ALDRICH ASKS AID OF THE NATION

CURRENCY REFORM MUST BE ON BROADEST LINES

Calls on Practical Business Men to Help in Devising System That Will Meet Nation's Needs.

(By Morning Journal Special Leased Wire) St. Louis, Nov. 8.—With emphasis even stronger than in his Chicago speech, Senator Aldrich made it evident to the business men of St. Louis today and tonight that it is his purpose to devote himself to the one work of reforming the currency system of the United States. He spoke briefly today before a limited gathering of bankers at the Noonday club and more extensively tonight before the Commercial club.

Senator Aldrich spoke informally tonight.

"I do not come to you with any plan of monetary reform," he said. "Indeed, if I should be delegated to-day individually and personally to prepare a scheme for a new finance system for the country I should be at a loss to know how to proceed. I should find it necessary to enter upon a careful investigation and would not undertake to formulate anything without much more study than I have been able to give to this subject. Even in that event I should want your advice and cooperation and should ask your aid just as I am asking it now for the commission."

"I realize, as I know all of you do, the absolute necessity of reforming the currency upon the broadest national lines. The work to be done cannot be done by any one man nor any set of men; it cannot be done by any one party nor in the interest of any one section. It cannot be done by a commission or by congress without aid of the country at large.

"Our plan must be one that will take into consideration the wants of the town and of the country, as well as those of the city. We cannot afford alone for New York or New Orleans nor San Francisco; but we must also legislate for St. Louis, Chicago, Denver, Louisville, Atlanta—for Springfield, Peoria and Little Rock."

"Our system must be one that will satisfy the manufacturers of New England, the agriculturists of the Mississippi valley, the miners of the Rocky mountains and the Pacific coast and the merchants of all sections. Surely the task before us is one of gigantic proportions; and the results of our efforts, good or bad, must depend not alone upon our own wisdom but upon the assembled good judgment of the leading banking and commercial men of the entire nation.

"It is because I have come to realize the great magnitude of this work and its limitless possibilities, beneficial or otherwise, that I come to you at this early stage in our proceedings, to tell you, not only for yourself, but for the commission in so far as I can, just what we have done and to ask your co-operation in our future proceedings."

"A portion of the commission has visited the principal capitals of Europe and some of our members have traveled somewhat through the United States in their investigations. Moreover, we have had published, a number of monographs dealing with many phases of the banking question. These have been written by gentlemen who have the confidence of the commission, but who are not members of it. They have been instructed, however, to guard these pamphlets from all prejudicial views; and they are intended not to shape the thought of the country, but simply to supply information upon which views may be based.

"From this time forward the commission will give its attention largely to conditions in the United States; and we shall soon begin to call upon men in whose judgment we have confidence to present their views for our benefit. We especially desire suggestions from men of practical experience. We have enough already by way of contributions from cranks and demagogues."

"The work on which we are entering is one of the most serious ever undertaken; and it must be the result of practical suggestion rather than of theoretical dissertation."

The nearest approach that Mr. Aldrich made to any indication of a plan was his discussion of bank issues. He again said that European countries were quite agreed on the subject and again referred to the circumstances that move all of those countries maintain central banking institutions for the issuance of bank paper.

He stated, however, that it could not be expected that any European banking system could be transplanted in its entirety to this country; and he again pointed out the great necessity of finding a plan that would not disturb established banks nor interfere with the progress of business. Whatever system should be adopted, he said, must be one looking to gradual changes and must have due regard to vested interests and sectional usages. Again he assured his hearers of his desire to hold the subject entirely above political bias; and he went into some details to convince his audience

that it would be possible to adopt a system that would accomplish this desirable result.

Again, also, Mr. Aldrich dwelt upon the necessity of developing a system of credit that would protect the country against such disastrous results as were experienced in the bankers' panic of 1907. He expressed the decided opinion that with proper safeguards the country need not again submit to such a general crash as then was precipitated with so little reason.

He was confident that with a sufficiently elastic and sufficiently effective credit system such conditions as arose previous to that disaster could be entirely averted or so restricted as to affect only a few "plungers" and their immediate associates.

IRON BARS HOLD MEN IN FIERY FURNACE

Eight Lose Lives When New York Comb Factory is Destroyed; Five Fatally Injured.

(By Morning Journal Special Leased Wire) New York, Nov. 8.—Iron bound windows prevented the escape from death of eight workers in Robert Morrison & Sons' comb factory in Brooklyn, which caught fire today, and five other men probably were fatally injured in making their escape from the building.

William Morrison, son of the owner of the plant, lost his life in the flames while trying to reach the safe and close its doors. His father was among the injured.

Forty employees were in the factory when the fire started. Many jumped from the third floor windows. The second floor windows were barred and there eight men met their doom. The fire swept rapidly through the building as the comb material inside was highly inflammable.

Peruvian Statesman Dead. Lima, Peru, Nov. 8.—Miguel Iglesias, the Peruvian general and statesman, died today, aged 77.

MYSTERY SHROUDS VICTIMS OF JOY RIDE

Only Ill Fated Automobile Taken from Chicago River; Police Unable to Recover the Bodies.

(By Morning Journal Special Leased Wire) Chicago, Nov. 8.—The identity of the persons who lost their lives Sunday night when their automobile plunged into the Chicago river, is still unknown. No bodies have yet been recovered.

Ernest Camp, 22 years old, a chauffeur, is believed to have been one of the victims. He was employed by J. F. Schreffler, and the wrecked automobile dragged from the river today proved to be his machine.

Camp, it is now believed, took a party of men and women from Van Buren street and Wabash avenue last night with directions to drive them to some point on the West side. He had an engagement to meet a party of women at a downtown theater later. He never appeared at the theater and has not been seen since.

Many rumors of missing persons were run down by the police today in an effort to learn the identity of the victims but no definite information was obtained. The police ceased dragging the river for bodies at sunset.

Late tonight relatives reported to the police the disappearance of Max Cohen, cigar dealer, who conducted a store at 514 West Van Buren street, and Miss Beatrice Shapiro, who lived at 1102 South Paulina street. Cohen and Miss Shapiro were friends and are believed to have been together Sunday night. Cohen did not appear today to open his store and Miss Shapiro did not return to her home. L. M. Cohen, brother of the missing man, believes that his brother and Miss Shapiro were in the automobile that plunged into the river.

That Cohen had engaged an automobile in the downtown district Sunday night could not be established.

REELFOOT LAKE MAY GO TO THE STATE

Union City, Tenn., Nov. 8.—The first legal step to have Reelfoot lake declared a public fish and game preserve under control of the state of Tennessee was taken today by the state court at Nashville. The West Tennessee Land company, W. W. Williamson and the heirs of J. D. Patterson, deceased.

Reelfoot lake sprang into prominence when Captain Quentin Rankin, attorney for the land company, was killed last year on its banks by night riders. The night riders bitterly contested the right of the company to rest fishing or hunting on the lake which is one of the principal preserves in the south.

PRESIDENT IN HAPPY MOOD AT AUGUSTA

WINS GOLF GAME AND OPENS STATE FAIR

Says Nation Should Do For Itself What It Has Done For Cuba and Panama in Sanitation; Urges Ship Subsidy.

(By Morning Journal Special Leased Wire) Augusta, Ga., Nov. 8.—President Taft today played at golf with his host in Augusta. Major Joseph B. Cumming, defeating him two up and four to go, opened the Georgia-Carolina interstate fair, rode through the streets of Augusta amid the cheers of his "fellow citizens," and left for Florence, S. C., at 3 p. m.

A call upon the president at the golf links, on his invitation, by Ty Cobb, the baseball player, the extreme cordiality of the reception of the president in his "winter capitol," and the goodfellowship extended to his entourage were the features of the day.

In the address at the fair grounds, the president touched upon a number of matters of national importance. The keynote of his address was national sanitation, that a national board of health should be organized for the nation itself what the nation had accomplished for others in Cuba and Panama.

The president also talked ship subsidy and suggested that the plan merited the support of the south—especially of cotton manufacturing states like Georgia and South Carolina. Mr. Taft's speech, in part, follows:

"It seems to me that the most important subject and the most important collection of subjects is that which relates to the conservation of our natural resources. Until we can secure uniform state co-operation by state legislation with reference to the preservation of our forests and the equalization of the water which falls from the clouds and the preservation of our soil from being washed out to sea we shall not be able to carry out the program set for us by Theodore Roosevelt, which, to every thoughtful man, must commend itself as one of the highest importance to the safety and preservation of our nation."

"Another subject which, under the influence of the growing manufacturing interests, brings itself into one's mind is the question of our merchant marine."

"You are manufacturing cotton goods in Georgia and South Carolina and you wish a market in which to dispose of them. Unless our country exercises more control over the merchant marine in the future than it does now, you are going to find yourselves at a great disadvantage in seeking markets of the world in which to dispose of your products."

"Another subject that is forging ahead and must be considered by the national government with a great deal more care and with the expenditure of much more money than has heretofore been put into the investigation is the question of sanitation and the health of the inhabitants of the country. It is peculiarly so in the south, for as you reach nearer the tropics the danger of the spread and prevalence of disease is much greater."

"We have now various bureaus in Washington which have functions connected with the suppression of disease and the study of the different diseases but they are scattered and they need to be united in one bureau which shall direct its attention to the study of questions of health under all conditions prevailing in this country, so that by the circulation of the knowledge obtained it may enable the people to live hygienic lives."

"Now it is true that the health of the citizens is not directly committed to the state, but it is also true that the question of agriculture is not committed by the constitution to the state. Nevertheless the agricultural department has found much that it can do to assist the agriculture of the country."

"Think back two decades, my friends, and see what enormous strides have been made by the proper treatment of soil in the improvement of your crops in the market value and yield of those products and in the entire change of character of your agriculture from a hazy, wasteful industry to one in which the scientific knowledge is of the greatest importance."

"Thus, too, with respect to sanitation, it is necessary that the towns and states devote their attention and money to making better bodies of their citizens as well as their minds and if the national government, with its resources, can follow out lines of investigation that shall show the proper treatment to be followed, it is well that they should take that step."

"I expect to recommend to congress that there be a union of all the experimental departments of the government for the discovery of lines of health and the study of diseases."

President Off for Washington.

Florence, S. C., Nov. 8.—Leaving Augusta and two days of welcome rest behind him, President Taft started for Washington this afternoon and stopped here three hours to receive

an enthusiastic welcome in this little community of 10,000 people.

In the throng that lined the streets and which listened to an address by the president there were more Confederates than have greeted him in all the rest of the south put together.

The president's visit to Florence was also marked by his introduction to the famous "pine bark stew" of the Piedmont section of South Carolina. The president had been looking forward to this stew with mingled emotions of pleasurable anticipation and fear. When it appeared as the major course in the Florence banquet tonight it proved to be nothing more or less than a delectable fish chowder, spiced and stewed over a pine bark fire long enough to get some of the flavor of the pine into it.

Before leaving Augusta the president assisted in the opening of the Georgia-Carolina fair. His address was interrupted by the passage of an airship or dirigible balloon immediately over the grand stand. The president was talking of ship subsidy at the time and after he had paused to look at the receding balloon exclaimed:

"I hesitate to occupy your time in discussing an old method of transportation when you have before your eyes the newest one invented, and yet I want to think it will be some time before that method will be used in the moving of bales of cotton."

It had been intended that the president would stop here only an hour and ten minutes, but the reception committee secured a rearrangement of the schedules by which they might hold him three times that length and yet deliver him to Wilmington early tomorrow morning.

The president warned the people not to let the prospect of fifteen-cent cotton run away with them but to remember to demand in all business affairs the standard of integrity and morality outlined by Theodore Roosevelt.

"We are apt to get enthusiastic over fifteen-cent cotton and the growth of cities and states and all this material prosperity," said the president, "but I hope that in so doing we shall not forget the responsibilities that ought to accompany our material growth. We have been prosperous before. We were exceedingly prosperous in 1907 and for six or eight years before that. But there came a time when Theodore Roosevelt and men like him who saw that the tendency which came from that prosperity to an accumulation of wealth in individual hands by means that were not legal and could be morally supported, called for a halt and called for the enactment of legislation in order that it might be along lines of legality and of business integrity and morality."

