## ASSAULT CASE ON TRIAL IN DISTRICT COURT

Nuanes Pleads Guilty to Attack on Mrs. Majoribanks; Confession Implicates Florencio Pfeiffer as Chief Instigator.

### DAMAGING TESTIMONY AGAINST THE PRISONER

Woman Victim on Witness Stand Relates Horrible Story of Crime; Postively Identifies Alleged Assaulters.

Positively identifying Florencio Pfeiffer as the man who brutally assaulted her near a powder storage house in a lonely part of the sand hills east of the southern limits of Albuquerque on the night of June 24 last, Mrs. Goldie Majoribanks yesterday afternoon told the jury in Judge Abbott's court her version of the attack upon her. She told her story clearly and in a straightforward way. Mrs. Majoribanks began with the time when she and her husband arrived at Abajo and continued it up to the time when she staggered into the little station building at that place more dead than alive to give the first news of the outrage.

In corroboration of his wife's story Majoribanks also identified Pfeiffer as the man who shoved a gun into his face and demanded him to get into a box car while Pfeiffer and another man dragged the helpless woman away to the sand hills declaring that they were officers and were arresting the two for trespassing on railroad property. Following the testimony of Majoribanks was that of George Rossin, twenty years old, who swore that he saw Pfeiffer and another man leading Mrs. Majoribanks away between them in the direction of the sand hills.

Nuanes Pleads Guilty. Most damaging of the proceedings of the day for Pfeiffer, however, was the appearance of Procopio Nuanes before Judge Abbott, called to plead to the indictments, charging him with complicity in the outrage with Pfeiffer. Nuanes pleaded guilty to the four indictments charging him with assault, robbery, attempted robbery and impersonating an officer.

In a confession written and signed on the day of his arrest, Nuanes declared Pfeiffer was the leader in the affair and that he had taken the lead throughout. It is possible that Nuanes will be called as a witness for the territory during the day.

Court convened at 9:30 and aside from the break to allow Nuanes to enter his plea, the work of selecting the jury proceeded rapidly. Numerous challenges were made and it was noon before the panel had been completed.

Mrs. Majoribanks was the first witness for the territory. She was apparently quite calm and collected and gave quick, direct answers to the questions put to her by District Attorney Klock. She rehearsed the whole brutal story of the assault, identifying Pfeiffer positively as the leader and Nuanes as the other man. Beyond asking her place of residence and manner of life for several years past, Attorney John A. White, counsel for Pfeiffer, did not cross-examine Mrs. Majoribanks.

Were Not Formally Married. Mrs. Majoribanks stated that she and Majoribanks had traveled extensively over the southwest, through Indian territory, Oklahoma, Colorado, Texas and New Mexico, that they had ridden and walked and many times had paid no railroad fare. It developed under cross-examination that Mrs. Majoribanks has not been legally married to Majoribanks but has lived with him as his common law wife for three years past. Mrs. Majoribanks also stated that she was married some years ago to a man in the Indian territory and that he is at present living in Chicago, and that as far as she knew neither of them had secured a divorce.

Majoribanks, when placed on the stand, identified Pfeiffer without any hesitation as the man who had placed himself quite calm and collected and gave quick, direct answers to the questions put to her by District Attorney Klock. She rehearsed the whole brutal story of the assault, identifying Pfeiffer positively as the leader and Nuanes as the other man. Beyond asking her place of residence and manner of life for several years past, Attorney John A. White, counsel for Pfeiffer, did not cross-examine Mrs. Majoribanks.

William F. Marquette of the city police force, was the last witness called before adjournment was taken at 3 o'clock until 9:30 this morning.

Officer Marquette testified that he and Under Sheriff Fred Heyn had gone to Abajo station to investigate the reported assault in response to a telephone message from some one in the southern part of the city. According to Mr. Marquette's testimony the woman's condition indicated that she had been roughly treated. Her clothes were badly torn and her general appearance seemed to bear out the story she told regarding the affair.

It is likely that two or three days will be necessary before the case is completed. A large number of witnesses remain to be examined both for the territory and the defense.

### BELIEVED EARTHQUAKE HAS CRIPPLED CABLE

New York, Nov. 10.—Some violent under-sea disturbance, probably an earthquake, is believed to have been responsible for the interruption of cable communication with the West Indies during the last few days. Although a message from Kingston, Jamaica, reporting a destructive wind storm, got through by a circuitous route today, officials of the Commercial Cable company say that such a storm would not affect the cable. For this reason it is believed that something unusual has happened to the ocean's bottom.

Tropical Hurricane. Kingston, Jamaica, Nov. 10.—All the land lines are down as the result of a storm that has swept this section. Communication with the interior and neighboring islands is impossible. Floods followed the wind storm and continue unabated.

## FIREMEN WANT BIG INCREASE IN WAGES

### TWENTY-FIVE THOUSAND MEN INVOLVED IN DEMAND

Twenty to Twenty-five Per Cent Above Existing Schedules Asked for By Men Who Shovel the Coal.

Chicago, Nov. 10.—Locomotive firemen of forty-two railroads west of Chicago today filed demands for a wage increase of from 20 to 25 per cent. Approximately 25,000 men are involved in the demands and their territory covers all the west, southwest and northwest portions of the United States.

Coupled with the demands for higher wages is another for recognition of the claim of the Brotherhood of Locomotive Firemen to legislate for engineers who are members of the firemen's organization.

No time limit is set for an answer to the demands, but the firemen urge that they be given a hearing before a committee of managers representing the railroads in the west so as to expedite the negotiations and make uniform schedules.

In substance the demands are: Firemen in passenger service, 20 per cent increase over existing rates. Firemen on through and irregular freight, local freight and mixed train service, helpers and work train service, 25 per cent increase.

Right to establish seniority date for engineers promoted from ranks of firemen.

The last demand the railroad managers fear for the reason that it may involve them with the Brotherhood of Locomotive Engineers, who claim jurisdiction over all engineers.

### BANDIT SLAYS BANDIT, OFFICER SLAYS SURVIVOR

El Paso, Texas, Nov. 10.—A special from Torreon, Mexico, tells of the killing of two bandit leaders of the state of Chihuahua, following the accusation of one that the other had been informing the police.

The shooting occurred in the small town of Mesquite. Pedro Lardo met Lorenzo Gonzalez, accused him of giving information to the police of his (Lardo's) doings, and then shot him dead.

Police Chief Felix Gallardo, attracted by the shooting, found Lardo standing over his victim and immediately shot Lardo dead. Lardo is said to have been one of the worst bandits the state has known.

### BOY WITNESS TELLS OF MURDER AT DRUNKEN ORGY

Greeley, Colo., Nov. 10.—Harry Weigart, 8 years old, was the principal witness for the state in the trial of Frank Piel, charged with the murder of George Kerber, on October 26. Kerber was stabbed during a drunken row at a ranch near Johnstone. All of the adults present at the time participated in the orgy and are able to give but hazy accounts of the murder. The little boy and his brother were the only sober persons who witnessed the stabbing.

## MOB VIOLENCE AVERTED AT CAIRO

### PRISONER SPIRITED AWAY BY SHERIFF

Officers Determined That Law Shall Deal With Negro Charged With Brutal Murder of Young White Girl.

[By Morning Journal Special Leased Wire] Cairo, Ill., Nov. 10.—Will James, alias "The Frog," the negro suspected of murdering Miss Annie Pelley here Monday night, was taken out of Cairo on the northbound Illinois Central train at 7:15 o'clock tonight.

While the negro has not confessed, the police say they have much evidence against him. A large crowd had been around the county jail and it was feared an attempt would be made to lynch James tonight.

Information has reached here that Sheriff Davis took James off the train at Dongola, Ill., to avoid a mob that had formed at Anna to lynch him. Anna is the former home of Miss Pelley.

It is reported now that the sheriff will bring the negro back to Mound City, eight miles above Cairo, and lodge him in the Pulaski county jail. If James is put in a jail in this vicinity the structure is sure to be stormed.

A long distance telephone message from Dongola, Ill., said that after James was taken off the train there by the sheriff he was rushed into the woods by the sheriff, his deputy and another man. Dongola is ten miles from Anna, where an automobile was waiting for the arrival of the train.

When the people here learned that James had been taken beyond their immediate reach, they became heated. The crowd around the jail yelled in derision and made open threats against James.

Before daylight today Chief of Police Egan, was twice called upon to appeal to the crowds who had started toward the city jail. The one case he tore a mask from the face of a man who seemed to be leader of the gathering and then he prevailed upon the others to disperse, pleading that the evidence against Will James was only circumstantial. He planned to use similar tactics tonight but orders were issued to prevent the gathering of crowds near the jail or in the vicinity of the scene of the crime.

The better element of the city, after an outburst of indignation early today was ready tonight to let the law take its course.

James, who is known as "Froggie" because of his features, was "sweated" by the police this afternoon. Attempts to force his movements were made today and considerable evidence that the police assert tends to show he was in the vicinity when Miss Pelley was attacked was obtained. It also tended to prove that the bloodhounds were on the right scent when they went from the alley where Miss Pelley's body was found to several places where James acknowledges to have been on the night of the murder.

### MRS. U. S. GRANT DIES SUDDENLY AT SAN DIEGO

San Diego, Cal., Nov. 10.—Mrs. U. S. Grant, wife of a son of the late President Grant, died today of apoplexy. She had been an invalid for years.

Mrs. Grant was 53 years of age. She is survived by her husband and five children.

She was the daughter of Senator and Mrs. Chace of Colorado.

## BOLD THIEF MAKES OFF WITH FORTUNE IN DIAMONDS

Prompt Pursuit of Street Throng Results in Capture of Robber and Recovery of Gems.

[By Morning Journal Special Leased Wire] Spokane, Wn., Nov. 10.—Snatching a wallet containing \$12,000 worth of diamonds from the counter in a local jewelry store today, J. B. Brown ran out of the door and down the street.

Soon several hundred citizens were in pursuit. Brown drew a revolver and fired twelve shots at his pursuers, reloading as he ran. Even this did not check the throng, which chased him into an alley, where the breathless thief surrendered. He had thrown away the diamonds in his flight but the packet was found by a messenger boy.

## GIRL'S MURDER BRINGS HER FATHER TO GRAVE

Heartbroken Parent of Sallie Hatton of Los Tanos Broods Over Tragedy Until Death Ends Mental Agony.

### NO NEW LIGHT ON FIENDISH SLAYER

Man Who Assaulted and Killed Beautiful Young Girl Has Two Deaths on His Conscience; Identity Still Mystery.

[Special Dispatch to the Morning Journal] Santa Rosa, N. M., Nov. 10.—Brooding over the terrible death of his daughter and his mental suffering threatened to drive him insane, R. E. Hatton, father of Sallie Hatton, who was fiendishly assaulted and murdered six weeks ago while en route from Santa Rosa to her home in Los Tanos, died yesterday at Los Tanos. The mystery as to the identity of his daughter's assailant and the atrocious circumstances of her killing, when her brains were beaten out by the unknown brute, preyed on the father's mind until a week ago the attending physicians warned Hatton's family that unless the father's mind could be diverted from the tragedy there was no hope for his life. Hatton died, it is believed, purely from a broken heart and the murder of the young girl is equally the slayer of her father. As yet no further light has been secured on the case and the identity of Sallie Hatton's murderer is still a dark mystery. It is understood the authorities, however, are discouraged and are keeping up a quiet search for the criminal.

