WHICH GARFIELD ORDER HAS REVOKED

SECRETARY BALLINGER EXPLAINS HIS ACTION

Declares More Power Sites Were Protected by Revised Withdrawal Order Than by Original Blanket Injunction.

[By Morning Journal Special Leased Wire] Washington, Nov. 7.—Secretary Ballinger's widely discussed revocation of the famous "Garfield order" withdrawing from settlement a million and a half acres of public lands and the substitution therefore of a withdrawal order withdrawing from settlement three hundred thousand acres, today was declared by Mr. Ballinger to have been wholly promissory—not substantive—of the conservation policy.

A lengthy explanation of his cancellation of the Garfield order was given to the press by Mr. Ballinger, who asserted that it was a logical step in the prosecution of the policy of conserving the water power on the federal domain and one which Mr. Garfield must have taken himself had he remained in office.

"The first order was a blanket withdrawal issued to meet an emergency and without taking time to see whether the power sites were protected by the order," Secretary Ballinger said, "intelligent prosecution of the policy demanded that, so soon as possible thereafter, these sites be located and the lands not needed to protect them be restored to entry. It would be an unwarranted reflection on Secretary Garfield to assume that he would not have done precisely what I did, as certain as soon as practically possible."

Secretary Ballinger returned recently from a four months' trip abroad to study the conditions of labor. His report is expected to be of material aid in determining the question of affiliation with the labor unions of the foreign countries.

Industrial training is likely to prove a live topic for discussion. The trouble in the ranks of the industrial brotherhood of electrical workers in Ohio and Iowa, where rival factions are seeking representation at the convention promises an interesting chapter.

"I found that by utilizing the geological survey, instead of the reclamation service, which had been employed by my predecessor, I could obtain accurate information as to the location of the power sites. On consultation with the geological survey, I found that I could make withdrawal orders retroactive, that is, that I could issue withdrawal orders later than the date of the Garfield order and merely show that the Garfield order was tentative."

"My first withdrawal order was dated May 4, 1909, and the last, which included many of the lands formerly withdrawn, June 10, 1909, but each of these orders contained the language, 'all existing claims, filings and claims are hereby suspended.' This implies no criticism of the Garfield order and merely shows that the Garfield order was tentative."

"As a matter of fact the withdrawals ordered by me protected fifty per cent more power sites than were protected by the Garfield order. This implies no criticism of the Garfield order and merely shows that the Garfield order was tentative."

"Not a single power site has passed out of the possession of the government in this administration. As a matter of fact the withdrawals ordered by me protected fifty per cent more power sites than were protected by the Garfield order. This implies no criticism of the Garfield order and merely shows that the Garfield order was tentative."

ALCOHOL FOE MAKES PROGRESS

DRINKING DANGEROUS TO HEALTH AND MORALS

Startling Arraignment of Traffic Contained in Report of American Delegate to International Congress on Drink.

[By Morning Journal Special Leased Wire] Washington, Nov. 7.—Alcohol and alcoholism are two of the real and substantial enemies of moral, artistic and commercial progress of the human race, according to the report of the Twelfth International Congress on Alcoholism, made public by the State Department today. The delegates were appointed by Secretary Knox as one of his first official acts. The congress was held last July in London, and twenty-five governments were represented. The delegates found that alcohol not only was unnecessary to human life and comfort but was inimical to both.

Three departments of the United States government were represented by delegates, the State, Navy and Treasury. Twelve representatives went abroad, and all of them unanimously signed the report of such a finding of which is to condemn the drinking habit as dangerous to public health and morals and subversive of national moral, commercial and military greatness.

According to the report the interest shown in the congress was greater than ever known before. Because of the information evolved by the congress, the delegates accepted the invitation of the Queen of Holland to hold their next meeting, two years hence, at the Hague in conjunction with the conference of the committee that is working for international peace.

While the congress urged the necessity of imposing the most rigorous restrictions on the sale and traffic in alcoholic liquors, it regarded as equally important the need of educating the younger generation to a true knowledge of what alcohol is and what its effects upon the human system are.

The delegates believed that the most effective means of accomplishing this end was to be found in the teaching of the science of temperance in the public schools. The report declared that the teaching of the science of temperance in the public schools was a matter of national importance.

The value of this method of combatting the growth of the liquor habit is emphasized in the report. While acknowledgment is made that the teaching of the science of temperance in the public schools is a matter of national importance, it is declared that the chief reliance should be placed on scientific temperance education in the public schools as a means of educating the public mind.

In this way, Mrs. Davis contended, the younger generation would be assured of proper instruction on the subject of alcohol. The report also declared that the teaching of the science of temperance in the public schools was a matter of national importance.

SPEEDING CAR LEAPS INTO RIVER

FOUR LOSE LIVES IN ACCIDENT IN CHICAGO

Bridge Opened for Steamer to Pass Automobile Strikes Open Draw Topples Into Stream; Occupants Drown.

[By Morning Journal Special Leased Wire] Chicago, Nov. 7.—An automobile containing several persons dived to the bottom of the Chicago river at Jackson boulevard. The occupants of the automobile were drowned. No bodies have been recovered.

A witness reported that the bridge at Jackson boulevard had been opened for a steamer to pass through and that the automobile which approached the bridge at a rapid rate, struck the abutment, turned over and fell into the river. A moment later he saw a man and woman struggling in the water, the woman clinging to the man. She screamed for help and a bridge tender threw out life preservers as both victims sank.

Dr. Adolph E. Berling, who had stopped in his automobile at the abutment of the bridge when he heard the signal for the bridge to open, saw the accident.

"When the bridge opened," said Dr. Berling, "I saw a boat pass. I looked around and saw a big touring car approaching. I saw a man in the front seat but could not tell how many occupants were in the car. The driver failed to stop and I called to him to stop. Either he did not hear me or he could not stop the car, for a second later I saw the machine topple over the edge of the abutment, then I heard screams."

"I saw three persons in the water. I am certain that I saw two men and a woman. The bodies that had come to the surface had drifted down the river. People on the boat had alighted the bridge tenders but no one could save them. The persons struggling sank in the river. One of the bridge tenders threw out life preservers but it was too late."

Members of the police and fire department tried to recover the automobile and the bodies, but up to a late hour no trace that might lead to identification of the victims had been found.

The decision of the Teachers' association, comprising 100,000 members, to test in the courts the right of the church to interfere with the public schools will be followed by damage suits instituted by the author of the "Interdicted Text Books."

Monsignor Dabry, archbishop of Rennes, in a statement just issued, declares that Catholic voters must rally to the protection of the church. The catechism is being revised for the purpose of teaching that it is a religious duty to vote for the candidate who is pledged to defend church interests.

MRS. STETSON LOYAL TO CHURCH

CHRISTIAN SCIENTIST LEADER DENIES DEFIANCE

Disgusted With Alleged Misrepresentation of Newspapers She Writes Her Own Article, Headlines and All.

[By Morning Journal Special Leased Wire] New York, Nov. 7.—Announce at a headline in a morning paper which said "Mrs. Stetson's followers defy the mother church," today prompted Mrs. Augusta Stetson, former first reader of the First Church of Christ, Scientist, to write her own newspaper story and her own headlines. The latter read:

"Mrs. Stetson's answer. Declares her loyalty to the church. Emphatically denies Mr. Strickler's interpretation of her teachings."

These captions appear on a four page typewritten statement which Mrs. Stetson's secretary distributed to-night from her home in Central Park, west, adjoining the church where she was the recent leader. From that position she was deposed because of alleged "mental malpractice." Of this charge she was acquitted by a board of inquiry and the verdict of exonerated was endorsed last week by the congregation of the church, but the controversy continues.

Mrs. Stetson reaffirms her allegiance to the mother church in the following words:

"I wish to state here, most emphatically that I do not deny the mother church, neither do my followers."

Answering the charges that she had attempted to invoke evil by thought, upon the heads of certain persons, she says of Virginia O. Strickler, present first reader and her opponent:

"I was surprised that he (Strickler) seemingly could not grasp the metaphysical point that there is a difference between mental malpractice and self defense. I will give as an illustration what I understand the difference to be between malpractice and indispendible defense or self protection. If I felt sure that I was being attacked, either intentionally or maliciously by any person, I should fill my thought with the qualities of God, truth and love, which alone, renders one invulnerable to whatever comes from the carnal mind. From this fortress of defense, I should should speak to the person, addressing him by name and then speak to the error which might be operating through the human

TACOMA TIDE LANDS OFFER OPPORTUNITY FOR INVESTORS

Albuquerque Man Interested
in Real Estate Proposition in
Pacific Northwest.

