 18 years entered the city's employ as an errand boy in the finance department and advanced to the secretaryship of the board of estimates and apportionment, was nominated tonight by the democrats for president of the borough of Manhattan.

### INDEPENDENCE LEAGUE DESERTED BY HEARST

New York, Oct. 5.—William H. Hearst, whose attitude toward the municipal election has been in doubt since last night with a statement saying that he would not be a candidate for mayor but would support Justice Gaynor, the Tammany nominee, Otto Hammond he said:

"I think Mr. Hammond is an amiable gentleman, personally, but he is better fitted by nature and experience to get campaign contributions from the trusts rather than ballots from the people.

"Justice Gaynor is a good man and will make a good mayor, but I am sorry that Tammany is to be allowed to use his good name as a cloak for a southern raid upon this plighted city. The few dollars that he will give will cost this city many a million."

Notwithstanding Mr. Hearst's announcement, what is left of the so-called independence league has an announced intention of adhering with its views. There was talk of the league putting the third ticket into the field.

## UTAH SHAKEN UP BY EARTHQUAKE

Seismograph Records Three Sharp Shocks; Crockery and Nerves of Timid Suffer.

(By Morning Journal Special Leased Wire) Salt Lake City, Oct. 5.—Three sharp and distinct earth shocks were felt tonight. The first occurred at 7:42 and the last at 7:45. All three were felt at points in Idaho. Official announcements of the earthquake were received tonight from the government observatory here. The exact time of the disturbance is given as 7:40 p. m. The movement which from Salt Lake seems to have been both north and south, extended throughout the valley in northern Utah and is said to have been felt at Clark's Fork and Logansport. From Clark's Fork and Malheur some reports of three distinct shocks within two minutes.

Two shocks were reported by the seismograph at the University of Utah, the first at 7:41 and the second at 7:44 p. m. According to Dr. Frederick J. Beck, professor of geology at the university, the disturbances were the most violent ever recorded in this territory. The nature of the waves show, however, that the shock was recorded on every side of the seismograph and for this reason Dr. Beck says it is impossible to accurately determine the direction taken by the movement.

## DISHES RATTLE ON KNOB HILL IN OGDEN

Ogden, Utah, Oct. 5.—The earth shocks which were reported from Salt Lake this evening were felt here and in this vicinity.

Residents of the Knob Hill section of Ogden report that two distinct shocks were felt—one at 7:42 and the other at 8:24 p. m. Stories of houses with contents such as china and furniture, being shaken or disturbed by the tremor are numerous. Word from Plain City and West Weber, both in this county tell practically the same tale.

## COLUMBIA BANK TO REOPEN TODAY

Arrangements Made to Restore Oklahoma Institution to Officers; Will Have Six Million Capital and Surplus.

(By Morning Journal Special Leased Wire) Oklahoma City, Okla., Oct. 5.—Upon the acceptance of securities offered by the state banking board today by W. L. Norton and some associates, it was said tonight, on authority, that the Columbia Bank & Trust company's bank will be turned back into the hands of its owners probably tomorrow. The securities offered are said to have been brought from the east to supplement other paper offered by E. M. Putnam, of Oklahoma City, a prominent figure in the reorganization of the institution. According to Mr. Putnam, the company will have a capital stock and surplus of \$6,000,000 when the transfer is formally executed Judge Cutler at Lawton tomorrow will take action on the motion of C. W. Smithfield, in Guthrie today asking the dismissal of his suit as an intervenor, to restrain the state bank, commissioned from taking out funds of the Columbia bank.

C. B. Ames, acting for the National Insurance company, gave notice that he would ask the dismissal of the suit of that company. A certified check for \$25,000, the amount of the company's deposit, was paid to Ames. Only a few depositors applied for their money today. Bank Commissioner Young continued in charge and paid all who applied in the face of the restraining order of the federal court.

## OFFICER VICTIM OF UNKNOWN THUG

Salt Lake Policeman Shot Dead Within Sound of Police Headquarters.

(By Morning Journal Special Leased Wire) Salt Lake, Oct. 5.—Special police officer C. C. Riley, was shot and almost instantly killed by an unknown man tonight in a dark alley at the rear of the police station. At police headquarters it was said that the circumstances surrounding the actual crime are very mysterious. Riley and Officer Chase had been detailed to investigate the report of a holdup in the alley and they left the station for the scene taking different routes. Before Chase had proceeded far into the dark passage, he heard two shots and a moment later saw a man dash into the street from the far end of the alley. Officer Chase found Riley gasping for breath and unconscious. The wounded officer died a few minutes later.

Following the shooting Officer Chase made a statement at headquarters but was unable to throw any light on the affair. He declared that the unknown assassin evidently had been surprised by Riley while in the act of holding up a victim and to escape arrest, shot the policeman.

## AWAY GOES INDIGESTION, GAS AND ALL STOMACH MISERY.

Take a Little Diapiesin Now and Your Stomach Will Feel Fine Five Minutes Later.

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diapiesin in the house handy? This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a whole gamut of stomach five minutes after.

Tell your pharmacist to let you read the formula plainly written on these Diapiesin cases of Diapiesin. Then you will readily see why it makes indigestion, sour stomach, heartburn and other distress go in five minutes and believe at once in its merits as being of Gas, Eructation, of sour indigestion, Nausea, Headaches, Diarrhea, Constipation and other stomach disorders.

# Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

## MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

## WANTS COURT TEST OF CORPORATION TAX PLAN

American Street Car Manufacturers' Association President Disagrees With President Taft in Address at Denver.