## RIPLEY'S ONLY AMBITION IS TO SERVE PUBLIC

Head of Santa Fe System Gives His Opinion on How to Run a Railway and Retain Public Confidence.

### VARYING VIEWS AIED AT CONCILIATION BANQUET

Lawmakers Demand Further Regulation, Managers Oppose It While Shipping Interests Cry Out for Square Deal

[By Morning Journal Special Leased Wire] New York, Nov. 10.—Railroad legislation, enough for the present, argued the men who manage the railroads; further federal control, pleaded legislators; co-operation in the interest of fair dealing, urged shippers and others.

These varied views were expressed tonight at the first annual banquet of the railway business association at the Waldorf-Astoria.

The association which is a sort of self-constituted medium of conciliation between the railway and the public, had a its guests at table tonight more than 400 men interested in railroads. George A. Post, president of the association, was toastmaster and after a toast to President Taft, he jumped to the question of what would be done with Mr. Taft as an ex-president.

"He is not much of a hunter," said Mr. Post and it costs money to play golf, so perhaps since he is a good traveling man, he'll become connected with some railway."

Former representative W. P. Hepburn of Iowa, author of the Hepburn act, suggested that there were yet railroad matters over which the government should have control. For instance, he asked, "What serious hurt could come to railroads if their capital could not be increased until approved by government authority?"

William C. Brown, president of the New York Central line declared, that in times of depression our unemployed will be numbered by millions, and he suggested the increased pursuit of ag-

## FOURTEEN MEN DEAD; NINE INJURED

### FRIGHTFUL WRECK ON CANADIAN ELECTRIC ROAD

Runaway Car Plunges Down Steep Grade Into Passenger Crowded With Workmen; All on Board Killed or Hurt.

[By Morning Journal Special Leased Wire] Vancouver, B. C., Nov. 10.—Fourteen men were killed and nine seriously injured, of whom three may die, in a head-on collision on the interurban line of the British Columbia Electric company at Lakeview station early today. The dead and injured were passengers and crew on a car which left Vancouver station for New Westminster. Not a man of the twenty-three on the car escaped death or injury.

The accident was caused by the breaking of a drawbar on an east-bound flat car heavily loaded with big timbers and lumber. This car, suddenly released, was soon plunging heading down the grade toward the outward bound passenger car. Within two minutes the cars met. The heavy timbers on the flat cars, some of them a foot thick, were hurled through the passenger coach sweeping away almost every vestige of the car body between the roof and floor. Propelled by the terrific momentum the timber, shot clear through the car, moving down every man in their path and finally plunged to the ground at the other end of the coach.

Agriculture as a means to forestall such conditions. He said he intended to recommend to the New York Central line that the road operate at its own expense, under auspices of the state agricultural college, a series of experimental farms.

"This would return to the rural districts, the preponderance of political power," he said. "Where it can be more safely lodged than in congested centers of population already ominously powerful in many of our states."

President Ripley of the Santa Fe also spoke on the subject. "The railroads and public approval," Mr. Ripley said, said that, after all, it was the public that indirectly ruled the great carriers. After reviewing the history of rate legislation, touching on the imperfections of the interstate commerce law as first passed, he said:

"Whatever sins may be laid at our door, however much we may have once believed that ours was a private business to be controlled exclusively by its owners; however much we have resented or still resent the interference of the public as manifested in the various governing bodies, it is, after all, the public that is master, as we must all recognize."

To meet this situation, Mr. Ripley suggested a sincere endeavor by the railroads to keep in close touch with public opinion and to install improvements wherever consistent and possible, even if without hope of profit.

"I am sure," he continued, "that I voice the sentiment of all managing railroad officers when I say our great desire is to please the public and to give it the best possible service for the least possible compensation with reason."

"Discrimination has long since passed away and nobody is better pleased than the railroad men that it is so. There is no desire to escape responsibility or regulation."

"In this country the people rule—and in the long run that system, that method, or that personality that does not meet the approval of the public cannot succeed."

## ROBBED GRAVE TO FURTHER BOLD SWINDLE

### Fugitive from Colorado Taken Back to Serve Sentence for Ghoulish Plot to Beat Insurance Companies.

[By Morning Journal Special Leased Wire] El Paso, Texas, Nov. 10.—A parole officer of Colorado passed through here tonight with John McEachern, an escaped convict from the Colorado state prison, where he was serving a ten-year sentence for grave robbery and fraud. McEachern was heavily insured in several companies. He stole a body from a grave at Cripple Creek, Colo., where he was working as a miner, carried it into the mine and blew it to pieces with dynamite.

It was declared to be his body and the insurance on his life was paid by several of the companies. Later the fraud was discovered, he was tried and sent to the state prison. Some months ago he escaped, went to Bisbee, Ariz. where he worked without changing his name, and where he was arrested. McEachern was hidden in the attic of his home while the funeral services over his supposed body were being held in the room below.

changing his name, and where he was arrested. McEachern was hidden in the attic of his home while the funeral services over his supposed body were being held in the room below.

### SHRED OF HAIR LEADS TO DETECTION OF SWINDLE

Cripple Creek, Colo., Nov. 10.—The crime for which J. J. McEachern was sent to the penitentiary was the most sensational in the history of the county. With accomplices, he dug up the body of a dead miner from its grave of a day, took it to a tunnel in which they were ostensibly conducting mining operations, and blew it to atoms with dynamite. Simultaneously he disappeared. His wife collected insurance money and there was no suspicion that he had not been killed until a shred of hair was picked up in the tunnel which did not match his. Following a quiet investigation, McEachern was captured in his own house in Victor, where behind curtained windows he had witnessed his own funeral.

Thompson Succeeds Senator Johnson. Bismarck, N. D., Nov. 10.—Fountain L. Thompson of Canada, N. D., was today appointed United States senator by Governor Burke to fill out the unexpired term of Senator M. H. Johnson, who died three weeks ago.

The appointment of Mr. Thompson, democrat, was somewhat a surprise, as he was a dark horse in the race. The announcement was made after a long conference, in which the leading democrats of the state participated. Mr. Thompson is a close personal friend of Governor Burke, and it is said that his appointment was decided upon after it was seen that the democratic leaders were hopelessly divided as to a choice for senator.

## ALDRICH TRIES FLATTERY TO WIN WEST

### SENATOR ENTHUSIASTIC ADMIRER OF FARMERS

Presented With Pair of Chaps in Omaha, He Repeats His Arguments for Reform in Nation's Monetary System.

[By Morning Journal Special Leased Wire] Omaha, Nov. 10.—That Senator Aldrich is becoming rapidly westernized, his friends will be convinced when he returns to Washington, if he wears his new clothes. The principal addition to his sartorial accoutrement is a pair of "chaps." They were presented to him here today by former United States Senator Manderson, and the presentation formed the merest of the most important feature of a noonday luncheon tendered him at the Omaha club, by Luther Drake, a banker of this city.

Mr. Aldrich did not know what to call the trousers nor did he make explicit promise to wear them, but he accepted them with evident pleasure and in doing so made a speech which showed that it is possible, after all, for him to give attention to other than financial questions.

Mr. Aldrich arrived here early today on his tour in the interest of the monetary reform and in addition to his informal speech at the Omaha club in the afternoon, he delivered an address tonight before the Commercial club.

The coming of Senator Aldrich had been anticipated with much interest. He had been advised that here he would be in the very heart of the "enemy's country." In addition he had been preceded here by Congressman Fowler, of New Jersey, until recently chairman of the house committee on banking and currency, who was represented to have severely criticized what are supposed to be some of the Rhode Island senator's banking ideas.

At the night meeting Senator Aldrich again went over the work of the commission to date and again outlined the labor before it, appealing, as at previous meetings to bankers and to business men to study the question of banking and currency reform.

He dwelt upon the national character of the work, declaring that any change must be in the interest of the entire country. Indeed he declared that it would be almost, if not quite impossible, to formulate a banking law that would work wholly for the benefit of any one section.

In this connection he spoke of the rapid development of the west and at the afternoon gathering said:

"I made a trip through southern Kansas in 1881 and as I had been recently in business, I then gave careful attention to the country. I would not have given 50 cents for the whole territory after I left Kansas City. It was marked in my mind and in the old geographies as 'the great American desert' and it looked like it."

But now that country is flourishing like a green bay tree. They told me in Kansas City a story of a man who came into one of the banks there about the time of which I speak and wanted to borrow a thousand dollars to put a roof on his barn. The other day this same man came into the office and asked them about securities. The man was not quite sure what he wanted and the bankers said 'Well, what do you want?'

"Well," he said, "I have got a little made a trip through southern Kansas in 1881 and as I had been recently in business, I then gave careful attention to the country. I would not have given 50 cents for the whole territory after I left Kansas City. It was marked in my mind and in the old geographies as 'the great American desert' and it looked like it."

## TAFT RETURNS TO CAPITOL CHEERED BY THROG

Cabinet Members and Common People on Hand to Welcome President Back to Washington from Long Trip.

### THIRTEEN THOUSAND MILES UNMARRIED BY ACCIDENT

Captain Butt Delivers His Chief Safely Through Swinging Doors of White House and Long Journey Is Ended.

[By Morning Journal Special Leased Wire] Washington, Nov. 10.—After an absence of more than three months, during which he has made a 12,000-mile trip through the west and south, President Taft sleeps tonight in the White house.

He left the capital August 6 with the cheers of the crowds ringing in his ears. He returned tonight to the time of the same cheers, but he tarried only a moment with the welcoming parties. His objective point was the White house and Mrs. Taft, and as quickly as he could get away from the brief speeches of welcome he climbed into his big automobile. The chauffeur broke all speed records of the district.

There was no demonstration at the White house. The special police there kept the curious outside the grounds and when Mr. Taft alighted and ran quickly up the steps he turned for a moment and waved a smiling farewell to Fred Carpenter, his secretary; Colonel Spencer Cosby and Captain Archibald Butt, his two military aides, who had accompanied him from the station. Then the big swinging doors of the White house swallowed him.

The president shook hands with the two negro doormen, who smiled a welcome that showed every tooth in their heads. The flunkies continued to grin long after the president had disappeared above, where Mrs. Taft had been apprised of his coming. He did not show himself again tonight, not even to inspect the new executive office which was lighted and decorated for his appearance. Two hours before the president's train was due the crowds began to fill the union station. There was an unusual gathering of police, secret service men and detectives. When the train rolled in from Richmond, on time, there was an imposing crowd of cheering people. There were a few women, but for the most part the space was taken up by silk-hatted committees. Among the throng were Secretary Carpenter, Colonel Cosby, military aide to the president, and Assistant Secretary of War Oliver. A moment before the train pulled in some diversion was caused by a committee of ten members from the chamber of commerce filing down the broad stairway. Froek coated and silk-hatted, they marched to the platform, two abreast, and took up their stand at the point where the president's car would stop.

When the train drew up the first person out was Captain Butt. He was followed by Secretary of the Navy Meyer, who joined the president today in Richmond. Then the president, to the accompaniment of hand clapping and a few desultory cheers, stepped to the ground.

"Mr. President, I want to welcome you back to the capital on behalf of the members of the chamber of commerce," said President Gude, of that body, capturing Mr. Taft immediately.

"Thank you," replied the president, removing his hat and smiling benignly on the crowd. "I'm glad to get back. Let me see—I left here August 6, didn't I? Well, I am back again, feeling just as well as when I went away—or even better."

Preceded by Captain Butt and followed by Secretary Meyer and a throng of personal friends, Mr. Taft then made his way up the stairs and across the concourse of the station to the waiting room set aside for the president's use. Every one except the members of the cabinet was excluded.