It is not often that Albuquerque people have a chance to get in on the ground floor on an investment proposition in which there is absolutely no element of chance.

It is true that hardly a day passes without some sort of a proposition being brought up, but the really safe and profitable investments that have been brought here from the outside are not many.

The northwest today is unquestionably first in the public eye. The development there is unique in that it has surpassed all previous records and there is nothing to compare with it. Money is flowing into Washington and Oregon in a continuous stream and real estate is passing from hand to hand with phenomenal rapidity and at an advanced price.

The cities of Portland, Spokane, Seattle and Tacoma are building up with a steady, sane and wonderful growth, but it is taking outside capital to develop the entire country.

Probably the most remarkable instance of real estate speculation is in the Tacoma Tide Lands. Last year Tacoma had but one railroad, the Northern Pacific. This year she has the Northern Pacific, Great Northern, Union Pacific, Chicago, Milwaukee & St. Paul, the North Coast, which is presumably the Canadian Pacific, and the C. & N. coming fast. The five railroads that are already there hold immense acreage on the Tide Lands and the water front and are planning the expenditure of over \$11,000,000 in the construction of docks, warehouses, shops, round-houses and trackage.

These railroads tap the inland empire of Washington and the wheat belt of the northwest and they are planning to handle through Tacoma the great bulk of the export trade. The natural result of this tremendous activity among the transcontinental railroads has been that the Tide Lands surrounding the properties of these railroads have appreciated in value. As soon as it became known that the railroads were buying property, the Tide Lands immediately advanced in price and a higher figure. Some of this land has already been platted and put on the market and the additions sold out; other additions are now on the market and other districts are being held by the owners for a further advance.

The Eugene Church Company has been fortunate enough to secure an option on 25 acres situated on the Marshall Road, the principal road across the Tide Lands, between Tacoma and Seattle, at a very reasonable price. In fact, about \$1000 an acre less than the present market value.

This land lies on the principal district of the new manufacturing center of the city of Tacoma, about a mile and three-fourths from the center of the city, on the main traveled road, which is another factor in its value. It is in the opinion of well informed real estate men of Tacoma, is the most advantageous buy.

The land is perfectly flat and needs no filling in or grading. In fact, it is all ready to build factories on at this time. Property immediately adjacent to it in almost every direction has been platted and is on the market and the lots are selling rapidly.

It is the idea of the Eugene Church Company to buy this 25 acres, plat it into 300 lots 25x100 feet each and place the lots upon the market at a reasonable price for a quick turn. They figure on from six to eighteen months to consummate the resale of the property, and that those who are fortunate enough to be stockholders in the enterprise will receive two dollars for one.

The Eugene Church Company is well regarded in Tacoma and the northwest and is an entirely reliable house. They suggest the formation of a stock company to handle this project, shares selling at \$100 per share. Fifty per cent will be called for at once, the balance in six, twelve and twenty-four months, if called for at once, but the supposition is that the subsequent installments will not be called for as enough land will be sold to take care of the deferred payments on the purchase price.

This proposition has been brought to Albuquerque by John Lee Clarke, who examined everything with considerable thoroughness while in the northwest. He has since then received many letters from real estate companies and banks in Seattle and Tacoma, endorsing the proposition.

Mr. Clarke has talked with Albuquerque business men in regard to this investment and has been successful in interesting quite a number. The option, which was to expire November 8th has been renewed until November

ber 15th, so that every one who is interested can be given a chance to get an interest in this company and if possible get for Albuquerque the controlling interest.

Mr. Clarke will be glad to call upon anyone who wants to hear more particulars, and will be very glad to have you telephone him and make an appointment.

A few extracts from some of the letters that Mr. Clarke has received:

The Lawler & Miller Co., of Tacoma, says: "Land bought on the Tide Lands and held for a few years will return immense profits. We recommend for your purchase two lots in the Milwaukee Terminal district, corner of 20th and Earling st. These lots are 125 feet wide and 108 feet long. Purchase price is \$2750.00. There is no doubt in our mind that the two lots we recommend you to buy will readily sell for from \$10,000 to \$15,000 in five years." These two lots are across the street from the 25 acres.

The Puget Sound National Bank says: "Answering your communication regarding value of Tacoma Tide Lands, after investigating, I beg to state that by conservative and well known business men of both Seattle and Tacoma, the Tide Lands are regarded not only as a safe, but as a profitable investment."

Mr. Rathbun, of the Washington Trust Co. of Seattle, says: "Tacoma can be considered a good city; it is great, and I can see no reason why well located Tide Lands in Tacoma will not eventually prove a profitable investment for a purchaser."

Mr. Lachlan Macleay, Pierce county commissioner to the A. Y. P. Exposition, says: "We consider the 25 acres you speak of as one of the best buys in the city of Tacoma today at \$2,000 per acre. We do not see how your friends and associates could fail to realize a handsome profit."

A telegram from Seattle says: "New railroad just bought 177 acres, Rock Island probably, big price. The place is a good one. The tide lands option was secured and also the fact that the Heine Pickle and Preserve Co. has bought 14 acres on the Marshall Road, further out than the 25 acres mentioned above, upon which they have already started work on a quarter of million dollar pickling plant."

Other new companies that are spending a large amount of money in this immediate district are the West Coast Wagon Co., Hawkeye Lumber Co., Moran Ship Building Co., Dempsey Mill Co., Peterson Manufacturing Co., Puget Sound Iron and Steel Works, Tacoma Gas Light Co., and the Northwest Structural Steel Co., and a new experimental smelter with a capital of \$1,000,000.

Foley's Money and Tar cures coughs quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. J. H. O'Reilly Co.

HEINZE POPULAR IN BUTTE

Four Thousand Turn Out to
Cheer Return of One Time
Copper King in Montana
Mining Metropolis.

(By Morning Journal Special Leased Wire)

Butte, Mont., Nov. 7.—(Returning after an absence of nearly two years, P. Augustus Heinze was given an ovation the equal of which has seldom been tendered a private citizen in this city. From the balcony of the Hotel Heine, Heinze spoke to a crowd of 4,000, who frequently interrupted him with cheers.

At the depot a crowd of 1,500 persons had gathered with the Hotel Heine and Montana band. The carriage in which he rode up town was drawn by a score or more of admirers.

The main thoroughfares were brilliantly illuminated with long strings and clusters of incandescent lights used on fete days, and two huge signs blazoned forth a welcome.

In the absence of Mayor Nevins County Attorney T. W. Walker welcomed him on behalf of the mayor.

Heinze in responding to the address referred to the indictment against him in New York, predicting that it would be quashed or as he expressed it, the obstacles placed in his path would be swept aside.

Following his address Heinze held a reception in the hotel parlor in which many of his former Brethren and old friends greeted him enthusiastically.

ALDRICH TO SPEAK TONIGHT IN ST. LOUIS

St. Louis, Nov. 7.—Coming today from Chicago, Senator Aldrich arrived in St. Louis tonight. He is scheduled for a speech at a dinner to be given him tomorrow night by the Commercial club of this city.

Mr. Aldrich's speech here, as in Chicago, will be devoted to an exposition of the work and purposes of the monetary commission. It is expected that he will follow practically the same lines as in Chicago. When asked whether he would not deviate from his course sufficiently to reply to Senator Cummins' criticism, Mr. Aldrich merely shook his head. He also declined to say anything of a general nature on the tariff question.

Das Moines, where Mr. Aldrich will speak Thursday night, is the home of Senator Cummins, but it is doubtful whether even there the Rhode Island senator will make reference to his difficulties with the Iowa senator.

Mr. Aldrich was joined at Chicago by George P. Reynolds, president of the American Bankers' association, who will continue with him until the end of the tour.

MILIONAIRE FARMER DEAD.

Chicago, Nov. 7.—Lynnan H. Burdette, a millionaire truck garden farmer, died here today. He came to Chicago in 1857 from Cranston, R. I., where he was born in 1829, and at the time of his death had under cultivation 700 acres of land within the city limits.

