## Biggest Mining Deal in History of New Mexico Closed Yesterday

### PHELPS DODGE AND COMPANY BUY BURRO MOUNTAIN MINES

Transaction Involves Over Two Million Dollars and Property Destined to Become World Famous Copper Producer.

#### ROSY OUTLOOK FOR GRANT COUNTY DISTRICT

Extension of El Paso Southwestern Railroad from Deming to Mines Among Improvements Projected.

Judge Norman W. Halre of Houghton, Michigan and J. E. Saint of Albuquerque, who returned to Albuquerque yesterday morning from Silver City having completed the incorporation of the big Mangus Copper company, brought with them the news of the biggest mining deal in the history of New Mexico, closed Friday.

By this transaction Phelps, Dodge & Company of New York, owners of the greatest copper producing mines in southern Arizona and owners of the El Paso and Southwestern railroad, become the owners of the Burro Mountain Mining company's properties in the Burro Mountain district, the largest copper property in New Mexico, and destined, mining experts say, to be one of the world's great producers.

Phelps, Dodge & Company have held a minority interest in the Burro Mountain company for some time, the property having been held as a close corporation in which Alfred and Nathan Leopold of Chicago held the control, or about 45 per cent. The Leopolds have sold their entire interest in the mine, together with their stock in the Phelps, Dodge company. Messrs. Halre and Saint were not in a position to say what price was paid for the stock, but advice received by the Morning Journal last night from Silver City and from the east indicate that upon the basis at which this 45 per cent. of the stock was purchased, the mine is worth \$2,316,000.

The Burro Mountain property has for a long time been recognized as one of the great copper properties of the country and the price for which Phelps, Dodge and company secure control of the property is the largest price ever paid for a mining property in the territory. The size of the price, however, is not the most important feature of this deal, as it relates to the mining industry of New Mexico.

While no statement has been given out to indicate that the action is contemplated, it is generally believed in Silver City that Phelps Dodge and company will soon build an extension of the El Paso and Southwestern railroad into the Burro Mountain mining district. The southwestern already has a branch line reaching to Deming. The extension would not be a very large one and it is confidently expected that it will be made. This will result not only in greatly hastening the development of the Burro Mountain company's property, but of the Chemung, another great property adjoining it and of the recently incorporated Mangus property which lies right in the heart of the district, adjoining both the Burro Mountain and the Chemung holdings.

In Grant County. This is the day of big transactions and big development in southwestern New Mexico mining districts and the purchase of the Burro Mountain by Phelps Dodge and company comes as the last and biggest of quite a lengthy series of big transactions which point inevitably to the immediate development of a great copper producing district which will rival very shortly the greatest producing districts of Arizona.

The activity in mining properties in Grant county has extended over the entire southwestern district, the Mogollon mountain district having received its full share of the wave of development. It is predicted that this is just the beginning.

"I believe," said Judge Halre yesterday, "that Grant County, New Mexico, will very soon be ranked as one of the greatest copper producing districts in this country. It is difficult to see how it can help it. Vast bodies of ore have been blocked out and far reaching development op-

erations are under way in a country where ore is known to exist. The nature of the development is such that results are sure. Large aggregations of capital are backing the operations and in almost every case recent transactions have placed valuable properties in the hands of men and corporations who have money to develop them. It is a great movement and means much for the mining industry in your territory."

The Mangus company Friday paid \$49,000 upon several of the properties in the heart of the Burro Mountain district which have been added to the company's original group. These include the Azuro and Emerald claims, which are located right alongside the holdings of the Burro Mountain company and the Chemung.

Has Millions in Sight. Not the least important of recent development operations in Grant county has been the restoring of the former glory. The history of the ancient Santa Rita property to its Santa Rita is the history of mining in New Mexico. It was originally discovered by the Indians before the Spaniards came and native copper was mined there by the aborigines. Years ago the property was developed to some extent by Joel Parker Whitney and its history from that time is familiar to all pioneers of New Mexico. Later the property passed into the control of the Rockefeller interests, John D. Rockefeller and the late Henry H. Rogers, having large interests in it. It was sold to the Standard Oil group to Hayden, Stone and company, the great Boston operators who recently have brought forward some of the big copper properties of the nation including Utah consolidated and others equally well known.

Hayden Stone and company have been carrying on extensive development operations since they took over the property. The more recent of these operations include the blocking out of the body by drilling. A drill is put down at the corners of every 100 foot square and in this way, during the month of August alone, more than 1,000,000 tons of ore were taken out. Thus this mine, known to more than three centuries, is soon to take its place among the great copper producers of the world.

#### COMANCHE PRO. CITY SOLD FOR \$100,000

One of the biggest mining deals in Grant county for years occurred in Silver City during the week when the properties of the Comanche Mining and Smelting company were sold at special master's sale for \$110,532.51 to the Savanna Copper company. The properties include the smelting plant at Silver City, the Pinos Altos and the fourteen-mile narrow gauge railway from Silver City to Pinos Altos.

The bid of the Savanna company covered the amount of a loan made by that company to the Comanche company some time ago.

Organized some six years ago and capitalized at \$5,000,000, with some of the best mining men of Michigan and Wisconsin at its head, the Comanche made fair to become one of the dominating corporations of the southwest. An entanglement in the management of affairs eventually resulted in mismanagement and later the appointment of a receiver, the receiver, Mr. E. A. Wayne, was able to effect a merger of the Comanche interests with the interests of another large corporation known as the Copper Gulf company, operating in the Pinos Altos. The merger resulted in the formation of the Savanna Copper company and the exchange of Comanche shares for shares in the new company at a fixed ratio. Practically all of the Comanche stockholders availed themselves of the opportunity so that today the reconstructed company contains eighty-three per cent. of the old Comanche stockholders.

Now that the Savanna Copper company is actually in possession of the property, it is not too much to expect that the smelter will be started shortly. It is understood the price bid on the property lacks between \$15,000 and \$20,000 of meeting the full indebtedness of the Comanche company.

#### NEWS NOTES FROM BUSY TOWN OF VAUGHN

(Special Correspondence to Morning Journal) Vaughn, N. M., Oct. 9.—Governor Curry passed through here yesterday on his way to Roswell.

A lay girl arrived at 8 a. m. today at the home of Contractor McLaughlin who is consequently the happiest man in town.

The Ray Fox minstrel shows have arrived here to play a three days' engagement.

Round house foreman Kalus of the Santa Fe has been promoted to a more responsible position at Clovis and Vaughn regrets very much to lose him. E. H. Johnson has been placed here to succeed Mr. Kalus. Roadmaster O'Neill has resigned to accept a position with the Rock Island railway, the Santa Fe thus losing another good man.

Passenger traffic is getting very heavy through here and double daily service is expected soon.

Vaughn now has a lumber company composed of local citizens which will lay in a big stock to supply the demand for building material.

Mine Victims' Bodies Found. Roswell, N. M., Oct. 9.—The bodies of Philip Hozarich and George Tomich, killed in last Sunday's explosion in mine No. 4, were discovered today by a searching party. They were a mile and a half from the shaft. Explosions in the mine reveal the danger.

### WRIGHT PREDICTS MILE A MINUTE BY AEROPLANE

Inventor in Army Machine Makes New Record for Circular Kilometer; Spectacular Flight in St. Louis.

(By Morning Journal Special Leased Wire) College Park, Md., Oct. 9.—After breaking the world's record for flight over a circular kilometer track today, Wilbur Wright predicted that he could attain a speed of 60 to 70 miles an hour in an aeroplane race. He had just turned through the air in the government aeroplane at a rate of approximately 45 miles an hour, making a new record of 35.5 seconds for 500 meters and return, including the turn.

"I do not claim this to be a world's aeroplane record for 500 meters," said Mr. Wright, "but I do claim it to be a world's record for 500 meters and return, including a turn at the end of the measured course."

To reach a higher rate of speed Mr. Wright said he would reduce the size of the airplane in the government machine and at the same time lighten their weight. For racing purposes he said he would be content with the "plant" in this aeroplane.

Following the successful flight of the forenoon, Mr. Wright made two ascensions late in the afternoon, on one of the afternoon flights Lieutenant Lahm accompanied Mr. Wright. On the other Mr. Wright alone repeated the performance of the forenoon by starting off the rail without the aid of weights. Lieutenant Lahm for the first time assisted in guiding the machine during the flight, in which he ascended, a third level having been installed for the benefit of the officer who is being taught to navigate the machine.

Having delivered into the most other American inventions, Minister Wu Ting Fang, of China saw his first aeroplane flight today and absorbed all the information obtainable from a rapid fire of questions directed at Mr. Wright and officers at the government aerodrome shed.

A flight of the machine left the im-

pression with the minister that it did not go high enough to be out of danger in time of war and that it had too much noise.

"That's fine Mr. Wright," he exclaimed, as the aviator returned from a flight. "When you get it perfected won't you bring one over to China?"

#### GLENN CURTIS MAKES SPECTACULAR FLIGHT

St. Louis, Oct. 9.—Under the arch of a brilliant rainbow that set off the golden planes of his bird-like machine Glenn C. Curtis, describing thousands of rain-soaked spectators here, late today by a sweeping flight of a mile over the tree tops of Forest Park. The achievement came in the face of adverse conditions that prevented other aviators from leaving earth.

Curtis was in the air a minute and 45 seconds, and in that time he covered close to nine furlongs. At first rising to a height of forty feet he dipped, then rose gradually over the tree tops as he turned in a great arc and came back to the starting point. The landing was on rough, mossy ground, but it was so skillfully executed that no air was noticeable.

Curtis risked his neck and his machine in today's flight. A group of trees 150 yards from the starting point, was an obstacle which George Osgood, operator of the Chiron-Farman biplane had tried in vain to overcome during the week and was the indirect cause of his accident yesterday.

But Curtis, flying in the face of a stiff breeze, rose over the tree tops and although his biplane tipped threateningly as it turned he easily righted it. Curtis announced that he may make further flights tomorrow although the official aviation program ended today.

The Farman biplane damaged yesterday was packed for shipment tonight. The needed repairs proving more extensive than had been anticipated.

#### CONFESSED MURDERER SAYS WOMAN URGED HIM

Tacoma, Wash., Oct. 9.—In the trial today of Charles E. Newcombe for the murder of Martin Keadling, on May 14 last, the alleged confession of Newcombe to the attorney was read to the jury. In this confession he told of his relations with Mrs. Keadling and of their meeting on the afternoon of May 14, when the woman told him he must kill her husband that night. Before that, according to the confession, Mrs. Keadling had urged Newcombe to commit the crime and while he was in a hospital gave him money to buy a revolver.

Nevada Town Severely Scourged. Reno, Nev., Oct. 9.—The little railroad and agricultural town of Beckwith, Cal., about forty miles north of Reno, was partially destroyed by fire this morning and property valued at over \$75,000 was lost in smoke. The fire started in the Sparks-Humphrey Supply company's store, which was completely destroyed.

## SUPREME COURT WILLING TO STAND ON ITS RECORD SAYS CHIEF JUSTICE MILLS

Thinks No Comment Necessary on Collier's Editorial; Justice Cooley Shows Unfairness of the Attack and Declares There Is Nothing to Choose Between the Demagogue and the Corruptionist. Judge Mann Completes Statement of Friday.

Baton, N. M., Oct. 9, 1909. The Morning Journal, Albuquerque, N. M.

I do not think any comment is necessary upon the article published in Collier's or the third, last, further than to say that legislators make the law and the courts interpret it. The supreme court of the territory is willing to stand upon its record.

(Signed) WILLIAM J. MILLS. This is the answer of Chief Justice J. Mills to a request by the Morning Journal for his opinion as to the editorial in Collier's Weekly of October 4, in which the magazine charges that the New Mexico supreme court is under the influence of railroads in making its decisions and to which former Associate Justice E. A. Mann yesterday made a convincing reply through the Morning Journal.

#### NOTHING TO CHOOSE BETWEEN DEMAGOGUE AND CORRUPTIONIST

This is the reply of Associate Justice Alfred W. Cooley to the Morning Journal's request for a statement concerning the editorial:

Mamogordo, N. M., Oct. 8, 1909. The Morning Journal, N. M.

"The cases referred to were decided before I was on the bench and I am inclined to think before I even came to the territory. Moreover the titles of the cases are not specified so it is impossible to discuss them in detail. Such an editorial to be fair or to be persuasive to the mind of any lawyer or any right minded citizen ought to give the titles of the cases and point out the errors of law in the decisions referred to."

"A judge who fails to decide in favor of a railroad when the law of the case is on its side is precisely as unfit for the office he holds as a judge who is susceptible to corporate influence and not more so. There is nothing to choose between a demagogue and a corruptionist on the bench. A judge takes an oath to do equal justice between the rich and the poor and he should observe that oath in spirit and in letter. Justice should not be administered on the principles of a

justice of the peace who, when a lawyer took an exception to a ruling remarked: 'what are you kicking about, I ruled in your favor the last time.'"

(ALFRED W. COOLEY.)

#### THINKS COLLIERS SHOULD GET THE FACTS

"I think Judge Mann's statement completely covers the case," said Judge Ira A. Abbott, yesterday when asked for an opinion on the editorial in Collier's Weekly attacking the New Mexico supreme court. "I do not recall that there has been a single personal injury case before the New Mexico supreme court since I have been a member of the court. Mistakes in the rush and hurry of preparation of a daily newspaper are sometimes inevitable, but there is no excuse for a misstatement of facts in a periodical such as Collier's. The magazine should have taken the trouble to ascertain the facts before printing this editorial."

#### JUDGE MANN COMPLETES STATEMENT OF FRIDAY

Former Justice Mann yesterday sent to the Morning Journal the following, making a slight correction in his strong statement replying to the Collier article, which appeared in this newspaper Saturday morning.

Since writing the article which appeared in the Morning Journal, my attention has been called to the fact that the case of Desvante vs. Cerrillos Coal Ry. Co., was reversed by the supreme court of the United States. This decision was found in 178 U. S. 449. The case was never retried, however, but was settled upon after the decision in the U. S. supreme court. As this litigation all took place prior to my coming to the territory and my consequent familiarity with recent litigation here, I was not aware of this decision. As the reversal affects both the present judges, who participated and the former judges it is of no consequence so far as the Collier article is concerned.

EDWARD A. MANN.

## HEARST DEALS SEVERE BLOW TO TIGER

### DOWNFALL OF TAMMANY EDITOR'S SOLE AMBITION

His Own Election Second in Importance to Wrestling Purse Strings From Control of Machine in Manhattan.

(By Morning Journal Special Leased Wire) New York, Oct. 9.—With William Randolph Hearst's name as an additional asset to the republican fusion ticket, New York's municipal campaign shaped itself definitely today, as a fight to oust Tammany hall from control of the city finances.

Both Hearst and Otto T. Bannard, republican fusion nominee, says that their election is a matter of secondary importance, so long as the remainder of the fusion ticket wins out, for this will mean Tammany defeat in the board of estimate which controls the purse strings of the greater city and is a medium through which economy or extravagance may be exercised regardless of the mayor.

Hearst's followers, now known as the Civic Alliance, having accepted his candidacy, arrangements to obtain the signatures requisite to make his campaign legal, are all under way.

William M. Linn, the republican, who ran against Hearst and McClellan four years ago, issued a statement tonight.

It was thought Linn's efforts largely that Hearst was induced to enter this year's campaign, a circumstance that has caused Tammany to cry that a republican-Hearst alliance is on foot. Mr. Linn's statement says in part:

"There will be a mass meeting at Carnegie hall Monday night to put Mr. Hearst in nomination. A platform will be presented for adoption."

"Mr. Hearst will attend the meeting in person and declare his attitude with respect to the entire matter of city government."

Hearst's friends all predict that he stands ready to make another whirlwind campaign, such as he made in 1905.

Bannard and the republican leaders expressed nothing but satisfaction today at Hearst's entering the field. All talk of Bannard's withdrawal and following Hearst to defeat the ticket to victory was denounced as preposterous. Bannard would win, they said.

Charles F. Murphy and other Tammany leaders continue to brand the entrance of Hearst as a "deal," but at the same time say that Justice Gaynor will be victorious.

Justice Gaynor was outspoken in his expression of displeasure at Hearst's renunciation, coming within a few days after his published declaration that he would support the Brooklyn candidate.

Judge Gaynor announced today that he had decided not to use a dollar in advocating his candidacy and would return contribution money proffered him for campaign purposes. He returned two such contributions—one of \$500 and the other of \$1000—to the donors, explaining his attitude.

The larger gift came from Abraham Abramson, a Brooklyn merchant, and was returned with the following note:

"I have decided not to use a dollar in this election, and you will understand me in returning you check. If the people of New York do not want to elect me on my life record and my life's work for government and to destroy law and corrupt government and those engaged in it, I assure you I shall be content."

"I was long used to living and misconstruction as you know, without being affected by it. Nothing that I can say or do will now prevent that I shall want to misinterpret me and what I say from doing so. But we shall wait for the court."

Jerome Quits Race. As had been predicted for several days William Travers Jerome issued a statement tonight, formally withdrawing from the contest for reelection as district attorney, as an independent. His statement says in part:

"After a further reflection it seems to me I ought no longer to continue as a candidate to the reelection to the office of district attorney of New York county, and I have today filed my declaration of nomination as a candidate for that office."

It became known today that Mrs. O. H. P. Blount, now prominently identified with the woman suffrage movement, had submitted a series of questions to all three mayoralty candidates.

The first question naturally is:

"Do you favor or oppose extending suffrage for women?"

Mr. Bannard has already answered this question as follows:

"That is a legislative and state question with which I, as mayor, would have nothing to do. At present, however, I am not in favor of it. I am inclined to think that it will come about ultimately."

orated and expanded tonight by William H. Wadhams, who under appointment by Governor Hughes is investigating charges against William Leary, state superintendent of elections.