(By Morning Journal Special Leased Wire) Denver, Oct. 5.—Active opposition to the corporation tax supported by President Taft, here less than two weeks ago was launched today at the opening business session of the American Street Car Manufacturers' Association. President James F. Shea, of Boston, in his annual address today, ranged himself unequivocally with the opponents of the corporation tax and declared that unquestionably the case will be carried to the courts for a decision on its constitutionality. He held that the tax imposed an additional burden upon the holders of corporation stock while it does not affect the income of bondholders.

Mr. Shea advocated the proposed amendment to the constitution giving congress the power to levy a tax on income "at least in case of emergency," holding it as more just and more likely to reach possessors of large incomes while not materially affecting others. Present sentiment indicates the adoption of strong resolutions setting forth the association's opposition to the corporation tax.

Mr. Shea's address also emphasized the magnitude of the industry represented in the present convention, which includes: Two hundred and fifty companies in the United States; 25,000 miles single track; 75,000 passengers cars; total passengers carried annually 19,000,000,000; gross annual income, \$440,000,000; outstanding par value of stocks and bonds, \$4,000,000,000.

Among the important departmental meetings today were those of claim agents and engineers. The claim agents discussed the problems of procuring witnesses to accidents and the relation of the companies to the press in case of accidents.

## WELL KNOWN CALIFORNIA EDUCATOR DIES SUDDENLY

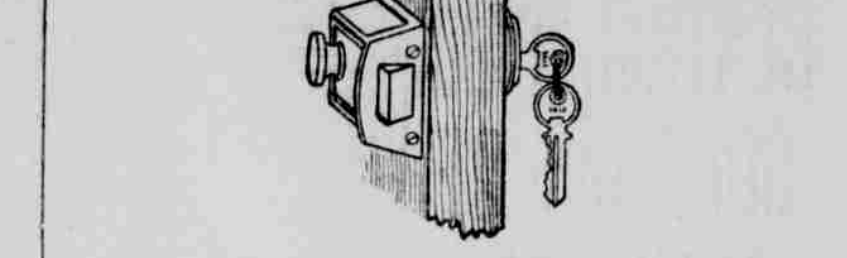

Oakland, Oct. 5.—Professor Irving Steinham, head of the department of mathematics at the University of California, for 17 years active head of the university during the absence in the east of President Benjamin Ide Wheeler, and designated to have received President Taft today, on behalf of the university, died this morning in a Berkeley sanitarium of uraemic poisoning. He had been in the sanitarium since President Wheeler left for Berlin three weeks ago.

## PASSENGER TRAINS CRASH AT CURVE

Spokane, Wash., Oct. 5.—Two Great Northern passenger trains collided on a steep grade near Durham, Mont., about 7:30 last night. One locomotive was derailed and passengers were thrown from their berths. Two women were badly hurt, but their names cannot be learned here. The wreck occurred on a curve which hid the engines from one another until too late to avoid a collision.

SERIES WITH THE  
WHITE SOXAlbuquerque Team Will Go to  
El Paso for Five Games with  
Fast Pass City Aggregation.

The Albuquerque Grays will leave for El Paso immediately after the close of the fair tournament and play the White Sox a series of five games, according to arrangements completed yesterday by Manager Padilla, of the local team. With the strong lineup which the Albuquerque boys will have when they go on against the White Sox, there is small doubt but that the Pass City bunch will have to make an impression on them. According to the present schedule the Grays will play here during last week, then play five days in El Paso, returning here in time to play two games with the Philadelphia Athletics, and then return to El Paso and endeavor to win first money in the tournament which begins there on November 1.

SANTA FE TEAM TO  
MEET GRAYS HERE  
SUNDAY

Ancient City Aggregation Arrives Saturday Night to Stay for the Tournament; Has Strong Line-Up.

With six entirely new players, among them Lockhart, who tried out with the Chicago White Sox in the early spring as a pitcher, and several other day players, the Santa Fe baseball club, reorganized, rejuvenated and with new blood injected into it, will arrive in Albuquerque Saturday night, prepared to remain during the week, participate in the baseball tournament and make a very stiff try for first money. Preliminary to the series of games to be played during the tournament, the Santa Fe club and the Albuquerque Grays will play a game at Traction park Sunday afternoon, commencing at three o'clock. The exhibition should be a rattling good one, both teams being composed of talented material. It is understood that the Santa Fe team is stronger now than it has been for many years, while the local aggregation has quite a few classy players. Nichols, the big boy who pitched a few innings against the Bloomer girls last Sunday, will be in the box for the Grays, while Lockhart will shoot them over the pan for Santa Fe. Briery, a Trinidad, will do the backstop stand for the Grays. Pettus will play first, Ambrose, an awful fast player, will play second and the old reliable Binger Corbett, will play shortstop. Binger arrived from El Paso at noon yesterday, with five bats and his batting average in a hot case. "Chin" Salazar, will be the only original Gray, who will work in the infield, playing at third base.

WHITE SOX WORSTED  
BY ALBUQUERQUE BLUES

The Albuquerque Blues and the Albuquerque White Sox, two junior baseball aggregations, fought it out yesterday afternoon, on the diamond on the corner of Cal and Broadway, victory going to the Blues after a hard scrap. The final score was three to two and the game went the full nine innings. The lineup for the game was as follows:

Blues: Stumpf, catcher; Bliton, house, pitcher; Elmo, first base; Clark, second base; Bass, third base; Hines, shortstop; Rube, left field; Camps, center field; Percifield, right field.

PHILLIES MAY STOP  
IN ALBUQUERQUE  
FOR TWO GAMESAmerican League Team Which  
Gave Detroit Such a Race for  
the Pennant This Season  
May Play Here Oct. 30-31.