"But I am no pessimist. I believe we are growing steadily better and better and that the way we responded to the call when Roosevelt uttered it showed we could not be bribed by material comforts and luxury into sleepiness and inaction in matters of business integrity."

Thomas L. Lewis, president of the United Mine Workers of America, objected to the adoption of the committee's report as a whole and at his suggestion the delegates against whom there was no protest were seated, the convention taking up the others for separate action. President Gompers ruled that only organizations in good standing were entitled to representation in the convention, and it did not take the delegates long to vote against seating representatives from organizations whose charters had been revoked for admitting members of the seceding electrical workers.

James P. Egan, of Toledo, representing the Ohio Federation of Labor, one of the rejected delegates, tried to address the convention, when President Gompers' gavel came down with a bang as he declared, "Mr. Egan has no seat in this convention."

It is predicted that the dissatisfied electrical workers eventually will air their grievances on the floor of the convention. They contend that their charters were revoked before they had an opportunity to appeal to the convention.

President Gompers said these appeals would form a part of the report of the executive council tomorrow and that appeals would be heard by committees. The greater part of tomorrow's session probably will be devoted to the report of the executive council and the various committee appointments will be ready.

President Gompers said these appeals would form a part of the report of the executive council tomorrow and that appeals would be heard by committees. The greater part of tomorrow's session probably will be devoted to the report of the executive council and the various committee appointments will be ready.

The amount of the defalcation, says the statement, "has been ascertained to be \$432,000. Warriner has turned over to the company property amounting to more than \$100,000 and there will be received from the American Surety company, on his bond, \$50,000, leaving the net amount of the shortage some less than \$500,000."

"The method which Warriner adopted was to cover his defalcations in the form of 'cash in transit.' At the end of each month there are considerable sums of money on the way to the local treasurer from station agents and others, which have not been received by him. It was by including in this item the moneys which he had in fact stolen that he was enabled to conceal his defalcations."

WARRINER AIDS IN PLANS TO CATCH ALLEGED BLACKMAILERS. Cincinnati, O., Nov. 8.—Until long after midnight officials of the Big Four were still in conference with Charles L. Warriner, former local treasurer of the road, to discuss means of apprehending those whom Warriner has named in connection with his shortage.

At a late hour information was given out that plans are about complete for more arrests. Warriner, who was released late Saturday on \$20,000 bond, is said to be lending every assistance in identifying and locating those whom he asserts extorted money from him to suppress exposure.

The railroad officials have been furnished by Warriner with a circumstantial story of the alleged extortion from him and those implicated including a man and a woman are said now to be watched day and night by detectives. The railroad, it is said, will cause arrests as soon as convinced that the evidence will assure prosecution.

FEDERATION WILL STAND BY GOMPERS

SENTIMENT AT TORONTO BACKS UP OFFICIALS

Considered Certain Appeal in Buck Stove Case Will be Authorized; Reports Show Labor Unions are Prosperous.

(By Morning Journal Special Leased Wire) Toronto, Ont., Nov. 8.—That the American Federation of Labor will stand by President Samuel Gompers, Vice President John Mitchell and Secretary Frank Morrison in their fight to escape jail sentences imposed in the District of Columbia for contempt of court was indicated today by the attitude of the delegates in attendance at the annual convention.

It is apparent that the committee on the president's report will recommend that the case be carried to the supreme court of the United States. At least this is the expressed opinion of many delegates.

The delegates vigorously applauded salient points in Mr. Gompers' report, summarizing the Buck stove and range injunction case and the contempt proceedings that followed.

Mr. Gompers in his report discussed a wide range of labor issues and those of Secretary Morrison and Treasurer John B. Lennon, which followed, showed that organized labor has made substantial gains in the last year and that the federation has a balance of \$165,563 in the treasury.

The convention's attitude toward the factional strife among the members of the International Brotherhood of Electrical Workers was shown today when the credentials committee reported in favor of the faction headed by E. J. McNulty and declined to seat James J. Held of the Erie, Pa., Central Labor union, president of the "insurgents," and other delegates from organizations in Ohio, Alabama and Michigan, whose charters have been revoked by the federation.

Thomas L. Lewis, president of the United Mine Workers of America, objected to the adoption of the committee's report as a whole and at his suggestion the delegates against whom there was no protest were seated, the convention taking up the others for separate action. President Gompers ruled that only organizations in good standing were entitled to representation in the convention, and it did not take the delegates long to vote against seating representatives from organizations whose charters had been revoked for admitting members of the seceding electrical workers.

James P. Egan, of Toledo, representing the Ohio Federation of Labor, one of the rejected delegates, tried to address the convention, when President Gompers' gavel came down with a bang as he declared, "Mr. Egan has no seat in this convention."

It is predicted that the dissatisfied electrical workers eventually will air their grievances on the floor of the convention. They contend that their charters were revoked before they had an opportunity to appeal to the convention.

President Gompers said these appeals would form a part of the report of the executive council tomorrow and that appeals would be heard by committees. The greater part of tomorrow's session probably will be devoted to the report of the executive council and the various committee appointments will be ready.

HALF MILLION LOSS IN TEXAS OIL FIELDS

Lightning Plays Havoc Among Big Tanks in the Beaumont District.

Beaumont, Tex., Nov. 8.—During rain and electrical storms today lightning played havoc with the oil properties in this vicinity. Shortly before noon lightning struck and set fire to the Gulf Refining company's 55,000-barrel tank of naphtha at Port Arthur. At 3 o'clock this afternoon another thunder storm came up and in a few minutes time of the oil tanks of the Texas company, near this city, containing about 225,000 barrels of crude oil, were set afire at one stroke of lightning.

The total loss will reach about half a million dollars. Six hundred employees worked throughout the night throwing up embankments to prevent the flaming oil from spreading over the fields.

FRANCIS TO HEAD EXPOSITION AT BERLIN

New York, Nov. 8.—Announcement was made today that David R. Francis, president of the Louisiana Purchase exposition, has accepted the office of first vice president of the American exposition which will be held in Berlin next summer.

J. P. Morgan is president of the American exposition committee, and Prince Henry of Prussia, is the honorary president of the German reception committee. Twenty-one states have made application for space and it is practically assured that every state in the union will be represented.

EASTERN TRAINMEN DEMAND WAGE INCREASE

Chicago, Nov. 8.—Demands for a 12 per cent wage increase and uniform schedules are to be made by conductors and trainmen on every railroad system east of Chicago, it was reported here today.

Locomotive firemen on roads west of Chicago are taking steps to have existing schedules opened and will ask an increase. Wages of conductors and trainmen on roads east of Chicago are about 12 per cent lower than in the west, and the movement for the increase is said to be entered into jointly by the Brotherhood of Railroad Trainmen and the Order of Railway Conductors.

DIFFERENCE JUST \$13,000,000

Detroit's Expert Says Car Lines are Worth \$11,284,606; Company's Expert Places Value at \$24,708,375.

(By Morning Journal Special Leased Wire) Detroit, Nov. 8.—Mayor Philip Broome today afternoon turned over to the franchise committee of the council and to the citizens' committee of fifty, the appraisal of the property of the Detroit United railroads, made by Engineer F. E. Bancroft. This appraisal places the value of the company's holdings in Detroit at \$11,284,606.

Property valued at \$1,550,000 is excluded from the appraisal. The company has a total mileage in the city, exclusive of its extensive suburban lines, of 170.41, and a total of 998 cars.

An appraisal of the property by an engineer employed by the company fixed the total value at \$24,708,375. General Manager Brooks, of the company, stated that the data from which the figures were derived is the same as that furnished Engineer Bancroft.

Franchises on sixty-six miles of the company's lines expire on November 14.

MRS. ASTOR GETS TEN MILLIONS AND DIVORCE

Proceedings in New York Court Carefully Guarded and Only Bare Announcement of Decree Is Made.

(By Morning Journal Special Leased Wire) New York, Nov. 8.—Mrs. John Jacob Astor was today granted an interlocutory decree of divorce by Justice Mills, sitting in the supreme court at New York city. All papers in the case were sealed and the proceedings were carefully guarded.

Henry W. Taft appeared for Mrs. Astor, while Colonel Astor was represented by Lewis Cass Ledyard. Mr. Taft said:

"I have a motion with which you are familiar and would like to have the judgment signed and an interlocutory decree granted."

Justice Mills replied:

"I have read very carefully the report of the referee in this matter and am of the opinion that the evidence justifies the findings of the referee. I shall therefore sign the judgment and grant an interlocutory decree if there are no objections."

Mr. Ledyard said there were no objections and Justice Mills signed the papers.

Mr. Taft made a second motion, asking that all papers in the case be sealed. The motion was granted.

It is understood counsel made a preliminary arrangement as to the disposition of the two Astor children and the question of alimony. It has been generally reported that Colonel Astor made a settlement of \$10,000,000.

Mrs. Astor was Miss Anna Willing, of Philadelphia, and was married to Colonel Astor in 1891.

CANNED CHILE, NOT STRYCHNINE, IS CAUSE

Los Angeles, Cal., Nov. 8.—Harper E. Bennett, the local real estate man charged with having murdered his wife by administering strychnine, because of love for an alleged affinity, was freed of the charge today when the case was dismissed by the district attorney. At the trial, several weeks ago, the jury disagreed, standing six to six. Bennett's defense was that his wife died of ptomaine poisoning from eating canned chile con carne.

FATAL WRECK REPORTED ON L. & N.

Rioville, Tenn., Nov. 8.—A head-on collision between a northbound passenger train on the Louisville & Nashville railroad, and a through southbound freight is reported near Mynatt, a small station located near Coal Creek. The wires are down and no positive information is obtainable. Three are reported to have been killed.

BETRAYED BY BRIDE OF AN HOUR

PASQUEL ROMAN HELD ON CHARGE OF MURDER

Wife Causes Arrest Then Employs Counsel to Defend Husband and Declares She Will Stay With Him to End.

(By Morning Journal Special Leased Wire) Youngstown, O., Nov. 8.—Following the arrest of Pasquel Roman on a murder charge not more than an hour after his marriage to Miss Elizabeth Andrews, it developed today that the bride had betrayed her husband to the police.

The man was taken from the railway station just as the young people were boarding a train for their future home near Cleveland. He was taken to jail on word from Brownsville, Pa., that he was wanted there under another name for a murder committed four years ago.

Today's developments show that the girl told the police that it was Roman who was wanted by the Pennsylvania courts, and that a reward of \$500 was on his head. Tonight the girl lies in terror of Roman's friends whom she fears may seek revenge on her.

"He forced me to marry him," she said. "He told me that he would kill me if I did not."

Immediately thereafter she employed attorneys to defend the man and declared her intention of remaining with him to the end. She said she was sorry that she had betrayed him.

Roman, on advice of the attorney whom the new Mrs. Roman employed, waived extradition tonight and will go to Brownsville. Mrs. Roman's parents are well-to-do and they have urged her to stay with Roman.

NORTHWEST INDIANS GROW TROUBLESOME

Vancouver, Nov. 8.—Fearing that an organized attempt may be made by the Indians of Klapoos and other nearby tribes to rescue eight of their number who were taken prisoners last Friday night, the police authorities at Hazelton have erected barricades and other temporary fortifications to assist in the defense of the place. Several trenches were dug today and guards posted.

The residents of Hazelton fear for the safety of the ranchers who may be attacked by Indians in revenge for an attack by the police upon the village of Klapoos last Friday.

Recently a missionary of the Church of England was so harassed by Indians that he was forced to make preparations to desert. Before he could move his house was set on fire and what was not burned was stolen by the natives.

The Indians object to the coming of white settlers who occupy land over which they have roamed and hunted. They do not have legal title to the land but assert ownership. Lately their attitude has become so threatening that the dominion government has ordered mounted police to take stern measures. There has been no bloodshed.

No Serious Trouble Anticipated.

Victoria, Nov. 8.—Although dispatches to certain newspapers predict an uprising of Indians in the Skeena river country, northern British Columbia, there is little likelihood of trouble. The latest message received by Superintendent Hersey of the provincial police from Hazelton said: "The situation is satisfactory."