King Manned to Visit England.

Lisbon, Nov. 7.—King Manuel left here today for Madrid en route for France and England.

WASHINGTON TODAY PASSES AWAY AT RIPE OLD AGE

President Attends Church at
Augusta and Manfully Re-
sists Temptation to Deliver
Usual Sunday Sermon.

(By Morning Journal Special Leased Wire)

Augusta, Ga., Nov. 7.—President Taft enjoyed a rest today and will start for Washington tomorrow afternoon, refreshed by the two days he has spent here. This was the first Sunday since he has been "on the road" that President Taft was not called upon for an address of some kind. The president arrived late and attended morning services at the Church of the Good Shepherd (Episcopal).

The president lunched today at the home of Lander Thomas with twenty-five residents of the city. At luncheon Mr. Taft was presented with a silver loving cup as a remembrance of his golf days on the course of the Augusta Country club. The cup was inscribed "Eighty-nine—89." Indicating the president's best record on the local links.

After luncheon he had an automobile ride and returned to the home of Major Joseph C. Cumming, his host for an afternoon tea arranged by Mrs. Cumming. The day ended with a dinner for twelve at the Cumming home. Tomorrow the president will spend the morning at golf and at 1 o'clock will open the Georgia-Carolina fair, leaving at 2:30 o'clock for Florence.

The suit you have been wanting can be bought at much less than the original price this week. The Economist.

**MINE ACCIDENTS CLAIM
596 LIVES IN ONE YEAR**

Total of Fatalities in Pennsylvania Shows Decrease Over Former Years.

Harrisburg, Pa., Nov. 7.—James E. Roderick, state chief inspector of mines, sharply criticized the present method of selection of mine inspectors in a report on the anthracite coal mining in Pennsylvania in 1908 which was sent to Governor Stuart today.

The chief declares the present system pernicious and detrimental to the best interests of the miners. He also urges more effort to educate miners. In the year 596 lives were lost, a decrease compared with former years.

**FIRST PRESIDENT OF DRY
FARM CONGRESS IS DEAD**

Salt Lake City, Nov. 7.—Fisher S. Harris died here today from tuberculosis. Mr. Harris was the first president of the Dry Farming congress, secretary of the See-America-First league and secretary of the Salt Lake Commercial club. His ability as a speaker has been recognized throughout the west and his devotion to western interests has been equally beneficial to inter-mountain states.

Mr. Harris was 4 years old. He was born at Warren, Pa., and died at Salt Lake City. A widow and three children survive.

**URGE UNIFORM WAGE FOR
TRAINMEN IN WEST**

New Haven, Nov. 7.—A conference was held today between Jas. J. Murdoch, chairman of the Brotherhood of Railroad Trainmen, and National officers Harry of the Railroad Conductors, which Mr. Murdoch said was preliminary to a meeting in January when the matter of establishing a uniform rate of compensation for trainmen on all roads east of the Mississippi will be taken up. Between \$5,000 and \$6,000 men, he said, would be affected.

MADE WELL AND STRONG

By Lydia E. Pinkham's
Vegetable Compound

Barstow, Tenn.—"I suffered from ulceration and other female troubles for a long time. Doctors had failed to help me. Lydia E. Pinkham's Vegetable Compound was recommended, and I decided to try it. It cured my trouble and made me well and strong, so that I can do all my own work."

Another Woman Cured.

Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me, and made me feel like a different woman. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold to suffering women."

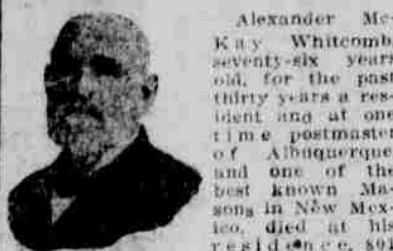

Mrs. Mary Wood, R.F.D. 3.

If you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, inflammation, irregularities, backache, and nervous prostration.

Want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

Alexander McKay Whitcomb,
for Thirty Years Resident of
This City, Dies After Lingering Illness.

THE LATE
A. M. WHITCOMB AT 2:45 o'clock yesterday morning.

lag, death following a lingering illness, lasting more than eight months. While the death of Mr. Whitcomb was not unexpected, it will nevertheless give cause for deep sorrow to many friends in this city, and elsewhere throughout the territory, who had hoped for his eventual recovery to health.

Mr. Whitcomb is survived by his wife, who was with him when the end came, two brothers and three sisters, all of whom have been notified of his death. Deceased came to New Mexico thirty years ago from Vermont and settled in Old Albuquerque, moving to the new town when it was founded twenty-five years ago, and becoming a member of the first city council, under Mayor Jaffa.

A carpenter and builder by trade, Mr. Whitcomb for many years engaged actively in the contracting business. Possessing a large tract of land on Tijeras road, he also conducted an extensive nursery business in addition to his other work. From 1902 to 1908, Mr. Whitcomb officiated as city building inspector and also held other important municipal offices during his residence here.

Deceased for many years took a prominent part in the work of the various Masonic bodies, and his funeral, which will occur from the family residence, Wednesday morning at 10 o'clock, will be under the auspices of the New Mexico grand lodge, A. F. and A. M., of which Mr. Whitcomb was a past grand junior ward and at the time of his death the grand Tyler. He was selected to the office of grand junior warden when the New Mexico grand lodge was organized in Socorro in 1884 and each year since has been chosen to officiate in honored capacity. In addition to being elected grand Tyler of the New Mexico grand lodge at the annual meeting held in Albuquerque two weeks ago, Mr. Whitcomb was elected grand sentinel in the grand chapter, Royal Arch Masons, and grand captain of the guard of the Grand Commandery. Deceased was also a member of Ballu Abayd temple and for many years took an active part in Shinto affairs.

Frank Johnson, grand master of the New Mexico grand lodge, who resides in San Marcial, has issued an order for the grand lodge to convene in Albuquerque Wednesday, and it is expected that many members will be present and participate in the funeral services.

Alexander McKay Whitcomb was born January 26, 1833, near Ottawa, Ontario. When ten years of age his parents moved to Vermont, where he grew to young manhood. When the war broke out between the north and south Mr. Whitcomb enlisted in the Third Vermont regiment and served throughout the controversy. Mr. Whitcomb was a member of G. K. Warren post, G. A. R., and the old soldiers will attend the funeral in a body.

Residing the bereaved wife, deceased leaves two brothers and three sisters and numerous other relatives to mourn his loss. The brothers are George H. Whitcomb, of Los Angeles, A. Whitcomb of New York, and the sisters, Mrs. George Addy, Surf City, N. J.; Mrs. Jane C. Hubbard, Titusville, Pa., and Mrs. Mary Page, Bayfield, Wis.

**ELECTRIC STORM
SWEEPS ILLINOIS**

Houses Struck and Burned;
Light, Telegraph and Telephone Lines Put Out of Commission.

(By Morning Journal Special Leased Wire)

Peoria, Ill., Nov. 7.—The Illinois valley was swept tonight by the severest electrical storm on record at the local weather bureau. Lightning leaped havoc throughout Peoria and for a time all telegraphic and telephone communication was lost. Electric lights in many sections of the city are out. Several houses were struck and burned.

Meager reports from surrounding towns show considerable damage by lightning and lightning. The storm followed an exceptionally warm day.

A freak of the storm at the home of Robert Conkey nearly cost the life of Mrs. Conkey. A large ball of lightning entered through a open door, encircling the dining room and passing without damaging the house a particle. Mrs. Conkey received such a shock that for two hours she was unconscious. A strong lightning was paralytic in the left arm.

Robber Suspect Released.

Galveston, Texas, Nov. 7.—The young man recently arrested as Carl Ross, alleged Lawrence, Kan., bank robber and murderer, has been released. He closely resembled pictures of the Kansas man, but after an investigation he established his identity and was given his liberty.

Big Store Wiped Out.

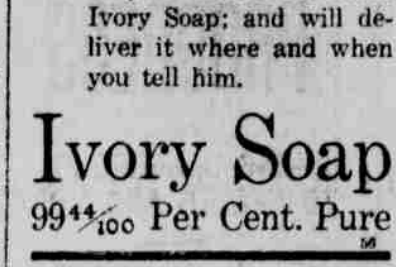

Sacramento, Cal., Nov. 7.—Fire today partially destroyed the new three-story structure of the American Cash company, retail store, causing a loss of \$100,000, almost completely covered by insurance.