Mr. Wadhams said tonight:

"Mr. Parsons has told you something of this shameful deal but not all about it."

I have no doubt that an agreement was reached whereby upstate republicans sold their votes to Tammany hall in exchange for Tammany support for Speaker Cannon."

## BRYAN THINKS ANOTHER WILL LEAD THEM

### NOT AFTER DEMOCRATIC NOMINATION IN 1912

Nebraskan Finds Consolation in Fact That Great Man Defeated Him in Last Year's Race for Presidency.

(By Morning Journal Special Leased Wire) Spokane, Oct. 9.—"I do not expect to be a candidate for any office again," declared William J. Bryan today. "As to my being a possible candidate for president of the United States in 1912, I would say that while I will not promise anyone that I will not be a candidate under any circumstances, still I do not expect to be. I hope nothing will arise to make it necessary for me to be a candidate for any office again."

"Do you believe party lines are being eliminated?"

"I think that for the last fifteen years there has been increasing independence in the water. I do not believe, however, that in our lifetime we will see but one party. I see no sign of a drift in that direction."

Mr. Bryan addressed a throng estimated at 30,000 today, speaking from the platform occupied by President Taft eleven days ago.

As a tribute to the president, Mr. Bryan said:

"It was bad enough to be defeated by a great man. It would be humiliating to be defeated by one not great. It is bad enough to be defeated by one highly esteemed; it would be unbearable to be defeated by one who had not the universal respect of the people."

#### The President's Party.

Captain Archibald W. Bull, U. S. A., A. D. C.

Assistant Secretary Wendell W. Miehler.

Mr. Charles C. Wagner.

Dr. J. L. Richardson.

Mr. James Sloan.

Mr. Joseph E. Murphy.

Mr. Garret Ford, assistant to vice president New York Central Railroad company.

Mr. Robert T. Small, the Associated Press.

Mr. Robert H. Harnard, the United Press.

Mr. E. A. Fowler, the New York Sun Press association.

Mr. William Hearst, Hearst News Service.

Mr. Sherman P. Allen, New York Herald.

Mr. Harry L. Dunlap, New York World.

To Meet the President.

The following gentlemen have been appointed a committee to meet the president at Gallup, N. M.: Governor George Curry, Hon. W. H. Andrews, Hon. Solomon Luna, Mayor Felix H. Lester, President Spitz of the Commercial Union, Judge Ira A. Abbott, Hon. H. O. Bursum, Col. W. S. Hopewell, and the president of the fair association, Dr. W. G. Tight. This committee will leave Albuquerque by special train on Thursday afternoon, October 14, returning with the president and party in the special train.

The committee to receive the president at the Alvarado on arrival of the special train and escort him to the stand, consists of J. H. O'Reilly, chairman, Louis Field, Maynard Gansel, Adjutant General Ford and George Aherl.

This committee will escort the president directly from the train to the stand which has been constructed at the north front of the Alvarado hotel. On this stand the members of the general reception committee will be in waiting and the president will address the people at once. A space twenty feet square will be roped off around the stand and within this space the members of the Grand Army of the Republic will be placed so that they may hear the president and to serve as a guard of honor. The veranda of the Alvarado hotel will be roped off by orders of the management and will be open only to guests of the hotel and others admitted by card.

Mayor Felix H. Lester will make a brief address of welcome and present President Taft.

Immediately following his speech the president will retire to his suite in the hotel. At 7:30 the president will hold a reception to meet the dinner guests and immediately after presentation the guests will proceed to the banquet hall to await the arrival of the president and his escort. Sixty persons, including the president and his party will attend the banquet, which will be given by the Commercial club in the west veranda of the hotel, which has been enclosed and furnished for the occasion. Prominent men from all parts of the territory have been invited although the

(By Morning Journal Special Leased Wire) St. Louis, Oct. 9.—Hearst & L. Van Phul, pilot of the balloon, St. Louis, Mo., forgot to mail a letter to the Aero Club of America, notifying that body of his intention to try for the Latham cup, his flight from St. Louis into Arizona will not give him the trophy, similarly the neglect of H. E. Honeywell to notify the organization that the balloon Centennial was also a contender has disqualified him. Therefore the cup will remain in the possession of Captain Chandler of the United States army.

Two trials will be made for the trophy next week, however. Van Phul and A. Holland Forbes, partner owner of the balloon New York, announced that they would make another flight.

#### REPUBLICANS ACCUSED OF PACT WITH TAMMANY.

New York, Oct. 9.—Charges of an alliance between Tammany hall and upstate members of the republican organization recently made by Herbert Parsons, chairman of the republican county committee, were corroborated and expanded tonight by William H. Wadhams, who under appointment by Governor Hughes is investigating charges against William Leary, state superintendent of elections.

Mr. Parsons has told you something of this shameful deal but not all about it."

I have no doubt that an agreement was reached whereby upstate republicans sold their votes to Tammany hall in exchange for Tammany support for Speaker Cannon."

## ALBUQUERQUE TO HAVE BRIEF GLIMPSE OF PRESIDENT

Committee Forced to Abandon Proposed Public Reception in Deference to Wishes of Distinguished Guest.

### MR. TAFT TIRES OF THIS FORM OF ENTERTAINMENT

Short Talk Before Alvarado Hotel Will Afford People Here Only Opportunity to Cheer Nation's Chief.

After two weeks of preparation in which it has been necessary to make numerous changes in program, because of the requirements on the president's time, President Spitz and Secretary Kelly of the Commercial club yesterday announced the arrangements for the president's visit in Albuquerque complete.

The necessity for abandoning the public reception which it had been planned to hold in the Commercial club Friday evening, has caused deep regret to the arrangements committee, but the president's secretary and the aide in charge of the tour finally and positively declined in behalf of the president to allow a public reception and it was necessary to call it off. Albuquerque is not alone in this. The president has refused a public reception in Los Angeles, in Portland and in Phoenix. All arrangements had been made for the reception by the club, but it was found that nothing would prevail to change the president's determination not to have more than one speech a day and to decline all future public receptions.

As the arrangements now stand the president's party will arrive in Albuquerque Friday afternoon, October 15, at 2 o'clock, traveling in a special first section of the Santa Fe's limited train. In the president's party are:

The President's Party.

Captain Archibald W. Bull, U. S. A., A. D. C.

Assistant Secretary Wendell W. Miehler.

Mr. Charles C. Wagner.

### WRIGHT'S TRADING POST

COR. 3RD and GOLD. OPEN EVENINGS

Very limited space has made it necessary to greatly restrict the number of invitations. The Band of the 10th Cavalry will supply the music during the dinner.

A very brief list of guests will follow. Governor Curry acting as toastmaster. President Spitz will welcome the president in behalf of the club. H. O. Burgess, chairman of the Republican committee, will speak to the toast. "Statehood," by N. M. Mason of Albuquerque. "The New Era in New Mexico," by T. B. Carson to "The Spanish American People," and Judge Albert H. Fall to "Our Guests." These toasts with the musical numbers will cover about half an hour.

Following the banquet the president, it is announced, will retire directly to his car. He will be invited, however, to attend the Montezuma ball for a few minutes and the invitation may be accepted.

The president's train will leave at 12:25 for El Paso and the meeting with President Diaz.

Admission to the speaker's stand will be by ticket. Admission to the Alameda grounds will also be by ticket and all those holding tickets are requested to be in their places prior to the arrival of the president.

In addition to the committee given the following committee have been active in the arrangements:

Finance: Solomon Luna, chairman; W. H. Andrews, D. A. Masspherson, J. H. O'Reilly, Frank McKee, George Arnot, W. H. Gillenwater, Judge Ira A. Abbott.

Decorations: Allan H. Wank, C. O. Chishman, O. A. Matson, M. Nash, E. C. Butler.

### PRESIDENT WILL SPEND TWO DAYS IN ARIZONA

Although the president will be in Arizona for two full days, he will deliver but one address and will stop in but two cities, Phoenix and Prescott. The president will arrive in Phoenix at 12 o'clock Wednesday noon, and will be driven at once to the Arizona capitol, where he will hold a brief reception by invitation with Arizona men with whom engagements have been made. He will then be driven to City Hall plaza, where he will deliver a brief address, going thence for a ride in an automobile through the irrigated district near by. He will leave at 3 o'clock for Prescott, where a stop of two hours, will be made.

There will be no stops between Prescott and Grand Canyon, where the president will arrive at 9 o'clock Thursday morning. Mr. Taft's first view of Grand Canyon will be from the barrier at El Tovar hotel. A big saddle horse has been reserved for his use and also a mule, in case he should care to go part way down Bright Angel trail. A drive will be made through the Cañon forest to Grand View, one of the best of the many canyon view points, and practically

the whole day will be spent on the rim.

At 4 o'clock Governor Sloan of Arizona will be host at a dinner at El Tovar hotel, at which a few prominent Arizona men will be present with the president and his party.

The president will leave Grand Canyon at 8 o'clock Thursday night and his car will rest at Williams for three hours. No stops will be made between Williams and Albuquerque save at Gallup, where the car carrying the New Mexico reception committee will be attached to the president's train.

### CHIHUAHUA HAS SILVER CUPS FOR PRESIDENT DIAZ

El Paso, Oct. 9.—When President Diaz at Mexico reaches Chihuahua Wednesday on his way to El Paso, where he will meet President Taft, he will be presented with an immense silver cup in the city. Like a Greek hero returning from victory, the president of the southern republic will also be presented with a silver plate bearing three silver cups. The cups, appropriately engraved with Greek letters, will contain wine, salt and water, symbolical of the conqueror.

## PRESIDENT LEAVES YOSEMITE THIS MORNING

Mr. Taft Becomes Enthusiast for Forestry as Result of Brief Visit to California Wonderland.

(By Morning Journal Special Leased Wire)

El Portal, Cal., Oct. 9.—After going nearly 100 miles by stage and on foot in and around the Yosemite valley, President Taft reached here tonight and will resume his journey to the southwest tomorrow morning. He will stop during the day at Merced, Fresno and Bakersfield and reach Los Angeles early Monday morning.

The president was wringing wet with perspiration when he reached the foot of the trail today and had to go to bed in the El Portal hotel while his clothing was hung out in the sun to dry. Even the president's outer garments were wet and as he had only the one gray Norfolk jacket suit with him in the park he had no alternative than to follow in the foot

steps of the faded man who owned but one shirt.

Mr. Taft took luncheon with Major Forester of the army.

The president's last day in the Yosemite park was probably his most enjoyable. He began the day by looking at the alpine over the granite walls of the valley, his favorite point being the veranda of the little Glacier Point hotel set right at the edge of a 2000 foot drop into the floor of the valley.

Today he set such a pace down the four miles of the short trail which brought him from Glacier Point to Yosemite that he had two of his congressional escorts, Representatives McKinley and Needham, calling for help.

At Union Point, one-third of the way from the top, the president went to the very edge of the cliff and waved a handkerchief in greeting to some men speaking of humanity, which stood above the floor. In a little while he caught the sound of three cheers sent up in his honor.

John Muir, the naturalist, explained every view, every tree and flower. The president was told that the "short trail" down which he was passing was first blazed by an old settler who lived in the little. His wife would not let him have any whisky in the house so he had to walk daily down to the valley to get a drink.

Arriving at the floor of the valley, the president was greeted by Galen Clark, 82 years old, who was the first white man to make known the existence of the giant Sequoia trees of the Mariposa grove. Mr. Clark does not claim to have been the first man to see the mammoth forest for he found a prospector's outfit there when he went in. It is his theory that the prospector was a white man who had been slain by Indians.

One result of the president's trip into the Yosemite has been to make him an enthusiast for forestry.

Riding in the forests yesterday, the president heard a giant pine fall, the result of decay near the roots. The crash was like the report of distant artillery.

### SWITCHMAN GIVEN SNUG FORTUNE BY MR. CARNEGIE

San Antonio, Texas, Oct. 9.—James Fagan, an aged switchman here, received official word today that a Carnegie pension of \$40,000 was awaiting his disposition. Fagan worked on the Pennsylvania railroad when Mr. Carnegie was his division superintendent, and the \$40,000 is the accumulation of a long pension put aside for him by Mr. Carnegie years ago. When Fagan dropped out of sight.

### Veteran Railroadman to Retire

New Orleans, Oct. 9.—J. B. Paul, general superintendent of the Texas & Pacific railroad, Louisiana division, stationed at New Orleans, will retire in the near future. He has been in the company's service for over a quarter of a century. Paul, Harris, superintendent of the eastern division will succeed him.

Cats for rent at reasonable charges. Albert Fisher, 208-210 W. Central.

## MANILA WELL RID OF DESPERATE CHINESE

Pekin Authorities Abduct and Deport Objectionable Characters Without Consulting American Government.

(By Morning Journal Special Leased Wire)

Washington, Oct. 9.—Information has reached the war department from Manila which indicates that the officials of the Chinese government in that city have a peculiar but effective method of dealing with objectionable characters of their own race. Some weeks ago a number of Chinamen, it appears, were seized and shipped away without the knowledge or consent of the United States authorities. It was explained that these deported Chinamen were bad characters, leaving blackmail on their more prosperous countrymen, frequently accompanying their demands by threats of personal violence or death.

The situation is said to have become intolerable and that the Chinese consul in Manila finally took the matter in his own hands and with the aid of other Chinese rounded up twelve of the worst offenders and in the dead of night put them aboard a ship bound for China. Nothing further has been heard of the matter and it is not expected that anything will be heard except in the event that an effort is made to secure a return of the Chinamen, which is believed improbable. As reported here the community is rid of a very bad element which has been preying on the well-to-do Chinamen for some months.

### PEARY SENDS JOYFUL TIDINGS TO TEDDY

New York, Oct. 9.—Commander Peary through Herbert L. Bridgman, secretary of the Peary Arctic club, sent the following message from New York tonight to former President Roosevelt at Natchez:

"Your faraway was a royal mascot. The pole is ours. (Signed) "PEARY."

### MORGAN INTERESTS BUY ALASKA CENTRAL

Valdez, Alaska, Oct. 9.—The Alaska Central railroad was sold today under foreclosure by United States Marshal Sullivan for \$600,000 to E. O. Bennett, the only bidder, representing the interests that liquidated the defunct Sovereign Bank of Canada, which financed the road and had 95 per cent of its bonds.

This means that the road has passed under control of an eastern syndicate for which J. P. Morgan & Co. are agents. Mr. Morgan and his associates are building the Copper River & Northwestern railroad from Cordova to the Bonanza copper mountain and have 3,000 men at work.

### News Wed & Suicide

Baton Rouge, La., Oct. 9.—After only twelve hours of married life, John Elam, secretary of the Baton Rouge Life insurance agency, shot and killed himself here today. Yesterday evening Elam was married to Miss Land of this city. This morning he asked his wife to bring him a cup of coffee. She had hardly left the room when he ended his life with a revolver.

### CATTLEMEN CHARGED WITH DYNAMITING DAM

Jennings, La., Oct. 9.—Charged with complicity in blowing up the Mermentau dam which protects the lands of hundreds of rice farmers, the United States commissioner here bound over six citizens yesterday. The accused are Alfred Richard, Gabriel Connor, Ernest Broussard, Lark Connor, D. A. Richards, and Charles Bonnet. It is claimed that the feeling between cattle raisers and rice growers of this section resulted in the dynamiting of the dam.

## CANCER

Cured Without the Knife. 22 YEARS in Los Angeles. 40 years experience. General diseases of men and women cured—internal and external. Delay in taking action or money will cause loss of life. ## LEGAL NOTICES

### NOTICE OF APPLICATION.

(010601)  
United States Land Office, Santa Fe, N. M., Sept. 15, 1909.  
Notice of application of E. Weyman Strother and Minna Strother Waddell for a United States patent to Rex Placer, building stone, mining claim.

Notice is hereby given, that in pursuance of Chapter 6 of Title 32 of the Revised Statutes of the United States, that E. Weyman Strother of Annapolis, Md., and Minna Strother Waddell of Columbus, Georgia, are claiming and are about to make application through their attorney, Richard H. Hanna, of Santa Fe, New Mexico, for a United States patent for twenty acres of placer mining land containing building stone and being the S. 1/4 of N. E. 1/4 of N. W. 1/4 of section 22 township 10 N., range 5 E. of N. M. P. B. & M., situated in the Sandia mountain, Tijeras canyon, mining district, in the county of Bernalillo and territory of New Mexico and known as the Rex Placer mining claim, a plat of same being herewith posted.

The notice of location of said Rex Placer claim is of record in the office of the recorder of Bernalillo county at Albuquerque, New Mexico, in Book "34" folio 322.

The said mining premises hereby sought to be patented is bounded as follows, to-wit: On north by the unpatented mining claim Abajo, on east and south by vacant, unoccupied public land, on the west by patented land known as Whitcomb.

Any and all persons claiming adversely the mining ground, premises or any portion thereof so described, plotted and applied for are hereby notified that unless their adverse claims are duly filed as according to law and the regulations thereunder, within the time prescribed by law, with the register of the United States land office, at Santa Fe, in the county of Santa Fe, territory of New Mexico, they will be barred in virtue of the provisions of said statute.

MANUEL R. OTERO, Register.

The notice of said location of said Abajo Placer claim is of record in the office of the recorder of Bernalillo county at Albuquerque, New Mexico, in Book "34" folio 322.

The said mining premises hereby sought to be patented is bounded as follows, to-wit: On north and east by vacant, unoccupied public land, on the west by patented land, known as Whitcomb, on the south by unpatented mining claim Rex.

Any and all persons claiming adversely the mining ground, premises or any portion thereof so described, plotted and applied for are hereby notified that unless their adverse claims are duly filed as according to law and the regulations thereunder, within the time prescribed by law, with the register of the United States land office at Santa Fe, in the county of Santa Fe, territory of New Mexico, they will be barred in virtue of the provisions of said statute.