Owing to the rapid influx of settlers there has been friction between Indians and whites and last Saturday morning six Indians were arrested at Klapoos village for stealing railroad stores. There is bad feeling between the Indians and the new settlers but the mounted police are able to maintain order.

FUNERAL OF DOWAGER EMPRESS OF CHINA TODAY

Chinese Ruler Who Died Year Ago Now to Be Formally Interred.

Peking, Nov. 8.—The ceremony of burning offerings of the costliest nature was held yesterday in memory of the dowager empress of China, who died a year ago. The funeral will occur tomorrow.

The Chinese foreign board has issued a thousand tickets to foreigners who will witness the start of the funeral procession.

HEROIC MOTHER SAVES CHILDREN'S LIVES

Dogden, N. D., Nov. 8.—By passing her children out of a second story window and allowing them to fall to the ground, one by one, Mrs. John Frantz today saved her entire family of twelve from death by fire. The mother was almost overcome by smoke while saving her children. A blaze started in some manner in the kitchen, cutting off escape by the only door in the house.

M'FARLAND WINS IN WHIRLWIND FIGHT WITH THOMPSON

The "Cyclone" No Match for Footwork of Man Who Is Eager to Get a Scrap With Nelson.

(By Morning Journal Special Leased Wire) Kansas City, Mo., Nov. 8.—In one of the hottest ten round bouts ever pulled off in Kansas City, Packy McFarland won the decision off "Cyclone" Johnny Thompson here tonight. The battle was that of a scientific boxer who was able to hit and get away, against a man whose main asset is slugging and who could not get near enough to his shifty opponent to land.

In the first round, the second, was Thompson able to send home enough telling blows to make it appear that his strength would carry the fight home to him. But with Packy hanging on ducking and making the most of his wonderful footwork the "Cyclone" could not corner him. After that round there was little doubt as to the outcome, although Thompson took a brace in the last three rounds and did some good work.

A mighty shout of approval went up when, at the end of the tenth round, Referee Joe Coffey of Chicago, raised Packy's right hand, signifying that he had won. True, a few of Thompson's friends clamored for a draw, but the decision was popular in the main.

Wearied by the terrific pace of the battle McFarland did not realize that he had won. Two minutes after the decision had been rendered he hurried across the ring to the press box and asked:

"Did I win?"

When assured that he was the victor, a broad smile overspread his face and happy as a school boy, he danced back to his corner, saying gleefully, "I have gotten rid of the last man who blocked my path to a scrap with Nelson."

Thompson expressed the opinion that he could defeat McFarland in a longer fight. It was the general opinion about the ringside that neither was in shape to stand a long, grueling battle.

Dr. B. E. Roter of Seattle, who wrestles Frank Gotch here for the world's championship, on November 12, was introduced to the crowd. He said it was his intention to take up boxing.

The receipts tonight were about \$6,000. Sixty per cent of this went to the fighters, who divided it 60 per cent to the winner and 40 per cent to the loser.

The Fight by Rounds.

Round 1.—Both advanced with caution. Thompson led with a left and was blocked. Thompson landed light left to stomach. McFarland fought with left and crossed with stiff right to jaw. McFarland sent right to eye. Thompson rushed McFarland to the ropes. McFarland landed hard right to ear as going sounded. Round even.

Round 2.—Thompson rushed McFarland to ropes and sent hard right to ear. Packy returned straight right jab, catching his opponent on the jaw. Thompson landed two hard rights to the jaw staggering McFarland. They clinched and McFarland hung on desperately and seemed weak. Thompson's round.

Round 3.—McFarland landed right to jaw. They clinched. Thompson landed good right to body. McFarland drove right to jaw staggering Thompson. Thompson rushed McFarland to ropes. McFarland uppercut with hard right and bored in landing three stiff uppercuts without return. McFarland seemed stronger at end of round.

Round 4.—McFarland opened with savage right uppercut to jaw. Thompson bored in but could not land. McFarland landed two rights to jaw. McFarland sent hard right to jaw and right to heart. Thompson rushed McFarland to ropes. Thompson rushed McFarland and received two stiff uppercuts. Thompson's right ear badly puffed at end of round and McFarland bleeding at mouth.

Round 5.—Thompson came in with a rush and met a short right. He landed two straight lefts and crossed with a right. They exchanged rights. McFarland appeared with two savage rights and as they clinched he sent in another. Thompson drove right to the body and McFarland returned a right and left, but they looked seem.

Round 6.—Thompson varied the fight in his opponent and landed a hard right to jaw. McFarland backed away, but when Thompson followed too closely he landed two staggering rights. Thompson tried with right and received two stiff uppercuts. McFarland drove a light right and left to jaw as the round ended.

Round 7.—Thompson landed good

left to body and swung right to jaw. McFarland staggered Thompson with right and left. Thompson rushed McFarland to ropes. McFarland landed hardest blow of fight, a right uppercut to jaw, sending Thompson back. Thus far the fight was in McFarland's favor.

Round 8.—The men came from their corners with a jump and clinched. Thompson sent left to body and seemed trying hard to regain lost ground. McFarland appeared to be trying. He sent hard right to jaw and Thompson missed a right. McFarland pelted Thompson on the top of the head and Thompson answered with a staggering right to jaw. McFarland had fired perceptibly as the round ended.

Round 9.—Thompson waded in with a right. McFarland landed right to body, but Thompson chased him about the ring. Thompson drove in a hard right, both men fighting hard. They exchanged hard lefts and rights as McFarland backed around the ring. McFarland bleeding profusely from cut above right eye when gong ended round.

Round 10.—Thompson refused to shake hands and they went to a clinch. Thompson rushed McFarland to ropes. McFarland drove a left to jaw. McFarland sent a right and left to the head but they were weak. Thompson drove McFarland to ropes and sent hard right to jaw. Thompson rushed McFarland and received two stiff uppercuts. Thompson's right ear badly puffed at end of round and McFarland bleeding at mouth.

Round 11.—Thompson came in with a rush and met a short right. He landed two straight lefts and crossed with a right. They exchanged rights. McFarland appeared with two savage rights and as they clinched he sent in another. Thompson drove right to the body and McFarland returned a right and left, but they looked seem.

Round 12.—Thompson varied the fight in his opponent and landed a hard right to jaw. McFarland backed away, but when Thompson followed too closely he landed two staggering rights. Thompson tried with right and received two stiff uppercuts. McFarland drove a light right and left to jaw as the round ended.

Round 13.—Thompson landed good

left to body and swung right to jaw. McFarland staggered Thompson with right and left. Thompson rushed McFarland to ropes. McFarland landed hardest blow of fight, a right uppercut to jaw, sending Thompson back. Thus far the fight was in McFarland's favor.

Round 14.—The men came from their corners with a jump and clinched. Thompson sent left to body and seemed trying hard to regain lost ground. McFarland appeared to be trying. He sent hard right to jaw and Thompson missed a right. McFarland pelted Thompson on the top of the head and Thompson answered with a staggering right to jaw. McFarland had fired perceptibly as the round ended.

Round 15.—Thompson waded in with a right. McFarland landed right to body, but Thompson chased him about the ring. Thompson drove in a hard right, both men fighting hard. They exchanged hard lefts and rights as McFarland backed around the ring. McFarland bleeding profusely from cut above right eye when gong ended round.

Round 16.—Thompson refused to shake hands and they went to a clinch. Thompson rushed McFarland to ropes. McFarland drove a left to jaw. McFarland sent a right and left to the head but they were weak. Thompson drove McFarland to ropes and sent hard right to jaw. Thompson rushed McFarland and received two stiff uppercuts. Thompson's right ear badly puffed at end of round and McFarland bleeding at mouth.

ADLER'S COLLEGIAN CLOTHES

are unusual garments. If you will take the time to make a careful, critical examination, you will discover that the fabrics used are decidedly above the ordinary in quality. You will see that the workmanship put into these garments is of an exceptionally high order. You will recognize the superiority of style and the remarkably good fitting

qualities. It's only necessary for you to investigate to be thoroughly convinced. If you have not bought your winter suit or overcoat, ask your clothier to show you the Collegian fashions and request him to show you your size. The autumn and winter fashions in suits and overcoats are now being shown by the most representative clothiers in all parts of America. Prices range from \$15.00 to \$40.00.

WILL FILE CHARGES AGAINST SHERIFF OF SOCORRO

Local Attorney Says Cattleman of County Make Grave Allegations Against Geronimo Sanchez.

Attorney Eliezer Baca of this city, who returned from Socorro with Attorney M. U. Vigil, says he is preparing for a number of cattlemen of Socorro county grave charges against Sheriff Geronimo Sanchez of the county which will be filed before Judge Mechem, probably in this city, when Judge Mechem sits here in the Los Lunas county seat case. Mr. Baca would not reveal the nature of the charges but said that they were very grave in character. The attorney also would not give the names of the gentlemen back of the charges but declares they are well known in Socorro county.

CHANCE THIS YEAR TO LOOK AT THE HORSES

Society Out in Tame Costumes for New York Horse Show; Moore Entries Gobble the Ribbons.

(By Morning Journal Special Leased Wire) New York, Nov. 8.—Heavy skies and a steady drizzle outside detracted nothing from the brilliancy of the first night of the twenty-fifth National Horse show at Madison Square Garden.

Judging began this morning at 10 o'clock but society did not fill the boxes until evening. Costumes are not startling this year and there is more interest in the horses than in the new gowns in the boxes.

Attention centered on British and Canadian army officers, who appeared here for the first time in the history of the association. Their showing in the jumping class was far beyond the general run.

The only mishap occurred late today. Judge William H. Moore of New York was last pinned in the blue ribbon for horses shown in harness to his bay gelding, Flourish, when the animal reared and, driving his forefeet into the judges' stand, upset chairs, broke a table and howled a gorgeous flunko. Judge Moore regained control without leaving his seat and drove Flourish out.

Judge Moore was again a winner in the blue ribbon class today in the class for novice harness horses with his Lady Seaton. Gangell, of C. W. Watson's Farmington farms, took second and Quickstand, another Moore entry, third.

The classes were so large that they had to be shown in squads, and judging was much delayed. George Watson with Indian Flowers, a chestnut mare, won a blue ribbon in the class for novice saddle horses.

Judge Moore was again a winner in the blue ribbon class today in the class for novice harness horses with his Lady Seaton. Gangell, of C. W. Watson's Farmington farms, took second and Quickstand, another Moore entry, third.

INVESTIGATE THE CLAIMS OF BELEN

With the inauguration of daylight train service between Albuquerque and El Paso there will come a period of prosperity to the Rio Grande valley such as it has never before known.

Belen is the newest, liveliest town on this route. With the completion of the Coleman extension of the Santa Fe it becomes an important division point on the line from San Francisco and Los Angeles to Galveston and New Orleans. It is now on a direct line from Denver and the north to Mexico. It is the crossing of the two great transcontinental highways from North to South and from East to West.

The Santa Fe railway is spending thousands in the construction of terminal facilities. New depots, both passenger and freight, new eating houses and other extensive improvements now are nearing completion.

The music of the saw and hammer is heard on every day. Dozens of residence buildings are in course of construction. Brick blocks are rising as if by magic. New enterprises are establishing themselves daily. This great activity is due not only to the fact that the town has such bright future prospects, but that The Belen Town and Improvement company is selling lots within the reach of all.

The church and school facilities are second to none in New Mexico. Seven teachers give instruction to over 200 pupils in one of the best buildings in the territory.

Four Protestant denominations are establishing work and three new churches are building or soon to be begun.

The people are friendly and social.

Boxing
AthleticsHARD YEAR FOR THE
PONIES ON THE
EASTERN TURFRacing Ends Abruptly Because
of Depleted Treasuries Due to
Anti-Betting Laws.

(Special Dispatch to the Morning Journal)
New York, Nov. 8.—Horse racing ended in the east today, a week earlier than usual. Whether the curtailment was directly due to the hardships inflicted by the anti-betting laws in New York state is a matter of opinion.

The recent cancellation of its usual fall meeting by the Empire City track which was scheduled for this week was met with a proposal to prolong the meeting at Aqueduct until November 15, the date to which the racing season usually continues; but because of the debilitated condition of the sport under the stringent anti-betting law, the Aqueduct authorities refused to accept the additional dates.