In spite of the "dress rehearsal" of the cabinet held at the department of justice last Monday night, there were some violations of ethics in wearing apparel. Secretary Nagle daintily wore a white tie with his frock coat and silk hat, and this lapse seemed to jar the aesthetic natures of some of his fellow statesmen.

In any event Secretary Nagle and five other members of the cabinet disappeared quickly, leaving Secretary Knox and Postmaster General Hitchcock with the president. The three conversed earnestly for two or three minutes, after which Mr. Taft made his way to the White house automobile. The president did not appear to have been fatigued by his long trip. Apparently he was no stouter than when he left, although it was whispered among his intimates that he had picked up several pounds. When

(Continued on page 2, column 2).

asked about it he laughingly spread out his arms and invited inspection.

When President Taft spoke at the City Auditorium in Richmond this afternoon he made his 26th speech of the long trip, which according to the itinerary covered 12,179 miles, but which with side trips amounted to more than 13,000. During the trip from Richmond he had an extended conference with Secretary Meyer, disposing of a number of matters that have been pending in the department, including the scheme of reorganization. The results of the conference will be announced after Secretary Meyer has worked out the plan.

President Taft declared that, excepting his impatience to be with Mrs. Taft again, he would not mind if the trip should continue two or three weeks longer. He has been greatly fatigued at the end of some of the long programs of entertainment in a number of cities, but a good night's sleep always put the president in the best of shape.

The president will not see any callers at the White House tomorrow and if he visits the legislative offices at all it will be merely to inspect the apartments. Mr. Taft's stay in Washington will be brief, as he leaves tomorrow afternoon for Middletown, Conn., and Hartford, Conn.

The president returns to Washington shortly before noon Saturday and Monday morning he will settle down to the routine work of his office.

President Taft said tonight that he would not make any important diplomatic appointments until after January 1. He will not fill the vacancy on the supreme court bench until after congress meets.

#### PRESIDENT FORECASTS

##### MESSAGE TO CONGRESS

Richmond, Va., Nov. 10.—"During my sixty days of travel there has been a moment or two of deliberation and during that time I have been studying what is the duty of an executive to recommend to an incoming congress in respect to future legislation, and when I think of the number of things congress ought to do I am staggered lest it may not find time to do them."

In the final speech of his 13,000-mile trip before an immense audience this afternoon, President Taft thus prefaced a preliminary statement of some of the recommendations his first annual message to congress would contain.

"In the first place there is the conservation of our resources, and the reclamation of arid lands," said the president. "We have reached a time now where a great many people in the west are counting on an immediate supply of water for the land upon which they have settled, which is not forthcoming because money applied to the reclamation fund does not come in as quickly as expected, or at least quickly enough to meet the exigency of the occasion, and I am strongly in favor of anticipating that fund, which is a fund raised solely by the sale of public lands, by the issuing of bonds, the payment of which shall be charged to the same source of revenue."

He added that the demand for the products of the soil is greater than the supply because of the growing population and we must enlarge our acreage and the plain way seemed by the reclamation of arid and swamp lands.

"Then we have a great deal of valuable coal land owned by the government," he continued. "We have a great many water power sites, the water from which will furnish an immense amount of power by use of electrical appliances. Then there are millions of acres of phosphate to be used in the fertilization of the land. Under existing laws these lands are likely to be parted with merely under a homestead scheme. They are of such special value that it seems wise that the government should reserve such control over the water power sites and the coal lands and the phosphates so that they may not come into the hands of one controlling corporation but may be retained by the government with the power to restrict the prices of coal."

"Then we have the anti-trust law on our hands for enforcement and the arrangement of the departments of the government in such a way as to make it more effective if possible."

"Then there is the interstate commerce law which certainly needs amendment in order to give the interstate commerce tribunal more power to prevent the delays now incident to appeals to the courts. In my judgment the best way is to create a special court and have a court that will have the knowledge and practice in regard to railroads so that the matter can be promptly disposed of."

"Then I am strongly in favor of a postal savings bank. Where it happens that the government is in a situation that it can do a thing better and more economically than individuals can do it, I am in favor of its doing it."

"The monetary reform is under consideration by a commission. I am hopeful that the commission may present the conditions that exist here and the conditions as they exist in Europe and in this way point out to us some steps that may be taken to reform what is certainly today nothing but a patchwork."

"Then there is another subject that is very near my heart. We must improve our legal procedure so as to make it both in criminal and in civil cases more simple, rapid and less expensive, and I mean to recommend to congress the appointment of a committee to take that subject up with respect to the federal procedure and then, if by federal procedure, we achieve a result that commends itself it will form a model for the states."

Mr. Taft said he believed the time had come for the organization of a federal health bureau.

"That is a pretty long list of things to do, but if we set our shoulders together we can do a lot in one session or two sessions of congress," continued the president. "I venture to hope that the project suggested by my predecessor, President Roosevelt, may be alluded to by me with approval and the expression of the hope that it is coming to fruition, to wit: That there should be a great monument in honor of General Robert E. Lee in the establishment of what he himself would value most highly, a great school of engineering at Washington and Lee university, and I take this

#### ALDRICH TRIES FLATTERY TO WIN WEST

(Continued from page 1, column 6.)

"I am sure I would like to invest," they said, "how much?"

"Well," he said, "I could spare \$50,000 now."

"Here in the brief span of a generation, is a man who started out by borrowing a thousand dollars to repair his roof and who has now become a capitalist. This is the capitalist section of the country. We shall have to look out for our laurels in the east. We used to loan money to this section of the country but I expect that in order to develop our little farms (I being a farmer myself) we shall have to come to Omaha or Kansas City to get it."

"Really, it is a very serious question. There is more or less embarrassment of riches about it. We have 25,000 banks and soon will have 50,000. We are going to have the greatest surplus capital of the world in the United States soon, and we have a great many things to think about. And I am going to ask you, by and by, to help me think about it. It is very important that somebody should do a great deal of thinking. It is your duty as well as mine to take such steps as you can to perpetuate the present prosperity of the country."

Senator Aldrich has received many pressing invitations to visit a number of other western cities but has been compelled to decline all because pressing engagements take him up to the meeting of the commission on November 20.

#### MAE WOOD, ILL ON RANCH CASE CALLED IN NEW YORK

New York, Nov. 10.—The case of Mae Wood, who has been under indictment since June, 1908, for perjury and forgery in connection with her sensational suit for divorce against former United States Senator Thomas C. Platt, was brought up suddenly today in the court of general sessions. The defendant did not appear and the prosecution asked that her bond of \$5,000 be forfeited.

Counsel explained that Miss Wood was ill on a ranch in Colorado and had not been informed that the case was on today's calendar. District Attorney Jerome announced that it was by a mistake that the case was called today and adjournment was taken until Monday.

#### Prehistoric Graveyard Dug Up.

Ashland, O., Nov. 10.—Prehistoric burying grounds which may rival the famous Great Serpent mound near Cincinnati were discovered at Point Park Hall near here today when workmen unearched the complete skeleton of a primeval man. The skeleton according to F. D. Snyder, a scientist and member of the International Geographic society, shows deviations from that of the present day human being.

#### A man who owns a fine coffee plantation in Jamaica said:

"Four years ago I discovered that coffee was ruining my health and I quit and have been using Postum ever since."

Experience taught this man that he could not drink his own high-grade coffee.

His active drug—Caffeine—irritates the nervous system, interferes with digestion, and trouble is sure to follow.

Some folks may take the hint and change to Postum.

It is absolutely free from drugs, and when well made, that is, boiled 45 minutes, it has a delicious taste similar to the mild, high-grade Java, with the natural vital food elements of the field grains that repair the damage done by coffee.

## WOMAN ON TRIAL FOR DYNAMITE STUNT

Mrs. Read Who Sought to Extort \$100,000 from Mrs. Genevieve Chandler Phipps Faces Jury.

(By Morning Journal Special Leased Wire) Denver, Nov. 10.—The jury which will hear the case against Mrs. Allen E. Read, who is charged with attempting to extort \$100,000 from Mrs. Genevieve Chandler Phipps by threatening her with dynamite, was completed this afternoon and the taking of testimony was begun. It is not expected that the trial will consume more than two or three days.

After the state's case had been outlined by Assistant District Attorney Silverstein, Mrs. Phipps took the stand and related the happenings leading up to the attempt of Mrs. Read to force her to bring \$100,000 in cash from the International Trust company under threat of death by dynamite. Mrs. Phipps told how Mrs. Read had attempted to secure an interview under the names of Madam Leroy and Mrs. Lyman, and how Mrs. Read had stopped her automobile in City park, claiming to be a newspaper woman working in collaboration with Joseph Medill Patterson of Chicago. She stated that Mrs. Read, after entering the Phipps automobile, drew two sticks of dynamite from her hand bag and threatened her with instant death if she did not produce the money, and forced her to bring her daughter Helen from the Wolcott school to act as a hostage while Mrs. Phipps went into the bank to cash the check. Mrs. Phipps also related the capture of Mrs. Read outside the bank and told of her attempts to explain the dynamite when asked by officers. Mrs. Phipps had completed her direct testimony when court adjourned.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all druggists.

## FUTILE SEARCH FOR BODIES OF AUTO VICTIMS

Chicago River Dragged in Vain for Remains of Couple Who Perished When Car Ran Through Open Bridge.

(By Morning Journal Special Leased Wire) Chicago, Nov. 10.—Search for bodies of the passengers who accompanied Ernest Camp, chauffeur in the automobile that last Sunday night which led them to death by drowning in the Chicago river Sunday, was unrewarded today. An inquest was begun today over Camp's body, recovered yesterday, and was continued until November 24.

Relatives of Max Cohen, cigar dealer, and his sweetheart, Beatrice Shapiro, who have been missing since Sunday, now are convinced that they must have been drowned together. No trace of their bodies could be found today and the search will be resumed tomorrow.

#### MARGARET ILLINGTON WINS ABSOLUTE DIVORCE

Reno, Nev., Nov. 10.—Margaret Illington Frohman, wife of Daniel Frohman, the New York theatrical man, was granted an absolute divorce by Judge Pike this afternoon. The hearing occupied the district court for only twenty-five minutes, but one other witness beside the plaintiff testifying. The ground was non-support. A document accepting the service and waiving all right to answer, sworn to by Daniel Frohman, was read during the hearing.

## COOK'S TESTIMONY FAVORABLE TO MME. STEINHEIL

State's Case Against Woman Accused of Double Murder Shows Signs of Breaking Down.

(By Morning Journal Special Leased Wire) Paris, Nov. 10.—The testimony today in the trial of Mme. Steinheil, charged with the murder of her husband and stepmother, was distinctly favorable to the defendant.

Mariette Wolf, the cook in the Steinheil household, and her son, Alexander, whose appearance was awaited with profound interest, threw new light on the mystery, but by a further mass of contradictions strengthened the impression in the accused woman's favor. Mme. Steinheil's nurse also retracted her previous deposition in which she expressed the opinion that defendant's illness after the crime was simulated, and Maurice Bordenet, a wealthy merchant, whom the state accuses Mme. Steinheil of seducing, testified to his absolute belief in her innocence.

The state's circumstantial case against Mme. Steinheil seems to be breaking down and it is already rumored that the trial may be abandoned and a new investigation ordered. Anti-Dreyfus papers like the Libre Parole and the Patrie have begun to revamp their previous insinuations that the crime involved a political plot for the destruction of evidence regarding the death of ex-President Felix Faure, which the anti-Dreyfusards have never ceased to claim was due to foul play because they alleged M. Faure opposed the revocation of the Dreyfus case.