Any and all persons claiming adversely the lands described, or desiring to object for any reason to the entry thereof by applicant should file their affidavits of protest in this office on or before the 15th day of December, 1909.

MANUEL R. OTERO, Register.

### \$100,000 BRIDGE BONDS.

Said proposals will be received at the office of the Clerk of the Board of County Commissioners of Bernalillo County, at the Court House in Albuquerque, N. M., up to 10 o'clock in the forenoon of Monday, October 25th, 1909, and opened at that time for the purchase of \$100,000 (or so much thereof, as may be necessary) of Bridge Bonds of said Bernalillo County, for the purpose of constructing two bridges across the Rio Grande in said County. Said bonds are to be issued in accordance with an act of Congress, approved February 6th, 1909.

BY ORDER OF THE BOARD OF COUNTY COMMISSIONERS.  
A. E. WALKER, Clerk.  
October 8th, 1909.

### INSANE PATIENTS SAVED FROM BURNING ASYLUM

Cleveland, O., Oct. 9.—Fire destroyed the men's convalescent cottage of the Cleveland State hospital for the insane at Newburg, a suburb of Cleveland tonight. Fifty insane invalids, awakened from their sleep by the flames fled to the street in paroxysms of fright or huddled in corners, resisted the urging of attendants who sought to have them leave. A noisy riot call when the building was evacuated showed that all had escaped.

Hudson-Fulton Celebration Ended.

IN BRILLIANT FASHIONDonovan Holds Pittsburgh Bat-  
ters Helpless Allowing But  
Four Scattered Hits; Score:  
Detroit, 7; Pittsburgh, 2.[By Morning Journal Special Leased Wire]  
Pittsburgh, Oct. 9.—The American  
league champions from Detroit evened  
the count in the world's championship  
series by defeating Pittsburgh 7  
to 2 at Forbes field today. At least  
five contests will now be necessary  
before the series will be decided.Detroit's ability to hit the National  
league pitchers and Pittsburgh's inability  
to connect with the curves of  
"Wild" Bill Donovan, tell the story of  
the game.  
Pittsburgh scored two runs in the  
first inning, but Detroit tied the score  
with two in the second. The American  
league batters batted Howard  
Caminitz out of the box in the third  
inning when they took a commanding  
lead by scoring three runs. Vic Wil-  
lis succeeded Camnitz and two more  
runs from his offerings in the fifth  
inning gave Detroit its total of seven  
runs.Detroit made nine safe hits, getting  
six from Camnitz in 2-1-3 innings and  
three from Willis during the remain-  
der of the game. The Detroit hitting  
total included two-baggers by Schmidt  
and Crawford.Donovan allowed only five hits and  
two of those were two-baggers by  
Leach and Miller in the first inning.  
After that the Detroit twirler was an  
enigma and another two-bagger by  
Leach in the third, a single by Ab-  
stein in the fourth and an infield hit  
by Wagner in the ninth represented  
the Pittsburgh hitting during the last  
eight innings. Only sixteen batters  
faced Donovan in the last five in-  
nings. During the last four innings  
only twelve men faced Willis.The most sensational feature of  
the game, which was witnessed by more  
than 20,000 spectators, was a steal  
of home by Ty Cobb in the third in-  
ning. This was a remarkably well-  
timed bit of work and the entire  
Pittsburgh team and crowd was caught  
off their guard.It was on the first ball pitched by  
Willis after he succeeded Camnitz  
that the daring play was made. As  
soon as Willis started to wind up  
Cobb started for the plate and by a  
long slide he reached the base in time  
to beat Willis' bewildered throw. Gib-  
son was so surprised that he dropped  
the ball after Cobb slid in. This  
scored the third run in the third in-  
ning.Leach was again premier batter,  
with two-baggers in his first two  
times at bat. In the field he played  
a star game.Ty Cobb made his first hit of the  
series with a single over second base  
in the seventh inning. Wagner made  
a hit in the ninth and still leads  
Cobb in the batting duel between the  
two leading hitters of the major  
leagues. Wagner has made two hits  
in seven times at bat, or an average  
of .286, and Cobb has hit safely once  
in six times, or an average of .167.Pittsburgh started with a rush when  
Byrne walked and Leach immediately  
scored him with a ringing two-base  
hit to right. Clarke sacrificed Leach  
to third and Wagner struck out. Mil-  
ler shot a long hit into the crowd in  
the temporary stand in right field and  
completed a circuit of the bases, scor-  
ing Leach. The umpires, Evans and  
Klem, held a conference and trotted  
out to look at the stand and decided  
it was a two-bagger under the ground  
rules because the stand was only tem-  
porary. Leach scored all right but  
Miller was sent back to second base.  
Abstein struck out, ending the in-  
ning.After that Pittsburgh was practi-  
cally helpless with the bats.It was in the second inning that  
Detroit began to break into the limel-  
ight by scoring two runs. Crawford  
opened by striking out and Delehanty  
was easy. Wagner to Abstein. Mori-  
arity shot a screaming single to left  
and Tom Jones put another in the  
same place. Moriarity going to third  
on a hit and run signal. Schmidt then  
tied the score by doubling over  
Leach's head and Moriarity and T.  
Jones connected. D. Jones started the  
third inning with a pretty bunt along  
the third base line. Byrne made a  
magnificent assist, but Abstein dropped  
the ball and Jones was safe. Bush  
hit safely to left and D. Jones  
went to second. Cobb then worked  
the fast-weakening Camnitz for a  
base on balls, filling the bases. Cra-  
ford sent a short fly to Clarke, butthere was no chance for D. Jones to  
score, so he did not try.  
Delehanty shot a hot single over  
second and D. Jones and Bush scored.  
Willis then succeeded Camnitz. Cobb  
stealed home and Moriarity worked  
the new pitcher for a pass. T. Jones  
grounded to Willis and Delehanty  
was forced at third. Schmidt ended  
the inning with a fly to Clarke.In the fifth Detroit scored two more  
runs. After Abstein made a sacrifice  
single, one-handed stop of Cobb's  
bouncer, over first base, Crawford  
doubled along the left field foul line.  
Delehanty popped an easy fly to Ab-  
stein. T. Jones walked. Schmidt sin-  
gled to center, scoring Crawford and  
Delehanty, but T. Jones was caught  
trying to reach third.Cobb opened the third with a  
bouncer, over second for his first hit  
of the series. Crawford was out.  
Miller to Abstein and Cobb electrified  
the crowd by trying to made third  
base on the infield out. There was a  
close decision at third base and  
Klem called him out. After that  
there was nothing more doing for De-  
troit.The score:

DEFEATED BY CUBSChicago, Oct. 9.—The Chicago Na-  
tional league team won the second  
game for the city championship here-  
to day by defeating the Chicago Amer-  
ican league team 5 to 2. A base on  
balls, an out and an error gave the  
Nationals their first run. The Amer-  
ican league team launched their hits  
in the third and tied the score. Par-  
kells hit to left field for a home run  
gave the American league the lead in  
the next inning. Thereafter Brown  
allowed but one safe hit. The Na-  
tionals took the lead in the eighth  
and on a base on balls and two  
doubles. Two more runs were added  
to their lead in the last inning.Americans— AB R H PO A E

Park This AfternoonSANTA FE EXPECTS  
TO TAKE GRAYS  
BY STORMGAME WILL COMMENCE  
AT THREE O'CLOCKMany Clever Players to Partici-  
pate in Struggle Between Al-  
buquerque and Ancient Pueb-  
lo Aggregations Today.There will be a full sized imitation  
of the life and death struggle for the  
championship pennant which is now  
being waged in Pittsburgh between the  
Pirates and Tigers, when the Albu-  
querque Grays and Santa Fe base-  
ball club meet in an exhibition game at  
Traction park this afternoon. Never  
before this season has there been such  
a formidable array of baseball talent  
in Albuquerque as will be seen on the  
local diamond this afternoon, both ag-  
gregations being loaded down with  
gifted players. This afternoon's  
contest will be a preliminary to the  
series which will be played between  
several territorial teams during fair  
week and should be interesting from  
start to finish. The long end of the  
pennant will go to the winning aggre-  
gation, and both teams need the money.  
The mighty Nichols will work for the  
Grays in the box this afternoon, while  
Lockhart, a speedster in the art of  
handling out-athletes and invisible  
curves, will do the slab work for the  
visitors. Nichols will be given an op-  
portunity to demonstrate just what  
he can do in the pitching line this af-  
ternoon, as the Santa Fe team is said  
to have a few men in their lineup  
who are very clever when it comes  
their turn to bat. Lockhart, who was  
with the Trinidad team until it dis-  
banded, is quite well known among  
the local fans, having played here  
during former tournaments. He has  
improved quite a bit since his last ap-  
pearance in Albuquerque and it is  
said his repertoire of curves and fancy  
ice cream balls is as numerous as the  
stars in the sky. Lockhart was given a trial  
by the Chicago White Sox last year,  
but for some reason, probably on ac-  
count of his inexperience with the big  
boys, he failed to land a contract for  
this season. It is only a question of  
time, however, until "Lock" will be  
pitching league ball. Briefly, who  
handled the big mitt for the Trinidad  
aggregation in the past season, will or-  
ganize that position for the Grays this  
afternoon, and will also officiate as  
captain of the team during the tourna-  
ment. Briefly is well known as a  
player in Albuquerque, having played  
consistent ball here on several dif-  
ferent occasions. The Grays will line  
up this afternoon as follows:Briefly, captain, catcher, Nichols,  
Pitcher, Portus, first base, Ambrose,  
second base, Salazar, third base, Cor-  
ban, shortstop, De Blasi, left field,  
Pena, center field, Weeks, right field,  
Newmyer and Hidalgo, utility pitch-  
ers.The hostilities will commence  
promptly at 3 o'clock. Admission will  
be twenty-five cents to the quarter  
stretch, and twenty-five cents addi-  
tional for a seat in the grandstand.  
The fans have it dropped out that the  
game will be a rattling good exhibi-  
tion and it is quite likely that a re-  
cord breaking crowd will be on hand  
when the ampie calls "play ball."

GRIDIRON BATTLES  
ON MANY HARD  
FOUGHT FIELDSChicago Cleans Up University  
of Indiana to Tune of Twen-  
ty-one to Nothing; Other  
Games.

[By Morning Journal Special Leased Wire]

Marshall Field, Chicago, Oct. 9.—

The University of Chicago football

team defeated Indiana 21 to 0 on

Marshall Field here today, but the

score is larger than the relative mar-  
ks of the rivals seems to justify.

All of Chicago's scores were made

in the first half. One touch down

came from a blocked kick, another

from a fumble and the third on an

interrupted forward pass. Three

points accrued from Chicago on

Page's pretty field goal from place-  
ment from the 25 yard line.

Cornell Given Hard Fight.

Ithaca, N. Y., Oct. 9.—Olefin gave

Cornell a big scare today, scoring the

first touchdown in seven minutes of

play. Grey, the Olefin left half

ran back a punt from the 30 yard

line through the entire Cornell team.

Cornell braced up however, and scored

three touchdowns winning 14 to 4.

Culets Take Trinity into Camp.

West Point, N. Y., Oct. 9.—Trinity

scored on the Army today in the

second half, although the Culets won

the game 17 to 6.

Recovering an outside kick, the

visitors worked a successful forward

pass in the second half when Rams-  
dell, the Trinity left half, ran the

ball over from the 29 yard line.

Weight Wins for Midshipmen.

Annapolis, Oct. 9.—The navy de-  
feated Rutgers today 12 to 2. Al-  
though a victory, the game was notone in which the midshipmen could  
take great pride. Rutgers only scorewas tified on a neat drop kick by  
Alverson from the 29 yard line. TheNavy's two touchdowns were due to  
greater weight in the back field.

Minnesota Wins on Slippery Field.

Minneapolis, Oct. 9.—Minnesota de-  
feated the Iowa Agricultural collegehere today 18 to 0. All of the Min-  
nesota's scores were made in the

first half. It rained during the entire

game and the slippery ball caused

numerous fumbles by both teams.

Northwestern Outplays Purdue.

Lafayette, Ind., Oct. 9.—Purdue

was defeated by Northwestern on

Stewart field today by a score of 14

to 5. Northwestern made two touch-  
downs and a drop kick. Johnsonmade two touchdowns in the same in-  
nings but the ball by intercepting forWard passed and running 70 yards  
for touchdowns. Purdue's only touch-down was made in the second half  
after Geddes had made some suc-  
cessful quarter back runs and Elsen-  
with some long forward passes.

West Virginia Failed to Score.

Philadelphia, Oct. 9.—The Univer-  
sity of Pennsylvania football team de-  
feated West Virginia today 17 to 0.

It was only in the last 10 minutes that

Pennsylvania succeeded in scoring at  
all. Previously Pennsylvania hadbeen held for down three times in  
side West Virginia's ten yard line.West Virginia had but three substi-  
tutes and Pennsylvania allowed twomen who had been withdrawn to re-  
enter the game.

Oklahoma Shuts Out Kansas.

Lawrence, Kan., Oct. 9.—In a slop-  
py gridiron, Oklahoma university to-  
day succeeded in holding the football

team of Kansas university, 14 to 0. The

game, which was mostly an exhibi-  
tion of punting was marked by a largenumber of penaltys for holdin-  
and off-side plays. Oklahoma was

penalized 20 yards for sagging.

Wisconsin Wins in Ithaca.

Madison, Wis., Oct. 9.—In a ar-  
dilling rain the University of Wisconsinfootball team easily defeated Law-  
rence, Wis. university, 22 to 0. Moll,

the Wisconsin quarter-back was the

star performer. He uncorked a he-  
caterpillar array of forward passes, and

rune and the plungers. Lawrence never

had a chance to score.

Missouri Wins From Kansas.

Columbia, Mo., Oct. 9.—The Univer-  
sity of Missouri football team defeatedthe eleven of the Kansas Agricultural  
college here today 2 to 0.

Yale Defeats Springfield.

New Haven, Conn., Oct. 9.—In a

game marked by fleet playing Yale de-  
feated the Springfield Training School

## STROBEL WRITES HIS AIRSHIP HAS BEEN WRECKED

Keen Disappointment for the Fair Association and for People Who Had Counted on Seeing the Big Air Boat Sail: Every Effort Made to Secure Another Air Ship in Time for the Fair.

Either the elements of this country are afraid of the Albuquerque altitude or there is a life size bomb against this town so far as airships are concerned. Every attempt that has been made to get an airship here—and such attempts have been made over the past two years, has failed, and it seems that the fair association, which apparently neither the fair nor the owners of the airship could afford.

The Strobel airship, for which the fair association had paid out a very large sum of money, and which had been confidently counted on as one of the big attractions of the fair, will not be at the fair.

Two days ago Secretary M. Mann received the laconic telegram: "Strobel Airship wrecked, cannot sail at Albuquerque."

That was all. It was quite enough. President T. H. and Secretary M. Mann got busy. They wired to every club in America and to every man who knew anything about airships. They found Strobel had been wrecked in the United States, followed him and all his ships with telegrams and messages, but always with the same result. The ship was wrecked. No other ship was to be obtained. For he had remembered it required a specially constructed high altitude ship to sail in the Albuquerque altitude.

After two days of hard telegraphing the association yesterday received the following letter from Strobel, the first communication from the airship since the wreck of the ship.

Cincinnati, Ohio.  
Mr. J. B. McManus,  
Albuquerque, N. M.  
My Dear Sir:—

I have just been notified that the ship I have for high altitude has come to grief. I don't know the nature of the accident, no doubt that Mr. Lester will write and explain. I have other

ships, and especially the one that goes to Dallas and San Antonio, but that wouldn't fit in your city, as the altitude is too high and takes a larger ship by a good deal. I seem to have trouble in that northwestern country. Last year on Fourth of July, I lost a ship by fire at the Chisney. I had a ship, which cost me a lot of money. I know how you feel, and you can imagine how I feel. I mailed you more cuts and stuff than I have ever to any one, and have been in the business for over six years. I am the first man that ever put an airship in the market, and have made a lot of money for the fair.

I had figured to much on that contract, as myself and wife had made all arrangements to go there ourselves, so my sister lives there. I hardly know what to say, but will see you personally and arrange for the said cut, and see what we can do in the matter. I don't know what to say, as I feel so bad, and not knowing the real trouble. I remain as ever,  
Sincerely yours,  
CHAR. J. STROBEL.

A letter was received yesterday from Strobel by Mr. Roy A. Stamm, in which the airship man writes that his regrets at his inability to do the Albuquerque engagement, but gives no particulars of the accident, which prevented the fulfillment of the contract. The letter to Mr. Stamm was in response to one requesting the use of the Strobel gas generating apparatus for the Stamm balloon. It follows:

Mr. Roy A. Stamm,  
Albuquerque, N. M.

Dear Sir:—  
Your letter received regarding the gas for your balloon. I feel very sorry to say that from the wire I received from the west, that my ship will not be able to fill the Albuquerque contract. It has had a mishap of some

kind. I hope it hasn't burned out, the same as one of my ships did at Calgary, Alberta, last year. I have other ships, but they would not fit in that high altitude, and the only high altitude ship I have is the one in the west, that was to have gone to your city. I feel awfully blue to have that happen, as my sister lives there.

I would have been only too glad to have given you the gas at the close of the contract, and will do so if, at any time I can arrange to go there, and will assure you that I will do all I can in my power to square the ship with the people of your territory.

Thanking you for the letter. I remain as ever,  
Very truly yours,  
CHAR. J. STROBEL.

## GRIDIRON BATTLES ON MANY FIELDS

(Continued from Page 3, Col. 6.)