A large crowd was on hand at the Aqueduct track today for the wind-up and to see the last stake race of the season. This was the Belle Harbor and it was won easily by Ten Paces.

With the closing also at Pinelock today the movement of stables that will seek wintering in the west, south and in Mexico already has begun, but the turfmen interested are those of the smaller establishments, as most of the big stables will go into winter quarters in the Long Island stables.

First race, six furlongs—King Cobalt won; Prince Gal, second; Racquet, third. Time, 1:15.

Second race, one and one-sixteenth miles, selling—Black Mate won; The Peer, second; Bonnie Helio, third. Time, 1:47 2-5.

Third race, the Belle Harbor selling stakes, seven furlongs—Ten Paces won; Pretend, second; Coonskin, third. Time, 1:27 3-5.

Fourth race, one mile—Nimbus won; Beauoup, second; Elliott, third. Time, 1:39 1-5.

Fifth race, selling, one mile—Jeanne d'Arc won; Summer Night, second; Bad News, third. Time, 1:44.

Sixth race, six and one-half furlongs—Tom Kerr won; Naughty Boy, second; Rusten, third. Time, 1:21 3-5.

Getaway Day at Baltimore.

Baltimore, Nov. 8.—Getaway day of the fall meeting of the Maryland Jockey club, with the largest crowd of the season, was run with fair weather and a fast track.

The second event went to Jack Atkin, in a fine race, beating the track record by one-fifth of a second. The Bowle, the feature of the meeting, with five entries, was won by Fitzhugh in 3:25 2-5, at 1 to 10 favorite, as he pleased, beating the world's record made by Judge Denny, 3:26 1-2, at Oakland in 1897. The consolation handicap steeplechase, about three miles, the best jumping race of the meeting, was won by Algie, the favorite.

First race, six furlongs—Compton won; Medallion, second; Sager, third. Time, 1:13 1-5.

Second race, one mile, forty yards—Jack Atkin won; Algie Private, second; Aronback, third. Time, 1:42 4-5.

Third race, two miles, the Bowle stakes—Fitzhugh won; Superstition, second; Pine and Needles, third. Time, 3:25 4-5.

Fourth race, consolation handicap, steeplechase, three miles—Algie won; Vihalla, second; Duera, third. Time, 6:28 1-5. (Three finished.)

Fifth race, five furlongs—Hammon won; Inspired, second; Lady Frederick, third. Time, 1:08.

Sixth race, selling, one and one-eighth miles—Rostrum won; Osorine, second; Silveria, third. Time, 1:55 2-5.

Seventh race, selling, six furlongs—Spellbound won; Selwick, second; Langle, third. Time, 1:12 4-5.

Results at Latonia.

Cincinnati, Nov. 8.—Ethel D. demonstrated that she is a good filly by defeating a fair field of two-year-olds in the feature race at Latonia today. She assumed an early lead and was never in danger.

Five favorites and one well backed second choice won.

First race, six furlongs—Sir Orville won; Milton B, second; Colonel Amodeo, third. Time, 1:13 4-5.

Second race, one and one-sixteenth miles, selling—Dextrine won; Plume, second; Lady Hill, third. Time, 2:48 2-5.

Third race, six furlongs, selling—Grenade, second; Coner, third. Time, 1:13 2-5.

Fourth race, six furlongs—Ethel D won; Handicapped, second; Don Diaz, third. Time, 1:14 2-5.

Fifth race, one and one-eighth miles—Molesey won; Greenbridge, second; Chit, third. Time, 1:52 2-5.

Sixth race, one mile, selling—Han-ridge won; Kokomo, second; Mystiff, third. Time, 1:41 1-5.

ROSWELL CADETS
PLAY VARSITY
SATURDAYNew Mexico Military Institute
Meets U. N. M. Team at
Traction Park in What Prom-
ises to be Interesting Game.

The New Mexico military institute and the University of New Mexico eleven will meet at Traction park next Saturday afternoon for the second time in the history of the two institutions and it is expected that the contest will be exciting enough for the most critical lover of the sport.

The cadets went down to defeat at the hands of the varsity last year, 15 to 10. Last year's game, however, cannot be taken as a criterion for this year, as both eleven have been re-organized almost entirely. The soldier boys will arrive at midnight Friday night, twenty men strong, including Manager Fritz Bruggeman. The cadets have not played any hard games yet this season, but are nevertheless in splendid condition. The strict discipline at the institute and the regular hours for football practice have resulted in the soldiers developing a very strong eleven.

Their exact ability to play football, however, will not be determined until the game Saturday. It is safe to say that it will be determined within a very few minutes after the game is called, as the varsity men are going at it hammer and tongs, first, last and all the time. Practice will be the rule every evening this week until Friday night. It is expected that all the men who played in the Boulder game will be able to participate in the Roswell contest. Otero, who was painfully injured at Boulder, will be in the play Saturday, although he did not play behind the line.

The line-up for the cadet eleven follows: Baird, Bunting, Fleck, Caruthers, Loughton, Hill, Higgins, Stalna, Pierce, Rowley, Higgins, Kiburn, Garrett, Short, McNulty, Sherman, Clossen, Creamer and Hubbard.

SOCORRO SWATS
THE EL PASO
SCHOOLMiners Walk Through Military
Boys for a Total of Twenty-
Four Scores; Sensational
Runs Mark Game.

(Special Dispatch to the Morning Journal)
Socorro, N. M., Nov. 8.—The Socorro school of mines completely outclassed the football team from the El Paso military institute today, defeating the visitors by a score of 24 to 0. The first touchdown was made in the first three minutes of play and it looked at first as if the miners would have a complete walk-away.

The El Paso team braced up, however, and held against some fast play to the end of the first half. In the second half Socorro chalked up eighteen scores. Lane of the Socorro backs made a sensational run from the Socorro ten-yard line for a touchdown, racing the entire length of the field behind splendid interference by Kirschman. Hatchelder also made a half-field run for a touchdown in the early second half behind the same sure interference.

Phoenix, Ariz., Nov. 8.—The Buick car, driven by J. K. Nikrent, won the 40-mile desert race from Los Angeles to Phoenix, which ended today at the Columbia, with Harold Stencens driving, was second, and the Studebaker, Bert Latham driver, third.

The official time announced is: Buick, 19:13; Columbia, 25:35; Studebaker, 24:56; 18; Buick, 22:35; 06; Kieselkar, 26:04; 23.

The Buick lost second place by a breaking down within one and one-half miles from Phoenix and was towed in.

The Elmore and Pennsylvania have not been heard from since they left Ehrenburg.

The time made by the Buick is remarkable, considering the condition of the roads. In last year's race the time was 24:26.

Smallwood Wins From Bruce.

Pittsburgh, Pa., Nov. 8.—Percy Smallwood won a twelve mile running race at Sequoyia gardens here today.

Smallwood, a native of Pittsburgh, for the middle distance championship of the world. Time, 1:07:45.

High Prices Paid
FOR NEW BALL TALENT

New York, Nov. 8.—The Nation
and American leagues have purchas
\$200,000 worth of talent from the
smaller leagues for the next season.
The American league teams have ex
pended the most. Charles Comiskey,
owner of the Chicago White Sox,
shows the top figures with an ex
penditure of \$55,000. Blackburn, the
Providence shortstop, cost him \$8,500.
The Washington club has spent only
\$12,500 for new talent.

Dolan-Sullivan Fight a Fuke.

Memphis, Tenn., Nov. 8.—The
scheduled eight round contest be
tween Johnny Dolan, of Brooklyn,
and Paddy Sullivan, of New York,
before the Phoenix Athletic club, to
night resulted in a draw. The "fight"
was stopped after seven and a half
rounds by Referee Dave Barry and
declared "no contest."

OKLAHOMA WILL SEE
THAT LAWS ARE
ENFORCEDHaskell Says Jeffries-Johnson
Fight Will Not Go If the Laws
Prove to Be Against Prize
Fighting.

(By Morning Journal Special Leased Wire)
Guthrie, Okla., Nov. 8.—Joe Miller,
representing Miller Brothers' 101
ranch, bidders for the Jeffries-John-
son fight, has asked Governor Has-
kell whether the state would permit
the contest to be held in Oklahoma.

Governor Haskell informed Miller
that the state authorities were not an-
ticipating the question and for him to
submit in writing what he desired
and a written reply would be given
him Wednesday. The governor then
made the following statement:

"I do not know what the en-
actments of Oklahoma cover in this
regard, but one thing is certain, the
laws will be enforced as long as I am
governor. It is really humorous to
ask me what I might or might not do
in case a set of men should come into
the state with an exhibition in viola-
tion of the statutes. We have a habit
of meeting contingencies as they ar-
rive down here."

Washington Makes an Offer.

New York, Nov. 8.—A telegram
from F. S. Williams of Bellingham,
Washington, states he will offer \$125,-
000 for the Jeffries-Johnson fight if
it is given in his town. Sam Bengot,
manager for Jeffries, says he does not
know Williams, but he bid has an
equal chance with the others if he
deposits \$2,000 with the official pro-
moter.

With three offers from California
promoters, the bid from Washington
and one from Oklahoma, it is consid-
ered certain a record breeding purse
will be offered for the big fight. Ne-
vada has not yet been heard from and
other interests are figuring on the
event, and a number of surprises are
expected when the bids are opened
December 1.

OGDEN OFFERS \$80,000
FOR THE BIG BULL.

Ogden, Nov. 8.—Jimmie Dunn, on
behalf of a local syndicate, has sent a
telegram to James J. Jeffries and
Jack Johnson, offering a purse of
\$80,000 for the fight in this city dur-
ing the National Woolgrowers' as-
sociation and livestock show to be held
January 4, 5, 6, 7 and 8, 1910.

Court for Running Down Jap-
anese Laundryman.

(By Morning Journal Special Leased Wire)
San Francisco, Nov. 8.—Stanley
Ketchel, the champion middleweight
pugilist, who has been arrested a
number of times lately for speeding
the big racing car which he acquired
the day after his fight with Jack
Johnson, appeared again in the police
court today, charged with running
down the wagon of a Japanese laundry-
man, who was severely injured and
whose horse was killed. Ketchel was
captured after a long chase by two
policemen. When his case was called
today, a special prosecutor appeared
against the fighter and on his request
a continuance was granted until
Thursday.

MANY ARRESTS MADE
BY MOUNTED
POLICE

Officers Active All Over the
Territory in Checking All
Sorts of Violations of Law.

(Special Dispatch to the Morning Journal)
Santa Fe, N. M., Nov. 8.—Much ac-
tivity in the work of the mounted po-
lice is shown in the report of arrests
given out at headquarters here today.
Among the recent arrests are:

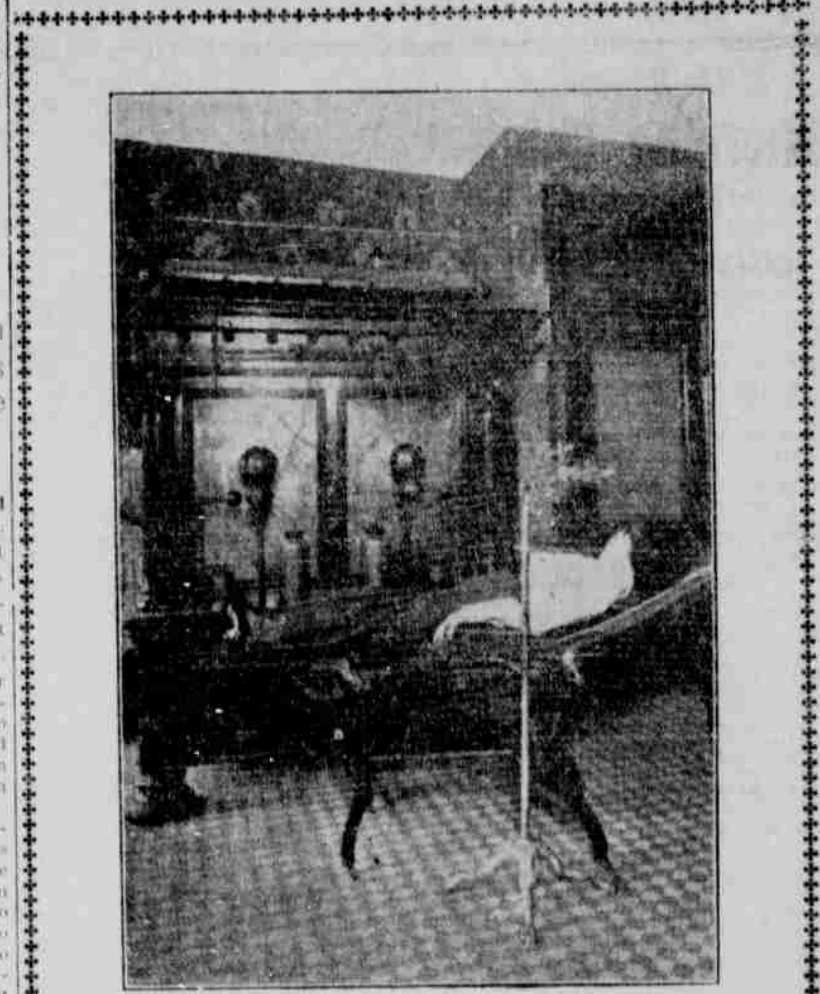

Oliver Farnham at Hatch, by Po-
liceman John A. Best, on charge of
horse theft. Farnham was lodged in
jail and the horse and saddle re-
turned to the owner.