BOX of Ivory Soap
—can you think of
a better wedding
present?

True, it is somewhat
out-of-the-ordinary, but
that is in its favor, rather
than the reverse. And
Ivory Soap is very much
more useful than cut-
glass, silver and things
of that sort.

Any grocer will gladly
fill your order for a box of
Ivory Soap; and will de-
liver it where and when
you tell him.

PIONEER BAKERY
207 South First Street.

**HEIR TO TEN MILLIONS
MYSTERIOUSLY MISSING**

Cambridge, Mass., Nov. 7.—With a notification of his succession to an estate valued at ten million dollars awaiting him here, Edward A. Trevillian, fifty years of age, was missing today and until he was found foul play was suspected. The estate is that of an uncle who died in London.

As the small hotel in North Cambridge where Trevillian had been employed the proprietor said Trevillian had told him of the possibility of his coming into a rich inheritance, and had also said that attempts had been made to have him sign over his rights.

Yesterday Trevillian left the hotel to go to Boston and nothing had been heard of him until tonight, when he returned, claiming he had been visiting. The telegram notifying him that he had fallen heir to the estate of his uncle came today.

**NICARAGUANS ASK TAFT
TO REFUSE AID TO ZELAYA**

Panama, Nov. 7.—Prominent members of the Nicaraguan colony here today sent a cable message to President Taft asking him in the name of humanity and civilization to pay no attention to requests of Zelaya either for aid or non-interference and saying that, if the United States cannot intervene in Central America, it should at least let the fate of Nicaragua be decided on the battlefield. The petition is made "in the name of hundreds of Nicaraguans banished from their country and lying in the prisons of Managua."

President Zelaya's enemies claim that he is isolated and that his representatives in foreign affairs are all foreigners as he is unable to get natives to serve him.

A special feature in our military department this week will be a sale of hats at \$10.00. The Economist.

**SUNDAY LAW SAVES
SONGBIRD FROM SERVICE**

Mme. Fremstad Evades Process Service in Chicago.

Chicago, Nov. 7.—Madame Fremstad, of the Metropolitan Opera company of New York, sang for the entertainment of several thousand persons in Chicago today, but deputy sheriffs are none the wiser.

Though half a dozen agents of the courts were stationed about the Auditorium theater, where the opera star appeared in public, seeking to see the singer after she had concluded her performance to serve her with papers in a branch of contract case, Mme. Fremstad, eluded all pursuers and was on her way back to New York before any court attaché could approach her. The singer was sought in a suit for \$2,000 damages brought by Mrs. Clara Bowie Sheppard for her failure to appear last Thursday in Milwaukee. The opera singer, who had been expected here Saturday, was warned by her managers not to come before Sunday because of the suit. Service in civil suits cannot legally be made in Illinois on Sunday.

**CANAL TO CONNECT
CHICAGO AND TOLEDO**

Fort Wayne, Ind., Nov. 7.—Freight by canal from Chicago to Toledo is the ultimate purpose of the Toledo, Fort Wayne & Chicago Deep Waterway association, which will hold a convention here Wednesday and Thursday.

The Michigan and Erie canal as planned from Chicago, through Fort Wayne to Toledo, will be 270 miles long and 480 miles shorter than the present all water route from Chicago to Toledo by way of the great lakes. The estimated cost is nearly \$100,000,000.

IN THE WORLD OF SPORT

TWO INJURED IN BADLY BATTERED GAME SATURDAY U. N. M. TEAM RETURNS

A. H. S. Player Sustains Broken Wrist and Forearm, and U. N. M. Full Back Suffers Wrenched Vertebra.

That the football game played at Tracton park Saturday afternoon was hard fought is indicated by the fact that two of the players sustained injuries during contest. George Walker, center for the A. H. S. eleven sustained a fractured wrist and forearm and Robert Arens, fullback for the Varsity team had his back badly wrenched. Both men finished the game, however, not realising the extent of their injuries until later. Walker was badly hurt and will be out of the game the balance of the season. Arens was quite seriously injured and was confined to his home yesterday. It is believed, however, that he will be able to be out within a few days.

DIVIDED DOUBLE GAME AT SAN FRANCISCO

San Francisco, Nov. 7.—San Francisco divided honors with the All-Americans here today.

First game: R. H. E. San Francisco 12 9 2 All-Americans 8 12 2

Batteries: Eastley, Griffin and Williams; Curtis, Konechky and Bliss.

Second game: R. H. E. San Francisco 7 14 3 All-Americans 0 4 1

Batteries: Johnson and Snodgrass; Henley, Browning and Berry.

WESTERN LEAGUE HOLDS ITS ANNUAL MEETING

Chicago, Nov. 7.—The Western baseball league held its annual meeting in the office of President Norris L. O'Neill here today. Only routine business was transacted.

Des Moines was awarded the 1909 pennant.

The schedule meeting will be held at Des Moines in February at the call of President O'Neill.

St. Joseph, Mo., was represented by Messrs. Muehlenberg and Burn, but no action was taken toward admitting St. Joseph into the league, the matter being left in the hands of the president.

The magnates left tonight for the National association meeting at Memphis.

Outlaw League to Come In

Memphis, Tenn., Nov. 7.—The arrival tonight of Frank Hermann of San Francisco, as representative of the California State league before the National Association of Professional Baseball Leagues at its session on Tuesday, makes it possible that the heretofore outlaw league will be an applicant for reinstatement with the regular organization.

President to Receive Ty Cobb.

Augusta, Ga., Nov. 7.—President Taft and Ty Cobb of the Detroit ball team, will have a chat at the Country club at 11 o'clock tomorrow. When Mr. Taft learned today that Cobb was in the city he sent word to the famous player that he would like to talk to him.

NATIONAL HORSE SHOW OPENS THIS MORNING

New York, Nov. 7.—The Twenty-fifth National horse show will open for its annual exhibit of five days at Madison Square Garden tomorrow with more than 1,500 entries.

The directors gave a luncheon in the garden this afternoon and treated their guests to a ring display of thoroughbreds. Alfred O. Vanderbilt, his brother Reginald and other noted horsemen were present. Box holders for the show include a larger number of prominent society people than for several years.

HORSES GIVE WAY TO AIRSHIPS AT LATONIA

Cincinnati, O., Nov. 7.—The horse will be relegated to the back ground at the Latonia track for three days this week, the regular races being suspended to give place to contests between various types of modern air craft.

The days set apart for the aviation meeting are November 12, 13 and 14. The entries include Glenn H. Curtiss, who will use the same machine with which he made his remarkable flight at Rheims; Charles F. Willard, of Philadelphia; Roy Knabenshue, of Lincoln Beachy and Cromwell Dixon. The last three will exhibit in dirigibles.

The principal event will be the race between Curtiss and Willard in aeroplanes for a cup offered by local capitalists. It is understood that the meeting this week will be the opening move to secure for Cincinnati the international aviation meet for 1910.

Varsity Men Have Numerous Scratches and Bruises to Show They Played Football Against Colorado.

It was a pretty badly crippled bunch of University of New Mexico football men that arrived home from Boulder after 1 o'clock this morning. That Boulder's victory over the Varsity was well earned and that they worked hard for the score of 53 to 0 was indicated by the battered condition of the Albuquerque boys. Almost every man in the bunch had bruises to show. Some had game legs and some had black eyes. Otero, who played a hard game at full back, was the only man seriously injured, his back being badly wrenched. He will probably be out of the game for two weeks.

The U. N. M. men speak very highly of the treatment accorded them by the Coloradoans and are willing to testify as to the veracity of a rumor which has been in general circulation for some time past that the U. of C. has some football team.

Not discouraged in the least by their defeat the Varsity eleven will begin practice tomorrow for their game with the New Mexico Military Institute in Albuquerque next Saturday.

DESERT TRAIL STREWN WITH DISABLED CARS

Misfortune Halls Half of Entries in Los Angeles to Phoenix Race.

Warrenburg, Ark., Nov. 7.—Five of the ten cars that left Los Angeles last night on the 419 mile race across the desert to Phoenix checked in here between noon and 3 o'clock today. All the other cars were scattered along the route, disabled or ditched.