In a 6 to 9 score with Fordham today, Cunningham's drop kick in the last minute of play giving the locals a victory 2 to 0. The Fordham back field was easily superior in end runs, long gains being made with the forward pass and Fordham's players took advantage of Princeton's many fumbles.

On the whole it was the poorest exhibition of football by a Princeton team seen here in years.

## FAVORITES CARRY OFF MONEY AT LEXINGTON.

(The Morning Journal Special Teamed Wire)

Lexington, Oct. 9.—There was nothing sensational in the racing for the fifth day of the Kentucky Horse-breeding thirty-seventh annual meeting, favorites, as in past four days, winning in each of the three events.

The Wilson stakes, \$2000, 2:20 class pacing; Rose K. won in three straight heats. Time 2:06 3/4, 2:04 3/4, 2:05 3/4. 2:24 class trotting, \$1000, 3 in 5. General H. won the second, third and fourth heats. Time 2:09 3/4, 2:12, 2:10 3/4.

2:10 class pacing, \$1000. Mincinda won in straight heats. Time 2:08 3/4, 2:06 1/4, 2:06 1/4.

## Results at Louisville.

Louisville, Oct. 9.—First race, 4 furlongs; Tony Holland won; Arionette, second; Hornedale, third. Time 1:12.

Second race, 6 furlongs; Daniel won; Gallant Pirate, second; Claudia, third. Time 1:13 1/4.

Third race, 3 miles; Mamie Algon won; Camosary, second; The Shaughnessy, third. Time 3:32 3/4.

Fourth race, 2 1/2 furlongs; Gypsy King won; Marbles, second; Colobus, third. Time 1:09 3/4.

Fifth race, 4 furlongs; Lady McNelly won; Danahoe, second; Whim, third. Time 1:14.

Sixth race, 1 mile 70 yards; J. H. Reed won; Rosehorn, second; Camel, third. Time 1:44 3/4.

## Results at Belmont Park.

Belmont Park, Oct. 8.—Bello won the Hurter Hill cup for 2 year old jumpers today, defeating Oakhurst, the favorite by half a length. The race stamped the filly a clever jumper.

With Fitzherbert withdrawn from the Belmont Park weight for age race at 2 1/4 miles, Gladys had practically a walk over. Gladys was held at 1 to 50.

First race, 1 mile; Buck won; Hart vortan second; Live Wire, third. Time 1:18 3/4.

Second race, 6 furlongs; Dead beat won; Prince Imperial and Lyonia, sundry, third. Time 1:12.

Third race, the Baber Hill cup; interchanges, about 2 miles; Bello won; Oakhurst, second; Ruxton, third. Time 2:28 3/4.

Fourth race, the Belmont Park, weight for age, 2 1/4 miles; Chamabona won; Chatterbox of Chesterbrook, second. Time 4:01. (Two starters.)

Fifth race, 1 1/2 furlongs; Scaruska won; Glenadale, second; Catherin Scott, third. Time 1:27.

Sixth race, 1 1/4 miles; Ben Tre won; Juggler, second; King Sol, third. Time 2:04 3/4.

## DRIVERS RISK DEATH ON 'DANGEROUS' SPEEDWAY

Flying Cars Sent Over Fairmont Park Course at Terrific Rate; Race Witnessed by 250,000 People.

(By Morning Journal Special Teamed Wire)

Philadelphia, Oct. 9.—Traveling at a terrific rate of speed over the eight mile course in Fairmont Park this afternoon, George Robertson, won the 200 mile stock chassis road race in a Simplex car from a field of 21 automobiles, handled by some of the most expert drivers in the country. The results of the race follow:

Course, 200 miles, eight miles to the lap, 25 times around. First prize, \$1000 cup and \$2,500 won by George Robertson, in a four cylinder Simplex. Time 3:58:58 4/5.

Second prize, \$750; Won by Bert Dingley in a four cylinder 40 horse power Chalmers-Detroit. Time 3:44:20.

Third prize, \$500; Won by J. H. Harding in a four cylinder 49.2 horsepower Apperson. Time 3:52:15 7/10.

Fourth prize, \$500; Won by J. H. Harding, Jr. in a six cylinder 60 horsepower Chalmers. Time 2:53:31 1/5.

The winner's car worked perfectly and only once during the long contest did Robertson have to come to a stop and that was when he replaced a couple of tires and replenished his gasoline and oil tanks.

It is estimated that more than 25,000 people crowded both sides of the eight miles of roadway, said to be one of the most dangerous courses in the country.

The weather was perfect and not a serious accident marred the big race.

## RALPH DE PALMA SEVERELY FRACTURED LEG.

Danbury, Conn., Oct. 9.—As the result of the bursting of a tire the races at the Danbury fair, Ralph de Palma was thrown 20 feet, narrowly missing a tree in his flight landing on muddy ground and sustaining a fractured thigh with possible internal injuries.

## JOCKEY CLUBS TO TEST NEW YORK BETTING LAW.

New York, Oct. 9.—The Jockey Club and Brooklyn Jockey clubs which were recently indicted with thirty bookmakers and detectives for alleged violation of the law against betting at race tracks today served notice on the ground that the indictments on the ground that the Hart-Agnew law is unconstitutional.

The chief ground for this claim will be that the special election which sent William C. Wallace to the state senate from Niagara county, was illegal. Without Mr. Wallace's vote the Hart-Agnew bill would be defeated.

## ALL WRESTLERS CROOKED SAYS CYNICAL PROMOTER.

Seattle, Oct. 9.—Joe Carroll, alias Ole Marsh, the wrestler, indicted in Nebraska and Iowa for alleged misuse of the mails to defraud, in connection with the Maybray gang of wrestling and foot race promoters, was released on \$2,500 bail today. He takes his arrest with perfect composure, declaring the charges against him cannot be proved. In a newspaper interview today he said:

"If there is a wrestler who is not crooked I do not know him and I know all of them. If the men who wrestle should be on the square and settle their differences, how many hours' entertainment would the public have? We have struck up to jolly the game along to keep up public interest."

Bert Warner and Win Parson are still in the county jail.

## The New Family Shoe Store

Corner Central Avenue and Fourth Street  
In the New Simon Stern Building

Shoes That Serve

## Shoes For the Family

This expresses in a few words the purpose of this store. If the wife wants slippers for home comfort we have them—if she needs gracefully designed street shoes that will wear and make walking easy—we have them. If the baby needs shoes we have them. If the lusty lad requires shoes that can't be kicked out at the first football play, we have them. If the little miss wants to be as daintily booted as Mamma, we can please her. If the head of the family demands shoes for work or for dress, we are ready to serve him with shoes that will serve.

## Fittest Fits for Faulty Feet

Those with broad feet, long slim feet, broken down insteps, distorted and enlarged joints, will find that we have comfort lasts that were designed especially for just such cases. They'll learn in time how careful we are to fit their feet.

# DR. McLAUGHLIN WANTS ROCKEFELLER'S MILLION.

The man who proved that he was five years ahead of Prof. Loeb in discovering that "Electricity Is Life" now says that he can cure John D. Rockefeller, and agrees to give \$5,000 to charity if he fails.

**JAMES K. GRAHAM.**  
Atlantic City, N. J.—John D. Rockefeller offers a million dollars to the man who will give him a healthy stomach. He made that offer to a doctor who called upon him saying that it would be worth a million to him if he could fix his stomach up so that it would digest his food.

"A million dollars for a healthy stomach," said Dr. McLaughlin. "I accept the offer and will forfeit \$5,000 if I fail to deliver the cure."—Dr. McLaughlin.

This looks like material for an interesting story, which led me to Dr. McLaughlin's office for more particular details.

The first greeting from the doctor convinced me that I had met a man of convictions, and strong ones. The doctor was enthusiastic over what he terms a long-sought opportunity, and entered gleefully into a discussion of the subject.

"I would like to see that offer," said the doctor. "I think that I can earn it, and, further, I believe that no medicine on earth is the shape of a drug will do what Mr. Rockefeller wants done, simply because there is no vitality in the secretive gland of the stomach, and until he gets that vitality, which no drug can give him, he will never be cured."

"Just understand one point clearly: His food does not digest because certain functions related to digestion are powerless to act. They are weak, incapable of doing what nature intended. You see that. Now you can see that to set him right you must give the strength in the parts which are weak. That is plain. Drugs will not do that. They never did, and they never will, and every doctor on earth knows it."

"What will do it, then?" "Electricity," said the doctor. "I would pay \$5,000 this minute to see John D. Rockefeller walk into this office and permit me to tell him what I can do for him," said the doctor. "I am certain that I can build up his digestive apparatus as I am that I have done the same thing for hundreds of others. His case is not incurable by my method, and I would not let my \$5,000 made if he would not grant me a trial."

What is my method? The restoration of vitality—nothing more. To appreciate what I am going to say you will have to understand that it is now generally conceded by medical men that the motive energy of human beings—the force which keeps the heart pulsating, the stomach digesting and the brain scheming—is electricity.

Three years ago Professor Loeb, recognized as a high authority, stated that he had discovered, after ten years of studious research, that electricity is the basis of human vitality.

Just glance at this book of mine, written in 1896, and read what I say in the introduction.

I took the opened book from the doctor's hand and read: "I anticipate still greater results from my efforts toward demonstrating the truth of my lifelong claim that electricity is the basis of all animal vitality, and without it we could not live."

"That indicates that my discovery was years ahead of Professor Loeb," continued the doctor, "but I claim no credit for that. I did not discover it at all. It was my belief twenty-five years ago as it is the belief of every thinking man today, and I have simply developed the theory until now it is a proven fact."

"I quote Professor Loeb simply to show my right to say that if Mr. Rockefeller's stomach is unable to digest his food it is because it has no sufficient vitality, and we have already shown that 'vitality' means 'Electricity.'"

In another part of his book Dr. McLaughlin gives a more comprehensive solution of the heat problem than that advanced by Professor Loeb. Dr. McLaughlin says:

"The food that we eat is treated as fuel by the stomach, just as is the coal in a furnace. The chemical action which is produced upon the food by the acids and juices of the stomach burns the food and causes a carbonic heat. This heat is electricity, and it is forced into the nerves and vital organs as is their life."

Further, Dr. McLaughlin says: "The electrical heat generated by the consumption of our food should keep healthy every vital organ of the body. Debility of the vital organs arises when the waste is greater than the repair—when the stomach is not able to generate sufficient electrical heat to supply the demands of nature."

"This excessive waste is due to overtaxation of the vital forces by hard work mentally, grief or worry, extra physical exertion, severe fevers, such as typhoid or malaria, which drain away the vitality and leave the system debilitated."

Now, here is where Dr. McLaughlin gives a more comprehensive solution of the heat problem than that advanced by Professor Loeb. Dr. McLaughlin says:

debility. He says: "When the stomach is not able to generate sufficient of this energy to supply the demands of the vital organs, the natural result is a lowering of nerve, organic and muscular power—a general debility. Then an artificial agent must be used to assist the stomach. That agent is Dr. McLaughlin's Electric Belt."

"This is the remedy for Mr. Rockefeller. To prove my faith in it, I would be willing to put up \$5,000 to be given to any public charity which he may select if I fail to cure his stomach in four months, he to wear my appliance for six hours each day or night during that time. And he may be the sole judge as to the results obtained."

"How about Mr. Rockefeller's offer of a million dollars, doctor?"

"That is a secondary matter. I want it, of course, but not for my own use, as I don't need it, and a million dollars would not increase my happiness one quiver. I would much rather have the satisfaction of seeing my invention successful in curing a case where so many no. 1 physicians have failed. When a man has devoted the greater part of his life to the development of an idea which he thinks will benefit humanity, he is passionately fond of his idea and money holds little fascination for him."

"What would you do with the money, doctor?"

"If I should earn this prize I would gladly consent to having it go to some public charity, which I would reserve the right to name."

"And the \$5,000 which you offer?"

"On the day that Mr. Rockefeller agrees to use my treatment and observe my simple instructions I will put up my certified check for the amount, to be paid to any public charity which he may designate if he says that I have failed in my work."

"Then you leave the matter entirely in his hands?"

"Entirely. I am willing to trust to his decision."

A great many wealthy men are suffering from indigestion and other ailments with drugs without effect who never try a remedy like mine because they impose entire confidence in their family physicians, who believe that electricity is a remedy of the future, not of today, and so advise their patients.

"I tell you that electricity is a remedy of today. It has been a good remedy for the past ten years. I have studied this subject more carefully than any physician ever studied his textbooks, and I can show results. I am curing men every day who were never able to get benefit from drugs."

"Is it true, doctor, that your patients are mostly people of the middle or poorer class?"

"Yes. When a rich man is sick he calls in his doctor, who writes a prescription and looks wise, and the rich man has confidence that he will be well tomorrow. He feels better, perhaps, because the doctor can feel nature for a while. But after a while the doctor looks wise and it doesn't do the rich man any good, and the first thing he knows nature demands his price and he has to pay it, as the doctor can help him no more."

"When a poor man gets sick he does the same way, but he soon gets tired of the doctor's bills and takes his case in his own hands and comes to me. I cure him with Electricity, and that is why my patients are usually poor men. Rich men's doctors will not let them come to me."

"You cannot possibly estimate the true import of this discovery of Professor Loeb," said Dr. McLaughlin. "It means more happiness to the civilized race than has followed any discovery for years. It will bring about the general recognition of the great possibilities which exist in the application of electricity for the preservation of the vigor of youth."

"I have for years contended that old age was nothing but the freezing of the blood when there was no longer sufficient vital heat in the body to keep the blood warm and the organs active. I have said that years did not cause decay, and proved it by citing cases where some men have been made vigorous under my rejuvenating treatment at eighty, while you have examples all about you of men who are old and decrepit at sixty."

"Now Professor Loeb says that the animal heat is electricity. That I know to be true. We get that heat from the chemical action of the acids and juices of the stomach upon our food. That is combustion. This combustion produces carbonic heat, and carbonic heat is electricity. That is the basis of life in every vital organ. As long as the stomach is able to generate enough of this heat to replenish the wear and tear upon our vital energies we are strong and active. It is when the stomach finds the strain too heavy that we grow old and begin to decay."

"An old fellow, a patient of two years previous, asked me to have his

belt overhauled, as he wished to put it on again. I reminded him that he had reported himself as cured two years before, and I did not see the need of the belt now. 'Prevention,' said he. 'I was cured two years ago, strong and sound, but I am 71 years of age and am not as well able to stand knocking about as I was in my youth, and I wear the belt occasionally, not because of present need, but just so that I will have strength to spare in case of demand. If you are riding a bicycle on level ground and see a hill before you, what do you do? Put on more steam, eh? I am getting older every day, and I need more steam. That is why I wear the belt.'

"This is upon the same principle that an engine pulls a train of cars up a hill. On level road it goes easily, but when it goes up a hill the strain is heavy and your engine, making power from burning coal, just as your stomach makes it from burning food, is taxed beyond its limit, is unable to go farther, and, exhausting all its steam in the effort breaks down."

"The human body is just like that engine. It breaks down when the physical energy is overtaxed. That energy is electricity. I have here a means of replenishing the electricity of the body, and that is the basis of my treatment."

"Decay in old men is similar to general debility in younger men. Years have nothing to do with it. In each case it is the failure of the stomach to generate sufficient energy to supply the demands made by the vital organs."

"How quickly we fail when the stomach fails to digest the food! That shuts off the supply of energy."

"I have on record hundreds of instances where men of 57 to 80 have returned to the hard labor of their youth with a year after having worn my appliance (three months).

"One decrepit old man of 75 had in youth been a blacksmith. After using my appliance he took up his tools and says he can work as hard as he did at 25. He says he is an old man made young."

"Another man of 72 said he had been crippled with rheumatism for forty-five years. He pronounced himself cured and as vigorous as he ever was in youth."

"Another who was in wheel at 40 and said that he had been so for twenty years, was cured, and three years later undertook the severe hardships of a trip to the Klondike. He returned a few months ago and said that he had stood the terrible privations better than hundreds of young men."

"I could cite thousands of similar instances. When you see that I have fifty thousand voluntary testimonials and that there is not a hamlet in this country without one or more cured by my appliance, you will understand that my experience has been broad."

"My treatment is a success in any case where strength is lacking, whether in the nerves, stomach, heart, kidneys, liver or any other part. My appliance gives a soothing, constant electric glow, which is taken by the body just as a sponge takes in water. It cures rheumatism in any case, as well as every other form of pain."

"I am an enthusiast, you say. Why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belts after the failure of the best physicians. I am enthusiastic because I know that

I offer suffering humanity the surest cure for the least expenditure of money that is known today."

"I have gained my success by learning how to treat my patients and then curing them. I know how, others do not. I charge nothing for my knowledge, knowing that it helps my business to do all I can for every patient. My patients are my friends. They are building my success."

"Then I questioned Dr. McLaughlin as to his Electric Belt, and asked him wherein it was so much better than other similar contrivances."

"That is very simple," replied the doctor. "Having spent twenty-four years in study and experiment, I have found means of perfecting my appliance, or removing defects as fast as they appeared in actual use, and of supplying features such as a regulating device, rectifying electrodes, a portable battery, and of increasing the power of my appliance until it is five times as strong as that of any other electric body appliance on the market. My appliance is conceded to be the only one of the kind which is constructed upon purely scientific lines. Compared with all other so-called electric belts are the inventions of the blacksmith's hammer."

"It is not that that point, however, that my success has been founded. My success is due to my knowledge of the effect of electricity upon the stomachs treated and the best way to obtain that effect. I take every case that comes to me as an individual and direct the application of my belt to suit the demands of this particular case. When you consider the fact that the electricity which I supply is life to the organs into which

I send it, you can see how I get my results. My success comes from my cure. If I did not cure my business would have worn out long ago, as has the business of every other maker of electric belts. A great many schemes and frauds have gone into the electric belt business because they found it an easy way to make money and have resorted to very questionable methods at times, but the old adage, 'You can't fool all the people all the time' was active in their cases and they did not last long."