Providing satisfactory arrangements can be made, the Philadelphia Athletics, the American league aggregation that gave Hughie Jennings' Detroit Tigers such a run for their money in the race for the pennant this season, may stop for two games in Albuquerque, Saturday and Sunday, Oct. 30 and 31. The Phillies will pass through here en route to the Pacific coast and are anxious to stop over and break the monotony of the long trip. Manager Jim Padilla, of the Albuquerque Grays has taken the matter up with the manager of the Athletics and will make every effort to have them stay over. It is said that the Philadelphia club will be given the glad hand in Albuquerque, where they have numerous friends.

HUNDRED THOUSAND

BALL GAMEPreparations for a Record-  
Breaking Crowd at Opening  
of World's Championship  
Series at Pittsburgh.

[By Morning Journal Special Leased Wire]  
Pittsburgh, Oct. 5.—With the aim of having the distinction of seating a greater number of persons than has ever attended a single baseball game, the management of the Pittsburgh National league baseball club is busily perfecting arrangements for the opening of the world's championship series between the Detroit Tigers and the Pittsburgh Nationals here next Friday.

At Forbes' field, some additional seats and a false fence located some distance from the present boundary are being constructed. Letters estimated to contain many thousands of dollars are being returned to applicants for seats as the reserved seat supply was exhausted last Saturday.

From present indications it is believed that 100,000 to 150,000 persons will attend the game here Friday, and Saturday. Spectators are coming from Portland, Ore., San Francisco and Denver. There will be delegations from all the cities embraced by the major leagues.

More than 200 newspaper men from all over the country will be here to write accounts of the battle. In addition there will be more than 100 telegraph operators present.

It is said that \$200,000 already has been placed by Pittsburghers and a greater amount is said to be waiting takers.

AFTER WEDDING SIX  
GRACE TIRES OF  
MATRIMONYKansas City Woman Pleads  
Guilty to Bigamy; Husbands  
Were Farmers and They  
Soon Bored Her.

[By Morning Journal Special Leased Wire]  
Kansas City, Oct. 5.—Grace E. Chapman pleaded guilty to a charge of bigamy in Justice Miller's court, at her preliminary trial here today, admitting she had married six men without having secured a divorce from any of them.

"Yes, I am guilty," she testified. "I married six husbands and I'm sick of matrimony. Most of the men I married were farmers. I'd live with them until I got tired of them and then leave. They were no firemen."

"Were you ever divorced?"  
"Not that I know of," Mrs. Chapman replied.

Mrs. Chapman was unable to furnish a bond of \$2,000 and was remanded to jail to await trial.

## Admiral Beresford in Kansas City.

Kansas City, Oct. 5.—Lord Charles Beresford, admiral of the British navy, who had been in Kansas City on business in connection with his Mexican cattle ranch, left for Chicago last night en route home. He said he did not know whether he could go direct to New York or make several stops on the way.

## A Hard Prescription.

A young man called his doctor and described a common illness that had beset him.

"The thing for you to do," the physician said, "is to drink hot water an hour before breakfast every morning."

"Well, how are you feeling?" the doctor asked a week later. "Did you follow my advice and drink hot water an hour before breakfast?"

"I did my best, sir, but I couldn't keep it up more than ten minutes at a stretch."—Exchange.

## Bad Sign.

FLOOD VICTIMS AT  
MONTEREY NEED  
HELP AT ONCEAmerican Consul-General in  
Stricken City Telegraphs  
Plea for Immediate Assistance  
to Mitigate Famine.

[By Morning Journal Special Leased Wire]  
New York, Oct. 5.—United States Consul General Hanna, at Monterey, Mexico, telegraphs that the condition of the Mexican people in and about that city is much more serious than any of the printed reports thus far would seem to indicate. His telegram says:

"We need corn, rice and beans in bags, blankets and clothing. Every club and charitable association in the United States should contribute something toward the relief of these afflicted people. Second hand clothing would be highly acceptable. Arrangements can be made with the railroads and express companies for free transportation. We need a carload of shell corn in bags so that we may send it to towns throughout the country on miles and burrows."

GENERAL ELECTION DUE  
IN BRITISH COLUMBIA

Vancouver, B. C., Oct. 5.—Announcement of the approaching dissolution of the British Columbia legislature probably will be made within a week by Premier McEwen, who is waiting for the appointment of a new lieutenant governor before applying for dissolution. The election is expected to take place about the end of November. The railroad situation is hastening Premier McEwen's appeal to the country. The government undoubtedly will submit to the new legislature in February some proposal to assist the coming of the Canadian Northern. The Grand Trunk Pacific is already heavily subsidized by the federal government.

LIBEL CASE AGAINST  
MISSIONARY QUASHED

## FARMINGTON MARATHON SUCCESSFUL EVENT

Annual San Juan County Fair  
Brings Out Fine Fruit Exhib-  
its; List of Prizes Awarded  
Exhibitors.

[Special Correspondence to Morning Journal]  
Farmington, N. M., Oct. 4.—Thir-  
teen miles in an hour and forty min-  
utes with three Navajos in the run-  
ning at the end was the result of the  
half marathon race which was the  
sporting feature of the annual Farm-  
ington fair just closed. There were  
five entries in the race, Bill Scott and  
four Navajos. One Navajo dropped  
out just before the finish of seven  
and a half miles and Scott quit on  
the twelfth mile. The three Indians  
finished well, one who set the pace  
being as fresh as ever apparently at  
the finish and looking as if he was  
good for the full marathon distance of  
26 miles. The race was an exciting  
event and evoked much enthusiasm  
among the spectators.