Bernard Hamilton was arrested by
Lieutenant Collier on the charge of
stealing a pair of mules. Hamilton
is from Tennessee and Collier reports
that he was a former night rider.
Hamilton was given a hearing today
at Etah.

Collier also reports the arrest of
Pedro Chavez at Etah, for being
drunk and disorderly. Chavez was
fined \$5. Also of Candelario Garcia,
for riding on a side-walk while drunk.
Also of Mrs. Jesse Kater for carry-
ing a six-shooter. Mrs. Kater will
be given a hearing on November 11.
H. L. Hoover for peddling beef with-
out a license, and failure to show
the hide of the slaughtered beef.

Mounted Policeman Deal has re-
turned to Domingo Hove and Mr.
Keayne of Waitous livestock stolen
from them and expects to make ar-
rests soon.

Larger circulation than any other paper in New Mexico. The only paper in New Mexico issued every day in the year.

"The Morning Journal has a higher circulation rating than is accorded to any other paper in Albuquerque or any other city in New Mexico."—The American Newspaper Directory.

ALBUQUERQUE - NEW MEXICO

OPENING A NEW FIELD.

The building of the Arizona and Colorado railroad, which railway men now regard as a certainty, will open a new and valuable trade territory to the merchants of Albuquerque, and one of great extent, reaching into Arizona and Colorado, and covering two great sections of our own territory, which are now practically inaccessible. It will put us in direct communication on the southwest with the Mogollon country, which is generally regarded as the richest and most extensive mineral district in the entire southwest, while the rich agricultural and horticultural regions of San Juan county in the extreme northwest, which are now almost entirely isolated from the rest of New Mexico, will be brought so close to us that Albuquerque will be their natural market town. Both of these districts, which we all know to be among the richest and most extensive trade areas of the country, will be brought into direct communication with Albuquerque, and distant from this place not over twelve or thirteen hours, while they will be at least twenty-four hours from Denver or El Paso. And it is to be remembered that at present, each of these districts, owing to the long round-about way in which it has to be reached, is a sealed book to the merchants of Albuquerque. The following, which we take from the Denver Republican of Saturday morning, refers to the enterprise under consideration.

"We of Durango have no doubt in the world that the Arizona and Colorado Railroad, a branch of the Southern Pacific connecting with that road at Bowie, via the International and Gila Valley railroad, will reach our city in the very near future," said Ben Ritter, attorney for Harriman lines at Durango, at the Brown Palace hotel yesterday.

Terminals have been secured at Durango, according to Mr. Ritter, and he expects to see building operations begun by the Arizona and Colorado within a short time. Harriman engineers have not only surveyed a route into Durango from the south but have determined the feasibility of an outlet to the north. The development of this end of the railroad project, however, is not a matter with any degree of certainty, as the main objective of the road is the Durango coal fields, which were purchased about a year ago by Harriman interests.

GOVERNMENT BY COMMISSION.

It is interesting to note the progress that is being made in all sections of the country by the movement in favor of commission government for towns and cities. Almost every day we read of some city having discarded the old clumsy and costly machinery of local government, for the purpose of adopting the more efficient and economical system, while an unanswerable argument in favor of the new system is to be found in the fact that wherever it has been tried it gives general satisfaction, and those who opposed its adoption are very soon convinced of its merits, and would not listen to a proposition to go back to the old style.

Of course, there are no practical steps that can be taken in New Mexico at present toward the adoption of the commission system by the municipalities of this territory, because we have no law at present under which it could be done, but this is the time to talk about it, and inform ourselves in regard to the merits of it, and thus be prepared to insist upon such action by the next legislature, which will meet in a little more than a year hence, as will give our towns and cities an opportunity to avail themselves of its advantages. And as a part of this preparatory work it is well to note from time to time the action being taken by cities in other parts of the country, in the way of adopting the new system. For instance, take the following editorial from the Philadelphia Public Ledger:

"The fact that Topeka voted on Tuesday to adopt what is known as the commission form of government is another indication of the trend of modern political development in the direction of municipal government by a group instead of by a single individual, and the adoption by popular vote in Boston of a plan to make the mayor a non-partisan and to reduce the council to a non-partisan body is another indication of the same trend."

general movement toward what Elliot has called "government by a few men." The Galveston plan of commission government has abundantly justified itself in practice; the success of the similar Des Moines plan, which was furiously assailed as oligarchic and un-American, has silenced most of its critics, and Houston, Texas, with its board of five directors (a mayor and four aldermen), has had an experience similar to that of Galveston and Des Moines in securing not merely economy and efficiency of administration, but personal accountability on the part of the city officials. Before Topeka chose, on Tuesday, to try "commission government," the plan had already been accepted by seven other cities in the state—including Kansas City, the metropolis, and Leavenworth—and a dozen other cities are about to fall into line with the new idea.

"As a direct result of the changed order of things, Leavenworth has gained materially in population, paid floating debt and refunded old bonds, paved its streets and installed an adequate lighting plant. When the citizens wanted anything done, the definite localization of official responsibility enabled them to go at once to the proper authority; nor was it possible to shuffle from shoulder to shoulder the blame for malfeasance. The city," one commentator said the other day, "is run as the commissioners run their own private business. Not a cent is wasted and one hundred cents' worth of service is exacted for every dollar spent."

"Colorado Springs has already adopted by an overwhelming vote—about 3900 to 250—a similar scheme of municipal administration, with a charter which abolished ward lines, eliminated partisanship, and made provision for recall, initiative and referendum. Other Colorado cities are planning to follow suit. It is not an oversanguine prophecy to predict that in the course of a decade hundreds of American cities will choose to do away with the system of 'many men, many minds' in city government, in favor of the plan of government by commission."

THE BOSTON PLAN.

The people of Boston have voted in favor of emancipation from outside party politics in municipal affairs and a more business-like machinery of government. Charter plan No. 1, favored by the politicians of both parties, has been voted down and plan No. 2, devised by the finance commission and favored by the reform element, is now to take effect. The important features of this plan are nominations on petition by not less than 5,000 voters, no party designations to appear on the ballot; a mayor elected for four years, but subject to recall at the end of two years; and a city council consisting of nine members, elected at large for three-year terms, three each year.

This provides essentially a commission form of government, the plan differing from that adopted by Galveston, Des Moines, Havelland and other cities chiefly in providing a more numerous body of councilors or commissioners.

THE APOSTLES OF PEACE.

Few people realize the actual capital expenditure involved in the peace propaganda that is being conducted throughout the world. Mr. Carnegie's larger gifts, the Palace of Justice at The Hague, the building of the Bureau of American Republics at Washington, and his endowment for the "Glorious of Peace," are all well known, but not so well known are his large annual contributions for the support of peace societies, congresses and the like. Mr. Carnegie, however, is only one of several public-spirited men who have come to the realization that the task of countering the spirit of militarism calls for enormous expenditures, that the outlay for guns and armor will have to be offset by outlays for education along opposite lines. It is in this direction that many well-known citizens have contributed largely, and now comes the Boston publisher, Mr. Ginn, who has set aside \$1,000,000 for what he calls the "International School of Peace." The income of this fund is to be made available at once, without waiting for the execution of his will after his death, and by the dissemination of peace literature, the support of lectureships, etc., the work of spreading peace principles is to be carried on. From such earnest and substantial support some good results must flow, but the handicap is still a terrible one and likely to daunt all but the most determined and courageous.

GOOD MANN FOR A GOOD PLACE.

The newspapers of the sixth judicial district are urging the appointment of Judge E. A. Mann for governor. Such an appointment would not only be fitting but it would be poetic justice, for Judge Mann is an aboriginal to a certain crowd in that district that has been harassing Governor Curry as is the governor himself. From a party standpoint, the selection of Judge Mann would be one of the best President Taft could make—Santa Fe, New Mexico.

ANOTHER FINANCIAL GIANT.

New York is to have another "hundred million dollar bank." This financial giant is to be known as the Mechanics and Metals National, and will be a consolidation of the Mechanics' National bank and the National Bank of Commerce.

The foundation of robust health is what is allowed to enter the mouth. The more simple the diet, the more perfect the health.

DR PRICE'S WHEAT FLAKE CEREAL FOOD

is plain, pure and wholesome, easily digested, prevents constipation.

For sale by all Grocers

ates, will represent combined assets of about \$100,000,000. The Mechanics' National bank, founded 100 years ago, has a capital of \$2,000,000, a surplus of \$2,000,000 and deposits of nearly \$40,000,000. The National Copper bank, organized less than three years ago, has a capital of \$2,000,000, a surplus of nearly \$2,000,000 and deposits of \$25,000,000.

NO PATENT ON ANCESTRY.

Maryland is to be congratulated on the rejection of the proposed disfranchisement amendment to its constitution. For the second time the people of that state have repudiated a dishonest scheme to limit the franchise, not by imposing tests intended to bear on the ignorant and the undesirable as such, but by creating artificial and unjust distinctions and establishing a fantastic claim of eligibility based on "descent." This pernicious agitation in Maryland should now end. It has been insincere and narrow partisan in motive from the start. There is no excuse for a "grandfather clause" in a state like Maryland, where the race issue is not acute.

A PROFITABLE INVESTMENT.

In closing an article on the exhibit of Curry county products made at the territorial fair, the Clovis Post says: "Both the daily papers in Albuquerque were full of advertising and boosting each day for the exhibit and Curry county." "That exhibit was one of the best advertisements that Curry county could have made, and will pay the county more than a thousand percent. Every county in the territory that failed to take advantage of the grand advertising opportunity offered by the fair, stood in its own light."

The cost of safeguarding the public health in the United States is now \$140,000,000 a year, according to a statement of Walter F. Wilcox, the Cornell statistician, in a lecture before the Cornell students a few days ago. Judging by the death rate, the speaker said that public health seems to be improving. He further said that 104 to 106 males are born to every 100 females and that married people have a lower death rate than the unmarried.

"Prosperity rules throughout the United States," says government bureau of statistics. In view of that fact how weary, static, flat and unprofitable is the democratic effort to make people believe that they are suffering hard times—Socorro Chieftain.

But what's the democratic party for? Would you have the old concern go out of business?

Fashionable dressmakers of the eastern cities say they have never had such elaborate orders in the history of the business as they have booked this season. That simple fact gives stronger testimony to the presence of prosperity than could be crowded into a whole chapter of printed words.

A fashion authority in New York says the decree has gone forth from Paris that "evening gowns are to be five inches from the floor, this season," and of course, they must all tuck "em up—or maybe, they can turn 'em up at the bottom, as the ends do their trousers."

From Cloverdale, Ind., comes the startling news that a lawyer-editor there has been shot while in commission of burglary. A man ought to cure himself of his lawyer instincts before he tries to be an editor.

Present opinion at Washington inclines to the probability that the president will offer the vacant place on the supreme bench to Attorney General Wickersham.