"Now, doctor," I said, "your theory sounds very good, but can you give me any hard-fide evidence of cures to back up your statements? You know there are a great many advertised remedies, and the case of Mr. Rockefeller, who has been in the hands of the best physicians for years, is a very good proof that few remedies are successful."

"That is my strongest argument," said the doctor. "Here are letters from prominent people, given me without solicitation. You can see these patients and secure from them a verification of what is contained in their letters."

Thereupon Dr. McLaughlin showed me a file containing letters from many of the best known people in the city and some from outside places. At random I picked out several and reproduced some of them here. The doctor told me that many of his best testimonials could not be published, as the patients, though recommending his treatment privately, objected to publicity.

F. Hughes, 317 Williams St., Albuquerque, N. M., says: "After using your Electric Belt for about two months for nervousness and weak back, I am completely cured. Your belt has done everything that you said it would and I now get up in the morning without feeling any pains in my back at all and I can do any kind of work. My nerves are as strong as I believe they could be. I am certainly well satisfied with your belt and I can conscientiously recommend it to any one afflicted as I was."

E. E. Hobbs, Kirkland, A. T., says: "Since using your Electric Belt my digestion is fine, my sleep is excellent. I have not lost a day since I began the use of your belt. My weight is now 160 pounds and I feel better than I have for years. I honestly believe that if any one will take your Electric Belt and use it faithfully as I did, it will accomplish everything that you claim for it and even more. I am well satisfied."

Here is a letter to show that drug are no good:

H. T. Parker, Newberry, Parker Grocery Co., Riverside, Cal., says: "I have been wearing your Electric Belt for a little over a month now. From the benefit I have already received through the use of this appliance, I feel fully warranted in recommending it. When I bought your belt I was in such bad shape that I could scarcely walk a block. I was troubled with indigestion, constipation, sleeplessness, weakness of the kidneys, and my principal ailments are overcome, and I find that I can walk a dozen blocks or more with hardly any fatigue. Your belt seems to have benefited my whole constitution. It has restored my general vitality and that is the kind of treatment that I have needed. Electricity is, indeed, a grand remedy when applied as it is with your belt. The drugs that I have taken into my system would start a fair-sized apothecary shop. I have quit drugs for good."

The next was a letter from the well-known boxer, Tommy Ryan, who says:

"When I had your Electric Belt my stomach was very bad—so bad that it was impossible for me to get out of bed. The belt has done wonders for me; has restored my stomach perfectly and built up my general strength."

There were dozens of letters from prominent men, whose names, if Dr. McLaughlin was permitted to publish them, would be sufficient guarantee of the genuineness of his case. Among them were several prominent physicians, who spoke highly of the treatment from personal tests.

Dr. McLaughlin here handed me a letter from a very prominent man.

W. C. Rotker, retired S. P. engineer, now owner of the City Garage and Auto Co., 1224-42 S. Main St., Los Angeles, says: "I thank you for your inquiry. It shows that you are interested in the case of your patients. This is to inform you that I have used your belt and found it all that you claim for it. It entirely cured a case of strained back of over three years' standing. I value your belt greatly, however, for the power it possesses to restore the general tone and elasticity of the general system."

"You can take a man who is thin, puny and unimpaired in appearance and pour the electric life into his body every night for a few months, with

the proper exercise to draw it into the muscles and tissues, and you can add twenty-five pounds to his weight, double his strength and vitality and transform him into a giant in strength, as I have often done. Look at the men who have worn our belt and you will see much of force, men of power and confidence, men who respect themselves and are respected and admitted by their fellow men."

"Poor digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy and laziness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active, and you will see what we mean. In such cases you can see how our Electric Belt will pump action into the body. It renews the electric life and transforms the sluggish into a bundle of vigorous energy."

J. Von Nickenber, Maxton, A. T., says: "Your Electric Belt has done so much for me that I will be only too glad to recommend it whenever opportunity is offered. Through overwork and worry I became a nervous wreck and after losing considerable time and money in trying to get a cure from doctors I finally bought your belt. I began to feel better after the first few applications of this treatment, and finally obtained a complete cure. I do not believe there is any other remedy in existence that could have cured my case, except your Electric Belt. Outside of my nervous trouble I was afflicted with lumbago, and this difficulty was greatly benefited by the treatment."

This agitation of the subject is going to prove of incalculable benefit to the future health of our race. Just satisfy the people that they can procure a renewal of bodily health by simply renewing the electricity in the body and you have given them what they have always prayed for—a relief from noxious drugs. Convince a suffering man or woman that drugs will not cure them and that all they need is a new supply of electricity and you have made them happy."

"So many people suffer from pains and aches, called Rheumatism or Lumbago or Neuralgia, due to impoverished nerves crying for aid. The life of those nerves is electricity and nothing else will cure them. We can send a gentle current from our Electric Belt so that it will convey the life direct to the ailing part, and relief is often felt in an hour. We frequently cure such cases within ten days."

Alvin H. Johnson, Patterson, Cal.: "Money could not buy your Electric Belt from me unless I could get another one like it. I was in very bad shape when I procured this appliance, but it has cured me completely, after years of suffering from weakness in stomach and bowels. I doctored with different doctors and took all kinds of medicine, which did me no good whatever. Your belt cured me of these ailments in two months. I will take time to recommend your belt whenever opportunity is offered for me to do so. I consider it one of the greatest inventions of the age."

"Suppose we take a man who has in one way or another overtaxed his system until it is in a state of abject debility, the brain sluggish, all functions gone and an ever-present feeling of despondency, a disposition to give up the fight."

"In that case the electric force has been reduced and there we have the cause of the debility. Now, replace that force and you have a rejuvenated man as good as ever."

"If these scientific men would do more investigating along the paths that we have already well worn they would find more evidence to back their theory that 'Electricity is Life' in one day than they will get out of the catalogue of a drug in ten years. We prove it by results upon human beings whom we have cured, and we have over 50,000 of them already shouting the praises of our belts. Let the scientists take our patients as samples and they will be convinced of the wonderful power of electricity."

"If it were not for the prejudices due to the great number of fakes in the land we would not be able to handle the business that would come to us."

The "Free Receipt" and the "125 Belt for \$3.49" which is but a catch to get you for medical treatment at \$15 to \$20 a month have made every one skeptical but we know that we have a good thing and will hammer away at it until every weak man and woman knows it."

"Tell me, doctor, why it is that you seem to get better results than a physician derives from using a battery on his patient?"

"Because the nervous system which receives the electric current is so sensitive that the current from a battery shocks it, but leaves no additional power in the nerves or vital organs."

"You can take a man who is thin, puny and unimpaired in appearance and pour the electric life into his body every night for a few months, with

# Visitors to the City are Welcome

## New Jet Combs, Hat Pins, etc

If you keep up with the style-changes you will want New, Jet Back Combs, Bands, Barrettes and Pins.  
 Jet Hat Pins, 15c, 25c, 35c and up  
 Jet Barrettes, 75c, \$1.00, \$1.50 and up  
 Jet Collar Pins, 75c to \$1.50  
 Jet Back Combs, \$1.50 to \$4.50

**Q** We welcome friends and strangers, customers and visitors alike. You will find just the conveniences here that you have wondered about, and may have hesitated about in planning to come. Make **our place your headquarters**, arrange to meet your friends in our rest room, use our phones, our writing desks, stationery, etc. Also leave your parcels—we check them free. We have the conveniences, and we have the inclination to make you feel and home at stand ready to do all in our power to make your visit to our city and to our store both enjoyable and memorable. Besides this you can make all your purchases right here from the largest, cleanest, and most up-to-date stock of Dry Goods, Millinery and Ready-to-Wear Apparel that you will find in the two territories.

## Autumn Veilings

New Mesh Veilings in all the Autumn shades, at, per yard, 35c, 50c and up.  
 Auto Veils, 1 yard wide and 2 1/2 and 3 yards long, in all the new colorings, from \$2.50 up  
 Double width Auto Veilings, 40 in. wide, in every wanted shade, priced at, per yard, .125.

## Some Interesting Facts Concerning

# Women's Correct Attire for Fall

Dainty new models arriving daily—come in and see them

## New Tailored Dresses at Once Arrest the Eye

The diverse styles assure to every woman something distinctive and becoming, no matter what her purchase is to be, from the simple, practical styles to the high-class, elaborately fashioned novelties. These exceedingly popular one-piece frocks are shown in chevrons, serges, mixtures, broadcloths and venetians, in every modish shade on the color card for Autumn, strictly tailored or in clever braided effects. The dress par excellence for the New Mexico climate.  
 Prices range from \$17.50 to \$125.00

## Clever Fall Styles in Our Coat Section

Here we see many decided departures from last season in styles, fabrics and colors. There are coats in the new rough weaves suggesting the craze for everything Russian, and coats of broadcloth as soft and smooth as satin, with a hundred other effects in all the new shades and blended colors brought out for Autumn. The largest assortment in the city.  
 Complete range of prices from \$17.50 to \$10.00

## Suits at \$15.00 and \$20.00

Two splendid lines of well-tailored suits in broadcloths, worsteds and homespuns, long coats, pleated skirts, tailored and silk braided styles with guaranteed linings, make these two lines unusually attractive to all who desire an attractive suit, well made and perfect fitting, at a very moderate and popular price.

## Misses' Apparel

We are particularly anxious to have you see the new long coats of black broadcloth, blue serges, and tan covert cloths, full lined with satin—the most graceful, most stylish coat a girl or slight woman can wear—at from \$15.00 to \$35.00

And the new one-piece Dresses and Trotteur suits of French serges, in solid colors, Priced at from \$18.00 to \$30.00

## Skirts for Autumn

New styles in such immense variety that each woman is bound to be exactly suited. Plain and novelty serges, mohair, voile, panama, silk, mixtures and novelty worsteds. Prices, \$5.00 to \$25.00

## Tailored Suits, the Best ever Offered, for \$25

Why take chances buying elsewhere, when you are sure of better values here, besides profiting by the expert knowledge of buyers in touch with makers and designers of the very highest rank in this country and abroad. At this price we have succeeded in procuring a suit in which is embodied high art tailoring, materials of finest quality and styles ordinarily offered at twice the price, in fact, these suits at \$25.00 will amply satisfy the woman of taste and discernment who has set this limit for her new Fall suits.

## Ladies' & Misses' High Grade Tailored Suits \$30 and \$35

A large and comprehensive line, representing practically all the new weaves of the season. There are broad-waist serges, fine French serges, homespuns and broadcloths in stone gray, raisin, helio, electric, navy, coal dust and black. In buying one of these handsome suits you carry with it a guarantee of suit satisfaction and a knowledge that it is right.  
 A big line to select from at \$30.00 and \$35.00

## Superb Suits that Reflect the Best Styles, Most Pleasing Cloths and Perfect Tailoring, \$45 and Up

Possibly the largest and most complete showing we've ever made of high grade tailored suits that sell at \$45.00 and up. Look through the line—every garment is smart, the materials are varied; mannish worsteds and chifon broadcloths predominating. The coats, 42 to 48 inches in length, hang with such splendid lines that tailoring of the highest order is recognized in every seam. The linings are Peau de Cygne or Skinner Satin. Skirts are the popular winter's pleated effects. See this splendid line before purchasing a suit at anything like \$45.00 or upwards. We think you'll profit if you do.

Twenty-five pieces of Scotch Flannels, in pretty little checks or stripes of pink, blue, green, black, etc.; 28 inches wide, and priced at, per yard, 35c

sanitary line. If so, call the Sanitary Plumbing & Heating Co., Phone #19, 104 So. Broadway.

# FINANCE AND COMMERCE

## WALL STREET.

New York, Oct. 9.—The Saturday trading in stocks proved to be the quietest of the week. There was some evening up of accounts and not much disposition to enter on new commitments at the end of the week, and with only one business day to intervene before another holiday Tuesday. A desire to see the complexion of the bank statement also restricted activity.

In view of the activity on the selling side during the week it was natural that closing up of accounts should be covering over shorts for the most part. It was this that marked prices upwards after the week opening. Stock exchange loans made on Friday carried over until Monday, so that the call loan market was nominal today.

There were, however, withdrawals of gold from the market of England for shipment to Turkey, Egypt and other points. The distinct feature of the week's stock market is plainly shown in the fact that the aggregate sales of all stocks 5,954,300 shares, 2,037,200 shares were of United States Steel. The stock maintained its prominence today, selling down over a point at the opening and sharing in the gradual tendency toward recovery in the whole market.

The American Railway association reported a further reduction by one-third of the surplus of its idle freight cars.

The stock market of the week reflected the fact of liquidation which must have resulted in payment of loans and the \$7,869,500 increase in average loans of the institutions outside the clearing house indicate the shifting process that was going on. The cash decrease was about as estimated and it was only by this drastic curtailment of deposit liabilities that the surplus was conserved.

The decrease of \$49,044,300 in average deposits and of \$52,439,500 in actual deposits constitute records for the New York clearing house. Closing stocks:

## WANTED—Men who have Friends and acquaintances to sell lots.

If you knew of a property that you were absolutely convinced is good, that the lots are now cheap and will double in value in one year, that is so peculiarly situated that nothing can keep it from increasing five-fold in two or three years, and furthermore, one that you can make a larger commission on than any other tract ever placed on this market, would you feel inclined to advise your friends to invest? We wish you to feel absolutely certain first and to that end want you to call. We want men who will represent things as they are and can sell on their convictions. 20 per cent commission to agents.

**San Diego-Panama Realty Company.**

## THE PURPOSE OF OUR CLOTHES

There's a steadfast purpose in Stein-  
 Bloch Clothes, as firmly sewn in as  
 the label—whether they are for formal  
 dress or those in which you encounter  
 the world in the street.

They are designed and made for the man who earnestly strives to  
 measure up creditably with his associates in business and social life.  
 They are not "cheap" clothes, nor are they expensive. They are  
 designed to give you dollar for dollar value, and make you look your part  
 in the world's work.

Try them on before our glass.

OVERCOATS \$16 to \$30 SUITS \$18.00 to \$35.00

## PATENT INSIDES NO LONGER POPULAR WITH EDITORS

Pecos Valley Men Using More  
 Linotype Matter; Able Papers  
 Read and Meeting at Car-  
 bad is Highly Profitable.

(Special Correspondence to Morning Journal)  
 Carlsbad, N. M., Oct. 7.—The Pe-  
 cos Valley Press Association closed  
 its third annual meeting today. Clav-  
 is was selected as the next convention  
 place. J. M. Wood of the Lakewood  
 Progress was selected president; Gayle  
 Talbot of Artesia, vice-president; A.  
 B. Corran of the Clovis News, sec-  
 retary and treasurer. Committee on  
 Legislation: L. C. Follen, W. T. Reed,  
 W. H. Mulligan, J. D. Whelan and  
 H. P. Harlow. Committee on pro-  
 gram: C. V. Johnson of the Portales  
 Times; J. P. Loomis of the Texico  
 Trumpet and A. E. Corran of the  
 Clovis News.

Resolutions of thanks to Carlsbad  
 for its hospitality were adopted. Res-  
 olutions of sympathy for Mr. Johnson  
 of the Portales Times and Mr. Dar-  
 nell of the Elida News in their mis-  
 fortune were passed. Editor Packett  
 of Russell, who is very low, was also  
 remembered.

Able papers were read by Mr.  
 Loomis, J. D. Whelan, Will Robinson,  
 W. T. Reed, Capt. Harlow, W. H. Mul-  
 ligan and others. The discussion of  
 various papers was interesting and in-  
 structive. Matters of the highest im-  
 portance to the newspapers of the Pe-  
 cos Slope were considered and no  
 doubt much was learned during the  
 meeting that will help make the press  
 of the slope more progressive than  
 ever. The matter of using linotype  
 composition was very carefully dis-  
 cussed. A number of the news-  
 papers are already using much  
 linotype in their papers. The "pat-  
 ent inside" was just discussed fully.  
 The policy among the papers is to  
 dispense with the ready made print  
 entirely and use linotype composition  
 to the end of an entire home print.

At the reception at the Commercial  
 Club the people of Carlsbad turned  
 out in force. If ever there was a  
 day of good will and unity, it was on  
 this occasion. Addresses were made by  
 C. O. Cushman on behalf of the pe-  
 cos Slope and Judge William  
 H. Pope delivered the best address  
 throughout the whole meeting. He  
 dwelt on the importance of the press  
 in relation to the upbuilding of a new  
 country, and its force in advancing  
 morality and high standard of life.

This meeting of the editors of the  
 Pecon Slope brought together as fine  
 a lot of men as ever hoped make a  
 country. They are all able and fear-  
 less men that have looked into the  
 "secret of time" and know that the  
 Pecon Slope will be an empire in the  
 near future. They are men with  
 absolute faith in possibilities of  
 the fertile land and valley. The peo-  
 ple of Carlsbad feel that they have  
 had among them the men that  
 through newspapers are bringing the  
 breath of the American people to this  
 desert section.

## TAFT RANCH ONE OF THE GARDEN SPOTS OF TEXAS

Princely Estate Where Presi-  
 dent Will Visit Brother Gov-  
 ernor 116,000 Acres and Is  
 Magnificent Domain.

(By George A. Schreiner.)

San Antonio, Tex., Oct. 8.—Down  
 on the beautiful Corpus Christi bay  
 within easy reach of the metropolis  
 of the great southwest, San Antonio,  
 where the days are warm and make  
 things grow, and the nights cool to  
 give them a rest—in one of the gar-  
 den spots of Texas—as located the  
 Taft ranch. It is a princely domain,  
 one which, in the olden days, would  
 have been covered by kings and might  
 have cost the head of the holder.  
 Large enough to accommodate many  
 a small European principality within  
 its borders, it has a soil and climate  
 hard to equal, let alone surpass. Be-  
 ing located in the rain belt along the  
 Gulf of Mexico the many acres on the  
 ranch produce anything man wishes.  
 Frost and snow are unknown and win-  
 ter is a season when flowers bloom  
 and men walk around in their shirt-  
 sleeves. But there is the breeze from  
 the gulf that makes the shade delight-  
 fully cool and the nights Arabian.