The Isotta Fraschini, an Italian car, which left Los Angeles first at 10 o'clock, was first to reach here at 10:47 this forenoon. It thus covered 243 miles of the first leg of the journey in 12 hours, 47 minutes. The Buick arrived at 12:07.

The Pennsylvania, which left Los Angeles third at 10:30, arrived here third with an elapsed time of 14 hours, 19 minutes. The Columbia, eighth to leave, checked in fourth at 2:47, time, 15 hours, 2 minutes. The Studebaker arrived fifth at 3:06, time, 15:51. These cars will start tomorrow on the 171 mile stretch to Phoenix in the order of arrival.

The Elmore was stripped of its transmission gear eight miles west of Chockvale. The Dorris is ditched at Palm Springs and the Franklin was passed at Mecca with its rear axle housing gone.

The Ford lost a wheel at White Water and the Kinsler was halted ten miles east of Mecca with a steering knuckle broken.

Riot at Vietnamese Track

Viencong, Nov. 7.—A riot started, leading to the disqualification of two horses in a trotting race today in the Prater, a park on the outskirts of the city, and the victory of an outsider, caused a riot and an attack upon the judges. Cries of "lynch them" were the signal for thousands of spectators to attack the judge's stand. They smashed windows and reduced the stand to match wood. The judge escaped and a large body of police, with drawn swords, restored order. Many were injured and fifty were arrested.

ATTEMPT TO WRECK PASSENGER TRAINS

Mobile, Ala., Nov. 7.—Two attempts were made this afternoon to wreck passenger trains on the Louisville & Nashville near Hay Minette. A bunch of cross ties was hidden by a short curve. The engineer on No. 1 reversed his engine before he had run into the obstruction, causing slight damage to the engine. Passenger train No. 2 was given the same reception three hours before.

MR. ROCKEFELLER FINDS LIFE ONE LONG STRUGGLE

Cleveland, Nov. 7.—"Often I meet nothing but struggle," John D. Rockefeller told the Euclid Avenue Baptist Sunday school today.

"But I think it is a great blessing. I remember when I first had to kick, splash and struggle. I have been struggling ever since. If we did not struggle, to be strong we must struggle always."

Mr. Rockefeller produced four of his old Sunday school class books, dated 1856, when he was teaching and introduced two of his pupils, now old men, and told the class about them.

A Scene from Act 1 of "The Ringmaster" Which Is the Attraction at Elks Theatre Tonight.

BISPHAM WILL GIVE ELKS WILL MEET ON GREAT PROGRAM TUESDAY NIGHT HERE

Appearance of Famous Baritone Creating Lively Interest Among Music Lovers; Season Ticket Subscribers Are Warned to Get in at Once.

The appearance here of David Bispham, the great baritone, on next Thursday night, is creating the liveliest interest among music lovers not only in Albuquerque but in near-by towns, many of whom are planning to come here for the concert and for the other making up the great concert to be offered in Elks theatre during the winter.

Mr. Bispham is to give a splendid program here and one which will fully illustrate his wonderful voice and fine temperament. Pages and pages have been written upon this great baritone's work, but in order to appreciate him he must be heard; for he possesses in highest degree that power, magnetism, which is, after all, the greatest force behind the success of every great singer.

The second artist to appear in this high class course is Fritz Kreisler, the violinist, who comes the second week in January. This will be Kreisler's third American tour, and it will

DAVID BISPHAM.

doubtless be a series of artistic triumphs, as were his former appearances. His wonderful technique and great artistry have placed him in the front rank of violinists. Failing her charming grace and personality have been the cause of thunderous ovations. Last July in Madison Square Garden, as soloist with the German singing society, when she appeared before an audience of some fifteen thousand people, her solo was greeted by such bursts of enthusiasm that it was only after four encores that the rest of the concert could be given. It was a wonderful night for the prima donna and a wonderful night for the audience.

There are still some delinquents on the list of subscribers and those are urged to make their selections of locations as early today as possible. The season tickets are sold with a view to giving such subscribers their choice of seats as well as a concession in price, and those the management desires taken up before the single seats for the Bispham recital go on sale tomorrow. If you have signed the list and haven't made your reservations, do so at once; otherwise you might be disappointed in finding that "someone else has just the seats I wanted."

Seattle, Nov. 7.—Charles D. Howell, charged with holding up clerks in the Great Northern express office and obtaining \$12,000 a short time ago, was identified today as the bandit who impersonated a United States postal inspector to get into a Great Northern mail coach at Bonner's Ferry, Idaho, March 15, 1908, and after slandering the clerks of that car, rifled the registered mail.

J. H. Houtland, at that time a hotel keeper of Bonner's Ferry and J. W. Nystuen, a mail clerk, came to Seattle today and each picked Howell from three men.

The robbery which Mail Clerk Nystuen says Howell committed in 1908 stands as one of the most cleverly planned and executed in the history of train robberies in the northwest.

Assuming the authority of a post office inspector the bandit boarded the Great Northern westbound Oriental limited just as it pulled out of Bonner's Ferry, Idaho holding the two mail clerks at bay with a revolver, locked one in a clothes closet and tied the other to a chair after which he rode ten miles into Spokane spending four hours rifling registered mail and looting and unloading mail sacks along the route.

MURDER VICTIM'S BODY HIDDEN ON TALL BUILDING

Oklahoma City, Okla., Nov. 7.—Roy E. Gannon, a real estate dealer, was found murdered on the roof of a ten-story office building here today and \$500 which he drew from a bank Saturday is missing.

Disorder in Gannon's office on the fourth floor of the building indicates that he was attacked there and had been dragged to the roof by a rope around his neck.

The body bore a number of cuts and bruises. Some of his friends declare he was murdered as a result of a jealous quarrel.

Small Earthquake in Utah

Salt Lake, Nov. 7.—A slight earthquake shock was felt here at 12:35 this morning.

ENTOMBED MINERS SAVED FROM HORRIBLE DEATH

Renov, Nev., Nov. 7.—Charles Moody and Harry Anderson, Carlin, Nevada, miners buried under tons of rock and timbers in a cave-in in the Copper King mine, Friday were rescued alive at 1 o'clock this morning. Falling rock warned them and gave them time to crawl up to the 170 foot level. They had barely reached safety when the cave-in occurred. Forty men worked 17 hours to rescue them.

Moody and Anderson are both well, the latter declaring his intention of going to work tomorrow "to make the blamed shaft safe."

BANDIT IDENTIFIED AS DESPERATE CROOK

Seattle, Nov. 7.—Charles D. Howell, charged with holding up clerks in the Great Northern express office and obtaining \$12,000 a short time ago, was identified today as the bandit who impersonated a United States postal inspector to get into a Great Northern mail coach at Bonner's Ferry, Idaho, March 15, 1908, and after slandering the clerks of that car, rifled the registered mail.

J. H. Houtland, at that time a hotel keeper of Bonner's Ferry and J. W. Nystuen, a mail clerk, came to Seattle today and each picked Howell from three men.

The robbery which Mail Clerk Nystuen says Howell committed in 1908 stands as one of the most cleverly planned and executed in the history of train robberies in the northwest.

Assuming the authority of a post office inspector the bandit boarded the Great Northern westbound Oriental limited just as it pulled out of Bonner's Ferry, Idaho holding the two mail clerks at bay with a revolver, locked one in a clothes closet and tied the other to a chair after which he rode ten miles into Spokane spending four hours rifling registered mail and looting and unloading mail sacks along the route.

BANDITS ATTEMPT TO ROB BUTTER AND EGG TRAIN

Chicago, Nov. 7.—In a daring attempt to loot the Chicago butter and egg train on the C. & N. W. P. railway today, robbers shot and dangerously wounded A. L. Jackson, a brakeman, at Round Lake, Wis.

The train lay on a siding at Round Lake. The robbers drove up in two automobile trucks and cut off the last five cars. Jackson ran toward them and they immediately opened fire. Jackson, falling with a bullet in his head. The robbers then fled.

Wife's Bullet Fatal for Husband.

Renov, Nov. 7.—Albert Talbot, a well known sporting man who was shot by his wife in the office of a local attorney on October 25, died today.

ALBUQUERQUE - - - NEW MEXICO

OUR DAILY BREAD.