### FAIR FRUIT DISPLAYS

**LARGE AND BEAUTIFUL.**  
The fair this year was in every  
way a success, the attendance being  
satisfactory and the displays of San  
Juan county fruit large and beautiful.  
One exhibitor in particular, S. W.  
Wrightman, displayed 35 varieties of  
apples, 14 varieties of pears, six var-  
ieties of grapes, three varieties of  
plums, raspberries, currants and other  
fruits, the whole a wonderful demon-  
stration of what the country will do in  
producing fruit. Many other exhibitors  
had fine displays. Superintendent  
Shelton of the Shiprock Indian agency  
had a beautiful floral display on ex-  
hibition. There were displays of  
horses and colts, honey, vegetables,  
roses and other flowers, and the fac-  
tories art department was an attractive  
feature.

### YOUNG ARTHUR YANOW VISITED SOCORRO

Lad Determined to Take a Trip and  
Neglected to Let Parents Know—  
Will Return Today.

Henry Yanow, the Central avenue  
jeweler, was greatly relieved yester-  
day morning, after a night of grave  
anxiety, to hear from his young son,  
Arthur Yanow, at Socorro. The young  
man determined to take a trip Mon-  
day morning and thoughtlessly neg-  
lected to tell his father about it.  
When he did not return home in the  
evening Mr. Yanow became uneasy,  
and when a search of the city failed  
to disclose the young man, it was  
feared that he had met with mishap.  
He communicated with his father yester-  
day morning and will be home this  
morning.

## IRREPRESSIBLE RICE MAKES BREAK FOR SWEET LIBERTY

### DESPERATE ATTEMPT FOILED AT LAS VEGAS

Bunch of Criminals Caught  
Digging Hole in Wall of Jus-  
gado at Meadow City With  
Steel Forks.

[Special Dispatch to the Morning Journal]  
Las Vegas, N. M., Oct. 5.—Ed Rice,  
the only desperado who ever gave  
Sheriff Cleaves Romero the slip; the  
man who fought a running fight with  
Indians at Needles; shot one of his  
traders, thrashed a jailer, broke out  
of jail, was shot through the body,  
then broke out of a hospital, threaten-  
ing the attendants with a butcher  
knife, and was recaptured only when  
half dead from exhaustion, his chalk-  
ed up one more stunt to his credit.  
Rice headed an attempted jail deliv-  
ery in this city last night the attempt  
being foiled only by the vigilance  
of the jail guards. Rice organized a well  
planned scheme to dig a hole through  
the wall of the San Miguel county jail,  
where he is held pending trial on the  
charge of forging railroad pay checks.  
He was assisted by Frank A. Ross, a  
"vag" and Maria Vigil, under arrest  
for larceny, and several other prison-  
ers who secured a number of steel  
forks and some sharp tin from a  
hay fork and started operations on  
the jail wall. The men took turns  
about digging at the rock, the others  
meanwhile covering the noise of the  
work with singing and shouting, and  
other racket. This aroused the sus-  
picious of Jailer Enrique Sena, and  
the guards and after watching the  
prisoners for some time from an up-  
stairs window, they discovered the  
man at work on the wall.  
Rushing in on them they secured  
the tools and placed all the men in  
solitary confinement on bread and wa-  
ter diet.

### TARDY IN SUBMITTING SCHOOL CENSUS RETURNS

That the county school superin-  
tendent, with the one exception of  
J. V. Conway, superintendent of pub-  
lic schools in Santa Fe county, have  
failed as yet to make returns on the  
school census for this year, was the  
announcement made today by Terri-  
torial Superintendent of Public In-  
struction J. E. Clark. Some \$20,000  
is waiting to be apportioned among  
the various school districts of the ter-  
ritory, but the apportionment cannot  
be made until all the reports are re-  
ceived.

### Incorporation Papers Filed.

Incorporation papers were filed to-  
day by the Elliott and Barry Engi-  
neering company of St. Louis, with  
New Mexico headquarters at Loreto  
academy and Mother Superior Bar-  
bara as New Mexico agent upon  
whom process can be served. The  
company is capitalized for \$30,000,  
divided into 300 shares. Incorporators  
and directors are: James Barry, 150  
shares; H. Clement Oliver, 5 shares;  
Emil Sumner, 2 shares; Tillie A. Sla-  
ger, 1 share. All the incorporators  
are St. Louis people.

### BLACK LEG REPORTED ON THE UPPER PECOS

E. E. Van Horn, an inspector for  
the New Mexico cattle sanitary board,  
left Santa Fe today for the Upper Pe-  
cos, where it is reported that black  
leg has made its appearance among  
the cattle on the range. A thorough  
investigation of the report will be  
made.

### HORSES TO BE RETURNED TO COLORADO OWNERS

L. F. Avatt, a member of the New  
Mexico mounted police, has reported  
to the headquarters here that he has  
seized seven horses in Capitan, Lin-  
coln county, which were in charge  
of one William May, and which are  
alleged to be the property of a Colo-  
rado man. It is alleged the animals  
were mortgaged in Del Norte, Colo.  
They will be returned to their sup-  
posed owners after the matter of  
ownership has been investigated.

[Special Dispatch to the Morning Journal]  
Roswell, N. M., Oct. 5.—The post-  
office and plant of the Elida News at  
Elida, Roosevelt county, north of this  
city, were entirely consumed by a fire  
of unknown origin which started in  
the rear of the postoffice at 1 o'clock  
this morning. The entire loss was  
some \$8,000, with insurance of \$5,000.  
Nothing was saved from the printing  
office with the exception of one desk.  
The registered mail and the outgoing  
postboxes were all that was saved from  
the postoffice. The safe, containing  
the money, stamps and books had  
been moved to a new building to  
which the rest of the postoffice re-  
turns to have been transferred re-  
sults were the same, one-story affair.