Louis Anthonio Gregori, who shot Major Dreyfus at the canonization of Zola in the Pantheon in 1908, has written an open letter to M. De Valles, the presiding judge, demanding that he be heard on the subject of the death of the former president, and the anti-Dreyfusards seek to give credit to their insinuations by emphasizing the veiled threats which Mme. Steinheil repeatedly made in open court to reveal her relations with prominent men in every week of life should she be driven to bay.

Judge De Valles, however, evidently assumes that former intrigues have no bearing on the case and twice has practically defied the defendant to draw in whatever scandal and names she pleased.

"You may name whom you will," he has said to her.

Home-made bread and many good things are kept on hand for sale at the Woman's Exchange, in connection with the Y. W. C. A., 217 South Fourth street.

#### DARING TRAIN ROBBER IDENTIFIED IN COURT

Seattle, Nov. 10.—Mail Clerk Benjamin L. Stumps positively identified Charles D. Howell today as the man who boarded a Great Northern mail car at Bonner's Ferry, Idaho, March 15, impersonated an inspector and looted the registered mail. Stumps picked out Howell from among four prisoners as the man who locked Mail Clerk B. W. Nystuen in a closet, tied Stumps in a chair with a mail sack over his head and acted as clerk himself until the train reached Spokane, where he jumped off, taking with him the registered mail.

Howell, who was formerly postmaster at Havre, Mont., and recently was proprietor of the Knawland hotel at Olympia, Wn., is held in jail here in default of \$20,000 bail to answer the charge of holding up the Great Northern express here last month, obtaining \$12,000 cash. His connection with the Idaho robbery was established last week when Nystuen identified him.

#### BALLINGER TO TAKE UP GLAVIS' LATEST BREAK

Washington, Nov. 10.—Secretary Ballinger will avail himself of the first opportunity to take up with President Taft the latest publication of the Glavis charges affecting the attitude of the interior department toward the Alaska coal lands. On the result of the consultation will depend the next step in the matter. Tomorrow Secretary Ballinger expects to hand to President Taft a copy of his first annual report. Interest attaches to this document as it will contain Mr. Ballinger's views on the general treatment of the public land question.

#### THE DOCTOR'S QUESTION.

Some Advice Against the Use of Harsh Purgatives and Physic.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver. This condition poisons the system with waste matter and causes accumulation of gases which must be removed through the bowels before health can be restored.

Salts, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments causes chronic irritation of the stomach and bowels, dries and hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has almost, if not fatal results.

We have a pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case where it fails to produce entire satisfaction. This remedy is called Rexall's Orderlies. We urge you to try them on our entire risk.

Rexall's Orderlies are eaten like candy, they act quietly and have a soothing, strengthening, healing, regulative influence on the entire intestinal tract. They do not purge, grip, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects, and they may be eaten at any time without inconvenience.

Rexall's Orderlies overcome the drugging habit and safely remedy constipation and associate ailments, whether acute or chronic, except in surgical cases. They are especially good for children, weak persons or old folks. Price 25c tablets 25c and 32 tablets 10c. Remember you can obtain Rexall's Remedies in Albuquerque only at our store.—The Rexall Store. The J. H. O'Reilly Co.

Would Play With VarsityST. VINCENT'S AFTER  
DATE WITH NEW  
MEXICO BOYS

May Arrange Game at Los Angeles November 30; Triple Header for Albuquerque Saturday.

That the University of New Mexico football team is breaking into rather classy society is shown by a letter received by Manager Lawrence Lee of the Varsity eleven yesterday from the manager of the St. Vincent's college team in Los Angeles, which is champion of the coast and has held that position for some seasons. St. Vincent's is quite anxious to get a game with the locals and Manager Lee will endeavor to see that the Los Angeles team is accommodated. The coast men want a game on the 29th of this month which will be impossible as the Varsity plays the Socorro School of Mines on that date. It is quite likely however that arrangements can be made for a game in Los Angeles on the 30th, as the Varsity plays in Tucson, November 29th.

**May Yet Play Farmers.**  
The "Farmers" from the Agricultural college at Mesilla Park whose dietary policy in accepting a contract, caused the cancelling of a game proposed earlier in the season now show signs of wanting to play the Varsity and Manager Lee said last night that while no arrangements have been made as yet it is quite possible that a

date with the Mesilla Park boys may be set later. Football fans hope to see such a date made as it would be sure to be a lively game and the Varsity is looking for an opportunity to take a little of the chestiness out of the "Aggies" who were neatly whipped by the locals last year.

**Triple Header Saturday.**  
The Varsity eleven is improving the golden moments training for the big event with the Russell Military Institute cadets at Traction park Saturday afternoon. Russell while she has not been up against a real game this season has a bunch of heavy and experienced football players who will make it interesting for Lee's aggregation and the game will probably be one of the very best of the season. There will be all sorts of football here Saturday as the High school will play the Mesilla school at Traction park immediately before the big game and the Varsity second eleven will play the Indians on the Indian school grounds in the afternoon.

VARSITY SCHEDULE FOR

WIRE TAPPERS NIP  
BOOKMAKERS  
AT DENVER

Between \$50,000 and \$75,000 Secured Through Cleverly Executed Job of Changing Odds on Latonia Entry.

(By Morning Journal Special Leased Wire)  
Denver, Nov. 10.—Probably between \$50,000 and \$75,000 was secured in this city and suburbs and in Salt Lake yesterday as the result of what is believed to have been a cleverly executed job of wire tapping near the Latonia race track and in which odds on Howard Pearson, the winner of the sixth race at that track, were boosted from 7 to 1 to as high as 40 to 1.

Hand bookmakers here and at the suburbs of Englewood and Littleton reluctantly admit that they lost heavily on the race and many of the local bookmakers today are refusing to pay bets on the race.

According to one local bookmaker the odds apparently were changed before, post time and the "boost" from 7 to 1 to 20 to 1 does not seem to have caused suspicion. If the wire was tapped, the post odds were held back and the false odds sent. Then the plunge was made and as the tip on the horse apparently was general, nearly every bookmaker around Denver lost.

It is also stated that the operations also extended to Chicago. Local sporting men scout the idea that the killing on Howard Pearson, in the local pool rooms, was due to wire-tapping. They say the horse was strongly "touted" and that the long odds resulting from a mistake in sending the betting from the track, caused an unusually strong play among those who follow the "dope" closely.

**Claim Loss Is Not Serious.**  
Salt Lake, Nov. 10.—Owners of local poolrooms, while not attempting to disguise the fact that the losses said to have been incurred by Denver bookmakers through the misquoting of betting odds yesterday, are traceable to the operations of wire tappers, are inclined to belittle the extent of the profits realized as a result of the scheme.

**Effort to Trace Crooks.**  
Chicago, Nov. 10.—Those who control the Latonia wires announced tonight that they will start a rigorous investigation tomorrow into the alleged wire tapping at Latonia race track reported from Denver. They assert that they have had no previous information on the subject and are inclined to discredit the report, but local sporting men take a different view.

A well known racing authority said he had good grounds for believing wire tapping has been carried on here for some time and he had made personal but unsuccessful efforts to trace the offender.

**Results at Latonia.**  
Latonia, Nov. 10.—Long shots were winners at Latonia today, three getting past the wire. Belle Clem won the feature race in a drive from Howdy Howdy and Handaretta. Judith Page, at odds of 20 to 1 had an easy victory in the initial event.

First race, 3 1/2 furlongs: Judith Page, won; Carondelet, second; Uneda, third. Time, 1:08.  
Second race, 1 1/8 miles, selling: McNally won; Huerfano, second; El Dorado, third. Time, 1:59 2/5.  
Third race, 6 furlongs: Schwick won; Morse, second; Bruce Rice, third. Time, 1:14 2/5.

Fourth race, 6 furlongs: Belle Clem won; Howdy Howdy, second; Handaretta, third. Time, 1:14.  
Fifth race, 7 furlongs, selling: Patriot won; Polar Star, second; Thomas Calhoun, third. Time, 1:27.  
Sixth race, 1 1/4 miles, selling: Stone Street won; Lane Allen, second; Tamen, third. Time, 2:08 1/5.

FAMOUS TROTTER IS  
PNEUMONIA VICTIM

Thompsonville, Ga., Nov. 10.—Although brought south to escape the rigors of a northern winter, Hamburg Belle, the famous trotter, died at the stock farm of her owner here today of pneumonia. The mare had just been delivered at the farm. The animal was bought by Mel Hanna of Cleveland a few months ago for \$50,000.

**Held Three World Records.**  
Cleveland, O., Nov. 10.—Hamburg Belle, registered as Nellie Simmons II, made three world records at North Randall track, near Cleveland, on August 25 of last year. In her match race with the black horse Urban, her first heat was trotted in 2:01 1/2, the fastest mile ever trotted in a race and two seconds faster than the previous record held by Cressons. The second heat was trotted in 2:03 1/2, the fastest second heat trotted in a race, and the race itself was the fastest two heats.

It was at the conclusion of this race that H. M. Hanna, of Cleveland, purchased her from John E. Madden for \$50,000.

FIGHT DATE FIXED  
JEFFRIES WILL  
MEET KAUFMAN

Big Fellows' Manager Declines to Take Brady's Offer of \$10,000 Seriously.

(By Morning Journal Special Leased Wire)  
New York, Nov. 10.—The sporting world just now is keenly interested in the coming Jeffries-Johnson fight, noted with interest today the report of an offer by William A. Brady, a theatrical manager, to post \$10,000, the entire sum to go to Jeffries, if he would agree to fight Al Kaufman within ninety days. Interest increased when no word of reply came from Jeffries, but tonight the bottom dropped out when Sam Berger, Jeffries' manager, did some talking.

"When the bids have been opened and the club and date for the Jeffries-Johnson fight have been settled upon, if William A. Brady comes forward with the \$10,000 cash, then Jeffries will consider meeting Kaufman," said Berger. As it is now, Berger said neither he nor Jeffries considered Brady's published offer seriously. They heard nothing of it, he said, except through the newspapers.

**NELSON OFFERS TO  
GIVE \$85,000 FOR FIGHT**  
Boston, Nov. 10.—Eating Nelson, the lightweight champion, tonight wired the managers of Jeffries and Johnson that he gives \$85,000 to have the fight between the heavyweights settled on his property at Virginia City, Nev. Nelson offers to post \$25,000 of that to bind the offer. His only stipulation is that the fight shall go to a finish.

**All Nationals 10: Los Angeles 5.**  
Los Angeles, Nov. 10.—The All Nationals easily defeated the local Coast leaguers here today. Score:—  
All Nationals 10, H. P. 5.  
Los Angeles 19, H. P. 12.

JOHNNY KLING ONLY  
A NEAR CHAMPION

Kansas City, Mo., Nov. 10.—Thomas Houston, playing John Kling for the pool championship of the world, was 63 points ahead at the close of tonight's play. The score for tonight was, Houston 247, Kling 205; total score, Houston 409, Kling 346.  
Two more blocks of 200 balls each will be played before the match is decided.

**Gotch Matched With Pole.**  
Buffalo, N. Y., Nov. 10.—It was announced here tonight that Frank Gotch, world's wrestling champion, and Zbyzko, the Polish champion, have been matched to meet Thanksgiving day. No definite arrangements for holding the match have been made but it is believed Buffalo will get it.