Notwithstanding all our complaints of poverty and oppression, the fact still remains that the great American republic is about the only spot on earth in which good, white, wheat bread is the staff of life for the masses as well as the classes. Mr. Hill, and others, have lately expressed many pessimistic forebodings that the time is not far in the future when wheat bread will be too costly, if not too good, for human nature's daily food, but Mr. Wilson, the secretary of agriculture, who ought to be at least as well qualified as Mr. Hill, or any of the rest, to pass an intelligent opinion upon this subject, is unable to detect the appearance of any such cloud in the agricultural horizon. It is possible, he says, that the day may come, some time in the future, when the steadily increasing population of our farmers to raise enough wheat to furnish bread for all of our millions, but that day is very remote. Nor will it be necessary at any time in the near future for us to import grain for bread, notwithstanding all the doleful predictions of some publicists.

Everything, he says, depends upon the disposition of the American farmer to make the most of the resources of his land, and to improve his methods of agriculture, in accordance with the needs of the people. The prospect for a great increase in the production of wheat is excellent, in the opinion of Secretary Wilson, and for two reasons: First, the greatly enhanced market value of that staple would surely tempt the American farmer to plant more wheat, and second, thanks to the discovery of the possibility of growing durum wheat in a large part of the country hitherto regarded as unproductive, there would be a great addition to the total of the annual crop.

Last year no less than 60,000,000 bushels of durum wheat were grown in the United States. Durum is a Siberian grain, peculiarly fit for soils where there is but a small amount of moisture present. The agricultural department has found that it will grow well west of the 100th meridian in the Northwest, which means almost anywhere west of the middle of the Dakotas, and in the semi-dry regions of eastern Washington and Oregon.

But the department does not like the methods that are being pursued by the growers. "Soil robbery," exclaimed Dr. Galloway, and the secretary assented to the designation. Great syndicates are farming tracts of 16,000 acres in wheat, planting the crop again and again without regard to the necessary rotation that would insure the soil against exhaustion.

That was one of the things the secretary had in mind when he said that better farming methods would be required to produce all the wheat that the American people would need. He pointed out as worthy of imitation the European practice, where on lands that had been farmed for ages, food grains were steadily and profitably grown.

The secret was in the rotation: a tract would be divided into at least three parts and the best portion planted in wheat, the second best in barley and the third in oats. The following year there would be a shift and legumes and grasses would be also grown to enrich the soil. In that manner the farms were kept at a high standard.

The secretary was asked: "Will American wheat go below \$1 again?" "Probably not," he replied, "but there is no telling what might follow such a disturbance in the industrial and financial world as we had in 1907, and should we again meet such a crisis it is possible that there would again be \$5-cent wheat."

A PROPHECY FULFILLED.

"I will make your land a light unto the world, and a blessing unto all the inhabitants thereof." And there is nowhere on record a more striking or more literal fulfillment of prophecy than is to be found in one little paragraph of the annual report of the postmaster general, which has just been given to the public. In the collection of statistics it is stated that during the last twenty years more than \$44,000,000 has been transmitted by money orders to foreign countries, and the report goes on to say that the most if not all of this money was the surplus earnings of immigrants employed in the United States.

The inference is plain, says the Chicago Inter Ocean, in referring to the foregoing announcement. Ordinary mercantile transactions are not conducted through the postoffice, whose money order business is limited to small sums. And when we consider the other means of sending money, and the amounts that are carried personally, it is easy to see that a most conservative estimate of the amount sent by immigrants to their former homes abroad would be \$1,000,000,000 in the twenty years in question.

And thus we see how America and the opportunity of prosperity that American institutions give to the ordinary man lightens the woes of the world. For this money—practically all of it—went to the families of the senders. It made easy the old age of fathers and mothers worn with toil. It brought wives and children to rejoice the husbands and fathers. It kept thousands of brothers from crime and thousands of sisters from desperation or worse in the harder conditions of other lands. It was charity that was not aimed—the loving kindness of the family.

There are those who say that America is not much different from other countries—that American ideals and institutions have not effected much if any change in the human lot—that human life is not much more bearable in this than in any other country—that with all its boasted progress this American republic is still far behind other lands in many things that make life worth living.

Yet of what other country can it be said that its opportunities and its social and political system enable its ordinary people to do what America has enabled them to do? Europe is wealthy; it has the accumulations of centuries of industry and frugality; it is still the creditor of all the rest of the world. But Europe is not sending its wealth to the kindred of its people in other lands as America. Europe lends its wealth for profit. America sends it wealth to those who are dear to the humblest of its people for love. And the gifts that the American opportunity has enabled millions of its workers in the ranks to send back to their old homes have done more to lift the burden from weary shoulders, to bring peace to anxious minds and to comfort sore hearts than all the "agitations" and "movements" have done in the same period or in any other period, and thus have served to make America literally, and in the fullest sense, "a light unto the world, and a blessing unto all the inhabitants thereof."

PASSING OF A PIONEER.

A. M. Whitcomb, one of the pioneers of Albuquerque, died at his residence in the western part of the city, at an early hour yesterday morning, after a long and painful illness, at the age of seventy-six years.

Mr. Whitcomb was one of the earliest settlers of the town, and for at least twenty years was one of the active and energetic builders of the place, was an honorable, upright man, respected by all of his fellow townsmen, and the announcement of his passing will be received with feelings of deep regret by a very large circle of friends, though the sadness inseparable from the news of his death will be assuaged in a great measure by the fact that he goes to his reward after a long term of faithful service, a veteran ripe, and full of years.

VICTORY FOR BEVERIDGE.

The result of Tuesday's voting in Indiana was looked for with more than the usual off-year interest because it was understood by common consent that a republican victory in the state at this time would mean another term for Senator Beveridge. The legislature chosen last Tuesday will be charged with the duty of electing his successor. He is a candidate to succeed himself, and the republican party of the state stands behind him. He was one of the issues in the campaign, and it was well understood that republican success meant his reelection, and republican defeat meant the election of some other man. The result shows that the republicans not only held their own, but made decided gains, which, of course, means the choice of Senator Beveridge for another term.

HAVE THE COUNTY SURVEYED.

The commissioners of Bernalillo county should make a special effort to accomplish the surveying and platting of all the lands of the county, not only for the purpose of having them listed for taxation, but also for the purpose of letting persons who desire to purchase lands in the valley know what they are getting. It is estimated by practical men that the pecuniary advantage to be derived from this policy would amount to more, each year, than would pay the whole cost of carrying it out.

A SHREWD STROKE.

Our Florida neighbor, the Jacksonville Times-Union, thinks it was a shrewd stroke of newspaper enterprise for the editor of the London Daily Chronicle to arrange with W. T. Stead for an interview with the shade of Gladstone on the subject of the English budget. It does not appear that Mr. Gladstone, through the spirit medium known as "Jill," had any valuable suggestions to offer, but what he had to say meant quite as much as the great majority of such communications.

The women of New York have just scored three points for their cause. Mayor McChesney, on Friday last, appointed three ladies to be members

Superior in Strength

Dr. Price's Flavoring Extracts are superior in strength, freshness and fineness of flavor to any flavoring extracts made in the world, and ladies of the best taste, who are now using them, find them just as represented. Persons who desire a delicate and natural flavor in their cakes, puddings, or any table delicacy, will obtain it by using

of the metropolitan school board. Miss Leventritt, who may take office at once, as her appointment fills the vacancy caused by the death of Walter Alexander, is a Jewess. Mrs. Robinson is a Roman Catholic, and Mrs. Post is an Episcopalian. The last two will take office on January 1, when vacancies will arise on the board.

STRANGER THINGS HAVE BEEN. Undoubtedly there are plenty of able men in our sister territory capable of filling the gubernatorial chair, and the administration need not look outside the confines thereof to find the proper man to honor with appointment. The selection of an outsider might indicate to statehood skeptics that the presidential experience in Albuquerque has continued him that New Mexico is not yet ready for home rule.—Phoenix Gazette.

NOT VERY ENCOURAGING.

A Washington dispatch, after showing how the "insurgents" are trying to make capital out of the reduced republican plurality in Massachusetts, says: "Oddly enough, what is expected to do most to prevent many democratic victories in the Middle West, where revisionist sentiment has been far stronger than in Massachusetts, is the effect of the insurgents who have all along stood out against the Payne tariff law. In those states where there is a well defined line of cleavage between the principles recognized in congress under the names of regulars and 'insurgents' it is expected that the fight will rather be within the republican party for the overthrow of the reactionaries than a pitched battle in the open field between the two parties."