## EPES RANDOLPH TO VISIT ROUTE OF NEW RAILROAD

Expected to Accompany Chief  
Engineer to Engineering  
Camps Between Gallup and  
Farmington.

[Special Correspondence to Morning Journal]  
Farmington, N. M., Oct. 4.—Ep-  
es Randolph, head of the Randolph line  
of the Southern Pacific in Arizona, is  
expected here in a few days accom-  
panied by J. W. Bogan, chief engineer  
in charge of the preliminary work  
on the new Southern Pacific line from  
Gallup to Farmington and Torrance.  
The visit of Mr. Randolph is expected  
to result in much faster work in clos-  
ing up the engineering work so that  
actual grading and track laying may  
be started as what will undoubtedly  
prove the most important piece of  
railroad construction in New Mexico  
for many years.

Mr. Bogan made a trip over the  
route during the week visiting the  
various camps, the nearest to Farm-  
ington being about 25 miles south of  
the "hogback." The men are working  
out a three fourths of one per cent  
grade with the shortest possible mile-  
age and in view of the bad weather  
conditions and recent storms and  
floods operations have been progress-  
ing rapidly. The grading and car-  
ving are being worked out with the great-  
est care by the engineers as the new  
"road to copper" road will have to  
carry immense tonnage of coal and  
merchandise and ore.

## LAS VEGAS GETTING GREAT RESULTS FROM SPUDS

San Miguel County Expert Re-  
ports 2000 Acres of Dry  
Land Under Cultivation Near  
the Meadow City.

[Special Correspondence to Morning Journal]  
Billings, Mont., Oct. 4.—We are  
getting remarkable results this year  
from potatoes grown on soil, writes  
George A. Fleming, secretary of the  
Commercial club of Las Vegas, N. M.,  
and we attribute it largely to the  
knowledge of Mr. Henick. Mr. Fleming  
has forwarded a statement of his re-  
sults made out by W. H. Henick of  
Las Vegas, to the secretary of the  
Dry Farming congress, which will  
be incorporated in the statistician's  
report to be presented at the coming  
session of the congress and published  
in the second Handbook of Informa-  
tion which will contain the official re-  
port of the proceedings of the fourth  
congress.

Mr. Henick, who is a potato expert,  
says there are about 2000 acres of  
dry land under cultivation in San  
Miguel county, New Mexico, and about  
200,000 acres possible of development  
under dry farming methods. The alti-  
tude is about 4150 feet. The average  
annual rainfall for ten years (average  
recorder is about 18 inches, the

maximum falling from May to Octo-  
ber. Dry farming methods and irri-  
gation are used in combination in the  
district and annual cropping is prac-  
ticed. Mr. Henick says:  
"I consider dry farming satisfac-  
tory from experience. Dry farming  
has been tested for about three years,  
but not fully scientifically. The crops  
grown most successfully during the  
last three years, mostly below aver-  
age rainfall and no new lands are  
being cultivated. Potatoes, sugar  
beets, potatoes, turnips, millet, cane,  
Kaffir corn and Indian corn. From  
two year's observation of results of  
deep or shallow plowing, I consider  
medium plowing, four to five inches,  
the best. Horticulture is attempted  
in a limited way and the showing is  
good, considering the method of cul-  
tivation and care. Alfalfa on experi-  
mental average makes good showing.  
The maximum yield of spring wheat  
recorded is 25 bushels. Oats range  
from 7 to 15 bushels, and potatoes  
from 84 to 120 bushels. I seed 20  
pounds of wheat, 25 pounds of oats  
and 450 pounds of potatoes to the  
acre, plow four to seven inches,  
depending upon conditions and harrow  
according to conditions and effect of  
the harrowing upon the ground. I  
would suggest summer fallowing every  
two years."

Mr. Henick suggests that dry farm-  
ers in that district dig stubble after  
harvesting and after heavy rainfall  
when dry enough. "Plow ground  
when good and moist, not wet," writes  
Mr. Henick. "Soil below 7 1/2 or 8  
inches of mulch should form a close  
moss, excluding air spaces, and there  
should be a good connection between  
plowed ground and the subsoil."  
Mr. Henick says a fair price for  
land in that district five years ago  
was \$1.25 to \$5 an acre, but today is  
\$12 to \$20. He states that conditions  
under which farming has been car-  
ried on this year have been rather un-  
favorable rains coming later than  
usual, most of the land being new and  
that which was undergoing second  
year cultivation not having been prop-  
erly handled.

## Everybody Is Getting Ready For Start of the Twenty Ninth New Mexico Fair

### LIVING SKELETON AND FAT WOMAN ON PARADE

NAT AND HIS CAMELS  
WITH BIG FREE SHOW

Industrial Parade During Fair  
Already Sure to be Most  
Gorgeous Pageant Ever  
Attempted Here.

Nat Reba, the carnival man, wired the management of the Twenty-Ninth fair yesterday that he will line up his entire big carnival outfit in the Trades Display parade of the fair.

Nat promises to turn out the fat woman, the living skeleton, the snake, the grand pandemonium, the man with the glass stomach, the gooseher, the dancer, the camels, the desert, the strong man and the wild man from Arizona.

Nat Reba, big carnival layout alone will make a parade worth going far to see and with this addition the great industrial pageant is bound to be a spectacular event. The American Lumber company, and the Santa Fe shops, Albuquerque's two biggest industries are making elaborate preparations to have splendid divisions in the parade and dozens of manufacturing houses and local merchants will be brilliantly represented.

There will be five bands in line and some of the floats being prepared by the business men will be marvels of decoration and ingenuity.