**Big Crowd at Horse Show.**  
New York, Nov. 10.—The third day of the National Horse show brought out the largest attendance seen at Madison Square Garden this season. The first serious accident of the season occurred when W. C. Collier fell and was kicked in the face by Irish, his mount. His teeth were loosened, his lips and cheeks badly cut, and his back badly wrenched.

Get Out and Root;  
It's Good for the  
Hookworm

Editor of Morning Journal:

Are not the citizens of this burg in danger of catching the dread disease, to cure which a member of the human society recently donated a million dollars? I refer to the support which the University on the hill does not get! Both mentally and financially the University is entitled to the hearty support of the citizens of Albuquerque while it is yet a struggling and growing institution.

On Saturday next the students will be engaged in a football contest, which promises to be both interesting and stimulating and aid of the townspeople they must naturally fall in advancing the interests of the sport and the University as well.

It is apposite that a student should match his brains with a strong body; sink the dust from your feet and come out to cheer for the University. It may incidentally serve to clear your throat as well as afford you a few pleasant hours of recreation! Boast for the institution on the hill—don't always save your money for more nearby purposes but realize that there is something beside your own immediate comfort that needs a helping hand. Enuf said—a word to the wise is sufficient! I am sir,

RIVAL FEDERATION  
OF LABOR ROUNDLY  
DENOUNCED

Canadian Organization Scored as National Plague and More Dangerous to Those Who Work Than Open Shop Policy.

(By Morning Journal Special Leased Wire)  
Toronto, Nov. 10.—This national plague, was the term applied today by Jerome Jones of Atlanta, Ga., to the "Canada for Canadians" movement, known as the Canadian Federation of Labor. Mr. Jones was the international delegate of the federation to the Canadian Trades congress convention at Quebec last September. "This movement of Canada for Canadians," said Mr. Jones, "is as odious to the Canadian Trades congress as the non-union or open shop policy is to the men and women of labor in the states."

The day's proceedings were enlivened by an address on woman suffrage by Mrs. Frances Squire Potter, a former professor in the University of Minnesota.  
Several resolutions were received, but not read, one of them introduced by President P. J. McArdle, of the Amalgamated Association of Iron, Steel and Tin Plate Workers, declaring conditions in the United States Steel corporation to be the worst with which organized labor has to contend and recommending that means be devised for making more effective the strikes of the affiliated organizations now pending.

**KNIGHTS OF LABOR CHIEF  
CRITICIZES FEDERATION MEN**  
Washington, Nov. 10.—Characterizing the attitude of Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor, in the contempt proceedings in connection with the Bucks Store & Range company as "a wilful, premeditated violation of the law," Simon Burns, general master workman of the general assembly, Knights of Labor, has administered a severe rebuke to those three leaders. Mr. Burns expressed his confidence in courts in general and those of the District of Columbia in particular.

This rebuke was in Mr. Burns' annual report to the general assembly of his organization.  
"There is no trust or combination of capital in the world," said Mr. Burns, "that violates laws oftener than the trust labor organizations which resort to more dishonorable methods toward their competitors than any trust."

**NOTICE.**  
Mr. F. E. Gilbert, fiscal agent of the United Wireless Telegraph company, is in receipt of a telegram from the head office of the company, advising that an advance of \$250 per share on preferred stock effective November 20th, with the assurance that a further advance in the price of stock will be made on December 20th. Mr. Gilbert has appointed Mr. Marcus P. Kelly, Agent for the Territory of New Mexico, with headquarters in this city. All communications pertaining to the United Wireless Telegraph company from this date should be addressed to Mr. Kelly.

## Selecting the Best

Modern physicians have long recognized the fact that there is a germ of truth in most of the modern cures of cure, and only deny the fact that each tries to or pretends to cure everything with his one little method. By staying in their legitimate fields of practice these cures would find their methods much better thought of.

Light, diet, massage, and the various apparatus have proven their right to recognition by the results they have produced. ## WYOMING MURDER CASE

IN HANDS OF THE JURY

Basin, Wyo., Nov. 10.—After the defense had spent the entire day in closing arguments in which an attempt was made to impeach the testimony of the state's witness, the case of Herbert Brink, charged with the murder of Joseph Altemand, owner of the sheep camp raided last summer, went to the jury tonight at 6 o'clock.

The sheriff has appointed an additional guard for the jury. County Attorney Metz stated tonight that a jury for the trial of the second of the seven cattlemen accused of the murder of the three sheepmen, will be drawn as soon as a verdict in the Brink case is reported.

## A PROSPECTING TOUR.

It appears that Senator Aldrich, in his western trip, is merely making a prospecting tour. The fact is conceded on all hands that our present financial system is very faulty, that the country has outgrown it, and that it has to be radically reformed, or reconstructed, in some manner, but the question is, "how?" And the senator's business on the present trip is to find an answer, if possible, to that question.

Contrary to what appears to be a general impression, it is not apprehended that Senator Aldrich will advocate a central bank for the United States. Indeed, it is explicitly asserted by those who can lay claim to being in Mr. Aldrich's confidence that he will not present or outline to his hearers any definite plan of currency or banking reform. The same persons assert that Mr. Aldrich has not made up his mind, following the inquiries that have been conducted by the monetary commission, what form remedial legislation should take to cure the defects in our present wretched system. Some of the members of the monetary commission have declared their individual belief in, and their desire to see established, a central bank of issue in the United States. If trustworthy sources may be relied upon, Mr. Aldrich has not yet taken an advanced position as this, even in intimate and private conversation with his associates on the commission.

One object that Mr. Aldrich has in view in his present western trip is to endeavor to allay the bitter feeling which the action of the "insurgents" has created against him in the disfavored states of the middle west. Senator Aldrich has been persuaded by his advisers among republican leaders to adopt the old-fashioned political expedient of showing himself to the people. Figuratively speaking, it is desired to dispel a prevalent impression in the middle west that Mr. Aldrich is the incarnate money devil with cloven foot, a forked tail, and horned like a very Mephistopheles. It will be a very experience in Mr. Aldrich's political life to have to justify himself before the community. The experiment will be watched with curious attention.

Thus far, Mr. Aldrich's speeches have been couched in the most general terms. It is understood to be his intention to give a rather comprehensive account of what has been done in the way of research, investigation and inquiry by the monetary commission. He will contrast banking conditions in England and the principal continental countries with conditions here, and show, in some degree, what has been done abroad to contract or overcome strains and stresses to which our own financial communities are periodically subjected. He says he has no hard and fast plan of what should be done under the circumstances. In common with nearly all other men who have given the subject any attention he merely knows that we have reached the point where something has to be done, and he is making the present trip for the purpose of gathering the opinions of the best financiers in all parties and all sections as to what that "something" should be. It is absolutely necessary for the country to reform its financial system if we would avoid the recurrence of disastrous panics every few years. But before undertaking to say how such reform shall be effected, he wants to sound the judgment of competent men in all sections of the country.

## MAKING MEN STRONG.

Hypochondriacs, valetudinarians and health seekers generally could learn valuable lessons, says the Kansas City Journal, by considering the ways of the prize fighters. A few months ago James Jeffries, the white champion who retired from the prize ring six years ago because there was no one left to compete with him for the title, weighed nearly three hundred pounds. He was slow and plodding in his movements and carried a paunch that would have put to shame the proverbial athletes. The experts declared that it would be a physical impossibility for Jeffries to get into condition to fight again. But last spring when the gigantic negro, Jack Johnson, won the pugilistic championship, and there appeared to be no white fighter equal to the task of defeating him, Jeffries was called

upon by the sporting world with a unanimous voice to re-enter the ring and redeem the supremacy of the white race by defeating the black. Jeffries refused to give a definite answer, but since then he has been touring this country and Europe, giving boxing exhibitions and using the training by which prize fighters are accustomed to reduce their surplus flesh and put themselves into fighting condition, which means a maximum of wind and brawn with a minimum of surplus flesh. As a result, the other day when he signed articles to fight the negro some time before next July the foremost sporting writer in this country declared that Jeffries weighed only 220 pounds and was lighter and faster on his feet than ever. As he expressed it: "All the old time vitality is there. He is fairly bursting with it. He is as fast as a lightweight—kitchenish, playful, yet massive and powerful as Hercules." By no regime known to medical science could this metamorphosis in human flesh have been performed, and yet to the trainers of prize fighters, it is accepted as a matter of course in the natural order of things.

## THE HOOKWORM MILLION.

The following from the Columbia (S. C.) State, in rebuke of the silliness of Bishop Candler, is an excellent sample of good common sense. "We do not believe that the south is going to make a fool of itself in regard to this matter. The intelligent sober men of the south have long ago become wiser and disgusted with this sectional chip that some of our spokesmen insist upon carrying on their shoulders. They are tired of this business of being put in the attitude of constantly being on the qui vive for an 'insult.' They are sick of this exploitation of the 'sensitiveness' of a 'prudent' people. They have ceased to desire—if they ever did—being made the laughing stock of sober-thinking men. If the hookworm had been prevalent in New England, doubtless Mr. Rockefeller would have given this same million for the campaign against the plague; if it had been in the west, then the gift would have been made in the same way. And in either instance it would have been mentioned as a matter of course that the gift was made for a fight against the disease in New England or in the west, as the case might be. That is all there is to it.

## THE BUDGET AND THE LORDS.

The house of commons having passed the Lloyd-George budget by the solid vote of the liberal and labor members, the house of lords is now in the painful predicament of being compelled to make up its mind what course it will adopt. The peers are in a perilous position. If they follow their prejudices and throw out the budget they will certainly force the liberal government to appeal to the country. Their political future as one of the two houses of parliament will immediately be at stake. The liberal party is committed to a campaign against the house of lords if it disregards the constitutional right of the house of commons to settle uncontested the financial system of the nation.

In spite of notable changes in popular sentiment since the liberal landslide in 1906, it is far from certain that the Asquith government has lost its hold on the country. If Mr. Balfour were convinced that a general election within the next few weeks would result in a unionist victory he would not be slow in giving the signal for the house of lords to reject the budget as he did with the licensing bill last winter. Other unionists like Mr. Chamberlain have declared themselves, but Mr. Balfour still hesitates. The Bermondsey by-election in London last week was by no means conclusive. The unionists recaptured the seat in a three-cornered fight, but fell far short of polling a majority over the combined votes of the liberal and socialist candidates, both of whom were in favor of the budget.

## GERMANY WANTS PEACE.

There is an article in the current Review of Reviews—"England and Germany—Peace or War?"—which is of particular interest to Americans because it is an able presentation of the German side of the controversy. It is hardly necessary to say that the English side is ever with us, in review and in the cable dispatches of the daily newspapers. But, as every one knows, it is seldom that an analysis and a defense of the German position are presented to us.

The author of the article, Dr. Gerhardt von Schulze-Gaevernitz, professor of Freiburg university and one of the leading European economists, begins his presentation with the assertion that the war excitement is to be found in England alone. While the Germans are peacefully working out their economic task a large part of the English people are stirred as they have not been stirred since the days of Napoleon.

The reason for the menace and talk of war? Certainly not any foolish idea that the British isles are threatened by invasion, according to the writer. That is a sheer impossibility, as experts well know. It is rather to be found in the English realization of the fact that German industrial progress is overtaking England with

An inclination to be constipated is a common symptom of the American people. This is due to indigestion, and indigestion comes from indiscretion of diet. Let foods be daily eaten like

giant strides and that the day is not far distant when the economic power of Germany will equal that of England.