For the average man it is hard to  
 form an idea of the surface repre-  
 sented by 116,000 acres. In the lan-  
 guage of the vernacular there is some-  
 land to such a stretch. Yet this is  
 only a part of the Taft ranch. This  
 section is located in San Antonio  
 county and is known as "La Quinta".  
 On it is located the Taft home recently  
 completed, "La Encinal", a tract  
 located in Encinal and Webb coun-  
 ties, is larger than the former, by  
 many acres. No less than 240,000  
 acres form its vast expanse of rolling  
 pasture land slightly timbered with  
 mesquite and huisache.

How Charles P. Taft acquired this  
 immense property is a very simple  
 though interesting story. Dave Sin-  
 ton, a pioneer ranchman of Texas, ac-  
 quired these broad acres in the days  
 when land in the southwest sold for  
 as many cents, and more often less  
 than it now costs dollars. "Dave," as  
 he was known, all over, had an only  
 daughter, and later on she became  
 Mrs. Charles P. Taft. Simple enough,  
 is it not?

For many years the ranch was of  
 no more value than any other range.  
 Then it struck Big Bill's brother that  
 he might be able to turn the property  
 to some account by bringing it in  
 touch with progress. This was done.  
 Today the ranch is practically a self-  
 contained little domain. In a few  
 months it will be in a greater  
 degree. The packing plant, which has  
 been in operation for three years, will  
 be increased to a capacity of 150 head  
 of cattle per day and at least as many  
 hogs and sheep. The expenditure nec-  
 essary exceeds \$100,000. There is now  
 being installed a 15-ton refrigerating  
 and ice making plant with access to  
 the pure supply of water as ever  
 came to the lips of man, and an elec-  
 tric light and power plant was com-  
 pleted some time ago. Cotton gins,  
 oil mills, storage houses and the like  
 are going up constantly. A vast pro-  
 ducing and manufacturing center, in-  
 volving every conceivable and com-  
 fort of the city, is thus being created.

Naturally a vast number of people  
 live on the estate. In the little town  
 of Sinton live 1200, at Gregory 800,  
 at Taft 500 and at Portland 400. All  
 of these work on the Taft ranch. In  
 the case of Sinton, however, this is  
 not altogether true for the reason that  
 the land in its vicinity was recently  
 cut up into small tracts and rented  
 to northern farmers.

The administration of such an  
 estate is no small affair. As a mat-  
 ter of fact the Taft ranch enjoys a  
 government of its own. John F.  
 Green, the superintendent of the es-  
 tate, exercises in some respects the  
 authority of a county judge. He is  
 the man who settles all disputes and  
 acts as peace-maker generally. He  
 designate justices of the peace, a  
 number of constables and about 20  
 deputy sheriffs. Though liquor can-  
 not be secured in the towns, intoxication  
 means deportation from the property  
 for this reason. It is almost un-  
 known crime is rarely met with on  
 the estate. Undesirables are dealt  
 with in practical fashion. Superin-  
 tendent Green orders them to move  
 on and after that the Taft ranch sees  
 them no more.

The industrial department of the  
 ranch is managed in the same thor-  
 ough manner. There is a head to every  
 branch of activity; a man who has  
 gained his promotion by merit and  
 seniority. All, however, are respon-  
 sible to Mr. Green. At the present time  
 J. T. Tomlinson is in charge of the cat-  
 tle department and C. M. Williams  
 manages the agricultural department,  
 while a number of other people look  
 after the packing, dairy, cotton and  
 other industries. The smooth man-  
 ner in which the affairs of the Taft  
 ranch are being run is, indeed, a val-  
 uable lesson in practical sociology.

Ground for the new, acres is be-  
 ing cleared every day in the year. On  
 the Taft ranch there will be located  
 next year the largest cotton field in  
 the world. It will be twenty-five  
 miles long and will extend one mile

on each side of the tracks of the San  
 Antonio and Aransas Pass railroad  
 which traverses the estate. Corn,  
 milo maize, Kaffir corn, sorghum  
 cane, cow bean and other fields will  
 take up large areas. Truck will be  
 grown in large quantities. Notwith-  
 standing the big pastures of the property  
 will not be narrowed down to any ex-  
 tent. These are now divided into 25-  
 acre and 30-acre ranges and sup-  
 port over 2,000 head of cattle and  
 many thousands of smaller animals  
 such as sheep, goats, hogs and all  
 sort of fowl. The packery now in  
 course of erection will be kept busy  
 taking care of these. The Taft prop-  
 erty also owns miles upon miles of  
 beach front and the finest fisheries  
 along the coast. The cold storage  
 plant now in construction will also  
 aid in the development of the sea food  
 industry.

It may be mentioned here that it  
 has been claimed recently that the  
 meat products of the Taft packery  
 are principally intended for the use  
 of the forces digging the Panama ca-  
 nal. This would mean the packing  
 and shipping of from 300 to 400 head  
 of cattle a day, and a government  
 contract would be necessary. There  
 is no doubt, however, that Charles P.  
 Taft is not counting on such a con-  
 tract. The products of his packery  
 are needed locally and can be dis-  
 posed of at better prices than the  
 government would pay.

Taft, Texas, was the only town in  
 the state that went solidly republican  
 during the last presidential campaign.  
 Manager Green on the evening of  
 election day wired to Big Bill: "Taft  
 is for Taft." Taft now proposes to  
 show Big Bill the time of his life.  
 In one of the pastures, comprising  
 some 28,000 acres, not a gun has been  
 heard in 15 years. In this the much  
 advertised Taft hunt will take place.  
 Large number of deer, jack rabbits,  
 wildcats, coyotes, and millions of  
 quail are to be found in this pasture.  
 The most interesting part of the hunt,  
 no doubt, will be the chase of the  
 wild chapparal cat. This cat is about  
 four times the size of the house cat,  
 and an ugly customer when cornered.  
 One of them is a match for the best  
 dog, except the dog has been trained to  
 become a "cat" hound. Among the  
 fine pack of hunters on the Taft  
 ranch there are three "cat" hounds,  
 the leader of them being a big raw-  
 boned fellow, Jim Butler, who has  
 more cats and coyotes to his credit  
 than any other dog in Texas. The  
 best time to hunt cats and coyotes is  
 at night and the second night of the  
 president's stay at the ranch will be  
 given over to this exciting sport.

How Big Bill will fare tearing  
 through the mesquite, a tree full of  
 sharp thorns, and thickets of cactus  
 with spines even sharper, is sometimes  
 the cowboy on the Taft ranch are  
 speculating on very much.

Most of them have an exaggerated  
 idea of the president's physical mak-  
 ing.

"We are going to have an auction  
 scale of swag-back horses after the  
 president has gone," said one of the  
 facetiously. "I am glad anyway that  
 for the time being I am not a pony."  
 "These chairs," said Mr. Green,  
 pointing to several massive wood af-  
 fairs, "look big enough to hold al-  
 most any man. At least they are  
 broad enough. But I have my doubts  
 if they are strong enough to bear his  
 weight." He has bought new ones  
 since then. Chairs with a stress ca-  
 pacity of a hundred weight per square  
 inch.

Chaparral who recently built a  
 bathhouse at the end of the pier that  
 runs from the Taft Villa into the bay,  
 used timber three times as strong as  
 they would ordinarily. What is more  
 they wanted to make the door nine  
 feet high and five feet wide. It took  
 all of Mr. Green's power of persua-  
 sion to convince them of the fact that  
 a man could be somewhat fleshy and  
 still not be a baby elephant.

Resides the hunt Mr. Taft will play  
 golf on the largest links to be found  
 in the state. The links are known as  
 "La Quinta" and were laid out by the  
 champion of the game, Robert J. Connelly,  
 of Austin and Frank Lewis of San Antonio,  
 a well known expert with the  
 maul and tee. In laying out the  
 course the nine holes were so arranged  
 as to keep the president within view  
 from the house, enabling his party  
 and guests to watch every game.

There will be a large number of  
 other entertainments. Parties, should  
 President Taft want an absolute rest  
 the ranch will be the best place to find  
 it. The windows of his suites com-  
 mand a magnificent view of Corpus  
 Christi Bay and the long sweeps of  
 low hills forming the estate. He can  
 have a dip in the briny waters of the  
 gulf, can fish for tarpon or the  
 smaller denizens of the deep, and can  
 enjoy the soft life on the quiet  
 waters that ripple under his windows.  
 Miles of excellent shell roads will give  
 him an opportunity for automobile  
 riding, and in case he wants to do some  
 real riding there are stretches of  
 beach on which 100 miles an hour  
 may be pulled off without the slight-  
 est danger.

According to the present program  
 at least one day of the president's stay  
 will be taken up by a close inspection  
 of the property. He will keep in  
 touch with the affairs of the nation  
 by means of a telephone connecting  
 the Taft Villa with Gregory. At the  
 ranch hotel in the latter place will be  
 located the presidential offices.

Mr. Taft will go to the ranch after  
 a stay of two days in San Antonio,  
 where strenuous times await him. He  
 is due there on October 20. The weat-  
 her at the season of his arrival is  
 almost always ideal and there is no  
 doubt that he will enjoy his visit to  
 brother Charles' big Texas estate.

Well Known Hotel Keeper Uses and  
 Recommends Chamberlain's  
 Colic, Cholera and Diar-  
 rhoea Remedy.

"I take pleasure in saying that I  
 have kept Chamberlain's Colic, Chol-  
 era and Diarrhoea Remedy in my  
 family medicine chest for about fif-  
 teen years, and have always had sat-  
 isfactory results from its use. I have  
 administered it to a great many trav-  
 eling men who were suffering from  
 troubles for which it is recommended,  
 and have never failed to relieve them,"  
 says J. C. Jenkins, of Glasgow, Ky.  
 This remedy is for sale by all drug-  
 gists.

"Broadmore" is the name of the  
 new sub-division of exclusive Ameri-  
 can five-acre country homes, ready  
 for irrigation, only 14 miles north of  
 the city. See D. K. B. Sellers for  
 prices and terms.

## ALL THE YOUNG MEN IN THIS TOWN

Are going to want the  
 fine clothes we have here  
 this season; special styles  
 designed for young men;  
 very snappy, smart men-  
 els.

## HART SCHAFFNER & MARX

Have made for us some  
 special styles for the cri-  
 cal, dressy young fel-  
 lows; and if you don't see  
 yourself in them you'll  
 see nearly all the other  
 fellows.

They're exceptionally  
 fine goods; all wool, per-  
 fectly tailored. Better  
 have a look at them to-  
 day.

Suits \$20 to \$35  
 Overcoats \$18 to  
 \$30.

This store is the home  
 of Hart Schaffner &  
 Marx clothes.

## Dr. McLaughlin Wants Rockefeller's Million

(Continued from Page 9, Col. 7.)

That is why a doctor's battery does  
 no good. Now, our system is different.  
 We pour the current into the body for  
 six or eight hours every day or night,  
 usually while the patient sleeps. The  
 delicate nerves are not shocked or  
 jarred by this current, as it goes into  
 them just like a drizzling rain satur-  
 ates a newly plowed field. They  
 absorb it, drink it in, and as it is their  
 life they grow strong with it.

"Some doctors even believe that our  
 appliances do not generate a current.  
 We will pay \$1000 for one of them  
 that fails to give a powerful current  
 as soon as it touches the body. In  
 days gone by electric belts used to  
 burn the skin. We guarantee our  
 patients against that. Our ap-  
 pliances have soft cushion electrodes,  
 which give a glowing heat, but no  
 sting or burn. They have also a reg-  
 ulator to control the current.

The day is drawing near when  
 physicians who now avoid electro-  
 therapy because of their belief that it  
 is yet in the experimental stage will  
 be awakened to the fact that while they  
 have been waiting we have been  
 working, and that Electricity as we  
 supply it possesses marvelous curative  
 powers in cases where drugs will only  
 stimulate.

"And our success is not limited to  
 stomach troubles. Any organ of the  
 body, any part that looks the neces-  
 sary vitality to perform its natural  
 functions can be restored by our  
 method. It gives strength. It makes  
 the blood rich and red and warm; it  
 vitalizes the nerves; it puts life and  
 vim into the brain and muscles; it  
 just makes a good man out of a bad  
 one in every way.

"With our Electric Belt we cure  
 rheumatism in its worst forms; we  
 cure pains and aches, weak nerves,  
 general debility and any other trou-  
 ble which can be cured by restoring  
 strength."

Beautiful Illustrated Book Free.  
 Dr. McLaughlin has a book which  
 every one, both men and women,  
 should read. It tells facts that are  
 of interest to every one who wants  
 to remain young in vitality at any  
 age. It will show you the way to fu-  
 ture happiness. It is beautifully il-  
 lustrated with photographs of fully  
 developed people, showing how many  
 begin to break down from overwork  
 and dissipation, and how they can re-  
 gain the vigorous life of youth in a  
 few weeks' application of electricity.

## Welcome to Our City and the Record Smashing Sale

TOMORROW ushers in the second week of our now famous Record-Smashing Sale. Only six more days of this sale—a sale that has marked a new era in merchandising within the gates of our lively little city. You, men, who have taken advantage of these extraordinary offerings now realize the benefits derived from this sale of ours. But we are addressing those who perchance have failed to attend this Record Smashing Sale—a "Record Smasher" in the full meaning of the term. We are making strenuous efforts to turn part of our stock into cash. We have succeeded, but we are not yet satisfied. The second week must outdo the first week. Therefore, more price cuts and deeper ones are the order of the day. We are not considering profits—legitimate though they be; we must have cash and every article in the store must move at a double-quick. You are welcome to come and investigate. You'll be under no obligation to buy.

## Record Smashing Sale of Suits & Overcoats

### Men's \$15 Suits for \$9.75

New Fall Suits of up to date cut and thoroughly well tailored. Our regular price of \$15 is less than others would ask for them—but we are giving you our reason for this sale—"must raise the cash." A good, substantial business suit, actual worth \$15: Record price

**\$9.75**

### Men's \$20.00 All-wool Suits \$13.50

A better bargain was never offered you. Right at the beginning of the season we are cutting prices that will open your eyes to the fact that we are going about it in the right way if we want to raise the cash. You can't resist these tempting offerings. Excellent suits, well made, up to date in every respect, good colorings, regular \$20: Record price

**\$13.50**

### Men's \$22.50 and \$25.00 Fine Suits for \$18.50

Splendid assortment of all wool suits in black and colors, strictly up to date, high class workmanship, latest cut and designs, the swiftest suit you ever saw for the money. \$22.50 and \$25.00 value: Record-Smashing Sale price

**\$18.50**

### Men's \$30, \$32.50 and \$35.00 Finest Suits for \$25

Here goes the "Best Clothing in America"—the celebrated Adler-Rochester Clothes—superbly fitting, magnificently tailored, clothing that is handled only by the top-notchers in the clothing business and worn by men who are always looking for the "best, there is." Never were better styles shown anywhere, nor better qualities, nor better bargains offered you. You can't hesitate on a proposition of this kind, here they are—\$30 to \$35 suits. Record Price

**\$25**

### Men's \$35 Overcoat \$25

\$5.00 Trousers	\$4.00
\$6.00 Trousers	\$4.50
\$7.00 Trousers	\$5.00

Every pair a great bargain.

### Boys' Knee Pants

Specially priced, per pair 50c 75c, \$1.00

### Boys' Corduroy Pants

Extra heavy, well made knee pants for the boy. \$1.75 values at, per pair \$1.25

## ONLY SIX MORE DAYS OF REMORSELESS PRICE CUTTING

Forecast.  
Washington, Oct. 9.—New Mexico and Arizona: Fair Sunday and Monday.

### LOCAL AND PERSONAL.

L. M. Lyon was a visitor in the city yesterday from Las Cruces.

The Missouri society will omit its regular meeting Wednesday night on account of the fair.

Arthur Holzman, a well known merchant of Corona, N. M., is in the city on a brief business visit.

Mr. and Mrs. J. D. Eddin, and daughter, Mrs. Gertrude Droggeman have returned from a six weeks' visit to Seattle.

Charles Foster, of 315 North Third street, returned last night from an extended visit to his former home in Decatur, Ill.

Word has been received of the death of J. T. Smith, an ardent and highly respected citizen of Cleveland, Ohio, and father of Edmund B. Smith, of this city. The many friends in this

city extend their most sincere sympathy to Mr. and Mrs. Smith.

Judge George C. Reed of Winslow, has been brought to the hospital here to undergo a course of treatment for locomotor ataxia.

Mrs. J. C. Colwell, wife of Mr. Colwell, a clerk in May's shoe store, returned last night from a visit of several weeks in Fairview, Ill.

Edward Price, cashier of the Socorro savings bank, is here for a few days. While in Albuquerque Mr. Price will be the guest of his sister, Mrs. Leon B. Stern, and cousin, Mrs. Simon Stern.

The Young Women's Christian association will hold the first vespers service in the home parlour at 4 o'clock this afternoon. Mrs. J. H. Heald will have charge of the meeting. Mrs. I. P. Keeping will arrange for the music. All young women are invited to the service.

Mrs. Celia A. Lindsay, aged 89 years, who came to Albuquerque recently, from Texas, died at 2:30 o'clock yesterday afternoon, at her residence west of Old Albuquerque. The funeral

will occur from French and Lowber's chapel at 9 o'clock tomorrow morning. Rev. W. T. Bryson of the Christian church will officiate. Interment will be made in Fairview cemetery.