The Albuquerque business men realize the splendid advertising to be secured by participation in the parade and eager not to be left out of the display are taking a greater interest in being well represented than ever before. The committee on this parade has been busy day and night lately and the result promises to be something sensational.

Nat Reba will arrive in the city Thursday of this week, to make arrangements for installing his big carnival outfit.

#### STABLES TAXED TO ACCOMMODATE HORSES.

The horses for the racing tournament are coming in rapidly and it is keeping the track management busy to take care of them. It was necessary to provide extra stable room yesterday for some twenty more horses, all the stables being filled up and many are coming every day.

#### THOUSAND THOROUGHBRED SHEEP HAVE ARRIVED.

Several carloads of fine, thoroughbred sheep, entries in the sheep exhibit in competition for the Sheep Growers' \$200 trophy, and other prizes arrived in the city yesterday, and the sheep exhibit representing one of New Mexico's greatest industries will look all right.

#### SAN JUAN COUNTY COMING WITH CARLOAD.

Advises from Farmington are to the effect that the big exhibit of fruit and other products are coming from the land of the "Biggest Red Apple" are being prepared for shipment following the close of the Farmington fair. San Juan county is already noted for its abundance of fruit space in the exhibit hall for a carload of exhibits.

#### ILLUMINATED AUTO PARADE SATURDAY NIGHT.

It was announced last night that the illuminated automobile parade will be held Saturday night of fair week.

This should be one of the most beautiful spectacles of the week, but seven seventy-five and a hundred automobiles including many from outside points, all brilliantly illuminated according to the taste and ingenuity of the owner, flashing with incandescent lights, and Chinese lanterns, and gorgeous with bunting and color. The New Mexico Automobile association members are all busy in preparation for this event.

#### ARMY SURGEONS SHOULD HAVE FREE HAND; RIXEY

Washington, Oct. 5.—Medical officers should be given with an appropriate degree of authority, as a prerequisite of advice in their judgment," declared Senator General Rixey, U. S. Sen. in his annual address before the Association of Military Surgeons of the United States here tonight.

"They should have free and full charge of all matters and provisions pertaining to their work, including the personnel of the medical department, hospitals and hospital ships," he continued, "and they should have power and means subject only to the final authorization of commanding officers to execute the plans for proposed sanitary improvements."

He declared that success of the Japanese in preventing disease in their armies in the war with Russia was due to the accepted fact of the superiority of their medical officers in their knowledge of sanitary matters.

Weight Fined for Gun Toting.  
Portland, Ore., Oct. 5.—Arthur J. Wright, who was arrested last Saturday during the trial of President Taft to this city while attempting to take a photo of the president, pleaded guilty today to the charge of carrying a concealed weapon and was released.

Charged With Theft of Million.  
Memphis, Oct. 5.—Colonel Finkbeiner, a high official of the military council, has been arrested here in connection with irregularities amounting to more than \$1,000,000.

### COMMERCIAL CLUB BUILDING HAS BATS IN ITS BELFRY

"I MAY BE BATTED but I got quite a shock today," said Ed Medley last night. Mr. Medley has rooms in the Commercial club and declares that on the preceding night when he went to shut his window he disturbed "one million bats" which were hanging under the projecting eaves over his window and which surrounded him in an angry cloud.

On being poked down Mr. Medley finally admitted that there were only 500,000 bats in actual count but wouldn't give up another bat.

Consequently the junior of the big building has embarked on an anti-bat crusade.

"Many may go to the lot as often as to like," said the attorney in describing his experience, "but none of 'em is mine."

### RANGE QUEEN INVOLVED IN COLORADO KILLING

Grand Junction, Colo., Oct. 5.—In connection with the killing of Joe Harris, a cowboy, by Joe Pace, who is a cowboy, it developed today that Pace and Mrs. Fuller, had trouble with Harris over range matters. It developed that Mrs. Fuller, who is known as the "queen of the range," and an unknown rider, witnessed the shooting.

Harris was unarmed, his weapons being at his room in the hotel. He was shot three times. Harris recently brought suit against Pace and Mrs. Fuller for alleged damage in the range.

### Forty-four Hurt in Collision.

Elizabethtown, Ark., Oct. 5.—Forty-four persons were injured, five seriously, in the collision of a Price passenger train with a freight near Elizabethtown, Ark. tonight.

### POULTRY EXHIBIT CAUSES KEEN RIVALRY

Fine List of Prizes in Chicken  
Show at Fair Causes Great  
Interest Among Fanciers.

The attractive list of prizes offered has stimulated interest in the big show which is to be made one of the first class features of the fair exhibits this year.

There are dozens of rubbers of fancy poultry in Albuquerque and vicinity and almost every one of them will have some of the choicest specimens of display during the affair. The list of prizes for best exhibits is as follows:

### THIRTY HURT; FOUR DEAD IN TRAIN COLLISION

Fast Express Crashes Head on  
Into Special Carrying Crowd  
from Illinois State Fair at  
Springfield.

(By Morning Journal Special Leased Wire)  
Farmers City, Ill., Oct. 6.—In a head-on collision three miles south of here at 11 o'clock last night between the state fair special from Springfield and another Illinois Central passenger train at least four persons were killed and thirty injured, several perhaps fatally.

The wreck occurred on a curve while the trains were running at high speed. The northbound train was heavily loaded with visitors returning home from the state fair at Springfield.

It was sometime after the crash that word was sent by telephone to Clinton. A special train was made up and with all the physicians available left for the scene.

Foley's Honor and Tar cleared the air passenger, rope the traction in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. ### ATTORNEY GENERAL FOR CUSTOMS COURT NAMED

New Yorker Wins Appointment in  
Advance of Tribunal's Creation.