The Ladies Know
that we carry the finest line of
FINE BAGS
THE MODERN DRUG STORE is something more than a Pill Shop and while we carry the largest and most carefully selected stock of Pure Drugs and Medicines in the city, and employ two expert Registered Pharmacists, we also carry a beautiful line of goods suitable for Wedding, Christmas and Anniversary Gifts, and our prices are lower than such really fine goods are usually sold for. No trouble to show these goods and we cordially invite you to call.

orney Says Cattlemen Make Grave Allegations Against Geronimo

Elifege Baca of this city, freed from Socorro by Al. Vigil, says he is preparing a number of cattlemen of Socorro grave charges against Geronimo Sanchez of the county, who will be filled before Judge probably in this city, when he comes here in the Los Alamos seat case. Mr. Baca said that the charges were very serious. The attorney also gave the names of the cattlemen of the charges but they are well known in Socorro.

THE "MIDNIGHT" world," says a St. Louis newspaper, "is to listen to a poor liar." Better explain at once whether you mean Cook or Peary.

MR. CROKER says he is not here to mix in politics. The Hon. Richard having made his stake wisely desires to sit on the side lines and watch the show.

REAR ADMIRAL Chester knows that Cook didn't get there and that Peary did. So does Admiral Melville and various other imposing personages connected with the U. S. Navy, of which by a strange coincidence, Peary has been an attaché.

"ALCOHOL is a foe to human progress," declares the American delegate to the booze congress. The truth of this statement cannot be questioned by any one who has seen a gentleman three fourths puffed trying to progress down the middle row of bricks on the sidewalk.

Editorial Sayings; Wise and Otherwise

This is Rather Poor.
From the fact that there is a Cook in every kitchen in Tucson it lets her right into the heart of the north pole controversy.—Tucson Star.

Different Kind of a Boom.
The noise that Uncle Joe made on the voyage down the Mississippi didn't sound much like a boom for deep waterways.—El Paso Times.

Passing Strange.
Strange as it may seem, not every candidate for mayor of New York City was elected Tuesday, although every one of them had stated positively that he would be.—Socorro Chieftain.

Scientists Baffled.
It has now been established as a scientific fact that a suffragette's vagaries are the manifestation of a disease known as "antelope," also that a lady man's conduct is merely the result of the ravages of the "hook worm," but nobody has yet been able to account for the freakish, fantastic ideas and conduct of the average New Mexico democrat.—Socorro Chieftain.

More Bull Baiting.
And now comes the Honorable Bull Andrews, and says that he is actually going to get statehood this winter, and the common herd is gulping down such rot as though it is good stuff to "feed on." The sun has a glimmering hope that the statehood bill will be passed by the democrats and insurgent republicans, but any time Bull Andrews has anything to do with the passage of such a bill, other than to pack up our little budget and migrate to parts unknown, to join the Peary "Havin Club,"—Tucumcari Sun.

ANOTHER RECORD-SMASHING STOCK SHOW AT HAND
Once more the International Livestock exposition, which will be held in Chicago from November 27 to December 10, has accomplished the seemingly impossible by again showing a most phenomenal increase in entries. Once more all past records have been demolished and once more we are brought to realize that interest is growing in this, the greatest of livestock shows—this leading exponent of the livestock industry—and that this great annual event is becoming more popular from year to year. Even though feeding operations have been exceedingly light during the past year, we still find an increased number of entries in the cattle department. The draft horse exhibit will be the greatest ever seen in this or any other country. Horses, whose lineage dates back into the dark ages, will be seen in the ring, beside the most splendid specimens of the English and Scottish types, whose equals have never

SQUALID POVERTY DISCOVERED IN GUADALUPES

AMERICANS LIVE IN RAGS IN FOOTHILLS

Superintendent of Children's Home Society Rescues Little Girl from Appalling Surroundings West of Carlsbad.

In the most abject poverty, with barely enough tatters to cover their nakedness, Americans are living in the foot hills of the Guadalupe mountains west of Carlsbad, N.M., amid filth and squalor that would make the crudest inhabitants of the Tennessee wilderness look favored in comparison according to Dr. Charles F. Lukens, superintendent of the Children's Home Society of New Mexico who returned yesterday after a trip of investigation into this country. While on his trip Dr. Lukens rescued from her shocking surroundings a little twelve year old girl dressed in the rough skins of goats and will provide through the society a home for the wail, who lived alone in a dirty hut with her aged father, the latter being dressed when found, entirely in a torn old coat which would hardly hang upon him and a pair of trousers reduced to ribbons which did not come to the knees.

old man owned, it is said, his legs and feet being bare in spite of the coldness of the season.

The attention of the society was first called to the matter by the Eddy county grand jury which included this case in its report.

It was currently reported that a "wild girl" who dressed in the skins of animals roamed the mountains, this story leading to further revelations of conditions in the foothills which led to grand jury to take cognizance of the matter. Dr. Lukens made his trip to the Guadalupe accompanied by a deputy sheriff the county officials extending every aid in the investigation. The results to quote Dr. Lukens were appalling.

"We found a number of families," said Dr. Lukens last night, "living amid conditions far worse than the worst found in the remotest mountain country of the Alleghenies. The hut where we found the little girl was a filthy hovel with no floor, no doors

Perhaps Your Grocer Does Not Sell BURNETT'S VANILLA

Then go elsewhere for it. The remarkable difference in flavor of Burnett's Vanilla as compared to any other kind, makes this slight trouble more than worth while. Burnett's Vanilla is as superior to ordinary vanilla, as ripe, mellow fruit is superior to hard, green fruit. Nearly all first-class grocers sell BURNETT'S VANILLA. Send us your grocer's name and we will mail you, FREE, thirty-six original, tested recipes of delicious dishes easily and economically prepared. You will get new ideas from this FREE book. JOSEPH BURNETT COMPANY, 50 India St., Boston

or windows, no cooking utensils except a few old tin tins and practically nothing to eat save some flour which the old man made into gruel over a fire and some aged looking scraps of bacon. The old man was all but naked barring a few scraps of clothing and the child was wrapped in untanned goatskins. She seemed a bright little thing though plainly showing the results of her squalid life and will be given a good home and proper care by the society. Amongst the other families we found many children of school age growing up in the same condition without education or the ordinary necessities of life. Steps will be taken at once to have these children sent to school under the compulsory education law and conditions if possible are to be considerably ameliorated in that district. The people of Carlsbad are taking a great interest in the matter and offered us their cordial co-operation, officials and citizens alike, in rescuing this little girl."

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation. The suit event of the season. Women's suits at less than wholesale prices. The Economist.

MOVEMENT TO THE FEED LOTS NOW UNDER WAY

Lamb Shipments This Fall Will Probably Be About Half in Volume of Those a Year Ago; Prices Rule Higher.

Pending deals between New Mexico sheep growers and commission men and feeders, aggregating from forty to fifty thousand head, which will be closed in and near Albuquerque within the next few days, mark the beginning of the New Mexico lamb shipping season. The deals now pending here are among the largest which will be made and include the large sales from the ranches of Solomon Luna and F. A. Hubbard. Mr. Luna left last night for Magdalena in connection with pending sales. These two lamb crops are always of high grade and are eagerly sought by the buyers.

The movement of sheep from the territory this season will only be about one-half of last season's shipments, according to the best informed sheep dealers and growers. Last year close to 500,000 sheep were shipped out of the territory. This year the estimate is about 450,000. Prices, however, are strong and ranging on an average of \$1 higher per hundred pounds this season than last. The price this year ranges from \$2 to \$2.50

per hundred and buying is active.

The short shipments this season are accounted for by the short lamb crop all over the territory, caused by the drought of the spring and early summer, which for a time threatened serious disaster to the industry and which would have hit many sheepmen hard but for the high price of wool. As it is the majority of the growers have come through the year in good shape and conditions point to a fine season ahead.

"The season has been a hard one," said a prominent grower yesterday, "but taking it all in all we have never had a better outlook. The price of wool this year was fair and most of us have come through the year far ahead of what we had any reason to expect in the spring. The conditions on the range at present are good. There will probably be plenty of winter feed over the greater part of the territory and this fall's prices are very attractive. The splendid sanitary campaign which has been carried on by the New Mexico sheep sanitary board and the bureau of animal industry of the government is about complete. One more year of this work and the range of New Mexico will be absolutely clean. Few people realize how large the expense has been both to the government and the sheepmen of the territory to put this campaign through. The sheep owners have cheerfully taxed themselves to provide part of the cost and the co-operation of the government has been so full and complete as to make the campaign absolutely effective. One more season will see its end."

"TEXAS," GREAT WESTERN PLAY, SUCCESS WITHOUT THE USE OF GUNPOWDER

"Texas," the newest of ranch plays, will hold the boards at the Elks theater next Friday night, November 12.

MERRY MUSICAL PLAY BY COHAN NOVEMBER 13

"Fifty Miles from Boston" Has Action, Life, Color, Music and Fun Till Further Orders.

"George M. Cohan" is a magic name which will fill any old theater at any old time and no one who has seen "Little Johnny Jones" or any other of the Cohan shows here will miss going to "Fifty Miles from Boston" at the Elks theater, Saturday night, November 13th. Thirteen might be a hoodoo in some cases but Cohan is the original hoodoo hunter and it will not cut any ice. This is a lively rural musical comedy without a dull moment in the whole, full of pretty girls and rapidly revolving situations, clever funny men, sparkling scenic effects and all the well known features of a Cohan show. It is of interest locally that Arthur Barney, son of conductor W. H. Barney of this city is manager of this attraction and his management proves that he is a winner in the theatrical business.

Your Nerves

Ask your doctor if alcoholic stimulants are not often very disastrous when given to nervous people. He will tell you why. J. C. Ayer & Co., Lowell, Mass.

Your nerves must be fed with pure, rich blood, or there will be trouble. Poorly fed nerves are weak nerves; and weak nerves mean nervousness, neuralgia, headaches, debility. Weak nerves need good food, fresh air, and Ayer's non-alcoholic Sarsaparilla.

IMPORTANT IMPROVEMENTS IN ALBUQUERQUE DISTRICT

District Forester Ringland Issues Summary Showing Many Miles of Roads and Telephone Lines Built During Past Year; Summary of Permanent Improvement Work in District No. 3.

District Forester A. C. Ringland has just issued from the Albuquerque headquarters a summary report of permanent work on the national forests in district No. 3 for the fiscal year ending June 30, 1909.

It will be a source of surprise to many who do not understand the work of the forest service to learn of the permanent improvement work which has been carried on in the national forests. On the forests of Arizona, New Mexico, and Texas, the service spent during the last fiscal year \$68,923.84 for permanent improvements. The primary object of expending money in this way is to make the forests more accessible to the public. Consequently a very large percentage of this money was spent in the construction and repair of roads and trails and many miles of telephone lines were also constructed. The report shows that a large percentage of the money was expended in the construction and repair of 253 miles of trails, thirty-two miles of wagon road, and 208 miles of telephone lines.

Uncle Sam is furnishing rangers, as rapidly as funds will permit, with little houses which are generally located in an advantageous place on the district of the forest which they patrol, and barns, out-buildings, pasture fences and corrals are built. For the most part the houses consist either of three or four rooms and are furnished with stoves, tables, and chairs. In quite a number of cases typewriters are also being furnished the rangers because of the increased amount of correspondence which they have with their supervisors and the public. Everything possible is done to make the rangers comfortable, for it has been found that a man who continually lives in the open must have a comfortable house in order to accomplish good work. In a number of cases very attractive log houses have been built and many of the rangers show considerable ingenuity in making these houses very attractive both on the exterior and interior.

To effect an efficient administration of the forest it has been found that quick communication is an absolute necessity. This is especially true in regard to the fire question. If a ranger can immediately telephone for help when he discovers a fire rather than ride all day to procure this help, it surely means that the expense involved in controlling the fire is absolutely necessary. The telephone lines constructed by the service are also a great help to rangers, as can be easily appreciated when one realizes that there are many ranches located considerable distances from settlements. The forest service is gradually working toward effecting a complete system of telephone lines on the national forests. Where forests are contiguous telephone lines on each forest are connected and thus supervisors are enabled to readily accomplish any business which may affect both forests. As a general rule the lines are built from one ranger station to another. Eventually it is hoped to have each ranger located on the forest in direct communication with his supervisor.