The funeral of Henry Stemann, who died Thursday night, at his home, at 719 South Broadway, will be held from French and Lowber's chapel at 2:30 o'clock this afternoon. Rev. Julius Paetel, of the German Lutheran church, will conduct the services and interment will be made in Fairview cemetery. Deceased was thirty-five years old and came here three years ago from Chicago for his health. He was an employee of the Santa Fe machine shop and leaves a wife and two children, aged seven and four years.

## PRESIDENT OF STOCK GROWERS ARRIVES IN CITY TODAY

"ALIGHT AND UNSADDLE" WATCHWORD OF OUTFIT

Officials of National Livestock Association Will be Present; Interesting Program Prepared.

George H. Webster of Cimarron, N. M., president of the New Mexico Cattle and Horse Growers' association, will arrive in the city this morning from the south and join Secretary E. A. Clemens and other officials of the organization at stockmen's headquarters on Central avenue. Quite a respectable bunch of cattle and horse men arrived in the city yesterday to attend the annual convention this week.

"To Camp—Alight and Unsaddle"—plus H. Outfit, is the hospitable legend which appears on some little posters pointing the way to headquarters which were put up by the secretary yesterday. The latter official has been very busy and upon the arrival of the president today the full program for the meeting will be at once completed.

The program will include addresses of welcome by officials of the city and the fair; interesting papers by leading stockmen, members of the Cattle Sanitary board and experts, all dealing with questions of vital importance to the big stock industry of New Mexico.

The board of control of the association, Col. W. S. Hopper, chairman, will hold a meeting today to make final arrangements. The chief well-

### THE WM. FARR COMPANY

Wholesale and retail dealers in Fresh and Salt Meats, Sausage, a specialty. For cattle and hogs the biggest market prices are paid.

coming address will be delivered by Hon. H. B. Ferguson.

Among the prominent visitors who will be present and address the stockmen are President H. A. Jastro of the American National Livestock association, Secretary Fred Johnson of the Colorado Cattle and Horse Growers' association, and J. A. Streeter, a prominent stockman of Colorado.

All persons interested in livestock raising, including the horsemen from Colorado and other outside points, exhibitors of fine cattle and other s, are cordially invited to attend the meetings of the association and to make themselves at home at headquarters. Attractive badges for members and committees have been furnished by the secretary and a large sign designating the headquarters will be put up at once.

The reception committee will be busy today. It includes Col. Hopper, A. A. Seelin, George Arnott, Mike Hamill, Frank Wilson of the Western Meat company, and many others, including representatives of the local press.

### MAY BE COFFEE That Causes all the Trouble.

When the house is afire, it's like a body when disease begins to show. It's no time to talk but time to act—delay is dangerous—remove the cause of the trouble at once.

"For a number of years," says a Kansas lady, "I felt sure that coffee was hurting me, and yet, I was so fond of it, I could not give it up. I suffered with my appetite and of course yielded to the temptation to drink more. At last I got so bad that I made up my mind I must either quit the use of coffee or die."

"Everything I ate distressed me, and I suffered severely almost all the time with palpitation of the heart. I frequently woke up in the night with the feeling that I was almost gone—my heart seemed so smothered and weak in its action that I feared it would stop beating. My breath grew short and the least exertion set me to panting. I slept but little and suffered from rheumatism."

"Two years ago I stopped using the coffee and began to use Postum, and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats full, strong and easily. My breathing has become steady and normal, and my rheumatism has left me. I feel like another person, and it is all due to quitting coffee and using Postum, for I haven't used any medicine and none would have done any good as long as I kept drinking with coffee." "There's a Reason." Read the little book, "The Road to Wellville," in pages.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## JOSEPH WALSH DIES IN TOPEKA AFTER BRAVE FIGHT

Albuquerque Boy Hurt in Football Scrimmage Two Weeks Ago Succumbs to Injuries.

After making a brave fight for more than two weeks, Joseph Walsh, son of Mr. and Mrs. Luke Walsh of this city, died in the Santa Fe hospital yesterday morning. Death resulted from a fracture of the vertebrae, which the young man sustained in a football practice game at St. Mary's college, St. Mary's Kas., three weeks ago. It was apparent from the first that the injury was a very serious one and the young man was removed to Topeka and placed in the Santa Fe hospital, under the care of chief surgeon J. P. Kuster. Mr. and Mrs. Walsh and daughter, Miss Jennie, have been in Topeka for the past two weeks and were at the bedside when death came yesterday. It was at first thought that there was a slight possibility of saving the boy's life, providing he could undergo a surgical operation. His injury, however, was of such a serious nature that nothing that medical science could do was of any avail in prolonging life. The young man failed rapidly for the past several days, death finally coming to his relief shortly before noon yesterday.

The deceased young man would have been nineteen years old in December and was well and favorably known in Albuquerque, where he was born and raised. He was a graduate of the '07 class of the Immaculate school here and had been for the past two years a student at St. Mary's, Kansas.

He was one of the most popular students in the institution. Possessed of a splendid physique the young man took a prominent part in athletics and had year played on the second team. This year he was picked out from a large number of candidates for a position on the first eleven. It was while engaged in a scrimmage with a scrum team that the young man was injured.

The bereaved parents and sister will leave Topeka this morning with the remains and will arrive here tomorrow night on Santa Fe train No. 1 at 7:45 o'clock. Pending their arrival no definite funeral arrangements will be announced.

The surviving relatives have a large number of friends in Albuquerque and elsewhere who will extend to them their sincerest condolence in their sorrow.

## TROOPERS ARRIVE FROM WINGATE FOR FAIR

Troops I and M of the Third United States Cavalry, comprising about 150 men, reached the city at noon yesterday, after a long, arduous journey from Fort Wingate. The troops were accompanied by a pack train, consist-

ing of eighty mules, one of the first to be seen in Albuquerque. Camp was pitched on the vacant block of ground at the corner of East Central avenue and North Broadway. The soldiers will remain here until next Sunday afternoon, when they will break camp and start the return march to the fort. During their stay here the soldiers will take a prominent part in the fair, appearing in various monkey drills and maneuvers at Traction park and participating in the trades display parade Thursday. The troops were met at the Rio Grande bridge, on the outskirts of the city yesterday morning by a committee of representative citizens, who welcomed them to Albuquerque.

## Danderine

Grows Hair and we can PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

A lady from St. Paul writes in substance, as follows:

"When I began using Danderine my hair would not come to my shoulders and now it is away below my hips."

Another from Newark, N. J., writes: "I have used Danderine regularly. When I first started to use it I had very little hair, now I have the most beautiful long and thick hair anyone would want to have."

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Danderine enjoys a greater sale than any other one preparation regardless of kind or brand, and it has a much greater sale than all of the other hair preparations in the world combined.

Free to show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERINE CO., Chicago, Ill.

With their name and address and the full name of the druggist to whom they wish to order.

# Society

Mr. and Mrs. W. W. Strong have returned from a visit with their relatives at six weeks duration.

Mr. and Mrs. W. P. McCall have gone to Santa Fe and Taos, New Mexico, for a two weeks vacation.

Mrs. R. W. D. Brown, who has been visiting at one of a series of informal bridge parties.

Mrs. J. W. Hopkins, accompanied by her daughter, Miss Irene, have returned from a month's visit in California.

Mrs. Frank Grinstead will return on Tuesday from Chicago, where she has been spending the last few weeks visiting friends.

Mr. and Mrs. A. R. McCall will return today. Mr. and Mrs. McCall have visited New York and the principal cities of the East. They have been away six weeks.

Mrs. A. Rosenwald and her daughter, Miss Alice Rosenwald, of 12 West Canyon avenue, will leave this morning for Denver, Colo. Their stay in Denver and other western cities will be indefinite.

Mr. and Mrs. John S. Brown, 223 North Fourth street, were dinner guests Thursday evening, their guest of honor being the Rev. Father Brown, S. J., of Denver, Colo.

Miss Rita Holman has returned to her home in Berkeley, California, after spending the summer in this city the guest of her sister, Mrs. O. N. Maynard, of Ketchikan, Alaska.

Mr. and Mrs. M. H. Sabin, 415 South Seventh street, are expecting a visit from the former's mother, Mrs. D. D. Sabin, and niece, Miss Isabelle Graham, of Manchester, Iowa.

Mrs. Arno Haring of Castle Garden is expected home later after an extended visit with friends in the Midwest. Mrs. Haring is accompanied by her two small daughters.

Mrs. R. R. Edgar, of 715 South Third street, is expecting her sister-in-law, Miss Edna Edgar, within a few days. Miss Edgar is from Bismarck, Mo., and will visit Mrs. Edgar most of the winter.

On Monday evening in the Woman's club the Hebrews assembled and entertained with a reception and concert.

Friday evening at the home of Mrs. Shadlock, 11 South Waller, street, the crown and cake were served as refreshments and a variety of new and novel amusements were introduced. Those participating in the musical program, the feature of the evening, were: Messrs. Elmer and Alfred Hoch, piano and violin; Mrs. Lee Aaron and Mrs. Farnsworth, guitar, harp and mandolin; and Miss Hery, Keweenaw, pianist. So successful was this social that a similar event will be held in the near future.

At the meeting of the Woman's club Friday there was an interesting literary program led by Mrs. H. R. Ray. Mrs. Albright gave a paper on "Shakespeare's Villains," while "Shakespeare's Clowns" was the subject of a talk by Mrs. Ray. Mrs. Mills had an interesting discussion on "Shakespeare's Women."

On "Music Day," October 22, the program will be given at the Congregational church. A nominal fee of twenty-five cents admission will be charged all non-club members.

One of the younger hostesses of the week was Miss Katherine Strickler, who entertained at bridge in a most charming manner on Wednesday evening. Those enjoying Mrs. Strickler's hospitality were: Mr. and Mrs. A. B. Reynolds, Mr. and Mrs. T. S. Wood, Mr. and Mrs. Ross Merrill, Mr. and Mrs. Felix Lester, Mrs. W. S. Brown, Miss Gladys Childers, Miss Julia Nudelman, Miss Rebecca Pomeroy, Miss Mildred Fox, Miss Mary Simms, Miss Lois Brookfield and Messrs. Rinaldon, Sturges, H. B. Wink, Jankins, Piquers, Pickard and Alger.

Fifty young people of the Christian Endeavor society of the Presbyterian church gathered at the home of the pastor, Mr. Hugh Cooper, 115 South Waller street, on Monday night for their monthly meeting. After the business meeting a delightful evening was spent in games, following which a dainty luncheon was served by Mrs. Cooper, assisted by Mrs. John R. Gass and Miss McAlpine. The popularity of the pastor and his wife with the church people was indicated by the large attendance and the late hour at which the guests departed.

One of the club autumn parties that was greatly enjoyed by those present was given by Mrs. E. Russell Edgar and Miss Brent at their home, 115 South Third street, on Wednesday afternoon. Mrs. Edgar and Miss Brent are planning a series of afternoon parties at cards, which Wednesday's bridge party was the first.

The entire home was prettily decorated in dahlias and autumn leaves. Those present were: Mrs. F. H. Kent, Mrs. S. Stern, Mrs. L. B. Stern, Mrs. G. L. Brooks, Mrs. M. Gurney, Mrs. Frank Tall, Mrs. W. H. Hahn, Mrs. Frank Nading, Mrs. W. R. Forbes, Mrs. J. T. McLaughlin, Mrs. J. H. Wink, Mrs. F. H. Lester, Mrs. R. B. Brown, Mrs. Bernard Lester, Mrs. Austin, Mrs. R. A. Frost, Mrs. George Frost, Mrs. J. F. Powers and Mrs. A. J. Maher.

An enjoyable autumn party was given by Mrs. Bernard Lester on Thursday afternoon, when she entertained at the first of a series of the Miss Julia Nudelman assisted the hostess throughout the afternoon.

The spacious rooms of the Hotel home at 1912 West Tenth street were beautifully in good luck flowers and leaves. Mrs. Frank Nading was the fortunate prize winner. Among those present were: Mrs. D. H. Carra, Mrs. John Lee Clarke, Mrs. H. E. Runney, Mrs. E. W. Bohach, Mrs. P. O. Cochran, Mrs. L. Keweenaw, Mrs. D. Weller, Mrs. J. Marshall, Mrs. J. Weinman, Mrs. G. L. Brooks, Mrs. Frank Strong, Mrs. D. A. MacPherson, Mrs. Frank Moore, Mrs. Clark M. Gray, Mrs. W. J. Johnson, Mrs. C. W. D. Brown, Mrs. W. H. Hahn, Mrs. Frank Nading, Mrs. Amalia Chavira, Mrs. W. R. Strickler, Mrs. A. H. Brown, Mrs. Raymond Brown, Mrs. M. Marshall and Miss Julia Nudelman.

One of the party parties of the week was that given by Mrs. Harry O. Strong at his home, 421 South Second street, on Thursday afternoon. The amusement of the afternoon was heartily enjoyed. Mrs. D. A. Wilcox was the prize, a jar. Mrs. E. H. Edgar was crowned by the hostess a hand-painted plate.

The home was decorated in autumn flowers and leaves, pink everywhere predominating. The tables were hand-painted. Those enjoying Mrs. Strong's hospitality were: Mrs. J. F. Thomas, Mrs. L. J. Hamilton, Mrs. J. F. Smith, Mrs. M. S. Wyler, Mrs. D. H. Carra, Mrs. J. Lee Miller, Mrs. M. P. Sherman, Mrs. H. B. Brown, Mrs. T. Y. Marshall, Mrs. J. Clark, Mrs. P. H. Kent, Mrs. A. J. Maher, Mrs. S. Stern, Mrs. W. R. Strickler, Mrs. A. H. Brown, Mrs. Raymond Brown, Mrs. M. Marshall and Miss Julia Nudelman.

Preparations for this week's Music were laid on now coming promptly. The committee has made its plans carefully and with the decoration of the Altitude hotel which is being done in honor of the visit of President Taft, and the general efforts being put forth by the committee in charge of the city, that your judgment will be the most adequate ever attempted. Albuquerque society is proud with the fact of having prepared for the fall of the winter a very beautiful array of hand-painted glassware and will be more than ever a thing to be proud of in the past in New Mexico society.

The Altitude hotel this year will probably set a new record. The probability that President Taft will be here in the fall is now a fact. For a few years ago the hotel was crowded with out of town visitors during the latter days of the week and many of them have already asked for tickets. Usually the Montezuma hotel has been the principal place of Friday of July week. This year it is equally as important as the principal place and it is likely to be the most successful on that account.

Mrs. Seymour J. Lowman was a charming hostess of the week who entertained at 144 on Thursday afternoon at her home, 212 South Seventh street. Mrs. Lowman was assisted by her sister-in-law, Mrs. D. A. Wilcox, and Miss Julia Nudelman.

The annual club week dance at the Commercial club Wednesday evening will be one of the most pretentious functions the club has attempted. The club house has been beautifully decorated this year, the preparations having been made before it became known that President Taft would not consent to the public reception proposed. The decorations are chiefly of the national colors with a plentiful use of electricity, and the club rooms will present a very beautiful appearance. The orchestra will provide a surprise to the guests, being the best musical organization the club has ever been able to procure. Refreshments will be served on the south veranda and will be in keeping with the rest of the preparation, which has had the attention of the club entertainment committee, composed of Dr. E. J. Alger, H. H. Weller, N. G. McCracken, C. F. Landolf, H. O. Jaffe.

A special reception committee has been appointed for this occasion, consisting of Mayor Felix H. Lester as chairman, Bernard Lester, J. H. O'Reilly, Maynard Gurney and M. L. Stern.

Among the out of town guests who will be present are: Governor Curry and his staff; Adj. General R. A. Ford, Santa Fe; Col. Charles L. Bland, Roswell; Col. James A. Massey, Santa Fe; Col. James W. Wilson, Roswell; Col. Jesse B. Sene, Santa Fe; Col. J. W. Fleming, Silver City; Col. Venecio, Jaramilla, El Alto; Col. Segundo Romero, Las Vegas; Col. M. L. Stern, Albuquerque; Col. E. J. Vigen, La Mesa; Col. A. S. Brooks, Santa Fe; Brig. General Thomas, commanding Department of the Colorado; Capt. F. R. McCar, Capt. Clement C. Whitcomb, First Lieut. E. A. Serrano, First Lieut. J. A. Wagner, Second Lieut. Hayden W. Warner, Second Lieut. P. L. Parden, Second Lieut. E. P. Deussen, Major Robert L. Sallett.

The Best Plaster. A piece of flannel dampened with Chamberlain's Liniment and bound on the affected parts is superior to any plaster. When troubled with back ache or pain in the side, or feet give it a trial and you are certain to be more than pleased with the prompt relief which it affords. This liniment also relieves rheumatic pains and is certain to please any one suffering from that disease. Sold by all druggists.

The university closes on Wednesday evening for the remainder of the week to give opportunity for students to attend the fair and witness the Thursday morning street parade.

The fourth volume of Porto Rico Federal Reports was received from Hon. H. S. Rodney last week for the library. The preceding volumes were presented some time ago by Judge Rodney.

Dr. W. J. Marsh will address the student body of assembly tomorrow (Monday) at 10:45, on the "Achievement of Human Independence." Prof. and Mrs. Hodgins entertained the girls of the Normal department at dinner on Friday evening. Those present on this occasion were Misses: Colette de Tullio, Eunice McCallan, Grace Morley, Genevieve Harrison, Nancy Lee, Edith Walker, Barbara Adams, Isabel Fox, Elizabeth Wells and Misses Smith and Sader.