Washington, Oct. 5.—The appointment of Mr. Frank Lloyd of New York as assistant attorney general of the customs court of appeals in advance of the creation of that body was announced today.

Another official act in connection with customs administration was a decision which authorized agents as well as the officers or stockholders of a corporation to execute the owners' ship declaration required of corporations under the customs administrative law set of June 10, 1906.

Collectors of customs were today notified to keep Deputy Assistant Attorneys General Lloyd fully advised of appeals taken by importers by forwarding to him copies of all petitions of appeal in customs cases which may hereafter be served on customs officers by importers or their attorneys.

St. Louis, Oct. 5.—Six persons were injured and many burned tonight by the falling of an electric light pole in the midst of a crowd watching the United Producers parade. A live wire which was carried to the street fall upon a number. Mrs. Lewis Westell of Los Angeles, is among the injured. She suffered a broken foot.

Ambassador White Coming Home.

Paris, Oct. 5.—Henry White, American ambassador to France, has announced a leave of absence and will sail November 2, not to return.

Ambassador White's recall was rumored here for months and was the subject of the keenest regret.

### STONE GUEST OF HONOR AT FAREWELL BANQUET

General Manager of Associated Press  
Leaves to Circle Globe.

New York, Oct. 5.—As a tribute of their affection and regard on the eve of his departure on a trip around the world, friends of Melville E. Stone, general manager of the Associated Press, gave him a dinner tonight at the Lotus club.

Of the invited guests and subscribers present were one hundred and thirty. Frank B. Conover, chairman of the committee, having the dinner in charge presided until cigars were reached, when he requested Henry D. Estabrook to act as toastmaster.

The speakers included: Frank B. News, president of the Associated Press; Judge Albert Gray, John C. Spooner, former senator from Wisconsin; J. Hartley Manners, the dramatist; Bourke Cockran, Victor Lawson and Myron T. Herrick, former Governor of Ohio.

Messages of regret were read from Andrew Carnegie, Mark Train, Dr. Nicholas Murray Butler, and others.

Mr. Conover presented Mr. Stone with a shield taken from one of the designs of the fifteenth century. It is of cast bronze, about 16 inches wide, by 21 high, with ornamentation appropriate to the period. In the center is a bas relief of Mr. Stone, surrounded by exact reproductions in gold and enamel of the foreign decorations, which have been bestowed upon him by France, Germany, Italy, Russia, Sweden and Japan. The whole is surrounded by an American eagle. The coloring is burnished gold, rich and dull, giving a look of age and dignity.

### ENDERLY-WINDSOR COMPANY COMING

Clever Artists Coming to Presbyterian  
Church Next Monday Night as  
Extra Number in Brotherhood  
Course.

The Enderly-Windsor company, an aggregation of musicians, readers and impersonators of very high standing, will come to Albuquerque next Monday night to appear in the Presbyterian church as the last number of the Brotherhood lecture course which has been running during the past year. This is an extra number and is decidedly the best on the list. Although the company comes on the opening night of the fair, it is sure to play to a large audience.

### FINAL MEETING OF FAIR BOARD TONIGHT

Officers and Directors to Be  
Called Together to Pass on  
Final Plans and Arrangements.

The last meeting of the officers and directors of the fair association will be held tonight, to consider the final plans and arrangements for the fair, which will open next Monday afternoon. Plans for the annual carnival are practically complete and the execution is about all that remains to be done. From today on the fair grounds will be the busiest place in Albuquerque. Already big wagon loads of exhibits are going over to fix up the exhibit buildings. The grandstand and fences are being put in shape and the grounds will be in fine condition when the show opens Monday. Every member of the directorate is urged to attend the final meeting tonight, in which matters of great importance will be taken up.

## FARRELL VICTIM OF 17000 VOLTS

Further Particulars of Electro-cution of Well Known Santa Fe Man Show Accident Was Unavoidable.

T. Sully, local Santa Fe storekeeper, is just in receipt of the following letter under date of October 2 from E. H. Harlow, former master mechanic at this point, in regard to the terrible death of Harry Farrell on September 30:

"There is very little that can be said in explanation of this dreadful accident. Farrell, with a representative of Mr. Phillips' office, was testing out a new pump recently installed at the San Pablo wells. The work was about completed and everything satisfactory, and he was about to close up. In the act he had the cover off one of the starting boxes, and for some reason nobody is able to explain, he attempted to place this cover on without turning off the current. He was holding the cover with both hands preparatory to putting it over the studs and a man was helping him to line the cover in the proper place; in doing this the cast iron cover struck one of the brass connections, which made a contact with the 17,000 volt wire. At the instant Farrell spoke 'Shut it off.' The man holding him had to run down to the next well and there was some little delay in locating the proper switch, probably one and one-half minutes, during which time Farrell was held rigid and could not say a word or make a move, and as soon as the current was turned off he dropped over and without an instant he was dead from the first shock."

Miss Phillips' Kindergarten is located in the Woman's Club building, 618 W. Gold Ave. Hours 9 a. m. to 12 m. Tuition \$2.50 per 9 weeks, payable in advance.

For Sale—Five-passenger touring car; a bargain, 706 W. Central.

That the final report will be presented before this afternoon.

It is understood that Albuquerque matters were before the jury yesterday, but the nature of the inquiry could not be definitely learned.

Judge Abbott yesterday began the hearing of the case of Melvin and Edwin against Alex and Nicholas Freese, a suit concerning an account. The jury was drawn and the day taken up with the hearing of the evidence. One or two other minor matters came before the court during the day.

Judge Abbott yesterday ordered the seizure of the Adams, who pleaded guilty to a forgery charge, to not less than one year nor more than two in the reform school at Springer. Adams is little more than a boy.