Then the two-power standard for her navy will have become financially impossible. With purely economic development British sea dominion must pass away—melt under the veritable sunshine of peace. Today, perhaps, but not tomorrow—New Germany, rising, can be struck to earth by a mailed fist. Thence comes for England, while she still has power in her hands, the great temptation to a "preventative war." By blockade and privation they think that Germany trade—70 to 80 per cent of its sea trade—would be all but destroyed and German warships crowded out of the markets of the world. British sea dominion was built up in war with Spain, Holland and France. Why should it not be perpetuated by war with Germany?

But if many Englishmen see an economic advantage to their country in a war, what inducement has Germany to entertain the desire of such a conflict? None at all, says the projector. German progress during the last thirty years of peace has been amazing. Germany still wants peace, for she understands that it means a continuance of her prosperity.

## BONDS BELOW PAR.

United States government bonds, under the pressure of continuous sales of smaller blocks of bonds by national banks, have declined under par, sales of Panama 2s having been made within the last couple of days at 97-7/8, while the 2s of 1930 have sold as low as 100-1-16. This is the first time since 1879 that a United States government bond with a fixed maturity changed hands for less than its face value.

Within the last few days, as we learn by financial reports from New York, some of the most powerful banking interests in Wall street which are particularly interested in government bonds have made inquiries in Washington regarding the possibility of action by the treasury to strengthen the market position of government bonds, but no such step, so far as bankers have learned, is in contemplation, and the feeling is that the market for government bonds will continue, for some time at least, under the influences which have brought about this decline.

In the past, when occasion has arisen, the treasury has resorted to deposits of government money with the national banks as a means of stimulating the market for government bonds, but at present no funds are available for such additional deposits.

## HOW FREE TRADE WORKS.

Shoe manufacturers have notified the retail trade that, notwithstanding the new tariff rate on leather, there will be no reduction in the price of their product. The reason given shows that the boot and shoe trust is not deficient in humor. It declares, with every aspect of seriousness, that vegetarianism has grown so common in the country as to seriously affect the use of beef as food and the production of cattle to supply it. Hence dear hides and a regrettable necessity of sticking to the old prices.

## SCARLET FEVER.

Scarlet fever is raging to a dangerous extent among the children of Las Vegas, and it has been deemed necessary to close the schools on account of it. The following is from the Optic of Tuesday evening:

"The action of the school authorities in both the city and town in closing the schools in order to check the spread of scarlet fever is timely and will meet with the hearty approval of every fair-minded person in the community."

community. The disease is here and prostration or evasion is not to be tolerated, nor must business interests be regarded. If the action of the authorities saves one little life, and there is no doubt but what it will save many, the move is justified."

Thus far there has been no trouble on this account in Albuquerque, but it is well for the authorities to be on the look out for it, so that it may be stamped out at once in case the disease makes its appearance here.

## GAYNOR FOR PRESIDENT.

Our enterprising contemporary, the Washington Post, has hoisted the name of Judge Gaynor as the democratic candidate for president in 1912. That's a good suggestion. If Gaynor makes a good democratic mayor he may possibly be able to make as good a run for the presidency as Judge Parker.

An unusual feature of the recent majority canvass was the frequency with which candidates and party orators spoke from the pulpit. In no campaign that can be recalled has there been so wide a use of churches as auditoriums for political oratory, as in New York during the late campaign.

Col. Tom Watson, of Georgia, in his latest eruption, warns President Taft and the Federal government, "that socialism is sweeping the country like a prairie fire." He evidently means a back-fire, since the returns show that the socialists did not poll half as many votes at the election last week, as they polled five years ago.

As near as we are able to figure it out, Editor Hubbard, of the Des Moines Swastika, intends to be an appendix candidate for the next legislature, on a vermillion ticket.

The foundations of the criminal court building, in New York, are settling dangerously, and the court has referred the matter to the committee on the sinking fund!

(Tucson Daily News.)

It is the greatest advertising boost we have ever had for this city and county, and it is going to be heard from from different sections of the country.

## TURBULENT TUCSON

(Prescott Journal-Miner.)

It is with mingled pity and commiseration that Prescott Journal-Miner, contemplating the strenuous municipal scenes that are being enacted at off-putting periods in Turbulent Tucson, the ancient and honorable pueblo for which the queen city of the north has the highest regard and the warmest friendship.

A new chapter has been enacted there, according to a special telegram to the Journal-Miner. It appears that the mayor of that city, Ben F. Heney, brother of the famed Price graft prosecutor, and the majority of the city council could not agree. They quarreled continually, it is said, like two children scrapping over a stick of candy. Official appointments are assigned to the cause of the continued difficulty, which has finally ended by the councilmen, being in the big majority and in absolute control, unceremoniously booting the Old Pueblo's executive out of office.

It is not necessary to go into the details of the case. That is a matter for Tucson herself to work out. And it is never good to meddle in other people's business nor in other cities' internal affairs.

But there is another phase to the Tucson municipal mixup. It is the matter of non-partisan tickets. When the last city election was held there it was thought wisdom to put up a non-partisan ticket. The officers were evenly divided between the republicans and the democrats and the ticket went through with a burrah, the side opponents of the non-partisan or bipartisan ticket being the socialists.

But to behold, no sooner had the non-partisans assumed the reins of government than trouble appeared on the horizon. There were offices to be filled. There were appointments to be made and also to be confirmed. Personalities entered and in a twinkling lines were more sharply drawn—not politically, but personally—so sharply that a war ensued that had any partisan scrap faded in every direction. The non-partisan form of government failed in every way. It did not in a single instance come up to what had been expected. It was a complete disappointment.

And consequently, according to Tucsonians, who visit Prescott, the Old Pueblo will henceforth favor strictly defined party lines in municipal elections. It will be the republicans straight against the democrats straight. There will be no more non-partisanism. One does has been enough.

## MORSE CASE UP TO SUPREME COURT

Attorney for Convict Ice Trust King Claims Client Is Victim of Unprecedented Injustice.

(By Morning Journal Special Lined Wire)

Washington, Nov. 10.—A petition for a writ of certiorari, to have the supreme court of the United States review the judgment of the circuit court of appeals in the case of Charles W. Morse, the ice king, convicted of misappropriation of funds of the National Bank of America, was filed today by Martin W. Littleton, counsel for Mr. Morse.

Formal petition of the motion will be made by Mr. Littleton next Monday.

Mr. Morse is under sentence of fifteen years in the federal prison at Atlanta. "The supreme court will search the records of criminal cases in vain to discover a parallel to this case," declares Mr. Littleton in his petition. He charges that the naked facts were, "ever dressed" in the indictment of Morse; that when properly understood and clearly stated they "show that the petitioner did no more than procure others to make the loans at the bank, supported by ample collateral, which loans he informed the bank were his in fact and pledged his then sufficient fortune to their payment; that these loans were from time to time paid off and the bank allowed to take the profit in the rise of the collateral, which took place from time to time."

The freedom allowed to insert in the indictment several counts, he argues, had been "perverted into a perfect debauchery of pleading."

The practice of setting up as many features of alleged criminal conduct as would insure the government against an unfortunate technical loss, had been employed, he said, "to another the issues, obscure the questions to be decided and confound the justice in a bewildering plethora of turgid phraseology."

Mr. Littleton claims that the trial court erred in submitting on the misapplication counts the intent to deceive, which was not alleged in the indictment and that the sentence was void, because Morse had been sentenced to imprisonment for fifteen years on the count, when under the statute he could only be sentenced to not exceed ten years.

## MORSE COUNSEL CHARGES JURORS WERE TAMPERED WITH

New York, Nov. 10.—In addition to the petition filed today, before the United States supreme court at Washington, Martin W. Littleton, Morse's counsel, has served notice upon the United States district attorney here that he will move for a new trial before the United States circuit court of appeals on the grounds that members of the jury which convicted Morse indulged habitually in intoxicating liquors before they were empaneled and that they drank without restraint throughout the trial.

Jurors whom he says were members of the United States secret service and attaches of the department of justice at Washington. These men, the affidavit charges, accompanied the jurors, drank with them, became familiar with them and thus unduly influenced them.

## CHARGES PEARY WITH DESECRATION OF FLAG

New Yorker Takes Exception to Words "North Pole" Across Face of Old Glory.

Elmira, N. Y., Nov. 10.—Attorney Rowell R. Moss, historian of Newton, Battle chapter, Sons of the American Revolution of this city, announces that he has instituted an action in the supreme court of New York state against Commander Robert E. Peary for the alleged desecration of the American flag.

Mr. Moss contends that the "North Pole" flag which was displayed on Roosevelt in the recent Hudson-Pulitzer celebration was a violation of the New York state statute. Across it were the words "North Pole."

## SURPRISE SPRUNG IN CHICAGO INQUIRY

Judges Decline to Hear Alleged Confession of Man Accused of Participation in Jury Corruption.

The Morning Journal Special Lensed Wire Chicago, Nov. 10.—When the judges' committee investigating the jury commissioners convened here today another surprise was sprung rivaling that of yesterday when the judges and the state's attorney clashed.

State's Attorney Wayman offered to introduce an alleged confession signed by Nicholas J. Martin, relative to alleged tampering with jury drawings in the commissioners' office. Martin is the private secretary of Alderman Michael Kenna, of the First Ward and is now under indictment with jury commissioner John H. Holland and W. J. Rayburn, for complicity in alleged drawing of grand and petit juries.

Judges Barnes, Honore and Rinker, the investigating committee decided that the investigation was a judicial and court procedure and the expectation is that it will henceforth be governed by the usual legal rules in the presentation of evidence. The judges refused to regard the alleged confession as evidence and declined to permit it to be read.

The alleged confession of Martin, according to the state's attorney tells a story of repeated meetings between Martin and Rayburn together with assertions that different jury drawings had been tampered with. The prosecutor asserts that Martin admitted he had agreed to furnish Rayburn with a list of names of men who would be amenable to outside influences, should they be called as jurors in the trial of Police Inspector McCann, recently found guilty of accepting money from improper persons for protection.

The judges gave State's Attorney Wayman permission to file the alleged confession, which has been repudiated by Martin, but would not allow him to read it as evidence. The state's attorney withdrew the document and declared his case closed. The hearing will be resumed next Wednesday.

## BIG SHIPMENT FROM THE ARIZONA RANGE

J. L. Hubbell of Apache County Sells 4600 Head to H. J. Rogers, Well Known Commission Man; Sheep Go to Colorado.

Hon. J. L. Hubbell, of Ganado, Ariz., Indian trader, stock grower and political leader in northern Arizona, came to Albuquerque yesterday, accompanying a shipment of 4600 head of sheep from the northern Arizona range, which he sold to H. J. Rogers, a well known commission man, who will ship the sheep direct to feed lots in Colorado and Kansas. Mr. Rogers has contracted for additional shipments of sheep from Mr. Hubbell's ranches. The price is not made public, but is understood to have been about the average market, which is somewhat higher this year than last.

"The political situation in Arizona," said Mr. Hubbell yesterday, "does not interest me so much just now as the live stock situation. Both, however, are satisfactory. It is not always proper to say 'I told you so,' but it is interesting to note that those of us who were most heartily berated because of our position on joint statehood when that issue was up some time ago, are now having our views fully justified by the turn of events. We had never a show to carry joint statehood in Arizona. From a republican standpoint the situation in the territory is satisfactory. Mr. Cameron won a big victory in 1908. His personal popularity and the hard campaign he made, backed by a united party, made his victory comparatively an easy one, and although I have

heard many expressions of surprise about it there is really nothing surprising about it at all. It was simply the right man making the right kind of campaign.