The stockmen residing within the boundaries of national forests are receiving considerable help from the service through the development of watering places. In district No. 3, during the past year fifty-four watering places were improved or developed to such an extent as to furnish more water than formerly. For the most part this class of work is done in connection with stockmen. It is to their interest that their cattle should not have to go long distances for water and it is also to the interest of the forest service that more range be developed by increasing the water supply.

Another way in which the service helps stockmen is to co-operate with them in the construction of drift fences. When these fences are advantageously situated they means considerable aid to the stockmen in handling his stock. As a general rule, when a proposition of this kind arises, and it is found by the forest officers that the construction of a drift fence will not interfere with the handling of any man's stock, the forest service will furnish the material for the construction of the fence, while the interested stockman furnishes the labor in the actual construction of the fence.

The Roosevelt dam in the Salt River valley, which the reclamation service has almost completed, has made it necessary for the supervisor of the Tonto national forest to secure a launch. The supervisor's office at Roosevelt, Arizona, is situated on the south side of the lake formed by the dam, with the other government buildings of the reclamation service. The greater part of the forest lies north of the canyon and it is necessary to cross the lake in order to reach it.

When completed the dam will form a lake twenty-four miles in length, with one arm formed by the Salt river and the other by Tonto creek. The launch enables forest officers to reach objective points much more readily than is possible by horse or wagon over the rough slopes of the canyon. A large saw towed by the launch is used for transporting horses

and supplies. Formerly the roads and trails followed the canyons, but the new lake has now cut off those routes of travel.

When one realizes the large area of national forest lands comprised within district No. 3, about 29,000,000 acres, and can also realize that many of the forests are in a virgin state, it is possible to appreciate the need of these permanent improvements which are planned to make all parts of the forests accessible.

Group is most prevalent during the dry, cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all druggists.

SCHOOL INCOME IS APPORTIONED

Distribution of Funds from Common School Lands Made by Territorial Superintendent Clark.

(Special Dispatch to the Morning Journal) Santa Fe, N. M., Nov. 8.—James E. Clark, New Mexico superintendent of public instruction, has made the distribution of the income from the common school lands of the territory as follows:

	Apportionment
Bernalillo	\$2151.24
Chaves	4309
Coffey	1851.49
Curry	1084.44
Dona Ana	1215.68
Eddy	1620.40
Graham	1262.52
Guadalupe	848.66
Lincoln	537.09
Luna	357.84
McKinley	740
Mora	1019.37
Otero	495.80
Quay	1270.92
Rio Arriba	1520.68
Roosevelt	1255.24
Sandoval	570.88
San Juan	546.56
San Miguel	1213.88
Santa Fe	1589.56
Sierra	1386
Socorro	1246.00
Texas	1619.16
Torrance	794.92
Union	940.20
Zalameda	994.68

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all druggists.

TUBERCULOSIS IN CHICKENS IN PECOS VALLEY

Deadly Plague Found to Have Invaded Game Fowls of Well Known Carlsbad Breeder.

(Special Dispatch to the Morning Journal) Carlsbad, N. M., Nov. 8.—Genuine cases of tuberculosis have been found in the chickens of Mr. McDonald, a fine collection of thoroughbred and valuable game fowls and of late has been losing many of them through a strange disease, the chickens showing and showing other anomalous symptoms previous to their passing away. Mr. McDonald discovered several of the dead fowls and found the lungs red and inflamed, fleshy and moist. He at once had the fowls examined by a physician, who, after careful examination, pronounced the cause of death to be tuberculosis, the contagious disease being unmistakably responsible for the destruction of the lung tissue.

When completed the dam will form a lake twenty-four miles in length, with one arm formed by the Salt river and the other by Tonto creek. The launch enables forest officers to reach objective points much more readily than is possible by horse or wagon over the rough slopes of the canyon. A large saw towed by the launch is used for transporting horses

IS there more than one kind of Ivory Soap?

No! But there are a hundred imitations. They resemble Ivory Soap in size, shape, color and wrapper—sometimes even in name.

It is a waste of money to buy such soaps; and a waste of time to use them.

Ivory Soap
99 1/100 Per Cent. Pure

COLORED YOUTH UNABLE TO ARRANGE THINGS

Gentleman of Color From Santa Fe Makes Three Unsuccessful Attempts to Secure Marriage License.

Ignorance of the details connected with the formalities of securing a license to wed was responsible for much worry and distress to J. W. Davis, a Santa Fe colored man, yesterday. Davis came here Sunday night prepared to wed the object of his love, Miss Sophie Straw, of Albuquerque, formerly of Cairo, Ill. Before day-break yesterday morning he was out to the court house to secure a license. The master was still lighting the fire in the furnace and sweeping out and Davis was advised to return at 8:30, when the probate clerk's office would begin operations for the day. Promptly at 8:30 Davis was on the job again, and "I want a marriage certificate," said Davis to the clerk who waited on him. Upon being informed that he would have to have his lady love along, Davis protested that she was sick and couldn't travel to the court house. The clerk was sorry but the law demanded the presence of both parties. At 1 o'clock Davis was at the court house again, this time accompanied by Miss Sophie. Everything went along swimmingly until Sophie uttered her age to the application. She was seventeen. The expansive smile worn by Davis faded quickly when he was told by the clerk that Sophie was under age and that she would have to have her parents or guardian sign a release. This was the straw that broke the camel's back. Davis wilted and Sophie grew somewhat hysterical. There was nothing doing, however, and sorrowfully and sadly the youthful couple wended their way back to the city. Up to closing time last evening Davis had not reappeared at the court house. It is supposed that he was arguing his case before the supreme court of appeals in an effort to get the necessary permission from the girl's parents.

BISPHAM SEATS ON SALE TODAY

Heavy Demand for Tickets to Recital Thursday Night by Great Musician at the Elks' Theater.

Seats for the recital of David Bispham, the great baritone, to be given at the Elks theater on Thursday night, will go on sale this morning at Matson's. This gifted singer, chosen to open the music course, has for two years been in the front rank of male singers and that his is a well deserved place, is testified by all who keep their eyes on things musical. That his recital will rank as one of the really artistic events of the season is assured. On his present tour Bispham is receding the plaudits of immense audiences, which is due only to his superior artistry and great musicianship, combined with his charm of manner and personality. Two other artists of international reputation, Fritz Kreisler, violinist and Madame Schumann Heink, contralto, will appear as the second and third artists respectively of the course. The sale of season tickets, five dollars for the three events, will continue until the Bispham recital, after which the reduced prices will not be in effect. Prices for the Bispham recital, which go on sale this morning range from 75 to \$2.00.

RUNAWAY HURLS VICTIMS INTO WATERY GRAVE

TWO DROWNED IN FATAL ACCIDENT NEAR SPRINGER

Wagon Upsets While Crossing Cement Dam; Bodies of Drowned Have Not Been Recovered.

(Special Dispatch to the Morning Journal) Springer, N. M., Nov. 8.—Melton Gomez of Wagon Mound, N. M., and Maria Angella Aranda of Springer were drowned and Basilio Archuleta and W. T. Baker narrowly escaped with their lives as the result of a runaway accident at Springer lake. Some six miles north of Springer, last night, the party was crossing the big cement dam at the lake when the horses bolted, upsetting the wagon which carried the party and dumping them all into the deep water of the lake. The horses were pulled into the water and also drowned. Archuleta and Baker saved themselves with difficulty. The lake is being drained but the bodies have not yet been recovered.

INFANT PARALYSIS EPIDEMIC AT MALAGA

Dreadful Children's Disease Breaks Out and Two Are Dead; Strict Quarantine Precautions Taken.

(Special Dispatch to the Morning Journal) Malaga, N. M., Nov. 8.—Epidemic infantile paralysis, a dreadful disease which almost invariably proves fatal, has made its appearance here and the health authorities are consequently taking every precaution to stamp it out in its incipient stage, strict quarantine of the known cases being maintained. So far there have been reported about four cases, two of which have proved fatal. The disease first appears as a fever, which passes, leaving the child partially paralyzed, with the lower half of the body helpless, death supervening soon afterward.

PLEADS GUILTY TO 4 INDICTMENTS

Wm. P. Willett Admits He Stole Team of Horses and Wagon and Forged and Uttered Worthless Papers.

William P. Willett was arraigned before Judge Ira A. Abbott in the district court yesterday morning and pleaded guilty to four out of five indictments returned against him by the grand jury, each indictment containing from one to three counts, charging larceny, forging and uttering worthless papers. He was permitted to plead not guilty to one count in one of the indictments, that of uttering a forged bill of sale. Willett was arrested at Springer early last spring. It is supposed that he is a team of horses and a wagon which he had stolen from J. E. Beck, the livery man. He had represented to Beck that he wanted to hire a team to make a trip

SOME HARD KNOCKS

Woman Gets Rid of "Coffee Heart."

The injurious action of coffee on the heart of many persons is well known by physicians to be caused by caffeine. This is the drug found by chemists in coffee and tea.

A woman suffered a long time with severe heart trouble and finally her doctor told her she must give up coffee, as that was the principal cause of the trouble. She writes:

"My heart was so weak it could not do its work properly. My husband would sometimes have to carry me from the table, and it would seem that I would never breathe again."

"The doctor told me that coffee was causing the weakness of my heart. He said I must stop it, but it seemed I could not give it up until I was down in bed with nervous prostration."

"For eleven weeks I lay there and suffered. Finally husband brought home some Postum and I quit coffee and started on Postum and right. Slowly I got well. Now I do not have any headaches, nor those spells with weak heart. We know it is Postum that helped me. The Dr. said the other day, I never thought you would be what you are. I used to weigh 82 pounds and now I weigh 155."

"Postum has done much for me and I would not go back to coffee again for any money, for I believe it would kill me if I kept at it. Postum must be well boiled according to directions on pkg., then it has a rich flavor and with cream is fine."

Read "The Road to Wellville," found in pkg. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Especially suitable in nasal affections of children—mild, pure, and fragrant. Specially recommended by physicians for children with cold in the head, which so often brings on chronic nasal catarrh. Contains no harmful ingredients. Sold only in sanitary, convenient tubes and is recommended by over 35,000 druggists in 25 and 30c tubes. If yours lack Kondon's, a 25c or 30c tube will be sent you postpaid on receipt of price, or absolutely free sample by

Kendon Mfg. Company, Minneapolis, Minn.

MINING NOTES OF INTEREST FROM FIELDS IN SOUTH NEW MEXICO

(Mining Section.)

The Whaley group of mines in the Apache mountains, southeast of Hachita, have been taken over by El Paso capitalists. And it is reported that a large body of high-grade copper ore has been opened. The ores in the lodes run from 4 per cent to 30 per cent copper and show permanency with depth.

Sinking has been resumed on the U. S. Treasury shaft, No. 1, near Chloride. A crosscut will be driven to the ore bodies from the 200-foot level, and it is expected that regular shipments will be maintained after this is completed. A recent shipment of El Paso returned values of from \$250 to \$400 per ton; the first being for lot which is not closely sorted, the other the high-grade ore, from a rich streak which is being worked in the upper levels.

The Keystone claim, in the north end of the Chloride district, immediately adjoining on the south the Keystone claim of the Great Republic group, has been leased to B. L. Morrison of Colorado Springs for one year. The lessee will immediately install a concentrating plant and will make extensive tests with a view to developing the ore, and if these prove satisfactory will doubtless install a cyanide mill. The Keystone property now shows a considerable amount of ore in sight, from which excellent values are obtainable. The general average of the low-grade milling ore is from \$8 to \$12. The shipping streak shows values of from \$100 to \$125. The present operators of the Great Republic group are mining ore and seeking it for shipment almost at the Keystone north end line, and this ore shows values of several hundred dollars a ton. They are mining this ore from the north extension of the Keystone vein in Great Republic territory, known locally as the "back vein." This vein has been a generous producer of rich ore in the past from the Great Republic group, and the Keystone shaft has also shown values as high as 25 ounces in gold and several hundred ounces in silver.