Strong With the People.

We regret very much that Governor Curry entertains the idea of tendering his resignation as our chief executive, for he has made us a splendid governor, being ever watchful to the needs of our people, and few officials have become so exceedingly popular as he; yet he deserves all the honor we can bestow upon him and in the minds of the citizens of New Mexico there will ever be a cherished feeling for Governor George Curry.—Montoya Republican.

SCHOOL STRIKERS WIN VICTORY IN CLEVELAND.

Cleveland, Nov. 7.—The 400 boys and girls on strike, who left the West High school Wednesday, will return to their studies tomorrow morning. This decision followed a conference of the strikers committee with the school board tonight. The children regard the result as a victory.

A deputation of fathers and mothers appointed from the Parents' league, will appear before the school council tomorrow night to present in full the arguments against a double session plan. These will support the plea of the youngsters that an afternoon session takes away the chance of schooling from those who must work half the day to earn their education.

The strikers have kept up their regular studies during the strike and will be prepared to recite their back lessons at the opening of school.

RIOT ATTENDS ATTEMPT TO PROVE MIRACLES.

Leghorn, Italy, Nov. 7.—Father Gregori, known as the monk preacher, who recently was challenged by the socialist deputy, Pedrea, to prove in public sermons the miracles at Lourdes, today gave a lecture on the subject the cathedral. A great crowd gathered. Catholics applauded while anti-Catholics shouted "Viva Ferret!" Catholics then intoned a hymn and a tumult followed. The police intervened and made several arrests.

ON THE RESIGNATION OF GOVERNOR CURRY

An Able Officer.

The resignation of Governor George Curry, which takes effect in February, will mean the retirement of one of New Mexico's ablest governors: a man who has certainly made his administration a success.

It is reported and with obvious truth that his resignation is brought about by factional squabbles in party ranks, but it is not for the party New Mexico seems to have a king of political tricksters who will fight anyone that fails to deliver the proper number of pawns. The fight was made on Governor Curry. It is made on Curry and will doubtless be made on his successor, whoever he may be. It is the opinion of more than one that these factional fights are causing the apathy apparent in Washington whenever the statehood question is brought up.—Morning Messenger.

The Pessimist's Opportunity.

It is a little hard to see where the optimist can find anything to cling to in the resignation of Governor Curry, the news of which was given to the people of New Mexico last week. I am a natural born optimist. Whoever says to the contrary is a liar and wears cotton drawers. The case seems to me one distinctly for the pessimist. I am not saying that Governor Curry has not made mistakes. Being human he has. Some of those he has made have been of a nature that I have used language that I am not proud to have uttered to him. Viewed in the light of the good of the great majority, all of them did not amount to a second hand chew of tobacco. All of the way through I have been and am deeply impressed with the man's very sincere patriotism, his earnest desire to unify the warring elements of all parties, to put the territory upon a correct business basis, to carry out his orders with the most perfect fidelity, and to believe he has succeeded wonderfully well considering the gang of wolves that he had to contend with in both parties. If you have any idea that the wolf business is confined to any one party you might as well get it out of your head. —Will Robinson, in Tenderfoot Letters.

Strong With the People.

We regret very much that Governor Curry entertains the idea of tendering his resignation as our chief executive, for he has made us a splendid governor, being ever watchful to the needs of our people, and few officials have become so exceedingly popular as he; yet he deserves all the honor we can bestow upon him and in the minds of the citizens of New Mexico there will ever be a cherished feeling for Governor George Curry.—Montoya Republican.

VERDICT IN FAVOR OF DEFENDANTS IN PUTNEY CASE

Long Drawn Out Legal Battle Over \$16,500 Promissory Note Decided Against Plaintiff.

After being out for eighteen hours the jury in the case of R. E. Putney vs. C. H. Schmidt and Charles Story, in which the plaintiff sought to foreclose on a mortgage given as security for a promissory note for \$16,500, on which J. N. Broyles, the bankrupt San Marcial banker, appeared as principal and the two defendants as sureties, yesterday morning brought in a verdict in favor of the defendants.

The case was one of the lengthiest and most hard fought civil suits tried in Bernalillo county for many years, occupying the attention of the court for more than twelve days.

The case was an aftermath of the financial failure of Jasper N. Broyles, for many years the principal merchant at San Marcial. Broyles failed in April, 1908, and his business interests went into the hands of a receiver.

LINCOLN COUNTY HAS A CENTENARIAN

Lincoln County, New Mexico has a centenarian in the person of J. C. Hightower, 87, who reached his one hundredth birthday on the 12th day of last October. He resides on Eagle creek in Lincoln county and has been a resident of the county for thirty years, having lived through all of the stirring times in that section of the territory. He is still in full possession of his faculties.

gins. Cash only. Wright's Riding School. 114 West Silver avenue.

Sofia Lobato, 6 year old daughter of Mr. and Mrs. Pedro Lobato of Albuquerque, died Sunday morning at 8 o'clock. The funeral occurred Saturday.

Sister Mary Sebastian, superintendent of the St. Mary's hospital in Pueblo, left yesterday for home after spending several days in Albuquerque the guest of the Sisters of Charity.

William R. Walton, the photographer, left last night for El Paso where he will spend several days in the interest of the Santa Fe railroad company.

Will Pratt, traveling salesman for Swift and Company, has returned from an extended business trip through the eastern part of the territory.

T. Y. Maynard returned yesterday from a trip to Chicago, where he purchased a stock of jewelry for the jewelry store which he will soon open in this city. Mr. Maynard was for a number of years engaged in the jewelry business in Albuquerque.

Owen A. Kane, a well known Santa Fe telegrapher, was brought to the city yesterday morning from Laguna and placed in the Santa Fe hospital for treatment. Mr. Kane was recuperating from a recent severe illness and suffered a relapse Saturday afternoon. He is accompanied to Albuquerque by his sister, Miss Anna Kane.

Mrs. Leech and little son, L. L. 3d., wife of L. L. Leech, Jr., night watchman of the Santa Fe telegraph office, left last night for Nashville, Tenn., where they will visit relatives for two months. Mrs. Leech was also accompanied by Miss Edith and Grace Purdy, daughters of former Santa Fe Agent T. E. Purdy.

CORNERSTONE LAID FOR NEW CHURCH

Large Crowd Attends Interesting Ceremony at New Mount Olive Baptist Church.

The cornerstone of the new Mount Olive Baptist church, 512 West Lead avenue, was laid yesterday afternoon with the usual ceremonies incident to such occasions. Rev. H. H. Jones, was master of ceremonies. The recitation of the ritual and laying of the cornerstone were under the special direction of Eureka Lodge No. 29, F. & A. M., the members of that organization being present in full regalia. Addresses were made by Rev. H. H. Jones, Rev. A. A. Henderson, the pastor, Rev. G. H. Byas, W. E. Mauger and others. One of the principal features of the occasion was the splendid singing of the church choir. Lists containing the names of the church officials, members of the church, church records and other papers worthy of preservation in the church history were enclosed in the box in the cornerstone. At the conclusion of the services a collection was taken up to further the construction work. Forty-three dollars were subscribed. The new edifice which has been more than partially completed, is of cement block construction and when finished will be an addition to the church architecture of the city. The members of the Mount Olive congregation hope to secure sufficient funds in the near future to rush the work to completion.

ANOTHER WIRE TO PACIFIC COAST

Increased Overland Business of Postal Company Necessitates Additional String Across the Continent.

A gang of Postal telegraph linemen have started towards Gallup strung a heavy copper wire which will eventually reach from Albuquerque to San Francisco. The wire from Chicago and Albuquerque was completed some time ago and when the west connection is completed to San Francisco the two ends will be connected here, making one more overland circuit across the continent. The increased business of the Postal company has made the new wire a necessity and it will be put in operation as soon as possible.

HUNDREDS GATHER FOR THE SABBATH SCHOOL RALLY

PRESBYTERIAN CHURCH IS PACKED TO THE DOORS

Interesting and Unique Program Given With All Sunday Schools of Albuquerque Participating.