"We are going to get statehood now, I am sure of it. It seems that the last obstacle is out of the way and I expect the two territories to go into the union very soon."

## WELL KNOWN YOUNG MEN BECOME ASSOCIATED IN FIRE INSURANCE BUSINESS

A deal was closed yesterday afternoon whereby Messrs. W. C. Oestreich and L. M. Drown become owners of the insurance agencies heretofore represented by B. A. Sleyter. Messrs. Oestreich and Drown have engaged a suite of rooms in the Simon Stern building, where they will attend to the business of the Atlas, National and German American insurance companies purchased from Mr. Sleyter, and the Phoenix company, represented by Mr. Oestreich. The Bernillo County Abstract company, managed for the past year by Mr. Oestreich, will be incorporated under the title of The Record Abstract company and the abstract business will be conducted by both gentlemen in conjunction with the insurance business. Both Mr. Oestreich and Mr. Drown are well known in Albuquerque and need no introduction to the business men of this city. That they will prosper and be successful in their new venture is the wish of their numerous friends.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by all druggists.

## AGED MAN RUN DOWN BY A HORSE

A. J. Armstrong and M. Custers Have Narrow Escape from Serious Injury While Crossing Street.

While crossing the street at the corner of Gold avenue and Second street yesterday morning, A. J. Armstrong of 711 South Arno street and M. Custers of 602 West Silver avenue were run down by a horse driven by Z. W. Camp, a stock man of Lamar, Colo., who says he did not see the two men until it was too late to do more than try to stop his horse. Captain Armstrong received quite a severe cut on the back of the head and was taken home in a carriage. He is not thought to be seriously hurt. Mr. Custers, who is blind, was knocked down but was not seriously injured. Captain Armstrong was leading his blind friend around the streets, coming up from the postoffice. At the corner Mr. Custers asked to be taken across to Washburn's clothing store and the two were on the way when the accident occurred.

## BROTHERHOODS OF CITY ORGANIZE

Men's Religious Organizations Combine Forces in the Highlands; Officers Elected.

At the meeting held at the Baptist church Tuesday night the United Brotherhood was organized by the representatives of the men's religious organizations in the Highlands. A constitution was adopted and the following officers were elected to serve for the first year: President, D. M. Richards; vice president, Dr. S. L. Burton; secretary, John H. Wenz; treasurer, W. C. Warlick. The executive committee is composed of Isaac Barth, Rev. C. A. Clark, W. S. Lifford, D. M. Richards and T. K. D. Maddison.

The lecture by R. W. D. Bryan on his polar experiences proved very interesting and was much enjoyed by the large attendance present.

## DONA ANA COUNTY MAN SUCCEEDS GALLEGOS

W. W. Cox Appointed on Cattle Sanitary Board, Vice Union County Member Who Has Resigned.

[Special Dispatch to the Morning Journal] Santa Fe, N. M., Nov. 10.—Governor Curry today appointed W. W. Cox of Organ, Dona Ana county, a member of the Cattle Sanitary board to succeed Filiberto Gallegos of Union county, resigned. Mr. Cox, an old and well known cattlegrower and business man.

More Office Changes.

Game and Fish Warden Thomas P. Gable today moved his office from the third floor of the Capitol to the first floor, taking one of the offices formerly occupied by Territorial Superintendent of Public Instruction J. E. Clark, who has moved to the third floor.

Fire Insurance Companies Take Action. Owing to heavy losses in the new towns of eastern New Mexico, the fire insurance companies have decided to insert in future policies the three-fourths and the iron safe clause, under which not more than three-quarters of any fire loss claim will be paid and under which all books of business houses must be kept in an iron safe.

## CHORUS OF "BOYS WHO FIGHT THE FLAMES" IN "50 MILES FROM BOSTON"

We all have a cheer for the soldier. We all cheer the G. A. R. We all have a cheer for the sailor lad.

For we all love the Yankee tar; We cheer every dear little hero And bow at the sound of their names; While you're here shed a tear And let's all give a cheer For the boys who fight the flames.

An inborn love of country is stirringly set forth in this fascinating song which is sung by Joe Westcott and the entire "Fifty Miles From Boston" company in the third act of Mr. Cohan's new play which is announced for appearance at the Elks' theater November 13.

## ALEXANDER LEADS FOR MAYOR OF LOS ANGELES

Los Angeles, Cal., Nov. 10.—Steadily increasing leads given by an unusually slow count of votes indicated tonight that George Alexander, who became mayor when the Harper administration was recalled, and George A. Smith, the majority nominee chosen at the non-partisan primary, which was tried here for the first time today, Smith was endorsed at a republican convention.

The slow count is due to the fact that there were 127 candidates voted on for nominations for the twenty-one offices which are to be filled at the final election December 7. Only 26 out of 296 precinct returns were in at 9 o'clock.

There were six other candidates for the majority nomination and seventy-seven for the nine seats in the council.

## DOCTORS DIFFER ON SPREAD OF PELLEGRA

San Antonio, Texas, Nov. 10.—Physicians attending the Medical association of the southwest here today declared variously that there were two million and two thousand cases of pellagra in the United States. Dr. P. D. Boyd, of Fort Worth, Texas, held the former view and Dr. W. L. Allison, of the same city, the latter. Dr. John T. Moore, of Houston, Texas, said that newspapers had the south by exaggerating the spread of pellagra.

## DISTRICT COURT IN SESSION AT LAS VEGAS

Grand Juries Busy; All Schools Closed to Give Scarlet Fever Epidemic Chance to Subside.

[Special Dispatch to the Morning Journal] Las Vegas, N. M., Nov. 10.—Chief Justice William J. Mills convened United States court this morning and took adjournment to tomorrow morning at 10 o'clock.

The United States grand jury was in session all day. No true bills had been returned at a late hour. The United States petit jury was empaneled and will go into executive session tomorrow morning at 10 o'clock. United States Deputy Marshal James H. Smith of Albuquerque is here in charge of that department of the court.

This morning after a meeting of the health department of the town of Las Vegas, of which Dr. Desmarais is president, it was decided to force all schools to close, public or private. The Loreto academy, which was reported as unwilling to close, was misquoted and closed promptly when notified. The Brothers' academy, however, denied the authority of the health department to close them and refused to do so until the president of that institution, Brother Arthemian, was threatened with personal incarceration in the jail by the city marshal. Then he agreed to close the school. The Normal university of East Las Vegas closed the training school departments of the Normal, but Dr. E. S. Gowen, president, believes there is no danger among the older students. However Dr. Desmarais of West Las Vegas protested and declared unless all of the East side schools closed he would order all of the West side schools to reopen. It was at the above conference that a decision was reached that all schools should close and remain so until responded by the health department's permission.

At a meeting held here last night Las Vegas commandery No. 2, Knights Templar, elected the following officers: C. D. Boucher, eminent commander; R. W. Hoyt, generalissimo; George H. Kinkel, captain general; J. S. Clark, prelate; M. R. William, senior warden; O. L. Gregory, junior warden; J. S. Duncan, treasurer; Charles Tamme, recorder.

## HAVE MEN IMPROVED IN 30 YEARS?

Interesting Question Which Will be Thoroughly Discussed at Meeting of Presbyterian Brotherhood Tonight.

Tonight at the Presbyterian church the brotherhood belonging to that organization will hold its regular monthly meeting. These sessions afford an opportunity for a full and free discussion of living topics which have to do with actual life and the problems which assail men daily. They are open to all men who are cordially welcomed and invited to take part in the discussions or remain as interested auditors. Besides affording an opportunity of securing helpful suggestions to guide the actions and conduct, they furnish some stimulating pleasures in a social way, music and refreshments serving to dissipate somewhat the reserve which men often assume when brought in close contact with their fellow men. The program in detail is as follows:

Subject for discussion, "Have Men Improved Within the Past Thirty Years?"

In their modes of living—Dr. R. L. Hunt, M. D.

In their dress—Mr. A. D. Ogilvie.

In their manners—Rev. A. F. Vaughn, D. D.

In their language—Prof. J. V. Clark.

Are they more honest?—Mr. D. M. Ferguson.

Are they more considerate and helpful of others?—Mr. F. C. Wright.

Are they more in thought and action?—Mr. Frank Ackerman.

Are they more religious?—Mr. G. S. Kushlian.

## To Stop a Cough in a Hurry.

With this recipe you can make a pint of cough remedy at home in five minutes. A few doses usually conquer the most obstinate cough. Simple as it is, no better remedy can be had at any price.

Put 24 oz. of Pinex (fifty cents worth) in a clean pint bottle, and fill up with Granulated Sugar Syrup, made as follows: Take a pint of Granulated Sugar, add 1/2 pint of warm water and stir for 2 minutes. Take a teaspoonful every one, two or three hours. The taste is very pleasant—children take it willingly. Splendid, too, for colds, chest pains, whooping cough, bronchitis, etc.

Granulated Sugar makes the best syrup. Pinex, as you probably know, is the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine preparations will take its place. If your druggist hasn't the real Pinex, he can easily get it for you.

Strained honey can be used instead of the syrup and makes a very fine honey and pine tar cough syrup.

## QUARRELING WOMAN MAY BARE STORY OF BIG THEFT

Mrs. Stewart, Accused of Blackmail by Warriner, Promises to Tell All When Embezzler Is Arraigned.

[By Morning Journal Special Lensed Wire] Cincinnati, O., Nov. 10.—Mrs. Jeanette Stewart, also known as Mrs. Ford, one of the women accused by Charles L. Warriner, the defaulting local treasurer of the Big Four railroad, of having shared in his peculation by blackmailing him, declared tonight that she would tell the whole story of the \$642,000 theft when the case came to court. At the same time she denied that she had ever received money from Warriner.

The sudden breaking of the silence she has persistently maintained was caused, according to her own statement, by a quarrel, which she had with another woman, who has also been mentioned by Warriner. This quarrel resulted in the attachment of Mrs. Stewart's furniture today. The officers who made the attachment were quickly followed by reporters and in the stress of excitement, Mrs. Stewart's reserve was broken.

"I never received a cent from Charles Warriner," she said, "and I never gave any information to the railroad about his shortage. It was another woman who did it all; a woman I thought was my friend."

Then she added: "I know the whole story and I will tell it in court, too. It will make a sensation."

One of the women involved in the case started to leave Cincinnati, but was advised by the detectives that if she left her arrest would follow.

At present the question which is worrying the railroad officials is, what became of the \$642,000 that Warriner admits having stolen.

Warriner claims he lost it in stock gambling and satisfying the demands of blackmailers, but that explanation is not satisfactory to the officials.

The stock plunging of the defaulting treasurer was conducted through New York and Chicago brokers, according to his confession, but so far investigation has failed to trace the enormous losses he claims to have sustained in the last few years.

Whether Warriner is penniless, his neighbors at his home in Wyoming, Ohio, declare he is at least a physical wreck.

It is admitted by the railroad officials that Warriner would have continued his depredations indefinitely had not the woman betrayed him, so great was the officials' confidence in him.

Mrs. Warriner was aware of her husband's defalcations since the time that the first attempt was made to levy blackmail upon him, according to Judge S. O. Bayless, Warriner's attorney. Judge Bayless declared War-

## Equal to the Occasion.

A young couple entered a railway carriage and were immediately put down as a bridal pair. But they were remarkably self-possessed, and behaved with such sangfroid that the other passengers began to doubt.