The Missouri Society of New Mexico meets the second Wednesday of each month at Odd Fellows' hall, 321 South Second street. Next meeting Wednesday, November 10. Headquarters at Room 4, Barnett building, Second and Central. Phone 1019.

All Missourians are requested to call and register.

O. J. KRAMER, Secretary.

DENVER PREACHERS ENTER POLITICS

Will Make Election Next Spring Test of Woman Suffrage in Effort to Make Denver Dry.

(The Morning Journal Special Leased Wire) Denver, Nov. 8.—Denver preachers today began a campaign to make Denver dry and put woman suffrage to the test.

Sixty preachers met today to discuss the formation of an organization which will conduct the campaign preceding next spring's election. Preachers at the meeting today said the election would be made the final test of woman's power at the polls in Colorado.

Many preachers expressed confidence in their ability to carry the election.

You can afford an Edison Phonograph

The price places it within reach of all. No family is too poor to have an Edison Phonograph. No family is too rich to enjoy it. Nothing that money can buy will furnish a greater range of amusement for every dollar invested.

Mr. Edison intended that his Phonograph should be within reach of everyone. He wishes to see it in every home. Prices range from \$12.50 to \$125.00. No one can buy a Phonograph cheaper than you can. No one should pay more for it.

The Edison Phonograph in your home would give it something that it now lacks—entertainment of the best sort at a small cost, always available and suited to everyone.

Do not forget these things. Remember that they are found only in the Edison Phonograph, because no other sound-reproducing machine is so perfect and so faultless. None other is made by the inventor of the Phonograph idea as the Edison Phonograph is.

Edison Standard Records (price as long) 35c.
Edison Amberol Records (price as long) 35c.
Edison Grand Opera Records 75c.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogs from your dealer or from us.

the new daylight train to El Paso will go on the morning of the 14th.

J. J. Coleman, assistant general freight agent for the Santa Fe system, was in the city yesterday for the day.

L. K. McGaffey of Roswell, who has extensive business interests at Thoreau and Ketchikan, was here yesterday on business.

G. A. Martin, advance agent for the Cohan attraction, "Fifty Miles From Boston," arrived in the city yesterday to arrange for the presentation of the play here next Saturday.

If it's a nice saddle horse you want, let us send you one. Our rate, \$1 for three hours, including skirt and leggings. Cash only. Wright's Riding School, 315 West Silver avenue.

D. W. Adams, lumberman of the United States forest service, left last night for Prescott, where he will direct some extensive cruising work on the Prescott national forest.

The Ladies of the Macabees are requested to meet at Odd Fellows hall at 9:30 sharp, Wednesday morning, to attend the funeral of the late Alexander M. Whitcomb.

There will be a meeting of Cottonwood grove No. 2, Woodmen Circle, at 2:30 o'clock this afternoon in Odd Fellows hall. All members are requested to be present on time.

Manager F. B. Schwenker of the Pacific Mutual Life Insurance company left last night for Pecos valley points to be gone from headquarters about ten days.

The Woman's Christian Temperance union will meet at the office of Mrs. Margaret Cartwright, rooms 16 and 17, Stern building, corner of Fourth street and Central avenue, Tuesday, November 9, at 2:30 p. m.

The Rebekah lodge will meet in Odd Fellows hall at 7:30 tonight. Initiation and lunch. Members of the degree team are requested to be at the hall at 7 o'clock for practice. Henrietta Bailey, secretary.

Every member of the Woman's Relief Corps is requested to meet at Whitson's music store Wednesday, November 10, at 9:30 in the morning, to attend the funeral of the late A. M. Whitcomb. By order of the president.

All members of Adah chapter No. 5, O. E. S., are earnestly requested to meet at Masonic hall Wednesday morning, at 9:30 o'clock, to attend the funeral of the late A. M. Whitcomb. A large conveyance will be in waiting at the hall.

Arthur C. Ringland, forester of the third district of the United States forest service, has returned from a two weeks official trip, during which he attended the meeting of foresters at Ogden, Utah, and made an inspection of forests in northern Arizona.

Harry H. Pooler, for some time forester agent for the Pecos national forest, was a visitor in the city from Santa Fe yesterday. Mr. Pooler recently accepted a position as timber cruiser for the United States land office at Santa Fe.

Sidney Barth, manager of the Barth trading post at Zuni, left for that Indian village yesterday morning after a week's visit in the city. Mr. Barth was accompanied by Edward Mohl, a well known Michigan sportsman, who will hunt bear in the Zuni for several weeks.

Attorney R. W. D. Bryan, who accompanied the ill-fated Hall expedition to the polar regions years ago, will tell of his interesting experiences in a lecture at the Baptist church at 7:45 tonight held under the auspices of the United Brotherhoods of the Highlands. All men are invited.

Chairman David Farr of the board of county commissioners was in town Wednesday morning on his way to Albuquerque from his ranch out west of Magdalena. Mr. Farr had just sold a large number of sheep from his ranges to Colorado and Nebraska buyers—Socorro, Chieftain.

There will be a special communication of Temple lodge No. 4, A. F. and A. M., Wednesday, November 10, at 8 o'clock p. m., in connection with a meeting of the grand lodge, for the purpose of attending the funeral of our late brother, A. M. Whitcomb. By order of the W. M. J. A. Miller, secretary.

R. G. Smith, forest examiner for the United States forest service, returned yesterday morning from Phoenix, Arizona, where he had a conference with Governor Sloan regarding the boundary lines of the various national forests in Arizona. Mr. Smith leaves today for Washington, where he will remain for three months or more on special detail work.

There will be the usual drill at the armory for Company G, First New Mexico National Guard, tonight. The advantages to be gained by the young man who joins this organization are physical exercises, military drill and setting up, with athletics and indoor

sports. A trip to California for the next encampment should also be of interest. George E. Wickham, captain.

The funeral of the late Alexander McKay Whitcomb, who died early Sunday morning, will occur from the family residence, 801 West Tijeras, at 10 o'clock this morning. The funeral will be under the auspices of the New Mexico grand lodge of Masons, of which deceased was an officer. Rev. William Warner of St. John's Episcopal church and Rev. Frank Otto of the Methodist church will assist in the services.

"THE GIRL QUESTION" ON NOVEMBER 15

Thousand Dollar Beauty Broilers' to Enthuse Theater Goers at Elks' Opera House Next Week.

Pretty girls and catchy songs and dances which are marvels of grace and action, a cast of startling players and above all a play with a plot of intense human interest are found in the "Girl Question," the entrancing musical play which comes to the Elks theater November 15. The play is along the lines and is in fact a successor to "The Time, the Place and the Girl," the musical play which has jammed every theater in which it has played since its run of 463 performances in Chicago.

The prettiest chorus girls who have ever been seen in one show are found in "The Girl Question," as are also the famous "1,000 beauty broilers," the latter being the ten little girls who dance with an abandon of emotion and enthusiasm and an amount of ginger which has never been equaled.

The plot of "The Girl Question" reveals a story of every day life which is of real human interest, though broken up in its developments at moments to allow for the introduction of songs and dances. The production was staged by that past master in the exploitation of dramatic scenes, beautiful stage pictures and graceful dances, George Marion, the producer of "The Merry Widow," "A Stubbish Cinderella," "The Prince of Pilsen," etc. The songs include "Good-Bye, Bye," "Hate to Work on Monday," "O, Gee, He Sweet to Me," "Kid," "Wait Me Around Till I'm Dreamy," "When Eyes Like Yours Look Into Eyes Like Mine," "The Old Buck and Wing" and "Do Something."

"The Girl Question" is the latest of the series of unique musical comedy entertainments which Adams, Hough and Howard have furnished the La Salle theater, Chicago, and will be seen here after a long run in the Windy City. It is rushing, bustling, jolly, unconventional sort of play with snap and action in every line and situation and those who have enjoyed its predecessor, "The Time, the Place and the Girl," will surely be pleased with it.

WE HANDLE A FINE LINE OF FRUIT AND CANNED FRUITS. PHONE US YOUR ORDER. F. G. PRATT & CO., 214 S. SECOND ST. PHONE 46.

"RINGMASTER" IS PLEASING TO BIG HOUSE

Strong Story of Grim Wall Street Warfare Success at Elks' Theater Last Night.

The third Shubert attraction of the season, "The Ringmaster," with Frederick Montague in the title role, played to an audience which filled the Elks' theater comfortably last night and an audience which plainly showed its appreciation of the merits of the production. "The Ringmaster" is a powerful story of Wall Street financial intrigue with the accompanying love affair which inspires the hero to "get into the game," a story full of the human interest that grips and holds. The audience was liberal with applause and the play is fully up to the Shubert standard.

The company is a large and capable one and the scenery carried to beautiful, the yachting scene with the moonlight on the clouds and the water being especially effective. The wireless plays its thrilling part in the story and the delineation of the stock game as it is played on the street which is called Wall is strong and absorbing.

How to Make Better Cough Syrup Than You Can Buy

A full pint of cough syrup—enough to last a family a long time—can be made by the recipe given below in five minutes, for only 54 cents. Simple as it is, there is nothing better at any price. It usually stops a deep-seated cough in twenty-four hours, and is a splendid household remedy for whooping cough, colds, hoarseness, bronchitis, etc.

Take a pint of granulated sugar, add ½ pint warm water and stir about 2 minutes. Put 2½ oz. Pinex in a pint bottle and fill up with syrup. Take a teaspoonful every one, two or three hours. It keeps perfectly and the taste is pleasing.

The chemical elements of pine which are very healing to membranes, are obtained in high proportion in Pinex, the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine preparations will work with this recipe. Your druggist has Pinex or can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

DENVER LOOKING FOR ARRIVAL OF BALLOONISTS

Newspaper Wires for Information as to Whereabouts of Aeronauts Stamm and Blondin; Latter Goes to the Coast.

"Any news of balloonist who left Albuquerque for Denver?" was the interesting telegraphic query a local correspondent received yesterday from a Denver newspaper. A Morning Journal reporter interviewed Roy A. Stamm yesterday afternoon and asked him if he could shed any light on the subject.

"Nothing further than to say that we are still on our way," said Mr. Stamm, "but I hardly think we will make Denver this year. I wonder if those people up there think we have been up in the air for the past three weeks."

Joseph A. Blondin, Mr. Stamm's fellow aeronaut, with whom he made the ninety-mile trip across the mountains and the Estancia plains at the close of the fair, has gone to Los Angeles, where he will be associated with Roy Knabenshue or some of the other aerial navigators now operating on the coast. Mr. Blondin has gone in for aeronautics with a determination to make good and will undoubtedly do so, having all the prime qualifications including considerable nerve combined with rare coolness and good judgment and a thorough-going knowledge of the navigation of air. Mr. Blondin is working all the time toward the perfection of his proposed "thermo-aerostat," which when worked out he believes will solve the problem of staying in the air for long periods—in fact, as long as provisions hold out and bringing the dirigible balloon type of air craft to its fullest utility. Mr. Blondin is a full fledged member of the Aero Club of America and has made a great many successful balloon ascents.

IF YOU'RE A MINSTREL GET INTO THE GAME

Everybody With a Voice Invited to Attend Meeting in Elks Club Rooms Tonight to Organize for Elks' Big Show.

Are you a minstrel? Have you got a voice? Can you make a noise?

These are the three stock questions which the entertainment committee of the Elks lodge has been asking all its fellow members and some who are not members for the past two days; in fact, ever since it was established that Joe Bren was to take charge of the Elks' minstrel show which is to be presented by the Albuquerque lodge in Elks theater Thanksgiving eve and at a matinee Thanksgiving afternoon. Bren says that every voice in Albuquerque will be needed for the minstrel chorus and by a voice he means every one who can make a noise and keep in time. Therefore,

every one who is interested and who has the noise producing ability is invited and urged to attend the meeting in the Elks' club rooms at 8 o'clock tonight.

"I hope everybody who happens to have a voice will turn out to the meeting Tuesday night," said George P. Leonard of the committee last night. "We want to make an awful noise and the quality of the voice doesn't matter so much as the volume. It is proposed to organize the minstrel company at this meeting and we want to have the biggest, noisiest chorus Albuquerque ever heard. From the present prospects we will have it."

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by all druggists.