Yesterday the appeal of Dubois Otero hung from the decision of the probate court in the case of the will of the late Mrs. M. S. Otero and her heirs.

The business before the probate court was completed yesterday afternoon and Judge Mora adjourned the court until November 1. The matters disposed of yesterday were as follows:

The will of the late William P. Johnson was admitted to probate and Ralph W. Johnson and William M. Reynolds were appointed executors without bond.

The petition of Manuel Leebach to be appointed guardian of Manuel Hill was approved. No bond was required.

The report of Lily Mitchell, administratrix of the estate of James P. Mitchell, was approved. Mitchell was appointed under the Alvarado bequest.

He killed himself under particularly horrible conditions some eighteen months ago.

The petition of J. M. Mahboub to be administrator of the estate of Naboor Luna was approved, and bond fixed at \$1,000.

The bond of A. Fleischer, as guardian of the estate of Julia Fleischer, was approved in the sum of \$300.

Marcus P. Kelly, Jr., three year old son of Marcus P. Kelly, secretary of the Commercial club, and Clark M. Carr, Jr., also three year old son of Captain Clark M. Carr, caused considerable anxiety to their parents yesterday morning, when they strayed away from their homes on North Fourth street and became lost to such an extent that it required several hours and a number of searches before they were discovered.

When found the youngsters were having the time of their lives digging tunnels in a sand bank in the north part of town, where they had wandered in search of amusement. For a while it was feared that the youthful adventurers had been kidnapped or had met with some accident.

C. F. SPADER LATEST CANDIDATE FOR MARSHALSHIP

Bernalillo Man Out After the Job; Will Add Another Element of Interest to Interesting Contest.

C. F. Spader of Bernalillo, former county commissioner of Sandoval county, a well known ranchman and business man, is out after the job of being United States marshal for New Mexico, in competition with Thomas S. Hadden, Ed Burke and others. Mr. Spader is understood to mean business and has more or less influence of the kind that counts. It is said in the proper quarters. Mr. Spader has a good many friends and many who would like to see him get the job and may make it interesting for the field before the appointment is made. Mr. Spader is well known in central New Mexico, having been a resident of this section for the past quarter of a century and a staunch republican all his life. Mr. Spader has held a number of official positions having been at one time postmaster and general merchant at Jemez Pueblo, before making his headquarters in Bernalillo, where he has long been known as a successful business man, cattleman and ranch owner. Mr. Spader has spent much of his time in Albuquerque, where he is well and favorably known. It is understood he proposes to make as strong a fight as possible for the position.

## MILITARY BALL AT BREAKING GROUND ARMORY WILL BE BRILLIANT

Officers and Enlisted Men of Third Cavalry to be Guests of Honor Tuesday Night of Fair Week.

One of the brilliant social affairs of the fair week this year will be the big military ball in honor of the officers and enlisted men of the Third Cavalry who are to spend their week in Albuquerque.

The members of Company A, First Regiment New Mexico National Guard to be hosts. The armory will be tastefully decorated for the occasion and splendid music will be furnished by a band and orchestra. There will be dancing from 9:30 to one o'clock with the spacious gallery to accommodate those who do not wish to dance. The great armory floor is splendidly adapted for such an event and the spectacle with the dress-uniforms and gay ball gowns will undoubtedly be a brilliant one. A nominal admission fee of fifty cents will be charged the gentlemen to pay the expenses of the affair with ladies admitted free. It is particularly desired that the feminine contingent be an hand in force to offset the preponderance of masculinity in the military and supply dance partners for the evening.

Dr. Robert Smart is the head of the committee on arrangements which is planning to make this ball a memorable affair.

## CHINK IS BELIEVED TO BE INSANE

Native of Flowery Kingdom Taken into Custody by Police Because of Queer Actions.

Such Yen, a Chinese laundry man, 52 years old, who until a month ago conducted a small laundry at 407 West Central avenue, was taken into custody by Policeman Marquette last night, and lodged in the city jail as the result of requests made by a number of the Chinaman's friends, who declare he has lost his reason. Yen, who has lived in New Mexico for twenty-five years and in Albuquerque for the past ten years, sold his laundry a month ago, following the receipt of a letter from San Jose, telling of the death of a brother. Since that time he has constantly brooded over his brother's death and has been drinking heavily. His queer talk and irresponsible actions caused his friends to appeal to the police to have him taken into custody. Yen will probably be examined for his sanity today and either committed to the asylum or sent to relatives in California, who it is believed will care for him.

Basement Being Dug for Three Story Structure to be Built on Corner of Fourth and Central.

A gang of workmen yesterday morning commenced the work of breaking ground at the corner of Fourth street and Central avenue, marking the first step in the construction of the three-story and basement building to be erected by Rosenwald brothers. The building will be one of the most modern and pretentious in Albuquerque. It will have a seventy-five-foot frontage on Central avenue and a hundred and forty-two feet on Fourth street. The entire building will be occupied by the Rosenwald brothers as a department store with the largest stock of goods carried by any similar house in the territory. The contract calls for the completion of the building by April 1, 1910, but it is likely that it will be finished before that date, as work on it will be rushed as much as possible.

Worming Sheep Quarantined. Kansas City, Oct. 5.—A flock of more than 4,500 sheep and lambs was quarantined at the Kansas City stock yards today by order of Inspector H. B. Blair, who declares they are afflicted with hip and leg disease. They came from Wyoming. Experienced shepherds here declare the flock is only suffering from sore mouth due to a change of pasture, and will be well in a few days.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of bright's disease or other serious disorder. Do not disregard the early symptoms. J. H. O'Reilly & Co.