As the train moved out the young man rose to take off his overcoat, and a shower of rice fell out. The passengers smiled broadly.

But even that did not affect the youth, who also smiled, and, turning to his partner, remarked audibly:

"By jove, May! I've stolen the bridegroom's overcoat." — Boston Herald.

## Wall Street.

New York, Nov. 10.—The securities market remained under the strain of international money positions as was shown by the apathy of the dealings and the sluggishness of the price movement. The checking of the early declining tendency of prices and the later recovery were due to a hope that the Bank of England authorities would leave the present official discount rate unchanged at their session tomorrow.

Paris transmitted a small sum of gold to London yesterday, \$1,250,000, but the result was a reaction in the sterling exchange rate at Paris today of one centime.

The call loan rate in New York rose at an early hour to yesterday's 5 1/2 per cent rate and the sterling exchange rate ran off in response, although it steadied again later in the day.

Government payments on Panama canal account relaxed the sub-treasury drain on the New York money market and included a small amount of cash to the New York banks. The absorption on that account for the banking week has reached but \$1,638,000 compared with \$1,280,000 in the corresponding period last week.

Today's gold shipment to Brazil, which reached about \$1,500,000 is added to the sub-treasury account in computing the cash output. These figures kept attention fixed on the fact that surplus reserves on last Saturday were under \$5,000,000.

The call loan rate of the latter part of the day exceeded the maximum of yesterday.

The effects of the reassembling of congress and the discussion of legislation bearing on corporation affairs loom larger in the stock market view. The demand on some eastern railroad employees for an advance in wages did not escape attention as offering possibilities for widespread effect on corporation earnings.

The revelations of the extent of the loss incurred by the Cleveland, Cincinnati, Chicago and St. Louis, through defaulting of a mine office, and the company made an exceedingly bad impression, which affected the New York Central shares to some extent.

The publication of the report of the Copper Producers' association for October had a weak effect by reason of the addition shown to the already heavy surplus stocks, although that addition was much smaller than last month. Closing quotations:

### WIRELESS GILBERT GOES TO MONTANA

Well Known Salesman of United Telegraph Company Stock to Work New Territory; Kelly Succeeds Him.

Mr. W. E. Gilbert, general agent in New Mexico and Arizona for the United Wireless Telegraph company, who has been in Albuquerque for the past three months, disposing of large blocks of United stock, has been appointed general fiscal agent for the state of Montana and expects to leave within two weeks for his new field.

Mr. Gilbert expects to return to Albuquerque in December, however, and remain possibly several weeks, closing up with a number of prospective purchasers of wireless stock. Mr. Gilbert has appointed Marcus P. Kelly, the well known secretary of the Commercial club as fiscal agent for New Mexico. Mr. Kelly will take charge of the territorial business for the United company as soon as he becomes familiar with the details of the business.

Mr. Gilbert, who has earned the sobriquet of "Wireless" Gilbert, has made numerous friends in a business and social way during his residence in this city and the best wishes of many Albuquerqueans will follow him to his new field.

### DISTINCTION AND CLASS ABOUT "GIRL QUESTION" AT ELKS' THEATER SOON

George Marion, the famous stage director, who produced "The College Widow," "The Prince of Pilsen," "The Merry Widow" and "The County Chairman," has directed the rehearsal of "The Girl Question," the musical comedy by Frank R. Adams and Will M. Hough, with music by Joseph E. Howard, which will be seen at Elks theater on November 15, under the direction of H. H. Frazee.

There is a distinction, a class and an atmosphere of elegance about Mr. Marion's work which stamps it indelibly as that of a master, and any theater-goer who has once witnessed a production of his is always on the lookout for an opportunity to see another.

"Jack" Dugger, formerly of North Carolina, more recently of Kansas, and still more recently of Albuquerque, who works the Morning Journal Associated Press wire, was the chief victim at the initiation held by Albuquerque Lodge, No. 641, B. P. O. E., in the Elks' lodge room last night. To judge from Mr. Dugger's appearance after the festivities the goat used in the solemn ceremony was vigorous and enjoying good health.

The New Mexico Missouri club entertained its members and their friends in Odd Fellows' hall last night, the affair being one of the most pleasant and enjoyable ever given by the society. The feature of the evening was the excellent musical program rendered by some of Albuquerque's most talented musicians. At the conclusion of the program the guests played several games of pitch, prizes being awarded to those winning the greatest and least number of games. The first ladies' prize was won by Mrs. Dr. Conner and Miss Phillips. The consolation, L. L. Pappell was awarded the first gentlemen's prize and L. M. Stone the consolation. At 11 o'clock a luncheon was served, after which those who cared to do so, indulged in dancing. Altogether the entertainment was very enjoyable and to say that each and every one present spent a pleasant evening is putting it mildly.

The musical program rendered during the early part of the evening was as follows:  
Piano solo, selected, Miss Lillian Hensel.  
Vocal solo, Miss Viola Blucher; accompanist, Miss Sara Hall.  
Violin solo, Prof. J. D. DiMauro.  
Solo, Mr. Harry Becker.  
Selection, Lithgow orchestra.  
Piano duet, Mrs. John W. Wilson and Mrs. Luther Stewart.

FORMER RESIDENTS OF OLD MISSOURI CELEBRATE Large Number of Missourians Enjoy Splendid Program Participated in by Talented Artists.

The New Mexico Missouri club entertained its members and their friends in Odd Fellows' hall last night, the affair being one of the most pleasant and enjoyable ever given by the society. The feature of the evening was the excellent musical program rendered by some of Albuquerque's most talented musicians. At the conclusion of the program the guests played several games of pitch, prizes being awarded to those winning the greatest and least number of games. The first ladies' prize was won by Mrs. Dr. Conner and Miss Phillips. The consolation, L. L. Pappell was awarded the first gentlemen's prize and L. M. Stone the consolation. At 11 o'clock a luncheon was served, after which those who cared to do so, indulged in dancing. Altogether the entertainment was very enjoyable and to say that each and every one present spent a pleasant evening is putting it mildly.

The musical program rendered during the early part of the evening was as follows:  
Piano solo, selected, Miss Lillian Hensel.  
Vocal solo, Miss Viola Blucher; accompanist, Miss Sara Hall.  
Violin solo, Prof. J. D. DiMauro.  
Solo, Mr. Harry Becker.  
Selection, Lithgow orchestra.  
Piano duet, Mrs. John W. Wilson and Mrs. Luther Stewart.

The other candidates initiated last night were David J. Armijo, J. P. Perillard, E. J. Hippie, all of whom were considerably impressed by their strenuous experience.

The usual lunch and social hour followed the initiation.

The committee, which is arranging the Elks' memorial service to be held the first Sunday in December, made a report at last night's meeting. Everything is progressing satisfactorily and the indications are that the service will be very impressive.

### TONG WAR CLAIMS ANOTHER LIFE

Cousin of Chinese Consul in San Francisco Shot Down by Member of Rival Clan in Dispute Over Girl.

(By Morning Journal Special Leased Wire) San Francisco, Nov. 10.—The Tong war growing out of the elopement several days ago of Be Gue, wife of an On Yick tong man, with a member of the Yee family, claimed its third victim tonight when O. W. Yang Gun, of the On Yick tong, and a cousin of the acting Chinese consul, was shot and killed as he was leaving the headquarters of his tong. Yee Yum, said by the police to be one of the gun men of the Yees, was arrested.

Pine men, said to be of the Yee family, lay in wait for On Yick Gun. When he was within ten feet, although a policeman was standing in the narrow street but a few yards away, one of the men fired point blank at the On Yick tong man, killing him instantly.

The murder of a Chinese at Mountview tonight also is believed to be connected with the present tong war. Two members of the Yee family were killed recently by the On Yicks, and it is asserted by the police that at a meeting of the Yees early this week it was voted to take triple toll for their dead. The police fear that the war will spread throughout the coast cities. All efforts of the Chinese Six Companies and of the Chinese consul to patch up peace have been of no avail.

A large force of police has been rushed to Chinatown.

### WATERWORKS FOR SANTA ROSA

Fifty Thousand Gallon Tank Ready for Test of Mains; Oil Well Has Reached 300 Foot Depth.

(Special Correspondence to Morning Journal) Santa Rosa, N. M., Nov. 10.—The 50,000 gallon tank of the Santa Rosa water works is full and test will be made tomorrow of the city mains. This tank is situated on an embankment in the center of town and is 112 feet above the business section.

Well No. 2 of the Pearce Oil company is now two thousand, three hundred feet deep. Work will be continued by the present contractors until 3,000 feet are completed.

A recent survey of the Agua Negra Grant, adjoining Santa Rosa on the south, shows that 5,000 acres of this land can be irrigated from the deep lake on the land.

A. M'KAY WHITCOMB IS LAID TO REST

Impressive Services at Funeral of Well Known Pioneer; Many Friends Pay Last Tribute.

The funeral of the late Alexander McKay Whitcomb, who died last Sunday morning, occurred from the family residence, 861 West Tijeras, at 10 o'clock yesterday morning. The services at the residence were conducted by Rev. Mr. Warren, rector of St. John's Episcopal church, and Rev. Mr. Otto, of the Lead Avenue Methodist church. Both clergymen paid brief, but touching tributes to the memory of deceased. Beautiful music appropriate to the solemn occasion was furnished by a quartet composed of Messrs. Bullard, Betts, Smart and Maynard.

The funeral services in Fairview cemetery, where the body was laid to rest, were in charge of the New Mexico Grand Lodge, A. F. & A. M., of which Mr. Whitcomb was grand tiler at the time of his death. Grand Master Frank Johnson, of San Ramon, presided at the impressive Masonic ceremonies at the grave, being assisted by Dr. E. McQueen Gray, grand chaplain, and L. H. Chamberlain, acting grand marshal. Besides the attendance at the funeral of the New Mexico grand lodge, escorts from the grand commandry of New Mexico Knights Templar and other Masonic bodies were present. The following members of Temple Lodge No. 6, A. F. & A. M., officiated as grave pall-bearers: W. W. Strong, H. S. Lithgow, C. A. Hanley, W. E. Grimmer, J. E. Murray and Frank Fourth. The honorary pall-bearers, all members of the grand lodge, were F. H. Kent, E. S. Stover, Arthur Everett, Frank McKee, A. E. Walker and A. J. Maloy.

The funeral was also attended by the Order of the Eastern Star, the

Syracuse, N. Y., Nov. 10.—An attempt to rob New York Central train No. 204, the American Express, between Lyons and this city tonight was frustrated and two men were arrested at the point of guns. A third believed to have fallen under the train and been killed.

The two men arrested are now locked up charged with attempted express robbery. They said they were George William, aged 18, and Frank Brown, aged 16, and that they live in Buffalo.

A car on the train was looted of several hundred dollars worth of silks four weeks ago and two weeks ago detectives were ordered to ride the train between Buffalo and this city.

When the train stopped at Lyon at 9 o'clock this evening, the detectives and Express Messenger Beard noticed three men with a large electric flash lamp walking along the tracks examining the cars. When they reached the car in which the officials were concealed they mounted the steps and waited for the train to pull out. The locomotive was soon speeding at a mile a minute and the men, with the skeleton key, turned the lock. A large chain still held the door and this was soon pulled from the woodwork with a claw hammer.

Two men entered and were covered by the officers' guns. A search was made for the third man, but no trace of him could be found.