The assembly last week was in charge of Dean Hodgins. His subject was "Some Things that are Happening." He touched upon the North sea controversy, the Hudson-Pulitzer celebration, the advance to action, the World's Fair of 1915 at San Francisco to commemorate the opening of the Panama canal, the founding of the kind of organizations even the church, toward demonstrations in direct procession and the temperance parade of 1908 in the streets of Chicago a few days ago. In speaking of some prominent women at the occasion was made of John Grayson Winter (Mrs. Arthur Standish) who is now writing her second novel, and of Ella Fitzgerald, recently elected superintendent of the great public school system of Chicago. The speaker mentioned the fact that some trouble had been experienced by the Chicago school board with various superintendents and that the problem was to be solved by placing a woman in charge of the thousands of principal teachers and pupils.

## DECORATION FOR BIG WEEK IS IN ORDER

TREMENDOUS DEMAND FOR FLAGS AND LIGHTS

Electrical Illumination at the Alvarado Tried Out Yesterday. Sunday Will be Busy Day.

Although today is Sunday, yet as the day of rest there will be much activity. Yesterday the demand for flags, bunting and lighting wires became tremendous. The dealers were swamped and the wire strings were more than they could possibly do between now and Monday night.

A number of stars, franks bloomed out yesterday in the national and other colors and others will put on their glad rags today.

The lighting system at the Alvarado hotel was tried out yesterday and was found to work admirably. While it does not cover the entire hotel as a year ago, the north front from foundation to roof is a mass of incandescents, from the pulling of the president's stand to the big Santa Fe sign on the topmost turret. The hotel will quite as attractive inside and out as a year ago. The office is being hung profusely with flags and bunting, and pictures of the president are freely used.

Exhibits Arriving.

A. B. Strong, who has charge of the exhibits at the fair grounds, put in a busy day yesterday. He is building the Bernillo county exhibit out of baled alfalfa, the exhibits to be set up inside the house built of hay. The Otero county exhibit arrived yesterday and the show from Farmington, a solid carload of it, as well as a carload from Cheyenne, will arrive today.

## HIT IN ABDOMEN BY ROCK IN BRAWL FIERRO MAN DIES

(Special Correspondence to Morning Journal) Silver City, N. M., Oct. 9.—Struck with a heavy rock in the abdomen during a drunken brawl at Fierro, Eusebio Serrano, an employee of the Colorado Fuel and Iron company, died a short time afterward from internal injuries. An investigation is being made, but as a drunken Mexican was engaged in a free-for-all fight at the time there is little chance of arresting the guilty man.

The funeral of Edward Mann, the 22-year-old son of Mr. and Mrs. John Mann, of Old Albuquerque, who died Thursday after a severe illness with typhoid, occurred yesterday afternoon. The funeral services were held at the family residence in Old Town and were largely attended by numerous relatives and friends. The services were conducted by Rev. Julius Pietnick, pastor of the German Lutheran church, who preached a beautiful and comforting sermon. The remains were interred in the family plot in Fairview cemetery, the funeral cortege accompanying the remains being very long, including the solemn march in which young Mr. Mann was held by his many friends. The market was decorated with many and beautiful floral tributes. The following young men officiated as pallbearers: Oscar Blumher, Kyle Jones, Paul Albers, being very long, indicating the esteem in which young Mr. Mann was held. Fred Baller.

## FUNERAL OF WELL KNOWN YOUNG MAN OCCURRED YESTERDAY AFTERNOON

The funeral of Edward Mann, the 22-year-old son of Mr. and Mrs. John Mann, of Old Albuquerque, who died Thursday after a severe illness with typhoid, occurred yesterday afternoon. The funeral services were held at the family residence in Old Town and were largely attended by numerous relatives and friends. The services were conducted by Rev. ## SANTOS ORTIZ TO MAKE APPEAL TO GOVERNOR

FRIENDS OF CONDEMNED MAN ASK CLEMENCY

Last Hope to Cheat Gallows for Murderer Who is to Hang at Silver City Next Friday.

Special Dispatch to the Morning Journal. Silver City, N. M., Oct. 9.—An attorney will leave for Albuquerque Monday night bearing a petition to the governor asking clemency for Santos Ortiz, sentenced to hang in the jail yard here next Friday for the murder of Jose Galvan at Hatchita early last month. The petition, which was circulated by Andrea Blancy, a native woman of this city, relates that the condemned man is deserving clemency and does not appreciate the enormity of his crime. Carpenter, who is erecting the gallows for the first hanging in Silver City since Sanchez was executed eight years ago, Sheriff McCreath has completed the job of twenty who will be allowed to witness the execution. The sheriff has been overwhelmed with applications from the mob who wish to see the hanging. The execution, if the governor does not grant a reprieve, will take place on October 15 at 2 o'clock p. m. Ortiz's brother arrived from Lordsburg several days ago to employ an attorney in the desperate attempt to save the life of his brother. The prisoner when interviewed in his cell appeared unconcerned and certain that the governor would grant him a reprieve.

## ARTESIA WILL GIVE \$100,000 BONUS FOR NEW RAILROAD

Enterprising Pecos Valley Town Makes Liberal Standing Offer; Building Boom Continues.

Special Correspondence to Morning Journal. Artesia, N. M., Oct. 7.—The directors of the Artesia commercial club met in special session Tuesday afternoon, and considered, among other things, the question of a new railroad for Artesia. There was no dissenting voice to the sentiment that the town must have one. So it was unanimously voted to put up \$100,000 as a bonus to be

## "77" HUMPHREYS' SEVENTY-SEVEN FAMOUS REMEDY FOR COLDS & GRIP

Try to impress upon your mind the importance of attending to the "first feeling" of a cold; lassitude and weakness; because the use of "Seventy-seven" at that time, will stop the cold at once.

After the Influenza, Cough or Sore Throat set in "Seventy-seven" is equally effective, but takes longer to cure.

Handy for everybody, fits the vest pocket. All druggists, 25c.

Humphreys' Homeo. Medicine Co., Cor. William and Ann Streets, New York.

given to the first company bringing a new railroad to the town. The increase in the production of alfalfa, many different kinds of fruit and field crops, has made more and better shipping facilities a necessity. Therefore the bonus, as a standing offer is held out. Mr. Charlin, a representative of the Santa Fe system from California was in town all day Thursday conferring with the land agents relative to the immigration question in the valley.

While here he told several business men the Santa Fe contemplates building a line from Pecos to San Angelo, Texas, at once. This will be good news to all parts of the valley, as it will make the distance to South Texas points and the Gulf coast less than half of what it now is, to say nothing of the saving in time.

C. A. Sipple, begins work this week on a large brick building on the corner of Main and Fourth streets. He will make of the lower floor, four store buildings, the same being much in demand at present.

Dr. C. W. Williams and family, went to Roswell last week to confer with architects, relative to plans for a handsome residence to be erected by Dr. Williams on Rose Lawn avenue. As soon as plans are finally determined upon, work will begin. This will be perhaps, the largest residence in town. Dr. Williams, who is president of the First National bank, has recently moved to Artesia, and shows his faith in the country by the erection of this home.

Many other new residences are being built, as well as several business houses. The Lowry, Looney clothing and shoe store opens this week in the building recently vacated by E. D. Howell, who moved into his handsome new brick. They will occupy their present quarters till the completion of the new brick, for the Pecos Valley Drug Co., when they will move to the block now occupied by that company, next door to the First National bank.

Directions for Colic in Horses.—Contents of small bottle. Pinch (Perry David) in quart bottle, add pint warm or cold water, sweeten with molasses, shake well until all mixed. Give about half at once, then balance in fifteen minutes, if first dose is not sufficient. This will be found a never-failing remedy. 35c for a large bottle. Also in 25c and 10c sizes.

## HOMESSEEKER BURNS TO DEATH

Charred Remains of Texas Man Found in Ashes of Ranch House Near Roswell; Contract for New Academy.

Special Dispatch to the Morning Journal. Roswell, N. M., Oct. 9.—G. L. Krige arrived at Elkins, a little town north of here, last night, having come from Stanton, Texas, to locate on his claim five miles west of Elkins. It was a rainy night and he stopped two miles out at the claim of Paul Matton, who with his family was away temporarily. Today his charred remains were found in the ashes of the Matton home. It is supposed he set fire to his bed with a cigarette, as he was an inveterate smoker. He leaves a wife and children at Stanton.

The board of regents of the New Mexico Military Institute this afternoon let the contract to Lyon and Axell of this city to build the new academy hall, which will take the place of Lee hall, destroyed by fire last month. Their bid was \$44,000. The heating and lighting contract, yet to be let, will put the total cost above \$50,000.

## NEWS NOTES FROM THE CAPITAL

Work Started in Real Earnest on Aroyo Hondo Project; Mounted Police Department Restores Mortgaged Property

Special Dispatch to the Morning Journal. Santa Fe, N. M., Oct. 9.—With the starting of the dummy engines on the Aroyo Hondo the latter part of this week, work has been begun in real earnest on the important irrigation project and it is expected that dirt will be flying fast within the next few days. The engineers in charge, of the work expect to make good progress from now on and a large number of teams and laborers will be put on the job in order to rush the work. There is a scarcity of men, heavy horses and wagons just at present, but it is believed this will be remedied soon as an active canvass will be made in search of this part of the equipment.

Property Restored in Colorado. Mounted Policeman L. F. Ayon, has returned from Trinidad, where he turned over to Sheriff Gridman, an outfit of horses and wagons, valued at \$1700. The mounted police man recovered the property at Captain Lincoln county last week upon advice from the Colorado authorities. It seems that the outfit had been mortgaged to a man in Debeque, Colo., but had been moved out of the state and the man who had it in charge in Lincoln was preparing to mortgage it again when the officer took possession of it and returned it to Colorado.

APPLICATION APPROVED FOR ANOTHER RESERVOIR PROJECT. The application of A. M. Patton, of

Denver, for 10 second feet of water from Bull Gap and other tributary streams of Water Canyon in Lincoln county, was approved today by territorial engineer Vernon L. Sullivan. The reservoir will have a capacity of 5,000 acre feet and will be erected near Oscura. According to plans and specifications the project is to cost in the neighborhood of \$125,000, and about 5,000 acres of rich land will be placed under irrigation.

Automobile for Superintendent. Clinton J. Crandall superintendent of U. S. Industrial Indian school today received a high power mountain automobile, which will be used in making official trips to the various Indian pueblos in the vicinity. The machine is the property of and will be kept in repair of the government.

Governor Appoints Notaries. The following notaries public were today appointed by Governor Curry: Wilbur F. Castle, Stanley, Santa Fe county; Charles R. Keyes, Wagon Mound, Mora county; J. T. Evans, Roswell, Chaves county; Charles R. Van Houten, Pail, Colfax county. The governor has also appointed R. H. Norton, of Los Angeles, Cal., a commissioner of deeds for New Mexico.

Incorporation Articles Filed. Incorporation papers were filed today in the office of territorial secretary, Nathan Jaffa, by the Top Development company, of Bakerville, Cochise county, Arizona, with New Mexico headquarters at Silver City, Grant county. The capitalization is \$500,000 divided into 50,000 shares. The incorporators and officers are: Earl A. Wayne, Harry H. Kelly, Thomas L. Lowe, Alfred E. Kerr, and Alan M. Gillespie, all of Silver City.

Light Artillery Battery. Adjutant General H. A. Ford and Captain Brooks are arranging to master in a battery of light artillery at Roswell, with Captain M. S. Murray in command.

More Than Enough is Too Much. To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for those purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. It troubled with indigestion, revise your diet, for reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets, and you will soon be all right again. For sale by all druggists.

## STEAM ROLLER NOW UNDER COVER

Big Earth Flattening Machine Has a House of Its Own and Will Not Have to Battle With the Elements.

The big steam roller owned by the city, which has been left out in the wind and weather for the past several months, because of the lack of accommodations, has been locked into a "steam roller house," recently constructed under the supervision of Street Commissioner Martin Tierney. The headquarters for the steam roller are adjacent to the street commissioner's office, on North First street. The building has been built in such a manner that the machine can run in and out under its own power. The housing of the roller will afford ample protection from the elements, which when on a rampage do not do the machine any good.

SWEDISH MERCHANT ANARCHISTS' VICTIM

Infernal Machine Sent Through Mails Injures Man Who Received It.

Stockholm, Oct. 9.—Through the bursting of a bomb received by post this morning Ion Hammer, director of the Swedish export association was severely but not dangerously injured. Together with the bomb a letter was delivered signed J. Asker, stating that that packet with its valuable contents was a gift to Mr. Hammer. The letter wrapped around the bomb was a copy of the socialist newspaper "Brand."

Crop Conditions Favorable. Washington, Oct. 9.—Crop conditions in the United States slightly more favorable than the average conditions for the last ten years existed during the month of September, according to reports compiled by the department of agriculture.

On October 1, crop conditions were 1.5 per cent lower than on that date in 1908 and 2.4 per cent lower than during the 10 years average condition on the same date.

The condition of September crops in comparison with the 10 year average condition on October 1, which is represented by 100 was: Potatoes, 143.8; tobacco, 97.8; corn, 92.2; cotton, 87.2.

Night Riders Again at Work. Brooksville, Ky., Oct. 9.—Night riders have again commenced active operations in this section and last night burned the barn of Edward Johnson near Willow, in Bracken county. Three thousand pounds of tobacco were destroyed. Johnson had not pooled his tobacco with the Barley Tobacco society.

St. Louis Festival Over. St. Louis, Oct. 9.—St. Louis finished its celebration of its one hundred years of corporate existence tonight, the concluding festival being a banquet at which all civic bodies of the city united to discuss its welfare.

Paris Honors Aeromax. Paris, Oct. 9.—Edgar W. Mox, victor in the international race for the Gordon Bennett balloon cup was awarded a warm reception on his arrival here today from Berlin.

Philadelphia Editor Dead. Philadelphia, Oct. 9.—Joseph H. Rouns, managing editor of the Philadelphia Inquirer, died today, aged 65 years.

## BIG OTERO COUNTY EXHIBIT NOW ON GROUND

Giant Pear and Mammoth Apple Included in the Agricultural Display Brought from Alamogordo.

J. G. Dun of Alamogordo arrived in the city yesterday with the Otero county exhibit for the Twenty-Ninth Fair and Resources exposition. The exhibit has been gathered by Mr. Dun during the past three weeks with great care and is a splendid demonstration of what farming is accomplishing in Otero county. There are fruits, grains and vegetables and other products all attractively arranged, and Mr. Dun and assistants spent a busy day yesterday getting the stuff in position in the exhibit hall.

Among other interesting things in

**Gumption** means "common sense" when needed most.

Under no circumstances is it needed more than in the selection of right food.

The one reliable food which supplies material for rebuilding the important gray substance of brain and nerve cells, is

## Grape-Nuts

This food is made of wheat and barley by a process which changes the starchy part of the grains into predigested food material so that it is quickly absorbed and promptly begins repairing and building up waste tissue throughout the body.

Grape-Nuts is a "common sense" food.

the exhibit are a large pear weighing 31 ounces and an apple which is five inches in diameter. "We can easily beat that over in the right sections of Otero county," said Mr. Dun, "but that apple and pear aren't bad, just to show a good average product. Alamogordo and Otero county expect to send a large and representative delegation to the fair this week."

## FIRST DEGREE ON OCT. 21

Knights of Columbus Will Confer Minor Orders on Class of Candidates in the Near Future.

The officers and members of Albuquerque council No. 641 are busily engaged in making preparations for the exemplification of the first degree on a class of candidates on Thursday evening, October 21. The degree team, which will exemplify the degree, are now rehearsing their various parts and it is expected that the work will be put on in a very satisfactory manner. Heretofore it has been the custom of Albuquerque council, under a special dispensation, to exemplify the three degrees of the order at one time, the work being put on during fair week. This council, however, has grown to such proportions that it is necessary to exemplify the degrees one at a time.

Winter Onion Sets for green onions. They come earlier in the spring than any other variety.

Cooling Plant for Fruit.

Barroett, Cal., Oct. 9.—The new intermittent pre-cooling plant just completed here by the Southern Pacific at a cost of \$1,000,000 began operation today. Its purpose is cooling fruit previous to transportation to the eastern states by a method which, it is said, preserves the delivery in perfect, fresh condition.

# ***OUR METHODS AND OUR MERCHANDISE***

## ***About Our Methods***

Possibly you are not interested in our methods, but we believe you are---we believe it must be of interest to every shopper of Albuquerque to know the aims and ideals of the shop from which she buys. We trust, then, that it is not amiss to say that the price she pays for an article here is not represented by mere dollars and cents, but strict as are the requirements of the purchase. Our service has then just begun. Everything that ministers to the customers convenience and satisfaction, from the delivery of her package to the service included in the transaction, plus a most liberal amount of service from the article purchased, is considered, and you will find our salespeople competent to advise, conscientious and conservative in statement and considerately courteous and attentive whether you buy or not.

## ***About Our Merchandise***

We bring to Albuquerque women the masterpieces of style---the highest degree of quality---the maximum of value. It is a season of variety, of rich but quiet colors, of soft but novel materials, of unique but beautiful trimmings, of striking but dignified designs and style. It is a season in which fashions have departed from the traditions of the past, exploring new fields in beauty and color, and yet, the guiding hand of gentility is always evident, which gives that authoritative touch of correctness characteristic of high class merchandise. Every woman is invited to see for herself, the new fashions as exemplified in our extremely large, and carefully selected displays. Everything we carry comes from the true sources of style inspirations. You will find we have selected with careful judgment, from those designers, who really set the style, everything for the needs of the Albuquerque woman, securing those things which were the best examples of the prevailing fashions. Styles that are made to express, in a most becoming manner, a woman's individuality. Women who are quickest to appreciate the beautiful and to criticise the inartistic, have found much to admire in our showings, noticeably so. Mail orders receive our personal attention and are filled the same day they are received. Agents for McCall patterns. Telephone 283.