There has never been a more interesting meeting of a religious nature in Albuquerque than the union Sunday school rally held last night in the First Presbyterian church and attended by a crowd of children and their parents and friends that packed the auditorium to the doors and turned many people away. The Presbyterian church has the largest seating capacity of any of the Albuquerque churches, yet it was wholly inadequate for last night's crowd and the Elks theater would have been far more comfortable as a meeting place and would doubtless have been secured had the attendance been expected.

As it was, a great many people stood during the entire program, which included selections from almost every Sunday school in the city.

A large chorus choir occupied the choir loft and the beautiful organ was assisted in the music by a quartet of voices which not only aided in the accompanying but gave one very effective selection as the contribution of the Presbyterian church to the program.

Mr. Porterfield, superintendent of the Methodist Sunday school, presided at the meeting and with him on the platform were every Sunday school superintendent and every Protestant minister in the city.

Mr. Porterfield opened the program with a request for patience on the part of those who could not find seats, and announced the first hymn. It was "My Country, 'Tis of Thee," and was sung by the entire congregation standing. The children's voices gave the dominant note to the grand old hymn and the spectacle was an inspiring one. No less inspiring was the singing of "My Country, 'Tis of Thee," which was called for right in the middle of the program and which the entire congregation sang with a will. The accompaniment started with piano and violin, but the voices of the congregation soon completely drowned out this feeble accompaniment and F. B. Schwenker took the organ and concluded the national anthem with full power of the big instrument in play.

It was such a program as has never been heard before here or anywhere else. It began with selections from the Indian school Sunday school. First the school sang a hymn in chorus; then a particularly bright little Indian girl recited, with piano and voice accompaniment. The Indian school band followed. Several of the Sunday schools were prepared to give selections but could not secure seats to gether because of the crowd, and were forced to give over their places on the program. The Barajas Sunday school, the Old Albuquerque Sunday school and the Salvation Army Sunday school were features of the program. One of the most attractive numbers was a two-minute recitation by a tiny little chap from the Lutheran Sunday school, whose clear, sweet voice and firm enunciation completely won the congregation. The Congregational Sunday school gave a flag song and several other numbers, including a solo by Miss Lu Palmer. There were addresses and hymns and the rally was in every way a complete success. It served to show something of the strength of the Sunday schools of Albuquerque and its success will doubtless cause the undertaking to be repeated in the near future.

BIKICLIST CRASHES INTO AUTOMOBILE

Youthful Rider Collides Head-on With Buzz Wagon, But Bounces Like Rubber Ball and Escapes Injury.

While riding a bicycle at a merry clip east on Central avenue, yesterday afternoon, Donald Birdsall, 7 year old, of 1119 South Arno street, collided head-on with a automobile driven by Cortez Quicquel. Young Birdsall crashed into the machine with much force and was thrown into the air like a rubber ball. The boy alighted safely, however, and although considerably frightened was not injured. His bicycle was smashed almost beyond repair and one of the lamps on the joy wagon was damaged. Birdsall and the injured bicycle were

taken away in the automobile, the boy to his mama, and the wheel to the repair shop.

According to those who witnessed the accident, Birdsall, and several other lads were scorching and were not looking where they were going. Birdsall was seen upon gaining on the boy in front of him and did not see the oncoming buzz wagon until too late.

UNCLAIMED LETTERS.

Advertised List for Week Ending November 6, 1909.

NAVAJOS TO HAVE A TRIBAL BRAND FOR HORSES

Livestock Owned by Indians in New Mexico and Arizona to Be Protected From Thieves.

In order to protect the Navajo Indians on the Indian reservations adjacent to the New Mexico and Arizona boundary lines from livestock losses, it is likely that steps will be taken by the superintendent and supervisors of the agencies to brand the horses and cattle with a special tribal brand. For many months past the Indians have suffered heavily by having numbers of their horses driven off the reservations over the boundary lines into both territories, where they were claimed by white men. The system by which the brand has been worked with great success by those engaged in the practice of driving horses from one territory to the other, is for the rustler to ascertain the brand used by the Indians in Arizona, then file similar brands for record in New Mexico. A trip is made across the boundary line and a bunch of horses driven across the line.

When the Indians trail the horses and locate them, they are unable to gain possession of them as they are claimed by the white men who show their recorded brand as proof. The game works in a very clever manner, resulting in the rustler being outwitted. If a rustler locates a good bunch of Navajo ponies in Arizona, he drives them into New Mexico and vice versa. The brands being recorded in both territories in the name of the rustler, he has but little difficulty in sustaining his claim of ownership. Only a few years ago a special agent of the Department of the Interior recovered thirty-five head of horses which had been driven across the line from Arizona into New Mexico. The special agent, accompanied by reservation policemen and trailers got on the scent of the thieves and made it so hot for them that they broke away and made for the open country, leaving the horses behind.

It is expected that orders will soon be issued to the Navajos, directing them to brand all their ponies with a special brand. This record brand is believed will result in the Indians being able to recover their livestock in either territory. The government officials will assist in sustaining their right of ownership after the brand has been adopted.

WOMAN SWALLOWS FIERY POISON

Ester Garcia, of Las Cruces, Takes Carbolic Acid When Town Authorities Order Her Into Exile.

[Special Correspondence to Morning Journal] Las Cruces, N. M., Nov. 7.—Ester Garcia, a Spanish woman of the under world, during a drunken brawl committed suicide here this morning at one o'clock by taking carbolic acid. The girl, while rather young and comely, was a very notorious character. The woman has been a puzzling problem for the town officials to solve. The city council recently passed an ordinance prohibiting houses of ill-repute. All the women conducting resorts closed up and left for other places. The Garcia woman refused to leave on the grounds that Las Cruces was her home and her mother resided here. Dr. Leub was immediately called and worked hard to save the woman's life but his efforts were fruitless. She died at 2:30 this morning in terrible agony.

Special Announcement

EX-CHIEF JUSTICE OF NEW MEXICO IS DEAD

Claud Hutto
Stenographer
and Notary Public

117 1-2 W. Gold

Phone 898.

Judge James B. O'Brien Passes Away at Caledonia, Minn., at Age of 72; Burglars Active in Santa Fe; Official Notes.

[Special Dispatch to the Morning Journal] Santa Fe, N. M., Nov. 7.—Deputy Traveling Auditor John Joerns yesterday received a telegram announcing the death in Caledonia, Minn., of Jas. B. O'Brien, for four years a member of the New Mexico supreme court and during part of that time its chief justice. Judge O'Brien was 72 years old. He served on the New Mexico bench from 1889 to 1893. Judge O'Brien's three daughters all married New Mexico men, one marrying Mr. Joerns of this city, another United States district attorney David J. Leahy of Las Vegas and the third Attorney J. Leahy of Raton. Two sons also survive who are in business in Minnesota.

Burglars Very Active. Burglars are very active in Santa Fe just now. The S. L. Bean residence has been robbed during the past twenty-four hours during the absence of the family, and H. D. Moulton's residence was also robbed.

Official Notes. Incorporation papers were filed yesterday in the office of Territorial Secretary Nathan Jaffa by the Hacienda Polayo y la Cadena company of Las Cruces, Dona Ana county. The capitalization is \$2,352,625, divided into 470,725 shares. The incorporators and directors are Maurice T. Brown of El Paso, 400 shares; Henry D. Bowman of Las Cruces, 100 shares; Joseph E. Bonham of Las Cruces, 100 shares.

Workmen are now placing the cornice around the roof of the capital extension and work will be commenced soon on the interior of the handsome structure. The monthly report at the land office for October shows that there was a very small amount of business done in comparison with most months. There were sixty commuted homestead proofs covering 9,395.56 acres; five excesses for 19,234 acres; seven original desert land entries for 1,060 acres; one mineral entry for 20.02 acres; eighty-seven original homestead

entries for 13,053.12 acres; thirty-four original homestead entries under the act of February 19, 1909, for 7,766.06 acres; four mineral applications for 27,360 acres; twenty-five final homestead entries for 2,829.74 acres.

FRENCH LINER LOSES PROPELLER AT SEA

La Savoie Limpis Into Port Twenty-four Hours Late.

New York, Nov. 7.—La Savoie, of the French line, arrived from Havre today twenty-four late because of an accident to her starboard propeller. When wallowing in a westerly swell last Tuesday night either the propeller or the shaft was broken and it was necessary to shut down steam and proceed under a single screw for the rest of the voyage. Examination by a diver will be necessary to determine the exact nature of the damage.
